The Office of the Secretary covers the overall planning, coordination and administration of the Department's programs. This includes the Secretary, Deputy Secretary, Under Secretaries, Assistant Secretaries, and their immediate staffs, who provide top policy guidance for the Department; maintain relationships with agricultural organizations and others in the development of farm programs; and provide liaison with the Executive Office of the President and Members of Congress on all matters pertaining to agricultural policy.

Funds are proposed for the Office of the Secretary's account for negotiating and monitoring trade agreements; for technical trade support in the areas of biotechnology, sanitary and phyto-sanitary issues. Additional funding is also proposed for the expenses of the Provincial Reconstruction Teams in Iraq and Afghanistan. USDA continues to support the agricultural reconstruction and development in these countries by providing agricultural advisors to assist on activities such as irrigation system rehabilitation, post-harvest loss reduction, and marketing system improvements. USDA has placed advisors in the Ministry of Agriculture in Iraq to assist agriculture planning, extension, and food safety and inspection.

Executive Operations provides support for USDA policy officials and selected Department-wide services.

The Office of the Chief Economist advises the Secretary of Agriculture on the economic implications of Department policies and programs and proposed legislation. The Office serves as the single focal point for the Nation's economic intelligence and analysis, risk assessment, and cost-benefit analysis related to domestic and international food and agriculture, provides policy direction for biofuels and new uses, and is responsible for coordination and clearance review of all commodity and aggregate agricultural and food-related data used to develop outlook and situation material within the Department.

	2006 actual	2007 est.	2008 est.
World Agricultural Supply and Demand Estimates Reports			
issued	12	12	12
Weekly Weather and Crop Bulletin issued	52	52	52

The National Appeals Division conducts administrative hearings and reviews of adverse program decisions made by the Farm Service Agency, the Risk Management Agency, the Natural Resources Conservation Service, and the Rural Development mission area.

The Office of Budget and Program Analysis coordinates the preparation of departmental budget estimates and legislative reports; administers systems for the allotment and apportionment of funds; provides policy, program and budgetary analysis of United States Department of Agriculture (USDA) programs and proposals; and provides staff assistance to USDA agencies in meeting their responsibility for the development and review of regulations.

The Homeland Security Staff formulates emergency preparedness policies and objectives for USDA. The Staff directs and coordinates all of the Department's program activities that support USDA emergency programs and liaison functions with the Congress, the Department of Homeland Security, and other Federal departments and agencies involving homeland security, natural disasters, other emergencies, and agriculture-related international civil emergency planning and intelligence activities.

The Secretary established the Office of the Chief Financial Officer (OCFO) in 1995 under authority provided in Reorganization Plan Number 2 of 1953 (7 U.S.C. 2201) to comply with the CFO Act of 1990. OCFO focuses on the Department's financial and performance management activities to improve program delivery and assure maximum contribution to the Secretary's Strategic Goals.

Funding is requested to implement the Financial Management Modernization Initiative (FMMI) for the Department. Through FMMI, USDA will replace outdated mainframe technology with a modern, interactive core financial system which will strengthen the Departments internal controls, eliminate material weaknesses, and diminish improper payments. By consolidating several systems from across the Department, FMMI will allow for improved financial management and functional capability for USDA.

The Clinger-Cohen Act of 1996 required the establishment of a Chief Information Officer (CIO) for all major Federal agencies. The Act requires USDA to maximize the value of information technology acquisitions to improve the efficiency and effectiveness of USDA programs. To meet the intent of the law and to provide a Departmental focus for information resources management issues, Secretary's Memorandum 1030–30, dated August 8, 1996, established the Office of the Chief Information Officer (OCIO). The CIO serves as the primary advisor to the Secretary and Mission Area Heads on information technology issues. OCIO provides leadership for the Department's information and information technology (IT) management activities in support of USDA program delivery.

OCIO is leading USDA's efforts to transform the Department's delivery of information, programs, and services using integrated services that simplify citizen's interaction with their Government. OCIO is designing the Department's Enterprise Architecture to efficiently support USDA's move towards consolidation and standardization. OCIO is strengthening USDA's Computer Security Program to mitigate threats to USDA's information and IT assets and support the Department's Homeland Security efforts. OCIO continues to facilitate the USDA IT Capital Planning and Control investment review process by providing guidance and support to the Department's Executive IT Investment Review Board, which approves all major technology investments to ensure that they economically and effectively support program delivery.

In addition, OCIO is coordinating the Departments participation in 21 Presidential E-Government initiatives and 8 Lines of Business to support the President's Management Agenda goal to expand E-Government. Through these activities, the Department is transforming and enhancing its program delivery while improving the availability of information to the public

Funded through the USDA Working Capital Fund, OCIO provides automated data processing (ADP) and wide-area tele-communications services to all USDA agencies through the National Information Technology Center and the Tele-communications Services and Operations organization, with locations in Ft. Collins, Colorado; Kansas City, Missouri; and Washington, D.C. Direct ADP services are provided to the Office of the Secretary, Office of the General Counsel, Office of Communications, Office of the Chief Financial Office, and Executive Operations.

OCIO also has direct management responsibility for the IT component of the Service Center Modernization Initiative. This includes the implementation of a common technology infrastructure to replace the outdated and stove-piped systems supporting the Farm Service Agency, the Natural Resources Conservation Service, and Rural Development.

#### PERFORMANCE MEASURES

#### Office of the Chief Information Officer

	FY 2005	FY 2006	FY 2007
Increase Return on Investment (ROI) for eGovernment and Lines of Business (LOB) common solutions	N.A.	5%	5%
Percent of USDA IT systems that are certified, accredited, or otherwise authorized as being properly secured	100%	100%	100%
Percent of identified population that completed annual security awareness refresher training	90%	90%	90%

Number of program security reviews completed	8	8	8
Through the use of Earned Value Management (EVM), increase the percentage of USDA IT projects that are within 10% of			
cost/schedule/performance objectives	100%	100%	100%

The Department of Agriculture Reorganization Act of 1994 requires the Secretary of Agriculture to procure and use computer systems in a manner that enhances efficiency, productivity, and client services, and that promotes computer information sharing among agencies of the Department. The USDA Service Center Modernization Initiative (SCMI) created the common computing environment (CCE) to optimize information sharing, customer service, and staff efficiencies. The funds provided under this account fund essential capital investments. Without these investments, the Department's ability to provide timely and efficient services will continue to erode. A reorganization that combines the information technology (IT) staffs of the Service Center Agencies (SCA) into one IT organization with OCIO went into effect on November 28, 2004. The organization, the Information Technology Services (ITS), replaced a network of cross-agency teams used to co-ordinate IT infrastructure investment within the SCA and allows for unified management of the IT infrastructure. The ITS delivers the following classes of technology services: Acquisition and Asset Management, Application Development and Deployment, Customer Support and End User Computing, Data Utility, Hosting, Security, Telecommunications and Web Services. Service Level Agreements (SLAs) that specify performance metrics will be negotiated with the SCA for each class of service. For 2008, funding for this account is being requested through the individual agencies.

This fund finances by advances or reimbursements certain central services in the Department of Agriculture, including duplicating and other visual information services, art and graphics, video services, supply, centralized accounting systems, centralized automated data processing systems for payroll, personnel, and related services, voucher payments services, and Information Technology systems. The National Finance Center's expenses are also funded through this fund. The capital consists of \$400 thousand appropriated (7 U.S.C. 2235), and subsequent appropriations of \$45 million as of September 30, 2006. Earnings are kept at a low level through adjustments in rates charged for services to maintain as nearly as possible the nonprofit nature of the fund.

The Office of Civil Rights (CR) provides overall leadership responsibility for all Department-wide civil rights activities including employment opportunity and program non-discrimination policy development, analysis, coordination, and compliance. CR is responsible for providing leadership in the implementation of best practices that will create an environment where diversity is valued as a source of strength. CR has the responsibility for monitoring program activities to ensure that all USDA programs are delivered in a non-discriminatory manner.

Departmental Administration is comprised of activities that provide staff support to top policy officials and overall direction and coordination of the Department. These activities include Department-wide programs for human capital management, ethics, occupational safety and health management, real and personal property management, acquisitions and contracting, motor vehicle and aircraft management, supply management, participation of small and disadvantaged businesses, service-disabled veterans programs, emergency preparedness, and the regulatory hearing and administrative proceedings conducted by the Administrative Law Judges, and Judicial Officer.

Departmental Administration is also responsible for representing USDA in the development of Government-wide policies and initiatives; analyzing the impact of Government-wide trends and developing appropriate USDA principles, policies, and standards. In addition, Departmental Administration engages in strategic planning and evaluating programs to ensure USDA-wide compliance with applicable laws, rules, and regulations pertaining to administrative matters for the Secretary and general officers of the Department.

Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Resource Con-

OFFICE OF COMMUNICATIONS
Federal Funds

63

DEPARTMENT OF AGRICULTURE

servation and Recovery Act (RCRA), the Department has the responsibility to meet the same standards for environmental cleanup and regulatory compliance regarding hazardous wastes and hazardous substances as private businesses. With substantial commitments under these Acts, a central fund has been established so that the Department's agencies may be reimbursed for their cleanup efforts. Projects are selected for funding according to objective criteria.

# AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS (INCLUDING TRANSFERS OF FUNDS)

For payment of space rental and related costs pursuant to Public Law 92-313, including authorities pursuant to the 1984 delegation of authority from the Administrator of General Services to the Department of Agriculture under 40 U.S.C. 486, for programs and activities of the Department which are included in this Act, and for alterations and other actions needed for the Department and its agencies to consolidate unneeded space into configurations suitable for release to the Administrator of General Services, and for the operation, maintenance, improvement, and repair of Agriculture buildings and facilities, and for related costs, \$216,837,000, to remain available until expended, of which \$156,590,000 shall be available for payments to the General Services Administration for rent and the Department of Homeland Security for building security: Provided, That amounts which are made available for space rental and related costs for the Department of Agriculture in this Act may be transferred between such appropriations to cover the costs of additional, new, or replacement space 15 days after notice thereof is transmitted to the Appropriations Committees of both Houses of Congress.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This account finances the General Services Administration's fees for rental of space and the Department of Homeland Security for security-related fees. The appropriation covers all fees for all regular appropriated accounts within the Department of Agriculture with the exception of the Forest Service. This account also finances the day to day operations, repair, improvement and maintenance activities of the four buildings in the Headquarters complex.

The Office keeps the Secretary and Congress informed about fraud, other serious problems, mismanagement, and deficiencies in Department programs and operations, recommends corrective action, and reports on the progress made in correcting the problems. It reviews existing and proposed legislation and regulations and makes recommendations to the Secretary and Congress regarding the impact these laws have on the Department's programs and the prevention and detection of fraud and mismanagement in such programs. The Office provides policy direction and conducts, supervises, and coordinates all audits and investigations. The Office supervises and coordinates other activities in the Department and between the Department and other Federal, State and local government agencies whose purposes are to: (a) promote economy and efficiency; (b) prevent and detect fraud and mismanagement; and (c)

The Economic Research Service provides economic and other social science research and analysis for public and private decisions on agriculture, food, natural resources, and rural America.

Miscellaneous funds received from States, local organizations, and others are available for support of economic research and analysis (7 U.S.C. 450b, 450h, 3318b).

The 2008 Budget request includes a program increase of \$5 million to strengthen and enhance the ERS market analysis and outlook program to provide timely analysis of global agricultural product markets and a program increase of \$1 million to strengthen ERS' research and modeling capacity in the area of bio-energy. Particular emphasis will be given to the market impacts associated with bio-energy development.

Agricultural estimates.—The Service provides the official National and State estimates of acreage, yield, and production of crops, stocks, and value of farm commodities, and numbers of inventory values of livestock items. Data on approximately 120 crops and 45 livestock products are covered in over 500 reports issued each year. Detailed data are also collected on agricultural chemical use, labor, and expenditures. In addition, the Census of Agriculture is conducted every five years which provides comprehensive data on the Nation's agricultural industry down to the county level. Incentives and promotional items are used by NASS to support outreach efforts to maximize response rates on surveys and the Census of Agriculture.

The work under this activity is conducted through 46 field offices serving the 50 States and Puerto Rico; most of these offices are operated as joint State and Federal services. Cooperative arrangements with State agencies provide additional State and county data.

Census of Agriculture.—The Census of Agriculture is conducted every five years. A proposed program increase of \$24.7 million due to cyclical activities will be used for many significant data collection and processing activities to occur in 2008.

Miscellaneous funds received from local organizations, commodity groups, and others are available for dissemination of reports and for survey work conducted under cooperative agreements (7 U.S.C. 450b, 450h, 3318b).

### AGRICULTURAL RESEARCH SERVICE

#### Federal Funds

#### SALARIES AND EXPENSES

For necessary expenses to enable the Agricultural Research Service to perform agricultural research and demonstration relating to production, utilization, marketing, and distribution (not otherwise provided for); home economics or nutrition and consumer use including the acquisition, preservation, and dissemination of agricultural information; and for acquisition of lands by donation, exchange, or purchase at a nominal cost not to exceed \$100, and for land exchanges where the lands exchanged shall be of equal value or shall be equalized by a payment of money to the grantor which shall not exceed 25 percent of the total value of the land or interests transferred out of Federal ownership, \$1,021,517,000: Provided, That appropriations hereunder shall be available for the operation and maintenance of aircraft and the purchase of not to exceed one for replacement only: Provided further, That appropriations hereunder shall be available pursuant to 7 U.S.C. 2250 for the construction, alteration, and repair of buildings and improvements, but unless otherwise provided, the cost of constructing any one building shall not exceed \$375,000, except for headhouses or greenhouses which shall each be limited to \$1,200,000, and except for 10 buildings to be constructed or improved at a cost not to exceed \$750,000 each, and the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building or \$375,000, whichever is greater: Provided further, That the limitations on alterations contained in this Act shall not apply to modernization or replacement of existing facilities at Beltsville, Maryland: Provided further, That appropriations hereunder shall be available for granting easements at the Beltsville Agricultural Research Center: Provided further, That the foregoing limitations shall not apply to replacement of buildings needed to carry out the Act of April 24, 1948 (21 U.S.C. 113a): Provided further, That funds may be received from any State, other political subdivision, organization, or individual for the purpose of establishing or operating any research facility or research project of the Agricultural Research Service, as authorized by law: Provided further. That the Secretary, through the Agricultural Research Service, or successor, is authorized to lease approximately 40 acres of land at the Central Plains Experiment Station, Nunn, Colorado, to the Board of Governors of the Colorado State University System, for its Shortgrass Steppe Biological Field Station, on such terms and conditions as the Secretary deems in the public interest: Provided further, That the Secretary understands that it is the intent of the University to construct research and educational buildings on the subject acreage and to conduct agricultural research and educational activities in these buildings: Provided further, That as consideration for a lease, the Secretary may accept the benefits of mutual cooperative research to be conducted by the Colorado State University and the Government at the Shortgrass Steppe Biological Field Station: Provided further, That the term of any lease shall be for no more than 20 years, but a lease may be renewed at the option of the Secretary on such terms and conditions as the Secretary deems in the public interest: Provided further, That the Agricultural Research Service may convey all rights and title of the United States, to a parcel of land comprising approximately 19 acres, located in Section 2, Township 18 North, Range 14 East in Oktibbeha County, Mississippi, originally conveyed by the Board of Trustees of the Institution of Higher Learning of the State of Mississippi, and described in instruments recorded in Deed Book 306 at pages 553-554, Deed Book 319 at page 219, and Deed Book 33 at page 115, of the public land records of Oktibbeha County, Mississippi, including facilities, and fixed equipment, to the Mis-

#### SALARIES AND EXPENSES—Continued

sissippi State University, Starkville, Mississippi, in their "as is" condition, when vacated by the Agricultural Research Service: Provided further, That none of the funds appropriated under this heading shall be available to carry out research related to the production, processing, or marketing of tobacco or tobacco products. (7 U.S.C. 328, 427, 427i, 1281 note, 1621, 2201, 2204, 2225, 3101 note; 10 U.S.C. 2306; 16 U.S.C. 590(a)-590(b), 590(k); 18 U.S.C. 1114; 19 U.S.C. 1306(a), 1306(c); 20 U.S.C. 191–194; 21 U.S.C. 114c, 114e–131; 42 U.S.C. 1476(e), 1483.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Agricultural Research Service conducts research to provide the means for a safer, more economical supply of agricultural products for the Nation and to provide producers with technologies to competitively supply these products. Technology needs of regulatory, technical assistance and education agencies of USDA and other Federal agencies are supported through ARS research. The Service uses coordinated, interdisciplinary approaches to perform basic and applied research on soil and water conservation, plant and animal sciences, commodity conversion and delivery, human nutrition, and integrated agricultural systems. In 2008, the Service proposes increased emphases for critical research needs in agriculture, such as: support for homeland security efforts to protect the Nations food supply (emerging and exotic diseases of animals, food safety, and security for overseas biological control laboratories); renewable energy sources; equipment for the National Centers for Animal Health; obesity; genomics; genetic resources (specialty crops and plant introduction stations); organic production systems; and agricultural information services. Consistent with the 2007 Budget, the 2008 Budget also proposes to eliminate funding for unrequested Congressional earmarks added to the Service since 2001. In 2006, the Service submitted 83 new patent applications, participated in 54 Cooperative research and development agreements (CRADAs), licensed 25 new products, and developed 51 new plant varieties to release to industry for further development and marketing.

Product Quality/Value Added.—New products, new uses, and value-added processes that appeal to consumers will create additional demand-driven need for agricultural production, thus providing more opportunities for agricultural producers and businesses. Biobased technologies promise new opportunities for energy, industrial and pharmacological markets for U.S. farmers. New markets are emerging for environmental activities and products that mitigate environmental concerns.

Livestock Production.—Intense competition in global markets emphasizes the need for American agriculture to pursue and market higher value animal products. Research must respond to consumer demands for healthier and safer products to ensure a sustainable and profitable livestock production system that produces affordable value-added food, fiber, and industrial products. These superior technologies must effectively differentiate U.S. agricultural products from competing sources and provide customers with value-added processes that enhance product quality.

DEPARTMENT OF AGRICULTURE

AGRICULTURE

AGRICULTURE AGRICULTURE

AGRICULTURAL RESEARCH SERVICE—Continued Federal Funds—Continued

Crop Production.—ARS will develop and disseminate science-based information to provide U.S. crop producers with increased flexibility to effectively manage unforeseen risks that impact profitability and product quality. U.S. agricultural production and marketability is constantly influenced by factors such as unpredictable weather, disease and pest outbreaks, and changing consumer demands. Use of genetically diverse germplasm resource collections and best management practices require research that helps improve production efficiency and productivity through the development of pest resistant varieties and information to facilitate decision-making.

Food Safety.—For the Nation to have affordable and safe food, the food system must be protected at each step from production to consumption. The production and distribution system for food in the United States has been a diverse, extensive, and easily accessible system. This open system is vulnerable to the introduction of pathogens and toxins through natural processes, global commerce, and by intentional means. Thus, the food supply must be protected during production, processing, and preparation from pathogens, toxins, and chemical contamination that cause disease in humans.

Livestock Protection.—Economic sustainability of livestock production systems in both domestic and global markets is limited by the disease status of the animals. Many factors affect the likelihood of diseases in livestock. These include globalization and international commerce, presence of pathogen vectors, industrialization of agriculture, availability of vaccines and protection systems, movements of animals during production, continued emergence of new diseases, genetic resistance, and the availability of vaccines and protection systems, movements of animals during production, continued emergence of new disease, genetic resistance, and the availability of trained animal health specialists. Livestock production systems are in transition from open and extensive systems to more closely monitored intensive management systems which remain vulnerable to accidental and intentional exposure to pathogens. Many of these pathogens are zoonotic and impact public health.

Crop Protection.—Economic sustainability of agricultural crop production in both domestic and global markets is limited by the disease status of crops. Many factors affect the likelihood of diseases to crops including, globalization and international commerce, presence of pathogen vectors, availability of protection systems, continued emergence of new disease, genetic resistance of crops, and the availability of trained plant health specialists. Crop systems have limited diversity and will remain extensive and thereby more vulnerable to intentional exposure to pathogens.

Human Nutrition.—Improving the Nation's health requires enhancing the quality of the American diet. The United States is experiencing an obesity epidemic resulting from multi-faceted causes including a "more is better" mindset, a sedentary lifestyle, and the selection of readily available high calorie foods. In addition, four of the top ten causes of death in the U.S.—cardiovascular disease, cancer, stroke, and diabetes-are associated with the quality of our diets-diets too high in calories, total fat, saturated fat, cholesterol, or too low in fiber. Americans want fresh foods that taste good, are convenient to prepare and consume, and yet, offer nutrition and health benefits. Building a strong connection between agriculture and human health is an important step to providing a nutritionally enhanced food supply. Promoting healthier food choices and educating Americans to balance caloric intake with sufficient daily physical activity are vital steps to preventing obesity and decreasing risk for chronic disease.

Environmental Stewardship.—Agriculture relies on a natural resource base whose sustainability depends on sound, science-based production practices. The management of our

renewable resources often seems to be a continuous balancing of conflicting and competing goals and concerns. While this is often the case, particularly in the short-term, longer-term management strategies combined with adequate knowledge of the complex natural systems can yield maximum sustainable benefits from our resources that can satisfy most competing concerns. The outcome will be technology and practices that will mitigate the adverse impact of agriculture on the environment, moderate the build up of green house gasses that may contribute to climate change, and remove the necessity of farming environmentally sensitive marginal lands.

69

Library and Information Services.—Timely, relevant information is an essential raw material for the research process as well as for effective policy development and decision-making. Targeted information services are also required to support specialized USDA audiences such as inspectors, regulators, nutritionists, and others, as well as their peers, customers and stakeholders nationwide. The general public requires information on a very broad set of agriculture-related topics, ranging from small business development to gardening to nutrition to food safety to farming to textiles to statistics and beyond. Also, the permanent preservation of USDAs and the Nation's agricultural intellectual heritage is a key national responsibility. The National Agricultural Library (NAL) is mandated to fulfill these roles and is a national resource for all users of agricultural information. NAL's work in collecting, preserving and ensuring access to agricultural information is fundamental to the continued wellbeing and growth of U.S. agriculture, and the development of food supplies for the nation and world.

Repair and maintenance of facilities.—Funds are used to restore, upgrade, and maintain Federal facilities to meet OSHA and EPA requirements, provide suitable workspace for in-house research programs, and to retrofit existing structures for better energy utilization.

Collaborative Research Program.—Funds from the U.S. Agency for International Development (AID), allow USDA to provide short-term scientific exchanges to the New Independent States of the former Soviet Union (NIS), in developing a market-based agricultural system necessary to meet the food needs of their populations and to develop and strengthen trade linkages between their countries and related agribusiness and agricultural enterprise in the U.S.

Reimbursements.—Agricultural Research Service performs program research activities and services for other USDA, Federal, and non-Federal agencies. These activities and services are paid for on a reimbursable basis.

# COOPERATIVE STATE RESEARCH. EDUCATION, AND EXTENSION SERVICE

#### Federal Funds

#### INTEGRATED ACTIVITIES

For the integrated research, education, and extension grants programs, including necessary administrative expenses, \$20,120,000, as follows: for a competitive international science and education grants program authorized under section 1459A of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3292b), to remain available until expended, \$1,990,000; for grants programs authorized under section 2(c)(1)(B) of Public Law 89-106, as amended, \$2,475,000, to remain available until September 30, 2009 for the critical issues program; \$1,378,000 for the regional rural development centers program; and \$14,277,000 for the Food and Agriculture Defense Initiative authorized under section 1484 of the National Agricultural Research, Extension, and Teaching Act of 1977, to remain available until September 30, 2009. (7 U.S.C. 450i(c)(1)(B), 3292b, 3351, 7626.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution  $(P.L.\ 109-289,\ Division\ B,\ as\ amended).$  The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Under the Integrated Activities account, research, education and/or extension grants are awarded for competitive and noncompetitive programs. In 2008, the Budget proposes that Section 406 activities, formerly supported under the Integrated account, be supported within the Research and Education account. These grants will be administered through the National Research Initiative (NRI). This will allow greater flexibility and responsiveness to changing needs in these targeted activities.

Critical issues program.—Funds are proposed to develop early intervention strategies to prevent, manage or eradicate new and emerging diseases, both plant and animal, which would prevent loss of revenue to growers or producers.

Regional rural development centers.—Funding supports activities that pursue a holistic development strategy that tailors programming to meet regional and local needs and addresses areas of opportunity arising from a consumer-driven agricultural economy.

Food and agriculture defense initiative (homeland security).—The program provides support to an unified network of public agricultural institutions to identify and respond to high risk biological pathogens in the food and agricultural system. The 2008 Budget includes an increase to enhance agricultural defense. In particular, funding will maintain and enhance risk management tools for Asian soybean rust and other pathogens of legumes. Additional funding for these laboratories is included in the Animal and Plant Health Inspection Service.

1998 Research Act.—Adequate funding for similar research is proposed through other USDA research programs.

#### RESEARCH AND EDUCATION ACTIVITIES

For payments to agricultural experiment stations, for cooperative forestry and other research, for facilities, and for other expenses, \$562,518,000, as follows: to carry out the provisions of the Hatch Act of 1887 (7 U.S.C. 361a-i), \$164,430,000, of which, notwithstanding the provisions of section 3(b) and (c) of the Hatch Act of 1887 (7 U.S.C. 361c(b) and (c)) and after allocation of the amount provided under section 3(c)(4) of such act (7 U.S.C. 361c(c)(4)), \$66,070,000 shall be allocated in the same proportions as funds were allocated under sections 3(b), 3(c)(1) and (2) of such act (7 U.S.C. 361c(b)and (c)(1) and (2)) for fiscal year 2007, and \$98,360,000 shall be available for continued funding of current grants and competitive award of grants with terms not to exceed five years under the Multistate Research Fund established under section 3(c)(3) of such act (7 U.S.C. 361c(c)(3)); for grants for cooperative forestry research (16 U.S.C. 582a through a-7), \$20,487,000, of which \$7,515,000 shall be allocated to eligible institutions on the same basis as such funds were allocated in FY 2007 and \$12,972,000 shall be available for competitive grants to institutions eligible under 16 U.S.C. 582a-1 under the terms specified in subsections (c) through (f) of section 1232 of Public Law 101-624 (16 U.S.C. 582a-8(c) through (f)) subject to a 100 percent match by the recipient; for payments to the 1890 land-grant colleges, including Tuskegee University and West Virginia State University (7 U.S.C. 3222), \$38,331,000, of which \$1,507,000 shall be made available only for the purpose of ensuring that each institution shall receive no less than \$1,000,000; for special grants for agricultural research (7 U.S.C. 450i(c)), \$3,258,000; for special grants for agricultural research on improved pest control (7 U.S.C. 450i(c)), \$14,856,000; for competitive research grants (7 U.S.C. 450i(b)), \$256,500,000, to remain available until expended; for the 1994 research grants program for 1994 institutions pursuant to section 536 of Public Law 103-382 (7 U.S.C. 301 note), \$1,067,000, to remain available until expended; for higher education graduate fellowship grants (7 U.S.C. 3152(b)(6)), \$4,455,000, to remain available until expended (7 U.S.C. 2209b); for higher education challenge grants (7 U.S.C. 3152(b)(1)), \$5,445,000; for a higher education multicultural scholars program (7 U.S.C. 3152(b)(5)), \$988,000, to remain available until expended (7 U.S.C. 2209b); for a higher education agrosecurity education program (7 U.S.C. 3351), \$5,000,000 to remain available until expended; for an education grants program for Hispanic-serving Institutions (7 U.S.C. 3241), \$5,588,000; for noncompetitive grants for the purpose of carrying out all provisions of 7 U.S.C. 3242 (section 759 of Public Law 106-78) to individual eligible institutions or consortia of eligible institutions in Alaska and in Hawaii, with funds awarded equally to each of the States of Alaska and Hawaii, \$2,967,000; for a secondary agriculture education program and 2year post-secondary education (7 U.S.C. 3152(j)), \$990,000; for aquaculture grants (7 U.S.C. 3322), \$3,956,000; for sustainable agriculture research and education (7 U.S.C. 5811), \$9,138,000; for a program of capacity building grants (7 U.S.C. 3152(b)(4)) to colleges eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321-326 and 328), including Tuskegee University and West Virginia State University, \$12,375,000, to remain available until expended (7 U.S.C. 2209b); for payments to the 1994 Institutions pursuant to section 534(a)(1) of Public Law 103-382, \$2,227,000; for resident instruction grants for insular areas under section 1491 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3363), \$495,000; and for necessary expenses of Research and Education Activities, \$9,965,000, of which \$2,723,000 for the Research, Education, and Economics Information System and \$2,151,000 for the Electronic Grants Information System, are to remain available until expended: Provided, That none of the funds appropriated under this heading shall be available to carry our research related to the production, processing, or marketing of tobacco or tobacco products: Provided further, That this paragraph shall not apply to research on the medical, biotechnological, food, and industrial uses of tobacco.

