Dear FTC members,

I am writing you today as I want to express myself on the Made In America (U.S. A.) issue. I look at the labels, and tags when I shop as this is important to me. From small kitchen gadgets to clothes to cars! Made in U.S.A. labels should be used for 100% made in the U.S.A. This is the clearest policy, and it works! I feel we should leave it alone as it works well as is! Thank you.

Sincerely,

Kathryn S. Stetler
