

July 20, 1997

Dear Secretary Clark

I find it hard to believe that the FTC would even consider allowing a Made in U.S.A label on anything not totally made and/or assembled from American made parts. Made in America means that!

Fifty states not territories or trusts!

In the thirties, Japan named a city Usa to get around U.S.A. but it was stopped.

Anything sold here must be labeled with all countries that supplied labor or parts.

Thank you,  
 Henry B. Agard
