III. Definitions of Terms and Acronyms Used in the Report

A. Agency-specific acronyms or other terms.

NRC-defined acronyms are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr0544/r4>

B. Basic terms, expressed in common terminology.

1. Freedom of Information Act/Privacy Act (FOIA/PA) request. A FOIA request is a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records concerning oneself; NRC also treats such requests as FOIA requests. (All requests for access to records, regardless of which law is cited by the requester, are included in this report.)
2. Initial request. A request to a Federal agency for access to records under the FOIA Act.
3. Appeal. A request to a Federal agency asking that it review at a higher administrative level a full denial or partial denial of access to records under the FOIA, or any other FOIA determination such as a matter pertaining to fees.
4. Processed request or appeal. A request or appeal for which an agency has taken a final action on the request or the appeal in all respects.
5. Multi-track processing. A system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first-in/first-out basis. A requester who has an urgent need for records may request expedited processing (see below).
6. Expedited processing. An agency will process a FOIA request on an expedited basis when a requester shows an exceptional need or urgency

for the records warranting the agency to prioritize his or her request over other earlier requests.

7. Simple request. A FOIA request that an agency using multi-track processing places in its fastest (non-expedited) track based on the volume and/or simplicity of records requested.
8. Complex request. A FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.
9. Grant. An agency decision to disclose all records in full in response to a FOIA request.
10. Partial grant. An agency decision to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more FOIA's exemptions; or an agency decision to disclose some records in their entirety, but to withhold others in whole or in part.
11. Denial. An agency decision not to release any part of a record or records in response to a FOIA request (a) because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA's exemptions, or (b) because of a procedural reason (such as no record is located in response to a FOIA request).
12. Time Limits. The time period allocated in the FOIA for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a "perfected" FOIA request).
13. Perfected request. A FOIA request for records that adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.
14. Exemption 3 statute. A separate Federal statute prohibiting the disclosure of a certain type of information and authorizing its withholding under Subsection (b)(3) of the FOIA.
15. Median number. The middle, not average, number. For example, for the set of 3, 7, and 14, the median number is 7.
16. Average number. The number obtained by dividing the sum of a set of numbers by the quantity of numbers. For example, for 3, 7, and 14, the average number is 8 (the sum is 24, which is then divided by 3).

IV. Exemption 3 Statutes

A. List of Exemption 3 statutes relied on by agency during current fiscal year.

NRC provided training on the FOIA process to various staff offices emphasizing specific office needs.

NRC uses several internal agency service levels to enhance the agency's processing timeliness. Offices are provided with status reports of open cases to heighten management awareness.

In addition to providing general public access to material released under the FOIA, in FY 2007, NRC placed more than 46,100 of its official agency records in its Agencywide Documents Access and Management System (ADAMS). These documents are available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Electronic Reading Room). NRC's extensive voluntary release program has resulted in 2.9 million documents made publicly available either in paper, microfiche, or electronic format.

XII. Report on FOIA Executive Order Implementation

- A. On December 27, 2006, NRC forwarded a modified FOIA Improvement Plan to the Department of Justice (DOJ). The modification changed two items in NRC's original plan.
1. The original plan called for NRC to complete a computer-based FOIA training module in FY 2006. The modified plan changed the completion date to December 31, 2007.
 2. The original plan called for NRC to provide FOIA rotational assignment opportunities to the NRC staff. The modified plan does not include this action.
- B. In FY 2007, NRC completed all of the actions outlined in Section F.2 in its modified FOIA Improvement Plan, which were as follows:
1. **"Hire an additional FOIA specialist."** A FOIA specialist was hired and began working at NRC on August 20, 2007.
 2. **"Acquire additional contractor assistance for FOIA processing."** A full time contractor was obtained beginning in October 2006, for FY 2007.
 3. **"Complete test of onscreen redaction software and identify best business practice for its use."** NRC tested four commercial off the shelf redaction software products (Redax 4.0, FOIAXpress with Redax Plugin 5.3.6, Rapid Redact 1.48, and Brava Desktop). Redax 4.0 was selected. NRC completed testing for compatibility with agency systems in February 2007. In March 2007, NRC purchased and installed 1 package of media and 6 licenses for use by the FOIA/Privacy Team specialists. NRC also developed the business processes for the use of Redax.
 4. **"Develop FOIA computer-based training (CBT) module."** NRC developed a CBT module and made it available to NRC staff on the NRC internal Web site on July 18, 2007.
- C. Although the following items were not scheduled for completion until after December 2007, NRC has already completed these actions listed in Section F.3 of its FOIA Improvement Plan.
1. **"Obtain additional software and hardware, conduct training, and complete implementation of full-scale use of onscreen redactions no later than December 31, 2008."** NRC implemented the full-scale use of Redax in March 2007.
 2. **"By September 30, 2008, improve FOIA responsiveness for complex FOIA requests so that 50 percent of complex requests are**

completed in 180 days or less.” For FY 2007, NRC provided responses to complex FOIA requests in 180 days or less, 94 percent of the time.
