

FGDC Standards Working Group
Future Directions Framework Standards
Status Report October 2004

1. Where team needs assistance

- Assistance in identifying data themes of national importance that requires standards to set FGDC standards program of work in upcoming years.
- The FGDC Standards Working Group could also benefit from additional non-Federal representation.

2. Meetings

- Scheduled meetings for June 2004 and September 2004 were canceled, due to chair's full-time commitment to Framework Data Standards effort.

3. Accomplishments

- Registered review period for Framework Data Standards almost at end.

As of 10/28/2004 12:56 PM:

336 approved registrants

239, or over 70%, of approved registrants have downloaded standards

Nearly 1,000 comments received from nine registrants.

4. Next Steps

- Consolidate and collate comments from registered review -begin November 2004
- Organize Editing Committees (ECs) for Framework Data Standards - begin November 2004
- Editing Committees (ECs) will adjudicate comments from registered review -begin November 2004.
- Project editors will revise standards based on EC actions
- Submit revised Framework Data Standards to INCITS L1 for ballot
