226	Telephone Operator Services .....	62
227	Restrictions on the Use of Telephone Equipment .....	67
228	Regulation of Carrier Offering of Pay-Per-Call Services .....	74
229	Communications Assistance for Law Enforcement Act Compliance .....	81
230	Protection for Private Blocking and Screening of Offensive Material .....	82
231	Restriction of Access by Minors to Materials Commercially Distrib- uted by Means of World Wide Web That Are Harmful to Minors .....	84

## TABLE OF CONTENTS

Sec.		Page
<i>Part II Development of Competitive Markets</i>		
251	Interconnection .....	88
252	Procedures for Negotiation, Arbitration, and Approval of Agreements .....	93
253	Removal of Barriers to Entry .....	98
254	Universal Service .....	98
255	Access by Persons With Disabilities .....	113
256	Coordination for Interconnectivity .....	113
257	Market Entry Barriers Proceeding .....	114
258	Illegal Changes in Subscriber Carrier Selections .....	115
259	Infrastructure Sharing .....	115
260	Provision of Telemessaging Service .....	116
261	Effect on Other Requirements .....	117
<i>Part III Special Provisions Concerning Bell Operating Companies</i>		
271	Bell Operating Company Entry Into InterLATA Services .....	117
272	Separate Affiliate; Safeguards .....	123
273	Manufacturing by Bell Operating Companies .....	126
274	Electronic Publishing by Bell Operating Companies .....	132
275	Alarm Monitoring Services .....	136
276	Provision of Payphone Service .....	137
<b>Title III—Provisions Relating to Radio</b>		
<i>Part I. General Provisions</i>		
301	License for Radio Communication or Transmission of Energy .....	139
302	Devices Which Interfere with Radio Reception .....	139
303	General Powers of Commission .....	142
304	Waiver by Licensee .....	145
305	Government-Owned Stations .....	146
306	Foreign Ships .....	146
307	Allocation of Facilities; Term of Licenses .....	146
308	Applications for Licenses; Conditions in License for Foreign Communication .....	148
309	Action upon Applications; Form of and Conditions Attached to Licenses .....	149
310	Limitation on Holding and Transfer of Licenses .....	164
311	Special Requirements with Respect to Certain Applications in the Broadcasting Service .....	165
312	Administrative Sanctions .....	167
313	Application of Antitrust Laws; Refusal of Licenses and Permits in Certain Cases .....	168
314	Preservation of Competition in Commerce .....	168
315	Facilities for Candidates for Public Office .....	169
316	Modification by Commission of Construction Permits or Licenses .....	172
317	Announcement with Respect to Certain Matter Broadcast .....	173
318	Operation of Transmitting Apparatus .....	174
319	Construction Permits .....	174
320	Designation of Stations Liable to Interfere with Distress Signals .....	175
321	Distress Signals and Communications .....	175
322	Intercommunication in Mobile Service .....	175
323	Interference between Government and Commercial Stations .....	176
324	Use of Minimum Power .....	176
325	False Distress Signals; Rebroadcasting; Studios of Foreign Stations ...	176
326	Censorship; Indecent Language .....	183
327	Use of Naval Stations for Commercial Messages .....	183
329	Administration of Radio Laws in Territories and Possessions .....	184
330	Prohibition against Shipment of Certain Television Receivers .....	184
331	Very High Frequency Stations and AM Radio Stations .....	185
332	Mobile Services .....	186
333	Willful or Malicious Interference .....	192
334	Limitation on Revision of Equal Employment Opportunity Regulations .....	192

## TABLE OF CONTENTS

Sec.		Page
335	Direct Broadcast Satellite Service Obligations .....	193
336	Broadcast Spectrum Flexibility .....	194

## COMMUNICATIONS ACT OF 1934, AS AMENDED

AN ACT To provide for the regulation of interstate and foreign communication by wire or radio, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### TITLE I—GENERAL PROVISIONS

#### SEC. 1. [47 U.S.C. 151] PURPOSES OF ACT, CREATION OF FEDERAL COMMUNICATIONS COMMISSION.

For the purpose of regulating interstate and foreign commerce in communication by wire and radio so as to make available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex, a rapid, efficient, Nation-wide, and world-wide wire and radio communication service with adequate facilities at reasonable charges, for the purpose of the national defense, for the purpose of promoting safety of life and property through the use of wire and radio communication, and for the purpose of securing a more effective execution of this policy by centralizing authority heretofore granted by law to several agencies and by granting additional authority with respect to interstate and foreign commerce in wire and radio communication, there is hereby created a commission to be known as the "Federal Communications Commission," which shall be constituted as hereinafter provided, and which shall execute and enforce the provisions of this Act.

