## Storm Data and Unusual Weather Phenomena

January 1997

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ALABAMA, Central

#### St. Clair County

**Countywide**      **05**      **0130CST**                **0**      **0**      **7K**      **2K**      **Thunderstorm Wind (50)**  
 Several trees and power lines were downed in Wolf Creek in the southern part of the county. Several trees were also reported downed near Whitney in the northern part of the county.

#### Blount County

**Oneonta**      **05**      **0145CST**                **0**      **0**      **80K**      **0**      **Thunderstorm Wind (55)**  
 Straight-line wind damaged two hangars and three airplanes at the Oneonta Municipal Airport. The roof was torn off one hangar, and a door was torn off another.

#### Randolph County

**Wedowee**      **05**      **0315CST**                **0**      **0**      **5K**      **0**      **Thunderstorm Wind (50)**  
 A few trees were downed just north and just west of Wedowee in the central part of the county.

#### Autauga County

**17 N Prattville**      **08**      **0925CST**                **0**      **0**      **3K**      **0**      **Hail(0.75)**  
 Dime sized hail was reported in Marbury in the northeast part of Autauga County.

#### Coosa County

**11 SE Rockford**      **08**      **0945CST**                **0**      **0**      **3K**      **0**      **Hail(0.75)**  
 A storm spotter reported seeing dime size hail piled up along the road near Equality in the southeast part of the county.

#### Elmore County

**5 NW Eclectic**      **08**      **0945CST**                **0**      **0**      **3K**      **0**      **Hail(0.75)**  
 A spotter reported seeing dime size hail along the road near Central in the northern part of the county.

#### Tallapoosa County

**Dadeville**      **08**      **1005CST**                **0**      **0**      **5K**      **1K**      **Hail(0.75)**  
 Dime size hail was reported to be three inches deep and was on the ground for several hours.

#### Chambers County

**9 NE Lafayette**      **08**      **1035CST**                **0**      **0**      **5K**      **1K**      **Hail(0.75)**  
 Dime size hail was reported near Five Points in the northeast part of the county. The hail was still on the ground at 11:00 am.

#### Winston County

**Haleyville**      **08**      **1845CST**                **0**      **0**      **10K**      **0**      **Lightning**  
 A lightning bolt struck a tree outside a house and traveled into the house. A hole went through the vinyl siding and damaged the wood. Several windows were shattered.

#### Jackson County

**10 NE Scottsboro**      **09**      **0000CST**                **0**      **0**      **18K**      **0**      **Thunderstorm Wind (50)**  
 Several trees were blown down in Martintown in the central part of the county. One tree landed on top of a car. An equipment trailer was picked up and moved about 30 yards.

#### ALZ001>010

**Lauderdale - Colbert - Franklin - Lawrence - Limestone - Madison - Morgan - Marshall - Jackson - Dekalb**  
**10**      **1000CST**                **0**      **0**      **64K**      **0**      **Winter Storm**  
**2000CST**  
 One to two inches of snow fell during a snowstorm that entered into northwestern Alabama before noon. It snarled traffic and icy roadways were blamed for dozens of accidents including two deaths due to cars skidding off roads and into other cars. The storm exited the eastern part of the state around 8:00 pm CST. One of the factors that caused problems was the rapid entry of Arctic air which helped to create icy conditions as the precipitation was ending especially in the area from Florence to Huntsville.

#### Autauga County

**Prattville**      **24**      **0720CST**                **0**      **0**      **15K**      **0**      **Thunderstorm Wind (52)**  
 Trees were reported across roads in Prattville. Storm spotters estimated wind gusts to 60 mph.

## Storm Data and Unusual Weather Phenomena

January 1997

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ALABAMA, Central

#### Winston County

<b>Haleyville</b>	24	1435CST			0	0	5K	0	Hail(0.75)
-------------------	----	---------	--	--	---	---	----	---	------------

Hail ranging in size up to dimes was reported at Haleyville.

#### Winston County

<b>Double Springs</b>	24	1450CST			0	0	10K	3K	Hail(2.00)
-----------------------	----	---------	--	--	---	---	-----	----	------------

Two inch hail was reported just west of Double Springs along US 278 in the central part of the county.

