*Program direction and policy coordination.*—The Attorney General of the United States is responsible for leading the Department of Justice in accomplishing its missions. The Attorney General is assisted by the Deputy Attorney General, the Associate Attorney General, Department policy-level officials, and the Justice Management Division. The General Administration appropriation provides the resources for the programs and operations of the Attorney General, the Deputy Attorney General, the Associate Attorney General, and their Offices, several Senior Policy Offices, and the Justice Management Division.

*National Drug Intelligence Center.*—The National Drug Intelligence Center (NDIC) was established to coordinate strategic organizational drug intelligence from national security and law enforcement agencies. The 2007 Budget proposes to close the Center and instead concentrate resources on intelligence providers with a better defined and more useful role in the drug intelligence community.

Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology. This centralized fund, under the control of the DOJ Chief Information Officer, will ensure that investments in information sharing technology are well-planned and aligned with the Department's overall information technology (IT) strategy and enterprise architecture, and that all DOJ components are able to operate in a technologically unified environment, particularly with respect to preventing terrorist

attacks on the United States. The current major initiatives/projects are described below.

*Joint Automated Booking System.*—The Joint Automated Booking System (JABS) is a Department of Justice information sharing project that provides data to the FBI's Integrated Automated Fingerprint Identification System (IAFIS) through an automated process for the collection and transmission of fingerprint, photographic, and biographical data. The mission of JABS is to: (1) improve the booking process through automation; (2) enable agencies to share and exchange arrest information; and (3) establish a federal offender tracking system.

*Justice Consolidated Office Network (JCON) Office Automation.*—The goal of the JCON initiative is to provide a reliable and robust common office automation platform for Departmental components. The cornerstone of the project is the JCON Standard Architecture, which defines the IT computing framework, including networked workstations, servers, and printers, a common set of core applications (e.g., email, word processing, etc.), and a basic set of system administration tools.

*Litigation Case Management System.*—This project will develop a common framework for the processes and systems that support case management. Initial efforts will focus on a case management solution for the legal activities of the Department, which will serve as the model for the development of a common solution within the Department, with potential application to other agencies. The implementation of a common solution for case management systems will provide for: (1) resource conservation through more efficient system operations; (2) faster, more informed case-related decision making; (3) more effective and efficient law enforcement and litigation; and (4) better informed resource allocation.

*JCON S/TS Program.*—The JCON Secret/Top Secret (S/TS) Program will provide a seamless, Department-wide IT infrastructure for electronically sharing, processing, and storing classified information. JCON S/TS will create a reliable, secure office automation system which allows attorneys, intelligence analysts, law enforcement staff, and managers to exchange classified electronic data within and between components on a real time basis.

*Law Enforcement Information Sharing Program.*—The Law Enforcement Information Sharing Program (LEISP) is a Department-wide strategy to facilitate the sharing of information about terrorism, criminal activity, and threats to public safety. LEISP will implement the information technology tools needed to facilitate timely, appropriate, and secure sharing of information across the law enforcement community.

Resources are requested to support conversion of the Department of Justice's wireless radio communications to narrowband operations and to make other improvements. Federal Government agencies are required by 47 U.S.C. 903(d)(1) to convert to narrowband operations, a more efficient use of radio spectrum. The 2007 Budget also continues the implementation of the Integrated Wireless Network (IWN), a joint initiative with the Departments of Treasury and Homeland Security. The IWN will address communications shortcomings in key strategic locations, such as along the northern and southern land borders, and in cities that are potential targets for terrorism. Requested resources will be allocated to support Justice components' existing legacy land mobile radio systems; support IWN operations and maintenance requirements; invest in new narrowband infrastructure and subscriber equipment; promote communications interoperability by federal law enforcement and homeland security personnel; and support management and operating requirements of the Joint Wireless Program Management Office.

The Communications Assistance for Law Enforcement Act (CALEA) of 1994 authorized the Attorney General to reimburse telecommunications carriers for costs associated with modifying digital equipment installed before January 1, 1995, in order that court-authorized wiretaps may be performed.

The Omnibus Consolidated Appropriations Act of 1997 (P.L. 104-208) extended eligibility for reimbursement to telecommunications equipment manufacturers and providers of support services. In addition to direct appropriations to the Fund, Congress authorized Federal agencies with law enforcement and intelligence responsibilities to transfer to the Fund unobligated balances that are available until expended, upon compliance with Congressional notification requirements.

With the appropriations provided in 2001, total funding for the program has reached \$500 million, the authorization level provided in the Act.

This program includes the Office of the Pardon Attorney (OPA) and the Executive Office for Immigration Review (EOIR). The Pardon Attorney receives and reviews all petitions for clemency, i.e., commutation of sentences and pardons. The Executive Office for Immigration Review contains 52 Immigration Courts and the Board of Immigration Appeals. EOIR was established January 1, 1983, to improve the immigration hearing and appeal process.

