Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology. This centralized fund, under the control of the DOJ Chief Information Officer, will ensure that investments in information sharing technology are well-planned and aligned with the Department's overall information technology (IT) strategy and enterprise architecture, and that all DOJ components are able to operate in a technologically unified environment, particularly with respect to preventing terrorist attacks on the United States. The current major initiatives/projects are described below.

Joint Automated Booking System.—The Joint Automated Booking System (JABS) is a Department of Justice information sharing project that provides data to the FBI's Integrated Automated Fingerprint Identification System (IAFIS) through an automated process for the collection and transmission of

fingerprint, photographic, and biographical data. The mission of JABS is to: (1) improve the booking process through automation; (2) enable agencies to share and exchange arrest information; and (3) establish a federal offender tracking system.

Justice Consolidated Office Network (JCON) Office Automation.—The goal of the JCON initiative is to provide a reliable and robust common office automation platform for Departmental components. The cornerstone of the project is the JCON Standard Architecture, which defines the IT computing framework, including networked workstations, servers, and printers; a common set of core applications (e-mail, word processing, etc.); and a basic set of system administration tools.

Litigation Case Management System.—This project will develop a common framework for the processes and systems that support case management. Initial efforts will focus on a case management solution for the legal activities of the Department, which will serve as the model for the development of a common solution within the Department, with potential application to other agencies. The implementation of a common solution for litigation case management systems will provide for: (1) resource conservation through more efficient system operations; (2) faster, more informed case-related decision making; (3) more effective and efficient law enforcement and litigation; and (4) better informed resource allocation.

JCON S/TS Program.—The JCON Secret/Top Secret (S/TS) Program will provide a seamless, Department-wide IT infrastructure for electronically sharing, processing, and storing classified information. JCON S/TS will create a reliable, secure system which allows attorneys, intelligence analysts, law enforcement staff, and managers to exchange classified electronic data within and between components on a real-time basis.

Law Enforcement Information Sharing Program.—The Law Enforcement Information Sharing Program (LEISP) is a Department-wide strategy to facilitate the sharing of information about terrorism, criminal activity, and threats to public safety. LEISP will implement the information technology tools needed to facilitate timely, appropriate, and secure sharing of information across the law enforcement community.

Unified Financial Management System.—The Unified Financial Management System will allow the Department of Justice to streamline and standardize business processes and procedures across all components, providing secure, accurate, timely, and useful financial and procurement data to program managers, and to produce component and Department level financial statements.

Resources are requested to support the Department of Justice's law enforcement wireless communications, including efforts to make more efficient use of radio spectrum as required by 47 U.S.C. 903(d)(1). Wireless communications efforts are facilitated through implementation of the Integrated Wireless

LAW ENFORCEMENT WIRELESS COMMUNICATIONS—Continued

Network (IWN), a joint initiative with the Departments of Treasury and Homeland Security. The IWN will address communications shortcomings in key strategic locations, such as along the northern and southern land borders, and in cities or regions that are potential targets for terrorism. Requested resources will be allocated to: IWN operations and maintenance requirements; investment in new, more efficient infrastructure and subscriber equipment; promotion of communications interoperability by Federal law enforcement and homeland security personnel; support of existing legacy land mobile radio systems; and management and operating requirements of the Joint Wireless Program Management Office.

The Communications Assistance for Law Enforcement Act (CALEA) of 1994 authorized the Attorney General to reimburse telecommunications carriers for costs associated with modifying digital equipment installed before January 1, 1995, in order that court-authorized wiretaps may be performed.

The Omnibus Consolidated Appropriations Act of 1997 (P.L. 104-208) extended eligibility for reimbursement to telecommunications equipment manufacturers and providers of support services. In addition to direct appropriations to the Fund, Congress authorized Federal agencies with law enforcement and intelligence responsibilities to transfer to the Fund unobligated balances that are available until expended, upon compliance with Congressional notification requirements.

With the appropriations provided in 2001, total funding for the program has reached \$500 million, the authorization level provided in the Act.

ADMINISTRATIVE REVIEW AND APPEALS

For expenses necessary for the administration of pardon and clemency petitions and immigration-related activities, \$247,512,000, of which, \$4,000,000 shall be derived by transfer from the Executive Office for Immigration Review fees deposited in the "Immigration Examination Fee" account.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This program includes the Office of the Pardon Attorney (OPA) and the Executive Office for Immigration Review (EOIR). The Pardon Attorney receives and reviews all petitions for clemency, i.e., commutation of sentences and pardons. The Executive Office for Immigration Review contains 54 Immigration Courts and the Board of Immigration Appeals. EOIR was established January 1, 1983, to improve the immigration hearing and appeal process.

