 Washington, D.C. 20580

This is in regard to your proposal that current standards relating to the "Made in USA" label be relaxed to allow foreign goods to be labeled as U.S.-made. If implemented, this will surely destroy whatever is left of pure American manufacturing. This is just one more in a long list of anti-American insults delivered from an alien regime in Washington.

May I remind you that although you don't stand up for America, you are still "paid in the U.S.A."
