

Made in USA
 The rule stating all or virtually all of product be made domestically before being labeled "Made-in-the-USA," should not be changed!

It's important for us to know which products are made here, because we want to buy these products.

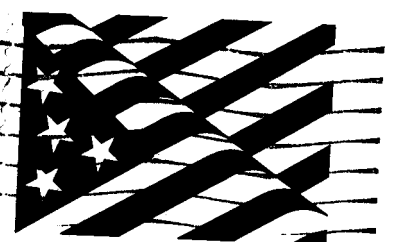

If FTC wants to accommodate international changes in mfg. & trade, then label 75% made in USA or 60% or whatever the case may be!! Please don't change Feddicada