DETENTION TRUSTEE—Continued

The Office of the Federal Detention Trustee's (OFDT) mandate is the oversight of detention management and the improvement and coordination of detention activities for the Department of Justice and Department of Homeland Security. The Detention Trustee reports to the Deputy Attorney General on detention activities, including the effective and efficient expenditure of appropriated funds to ensure Federal agencies involved in detention provide for the safe, secure, and humane confinement of persons in the custody of the U.S. Marshals Service (USMS). The Detention Trustee's role covers the care of Federal detainees in private, State, and local facilities, and includes housing, subsistence, transportation, medical care, and medical guard service. The Trustee also manages the Justice Prisoner and Alien Transportation System, striving to ensure equality among participating agencies while allowing unimpeded prisoner transportation operations.

For 2008, the Detention Trustee will continue to work with State and local governments and private service providers to maintain adequate detention capacity to house detained individuals charged with Federal offenses awaiting trial or sentencing. Based on anticipated growth rates in the Federal detention population during 2007/2008, over three-quarters of the USMS's federally detained population will be housed in State, local and private facilities. The Federal Government utilizes various methods to house detainees. Examples through which detention bed space for Federal detainees is acquired at the lowest cost to the Government include: (1) Federal detention facilities, where the Government pays for construction and operation of the facility; (2) Intergovernmental Agreements (IGA) with State and local jurisdictions, where excess prison/jail bed capacity is utilized and paid via a daily rate; and (3) private jail facilities, where a daily rate is paid. In an effort to reduce detention costs, the Detention Trustee has implemented the eDesignate program which automates the sentencing-to-commitment process and accelerates movement of prisoners from detention to Bureau of Prisons (BOP) facilities. National roll-out began in the last half of 2006 and will be completed by the end of 2007. The Trustee's office also facilitated the establishment of in-transit hold-over facilities to further reduce the time from sentencing to incarceration by accelerating the movement of prisoners to a designated BOP facility.

The Office of the Federal Detention Trustee (OFDT) is modifying the National Repository for Detention Space Availability into a multifaceted, full service Internet site to meet all detention services needs, the DSNetwork. The goal of DSNetwork is to significantly improve interaction between government agencies and service providers, and reduce lengthy and cumbersome workload by moving away from paper-based processing toward automation. This web-based, Internet accessible tool (<https://www.ofdt.net>) will provide timely, accurate and comprehensive detention information on a secure, centralized site. Agencies will use the site to identify cost and operationally-effective facilities that could be used to house offenders, with the underlying goal of placing them in facilities from which they could easily be transferred to BOP custody. As a consolidated detention services site, the DSNetwork allows for automated processing of IGAs, provides a Detention Services Schedule, posts detention facility review information, and maintains additional detention services and procurement data for agencies to use to assess bed space. To ensure non-Federal agencies provide for the safe, secure, and humane confinement of persons in the custody of the United States.

OFDT led the development of Performance-Based Detention Standards. Quality Assurance Reviews using these standards are conducted to ensure compliance. OFDT has developed and will pilot and implement a contract monitoring instrument

to ensure a consistent approach to monitoring non-Federal detention bed space.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. Also by statute, the OIG reports to the Attorney General, Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decisionmakers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and Congress and of vital importance to the Department.

The Executive Direction and Control function provides program direction for the OIG. Responsibilities include policy development, legal counsel, congressional affairs, planning, budget, finance, personnel, procurement, automated data processing, and general support services.

The United States Parole Commission makes decisions to grant or deny parole to Federal and D.C. prisoners serving sentences of one year and a day or more, sets conditions of parole, supervises parolees and mandatory releasees, re-commits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In addition, the Commission seeks to improve the rehabilitation process by monitoring an effective parole supervision program through U.S. and District of Columbia probation officers and through research studies that evaluate the effectiveness of parole programs. The U.S. Parole Commission has responsibility for parole and parole revocation hearings and supervision of District of Columbia parolees and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105-33).

SALARIES AND EXPENSES, ANTITRUST DIVISION

For expenses necessary for the enforcement of antitrust and kindred laws, \$155,097,000, to remain available until expended: Provided, That, notwithstanding any other provision of law, fees collected for premerger notification filings under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (15 U.S.C. 18a), regardless of the year of collection (and estimated to be \$144,600,000 in fiscal year 2008), shall be retained and used for necessary expenses in this appropriation, and shall remain available until expended: Provided further, That the sum herein appropriated from the general fund shall be reduced as such offsetting collections are received during fiscal year 2008, so as to result in a final fiscal year 2008 appropriation from the general fund estimated at \$10,496,000.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Foreign Claims Settlement Commission adjudicates the claims of American nationals (individuals and corporations) arising out of the nationalization, expropriation or other taking of their property, or injury, caused by foreign governments, pursuant to the International Claims Settlement Act of 1949 and other statutes. In 2008, the Commission will continue adjudicating American claims against Albania. In addition, the Commission will provide technical assistance to the Departments of State and the Treasury and to the public in connection with the 45 international and war claims programs previously completed, including, in particular, the Cuban Claims Program. It also will provide policy recommendations, evaluation of pending claims legislation, and liaison with congressional committees considering such legislation.

