Production, Prices, Employment, and Trade in Northwest Forest Industries, All Quarters 1998

Debra D. Warren

ABSTRACT

Warren, Debra D. 2000. Production, prices, employment, and trade in Northwest forest industries, all quarters of 1998. Resour. Bull. PNW-RB-231. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 171 p.

Provides current information on lumber and plywood production and prices; employment in the forest industries; international trade in logs, lumber, and plywood; volume and average prices of stumpage sold by public agencies; and other related items.

Keywords: Forestry business economics, lumber prices, plywood prices, timber volume, stumpage prices, employment (forest products industries), marketing (forest products), imports and exports (forest products).

PREFACE

Due to temporary unavailability of trade data, this report was delayed. In the interest of efficiency and timeliness, all four quarters of 1998 are being published in one book. In 1999, all four quarters will be published together as well. By 2000, the quarterly publications will resume. This report presents current information on the timber situation in Alaska, Washington, Oregon, California, Montana, Idaho, and British Columbia, including data on lumber and plywood production and prices; timber harvest; employment in forest products industries; international trade in logs, pulpwood, chips, lumber, and plywood; log prices in the Pacific Northwest; volume and average prices of stumpage sold by public agencies; and other related items.

Cooperation in supplying data has been received from the following sources: U.S. Department of Agriculture, Forest Service, Forest Inventory and Economics Research Staff in Washington, DC; Washington State Department of Natural Resources and Employment Security Department; Oregon State Department of Forestry and Department of Employment; California State Department of Employment and Department of Conservation; Montana State Forester and State Employment Service; Idaho State Department of Public Lands and Department of Employment; Alaska State Department of Labor and Department of Natural Resources of the Division of Lands; U.S. Department of Commerce; U.S. Department of the Interior, Bureau of Land Management and Bureau of Indian Affairs; British Columbia Department of Industrial Development, Trade, and Commerce; and a number of private industry associations, firms, and individuals.

The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all coastal and inland ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. Anchorage Customs District is the State of Alaska. San Francisco Customs District includes Monterey and all ports north of Monterey, California.

The statistical data are from secondary sources and are brought together to make such information more readily available. Sources are indicated for each table and can be contacted directly for means used in data collection.

Readers are cautioned that unit values should not be interpreted as accurate indicators of prices. Unit values for individual trade flows, especially those involving small volumes, frequently vary widely within a year, across origins or destinations, and through time.

AUTHOR

DEBRA D. WARREN is an economist, Pacific Northwest Research Station, Suite 200, 1221 SW Yamhill, Portland, OR. The mailing address is P.O. Box 3890, Portland, OR 97208-3890. The phone number is 503/808-2001, and the FAX number is 503/808-2033.

Tables Included in This Series of Reports and Frequency of Updates

<u>TABLE NUMBER</u>	<u>TABLE TITLE</u>	<u>FREQUENCY OF UPDATE</u>
Lumber and Plywood Production and Prices		
1	U.S. softwood lumber and structural panel board production, 1987-98	Quarterly
2	Lumber production in Northwest States, 1988-98	Annually, second quarter
3	Softwood lumber production in the inland region, by species, 1988-98	Annually, second quarter
4	Lumber production in the coast region, by species, 1988-98	Annually, second quarter
5	Softwood structural panel board production in the United States, by State, 1988-98	Annually, fourth quarter
6	Softwood lumber and plywood production in British Columbia, 1988-98	Annually, second quarter
7	Wholesale prices of selected lumber products, 1987-98	Quarterly
8	Wholesale prices of selected softwood plywood products, 1987-98	Quarterly
9	Percentage of total volume and f.o.b. mill prices for Douglas-fir lumber, coast mills, 1987-98	Quarterly
10	Percentage of total volume for ponderosa pine lumber, inland mills, 1987-98	Quarterly
11	F.O.B. mill prices for ponderosa pine lumber, inland mills, 1987-98	Quarterly
12	Percentage of total volume and f.o.b. mill prices for hem-fir lumber, inland mills, 1987-98	Quarterly
13	Percentage of total volume and f.o.b. mill prices for hem-fir lumber, coast mills, 1987-98	Quarterly
14	Weighted average f.o.b. mill prices for coast and inland lumber, 1987-98	Quarterly
15	Average prices for domestic and exported alder, western region, 1987-98	Quarterly
Timber Harvest		
16	Washington and Oregon timber harvest by ownership, 1988-98	Annually, third quarter

Tables Included in This Series of Reports (continued)

<u>TABLE NUMBER</u>	<u>TABLE TITLE</u>	<u>FREQUENCY OF UPDATE</u>
17	British Columbia timber harvest, 1988-98	Annually, third quarter
18	Montana and Idaho timber harvest by ownership , 1988-98	Annually, third quarter
19	Alaska timber harvest by ownership, 1988-98	Annually, third quarter
20	California timber harvest by ownership, 1988-98	Annually, third quarter

