Dear Federal Trade Commission,

000020

In reference to EBR Telemarketing Proj.

We are asking you to please protect our privacy. We pay for our telephones service. No one should have the right to use our personal property to advertise products or service. It is obvious from the response across America to the 'no call' list that most citizens want no part of tele-marketers. Please strengthen the laws for us, not weaken them.

Thank you,
Rick & Rosemary Park
