2006 NATIONAL SUMMARY OF STATE MEDICAID MANAGED CARE PROGRAMS

PROGRAM DESCRIPTIONS AS OF JUNE 30, 2006

The National Summary of State Medicaid Managed Care Programs is composed annually by the Finance, Systems, and Budget Group (FSBG) of the Centers for Medicare & Medicaid Services (CMS). The report provides descriptions of the States' Medicaid managed care programs as of June 30, 2006. **An (*) asterisk next to the State's Medicaid program name indicates the Program is a "Non-Managed Care Waiver."** The data was collected from State Medicaid Agencies and CMS Regional offices, and submitted for review to FSBG, Family and Children's Health Program Group (FCHPG), and Disabled and Elderly Health Program Group (DEHPG).

Please contact Carolyn Lawson at 410-786-0704; e-mail carolyn.lawson@cms.hhs.gov or Loan Swisher at 410-786-4650; e-mail: loan.swisher@cms.hhs.gov, or Joseph DelPilar at 410.786-0081; e-mail: joseph.delpilar@cms.hhs.gov of the FSBG staff, if you have any questions concerning this report.

NOTE: National Summary tables are included at the end of the report.

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Maternity Care Program

ADDITIONAL INFORMATION

The reimbursement methodology for the maternity program is capitated "at risk" to a health entity assigned in each district throughout the State. State contracts with a primary contractor that enters into a contractual agreement with each maternity subcontractors serving the district. The providers are paid a fee once the woman delivers. The primary contractor is responsible for submitting a claim for payment. Upon receipt of payment from Medicaid, the primary contractor pays all subcontractors involved in the woman's care. Program was converted from a 1932(a) to a 1915(b) on 9/23/05 as the Patient 1st waiver was amended to include Maternity Care.

Maternity Care primary contractors are reimbursed by a contracted global fee. The state is in the beginning process of obtaining an

Maternity Care Program

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Contract Standard Compliance
-Monitor Quality Improvement
-Program Evaluation
-Track Health Service provision

Consumer Self-Report Data:
-State-developed Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Performance Measures

Process Quality:
None

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Access to subcontractors who are 50 miles/50 minutes of recipient

Use of Services/Utilization:
-Percentage of women who began prenatal care during first 13 weeks of pregnancy
-Percentage of women who enroll when already pregnant, who begin prenatal care within 6 weeks after enrolling
-Percentage of women with live births who had post-partum visit between 21-56 days after delivery
-Percentage who have recommended number of pre-natal visits per ACOG

Health Plan Stability/ Financial/Cost of
None

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-Individual PIHPs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Low birth-weight baby
-Pre-natal care
-Smoking prevention and cessation

Non-Clinical Topics:
-Appeals, grievances and other complaints
-Availability, accessibility & cultural competency of services

Standards/Accreditation

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Drug Rebate
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Medicaid Eligibility

State conducts general data completeness assessments:
Yes

CALIFORNIA
Caloptima

Performance Measures

Process Quality:
-Adolescent immunization rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Diabetes medication management
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Average distance to PCP

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of Care
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification

Beneficiary Characteristics:
-Percentage of beneficiaries who are auto-assigned to MCOs
- MCO/PCP-specified disenrollment rate
- Information on primary languages spoken by beneficiaries

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.

Clinical Topics:
-Adolescent Health statewide collabortive
-Breast cancer screening (Mammography)
-Hospital Quality small group collaborative

Non-Clinical Topics:

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Uses eligibility data to identify members of these groups
-Uses other means to identify members of these groups - program linkage and/or family contact
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency
-Public Health Agency
-Social Services Agency
-Substance Abuse Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Central Coast Alliance For Health

ADDITIONAL INFORMATION

CALIFORNIA
Central Coast Alliance for Health

Central Coast Alliance for Health has a special waiver authority under OBRA 1990.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Drug rebate
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Medicaid Eligibility

State conducts general data completeness assessments:
Yes

CALIFORNIA
Central Coast Alliance for Health

Performance Measures

Process Quality:
-Adolescent well-care visit rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Diabetes medication management
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Average distance to PCP

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification

Beneficiary Characteristics
-Percentage of beneficiaries who are auto-assigned to MCOs
- MCO/PCP-specific disenrollment rate
- Information on primary languages spoken by beneficiaries

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.

Clinical Topics:
-Adolescent Health Statewide Collaborative
-Asthma management
-Chronic Pain
-Diabetes management
-Frequent ED

Non-Clinical Topics:
-Not Applicable

Enrollment

CALIFORNIA
Santa Barbara Health Initiative

Populations Voluntarily Enrolled:
None

Populations Mandatorily Enrolled:
-Section 1931 (AFDC/TANF) Children and Related Populations
-Section 1931 (AFDC/TANF) Adults and Related Populations
-Blind/Disabled Adults and Related Populations
-Blind/Disabled Children and Related Populations
-Aged and Related Populations
-Foster Care Children

Subpopulations Excluded from Otherwise Included Populations:
-Enrolled in another Medicaid Managed Care program
-Medicare Dual Eligibles

Lock-In Provision:
No lock-in

Medicare Dual Eligibles Included:
QMB Plus, SLMB Plus, and Medicaid only
SSI

Medicare Dual Eligibles Excluded:
SLMB, QI, and QDWI
QMB

Part D Benefit

MCE has Medicare Contract:
Yes

Provides Part D Benefits:
No

Scope of Part D Coverage:
Not Applicable

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:
-None - managed care entity provides standard prescription drug coverage

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Uses eligibility data to identify members of these groups
-Uses other means to identify members of these groups - program linkage and/or family contact
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency
-Public Health Agency
-Social Services Agency
-Substance Abuse Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Santa Barbara Regional Health Authority

ADDITIONAL INFORMATION

Operating authority under 1903(m).

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Drug Rebate
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Medicaid Eligibility

State conducts general data completeness assessments:
Yes

CALIFORNIA
Santa Barbara Health Initiative

Performance Measures

Process Quality:
-Adolescent well-care visit rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Chlamdyia screening in women
-Diabetes medication management
-Initiation of prenatal care - timeliness of
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Average distance to PCP

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Board Certification

Non-Clinical Topics:
-Percentage of beneficiaries who are auto-assigned to MCOs
- MCO/PCP-specific disenrollment rate
- Information on primary languages spoken by beneficiaries

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.

Clinical Topics:
-Adolescent Health Statewide
-Asthma management

Non-Clinical Topics:
-Decreasing Inappropriate ER Use
-Decreasing Inappropriate Use of Antibiotics

CALIFORNIA

Agencies with which Medicaid Coordinates the Operation of the Program:
-Transportation Agencies

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Commission for the Transportation of the Disadvantaged

ADDITIONAL INFORMATION

The 1915(b) authority is used to selectively contract for non-emergency transportation services with the Commission for the Transportation Disadvantaged. The commission subcontracts with a single community transportation coordinator in each county. Paraexcluded Population: Persons enrolled in another managed care program that provides transportation are excluded from enrolling in this program. Special Needs children are those children classified as SSI. Reimbursement is given in a lump sum, twice a month for non-emergency transportation services. This program does not meet the definition of capitation because the fixed rate is not tied to the number of riders, but rather is a fixed rate over a period of time regardless of the number of riders. Foster care children receiving medical care are voluntarily enrolled.

ADDITIONAL INFORMATION

The Disease Management PAHP is specifically for persons with one or more of the following diseases: HIV/AIDS, Congestive Heart Failure, Diabetes, Asthma, and Hypertension. The Disease Management program reimbursement arrangement is not capitated or ffs but is based on shared savings.

PCCM enrollees in 15 counties receive mental health services through a capitated arrangement. Enrollees are allowed to choose either the fee-for-service or a capitated health plan. If the enrollee fails to make a choice, they are mandatory enrolled into a capitated health plan.

Dental and Transportation services are provided at the option of the Plan and the Agency.

Included Populations: Blind/Disabled Adults and Related Populations and Medicare Dual Eligibles are enrolled mandatorily for ages 18-20. Excluded Populations: Persons under 21 residing in a Nursing Facility or ICF/MR. Community Mental Health Services are Provided in Area 6 only. Reimbursement is varied throughout program. Some vendors are paid on a per member per month basis, others are paid on a nurse FTE basis, and some are paid based on contract deliverables.

The Provider Service Network (PSN) shared savings model receives an administrative advance and a case management fee for all enrolled beneficiaries. The claims for the enrollees are paid fee-for-service. Th shared savings model PSN is at risk potentially for 50% of any administrative advance. The agency conducts a periodic reconciliation of costs for covered services benchmarked against the capitation rate that would have been paid for that population. Any resulting savings in excess of the administrative advance is distributed to the PSN. Excluded Populations: Under 21 residing in a Nursing Facility or ICF/MR. Community mental health services are provided in area 6 only. Reimbursement is varied throughout the program. Some vendors are paid on a per member per month basis, others are paid on a nurse FTE basis, and some are paid based on contract deliverables.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Accreditation for Deeming (see below for details)
-Accreditation for Participation (see below for details)
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement

FLORIDA
Managed Health Care

-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
-Disenrollment Survey
-MCO Member Satisfaction Surveys

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of "home grown" forms
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Beta Blocker treatment after heart attack
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Cholesterol screening and management

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

-Diabetes medication management
-Frequency of on-going prenatal care

-Hearing services for individuals less than 21 years of age
-HIV/AIDS care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Pregnancy Prevention
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of PCP visits per beneficiary

Health Plan Stability/ Financial/Cost of Care
-Actual reserves held by plan
-Claims payable and IBNR by line of business
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Expenses by line of business
-Medical and Hospital expenses
-Medical loss ratio
-Net income
-Net worth
-Revenue by line of business

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCOs
-Weeks of pregnancy at time of enrollment in MCO, for

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Immunization
-Adolescent Well Care/EPSDT
-Asthma management
-Beta Blocker treatment after a heart attack
-Breast cancer screening (Mammography)
-Breast cancer treatment
-Cervical cancer screening (Pap Test)
-Cervical cancer treatment
-Child/Adolescent Dental Screening and Services
-Child/Adolescent Hearing and Vision Screening and Services
-Childhood Immunization
-Cholesterol screening and management
-Coordination of primary and behavioral health care
-Coronary artery disease prevention
-Coronary artery disease treatment
-Depression management
-Diabetes management/care

-Domestic violence
-Emergency Room service utilization
-ETOH and other substance abuse screening and treatment
-Hepatitis B screening and treatment
-Hypertension management
-Lead toxicity
-Pharmacy management
-Pregnancy Prevention
-Pre-natal care
-Referral for Cervical cancer screening
-Sexually transmitted disease screening
-Sexually transmitted disease treatment
-Sickle cell anemia management
-Treatment of myocardial infraction
-Tuberculosis screening and treatment
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Availability of language interpretation services
-Children's access to primary care practitioners

Standards/Accreditation

MCO Standards:

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:
-Community-based care providers
-Department of Juvenile Justice
-Family Safety Program
-Florida Department of Children and families
-Forensic/Corrections System
-Mental Health Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Access Behavioral Health, Inc.

Florida Health Partners, Inc.

FLORIDA
Prepaid Mental Health Plan

ADDITIONAL INFORMATION

Medicaid recipients who do not voluntarily choose a managed care plan are mandatorily assigned. Recipients who choose or are mandatorily assigned to Medipass are automatically enrolled in the Prepaid Mental Health Plan. Children who are admitted to community placements designated by the Department of Juvenile Justice or the Child Welfare system are disenrolled from the Prepaid Mental Health Plan upon admission and then re-enrolled upon returning to the community. Children who are admitted to a Statewide Inpatient Psychiatric Program (SIPP) are also disenrolled from the PMHP upon admission and re-enrolled upon returning to the community. Adults admitted to Florida Assertive Community Foster Care Children are enrolled mandatorily in Areas 1 and 6. Recipients receiving Florida Assertive Community Treatment services are disenrolled from the PMHP and re-enrolled upon discontinuance of this service.

ADDITIONAL INFORMATION

Inpatient psychiatric hospital and outpatient pyschiatric services are generally carved-out. However, when these services are provided by an acute care hospital or a PCP, they are included. The same coverage condition applies to inpatient and outpatient substance abuse services.

QUALITY ACTIVITIES FOR MCO/HIO

INDIANA
Hoosier Healthwise

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:
-Specifications for the submission of encounter data to the Medicaid agency

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

INDIANA

Performance Measures

Process Quality:

-Adolescent immunization rate
-Appropriate testing for children with pharyngites
-Appropriate treatment for children with URI
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Childhood immunization rates
-Chlamydia screening rates
-Controlling high blood pressure
-Diabetes medication management
-Prenatal and Postpartum care rates
-Smoking prevention and cessation

Health Status/Outcomes Quality:

-Patient satisfaction with care

Access/Availability of Care:

-Adult access to preventative/ambulatory health services
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:

-Adolescent well-care visit rates
-Well-child care visit rates in 3, 4, 5 and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Plan Stability/ Financial/Cost of

None

Health Plan/ Provider Characteristics:

None

Beneficiary Characteristics:

-Information of beneficiary ethnicity/race
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to

Performance Improvement Projects

Project Requirements:

-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:

-Access to Care Children and Adult
-Lead toxicity

Non-Clinical Topics:

-Health information technology (e.g. state implementation of immunization and other registries, telemedicine initiatives, etc…)
-Reducing health care disparities via health literacy, education campaigns, or other initiatives

MICHIGAN

Standards/Accreditation

MCO Standards:
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards
-NAIC (National Association of Insurance Commissioners) Standards
-NCQA (National Committee for Quality Assurance) Standards
-URAC

Accreditation Required for
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations)
-NCQA (National Committee for Quality Assurance)
-URAC

Non-Duplication Based on
None

EQRO Name:
-Health Services Advisory Group (HSAG)

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Quality, access and timelines
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of Performance Measures

EQRO Optional Activities:
-CAHPS - Consumer Survey
-Conduct studies on quality and access that focus on a particular aspect of clinical or non-clinical services
-Validation of client level data, such as claims and encounters

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
Covers all MCO members

Rewards Model:
Member incentives in the MCO P4P program
Payment incentives/differentials to reward MCOs
Preferential auto-enrollment to reward MCOs

Clinical Conditions:
Accreditation Status
Asthma
Blood Lead
Cardiac Care
Childhood immunizations
Consumer Satisfaction
Diabetes
Prenatal Care
Well-child visits

Measurement of Improved Performance:
Assessing improvements in, or reaching established standards in, administrative processes (e.g., timeliness of MCO response to grievances, improving customer service, etc.)
Assessing levels of technology adoption
Assessing patient satisfaction measures
Assessing the adoption of systematic quality improvement processes
Assessing the timely submission of complete and accurate electronic encounter/claims data
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2001

Evaluation Component:
The State has conducted an evaluation of the effectiveness of its P4P program

Blue Cross Blue Shield of Kansas City, Blue Advantage+ Plus
Family Health Partners
HealthCare USA
Missouri Care
Community Care Plus
FirstGuard
Mercy Health Plans
Non-Emergency Medical Transportation (NEMT)

ADDITIONAL INFORMATION

PCP Clinics can include FQHCs/RHCs. Vision services for members 21 and over are limited to one eye examination every two years, services related to trauma or treatment of disease/medical condition, and one pair of eyeglasses following cataract surgery. Vision services for pregnant women 21 and over are limited to one eye examination per year, services related to trauma or treatment of disease/medical condition, and one pair of eyeglasses following cataract surgery. Dental services for members 21 and older are limited to trauma to the mouth or teeth as a result of injury. Dental services for pregnant women 21 and older are limited to dentures and trauma to the mouth or teeth as a result of injury. All other vision and dental services are carved out of the MC+ Managed Care Program and are covered through the MC+ Fee-For-Service Program. Allowable PCPs: PCP clinics can include FQHCs and RHCs. Medicaid eligibles in the included populations who are receiving Supplemental Security Income (SSI), who meet the SSI medical disability definition, or who receive adoption subsidy may choose to enroll or voluntarily disenroll from the MC+ Managed Care Program at any time. Enrollment is mandatory for special needs children but individuals may request to opt out. HealthCare USA health plan participates in Eastern, Central, and Western Regions. MO is a 209(b) State and has no specific eligibility categories for the special needs populations.