#### SEC. 2. [47 U.S.C. 152] APPLICATION OF ACT.

(a) The provisions of this act shall apply to all interstate and foreign communication by wire or radio and all interstate and foreign transmission of energy by radio, which originates and/or is received within the United States, and to all persons engaged within the United States in such communication or such transmission of energy by radio, and to the licensing and regulating of all radio stations as hereinafter provided; but it shall not apply to persons engaged in wire or radio communication or transmission in the Canal Zone, or to wire or radio communication or transmission wholly within the Canal Zone. The provisions of this Act shall apply with respect to cable service, to all persons engaged within the United States in providing such service, and to the facilities of cable operators which relate to such service, as provided in title VI.

(b) Except as provided in sections 223 through 227, inclusive, and section 332, and subject to the provisions of section 301 and title VI, nothing in this Act shall be construed to apply or to give the Commission jurisdiction with respect to (1) charges, classifications, practices, services, facilities, or regulations for or in connection with intrastate communication service by wire or radio of any

carrier, or (2) any carrier engaged in interstate or foreign communication solely through physical connection with the facilities of another carrier not directly or indirectly controlling or controlled by, or under direct or indirect common control with such carrier, or (3) any carrier engaged in interstate or foreign communication solely through connection by radio, or by wire and radio, with facilities, located in an adjoining State or in Canada or Mexico (where they adjoin the State in which the carrier is doing business), of another carrier not directly or indirectly controlling or controlled by, or under direct or indirect common control with such carrier, or (4) any carrier to which clause (2) or clause (3) would be applicable except for furnishing interstate mobile radio communication service or radio communication service to mobile stations on land vehicles in Canada or Mexico; except that sections 201 through 205 of this Act, both inclusive, shall, except as otherwise provided therein, apply to carriers described in clauses (2), (3), and (4).

**SEC. 3. [47 U.S.C. 153] DEFINITIONS.**

For the purposes of this Act, unless the context otherwise requires—

(1) **AFFILIATE.**—The term “affiliate” means a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term “own” means to own an equity interest (or the equivalent thereof) of more than 10 percent.

(2) **AMATEUR STATION.**—The term “amateur station” means a radio station operated by a duly authorized person interested in radio technique solely with a personal aim and without pecuniary interest.

(3) **AT&T CONSENT DECREE.**—The term “AT&T Consent Decree” means the order entered August 24, 1982, in the anti-trust action styled *United States v. Western Electric*, Civil Action No. 82-0192, in the United States District Court for the District of Columbia, and includes any judgment or order with respect to such action entered on or after August 24, 1982.

(4) **BELL OPERATING COMPANY.**—The term “Bell operating company”—

(A) means any of the following companies: Bell Telephone Company of Nevada, Illinois Bell Telephone Company, Indiana Bell Telephone Company, Incorporated, Michigan Bell Telephone Company, New England Telephone and Telegraph Company, New Jersey Bell Telephone Company, New York Telephone Company, U S West Communications Company, South Central Bell Telephone Company, Southern Bell Telephone and Telegraph Company, Southwestern Bell Telephone Company, The Bell Telephone Company of Pennsylvania, The Chesapeake and Potomac Telephone Company, The Chesapeake and Potomac Telephone Company of Maryland, The Chesapeake and Potomac Telephone Company of Virginia, The Chesapeake and Potomac Telephone Company of West Virginia, The Diamond State Telephone Company, The Ohio Bell Telephone Company, The Pacific Telephone and Telegraph Company, or Wisconsin Telephone Company; and

(B) includes any successor or assign of any such company that provides wireline telephone exchange service; but

(C) does not include an affiliate of any such company, other than an affiliate described in subparagraph (A) or (B).

