Tired of people seeing what's on your PC?

Get My Panic Button now!

Hide programs instantly with one click!

It's very simple. My Panic Button is an application that enables you to do the following:

- > Hide sensitive programs from curious eyes through a mouse click or keystroke;
- > Easily Re-open those programs through the same mouse click or keystroke, allowing you to pick up where you left off;
- > Leave decoy programs open on your desktop;
- > Even close programs or mute your PC sound!