Transportation PAHP: Recipients enrolled in a MC+ managed care health plan receive Non-Emergency Medical Transportation (NEMT) from their MCO. All other eligible recipients statewide receive services from the NEMT broker. Individuals with special health care needs include those with needs due to physical and/or mental illnesses, foster care children, homeless individuals, individuals with serious and persistent mental illness and/or substance abuse, and individuals who are disabled or chronically ill with developmental or physical disabilities.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-MCO Standards
-Monitoring of MCO Standards
-Network Data
-Ombudsman (Western and Eastern Regions only)
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
Child Medicaid AFDC Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the

HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Medical record validation
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-See Attachment 1 for additional Data Accuracy Checks

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rate
-Ambulatory Care
-Asthma care - medication use
-Cervical cancer screening rate
-Check-ups after delivery
-Chemical Dependency Utilization
-Chlamdyia screening in women
-Dental services
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of low birth weight infants

-Lead screening rate
-Mental Health Utilization
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Ratio of dental providers to beneficiaries
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Emergency room visits/1,000 beneficiaries under the age of 19

-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

Health Plan Stability/ Financial/Cost of
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Missouri Department of Insurance Monitors and Tracks Health Plan Stability/Financial/Cost of Care

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)

Beneficiary Characteristics:
-Beneficiary need for interpreter
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-Percentage of beneficiaries who are auto-assigned to MCO
-Weeks of pregnancy at time of enrollment in MCO, for

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing

Clinical Topics:
-ADHD
-Asthma management
-Emergency Room service utilization
-Lead toxicity
-Low birth-weight baby
-Pre-natal care

Non-Clinical Topics:
-Access to primary care
-Customer Service and Prior Authorization

MISSOURI
MC+ Managed Care/1915b

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare
-NAIC (National Association of Insurance Commissioners) Standards
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Behavioral Health Concepts (BHC)

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Assessment of MCO information systems
-Calculation of performance measures
-Conduct of performance improvement projects
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of encounter data

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by beneficiary age

Rewards Model:
Payment incentives/differentials to reward MCOs
Preferential auto-enrollment to reward MCOs

Clinical Conditions:
Childhood immunizations
Well-child visits

Measurement of Improved Performance:
State measures MCO achievement in reaching established standards of outcome measures

Initial Year of Reward:
2001

Evaluation Component:
The State has conducted an evaluation of the effectiveness of its P4P program

ADDITIONAL INFORMATION

For PCCM, MCO, and Specialty Physician Case Management (SPCM), the State defines Special Needs Children as Blind/Disabled Children and Related Populations, Children Receiving Title V Services and State Wards. Blind/Disabled Children and Related Populations.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
  Adult Medicaid AFDC Questionnaire
-State-developed Survey

Use of HEDIS:

-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future

Encounter Data

Collection: Requirements:

-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national

standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Standards to ensure complete, accurate, timely encounter data submission
-Guidelines for frequency of encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Immunizations for two year olds
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of beneficiaries who are satisfied with their ability to obtain care

Access/Availability of Care:
-Average distance to PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
None

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Breast cancer screening (Mammography)
-Pre-natal care

ADDITIONAL INFORMATION

Lock-in Period: 12-month lock-in is for AFDC/TANF. There is no lock-in for SSI, Aged, Blind, Disabled, DDD or DYFS populations. Division of Developmental Disabilities Community Care Waiver (DDD/CCW) is a community care waiver which is a Medicaid program that allows the State to waiver certain Federal Medicaid eligibility caritera for individuals who meet eligibility for the Division of Developmental Disabilities services, reside in the community, and require an ICF/MR level of care.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Accreditation for Participation (see below for details)
-After Hours Beneficiary Call-in Sessions
-Consumer Self-Report Data (see below for details)
-Data Analysis
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Geographic Mapping
-Independent Assessment
-MCO Marketing Material Approval Requirement
-Medical and Dental Provider Spot Checks
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data
-Test 24/7 PCP Availability
-Utilization Review

Use of Collected Data:
-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-Disenrollment Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of "home grown" forms

Collection: Standardized Forms:
None

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)

-Use of Medicaid Identification Number for beneficiaries
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-Comparison of reported changes to reasonable and customary fees.

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical Cancer Screening
-Check-ups after delivery
-Childhood Immunizations
-Comprehensive Diabetes Care
-Lead screening rate
-Quality and utilization of dental services
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Lead Toxicity Study

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of dental providers to beneficiaries
-Ratio of mental health providers to number of beneficiaries

-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Average inpatient length of stay
-Emergency room visits/1,000 beneficiaries
-Inpatient admissions/1,000 beneficiaries
-Inpatient days per 1000 members
-Pharmacy services per member
-Physician visits per 1000 members

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (i.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income

groups

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Lovelace Community Health Plan
Presbyterian Salud!
Molina Healthcare of New Mexico
ValueOptions of New Mexico

ADDITIONAL INFORMATION

ValueOptions of New Mexico provides behavioral services through BH providers. Lovelace Community Health Plan, Molina Health Care and Presbyterian Salud! provide physical health services and those BH services provided by non-BH provider/practitioners. Native Americans within other covered categories have the option of choosing to participate in managed care due to tribal agreements. They require a broad range of primary, specialized medical, behavioral health and related services. ISCHNs are individuals who have or are at increased risk for, a chronic physical, developmental, behavioral, neurobiological or emotional condition, or low to severe functional limitation, and who also require health and related services of a type or amount beyond that required by other individuals. ISCHNs have on-going health conditions,high or complex service utilization, and low to severe functional limitations. The primary purpose of the definition is to identify these individuals so that the MCO/SE can facilitate access to appropriate services. The definition also allows for flexible targetting of individuals based on clinical justification and discontinuing targetted efforts when such efforts are no longer needed.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Accreditation for Participation (see below for details)
-Challenge Pool Measures
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Non-Duplication Based on Accreditation
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data
-Tracking Measures

Use of Collected Data:

-Contract Standard Compliance
-Data Mining
-Enhanced/Revise State managed care Medicaid Quality Strategy
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:

-CAHPS
  3.0
  Adult Medicaid AFDC Questionnaire
  Adult Medicaid SSI Questionnaire
  Child Medicaid AFDC Questionnaire
  Child Medicaid SSI Questionnaire
-MSIP

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)

NEW MEXICO
NEW MEXICO SALUD!

-Track Health Service provision

-Standards to ensure complete, accurate, timely encounter data submission

-Encounters to be submitted based upon national
-Specifications for the submission of encounter data to the standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Payment
-Plan Enrollment
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Dental services
-Depression management/care
-Diabetes medication management
-Initiation of prenatal care - timeliness of
-Percentage of beneficiaries with at least one dental visit
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Ratio of dental providers to beneficiaries
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Provider payment timeliness
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Board Certification

Beneficiary Characteristics:
-Beneficiary need for interpreter
-Information on primary languages spoken by beneficiaries

Standards/Accreditation

MCO Standards:
-NCQA (National Committee for Quality Assurance) Standards

Accreditation Required for
-NCQA (National Committee for Quality Assurance)

Non-Duplication Based on
-NCQA (National Committee for Quality Assurance)

EQRO Name:
-New Mexico Medical Review Association

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of encounter data

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Adolescent Immunization
-Adolescent Well Care/EPSDT
-Asthma management
-Breast cancer screening (Mammography)
-Cervical cancer screening (Pap Test)
-Child/Adolescent Dental Screening and Services
-Childhood Immunization
-Depression management
-Diabetes management
-Pharmacy management
-Pre-natal care
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Children's access to primary care practitioners

NEW MEXICO
NEW MEXICO SALUD!

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by disease and medical condition
Covers all MCO members

Rewards Model:
Payment incentives/differentials to reward MCOs
Preferential auto-enrollment to reward MCOs
Public reporting to reward MCOs

Clinical Conditions:
Asthma
Childhood immunizations
Depression
Diabetes
Well-child visits

Measurement of Improved Performance:
Assessing improvements in, or reaching established standards in, administrative processes (e.g., timeliness of MCO response to grievances, improving customer service, etc.)
Assessing the timely submission of complete and accurate electronic encounter/claims data

Initial Year of Reward:
1997

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program, but plans to conduct an evaluation in the future

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PIHP Standards

Use of Collected Data:
-Contract Standard Compliance
-Data Mining
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-State Managed Care Medicaid Quality Strategy
-Track Health Service provision

Consumer Self-Report Data:
-State-developed Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency

-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

PIHP conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Date of Payment
-Provider ID

distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to PIHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Specification/source code review, such as a programming language used to create an encounter data file for submission

-Public Health Agency
-Social Services Agency
-Substance Abuse Agency
-Transportation Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Access Plus Program

Disease Management PAHP

ADDITIONAL INFORMATION

Enrollees are assigned to the Disease Management program if they have one of the following qualifying chronic diseases: Asthma, Diabetes, Chronic Obstructive Pulmonary Disease, Coronary Artery Disease, and Congestive Heart Failure. However, enrollees can choose to opt out of this program. Special Needs Children is broadly defined as non-categorical to include all children. The Providers in the network are reimbursed on a FFS basis. The ACCESS Plus Contrator receives a capitation for EPCCM Services and capitation for Disease Management Services. Access Plus is the default program; with exceptions. If a voluntary managed care program is in a county with Access Plus, the recipient can choose which delivery system they want. If no choice is made, the recipient is auto-assigned to Access Plus. However, in counties where there is no voluntary managed care program, recipients are mandatorily enrolled into Access Plus. The reimbursement arrangement is Fee-For-Service (PMPNV Guaranteed Savings).

QUALITY ACTIVITIES FOR PAHP

-The State uses ALL of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires PAHPs to follow NCQA specifications for all

Performance Measures

Process Quality:
None

Health Status/Outcomes Quality:
-Chronic Care Satisfaction
-Health Status Reports from Contractor
-Patient satisfaction with care

Access/Availability of Care:
-Childhood access to preventive/ambulatory health services

Use of Services/Utilization:
-Call Abandonment
-Call Timeliness
-Emergency room visits/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Administrative Costs
-Pay for performance reports on payouts and reserve and withhold
-Total revenue

Health Plan/ Provider Characteristics:
-Geo Mapping Report
-Number of Providers Participating in Disease Management
-Number of Providers Following Standard Practice Guidelines for Chronic Illnesses

Beneficiary Characteristics:
None

Standards/Accreditation

PAHP Standards:
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards
-NCQA (National Committee for Quality Assurance) Standards
-State-Developed/Specified Standards

Accreditation Required for
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations)
-NCQA (National Committee for Quality Assurance)

Non-Duplication Based on
None

QUALITY ACTIVITIES FOR PCCM

Quality Oversight Activities:
-Consumer Self-Report Data
-Enrollee Hotlines
-On-Site Reviews
-Performance Improvements Projects (see below for details)

-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Data Mining
-Fraud and Abuse
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Target New Areas for Quality Improvement

Access Plus Program

-Provider Data
-Consumer Complaints
-State-developed Survey

Performance Measures

Process Quality:
None

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Adolescent well child visits
-Adult access to preventive/ambulatory health services
-Children's access to primary care practitioners
-Ratio of primary care case managers to beneficiaries

Use of Services/Utilization:
-Call Abandonment
-Call Timeliness
-Emergency room visits/1,000 beneficiaries
-Hospital Readmission Rates
-Inpatient admissions/1,000 beneficiaries
-Number of field staff case manager visits for prenatal maternity care
-Number of OB/GYN visits per adult female beneficiary
-Number of telephonic case manager calls for prenatal maternity care

Provider Characteristics:
None

Beneficiary Characteristics:
None

Performance Improvement Projects

Clinical Topics:
-Adolescent Immunization
-Adolescent Well Care/EPSDT
-Asthma management
-Beta Blocker treatment after a heart attack
-Breast cancer screening (Mammography)
-Cervical cancer screening (Pap Test)
-Child/Adolescent Dental Screening and Services
-Child/Adolescent Hearing and Vision Screening and Services
-Childhood Immunization
-Cholesterol screening and management
-Coordination of primary and behavioral health care
-Coronary artery disease prevention
-Depression Screening
-Diabetes management
-Domestic violence
-Emergency Room service utilization
-ETOH and other substance abuse screening and treatment
-Post-natal Care
-Pre-natal care
-Sexually transmitted disease screening
-Smoking prevention and cessation
-Treatment of myocardial infraction

Non-Clinical Topics:
-Availability of language interpretation services
-Children's access to primary care practitioners

ADDITIONAL INFORMATION

Skilled Nursing Facility is for the first 30 days. Special Needs Children: (state defined) Broadly defined non-categorical to include all children.

All consumers receiving behavorial health services are considered to be persons with special needs.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance

PENNSYLVANIA
HealthChoices

-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
3.0H adult and children

Use of HEDIS:
-The State uses ALL of the HEDIS measures listed for Medicaid

-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future
-State use/requires MCOs to follow NCQA specifications for all

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
No

PENNSYLVANIA
HealthChoices

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Beta-blocker treatment after heart attack
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Cholesterol screening and management
-Controlling high blood pressure
-Dental services
-Diabetes medication management
-Frequency of on-going prenatal care
-Hearing services for individuals less than 21 years of age
-HIV/AIDS care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life
-Well-child care visits rates in 7, 9 or 11 years of age

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of days in ICF or SNF per beneficiary over 64 years
-Number of OB/GYN visits per adult female beneficiary
-Number of PCP visits per beneficiary
-Number of specialist visits per beneficiary
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Number of years Health Plan in business and total membership

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement

Clinical Topics:
-Adolescent Pregnancy
-Asthma management
-Child/Adolescent Dental Screening and Services
-Childhood Immunization

PENNSYLVANIA
HealthChoices

project(s) prescribed by State Medicaid agency

-Hypertension management
-Smoking prevention and cessation

Non-Clinical Topics:
-Adult's access to dental care
-Children's access to dental care

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards
-NAIC (National Association of Insurance Commissioners) Standards
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Island Peer Review Organization (IPRO)

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Conduct of performance improvement projects
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of encounter data

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
Covers all MCO members

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Adolescent Well Care
Asthma
Breast Cancer Screening
Cervical Cancer Screening
Cholesterol Management
Controlling High Blood Pressure
Diabetes
Prenatal Care

Measurement of Improved Performance:
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2006

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program, but plans to conduct an evaluation in the future

PENNSYLVANIA

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Contract Standard Compliance
-Fraud and Abuse
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
  Adult Medicaid AFDC Questionnaire
  Adult Medicaid SSI Questionnaire
  Child Medicaid AFDC Questionnaire
  Child Medicaid SSI Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:

-Behavioral health layout
-NCPDP - National Council for Prescription Drug Programs

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency

TEXAS
STAR

pharmacy claim form

-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

-Use of Medicaid Identification Number for beneficiaries distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills
-Medical record validation
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-Preparing HEDIS and risk adjustment software

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Depression management/care
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-Hearing services for individuals less than 21 years of age
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Pregnancy Prevention
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:

-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:

-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Number of days in ICF or SNF per beneficiary over 64 years
-Number of PCP visits per beneficiary
-Number of specialist visits per beneficiary
-Percent of beneficiaries accessing 24-hour day/night care at MH/SUD facility

Health Plan Stability/ Financial/Cost of

-Days in unpaid claims/claims outstanding

Health Plan/ Provider Characteristics:

-Languages Spoken (other than English)

TEXAS
STAR

Beneficiary Characteristics:

Not Applicable

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:
None

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Use fee-for-service claims data to identify clients received Early Intervention services
-Uses eligibility data to identify members of these groups
-Uses enrollment forms to identify members of these groups
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:
-Education Agency
-Maternal and Child Health Agency
-Public Health Agency
-Substance Abuse Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Bear River Mental Health
Central Utah Mental
Davis Mental Health
Four Corners Mental Health
Northeastern Counseling Center
Southwest Mental Health
Valley Mental Health
Wasatch Mental Health
Weber Mental Health

UTAH
Prepaid Mental Health Program

ADDITIONAL INFORMATION

Community Mental Health Centers serve as Prepaid Mental Health Plans to provide/coordinate all mental health services in 9 of Utahs 10 mental health service areas. Foster Care Children receive inpatient services only.

