

# Trading Cards

**Name:** Dr. Jack Lissauer

**Title:** Space Scientist

**What I do:** I make models of how star systems form, study their stability and search for planets outside our Solar System.

**Education:** Ph.D. in Applied Mathematics  
B.S. in Mathematics

**Experience:** 8 years doing research  
9 years as a university professor

**Skills:** science, math, writing and problem solving

**Interests:** softball, swimming, hiking, visiting museums, travel (restricted to Earth so far)

*"The eternal mystery of the world is its comprehensibility... The fact that it is comprehensible is a miracle."  
-Albert Einstein*
