CAN-SPAM Act Rulemaking, Project No. R411008

Dear Sirs:

I would like to request that an added provision be made to the CAN-SPAM Act not to resell my email address for further unsolicited emailing. I keep getting more emails when I request that I not be sent any unsolicited emails. I have proof of this with two email addresses which did not originally get any spam. Somehow, one spam email got through, and when I requested no more emails whatsoever, I keep getting them from new spammers.

I want a regulation making it an offense to resell email addresses if the recipient indicates he does not want any unsolicited emails whatsoever.

Sincerely,  
Timothy Lee