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PIHP Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-PIHP Standards

Use of Collected Data:
-Contract Standard Compliance
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-State-developed Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data

Validation - Methods:
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to PIHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)

PIHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

UTAH
Prepaid Mental Health Program

Process Quality:
-Continuity of Care
-Symptom reduction

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Racidivism
-Symptom reduction

Access/Availability of Care:
-Average time for intake
-Use of Services/Utlization

Use of Services/Utilization:
None

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net worth
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)

-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries

Performance Improvement Projects

Project Requirements:
-PIHPs are required to conduct a project(s) of their own choosing
-All PIHPs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Coordination of primary and behavioral health care

Non-Clinical Topics:
-Accuracy and completeness of data for performance measures
-Timely access to treatment and tracking

Standards/Accreditation

PIHP Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Health Services Advisory Group, Inc.

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory Activities:
-Review of PIHP compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional
-Technical assistance to PIHPs to assist them in conducting quality activities
-Validation of encounter data

Regional Support Network

ADDITIONAL INFORMATION

WASHINGTON
The Integrated Mental Health Services

Due to the nature of the waiver which is for a limited segment of services, the program does designate a primary care provider. Individuals choose their own providers. Pregnant women in the Basic Health program (state funded program) are excluded from the Mental Health program.

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PIHP Standards
-Ombudsman
-On-Site Reviews
-Performance Measures (see below for details)
-PIHP Standards
-Quality Review Team

Use of Collected Data:
-Contract Standard Compliance
-Fraud and Abuse
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:
-Consumer/Beneficiary Focus Groups
-MHSIP Child, Family, and Adult Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Our data is rolled up from the providers to the entity to the MHD
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

PIHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Diagnosis Codes
-Procedure Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Reviews complaints and grievances to identify members of these groups

Agencies with which Medicaid Coordinates the Operation of the Program:
-Maternal and Child Health Agency
-Public Health Agency

-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Carelink Health Plan
Health Plan of the Upper Ohio Valley
Physician Assured Access System
Unicare Health Plan of WV

ADDITIONAL INFORMATION

The State combined its Physician Assured Access System (PAAS) program with the Mountain Health Trust Program in July 2004. PAAS is available in all 55 counties. The reason for multiple enrollment for Section 1931 (AFDC/TANF) Adults and Children and related populations is because in counties with only one MCO, clients can choose to remain in the PCCM program on a voluntary basis. Foster Care Children can also voluntarily enroll in the PCCM program.. The MCOs do not operate in all counties. Beneficiaries are allowed to change plans once per month. If beneficiaries switch plans, it will become effective on the first day of the following month. Reason for multiple enrollment for Children and Related Populations and Adults and Related Populations: In counties with only one MCO, clients can choose to remain in the PCCM program in an Urban county.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Compliants, grieveances and disenrollment data
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal

Consumer Self-Report Data:

-Disenrollment Survey
-State-developed Survey
-State-developed Survey of Children with Special Health Needs

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)

-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-MCO commercial utilization rates, comparisons to norms, comparisons to submitted bills or cost-ratios
-Per member per month analysis and comparisons across MCO
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Diabetes medication management
-Frequency of on-going prenatal care
-Hearing services for individuals less than 21 years of age
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Average distance to PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Days/1000 an average length of stay of IP administration, ER visits, ambulatory surgery, maternity care, newborn care
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of home health visits per beneficiary
-Number of OB/GYN visits per adult female beneficiary

WEST VIRGINIA

  Adult Medicaid AFDC Questionnaire
  Child Medicaid AFDC Questionnaire
-Consumer/Beneficiary Focus Groups
-Disenrollment Survey
-State-developed Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NCPDP, ASC X12 837)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Medical record validation
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent well-care visit rates
-Adults Access to Preventitive/Ambulatory Health Services
-Alzheimers study to evaluate appropriateness of care
-Annual Dental Visits among Children (ages 3 - 20)
-Asthma - appropriate use of medications

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

-Blood Lead Screening
-Breast Cancer screening rate

-Cervical cancer screening rate
-Children's Access to Primary Care Providers
-Children's Access to Primary Care Providers - KidsCare Population
-Chlamydia screening
-Dental services
-Diabetes medication management
-Frequency of on-going prenatal care
-Health Screenings
-Hearing services for individuals less than 21 years of age
-Immunizations for two year olds
-Influenza Immunizations and Pneumococcal Vaccination Rates in the Elderly and Physically Disabled
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Low Birth Weight Deliveries
-Patient Satisfaction with Care
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Population in Nursing Facilities and In Home Community Based Setting (ALTCS indicator)
-Prenatal Care in the First Trimester
-Utilization of Family Planning Services (Internal Report Only)
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Alzheimer study to evaluate appropriateness of HCBS care

-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries
-Utilization of Family Planning Services (Internal Report Only)

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Number of days in ICF or SNF per beneficiary over 64 years
-Number of home health visits per beneficiary
-Number of PCP visits per beneficiary
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Financial Viability Ratios (i.e., Current Ratio, Medical Expense, Administrative, Equity/Member)

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCO

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Child/Adolescent Dental Screening and Services
-Childhood Immunization
-Diabetes management
-Emergency Room service utilization
-Medical problems of the frail elderly

ARIZONA
Arizona Health Care Cost Containment System (AHCCCS)

-Pharmacy management
-Prevention of Influenza
-Timeliness of Initiation of Services

Non-Clinical Topics:
-Advance Directives
-Availability of language interpretation services
-Provider education regarding cultural health care needs of members

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards
-NCQA (National Committee for Quality Assurance) Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Health Services Advisory Group

EQRO Organization:
-Health Services Advisory Group
-Healthcare Excel
-Mercer
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Ad hoc QM reviews
-Administration or validation of consumer or provider surveys
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services

Pay for Performance (P4P)

Implementation of P4P:
The State HAS NOT implemented a Pay-for-Performance program with the MCO, but plans to implement one in the future

Program Payers:
Nursing Homes through Altcs contractors being initiated

Population Categories Included:
None

Rewards Model:
None

Clinical Conditions:
None

Measurement of Improved Performance:
None

Initial Year of Reward:
2007

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program, but plans to conduct an evaluation in the future

QUALITY ACTIVITIES FOR PIHP

ARIZONA
Arizona Health Care Cost Containment System (AHCCCS)

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Dentist Survey
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PIHP Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Physician Survey
-PIHP Standards
-Provider Data
-Quality Improvement Projects (QIPS)
-Quality Management/Quality Improvement Annual Plans and Annual Evaluations

Use of Collected Data:
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
  Adult Medicaid AFDC Questionnaire
  Child Medicaid AFDC Questionnaire
-Consumer/Beneficiary Focus Groups
-Disenrollment Survey
-Member Survey
-State-developed Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires PIHPs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to PIHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across PIHPs
-PIHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills

PIHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID

State conducts general data completeness assessments:
Yes

ARIZONA
Arizona Health Care Cost Containment System (AHCCCS)

-Type of Service
-Medicaid Eligibility

-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

Performance Measures

Process Quality:
-Appropriateness of services
-Coordination of care with acute contractors/pcp's
-Cultural competency
-Informed consent for psychotropic medication prescription

-Member/Family involvement
-Percentage of beneficiaries who are satisfied with their ability to obtain care

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Symptomatic and functional improvement
-Transition of Care

Access/Availability of Care:
-Access to care/ appointment availability
-Appointment Standards
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:
-Drug Utilization
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Financial Viability Ratios (i.e., Current Ratio, Medical Expense, Administrative, Equity/Member)
-Net income
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)

Beneficiary Characteristics:
-Geographic
-Information of beneficiary ethnicity/race
-Percentage of beneficiaries who are auto-assigned to PIHPs

Performance Improvement Projects

Project Requirements:
-All PIHPs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Individual PIHPs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Behavior health assessment - birth to 5 years of age
-Coordination of primary and behavioral health care
-Follow-up after hospitalization
-Informed consent for psychotropic medication prescription
-Pharmacy management
-Reducing the use of seclusion & restraint
-Transition of Care

Non-Clinical Topics:
-Availability of language interpretation services
-Provider education regarding cultural health care needs of

members

Standards/Accreditation

PIHP Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards

ADDITIONAL INFORMATION

Special Needs Children (State-defined): All children below 21, no income or resource limit that meet the SSN Functional Disability Requirements. Vision and hearing services are provided to children under 21.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation

Consumer Self-Report Data:

-CAHPS
  Child Medicaid AFDC Questionnaire
  Child with Special Needs Questionnaire
-Consumer/Beneficiary Focus Groups
-State-developed Survey

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State uses/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects, BUT modifies the continous enrollment requirement for some or all of the measures

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:

-ADA - American Dental Association dental claim form
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Per member per month analysis and comparisons across MCO

data between trading partners, such as hospitals, long term
-Use of Medicaid Identification Number for beneficiaries

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
None

Health Status/Outcomes Quality:
-Blood tests results for diabetes
-Obesity rates for adolescents
-Patient satisfaction with care
-Percentage of low birth weight infants
-Provider surveys

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Number of PCP visits per beneficiary

Health Plan Stability/ Financial/Cost of
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Total revenue

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Breast cancer screening (Mammography)
-Cervical cancer screening (Pap Test)
-Childhood Immunization
-Coordination of primary and behavioral health care
-Coronary artery disease prevention
-Diabetes management
-Emergency Room service utilization
-Low birth-weight baby
-Pharmacy management
-Pre-natal care

Non-Clinical Topics:
-Availability of language interpretation services
-Health information technology (e.g. state implementation of immunization and other registries, telemedicine initiatives,

etc…)
-Reducing health care disparities via health literacy, education campaigns, or other initiatives

Standards/Accreditation

MCO Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Mercer, Inc.

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Calculation of performance measures
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of encounter data

Pay for Performance (P4P)

Implementation of P4P:
The State HAS NOT implemented a Pay-for-Performance program with the MCO, but plans to implement one in the future

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by disease and medical condition

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Depression
Prenatal Care

Measurement of Improved Performance:
Assessing the adoption of systematic quality improvement processes

Initial Year of Reward:
2004

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of "home grown" forms
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:

-ADA - American Dental Association dental claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national

HAWAII
Hawaii QUEST

care facilities,

norms, comparisons to submitted bills or cost-ratios)
-Medical record validation

-Specification/source code review, such as a programming language used to create an encounter data file for

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Beta-blocker treatment after heart attack
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Dental services
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-Initiation of prenatal care - timeliness of
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:

-Adult's access to preventive/ambulatory health services
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners

Use of Services/Utilization:

-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Number of days in ICF or SNF per beneficiary over 64 years
-Number of PCP visits per beneficiary

Health Plan Stability/ Financial/Cost of

-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:

-Board Certification
-Languages Spoken (other than English)
-Provider turnover

HAWAII
Hawaii QUEST

Beneficiary Characteristics:
None

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Conduct of performance improvement projects
-Validation of encounter data

Pay for Performance (P4P)

Implementation of P4P:
The State HAS NOT implemented a Pay-for-Performance program with the MCO, but plans to implement one in the future

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by disease and medical condition

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Asthma
Childhood immunizations
Diabetes
Prenatal Care
Well-child visits

Measurement of Improved Performance:
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2007

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program

PROGRAM DATA

Program Service Area:
Region

Operating Authority:
1115 - Demonstration Waiver Program

Statutes Utilized:
Not Applicable

Enrollment Broker:
No

For All Areas Phased-In:
Yes

Guaranteed Eligibility:
6 months guaranteed eligibility

Initial Waiver Approval Date:
October 06, 1995

Implementation Date:
November 01, 1997

Waiver Expiration Date:
October 31, 2008

Sections of Title XIX Waived:
-1902(a)(1) Statewideness
-1902(a)(10)(B) Comparability of Services
-1902(a)(15) Payment for FQHCs
-1902(a)(17) Financial Eligibility Standard
-1902(a)(23) Freedom of Choice
-1902(a)(34) Retroactive eligibility
-1902(e)(2) Eligibility

Sections of Title XIX Costs Not Otherwise Matchable Granted:
-Expenditures for capitation payments made to a MCO not in compliance with section 1903(2)(A)(xi)
-Expenditures for payment to MCOs that restrict disenrollment rights

SERVICE DELIVERY

MCO (Comprehensive Benefits) - Risk-based Capitation

Service Delivery

Included Services:
Case Management, Dental, Durable Medical Equipment, EPSDT, Family Planning, Hearing, Home Health, Hospice, Immunization, Inpatient Hospital, Laboratory, Outpatient Hospital, Pharmacy, Physician, Transportation, Vision, X-Ray

Allowable PCPs:
-Nurse Practitioners
-Physician Assistants
-Other Specialists Approved on a Case-by-Case Basis
-Pediatricians
-General Practitioners
-Family Practitioners
-Internists
-Obstetricians/Gynecologists
-Federally Qualified Health Centers (FQHCs)
-Rural Health Centers (RHCs)

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

MASSACHUSETTS
Mass Health

Strategies Used to Identify Persons with Complex (Special) Needs:

-Uses eligibility data to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:

-Developmental Disabilities Agency
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Boston Medical Center HealthNet Plan
MA Behavioral Health Partnership
Network Health
Fallon Community Health Plan
Neighborhood Health Plan
Primary Care Clinician Plan

ADDITIONAL INFORMATION

Mass Health has a behavioral carve-out for PCCM enrollees and for children in the care or custody of the Commonwealth. Regarding the MH/SUD PIHP included services, there is no long-term care in mental health residential or residential substance abuse treatment programs. The Outpatient Day programs are defined as full or part-time substance abuse or mental health services provided in an ambulatory setting. Some MCO Program services have age limitations. Under the MCO, Skilled Nuresing Facility services are provided for up to 100 days. State is currently in EQRO negotiations. Emergency Transportation is provided. Chiropractic services are available for beneficiaries under 21. Vision services are available for medical reasons only.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Data Mining
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHMI
-CAHPS
  Adult Medicaid AFDC Questionnaire
  Child Medicaid AFDC Questionnaire
  Child with Special Needs Questionnaire
-PHDS Survey

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national

MASSACHUSETTS
Mass Health

-Specifications for the submission of encounter data to the standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)

-Standards to ensure complete, accurate, timely encounter data submission

-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:

-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rates
-Appropriate testing for children with URI
-Asthma care - medication use
-Breast Cancer screening rate
-Check-ups after delivery
-Controlling high blood pressure
-Depression management/care
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation and engagement of SUD treatment
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of low birth weight infants

Access/Availability of Care:

-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Percent of PCPs with open or closed patient assignment panels
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:

-Average LOS
-Average number of visits to MH/SUD providers per beneficiary
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries
-Inpatient admissions/1,000 beneficiary
-Number of OB/GYN visits per adult female beneficiary
-Number of PCP visits per beneficiary
-Number of specialist visits per beneficiary
-Percent of beneficiaries accessing 24-hour day/night care at

MASSACHUSETTS
Mass Health

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Audited Financial Statements
-Cost/Utilization
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-Outlier Spending
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCO

Standards/Accreditation

MCO Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-APS Healthcare

EQRO Organization:
-QIO-like entity

EQRO Mandatory
-Validation of performance measures

EQRO Optional Activities:
None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Well Care/EPSDT
-Asthma management
-Coordination of care for persons with physical disabilities
-Coordination of primary and behavioral health care
-Depression management
-Diabetes management
-Emergency Room service utilization
-Lead toxicity
-Low birth-weight baby
-Pharmacy management
-Post-natal Care
-Pre-natal care
-Prescription drug abuse
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Children's access to primary care practitioners

MASSACHUSETTS
Mass Health

Pay for Performance (P4P)

Implementation of P4P:
The State HAS NOT implemented a Pay-for-Performance program with the MCO, but plans to implement one in the future

Program Payers:
Medicaid has collaborated with a public sector entity to support the P4P program

Population Categories Included:
A subset of MCO members, defined by Medicaid beneficiary Maintenance Assistance Status and Basis of Eligibility

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Childhood immunizations

Measurement of Improved Performance:
Not Applicable

Initial Year of Reward:
Not Applicable

Evaluation Component:
Not Applicable

QUALITY ACTIVITIES FOR PIHP

None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Adolescent Immunization
-Adverse Events
-Breast cancer screening (Mammography)
-Cardiovascular Care
-Cervical cancer screening (Pap Test)
-Childhood Immunization
-Diabetes management
-Heart Failure Care
-Leapfrog Reporting
-Pneumonia Care
-Sexually transmitted disease screening
-Treatment of myocardial infraction
-Well Child Care/EPSDT

MINNESOTA
Minnesota Prepaid Medical Assistance Program-1115(a)