The Detention Trustee reports to the Deputy Attorney General and provides oversight of detention management with improvement and coordination of detention activities, including the effective and efficient expenditure of appropriated funds to ensure Federal agencies involved in detention provide for the safe, secure and humane confinement of persons in the custody of the United States. The Detention Trustee's oversight role covers the care of Federal detainees in private, State, and local facilities, and includes housing, subsistence, transportation, medical care, and medical guard service. The Trustee also manages the Justice Prisoner and Alien Transportation System, ensuring equality among participating agencies while allowing unimpeded prisoner transportation operations.

For 2007, the Detention Trustee will continue to work with State and local governments and private service providers to maintain adequate detention capacity to house detained individuals charged with Federal offenses awaiting trial or sentencing. Based on anticipated growth rates in the Federal detention population during 2006/2007, approximately 81 percent of the U.S. Marshals Service's (USMS) federally detained population will be housed in State, local and private facilities. The good working relationships with State, local and private prison providers are paramount to carrying out the detention function and saving on costly capital development of Federal facilities.

The Federal Government relies on various methods to house detainees. Detention bed space for Federal detainees is acquired at the lowest cost to the Government through: (1) Federal detention facilities, where the Government pays for construction and operation of the facility; (2) Intergovernmental Agreements (IGA) with State and local jurisdictions who have excess prison/jail bed capacity and where a daily rate is paid for the use of the bed, and; (3) private jail facilities where a daily rate is paid.

As part of the efforts to reduce detention costs, the Detention Trustee has implemented pilot programs to automate the sentencing-to-commitment process and accelerate movement to Bureau of Prisons (BOP) facilities. The automated pilot program, e-Designate, has been implemented in Arizona, Southern California, New Mexico, Southern Texas and Mary-

land and accelerates the process required to designate a prisoner to a BOP facility. National roll-out will begin in the last half of 2006 and continue through 2007. As the pilot projects progress, best practices and lessons learned will be applied to additional districts. The Trustee's office also facilitated the establishment of in-transit holdover facilities that will reduce the time from sentencing to incarceration by accelerating the movement of prisoners to a designated BOP facility. In addition, the OFDT is managing the Justice Prisoner and Alien Transportation System (JPATS) to merge ground transportation with air transportation into a more efficient system.

The Office of the Federal Detention Trustee (OFDT) is modifying the National Repository for Detention Space Availability into a full-service housing tool to monitor detention space usage and to allow for oversight of non-Federal facility contracts and services. The National Repository is a web-based, Internet accessible tool (<https://www.ofdt.net>) that will provide timely, accurate and comprehensive detention information on a secure, centralized site. Agencies will use the site to identify cost and operationally-effective facilities that could be used to house offenders, with the underlying goal of placing them in facilities from which they could easily be transferred to BOP custody. As a consolidated detention services site, the National Repository also will serve as a tool for OFDT to provide a vehicle for automated processing of IGAs, provide a Detention Services Schedule, post detention facility review information, and house other detention services and procurement data for agencies to assess bed space.

The OFDT also provides oversight of detention management to ensure non-Federal agencies (both IGA and State) involved in detention provide for the safe, secure, and humane confinement of persons in the custody of the United States. OFDT will accomplish this by developing and maintaining a set of Performance-Based Detention Standards that ensure the adequacy and sufficiency of services provided in these non-federal detention facilities. Additionally, an annual schedule for conducting Quality Assurance Reviews using these Performance-Based Detention Standards is being developed. OFDT will also develop and provide detention facility contract monitoring training to assigned Contracting Officer Technical Representatives and Inspectors to augment and enhance training already received and to ensure consistency of monitoring all non-Federal detention bed space.

In 2006, OFDT will work cooperatively with the USMS to put in place a National Medical Contract that will provide a systematic process for obtaining medical services for prisoners. It will also ensure that prisoner medical costs remain within national Medicare rates.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. Also by statute, the OIG reports to the Attorney General, Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, func-

tions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decision makers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and Congress and of vital importance to the Department.

The Executive Direction and Control function provides program direction for the OIG. Responsibilities include policy development, legal counsel, Congressional affairs, planning, budget, finance, personnel, procurement, automated data processing, and general support services.

