

**PHYSICAL EXAMINATION MATRIX
APPENDIX G**

1. Specific Potentially Hazardous Exposures

	Exam	Regulation	Page
A.	Arsenic	29 CFR Part 1910.1018	4
B.	Asbestos	29 CFR Part 1910.1001 29 CFR Part 1926.1101	4-5
C.	Benzene	29 CFR Part 1910.1028	5
D.	Beryllium	10 CFR Part 850 (DOE) NIOSH	6
E.	Cadmium	29 CFR Part 1910.1027 29 CFR Part 1926.1127	6-7
F.	Chromium	29 CFR Part 1910.1026 29 CFR Part 1926.1126	7
G.	Ethylene Oxide	29 CFR Part 1910.1047	7
H.	Formaldehyde	29 CFR Part 1910.1048	7-8
I.	Hydrazines	NIOSH	8
J.	Isocyanates	NIOSH	8-9
K.	Lead	29 CFR 1910.1025 29 CFR 1926.62	9
L.	Mercury	OSHA CPL 02-02-006 NIOSH, ATSDR	9-10
M.	Methylene Chloride	29 CFR Part 1910.1052 ATSDR	10
N.	4,4' Methylenebis (2-chloroaniline) (MOCA, MBOCA)	NIOSH, ATSDR, OSHA	10-11
O.	4,4' Methylenedianiline (MDA)	29 CFR 1910.19, 1910.1050 and 1926.60	11
P.	Nitrogen Tetroxide (Dioxide)	NIOSH	11
Q	Polychlorinated Biphenyls (PCB)	ATSDR NIOSH Current Intelligence Bulletin 45, February 24, 1986	11-12
R.	Silica Dust	29 CFR 1910.1000, 29 CFR 1915, OSHA CPL 2-2.7, NIOSH	12
S.	Trichloroethylene	NIOSH	12-13

2. Hazardous Environments/ Workplace Examinations

	Exam	Regulation	Page
A.	Bloodborne Pathogens	20 CFR 1910.1030	13
B.	Chemistry Laboratory	29 CFR 1910.1450	13
C.	Hazardous Waste Operations and Emergency Response	29 CFR 1910.120, NIOSH, EPA, USCG	13-14
D.	Health Care Provider	29 CFR 1910.1030, CDC	15
E.	Ionizing Radiation	10 CFR 20.1502	15
F.	Lasers	ANSI Z 136.1	15
G.	Noise	29 CFR 1910.95 NPR 1800.1B Chapter 4.9	15-16
H.	Pesticides	NIOSH, OSHA, EPA, USCG	16
I.	Spray Painting		16-17
J.	Water and Sewage		17
K.	Welding	NIOSH Criteria Document No. 88-110	17

3. Certification Examinations

	Exam	Regulation	Page
A.	Childcare Workers	DHHS, CDC	17-18
B.	Confined Space/Tank Entry	29 CFR 1910.134 NIOSH	18
C.	Crane Operator/Ground Floor/Remote-Operation/High/Cabin/Pulpit	NS 8719.9 ASME B30.2-2001	18-19
D.	Diver	29 CFR 1910.423 29 CFR 1910.424	19
E.	DOT/Commercial Driver License/Motor Vehicle Certification/Multiple Passenger Van	49CFR 391.41-49 49 CFR 240.12	19-20
F.	Down Range/Shipboard Duty	46 CFR Subpart 10 and 12	20-21
G.	Firefighter	NFPA 1582	21-22
H.	Food Handler	46 CFR 12.25-20 NPR 1800.1B Chapter 4.10	22

I.	Locomotive Engineer	49 CFR 240.121	22
J.	Motive (Heavy) Equipment Operator		22-23
K.	Occupational Respirator Use	29 CFR 1910.134 29 CFR 1910.134 Appendix A	23
L.	Ordnance Handler		24
M.	Primary Animal Contact	NIH, NIOSH	24-25
N.	Primary Crew Contract	JSC 22538	25
O.	Security		25
P.	Self Contained Atmospheric Protective Ensemble	29 CFR 1910.134	26
Q.	Soldering		26-27
R.	Voluntary Respirator Use	29 CFR 1910.134 29 CFR 1910.134 Appendix A	27

