Finnish Consumer Ombudsman supports OECD Consumer Fraud Guidelines

All over the world, fraudulent activities transcending national frontiers are harming consumers and companies which play fairly by the rules. The OECD is a good organisation to draft a framework for protecting consumers when worldwide activities are involved.

From Finland's perspective, we are satisfied with the outcome and shall promote application of the guidelines by the International Consumer Protection and Enforcement Network when we assume the Presidency of the Network in October.

Ms Anja Peltonen
Deputy Director General and Deputy Consumer Ombudsman , Finland
