

July 15, 1997

Dear Mr Clark

I'm outraged to think that any item not made completely in the USA would carry a label that says it was. If you think items made in different countries by underpaid workers are as good as those made in the USA then put "Made in Indonesia" proudly on that item. Don't fake us out. We want our craftsmanship, our knowledge, our sweat to carry a made in our USA label.

Proud to be 100% American
(not partially or substantially)
