To allow foreign made goods to carry labels "made in U.S.A." only increases the thousands of jobs already lost to "free trade". Jobs gone south of the border, or overseas, if you people of the F.T.C. are paid by taxed U.S. labor. To insure your future F.T.C. paychecks you'd better do your utmost to see that Americans have jobs, with such asinine ideas maybe it's best you people seek employment in a foreign country. It's an asinine idea far beyond reason, or common sense!

What we happened to buy American?
Just beyond belief!