#### NATIVE AMERICAN INSTITUTIONS ENDOWMENT FUND

For the Native American Institutions Endowment Fund authorized by Public Law 103–382 (7 U.S.C. 301 note), \$11,880,000, to remain available until expended.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Cooperative State Research, Education, and Extension Service participates in a nationwide system of agricultural research and education program planning and coordination between State institutions and the U.S. Department of Agriculture. It assists in maintaining cooperation among the State institutions, and between the State institutions and their Federal research partners. The agency administers grants and payments to State institutions to supplement State and local funding for agricultural research and higher education.

Payments under the Hatch Act.—Funds under the Hatch Act are allocated on a formula basis to agricultural experiment stations of the land-grant colleges in the 50 States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, Micronesia, and Northern Mariana Islands. The Budget proposes that beginning in 2008, an alternative approach be taken to expand and continuously recompete the Hatch Act multi-state awards by redirecting a portion of the formula funds to nationally, competitively awarded multi-state/multi-institutional projects.

Cooperative forestry research.—These funds are allocated by formula to land-grant colleges or agricultural experiment stations in the 50 States, Puerto Rico, Guam, the Virgin Islands, and other State-supported colleges and universities having a forestry school and offering graduate training in forestry sciences. The 2008 Budget proposes an alternative approach under this program to redirect a portion of the formula funds to nationally, competitively awarded multi-state/multi-institutional projects.

Animal health and disease research.—Funds, distributed by formula, support livestock and poultry disease research in approximately sixty-seven colleges of veterinary medicine and in eligible agricultural experiment stations. No funding is proposed for this program in 2008.

Payments to 1890 colleges and Tuskegee University and West Virginia State University.—Funds allocated on a formula basis support agricultural research and broaden the curricula at the eighteen 1890 land-grant colleges, including Tuskegee University and West Virginia State University.

Special research grants.—This program addresses research areas of national interest. Funding is proposed for grant programs in IR-4 minor crop pest management, pest management alternatives, and sustainable agriculture. Funding is also proposed for integrated pest management. Advances in these areas will provide producers with safe, alternative pest control methods resulting in more farmers increasing the number of acres on which Integrated Pest Management (IPM) methods are used. Funding proposed for IR-4 minor crop pest management and minor use animal drugs will address the growing need for registration of safe pesticides and drugs for minor crops and animals and lead to reduced levels of chemical and drug residues in food products by half. These pest management programs will be coordinated to address Food Quality and Protection Act issues. The IR-4 and IPM programs are contained under improved pest control funding. Improved pest control also includes Pest Management Alternatives, and Expert IPM Decision Support System Programs. A grant program for global change is proposed for research at universities as part of a coordinated Federal initiative. Funding is also proposed for the National Biological Impact Assessment Program, and aquaculture centers. The 2008 Budget eliminates funding for unrequested earmarks.

National research initiative competitive grants.—Funding is being proposed for the National Research Initiative (NRI). Research scientists throughout the U.S. scientific community compete for funding under this program. The performance goal has been to attract the widest possible involvement of U.S. scientists in agricultural research to increase the knowledge base related to U.S. agriculture, food, and the environment and maintain world leadership in agricultural science and engineering. NRI funding has resulted in increased participation by universities which are not traditionally considered agricultural schools and of highly skilled researchers in projects addressing agricultural issues. The outcomes include the efficient communication of research results to scientific, engineering, and community user groups. These grants support research in plants and animals; natural resources and the environment; nutrition, food safety, and health; markets, trade, and rural development; and processing for adding value or developing new products. In 2008, the Budget proposes that Section 406 activities, formerly supported under the Integrated account, be supported within the Research and Education account and administered under the NRI.

1994 Institutions Research.—Funding is proposed to continue the competitive research grants program to build the research capacity at the thirty-three 1994 institutions by supporting agricultural research activities that address tribal, national and multistate priorities.

Federal administration.—A coordinating and review staff assists in maintaining cooperation within and among the States, and between the States and their Federal research partners. This staff also administers research and education grants and payments to States. Federal administration is funded from a combination of program set-asides from formula and grant programs and from direct appropriation for administration.

Higher education.—Funding is proposed for graduate fellowships grants, competitive challenge grants, Hispanic-serving institutions education grants program, and a multicultural scholars program. Funding is also proposed for Native American institutions, Alaska Native-serving and Native Hawaiianserving Institutions, Secondary Agriculture Education and 2-year Post-secondary and Resident Instruction Grants for Insular Areas programs. These programs enable universities to broaden their curricula; increase faculty development; student research projects; and the number of new scholars recruited in the food and agricultural sciences. In addition, an increased number of graduate students, including minority graduate students, will be enrolled in the agricultural sciences. Fund-

#### RESEARCH AND EDUCATION ACTIVITIES—Continued

ing is also proposed for a capacity building program at the 1890 institutions as part of the USDA initiative to strengthen these institutions through a broadening of curricula, increased faculty development and student research projects. Funding is proposed in the 2008 Budget for a Higher Education Agrosecurity Program to provide educational and professional development for personnel in securing the Nation's agriculture and food supply.

Reimbursable program.—Funds support basic and applied agriculture research and activities performed for other USDA, Federal, and non-Federal agencies.

Native American Institutions Endowment Fund.—This program provides for an endowment for the 1994 land-grant institutions (33 Tribally controlled colleges) to strengthen the infrastructure of these institutions and develop Indian expertise for the food and agricultural sciences and businesses and their own communities. At the termination of each fiscal year, the Secretary shall withdraw the income from the endowment fund for the fiscal year, and after making adjustments for the cost of administering the fund, distribute the adjusted income on a formula basis to the 1994 land-grant institutions.

Funds provide grants to States and other eligible recipients for the acquisition of land, construction, repair, improvement, extension, alteration and purchase of fixed equipment or facilities to carry out agricultural research, extension, and teaching programs. No funding is proposed in 2008.

#### EXTENSION ACTIVITIES

For payments to States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, Micronesia, Northern Marianas, and American Samoa, \$431,125,000, as follows: payments for cooperative extension work under the Smith-Lever Act, to be distributed under sections 3(b) and 3(c) of said Act, and under section 208(c) of Public Law 93-471, for retirement and employees' compensation costs for extension agents, \$273,181,000; payments for extension work at the 1994 Institutions under the Smith-Lever Act (7 U.S.C. 343(b)(3)), \$3,240,000; payments for the nutrition and family education program for low-income areas under section 3(d) of the Act, \$62,280,000; payments for the pest management program under section 3(d) of the Act, \$10,651,000; payments for New Technologies for Ag Extension under Section 3(d) of the Act, \$2,970,000; payments to upgrade research, extension, and teaching facilities at the 1890 land-grant colleges, including Tuskegee University and West Virginia State University, as authorized by section 1447 of Public Law 95-113 (7 U.S.C. 3222b), \$16,609,000, to remain available until expended; payments for youth-at-risk programs under section 3(d) of the Smith-Lever Act, \$8,396,000; for youth farm safety education and certification extension grants, to be awarded competitively under section 3(d) of the Act, \$494,000; payments for carrying out the provisions of the Renewable Resources Extension Act of 1978 (16 U.S.C. 1671 et seq.), \$4,052,000; payments for federallyrecognized Tribes Extension Program under section 3(d) of the Smith-Lever Act, \$2,970,000; payments for sustainable agriculture programs under section 3(d) of the Act, \$3,754,000; payments for cooperative extension work by the colleges receiving the benefits of the second Morrill Act (7 U.S.C. 321–326 and 328) and Tuskegee University and West Virginia State University, \$34,073,000, of which \$1,724,884 shall be made available only for the purpose of ensuring that each institution shall receive no less than \$1,000,000; and for necessary expenses of Extension Activities, \$8,455,000.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Cooperative Extension System, a national educational network, is a dynamic organization pledged to meeting the country's needs for research-based educational programs that will enable people to make practical decisions to improve their lives. To accomplish its mission, the Cooperative Extension System adjusts programs to meet the shifting needs and priorities of the people it serves.

The nonformal educational network combines the expertise and resources of Federal, State, and local partners. The partners in this unique System are: (a) The Cooperative State Research, Education, and Extension Service at the U.S. Department of Agriculture; (b) Extension professionals at landgrant universities throughout the United States and its territories; and (c) Extension professionals in nearly all of the Nation's 3,150 counties. Thousands of paraprofessionals and nearly 3 million volunteers support this partnership and magnify its impact. Strong linkages with both public and private external groups are also crucial to the Cooperative Extension System's strength and vitality.

Programs supported with Smith-Lever 3(b) and (c) legislated formula funds, are the major educational efforts central to the mission of the System and common to most Extension units. These programs are the foundation of the Extension organization and partnership that are intended to increase the number of community-based projects, families, and individuals reached to disseminate research findings as widely and quickly as possible. The use of electronic mail, satellite transmission of courses, and computer-assisted instruction are encouraged to communicate ideas.

Extension resources are provided to the States by these formula funds and competitively-awarded programs such as sustainable agriculture. Smith-Lever 3(b) and (c) funds and payments to the 1890 colleges and Tuskegee University and West Virginia State University provide funds to support the Extension's infrastructure.

Funds for designated programs, funded by Smith-Lever 3(d) such as Youth-At-Risk and Expanded Food and Nutrition Education Program (EFNEP), provide support for the Cooperative Extension System to address identified priority issues.

In 2008, funding has been requested for the EFNEP, pest management, children, youth and families at risk, a youth farm safety education and certification pilot project, Federally-recognized Tribes extension, sustainable agriculture, new technologies for Agricultural Extension, Renewable Resources Extension Act, 1994 (Native American) institutions, and 1890 colleges and Tuskegee University and West Virginia State University facilities.

# ANIMAL AND PLANT HEALTH INSPECTION SERVICE

#### Federal Funds

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

For expenses, not otherwise provided for, necessary to prevent, control, and eradicate pests and plant and animal diseases; to carry out inspection, quarantine, and regulatory activities; and to protect the environment, as authorized by law, \$945,550,000, of which \$4,163,000 shall be available for the control of outbreaks of insects, plant diseases, animal diseases and for control of pest animals and birds to the extent necessary to meet emergency conditions; of which \$16,098,000 shall be used for the Cotton Pests program for cost share purposes or for debt retirement for active eradication zones; of which \$33,125,000 shall be available for a National Animal Identification program; of which \$57,044,000 shall be used to conduct a surveillance and preparedness program for highly pathogenic avian influenza: Provided, That no funds shall be used to formulate or administer a brucellosis eradication program for the current fiscal year that does not require minimum matching by the States of at least 40 percent: Provided further, That this appropriation shall be available for the operation and maintenance of aircraft and the purchase of not to exceed four, of which two shall be for replacement only: Provided further, That, in addition, for sudden, urgent and unforeseen circumstances which threaten any segment of the agricultural production industry of this country, the Secretary may transfer from other appropriations or funds available to the agencies or corporations of the Department such sums as may be deemed necessary, to be available only in such emergencies for the arrest and eradication of contagious or infectious disease or pests of animals, poultry, or plants, and for expenses in accordance with sections 10411 and 10417 of the Animal Health Protection Act (7 U.S.C. 8310 and 8316) and sections 431 and 442 of the Plant Protection Act (7 U.S.C. 7751 and 7772), and any unexpended balances of funds transferred for such emergency purposes in the preceding fiscal year shall be merged with such transferred amounts: Provided further, That appropriations hereunder shall be available pursuant to law (7 U.S.C. 2250) for the repair and alteration of leased buildings and improvements, but unless otherwise provided the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the

In fiscal year 2008, the agency is authorized to collect fees to cover the total costs of providing technical assistance, goods, or services requested by States, other political subdivisions, domestic and international organizations, foreign governments, or individuals, provided that such fees are structured such that any entity's liability for such fees is reasonably based on the technical assistance, goods, or services provided to the entity by the agency, and such fees shall be credited to this account, to remain available until expended, without further appropriation, for providing such assistance, goods, or services.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The major objective of the Animal and Plant Health Inspection Service (APHIS) is to protect the health and value of American agriculture and natural resources against a variety of threats. To achieve this mission, APHIS has developed a protection system that is based on a strategic premise that safeguarding the health of animals, plants, and ecosystems makes possible safe agricultural trade and reduces losses to agricultural and natural resources. This mission is carried out under the five major areas of activity, as follows:

Pest and disease exclusion.—The Agency develops protocols for trade and travel to prevent the entry of plant or animal pests and diseases into the United States and conducts quarantines and treatments of regulated products. APHIS develops and conducts preclearance programs to ensure that agricultural products destined for U.S. ports-of-entry do not present a risk to U.S. agriculture. APHIS engages in cooperative programs in foreign countries to control pests of imminent concern to the United States. APHIS also certifies plants and plant products for export and regulates imports and exports of designated endangered plant species. The 2008 Budget proposes increases to enhance overseas surveillance and eradication efforts such as the fruit fly, foot-and-mouth disease, and screwworm and to identify exotic animal diseases more effectively.

Plant and animal health monitoring.—The Agency conducts programs to assess animal and plant health and to detect endemic and exotic diseases and pests. The plant and animal health monitoring programs are primarily cooperative efforts of the Federal and State governments, and industry. The Agency also carries out surveys in cooperation with the States to detect harmful plant and animal pests and diseases and to determine if there is a need for pest eradication programs. The 2008 Budget includes significant increases in monitoring programs to enhance agricultural defense efforts including the National Animal Health Laboratory, National Veterinary Stockpile, plant safeguarding activities, emergency coordination at the national level, and the regulatory oversight and inspection activities related to select agents. The request includes \$57 million for an early detection system and preparedness plan for highly pathogenic avian influenza.

Pest and disease management programs.—The Agency carries out programs to control and eradicate infestations and animal diseases that threaten the United States; to reduce agricultural losses caused by predatory animals, birds, and rodents; to provide technical assistance to States, counties, farmer or rancher groups, and foundations; and to ensure compliance with interstate movement and disease control regulations. Interstate shipments of plants, livestock, and related materials are monitored and regulated to prevent the spread of disease. APHIS protects agriculture from detrimental ani-

mal predators through identification, demonstration, and application of the most appropriate methods of control. The Budget implements a consistent set of cost-share criteria among Federal and non-Federal partners to respond to a plant and animal infestation. In addition, the 2008 Budget includes increases related to pests and diseases such as emerald ash borer, low pathogenic avian influenza, potato cyst nematode, sudden oak death, and tuberculosis.

Animal care.—The Agency conducts regulatory activities that ensure the humane care and handling of animals used in research, exhibition, or the wholesale pet trade. The Agency is also responsible for administering the Horse Protection Act, which prohibits the showing, selling, or exhibition of sore horses. The 2008 request includes additional funding for increased inspection activities as well as for programs related to birds, rats and mice.

Scientific and technical services.—APHIS develops methods to control animals and pests that are detrimental to agriculture, other wildlife, and public safety. The Agency regulates genetic research to guard against the release of potentially harmful organisms into the environment. APHIS also conducts veterinary diagnostic laboratory activities and biologic regulatory enforcement to ensure that the products developed for combatting disease are potent, safe, and pure. It also provides and directs technology development in coordination with other groups in APHIS to support programs of the Agency and its cooperators at the State, national, and international levels. The 2008 Budget includes increases for biotechnology regulatory services, plant methods, veterinary biologics, and veterinary diagnostics. Several of these increases enhance agricultural defense.

The 2008 Budget also proposes significant increases to continue enhanced security efforts initially implemented with 2002 emergency supplemental funds in response to the September 11, 2001, terrorist attacks.

The buildings and facilities account provides for construction, repairs, preventive maintenance, and alterations, as needed, for APHIS operated facilities, which include animal quarantine stations, border inspection stations, sterile insect rearing facilities, and laboratories.

The 2008 Budget proposes \$8.9 million for this program, which consists of repairs, alterations, preventive maintenance, and renovations for currently owned APHIS facilities, including additional funding to address safety issues with several facilities.

The following services are financed by fees and miscellaneous contributions advanced by importers, manufacturers, States, organizations, individuals, and others:

Miscellaneous contributed funds.—Funds are received from States, local organizations, individuals, and others and are available for plant and animal quarantine inspection and cooperative plant and animal disease and pest control activities (7 U.S.C. 450b, 2220). Commencing in 1979, fees were collected for the importation of commercial birds.

### FOOD SAFETY AND INSPECTION SERVICE

#### Federal Funds

#### SALARIES AND EXPENSES

For necessary expenses to carry out services authorized by the Federal Meat Inspection Act, the Poultry Products Inspection Act, and the Egg Products Inspection Act, including not to exceed \$50,000 for representation allowances and for expenses pursuant to section 8 of the Act approved August 3, 1956 (7 U.S.C. 1766), \$930,120,000, of which no less than \$839,130,000 shall be available for Federal food safety inspection; and in addition, \$1,000,000 may be credited to this account from fees collected for the cost of laboratory accreditation as authorized by section 1327 of the Food, Agriculture, Conservation and Trade Act of 1990 (7 U.S.C. 138f): Provided, That of the total amount made available under this heading, no less than \$20,653,000 shall be obligated for regulatory and scientific training: Provided further, That not to exceed \$565,000 is for construction of a laboratory sample receiving facility at the Russell Research Center in Athens, Georgia: Provided further, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building. (7 U.S.C. 450, 1901–06; 10 U.S.C. 2306; 18 U.S.C. 1114; 21 U.S.C. 451-470, 601-624, 641-645, 661, 671-680, 691-692; 694-695; Public Law 99-641.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The primary objectives of the Food Safety and Inspection Service (FSIS) are to ensure that meat, poultry, and egg products are wholesome, unadulterated, and properly labeled and packaged, as required by the Federal Meat Inspection Act, the Poultry Products Inspection Act, and the Egg Products Inspection Act. In carrying out this mission, FSIS oversight responsibility covers 20 percent of the American food dollar. Providing adequate resources for Federal food safety agencies is a priority of the Administration, and the 2008 Budget proposes a \$100 million increase from the 2006 enacted funding level for inspection of meat, poultry, and egg products. This increase includes initiatives to cover the pay costs for existing employees in the Federal and State inspection programs, to support the full cost of expanding the inspection force to meet industry demand, for food and agriculture defense initiatives, and to prepare for risk-based inspection. In addition, legislation will be submitted for two new user fees. One fee is a licensing fee that all facilities will pay based on production levels. The second fee will be a performance fee charged to facilities that fail testing, have recalls, or are linked to outbreaks.

Under authority of the Agricultural Marketing Act of 1946, Federal meat and poultry inspection services are provided upon request and for a fee in cases where inspection is not mandated by statute. This service includes: certifying products for export beyond the requirements of export certificates; inspecting certain animals and poultry intended for human food where inspection is not required by statute, such as buffalo, rabbit, and quail; and inspecting products intended for animal consumption.

The Grain Inspection, Packers and Stockyards Administration's (GIPSA) Grain Regulatory Program promotes and enforces the accurate and uniform application of the United States Grain Standards Act (USGSA) and applicable provisions of the Agricultural Marketing Act of 1946 (AMA). GIPSA identifies, evaluates, and implements new or improved techniques for measuring grain quality. GIPSA also establishes and updates testing and grading standards to facilitate the marketing of U.S. grain, oilseeds, and related products. GIPSA briefs foreign buyers, assesses foreign inspection and weighing techniques, and responds to foreign quality and quantity complaints. An advisory committee consisting of members from the grain industry exists to advise the Agency regarding efficient and economical implementation of the USGSA. The Grain Quality Improvement Act of 1986 was enacted on November 10, 1986, to improve the quality of U.S. grain by prohibiting the introduction and reintroduction of dockage and foreign material to grain.

GIPSA's Packers and Stockyards Program is responsible for administering the Packers and Stockyards Act of 1921 (P&S Act), which prohibits unfair, deceptive, and fraudulent practices by market agencies, dealers, packers, swine contractors, and live poultry dealers in the livestock, poultry, and meatpacking industries. The P&S Act makes it unlawful for a regulated entity to engage in unfair, unjustly discriminatory, or deceptive practices. Packers, live poultry dealers, and swine contractors are also prohibited from engaging in specific anti-competitive practices. GIPSA conducts two broad types of activities, regulatory and investigative, in its administration and enforcement of the P&S Act. GIPSA activities cover two general areas: Business Practices and Financial Protection. Business Practices are further divided into Competition and Trade Practices. The Agency also carries out the Secretary's responsibilities under Section 1324 of the Food Security Act of 1985 covering "central filing systems" established by States for pre-notification of security interests against farm products.

#### LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

Not to exceed \$42,463,000 (from fees collected) shall be obligated during the current fiscal year for inspection and weighing services: Provided, That if grain export activities require additional supervision and oversight, or other uncontrollable factors occur, this limitation may be exceeded by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress. (7 U.S.C. 71, 74–79, 84–87, 1621–27.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Grain Inspection, Packers and Stockyards Administration (GIPSA) provides a uniform system for the inspection and weighing of grain. Services provided under this system are financed through a fee supported revolving fund. This authority has been extended through September 2015.

Fee supported programs include direct services, supervision activities and administrative functions. Direct services include official grain inspection and weighing by GIPSA employees at certain export ports as well as the inspection of U.S. grain shipped through Canada. The Agency supervises the inspection and weighing activities performed by its own employees. The Agency also oversees the inspection and weighing of grain performed by employees of 6 delegated States and 55 designated State and private agencies. The Agency provides an appeal service of original grain inspections and a registration system for grain exporting firms. Through support from the Association of American Railroads and user fees, GIPSA conducts a railroad track scale testing program. In addition, the agency provides grading services, on request, for rice and grain related products under the authority of the Agricultural Marketing Act of 1946 (AMA).

	2006 actual	2007 est.	2008 est.
Export grain inspected and/or weighed (million metric tons):

# AGRICULTURAL MARKETING SERVICE

# Federal Funds

#### MARKETING SERVICES

For necessary expenses to carry out services related to consumer protection, agricultural marketing and distribution, transportation, and regulatory programs, as authorized by law, and for administration and coordination of payments to States, \$74,988,000, including funds for the wholesale market development program for the design and development of wholesale and farmer market facilities for the major metropolitan areas of the country: Provided, That this appropriation shall be available pursuant to law (7 U.S.C. 2250) for the alteration and repair of buildings and improvements, but the cost of altering any one building during the fiscal year shall not exceed 10 percent of the current replacement value of the building.

Fees may be collected for the cost of standardization activities, as established by regulation pursuant to law (31 U.S.C. 9701). (7 U.S.C. 91–99, 136i–136l, 138–138l, 291–292, 415b–415d, 471–476, 501–508, 581–599, 951–957, 1031–1056, 1291, 1551–56, 1621–27, 2204(b)(c), 4401–06, 6501–22; 15 U.S.C. 714–714p; 21 U.S.C. 1031–56; 26 U.S.C. 6804, 7233, 7263, 7492–93, 7701; 49 U.S.C. 1653.)

#### LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed \$61,233,000 (from fees collected) shall be obligated during the current fiscal year for administrative expenses: Provided, That if crop size is understated and/or other uncontrollable events occur, the agency may exceed this limitation by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Agricultural Marketing Service activities assist producers and handlers of agricultural commodities by providing a variety of marketing services. These services continue to become more complex as the volume of agricultural commodities increases, as a greater number of new processed commodities are developed, and as the agricultural market structure undergoes extensive changes. Marketing changes include increased concentration in food retailing, direct buying, decentralization of processing, growth of interregional competition, vertical integration, and contract farming.

The individual Marketing Services activities include:

Market news service.—The market news program provides the agricultural community with information pertaining to the movement of agricultural products. This nationwide service provides daily reports on the supply, demand, and price of over 700 commodities on domestic and foreign markets.

Inspection, grading and standardization.—Nationally uniform standards of quality for agricultural products are established and applied to specific lots of products to: promote confidence between buyers and sellers; reduce hazards in marketing due to misunderstandings and disputes arising from the use of nonstandard descriptions; and encourage better preparation of uniform quality products for market. Grading services are provided on request for cotton and tobacco.

Quarterly inspection of egg handlers and hatcheries is conducted to ensure the proper disposition of shell eggs unfit for human consumption.

International and U.S. standards in effect, end of fiscal year	494	496	507
Number of commodities covered	226	227	237

Market protection and promotion.—This program consists of: (1) the research and promotion programs which are designed to improve the competitive position and expand markets for cotton, eggs and egg products, honey, pork, beef, dairy products, potatoes, watermelons, mushrooms, soybeans, fluid milk, popcorn, blueberries, avocados, lamb, mangos and peanuts; (2) the Federal Seed Act; and (3) the administration of the Capper-Volstead Act and the Agricultural Fair Practices Act.

The pesticide recordkeeping program monitors compliance of private certified applicators with Federal regulations requiring them to keep records of restricted pesticides used in agricultural production.

The pesticide data program develops comprehensive, statistically defensible information on pesticide residues in food to improve government dietary risk procedures.

#### LIMITATION ON ADMINISTRATIVE EXPENSES—Continued

Federal seed inspectors conduct tests on seed samples to help ensure truthful labeling of agricultural and vegetable seeds sold in interstate commerce.

The Capper-Volstead Act and the Agricultural Fair Practices Act protect producers against discriminatory practices by handlers, permit producers to engage in cooperative efforts, and ensure that such cooperatives do not engage in practices that monopolize or restrain trade.

The national organic program certifies that organically produced food products meet national standards.

Wholesale market development.—This program is designed to enhance the marketing of agricultural commodities in the United States by conducting research into more efficient marketing methods for agricultural commodities and by providing technical assistance to urban areas interested in improving their food distribution facilities.

Transportation Services.—The activities are designed to ensure that the Nation's transportation systems will adequately serve the needs of agriculture and rural areas of the United States.

License fees are deposited in this special fund and are used to meet the costs of administering the Perishable Agricultural Commodities and the Produce Agency Acts (7 U.S.C. 491–497, 499a–499s).

The Acts are intended to ensure equitable treatment to farmers and others in the marketing of fresh and frozen fruits and vegetables. Commission merchants, dealers, and brokers handling these products in interstate and foreign commerce are licensed. Complaints of violations are investigated and violations dealt with by (a) informal agreements between the two parties, (b) formal decisions involving payment of reparation awards, and/or (c) suspension or revocation of license and/or publication of the facts. Beginning October 1, 1994, an additional fee was instituted for the filing of formal and informal complaints of violations of the Act. The November 1995 amendments to the Perishable Agricultural Commodities Act: (1) increased the license fee and phased out fees for wholesale grocers and retailers by 1999; (2) provided permanent authority to the Secretary of Agriculture to set license and reparation complaint filing fees; and (3) repealed the 25 percent maximum funding reserve cap.

A 1984 amendment to the Perishable Agricultural Commodities Act requires traders to have trust assets on hand to meet their obligations to fruit and vegetable suppliers. To preserve their trust and establish their rights ahead of other creditors, unpaid suppliers file notice with both the Department and their debtors that payment is due.

# Funds for Strengthening Markets, Income, and Supply (Section 32)

#### (INCLUDING TRANSFERS OF FUNDS)

Funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), shall be used only for commodity program expenses as authorized therein, and other related operating expenses, including not less than \$20,000,000 for replacement of a system to support commodity purchases, except for: (1) transfers to the Department of Commerce as authorized by the Fish and Wildlife Act of August 8, 1956; (2) transfers otherwise provided in this Act; and (3) not more than \$16,798,000 for formulation and administration of marketing agreements and orders pursuant to the Agricultural Marketing Agreement Act of 1937 and the Agricultural Act of 1961.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Agriculture Appropriations Act of 1935 established the Section 32 program (7 U.S.C. 612c) which provides that 30 percent of U.S. Customs receipts for each calendar year are transferred to this account within the Department of Agriculture (USDA). The purpose of the Section 32 program is three-fold: to encourage the exportation of agricultural commodities and products, to encourage domestic consumption of agricultural products by diverting them, and to reestablish farmers' purchasing power by making payments in connection with the normal production of any agricultural commodity for domestic consumption. There is also a requirement that the funds available under Section 32 shall be principally devoted to perishable agricultural commodities (e.g., fruits and vegetables). Program funds are used for a variety of purposes in support of the three primary purposes specified in the program's authorizing legislation. Funds may be used to stabilize market conditions through purchasing surplus commodities which are in turn, distributed to nutrition assistance programs. Program funds are also used to purchase commodities that are distributed to schools as part of child nutrition program entitlements. Furthermore, funds are transferred to the Food and Nutrition Service for commodity purchases under section 6 of the National School Lunch Act and other authorities specified in the child nutrition appropriation. In recent years, program funds have also been used to provide specialty crop, livestock, sheep and lamb producers with disaster assistance in the form of direct payments and commodities.

Expenses and refunds, inspection and grading of farm products.—The commodity grading programs provide grading, examination, and certification services for a wide variety of fresh and processed food commodities using federally approved grade standards and purchase specifications. Commodities graded include poultry, livestock, meat, dairy products, and fresh and processed fruits and vegetables. These programs use official grade standards which reflect the relative quality of a particular food commodity based on laboratory testing and characteristics such as taste, color, weight, and physical condition. Producers voluntarily request grading and certification services which are provided on a fee for service basis.

The Secretary of Agriculture is authorized by the Agricultural Marketing Agreement Act of 1937, as amended under certain conditions to issue Federal milk marketing orders establishing minimum prices which handlers are required to pay for milk purchased from producers. There are currently 10 Federally-sanctioned milk market orders in operation.