(5) BROADCAST STATION.—The term “broadcast station,” “broadcasting station,” or “radio broadcast station” means a radio station equipped to engage in broadcasting as herein defined.

(6) BROADCASTING.—The term “broadcasting” means the dissemination of radio communications intended to be received by the public, directly or by the intermediary of relay stations.

(7) CABLE SERVICE.—The term “cable service” has the meaning given such term in section 602.

(8) CABLE SYSTEM.—The term “cable system” has the meaning given such term in section 602.

(9) CHAIN BROADCASTING.—The term “chain broadcasting” means simultaneous broadcasting of an identical program by two or more connected stations.

(10) COMMON CARRIER.—The term “common carrier” or “carrier” means any person engaged as a common carrier for hire, in interstate or foreign communication by wire or radio or in interstate or foreign radio transmission of energy, except where reference is made to common carriers not subject to this Act; but a person engaged in radio broadcasting shall not, insofar as such person is so engaged, be deemed a common carrier.

(11) CONNECTING CARRIER.—The term “connecting carrier” means a carrier described in clauses (2), (3), or (4) of section 2(b).

(12) CONSTRUCTION PERMIT.—The term “construction permit” or “permit for construction” means that instrument of authorization required by this Act or the rules and regulations of the Commission made pursuant to this Act for the construction of a station, or the installation of apparatus, for the transmission of energy, or communications, or signals by radio, by whatever name the instrument may be designated by the Commission.

(13) CORPORATION.—The term “corporation” includes any corporation, joint-stock company, or association.

(14) CUSTOMER PREMISES EQUIPMENT.—The term “customer premises equipment” means equipment employed on the premises of a person (other than a carrier) to originate, route, or terminate telecommunications.

(15) DIALING PARITY.—The term “dialing parity” means that a person that is not an affiliate of a local exchange carrier is able to provide telecommunications services in such a manner that customers have the ability to route automatically, without the use of any access code, their telecommunications to the telecommunications services provider of the customer’s designation from among 2 or more telecommunications services providers (including such local exchange carrier).

(16) EXCHANGE ACCESS.—The term “exchange access” means the offering of access to telephone exchange services or

facilities for the purpose of the origination or termination of telephone toll services.

(17) FOREIGN COMMUNICATION.—The term “foreign communication” or “foreign transmission” means communication or transmission from or to any place in the United States to or from a foreign country, or between a station in the United States and a mobile station located outside the United States.

(18) GREAT LAKES AGREEMENT.—The term “Great Lakes Agreement” means the Agreement for the Promotion of Safety on the Great Lakes by Means of Radio in force and the regulations referred to therein.

(19) HARBOR.—The term “harbor” or “port” means any place to which ships may resort for shelter or to load or unload passengers or goods, or to obtain fuel, water, or supplies. This term shall apply to such places whether proclaimed public or not and whether natural or artificial.

(20) INFORMATION SERVICE.—The term “information service” means the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via telecommunications, and includes electronic publishing, but does not include any use of any such capability for the management, control, or operation of a telecommunications system or the management of a telecommunications service.

(21) INTERLATA SERVICE.—The term “interLATA service” means telecommunications between a point located in a local access and transport area and a point located outside such area.

(22) INTERSTATE COMMUNICATION.—The term “interstate communication” or “interstate transmission” means communication or transmission (A) from any State, Territory, or possession of the United States (other than the Canal Zone), or the District of Columbia, to any other State, Territory, or possession of the United States (other than the Canal Zone), or the District of Columbia, (B) from or to the United States to or from the Canal Zone, insofar as such communication or transmission takes place within the United States, or (C) between points within the United States but through a foreign country; but shall not, with respect to the provisions of title II of this Act (other than section 223 thereof), include wire or radio communication between points in the same State, Territory, or possession of the United States, or the District of Columbia, through any place outside thereof, if such communication is regulated by a State commission.

(23) LAND STATION.—The term “land station” means a station, other than a mobile station, used for radio communication with mobile stations.

(24) LICENSEE.—The term “licensee” means the holder of a radio station license granted or continued in force under authority of this Act.