Non-Clinical Topics:
None

Standards/Accreditation

MCO Standards:
-BBA Managed Care Standards
-CMS's PIP requirements

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-MetaStar (QIO)
-Michigan PRO (QIO)

EQRO Organization:
-Private accreditation organization
-QIO-like entity

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Validation of encounter data

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
MCOs

Population Categories Included:
Covers all MCO members

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Cardiac Care
Diabetes

Measurement of Improved Performance:
Assessing improvements in, or reaching established standards in, administrative processes (e.g., timeliness of MCO response to grievances, improving customer service, etc.)
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
1999

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-MCO Standards
-Monitoring of MCO Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Beneficiary Plan Selection
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
-Disenrollment Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment

State conducts general data completeness assessments:
No

MINNESOTA
MinnesotaCare Program For Families And Children

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Cervical cancer screening rate

-Not Applicable

Therapy, Outpatient Mental Health, Outpatient Substance Use Disorders, Outpatient Surgery, Pap Smear and Pelvic Exams, PCP visits, Physical Therapy, Podiatry, Private Duty Nursing, Prostate Cancer Screening, Prosthetics, Radiation therapy, Routine Physical Exam - 1 year, Skilled Nursing Facility, Specialty Office Visits, Speech Therapy, Transportation, Urgent Care, Vision, X-Ray

Enrollment

Populations Voluntarily Enrolled:
-Medicare Dual Eligibles

Populations Mandatorily Enrolled:
None

Subpopulations Excluded from Otherwise Included Populations:
-Eligible less than 6 months
-In the LTHHCP, except for the DD
-Eligible for TB related services only
-Placed in a State OMH family care home
-In the Restricted Recipient Program
-Enrolled in hospice at the time of enrollment
-Eligible for Family Planning services only
-Elilgible for treatment for breast or cervical cancer only
-Persons with ESRD at the time of enrollment, unless meet the Medicare exception
-Spend downs
-Residents of State operated Psych facilites or residents of State certified treatment facilities for children and youth
-Individuals enrolled in a long term care demonstration
-Other Insurance
-Eligible for the Medicaid buy-in for the working disabled program who pay a premium
-Residents of Residential Health Facility at enrollment whose stay is classified as premanent
-Medicare Dual Eligibles

Lock-In Provision:
No lock-in

Medicare Dual Eligibles Included:
QMB Plus, SLMB Plus, and Medicaid only
QMB with full Medicaid coverage

Medicare Dual Eligibles Excluded:
SLMB, QI, and QDWI

Part D Benefit

MCE has Medicare Contract:
Yes

Provides Part D Benefits:
Yes

Scope of Part D Coverage:
Standard Prescription Drug

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:

None

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:

-Track Health Service provision

NEW YORK
Partnership Plan Medicaid Managed Care Program

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
None

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Alcohol and Substance abuse use screening
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Cholesterol screening and management
-Dental services
-Depression management/care
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-HIV/AIDS care

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

-Immunizations for two year olds
-Initiation of prenatal care - timeliness of

-Lead Screening rate
-Smoking prevention and cessation
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Access/Availability of Care:
-Average distance to PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Average number of visits to MH/SUD providers per beneficiary
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Number of OB/GYN visits per adult female beneficiary
-Number of PCP visits per beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Inpatient maternity care and discharge planning
-Low birth-weight baby
-Newborn screening for heritable diseases
-Post-natal Care
-Pre-natal care

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Children's access to primary care practitioners

NEW YORK
Partnership Plan Medicaid Managed Care Program

Standards/Accreditation

MCO Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Island Peer Review Organization

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Conduct performance improvement projects
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of client level data, such as claims and encounters

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by Medicaid beneficiary Maintenance Assistance Status and Basis of Eligibility

Rewards Model:
Payment incentives/differentials to reward MCOs
Preferential auto-enrollment to reward MCOs
Public reporting to reward MCOs

Clinical Conditions:
Asthma
Childhood immunizations
Depression
Diabetes
Measure Change in Performance Annually
Prenatal Care
Well-child visits

Measurement of Improved Performance:
Assessing patient satisfaction measures
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2000

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program, but plans to conduct an evaluation in the future

QUALITY ACTIVITIES FOR PCCM

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

OKLAHOMA
SoonerCare

Program Includes People with Complex (Special) Needs:

Yes

Strategies Used to Identify Persons with Complex (Special) Needs:

-Asks advocacy groups to identify members of these groups
-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:

-Aging Agency
-Developmental Disabilities Agency
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency
-Public Health Agency
-Social Services Agency
-Substance Abuse Agency
-Transportation Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

SoonerCare American Indian PCCM

SoonerCare PAHP

ADDITIONAL INFORMATION

American Indians are the only population that is eligible to enroll in the PCCM portion of the SoonerCare program. The Primary Care Provider/Case Manager is capitated for case management for each enrollee. American Indians have an option of enrolling in the PCCM or Medical-only PAHP under the SoonerCare program. Enrollment is mandatory for all covered populations.

QUALITY ACTIVITIES FOR PAHP

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PAHP Standards
-On-Site Reviews
-PAHP Standards
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
Adult Behavioral Health Care Services ECHO
Child Medicaid AFDC Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires PAHPs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission

Collections - Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing

-Requirements for data validation
-Requirements for PAHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to PAHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across PAHPs
-Specification/source code review, such as a programming language used to create an encounter data file for submission

PAHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent well-care visit rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Cholesterol screening and management

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

OREGON
Oregon Health Plan

Consumer Self-Report Data:
-CAHPS
  Adult Medicaid AFDC Questionnaire
  Adult Medicaid SSI Questionnaire
  Adult with Special Needs Questionnaire
  Child Medicaid AFDC Questionnaire
  Child Medicaid SSI Questionnaire
  Child with Special Needs Questionnaire
-Consumer/Beneficiary Focus Groups
-Disenrollment Survey
-State-developed Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Dental services
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Immunizations for two year olds
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit

Health Status/Outcomes Quality:
-Patient satisfaction with care

OREGON
Oregon Health Plan

-Smoking prevention and cessation
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners

Use of Services/Utilization:
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Inpatient admissions/1,000 beneficiary
-Percentage of beneficiaries with at least one dental visit

Neighborhood Health Plan of Rhode Island

RHODE ISLAND
Rite Care

United HealthCare of New England

ADDITIONAL INFORMATION

Since September, 2003, Children with Special Health Care Needs are offered enrollment in Rite Care unless they have comprehensive medical insurance from another source -- these children include SSI recipients, children eligible through Katie Beckett provisions, and children in subsidized adoption settings. Managed care enrollment is currently voluntary for these groups, but is not offered if children are covered by comprehensive third-party insurance. Coordination with other agencies in the care of Children with Special Health Care Needs takes place through the CEDARRS program, available to children in managed care as well as to those in fee-for-service Medicaid -- this program combines evaluation, diagnosis, referral, reevaluation and a range of other services for families of Children with Special Needs.

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-EQRO
-Focused Studies
-Grievances and Appeals
-MCO Standards
-Monitoring of MCO Standards
-Non-Duplication Based on Accreditation
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
  Adult Medicaid AFDC Questionnaire
-Consumer Advisory Committee
-Consumer/Beneficiary Focus Groups
-State-developed Survey

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Guidelines for frequency of encounter data submission
-Use of "home grown" forms

Collection: Standardized Forms:

None

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison of State data with plan-specifc data
-Comparison to benchmarks and norms (e.g. comparisons

RHODE ISLAND
Rite Care

to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Monitoring submision processes from providers to health plans to assure complete and timely submissions

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Asthma care - medication use
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Depression management/care
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Adolescents' Access to PCPs
-Adult's access to preventive/ambulatory health services
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Complaint Resolution Statistics
-Members receive followup within 30 days post behavioral health discharge
-Patient/Member Satisfaction with Access to Care
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:
-Average number of visits to MH/SUD providers per beneficiary
-Discharges from Neonatal Intensive Care Unit per 1,000 live births
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries
-Inpatient admissions/1,000 beneficiary
-Inpatient days per 1,000
-Number of OB/GYN visits per adult female beneficiary
-Number of PCP visits per beneficiary
-Number of specialist visits per beneficiary
-Percentage of beneficiaries with at least one dental visit
-Prescriptions per 1,000 population by category (name brand, generic and OTC)
-Re-admission rates of MH/SUD

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)

RHODE ISLAND

Standards/Accreditation

MCO Standards:
-NAIC (National Association of Insurance Commissioners) Standards
-NCQA (National Committee for Quality Assurance) Standards

Accreditation Required for
-NCQA (National Committee for Quality Assurance)

Non-Duplication Based on
-NCQA (National Committee for Quality Assurance)

EQRO Name:
-IPRO, Inc.

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Detailed technical report for each MCO
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Validation of encounter data

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing

Clinical Topics:
-Behavioral health followup after hospitatlization for mental illness
-Cervical cancer screening (Pap Test)
-Childhood Immunization
-Chlamydia screening
-Diabetes management
-Lead toxicity
-Post-natal Care

Non-Clinical Topics:
-Member satistisfaction
-Turnaround time for resolving member complaints

RHODE ISLAND
Rite Care

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance

Program Payers:
Medicaid is the only payer
program with MCO

Population Categories Included:
A subset of MCO members, defined by Medicaid beneficiary Maintenance Assistance Status and Basis of Eligibility

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Asthma
Childhood immunizations
Depression
Diabetes
Lead Screening Rates
Prenatal Care
Well-child visits

Measurement of Improved Performance:
Assessing improvements in, or reaching established standards in, administrative processes (e.g., timeliness of MCO response to grievances, improving customer service, etc.)
Assessing patient satisfaction measures
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2002

Evaluation Component:
The State has conducted an evaluation of the effectiveness of its P4P program

ADDITIONAL INFORMATION

All medically necessary services are provided through the managed care organizations. All mental health and substance use disorder services are provided through behavioral health organizations except that MCOs cover these services in the middle region. The State has carved out Pharmacy services for eligible TennCare enrollees. Nonprescription drugs and those used for symptomatic relief of cought and colds are covered for children under age 21. Prenatal vitamins and fluoride preparations are covered under Pharmacy. TennCare also has carved out dental services available to enrollees under 21 years only. All Title XIX Medicaid services are covered except Long Term Care and Medicare crossovers. Not all categories included in TennCare are mandatory Medicaid categories. The Dental Benefits Manager and Pharmacy Benefits Manager are administrators (ASO) and are paid an Administrative Services fee. The managers handles claims administration and are reimbursed for the paid claims

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Accreditation for Participation (see below for details)
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Network Data
-Non-Duplication Based on Accreditation
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-ANOVA (Analysis of Variance)
-Contract Standard Compliance
-Data Mining
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
  Child with Special Needs Questionnaire
  Medicaid Adult Questionnaire
  Medicaid Child Questionnaire
-Consumer/Beneficiary Focus Groups
-State-developed Survey

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

amount(s).

-Use of unique identification numbers (such as SSN, Medicaid identifications) for beneficiaries

Collection: Standardized Forms:

-8370 or ADA - American Dental Association dental claim format
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCO
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Beta-blocker treatment after heart attack
-Breast Cancer screening rate
-Breast cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Cholesterol screening and management
-Controlling high blood pressure
-Dental services
-Depression management/care
-Diabetes management/care
-Frequency of on-going prenatal care
-Hearing services for individuals less than 21 years of age
-Heart Failure care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care
-Percentage of low birth weight infants

TENNESSEE

TennCare

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Annual Financial Statements
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-Quarterly Financial Statements
-State minimum reserve requirements
-Total revenue
-Weekly Claims Inventory Reports

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Beneficiary need for interpreter
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCO

-Weeks of pregnancy at time of enrollment in MCO, for

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Asthma management
-Diabetes management
-Pre/Post Maternity Care Management with a High-Risk Focus
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Children's access to primary care practitioners

Medical-only PIHP (risk or non-risk, non-comprehensive) - Non-risk Capitation

Service Delivery

Included Services:
Case Management, Diabetes self-management, Durable Medical Equipment, Enhanced Services to Pregnant Women, EPSDT, ESRD, Family Planning, Hearing, HIV Prevention, Home Health, Hospice, Immunization, Inpatient Hospital, Inpatient medical detoxification, Laboratory, Medical Supples, Occupational Therapy, Outpatient Hospital, Personal Care, Physical Therapy, Physician, Podiatry, Preventive, Private Duty Nursing, Skilled Nursing Facility (less than 30 days), Speech Therapy, Vision, Well-

Allowable PCPs:
-Pediatricians
-General Practitioners
-Family Practitioners
-Internists
-Obstetricians/Gynecologists
-Nurse Practitioners
-Nurse Midwives
-Other Specialists Approved on a Case-by-Case Basis

Enrollment

Populations Voluntarily Enrolled:
None

Populations Mandatorily Enrolled:
-Medically Needy (not aged, blind, or disabled) Adults
-Medicare Dual Eligibles
-Section 1931 (AFDC/TANF) Adults and Related Populations
-Section 1925 (Traditional Medical Assistance) Adults

Subpopulations Excluded from Otherwise Included Populations:
-Reside in the State Hospital (IMD) or in the State Developmental Center (DD/MR)
-During Retroactive Eligibility Period
-If approved as exempt from mandatory enrollment
-Reside in Nursing Facility or ICF/MR
-Eligibility Less Than 3 Months
-Medicare Dual Eligibles

Lock-In Provision:
12 month lock-in

Medicare Dual Eligibles Included:
QMB Plus, SLMB Plus, and Medicaid only

Medicare Dual Eligibles Excluded:
QMB
SLMB, QI, and QDWI

Part D Benefit

MCE has Medicare Contract:
Yes

Provides Part D Benefits:
Yes

Scope of Part D Coverage:
Standard Prescription Drug

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:

None

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Bear River Mental Health
Davis Mental Health
Healthy U
Molina Healthcare of Utah (Molina Plus)
Central Utah Mental
Four Corners Mental Health
IHC Health Plans Inc.
Molina Healthcare of Utah (Molina)

UTAH
Primary Care Network (PCN)

Northeastern Counseling Center
Valley Mental Health
Weber Mental Health
Southwest Mental Health
Wasatch Mental Health

ADDITIONAL INFORMATION

PCN program is a statewide section 1115 demonstration to expand Medicaid coverage. PCN also offers the full Medicaid state plan package to certain high-risk pregnant women with assets in excess of state plan levels, and a primary/preventive package to certain adults age 19 and above, with incomes under 150% FPL, who are not otherwise Medicaid-eligible. The PIHP contracts covering physical health care are non-risk. Medicaid reimburses each of these contractors for services. The PIHP contracts covering mental health care are risk-based. Payment is a non-risk arrangement. Skilled Nursing Facility services are provided for less than 30 days under the PIHP. Only Emergency Transportation is provided under the PCCM.