The Federal Government is represented in each of the 94 judicial districts and the District of Columbia Superior Court by a U.S. Marshal. The primary missions of the U.S. Marshals Service (USMS) are protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

The USMS is proposing to restructure its 2008 budget in accordance with the President's Management Reform Agenda and the Government Performance Results Act. The new structure merges the Construction and Salaries and Expenses budgets into one streamlined budget and condenses nine decision units to five (Judicial and Courthouse Security, Fugitive Apprehension, Prisoner Security and Transportation, Protection of Witnesses, and Operations Support).

For 2008, \$25.7 million in program increases are requested for investigating threats against the Judiciary, high-threat trial security, judicial security in the Southwest Border district offices, and enforcement of the Adam Walsh Child Protection and Safety Act.

Reimbursable program.—Federal funds in 2008 are derived from the Administrative Office of the U.S. Courts for the court security program, the Office of the Federal Detention Trustee for the housing of USMS prisoners in non-Federal facilities, the Assets Forfeiture Fund for seized assets management, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, and the Office of National Drug Control Policy and the Centers for Disease Control for security services. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

Care of U.S. prisoners in non-Federal institutions.—Under this program, the Department contracts with State and local jails to board Federal prisoners and detainees for short periods of time. These periods of confinement occur before and during a trial and while awaiting transfer to Federal institutions after conviction. This program is managed by the Office of the Federal Detention Trustee and funded by the Detention Trustee appropriation.

FEEES AND EXPENSES OF WITNESSES

For fees and expenses of witnesses, for expenses of contracts for the procurement and supervision of expert witnesses, for private counsel expenses, including advances, and for expenses of foreign counsel, \$168,300,000, to remain available until expended, of which not to exceed \$10,000,000 is for construction of buildings for protected witness safesites; not to exceed \$3,000,000 is for the purchase and maintenance of armored and other vehicles for witness security caravans; and not to exceed \$9,000,000 is for the purchase, installation, maintenance and upgrade of secure telecommunications equipment and a secure automated information network to store and retrieve the identities and locations of protected witnesses.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). This appropriation is used to pay fees and expenses to witnesses who appear on behalf of the Government in litigation in which the United States is a party. Factors over which the Department of Justice has little, or no, control affect the costs incurred. The United States Attorneys, the United States Marshals, and the Department's six litigating divisions are served by this appropriation.

Fees and expenses of witnesses.—Pays the fees and expenses associated with the preparation and presentation of testimony on behalf of the United States for fact witnesses, who testify as to events or facts about which they have personal knowledge, and for expert witnesses, who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

Protection of witnesses.—Pays subsistence and other costs to ensure the safety of Government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

Victim compensation fund.—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

Private counsel.—Pays private counsel retained to represent Government employees who are sued, charged, or subpoenaed for actions taken while performing their official duties (private counsel expenditures may be authorized for congressional testimony as well as for litigation in instances where government counsel is precluded from representing the employee or private counsel is otherwise appropriate).

Alternative Dispute Resolution.—Pays the costs of providing Alternative Dispute Resolution (ADR) services in instances wherein the Department has taken the initiative to use such services and in those matters wherein the courts have directed the parties to attempt a settlement using mediation or some other ADR process.

United States trustee system fund.—The United States trustees supervise the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts and litigate against fraud and abuse in the system. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee pro-

gram to a twenty-one region, nationwide program encompassing 88 judicial districts. The Bankruptcy Abuse Prevention and Consumer Protection Act of 2005 (Public Law 109-8) expanded United States trustees' responsibilities to include means testing, credit counseling, and other debtor education. User fees assessed against debtors offset the annual appropriation.

the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the assets forfeiture program are paid from the permanent, indefinite portion of the fund. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner and Alien Transportation System (JPATS) is responsible for transporting by air all Federal prisoners and detainees, including sentenced and pretrial, whether in the custody of the U.S. Marshals Service or the Bureau of Prisons. JPATS also provides prisoner transportation to the Department of Defense, Department of Homeland Security, and State and local law enforcement, on a full cost recovery reimbursable and space available basis. JPATS transports prisoners and detainees on a full cost recovery reimbursable basis with participating Executive Departments and agencies without sacrificing the safety of the public, Federal employees, or those in custody. Proceeds from the disposal of aircraft will be deposited into the Fund. The Office of the Federal Detention Trustee (OFDT) is responsible for developing, managing and implementing a long range strategic plan for JPATS.