(25) LOCAL ACCESS AND TRANSPORT AREA.—The term “local access and transport area” or “LATA” means a contiguous geographic area—

(A) established before the date of enactment of the Telecommunications Act of 1996 by a Bell operating com-

pany such that no exchange area includes points within more than 1 metropolitan statistical area, consolidated metropolitan statistical area, or State, except as expressly permitted under the AT&T Consent Decree; or

(B) established or modified by a Bell operating company after such date of enactment and approved by the Commission.

(26) LOCAL EXCHANGE CARRIER.—The term “local exchange carrier” means any person that is engaged in the provision of telephone exchange service or exchange access. Such term does not include a person insofar as such person is engaged in the provision of a commercial mobile service under section 332(c), except to the extent that the Commission finds that such service should be included in the definition of such term.

(27) MOBILE SERVICE.—The term “mobile service” means a radio communication service carried on between mobile stations or receivers and land stations, and by mobile stations communicating among themselves, and includes (A) both one-way and two-way radio communication services, (B) a mobile service which provides a regularly interacting group of base, mobile, portable, and associated control and relay stations (whether licensed on an individual, cooperative, or multiple basis) for private one-way or two-way land mobile radio communications by eligible users over designated areas of operation, and (C) any service for which a license is required in a personal communications service established pursuant to the proceeding entitled “Amendment to the Commission’s Rules to Establish New Personal Communications Services” (GEN Docket No. 90–314; ET Docket No. 92–100), or any successor proceeding.

(28) MOBILE STATION.—The term “mobile station” means a radio-communication station capable of being moved and which ordinarily does move.

(29) NETWORK ELEMENT.—The term “network element” means a facility or equipment used in the provision of a telecommunications service. Such term also includes features, functions, and capabilities that are provided by means of such facility or equipment, including subscriber numbers, databases, signaling systems, and information sufficient for billing and collection or used in the transmission, routing, or other provision of a telecommunications service.

(30) NUMBER PORTABILITY.—The term “number portability” means the ability of users of telecommunications services to retain, at the same location, existing telecommunications numbers without impairment of quality, reliability, or convenience when switching from one telecommunications carrier to another.

(31)(A) OPERATOR.—The term “operator” on a ship of the United States means, for the purpose of parts II and III of title III of this Act, a person holding a radio operator’s license of the proper class as prescribed and issued by the Commission.

(B) “Operator” on a foreign ship means, for the purpose of part II of title III of this Act, a person holding a certificate as such of the proper class complying with the provision of the radio regulations annexed to the International Telecommuni-

cation Convention in force, or complying with an agreement or treaty between the United States and the country in which the ship is registered.

(32) PERSON.—The term “person” includes an individual, partnership, association, joint-stock company, trust, or corporation.

(33) RADIO COMMUNICATION.—The term “radio communication” or “communication by radio” means the transmission by radio of writing, signs, signals, pictures, and sounds of all kinds, including all instrumentalities, facilities, apparatus, and services (among other things, the receipt, forwarding, and delivery of communications) incidental to such transmission.

(34)(A) RADIO OFFICER.—The term “radio officer” on a ship of the United States means, for the purpose of part II of title III of this Act, a person holding at least a first or second class radiotelegraph operator’s license as prescribed and issued by the Commission. When such person is employed to operate a radiotelegraph station aboard a ship of the United States, he is also required to be licensed as a “radio officer” in accordance with the Act of May 12, 1948 (46 U.S.C. 229a–h).

(B) “Radio officer” on a foreign ship means, for the purpose of part II of title III of this Act, a person holding at least a first or second class radiotelegraph operator’s certificate complying with the provisions of the radio regulations annexed to the International Telecommunication Convention in force.

(35) RADIO STATION.—The term “radio station” or “station” means a station equipped to engage in radio communication or radio transmission of energy.