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Monitoring of PIHP Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-PIHP Standards

Use of Collected Data:

-Contract Standard Compliance
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Track Health Service provision

Consumer Self-Report Data:

-State-developed Survey

Use of HEDIS:

-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for initial encounter data submission

Collection: Standardized Forms:

-ANSI ASC X12 837 - transaction set format for transmitting health care claims data

Validation - Methods:

-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to PIHP commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Per member per month analysis and comparisons across PIHPs

UTAH
Primary Care Network (PCN)

PIHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-Duplicate Service
-Place of Service

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Cholesterol screening and management
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants
-Recidvism
-Symptom reduction

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average time for intake
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Average number of visits to MH/SUD providers per beneficiary
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-Information on age and gender
-Information on primary languages spoken by beneficiaries

Performance Improvement Projects

Project Requirements:
-PIHPs are required to conduct a project(s) of their own Choosing

Clinical Topics:
-Coordination of primary and behavioral health care

UTAH
Primary Care Network (PCN)

Non-Clinical Topics:
Not Applicable - PIHPs are not required to conduct common project(s)

Standards/Accreditation

PIHP Standards:
-State-Developed/Specified Standards

Accreditation Required for

ADDITIONAL INFORMATION

BadgerCare is the Wisconsin Title XXI SCHIP managed care program. It has the same benefit package and contracts with the same HMO plans as the Wisconsin Medicaid HMO Program. BadgerCare enrolls children and parents with specific requirements for income level, lack of other insurance coverage, and other factors. On 07/01/1999, BadgerCare began operating under an 1115 demonstration waiver initially approved on 04/01/1999 and amended on 01/18/2001. Other special circumstances: enrollment varies by county; summary and detailed claims data required; HMOs required to coordinate with WIC, county non-MA programs, and other local agencies and programs.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

Performance Measures

Process Quality:

-Breast Cancer screening rate
-Cervical cancer screening rate
-Children with at least one comprehensive EPSDT well child visit in the look-back period at age 3-5 years,6-14 years, and 15-20 years
-Children with at least one non-EPSDT well-child visit in the look-back period at ages birth-1 year, 1-2 years, 3-5 years, 6-14 years and 15-20 years
-Comprehensive EPSDT well-child visits for children age birth to two years for those receiving 5,6,and 7, or more visits
-Dental services
-Diabetes management/care
-Follow-up after hospitalization for mental illness
-Hearing services for individuals of all ages
-Immunizations for two year olds
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Vision services for individuals of all ages

Health Status/Outcomes Quality:

-Breast malignancies detected
-Cervix/uterus malignancies detected
-HPV infections detected
-Patient satisfaction with care

Access/Availability of Care:

-Average distance to PCP
-Provider network data on geographic distribution
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:

-Percentage of beneficiaries accessing 24-hour day/night care at MH/SUD facility
-Percentage of beneficiaries with at least one dental visit
-Percentage of beneficiaries with at least one PCP visit
-Percentage of beneficiaries with at least one specialist visit

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Community Care Health Plan
Community Living Alliance
Community Health Partnership -- Partnership
Elder Care Of Dane County - Partnership

ADDITIONAL INFORMATION

The Wisconsin Partnership Program began operating under a dual Medicaid--Medicare waiver in January 1999. This demonstration project provides comprehensive Medicaid and Medicare services for older adults (ages 65+) and people with physical disabilities (ages 18-64). The Partnership Program integrates health and long-term support services and includes home- and community-based care, physician services, and all other medical care. Services are delivered in the participants home or a setting of his or her choice. Team-based care management is a key component of the program. Enrollees must meet nursing home level-of-care. The Partnership Program goals are to: improve quality of health care and service delivery while containing costs; reduce fragmentation and inefficiency in the existing health care delivery system; increase the ability of people to live in the community and participate in decisions regarding their own health care. Other special characteristics: same goals as PACE Program; nurse practitioners play a key role in linking services; recipients can bring their own provider as PCP; external committee evaluation data techniques.

ADDITIONAL INFORMATION

Restricts aid code beneficiaries designated mandatory to enroll in 1 of 5 health plans and 1 of 4 dental plans. This program operates under the combined authorities of Section 1932(a) and 1915(b). The corresponding 1915(b) waiver is California CCS/ Dental Waiver Program, which provides authority for mandatory enrollment in Sacramento GMC of those populations that would otherwise be excluded from mandatory enrollment under Section 1932(a). The CCS/Dental waiver also provides the authority for the mandatory dental managed care component of Sacramento GMC.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:

-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national

CALIFORNIA
Sacramento Geographic Managed Care (CCS/Dental)

-Standards to ensure complete, accurate, timely encounter standardized forms (e.g. UB-92, NCPDP, ASC X12 837, data submission ADA)
-Guidelines for frequency of encounter data submission

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

CALIFORNIA
Two-Plan Model Program

-Guidelines for initial encounter data submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Medicaid Eligibility

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Chlamdyia screening in women
-Diabetes medication management
-Initiation of prenatal care - timeliness of
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Average distance to PCP

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCO

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.

Clinical Topics:
-Adolescent Well Care/EPSDT
-Asthma management
-Childhood Immunization
-Diabetes management
-Increase Hemoglobin A1c Diabetes Management
-Increase Postpartum Visits
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adolescent Health
-Improve authorized time for Pharmacy
-Improve Encounter Data - Adolescent Health

-Increasing Specialist reports to PCP
-Initial Health Assessments

Standards/Accreditation

MCO Standards:
None

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Delmarva Foundation

EQRO Organization:
-Private accreditation organization
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Calculation of performance measures

SERVICE DELIVERY

MCO (Comprehensive Benefits) - Risk-based Capitation

Service Delivery

Included Services:
Case Management, Dental, Durable Medical Equipment, EPSDT, Family Planning, Hearing, Home Health, Hospice, Immunization, Inpatient Hospital, Inpatient Mental Health, Inpatient Substance Use Disorders, Laboratory, Occupational Therapy, Outpatient Hospital, Outpatient Mental Health, Pharmacy, Physical Therapy, Physician, Podiatry, Skilled Nursing Facility, Speech Therapy, Transportation, Vision, X-Ray

Allowable PCPs:
-Pediatricians
-General Practitioners
-Family Practitioners
-Internists
-Obstetricans/Gynecologists or Gynecologists
-Federally Qualified Health Centers (FQHCs)
-Nurse Practitioners
-Nurse Midwives
-Psychiatrists
-Psychologists
-Clinical Social Workers
-Addictionologists
-Other Specialists Approved on a Case-by-Case Basis

Enrollment

DISTRICT OF COLUMBIA
District of Columbia Medicaid Managed Care Program

Populations Voluntarily Enrolled:
-Children receiving adoption assistance
-Special Needs Children (State defined)
-IMMIGRANT CHILDREN (STATE ONLY)

Populations Mandatorily Enrolled:
-Section 1931 (AFDC/TANF) Children and Related Populations
-Section 1931 (AFDC/TANF) Adults and Related Populations

Subpopulations Excluded from Otherwise Included Populations:
-Medicare Dual Eligibles
-Reside in Nursing Facility or ICF/MR
-Participate in HCBS Waiver

Lock-In Provision:
12 month lock-in

Medicare Dual Eligibles Included:
None

Medicare Dual Eligibles Excluded:
Exclude all categories of Medicare Dual Eligibles

Part D Benefit

MCE has Medicare Contract:
No

Provides Part D Benefits:
Not Applicable

Scope of Part D Coverage:
Not Applicable

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:

None

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:

Yes

Strategies Used to Identify Persons with Complex (Special) Needs:

-Reviews complaints and grievances to identify members of these groups
-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:

-Developmental Disabilities Agency
-Maternal and Child Health Agency
-Public Health Agency
-Social Services Agencies

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

AMERIGROUP
DC Chartered Health Plan, Incorporated
Health Right Incorporated

ADDITIONAL INFORMATION

Adult Day Treatment applies to Mental Health Retardation. TANF HIV patients can opt out of managed care, pregnant women do not have opt out provision unless they are HIV positive or have AIDS. Children with SSI and SSI Related Diagnosis.

DISTRICT OF COLUMBIA
District of Columbia Medicaid Managed Care Program

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Accreditation for Participation (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Beneficiary Plan Selection
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
None

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State uses/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects, BUT modifies the continous enrollment requirement for some or all of the measures

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCOs
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID

State conducts general data completeness assessments:
Yes

DISTRICT OF COLUMBIA
District of Columbia Medicaid Managed Care Program

-Type of Service
-Medicaid Eligibility

-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

Performance Measures

Process Quality:
-Adolescent immunization rate
-Check-ups after delivery
-Dental services
-Depression management/care
-Follow-up after hospitalization for mental illness
-Hearing services for individuals less than 21 years of age
-HIV/AIDS care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Number of children with diagnosis of rubella(measles)/1,000 children
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of dental providers to beneficiaries
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:
-Average number of visits to MH/SUD providers per beneficiary
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Number of specialist visits per beneficiary
-Percent of beneficiaries accessing 24-hour day/night care at MH/SUD facility
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-Total revenue

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Immunization
-Adolescent Well Care/EPSDT
-Adult hearing and vision screening
-Asthma management
-Beta Blocker treatment after a heart attack
-Child/Adolescent Dental Screening and Services
-Child/Adolescent Hearing and Vision Screening and Services

-Childhood Immunization
-Cholesterol screening and management
-Depression management
-Diabetes management/care
-Low birth-weight baby
-Newborn screening for heritable diseases
-Post-natal Care
-Pre-natal care
-Primary and behavioral health care coordination
-Well Child Care/EPSDT

Non-Clinical Topics:
-Adults access to preventive/ambulatory health services
-Availability of language interpretation services
-Children's access to primary care practitioners

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations) Standards
-NCQA (National Committee for Quality Assurance) Standards
-State-Developed/Specified Standards

Accreditation Required for
-AAAHC (Accreditation Association for Ambulatory Health Care)

-JCAHO (Joint Commission on Accreditation of Healthcare Organizations)
-MCO must be accredited by appropriate body

Non-Duplication Based on
None

EQRO Name:
-Delmarva Foundation for Medical Care

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Calculation of performance measures
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Validation of client level data, such as claims and encounters

QUALITY ACTIVITIES FOR MCO/HIO

KANSAS
HealthWave 19

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Beneficiary Plan Selection
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-HIPAA 837 electronic submission format
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Medical record validation

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
No

KANSAS
HealthWave 19

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rates
-Asthma care - medication use
-Hearing services for individuals less than 21 years of age
-Immunizations for two year olds
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Asthma treatment outcomes
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Panel size
-Percent of PCPs with open or closed patient assignment panels
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Drug Utilization

Health Plan Stability/ Financial/Cost of
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Medical loss ratio
-Net income
-Net worth
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)

Beneficiary Characteristics:
-Beneficiary need for interpreter

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
  Adult Medicaid AFDC Questionnaire
-Consumer/Beneficiary Focus Groups
-State-developed Survey

Use of HEDIS:

-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future

Encounter Data

Collection: Requirements:

-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:

-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers

Validation - Methods:

-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Specification/source code review, such as a programming language used to create an encounter data file for

NEBRASKA
Nebraska Health Connection Combined Waiver Program - 1932(a)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Immunizations for two year olds
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Average distance to PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
None

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Breast Cancer Screening (Mammography)
-Pre-natal care

Non-Clinical Topics:
None

NEBRASKA
Nebraska Health Connection Combined Waiver Program - 1932(a)

Standards/Accreditation

MCO Standards:
-NCQA (National Committee for Quality Assurance) Standards

Accreditation Required for
-Department of Insurance Certification
-NCQA (National Committee for Quality Assurance)

Non-Duplication Based on
-Medicare+ Choice Accreditation
-NCQA (National Committee for Quality Assurance)

EQRO Name:
-Nebraska Foundation for Medical Care

EQRO Organization:
-QIO-like entity

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
None

Pay for Performance (P4P)

Implementation of P4P:
The State HAS NOT implemented a Pay-for-Performance program with the MCO

Program Payers:

QUALITY ACTIVITIES FOR PCCM

Quality Oversight Activities:
-Consumer Self-Report Data
-Enrollee Hotlines
-On-Site Reviews
-Performance Improvements Projects (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-Consumer/beneficiary Focus Groups
-State-developed Survey

Performance Measures

Process Quality:
-Adolescent immunization rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Diabetes management/care
-Immunizations for two year olds
-Well-child care visit rates in 3, 4, 5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

NEBRASKA
Nebraska Health Connection Combined Waiver Program - 1932(a)

-Performance Measures (see below for details)

Access/Availability of Care:
-Average distance to primary care case manager

Use of Services/Utilization:
None

Provider Characteristics:
-Languages spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Beneficiary need for interpreter
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-Percentage of beneficiaries who are auto-assigned to PCCM
-Weeks of pregnancy at time of enrollment in PCCM, for women giving birth during the reporting period

Performance Improvement Projects

Clinical Topics:
-Adolescent Immunization
-Asthma management
-Childhood Immunization
-Diabetes management

Non-Clinical Topics:
None

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Asks advocacy groups to identify members of these groups
-Reviews complaints and grievances to identify members of these groups
-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses enrollment forms to identify members of these groups
-Uses provider referrals to identify members of these groups

Agencies with which Medicaid Coordinates the Operation of the Program:
-Developmental Disabilities Agency
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency
-Public Health Agency
-Social Services Agency
-Transportation Agencies

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Health Plan of Nevada

NevadaCare DBA Nevada Health Solutions

ADDITIONAL INFORMATION

NEVADA
Mandatory Health Maintenance Program

Temporary Assistance for Needy Families/Child Health Assurance Program is included in the Mandatory Program. Severely Emotionally Disturbed Children, Seriously Mentally Ill Adults, Children with Special Health Care Needs and American Indians are provided voluntary enrollment and/or disenrollment at any time.

Transportation is included but for emergency only.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Network Data
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data
-State's Quality Assessment and Performance Improvement Strategy and Work Plan

Use of Collected Data:
-Contract Standard Compliance
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCOs
-Specification/source code review, such as a programming language used to create an encounter data file for submission

NEVADA
Mandatory Health Maintenance Program

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rate
-Asthma care - medication use
-Cervical cancer screening rate
-Check-ups after delivery
-Chlamdyia screening in women
-Dental services
-Diabetes medication management
-Follow-up after hospitalization for mental illness
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:

-Asthma
-Diabetes

Access/Availability of Care:

-Children's access to primary care practitioners
-Ratio of dental providers to beneficiaries
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:

-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of

-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:

-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:

-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCO
-Weeks of pregnancy at time of enrollment in MCO, for

NEVADA
Mandatory Health Maintenance Program

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Asthma management
-Child/Adolescent Dental Screening and Services
-Childhood Immunization
-Diabetes management
-Well Child Care/EPSDT

Non-Clinical Topics:
None

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for Managed Care (QISMC) Standards for Medicaid and Medicare

Accreditation Required for
-NCQA (National Committee for Quality Assurance)

Non-Duplication Based on
-NCQA (National Committee for Quality Assurance)

EQRO Name:
-Health Services Advisory Group

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Calculation of performance measures
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of client level data, such as claims and encounters

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by beneficiary age
A subset of MCO members, defined by disease and medical condition

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Annual Dental Visits
Asthma
Well-child visits

Measurement of Improved Performance:
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2006

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program, but plans to conduct an evaluation in the future

Part D - Enhanced Alternative Coverage:

Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:

None

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:

Yes

Strategies Used to Identify Persons with Complex (Special) Needs:

-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses enrollment forms to identify members of these groups
-Uses provider referrals to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:

-Aging Agency
-Division of Youth and Family Services Agency
-Education Agency
-Maternal and Child Health Agency
-Mental Health Agency
-Public Health Agency
-Social Services Agency
-Substance Abuse Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

AmeriChoice of New Jersey, Inc.
Health Net of New Jersey, Inc.
University Health Plans, Inc.
AMERIGROUP New Jersey, Inc.
Horizon NJ Health

NEW JERSEY
NJ FamilyCare - 1932(a)

ADDITIONAL INFORMATION

The 12 month lock-in only applies to the TANF and TANF-related populations.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Accreditation for Participation (see below for details)
-After-hours Beneficiary Call-in Sessions
-Consumer Self-Report Data (see below for details)
-Data Analysis
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-Geographic Mapping
-MCO Marketing Material Approval Requirement
-Medical and Dental Provider Spot Checks
-Monitoring of MCO Standards
-Network Adequacy Assurance by Plan
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Self-Report Data
-Test 24/7 PCP Availability
-Utilization Review

Use of Collected Data:

-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-Disenrollment Survey

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measures, but plans to generate SOME or ALL of the HEDIS measures listed for Medicaid in the future
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of "home grown" forms

Collection: Standardized Forms:

None

Validation - Methods:

-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Per member per month analysis and comparisons across MCOs

NEW JERSEY
NJ FamilyCare - 1932(a)

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-Comparison of reported changes to reasonable and customary fees

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent immunization rate
-Adolescent well-care visit rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Childhood Immunizations
-Comprehensive Diabetes Care
-Lead screening rate
-Percentage of beneficiaries with at least one dental visit
-Quality and utilization of dental services
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:

-Lead Toxicity Study

Access/Availability of Care:

-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of dental providers to beneficiaries
-Ratio of mental health providers to number of beneficiaries

-Ratio of PCPs to beneficiaries

Use of Services/Utilization:

-Average length of stay
-Emergency room visits/1,000 beneficiaries
-Inpatient admissions/1,000 beneficiaries
-Inpatient Days/1,000 beneficiaries
-Pharmacy services/per beneficiaries
-Physician visits/per 1,000 beneficiaries

Health Plan Stability/ Financial/Cost of

-Actual reserves held by plan
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:

None

Beneficiary Characteristics:

-Percentage of beneficiaries who are auto-assigned to MCOs

NEW JERSEY
NJ FamilyCare - 1932(a)

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Well Care/EPSDT
-Asthma management
-Birth Outcomes
-Child/Adolescent Dental Screening and Services
-Diabetes management/care
-Lead Screenings
-Postnatal care
-Pre-natal care
-Well Child Care/EPSDT

Non-Clinical Topics:
-Children's access to primary care practitioners
-Encounter Data Improvement
-Hospital Denials and Appeals

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for managed Care (QISMC) Standards for Medicaid and Medicare

Accreditation Required for
-Department of Banking and Insurance

Non-Duplication Based on
None

EQRO Name:
-Healthcare Quality Strategies, Inc. (HQSI)

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Calculation of performance measures
-Conduct studies on access that focus on a particular aspect of clinical and non-clinical services
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Medical Record Review
-Technical assistance to MCOs to assist them in conducting quality activities

Pay for Performance (P4P)

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Fraud and Abuse
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-Health Plan Developed Survey with State Approval

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:
None

State conducts general data completeness assessments:
No

Performance Measures

Process Quality:
-Asthma care - medication use
-Beta-blocker treatment after heart attack
-Breast Cancer screening rate

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

-Diabetes management/care
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Well-child care visit rates in first 15 months of life

Access/Availability of Care:
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of OB/GYN visits per adult female beneficiary

Health Plan Stability/ Financial/Cost of
-Expenditures by medical category of service (I.e., inpatient,

Health Plan/ Provider Characteristics:
-Number and Type of Services Provided

Beneficiary Characteristics:
-MCO/PCP-specific disenrollment rate

Standards/Accreditation

MCO Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-Permedion

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Asthma management
-Beta Blocker treatment after a heart attack
-Breast cancer screening (Mammography)
-Childhood Immunization
-Depression management
-Diabetes management/care
-Emergency Room service utilization
-Hypertension management
-Lead toxicity
-Low birth-weight baby
-Pre-natal care
-Smoking prevention and cessation
-Treatment of myocardial infraction
-Well Child Care/EPSDT

Non-Clinical Topics:
-Children's access to primary care practitioners

NORTH DAKOTA
North Dakota Medicaid Managed Care Program

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Calculation of performance measures
-Conduct of performance improvement projects
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Validation of encounter data

Pay for Performance (P4P)

ADDITIONAL INFORMATION

Ohio operated its managed care program under a 1915(b) waiver through 6/30/05. This was converted to a 1932(a) state plan option effective 7/1/05.

