Comment Text :
-->There is no good reason to continue down this nuclear path. It is not safe nor do we have any logical way to dispose of the waste we've already created. Wherever it is in this country it needs to stay put. There is no safe way to transport it and therefore there is no reason we should be doing so. Keep it off our roadways, off our railways, and figure out a safe way to secure it at the sites where it is currently located.