(36) RADIOTELEGRAPH AUTO ALARM.—The term “radiotelegraph auto alarm” on a ship of the United States subject to the provisions of part II of title III of this Act means an automatic alarm receiving apparatus which responds to the radiotelegraph alarm signal and has been approved by the Commission. “Radiotelegraph auto alarm” on a foreign ship means an automatic alarm receiving apparatus which responds to the radiotelegraph alarm signal and has been approved by the government of the country in which the ship is registered: *Provided*, That the United States and the country in which the ship is registered are parties to the same treaty, convention, or agreement prescribing the requirements for such apparatus. Nothing in this Act or in any other provision of law shall be construed to require the recognition of a radiotelegraph auto alarm as complying with part II of title III of this Act, on a foreign ship subject to such part, where the country in which the ship is registered and the United States are not parties to the same treaty, convention, or agreements prescribing the requirements for such apparatus.

(37) RURAL TELEPHONE COMPANY.—The term “rural telephone company” means a local exchange carrier operating entity to the extent that such entity—

(A) provides common carrier service to any local exchange carrier study area that does not include either—

(i) any incorporated place of 10,000 inhabitants or more, or any part thereof, based on the most recently

available population statistics of the Bureau of the Census; or

(ii) any territory, incorporated or unincorporated, included in an urbanized area, as defined by the Bureau of the Census as of August 10, 1993;

(B) provides telephone exchange service, including exchange access, to fewer than 50,000 access lines;

(C) provides telephone exchange service to any local exchange carrier study area with fewer than 100,000 access lines; or

(D) has less than 15 percent of its access lines in communities of more than 50,000 on the date of enactment of the Telecommunications Act of 1996.

(38) SAFETY CONVENTION.—The term “safety convention” means the International Convention for the Safety of Life at Sea in force and the regulations referred to therein.

(39)(A) SHIP.—The term “ship” or “vessel” includes every description of watercraft or other artificial contrivance, except aircraft, used or capable of being used as a means of transportation on water, whether or not it is actually afloat.

(B) A ship shall be considered a passenger ship if it carries or is licensed or certificated to carry more than twelve passengers.

(C) A cargo ship means any ship not a passenger ship.

(D) A passenger is any person carried on board a ship or vessel except (1) the officers and crew actually employed to man and operate the ship, (2) persons employed to carry on the business of the ship, and (3) persons on board a ship when they are carried, either because of the obligation laid upon the master to carry shipwrecked, distressed, or other persons in like or similar situations or by reason of any circumstance over which neither the master, the owner, nor the charterer (if any) has control.

(E) “Nuclear ship” means a ship provided with a nuclear powerplant.

(40) STATE.—The term “State” includes the District of Columbia and the Territories and possessions.

(41) STATE COMMISSION.—The term “State commission” means the commission, board, or official (by whatever name designated) which under the laws of any State has regulatory jurisdiction with respect to intrastate operations of carriers.

(42) STATION LICENSE.—The term “station license,” “radio station license,” or “license” means that instrument of authorization required by this Act or the rules and regulations of the Commission made pursuant to this Act, for the use or operation of apparatus for transmission of energy, or communications, or signals by radio by whatever name the instrument may be designated by the Commission.

(43) TELECOMMUNICATIONS.—The term “telecommunications” means the transmission, between or among points specified by the user, of information of the user’s choosing, without change in the form or content of the information as sent and received.

(44) TELECOMMUNICATIONS CARRIER.—The term “telecommunications carrier” means any provider of telecommuni-

cations services, except that such term does not include aggregators of telecommunications services (as defined in section 226). A telecommunications carrier shall be treated as a common carrier under this Act only to the extent that it is engaged in providing telecommunications services, except that the Commission shall determine whether the provision of fixed and mobile satellite service shall be treated as common carriage.

(45) TELECOMMUNICATIONS EQUIPMENT.—The term “telecommunications equipment” means equipment, other than customer premises equipment, used by a carrier to provide telecommunications services, and includes software integral to such equipment (including upgrades).

(46) TELECOMMUNICATIONS SERVICE.—The term “telecommunications service” means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

(47) TELEPHONE EXCHANGE SERVICE.—The term “telephone exchange service” means (A) service within a telephone exchange, or within a connected system of telephone exchanges within the same exchange area operated to furnish to subscribers intercommunicating service of the character ordinarily furnished by a single exchange, and which is covered by the exchange service charge, or (B) comparable service provided through a system of switches, transmission equipment, or other facilities (or combination thereof) by which a subscriber can originate and terminate a telecommunications service.

