

Lifestyle Vending

It's your *turn* for success.

"Now, my wife and I are business partners. She is the bookkeeper and orders all of the products, and I service the machines. We have tons of spare time to pursue other interests. For me, it's the restoration of our Victorian home. For my wife, it's decorating and finding periodic antiques."

Call Lifestyle Vending for assistance with ordering machines, choosing candy and recommending resources to help you select the best locations for your new vending machines
