

U.S. Department of Energy Supplemental Yucca Mountain Rail Corridor and Rail Alignment Environmental Impact Statement

SCOPING COMMENT SHEET

015027 11/8/06 WPP

Name: Kevin & Ann Smith

COMMENTS:

Having studied many areas and attending such
work shops as this, we are in favor of the Yucca
repository and Caliente Rail corridor.
The safety factor has been heavily ~~rese~~ researched
and it should be safe. Better than having it in
open areas at powerplants
We would like to see more nuclear power plants
opened

Please feel free to attach additional pages (if mailing, more postage may be needed).