4. Flight Activities

	Exam	Regulation	Page
A.	First Class Airman's Medical Certificate	14 CFR 67 NPR 7900.3	27-28
B.	Second Class Airman's Medical Certificate	14 CFR 67 NPR 7900.3	28-29
C.	Third Class Airman's Medical Certificate	14 CFR 67	29
D.	Air Traffic Control Specialist or Flight Crew	OPM GS-2152	30
E.	Qualified Non-Crew Member		30-31

5. Special Purpose Administrative Examinations

	Exam	Regulation	Page
A.	Fitness for Duty	NPR 1800.1B	31
B.	Return to Work	NPD 1840.1B NPR 1800.1B	31-32
C.	International Travel	NPR 1810.1A	32

6. Voluntary Health Maintenance

	Exam	Regulation	Page
--	------	------------	------

A.	Complete Health Maintenance Examination	FEBHP NPR 1800.1B	31
B.	Annual Health Maintenance Examination	FEBHP NPR 1800.1B	33
C.	Fitness Center Clearance	NPR 1800.1B	33-34

EXAMINATION PROTOCOLS

1. Surveillance Examinations for Workers with Specific Potentially Hazardous Exposures

A. Arsenic	
Reference	OSHA 29 CFR Part 1910.1018
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Exam, if less than 45 years old 3. Semiannually, if 45 years old or older, or with 10 or more years of exposure 4. Variable or Exposure-Determined Examination 5. Exit/Reassignment Examination
Laboratory	<ol style="list-style-type: none"> 1. Chest X-ray (PA) 2. Discretionary Tests <ol style="list-style-type: none"> a. Pulmonary Function b. Complete Blood Count
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on peripheral and CNS, GI system, skin including nasal mucosa, respiratory tract and thyroid 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Liver, kidneys, skin, lungs, lymphatic system, CNS, PNS
Written Opinion	Standard Written Medical Opinion
Medical Removal	No requirement in standard

B. Asbestos	
Reference	OSHA 29 CFR Part 1910.1001 OSHA 29 CFR Part 1926.1101
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Exit/Reassignment Examination
Laboratory (TX)	<ol style="list-style-type: none"> 1. Chest x-ray (PA) (Must be read by "B reader"): <ol style="list-style-type: none"> a. Preplacement/Baseline b. Periodic: <ol style="list-style-type: none"> i. 1-10 years since first exposure: <ol style="list-style-type: none"> 1. every 5 years ii. 10+ years since first exposure, and: <ol style="list-style-type: none"> 1. below age 35, every 5 years 2. age 35-45, every 2 years 3. age 45+, annually 2. Pulmonary Function

	<ol style="list-style-type: none"> 3. Discretionary Tests <ol style="list-style-type: none"> a. Hemocult b. PPD c. Urinalysis (dipstick)
Physical Exam	<ol style="list-style-type: none"> 1. Required Asbestos Questionnaire (Standardized on initial exam, Abbreviated Standardized on annual exam) 2. Physical Examination with focus on respiratory, CV and GI systems 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory/lungs, pleural (Mesothelioma), gastrointestinal
Written Opinion	Standard Written Medical Opinion for Asbestos within 30 days including statement that employee was informed of the increased risk of lung cancer attributable to combined effect of smoking and asbestos.
Medical Removal	No requirement in standard

C. Benzene	
Reference	OSHA 29 CFR Part 1910.1028
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Variable or Exposure-Determined Examination
Laboratory	<ol style="list-style-type: none"> 1. Complete Blood Count (CBC) including a leukocyte count with differential, a quantitative thrombocyte count, hematocrit, hemoglobin, erythrocyte count, and erythrocyte indices (MCV, MCH, MCHC). (Repeat within 2 weeks if abnormal, refer to standard for action level) 2. Pulmonary Function (if employee wears respirator, initial exam and then every 3 years) 3. For Emergency Exposures Only: <ol style="list-style-type: none"> a. Urine sample provided at the end of employee's shift for urinary phenol test within 72 hours and urine specific gravity corrected to 1.024. b. If urinary phenol test is equal to or greater than 75 mg phenol/L of urine, repeat Complete Blood Count monthly for 3 months. 4. Discretionary Tests: <ol style="list-style-type: none"> a. Refer to Appendix C of standard for guidance
Physical Exam	<ol style="list-style-type: none"> 1. Detailed Medical and Occupational History initially, brief update annually 2. Complete Physical Examination with focus on the blood, skin, CNS, and liver and kidney function 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Eyes, respiratory, CNS, skin, blood/bone marrow
Written Opinion	Standard Written Medical Opinion within 15 days
Medical Removal	Required when referred to hematologist/internist

