Dear Sirs;

label

I wish to express that the term;  
"Made In The USA", should mean  
exactly that. When I shop I look  
for that label and am as true to  
the American Worker as possible.

Don't sell out the American worker  
and jobs for Americans, by confusing  
and misleading labeling.

Our factories, jobs, and futures for  
workers seem to be leaving for overseas,  
I want to support what we have left  
here. Don't change our labeling  
system.

Sincerely