#### Lawrence County

<b>10 S Moulton</b>	24	1450CST 1455CST	3	75	0	0	40K	8K	Tornado (F1)
---------------------	----	--------------------	---	----	---	---	-----	----	--------------

A weak tornado touched down in the William B. Bankhead National Forest and tracked across Highway 33 at the lookout tower. The majority of damage was done to trees and some damage was done to the Forest Service buildings at the tower.

#### Winston County Addison

<b>Addison</b>	24	1507CST			0	0	10K	3K	Hail(2.00)
----------------	----	---------	--	--	---	---	-----	----	------------

Two inch hail was reported near Addison in northeast Winston County.

#### Winston County

<b>4 ESE Addison</b>	24	1508CST			0	0	4K	0	Thunderstorm Wind (50)
----------------------	----	---------	--	--	---	---	----	---	------------------------

Several trees were blown down near the Winston/Cullman county line just off U. S. 278 east-southeast of Addison

#### Cullman County

<b>15 W Good Hope to 13 W Good Hope</b>	24	1510CST 1515CST			0	0	22K	5K	Thunderstorm Wind (50)
---	----	--------------------	--	--	---	---	-----	----	------------------------

Wind damage started about 100 yards east of the Winston/Cullman county line near U. S. 278. A shed was damaged along with a few trees. The tin roof of a barn was peeled off and several more trees were uprooted. Another swath of damage from straight line wind occurred about one mile east near the White Oak Creek community. A small house was moved off its foundation and several trees were uprooted.

#### Tuscaloosa County

<b>Tuscaloosa</b>	24	1515CST			0	0	7K	0	Hail(1.00)
-------------------	----	---------	--	--	---	---	----	---	------------

Hail the size of quarters was reported in downtown Tuscaloosa.

#### Cullman County

<b>15 W Cullman</b>	24	1517CST			0	0	5K	0	Hail(0.75)
---------------------	----	---------	--	--	---	---	----	---	------------

Dime size hail was reported along the Cullman/Winston county line.

#### Tuscaloosa County

<b>Tuscaloosa</b>	24	1530CST			0	0	7K	0	Hail(1.50)
-------------------	----	---------	--	--	---	---	----	---	------------

Hail larger than half dollars was reported in Tuscaloosa.

#### Cullman County

<b>12 NW Cullman</b>	24	1530CST			0	0	9K	3K	Hail(1.75)
----------------------	----	---------	--	--	---	---	----	----	------------

Golf ball size hail was reported in Jones Chapel in the northwest part of the county.

#### Lauderdale County

<b>10 E Florence to Florence</b>	24	1537CST			0	0	5K	0	Hail(0.75)
--------------------------------------	----	---------	--	--	---	---	----	---	------------

Dime size hail was reported along County Road 72 east of Florence

#### Lauderdale County

<b>Killen</b>	24	1542CST			0	0	5K	0	Hail(0.75)
---------------	----	---------	--	--	---	---	----	---	------------

Dimes size hail was reported at Killen.

#### Morgan County

<b>Hartselle</b>	24	1545CST			0	0	5K	0	Hail(0.75)
------------------	----	---------	--	--	---	---	----	---	------------

Dime size hail fell at Hartselle.

## Storm Data and Unusual Weather Phenomena

January 1997

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage		Character of Storm
					Killed	Injured	Property	Crops	

### ALABAMA, Central

#### Marshall County

<b>Guntersville</b>	24	1700CST			0	0	10K	3K	<b>Hail(1.75)</b>
---------------------	----	---------	--	--	---	---	-----	----	-------------------

Golf ball size hail fell at Guntersville and at several other locations across the county.

#### Shelby County

<b>3 N Indian Springs</b>	24	1700CST			0	0	7K	0	<b>Hail(1.00)</b>
---------------------------	----	---------	--	--	---	---	----	---	-------------------

Quarter size hail was reported in Meadowbrook.

#### Limestone County

<b>12 NW Athens</b>	24	1700CST			0	0	14K	2K	<b>Thunderstorm Wind (50)</b>
---------------------	----	---------	--	--	---	---	-----	----	-------------------------------

Two barns were destroyed and the West Limestone County High School press box was damage in Salem

#### Madison County

<b>Huntsville</b>	24	1700CST			0	1	10K	0	<b>Lightning</b>
-------------------	----	---------	--	--	---	---	-----	---	------------------

A news reporter with a Huntsville television station was slightly injured when lightning struck a pole near him and traveled through the ground and through him. He was covering a weather story at the time.