D. Beryllium	
Reference	National Institute for Occupational Safety and Health (NIOSH), 10 CFR Part 850 (DOE rule)
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination for beryllium workers 3. Every 3 years for beryllium associated workers 4. Variable or Exposure-Determined Examination
Laboratory	<ol style="list-style-type: none"> 1. Chest X-ray (PA) (Must be read by "B reader"): <ol style="list-style-type: none"> a. Baseline b. Every 5 years 2. Pulmonary Function 3. Be-LPT (for significant exposure)
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on skin, eyes, and respiratory tract 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory, kidney, CNS, liver, skin, eyes
Written Opinion	Standard Written Medical Opinion within 14 days of receipt of results
Medical Removal	Required based upon medical recommendation
Multiple Physician Review Process	Required if requested by examinee (see CFR)

E. Cadmium	
Reference	OSHA 29 CFR Part 1910.1027 OSHA 29 CFR Part 1926.1127
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 1 year following Preplacement/Baseline Examination 3. Biennially Examination (see standard for guidance on frequency with abnormal laboratory findings) 4. Variable or Exposure-Determined Examination 5. Exit/Reassignment Examination
Laboratory	<p>Annual Laboratory:</p> <ol style="list-style-type: none"> 1. Cadmium in urine (CdU) (See Appendix F for protocol for sample handling and laboratory selection) 2. Beta-2 microglobulin in urine (B(2)-M) 3. Cadmium in blood (CdB) 4. BUN and Serum Creatinine 5. Complete Blood Count (CBC) 6. Chest X-ray (PA) <ol style="list-style-type: none"> a. Baseline b. Exit/Reassignment 7. Pulmonary Function 8. Discretionary Tests: <ol style="list-style-type: none"> a. Annual Chest X-ray

	<ul style="list-style-type: none"> b. PSA (for males 50 years and older) c. Urinalysis
Physical Exam	<ul style="list-style-type: none"> 1. Cadmium Exposure Questionnaire required (Appendix D in CFR) 2. Complete Physical Examination with focus on blood pressure, respiratory and urinary systems (refer to health effects Appendix A) 3. Prostate palpation, males 40 years and older 4. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Written Opinion	Standard Written Medical Opinion for Cadmium
Medical Removal	Required
Multiple Physician Review Process	Required if requested by examinee (see CFR)

F. Chromium	
Reference	OSHA 29 CFR 1910.1026, 29 CFR Part 1926.1126
Frequency	<ul style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Variable or Exposure-Determined Examination 4. Exit/Reassignment Examination
Laboratory	Discretionary
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Exam with focus on skin and respiratory tract
Target Organs	Respiratory, liver, kidney, eye, skin
Written Opinion	Standard Written Medical Opinion within 30 days
Medical Removal	No requirement in standard

G. Ethylene Oxide	
Reference	OSHA 29 CFR Part 1910.1047
Frequency	<ul style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Variable or Exposure-Determined Examination 4. Exit/Reassignment Examination
Laboratory	<ul style="list-style-type: none"> 1. Complete Blood Count (CBC) with differential 1. Discretionary Tests: <ul style="list-style-type: none"> a. Pregnancy test b. Laboratory evaluation of fertility if requested by examinee and considered appropriate by provider c. Blood Chemistry Panel d. Urinalysis
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on pulmonary, hematologic, neurologic, and reproductive system, and eyes and skin. 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory, blood, CNS, reproductive, eye, skin, liver, kidney
Written Opinion	Standard Written Medical Opinion within 15 days

Medical Removal	No requirement in standard
-----------------	----------------------------

H. Formaldehyde	
Reference	OSHA 29 CFR Part 1910.1048
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination (for employees required to wear respirator, others discretionary) 3. Variable or Exposure-Determined Examination 4. Exit/Reassignment Examination
Laboratory	<ol style="list-style-type: none"> 1. Pulmonary Function (for required respirator use) <ol style="list-style-type: none"> a. Baseline b. Annual
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History (nonmandatory medical disease questionnaire - Appendix D in CFR is recommended) 2. Physical Examination with focus on eyes, skin, mucous membranes, and allergies and allergic reactions 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory, eyes, skin
Written Opinion	Standard Written Medical Opinion for Formaldehyde within 15 days of results
Medical Removal	Required
Multiple Physician Review Process	Required if requested by examinee (see CFR)