The United States Parole Commission makes decisions to grant or deny parole to Federal and D.C. prisoners serving sentences of one year or more, sets conditions of parole, supervises parolees and mandatory releasees, re-commits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In addition, the Commission seeks to improve the rehabilitation process by monitoring an effective parole supervision program through U.S. and District of Columbia probation officers and through research studies that evaluate the effectiveness of parole programs. The U.S. Parole Commission has responsibility for parole and parole revocation hearings and supervision of District of Columbia parolees and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105-33).

further, That any transfer pursuant to the previous proviso shall be treated as a reprogramming under section 605 of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

In addition, for reimbursement of expenses of the Department of Justice associated with processing cases under the National Childhood Vaccine Injury Act of 1986, not to exceed \$6,333,000, to be appropriated from the Vaccine Injury Compensation Trust Fund. The Foreign Claims Settlement Commission adjudicates the claims of American nationals (individuals and corporations) arising out of the nationalization, expropriation or other taking of their property by foreign governments, pursuant to the International Claims Settlement Act of 1949 and other statutes. In 2007, the Commission will continue adjudicating American claims against Albania. In addition, the Commission will provide technical assistance to the Departments of State and the Treasury and to the public in connection with the 45 international and war claims programs previously completed, including, in particular, the Cuban Claims Program. It also will provide policy recommendations, evaluation of pending claims legislation, and liaison with congressional committees considering such legislation.

The Federal Government is represented in each of the 94 judicial districts and the District of Columbia Superior Court by a U.S. Marshal. The primary missions of the U.S. Marshals Service (USMS) are protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

The USMS is proposing to restructure its 2007 budget in accordance with the President's Management Reform Agenda and the Government Performance Results Act. The new structure merges the Construction and Salaries and Expenses budgets into one streamlined budget and condenses nine decision units to five (Judicial and Courthouse Security, Fugitive Apprehension, Prisoner Security and Transportation, Protection of Witnesses, and Operations Support).

For 2007, \$13.6 million in program increases are requested for judicial security, information technology, and audited financial statements.

**Reimbursable program.**—Federal funds in 2007 are derived from the Administrative Office of the U.S. Courts for the court security program, the Office of the Federal Detention Trustee for the housing of USMS prisoners in non-Federal facilities, the Assets Forfeiture Fund for seized assets management, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, the U.S. Air Force Intercontinental Ballistic Missile Program for transportation security services provided by the U.S. Marshals Service, and the Office of National Drug Control Policy and the Centers for Disease Control for security services. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

Care of U.S. prisoners in non-Federal institutions.—Under this program, the Department contracts with State and local jails to board Federal prisoners and detainees for short periods of time. These periods of confinement occur before and during a trial and while awaiting transfer to Federal institutions after conviction. This program is managed by the Office of the Federal Detention Trustee and funded by the Detention Trustee appropriation.

This appropriation is used to pay fees and expenses to witnesses who appear on behalf of the Government in litigation in which the United States is a party. Factors over which the Department of Justice has little, or no, control affect the costs incurred. The United States Attorneys, the United States Marshals, and the Department's six litigating divisions are served by this appropriation.

Fees and expenses of witnesses.—Pays the fees and expenses associated with the preparation and presentation of testimony on behalf of the United States for fact witnesses, who testify as to events or facts about which they have personal knowledge, and for expert witnesses, who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

Protection of witnesses.—Pays subsistence and other costs to ensure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

Victim compensation fund.—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

Private counsel.—Pays private counsel retained to represent Government employees who are sued, charged, or subpoenaed for actions taken while performing their official duties (pri-

vate counsel expenditures may be authorized for congressional testimony as well as for litigation in instances where government counsel is precluded from representing the employee or private counsel is otherwise appropriate);

*D.C. Court Informant Protection.*—Pays for the short term protection and temporary relocation of informants for the District of Columbia Superior Court.

*Alternative Dispute Resolution.*—Pays the costs of providing Alternative Dispute Resolution (ADR) services in instances wherein the Department has taken the initiative to use such services and in those matters wherein the courts have directed the parties to attempt a settlement using mediation or some other ADR process.

*Reimbursable program.*—Receives reimbursement from States and localities to cover the costs of maintaining those State and local organized crime witnesses and their families who have been accepted into the witness protection program.

*United States trustee system fund.*—The United States trustees supervise the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee program to a twenty-one region, nationwide program encompassing 88 judicial districts. This program collects user fees assessed against debtors, which offset the annual appropriation.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund, into which forfeited cash and the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the asset forfeiture program are paid from the permanent, indefinite portion of the fund. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner and Alien Transportation System (JPATS) is responsible for transporting by air all Federal prisoners and detainees, including sentenced and pretrial, whether in the custody of the U.S. Marshals Service or the Bureau of Prisons. JPATS also provides prisoner transportation to the Department of Defense, Department of Homeland Security, and State and local law enforcement, on a full cost recovery reimbursable and space available basis. JPATS transports prisoners and detainees on a full cost recovery reimbursable basis with participating Executive Departments and agencies without sacrificing the safety of the public, Federal employees, or those in custody. Proceeds from the disposal of aircraft will be deposited into the Fund. The Office of the Federal Detention Trustee (OFDT) is responsible for developing, managing and implementing a long range strategic plan for JPATS.