Market administrators are appointed by the Secretary and are responsible for carrying out the terms of specific marketing orders. Their operating expenses, partly financed by assessments on regulated handlers and partly by deductions

79

78

#### MILK MARKET ORDERS ASSESSMENT FUND-Continued

from producers, are reported in these schedules. The majority of these funds are collected and deposited in checking and savings accounts in local banks, and disbursed directly by the market administrator. A portion of the funds collected are invested in securities such as certificates of deposit.

Expenses of local offices are met from an administrative fund and a marketing service fund, which are prescribed in each order. The administrative fund is derived from prorated handler assessments. The marketing service fund of the individual order disseminates market information to producers who are not members of a qualified cooperative. It also provides for the verification of the weights, sampling, and testing of milk from these producers. The cost of these services is borne by such producers.

The maximum rates for administrative assessment and for marketing services are set forth in each order and adjustments below these rates are made from time to time upon recommendations by the market administrator and upon approval of the Agricultural Marketing Service to provide reserves at about a 6-month operating level. Upon termination of any order, the statute provides for distributing the proceeds from net assets pro rata to contributing handlers or producers, as the case may be.

# RISK MANAGEMENT AGENCY

#### Federal Funds

### Administrative and Operating Expenses

For administrative and operating expenses, as authorized by section 226A of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6933), \$79,062,000: Provided, That not to exceed \$1,000 shall be available for official reception and representation expenses, as authorized by 7 U.S.C. 1506(i).

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This appropriation provides funding for the administrative and operating expenses of the Risk Management Agency (RMA). The Agricultural Risk Protection Act (ARPA) of 2000 significantly enhanced RMA's role in protecting the integrity of the Federal Crop Insurance program for farmers. ARPA imposed new regulatory responsibilities and expanded the scope of program compliance and monitoring activities. Accordingly, it impacted on the amount and type of information RMA collects. The budget requests additional funding to fully implement these responsibilities.

89.00 Budget authority

90.00 Outlays .

The Federal Crop Insurance program is delivered through private insurance companies. Certain administrative expenses incurred by the companies are reimbursed through mandatory funding that is reflected in the account for the Federal Crop Insurance Fund. In addition, the data mining project and RMA's portion of the Common Information Management System are proposed to be funded through a general provision that will expand the uses of research and development funding in the Crop Insurance Act to include these purposes, up to \$11.2 million.

#### CORPORATIONS

The following corporations and agencies are hereby authorized to make expenditures, within the limits of funds and borrowing authority available to each such corporation or agency and in accord with law, and to make contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for such corporation or agency, except as hereinafter provided.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

#### Federal Crop Insurance Corporation Fund

For payments as authorized by section 516 of the Federal Crop Insurance Act (7 U.S.C. 1516), such sums as may be necessary, to remain available until expended.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Federal Crop Insurance Corporation (FCIC), a wholly-owned government corporation, provides multi-peril and catastrophic crop insurance protection against losses from unavoidable natural events. The Federal Crop Insurance Reform Act of 1994 (Reform Act) and the Federal Agriculture Improvement and Reform Act of 1996 (1996 Act) brought many changes to the program. The crop insurance program is an integral part of the broad-based safety net and includes programs involving yield and revenue insurance, pasture, range-

land and forage, livestock, and other educational and risk mitigation initiatives/tools to manage risk.

Commercial insurance companies deliver crop insurance policies to producers in all states. For producers who obtain Catastrophic Crop Insurance (CAT), which compensates the farmer for losses up to 50 percent of the individual's average yield at 55 percent of the expected market price, the premium is entirely subsidized. The cost to the producer for this type of coverage is an annual administrative fee of \$100 per crop per county.

Additional coverage is available to producers who wish to insure crops above the 50 percent coverage level/55 percent price level. Policyholders can elect to be paid up to 100 percent of the market price established by FCIC for each unit of production their actual yield is less than the individual yield guarantee. Premium rates for additional coverage depend on the level of protection selected and vary from crop to crop and county to county. Producers are assessed a fee of \$30 per crop, per county, in addition to a share of the premium. The additional levels of insurance coverage are more attractive to farmers due to availability of optional units, other policy provisions not available with CAT coverage, and the ability to obtain a level of protection that permits them to use crop insurance as loan collateral and to achieve greater financial security.

Revenue protection for all products is provided by extending traditional multi-peril crop insurance protection, based on actual production history, to include price variability. Revenue insurance helps to ensure a certain level of a crop's annual income. FCIC is also piloting an Adjusted Gross Revenue (AGR) program, which is designed to insure a portion of a producer's gross revenue based on their Schedule F Farm and income tax reports.

The Adjusted Gross Revenue-Lite (AGR-Lite) insurance plan, a modification of AGR, was approved in late 2002 and offered for sale in 2003. This product was submitted to FCIC through Section 508(h) of the Act. For 2006, AGR-Lite covers whole farm revenue up to \$1 million, including revenue from animals and animal products. AGR-Lite covers the adjusted gross revenue from the whole farm based on five years of tax forms and a farm plan. AGR-Lite initially began as a pilot in Pennsylvania and recently expanded to cover 28 States starting with the 2007 crop year.

During 2006, RMA continued, as one of its highest priorities, the contracted development of new insurance programs for pasture, rangeland and forage, implementing two new pilot programs effective for the 2007 crop year in 9 states, the Rainfall and Vegetative Index programs. In addition, RMA presented two new alternatives for addressing situations of declining actual production history yields due to successive years of yield loss to the Board of Directors for consideration of expert review. Also, RMA awarded 8 research and development partnership agreements totaling over \$3 million to develop financial and risk management decision support tools, and for funding technical and scientific innovations for better disease management and to increase information on expected yield impacts associated with reduced irrigation water application. Additionally RMA funded approximately \$3 million for improvements and expansion to decision support tools for production practices to manage soybean rust and to help in the establishment of sentinel plots to assist in keeping the nation informed on the movement of the rust disease.

In crop year 2006, 242 million acres were insured, with an estimated \$4,579 million in total premium income, including \$2,681 million in premium subsidy.

ARPA provided RMA with mandatory funding to implement data mining and data warehousing to improve compliance and integrity in the crop insurance program in years 2001–2005. In 2006, \$3.6 million was appropriated in the Administrative and Operating Account for data mining and data

FEDERAL CROP INSURANCE CORPORATION FUND—Continued

warehousing activities. To ensure data mining has annual funding, RMA is requesting authorization to fund data mining costs through ARPA. The 2008 Budget also requests authorization to fund the Common Information Management System through ARPA.

The 2008 Budget includes a proposal to implement a participation fee in the Federal crop insurance program. The proposed participation fee would initially be used to fund modernization of the existing information technology (IT) system and would supplement the annual appropriation provided by Congress. Subsequently, the fee would be shifted to maintenance and would be expected to reduce the annual appropriation. The participation fee would be charged to insurance companies participating in the Federal crop insurance program: based on a rate of about one-half cent per dollar of premium sold, the fee is expected to generate an amount not to exceed \$15 million annually. In recent years, the Administration has included several proposals in the Budget to modernize the IT system used by RMA to administer the Federal crop insurance program. The existing IT system is nearing the end of its useful life and recent years have seen increases in "down-time" resulting from system failures. Over the years, numerous changes have occurred in the Federal crop insurance program; including, the development of revenue, livestock, and pasture/rangeland insurance which have greatly expanded the program and taxed the IT system due to new requirements, such as daily livestock pricing, which were not envisioned when the existing IT system was designed. These new requirements contribute to increased maintenance costs and limit RMA's ability to comply with Congressional mandates pertaining to data reconciliation with the Farm Service Agency.

The following table compares the scope of the insurance operations planned for 2008. Amounts in the 2006 column are as of September 30, 2006, and pertain to the 2006 crop year.

	2006 CY est.	2007 CY est.	2008 CY est.
Number of States	50	50	50

<sup>1</sup>Includes amounts that will appear on the books of the reinsured companies.

Financing.—The Corporation is authorized under the Federal Crop Insurance Act, as amended, to use funds from the issuance of capital stock which provides working capital for the Corporation.

Receipts, which are for deposit to this fund, come mainly from premiums paid by farmers. The principal payments from this fund are for indemnities to insured farmers, and administrative expenses for approved insurance providers.

Premium subsidies are authorized by section 508(b) of the Federal Crop Insurance Act, as amended, and are received through appropriations.

The Farm Service Agency (FSA) was established October 3, 1994, pursuant to the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994, P.L. 103-354. The Department of Agriculture Reorganization Act of 1994 was amended on April 4, 1996, by the Federal Agriculture Improvement and Reform Act of 1996 (1996 Act), P.L. 104-127. The FSA administers a variety of activities, such as farm income support programs through various loans and payments; the Conservation Reserve Program (CRP); the Emergency Conservation Program; the Hazardous Waste Management Program; the Commodity Operation Programs including the warehouse examination function; farm ownership, farm operating, emergency disaster, and other loan programs; and the Noninsured Crop Disaster Assistance Program (NAP), which provides crop loss protection for growers of many crops for which crop insurance is not available. The Agency also assists in the administration of several conservation cost-share programs financed by the Commodity Credit Corporation (CCC), including the Grasslands Reserve Program (GRP). In addition, FSA currently provides certain administrative support services to the Foreign Agricultural Service (FAS) and to the Risk Management Agency (RMA).

This consolidated administrative expenses account includes funds to cover expenses of programs administered by, and functions assigned to, the Agency. The funds consist of a direct appropriation, transfers from program loan accounts under credit reform procedures, user fees, and advances and reimbursements from other sources. This is a consolidated account for administrative expenses of national, regional, State, and county offices.

USDA's FSA, Natural Resources Conservation Service (NRCS), and Rural Development (RD) offices act as separate franchises, with offices often located adjacent to each other. Prior efforts to improve the efficiency of USDA's county-based offices have resulted in significant co-location, and introduction of new information technology to simplify customer transactions.

During 2003 FSA also began to consolidate loan servicing functions such as billings and mass mailings and is in the process of implementing an interactive voice response system to handle routine information requests from borrowers. These efforts will help improve customer service while also reducing annual costs to the Government. However, the separate hierarchical structures at State, regional, and headquarter levels are set in law, and this hinders further attempts to achieve additional efficiencies.

Farm programs.—These programs provide an economic safety net through farm income support to eligible producers, cooperatives, and associations to help improve the economic stability and viability of the agricultural sector and to ensure the production of an adequate and reasonably priced supply of food and fiber. Objectives of the Agency include providing direct and counter-cyclical payments, providing marketing assistance loans and loan deficiency payments enabling recipients to continue farming operations without marketing their product immediately after harvest, and providing a financial assistance safety net to eligible producers when natural disasters result in a catastrophic loss of production or prevent planting of noninsured crops, and timely approval of crop prices, average yields, and payment factors for the Noninsured Crop Disaster Assistance Program (NAP).

Farm program activities include the following functions dealing with the administration of programs carried out through the farmer committee system of the FSA: (a) developing program regulations and procedures; (b) collecting and compiling basic data for individual farms; (c) establishing individual farm allotments for farm planting history; (d) notifying producers of established allotments and farm planting histories; (e) conducting referendums and certifying results; (f) accepting farmer certifications and checking compliance

## SALARIES AND EXPENSES—Continued (INCLUDING TRANSFERS OF FUNDS)—Continued

for specific purposes; (g) processing commodity loan documents and issuing checks; (h) processing direct and countercyclical payments and issuing checks; (i) certifying payment eligibility and monitoring payment limitations; and (j) processing farm storage facility loans and issuing checks.

Conservation and environment.—These programs assist agricultural producers and landowners in achieving a high level of stewardship of soil, water, air, and wildlife resources on America's farmland and ranches while protecting the human and natural environment. Objectives of the Agency include improving environmental quality, protecting natural resources, and enhancing habitat for fish and wildlife, including threatened and endangered species, providing Emergency Conservation Program funding for farmers and ranchers to rehabilitate damaged farmland and for carrying out emergency conservation measures during periods of severe drought or flooding, protecting the public health of communities through implementation of the Hazardous Waste Management Program, and implementing administrative processes and procedures for contracting, financial reporting, and other financial operations. This activity includes: (a) processing producer requests for conservation cost-sharing and issuing conservation reserve rental payments; and (b) issuing checks for other conservation programs.

Commodity operations.—This activity includes: (a) overall management of CCC-owned commodities; (b) purchasing commodities; (c) donating commodities; (d) selling commodities; (e) accounting for loans and commodities; and (f) commercial warehouse activities, which include improving the effectiveness and efficiency of FSA's commodity acquisition, procurement, storage, and distribution activities to support domestic and international food assistance programs and administering the U.S. Warehouse Act (USWA). The Agency provides for the examination of warehouses licensed under the USWA and non-licensed warehouses storing CCC-owned or pledged commodities. Examiners perform periodic examinations of the facilities and the warehouse records to ensure protection of depositors against potential losses of the stored commodities and to ensure compliance with the USWA and any CCC storage agreements.

Farm loans (reimbursable).—Provides for administering the direct and guaranteed loan programs covered under the Agricultural Credit Insurance Fund (ACIF). Objectives of the Agency include improving the economic viability of farmers and ranchers, reducing losses in direct loan programs, responding to loan making and servicing requests, and maximizing financial and technical assistance to under-served groups. Activities include reviewing applications, servicing the loan portfolio, and providing technical assistance and guidance to borrowers. Funding for farm loan administrative expenses is paid to this consolidated account from the ACIF. Appropriations representing subsidy amounts necessary to support the individual program loan levels under Federal Credit Reform are made to the ACIF account.

Other reimbursable activities.—FSA collects a fee or is reimbursed for performing a variety of services for other Federal agencies, CCC, industry, and others, including certain administrative support services for the Risk Management Agency and the Foreign Agricultural Service, and for county office services provided to Federal and non-Federal entities, including a variety of services to producers.

This grant program is authorized by Title V of the Agricultural Credit Act of 1987, P.L. 100–233, as amended. Originally designed to address agricultural credit disputes, the program was expanded by the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (P.L. 103–354) to include other agricultural issues such as wetland determinations, conservation compliance, rural water loan programs, grazing on National Forest System lands, and pesticide use. Grants are made to States whose agricultural

FARM SERVICE AGENCY—Continued Federal Funds—Continued 93

mediation programs have been certified by the Farm Service Agency. A grant will not exceed 70 percent of the total fiscal year funds that a qualifying State requires to operate and administer its agricultural mediation program. In no case will the total amount of a grant exceed \$500,000 annually.

The tree assistance program (TAP) was reauthorized by the Farm Security and Rural Investment Act of 2002 with some modifications.

The most reccent appropriation for TAP was in 2004, when the Consolidated Appropriations Act, P.L. 108–199, appropriated \$12.5 million for the program in southern California. During the year, \$4 million was obligated, \$6 million was transferred to the USDA Working Capital Fund per Section 704 of P.L. 108–199, and the remaining \$2 million unobligated balance will expire at the end of 2009.

For 2006, no appropriation was provided for TAP. However, funding was provided under the Commodity Credit Corporation. During 2006, \$550,302 was paid to producers in Southern California from 2004 obligations.

No funding is requested for 2008.

#### AGRICULTURAL CONSERVATION PROGRAM

This program was terminated at the beginning of 1997 in accordance with the Federal Agriculture Improvement and Reform Act of 1996. The objectives of the Agricultural Conservation Program (ACP) were incorporated into the Environmental Quality Incentives Program which is funded by the Commodity Credit Corporation and administered under the lead of the Natural Resources Conservation Service.

The primary objective of the program was to conserve soil and water resources. Along with annual agreements, cost sharing was authorized for long-term agreements of 3–10 years. In 2006 a transfer of \$100,000 in unobligated funds was made to the USDA Working Capital Fund as authorized in Section 705 of the Agriculture Appropriations Act, 2006, P.L. 109–97. Outlays to States in 2006 totaled \$2,000.

The Emergency Conservation Program (ECP) was authorized by the Agricultural Credit Act of 1978 (16 U.S.C. 2201–05). It provides funds for sharing the cost of emergency measures to deal with cases of severe damage to farmlands and rangelands resulting from natural disasters.

For 2006, the Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza, 2006, P.L. 109–148, provided \$199.8 million to repair damage caused by hurricanes during the 2005 calendar year, including damage to nursery, oyster, poultry, and nonindustrial forestland operations. In addition, the program continued to operate nationwide using unobligated funds carried forward from 2005 along with recoveries from prior fiscal years. These funds are available until expended. On June 15, 2006, the President approved P.L. 109–234, transferring \$38 million from the ECP to the National Oceanic and Atmospheric Administration. The \$38 million transfer will be used for oyster damage caused by hurricanes during calendar year 2005.

Under the 2006 program, cost-sharing and technical assistance were provided in 38 States to treat farmlands damaged by hurricanes, drought, floods, ice storms, tornadoes, and other natural disasters. Outlays to States in 2006 totaled \$88 million, including \$25,186,086 for damage caused by hurricanes during the 2005 calendar year.

The 2008 Budget proposes no funding for this program.

## AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)

For gross obligations for the principal amount of direct and guaranteed farm ownership (7 U.S.C. 1922 et seq.) and operating (7 U.S.C. 1941 et seq.) loans, Indian tribe land acquisition loans (25 U.S.C. 488), and boll weevil loans (7 U.S.C. 1989), to be available from funds in the Agricultural Credit Insurance Fund, as follows: farm ownership loans, \$1,423,857,000, of which \$1,200,000,000 shall be for unsubsidized guaranteed loans and \$223,857,000 shall be for direct loans; operating loans, \$1,879,595,000, of which \$1,000,000,000 shall be for subsidized guaranteed loans, \$250,000,000 shall be for subsidized guaranteed loans, and \$629,595,000 shall be for direct loans; Indian tribe land acquisition loans, \$3,960,000; and for boll weevil eradication program loans, \$59,400,000: Provided, That the Secretary shall deem the pink bollworm to be a boll weevil for the purpose of boll weevil eradication program loans.

For the cost of direct and guaranteed loans, including the cost of modifying loans as defined in section 502 of the Congressional Budget Act of 1974, as follows: farm ownership loans, \$14,762,000, of which \$4,800,000 shall be for unsubsidized guaranteed loans and \$9,962,000 shall be for direct loans; operating loans, \$137,446,000, of which \$24,200,000 shall be for unsubsidized guaranteed loans, \$33,350,000 shall be for subsidized guaranteed loans, and \$79,896,000 shall be for direct loans; and Indian tribe land acquisition loans, \$125,000.

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$319,657,000, of which \$311,737,000 shall be paid to the appropriation for "Farm Service Agency, Salaries and Expenses".

Funds appropriated by this Act to the Agricultural Credit Insurance Program Account for farm ownership and operating direct loans and guaranteed loans may be transferred among these programs: Provided, That the Committees on Appropriations of both Houses of Congress are notified at least 15 days in advance of any transfer.

#### DAIRY INDEMNITY PROGRAM

#### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses involved in making indemnity payments to dairy farmers and manufacturers of dairy products under a dairy indemnity program, \$100,000, to remain available until expended: Provided, That such program is carried out by the Secretary in the same manner as the dairy indemnity program described in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 (Public Law 106–387, 114 Stat. 1549A–12).

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Agricultural credit insurance fund program account's loans are authorized by title III of the Consolidated Farm and Rural Development Act, as amended.

This program account includes subsidies to provide direct and guaranteed loans for farm ownership, farm operating, and emergency loans to individuals. Indian tribes and tribal corporations are eligible for Indian land acquisition loans. Boll weevil eradication loans are available to eliminate the cotton boll weevil pest from infested areas.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including credit sales of acquired property), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Under the Dairy Indemnity Program (DIP), payments are made to farmers and manufacturers of dairy products who are directed to remove their milk or milk products from commercial markets because they contain residues of chemicals that have been registered and approved by the Federal Government, other chemicals, nuclear radiation, or nuclear fallout. Indemnification may also be paid for cows producing such milk.

In 2006, \$132 thousand was paid to producers who filed claims under the program.

The 2008 Budget requests \$100 thousand for this program.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond (including credit sales of acquired property that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

This account finances direct loans for farm ownership, farm operating, emergency disaster, Indian land, boll weevil eradication, and credit sales of acquired property.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals.

This account finances commitments made for farm ownership and operating- guaranteed loan programs.

As required by the Federal Credit Reform Act of 1990, this account records for the farm loan programs all cash flows to and from the Government resulting from direct loans obligated, loan guarantees committed, and grants made prior to 1992. New loan activity in 1992 and beyond (including credit sales of acquired property that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts. Payments to settle certain discrimination claims against USDA may also be made from this account.

#### COMMODITY CREDIT CORPORATION FUND

#### REIMBURSEMENT FOR NET REALIZED LOSSES

For the current fiscal year, such sums as may be necessary to reimburse the Commodity Credit Corporation for net realized losses sustained, but not previously reimbursed, pursuant to section 2 of the Act of August 17, 1961 (15 U.S.C. 713a–11): Provided, That of the funds available to the Commodity Credit Corporation under section 11 of the Commodity Credit Corporation Charter Act (15 U.S.C 714i) for the conduct of its business with the Foreign Agricultural Service, up to \$5,000,000 may be transferred to and used by the Foreign Agricultural Service for information resource management activities of the Foreign Agricultural Service that are not related to Commodity Credit Corporation business.

## HAZARDOUS WASTE MANAGEMENT (LIMITATION ON EXPENSES)

For the current fiscal year, the Commodity Credit Corporation shall not expend more than \$5,000,000 for site investigation and cleanup expenses, and operations and maintenance expenses to comply with the requirement of section 107(g) of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9607(g)), and section 6001 of the Resource Conservation and Recovery Act (42 U.S.C. 6961).

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Commodity Credit Corporation (CCC) was created to: stabilize, support, and protect farm income and prices; help maintain balanced and adequate supplies of agricultural commodities, their products, foods, feeds, and fibers; and help in their orderly distribution.

The Corporation's capital stock of \$100 million is held by the U.S. Treasury. Under present law, up to \$30 billion may be borrowed from the U.S. Treasury to finance operations.

Current, indefinite appropriation authority is requested to cover all net realized losses. Appropriations to the Corporation for net realized losses have no effect on budget authority, as they are used to repay debt directly with the Treasury.

Budget assumptions.—The following general assumptions form the basis for the Corporation's 2007 and 2008 budget estimates: (a) national income will rise both in 2007 and 2008 from the present level; (b) 2007 crop production will increase from 2006 crop levels for some commodities; (c) generally, exports of agricultural commodities in 2008 are expected to be higher than 2007 levels; and (d) yields for the 2007 crops are based on recent averages adjusted for trends.

It is difficult to accurately forecast requirements for the year ending September 30, 2008, since the projections are subject to complex and unpredictable factors such as weather, other factors which affect the volume of production of crops not yet planted, feed, food, and energy needs here and overseas, and available dollar exchange.

The 2002 Act re-authorized CRP enrollment through calendar year 2007, increased maximum CRP enrollment at any one time from 36.4 million acres to 39.2 million acres, expanded the Farmable Wetlands Program (FWP) from six states to nationwide with a 1-million-acre cap, and included provisions for managed haying and grazing. Enrollment under competitive general CRP sign-up provisions and under noncompetitive continuous CRP (CCRP), Conservation Reserve Enhancement Program (CREP), and the FWP are guided by eligibility and selection criteria rules published in May 2003 and May 2004.

Subsequent to passage of the 2002 Act, USDA initiated several enhancements to CRP continuous signup, including: 1) A goal of enrolling 500,000 acres of bottomland hardwood trees to enhance wildlife habitats and sequester carbon; 2) Setting aside 500,000 and 250,000 acres, respectively, for enrollment of floodplain and non-floodplain wetlands; 3) Setting aside 250,000 acres for enrollment of upland bird habitat buffers; 4) Setting aside 100,000 acres to provide habitat for duck nesting in wetland complexes located outside the recognized 100-year floodplain; and 5) Setting aside 250,000 acres for enrollment of longleaf pine. Also, in August 2004, the Administration announced it was committed to full enrollment of CRP. Recognizing that contracts on 28.6 million acres mature during 2007—2010, the Administration announced it would provide for early re-enrollment and extension.

Total CRP enrollment, about 36.0 million acres at the end of 2006, is projected to increase to 37.1 million acres at the end of 2007. Enrollment is then expected to decline in 2008 and 2009 before steadily increasing to 39.2 million acres by 2016. As for EFCRP, USDA estimates total enrollment during calendar year 2006 to be 215,000 acres.

There are no general sign-ups assumed during 2007 or 2008. Continuous sign-up enrollment is assumed as follows (by sign-up year):

## COMMODITY CREDIT CORPORATION FUND—Continued (LIMITATION ON EXPENSES)—Continued

2007: 556,000 (250,000 acres of new lands and 306,000 acres of re-enrolled lands)

2008: 395,000 (250,000 acres of new lands and 145,000 acres of re-enrolled lands)

To encourage participation in CCRP and CREP, USDA will provide financial incentives including a signing bonus and a payment based on practice installation cost are expected to total about \$63 million in 2007 and \$39 million in 2008.

P.L. 108–498, signed into law December 23, 2004, provides independent authority beginning October 1, 2004, for CRP funds to be used for technical assistance.

Appropriations are made to reimburse the Corporation for net realized losses sustained in carrying out its operations.

USDA has incorporated stochastic price and production variability into its 10-year budget baseline process starting with the 2007 President's Budget. For the 2007–2016 crops, Commodity Credit Corporation outlay projections for counter-cyclical payments, marketing loan benefits, and milk income loss contract payments are based on price probability distributions and flexibilities generated by the Economic Research Service's Food and Agricultural Policy Simulation model. This approach was used for feed grains (corn, barley, sorghum, oats), wheat, rice, upland cotton, soybeans, and dairy.

#### PROGRAMS OF THE CORPORATION

Price support, marketing assistance loans, and related stabilization programs.—The Corporation conducts programs to support farm income and prices and stabilize the market for agricultural commodities. Price support is provided to producers of agricultural commodities through loans, purchases, payments, and other means. This is done mainly under the Commodity Credit Corporation Charter Act, as amended, the Agricultural Act of 1949 (the 1949 Act), as amended, and the Farm Security and Rural Investment Act of 2002 (the 2002 Farm Bill).

Price support is mandatory for sugar and dairy products. Marketing assistance loans are mandatory for wheat, feed grains, oilseeds, upland cotton, peanuts, and rice. Loans are also required to be made for sugar, honey, wool, mohair, extra long staple cotton, and the pulse crops.

One method of providing support is loans to and purchases from producers. With limited exceptions, loans made on commodities are nonrecourse. The commodities serve as collateral for the loan and on maturity the producer may deliver or forfeit such collateral to satisfy the loan obligation without further payment

Direct purchases may be made from processors as well as producers, depending on the commodity involved. Also, special purchases are made under various laws for the removal of surpluses; for example, the Act of August 19, 1958, as amended, and section 416 of the Agricultural Act of 1949, as amended

Direct Payments and Counter-Cyclical Payments.—The 2002 Farm Bill established direct payments and counter-cyclical payments for May 2002 through 2007. The eligible commodities for both direct payments and counter-cyclical payments are wheat, corn, grain sorghum, barley, oats, upland cotton, rice, soybeans, other oilseeds, and peanuts.

Direct Payments are payments to producers for which payment yields and base acres are established. The commodity payment amount is calculated as follows: Payment Amount = specified rate x payment acres x payment yield. At the option of the producer, the producer can choose to receive advance payments (up to 50%) during the producer's selected month. The month selected may be any month during the period beginning on December 1 of the calendar year before the calendar year in which the crop of the covered commodity is harvested through the month within which the direct payment would otherwise be made.

Counter-Cyclical Payments are payments to producers for which payment yields and base acres are established for eligible commodities if it is determined that the effective commodity price is less than the target commodity price. Counter-cyclical payments will be made for the crop as soon as practicable after the end of the 12-month marketing year for the eligible commodity. If, before the end of the 12-month marketing year it is determined that counter-cyclical payments will be required for the eligible commodity, producers will be provided the option to receive partial payment of the projected counter-cyclical payment.

Marketing assistance loans.—The 2002 Farm Bill authorized producers of eligible crops to receive non-recourse marketing assistance loans from the government for any quantity of a loan commodity produced on the farm by pledging their production as loan collateral. This loan shall have a term of 9 months beginning on the first day of the first month after the month in which the loan is made. The loan cannot be extended. As a condition of the receipt of a marketing assistance loan, the producer shall comply with applicable conservation requirements under subtitle B of title XII of the Food Security Act of 1985 and applicable wetland protection requirements under subtitle C of title XII of the Act during the term of the loan. Producers of eligible commodities can repay a marketing assistance loan at a rate that is the lesser of (1) the loan rate established for the commodity plus interest; or (2) a rate that the Secretary determines. Special rules apply to upland cotton, rice, and extra long staple cotton. Crops eligible for marketing assistance loans include wheat, corn, barley, oats, grain sorghum, rice, upland cotton, soybeans, extra long staple cotton, other oilseeds, dry peas, lentils, small chickpeas, honey, wool, and mohair.

Peanut price support program.—Under the 2002 Farm Bill, peanuts qualify for direct payments, counter-cyclical payments, marketing assistance loans and loan deficiency payments for the 2002 through 2007 crops.

