# Production, Prices, Employment, and Trade in Northwest Forest Industries, All Quarters 2007

Debra D. Warren

## **ABSTRACT**

Warren, Debra D. 2008. Production, prices, employment, and trade in Northwest forest industries, all quarters of 2007. Resour. Bull. PNW-RB-256. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 163 p.

Provides current information on lumber and plywood production and prices; employment in the forest industries; international trade in logs, lumber, and plywood; volume and average prices of stumpage sold by public agencies; and other related items.

**Keywords:** Forestry business economics, lumber prices, plywood prices, timber volume, stumpage prices, employment (forest products industries), marketing (forest products), imports and exports (forest products).

## **PREFACE**

This report presents current information on the timber situation in Alaska, Washington, Oregon, California, Montana, Idaho, and British Columbia, including data on lumber and plywood production and prices; timber harvest; employment in forest products industries; international trade in logs, pulpwood, chips, lumber, veneer, and plywood; log prices in the Pacific Northwest; volume and average prices of stumpage sold by public agencies; and other related items.

Cooperation in supplying data has been received from the following sources: U.S. International Trade Commission; Washington State Department of Natural Resources and Employment Security Department; Oregon State Department of Forestry and Department of Employment; California State Department of Employment and Department of Conservation; Montana State Forester and State Employment Service; Idaho State Department of Public Lands and Department of Employment; Alaska State Department of Labor and Department of Natural Resources of the Division of Lands; U.S. Department of Commerce; U.S. Department of the Interior, Bureau of Land Management; British Columbia's Council of Forest Industries; and a number of private industry associations, firms, and individuals. A special "thank-you" goes to Judy Mikowski at the PNW Research Station for her assistance in the Washington and Oregon employment tables (25-26), the Western Wood Products Association tables (9-13), and all of the graphs.

The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Anchorage Customs District is the State of Alaska. San Francisco Customs District includes Monterey and all ports north of Monterey, California.

The statistical data are from secondary sources and are brought together to make such information more readily available. Sources are indicated for each table and can be contacted directly for means used in data collection.

Readers are cautioned that unit values should not be interpreted as accurate indicators of prices. Unit values for individual trade flows, especially those involving small volumes, frequently vary widely within a year, across origins or destinations, and through time.

## **AUTHOR**

DEBRA D. WARREN is an economist, Pacific Northwest Research Station, Suite 400, 620 SW Main, Portland, OR. The mailing address is P.O. Box 3890, Portland, OR 97208-3890. The phone number is 503/808-2001, and the FAX number is 503/808-2033. This report is also available online in portable document format (pdf) at the following address: <http://www.fs.fed.us/pnw/pubs/rb256.pdf>.

## Tables Included in This Series of Reports and Frequency of Updates

<u>TABLE NUMBER</u>	<u>TABLE TITLE</u>	<u>PAGE NUMBER</u>
<b>Lumber and Plywood Production and Prices</b>		
1	U.S. softwood lumber and structural panel board production, 1996-2007	6
2	Lumber production in Northwest States, 1997-2007	7
3	Softwood lumber production in the inland region, by species, 1997-2007	8
4	Lumber production in the coast region, by species, 1997-2007	9
5	Softwood structural panel board production in the United States, by State, 1997-2007	10
6	Softwood lumber and plywood production in British Columbia, 1997-2007	10
7	Wholesale prices of selected lumber products, 1996-2007	11
8	Wholesale prices of selected softwood plywood products, 1996-2007	12
9	Percentage of total volume and f.o.b. mill prices for Douglas-fir lumber, coast mills, 1996-2007	13
10	Percentage of total volume for ponderosa pine lumber, inland mills, 1996-2007	14
11	F.O.B. mill prices for ponderosa pine lumber, inland mills, 1996-2007	15
12	Percentage of total volume and f.o.b. mill prices for hem-fir lumber, inland mills, 1996-2007	16
13	Percentage of total volume and f.o.b. mill prices for hem-fir lumber, coast mills, 1996-2007	17
14	Weighted average f.o.b. mill prices for coast and inland lumber, 1996-2007	18
15	Volume and average value for exported alder logs and, lumber, western region, 1996-2007	20
<b>Timber Harvest</b>		
16	Washington and Oregon timber harvest by ownership, 1997-2007	21

**Tables Included in This Series of Reports (continued)**

<u>TABLE NUMBER</u>	<u>TABLE TITLE</u>	<u>PAGE NUMBER</u>
17	British Columbia log production, 1997-2007	22
18	Montana and Idaho timber harvest by ownership , 1997-2007	23
19	Alaska timber harvest by ownership, 1997-2007	24
20	California timber harvest by ownership, 1997-2007	24