#### Tuscaloosa County

<b>5 S Tuscaloosa to 8 ENE Tuscaloosa</b>	24	1700CST 1715CST	10	200	1	10	5M	5K	<b>Tornado (F2)</b>
---	----	--------------------	----	-----	---	----	----	----	---------------------

At approximately 5:00 pm CST, a tornado began on the east side of the Warrior River, south of Interstate 59 and west of County Road 95. Besides trees, the initial damage was to shingles of an apartment complex in the Crabtree area. The tornado moved on a northeasterly track crossing U.S. 82 and Interstate 59. Two large businesses in a shopping center on the south side of I-59 sustained roof damage. The tornado became stronger after crossing I-59 with significantly greater damage from this point to the end of the path. Numerous trees were downed, some house roofs were damage, and several outbuildings were destroyed in the Woodland Hills residential area. Several buildings were damaged at Five Points East, the intersection of State Roads 215 and 216, including a Food World and a Big-B Drug Store, among others. Cars were tossed about like toys. One was tossed from the parking lot through the roof of the Food World. Another car was carried from the Food World parking lot into the backyard of a house immediately northeast of the Food World, a distance of between 300 and 400 feet. The tornado continued northeast through the Lynn Haven residential area causing significant damage to numerous homes, much of it strong F2 damage. Many houses in this section sustained damage that ranged from minor roof damage to total roof loss. The tornado continued across Tuscaloosa Memorial Gardens Cemetery, paralleling and crossing State Road 216. Six to eight homes in the Summerfield sub-division sustained light to moderate damage. A couple of mobile homes and several other buildings including a small corner grocery business were destroyed. The tornado dissipated in a wooded area just north of State Road 216 shortly after that around 5:15 pm CST. Tuscaloosa EMA estimated that there were 150 structures with some damage. Total tornado path length was 10 miles with a path width of 200 yards. There was one fatality, an elderly man in a vehicle in the Woodland Hills area, and ten injuries. Eight of the injuries were treated and released while 2 others were hospitalized. M71VE

#### Madison County

<b>Huntsville</b>	24	1706CST			0	0	10K	0	<b>Thunderstorm Wind (50)</b>
-------------------	----	---------	--	--	---	---	-----	---	-------------------------------

Several signs were downed along with traffic lights in Huntsville during strong wind with a thunderstorm.

#### Morgan County

<b>7 SW Hartselle</b>	24	1708CST			0	0	5K	0	<b>Hail(0.75)</b>
-----------------------	----	---------	--	--	---	---	----	---	-------------------

Dime size hail was reported in Massey in southwest Morgan County.

## Storm Data and Unusual Weather Phenomena

January 1997

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### ALABAMA, Southeast

#### Houston County

Countywide	05	0650CST 0715CST			0	0	150K	0	Thunderstorm Wind
------------	----	--------------------	--	--	---	---	------	---	-------------------

A church steeple was toppled in Wicksburg in western Houston County. A short time later, trees were snapped and a Sony plant received some roof damage. The storm continued across the northern side of Dothan downing many trees and damaging numerous homes and other buildings. Finally, in the northeast part of the county, near Columbia, the storm damaged a mobile home and downed several trees.

#### Henry County

2.5 N Newville to 8 NE Newville	05	0655CST 0705CST	6	100	0	0	180K	0	Tornado (F2)
------------------------------------	----	--------------------	---	-----	---	---	------	---	--------------

A tornado touched down north of Newville, knocking a small wood frame house off its blocks. Two miles further east the tornado caused extensive damage to a home and destroyed another unoccupied home. A barn was destroyed and several vehicles were damaged. The tornado then damaged a house two miles further east. Finally, another two miles east it damaged a house.

#### Geneva County

Hartford	24	2030CST			0	0	150K	0	Thunderstorm Wind
----------	----	---------	--	--	---	---	------	---	-------------------

A severe thunderstorm caused widespread damage across Hartford. An awning to a store was shredded and a roof to a shed was blown off and landed on a fire truck. Numerous trees were downed causing power outages. Parts of a flat roof were blown off of the National Guard armory. One home lost most of its roof and several stores in town lost windows. A satellite dish, a pool and a trampoline were damaged or destroyed at one home.

#### Houston County

Dothan	24	2118CST			0	0	30K	0	Thunderstorm Wind
--------	----	---------	--	--	---	---	-----	---	-------------------

Several homes and businesses were damaged by strong winds. Several large trees were downed along with some power lines.
