In response to Mr. Fenn's letter of 14 November 1975 to Mr. Frank Foster which posed a number of questions on matters related to President Kennedy's assassination, the following information is provided:

NSA has identified some four foreign communications which mention Lee Harvey Oswald, but has not identified any messages to or from him. The four identified messages are and contain Cuban comments regarding press items which discuss Oswald's activity in late September 198 to obtain a Cuban visa to travel to Moscow and also comments on the assination itself. The messages are dated in the last week of November 1963.

NSA has not identified any communications to, from or mentioning Marina Oswald, Jack Ruby or Earl Ruby.

The specific questions asked and responses follow:

l. Were any of the above names put on a watch list and, if so, by which agency or individual of the Governments?

ANSWER: The name of Oswald was used in searching our data base immediately following the assassination. Records from that time period are virtually non-existent and it is not clear which agency or individual of the Government requested the search to be made.

2. Was product or information concerning the individuals cited above ever requested by any agency or individual of the Government or of the Warren Commission? If so, what information and by whom?

ANSWER: NSA has no record or recollection of such requests.

3. Was product or information concerning the individuals cited above ever disseminated to any agency or individual of the Government or of the Warren Commission? If so, what information and to whom?

ANSWER: The four messages cited above were disseminated to CIA, DIA, STATE and elements of the Army, Navy and Air Force.