The National Security Division (NSD) is a new component of the Department of Justice created in 2006. The newly formed NSD strengthens the Department's core national security functions by providing strategic national security policy coordination and development. NSD also consolidates counterterrorism and counterespionage prosecutors with attorneys who oversee the Department's foreign intelligence/counterintelligence operations.

The Organized Crime Drug Enforcement Task Force (OCDETF) Program consists of a nationwide structure of nine regional task forces that combine the resources and expertise of its seven member Federal law enforcement agencies, in cooperation with State and local investigators and with prosecutors from the U.S. Attorneys Offices and the Criminal and Tax Divisions, to target and destroy major narcotic-trafficking and money-laundering organizations. The task forces perform the following activities:

1. *Investigation.*—This activity includes the resources for direct investigative, intelligence and support activities of the task forces, focusing on the disruption and dismantlement of drug trafficking and money laundering organizations by various organized crime enterprises. Organizations participating under the Investigations function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, and U.S. Immigration and Customs Enforcement.

2. *Prosecution.*—This activity includes the resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are intended to dissolve drug trafficking and money laundering organizations in their entirety, most notably the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, and the Department of Justice's Criminal Division and Tax Division.

WORKLOAD

	2006 actual	2007 est.	2008 est.
Number of new OCDETF Investigations initiated	968	975	1000
Percent of active OCDETF investigations linked to CPOT	14%	15%	17%

At the request of the Attorney General, the OCDETF member agencies, with input from the intelligence community, developed the Consolidated Priority Organization Target (CPOT) List, which identifies those significant international drug trafficking and money laundering organizations most responsible for the illegal drug supply to the United States. In 2007, the CPOT list includes 46 international targets. As of Dec. 31, 2006, OCDETF had identified 572 current OCDETF investigations that are targeting components of CPOT-listed organizations. The CPOT strategy seeks to incapacitate the foreign-based organization heads, their domestic

transportation and smuggling systems, their regional and local distribution networks, and their financial operations, thereby interrupting the flow of drugs into the United States and diminishing the capacity of the CPOT organizations to reconstitute themselves. The strategy aims to ensure that OCDETF funding is being used as effectively and efficiently as possible. In addition to CPOTs, OCDETF also prioritizes cases linked to Regional Priority Organization Targets (RPOTs), whose drug activities have a significant impact on the particular drug threats facing one or more of the nine OCDETF regions. OCDETF's commitment to pursuing priority targets is evident from the steady increase in the percentage of cases linked to these targets. During 2006, 14 percent of OCDETF's active investigations—or 292 cases—were linked to a CPOT, while 19 percent or 414 cases were linked to RPOTs.

In 2006, OCDETF initiated 968 new cases, a ten percent increase over the number initiated in 2004. OCDETF district and regional coordination groups are working to ensure that only those investigations that meet the standards established by and for OCDETF cases are approved and the quality of these new investigations clearly reflects OCDETF's commitment to pursue the most significant drug trafficking and money laundering organizations.

The mission of the FBI is to protect the United States from terrorist and foreign intelligence activities; to uphold

the law through the investigation of violations of Federal criminal law; to provide leadership and assistance to Federal, state, local and international law enforcement agencies; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

Protecting America in the current challenging national security and criminal environment requires that the FBI refocus its priorities; realign its workforce to address these priorities; and improve management policies and operating procedures to enhance flexibility, agility, effectiveness, and accountability. The FBI's revised strategic priorities are, in order:

- Protect the United States from terrorist attack.
- Protect the United States against foreign intelligence operations and espionage.
- Protect the United States against cyber-based attacks and high technology crimes.
- Combat public corruption at all levels of government.
- Protect civil rights.
- Combat transnational and national criminal organizations and enterprises.
- Combat major white-collar crime.
- Combat significant violent crime.
- Support federal, state, county, municipal, and international partners.
- Upgrade technology to successfully perform the FBI's mission.

FBI investigations and operations are conducted through a network of 56 major field offices, over 400 smaller field offices (resident agencies), and four information technology centers located throughout the United States; the FBI Academy and engineering complex at Quantico, Virginia; a fingerprint identification and criminal justice information services center in Clarksburg, West Virginia; over 50 foreign liaison posts; and FBI Headquarters in Washington, D.C.

A number of FBI activities are carried out on a reimbursable basis. Since 1997, the FBI has been reimbursed for investigations of health care fraud and abuse as provided by the Health Care Portability and Accountability Act of 1996 (P.L. 104-191). Additionally, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs and by other Federal agencies for certain investigative services, such as pre-employment background inquiries and fingerprint and name checks. The FBI also is authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2008, the FBI proposes \$315 million in program enhancements. These enhancements support national security, intelligence, information technology, information sharing, and infrastructure needs. Highlights of these initiatives include: (1) enhanced national security and intelligence capabilities, to include training; (2) enhanced surveillance capabilities; (3) enhanced information sharing capabilities; and (4) improved information technology.

