The mapped oil and gas field boundary outlines were created by the Reserves and Production Division, Office of Oil and Gas, Energy Information Administration pursuant to studies required by Section 604 of the Energy Policy and Conservation Act Amendments of 2000 (PL 106-361). The boundaries are not intended to provide structural information. The data and methods used in their creation are detailed in a report, "Scientific Inventory of Domestic Federal Lands: Oil and Gas Resources and Reserves and the Extent and Nature of Reserves to Their Development," prepared by the US Departments of Interior, Agriculture and Energy.

Map created September 2006; projection is UTM-16, NAD-27.