The National Security Division (NSD) is a new component of the Department of Justice. Created in 2006, NSD is responsible for helping the Attorney General and other Department and Executive Branch senior officials ensure that the nation's national security-related activities are consistent with relevant law. In addition, NSD will oversee terrorism-related investigations and prosecutions and handle counterespionage cases and matters. For 2007, the resources of the Office of Intelligence Policy and Review along with the Criminal Division's Counterterrorism and Counterespionage Sections will comprise NSD.

Prior to 2006, this appropriation provided reimbursements to agencies within the Department of Justice (DOJ), Department of Treasury, and Department of Homeland Security that participate in the Organized Crime Drug Enforcement Task Force (OCDETF) Program. In response to Congressional direction that funding for the Departments of Homeland Security and Treasury should not be included in the Department of Justice budget request, funding for the participation of these departments has been included within their respective departments. The OCDETF Program consists of a nationwide structure of nine regional task forces that combine the resources and expertise of its seven member Federal law enforcement agencies, in cooperation with State and local investigators and with prosecutors, to target and destroy major narcotic trafficking and money-laundering organizations. The task forces perform the following activities:

1. *Investigation.*—This activity includes the resources for direct investigative, intelligence and support activities of the task forces, focusing on the disruption and dismantlement of drug trafficking and money laundering organizations by various organized crime enterprises. Organizations participating under the law enforcement function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, and U.S. Immigration and Customs Enforcement.

2. *Prosecution.*—This activity includes the resources for the prosecution of cases generated through the investigative ef-

forts of task force agents. Litigation efforts are intended to dissolve drug trafficking and money laundering organizations in their entirety, most notably the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, Criminal Division, and Tax Division.

3. **HIDTA.**—This activity includes resources for the High Intensity Drug Trafficking Areas (HIDTA) program. The HIDTA program was established by the Anti-Drug Abuse Act of 1988, as amended, and the Office of National Drug Control Policy’s reauthorization, P.L. 105–277, to provide assistance to Federal, State and local law enforcement entities operating in those areas most adversely affected by drug trafficking.

For 2007, the Budget proposes transferring the High-Intensity Drug Trafficking Area (HIDTA) Program, operated by the Office of National Drug Control Policy, to DOJ in order to improve coordination with OCDETF and the Department’s other drug enforcement efforts. The program originally was intended to focus resources on a limited number of regions experiencing the most serious problems with organized drug trafficking. It now spends \$225 million on 28 areas that include much of the populated United States. Efforts to focus the HIDTAs on high-level organizations such as those on the Consolidated Priority Organization Target (CPOT) List have been hindered by the practice of funding individual HIDTAs at the same level year after year. As a result, the Budget proposes a HIDTA Program that will focus funds on regions that are primary national drug distribution or transit zones.

The planned distribution of obligations for 2006 and 2007 among the participating Federal agencies, as well as the actual distribution for 2005, is as follows:

At the request of the Attorney General, the OCDETF member agencies, working together with input from the intelligence community, developed the CPOT List, which identifies those significant international drug trafficking and money laundering organizations most responsible for the drug supply to the United States. For 2006, the CPOT list contains 44 international targets. As of Dec. 15, 2005, OCDETF had identified 590 current OCDETF investigations that are targeting components of CPOT-listed organizations. The focus on CPOT-linked investigations is one of many steps taken by the

OCDETF Program to enhance and expand its investigations across the United States. The CPOT strategy seeks to incapacitate the foreign-based organization heads, their domestic transportation and smuggling systems, their regional and local distribution networks, and their financial operations, thereby interrupting the flow of drugs into the United States and diminishing the capacity of the CPOT organization to reconstitute itself. The strategy aims to ensure that OCDETF funding is being used as effectively and efficiently as possible.

As OCDETF initially refocused efforts on higher-level targets and more sophisticated long-term investigations, total OCDETF cases initiated decreased by 22 percent (902 to 703) between 2002 and 2003. However, OCDETF investigations are once again on the increase. During 2004, 880 new OCDETF investigations were initiated—a 25 percent increase over 2003; and during 2005, 1,021 new OCDETF investigations were initiated—a 16 percent increase over 2004. This was a direct result of OCDETF’s efforts to expand investigations to attack all levels of the supply chain regionally, nationally and internationally.

The mission of the FBI is to protect the United States from terrorist and foreign intelligence activities; to uphold the law through the investigation of violations of Federal criminal law; to provide leadership and assistance to Federal, state, local and international law enforcement agencies; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

Protecting America in the current challenging national security and criminal environment requires that the FBI refocus its priorities; realign its workforce to address these priorities; and improve management policies and operating procedures to enhance flexibility, agility, effectiveness, and accountability. The FBI's revised strategic priorities are in order:

—Protect the United States from terrorist attack.

—Protect the United States against foreign intelligence operations and espionage.

—Protect the United States against cyber-based attacks and high technology crimes.

—Combat public corruption at all levels of government.

—Protect civil rights.