For 2008, the FBI is proposing \$81.352 million to enhance its physical infrastructure and for other construction initiatives. The request reflects the recurring and transfer of the 2007 base funding for Sensitive Compartmented Information Facilities (SCIF) from the Salaries & Expenses appropriation to the Construction appropriation. SCIF funding will provide the FBI with additional secure space in which to analyze highly classified intelligence and share this information among intelligence personnel within the FBI and government partners.

DEA's mission is to enforce the controlled substances laws and regulations of the United States. As such, DEA brings to the criminal and civil justice system of the United States, or any other competent jurisdiction, those organizations and principal members of organizations involved in the growing, manufacturing and/or distribution of controlled substances appearing in or destined for illicit traffic in the United States. DEA also supports non-enforcement programs aimed at reducing the availability of illicit controlled substances on the domestic and international markets. DEA's major focus is the disruption or dismantlement of Priority Target Organizations (PTOs)—drug supply and money laundering organizations operating at the international, national, regional, and local levels having a significant impact upon drug availability in America. In addition, DEA emphasizes PTOs with links to organizations on the Attorney General's Consolidated Priority Organization Target (CPOT) list, which represents the "Most Wanted" drug supply and money laundering organizations believed to be primarily responsible for the United States' illicit drug supply.

DEA's activities are divided into three main categories:

1. *Domestic Enforcement.*—Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This activity contains most of DEA's resources, including domestic enforcement groups, state and local task forces, other federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. Strategic objectives have been established to:

—Identify and target the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;

—Systematically disrupt or dismantle targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,

—Work with international offices to dismantle domestic organizations directly affiliated with international cartels.

2. International Enforcement.—DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. Strategic objectives include:

—Identifying, prioritizing, and targeting the most significant international drug and chemical trafficking organizations;

—Disrupting the networks, financial infrastructures, operations, and the resource bases of targeted international drug and chemical trafficking organizations; and,

—Dismantling those international organizations that have a nexus to domestic organizations.

3. State and Local Assistance.—DEA advises, assists, and trains state and local law enforcement and local community groups to ensure a consistent national approach to drug law enforcement. DEA’s training enhances their enforcement capabilities and provides access to the latest intelligence and investigative methods. The strategic objectives are to:

—Reduce drug-related violent crime caused by drug traffickers in selected communities;

—Improve the capabilities of state and local enforcement efforts with specialized training programs; and,

—Assist local efforts to control the production of methamphetamine.

Reimbursable Programs.—The primary reimbursements to DEA are for the Interagency Crime and Drug Enforcement Task Force program and the Department of Justice Assets Forfeiture Fund.

For 2008, \$39.3 million is provided to support: (1) DEA’s efforts to attack poly-drug trafficking organizations along the Southwest Border and to enhance its international methamphetamine investigations; (2) DEA’s sharing of intelligence with the Intelligence Community and other law enforcement agencies; (3) DEA’s Internet investigative capabilities; and (4) DEA’s continuation of Operation Panama Express and, with the ongoing support of the Department of Defense, continuation of the Foreign-deployed Advisory and Support Teams (FAST) program.

In 2008, a \$20.6 million offset to DEA’s base resources is proposed and will eliminate the Mobile Enforcement Teams. DEA continues to revise and integrate its Strategic Plan, Budget, and Performance Reporting. DEA’s general long-term goal supports the Department of Justice’s efforts to reduce illegal drug availability. DEA accomplishes its general long-term goal by disrupting or dismantling identified PTOs. The measures below reflect DEA’s focus on PTOs and those PTOs linked to organizations on the Attorney General’s CPOT list.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. The program's purpose is to prevent, detect, and investigate the diversion of controlled substances from legitimate channels, while ensuring an adequate and uninterrupted supply of controlled substances required to meet legitimate needs is available. Strategic objectives include:

—Identifying and targeting those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cyber crime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;

—Supporting the registrant population with improved technology, including E-commerce and customer support, while

maintaining cooperation, support and assistance from the regulated industry;

—Educating the public on the dangers of prescription drug abuse and taking proactive enforcement measures to combat emerging drug trends; and,

—Ensuring an adequate and uninterrupted supply of controlled substances to meet legitimate medical and scientific needs.

For 2008, DEA is requesting programmatic enhancements totaling \$17.0 million under the Diversion Control Fee Account. These resources will be used to fund the 2008 Diversion Investigator conversion and to support online diversion investigations through operational funding, improved Internet intercept capabilities, computer forensics support, and specialized legal support.

