SECRETARY

Please maintain the current
"Made in the USA" labeling
standard. Things made in
China are taking over this
country. I'm sure you are aware
of China's Human Rights policy.
I can even find birthday
candles made in the USA.
American workers have alot
of pride and are good
craftsmen and craftswomen.
Please don't give in to
those who want to change
the Made in USA standards.

Sincerely,
Doreen & Kathy Paul 229 Rung