I. Hydrazines	
Reference	NIOSH
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination
Laboratory	<ol style="list-style-type: none"> 1. Baseline Chest X-ray 2. Complete Blood Count 3. Liver Profile 4. Urinalysis with microscopic 5. Discretionary: <ol style="list-style-type: none"> a. Pulmonary Function
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Eyes, respiratory, skin, CNS, liver, kidneys
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

J. Isocyanates (e.g., Methylene Diisocyanate (MDI), Toluene Diisocyanate (TDI).)	
Reference	NIOSH 78-215
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Variable or Exposure Determined Examination

	3. Annual Examination
Laboratory	1. Pulmonary Function 2. Chest X-ray (PA) at 5-year intervals
Physical Exam	1. Medical and Occupational History 2. Physical Examination with focus on respiratory system, skin, and mucous membranes (Isocyanates are potent sensitizers. Acute exposures may cause severe airway obstruction.) 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Eyes, respiratory, kidney, liver, skin, CNS
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

K. Lead	
Reference	OSHA 29 CFR 1910.1025 OSHA 29 CFR 1926.62
Frequency	1. Preplacement/Baseline Examination 2. Annual Examination for employee's with blood lead over 40ug/100g in the preceding 12 months 3. Variable or Exposure -Determined Examination 4. Exit/Reassignment Examination
Laboratory	1. Blood Lead and ZPP (Preplacement and every 6 months) 2. If Blood Lead is at or above 40ug/100g repeat every 2 months 3. Repeat blood lead 2 weeks after any test is at or above 60ug/100g (requires medical removal) 4. During Medical Removal, Blood Lead and ZPP monthly 5. Hemoglobin and Hematocrit, red cell indices, and examination of peripheral smear morphology 6. BUN and Serum Creatinine 7. Urinalysis with microscopic 8. Discretionary Tests: a. Pregnancy/fertility testing, if employee requests
Physical Exam	1. Medical and Occupational History 2. Complete Physical Examination with focus on teeth, gums, hematological, GI, CV, renal, and neurological system. 3. Blood Pressure 4. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Pulmonary, kidney, blood, reproductive, CNS, gastrointestinal, CV, gums, teeth, eyes
Written Opinion	Standard Written Medical Opinion for all evaluations and employee written notification of blood level results over 40ug/100g within 5 business days
Medical Removal	Required (see CFR for criteria)
Multiple Physician Review Process	Required if requested by examinee (see CFR)

L. Mercury	
Reference	OSHA CPL 02-02-06, NIOSH, Agency for Toxic Substances and Disease Registry (ATSDR), 1992
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Interim History 3. Variable or Exposure-Determined Examination
Laboratory	<ol style="list-style-type: none"> 1. Complete Blood Count (CBC) 2. Urinalysis 3. Voluntary pregnancy test where appropriate 4. Urine mercury level (for history of exposure, recommended all employees in given work area all be tested at the same time) If exposed above PEL test every 3 months, if below PEL test every 6 months.
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History (annual interim history) 2. Physical Examination with focus on central nervous and respiratory systems, kidneys and skin. 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Liver, kidney, CNS, PNS, lung, eye, mucous membranes
Written Opinion	Standard Written Medical Opinion
Medical Removal	No requirement in standard

M. Methylene Chloride	
Reference	OSHA 29 CFR Part 1910.1052, ATSDR
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Medical and Occupational History Update 3. Examination Frequency Age Determined: <ol style="list-style-type: none"> a. Annual, if age 45 or older b. Every 36 months under age 45 4. Variable or Exposure-Determined Examination 5. Exit/Reassignment Examination
Laboratory	<ol style="list-style-type: none"> 1. Discretionary: <ol style="list-style-type: none"> a. Pulmonary Function b. Hemoglobin and Hematocrit c. ALT, SGPT d. Post-shift Carboxyhemoglobin e. ECG
Physical Exam	<ol style="list-style-type: none"> 1. Methylene Chloride Questionnaire required (annual interim history) 2. Physical Examination focus on employee health status and analysis of Questionnaire responses 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory, CV, liver, CNS, skin, blood
Written Opinion	Standard Written Medical Opinion for Methylene Chloride with the following within 15 days of completion of medical and laboratory findings but not more than 30 days past examination including: <ol style="list-style-type: none"> a. Statement that the physician has informed the employee MC is

	a potential carcinogen risk b. The risk factors for heart disease, and the potential exacerbation of underlying heart disease from MC exposure and its metabolism to carbon monoxide
Medical Removal	Required
Multiple Physician Review Process	Required if requested by examinee (see CFR)

