Dear F.T.C.;

Regarding the proposed new guidelines for the use of the "Made in U.S.A." label, I am strongly opposed to such an idea. This would be deceiving the American people, and that is not right. It also hurts the American workforce by making it even more enticing for companies to ^{move} their factories overseas to use slave labor in some other countries, e.g., China, and then import it back over here with hardly any tariff at all, if any at all, taking more and more jobs out of the U.S.A. It is time for the huge multi-national corporations to stop running our country, we all need to have the courage to stand up and say no to their big money, we need a truly representative government, do not allow this to go any further.