The Bureau of Alcohol, Tobacco, Firearms and Explosives mission is to deter and investigate violations of law relating

SALARIES AND EXPENSES—Continued

to alcohol, tobacco, firearms, explosives and arson. ATF stands in the front ranks of the nation's battle against terrorism. Explosives and firearms can be terrorist tools, and ATF is in the unique position of not only regulating commerce in firearms and explosives, but also of having the requisite expertise and authority to investigate firearms and explosives-related crimes. Through these programs, ATF investigators are positioned to thwart criminal and terrorist activity at every level of the execution process—from the theft or illegal purchase of explosives to the interdiction and neutralization of those explosives.

For 2008, \$19 million is provided to support: (1) ATF's Firearms Trafficking and Gunner Runner Team programs; (2) ATF's increased participation in gang initiatives and the National Gang Targeting and Enforcement Coordinating Center (GANG TECC); (3) ATF's Project Safe Neighborhoods Firearm Violence Reduction program efforts; and (4) restoration of the 2006 explosives poundage fee imposition. There is no proposed reduction to ATF's base resources to offset these increases.

This appropriation will provide for the custody and care of an average daily population of 203,839 offenders and for the maintenance and operation of 115 penal institutions, 6 regional offices, and a central office located in Washington, D.C. The appropriation also finances the boarding of sentenced Federal prisoners in State and local jails and other facilities for short periods of time. An average daily population of 34,189 sentenced prisoners will be in contract facilities in 2008.

The Federal Prison System (FPS) receives reimbursements for the daily care and maintenance of State and local offenders, for utilities used by Federal Prison Industries, Inc., for

staff housing, and for meals purchased by FPS staff at institutions.

The FPS has restructured its 2008 Budget in accordance with the President's Management Reform Agenda and the Government Performance and Results Act. The new structure reflects actual costs by decision unit, and condenses the Salaries and Expenses budget from four decision units (Inmate Care and Programs, Institution Security and Administration, Contract Confinement, and Management and Administration) to three decision units (Inmate Care and Programs, Institution Security and Administration, and Contract Confinement).

Inmate Care and Programs.—This activity covers the costs of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This decision unit also finances the costs of education and vocational training, drug treatment, religious programs, psychological services, and other inmate programs such as Life Connections. This activity also covers costs associated with regional and central office executive direction and management support functions related to providing inmate care such as medical and drug treatment programs.

Institution Security and Administration.—This activity covers costs associated with the maintenance of facilities and institution security. This activity finances institution maintenance, motor pool operations, powerhouse operations, institution security and other administrative functions. Finally, this activity covers costs associated with regional and central office executive direction and management support functions such as research and evaluation, systems support, financial management, budget functions, safety, and legal counsel.

Contract Confinement.—This activity provides for the confinement of sentenced Federal offenders in Government owned, contractor-operated facilities and State, local, and private contract facilities, and for the care of Federal prisoners in contract community residential centers and assistance by the National Institute of Corrections to State and local corrections. This activity also covers costs associated with management and oversight of contract confinement functions.

For 2008, the Salaries and Expenses program increases include \$27.0 million to complete phase one of the activation process at the Federal Correctional Institution in Pollock, Louisiana (1,152 medium security beds), and \$5.0 million for requirements of the Adam Walsh Child Protection and Safety Act of 2006.

New Construction.—This activity represents costs associated with leasing of the Oklahoma Airport Trust Facility, acquisition and construction in order to reduce crowding and provide a safe and humane environment for staff and inmates. In 2008, funding is requested to complete the planned medium security facility with work camp in Mendota, California. The facility will add much needed medium security bed space for male inmates and upon activation will reduce projected crowding at this security level.

Modernization and repair of existing facilities.—This activity includes rehabilitation, modernization and renovation of buildings, other structures, and associated systems, necessary modifications to meet legal requirements and accommodate correctional programs, repair or replacement of utilities systems and other critical infrastructure and repair projects at existing facilities to maintain life safety conditions.

Federal Prison Industries, Inc., was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to offer a minimum of competition to private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

The Corporation strives to provide additional industrial employment opportunities at existing and planned institutions.

Budget program.—Federal Prison Industries, Inc., operations are entirely self-sustaining, and no appropriations are required for its operations. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

Financing program.—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay accident compensation.

Operating results.—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income excess to the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs (OJP) is requesting \$167.3 million for the Justice Assistance appropriation for 2008. This appropriation account includes programs that provide grants, contracts and cooperative agreements for research, development and evaluation; development and dissemination of quality statistical and scientific information; and promotion and expansion of law enforcement information sharing initiatives and systems.