(48) TELEPHONE TOLL SERVICE.—The term “telephone toll service” means telephone service between stations in different exchange areas for which there is made a separate charge not included in contracts with subscribers for exchange service.

(49) TELEVISION SERVICE.—

(A) ANALOG TELEVISION SERVICE.—The term “analog television service” means television service provided pursuant to the transmission standards prescribed by the Commission in section 73.682(a) of its regulations (47 C.F.R. 73.682(a)).

(B) DIGITAL TELEVISION SERVICE.—The term “digital television service” means television service provided pursuant to the transmission standards prescribed by the Commission in section 73.682(d) of its regulations (47 C.F.R. 73.682(d)).

(50) TRANSMISSION OF ENERGY BY RADIO.—The term “transmission of energy by radio” or “radio transmission of energy” includes both such transmission and all instrumentalities, facilities, and services incidental to such transmission.

(51) UNITED STATES.—The term “United States” means the several States and Territories, the District of Columbia, and the possessions of the United States, but does not include the Canal Zone.

(52) WIRE COMMUNICATION.—The term “wire communication” or “communication by wire” means the transmission of writing, signs, signals, pictures, and sounds of all kinds by aid of wire, cable, or other like connection between the points of or-

igin and reception of such transmission, including all instrumentalities, facilities, apparatus, and services (among other things, the receipt, forwarding, and delivery of communications) incidental to such transmission.

**SEC. 4. [47 U.S.C. 154] PROVISIONS RELATING TO THE COMMISSION.**

(a) The Federal Communications Commission (in this Act referred to as the "Commission") shall be composed of five Commissioners appointed by the President, by and with the advice and consent of the Senate, one of whom the President shall designate as chairman.

(b)(1) Each member of the Commission shall be a citizen of the United States.

(2)(A) No member of the Commission or person employed by the Commission shall—

(i) be financially interested in any company or other entity engaged in the manufacture or sale of telecommunications equipment which is subject to regulation by the Commission;

(ii) be financially interested in any company or other entity engaged in the business of communication by wire or radio or in the use of the electromagnetic spectrum;

(iii) be financially interested in any company or other entity which controls any company or other entity specified in clause (i) or clause (ii), or which derives a significant portion of its total income from ownership of stocks, bonds, or other securities of any such company or other entity; or

(iv) be employed by, hold any official relation to, or own any stocks, bonds, or other securities of, any person significantly regulated by the Commission under this Act;

except that the prohibitions established in this subparagraph shall apply only to financial interests in any company or other entity which has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the Commission.

(B)(i) The Commission shall have authority to waive, from time to time, the application of the prohibitions established in subparagraph (A) to persons employed by the Commission if the Commission determines that the financial interests of a person which are involved in a particular case are minimal, except that such waiver authority shall be subject to the provisions of section 208 of title 18, United States Code. The waiver authority established in this subparagraph shall not apply with respect to members of the Commission.

(ii) In any case in which the Commission exercises the waiver authority established in this subparagraph, the Commission shall publish notice of such action in the Federal Register and shall furnish notice of such action to the appropriate committees of each House of the Congress. Each such notice shall include information regarding the identity of the person receiving the waiver, the position held by such person, and the nature of the financial interests which are the subject of the waiver.

(3) The Commission, in determining whether a company or other entity has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the

Commission, shall consider (without excluding other relevant factors)—

(A) the revenues, investments, profits, and managerial efforts directed to the related communications, manufacturing, or sales activities of the company or other entity involved, as compared to the other aspects of the business of such company or other entity;

(B) the extent to which the Commission regulates and oversees the activities of such company or other entity;

(C) the degree to which the economic interests of such company or other entity may be affected by any action of the Commission; and

(D) the perceptions held by the public regarding the business activities of such company or other entity.

(4) Members of the Commission shall not engage in any other business, vocation, profession, or employment while serving as such members.

(5) The maximum number of commissioners who may be members of the same political party shall be a number equal to the least number of commissioners which constitutes a majority of the full membership of the Commission.

