Subject: Prerecorded Message EBR Telemarketing, Project No. R411001

I registered all 4 of our telephone numbers; including my business number, because I was tired of getting dozens of unsolicited calls for stuff I neither ask for nor wanted. Before that, we would get at least one telemarketing call an evening – always during our dinner hour!!!! Now it's so enjoyable to have a quiet dinner with my family.

I understand you are considering relaxing the restrictions on telemarketers and the do not call list. WHY???? It's not broken so don't fix it! Where's the pressure coming from to amend it? Of course, telemarketers. What happens to what the public wants? I'm a small business owner who gladly respects the desires of my customers. If I didn't, they would not be my customers for long.....

I urge you to reject amending the do not call list as it currently stands. It's the desire of the millions of people who have put their name on the list against the desires of a few. I always thought the majority wins, not where the buck comes from! PLEASE VOTE NO CHANGE TO THE NO NOT CALL LIST.