The 2002 Farm Bill terminated the marketing quota programs and repealed price support programs. The prior quota programs stayed in effect for the 2001 crop only, with quota buyout compensation payments being made during 2002 through 2006. The prior price support programs remained in effect for the 2002 crop only, notwithstanding any other provision of law or crop insurance policy.

The 2002 Farm Bill established marketing assistance loans for the 2002 through 2007 crops, with the loan rate for peanuts of \$355 per ton. The payment rate shall be the amount by which the established loan rate exceeds the rate at which a loan may be repaid. The Farm Bill also requires that for crop years 2002 through 2006 CCC will pay storage, handling,

 $\begin{array}{ccc} \textbf{FARM SERVICE ABENCY} \\ \textbf{Federal Funds} \\ \textbf{-} \textbf{Continued} \end{array} \qquad \qquad \mathbf{101}$ 

and other associated costs to ensure proper storage of peanuts for which a loan is made. This authority terminates beginning with the 2007 crop.

DEPARTMENT OF AGRICULTURE

Tobacco program.—The American Jobs Creation Act of 2004, P.L. 108–357, eliminated the program effective with the 2005 crop. In return for losing the program, growers and quota holders will receive a buyout. The owners of quota will be paid \$7 per pound for the quota they hold. The actual producers will be paid \$3 per pound for the quota they produced. The legislation eliminates all geographic and poundage restrictions on tobacco production as well as price support. The buyout will be funded by assessments on the tobacco product manufacturers and importers. The program will cost \$10.14 billion, and the growers and quota holders will be paid over a 10-year period.

Sugar program.—Sugar qualifies for price support. The 2002 Farm Bill extended the national average sugar loan rates to cover through the 2007 crops at 18 cents per pound for raw cane sugar and 22.9 cents per pound for refined beet sugar. Loans are available to processors of domestically grown sugarcane and sugar beets for a term of nine months that does not begin or extend beyond the end/beginning of a fiscal year. The non-recourse loans are extended through the 2007 crop for processors of domestically produced sugar beets and sugarcane including for in-process sugar. Loans for in-process sugar have a loan rate of 80% of the loan rate for raw cane sugar or refined beet sugar (based on the source material used). If forfeitures occur, the processor shall convert the in-process into final product at no cost to the CCC. Upon transfer, the processor will receive payment based on the loan rate less 80% of raw cane or refined beet sugar rate times the quantity of sugar transferred. The loan program is assumed to continue through the 2012 crop. The 2002 Farm Bill did not resume the sugar marketing assessment collections but authorized marketing allotments. The 2002 Act provides assistance for sugar donations in the amount of 10,000 tons to compensate sugar producers who suffer losses incurred beyond existing CCC administered pro-

Dairy program.—The 2002 Farm Bill extended the Dairy Price Support Program from June 1, 2002 through December 31, 2007 at a rate of \$9.90 per hundredweight for milk containing 3.67% butterfat. The support program is carried out through the purchase of butter, nonfat dry milk, and cheese at prices that enable processors to pay dairy farmers, on average, the support price for milk. As under previous law, the Secretary may allocate the rate of price support between the purchase prices for nonfat dry milk and butter in a manner that minimizes CCC expenditures or other objectives, as the Secretary considers appropriate. Cash CCC inventory sales (with some exceptions) shall be at any price that the Secretary determines will maximize CCC returns. The 2002 Farm Bill repealed all legislative authority for the Dairy Recourse Loan Program but established a new Milk Income Loss Contract Program (MILC), under which the Secretary may contract with eligible producers to make monthly payments when milk prices fall below specified levels.

Payment Limitations.—In general, the 2002 Farm Bill revised the Food Security Act of 1985 (7 U.S.C. 1308) for payment limitations. The total amount of direct payments made to a person during any crop year for 1 or more covered commodities may not exceed \$40,000. The total amount of counter-cyclical payments made to a person during any crop year for 1 or more covered commodities may not exceed \$65,000. Separate limits apply to direct and counter-cyclical payments for peanuts. The total amount of gains and payments that a person may receive during any crop year under marketing assistance loan and loan deficiency payment provisions may not exceed \$75,000. Notwithstanding any other provision of law, an individual or entity shall not be eligible

to receive any benefit described above if the average adjusted annual gross income of the individual or entity exceeds \$2,500,000, unless not less than 75 percent of the average adjusted gross income of the individual or entity is derived from farming, ranching, or forestry operations, as determined by the Secretary. This shall apply during the 2003 through 2007 crop years.

Disaster Payments.—The Agricultural Disaster Assistance Act of 2006, P.L. 109–234, authorized almost \$500 million in financial relief for farmers, ranchers, foresters, and other agricultural producers who incurred losses due to hurricanes.

Noninsured Assistance Program.—The Agricultural Risk Protection Act of 2000 eliminated the area loss requirement for triggers and made other changes. It also included a provision that all types or varieties of a crop or commodity may be considered to be a single eligible crop for NAP assistance.

Dairy Export Incentive Program (DEIP).—DEIP provides cash bonus payments to exporters to facilitate commercial sales of U.S. dairy products in overseas markets. Estimates of the quantity of dairy products to be exported under DEIP and associated expenditures were formulated within the maximum allowable expenditure and quantity levels specified in conjunction with provisions of the Uruguay Round Agreement. Consequently, current baseline projections assume that DEIP will not exceed \$116.6 million annually during 2002–2012. Actual DEIP subsidies are further limited on a product-by-product basis under the Uruguay Round.

Export Enhancement Program (EEP).—The 2002 Farm Bill authorizes funding up to \$478 million annually for EEP through 2007, which will be available for EEP programming should market conditions warrant. Actual subsidies for EEP are further limited on a product-by-product basis under the Uruguay Round.

Market Access Program (MAP).—Under the MAP, CCC Funds are used to reimburse participating organizations for a portion of the costs of carrying out overseas marketing and promotional activities. The 2002 Farm Bill continued the authority for the MAP program and increased the funding as follows: \$100 million for 2002, \$110 million for 2003, \$125 million for 2004, \$140 million for 2005, and \$200 million for 2006 and 2007.

Foreign Market Development Cooperator Program (FMD) and Quality Samples Program.—Under the FMD program, cost-share assistance is provided to nonprofit commodity and agricultural trade associations to support overseas market development activities that are designed to remove long-term impediments to increased U.S. trade. The 2002 Farm Bill increased the available funds for this program to \$34.5 million for 2002 through 2007.

CCC will fund the Quality Samples Program at an authorized annual level of \$2.5 million. Under this initiative, samples of U.S. agricultural products will be provided to foreign importers to promote a better understanding and appreciation for the high quality of U.S. products.

Commodity Donations.—The 2002 Farm Bill authorizes the donation of surplus commodity inventory to domestic nutrition programs. The Corporation may also donate commodities under the authority of section 416(b) of the Agricultural Act of 1949 to carry out programs of assistance in developing countries and friendly countries and pay costs associated with making the commodities available. Commodities that are acquired by CCC in the normal course of its domestic support operations will be available for donation. The current CCC inventory has nonfat dry milk available for donation. The Corporation may also use its funds to furnish commodities overseas under the authority of the Food for Progress Act of 1985; however, not more than \$40 million of the funds of the Corporation (exclusive of the costs of commodities) may be used for each fiscal year.

# COMMODITY CREDIT CORPORATION FUND—Continued (LIMITATION ON EXPENSES)—Continued

The Bill Emerson Humanitarian Trust.—The Bill Emerson Humanitarian Trust (BEHT) is a commodity reserve that was established to ensure that the United States can meet its international food aid commitments. Commodities authorized for the 4-million-ton reserve include wheat, corn, grain sorghum, and rice. The Secretary is authorized to release up to 500,000 metric tons for urgent humanitarian relief in disasters in the case of unanticipated need and to release an additional 500,000 metric tons of eligible commodities that could have been released but were not released in previous years. The Secretary is authorized to release eligible commodities from the reserve when supplies are so limited that eligible commodities cannot be made available for programming under P.L. 480. The 2002 Farm Bill extended the authorization to replenish the BEHT through 2007. CCC is authorized to hold funds as well as commodities in the reserve.

Conservation Programs.—Title II of the Farm Security and Rural Investment Act of 2002, P.L. 107–171, authorizes funding for new and existing conservation programs implemented by the Farm Service Agency or the Natural Resources Conservation Service and funded through the Commodity Credit Corporation. The bill provides additional funding to help farmers adopt and maintain conservation systems that protect water quality, reduce soil erosion, protect and enhance wild-life habitat and wetlands, conserve water, and sequester carbon. One such program is the Conservation Reserve Program administered by FSA.

Up to 39.2 million acres may be enrolled at any one time. CRP is USDA's largest conservation/environmental program. The purpose of CRP is to cost-effectively assist farm owners and operators in conserving and improving soil, water, air, and wildlife resources by converting highly erodible and other environmentally sensitive acreage normally devoted to the production of agricultural commodities to a long-term resource-conserving cover. CRP participants enroll contracts for periods from 10 to 15 years in exchange for annual rental payments and cost-share and technical assistance for installing approved conservation practices.

The CRP is authorized in all 50 States, Puerto Rico, and the Virgin Islands, on all highly erodible cropland, other environmentally sensitive cropland, and certain marginal pastureland meeting the eligibility criteria. In addition to cropland in areas adjacent to lakes and streams that can be devoted to filter strips, and cropland subject to overflow and suffering from scour erosion, eligible land may include cropland contributing to water quality problems, and other lands posing environmental threats. Also eligible for the CRP are water quality or wildlife habitat impaired areas that do not meet the highly erodible land (HEL) criteria, such as the Chesapeake Bay, Great Lakes, and Long Island Sound watershed regions.

The financial assistance for conservation programs where the Natural Resources Conservation Service (NRCS) is the lead agency, is transferred from CCC to NRCS's Farm Security and Rural Investment Programs account (see the NRCS section). Specifically, these programs include the Environmental Quality Incentives Program, Wetlands Reserve Program, Wildlife Habitat Incentives program, Farm and Ranch Lands Protection Program, Conservation Security Program, and Grassland Reserve Program.

The Agricultural Risk Protection Act of 2000 authorized CCC funding of \$10 million for 2001 and subsequent years for the Agricultural Management Assistance Program (AMAP). AMAP provides cost-share assistance to producers in not less than 10, nor more than 15, States in which the Federal Crop Insurance Program is historically low as determined by the Secretary of Agriculture. The 2002 Farm Bill

increased CCC funding to \$20 million annually through 2007. The Secretary delegated authority to Natural Resources Conservation Service, Risk Management Agency, and the Agricultural Marketing Service. The 2008 Budget assumes the \$10 million authorized for use will not be funded because the assistance AMAP provides is duplicative of other priority conservation programs, such as the Environmental Quality Incentives Program.

Emergency Forestry Conservation Reserve Program.—The Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza, 2006, P.L. 109–148, mandates that during calendar year 2006, the Secretary shall carry out an emergency pilot program in States that the Secretary determines have suffered damage to merchantable timber in counties affected by hurricanes during the 2005 calendar year. The Act provides \$404.1 million for this program. The Agricultural Disaster Assistance Act ot 2006, P.L. 109–234, authorized another \$100 million for this program. By the end of calendar year 2006, USDA estimates that it will have enrolled about 215,000 acres into EFCRP.

Loan operations.—The following table reflects commodity loan operations of the Corporation:

[In millions of dollars]

Operating expenses.—The Corporation carries out its functions through utilization of employees and facilities of other Government agencies. Administrative expenses are incurred by: the Farm Service Agency (FSA); the Foreign Agricultural Service; the Natural Resources Conservation Service; the Risk Management Agency; other agencies of the Department engaged in the Corporation's activities; and the Office of the Inspector General for audit functions. Additional expenses are incurred by FSA county offices for work related to programs of the Corporation, other FSA expenses offset by revenue, custodian, and agency expenses of the Federal Reserve banks and lending agencies, and miscellaneous costs.

Expenses are incurred for acquisition, operation, maintenance, improvement, or disposition of existing property that the Corporation owns or in which it has an interest. These expenses are treated as program expenses. Such program expenses include inspection, classing, and grading work performed on a fee basis by Federal employees or Federal- or State-licensed inspectors; and special services performed by Federal agencies within and outside this Department. Most of these general expenses, including storage and handling, transportation, inspection, classing and grading, and producer storage payments, are included in program costs. They are shown in the program and financing schedule in the entries entitled "Storage, transportation, and other obligations not included above," and "Producer storage payments."

Section 161 of the 1996 Act amended Section 11 of the

Section 161 of the 1996 Act amended Section 11 of the CCC Charter Act to limit the use of CCC funds for the transfer and allotment of funds to State and Federal agencies. The Section 11 cap of \$56 million including FSA loan service fees remains at \$56 million in 2006.

The Corporation receives reimbursement for grain requisitioned pursuant to Public Law 87–152 by the States from Corporation stocks to feed resident wildlife threatened with starvation through the appropriation reimbursement for net realized losses. There have been no requisitions in recent years, however. The Corporation receives reimbursement for the commodity costs and other costs, including administrative costs, for commodities supplied to domestic nutrition programs and international food aid programs.

#### FINANCING

Borrowing authority.—The Corporation has an authorized capital stock of \$100 million held by the U.S. Treasury and, effective in 1988, authority to have outstanding borrowings up to \$30 billion at any one time.

Funds are borrowed from the Treasury and may also be borrowed from private lending agencies and others. The Corporation reserves a sufficient amount of its borrowing authority to purchase at any time all notes and other obligations evidencing loans made to the Corporation by such agencies and others. All bonds, notes, debentures, and similar obligations issued by the Corporation are subject to approval by the Secretary of the Treasury as required by the Act of March 8, 1938.

Interest on borrowings from the Treasury (and on capital stock) is paid at a rate based upon the average interest rate of all outstanding marketable obligations (of comparable ma-

turity date) of the United States as of the preceding month. Interest is also paid on other notes and obligations at a rate prescribed by the Corporation and approved by the Secretary of the Treasury.

The Department of Agriculture and Related Agencies Appropriation Act, 1966, made provision for terminating interest after June 30, 1964 on the portion of the Corporation's borrowings from the Treasury equal to the unreimbursed realized losses recorded on the books of the Corporation after the end of the fiscal year in which such losses are realized.

#### POSITION WITH RESPECT TO BORROWING AUTHORITY, END OF YEAR

Lin millions	of dollars)		
ltem .	2006 actual	2007 est.	2008 est.
Statutory borrowing authority	30,000	30,000	30,000
Deduct: Borrowings from Treasury	16,420	8,158	8,186
Net statutory borrowing authority available	13,580	21,842	21,814

Note.—Accounts payable, accrued liabilities, and other outstanding obligations not reflected on this table do not become charges against the statutory borrowing authority until they result in borrowings from the Treasury.

Contract authority.—Price support and other programs required by statute may result in the Corporation incurring obligations in excess of available funds and borrowing authority. Such obligations are liquidated from subsequent appropriations and other funds that may become available to the Corporation. Any increase in obligations in excess of available fund resources is reported as contract authority in the year involved; a decrease is reported as the application of appropriations and other funds to liquidate the authority.

Appropriations.—Under section 2 of Public Law 87–155 annual appropriations are authorized for each fiscal year to reimburse the Corporation for net realized losses incurred as of the close of each year.

The special activities are financed as indicated in the program descriptions above. In addition to certain reimbursements from other agencies, appropriations are made for foreign assistance programs.

*Deficit.*—The net realized losses of the Corporation have previously been reimbursed as follows:

#### SUPPORT AND RELATED PROGRAMS

[In millions of dollars]

Commodity Certificates.—Subtitle B of the 2000 Act allows for the use of commodity certificates. In making in-kind payments, CCC may (a) "acquire and use commodities that have been pledged to the Commodity Credit Corporation as collateral for loans made by the Corporation"; (b) "use other commodities owned by the Commodity Credit Corporation"; and (c) "redeem negotiable marketing certificates for cash under terms and conditions established". Commodity certificates discourage producers from forfeiting commodities pledged as collateral for CCC commodity loans. Certificates are used to

#### COMMODITY CREDIT CORPORATION FUND—Continued

#### (LIMITATION ON EXPENSES)—Continued

repay marketing assistance loans when the adjusted world price (for rice and upland cotton) or the posted county price (for wheat, feed grains, soybeans, wool, mohair, honey, peanuts, dry peas, lentils, small chickpeas, and designated minor oilseeds) is lower than the applicable loan rate. The Budget assumes that commodity certificates may be exchanged for loan collateral through crop year 2016.

## COMMODITY CREDIT CORPORATION EXPORT LOANS PROGRAM ACCOUNT

#### (INCLUDING TRANSFERS OF FUNDS)

For administrative expenses to carry out the Commodity Credit Corporation's export guarantee program, GSM 102 and GSM 103, \$5,344,000; to cover common overhead expenses as permitted by section 11 of the Commodity Credit Corporation Charter Act and in conformity with the Federal Credit Reform Act of 1990, of which \$4,985,000 may be transferred to and merged with the appropriation for "Foreign Agricultural Service, Salaries and Expenses", including \$775,000 to be made available for debt recovery, and of which \$359,000 may be paid to the appropriation for "Farm Service Agency, Salaries and Expenses".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This is the program account for the GSM-102 CCC Export Credit Guarantee Program. The GSM-102 Export Credit Guarantee Program covers credit terms of up to 3 years. Under this program, CCC does not provide financing, but guarantees payments due from foreign banks and buyers. Because payment is guaranteed, financial institutions in the United States can offer competitive credit terms to foreign banks, usually with interest rates based on the London Inter-Bank Offered Rate (LIBOR). If the foreign bank fails to make any payment as agreed, the exporter or assignee must submit a notice of default to the CCC. A claim for loss must be filed, and the CCC will promptly pay claims found to be in good order. CCC usually guarantees 98 percent of the principal payment due and interest based on a percentage of the one-year Treasury rate.

A portion of the guarantees made available under the GSM-102 program is provided as Supplier Credit Guarantees. Under this activity, CCC guarantees a portion of payment due from importers under short-term financing (for up to 180 days) that exporters have extended directly to the importers for the purchase of U.S. agricultural commodities and products. CCC does not provide financing, but guarantees payment due from an importer. A substantially smaller portion of the value of exports (currently 65 percent) is guaranteed under Supplier Credit Guarantees than under regular GSM-102 guarantees where CCC is guaranteeing foreign bank obligations.

A portion of the GSM-102 guarantees is also made available as Facilities Guarantees. Under this activity, CCC guarantees export financing for capital goods and services to improve handling, marketing, processing, storage, or distribution of imported agricultural commodities and products.

The subsidy estimates for the GSM-102 program is determined in large part by the obligor's sovereign or non-sovereign country risk grade. These grades are developed annually by the International Credit Risk Assessment System Committee (ICRAS). In unusual circumstances, an ICRAS grade for a country may change during the fiscal year. The default estimates for GSM guarantees are determined in large part by the risk premia assigned for each risk grade.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the credit guarantees committed in 1992 and beyond (including modifications of credit guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis. The 2008 Budget displays the GSM loan guarantee volume and the subsidy level that can be justified by forecast economic conditions, the expected supply/demand conditions of countries requesting GSM loan guarantees.

#### FARM STORAGE FACILITY LOANS PROGRAM ACCOUNT

For administrative expenses necessary to carry out the Farm Storage and Sugar Storage Facility Loan Programs, \$4,660,000, shall be paid to the appropriation for "Farm Service Agency, Salaries and Expenses".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution

(P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Farm Storage Facility Loan (FSFL) Program. The FSFL program was established by CCC in 1949 to offer low-cost financing to producers for the construction or upgrade of on-farm

FARM STORAGE FACILITY LOANS PROGRAM ACCOUNT—Continued

storage facilities. The program was discontinued in the early 1980's when studies showed sufficient storage space was available. The FSFL was re-established in 2000 due to a severe shortage of sufficient available storage. The program was implemented in 2000 by CCC under Section 504(c) of the Federal Credit Reform Act of 1990. The program provides producers financing with five- to ten-year repayment terms and low interest rates. The program gives producers greater marketing flexibility when farm storage is limited and/or transportation difficulties cause storage problems, allows farmers to benefit from new marketing and technological advances, and maximizes their returns through identity-preserved marketing.

Sugar Storage Facility Loans. The 2002 Farm Bill directs that the CCC establish a sugar storage facility loan program to provide financing for processors of domestically produced sugarcane and sugar beets to construct or upgrade storage and handling facilities for raw sugars and refined sugars. The loan term is a minimum of 7 years with the amount and terms being determined as any other commercial loan.

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated in 1992 and beyond, as well as administrative expenses of this program. The subsidy amounts are estimated on a prevent value basis; the administrative expenses are estimated on a cash basis.

#### APPLE LOANS PROGRAM ACCOUNT

The Agricultural Risk Protection Act of 2000 authorized up to \$5 million for the cost to provide loans to producers of apples for economic losses as the result of low prices. Although the program is funded through CCC, program man-

109

agement is performed through farm loan programs. No further funding is requested for this program.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

## NATURAL RESOURCES CONSERVATION SERVICE

#### Federal Funds

#### CONSERVATION OPERATIONS

For necessary expenses for carrying out the provisions of the Act of April 27, 1935 (16 U.S.C. 590a-f), including preparation of conservation plans and establishment of measures to conserve soil and water (including farm irrigation and land drainage and such special measures for soil and water management as may be necessary to prevent floods and the siltation of reservoirs and to control agricultural related pollutants); operation of conservation plant materials centers; classification and mapping of soil; dissemination of information; acquisition of lands, water, and interests therein for use in the plant materials program by donation, exchange, or purchase at a nominal cost not to exceed \$100 pursuant to the Act of August 3, 1956 (7 U.S.C. 428a); purchase and erection or alteration or improvement of permanent and temporary buildings; and operation and maintenance of aircraft, \$801,825,000, to remain available until June 30, 2009, of which not less than \$10,760,000 is for snow survey and water forecasting, and not less than \$10,858,000 is for operation and establishment of the plant materials centers, and not less than \$10,000,000 shall be for the grazing lands conservation initiative: Provided, That appropriations hereunder shall be available pursuant to 7 U.S.C. 2250 for construction and improvement of buildings and public improvements at plant materials centers, except that the cost of alterations and improvements to other buildings and other public improvements shall not exceed \$250,000: Provided further, That when buildings or other structures are erected on non-Federal land, that the right to use such land is obtained as provided in 7 U.S.C. 2250a: Provided further, That this appropriation shall be available for technical assistance and related expenses to carry out programs authorized by section 202(c) of title II of the Colorado River Basin Salinity Control Act of 1974 (43 U.S.C. 1592(c)): Provided further, That qualified local engineers may be temporarily employed at per diem rates to perform the technical planning work of the Service. (7 U.S.C. 2201-02; 16 U.S.C. 1101—5; 33 U.S.C. 7016–11.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Technical assistance.—Technical assistance is provided through 2,955 conservation districts or special districts to land users and decisionmakers, including individual land-owners and operators, community groups, units of government, Indian tribes, and others for the planning of conservation programs and installation of needed conservation systems on the land, including design, layout, installation, and consultation services.

#### MAIN WORKLOAD FACTORS

	2006 actual	2007 est.	2008 est.
Customers receiving technical assistance for planning & ap-			
plication, number	132,400	125,000	120,000
Conservation systems planned, acres	45.7	42.0	40.5
Cropland with conservation applied to improve soil quality,			
acres	6.4	6.0	5.7
Grazing and forest land with conservation applied to protect			
and improve the resource base, acres	11.7	8.0	7.7

Inventory and monitoring, resource appraisal, and program development activities are also funded through this account. Resource inventories are conducted to provide soil, water, and related resource data for evaluating land-use changes and trends; and for guidance in the development and implementation of Federal, State, and local resource conservation programs. Resource appraisal and program development provides periodic reports to the public and Congress as required by

the Soil and Water Resources Conservation Act of 1977 as amended.

The 2008 Budget specifically targets invasive species conservation priorities by including \$10 million for the Grazing Lands Conservation Initiative. This funding will help ranchers and range managers fight and control priority invasive species by funding a competitive grants program that funds cooperative and cost-effective strategies to address invasive species on private grazing lands.

Soil surveys.—Soil surveys and investigations are made on the soil resources of the Nation's private lands. NRCS provides this information as electronic and printed publications for use by the American public and other Federal, State and local agencies in making land-use decisions. NRCS uses the information for program development, resource conservation planning, and installation of planned practices. NRCS provides national leadership for the National Cooperative Soil Survey and digitizing of soil surveys in cooperation with States, and other users of soil survey data.

#### MAIN WORKLOAD FACTORS

	2006 actual	2007 est.	2008 est.
Acres mapped annually (millions)	35.5	32.5	35.0
New or updated Web Soil Surveys published, number	126	80	60

Snow survey and water supply forecasting.—Water supply forecasts prepared from snow surveys in western states are used in making efficient seasonal use of water for irrigation, flood control, fish and wildlife, recreation, power generation, municipal and industrial water supply, emergency management, and water quality management.

Operation of plant materials centers.—The selection, evaluation and release of plant materials are made at 27 plant materials centers through field trials to determine their suitability for erosion control, water quality and quantity, range and pasture management, biofuel and biomass, air quality, wildlife management, and other environmental improvements. Plant science technology is also documented in fact sheets, technical notes, and the Field Office Technical Guide.

The Farm Security and Rural Investment Act of 2002 (P.L. 107–171) reauthorizes a number of USDA's conservation programs. NRCS is responsible for implementing many of these programs. All of the assistance for programs where NRCS is the lead implementation agency is transferred from the Commodity Credit Corporation (CCC) to the Farm Security and Rural Investment Programs account. This account funds

FARM SECURITY AND RURAL INVESTMENT PROGRAMS—Continued

the cost-share, monitoring, easement, and other financial assistance activities associated with the programs under title II of the 2002 Farm Bill. In addition, this account funds the technical assistance costs necessary for delivering the Environmental Quality Incentives Program, Ground and Surface Water Conservation, Klamath Basin, Wildlife Habitat Incentives Program, Farm and Ranch Land Protection Program, Conservation Security Program, Grassland Reserve Program, and Wetlands Reserve Program.

The following programs are funded in this account.

Wetlands Reserve Program (WRP) is authorized under Section 1237 of the Food Security Act of 1985, as amended. The authority provides for a total acreage enrollment cap of 2,275,000 acres. The purpose of the WRP is to preserve, protect, and restore valuable wetlands. Because the program's authority to use CCC funds to enroll new contracts expires at the end of 2007, the 2008 Budget includes a general provision to extend WRP's authority to enroll acres through 2008. USDA estimates that extending WRP's enrollment authority through 2008 will allow NRCS to reach the program's total acreage cap.

Environmental Quality Incentives Program (EQIP) was reauthorized in the Deficit Reduction Act of 2005. The purpose of the program is to promote agricultural production and environmental quality as compatible national goals. The 2008 Budget proposes canceling mandatory funds in excess of \$1 billion for this program in 2008.

Ground and Surface Water Program (GSW) is authorized by Section 1240I of Title XII of the Food Security Act of 1985. Funding is authorized at \$310 million over six years. The purpose of the program is to promote ground and surface water conservation by providing cost-share payments and incentive payments to producers to carry out eligible water conservation activities. Authorization for mandatory funding for this program expires at the end of 2007.

Klamath Basin is authorized by Section 1240I of Title XII of the Food Security Act of 1985. Funding is authorized at \$50 million over 6 years. The purpose of the Klamath Basin program is to carry out water conservation activities in the Klamath Basin located in California and Oregon. This program will reach its authorized funding level by the end of 2007.

Farm and Ranch Lands Protection Program (FRPP). The Farm Security and Rural Investment Act of 2002 repealed the Farmland Protection Program authorized by the Federal Agriculture Improvement and Reform Act of 1996 and authorized a new Farmland Protection Program. Funding is authorized at \$597 million over 6 years. The purpose of the program is to protect soil by limiting nonagricultural use of prime and unique farm and ranch land. Authorization for mandatory funding for this program expires at the end of 2007.

Wildlife Habitat Incentives Program (WHIP) is authorized by Section 1240N of the Food Security Act of 1985. Funding is authorized at \$360 million over 6 years. The purpose of the program is to develop habitat for upland wildlife, wetlands wildlife, threatened and endangered species, fish, and other types of wildlife. Authorization for mandatory funding for this program expires at the end of 2007.

Conservation Security Program (CSP) was reauthorized in the Deficit Reduction Act of 2005. The purpose of the program is to provide financial and technical assistance for the conservation, protection, and improvement of natural resources on Tribal and private working lands. The program provides assistance to producers who have already implemented high levels of conservation in order to reward and maintain their model stewardship. CSP also pays qualified producers to do further environmental enhancements to improve natural resource conditions on their agricultural operations. The 2008 Budget proposes to both block spending authority in excess

of \$316.2 million in 2008 and to reduce the program's tenyear (2006 through 2015) budget authority limit by \$80 million.

Grassland Reserve Program (GRP) is authorized by Section 1238N of Title XII, of Food Security Act of 1985. Funding is authorized at \$254 million over 5 years. The purpose of the program is to assist landowners in restoring and protecting grassland. This program will reach its authorized level by the end of 2007.

