Secretary Donald White
Greetings!

Lets compete. Lets do it right.
And Lets be fair.

The union label either has to be
outlawed or supported. I support
it.

I support union wages and I also
support big business. They are
both a complete necessary function
of our great country.

What I'm saying here is if our unions
and our big business are strong and
competitive, we don't have to under-
mine ourselves by using the union
label in any other way except
what it was originally meant for.
I say if it's made, that is, if the
whole thing is made here, label it.
If it's not, dont label it!
