Dear Office of the Secretary,
To whom this may concern.

As a retired ILGWU member
I am deeply disturbed that garments
are not made in this country
and also when the label reads
made in this country and it is
not completely. This is very
discewing to Americans, we
are not being fair to ourselves.
We want American made
clothes and more of them and
it should not have an
incomplete label as we cannot
know for sure if it is made USA.

It is a darn shame that
we cannot control this
situation

Let us be proud of American
work and bring our
factories back to America
where they belong for
decent jobs for our citizens

We plead to you to help
this Country

The labels should be
clear, accurate -

Sincerely

Mr. Joseph Lawrie