Agricultural Management Assistance Program (AMA) is authorized by Section 211 of the Agriculture Risk Protection Act of 2000. Subtitle F, Section 2501(1)(4)(ii) of the Farm Security and Rural Investment Act of 2002 provides \$20 million annually for financial assistance in 15 states, as determined by the Secretary, in which participation in the Federal Crop Insurance Program is historically low. The program provides assistance to producers to mitigate financial risk by using conservation measures to reduce soil erosion and improve water quality. The Budget proposes canceling funds in the amount of \$10 million in 2008.

NRCS works to deliver these conservation programs using its technical field staff and by partnering with public and private entities through the Technical Service Provider (TSP) system. NRCS can contract with TSPs to help deliver the Farm Bill programs, or agricultural producers may select TSPs to help plan and implement conservation practices on their operations.

Under the authorities of Public Law 83–566, watershed planning assistance is provided to States and communities to address specific resource problems on a watershed scale. The funds are used to cooperate with other agencies and the States in providing local decision makers with resource data, derived from cooperative river basin surveys and floodplain management studies, for use in decision making. Watershed plans are used to develop the small watershed projects.

Watershed work plans are prepared by sponsoring local organizations with the Department's assistance or through State and local resources. The 2008 Budget does not request funding for this program because the Budget is also not proposing to fund additional watershed operations projects.

These programs provide for cooperative actions between the Federal Government and States and their political subdivisions to reduce damage from floodwater, sediment, and erosion, for the conservation, development, utilization, and disposal of water, and for the conservation and proper utilization of land. Funds in Watershed and Flood Prevention Operations can be used for either flood prevention projects or flood damage rehabilitation efforts, depending upon the needs and opportunities. In order to improve the environmental and economic benefits of these projects, NRCS intends to focus on developing and funding non-structural flood prevention measures.

Emergency watershed protection.—This program authorizes the Secretary of Agriculture to undertake such emergency measures for runoff retardation and soil erosion prevention as may be needed to safeguard life and property from floods and the products of erosion on any watershed whenever natural elements or forces cause a sudden impairment of that watershed. An emergency is considered to exist when a watershed is suddenly impaired by flood, fire, wind, earthquake, drought or other natural causes and consequently life and property are endangered by floodwater, erosion, or sediment discharge. The emergency area need not be declared a national disaster area to be eligible for emergency watershed protection. Emergency watershed protection is applicable to

#### WATERSHED AND FLOOD PREVENTION OPERATIONS—Continued

small scale, localized disasters as well as large scale disasters. State environmental, natural resource, fish and game, and other agencies participate in planning and coordinating emergency work. Funding for the emergency watershed protection program is typically provided through emergency supplemental appropriations.

Watershed operations authorized by Public Law 78–534.— The Department cooperates with soil conservation districts and other local organizations in planning and installing flood prevention improvements in 11 watersheds authorized by the Flood Control Act of 1944. The Federal Government shares the cost of improvements for flood prevention, agricultural water management, recreation, and fish and wildlife development.

Small watershed operations authorized by Public Law 83–566.—The Department provides technical and financial assistance to local organizations to install measures for watershed protection, flood prevention, agricultural water management, recreation, and fish and wildlife enhancement. At least 60 percent of the funding provided is used for financial assistance.

Loans through the Agricultural Credit Insurance Fund have been made in previous years to the local sponsors in order to fund the local cost of Public Law 83–566 or 78–534 projects. No funding for these loans is assumed in 2008.

The 2008 Budget does not request funding for the watershed operations programs and instead redirects their resources to other priority programs within the Agency.

The following tabulation shows the status of Public Law 83–566 projects:

#### MAIN WORKLOAD FACTORS

#### WATERSHED REHABILITATION PROGRAM

For necessary expenses to carry out rehabilitation of structural measures, in accordance with section 14 of the Watershed Protection and Flood Prevention Act (16 U.S.C. 1012), and in accordance with the provisions of laws relating to the activities of the Department, \$5,807,000, to remain available until expended. (16 U.S.C. 1001 et seq.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Under the authorities of section 14 of the Watershed Protection and Flood Prevention Act assistance is provided to communities to address concerns about local aging dams. The 2008 Budget request will support rehabilitation of the highest priority dam projects that have reached the end of their design life. NRCS may provide technical and financial assistance for the planning, design, and implementation of rehabilitation projects that may include upgrading or removing the dams.

The Resource Conservation and Development (RC&D) Program was developed under the Soil Conservation and Domestic Allotment Act, (16 U.S.C 590a-590f), the Bankhead-Jones Farm Tenant Act, (16 U.S.C. 1010 and 1011), and the Food and Agricultural Act of 1962 (P.L. 87-703) and is authorized under subtitle H, title XV of the Agricultural and Food Act of 1981, (16 U.S.C. 3451-3461), as amended. The Food Security and Rural Investment Act of 2002 (2002 Act) permanently authorized the program. The Natural Resources Conservation Service (NRCS) administers the program. In 1981, sections 1528–1538 of the Agriculture and Food Act authorized a program to encourage and improve the capability of State and local units of government and local nonprofit organizations in rural areas to plan, develop, and implement programs for resource conservation and development. Through the program, RC&D areas establish or improve coordination systems in rural communities and build rural community leadership skills to effectively use Federal, State and local programs for the communities' benefit. The 2002 Act further strengthened the relationship between the Department of Agriculture (USDA) and the RC&D areas.

The NRCS provides program administration and assistance to RC&D areas through volunteer non-profit RC&D Councils. Other USDA agencies with conservation or development activities are involved in the development of program policy and guidance and are members of the USDA RC&D Policy Advisory Board and Working Group. These agencies provide limited technical and financial assistance to RC&D Councils. Councils also obtain the assistance from other local, State, and Federal agencies, private organizations, and foundations to carry out their specific projects.

The RC&D program provides assistance to local communities to develop strategic plans that address their locally identified natural resource and economic development concerns.

The budget proposes to consolidate the RC&D Coordinator functions at the State level, reducing the number of coordinator positions from 375 to about 50. Additionally, it will support RC&D assistance as collateral duties for field staff. The request would maintain the current number of authorized RC&D areas nationwide without any increases, decreases, substitutions, or consolidations. The responsibilities and duties of the RC&D Coordinator position would be modified

#### RESOURCE CONSERVATION AND DEVELOPMENT—Continued

to provide more programmatic oversight instead of handson day-to-day activities. RC&D Councils would be responsible for operation of their non-profit corporations without an NRCS employee being involved in day-to-day activities.

The program's long-term goal is to improve the capability of local communities to plan and deliver improvement projects. This reduction in funding for the RC&D program will require that coordinators' activities be more focused on multi-county/parish planning, intergovernmental relations, serving as the Federal Government Representative on any Federal contracts with RC&D Councils, and coordinating USDA assistance available toward implementation of RC&D Area Plans.

The following tabulation shows the status of RC&D areas authorized to receive technical and financial assistance.

#### MAIN WORKLOAD FACTORS

	2006 actual	2007 est.	2008 est.

#### HEALTHY FORESTS RESERVE PROGRAM

For necessary expenses to carry out the Healthy Forests Reserve Program authorized under Title V of Public Law 108–148 (16 U.S.C. 6571–6578), \$2,476,000.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Title V of the Healthy Forests Restoration Act of 2003 (Public Law 108–148) authorizes the establishment of the Healthy Forests Reserve Program (HFRP). The purpose of this program is to assist landowners in restoring, enhancing and protecting forest ecosystems to 1) promote the recovery of threatened and endangered species, 2) improve biodiversity, and 3) enhance carbon sequestration. HFRP supports the NRCS mission goal of Healthy Plant and Animal Communities.

NRCS provides national leadership for the implementation of this voluntary program. At the state level, the NRCS State Conservationist determines how best to deliver HFRP and implement national policies in an efficient manner based on the national priorities identified in each sign-up announcement. Only privately held land is eligible for enrollment into HFRP. Land enrolled in the HFRP must have a restoration plan that includes practices necessary to restore and enhance habitat for species listed as threatened or endangered or candidates for the threatened or endangered species list. Technical assistance will be provided by USDA to assist owners in complying with the terms of restoration plans under the HFRP.

#### GREAT PLAINS CONSERVATION PROGRAM

The 1996 Farm Bill combined the authority for this and several other conservation programs into the Environmental Quality Incentives Program. Prior-year account balances are maintained in this account until expended.

This program provides cost-share assistance to participating landowners or operators in the Great Plains area in the development and installation of long-term conservation plans and practices for their land under contracts entered into in prior years. It is a voluntary program in 556 designated counties of 10 Great Plains States. Contracts with individual landowners range in time from 3 to 10 years.

#### MAIN WORKLOAD FACTORS

	2006 actual	2007 est.
Program participants:		
Number of contracts serviced during year	31	_
Number of acres under contracts	1/12 900	

Co-landowners or operators finance the entire cost of installing recurring management-type practices and pay a specified part of the cost-shared practices installed on their land. Program regulations provide that cost-share rates offered in any contract cannot exceed 80 percent of the cost of installing eligible practices within the designated county. There is a cost-sharing limitation of \$35,000 for any contract.

#### FORESTRY INCENTIVES PROGRAM

#### Program and Financing (in millions of dollars)

No funds are proposed for the Forestry Incentives Program (FIP). The FIP was not reauthorized by the Farm Security and Rural Investment Act of 2002 (P.L. 107–171). Prior-year account balances are maintained in this account until expended.

FIP shares up to 65 percent of the cost of tree planting and timber stand improvement. The percentage cost-shared depends on the rate set in a particular State and county by NRCS, after consulting with the State forester. The program is available in designated counties based on a Forest Service survey of total eligible private timberland available for production of timber products. Technical assistance is provided by the Forest Service.

#### WATER BANK PROGRAM

#### Program and Financing (in millions of dollars)

Identification code 12–3320–0–1–302	2006 actual	2007 est.	2008 est.
Budgetary resources available for obligation: 21.40 Unobligated balance carried forward, start of year	1	1	1
${\tt 24.40 \qquad Unobligated \ balance \ carried \ forward, \ end \ of \ year}$	1	1	1
Net budget authority and outlays: 89.00 Budget authority			
90.00 Outlays			

The objectives of the Water Bank Program are to conserve water; preserve, maintain, and improve the Nation's wetlands; increase waterfowl habitat in migratory waterfowl nesting, breeding, and feeding areas in the United States; and secure recreational and environmental benefits for the Nation. The program was authorized by the Water Bank Act of 1970, as amended by Public Law 96–182, approved January 2, 1980. Funding for the expiring 1985 Water Bank agreements were transferred from the Wetlands Reserve Program 1995 appropriation to this account as authorized under the Water Bank Extension Act of 1994. The 2008 Budget does not request program funding.

#### COLORADO RIVER BASIN SALINITY CONTROL PROGRAM

#### Program and Financing (in millions of dollars)

The Colorado River Basin Salinity Control Program (CRBSC), was authorized under section 202(c) of Title II of the Colorado River Basin Salinity Control Act, as amended by section 334, subtitle D, Title III of the Federal Agriculture Improvement Act (FAIR Act) of 1996. The FAIR Act combined the authorities of the Agricultural Conservation Program (ACP), Water Quality Incentive Program (WQIP), Great Plains Conservation Program (GPCP), and the Colorado River Basin Salinity Control Program (CRBSC), into the Environmental Quality Incentives Program (EQIP). The FAIR Act also repealed CRBSC authority, while maintaining program account balances until expended.

Beginning in 1996, EQIP was implemented on an interim program level for CRBSC. Program funding provided costshare assistance to landowners and others in the Colorado River Basin States to include: Colorado, Utah and Wyoming. The program's main objective is to enhance the supply and quality of water in the Colorado River for delivery to downstream users in the U.S. and Mexico.

Section 1240N of the Food Security Act of 1985, as amended by Section 2502 of the Farm Security and Rural Investment Act of 2002 (2002 Farm Bill), authorized the Wildlife Habitat Incentives Program (WHIP) as a voluntary approach to improving wildlife habitat in our nation. The Natural Resources Conservation Service (NRCS) provides program administration for WHIP.

WHIP is a voluntary program that provides assistance to eligible participants to develop upland wildlife, wetland wildlife, threatened and endangered species, fish and other types of wildlife habitat in an environmentally beneficial and cost effective manner. The purpose of the program is to create high-quality wildlife habitats that support wildlife populations of local, state, and national significance.

The 2002 Farm Bill reauthorized WHIP through 2007. Funding for WHIP is now provided through NRCS's Farm Security and Rural Investment Account. Information displayed in this section represents unobligated balances remaining from the 1996 Farm Bill only.

This program, also known as "Farms for the Future," provides guarantees and interest assistance on loans made to State trust funds, who in turn finance acquisitions to preserve farmland in selected states. No guarantees have been made since 1993.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from guaranteed loans committed in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals.

Since 2001, Rural Development has had a consolidated Salaries and Expenses account to administer all Rural Development programs, including programs administered by the

## SALARIES AND EXPENSES—Continued (INCLUDING TRANSFERS OF FUNDS)—Continued

Rural Utilities Service (RUS), the Rural Housing Service (RHS), and the Rural Business-Cooperative Service (RBS).

RUS provides grants, direct loans and loan guarantees to suppliers of electric, telecommunications (for general purpose and for distance learning/telemedicine), and water and wastewater services in rural areas. Through the water and wastewater program, RUS also provides technical assistance. Most of the programs are administered in Washington, DC. The Rural Development field office staff performs the services related to the water and wastewater grant and loan programs. For the electric and telecommunication loans, general field representatives visit borrowers periodically and maintain liaisons between the borrowers and headquarters.

RHS was formed from the Rural Housing section of the Farmers Home Administration and the Community Facilities Division of the Rural Development Administration. RHS delivers rural housing and community facility programs through a system of State, area, and local offices.

RBS includes programs from the former Rural Development Administration, rural development programs and from the former Rural Electrification Administration. This agency delivers loan and grant programs, as well as technical assistance, to cooperatives and rural businesses.

This account consolidates under the Rural Community Advancement Program (RCAP) funding for the direct and guaranteed water and waste disposal loans, water and waste disposal grants, emergency community water assistance grants, solid waste management grants, direct and guaranteed community facility loans, community facility grants, direct and guaranteed business and industry loans, rural business enterprise grants, and rural business opportunity grants. This is in accordance with the provisions set forth in the Federal Agriculture Improvement and Reform Act of 1996, as amended, Public Law 104–127 (the 1996 Act).

RCAP is composed of the following three funding streams: Rural Community Facilities, Rural Utilities, and Rural Business. Funds for Native American Communities are provided as part of the whole amount appropriated for these streams, but are earmarked to the Rural Utilities funding streams.

For 2008, funding for the three streams will no longer be combined in RCAP. Instead, each stream will be funded separately, with separate appropriations language. The new accounts and appropriations language appear in each stream's respective Service. The Water and Wastewater funding stream is in the Rural Utilities Service, the Community Facilities funding stream is in the Rural Housing Service, and the Business stream is in the Rural Business Service. Specific descriptions of each program funded in the streams appear with new accounts.

RURAL HOUSING ASSISTANCE GRANTS

For grants and contracts for very low-income housing repair, supervisory and technical assistance, compensation for construction defects, and rural housing preservation made by the Rural Housing Service, as authorized by 42 U.S.C. 1474, 1479(c), 1490e, and 1490m, \$39,000,000, to remain available until expended: Provided, That of the total amount appropriated, \$1,188,000 shall be available through June 30, 2008, for authorized empowerment zones and enterprise communities and communities designated by the Secretary of Agriculture as Rural Economic Area Partnership Zones: Provided further, That any balances to carry out a housing demonstration program to provide revolving loans for the preservation of low-income multi-family housing projects as authorized in Public Law 108–447 and Public Law 109–97 shall be transferred to and merged with "Rural Housing Service, Multifamily Housing Revitalization Program Account".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The rural housing for domestic farm labor grant program is authorized under section 516 of the Housing Act of 1949. The very low-income housing repair grant program is authorized under section 504 of the Housing Act of 1949, as amended. This grant program enables very low-income elderly residents in rural areas to improve or modernize their dwellings, to make the dwelling safer or more sanitary, or to remove health and safety hazards. The Budget provides \$30 million for this program in 2008.

The supervisory and technical assistance grant program is carried out under the provisions of section 509(f) and 525 of the Housing Act of 1949, as amended. Under section 509, grants are made to public and private nonprofit organizations for packaging loan applications for housing under sections 502, 504, 514/516, 515, and 533 of the Housing Act of 1949, as amended. The assistance is to be directed to underserved areas where at least 20 percent or more of the population is at or below the poverty level, and at least 10 percent or more of the population resides in substandard housing. Under section 525, grants are made to public and private nonprofit organizations and other associations for the developing, conducting, administering or coordinating of technical and supervisory assistance programs to demonstrate the benefits of Federal, State, and local housing programs for lowincome families in rural areas. Funding for this activity should be through the use of carryover balances or redirection of funding from housing preservation or housing repair grants since no allocation of funds are provided specifically for this activity in 2008.

The rural housing preservation grant program is authorized under section 533 of the Housing Act of 1949, as amended. Grants are made to eligible nonprofit groups, Indian tribes, or government agencies for rehabilitation of single family housing owned by low- and very low-income families and the rehabilitation of rental and cooperative housing for low- and very low-income families. \$9 million is provided for this program in 2008.

The direct farm labor loan program is authorized under section 514 and the rural housing for domestic farm labor grant program is authorized under section 516 of the Housing Act of 1949, as amended. The loans, grants, and contracts are made to public and private nonprofit organizations for low-rent housing and related facilities for domestic farm labor. Grants assistance may not exceed 90 percent of the cost of a project. Loans and grants may be used for construction of new structures, site acquisition and development, rehabilitation of existing structures, and purchase of furnishings and equipment for dwellings, dining halls, community rooms, and infirmaries. Total program level provided in 2008 is \$18 million (\$4 million in grants and \$14 million in loan level).

#### RENTAL ASSISTANCE PROGRAM

For rental assistance agreements entered into or renewed pursuant to the authority under section 521(a)(2) or agreements entered into in lieu of debt forgiveness or payments for eligible households as authorized by section 502(c)(5)(D) of the Housing Act of 1949, \$567,000,000 to remain available until September 30, 2009; and, in addition, such sums as may be necessary, as authorized by section 521(c) of the Act, to liquidate debt incurred prior to fiscal year 1992 to carry out the rental assistance program under section 521(a)(2) of the Act: Provided, That agreements entered into or renewed during the current fiscal year shall be funded for a one-year period: Provided further, That the life of any such agreement may be extended to fully utilize amounts obligated.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The rental assistance program is authorized under section 521(a)(2) of the Housing Act of 1949, as amended, and is designed to reduce rents paid by very low-income and low-income families living in RHS-financed rural rental and farm labor housing projects. Funding under this account is provided for renewals of existing rental assistance contracts, assistance for newly constructed units financed by the section 515 rural rental and cooperative housing program or the 514/516 farm labor housing loan and grant programs, and for additional servicing assistance for existing projects.

For 2008, the request for rental assistance grants is for one year contracts with two-year availability, with a total funding level of \$567 million.

From 1978 through 1991, the rental assistance program was funded under the Rural Housing Insurance Fund. Beginning in 1992, pursuant to Credit Reform, a separate grant account was established for this program.

#### MULTIFAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

For the rural housing voucher program as authorized under section 542 of the Housing Act of 1949, but notwithstanding subsection (b) of such section, \$27,800,000, to remain available until expended: Provided, That such vouchers shall be available to any low-income household (including those not receiving rental assistance) residing in a property financed with a section 515 loan which has been prepaid after September 30, 2005: Provided further, That the amount of the voucher shall be the difference between comparable market rent for the section 515 unit and the tenant paid rent for such unit: Provided further, That funds made available for such vouchers, shall be subject to the availability of annual appropriations: Provided further, That the Secretary shall, to the maximum extent practicable, administer such vouchers with current regulations and administrative guidance applicable for section 8 housing vouchers administered by the Secretary of the Department of Housing and Urban Development (including the ability to pay administrative costs related to delivery of the voucher funds): Provided further, That funds made available under this paragraph may also be used for preservation and revitalization of the section 515 multifamily rental housing properties including debt restructuring, subject to authorization.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

USDA's portfolio of multifamily housing projects provides housing for nearly half a million low-income families, many of whom are elderly. Recent Federal court rulings allow projects that received their financing prior to 1989 to prepay and leave the program. A recent assessment of the capital and operating needs of the projects indicated that about 10 percent of the projects have economically viable prepayment potential and that about 46,000 tenants of these projects risk substantial rent increases and possible loss of their housing if these projects are prepaid. Current law allows USDA to assist these families by providing them with letters of priority and vouchers, which were newly funded in 2006, but have been minimally used. The 2008 Budget includes \$28 million to continue the multifamily housing revitalization proposal that was initially proposed in the 2006 Budget. The funding may be used for housing vouchers for residents of projects whose sponsors prepay their outstanding indebtedness on USDA loans and leave the program. The appropriation language for this funding is consistent with the 2006 appropriation language that requires such vouchers to be administered, to the maximum extent possible, under current regulations and administrative guidance applicable to section 8 vouchers, including delivery costs; and allows the number of such vouchers to exceed 5,000, and allows the vouchers to all low-income residents who are affected by prepayment, regardless of whether they were receiving rental assistance payments. In addition, the 2008 appropriation language provides the flexibility to use the \$28 million for debt restructuring and other revitalization incentives when they are authorized. Draft legislation will be resubmitted to Congress to authorize this revitalization effort. We expect this authorization to be passed before or during 2008.

Prior year obligated balances reflect funding for rental assistance for newly constructed units provided in limited amounts in 1984 and 1985. From 1986 through 1991 rental assistance for newly constructed units, as well as existing rental assistance contract renewals and additional servicing assistance for existing projects, had been funded under the Rural Housing Insurance Fund. Beginning in 1992, pursuant to Credit Reform, a separate grant account was established for the rental assistance program.

This program is authorized under section 523 of the Housing Act of 1949, as amended. Grants and contracts are made for the purpose of providing technical and supervisory assistance to groups of families to enable them to build their own homes through the mutual exchange of labor.

#### RURAL COMMUNITY GRANTS

Rural firefighters and emergency personnel grants are authorized under 7 U.S.C. 2655. Grants are provided to local government and Indian tribes to pay the cost of training firefighters and emergency personnel in firefighting, emergency medical practices, and responding to hazardous materials and bioagents in rural areas. Not less than 60 percent of the amounts made available for training grants shall be used to provide grants to fund partial scholarships for training of individuals at training centers. The remaining funding may be made available for grants to provide financial assistance to State and regional centers that provide training for firefighters and emergency medical personnel for improvements to the training facility, equipment, curricula, and personnel. No funds are provided in the Budget because this type of program activity is redundant with other programs in Forest Service, Federal Emergency Management Agency, and the Bureau of Land Management, which provide significant funding for this purpose.

# RURAL COMMUNITY FACILITY PROGRAM ACCOUNT (INCLUDING TRANSFER OF BALANCES)

For the costs of direct loans, loan guarantees, and grants for rural community programs as authorized by 7 U.S.C. 1926 and 1932 and described in section 381E(d)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note), \$24,512,000, to remain available until expended: Provided, That of the amount appropriated under this heading, not to exceed \$100,000 shall be available through June 30, 2008, for authorized empowerment zones and enterprise communities designated by the Secretary of Agriculture as Rural Economic Area Partnership Zones for the rural community programs described in section 381E(d)(1) of such Act: Provided further, That any prior

year balances for high cost energy grants authorized by section 19 of the Rural Electrification Act of 1936 (7 U.S.C. 901(19)) shall be transferred to and merged with the "Rural Utilities Service, High Energy Costs Grants" account: Provided further, That sections 381E—H and 381N of the Consolidated Farm and Rural Development Act, are not applicable to funds made available under this heading: Provided further, That any prior year balances in the "Rural Development, Rural Community Advancement Program" account for programs authorized by 7 U.S.C. 1926 and 1932 and described in section 381E(d)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note) shall be transferred and merged with this account: Provided further, That the Secretary shall transfer and merge with this account any other prior balances from the "Rural Development, Rural Community Advancement Program" account that the Secretary determines is appropriate to transfer.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This account funds the direct and guaranteed community facility loans and community facility grants. Since the passage of the Federal Agriculture Improvement and Reform Act of 1996 through 2007, the funding for these programs was provided as part of the Rural Community Advancement Program (RCAP). For 2008, no funding is proposed in the RCAP account and instead, each funding stream is being appropriated separately in a new account. This is the new account for the Community programs funding stream.

Community facility loans and grants are authorized under sections 306(a)(1) and 306(a)(19) of the Consolidated Farm and Rural Development Act, as amended. Loans are provided to local governments and nonprofit organizations for the construction and improvement of community facilities providing essential services in rural areas of not more than 20,000 population, such as hospitals and fire stations. Total program level in 2008 is projected to be \$512 million.

# RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)

For gross obligations for the principal amount of direct and guaranteed loans as authorized by title V of the Housing Act of 1949, to be available from funds in the rural housing insurance fund, as follows: \$4,848,611,000 for loans to section 502 unsubsidized guaranteed loans; \$22,855,000 for section 504 housing repair loans; \$200,000,000 for section 538 guaranteed multi-family housing loans; \$5,045,000 for section 524 site loans; and \$11,408,000 for credit sales of acquired property, of which up to \$1,408,000 may be for multi-family credit sales.

For the cost of direct and guaranteed loans, including the cost of modifying loans, as defined in section 502 of the Congressional Budget Act of 1974, as follows: section 502 loans, \$10,070,000, to remain available until expended, shall be for unsubsidized guaranteed loans; section 504 housing repair loans, \$6,461,000; section 538 multifamily housing guaranteed loans, \$18,800,000; and credit sales of acquired property, \$523,000: Provided, That of the total amount appropriated in this paragraph, \$180,000 shall be available through June 30, 2008, for authorized empowerment zones and enterprise communities and communities designated by the Secretary of Agriculture as Rural Economic Area Partnership Zones: Provided further, That any balances for a demonstration program for the preservation and revitalization of the section 515 multi-family rental housing properties as authorized in Public Law 109-97 shall be transferred to and merged with the "Rural Housing Service, Multifamily Housing Revitalization Program Account".

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$434,890,000, which shall be

# RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT—Continued (INCLUDING TRANSFERS OF FUNDS)—Continued

paid to the appropriation for "Rural Development, Salaries and Expenses".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Rural Housing Insurance Fund.—This fund was established in 1965 (Public Law 89–117) pursuant to section 517 of title V of the Housing Act of 1949, as amended.

The programs funded through the Rural Housing Insurance Fund Program account are: section 502 very low and low to moderate income homeownership loans and guarantees; section 504 very low-income housing repair loans; section 515 rural rental housing loans; section 524 housing site loans, single family and multi-family housing credit sales of acquired property, and section 538 multi-family housing guarantees. Starting in 2001, section 514 domestic farm labor housing loans and grants are funded under the new Farm Labor Program Account in order to provide flexibility between loans and the farm labor housing grants. The section 523 self-help housing land development loan program is funded in this account as of 1997, but no funds are provided for 2008, due to expected lack of demand.

Loan programs are limited to rural areas that include towns, villages, and other places which are not part of an urban area and that have a population not in excess of 2,500 inhabitants, or is in excess of 2,500 but not in excess of 10,000 if rural in character, or has a population in excess of 10,000 but not more than 20,000 and is not within a standard metropolitan statistical area and has a serious lack of mortgage credit for low- and moderate-income borrowers.

No funds are requested in 2008 for section 515 rural rental housing loans. However, RHS will continue to revitalize the existing 515 portfolio by providing a voucher program to assist tenants that have been displaced due to property owners prepaying their loans. Additional authorizations are anticipated to assist in revitalizing the portfolio.

Guaranteed lending is the direction of Federal assistance for mortgage credit. With improvements and innovations in the banking industry, utilizing the private sector with guarantees is a more efficient way to deliver homeownership assistance. With that in mind, no funds are requested for 502 direct single family housing loans for 2008. A separate legislative proposal that goes along with the move to guaranteed loans within single family housing programs will be proposed to authorize subsidized guaranteed single family housing loans for very-low and low income rural residents. Funding requests for these new loans will follow authorization. Meanwhile the 502 guaranteed single family housing loan program has been increased to \$4.8 billion, replacing the lost lending level from the 502 direct loans.

For 502 guaranteed single family housing loans in 2008, the Budget reflects a 3.0 percent fee on new loans. This fee will enable the program to make more loans available to serve lower income rural Americans. In 2002, RHS approved separate risk categories for the guarantee refinancing and guarantees of new loans. The guarantee fee for the refinancing will remain at 0.5 percent. This change reflects the lower risk on refinancing as compared to an unseasoned borrower receiving a new loan. It is consistent with the rate that HUD and the VA charge on similar loans.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including credit sales of ac-

quired property), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT (Legislative proposal, not subject to PAYGO)

Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in millions of dollars)

Identification code 12–2081–2–1–371	2006 actual	2007 est.	2008 est.
Guaranteed loan levels supportable by subsidy budget authority:			
215001 Guaranteed 502 single family housing, purchase			3,990
215999 Total loan guarantee levels			3,990
232001 Guaranteed 502 single family housing, purchase			-1.00
232999 Weighted average subsidy rate			-2.16

For the 502 guarantee program, the Budget includes a general provision that allows for the guarantee fee on new 502 guaranteed loans to be increased to 3 percent from 2 percent. This causes the loans to be less costly for the Government without a significant additional burden to the borrowers, given that they can finance the fee as part of the loan. This proposal will allow funding in 2008 to be at an increased amount of \$4.8 billion for purchase loans. The increase is meant to compensate for no funding for direct single family housing loans.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond including credit sales of acquired property. The

amounts in this account are a means of financing and are not included in the budget totals.

