

July 17, 1997

Dear Sir

As a proud American + proud union worker I'm appalled by what your Federal Trade Commission is giving up on the Made In USA label. To think that Corporate Greed, in undermining the American worker is even being thought about by your Agency is beyond words.

I am a proud Union Sheet Metal Worker + hope to see Made In The USA next to my Union Made seal and know it really was made In the USA.
