

## Lot Acceptance and Quality Assurance Program

### Address and Shipping Information

#### SAMPLE

- Send the sample as soon as possible after taking it. No more than one week for most useful information.
- Please ship each sample in a clean, plastic canteen.
- Seal the lid with tape to prevent opening during shipping.
- Fill in the label with a water resistant pen (most ball point pens or a fine Sharpie work well).
  - Labels may be obtained from Bob Pfouts (contact info below)
  - Be sure to include a contact name and email or phone number.
  - If you have multiple tanks, please specify the tank the sample came from.
- Attach the completed label to the bottle.