This account finances direct rural housing loans for section 502 very low- and low-to-moderate-income home ownership loan program; section 504 very low income housing repair loan program; section 514 domestic farm labor housing loan program; sections 515 rural rental housing loan program; sections 523 self-help housing loans, and 524 site development loans; and single family and multi-family housing credit sales of acquired property.

Loan programs are limited to rural areas that include towns, villages and other places which are not part of an urban area and that have a population not in excess of 2,500 inhabitants, or is in excess of 2,500 but not in excess of 10,000 if rural in character, or has a population in excess of 10,000 but not more than 20,000 and is not within a standard metropolitan statistical area and has a serious lack of mortgage credit for low and moderate-income borrowers.

Guaranteed amount of guaranteed loans outstanding,

This account finances the nonsubsidized guaranteed section 502 low-to-moderate-income home ownership loan program as well as the re-financings those loans and section 538 multifamily housing loan program. The guaranteed programs enable RHS to utilize private sector resources for the making and servicing of loans while the Agency provides a financial guarantee to encourage private sector activity.

Biomass Research and Development is authorized by the Biomass Research and Development Act of 2000. The program provides competitive grants for research, development, and demonstration to encourage innovation and development related to biomass, and improved commercialization of biobased products and energy. USDA and the Department of Energy jointly administer the program.

Current priorities focus on the following: feedstock development and production; biobased products emphasizing environmental and economic performance; integrated resource management and biomass use; and effective and targeted incentive systems for biomass commercialization and adoption.

The goal of the Empowerment Zone/Enterprise Community (EZ/EC) initiative is to revitalize rural communities in a manner that attracts private sector investment and thereby provides self-sustaining community and economic development. No funding is provided in 2008 for EZ/EC grants.

#### RURAL COOPERATIVE DEVELOPMENT GRANTS

For rural cooperative development grants authorized under section 310B(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932), \$20,928,000, of which not to exceed \$1,473,000 shall be for cooperatives or associations of cooperatives whose primary focus is to provide assistance to small, minority producers and whose governing board and/or membership is comprised of at least 75 percent minority; and of which \$15,000,000, to remain available until expended, shall be for value-added agricultural product market development grants, as authorized by section 6401 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 1621 note).

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Grants for rural cooperative development were authorized under section 310B(e) of the Consolidated Farm and Rural Development Act by Public Law 104-127, April 4, 1996. These grants are made available to nonprofit corporations and institutions of higher education to fund the establishment and operation of centers for rural cooperative development. The primary purpose of the centers is the improvement of economic conditions of rural areas through the development of new cooperatives and improving operations of existing cooperatives. RBS can fund up to 75 percent of any project and associated administrative costs and requires at least a 25 percent matching share from the applicant which must be from non-Federal sources. In 2006, the Rural Business Service began a separate solicitation for the Small Minority Producer Grant. These grants provide assistance to small, minority producers through cooperatives and associations of cooperatives.

The Appropriate Technology Transfer to Rural Areas (ATTRA) program was first authorized by the Food Security Act of 1985. The program provides information and technical assistance to agricultural producers to adopt sustainable agricultural practices that are environmentally friendly and lower production costs. The 2008 Budget provides no funding for this purpose.

Additionally, USDA provides value added marketing grants for producers of agricultural commodities. These grants can be used for planning activities and for working capital for marketing value-added agricultural products.

# RURAL ECONOMIC DEVELOPMENT GRANTS (INCLUDING CANCELLATION OF FUNDS)

Of the funds derived from interest on the cushion of credit payments, as authorized by section 313 of the Rural Electrification Act of 1936, \$34,000,000 is permanently cancelled.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This grant program is authorized under section 313 of the Rural Electrification Act, as amended, and provides funds for the purpose of promoting rural economic development and job creation projects, including funding for project feasibility studies, start-up costs, incubator projects and other expenses for the purpose of fostering rural development.

Funding for this program is provided from the interest differential on Rural Utilities Service borrowers' cushion of credit accounts.

The Federal Agriculture Improvement Act of 1996 established the National Sheep Industry Improvement Center to promote activities to strengthen and enhance production or marketing of sheep and goat products in the United States. This Program was privatized in September 2006, as required by statute, and is now the American Sheep and Goat Center.

#### RURAL STRATEGIC INVESTMENT PROGRAM GRANTS

The Rural Strategic Investment Program is authorized under 7 U.S.C. 2009dd. The Rural Strategic Investment Program provides rural communities with flexible resources to develop comprehensive, collaborative, and locally-based strategic planning processes; and implemented innovative community and economic development strategies that optimize regional competitive advantages. The program was authorized and funded in section 6030 of the Farm Security and Rural Investment Act of 2002, Public Law 107–171. The Deficit Reduction Act canceled the funding and no funds are provided in the Budget.

# RURAL BUSINESS PROGRAM ACCOUNT (INCLUDING TRANSFER OF BALANCES)

For the costs of loan guarantees and grants, for the rural business and cooperative development programs as authorized by 7 U.S.C. 1926 and 1932 and described in sections 381E(d)(3) and 310B(f) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note), \$43,200,000, to remain available until expended: Provided, That of the amount appropriated under this heading, not to exceed \$236,000 shall be available through June 30, 2008, for authorized empowerment zones and enterprise communities and communities designated by the Secretary of Agriculture as Rural Economic Area Partnership Zones for the rural business and cooperative development programs described in section 381E(d)(3) of such Act: Provided further, That sections 381E-H and 381N of the Consolidated Farm and Rural Development Act, are not applicable to funds made available under this heading: Provided further, That any prior year balances in the "Rural Development, Rural Community Advancement Program" account for programs authorized by 7 U.S.C. 1926 and 1932 and described in sections 381E(d)(3) and 310B(f) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note) shall be transferred to and merged with this account: Provided further, That the Secretary shall transfer and merge with this account any other prior balances from the "Rural Development, Rural Community Advancement Program" account that the Secretary determines is appropriate to transfer.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

234003 Business and industry loan guarantees			42
234999 Total subsidy outlays			42

This account funds direct and guaranteed business and industry loans, rural business enterprise grants, and rural business opportunity grants. Since the passage of the Federal Agriculture Improvement and Reform Act of 1996 through 2007, the funding for these programs was provided as part of the Rural Community Advancement Program (RCAP). For 2008, no funding is proposed in the RCAP account and instead, each funding stream is being appropriated separately in a new account. This is the new account for the Business funding stream.

Business and industry guaranteed and direct loans are authorized under section 310B(a)(1) of the Consolidated Farm and Rural Development, as amended. These loans are made to public, private or cooperative organizations, Indian tribes or tribal groups, corporate entities, or individuals for the purpose of improving the economic climate in rural areas. For direct loans no funds were requested or provided since 2002, and no funds are requested in 2008. 2008 projections for loan guarantees are \$1 billion. No funding is provided in this account for the rural business enterprise grants or the rural business opportunity grants.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals. The subsidy cost of these programs is funded through the Rural Community Advancement Program. Loans made prior to 1992 are recorded in the Rural Development Insurance Fund Liquidating Account.

Direct business and industry loans were made to public, private, or cooperative organizations, Indian tribes or tribal groups, corporate entities, or individuals for the purpose of improving the economic climate in rural areas. Funding for this purpose was discontinued beginning in 2002.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from guaranteed loans committed in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals. Loans made prior to 1992 are recorded in the Rural Development Insurance Fund Liquidating Account.

This account finances loan guarantee commitments for industrial development in rural areas.

# RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

For the principal amount of direct loans, as authorized by the Rural Development Loan Fund (42 U.S.C. 9812(a)), \$33,772,000.

For the cost of direct loans, \$14,485,000, as authorized by the Rural Development Loan Fund (42 U.S.C. 9812(a)): Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That of the total amount appropriated, \$880,000 shall be available through June 30, 2008, for the cost of direct loans for authorized empowerment zones and enterprise communities and communities designated by the Secretary of Agriculture as Rural Economic Area Partnership Zones.

In addition, for administrative expenses to carry out the direct loan programs, \$4,576,000 shall be paid to the appropriation for "Rural Development, Salaries and Expenses".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This account finances loans to intermediary borrowers, who, in turn, re-lend the funds to small rural businesses, community development corporations, and other organizations for the purpose of improving economic opportunities in rural areas. Through the use of local intermediaries, this program serves small-scale enterprises and gives preference to those communities with the greatest need.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Rural economic development loans are made for the purpose of promoting rural economic development and job creation projects. Loans are made to electric and telecommunication borrowers, who, in turn, finance rural development projects in their service areas. Program costs are derived from interest earnings on borrowers' "cushion of credit" loan prepayments.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond. The subsidy amounts are estimated on a present value basis.

The Rural Business Investment Program is authorized under 7 U.S.C. 2009cc. The purpose of this program is to promote economic development and the creation of wealth and job opportunities in rural areas and among individuals living in those areas by encouraging developmental capital investments in smaller enterprises primarily located in rural areas. RBS may enter into participation agreements with rural business investment companies and may guarantee debentures of rural business investment companies to enable each rural business investment company to make developmental venture capital investments in smaller enterprises in rural areas. Grants will be made to rural business investment companies and other entities for the purpose of providing operational assistance to smaller enterprises financed by rural business investment companies. The Rural Business Investment Program was authorized and provided mandatory funding by section 6029 of the Farm Security and Rural Investment Act of 2002, Public Law 107–171.

The Deficit Reduction Act cancelled the unobligated balance and no funds are requested in the Budget.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1992 and beyond, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

#### RENEWABLE ENERGY PROGRAM

For the cost of a program of direct loans, loan guarantees, and grants, under the same terms and conditions as authorized by section 9006 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8106), \$33,941,000 for direct and guaranteed renewable energy loans and grants: Provided, That the cost of direct loans and loan guarantees, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Renewable Energy Systems and Energy Efficiency Improvements are authorized under 7 U.S.C. 8106. This program provides direct loans, loan guarantees, and grants to farmers, ranchers, and small rural businesses to purchase renewable energy systems and make energy efficiency improvements. The Farm Security and Rural Investment Act of 2002, Public Law 107–171, dated May 13, 2002, as amended by the Deficit Reduction Act of 2005, Public Law 109–171, dated February 8, 2006, provides \$3 million in mandatory funding in 2007 from the Commodity Credit Corporation, canceling \$20 million.

Funding has been provided since 2001 to support grants for areas that have high energy costs. These grants can be made to eligible entities or the Denali Commission to construct, extend, upgrade, and otherwise improve energy generation, transmission, or distribution facilities serving communities in which the average residential expenditure for home energy is at least 275 percent of the national average residential expenditure for home energy (as determined by the Energy Information Agency using the most recent data available). Grants are also available to establish and support a revolving fund to provide a more cost-effective means of purchasing fuel where the fuel cannot be shipped by means of surface transportation.

# RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT (INCLUDING TRANSFER OF BALANCES)

For the costs of direct loans, loan guarantees, and grants for the rural utilities programs as authorized by 7 U.S.C. 1926, 1926a, 1926c, 1926d, and 1932 and described in sections 381E(d)(2), 360C(a)(2), and 306D of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note), \$502,779,000, to remain available until expended: Provided, That of the total amount appropriated in this account, not to exceed \$1,000,000 shall be available for the rural utilities program described in section 306E of such Act: Provided further, That not to exceed \$9,000,000 of the amounts appropriated in this account shall be for loans and grants to benefit Federally Recognized Native American Tribes, including grants for drinking water and waste disposal systems pursuant to section 306C of such Act: Provided further, That not to exceed \$10,000,000 of the amounts appropriated in this account shall be for water and waste disposal systems to benefit the Colonias along the United States/Mexico border, including grants pursuant to section 306C of such Act: Provided further, That not to exceed \$16,215,000 of the amount appropriated in this account shall be for technical assistance grants for rural water and waste systems pursuant to section 306(a)(14) of such Act: Provided further, That not to exceed \$9,500,000 of the amount appropriated in this account shall be for contracting with qualified national organizations for a circuit rider program to provide technical assistance for rural water systems: Provided further, That not to exceed \$13,400,000 of the amounts appropriated in this account shall be available through June 30, 2008, for authorized empowerment zones and enterprise communities and communities designated by Secretary of Agriculture as Rural Economic Area Partnership Zones for the rural utilities programs described in section 381E(d)(2) of such Act: Provided further, That sections 381E-H and 381N of such Act, are not applicable to funds made available under this heading: Provided further, That any prior year balances in the "Rural Development, Rural Community Advancement Program" account for programs authorized by 7 U.S.C. 1926, 1926a, 1926c, 1926d, and 1932 and described in sections 381E(d)(2), 360C(a)(2), and 306D of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 note) shall be transferred and merged with this account: Provided further, That the Secretary shall transfer and merge with this account any other prior balances from the "Rural Development, Rural Community Advancement Program" account that the Secretary determines is appropriate to transfer.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

### RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT—Continued

(INCLUDING TRANSFER OF BALANCES)—Continued

gency community water assistance grants, and solid waste management grants. Since the passage of the Federal Agriculture Improvement and Reform Act of 1996 through 2007, the funding for these programs was provided as part of the Rural Community Advancement Program (RCAP). For 2008, no funding is proposed in the RCAP account and instead, each funding stream is being appropriated separately in a new account. This is the new account for the Water and Wastewater funding stream.

Water and waste disposal loans are authorized under 7 U.S.C. 1926. The program provides direct loans to municipalities, counties, special purpose districts, certain Indian Tribes, and non-profit corporations to develop water and waste disposal systems in rural areas and towns with populations of less than 10,000. The program also guarantees water and waste disposal loans made by banks and other eligible lenders. The projected loan level for direct loans is \$1.08 billion in 2008 and for guarantees it is \$75 million. The 2008 direct loan subsidy rate reflects a reduction in the borrower's interest rate for the direct loans, making them more affordable to qualifying rural communities.

Water and waste disposal grants are authorized under Section 306(a)(2) of the Consolidated Farm and Rural Development Act, as amended. Grants are authorized to be made to associations, including nonprofit corporations, municipalities, counties, public and quasi-public agencies, and certain Indian tribes. The grants can be used to finance development, storage, treatment, purification, or distribution of water or the collection, treatment, or disposal of waste in rural areas and cities or towns with populations of less than 10,000. The amount of any development grant may not exceed 75 percent of the eligible development cost of the project. \$346 million is projected for this program in 2008.

Emergency community water assistance grants are authorized under Section 306A of the Consolidated Farm and Rural Development Act, as amended. Grants are made to public bodies and nonprofit organizations for construction or extension of water lines, repair or maintenance of existing systems, replacement of equipment, and payment of costs to correct emergency situations. These grants are funded on an as needed basis using RCAP flexibility of funds authorization.

Solid waste management grants are authorized under Section 310B(b) of the Consolidated Farm and Rural Development Act, as amended. Grants are made to non-profit organizations to provide regional technical assistance to local and regional governments and related agencies for the purpose of reducing or eliminating pollution of water resources, and for improving the planning and management of solid waste disposal facilities. \$3.5 million is projected for this program in 2008.

1231	Disbursements: Direct loan disbursements	675	1.026	984
1251	Repayments: Repayments and prepayments	-213	- 244	- 252
1264	Write-offs for default: Other adjustments, net	4		
1290	Outstanding, end of year	7,105	7,887	8,619

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals. The sub-

sidy cost of these loans is provided through the Rural Community Advancement Program. Loans made prior to 1992 are recorded in the Rural Development Insurance Fund Liquidating Account.

The water and waste disposal program makes loans and grants to finance water systems and waste disposal facilities in rural areas.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from guaranteed loans committed in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals. Loans made prior to 1992 are recorded in the Rural Development Insurance Fund Liquidating Account.

This account finances loan guarantee commitments for water systems, and waste disposal facilities in rural areas.

#### RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT

#### (INCLUDING TRANSFER OF FUNDS)

Insured loans pursuant to the authority of section 305 of the Rural Electrification Act of 1936 (7 U.S.C. 935) shall be made as follows: 5 percent rural electrification loans, \$100,000,000; loans made pursuant to section 306 of that Act, rural electric, \$4,000,000,000; 5 percent rural telecommunications loans, \$145,000,000; cost of money rural telecommunications loans, \$250,000,000; and for loans made pursuant to section 306 of that Act, rural telecommunications loans, \$295,000,000.

For the cost, as defined in section 502 of the Congressional Budget Act of 1974, including the cost of modifying loans, of direct and guaranteed loans authorized by sections 305 and 306 of the Rural Electrification Act of 1936 (7 U.S.C. 935 and 936), as follows: cost of rural electric loans, \$120,000, and the cost of telecommunications loans, \$3,620,000: Provided, That notwithstanding section 305(d)(2) of the Rural Electrification Act of 1936, borrower interest rates may exceed 7 percent per year.

In addition, for administrative expenses necessary to carry out the direct and guaranteed loan programs, \$37,009,000 which shall be paid to the appropriation for "Rural Development, Salaries and Expenses".

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Rural Utilities Service (RUS) conducts the rural electrification and the rural telecommunications loan programs. The rural electrification loan program is financed through RUS direct and guaranteed loans for the operation of generating plants, electric transmission, and distribution lines or systems. The rural telecommunications loan program is financed through RUS direct loans for construction, expansion, and operation of telecommunications lines and facilities or systems.

Since 1992, RUS electric loans have been used primarily to finance transmission, distribution and upgrades to generation facilities. During this time, generation has been deregulated and has become a more commercial operation. With the increased needs for all aspects of electricity provision, and to ensure adequate funding for rural areas, RUS loans will continue to focus on transmission, distribution, and upgrading generation facilities. Construction of new generation facilities should be financed through the commercial market.

USDA will propose rule changes to require recertification of rural status for each electric and telecommunications borrower on the first loan request received in or after 2008 and on the first loan request received after each subsequent Census.

USDA will determine if the current method of issuing loans, "first in; first out," provides adequate support to the areas with the highest priority needs. USDA analyzed borrower and community characteristics for loans approved in 2005. The \$3.3 billion in financing, funding 94 distribution loans and 16 generation and transmission loans, supported projects in 1,682 of the 2,500 non-metropolitan counties, including 332 counties classified as persistent poverty counties. In addition, of the over 2 million consumers supported by the 94 distribution loans, 92.5% were in areas classified as rural by the U.S. Census.

RUS will cancel loans obligated, but not disbursed, more than ten years ago. Most electric loans obligated more than ten years ago have either been disbursed or cancelled. However, current law prohibits the cancellation of telecommunications loans in most instances. This has resulted in many outstanding obligations that are older than ten years. Since loans are issued for specific projects, and technology is changing at a very fast pace, it is doubtful that the original project will be accomplished ten years after a loan is approved. Legislation will be proposed to allow the cancellation of all electric and telecommunications loan obligations that are more than ten years old.

As required by the Federal Credit Reform Act of 1990, this account records, for rural electrification and telecommunications programs, the subsidy costs associated with the direct and guaranteed loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

As required by the Federal Credit Reform Act of 1990, this account records, for rural electrification and telecommunications programs, all cash flows to and from the Government resulting from direct loans obligated and loan guarantees committed prior to 1992. All new activity in RETRF in 1992

and beyond is recorded in corresponding program and financing accounts.

The Rural Telephone Bank has dissolved. To accomplish this, the Rural Telephone Bank liquidating account loans were used to redeem a portion of the Government's stock. The Rural Telephone Bank liquidating account loans were transferred to the Rural Electrification and Telecommunications liquidating account in 2006.

The Rural Utilities Service (RUS) will continue to service all loans in this account providing business management and technical assistance to the borrowers on a regular basis over the life of the loans.

RUS will cancel loans obligated, but not disbursed, more than ten years ago. Most electric loans obligated more than ten years ago have either been disbursed or cancelled. However, current law prohibits the cancellation of telecommunications loans in most instances. This has resulted in many outstanding obligations that are older than ten years. Since loans are issued for specific projects, and technology is changing at a very fast pace, it is doubtful that the original project will be accomplished ten years after a loan is approved. Legislation will be proposed to allow the cancellation of all electric and telecommunications loan obligations that are more than ten years old.

Rural electric.—This program is financed through RUS direct loans for the construction and operation of generating plants, electric transmission, and distribution lines or systems.

The following tables reflect statistics on loans made through the liquidating account only. Since 1992 new electric and telephone loans have been made through a separate program account.

#### **ELECTRIC PROGRAM STATISTICS**

#### [dollars in millions]

	2006 actual	2007 est.	2008 est.
Cumulative RUS financed direct loans	21,851	21,851	21,851

## Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in millions of dollars)

Identification code 12–1231–0–1–452	2006 actual	2007 est.	2008 est.
Direct loan subsidy outlays: 134001 Rural Telephone Bank		1	1
134999 Total subsidy outlays	-1	1	1
137001 Rural Telephone Bank			
137999 Total downward reestimate budget authority	-27		
Administrative expense data: 3510 Budget authority			

The Rural Telephone Bank completed dissolution in 2006 so no federally funded RTB loans are proposed.

RUS will cancel loans obligated, but not disbursed, more than ten years ago. Current law prohibits the cancellation of RTB loans in most instances. This has resulted in many outstanding obligations that are older than ten years. Since loans are issued for specific projects, and technology is changing at a very fast pace, it is doubtful that the original project will be accomplished ten years after a loan is approved. Legislation will be proposed to allow the cancellation of all RTB loan obligations that are more than ten years old.

As required by the Federal Credit Reform Act of 1990, this account records, for the RTB, the subsidy costs associated with the direct loans obligated in 1992 and beyond as well as administrative expenses for the program. The subsidy amounts are estimated on a present value basis; administrative expenses are estimated on a cash basis.

#### DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

For the principal amount of broadband telecommunication loans, \$300,000,000.

For grants for telemedicine and distance learning services in rural areas, as authorized by 7 U.S.C. 950aaa et seq., \$24,750,000, to remain available until expended.

For the cost of broadband loans, as authorized by 7 U.S.C. 901 et seq., \$6,450,000: Provided, That the cost of direct loans shall be as defined in section 502 of the Congressional Budget Act of 1974.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

135003 Direct Broadband Treasury Rate loans	4		
135999 Total upward reestimate budget authority	8		

The loan and grant program provides access to advanced telecommunications services for improved education and health care in rural areas throughout the country. The loans and grants help education and health care providers bring the most modern technology, level of care, and education to rural America so its citizens can compete regionally, nationally, and globally. The Budget provides discretionary funding for loans to finance installation of broadband transmission capacity.

Since there is little demand for the DLT loans and the loans cost the Government, the Budget proposes to not provide any DLT loans in 2008.

2290 Outstanding, end of year	29	25	22
Memorandum: 2299 Guaranteed amount of guaranteed loans outstanding, end of year	21	18	15

The Rural Development Insurance Fund (RDIF) was established on October 1, 1972, pursuant to section 116 of the Rural Development Act of 1972 (Public Law 92–419).

The fund is used to insure or guarantee loans for water systems and waste disposal facilities, community facilities, and industrial development in rural areas. Communities unable to afford low interest loans for water and waste disposal facilities are also able to obtain water and waste disposal grants.

As required by the Federal Credit Reform Act of 1990, this account records, for these loan programs, all cash flows to and from the Government resulting from direct loans obli-

153

gated and loan guarantees committed prior to 1992. All new activity in these programs is recorded in corresponding program accounts and financing accounts.

The water and waste direct and guaranteed loan programs are administered by the Rural Utilities Service, the community facility direct and guaranteed loan programs are adminsitered by the Rural Housing Service, and the business and industry direct and guaranteed loan programs are administered by the Rural Business-Cooperative Service.

FAS' mission is to create economic opportunity for American agriculture by expanding global markets. FAS serves U.S. agriculture's interests by expanding and maintaining international export opportunities for U.S. agricultural, fish, and forest products, supporting international economic development and trade capacity building, and improving the Sanitary and Phytosanitary (SPS) system to facilitate agricultural trade. FAS' goals are three-fold: to level the playing field for U.S. agricultural producers and exporters in the global marketplace, to help developing and transitioning countries to expand their ability to sustain economic growth and trade capacity, and to make a concerted effort to reduce technical trade barriers and restrictive SPS measures. The outcomes envisioned are increased access to global markets for U.S. agricultural producers and exporters, improved ability in developing countries to sustain economic growth and benefit from international trade, and an improved global SPS system for facilitating agricultural trade. In addition to its Washington-based staff, the agency maintains a network of overseas offices that serve as first responders in cases of market disruption. The overseas offices also provide critical market and policy intelligence to support their strategic goals, and represent U.S. agriculture in consultations with foreign governments.

Market Access—Agricultural trade is important to America's agricultural and food sector and contributes to the overall growth in the U.S. economy. As the global economy changes, expansion and creation of new foreign market opportunities is critical, as is maintaining existing market access for agri-

cultural products. FAS monitors the enforcement of agricultural trade agreements to ensure that U.S. agriculture receives the full economic benefit of international trade agreements and trade rules. FAS also analyzes tariff and nontariff barriers that continue to restrict trade, and works with other government agencies to open markets through the negotiation of trade agreements. FAS programs that contribute to market access include the: Market Access Program (MAP), Technical Assistance for Specialty Crops (TASC) Program, Emerging Markets Program (EMP), and the Cochran Fellowship Program (CFP).

Trade Development—FAS supports U.S. private sector efforts to develop and expand commercial markets through trade-related programs which help U.S. producers and exporters realize the benefits that will flow from trade reform and the resulting global market expansion. FAS programs that contribute to trade development include the: MAP, TASC Program, EMP, Foreign Market Development (FMD) Program, and Quality Samples Program which are carried out chiefly in cooperation with non-profit agricultural trade associations and private firms. These programs provide matching funds to U.S. organizations to conduct a wide range of activities including market research, consumer promotion, trade servicing, capacity building, and market access support. The TASC Program provides grants to address sanitary, phytosanitary, or technical barriers that prohibit or threaten exports of U.S. specialty crops. Also, FAS administers price/ credit and risk-mitigation assistance programs designed to leverage overseas market expansion for U.S. exporters. These programs include the CCC Export Credit Guarantee Program, the Export Enhancement Program and the Dairy Export Incentive Program. These programs give U.S. exporters the ability to counter export subsidies of foreign competitors and allow U.S. exporters to compete with sales terms offered by foreign competitors.

Trade Related Technical Assistance—U.S. agriculture benefits from growth in global trade and a trading system that adheres to international rules and norms. Two-thirds of World Trade Organization members are developing countries, many of which lack the knowledge, expertise, and regulatory and policy frameworks to participate in the global trading system. FAS provides trade-related technical assistance or trade capacity building focused on developing capacity within governments to implement open, market-based trade policies and to regulate trade in agricultural and food products on the basis of transparent, science-based requirements. Trade capacity building supports the President's 2002 National Security Strategy (NSS) by promoting free trade and open markets as a way to spread economic prosperity. Food assistance programs such as the P.L. 480 Title I Program, McGovern Dole Food for Education (FFE) and Child Nutrition Program, Section 416(b) Program, and Food for Progress (FFP) Program help developing countries with humanitarian crises, economic development, or transitioning from being food aid recipients to commercial markets. Programs that contribute to trade related technical assistance includes the: MAP, TASC Program, EMP, CFP, Borlaug Fellowship Program (BFP), FFE Program, FFP Program, and the Section 416(b) Program. The CFP provides short-term training in the United States for international participants who meet with U.S. agribusiness, attend food safety seminars, and receive technical training related to short- and long-term market development and trade capacity building. The BFP helps developing countries strengthen their agricultural practices through the transfer of new science and agricultural technologies, including those related to production, processing, and marketing. The program also addresses obstacles to the adoption of technology, such as ineffectual policies and regulations.

SPS Issues Resolution—Agricultural trade is unique with respect to the risks associated with the transfer of pests and DEPARTMENT OF AGRICULTURE

FOREIGN ASSISTANCE PROGRAMS
Federal Funds—Continued

155

disease. Unnecessarily restrictive regulations to address human and animal health (sanitary) and plant health (phytosanitary) risks are major impediments to U.S. market access and the expansion of global agricultural trade. As tariff barriers have been reduced, there has been a dramatic increase in non-tariff barriers to trade, particularly in the SPS area. In spite of the SPS Agreement within the WTO, countries have relied increasingly on erecting SPS barriers as a means to protect domestic industries in the face of quickly growing global trade. Given the increasingly global interdependence in the flow of food and agricultural products, the ability and willingness of foreign countries to develop and implement sound science-based regulatory systems is also vital to the long-term safety of U.S. agriculture and our food supply. U.S. agriculture benefits greatly from the development of regulatory frameworks in other countries that can address SPS issues and technical barriers to trade in a transparent and scientifically based manner. FAS works on several fronts to reduce technical barriers to trade and restrictive SPS and TBT measures. These include enforcing international SPS rules, promoting two-way trade, encouraging adoption of international standards, and strengthening the global SPS regulatory framework. Programs that contribute to SPS issues resolution include the: MAP, TASC Program, and EMP.