Through leadership, funding and technical support, OJP plays a significant role in the development of new technologies to assist law enforcement, corrections personnel and courts in protecting the public and guides the development of new techniques and technologies in the areas of crime prevention, forensic science, and violence and victimization research. The research and statistical data compiled by OJP staff are used at all levels of government to guide decision making and planning efforts related to law enforcement, courts, corrections and other criminal justice issues. Grants, technical assistance and national leadership provided by OJP supported the establishment of the Regional Information Sharing System, which has emerged as one of the nation's most important law enforcement intelligence sharing networks, and continue to support efforts to expand and improve information sharing among the nations Federal, State local and tribal law enforcement and criminal justice agencies.

The Office of Justice Programs (OJP) is requesting \$550 million for the State and Local Law Enforcement Assistance appropriation. This appropriation account includes programs that are designed to further establish and maintain partnerships with State, local, and tribal governments and, through its program activities, provide Federal leadership regarding matters including violent crime, criminal gang activity, illegal drugs, and related justice system issues. The discretionary grants, training programs, and technical assistance activities authorized under this account assist law enforcement agencies, courts, and other components of the criminal justice system with resources that help them prevent and address violent crime, protect the public, and ensure that offenders are held accountable for their actions. The funding requested under this account will fund the following two discretionary, multi-purpose grant programs.

The Violent Crime Reduction Partnership Initiative will help communities suffering from high rates of violent crime to address this problem by forming and developing effective multi-jurisdictional law enforcement partnerships between local, State, and Federal law enforcement agencies. Through a competitive grant process, OJP will provide funding and technical assistance to communities seeking to establish partnerships to investigate and reduce violent crime—including efforts to address drug trafficking and criminal gang activity, which contribute to many violent offenses.

The Byrne Public Safety and Protection (Byrne) Program consolidates OJP's most successful State and local law enforcement assistance programs into a single, flexible grant that will help State, local, and tribal governments develop programs appropriate to the particular needs of their jurisdiction. Through a competitive grant process, OJP will assist State and local governments in addressing a number of high-priority concerns, such as: (1) reducing violent crime at the local levels through the Project Safe Neighborhoods initiative; (2) addressing the criminal justice issues surrounding substance abuse through drug courts, residential treatment for prison inmates, prescription drug monitoring programs, methamphetamine lab cleanup, and cannabis eradication efforts; (3) promoting and enhancing law enforcement information sharing efforts; (4) improving the capacity of State and local

law enforcement and justice system personnel to make use of forensic evidence and reducing DNA evidence analysis backlogs; (5) addressing domestic trafficking in persons; (6) improving and expanding prisoner re-entry initiatives; and (7) improving services to victims of crime to facilitate their participation in the legal process.

The Office on Violence Against Women provides national leadership against domestic violence, dating violence, sexual assault, and stalking and supports a multifaceted approach to responding to these crimes. Funding will support the Prevention and Prosecution of Violence Against Women and Related Victim Services Program. This appropriation account supports a new consolidated, competitive grant program, including contracts, cooperative agreements and other assistance to support State, local, tribal and community efforts to develop and implement effective, coordinated prevention and prosecution of domestic violence, dating violence, sexual assault and stalking, and support related victims services. Such awards are designed to forge state, local and tribal partnerships among police, prosecutors, the judiciary, victim advocates, health care providers, faith leaders, and others, in order to help provide victims with the protection and services they need to pursue safe and healthy lives, while simultaneously enabling communities to hold offenders accountable.

The Office of Justice Programs (OJP) is requesting \$280 million for the Juvenile Justice Programs appropriation for 2008. This appropriation account includes programs that support State, local and tribal community efforts to develop and implement effective, coordinated prevention and intervention juvenile programs.

Such programs are designed to: reduce juvenile delinquency and crime; protect children from sexual exploitation; and improve the juvenile justice system so that it protects public safety, holds offenders accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

Funding will support the Child Safety and Juvenile Justice Program, which consolidates existing juvenile justice and exploited children programs such as the Internet Crimes Against Children into a single, flexible grant program. Through a competitive discretionary grant process, OJP will assist State and local governments in addressing multiple child safety and juvenile justice needs to: reduce incidents of child exploitation and abuse, including those facilitated by the use of computers and the Internet, improve juvenile justice outcomes, and address school safety needs.

America's youth are facing an ever changing set of problems and barriers to successful lives. As a result, OJP is constantly challenged to develop enlightened policies and programs to address the needs and risks of those youth who enter the juvenile justice system. OJP remains committed to leading the nation in efforts addressing these challenges which include: preparing juvenile offenders to return to their communities following release from secure correctional facilities; dealing with the small percentage of serious, violent, and chronic juvenile offenders; helping States address the disproportionate confinement of minority youth; and helping children who have been victimized by crime and child abuse.

