

AGENDA

Section 111 GHP Technical Teleconference Event

December 3, 2008

CMS is making this teleconference available to all Section 111 GHP Responsible Reporting Entities (RREs) and to others that have an interest in the Section 111 GHP data sharing process with CMS. This teleconference will focus on *technical issues and questions* arising from the ongoing implementation of the Section 111 GHP data exchange process.

At 1:00 PM CMS will open the phone lines and, after brief remarks, will begin to take questions about the Section 111 GHP data exchange process. We recommend that callers review the latest edition of the Section 111 GHP User Guide posted on the Section 111 Website, and other relevant documents, prior to the start of the teleconference.

Additional teleconference events are already being scheduled, to address operational and policy issues. Please focus your inquiries during this teleconference to technical issues and concerns.

We are looking forward to your questions.