N. 4,4' Methylenebis (2-chloroaniline) (MOCA, MBOCA)	
Reference	NIOSH Publication No. 78-188; ATSDR Toxicological Profile on 4,4'-Methylene Bis (2-Chloroaniline), OSHA
Frequency	1. Preplacement/Baseline Examination 2. Annual Examination 3. Laboratory only every 6 months (employees working directly in production or handling for 10 years or longer)
Laboratory	1. Complete Blood Count (CBC) 2. Blood Chemistry Profile 3. Urinalysis with microscopic 4. Chest X-ray
Physical Exam	1. Medical and Occupational History 2. Focused Physical Examination
Target Organs	Liver, blood, kidneys
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

O. 4,4' Methylenedianiline (MDA)	
Reference	OSHA 29 CFR 1910.1050
Frequency	1. Preplacement/Baseline Examination 2. Annual Examination
Laboratory	1. Blood Chemistry Profile 2. Urinalysis with microscopic
Physical Exam	1. Medical and Occupational History 2. Physical Examination with focus on skin disease and liver dysfunction 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Skin, eyes, liver, CV, spleen
Written Opinion	Standard Written Medical Opinion required
Medical Removal	Required
Multiple Physician Review Process	Required if requested by examinee (see CFR)

P. Nitrogen Tetroxide (Dioxide)	
Reference	NIOSH
Frequency	Preplacement/Baseline Examination
Laboratory	Discretionary
Physical Exam	1. Medical and Occupational History 2. Physical Examination with focus on pulmonary system, skin,

	and eyes
Target Organs	Eyes, respiratory, CV
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

Q. Polychlorinated Biphenyls (PCB)	
Reference	ATSDR; NIOSH Current Intelligence Bulletin 45, February 24, 1986
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Variable or Exposure-Determined Examination 4. Exit/Reassignment Examination
Laboratory	<ol style="list-style-type: none"> 1. Blood Chemistry 2. Complete Blood Count 3. Urinalysis 4. Chest x-ray (baseline) 5. Discretionary Tests: <ol style="list-style-type: none"> a. ECG b. Pulmonary Function c. Fecal Occult
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on the skin, liver and nervous system. 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Skin, liver, CNS
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

R. Silica Dusts	
Reference	NIOSH Publication No. 2002-129, OSHA 29 CFR 1910.1000, 29 CFR 1915, OSHA CPL 2-2.7 (1978, October 30)
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination
Laboratory	<ol style="list-style-type: none"> 1. Chest X-ray (Must be read by "B reader"): <ol style="list-style-type: none"> a. Baseline b. Every 5 years for workers exposed less than 20 years c. Every 2 years for workers exposed over 20 years 2. Pulmonary Function 3. PPD
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on respiratory system 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Lungs/respiratory, eyes
Written Opinion	<p>Standard Written Medical Opinion including:</p> <ol style="list-style-type: none"> a. Signs and symptoms of silica exposure manifested by the employee b. Report of chest x-ray and pulmonary function test

	<ul style="list-style-type: none"> c. Opinion on whether employee has detected medical condition that may place employee at increased risk of impairment to the employees health from exposure to silica or other substances or would directly or indirectly aggravate any detected medical condition d. Any recommended limitations upon employee's exposure to silica or other substances or upon use of PPE and respirators e. Statement employee has been informed by the physician of any medical condition which requires further examination or treatment
Medical Removal	No requirement in standard

S. Trichloroethylene	
Reference	NIOSH, ATSDR
Frequency	<ul style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination
Laboratory	Discretionary
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on cardiac, pulmonary, liver and kidneys 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Respiratory, CV, kidney, liver, skin, CNS, eyes
Written Opinion	No requirement in standard
Medical Removal	No requirement in standard