Trade Adjustment Assistance for farmers (TAA) is authorized by Title II of the Trade Act of 1974 as amended by Subtitle C of Title I of the Trade Act of 2002. The statute authorizes appropriations to the Department of Agriculture not to exceed \$90 million for 2003 through 2007 to carry out the program. No funding is available in 2008, because the program authority will have expired.

The statute requires the Secretary of Agriculture to provide funds to eligible agricultural producers when: (a) the current year's price of an agricultural commodity is less than 80 percent of the national average price for such commodity for the five marketing years preceding the most recent market year; and (b) increases in imports contributed importantly to the decline in the price, as determined by the Secretary.

TAA provides producers of raw commodities, who have been adversely affected by import competition, free technical assistance and cash benefits of up to \$10,000 per year.

TAA covers farmers, ranchers, fish farmers, and fishermen competing with imported aquaculture products. It does not cover the forest products industry.

#### FOREIGN ASSISTANCE PROGRAMS

USDA has multiple food aid programs that provide U.S. commodities, technical and financial assistance to address hunger and malnutrition needs worldwide. USDA, working with USAID, delivers food aid programs to meet emergency needs and fosters economic development activities to alleviate global food insecurity.

Included in this category are the following activities carried out under the Agricultural Trade Development and Assistance Act of 1954, Public Law 480, 83rd Congress, as amended (P.L. 480): Financing sales of agricultural commodities to developing countries for dollars on credit terms, or for local currencies (including for local currencies on credit terms) for use under sec. 104 (title I); for dispositions abroad (titles II and III); and for furnishing commodities to carry out the Food for Progress Act of 1985, as amended. Agreements may provide for commodities to be made available on a multiyear basis. During 2003, USDA began implementation of the McGovern-Dole International Food for Education and Child Nutrition Program authorized by the 2002 Farm Bill. USDA also has a commodity reserve in the Bill Emerson Humanitarian Trust for unanticipated, emergency food aid needs.

\*Up to 500,000 metric tons are avaliable annually for unanticipated emergency food assistance.

Miscellaneous funds are received from other Federal agencies, international organizations, and developing countries, for USDA development assistance and international research projects (22 U.S.C. 2392).

### McGovern-Dole International Food for Education and Child Nutrition Program Grants

For necessary expenses to carry out the provisions of section 3107 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 17360–1), \$100,000,000, to remain available until expended: Provided, That the Commodity Credit Corporation is authorized to provide the services, facilities, and authorities for the purpose of implementing such section, subject to reimbursement from amounts provided herein.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

The Farm Security and Rural Investment Act of 2002 (Public Law 107–171) authorizes the McGovern-Dole International Food for Education and Child Nutrition Program. The program provides for the donation of U.S. agricultural commodities and associated technical and financial assistance to carry out preschool and school feeding programs in foreign countries in order to improve food security, reduce the incidence of hunger and malnutrition, and improve literacy and primary education. Maternal, infant, and child nutrition programs also are authorized.

#### Public Law 480 Title II Grants

For expenses during the current fiscal year, not otherwise recoverable, and unrecovered prior years' costs, including interest thereon, under the Agricultural Trade Development and Assistance Act of 1954, for commodities supplied in connection with dispositions abroad under title II of said Act, \$1,219,400,000, to remain available until expended: Provided, That if the Administrator of the United States Agency for International Development determines it to be appropriate, up to 25 percent of the funds appropriated under this heading may be used, notwithstanding any other provision of law, for the local or regional purchase and distribution of food to assist people threatened by a food security crisis. (7 U.S.C. 1691, 1721–26a, 1727–27e, 1731–36g–3, 1737, 2209b.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Budget Authority	1,489	1,573	1,219
Outlays	1,294	1,435	1,279

This account funds the non-credit components of Public Law 480. Under Title II, agricultural commodities are furnished to meet famine or other emergency relief needs, combat malnutrition, carry out activities to alleviate the causes of hunger, mortality and morbidity, promote economic and community development, promote sound environmental practices, and carry out feeding programs. Agricultural commodities are provided through governments for emergencies only, and for non-emergencies through public and private agencies, including intergovernmental organizations.

The Commodity Credit Corporation (Corporation) is authorized to pay the costs of acquisition, packaging, processing, enrichment, preservation, fortification, transportation, handling, and other incidental costs incurred up to the time of delivery at U.S. ports. The Corporation also pays ocean freight charges, and pays transportation costs to points of entry other than ports in the case of landlocked countries, where carriers to a specific country are not available, where ports cannot be used effectively, or where a substantial savings in costs or time can be effected, and pays general average contributions arising from ocean transport. In addition, transportation costs from designated points of entry or ports of entry abroad to storage and distribution sites and associated storage and distribution costs may be paid for commodities made available under this title for non-emergency assistance for least-developed countries and for urgent and extraordinary relief.

The program is administered by the U.S. Agency for International Development.

In addition, the request includes language that would authorize the use of up to 25 percent of the P.L. 480 Title II funds for the local or regional purchase and distribution of food to assist people threatened by a food security crisis. In particular, the language is intended to authorize the Administrator of USAID, when deemed appropriate, to procure food locally or regionally from developing countries (in accordance with the OECD Development Assistance Committee List of ODA Recipients) and to distribute such food in response to a food security crisis. This would permit USAID to provide food assistance in the most timely and efficient manner to the most critical emergency food crises. This authority would be used in those instances where the rapid use of cash assistance is critical to saving lives.

As required by the Federal Credit Reform Act of 1990, this account records, for the P.L. 480 Program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans that resulted from obligation in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses and grants are estimated on a cash basis. The current balance of Title I debt owed to USDA is \$8.1 billion. No additional funding is requested for new Title I loans in 2008. Food for Progress grants will continue to be funded from the Commodity Credit Corporation.

Financing sales of agricultural commodities to developing countries for dollars on credit terms, or for local currencies (including for local currencies on credit terms) for use under sec. 104; and for furnishing commodities to carry out the Food for Progress Act of 1985, as amended (title I).—Funds appropriated for P.L. 480 are used to finance all sales made pursuant to agreements concluded under the authority of Title I. No 2008 funding is requested for new direct credit under Title I; however, funding for administrative expenses associated with managing the existing loan portfolio is requested. No funding is requested for Title I ocean freight differential for 2008.

Financing sales of agricultural commodities for dollars on credit terms (title I).—Sales are made to developing countries as defined in section 402(4) of P.L. 480 and must not displace expected commercial sales (secs. 403(e) and (h)). Agreements are made with developing countries for delivery in accordance with the terms of the agreement.

Payment by developing countries or private entities may be made over a period of not more than 30 years with a deferral of principal payments for up to 5 years. Interest accrues at a concessional rate as determined appropriate.

Section 411 of P.L. 480 authorizes the President to waive payments of principal and interest under dollar credit sales agreements for countries that meet certain enumerated requirements. Such debt relief may be provided only if the President notifies Congress and may not exceed the amount approved for such purpose in an Act appropriating funds to carry out P.L. 480.

Financing sales of agricultural commodities for local currency, including for local currency on credit terms.—Payment by a recipient country may be made in local currencies for use in carrying out activities under section 104 of P.L. 480.

Foreign currency received in payment for credit extended may be used for payment of U.S. obligations abroad, subject to the appropriation process. The P.L. 480 program is reimbursed for the dollar value of currencies so used.

The financing of sales of agricultural commodities for local currencies on credit terms is subject to the same terms that are applicable to dollar credit financing.

Furnishing commodities to carry out the Food for Progress Act of 1985, as amended (title I).—Funds appropriated to carry out title I may be used to furnish commodities to carry out the Food for Progress Act of 1985. Such commodities may be furnished on credit terms or on a grant basis in order to assist developing countries and countries that are emerging democracies that have made a commitment to introduce and expand free enterprise elements in their agricultural economies.

Commodities supplied in connection with dispositions abroad (title II).—Under title II, agricultural commodities are furnished to meet famine or other emergency relief needs, combat malnutrition, carry out activities to alleviate the causes of hunger, mortality and morbidity, promote economic and community development, promote sound environmental practices, and carry out feeding programs. Agricultural commodities are provided through governments for emergencies only, and for non-emergencies through public and private agencies, including intergovernmental organizations.

The Corporation is authorized to pay the costs of acquisition, packaging, processing, enrichment, preservation, fortification, transportation, handling, and other incidental costs incurred up to the time of delivery at U.S. ports. The Corporation also pays ocean freight charges, and pays transportation costs to points of entry other than ports in the case of landlocked countries, where carriers to a specific country are not available, where ports cannot be used effectively, or where a substantial savings in costs or time can be effected, and pays general average contributions arising from ocean transport. In addition, transportation costs from designated points of entry or ports of entry abroad to storage and distribution sites and associated storage and distribution costs may be paid for commodities made available to meet urgent and extraordinary relief requirements. P.L. 480 funds reimburse the Corporation for all of the cost items authorized above.

#### FOOD STAMP PROGRAM

For necessary expenses to carry out the Food Stamp Act (7 U.S.C. 2011 et seq.), \$39,838,223,000, of which \$3,000,000,000 to remain available through September 30, 2009, shall be placed in reserve for use only in such amounts and at such times as may become necessary to carry out program operations: Provided, That funds provided herein shall be expended in accordance with section 16 of the Food Stamp Act: Provided further, That this appropriation shall be subject to any work registration or workfare requirements as may be required by law: Provided further, That funds made available for Employment and Training under this heading shall remain available until expended, as authorized by section 16(h)(1) of the Food Stamp Act: Provided further, That immediately upon termination of the Commodity Supplemental Food Program (CSFP), notwithstanding section 5 of the Food Stamp Act, CSFP participants who are 60 years of age or older and not already receiving food stamp benefits, shall be eligible to receive food stamp benefits equaling \$20 per month either for six months or until they are determined eligible under section 5 of the Act and begin to participate in the Food Stamp Program, whichever occurs first.

For making after May 31 of the current fiscal year, benefit payments to individuals and payments to States or other non-Federal entities for the necessary current year expenses of carrying out the Food Stamp Act above the anticipated level, such sums as may be necessary.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution

#### FOOD STAMP PROGRAM—Continued

#### Summary of Budget Authority and Outlays

(in millions of dollars)

	2006 actual	2007 est.	2008 est.
Enacted/requested: Budget Authority Outlays	40,700	38,151	39,838
	34,620	35,564	36,829
Legislative proposal, subject to PAYGO: Budget Authority Outlays			-12 -11
Total: Budget Authority Outlays	40,700	38,151	39,826
	34,620	35,564	36,818

The Food Stamp Program is the primary source of nutrition assistance for low-income Americans.

This account also includes funds for a grant to Puerto Rico to administer a low-income nutrition assistance program, in lieu of the Food Stamp Program; funds to carry out the Emergency Food Assistance Act of 1983; and funds for food distribution and administrative expenses for Native Americans under section 4(b) of the Food Stamp Act.

Food Stamp Program costs are not fully predictable. In the event that actual program needs exceed budget estimates, the Budget provides a \$3 billion contingency reserve. The Budget also proposes indefinite funding authority which would make funds available in the last four months of the fiscal year if program needs exceed the anticipated level.

The Budget also provides temporary transitional benefits to help elderly households transition from the Commodity Supplemental Food Program to the Food Stamp Program.

This schedule shows the net effects of the following legislative proposals. The Budget proposes to exclude all retirement and education savings accounts when determining if a household is eligible for food stamp benefits. It also proposes to limit Food Stamp categorical eligibility status to households which receive Supplemental Security Income or Temporary Assistance for Needy Families cash assistance. Finally, the Budget proposes to exclude combat-related military pay when determining if a household is eligible for food stamp benefits. This policy ensures that the families of the Nation's servicemen and women do not lose food stamp benefits when their family member serves in combat.

# CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the National School Lunch Act (42 U.S.C. 1751 et seq.), except section 21, and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), except sections 17 and 21; \$13,897,272,000, to remain available through September 30, 2009, of which \$7,592,797,000 is hereby appropriated and \$6,304,475,000 shall be derived by transfer from funds available under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c): Provided, That up to \$5,505,000 shall be available for independent verification of school food service claims.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This schedule shows the interactive effects of a legislative proposal to limit Food Stamp Program categorical eligibility to households which receive Supplemental Security Income or Temporary Assistance for Needy Families cash assistance.

# Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)

For necessary expenses to carry out the special supplemental nutrition program as authorized by section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), \$5,386,597,000, to remain available through September 30, 2009, of which, such sums as are necessary to restore the contingency reserve to \$200,000,000 shall be placed in reserve, to remain available until expended, to be allocated as the Secretary deems necessary, notwithstanding section 17(i) of such Act, to support participation should cost or participation exceed budget estimates: Provided, That of the total amount available, the Secretary shall obligate not less than \$14,850,000 for a breastfeeding support initiative in addition to the activities specified in section 17(h)(3)(A): Provided further, That notwithstanding section 17(h)(10)(A) of such Act, only the provisions of section 17(h)(10)(B)(i) shall be effective in 2008; including \$13,860,000 for the purposes specified in section 17(h)(10)(B)(i): Provided further, That none of the funds in this Act shall be available to pay administrative expenses of WIC clinics except

those that have an announced policy of prohibiting smoking within the space used to carry out the program: Provided further, That none of the funds provided in this account shall be available for the purchase of infant formula except in accordance with the cost containment and competitive bidding requirements specified in section 17 of such Act: Provided further, That notwithstanding Section 17(h)(1)(B) of the Child Nutrition Act of 1966, the amount of the national average per participant grant shall be not more than \$14.12: Provided further, That none of the funds made available under this heading may be used to provide WIC benefits to an individual who receives medical assistance under title XIX of the Social Security Act, or is a member of a family in which a pregnant woman or an infant receives assistance unless such individual's family income is below 250 percent of the applicable nonfarm income poverty limits: Provided further, That none of the funds provided shall be available for activities that are not fully reimbursed by other Federal Government departments or agencies unless authorized by section 17 of such Act.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

FOOD AND NUTRITION SERVICE—Continued Federal Funds—Continued

education and counseling, and health and immunization referrals. This request limits growth in funding for nutrition services and administration.

#### COMMODITY ASSISTANCE PROGRAM

For necessary expenses to carry out disaster assistance, as authorized by section 4(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note); the Emergency Food Assistance Act of 1983; special assistance for the nuclear affected islands, as authorized by section 103(f)(2) of the Compact of Free Association Amendments Act of 2003 (Public Law 108-188); and the Farmers' Market Nutrition Program, as authorized by section 17(m) of the Child Nutrition Act of 1966, \$70,370,000, to remain available through September 30, 2009: Provided, That none of these funds shall be available to reimburse the Commodity Credit Corporation for commodities donated to the program: Provided further, That notwithstanding any other provision of law, effective with funds made available in fiscal year 2008 to support the Seniors Farmers' Market Nutrition Program (SFMNP), as authorized by section 4402 of Public Law 107-171, such funds shall remain available through September 30, 2009: Provided further, That no funds available for SFMNP in fiscal year 2008 shall be used to pay State or local sales taxes on food purchased with SFMNP coupons or checks: Provided further, That the value of assistance provided by the SFMNP shall not be considered income or resources for any purposes under any Federal, State or local laws related to taxation, welfare and public assistance programs: Provided further, That of the funds made available under section 27(a) of the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.), the Secretary may use up to \$10,000,000 for costs associated with the distribution of commodities.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This account funds the Commodity Supplemental Food Program (CSFP), the Emergency Food Assistance Program (TEFAP), farmers' market nutrition programs, assistance for the nuclear affected islands, and disaster relief.

TEFAP provides cash to support State administrative activities and to maintain the storage and distribution pipeline for USDA and privately-donated commodities. The account also funds two programs which provide low-income participants vouchers to purchase produce at farmers' markets. The Senior Farmers' Market Nutrition Program (SFMNP) is funded by transfer from the Commodity Credit Corporation. The WIC Farmers' Market Program is funded by discretionary appropriation.

The Budget eliminates funding for CSFP which is duplicative of the Food Stamp and WIC programs. Resources are provided, within the Food Stamp and WIC accounts, to help transition CSFP participants to those programs.

The Budget also proposes to prohibit farmers from charging sales tax on food purchased with SFMNP benefits and to ensure that SFMNP benefits are not considered as income for tax purposes or for determining eligibility for any public assistance benefit. These proposals are consistent with the treatment of benefits in other Federal nutrition programs.

This account includes outlays of prior year funds for the Nutrition Services Incentive Program (NSIP). NSIP was transferred to the Department of Health and Human Services (HHS) in 2003. NSIP grantees traditionally have had the option to receive all or a portion of their grant in the form of USDA-provided commodities. Between 2004 and 2007, USDA was reimbursed by HHS for the cost of these commodities, the amounts for which are reflected in the Commodity Assistance Programs account. Under the reauthorization of the Older Americans Act, the authority for USDA to provide commodities to NSIP grantees ends in 2008.

The 155 National Forests, 20 National Grasslands, and 6 land utilization projects located in 44 States, Puerto Rico, and the Virgin Islands are managed under multiple-use and sustained-yield principles. The natural resources of timber, minerals, range, wildlife, outdoor recreation, watershed, and soil are used in a planned combination that will best meet the needs of the Nation without impairing productivity of the land or damaging the environment. These management and utilization principles are recognized in the Multiple-Use, Sustained-Yield Act of 1960 (16 U.S.C. 528–531) and use an ecological approach to managing the National Forest System.

National Forest System (NFS) operations and maintenance provide for the planning, assessment, and conservation of ecosystems while delivering multiple public services and uses. These are delivered through the principal NFS programs of land management planning; inventory and monitoring; recreation, heritage, and wilderness; wildlife and fisheries habitat management; grazing management; forest products; vegetation and watershed management; minerals and geology management; landownership management; the Valles Caldera National Preserve; and law enforcement operations. These programs maintain the capability to manage natural resources in a manner consistent with ecological principles and responsibilities.

The Budget provides full funding for the Forest Service component of the Northwest Forest Plan to ensure scientifically sound, ecologically credible, and legally responsible strategies and implementation that produces a predictable and sustainable level of timber sales and non-timber resources. The Budget also reflects continued use of streamlined forest planning and authorities included in the President's Healthy Forests Initiative and the Healthy Forests Restoration Act, particularly stewardship contracting, through which the average number of acres per contract increases by five percent. The Budget provides for the use of an Environmental Monitoring System, a new streamlined process improves forest planning that permits the efficient revision of national

2006 actual

2007 est

forest plans, and the sustainable production of 3.5 billion board feet of timber offered from national forests.

The Budget reflects a continuing emphasis on Forest Service performance and accountability by continuing use of two performance measures for the National Forest System, consisting of volume sold as an annual output measure for Forest Products and an annual efficiency measure consisting of the ratio of total receipts for each activity that generates receipts to the obligations for each such respective activity necessary to generate those receipts.

The Budget also continues a significant reform of the Forest Service that streamlines its organization, improves accountability, and focuses on measurable results in the management of our national forests. Specifically, the Budget will reduce overhead, business management, and other indirect costs by one-third to improve efficiency and program delivery. Results will improve in two ways. First, national forest operations will continue transformation by making additional "on-the-ground" resources available for resource management projects that meet the objectives of the President's Healthy Forests Initiative by reducing indirect costs to \$461 million, improving procurement practices, and expanding use of competitive sourcing. Secondly, program administration and execution will continue to be enhanced through improvements in management accountability, reporting relationships, and oversight.

#### CAPITAL IMPROVEMENT AND MAINTENANCE—Continued

Program and Financing (in millions of dollars)—Continued

Identific	ation code 12-1103-0-1-302	2006 actual	2007 est.	2008 est.
89.00	et budget authority and outlays: Budget authority	438 532	433 474	423 426

Funding provides for capital improvement and maintenance of facilities, roads, and trails. The program emphasizes: better resource management decisions based on the best scientific information and knowledge; an efficient and effective infrastructure that supports public and administrative uses; and quality recreation experiences with minimal impact to ecosystem stability and conditions.

Facilities.—Provides for capital improvement and maintenance of research, recreation, fire, administrative, and other (FA&O) facilities, including site components such as roads and trails and the acquisition of buildings and other facilities necessary to carry out the mission of the Forest Service. Capital improvement includes: new construction of a facility; alteration of an existing facility to change the function; and expansion of a facility to change the capacity or to serve needs that are different from what was originally intended. Maintenance is divided into four primary areas: annual maintenance, deferred maintenance, decommissioning, and operations. Deferred maintenance work includes the repair, rehabilitation, or replacement of the facility or components of the facility. Maintenance for FA&O projects costing less than \$250,000 are financed separately through a multi-program assessment to Research, National Forest System, Wildland Fire Management and the Capital Improvement and Maintenance appropriations along with eligible Permanent and Trust Funds.

Roads.—Provides for capital improvement and maintenance of roads. The program also focuses on decommissioning unneeded roads and/or roads that are degrading the ecosystem. Capital improvement includes: new road construction; alteration of an existing road to change the function; and expansion of the road to change the capacity or to serve needs that are different from what was originally intended. The agency will continue to address the growing road system maintenance backlog. Funding priorities are health and safety, resource protection, and mission critical needs. Maintenance is divided into four primary areas: annual road maintenance, deferred road maintenance, road operations, and decommissioning.

Trails.—Provides for capital improvement and maintenance of trails. Capital improvement includes: new trail construction; alteration of an existing trail to change the function; and expansion of the trail to change the capacity or to serve needs that are different from what was originally intended. Maintenance funding is used to protect capital investments by keeping trails open for access and protecting vegetation, soil, and water quality. Work includes clearing the pathway of encroaching vegetation and fallen trees, and repairing or improving trail signs, treadways, drainage facilities, and bridges. Maintenance is divided into four primary areas: annual trail maintenance, deferred trail maintenance, trail operations, and trail decommissioning.

Infrastructure Improvement.—Ameliorates the backlog in deferred maintenance of National Forest System roads and trails as well as Forest Service fire, administrative, and recreation facilities. The funds focus on critical maintenance backlogs; i.e., these funds are for repair and rehabilitation of existing facilities and roads; funds may not be used for new and expanded facilities or roads. The Budget reflects Forest Service improvements in addressing the deferred maintenance

backlog based upon agency implementation of PART recommendations.

The Budget reflects the Forest Service's continued use of new authorities that permit the agency to apply proceeds from the sales of excess facilities to replace other deficient facilities or perform needed rehabilitation work on existing facilities. The Forest Service will continue with a facility assessment for the purpose of performing facility maintenance and reducing the deferred maintenance backlog, and to use assessments that include incentives to optimize utilization, reduce costs, and improve facility conditions by reducing facility deferred maintenance at least 25 percent by 2010. The Budget reflects a base rate for buildings plus a graduated rate that recognizes different facility types, which together are limited to 4 percent of the facility replacement value and not to exceed \$7 per square foot.

The Budget provides funding to the Forest Service to make data quality improvements to the Forest Services INFRA database and internal controls. Coupled with completion of a strategy to address the deferred maintenance backlog and to identify goals and objectives for managing deferred maintenance, these reforms allow the Forest Service to focus funds on projects that have the highest priority as measured by the improvement in its Facility Condition Index.

Forest Service Research & Development (FS R&D) is one of the world's leading forestry research organizations. It conducts ecological and social science research to understand ecosystems, how humans influence those ecosystems, and how forests can be managed sustainably to enable both environmental conservation and economic expansion. Research is conducted at six Research Stations, the Forest Products Labora-

tory, and the International Institute of Tropical Forestry located in Puerto Rico.

In 2008, FS R&D will continue to improve forest and rangeland managers' abilities to reintroduce fire to its natural role and mitigate losses from native insects and pathogens. FS R&D researchers answer land managers' scientific questions about fire behavior, risk assessment and mitigation for multiple hazards, and utilization opportunities for the biomass that contributes to overcrowded, unhealthy forests. Priority will also be placed on making improvements in woody biomass utilization for energy, alternative fuels, and value-added products to help stimulate removal of hazardous fuels from forests at risk of wildfire. Tools and technologies will be modified, adapted or developed to serve the priorities of land managers dealing with wildland fire, invasive species, and other management challenges.

The Forest Inventory and Analysis program will continue to provide up-to-date information on status and trends in America's forest resources including the distribution and type of forest; growth, harvest, and mortality; forest structure and composition; soils; vegetative diversity; and fuel loads. The momentum to achieve the annualized inventory in all 50 States will be maintained.

Efficient delivery of science is essential to successful implementation of the President's Healthy Forests Initiative. The Budget continues efforts that optimize the delivery of research findings by improving Forest Service management of investments in research, development, and applications. Funds will be targeted to leading-edge technical assistance on a competitive basis with innovative partnerships and science and technology applications. The Budget also emphasizes increasing the amount of research conducted on an extramural basis from 13 percent of the current R&D budget to 20 percent over the next four years.

#### STATE AND PRIVATE FORESTRY

For necessary expenses of cooperating with and providing technical and financial assistance to States, territories, possessions, and others, and for forest health management, including treatments of pests, pathogens, and invasive or noxious plants and for restoring and rehabilitating forests damaged by pests or invasive plants, cooperative forestry, and education and land conservation activities and conducting an international program as authorized, \$202,458,000, to remain available until expended, as authorized by law, of which \$29,311,000 is to be derived from the Land and Water Conservation Fund.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

State and private forestry programs provide assistance to manage, use, and protect forest resources on State and private lands, in both rural and urban areas, to meet domestic and international demands for goods and services. Assistance is provided to a wide range of customers including all 50 States, Puerto Rico, U.S. Virgin Islands, Guam, the Northern Mariana Islands, and the Trust Territory of the Pacific.

Forest Health Management.—Includes funding for Federal and cooperative lands to maintain healthy, productive ecosystems by preventing, detecting and suppressing damaging native and invasive forest and tree insects and diseases across all land ownerships and invasive plants on cooperative lands. Through the use of a newly updated science-based forest health risk map, the Budget reflects Forest Service allocations of program funding that address national priorities and reduce risk in the most effective and efficient manner.

Cooperative Fire Protection.—Includes funding to enhance the capacity of States to provide coordinated fire suppression response, reduce hazardous fuels in and adjacent to communities, and to promote safe and effective initial fire attack in wildland/urban interface areas by volunteer fire departments. The Forest Service will change the method of funding allocation to include community-based hazard mitigation practices that are included in community wildfire protection plans or equivalent as a condition of eligibility for grants.

Cooperative Forestry.—Includes the forest stewardship, forest legacy, and urban and community forestry programs. The budget for this suite of complementary programs helps maintain the integrity of our nation's valuable forested landscapes and supports the Federal interest in obtaining social, economic, and environmental benefits from these landscapes. The forest legacy program is a Federal program that partners with States to protect environmentally sensitive forest lands. The forest stewardship program provides professional forestry assistance to non-industrial private forest (NIPF) landowners to encourage sound environmental management of NIPF lands. The urban and community forestry program provides technical, financial, and educational assistance to cities, suburbs and towns nationwide so they can improve the condition and extent of their trees and forests to achieve the full range of benefits and services from these resources. The Forest Service will explore methods that promote cooperative conservation through peer-to-peer, citizen-centric forestry assistance.

International Programs.—The programs will emphasize habitat protection for migratory birds along the length of flyways, preventing the introduction of new invasive species, and sustainable forestry techniques development for other timber exporting nations. The Forest Service will develop performance measures for this program.

# WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses for forest fire presuppression activities on National Forest System lands, for emergency fire suppression on or adjacent to such lands or other lands under fire protection agreement, hazardous fuels reduction on or adjacent to such lands, and for emergency rehabilitation of burned-over National Forest System lands and water, \$1,648,917,000, to remain available until expended: Provided, That such funds including unobligated balances under this heading, are available for repayment of advances from other appropriations accounts previously transferred for such purposes: Provided further, That such funds shall be available to reimburse State and other cooperating entities for services provided in response to wildfire and other emergencies or disasters to the extent such reimbursements by the Forest Service for non-fire emergencies are fully repaid by the responsible emergency management agency: Provided further, That funds provided shall be available for emergency rehabilitation and restoration, hazardous fuels reduction activities in the urban-wildland interface, support to Federal emergency response, and wildfire suppression activities of the Forest Service: Provided further, That amounts in this paragraph may be transferred to the "State and Private Forestry", "National Forest System", and "Forest and Rangeland Research" accounts to fund State fire assistance, volunteer fire assistance, forest health management, forest and rangeland research, vegetation and watershed management, heritage site rehabilitation, and wildlife and fish habitat management and restoration: Provided further, That the costs of implementing any cooperative agreement between the Federal Government and any non-Federal entity may be shared, as mutually agreed on by the affected parties: Provided further, That the Secretary of the Interior and the Secretary of Agriculture may authorize the transfer of funds appropriated for wildland fire management, in an aggregate amount not to exceed \$9,000,000, between the Departments when such transfers would facilitate and expedite jointly funded wildland fire management programs and projects: Provided further, That the Secretary of Agriculture may use the amounts appropriated under this heading for other activities authorized under this heading on lands administered by the Forest Service or on adjacent non-Federal land for activities that benefit resources on lands administered by the Forest Service.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Wildland Fire Management.—This appropriation provides funding for Forest Service fire management, presuppression, and suppression on National Forest System lands, adjacent State and private lands, and other lands under fire protection agreement.

