Secretary Donald Clark
Federal Trade Commission

Dear Sir:

My husband and I are very perturbed by labels stating "MADE IN U.S.A." when it is an outright lie. When we read further it comes from Bangkok, Shanghai, Mexico etc. Don't care if it's assembled there.

All these products should be made here. We have a lot of idle workers, who are looking for jobs and can't find any. The back and forth shipping of these products costs money and still we are paying high prices.

We prefer to leave "MADE IN U.S.A." in the U.S.A. like California, Georgia, Michigan, N.Y. etc. Please return to honest labeling.

Sincerely,
Benedict Hill
