Re: Prerecorded Message EBR, Telemarketing Project No. R411001

Dear FTC:

When I signed up to be put on the do not call list I expected this to include prerecorded messages. I do NOT want to receive prerecorded messages anymore than I want to receive a call from a live person peddling some product I do not want or want to hear about not on my terms.

Don't even think about allowing prerecorded messages to bypass the do not call list.

Thank you.

Sincerely,

A handwritten signature in cursive script, appearing to read "William S. Johnson".