Preparedness.—To protect National Forest System (NFS) lands from damage by wildfires commensurate with the threat to life, values at risk, public values, and management objectives.

Preparedness provides the basic fire organization and capability to prevent forest fires and to take prompt, effective initial attack suppression operations action on wildfires. This funding covers expenses associated with planning, prevention, detection, information, and education; pre-incident training; equipment and supply purchase and replacement; and other preparedness activities, including the base salary and travel of the regular Forest Service firefighting organization. Through this program the Forest Service also assists other Federal agencies and States with training programs, planning

assistance, sharing joint equipment use contracts, and interagency fire coordination centers.

Readiness levels reflect improvements in efficiencies, including those gained through a centralized aviation services office similar to that of the Department of the Interior (DOI). The Budget improves the transparency, accountability, and alignment of Forest Service budget execution with priorities and includes establishment of a separate account for wildland firefighters. It also reflects deployment of a system that allocates fire preparedness resources (e.g., firefighters and equipment) effectively across geographic areas.

Fire Operations.—Risk-informed suppression of wildland fires on or threatening NFS lands, Department of the Interior lands, or other lands under fire protection agreement. The Budget provides full funding of the ten-year average of suppression costs, adjusted for inflation and indirect charges. To improve the management of wildland fire resources, the Forest Service will:

—Utilize a Comptroller and support group to provide executive level oversight monitoring of Suppression expenditures.

—Implement key findings from 2006 and prior year large fire cost reviews and the 2007 management efficiency analysis.

—Continue implementation of Program Assessment Rating Tool (PART) performance measures including monitoring and analyzing large fire suppression expenditures with the stratified cost index and reducing the number of human caused ignitions.

—Utilize a risk-informed management response strategy for unplanned ignitions to manage risk, maximize resource utilization, manage loss and contain costs.

—Examine the feasibility of and implement as appropriate, a process to account for wildfires that contribute to attainment of desired ecological and natural resource conditions.

—Expand the use of the Wildland Fire Decision Support System (WFDSS) to support managers in analyzing risk relative to strategic suppression decisions which affect suppression costs, firefighter and public safety, and impacts to property and resources.

—Expand use of the suppression allocation model for initial response based on the analysis of a "mock up" allocation model and process under development in 2007.

—Place priority on those projects associated with a community wildfire protection plan, or equivalent.

These actions highlight important refinements within the Forest Services wildland fire management program that strengthen oversight of suppression spending and use risk management principles to guide decision-making at the strategic, program, and operational levels. By identifying and analyzing risk in a systematic fashion, the Forest Service is better equipped to assess wildfire intensity and associated threats posed to lives, improved property, or the environment. This risk-informed fire protection system allows agency administrators the ability to choose from a full spectrum of wildfire management actions and appropriately scale their responses to the risks posed. For example, many backcountry wildfires pose less risk than those that occur near communities and do not always require full-scale suppression efforts. These reforms, in concert with the establishment of wildland firefighter account, improve agency performance while minimizing costs.

#### WILDLAND FIREFIGHTERS

For necessary expenses for wildland firefighters on National Forest System lands, for emergency fire suppression on or adjacent to such lands or other lands under fire protection agreement, \$219,710,000, to remain available until expended.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109-289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

Wildland Firefighters.— This appropriation provides funding for base salary, training and travel for up to 10,010 firefighters and 67 Type I crews.

The Budget addresses the complexity associated with wildland fire and other hazards by providing funding for pro-

fessional wildland firefighters. It reflects an important refinement in the Forest Services management of wildland fire that improves implementation of the Presidents Healthy Forests Initiative (HFI) and reduces the risk of catastrophic wildfire to communities and the environment. By establishing a single account for professional wildland firefighters, the Budget enhances performance, improves accountability, and provides the Forest Service greater efficiency and flexibility in managing wildland fires and in supporting all-hazard responses through the National Incident Management System.

#### RANGE BETTERMENT FUND

For necessary expenses of range rehabilitation, protection, and improvement, 50 percent of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the 16 Western States, pursuant to section 401(b)(1) of Public Law 94–579, as amended, to remain available until expended, of which not to exceed 6 percent shall be available for administrative expenses associated with on-the-ground range rehabilitation, protection, and improvements.

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

#### LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601–4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the Forest Service, \$15,703,000, to be derived from the Land and Water Conservation Fund and to remain available until expended.

#### ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

For acquisition of lands within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Toiyabe National Forest, Nevada; and the Angeles, San Bernardino, Sequoia, and Cleveland National Forests, California, as authorized by law, \$1,053,000, to be derived from forest receipts.

#### ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

For acquisition of lands, such sums, to be derived from funds deposited by State, county, or municipal governments, public school districts, or other public school authorities, and for authorized expenditures from funds deposited by non-Federal parties pursuant to Land Sale and Exchange Acts, pursuant to the Act of December 4, 1967, as amended (16 U.S.C. 484a), to remain available until expended. (16 U.S.C. 4601–516–617a, 555a; P.L. 96–586; P.L. 76–589, 76–591; and 78–310.)

Note.—A regular 2007 appropriation for this account had not been enacted at the time the budget was prepared; therefore, this account is operating under a continuing resolution (P.L. 109–289, Division B, as amended). The amounts included for 2007 in this budget reflect the levels provided by the continuing resolution.

This appropriation consolidates land acquisition authorities for acquisition of lands, waters, or interest therein, as authorized by law.

Land and Water Conservation Fund.—Lands and other interests are acquired within areas of the National Forest System for public access for outdoor recreation, wilderness management, wildlife and fisheries habitat management areas, conservation of endangered species, and other purposes.

Acquisition of Lands of National Forests, Special Acts.— To acquire lands within critical watersheds to provide soil stabilization and restoration of vegetation. Public Laws 76–589, 76–591 and 78–310 (54 Stat. 297, 298, 299, and 402; and 58 Stat. 227–228) authorize appropriations for the purchase of lands to minimize erosion and flood damage to critical watersheds within the following National Forests: the Cache, Uinta, and Wasatch, Utah; the Toiyabe, Nevada; and the Angeles, Cleveland, San Bernardino, and Sequoia, California. Appropriations are made from receipts on these national forests.

Acquisition of Lands to Complete Land Exchanges.—Deposits are made by State, county, or municipal governments, public school authorities, or non-Federal parties for cash equalization of certain land exchanges and are used to acquire similar lands suitable for National Forest System purposes in the same State as the national forest lands conveyed in the land exchange or from non-Federal parties for authorized expenditures.

Operation and Maintenance of Quarters.—Quarters rental deductions are collected from employees occupying Forest Service facilities. Amounts are deposited into a special fund and are available for the maintenance and operation of employee-occupied quarters. (5 U.S.C. 5911)

Resource Management, Timber Receipts.—Funds in this special account are available for trail maintenance, reconstruction, and construction; wildlife and fisheries habitat management; soil, water, and air management; cultural/heritage resource management; wilderness management; reforestation; and timber sale administration and management.

Recreation Fee Program.—Pursuant to Sec. 8 of Division J—Consolidated Appropriations Act, 2005, Title VII—Federal Lands Recreation Enhancement Act, 2005, Public Law 108–447 of December 8, 2004, the Secretary may establish, modify, charge, and collect recreation fees at Federal recreational lands and waters, including specific recreation sites or areas, for expanded recreation amenities, and special recreation permits. Amounts collected shall be used for repair, maintenance, interpretation, visitor information, limited habitat restoration, and direct operating or capital costs and other identified appropriate expenses.

Midewin National Tallgrass Prairie Rental Fees.—Monies received under a special use authorization (issued under subsection (b) of Public Law 104–106, Title XXIX, Subtitle A, Section 2915, after distribution to the State of Illinois and affected counties pursuant to the Act of May 23, 1908) are available to cover the cost to the United States of prairie improvement work at the Midewin National Tallgrass Prairie.

Midewin National Tallgrass Prairie Restoration Fund.— Monies received from user fees and the salvage value proceeds from sale of any facilities and improvements pursuant to Section 2915(d) and (e) of Public Law 104–106, as amended by Public Law 105–83, are available to cover the costs of restoration and administrative activities.

Payment to Minnesota.—At the close of each fiscal year, the State of Minnesota is paid 0.75 percent of the appraised value of certain Superior National Forest lands in the counties of Cook Lake and St. Louis for distribution to these counties (16 U.S.C. 577g).

Payments to Counties, National Grasslands.—This program provides an annual payment to counties in which Title III—Bankhead-Jones Acquired Lands are located for funding public schools and roads. Of the net revenues for use of Title III—Bankhead-Jones Farm Tenant Act lands, 25 percent is paid to the counties in which such lands are located for public school and road purposes (7 U.S.C. 1012).

Payments to States.—The Secure Rural Schools and Community Self-Determination Act of 2000 (P.L. 106-393 dated October 30, 2000) provides stabilized education and road maintenance funding through predictable payments to counties, job creation in those counties and other opportunities associated with the restoration, maintenance and stewardship of Federal lands. Under P.L. 106-393, counties may elect one of two methods to calculate Payments to States funding they receive. Counties can either choose to continue receiving funds established by the 25 percent fund or they can receive their share of the State's "full payment amount." Full payment amount is the average of the highest three years of payments to the State under the 25 percent fund through the years 1986–1999. A county's share of that amount is generally determined by the State in cooperation with the affected counties.

Since 1908, 25 percent of Forest Service revenues, such as those from timber sales, mineral resources and grazing fees, have been returned to states in which national forest lands are located. The Budget ensures Knutsen-Vandenberg (KV) or Salvage Sales Fund (SSF) collections reflect plans that are funded with due regard for these shared receipts. Reestablishment of this policy will increase receipts into the National Forest Fund and in turn reduce the outlays required from the Treasury.

Expenses, Brush Disposal.—Funds from payments by purchasers of National Forest timber to dispose of or treat slash

FOREST SERVICE—Continued Federal Funds—Continued 177

and other debris that result from cutting operations (16  $U.S.C.\ 490$ ).

Licensee programs, Forest Service.—Funds from fees for the use of characters by private enterprises are collected under regulations promulgated by the Secretary as follows:

Smokey Bear.—For furthering the nationwide forest fire prevention campaign (16 U.S.C. 580(2)).

Woodsy Owl.—For promoting wise use of the environment and programs which foster maintenance and improvement of environmental quality (16 U.S.C. 580(1)).

Restoration of forestlands and improvements.—Funds from claim settlements involving damage to lands or improvements and from forfeiture of deposits and bonds by permittees and timber purchasers are used for the restoration made necessary by the action which led to the settlement of forfeiture (16 U.S.C. 579c).

Timber Purchaser Roads Constructed by Forest Service.—Funds from timber receipts for Government constructed permanent roads for purchasers of timber who qualify as small businesses and elect to have the Forest Service construct the roads designated under the timber sale contract where costs exceed \$20,000 (16 U.S.C. 472a(i)).

Tongass Timber Supply Fund.—Funds from sales of Alaska timber to maintain the timber supply from the Tongass National Forest at a specified level (16 U.S.C. 539d).

Timber Salvage Sales.—Funds are used for salvage of insect-infested, dead, damaged, or down timber, and to remove associated trees for stand improvement (16 U.S.C. 472a(h)).

Timber Sales Pipeline Restoration Fund.—As authorized under Section 327 of the Omnibus Consolidated Recissions and Appropriations Act of 1996, funds from revenues received from timber sales released under Section 2001(k) of the 1995 Supplemental Appropriations for Disaster Assistance and Recissions Act for the purpose of restoring the timber pipeline and funding the backlog of recreation projects on National Forest System lands.

Valles Caldera Fund.—Funds authorized under the Valles Caldera Preservation Act (Public Law 106–248) are available without further appropriation for any purpose consistent with the purposes of the Act. Notwithstanding sections 1341 and 3302 of title 31 of the United States Code, all monies received from donations under subsection (g) or from the management of the Preserve shall be retained and shall be available, without further appropriation, for the administration, preservation, restoration, operation and maintenance, improvement, repair, and related expenses incurred with respect to properties under its management jurisdiction.

Forest Botanical Products.—This pilot program established by Section 339 of the Consolidated Appropriations Act of FY 2000 (P.L. 106–113) provides for the recovery of fair market value for the sale of forest botanical products; the collection of fees to cover the costs of analyzing, granting, modifying, and monitoring the harvest of these products; the determination of sustainable harvest levels; and the establishment of personal use levels for which fees would not be collected.

Administration of Rights-of-Way and Other Land Uses.— Fees collected from applicants and holders of special use authorizations are available to recover costs for processing applications and monitoring compliance with special use authorizations (31 U.S.C. 9701; 43 U.S.C. 1764(g); 30 U.S.C. 815(1)).

#### FOREST SERVICE PERMANENT APPROPRIATIONS

(Legislative proposal, subject to PAYGO)

The Budget includes a legislative proposal that would authorize the Secretary of Agriculture to dispose of certain lands, up to \$800 million, identified in National Forest plans as suitable for exchange since they are isolated or inefficient to manage. This proposal provides \$400 million above the current baseline for a four-year extension of USDA and Department of the Interior forest county safety net payments, which will be targeted to the most affected areas, capped. adjusted downward each year, and eventually phased out. For administrative convenience, USDA will make the payments on behalf of both agencies. In addition, this proposal provides \$400 million for acquisition of land for the NFS system, conservation education, access to public lands, habitat improvement, and to cover administrative costs of disposal. For the 2007 payment (to be made in 2008), the Administration will continue to work with Congress to identify mutually agreeable offsets.

The Working Capital Fund is a self-sustaining revolving fund that provides services to national forests, to research experiment stations, to other Federal agencies when necessary, to State and private agencies as provided by law, and to persons who cooperate with the Forest Service in fire control and other authorized programs.

Forestry-related supply and support services include:

Equipment Services.—The fund owns, operates, maintains, replaces, and repairs common-use, motor-driven, and similar equipment. This equipment is rented to administrative units, that is, national forests, research experiment stations, and other units, and, in some cases, to other agencies, at rates which recover the cost of operation, repair and maintenance, management, and depreciation. The rates also include an increment which provides additional cash which, when added to depreciation earnings and the residual value of equipment, provides sufficient funds to replace the equipment.

Aircraft Services.—The fund operates, maintains, and repairs Forest Service owned aircraft used in fire surveillance and suppression and in other Forest Service programs. The aircraft are rented to national forests, research experiment stations, and in some cases to other agencies, at rates which recover the cost of depreciation, operation, maintenance, repair, and improvements in the airworthiness of the aircraft. Aircraft replacement costs are financed from either appropriated funds or the Forest Service Working Capital Fund, or a combination of both.

Supply Services.—The fund operates the following common services, and provides for cost-recovery of Working Capital Fund Program Management:

Photo reproduction laboratories that store, reproduce, and supply aerial photographs, aerial maps, and other photographs of National Forest lands. Photographic reproductions are sold to National Forests, Experiment Stations, and others at cost

Sign shops that manufacture and supply special signs for the National Forests for use in regulating traffic and as information to the public and other users of the National Forests. Signs are sold to National Forests and Experiment Stations at cost.

Nurseries.—Seed supply services that provide tree seed for direct seeding or sowing in nurseries for the production of trees. Includes purchase or collection of cones, extraction of seeds, cleaning and testing, and storage and delivery. Operates in conjunction with tree nurseries; that is, forest tree nurseries and cold storage facilities for storage of tree seedlings. Tree seedlings are sold to national forests, State foresters, and other cooperators at cost.

The Budget includes Forest Service implementation, in conjunction with the General Services Administration, of a vehicle allocation methodology that analyzes fleet vehicle effectiveness, cost-to-serve, life cycle costs, vehicle pooling, procurement practices and reduction of operating costs.

# ADMINISTRATIVE PROVISIONS, FOREST SERVICE

Appropriations to the Forest Service for the current fiscal year shall be available for: (1) purchase of passenger motor vehicles; acquisition of passenger motor vehicles from excess sources, and hire of such vehicles; purchase, lease, operation, maintenance, and acquisition of aircraft from excess sources to maintain the operable fleet for use in Forest Service wildland fire programs and other Forest Service programs; notwithstanding other provisions of law, existing aircraft being replaced may be sold, with proceeds derived or trade-in value  $used\ to\ offset\ the\ purchase\ price\ for\ the\ replacement\ aircraft;\ (2)\ serv$ ices pursuant to 7 U.S.C. 2225, and not to exceed \$100,000 for employment under 5 U.S.C. 3109; (3) purchase, erection, and alteration of buildings and other public improvements (7 U.S.C. 2250); (4) acquisition of land, waters, and interests therein pursuant to 7 U.S.C. 428a; (5) for expenses pursuant to the Volunteers in the National Forest Act of 1972 (16 U.S.C. 558a, 558d, and 558a note); (6) the cost of uniforms as authorized by 5 U.S.C. 5901-5902; and (7) for debt collection contracts in accordance with 31 U.S.C. 3718(c).

Any appropriations or funds available to the Forest Service may be transferred to the Wildland Fire Management appropriation for forest firefighting, emergency rehabilitation of burned-over or damaged lands or waters under its jurisdiction, and fire preparedness due to severe burning conditions upon notification of the House and Senate Committees on Appropriations.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development and the Foreign Agricultural Service in connection with forest and rangeland research, technical information, and assistance in foreign countries, and shall be available to support forestry and related natural resource activities outside the United States and its territories and possessions, including technical assistance, education and training, and cooperation with United States and international organizations.

Funds available to the Forest Service shall be available to conduct a program of up to \$2,500,000 for high priority projects within the scope of the approved budget which shall be carried out by the Youth Conservation Corps.

Of the funds available to the Forest Service, \$4,000 is available to the Chief of the Forest Service for official reception and representation expenses.

Pursuant to sections 405(b) and 410(b) of Public Law 101–593, of the funds available to the Forest Service, up to \$2,500,000 may be advanced in a lump sum to the National Forest Foundation to aid conservation partnership projects in support of the Forest Service mission, without regard to when the Foundation incurs expenses, for administrative expenses or projects on or benefitting National Forest System lands or related to Forest Service programs: Provided, That of the Federal funds made available to the Foundation, no more than \$200,000 shall be available for administrative expenses: Provided further, That the Foundation shall obtain, by the end of the period

of Federal financial assistance, private contributions to match on at least one-for-one basis funds made available by the Forest Service: Provided further, That the Foundation may transfer Federal funds to a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds: Provided further, That authorized investments of Federal funds held by the Foundation may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States.

Pursuant to section 2(b)(2) of Public Law 98–244, up to \$2,650,000 of the funds available to the Forest Service shall be advanced to the National Fish and Wildlife Foundation in a lump sum to aid cost-share conservation projects, without regard to when expenses are incurred, on or benefitting National Forest System lands or related to Forest Service programs: Provided, That such funds shall be matched on at least a one-for-one basis by the Foundation or its subrecipients: Provided further, That the Foundation may transfer Federal funds to a Federal or non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for interactions with and providing technical assistance to rural communities and natural resource based businesses for sustainable rural development purposes: Provided, That no more than 2 percent of any unit's budget may be used for such purposes: Provided further, That no more than 5 percent of the funds in any budget line item may be used for such purposes.

Funds appropriated to the Forest Service shall be available for payments to counties within the Columbia River Gorge National Scenic Area, pursuant to sections 14(c)(1) and (2), and section 16(a)(2) of Public Law 99–663.

Notwithstanding any other provision of law, any appropriations or funds available to the Forest Service not to exceed \$500,000 may be used to reimburse the Office of the General Counsel (OGC), Department of Agriculture, for travel and related expenses incurred as a result of OGC assistance or participation requested by the Forest Service at meetings, training sessions, management reviews, land purchase negotiations and similar non-litigation related matters. Future budget justifications for both the Forest Service and the Department of Agriculture should clearly display the sums previously transferred and the requested funding transfers.

Any appropriations or funds available to the Forest Service may be used for necessary expenses in the event of law enforcement emergencies as necessary to protect natural resources and public or employee safety: Provided, That such amounts shall not exceed \$500,000.

An eligible individual who is employed in any project funded under title V of the Older American Act of 1965 (42 U.S.C. 3056 et seq.) and administered by the Forest Service shall be considered to be a Federal employee for purposes of chapter 171 of title 28, United States Code

Any funds appropriated to the Forest Service may be used to meet the non-Federal share requirement in section 502(c) of the Older American Act of 1965 (42 U.S.C. 3056(c)(2)).

Funds available to the Forest Service, not to exceed \$45,000,000, shall be transferred to the Capital Improvement and Maintenance account for the purpose of performing facilities maintenance as authorized by 7 U.S.C. 2250. Such transfers shall occur using a square foot rate charged on the same basis the agency uses to assess programs for payment of rent, utilities, and other support services.

#### Allocations and Allotments Received From Other Accounts

Note.—Obligations incurred under allocations or allotments from other accounts are included in the schedule of the parent appropriations, as follows:

Agriculture:

Agricultural Research Service.

Animal and Plant Health Inspection Service.

Natural Resources Conservation Service.

Watershed and flood prevention operations.

Resource conservation and development.

Conservation Reserve Program.

 $Department\ Administration:$ 

Hazardous materials management.

Rural Housing; Rural community fire protection grants.

Transportation: Federal Highway Administration, Highway Trust Fund.

Labor: Employment and Training Administration, Training and employment services.

## TITLE VII—GENERAL PROVISIONS

 $(INCLUDING\ CANCELLATIONS\ AND\ TRANSFERS\ OF\ FUNDS)$ 

SEC. 701. Within the unit limit of cost fixed by law, appropriations and authorizations made for the Department of Agriculture for the current fiscal year under this Act shall be available for the purchase, in addition to those specifically provided for, of not to exceed 182 passenger motor vehicles, of which 142 shall be for replacement only, and for the hire of such vehicles.

SEC. 702. New obligational authority provided for the following appropriation items in this Act shall remain available until expended: Animal and Plant Health Inspection Service, the contingency fund to meet emergency conditions, information technology infrastructure, fruit fly program, emerging plant pests, boll weevil program, low pathogen avian influenza program, high pathogen avian influenza program, up to \$4,505,000 in the pest and disease management program to control grasshoppers and Mormon cricket, up to \$33,125,000 in animal health monitoring and surveillance for the animal identification system, up to \$1,500,000 in the scrapie program for indemnities, up to \$8,141,000 in the emergency management systems program for the vaccine bank, up to \$1,000,000 for wildlife services methods development, up to \$1,000,000 of the wildlife services operations program for aviation safety, and up to 25 percent of the screwworm program; Food Safety and Inspection Service, field automation and information management project; Cooperative State Research, Education, and Extension Service, funds for the Native American Institutions Endowment Fund; Farm Service Agency, salaries and expenses funds made available to county committees; Foreign Agricultural Service, middle-income country training program, and up to \$2,000,000 of the Foreign Agricultural Service appropriation solely for the purpose of offsetting fluctuations in international currency exchange rates, sub-

ject to documentation by the Foreign Agricultural Service.

SEC. 703. The Secretary of Agriculture may transfer unobligated balances of discretionary funds appropriated by this Act or other available unobligated discretionary balances of the Department of Agriculture to the Working Capital Fund for the acquisition of plant and capital equipment necessary for the delivery of financial, administrative, and information technology services of primary benefit to the agencies of the Department of Agriculture: Provided, That none of the funds made available by this Act or any other Act shall be transferred to the Working Capital Fund without the prior notification of the agency administrator: Provided further, That none of the funds transferred to the Working Capital Fund pursuant to this section shall be available for obligation without the prior notification of the Committees on Appropriations of both Houses of Congress.

SEC. 704. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless

expressly so provided herein.

SEC. 705. No funds appropriated by this Act may be used to pay negotiated indirect cost rates on cooperative agreements or similar arrangements between the United States Department of Agriculture and nonprofit institutions in excess of 10 percent of the total direct cost of the agreement when the purpose of such cooperative arrangements is to carry out programs of mutual interest between the two parties. This does not preclude appropriate payment of indirect costs on grants and contracts with such institutions when such indirect costs are computed on a similar basis for all agencies for which appropriations are provided in this Act.

Sec. 706. Appropriations to the Department of Agriculture for the cost of direct and guaranteed loans made available in the current fiscal year shall remain available until expended to disburse obligations made in the current fiscal year for the following accounts: the Rural Development Loan Fund program account, the Rural Electrification and Telecommunication Loans program account, and the

Rural Housing Insurance Fund program account.

SEC. 707. None of the funds appropriated by this Act may be used to carry out section 410 of the Federal Meat Inspection Act (21 U.S.C. 679a) or section 30 of the Poultry Products Inspection Act (21 U.S.C. 471).

SEC. 708. None of the funds made available to the Department of Agriculture by this Act may be used to acquire new information technology systems or significant upgrades, as determined by the Office of the Chief Information Officer, without the notification of the Chief Information Officer and the concurrence of the Executive Information Technology Investment Review Board: Provided, That notwithstanding any other provision of law, none of the funds appropriated or otherwise made available by this Act may be transferred to the Office of the Chief Information Officer unless prior notification has been transmitted to the Committees on Appropriations of both Houses of Congress.

SEC. 709. Notwithstanding any other provision of law, of the funds made available in this Act for competitive research grants (7 U.S.C. 450i(b)), the Secretary may use up to 30 percent of the amount provided to carry out a competitive grants program under the same terms and conditions as those provided in section 401 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7621).

SEC. 710. Funds made available under section 1240I and section 1241(a) of the Food Security Act of 1985 in the current fiscal year shall remain available until expended to disburse obligations made in the current fiscal year, and are not available for new obligations. Funds made available under section 524(b) of the Federal Crop Insurance Act, 7 U.S.C. 1524(b), in fiscal years 2004, 2005, 2006, 2007 and 2008 shall remain available until expended to disburse obligations made in fiscal years 2004, 2005, 2006, 2007 and 2008 respec-

tively, and except for fiscal year 2008 funds, are not available for new obligations.

SEC. 711. None of the funds appropriated or otherwise made available by this or any other Act shall be used to pay the salaries and expenses of personnel to carry out the following:

(a) an Environmental Quality Incentives Program authorized by 16 U.S.C. 3839aa, et seq., in excess of \$1,000,000,000. Funds exceeding this amount for fiscal year 2008 are hereby permanently cancelled;

- (b) a Conservation Security Program authorized by 16 U.S.C. 3838 et seq., in excess of \$316,212,000. Funds exceeding this amount for fiscal year 2008 are hereby permanently cancelled. In addition, not withstanding any other provision of law, section 1241(a)(3)(B) of the Food Security Act of 1985 (16 U.S.C. 3841(a)(3)(B)) is amended by striking "\$5,650,000,000" and inserting the following: "\$5,570,000,000";
- (c) an Agricultural Management Assistance Program as authorized by section 524 of the Federal Crop Insurance Act (7 U.S.C. 1524). \$10,000,000 of the funds available for fiscal year 2008 are hereby permanently cancelled; and
- (d) a Marketing Assistance Loan Program to provide storage credits for upland cotton, implemented by 7 CFR part 1427. Funds otherwise available for fiscal year 2008 are hereby permanently cancelled.

SEC. 712. Section 502(h)(2) of the Housing Act of 1949 is amended to add the following sentence to the end of the paragraph:

"In addition the lender shall certify that—

"(A) the lender would not otherwise provide a loan to the borrower absent the guarantee, and

"(B) the lender either—

"(i) does not provide loans under any other federal housing program, or

"(ii) has determined that the borrower does not qualify for any other federal housing program that the lender offers that would serve the borrower's housing needs.".

SEC. 713. Section 442 of Public Law 106-224 is amended by adding the following new subsections at the end:

"(c) Preconditions for a Transfer Availability.—Funds may be transferred to combat emergencies.

"(d) DEFINITIONS.—For purposes of this subsection, an 'emergency' is an unanticipated event that requires a necessary expenditure that is sudden, urgent and unforeseen.".

SEC. 714. Section 10417 of Public Law 107–171 is amended by adding the following new subsections at the end:

"(d) Preconditions for a Transfer Availability.—Funds may be transferred to combat emergencies.

"(e) DEFINITIONS.—For purposes of this subsection, an 'emergency' is an unanticipated event that requires a necessary expenditure that is sudden, urgent and unforeseen.".

SEC. 715. Section 739 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriation Act, 2001 (H.R. 5426 as enacted by Public Law 106–387, 115 Stat. 1549A–34) is amended by striking "2 percent" and inserting "3 percent".

Sec. 716. Of the funds available under section 32 of the Act of August 24, 1935, \$65,452,000 are hereby permanently cancelled.

Sec. 717. Not more than \$11,166,000 of the funds made available under section 522(e) of the Federal Crop Insurance Act (7 U.S.C. 1522(e)) may be used for program compliance and integrity purposes, including the data mining project, and for the Common Information Management System.

SEC. 718. Not withstanding any other provision of law, the time period for the Secretary of Agriculture to enroll not to exceed 2,275,000 acres in the Wetlands Reserve Program shall be extended through fiscal year 2008. For fiscal year 2008, the Secretary shall use the funds, facilities, and authorities of the Commodity Credit Corporation to carry out this program.