(c) Commissioners shall be appointed for terms of five years and until their successors are appointed and have been confirmed and taken the oath of office, except that they shall not continue to serve beyond the expiration of the next session of Congress subsequent to the expiration of said fixed term of office; except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the Commissioner whom he succeeds. No vacancy in the Commission shall impair the right of the remaining commissioners to exercise all the powers of the Commission.

(d) Each Commissioner shall receive an annual salary at the annual rate payable from time to time for level IV of the Executive Schedule, payable in monthly installments. The Chairman of the Commission, during the period of his service as Chairman, shall receive an annual salary at the annual rate payable from time to time for level III of the Executive Schedule.

(e) The principal office of the Commission shall be in the District of Columbia, where its general sessions shall be held; but whenever the convenience of the public or of the parties may be promoted or delay or expense prevented thereby, the Commission may hold special sessions in any part of the United States.

(f)(1) The Commission shall have authority, subject to the provisions of the civil-service laws and the Classification Act of 1949, as amended, to appoint such officers, engineers, accountants, attorneys, inspectors, examiners, and other employees as are necessary in the exercise of its functions.

(2) Without regard to the civil-service laws, but subject to the Classification Act of 1949, each commissioner may appoint three professional assistants and a secretary, each of whom shall perform such duties as such commissioner shall direct. In addition, the chairman of the Commission may appoint, without regard to the civil-service laws, but subject to the Classification Act of 1949, an administrative assistant who shall perform such duties as the chairman shall direct.

(3) The Commission shall fix a reasonable rate of extra compensation for overtime services of engineers in charge and radio engineers of the Field Engineering and Monitoring Bureau of the Federal Communications Commission, who may be required to remain on duty between the hours of 5 o'clock postmeridian and 8 o'clock antemeridian or on Sundays or holidays to perform services in connection with the inspection of ship radio equipment and apparatus for the purposes of part II of title III of this Act or the Great Lakes Agreement, on the basis of one-half day's additional pay for each two hours or fraction thereof of at least one hour that the overtime extends beyond 5 o'clock postmeridian (but not to exceed two and one-half days' pay for the full period from 5 o'clock postmeridian to 8 o'clock antemeridian) and two additional days' pay for Sunday or holiday duty. The said extra compensation for overtime services shall be paid by the master, owner, or agent of such vessel to the local United States collector of customs or his representative, who shall deposit such collection into the Treasury of the United States to an appropriately designated receipt account: *Provided*, That the amounts of such collections received by the said collector of customs or his representatives shall be covered into the Treasury as miscellaneous receipts; and the payments of such extra compensation to the several employees entitled thereto shall be made from the annual appropriations for salaries and expenses of the Commission: *Provided further*, That to the extent that the annual appropriations which are hereby authorized to be made from the general fund of the Treasury are insufficient, there are hereby authorized to be appropriated from the general fund of the Treasury such additional amounts as may be necessary to the extent that the amounts of such receipts are in excess of the amounts appropriated: *Provided further*, That such extra compensation shall be paid if such field employees have been ordered to report for duty and have so reported whether the actual inspection of the radio equipment or apparatus takes place or not: *And provided further*, That in those ports where customary working hours are other than those hereinabove mentioned, the engineers in charge are vested with authority to regulate the hours of such employees so as to agree with prevailing working hours in said ports where inspections are to be made, but nothing contained in this proviso shall be construed in any manner to alter the length of a working day for the engineers in charge and radio engineers or the overtime pay herein fixed: and *Provided further*, That, in the alternative, an entity designated by the Commission may make the inspections referred to in this paragraph.

(4)(A) The Commission, for purposes of preparing or administering any examination for an amateur station operator license, may accept and employ the voluntary and uncompensated services of any individual who holds an amateur station operator license of a higher class than the class of license for which the examination is being prepared or administered. In the case of examinations for the highest class of amateur station operator license, the Commission may accept and employ such services of any individual who holds such class of license.

(B)(i) The Commission, for purposes of monitoring violations of any provision of this Act (and of any regulation prescribed by the

Commission under this Act) relating to the amateur radio service, may—

(I) recruit and train any individual licensed by the Commission to operate an amateur station; and

(II) accept and employ the voluntary and uncompensated services of such individual.