—Combat transnational and national criminal organizations and enterprises.

—Combat major white-collar crime.

—Combat significant violent crime.

—Support federal, state, county, municipal, and international partners.

—Upgrade technology to successfully perform the FBI's mission.

FBI investigations and operations are conducted through a network of 56 major field offices, over 400 smaller field offices (resident agencies), and four information technology centers located throughout the United States; the FBI Academy and engineering complex at Quantico, Virginia; a fingerprint identification and criminal justice information services center in Clarksburg, West Virginia; 45 foreign liaison posts; and FBI Headquarters in Washington, D.C.

A number of FBI activities are carried out on a reimbursable basis. Since 1997, the FBI has been reimbursed for investigations of health care fraud and abuse as provided by the Health Care Portability and Accountability Act of 1996 (P.L. 104-191). Additionally, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs and by other Federal agencies for certain investigative services, such as pre-employment background inquiries and fingerprint and name checks. The FBI also is authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2007, the FBI proposes \$267 million in program enhancements. These enhancements support intelligence, information technology, information sharing, and infrastructure needs. Highlights of these initiatives include: (1) enhanced intelligence capabilities, to include training; (2) enhanced surveillance capabilities; (3) enhanced information sharing capabilities; and (4) improved information technology.

For 2007, the FBI is proposing \$51.392 million to enhance its Sensitive Compartmented Information Facility (SCIF) infrastructure, provide initial funding for the Center for Intelligence Training, and fund an interim facility for the Hostage Rescue Team (HRT). The SCIF funding (\$33.191 million) will provide the FBI with additional secure space in which to analyze highly classified intelligence and share this information among intelligence personnel within the FBI and other government partners. The funding for the Center for Intelligence Training (\$6.311 million) will support an Architectural and Engineering study for a new facility that will allow the FBI to better train its growing cadre of intelligence personnel. Finally, the funding for interim HRT space (\$11.890 million) will allow the FBI to undertake much-needed space improvements in support of its crisis response programs, while considering longer-term housing options.

DEA's mission is to enforce the controlled substances laws and regulations of the United States, and to bring to the criminal and civil justice system of the United States, or

**General and special funds—Continued**

**SALARIES AND EXPENSES—Continued**

any other competent jurisdiction, those organizations and principal members of organizations involved in the growing, manufacturing and/or distribution of controlled substances appearing in or destined for illicit traffic in the United States; and to support non-enforcement programs aimed at reducing the availability of illicit controlled substances on the domestic and international markets. DEA's major focus is the disruption or dismantlement of Priority Target Organizations (PTOs)-drug supply and money laundering organizations operating at the international, national, regional, and local levels having a significant impact upon drug availability in America. In addition, DEA emphasizes PTOs with links to organizations on the Attorney General's Consolidated Priority Organization Target (CPOT) list, which represents the "Most Wanted" drug supply and money laundering organizations believed to be primarily responsible for the United States' illicit drug supply.

DEA's activities are divided into three main categories:

*Enforcement.—*

*Domestic Enforcement.—*Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This activity contains most of DEA's resources, including domestic enforcement groups, state and local task forces, other federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. Strategic objectives have been established to:

- Identify and target the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;

- Systematically disrupt or dismantle targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,

- Work with international offices to dismantle domestic organizations directly affiliated with international cartels.

*International Enforcement.—*DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. Strategic objectives include:

- Identifying, prioritizing, and targeting the most significant international drug and chemical trafficking organizations;

- Disrupting the networks, financial infrastructures, operations, and the resource bases of targeted international drug and chemical trafficking organizations; and,

- Dismantling those international organizations that have a nexus to domestic organizations.

*State and Local Assistance.—*DEA advises, assists, and trains state and local law enforcement and local community groups to ensure a consistent national approach to drug law enforcement. DEA's training enhances their enforcement capabilities and provides access to the latest intelligence and investigative methods. The strategic objectives are to:

- Reduce drug-related violent crime caused by drug traffickers in selected communities;

- Improve the capabilities of state and local enforcement efforts with specialized training programs; and,

- Assist local efforts to control the production of methamphetamine.

*Reimbursable Programs.—*The primary reimbursements to DEA are for the Interagency Crime and Drug Enforcement Task Force program and the Department of Justice Assets Forfeiture Fund.

For 2007, \$24.8 million is provided to support: (1) DEA's International Drug Flow Prevention Strategy, including the expansion of *Operation Panama Express* and, with the ongoing support of the Department of Defense, continuation of the Foreign-deployed Advisory and Support Teams (FAST) program; and (2) DEA's contribution to national security, including resources to facilitate full coordination and information sharing between DEA and intelligence agencies in support of counterterrorism.

In 2007, a \$48.5 million offset to DEA's base resources is proposed from the following: (1) decrease in Demand Reduction staff; (2) reduction of the Mobile Enforcement Teams by approximately half; and (3) elimination of Regional Enforcement Teams.