Special needs children are children age 17 and under who are pregnant, and members under 21 years of age with one or more of the following: asthma, HIV/AIDS, a chronic physical, emotional, or mental condition for which they need or are receiving treatment or counseling, Supplemental Security Income (SSI) for a health related condition or a current letter of approval from the OHIO Department of Health, Bureau of Children with Medical Handicaps.

OHIO
State Plan Amendment for Ohio's full-risk managed care program

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Non-Duplication Based on Accreditation
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Beneficiary Plan Selection
-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Performance Incentive System Determination
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State uses/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects, BUT modifies the continous enrollment requirement for some or all of the measures
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCO data certification
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Payment data submission specifications
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Medical record validation
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:

-Date of Service
-Date of Processing
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:

Yes

Performance Measures

Process Quality:

-Adolescent well-care visit rates
-Asthma care - medication use
-Check-ups after delivery
-Dental services
-Diabetes management/care
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries with at least one dental visit
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of low birth weight infants

Access/Availability of Care:

-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Children's access to primary care practitioners

Use of Services/Utilization:

-Ancillary services/1,000 member months
-Behavioral health services/1,000 member months
-Dental visits/1,000 member months
-Drug Utilization
-Durable medical equipment/supply services/1,000 member months
-Emergency room visits/1,000 member months
-Inpatient admissions/1,000 member months
-Maternity/deliveries/1,000 member months
-Primary care visits/1,000 member months
-Vision visits/1,000 member months

Health Plan Stability/ Financial/Cost of

-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-Prompt payment requirements
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:

-Board Certification
-Provider panel by specialty and service area
-Provider turnover

Beneficiary Characteristics:

-Beneficiary need for interpreter
-Children with special health care needs
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to

OHIO
State Plan Amendment for Ohio's full-risk managed care program

Standards/Accreditation

MCO Standards:
-NAIC (National Association of Insurance Commissioners) Standards
-NCQA (National Committee for Quality Assurance) Standards
-State-Developed/Specified Standards
-URAC (previously known as Utilization Review Accreditation Committee) Standards

Accreditation Required for
None

Non-Duplication Based on
-JCAHO (Joint Commission on Accreditation of Healthcare Organizations)
-NCQA (National Committee for Quality Assurance)
-URAC (previously known as Utilization Review Accreditation Committee) Standards

EQRO Name:
-Health Services Advisory Group

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects
-Validation of performance measures

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Assessment of MCO information systems
-Calculation of performance measures
-Conduct of performance improvement projects
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities
-Validation of encounter data

Performance Improvement Projects

Project Requirements:
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Asthma management
-Child/Adolescent Dental Screening and Services
-Child/Adolescent Hearing and Vision Screening and Services
-Lead screening
-Pre-natal care
-Well Child Care/EPSDT

Non-Clinical Topics:
-Provider participation in case management activities
-Timely identification, assessment, and case management for members with special health care needs

OHIO
State Plan Amendment for Ohio's full-risk managed care program

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
Medicaid is the only payer

Population Categories Included:
A subset of MCO members, defined by beneficiary age
A subset of MCO members, defined by disease and medical condition
Covers all MCO members

Rewards Model:
Payment incentives/differentials to reward MCOs
The state takes back premiums at risk should an MCP fail to meet P4P standards.
There are penalties associated with an MCP's failure to meet performance standards.

Clinical Conditions:
Adult preventive care visits
Asthma
Case management of children with special health care needs
Child preventive care visits
Dental care
Lead screening
Prenatal Care
Well-child visits

Measurement of Improved Performance:
Assessing achievement in access to care (prevention, PCP turnover)
Assessing improvement in clinical quality (by condition) overtime
Assessing improvement in emergency department diversion overtime
Assessing patient satisfaction measures
Assessing the adoption of systematic quality improvement processes
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
2002

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program

Asuris Northwest Health
Community Health Plans
Kaiser Foundation Health Plan
PCCM Tribal Clinics
Regence Blue Shield
Columbia United Providers
Group Health
Molina
PCCM Tribal Clinics

ADDITIONAL INFORMATION

Children with Special Health Care Needs are defined as children identified by DSHS to the contractor as children served under provisions of Title V of the Social Security Act.

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:

-Contract Standard Compliance
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire
Child with Special Needs Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State uses/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects, BUT modifies the continous enrollment requirement for some or all of the measures

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Provided data submission requirements including

WASHINGTON
Healthy Options

documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing
-Use of Medicaid Identification Number for beneficiaries
-Use of Medicaid Provider Identification Numbers for providers

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
None

Health Status/Outcomes Quality:
-Immunization Rates
-Monitor Well Child Visits

Access/Availability of Care:
-Prenatal/postpartum measures

Use of Services/Utilization:
-Drug Utilization
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-Number of days in ICF or SNF per beneficiary over 64 years
-Number of home health visits per beneficiary
-Percent of beneficiaries accessing 24-hour day/night care at MH/SUD facility
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
None

Health Plan/ Provider Characteristics:
None

Beneficiary Characteristics:
None

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Immunization
-Adolescent Well Care/EPSDT
-Asthma management
-Childhood Immunization
-Coronary artery disease prevention
-Depression management

-Diabetes management
-Emergency Room service utilization
-Hypertension management
-Well Child Care/EPSDT

Non-Clinical Topics:
-Reducing health care disparities via health literacy, education campaigns, or other initiatives

Standards/Accreditation

MCO Standards:

SERVICE DELIVERY

MCO (Comprehensive Benefits) - Risk-based Capitation

Service Delivery

Included Services:
Coordination With Non-Medicaid Services (Social & Vocational Services), Recreational & Wellness Prog, Dental, Durable Medical Equipment, EPSDT, Family Planning, Hearing, Home Health, Hospice, Immunization, Inpatient Hospital, Inpatient Mental Health, Inpatient Substance Use Disorders, Laboratory, Outpatient Hospital, Outpatient Mental Health, Outpatient Substance Use Disorders, Pediatricians, Personal Care, Pharmacy, Physician, Skilled Nursing Facility, Transportation, Vision, X-Ray

Allowable PCPs:
-Pediatricians
-General Practitioners
-Family Practitioners
-Internists
-Obstetricians/Gynecologists
-Federally Qualified Health Centers (FQHCs)
-Rural Health Centers (RHCs)
-Indian Health Service (IHS) Providers
-Other Specialists Approved on a Case-by-Case Basis

Enrollment

Populations Voluntarily Enrolled:
-Medicare Dual Eligibles
-American Indians

Populations Mandatorily Enrolled:
-Blind/Disabled Adults and Related Populations

WISCONSIN
Medicaid SSI Managed Care Program

Subpopulations Excluded from Otherwise Included Populations:
-Beneficiaries Who After Enrollment Are Placed In A Nursing Home For Longer Than 90 Days
-Enrolled in Another Managed Care Program
-Participate in HCBS Waiver
-Reside in Nursing Facility or ICF/MR
-Children Under Age 19
-Medicare Dual Eligibles

Lock-In Provision:
12 month lock-in

Medicare Dual Eligibles Included:
QMB Plus, SLMB Plus, and Medicaid only

Medicare Dual Eligibles Excluded:
QMB
SLMB, QI, and QDWI

Part D Benefit

MCE has Medicare Contract:
Yes

Provides Part D Benefits:
No

Scope of Part D Coverage:
Not Applicable

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:
-None - managed care entity provides standard prescription drug coverage

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:
Yes

Strategies Used to Identify Persons with Complex (Special) Needs:
-Asks advocacy groups to identify members of these groups
-Comprehensive Assessment Required At Time of Enrollment
-Only SSI-Disabled Adult Recipients May Enroll
-Uses eligibility data to identify members of these groups
-Uses enrollment forms to identify members of these groups
-Uses provider referrals to identify members of these groups

Agencies with which Medicaid Coordinates the Operation of the Program:
-County Human Services (Mental Health, Substance Abuse, Social Services, Etc.)
-Local Public Health Agency
-Mental Health Agency
-Substance Abuse Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Abri Health Plan -- SSI
Independent Care Health Plan -- SSI
Network Health Plan - SSI
Health Advantage -- CLA
Managed Health Services -- SSI
UnitedHealthcare of WI -- SSI

ADDITIONAL INFORMATION

SSI Managed Care Program is for SSI and SSI-related Medicaid recipients, age 19 or older not living in an institution and not participating in a home and community based waiver. Dually eligible persons and Medicaid Purchase Plan recipients may enroll on a voluntary basis. Targeted Case Management Community Support Program Services, and Crisis Intervention Services are covered under fee-for-service for enrollees in this program.

WISCONSIN
Medicaid SSI Managed Care Program

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
  Adult Medicaid SSI Questionnaire
  Adult with Special Needs Questionnaire
-Consumer/Beneficiary Focus Groups
-Disenrollment Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Medical record validation
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment

State conducts general data completeness assessments:
Yes

WISCONSIN
Medicaid SSI Managed Care Program

-Diagnosis Codes
-Procedure Codes

Performance Measures

Process Quality:
-Breast Cancer screening rate
-Cervical cancer screening rate
-Dental services
-Diabetes management/care
-Follow-up after hospitalization for mental illness and substance abuse at 7 and 30 days
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Monitoring Disenrollments
-Ratio of mental health providers to number of beneficiaries

Use of Services/Utilization:
-Asthma prevalence, ED care and inpatient care
-Inpatient general and speciality care: surgery, medical, psychiatry, substance abuse
-Mental health/substance abuse evaluations and day and outpatient care
-Outpatient general and specialty care: ED without admit, primary care visits, vision care, audiology, general dental
-Percentage of beneficiaries with at least one dental visit

Health Plan Stability/ Financial/Cost of
None

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)

Beneficiary Characteristics:
-Beneficiary need for interpreter
-MCO/PCP-specific disenrollment rate

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing

Clinical Topics:
-Adolescent Immunization
-Asthma management
-Breast cancer screening (Mammography)
-Cervical cancer screening (Pap Test)
-Childhood Immunization
-Flu Vaccine Rate
-Lipid Screening

Non-Clinical Topics:
-Access to and availability of services
-Cultural competency of the HMO and its providers
-Enrollee satisfaction with the HMO customer service
-Grievances, appeals and complaints
-Satisfaction with services for enrollees with special health

care needs

Standards/Accreditation

MCO Standards:
-State-Developed/Specified Standards

Accreditation Required for
None

Non-Duplication Based on
None

EQRO Name:
-MetaStar

EQRO Organization:
-Quality Improvement Organization (QIO)

EQRO Mandatory
-Review of MCO compliance with structural and operational standards established by the State
-Validation of performance improvement projects

EQRO Optional Activities:
-Administration or validation of consumer or provider surveys
-Conduct studies on quality that focus on a particular aspect of clinical or non-clinical services
-Technical assistance to MCOs to assist them in conducting quality activities

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:

Yes

Strategies Used to Identify Persons with Complex (Special) Needs:

-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these groups
-Uses enrollment forms to identify members of these groups

Agencies with which Medicaid Coordinates the Operation of the Program:

-Developmental Disabilities Agency
-Mental Health Agency
-Social Services Agencies

-Uses provider referrals to identify members of these groups

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Colorado Access
Denver Health and Hospital Authority
Rocky Mountain Health Plan Authority

ADDITIONAL INFORMATION

Program was converted from a 1915(b) to a 1915(a) on May 1, 2003. MCO options and PIHP options are available and varies by

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:

-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-Monitoring of MCO Standards
-Network Data
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:

-Beneficiary Plan Selection
-Contract Standard Compliance
-Data Mining
-Fraud and Abuse
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:

-CAHPS
Adult Medicaid AFDC Questionnaire
Child Medicaid AFDC Questionnaire

Use of HEDIS:

-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State modifies/requires MCOs to modify some or all NCQA specifications in ways other than continous enrollment

Encounter Data

Collection: Requirements:

-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:

-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:

-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:

-Medical record validation

COLORADO
Managed Care Program

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Revenue Codes
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Adolescent immunization rate
-Adolescent well-care visit rate
-Cholesterol screening and management
-Controlling high blood pressure
-Diabetes medication management
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in first 15 months of life

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Medical loss ratio
-Net income
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-MCO/PCP-specific disenrollment rate

Performance Improvement Projects

Project Requirements:
-Multiple, but not all, MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by the State Medicaid agency.

Clinical Topics:
-Diabetes management

Non-Clinical Topics:
-Children's access to primary care practitioners

COLORADO

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Health Services For Children with Special Needs

ADDITIONAL INFORMATION

This is no longer a demonstration program but a cost-base reimbursement program and there is no risk involved for providers. Program provides Emergency Transportation only and Skilled Nursing Facility for first 30 days. Special Needs Children (State-defined): Those children who have, or are at risk for, chronic physical, developmental, behavioral, or emotional conditions and who also require health and related services of a type or amount beyond those required by children generally. This definition includes children on SSI or who are SSI-related eligibles.

-Not applicable, contractors not required to identify PCPs

Enrollment

Populations Voluntarily Enrolled:
-Medicare Dual Eligibles
-Blind/Disabled Adults and Related Populations

Populations Mandatorily Enrolled:
None

MINNESOTA
Minnesota Disability Health Options (MnDHO)

Subpopulations Excluded from Otherwise Included Populations:
-Enrolled in Another Managed Care Program
-Reside in Regional Treatment Center
-QMB or SLMB, Not Otherwise Eligible for Medicaid

Lock-In Provision:
No lock-in

Medicare Dual Eligibles Included:
QMB Plus, SLMB Plus, and Medicaid only

Medicare Dual Eligibles Excluded:
QMB
SLMB, QI, and QDWI

Part D Benefit

MCE has Medicare Contract:
Yes

Provides Part D Benefits:
No

Scope of Part D Coverage:
Not Applicable

Part D - Enhanced Alternative Coverage:
Not Applicable

Coverage of Part D Excluded Drugs in Medicaid Managed Care Contracts:

-Agents when used for symptomatic relief of cough and colds

-Barbituates
-Benzodiazepines
-Nonprescription drugs
-Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations

SERVING PEOPLE WITH COMPLEX (SPECIAL) NEEDS

Program Includes People with Complex (Special) Needs:

Yes

Strategies Used to Identify Persons with Complex (Special) Needs:

-Surveys medical needs of enrollee to identify members of these groups
-Uses eligibility data to identify members of these

Agencies with which Medicaid Coordinates the Operation of the Program:

-Mental Health Agency
-Public Health Agency
-Social Services Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

UCARE

ADDITIONAL INFORMATION

PCP provider types are designated by HMOs rather than State. Health plans have been encouraged to develop networks with professionals with disability experience. Skilled Nursing Facility is covered up to 180 days. All medicare services under parts A, B, and D are included.

