

Distributed Generation in Buildings

Table 25. Buildings sector distributed electricity generation in alternative cases: difference from the reference case in 2025 (billion kilowatthours)

<i>Projection</i>	<i>Fossil-fuel-fired generation</i>	<i>Photovoltaic generation</i>
<i>Buildings 2005 technology case</i>	-4.2	-2.3
<i>Buildings high technology case</i>	0.5	0.9
<i>Low world oil price case</i>	-0.4	-0.1
<i>High world oil price case</i>	0.5	0.1
