**NOV 13 2003**

Subject: Errata Sheet to the *Biological Assessment (BA) on Continued Operations and Maintenance of the Deschutes River Basin Projects and Effects on Essential Fish Habitat Under the Magnuson-Stevens Act (September 2003)*

Dear Interested Party:

On October 1, 2003, the Bureau of Reclamation submitted to the U.S. Fish and Wildlife Service and NOAA Fisheries the final BA on the Deschutes River basin projects operations and maintenance activities and the effects on Essential Fish Habitat (EFH) as required by the Magnuson-Stevens Fishery Conservation and Management Act. After submission of the BA, a few minor errors were noted and corrected. Attached is an errata sheet indicating the pages and text that has been amended.

If you have any questions regarding these changes, please contact Karen Blakney, Endangered Species Act Program Manager, at 503-872-2839.

Sincerely,

Ronald J. Eggers  
Area Manager