Employment in Forest Products Industries

21	Employment in forest products industries in Washington and Oregon, 1987-98	Quarterly
22	Total nonagricultural employment and employment in forest products industries in Washington and Oregon, 1990-98	Quarterly
23	Employment in forest products industries in California and Alaska, 1987-98	Quarterly
24	Employment in forest products industries in Montana and Idaho, 1987-98	Quarterly
25	Employment, wages, unemployment, and population for the State of Oregon, by county	Annually
26	Employment, wages, unemployment, and population for the State of Washington, by county	Annually

Log, Pulpwood, and Chip Exports and Imports

27	Volume of softwood log exports from Seattle and Columbia-Snake Customs Districts by species and destination, 1987-98	Quarterly
28	Value of softwood log exports from Seattle and Columbia-Snake Customs Districts by species and destination, 1987-98	Quarterly
29	Average value of softwood logs exported from Seattle and Columbia-Snake Customs Districts by species and destination, 1987-98	Quarterly
30	Volume and average value of softwood log exports from the San Francisco Customs District by species and destination, 1987-98	Quarterly
31	Volume and average value of softwood log exports from Anchorage Customs District by species and destination, 1987-98	Quarterly
32	Volume and average value of log exports by port, species, and destination, Seattle Customs District, 1998	Annually, fourth quarter

Tables Included in This Series of Reports (continued)

<u>TABLE NUMBER</u>	<u>TABLE TITLE</u>	<u>FREQUENCY OF UPDATE</u>

Western Lumber Production and Prices

- *Softwood lumber production*

A total of 16.8 billion board feet of softwood lumber was produced in the Western United States in 1998, and the total U.S. figure was 34.7 billion board feet (table 1). Total softwood lumber production in the fourth quarter of 1998 was 8.6 billion board feet, and 47.6 percent of that was produced in the West.

- *Wholesale lumber prices*

Average wholesale prices decreased in 1998 for all of the selected lumber products (table 7). Fourth quarter 1998 prices averaged a 9.4-percent decrease from the third quarter of 1998, across all five selected lumber products.

Plywood Production and Prices

- *Plywood production in 1998*

United States softwood structural panel board production in 1998, at 29,128 million square feet (3/8-inch basis), increased 7.3 percent from 1997. Production in the fourth quarter of 1998 was 7.3 million board feet, down from the third quarter volume of 7.5 (table 1).

Wholesale prices of selected plywood products increased slightly from 1997 to 1998. Fourth quarter 1998 prices averaged a 1.6-percent decrease (table 8) from the third quarter 1998 prices.

Employment in Forest Products Industries

- *Employment numbers for 1998*

The number of persons employed in the lumber and wood products industries decreased slightly in 1998 in Oregon (table 21). Fourth quarter 1998 Oregon and Washington employment numbers were down slightly from third quarter 1998.

In Oregon and Washington, there were 14.6 direct jobs per million board feet of timber harvested in 1998 (using the harvest figures from table 16).

Log, Pulp, and Chip Exports

- *Washington and Oregon log exports*

Log exports from Washington and Oregon ports totaled 867.1 million board feet in 1998, as compared to 1,042.2 million board feet in 1997. In the fourth quarter of 1998, Washington Customs District exported 121.9 million board feet of logs to all countries, and Oregon Customs District exported 106.5 (table 27).

- *Log export prices for Washington and Oregon*

Softwood log exports from Washington and Oregon ports averaged \$712.13 (per thousand board feet) in 1998, down from the 1997 average of \$852.19. The fourth quarter 1998 values for both states averaged \$707.93 (table 29), down from \$719.76 in the third quarter of 1998.

- *Log exports from California and Alaska*

San Francisco Customs District exported slightly more logs in 1998 than in 1997 (table 30). The Anchorage Customs District exported 39.9 percent less logs in 1998 than in 1997 (table 31).

- *Pulp volumes in the Pacific Northwest*

The Seattle, Anchorage, and Columbia-Snake Customs Districts showed decreases in pulp export volumes from 1997 to 1998 (table 48).

- *Average value of pulp exports*

Two customs districts showed an increase in the average value for dissolving grade of pulp exports from 1997 to 1998 (table 49).

- *Chip exports*

Seattle and Anchorage Customs Districts reflected an increase in the volume of chips exported in 1998. Average values of chips increased in Columbia-Snake and Anchorage Customs Districts (table 50).