2. Hazardous Environments/Workplace Examinations

A. Bloodborne Pathogens	
Reference	OSHA 20 CFR 1910.1030
Frequency	<ul style="list-style-type: none"> 1. Preplacement/Baseline Examination (for occupational groups covered under the standard) 2. Variable and Exposure-Determined Examination
Laboratory	<ul style="list-style-type: none"> 1. Hepatitis B Vaccine 2. Hepatitis B Surface antibody (HepBSAb)Titer (required one time only after 3rd dose completed) 3. Declination statement must be signed if Hepatitis B Vaccine declined by employee (Appendix A of OSHA Standard) 4. Discretionary: Post-exposure <ul style="list-style-type: none"> a. Victim: HIV test, HepBSAb if not already documented, and HepCAb (other tests per provider) b. Source (after consent given): HIV test (rapid screen if available), HepB Surface Antigen (HepBSAg), and HepCAb (other tests per provider) c. If any HIV test is performed because of a specific occupational exposure, then a confidential ID system and a secure method to receive the test results shall be insured for both victim and source.
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Occupational History 2. Focused Physical Examination (discretionary)

Target Organs	Multiple organs
Written Opinion	Standard Written Medical Opinion required within 15 days of completion of evaluation including whether Hepatitis B vaccination is indicated and if the employee has received such vaccine
Medical Removal	No requirement in standard

B. Chemical Laboratory	
Reference	OSHA 29 CFR 1910.1450
Frequency	Variable or Exposure-Determined Examination
Laboratory	<ol style="list-style-type: none"> 1. Discretionary: <ol style="list-style-type: none"> a. Blood Chemistry Profile b. Complete Blood Count (CBC) c. Chest X-ray d. Pulmonary Function e. Urinalysis f. Visual Acuity
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Focused Physical Examination 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use
Target Organs	Multiple organs, especially eyes, skin, liver
Written Opinion	Standard Written Opinion required
Medical Removal	No requirement in standard

C. Hazardous Waste Operations and Emergency Response	
Reference	OSHA 29 CFR 1910.120, Occupational Safety and Health Guidance Manual for Hazardous Waste Site Activities, NIOSH, OSHA, U.S. Coast Guard (USCG), and Environmental Protection Agency (EPA) October 1985
Frequency	<ol style="list-style-type: none"> 1. Preplacement/Baseline Examination 2. Annual Examination 3. Variable or Exposure-Determined Examination 4. Exit/Reassignment Examination
Laboratory	<ol style="list-style-type: none"> 1. Audiogram (Baseline) 2. Visual Acuity, Color Discrimination, Visual Fields 3. Complete Blood Count (CBC) 4. Blood Chemistry 5. Urinalysis 6. Chest X-Ray 7. Discretionary Tests: <ol style="list-style-type: none"> a. ECG b. Exercise Stress Test c. Pulmonary Function d. Other based on specific exposure (see Guidance Manual)
Physical Exam	<ol style="list-style-type: none"> 1. Medical and Occupational History 2. Physical Examination with focus on worker's fitness including ability to wear any required PPE, back or musculoskeletal problems, heat stress, claustrophobia

	<ol style="list-style-type: none"> 3. Evaluation of ability to wear respirator may be required, see protocol Section 3 K, Certification Examination. Occupational Respirator Use 4. Employee may also be covered by Bloodborne Pathogen standard
Target Organs	Multiple organs
Written Opinion	<p>Standard Written Medical Opinion required including:</p> <ol style="list-style-type: none"> a. Statement that the employee has sufficient strength, endurance, and emotional stability to perform the work b. Opinion that no medical condition was detected which would place the employee at increased risk of material impairment of the employee's health or would be a hazard to self or others from hazardous waste operations, emergency response, or respirator use c. Any limitations in job functions or ability to wear PPE d. The results of the medical examination and tests were also provided if requested by the employee
Medical Removal	No requirement in standard
Note regarding eligibility	<p>Protocol covers the following employees:</p> <ol style="list-style-type: none"> a. Potentially exposed to hazardous substances, without regard to the use of respirator, for more than 30 days per year b. Required to use a respirator more than 30 days per year c. Injured from exposure of hazardous substances during an emergency incident d. Members of a HazMat team <p>Employees Not Covered in Standard:</p> <ol style="list-style-type: none"> a. Emergency responders not designated members of HazMat team (e.g., security, firefighters)