**Employment in Forest Products Industries**

21	Employment in forest products industries in Washington and Oregon, 1997-2007	25
22	Total nonagricultural employment and employment in forest products industries in Washington and Oregon, 1997-2007	27
23	Employment in forest products industries in California and Alaska, 1997-2007	28
24	Employment in forest products industries in Montana and Idaho, 1997-2007	29
25	Employment, wages, unemployment, and population for the State of Oregon, by county	30
26	Employment, wages, unemployment, and population for the State of Washington, by county	35

**Log, Pulpwood, and Chip Exports and Imports**

27	Volume of softwood log exports from Seattle and Columbia-Snake Customs Districts by species and destination, 1996-2007	40
28	Value of softwood log exports from Seattle and Columbia-Snake Customs Districts by species and destination, 1996-2007	43
29	Average value of softwood logs exported from Seattle and Columbia-Snake Customs Districts by species and destination, 1996-2007	45
30	Volume and average value of softwood log exports from the San Francisco Customs District by species and destination, 1996-2007	47
31	Volume and average value of softwood log exports from Anchorage Customs District by species and destination, 1996-2007	49
32	Volume and average value of log exports by port, species, and destination, Seattle Customs District, 2007	50

42	Figure 3--Log exports from Seattle and Columbia-Snake Customs Districts, 1997-2007, in million board feet
48	Figure 4--Log exports from San Francisco and Anchorage Customs Districts, 1997-2007, in million board feet
87	Figure 5--Lumber exports from Seattle and Columbia-Snake Customs Districts, 1997-2007, in million board feet
94	Figure 6--Lumber exports from San Francisco and Anchorage Customs Districts, 1997-2007, in million board feet
147	Figure 7--Average stumpage prices for sawtimber sold on National Forests, Pacific Northwest Region, in dollars per thousand board feet
157	Figure 8--Average value of all timber products sold from Forest Service Regions of the Western United States, in dollars per thousand board feet

## **Conversion Factors Used in This Report**

For logs:      4.53 cubic meters equals 1 thousand board feet

For lumber:    2.36 cubic meters equals 1 thousand board feet

For veneer:    92.9 square meters equals 1 thousand square feet

For plywood:   .885 cubic meters equals 1 thousand square feet (3/8-inch basis)

For chips, paper, and pulpwood:   .907 metric tons equals 1 short ton

This Page Left Blank Intentionally

## **Western Lumber Production and Prices**

- Softwood lumber production

A total of 15.6 billion board feet of softwood lumber was produced in the Western United States in 2007, and the total U.S. figure was 34.1 billion board feet (table 1). Total softwood lumber production in the fourth quarter of 2007 was 7.6 billion board feet, and 44.9 percent of that was produced in the West.

- Wholesale lumber prices

Average wholesale prices decreased in 2007 for all of the selected lumber products (table 7). Year-end 2007 prices averaged a 17.0-percent decrease from year-end 2006, across all five selected lumber products.

## **Plywood Production and Prices**

- Plywood production in 2007

United States softwood structural panel board production in 2007, at 27,006 million square feet (3/8-inch basis), decreased 4.9 percent from 2006. Monthly figures are no longer available (table 1).

Wholesale prices of two of the selected plywood products decreased (one increased) from 2006 to 2007. Year-end 2007 prices averaged a 0.6-percent decrease (table 8) from year-end 2006 prices.

## **Employment in Forest Products Industries**

- Employment numbers for 2007

In 2007, the number of persons employed in the forest products industries decreased by 2,400 persons from 2006 in Oregon and by 2,300 persons in Washington (table 21).

At printing time, the number of direct jobs could not be calculated because the 2007 timber harvest numbers were not yet available.

## **Log, Pulp, and Chip Exports**

- Washington and Oregon log exports

Log exports from Washington and Oregon ports totaled 673.0 million board feet in 2007, as compared to 534.3 million board feet in 2006. In 2007, Washington Customs District exported 312.5 million board feet of logs to all countries, and Oregon Customs District exported 360.5 (table 27).

- Log export prices for Washington and Oregon

Softwood log exports from Washington and Oregon ports averaged \$686.89 (per thousand board feet) in 2007, down from the 2006 average of \$838.25. The fourth quarter 2007 values for both states averaged \$610.30 (table 29), down from \$690.03 in the third quarter of 2007.

- Log exports from California and Alaska

San Francisco Customs District exported 457 thousand board feet of logs in 2007, compared with 75 mbf in 2006 (table 30). The Anchorage Customs District exported 206.5 million board feet of logs in 2007, compared with 254.1 in 2006 (table 31).

