Dear Elaine Kolish,

I am a WWII Veteran and a firm believer of "made in USA" products. I would rather go without rather than buy foreign made goods. I hope you do not let them lower the percentage of USA material used in MADE IN USA products.

I am retired so it does not affect my having a job but I would like to think I help keep USA workers employed.

Please do not lower the standard of USA goods.

Thank you.

Sincerely,
Walter Prescib