QUALITY ACTIVITIES FOR MCO/HIO

MINNESOTA
Minnesota Disability Health Options (MnDHO)

State Quality Assessment and Improvement Activities:
-Annual HCBS Quality Assurance Plan
-Care Plan Audits
-Care System Reviews
-Community Measurement Project
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Enrollee Hotlines
-Focused Studies
-MCO Standards
-Monitoring of MCO Standards
-Ombudsman
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Beneficiary Plan Selection
-Health Services Research
-Monitor Quality Improvement
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
Adult Medicaid Questionaire
-Disenrollment Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)
-Per member per month analysis and comparisons across MCO

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

MINNESOTA
Minnesota Disability Health Options (MnDHO)

Performance Measures

Process Quality:
-Care Plan Audit
-Influenza vaccination rate

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Average distance to PCP
-Number of PCP Ambulatory Visits

Use of Services/Utilization:
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of days in ICF or SNF per beneficiary over 64 years
-Use of Home Health Care/1000 Beneficiaries

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Medical loss ratio
-Net income
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-MCO/PCP-specific disenrollment rate

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Prevention of Influenza and Pneumonia

Non-Clinical Topics:
None

MINNESOTA

Use of HEDIS:

-The State uses ALL of the HEDIS measures listed for Medicaid

-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all

Performance Measures

Process Quality:

-Adolescent immunization rate
-Asthma care - medication use
-Breast Cancer screening rate
-Cervical cancer screening rate
-Check-ups after delivery
-Cholesterol screening and management
-Dental services
-Diabetes medication management
-Frequency of on-going prenatal care
-Hearing services for individuals less than 21 years of age
-HIV/AIDS care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Percentage of beneficiaries with at least one dental visit
-Pregnancy Prevention
-Smoking prevention and cessation
-Vision services for individuals less than 21 years of age
-Well-child care visit rates in 3,4,5, and 6 years of life
-Well-child care visit rates in 7, 9 or 11 years of life

Health Status/Outcomes Quality:

-Patient satisfaction with care

PENNSYLVANIA
Voluntary HMO Contracts

Access/Availability of Care:
-Adult's access to preventive/ambulatory health services
-Average distance to PCP
-Average wait time for an appointment with PCP
-Children's access to primary care practitioners
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-All use of services in HEDIS measures
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary
-Number of home health visits per beneficiary
-Number of OB/GYN visits per adult female beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements
-Total revenue

Health Plan/ Provider Characteristics:
-Board Certification
-Languages Spoken (other than English)
-Provider turnover

Beneficiary Characteristics:
-Information of beneficiary ethnicity/race
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Percentage of beneficiaries who are auto-assigned to MCOs
-Weeks of pregnancy at time of enrollment in MCO, for

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-All MCOs participating in the managed care program are required to conduct a common performance improvement project(s) prescribed by State Medicaid agency

Clinical Topics:
-Adolescent Pregnancy
-Asthma management
-Child/Adolescent Dental Screening and Services
-Childhood Immunization
-Hypertension management
-Smoking prevention and cessation

Non-Clinical Topics:
-Adults Access to Dental Care
-Childrens Access to Dental Care

PENNSYLVANIA
Voluntary HMO Contracts

Standards/Accreditation

MCO Standards:
-CMS's Quality Improvement System for Managed Care (QISMC) Standards for Medicaid and Medicare

QUALITY ACTIVITIES FOR MCO/HIO

SOUTH CAROLINA
Health Maintenance Organization (HMO)

State Quality Assessment and Improvement Activities:
-Encounter Data (see below for details)
-Enrollee Hotlines
-MCO Standards
-Monitoring of MCO Standards
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)

Use of Collected Data:
-Contract Standard Compliance
-Fraud and Abuse
-Monitor Quality Improvement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
None

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State uses/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects, BUT modifies the continous enrollment requirement for some or all of the measures

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission

Collection: Standardized Forms:
-NSF (National Standard Format)
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities,

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Medical record validation
-Specification/source code review, such as a programming language used to create an encounter data file for submission

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure
-Date of Admission Invalid
-Date of Discharge Invalid
-Dollar amount billed not greater than zero
-Drug Quantity Units not greater than zero
-Invalid Drug Unit Type
-Prescribing Provider Number Not on File
-Submitting Provider Not on File

State conducts general data completeness assessments:
Yes

SOUTH CAROLINA
Health Maintenance Organization (HMO)

Performance Measures

Process Quality:
-Asthma care - medication use
-Check-ups after delivery
-Diabetes medication management
-Frequency of on-going prenatal care
-Immunizations for two year olds
-Initiation of prenatal care - timeliness of
-Lead screening rate
-Percentage of beneficiaries who are satisfied with their ability to obtain care
-Well-child care visit rates in first 15 months of life
-Well-child care visits rates in 3,4,5, and 6 years of life

Health Status/Outcomes Quality:
-Patient satisfaction with care
-Percentage of low birth weight infants

Access/Availability of Care:
-Average distance to PCP
-Average wait time for an appointment with PCP
-Ratio of PCPs to beneficiaries

Use of Services/Utilization:
-Drug Utilization
-Emergency room visits/1,000 beneficiary
-Inpatient admissions/1,000 beneficiary

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Board Certification
-Provider turnover

Beneficiary Characteristics:
-Information on primary languages spoken by beneficiaries
-MCO/PCP-specific disenrollment rate
-Weeks of pregnancy at time of enrollment in MCO, for women giving birth during the reporting period

Performance Improvement Projects

Project Requirements:
-MCOs are required to conduct a project(s) of their own choosing
-Individual MCOs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-(Newborn) Failure to thrive
-Adolescent Well Care/EPSDT
-Asthma management
-Breast cancer screening (Mammography)
-Cervical cancer screening (Pap Test)
-Cervical cancer treatment
-Childhood Immunization
-Cholesterol screening and management
-Diabetes management
-Emergency Room service utilization
-Low birth-weight baby
-Pharmacy management
-Post-natal Care
-Pregnancy Prevention
-Pre-natal care
-Well Child Care/EPSDT

Non-Clinical Topics:
None

SOUTH CAROLINA
Health Maintenance Organization (HMO)

Standards/Accreditation

MCO Standards:
-NCQA (National Committee for Quality Assurance) Standards

-Mental Health Agency
-Other Public And Private Agencies Are On The Statewide Children Come First Advisory Committee.
-Social Services Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Dane County Human Services Department -- CCF

ADDITIONAL INFORMATION

Program goal is to keep children with severe emotional disturbances out of institutions and to serve these children and their families in the community. The state reallocates previous funding for institutional placement into community based care. It uses a "wraparound," integrated services approach with multi-agency and multi-disciplinary collaboration. Key components include intensive case management, crisis intervention, and a flexible array of services and supports (including some not traditionally covered under Medicaid) based on highly individualized plans of care. This mental health and substance abuse carve-out program does not designate a primary care provider for physical health care. All enrollees must have a special needs to be eligible for

-Other Public And Private Agencies Are On The Statewide Children Come First Advisory Committee
-Social Services Agency

PARTICIPATING PLANS/PCCM AND OTHER PROGRAMS

Milwaukee County Human Services Department --
Wraparound Milwaukee

ADDITIONAL INFORMATION

Program goal is to keep children with severe emotional disturbances out of institutions and to serve these children and their families in the community. The state reallocates previous funding for institutional placement into community based care. It uses a "wraparound," integrated services approach with multi-agency and multi-disciplinary collaboration. Key components include intensive case management, crisis intervention, and a flexible array of services and supports (including some not traditionally covered under Medicaid) based on highly individualized plans of care. This mental health and substance abuse carve-out program does not designate a primary care provider for physical health care. All enrollees must have a special needs to be eligible for enrollment.

QUALITY ACTIVITIES FOR PIHP

WISCONSIN
Wraparound Milwaukee

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-Monitoring of PIHP Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-PIHP Standards

Use of Collected Data:
-Contract Standard Compliance
-Monitor Quality Improvement
-Program Evaluation
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-Annual family satisfaction survey through Families United Inc. (advocacy agency)
-State-developed Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Provided data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Required encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Required use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Specification/source code review, such as a programming language used to create an encounter data file for submission

PIHP conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes
-Revenue Codes

State conducts general data completeness assessments:
Yes

Performance Measures

Process Quality:
-Collaboration And Teamwork
-Family-Based And Community-Based Service Delivery
-Follow-up after hospitalization for mental illness

Health Status/Outcomes Quality:
-Cost-Effectiveness Comparison Of This Managed Care Program To Non-Managed Care
-Criminal Offenses And Juvenile Justice Contracts Of Enrollees,

WISCONSIN

ADDITIONAL INFORMATION

Michigan remains one of the very few, if not the only, state to have incorporated services to persons with Developmental Disabilities into a 1915(b) Freedom of Choice "managed care" waiver. Also, all persons adjudicated Medicaid eligible are deemed enrolled in this Specialty Community Mental Health Services and Supports managed care program. Included services are offered under the authority of 1915(b)(3). Included services with an "asterisk" next to it are state plan services.

ICFMR

ADDITIONAL INFORMATION

Under the Michigan Managed Specialty Support and Services Program, PIHPs administer state plan alternatives and 1915(c) waiver services. This managed mental health services program provides support and services to person with serious mental illness,

developmental disability and substance use disorders, and children with serious emotional disturbance. Persons served through the 1915(b) waiver use a combination of state plan and 1915 (b)(3) services. Persons enrolled in the C waiver, called the Habilitation Supports Waiver (HSW) use a combination of C waiver services, state plan and 1915 (b)(3) services.

QUALITY ACTIVITIES FOR PIHP

State Quality Assessment and Improvement Activities:
-Accreditation for Participation (see below for details)
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-External Quality Review
-Monitoring of PIHP Standards
-On-Site Reviews
-Performance Measures (see below for details)
-PIHP Standards

Use of Collected Data:
-Actuarial analysis
-Contract Standard Compliance
-Health Services Research
-Monitor Quality Improvement
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

Consumer Self-Report Data:
-MHSIP Consumer Survey

Use of HEDIS:
-The State DOES NOT use any of the HEDIS measures
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for PIHPs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency
-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Use of electronic file formats
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ANSI ASC X12 837 - transaction set format for transmitting health care claims data
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)

PIHP conducts data accuracy check(s) on specified data elements:

-Standards to ensure complete, accurate, timely encounter data submission

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. UB-92, NCPDP, ASC X12 837, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission
-Use of Medicaid Identification Number for beneficiaries

Collection: Standardized Forms:
-ADA - American Dental Association dental claim form
-NCPDP - National Council for Prescription Drug Programs pharmacy claim form
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities, etc.

Validation - Methods:
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills or cost-ratios)

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Medicaid Eligibility
-Plan Enrollment
-Diagnosis Codes
-Procedure Codes

State conducts general data completeness assessments:
No

Performance Measures

Process Quality:
-Cervical cancer screening rate
-Cholesterol screening and management
-Depression management/care
-Diabetes medication management
-Immunizations for two year olds
-Lead screening rate

Health Status/Outcomes Quality:
-CAHPS

MINNESOTA
Minnesota Senior Care/Minnesota Senior Care Plus

MINNESOTA
Minnesota Senior Care/Minnesota Senior Care Plus

Pay for Performance (P4P)

Implementation of P4P:
The State has implemented a Pay-for-Performance program with MCO

Program Payers:
MCOs

Population Categories Included:
Covers all MCO members

Rewards Model:
Payment incentives/differentials to reward MCOs

Clinical Conditions:
Cardiac Care
Diabetes

Measurement of Improved Performance:
Assessing improvements in, or reaching established standards in, administrative processes (e.g., timeliness of MCO response to grievances, improving customer service, etc.)
Using clinically-based outcome measures (e.g., HEDIS, NQF, etc.)

Initial Year of Reward:
1999

Evaluation Component:
The State HAS NOT conducted an evaluation of the effectiveness of its P4P program

-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Regulatory Compliance/Federal Reporting
-Track Health Service provision

NORTH CAROLINA
Piedmont Cardinal Health Plan (Innovations)

Consumer Self-Report Data:
-Plan developed and state approved consumer survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State DOES NOT generate from encounter data any of the HEDIS measure listed for Medicaid
-State use/requires PIHPs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Performance Measures

Process Quality:
-Ambulatory follow up within 7 days after discharge from mental health facility
-Ambulatory follow up within 7 days after discharge from substance abuse facility
-Follow-up after hospitalization for mental illness
-Number of Consumers moved from institutional care to community care
-Readmission rates for mental health
-Readmission rates for substance abuse

Health Status/Outcomes Quality:
-Patient satisfaction with care

Access/Availability of Care:
-Call Abandonment
-Call Answer Timeliness
-Initiation and Engagement of Alcohol and other drug dependence treatment
-Out of Network Services
-Service Availability/Accessibility
-Timeliness of initial service delivery

Use of Services/Utilization:
-Chemical dependency services utilization
-Inpatient admission for MH/SUD conditions/1,000 beneficiaries

-MH Utilization percentage of members receiving inpatient, day/night, ambulatory and other support services
-Percentage of members receiving inpatient, day/night, ambulatory and support services for chemical dependency

Health Plan Stability/ Financial/Cost of
-Actual reserves held by plan
-Days cash on hand
-Days in unpaid claims/claims outstanding
-Expenditures by medical category of service (I.e., inpatient, ER, pharmacy, lab, x-ray, dental, vision, etc.)
-Medical loss ratio
-Net income
-Net worth
-State minimum reserve requirements

Health Plan/ Provider Characteristics:
-Network Capacity

Beneficiary Characteristics:
-Diversity of Medicaid Membership

Performance Improvement Projects

Project Requirements:
-PIHPs are required to conduct a project(s) of their own choosing
-Individual PIHPs are required to conduct a project prescribed by the State Medicaid agency

Clinical Topics:
-Impact of multisystemic therapy on residential placements
-Impact of the provision of intensive in-home services on residential placements
-Reduce the number of state hospitalizations

Non-Clinical Topics:
-Adherence to reporting requirements
-Complaints processing
-provider reimbursement timelines

NORTH CAROLINA

QUALITY ACTIVITIES FOR MCO/HIO

State Quality Assessment and Improvement Activities:
-Consumer Self-Report Data (see below for details)
-Encounter Data (see below for details)
-Focused Studies
-MCO Standards
-On-Site Reviews
-Performance Improvements Projects (see below for details)
-Performance Measures (see below for details)
-Provider Data

Use of Collected Data:
-Contract Standard Compliance
-Fraud and Abuse
-Health Services Research
-Monitor Quality Improvement
-Plan Reimbursement
-Program Evaluation
-Program Modification, Expansion, or Renewal
-Track Health Service provision

Consumer Self-Report Data:
-CAHPS
  Adult Medicaid AFDC Questionnaire
  Adult Medicaid SSI Questionnaire
-State-developed Survey

Use of HEDIS:
-The State uses SOME of the HEDIS measures listed for Medicaid
-The State generates from encounter data SOME of the HEDIS measures listed for Medicaid
-State use/requires MCOs to follow NCQA specifications for all of the HEDIS measures listed for Medicaid that it collects

Encounter Data

Collection: Requirements:
-Definition(s) of an encounter (including definitions that may have been clarified or revised over time)
-Incentives/sanctions to insure complete, accurate, timely encounter data submission
-Requirements for data validation
-Requirements for MCOs to collect and maintain encounter data
-Specifications for the submission of encounter data to the Medicaid agency

Collections: Submission Specifications:
-Data submission requirements including documentation describing set of encounter data elements, definitions, sets of acceptable values, standards for data processing and editing
-Deadlines for regular/ongoing encounter data submission(s)
-Encounters to be submitted based upon national standardized forms (e.g. NSF, UB-92, NCPDP, ADA)
-Guidelines for frequency of encounter data submission
-Guidelines for initial encounter data submission

Collection: Standardized Forms:
-NSF - (National Standard Format) - the CMS approved electronic flat file format for transmitting non-institutional billing data between trading partners, such as physicians and suppliers
-UB-92 (CMS 1450) - (Uniform Billing) - the CMS approved electronic flat file format for transmitting institutional billing data between trading partners, such as hospitals, long term care facilities

Validation - Methods:
-Automated analysis of encounter data submission to help determine to data completeness (e.g. frequency distributions, cross-tabulations, trend analysis, etc.)
-Automated edits of key fields used for calculation (e.g. codes within an allowable range)
-Comparison to benchmarks and norms (e.g. comparisons to State FFS utilization rates, comparisons to MCO commercial utilization rates, comparisons to national norms, comparisons to submitted bills)
-Medical record validation
-Per member per month analysis and comparisons across MCOs

MCO/HIO conducts data accuracy check(s) on specified data elements:
-Date of Service
-Date of Processing
-Date of Payment
-Provider ID
-Type of Service
-Diagnosis Codes
-Procedure Codes
-Revenue Codes
-Age-appropriate diagnosis/procedure
-Gender-appropriate diagnosis/procedure

State conducts general data completeness assessments:
Yes

ADDITIONAL INFORMATION

Family care is capitated, full risk managed care program for the delivery of long-term care services. Family care 1915(b) Long Term Care PIHP includes 1915(c) waiver services and Medicaid State Plan Long Term Care Services. Primary and acute health care are carved out, but remain available to enrollees through the Medicaid State Plan. Every enrollee participates with an interdisciplinary care management team that, at minimum includes a nurse and a social worker, in a member-centered planning process to design an individualized service plan (ISP). The ISP is designed to identify the members long-term care needs and authorize services to achieve identified incomes. The assessment mythology uses: 1) a structured validated member interview tool .

