

Future Directions  
Partnerships with Purpose  
Fifty States Contributing to the NSDI  
Nov. Status Report

1. Where team needs assistance:

Our work group will still need to interact with the communications group and the business plan work groups.

2. Meetings:

Our work group had conference calls on November 8th. & 22nd. We are scheduled for a final call on December 6th. to finish work on a companion document.

3. Accomplishments:

Our Final Action Plan was approved by the work group and forwarded to the NSGIC Board of Directors. The NSGIC Board of Directors approved the plan during its scheduled call on November 30, 2004. Although not requested, our committee developed (and will finalize on December 6th.) a companion document that qualifies the costs (money and staff time) associated with implementing this plan.

4. Next Steps:

Version 8.1 of the Action Plan should be forwarded to the FGDC Coordination Committee for their consideration and approval. I am forwarding version 8.1 and the draft companion document with this message.
