Comment Text :
-->Regarding socioeconomic conditions, it would be nice to see an updated list of expected economic impact on things like jobs in Nye and Clark County, procurements from Southern Nevada businesses, and ancillary effects such as the influx of a highly-trained, technical workforce to the area.

Regarding sabotage in repository and/or transporation operations, it would be nice to see a comparison of the frequency of hazardous materials storage shipments all over Southern Nevada, as well as pointing out the difference in shipping and storage containers and procedures versus nuclear materials.