DEA continues to revise and integrate its Strategic Plan, Budget, and Performance Reporting. DEA's general long-term goal supports the Department of Justice's efforts to reduce illegal drug availability. DEA accomplishes its general long-term goal by disrupting or dismantling identified PTOs. The measures below reflect DEA's focus on PTOs and those PTOs linked to organizations on the Attorney General's CPOT list.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. The program's purpose is to prevent, detect, and investigate the diversion of controlled substances from legitimate channels, while ensuring an adequate and uninterrupted supply of controlled substances required to meet legitimate needs. Strategic objectives include:

- Identifying and targeting those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cyber crime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;

- Supporting the registrant population with improved technology, including E-commerce and customer support while maintaining cooperation, support and assistance from the regulated industry;

- Educating the public on the dangers of prescription drug abuse and taking proactive enforcement measures to combat emerging drug trends; and,

- Ensuring an adequate and uninterrupted supply of controlled substances to meet legitimate medical and scientific needs.

For 2007, DEA is requesting programmatic enhancements totaling \$3.4 million under the Diversion Control Fee Account. These resources will be used to fund additional Intelligence Analysts to provide the needed support for diversion investigations that are increasingly intelligence-driven.

The measures below reflect the level of activity performed by this program.

The Bureau of Alcohol, Tobacco, Firearms and Explosives mission is to deter and investigate violations of law relating to alcohol, tobacco, firearms, explosives and arson. ATF stands in the front ranks of the nation's battle against terrorism. Explosives and firearms can be terrorist tools, and ATF is in the unique position of not only regulating commerce in firearms and explosives, but also of having the requisite expertise and authority to investigate firearms and explosives-related crimes. Through these programs, ATF investigators are positioned to thwart criminal and terrorist activity at every level of the execution process—from the theft or illegal purchase of explosives to the interdiction and neutralization of those explosives.

In addition to supporting ATF's regular program activities, the 2007 Budget proposes to allow ATF to collect an explosives user fee on explosives that are produced or imported into the United States. ATF will be able to use the fees,

to the extent provided in appropriations acts, to defray the costs of explosives regulatory programs.

This appropriation will provide for the custody and care of an average daily population of 200,265 offenders and for the maintenance and operation of 115 penal institutions, 6 regional offices, and a central office located in Washington, D.C. The appropriation also finances the boarding of sentenced Federal prisoners in State and local jails and other facilities for short periods of time. An average daily population of 31,839 sentenced prisoners will be in contract facilities in 2007.

The Federal Prison System (FPS) receives reimbursements for the daily care and maintenance of State and local offenders, for utilities used by Federal Prison Industries, Inc., for staff housing, and for meals purchased by FPS staff at institutions.

The FPS has restructured its 2007 Budget in accordance with the President's Management Reform Agenda and the Government Performance and Results Act. The new structure reflects actual costs by decision unit, and condenses the Salaries and Expenses budget from four decision units (Inmate Care and Programs, Institution Security and Administration, Contract Confinement, and Management and Administration) to three decision units (Inmate Care and Programs, Institution Security and Administration and Contract Confinement).

*Inmate Care and Programs.*—This activity covers the costs of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This decision unit also finances the costs of education and vocational training, drug treatment, religious programs, psychological services, and other inmate programs such as Life Connections. This activity also covers costs associated with regional and central

office executive direction and management support functions related to providing inmate care such as medical and drug treatment program.

**Institution Security and Administration.**—This activity covers costs associated with the maintenance of facilities and institution security. This activity finances institution maintenance, motor pool operations, powerhouse operations, institution security and other administrative functions. Finally, this activity covers costs associated with regional and central office executive direction and management support functions such as research and evaluation, systems support, financial management, budget functions, safety, and legal counsel.

**Contract Confinement.**—This activity provides for the confinement of sentenced Federal offenders in Government owned, contractor-operated facilities and contract, State and local facilities, and for the care of Federal prisoners in contract community residential centers and assistance by the National Institute of Corrections to State and local corrections. This activity also covers costs associated with management and oversight of contract confinement functions.

For 2007, \$40.3 million in program increases is requested to begin the activation process of an expansion at the Federal Correctional Institution in Otisville, New York and for the activation of the contractor-owned and -operated Philipsburg, Pennsylvania prison facility. A total of 1,887 new contract beds will be added in 2007. A \$54.2 million offset is proposed due to a slowdown in prison population growth and savings achieved from FPS initiated management and operational efficiencies.

Federal Prison Industries, Inc., was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to offer a minimum of competition to private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

The Corporation strives to provide additional industrial employment opportunities at existing and planned institutions.