The Office of Justice Programs (OJP) is requesting \$58.8 million for the Public Safety Officers Benefits (PSOB) appropriation for 2008. This appropriation account supports a \$49.7 million mandatory program and two discretionary programs totaling \$9.1 million: (1) \$5 million for disability payments; and (2) \$4.1 million for educational assistance. Funds provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a thirty-year partnership among the Department of Justice; national public safety organizations; and State, local, and tribal public safety agencies.

Programs supported by the Crime Victims Fund focus on providing compensation to victims of crime and survivors; supporting appropriate victims services programs and victimization prevention strategies; and building capacity to improve response to crime victims needs and increase offender accountability. The Fund was established to address the continuing need to expand victim services programs and assist State, local, and tribal governments in providing appropriate services to their communities.

The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Fed-

eral crimes. The 2008 Budget proposes to appropriate \$625 million from collections and balances to provide for victim compensation, services, and related needs.

GENERAL PROVISIONS

SEC. 101. In addition to amounts otherwise made available in this title for official reception and representation expenses, a total of not to exceed \$60,000 from funds appropriated to the Department of Justice in this title shall be available to the Attorney General for official reception and representation expenses.

SEC. 102. None of the funds appropriated by this title shall be available to pay for an abortion, except where the life of the mother would be endangered if the fetus were carried to term, or in the case of rape: Provided, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.

SEC. 103. None of the funds appropriated under this title shall be used to require any person to perform, or facilitate in any way the performance of, any abortion.

SEC. 104. Nothing in the preceding section shall remove the obligation of the Director of the Bureau of Prisons to provide escort services necessary for a female inmate to receive such service outside the Federal facility: Provided, That nothing in this section in any way diminishes the effect of section 103 intended to address the philosophical beliefs of individual employees of the Bureau of Prisons.

SEC. 105. Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Justice in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: Provided, That any transfer pursuant to this section shall be treated as a reprogramming of funds under section 605 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

SEC. 106. The Attorney General is authorized to extend through September 30, 2009, the Personnel Management Demonstration Project transferred to the Attorney General pursuant to section 1115 of the Homeland Security Act of 2002, Public Law 107-296 (6 U.S.C. 533) without limitation on the number of employees or the positions covered.

SEC. 107. Notwithstanding any other provision of law, Public Law 102-395 section 102(b) shall extend to the Bureau of Alcohol, Tobacco, Firearms and Explosives in the conduct of undercover investigative operations and shall apply without fiscal year limitation with respect to any undercover investigative operation initiated by the Bureau of

Alcohol, Tobacco, Firearms and Explosives that is necessary for the detection and prosecution of crimes against the United States.

SEC. 108. None of the funds made available to the Department of Justice in this Act may be used for the purpose of transporting an individual who is a prisoner pursuant to conviction for crime under State or Federal law and is classified as a maximum or high security prisoner, other than to a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

SEC. 109. Section 589a of title 28, United States Code, is amended in subsection (b) by—

(a) striking “and” in paragraph (8);

(b) striking the period in paragraph (9) and inserting “; and”; and

(c) adding the following new paragraph “(10) fines imposed under section 110(l)(4)(A) of title 11, United States Code.”.

SEC. 110. (a) Section 1930(a) of title 28, United States Code, is amended in paragraph (6) by striking everything after “whichever occurs first.” and inserting in lieu thereof:

“The fee shall be \$325 for each quarter in which disbursements total less than \$15,000; \$650 for each quarter in which disbursements total \$15,000 or more but less than \$75,000; \$975 for each quarter in which disbursements total \$75,000 or more but less than \$150,000; \$1,625 for each quarter in which disbursements total \$150,000 or more but less than \$225,000; \$1,950 for each quarter in which disbursements total \$225,000 or more but less than \$300,000; \$4,875 for each quarter in which disbursements total \$300,000 or more but less than \$1,000,000; \$6,500 for each quarter in which disbursements total \$1,000,000 or more but less than \$2,000,000; \$9,750 for each quarter in which disbursements total \$2,000,000 or more but less than \$3,000,000; \$10,400 for each quarter in which disbursements total \$3,000,000 or more but less than \$5,000,000; \$13,000 for each quarter in which disbursements total \$5,000,000 or more but less than \$15,000,000; \$20,000 for each quarter in which disbursements total \$15,000,000 or more but less than \$30,000,000; \$30,000 for each quarter in which disbursements total more than \$30,000,000. The fee shall be payable on the last day of the calendar month following the calendar quarter for which the fee is owed. (b) This section and the amendment made by this section shall take effect January 1, 2008, or the date of the enactment of this Act, whichever is later.”

SEC. 111. Of the unobligated recoveries from prior year appropriations for the Office of Justice Programs, \$87,500,000 shall be cancelled.