Lumber, Plywood, and Veneer Exports

- *Lumber export volumes from the Northwest*

The lumber export figures showed a large decrease for both Washington and Oregon Customs Districts from 1997 to 1998 (table 52). The Columbia-Snake Customs District had a decrease of 43.8 percent from 1997, and 47.6 percent for the Seattle Customs District. Southern California lumber exports decreased slightly, and northern California dropped by 27.9 percent (tables 55 and 56). Alaska decreased lumber export volumes by 72.4 percent from 1997 to 1998 (table 57).

- *Average value of lumber exports*

In the Seattle and Columbia-Snake Customs Districts, the average value of lumber exports decreased from \$700.01 (per thousand board feet) in 1997 to \$659.74 in 1998 (table 54). Northern California (table 56) lumber export prices decreased from \$880.67 in 1997 to \$752.66 in 1998.

- *Lumber imports increase in Oregon*

The Seattle Customs District imported slightly over 3.0 billion board feet of lumber in 1998, mostly from Canada (table 70). The Columbia-Snake Customs District imported 89.3 million board feet in 1998, compared with nearly 64.5 million in 1997 (table 72).

- *Softwood plywood exports*

The 1998 volume of softwood plywood exports decreased from both Seattle and Columbia-Snake Customs Districts; however, the average values increased in 1998 (table 74).

- *Softwood veneer exports*

Compared with 1997, softwood veneer export volumes decreased in both Oregon and Washington in 1998 (table 76). Most of the veneer export values showed a decrease in 1998.

Timber Sold by Forest Service Regions

- *Sold volume in Northern Region*

Not all ownership numbers are available, but the amount of timber sold on National Forest lands in Montana and northern Idaho decreased 26.2 percent from 1997 to 1998 (table 77).

- *Sold volume in northern California*

In 1998, the volume of timber sold on USDA Forest Service lands in northern California decreased 25.8 percent from the 1997 total (table 85).

- *Sold volume in Washington and Oregon*

Oregon and Washington showed an increase of 122.2 percent in the amount of timber sold on USDA Forest Service lands from 1997 to 1998 (table 91).

- *Sold volume in Alaska*

In 1998, the volume of timber sold on National Forest lands in Alaska decreased 88.5 percent from 1997 (table 97). Average values dropped slightly from 1997 (table 98).

TABLES AND FIGURES

Table 1—U.S. softwood lumber and structural panel board production, 1987-98

Year	U.S. softwood lumber production				U.S. softwood structural panel board production
	Total softwood lumber	Western region ^a	Southern pine region	Other softwoods

Note: Individual columns may not add to totals because of rounding.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Table 29—Average value of softwood logs exported from Seattle and Columbia-Snake Customs Districts by species and destination, 1987-98

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation.

It is based on the selling price (or cost if not sold) including inland freight, insurance, and other charges to the port of exportation.

Data are compiled from Department of Commerce records at the end of each quarter.

^a Great Falls Customs District includes all ports in Montana and Idaho.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Data are compiled from Department of Commerce records at the end of each quarter.

Source: U.S. Department of Commerce. The valuation definition used in the export statistics is the value at the seaport or border port of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Seattle Customs District includes all ports in the State of Washington, except Longview and Vancouver. Columbia-Snake Customs District includes all Oregon ports and Longview and Vancouver, Washington. San Francisco Customs District includes all coastal and inland ports in the State of California from Monterey north. The Anchorage Customs District is the State of Alaska.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Does not include cull log prices.

2d quarter	220.27	94.35	303.17	225.40	--	169.05	203.65
3d quarter	161.35	129.19	93.39	127.83	--	115.10	113.69
4th quarter	118.81	120.09	174.66	160.43	--	105.78	128.74
1998 average	148.34	131.23	244.84	207.45	--	148.47	157.56

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^a Prices for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Includes Port-Orford-cedar, Alaska cedar, incense cedar, and western redcedar.

Source: Forest Service, U.S. Department of Agriculture. Pacific Northwest Region includes Oregon and Washington and a small portion of northern California.

^a Preliminary.

^b Prices for individual sales may vary from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Prices for stumpage in National Forest lands are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^c Does not include noble fir or Shasta red fir.

^a Prices received for individual sales may vary significantly from the averages shown in this table because of differences in species mix, quality, road costs, logging and processing costs, size and length of sale, number of bidders, and other related price determinants. Before 1984, prices for stumpage on National Forest lands are statistical high bids. The statistical high bid is defined as the bid price minus credits for road costs; it includes an allowance for sale-area betterment (K-V funds). Beginning in 1984, prices for stumpage on National Forest land are high bid value. Road costs and an allowance for sale-area betterment are included in the bid.

^b Prices for cedar are included in "other softwoods" category.

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the National Forests and National Grasslands, it strives--as directed by Congress--to provide increasingly greater service to a growing Nation.

The U. S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326 W, Whitten Building, 14th and Independence Avenue SW, Washington, DC 20250-9410, or call 202-720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.