**Budget program.**—Federal Prison Industries, Inc., operations are entirely self-sustaining, and no appropriations are required for its operations. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

**Financing program.**—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay accident compensation.

**Operating results.**—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

Public Safety Officers' Benefits	6	3
Justice Assistance	293	295

The mission of the Office of Justice Programs (OJP) is to provide Federal leadership in developing the nation's capacity to prevent and control crime, administer justice, and assist crime victims. In 2007, OJP continues to support the President's Management Reform Agenda by streamlining its existing appropriation account structure and consolidating programs and administrative resources into a single decision unit entitled Justice Assistance. The Crime Victims' Fund remains a separate account due to the nature of its resources, which are not provided through appropriations but through the collection of fines and penalties.

Within Justice Assistance, OJP has grouped its programs into seven activities, which broadly reflect OJP's major mission critical functions. These activities, and the programs grouped within them, are as follows:

1. Improving the Criminal Justice System: Funds provide a wide range of assistance to States, localities and tribal governments with crime and drug control efforts. These programs and activities target resources to strengthen the capacity of the criminal justice systems at the local level and to promote community-based strategies to prevent and address crime. Funding supports several programs, including:

*Regional Information Sharing System (RISS).*—Funds State and local law enforcement agencies in the exchange of intelligence information and investigative services and equipment. At its inception, RISS supported state and local law enforcement efforts to combat drug trafficking and organized criminal activity. However, the regional information sharing concept has expanded, and now more law enforcement agencies routinely reach out to share intelligence across jurisdictional boundaries. Section 701 of the USA Patriot Act of 2001 authorizes RISS to operate secure information sharing systems to enhance the investigative and prosecutorial abilities of participating law enforcement agencies in addressing terrorism. The 2007 Budget proposes a total of \$39,676,000 to expand RISS' accessibility to state and local public safety agencies for the purpose of sharing terrorism alerts and related information.

*U.S.A. Freedom Corps.*—This program supports efforts to build a national network of volunteers that use special councils to coordinate and develop community action plans, assess possible threats, and identify local resources. Specifically, in 2007 this program will support the continued activities of the Neighborhood Watch Program (NWP) and the Volunteers In Police Service (VIPS) program.

*Project Safe Neighborhoods Initiative.*—This reformulation of programs will centralize coordination efforts, and assist communities and private citizens in protecting neighborhoods against the threats of violent crime and gang-related violence. Funding includes \$992,000 for Project ChildSafe; \$58,523,000 for a national program to reduce gun violence (State and Local Gun Violence Assistance Program) \$14,879,000 for the Gang Technical Assistance Program; \$49,348,000 for the Weed and Seed program; \$2,938,000 for National Stalker and Domestic Violence Database; and \$39,180,000 for National Criminal History Improvement Program, a total initiative funding proposed in the 2007 President's Budget of \$165,860,000.

*Southwest Border Prosecution Program.*—This program provides funding for local prosecutor offices in the four States (California, Texas, Arizona and New Mexico) along the Southwest Border for the costs of processing, detaining, and prosecuting drug and other cases referred from Federal arrests or Federal investigations. It supports the enforcement of both Federal and state laws by encouraging better coordination in both enforcement and prosecution of aliens and citizens involved in border criminal enterprises. The program also protects against foreign threats by supporting costs associated with targeting resources in a border area with significantly more vulnerability than many other areas in the continental United States.

*Capital Litigation Program.*—The 2007 Budget proposes to fund this initiative at \$14,879,000.

*Faith-Based Prisoner Re-Entry Initiative.*—The 2007 Budget proposes to fund this initiative at \$14,879,000.

*Combating Domestic Trafficking in Persons.*—The 2007 Budget proposes \$20,000,000 for grants for State and local law enforcement to improve programs to investigate and prosecute acts of severe forms of trafficking in persons and sex trafficking, and for other purposes authorized under section 204 of the Trafficking Victims Protection Reauthorization Act of 2005.

JUSTICE ASSISTANCE—Continued

2. Research and Development, Evaluation and Statistics: Funds provide a wide range of research and statistical programs addressing criminal justice issues. These programs increase statistics on criminal justice issues and trends, evaluate the effectiveness of current approaches, and identify innovative solutions. Funding supports several programs, including:

*Criminal Justice Statistical Programs.*—Funds provide for the collection and analysis of statistical information concerning crime, victims, offenders, criminal justice processes, and civil disputes in support of public and private policy decisionmaking about society’s response to crime; planning, coordination, implementation and provision of technical assistance to States to initiate innovative applications of communications and information systems technology for State and local criminal justice systems; and assurance of conformity with privacy and security regulations.

3. Technology for Crime Identification: Funding supports: *DNA Enhancements.*—\$175,568,000 is proposed for State and local crime laboratories to reduce and eventually eliminate backlogs of DNA casework samples (including crime scene and convicted offender samples), and for discretionary research, demonstrations, evaluation, statistics, technical assistance and training. Effective backlog reduction requires both the direct defray of sample analysis costs to meet immediate needs, and improvements, especially automation upgrades, in forensic laboratories to increase their capacity, eventually enabling them to keep abreast of their DNA analysis without additional Federal funding. These efforts will help prosecute the guilty and exonerate the innocent.