- Pulp volumes in the Pacific Northwest

The Seattle Customs District exported less volume of dissolving grade of pulp in 2007. Both grades of pulp exports increased in the Columbia-Snake Customs District. The San Francisco Customs District showed a decrease in both grades of pulp exports (table 46).

- Average value of pulp exports

The Columbia-Snake Customs District was the only one to show an increase in the average value for both grades of pulp exports from 2006 to 2007. The Anchorage Customs District again had no pulp exports (table 47).

- Chip exports

Three customs districts reflected an increase in the volume of chips exported in 2007. The average value of chips increased in the Seattle and Columbia-Snake Customs Districts (table 48).

## **Lumber, Plywood, and Veneer**

- Lumber export volumes from the Northwest

Both the Columbia-Snake and the Seattle Customs Districts had an increase in the volume of lumber exports from 171.3 million board feet in 2006 to 231.4 in 2007 (table 50). Southern California lumber export volumes decreased in 2007 (table 53). Northern California lumber exports decreased slightly in 2007 (table 54). Alaska decreased lumber export volumes to 1.8 million board feet in 2007 (table 55).

- Average value of lumber exports

In the Seattle and Columbia-Snake Customs Districts, the average value of lumber exports decreased from \$796.29 (per thousand board feet) in 2006 to \$754.63 in 2007 (table 52). Southern California lumber export prices rose in 2007 (table 53). Northern California (table 54) lumber export prices increased from \$848.97 in 2006 to \$1,016.50 in 2007. Alaska lumber prices (table 55) increased from \$1,005.35 in 2006 to \$1,222.79 in 2007.

- Oregon and Washington lumber imports

The Seattle Customs District imported 3.1 billion board feet of lumber in 2007, mostly from Canada (table 68). The Columbia-Snake Customs District imported 47.5 million board feet in 2007, compared with 79.1 million in 2006, mostly from Chile and New Zealand (table 70).

- Plywood exports

The volume of softwood and hardwood plywood exports from the Seattle Customs Districts increased in 2007. The Columbia-Snake Customs District softwood plywood exports decreased in 2007, and the hardwood increased (table 72).

- Veneer exports

In 2007, veneer export volumes decreased in the Seattle Customs Districts, but increased in the Columbia-Snake Customs District (table 74). The prices rose in Washington, but dropped for hardwood veneer in Oregon.

**Timber Sold by  
Forest Service  
Regions**

- Sold volume in Northern Region

Not all ownership numbers are available, but the amount of timber sold on National Forest lands in Montana and northern Idaho increased 31.7 percent from 2006 to 2007 (table 75).

- Sold volume in northern California

In 2007, the volume of timber sold on USDA Forest Service lands in northern California increased 8.4 percent from the 2006 total (table 83).

- Sold volume in Washington and Oregon

Oregon and Washington showed an increase of 9.3 percent in the amount of timber sold on USDA Forest Service lands from 2006 to 2007 (table 89).

- Sold volume in Alaska

In 2007, the volume of timber sold on National Forest lands in Alaska was 29.0 million board feet, compared to 46.7 million board feet in 2006 (table 95). Average values increased from \$11.18 in 2006 to \$15.92 in 2007 (table 96).

## **TABLES AND FIGURES**

**Table 1—U.S. softwood lumber and structural panel board production, 1996-2007**

Year	U.S. softwood lumber production				U.S. softwood structural panel board production
	Total softwood lumber	Western region <sup>a</sup>	Southern pine region	Other softwoods	
<i>----- Million board feet -----</i>					
1996	33,812	16,811	15,163	1,838	27,787
1997	34,720	16,818	16,013	1,889	27,151

a Less than 1,000 board feet.

Source: U.S. Department of Commerce. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Data are compiled from Department of Commerce records at the end of each quarter.

Note: Individual columns may not add to totals because of rounding.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) including inland freight, insurance, and other charges to the port of exportation.

Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. San Francisco Customs District includes all coastal and inland ports in the State of California from Monterey north. The Anchorage Customs District is the State of Alaska.

NA = not available.

<sup>a</sup> Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

<sup>b</sup> Does not include cull log prices.

<sup>a</sup> Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

<sup>a</sup> Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

<sup>a</sup> Prices for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

<sup>b</sup> Includes Port-Orford-cedar, Alaska cedar, incense cedar, and western redcedar.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

<sup>a</sup> Preliminary.

<sup>b</sup> Prices for individual sales may vary from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage in National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

<sup>c</sup> Does not include noble fir or Shasta red fir.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the national forests and national grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W. Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
