About the Guide and Toolkit

The purpose of the *guide* is to provide TB controllers and state and local TB programs with the basic information they need to create and sustain productive TB partnerships. The purpose of the *toolkit* is to make it easier to implement the tips and strategies provided in the guide.

The guide and toolkit emphasize reaching and involving nontraditional partners in TB prevention and control efforts. The guide and toolkit are designed to be used with partners to facilitate the planning of new intervention strategies and the strengthening of existing ones. No single solution or plan will meet the needs of every TB program—creativity, perseverance, and productive partners are needed to make TB prevention and control efforts successful.

What's Inside the Guide

Chapter	Contents

Making the Guide and Toolkit Work for You

Although each chapter builds on concepts presented in the chapters before it, each chapter has also been designed to stand on its own, so that you may pull out and use those chapters that are most relevant to you in the partnership process at any given time.

This guide and accompanying toolkit are offered in print and CD ROM formats. The sample tools are in Microsoft Word and can be easily edited to suit your partnership needs.

The following text-formatting conventions are used in the guide:

Text Format	Used to Identify:
Bold	Names of sections of chapters
<u>Underline</u>	Terms defined in the glossary
	E-mail addresses
Italics	■ Titles of publications, chapters, and tools
	Scientific names, such as <i>M. tuberculosis</i>