4. Strengthening the Juvenile Justice System: Funds support State, local and tribal government activities to prevent juvenile delinquency and address juvenile crime through increased accountability.

5. Substance Abuse: Funds provided are intended to address the problems of substance abuse-related crime, including treatment of offenders with substance abuse problems to improve their ability to transition back into society. These programs include:

*Drug Courts.*—Funds provide assistance to States, local units of government, and to other public or private entities to develop and implement programs for non-violent offenders with substance abuse problems. These programs use the power of the courts and continuing supervision to coerce abstinence through graduated sanctions and the integrated administration of other services such as drug testing and drug treatment. The 2007 Budget proposes \$69,186,000 in overall programming.

6. Services for Victims of Crime: Funds provide resources to State and local governments to ensure timely delivery of direct payments and services to victims of crime.

*Justice for All Act.*—In 2007, the Justice Assistance appropriation includes \$11,460,000 in support of the Justice For All Act, including \$9,960,000 for the Federal victim notification system and legal counsel support services for victims, and \$1,500,000 for support costs (to be derived from Office of Victims of Crime management and administration expenses funded from this appropriation). In addition, under the Crime Victims Fund, \$29,205,000 in 2007 will be used to support activities authorized under the Justice For All Act, including funding for Federal victim witness coordinators.

*Missing and Exploited Children.*—OJP works with law enforcement agencies to target, dismantle, and prosecute predatory child molesters and those who traffic in child

pornography. The 2007 Budget proposes \$50,928,000 for this program, including funding for local Internet Crime Against Children (ICAC) investigative task forces.

*Public Safety Officers Benefits.—Educational Assistance.*—A total of \$4,007,000 is requested to keep pace with the increasing numbers of dependents of public safety officers, either killed or permanently disabled in the line of duty, who are seeking educational assistance.

This program provides grants to states, units of local government, Indian Tribal governments, and other public and private entities to advance community policing, expand cooperation between law enforcement agencies and members of the community, and enhance public safety. Grants may be used for police integrity strategies, procuring equipment and technology, and funding additional grant projects that advance community policing. Funding also supports training and technical assistance, methamphetamine lab clean-up, as well as research and evaluations related to community policing strategies and efforts.

The Office on Violence Against Women (OVW) is a component of the U.S. Department of Justice. Created in 1995, OVW implements the Violence Against Women Act (VAWA) and subsequent legislation, and provides national leadership against domestic violence, sexual assault, and stalking. Since its inception, the Office has launched a multifaceted approach to responding to these crimes. By forging state, local and tribal partnerships among police, prosecutors, the judiciary, victim advocates, health care providers, faith leaders, and others, OVW grants help provide victims with the protection and services they need to pursue safe and healthy lives and enable communities to hold offenders accountable. In 2005, OVW was established as an office administratively separate from the Office of Justice Programs.

The Victims of Crime Act of 1984 (Public Law 98-473), as amended, established a special fund in the Treasury entitled "The Crime Victims Fund." This fund is credited with criminal fines that are collected from persons convicted of offenses against the United States. Annual grants are made to eligible crime victims compensation and assistance programs.

The 2007 Budget treats amounts deposited into the Fund as available in the year collected, subject to the limitations included in authorizing or appropriations language.

## GENERAL PROVISIONS

SEC. 101. In addition to amounts otherwise made available in this title for official reception and representation expenses, a total of not to exceed \$60,000 from funds appropriated to the Department of Justice in this title shall be available to the Attorney General for official reception and representation expenses.

SEC. 102. None of the funds appropriated by this title shall be available to pay for an abortion, except where the life of the mother would be endangered if the fetus were carried to term, or in the case of rape: *Provided*, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.

SEC. 103. None of the funds appropriated under this title shall be used to require any person to perform, or facilitate in any way the performance of, any abortion.

SEC. 104. Nothing in the preceding section shall remove the obligation of the Director of the Bureau of Prisons to provide escort services necessary for a female inmate to receive such service outside the Federal facility: *Provided*, That nothing in this section in any way diminishes the effect of section 103 intended to address the philosophical beliefs of individual employees of the Bureau of Prisons.

SEC. 105. Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Justice in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: *Provided*, That any transfer pursuant to this section shall be treated as a reprogramming of funds under section 605 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section: *Provided further*, That none of the funds appropriated to "Buildings and Facilities, Federal Prison System" in this or any other Act may be transferred to "Salaries and Expenses, Federal Prison System", or any other Department of Justice account, unless the President certifies that such a transfer is necessary to the national security interests of the United States, and such authority shall not be delegated, and shall be subject to section 605 of this Act.

SEC. 106.
