Secretary
Donald Clark

FTC

Washington DC 10580

Dear Secretary Clark,

I am contacting you about "Made in the USA" labels for all goods I purchase in United States.

I'm seeing "assembled in USA" or now possibly in the future will see "Made in the USA" if these products are "substantially" or partially made in USA.

The corporate world is getting away with paying underpaid wages to foreigners and then will try to lie to the American where the product is made by FTC approving "Made in the USA" labels.

Please think about the dignity of the American worker and use "Made in the USA" labels only if product is totally put together here with American-made parts.

Very truly yours

Mrs. Bernadette Yamakita