D. Healthcare Provider

D. Air Traffic Control Specialist or Flight Crew (Not requiring FAA Certification)	
Reference	Office of Personnel Management (OPM) GS-2152
Frequency	1. Preplacement/Baseline Examination 2. Annual Examination
Laboratory	1. Audiogram or demonstrate ability to hear normal conversation in a quiet room, using both ears, at a distance of 6 feet with the examiner's back turned. 2. Visual Acuity: a. Distant 20/20 in at least one eye with or without correction b. Near vision 20/20, Snellen equivalent, with or without correction 3. Visual Fields: Normal 4. Color Vision 5. Tonometry 6. ECG 7. Exercise Stress Test 8. Chest X-ray 9. Discretionary Tests: a. Blood Chemistry (can include fasting blood sugar and blood lipid profile). b. Complete Blood Count (CBC) c. Chest X-ray d. Pulmonary Functions e. Urinalysis (dipstick)
Physical Exam	1. Medical and Occupational History 2. Physical Examination (see OPM qualifications on age based blood pressure values) with focus on cardiovascular, neurological, musculoskeletal, general medical, psychiatric and substance dependency
Written Opinion	Certification with any limitations

E. Qualified Non-Crew Member	
Reference	
Frequency	1. Preplacement/Baseline Examination 2. Biennial Examination
Laboratory	1. Audiogram 2. Visual Acuity 3. Gross Visual Fields 4. Discretionary Tests: a. Color Perception b. Blood Chemistry Profile as in C above c. Complete Blood Count (CBC) d. Chest X-Ray e. ECG f. Pulmonary Function g. Urinalysis (dipstick) h. Exercise Stress Test
Physical Exam	1. Medical and Occupational History

	2. Physical Examination with focus on assessing any condition that may cause any sudden incapacitation or inability to perform duties, tendencies to seizures, dizziness, claustrophobia, loss of physical control, or similar undesirable conditions and emotional stability to avoid interference with performance, or in the opinion of the examiner could render a hazard to self or others
Written Opinion	Certification: Opinion that the employee has no physical limitation or medical condition which would prevent employee from performing their ordinary duties or be a hazard to self or others.

5. Special Purpose Administrative Examinations

A. Fitness For Duty (FFD)	
Defined	Fitness for Duty (FFD) examinations are performed at the request of management when a change in work performance, productivity, or health is observed or suspected. NPR 1800.1B
Frequency	Variable upon an unexpected change in behavior or performance. The examination should be completed as soon as possible after a written request through management has been made.
Scope	The physician should evaluate whether there is a medical or psychological condition impacting work performance. A job description with the physical requirements and essential job functions is an integral part of this evaluation. Cooperation and coordination with the treating physician(s), as well as other services such as the Employee Assistance Program (EAP) can be of help to an affected employee.
Managers Responsibilities	The supervisor/manager requesting the FFD examination should notify the employee and have their consent, provide documentation to the physician and a copy of the employee's job description. Managers must also decide if there is a "For Cause" need for drug testing based upon performance. Since this testing is not a medical test, the manager must contact the Drug Free Workplace (DFW) coordinator to arrange testing.
Laboratory	Discretionary
Confidentiality	Confidentiality is of utmost importance and all recommendations and reports must be limited to work-related matters, e.g., work limitation, modifications or accommodations. No non-work related medical diagnosis should be released in the written opinion
Written Opinion	Required return to duty status for the employee's manager including recommendations for work limitations or accommodations.

B. Return to Work (RTW)	
Defined	RTW evaluations are usually performed when employees are returning to work after an illness or injury of greater than 3 business days. NPR 1800.1B, NPD 1840.1B
Frequency	Variable or Exposure-Determined Examination
Scope	<ol style="list-style-type: none"> 1. Vital signs 2. The evaluation should focus on the employee's ability to perform the essential job functions with or without work limitations, modifications or accommodations. The information from the

	employee's physician is reviewed, and a decision is made whether a focused physical and/or tests are necessary.
Managers Responsibilities	The manager requesting the RTW examination must provide a copy of the employee's job description that includes the functional and physical requirements.
Laboratory	Focused laboratory based upon the prior condition/problem of the employee.
Confidentiality	Confidentiality is of utmost importance and all recommendations and reports must be limited to work-related matters, e.g., work limitation, modifications or accommodations.
Written Opinion	A RTW certificate for the employee's manager should indicate: <ul style="list-style-type: none"> a. A statement of work limitations (including modifications and duration) b. A statement of any Personal Protective Equipment (PPE) needed or limitations in use of PPE c. For an occupational related issue, safety and health should receive a copy of the RTW statement

