Ref: Prerecorded Message EBR Telemarketing, Project No. R411001

Dear FTC,

This letter is in opposition to the proposed FTC rule to allow additional pre-recorded telemarketer messages to people on the Do Not Call Registry. I already receive too many of these unwanted, nuisance pre-recorded messages, none of which show up on caller ID, and therefore cannot be stopped or reported.

Instead of allowing more pre-recorded messages, I encourage the FTC to stop the ones that I am already getting, invading the peaceful privacy of my own home. I already get too much e-mail spam and certainly don't want the FTC to open the door to pre-recorded telemarketing telephone spam.

Thanks.

Sincerely,

A handwritten signature in cursive script that reads "R. Conner Warren".

R. Conner Warren