CALIFORNIA
Program of All-inclusive Care for the Elderly (PACE)

CONTACT INFORMATION

State Medicaid Contact:

Delmira Rosas - Pettit
Contract Manager
Office of Long Term Care

(916) 440-7543

State Website Address: http://www.dhs.ca.gov

Part D Benefit

Coverage of Part D Excluded Drugs in PACE Contracts: Agents when used for anorexia, weight loss, weight gain, Agents when used for cosmetic purposes or hair growth, Agents when used for symptomatic relief of cough and colds, Agents when used to promote fertility, Benzodiazepines, Drugs used to promote fertility, Nonprescription drugs, Prescription vitamins and mineral products (except prenatal vitamins and fluoride preparations)

PACE Organization

Approved PACE Organization Name: Center for Elders Independence

Program Agreement Effective Date: November 01, 2003

PACE Contact:

Peter Szutu
510 17th Street, Suite 400
Oakland, CA 94612
(510) 433-1160

ADDITIONAL INFORMATION

Under the authority of sections 1894 and 1934 of the Social Security Act, a PACE organization coordinates and provides comprehensive health care services to frail elders.

To be eligible to enroll, individuals must be 55 years of age and older, certified by the State administering agency as needing a nursing facility level of care, and reside in the approved service area of a PACE organization. At the time of enrollment, an individual must be able to live in a community setting without jeopardizing his or her health or safety. Enrollment is voluntary and is not restricted to individuals who are Medicare beneficiaries and/or Medicaid recipients.

The PACE organization receives a prospective monthly payment for each Medicare participant based on a risk-adjusted payment rate and a prospective monthly payment for each Medicaid participant that is developed in accordance with a fee-for-service equivalent (FFSE) methodology, also referred to as the Upper Payment Limit. The Medicaid capitation must be less than the amount that would have been paid under the State plan if the individuals were not enrolled in PACE. A PACE organization may charge a premium to individuals who do not have Medicaid eligibility.

The PACE benefit package for all participants, regardless of the source of payment, must include all Medicaid-covered services, as specified in the State's approved Medicaid plan, all Medicare-covered services, and other services determined necessary by the interdisciplinary team to improve and maintain the individual's overall health status. While enrolled in a PACE program, the participant must receive all Medicare and Medicaid benefits solely through the PACE organization.

(313) 653-2222

ADDITIONAL INFORMATION

Under the authority of sections 1894 and 1934 of the Social Security Act, a PACE organization coordinates and provides comprehensive health care services to frail elders.

To be eligible to enroll, individuals must be 55 years of age and older, certified by the State administering agency as needing a nursing facility level of care, and reside in the approved service area of a PACE organization. At the time of enrollment, an individual must be able to live in a community setting without jeopardizing his or her health or safety. Enrollment is voluntary and is not restricted to individuals who are Medicare beneficiaries and/or Medicaid recipients.

The PACE organization receives a prospective monthly payment for each Medicare participant based on a risk-adjusted payment rate and a prospective monthly payment for each Medicaid participant that is developed in accordance with a fee-for-service equivalent (FFSE) methodology, also referred to as the Upper Payment Limit. The Medicaid capitation must be less than the amount that would have been paid under the State plan if the individuals were not enrolled in PACE. A PACE organization may charge a premium to individuals who do not have Medicaid eligibility.

The PACE benefit package for all participants, regardless of the source of payment, must include all Medicaid-covered services, as specified in the State's approved Medicaid plan, all Medicare-covered services, and other services determined necessary by the interdisciplinary team to improve and maintain the individual's overall health status. While enrolled in a PACE program, the participant must receive all Medicare and Medicaid benefits solely through the PACE organization.

***Managed Care Entity Type is "Other".**

- Alaska – Non-Emergency Transportation is a new 1915(b) program.

- Alabama – Maternity Care Program was converted from a 1932(a) to a 1915(b) in September 2005.

- California – Sacramento Geographic Managed Care (CSS/Dental), San Diego Geographic Managed Care, and California Two-Plan Model were operating under the 1915(b) program. In 2006, the programs were operating under both, the 1915(b) and 1932(a). Family Mosaic is a new 1915(a), voluntary program.

- Georgia – Georgia Healthy Families is a new 1932(a) program.

- Indiana – Eliminated the PCCM program under Hoosier Healthwise. All the enrollees under the PCCM program were transitioned to the MCO program. Disease Management PCCM was incorporated as a new service under the Medicaid Select PCCM Program.

- Louisiana – Community Care program was converted from a 1915(b) to a 1932(a).

- Minnesota – Minnesota Prepaid Medical Assistance Program was operating under the 1115(a). In 2006, this program was operating under both the 1932(a) and 1115(a). Minnesota Senior Care/Minnesota Senior Care Plus is a new 1915(b)/(c) program.

- Missouri – Transportation PAHP was incorporated as a new service under the MC+ Managed Care 1915(b) program.

- New Jersey – NJ's Care 2000+ changed its name to NJ Familycare.

- New Mexico – New Mexico Salud! program converted from a 1915(b)/(c) to a 1915(b). Mental Health PIHP was incorporated as a new service under New Mexico SALUD! program.

- New York – Partnership Plan – Medicaid Advantage is a new 1915(b) program. New York's Non-Emergency Transportation Program has been terminated.

- Nevada – The Mandatory Non-Emergency Transportation Broker program was converted from a 1915(b) to 1932(a).

- North Dakota – North Dakota Access and Care Program name was changed to North Dakota Medicaid Managed Care Program.

- Ohio – PremierCare Program changed its name to State Plan Amendment for Ohio's Full Risk Managed Care Program and converted from a 1915(b) to a 1932(a) in July 2005. The Enhancement Care Management program was terminated. Atrium Health Plan program is now Compcare.

- Oklahoma – The Non-Emergency Transportation program converted from a 1915(b) to a 1932a.

- Puerto Rico – Medicare Platino is a new 1915(a), voluntary program which serves only dual eligibles. Puerto Rico Health Care Reform Program name was changed to Puerto Rico Health Care Plan.
- Rhode Island – Program of All-inclusive Care for the Elderly (PACE) is a new PACE program.
- South Carolina – Medically Fragile Children is a new 1915(a), voluntary program.
- Tennessee – Dental Benefit Manager and Pharmacy Benefit Manager were incorporated as new services under the 1115 TennCare program
- Vermont – Vermont Health Access program expired in September 05. Global Commitment to Health is the new 1115 program.
- Virginia – Medallion I 1915(b) program (PCCM) was incorporated under the 1915(b) Medallion II program (MCO) in March 2005. Non-Emergency Transportation is a new 1915(b) program.
- Washington – Medicare/Medicaid Integration Partnership (MMIP) is a new 1115 program.
- West Virginia – The 1915(b) Physician Assured Access System program was incorporated under the 1915(b) Mountain Health Trust program.

National Summary of State Medicaid Managed Care Programs
Glossary as of June 30, 2006

Section: Program Data--Operating Authority Terms

1915(b)(1)	***Service Arrangement provision***. The State may restrict the provider from or through whom beneficiaries may obtain services.
1915(b)(2)	***Locality as Central Broker provision***. Under this provision, localities may assist beneficiaries in selecting a primary care provider.
1915(b)(3)	***Sharing of Cost Savings provision***. The State may share cost savings, in the form of additional services, with beneficiaries.
1915(b)(4)	***Restriction of Beneficiaries to Specified Providers provision***. Under this provision, States may require beneficiaries to obtain services only from specific providers.
1115(a)	***Research and Demonstration Clause***. The State utilizes specific authority within Section 1115(a) of the Social Security Act to allow the State to provide services through the vehicle of a Research and Demonstration Health Care Reform waiver program.
1932(a)	***State Option to use Managed Care.*** This section of the Act permits States to enroll their Medicaid beneficiaries in managed care entities on a mandatory basis without section 1915(b) or 1115 waiver authority.
1902(a)(1)	***Statewideness***. This section of the Act requires a Medicaid State plan to be in effect in all political subdivisions of the State. Waiving 1902(a)(1) indicates that this waiver program is not available throughout the State.
1902(a)(10)(B)	***Comparability of Services***. This section of the Act requires State Medicaid plans to permit all individuals eligible for Medicaid to obtain medical assistance. Waiving 1902(a)(10)(B) indicates that the scope of services offered to beneficiaries enrolled in this program are broader than those offered to beneficiaries not enrolled in the program.
1902(a)(23)	***Freedom of Choice***. This section of the Act requires State Medicaid plans to permit all individuals eligible for Medicaid

to obtain medical assistance from any qualified provider in the State. Under this program, free choice of providers is restricted.

Section: Service Delivery--Managed Care Entity Terms

PCCM

Primary Care Case Management (PCCM) Provider is usually a physician, physician group practice, or an entity employing or having other arrangements with such physicians, but sometimes also including nurse practitioners, nurse midwives, or physician assistants who contracts to locate, coordinate, and monitor covered primary care (and sometimes additional services). This category include PCCMs and those PIHPs which act as PCCMs.

PIHP

Prepaid Inpatient Health Plan (PIHP) – A PIHP is a prepaid **inpatient** health plan that provides less than comprehensive services on an at-risk or other than state plan reimbursement basis; and provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services. {Comprehensive services are define in 42 CFR 438.2} There are several types of PIHPs that States use to deliver a range of services. For example, a Mental Health (MH) PIHP is a managed care entity that provides only mental health services**.**

PAHP

Prepaid Ambulatory Health Plan (PAHP) – A PAHP is a prepaid **ambulatory** health plan that provides less than comprehensive services on an at-risk or other than state plan reimbursement basis, and does not provide, arrange for, or otherwise have responsibility for the provision of any inpatient hospital or institutional services. {Comprehensive services are defined in 42 CFR 438.2} There are several types of PAHPs that States use to deliver a range of services. For example, a Dental PAHP is a managed care entity that provides only dental services.

MCO

Managed Care Organization is a health maintenance organization, an eligible organization with a contract under §1876 or a Medicare-Choice organization, a provider sponsored organization or any other private or public organization which meets the requirements of §1902 (w) to provide comprehensive services.

HIO	***Health Insuring Organization*** is an entity that provides for or arranges for the provision of care and contracts on a prepaid capitated risk basis to provide a comprehensive set of services.

Section: Service Delivery--Reimbursement Arrangement Terms

Fee-For-Service	The managed care entity is paid for providing services to enrollees solely through fee-for-service payments, plus in a PCCM, a case management fee.
Risk-based Capitation	The managed care entity is paid for providing services to enrollees primarily through capitation. (There may be other payments under the contract such as incentive arrangements or risk-sharing.)
Non-risk Capitation	The managed care entity is paid for providing services to enrollees through capitation, but payments are settled at the end of the year at amounts that do not exceed the FFS cost for services actually provided, plus an amount for administration.

Section: Quality Activity Terms

Accreditation for Deeming	Some States use the findings of private accreditation organizations, in part or in whole, to supplement or substitute for State oversight of some quality related standards. This is referred to as "deemed compliance" with a standard.
Accreditation for Participation	State requirement that plans must be accredited to participate in the Medicaid managed care program.
Consumer Self-Report Data	Data collected through survey or focus group. Surveys may include Medicaid beneficiaries currently or previously enrolled in a MCO, PIHP, or PAHP. The survey may be conducted by the State or a contractor to the State.
Encounter Data	Detailed data about individual services provided to individual beneficiaries at the point of the beneficiary's interaction with a MCO, PIHP, PAHP institutional or practitioner provider.

	The level of detail about each service reported is similar to that of a standard claim form. Encounter data are also sometimes referred to as "shadow claims".
Enrollee Hotlines	Toll-free telephone lines, usually staffed by the State or enrollment broker that beneficiaries may call when they encounter a problem with their MCO, PIHP, PAHP. The people who staff hotlines are knowledgeable about program policies and may play an "intake and triage" role or may assist in resolving the problem.
Focused Studies	State required studies that examine a specific aspect of health care (such as prenatal care) for a defined point in time. These projects are usually based on information extracted from medical records or MCO, PIHP, PAHP administrative data such as enrollment files and encounter /claims data. State staff, EQRO staff, MCO, PIHP, PAHP staff or more than one of these entities may perform such studies at the discretion of the State.
MCO/PIHP/PAHP	These are standards that States set for plan structure, operations, and the internal quality improvement/assurance system that each MCO/PIHP/PAHP must have in order to participate in the Medicaid program.
Monitoring of Standards	Activities related to the monitoring of standards that have been set for plan structure, operations, and quality improvement/assurance to determine that standards have been established, implemented, adhered to, etc.
Ombudsman	An ombudsman is an individual who assists enrollees in resolving problems they may have with their MCO/PIHP/PAHP. An ombudsman is a neutral party who works with the enrollee, the MCO/PIHP/PAHP, and the provider (as appropriate) to resolve individual enrollee problems.
On-Site Reviews	Reviews performed on-site at the MCO/PIHP/PAHP health care delivery system sites to assess the physical resources and operational practices in place to deliver health care.
Performance Improvement Projects	Projects that examine and seek to achieve improvement in major areas of clinical and non-clinical services. These

	projects are usually based on information such as enrollee characteristics, standardized measures, utilization, diagnosis and outcome information, data from surveys, grievance and appeals processes, etc. They measure performance at two periods of time to ascertain if improvement has occurred. These projects are required by the State and can be of the MCO/PIHP/PAHPs choosing or prescribed by the State.
Performance Measures	Quantitative or qualitative measures of the care and services delivered to enrollees (process) or the end result of that care and services (outcomes). Performance measures can be used to assess other aspects of an individual or organization's performance such as access and availability of care, utilization of care, health plan stability, beneficiary characteristics, and other structural and operational aspect of health care services. Performance measures included here may include measures calculated by the State (from encounter data or another data source), or measures submitted by the MCO/PIHP/PAHP.
Provider Data	Data collected through a survey or focus group of providers who participate in the Medicaid program and have provided services to enrolled Medicaid beneficiaries. The State or a contractor of the State may conduct survey.
HEDIS Measures from Encounter Data	*Health Plan Employer Data and Information Set (HEDIS)* measures from encounter data as opposed to having the plans generate HEDIS measures. HEDIS is a collection of performance measures and their definitions produced by the National Committee for Quality Assurance (NCQA).
EQRO	Federal law and regulations require States to use an *External Quality Review Organization (EQRO)* to review the care provided by capitated managed care entities. EQROs may be Peer Review Organizations (PROs), another entity that meets PRO requirements, or a private accreditation body.

Pay for Performance (P4P)	P4P programs are designed to improve patients' quality of care by recognizing and rewarding high standards of care. This section identifies the States' implementation of a P4P program with any MCOs participating in the State's managed care program.