C. International Traveler

Reference	NPR 1810.1A Health Services for International Travel or Assignment
Frequency	<ol style="list-style-type: none"> 1. Variable or Exposure-Determined Examination 2. Note: Medical clearance required for NASA civil service employees traveling outside the United States or its possessions, with special emphasis for those traveling to Russia or the former nations under the Soviet Union, TAL site, or any developing or medically under-served country.
Laboratory	Immunizations offered based on recommended WHO and CDC country requirements
Physical Evaluation	<ol style="list-style-type: none"> 1. Medical Record Review 2. Medical and Occupational History 3. Physical Examination (discretionary) 4. Offer HRA 5. Provide education based on health risk assessment with emphasis on food and water precautions and other specific issues related to travel destination
Written Opinion (Clearance)	International Travel Worksheet NASA Form 1711

F. Voluntary Health Maintenance

A. Complete Health Maintenance Examination

Reference	Federal Employee Health Benefit Program (FEHBP), USPSTF, NPR 1800.1B
Frequency	<ol style="list-style-type: none"> 1. Offer every 3 years to civil servants 2. Offer at retirement to civil servants
Laboratory	<ol style="list-style-type: none"> 1. Vital signs (weight, blood pressure, pulse rate, rhythm) 2. Offer total body skin examination 3. Skin fold or BMI 4. Baseline and when medically indicated: <ul style="list-style-type: none"> a. Visual Acuity b. Audiogram

	<ul style="list-style-type: none"> c. Pulmonary Function d. Exercise Stress Test 5. ECG 6. Mammograms every 1-2 years age 40 to 49 annually for age 50 to 70 7. Colonoscopy every 10 years after age 50, earlier with family history (refer to private MD) 8. Tonometry (if available) 9. Menopause counseling for females age 45 and older 10. Breast self-examination education 11. Breast examination 12. PAP smear annually (every 3 years if negative consecutively x 3) 13. PSA test for men age 50 and older 14. Digital Rectal and Testicular examination offered to men age 40 and older 15. Complete Blood Chemistry (CBC) 16. Blood Chemistry Profile 17. Urinalysis 18. Hemocult
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Family History, if history of smoking—offer smoking cessation 2. Complete Physical Examination 3. Offer Health Risk Assessment (HRA)
Target Organs	Multiple Organs
Written Opinion	A summary of examination and laboratory results sent to the employee

B. Annual Health Maintenance Examination	
Reference	FEHBP, USPSTF, NPR 1800.1B
Frequency	Offer annually to civil servants
Laboratory	<ul style="list-style-type: none"> 1. Vital signs (weight, blood pressure, pulse rate, rhythm) 2. Mammograms every 1-2 years age 40 to 49 annually for age 50 to 70 3. PAP smear annually (every 3 years if negative consecutively x 3) 4. PSA men age 50 and older 5. Digital Rectal and Testicular Examination offered to men age 40 and older 6. Complete Blood Count (CBC) 7. Blood Chemistry Profile 8. Urinalysis 9. Hemocult
Physical Exam	<ul style="list-style-type: none"> 1. Medical and Family History, if history of smoking—offer smoking cessation 2. Focused Physical Examination 3. Offer Health Risk Assessment (HRA)
Target Organs	Multiple Organs
Written Opinion	A summary of examination and laboratory results sent to the employee.

C. Fitness Center Clearance	
Reference	American College of Sports Medicine (ACSM), NPR 1800.1B, American Heart Association (AHA)
Frequency	Every 3 years
Laboratory	Discretionary
Physical Exam	<ol style="list-style-type: none"> 1. Review of Physical Activity Readiness Questionnaire (PARQ) 2. Vital signs (blood pressure, pulse) 3. Refer to NASA Occupational Medicine Clinic for clearance if PARQ responses are positive or vital signs are abnormal. 4. Physical examination and appropriate testing required if referred by Occupational Medicine Clinic or employees healthcare provider. Documentation must be received from personal healthcare provider and reviewed by Medical Director. Medical Director responsible for final decision on fitness center clearance.
Written Opinion (Clearance)	Medical clearance may specify any limitations in clearance duration (i.e., 1-year) or Fitness Center activity