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any amateur station operator organization.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper amateur radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this Act (or regulations prescribed by the Commission under this Act) relating to the amateur radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this Act (or regulations prescribed by the Commission under this Act) relating to the amateur radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement action other than any action which the Commission may prescribe by rule.

(C)(i) The Commission, for purposes of monitoring violations of any provision of this Act (and of any regulation prescribed by the Commission under this Act) relating to the citizens band radio service, may—

(I) recruit and train any citizens band radio operator; and

(II) accept and employ the voluntary and uncompensated services of such operator.

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any citizens band radio operator organization. The Commission, in accepting and employing services of individuals under this subparagraph, shall seek to achieve a broad representation of individuals and organizations interested in citizens band radio operation.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper citizens band radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this Act (or regulations prescribed by the Commission under this Act) relating to the citizens band radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this Act (or regulations prescribed by the Commission under this Act) relating to the citizens band radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement action other than any action which the Commission may prescribe by rule.

(D) The Commission shall have the authority to endorse certification of individuals to perform transmitter installation, operation, maintenance, and repair duties in the private land mobile services and fixed services (as defined by the Commission by rule) if such certification programs are conducted by organizations or committees which are representative of the users in those services and which consist of individuals who are not officers or employees of the Federal Government.

(E) The authority of the Commission established in this paragraph shall not be subject to or affected by the provisions of part III of title 5, United States Code, or section 3679(b) of the Revised Statutes (31 U.S.C. 665(b)).

(F) Any person who provides services under this paragraph shall not be considered, by reason of having provided such services, a Federal employee.

(G) The Commission, in accepting and employing services of individuals under subparagraphs (A) and (B), shall seek to achieve a broad representation of individuals and organizations interested in amateur station operation.

(H) The Commission may establish rules of conduct and other regulations governing the service of individuals under this paragraph.

(I) With respect to the acceptance of voluntary uncompensated services for the preparation, processing, or administration of examinations for amateur station operator licenses, pursuant to subparagraph (A) of this paragraph, individuals, or organizations which provide or coordinate such authorized volunteer services may recover from examinees reimbursement for out-of-pocket costs.

(5)(A) The Commission, for purposes of preparing and administering any examination for a commercial radio operator license or endorsement, may accept and employ the services of persons that the Commission determines to be qualified. Any person so employed may not receive compensation for such services, but may recover from examinees such fees as the Commission permits, considering such factors as public service and cost estimates submitted by such person.

(B) The Commission may prescribe regulations to select, oversee, sanction, and dismiss any person authorized under this paragraph to be employed by the Commission.

(C) Any person who provides services under this paragraph or who provides goods in connection with such services shall not, by reason of having provided such service or goods, be considered a Federal or special government employee.

(g)(1) The Commission may make such expenditures (including expenditures for rent and personal services at the seat of government and elsewhere, for office supplies, lawbooks, periodicals, and books of reference, for printing and binding, for land for use as sites for radio monitoring stations and related facilities, including living quarters where necessary in remote areas, for the construction of such stations and facilities, and for the improvement, furnishing, equipping, and repairing of such stations and facilities and

of laboratories and other related facilities (including construction of minor subsidiary buildings and structures not exceeding \$25,000 in any one instance) used in connection with technical research activities), as may be necessary for the execution of the functions vested in the Commission and as may be appropriated for by the Congress in accordance with the authorizations of appropriations established in section 6. All expenditures of the Commission, including all necessary expenses for transportation incurred by the commissioners or by their employees, under their orders, in making any investigation or upon any official business in any other places than in the city of Washington, shall be allowed and paid on the presentation of itemized vouchers therefor approved by the chairman of the Commission or by such other members or officer thereof as may be designated by the Commission for that purpose.

(2)(A) If—

(i) the necessary expenses specified in the last sentence of paragraph (1) have been incurred for the purpose of enabling commissioners or employees of the Commission to attend and participate in any convention, conference, or meeting;

(ii) such attendance and participation are in furtherance of the functions of the Commission; and

(iii) such attendance and participation are requested by the person sponsoring such convention, conference, or meeting; then the Commission shall have authority to accept direct reimbursement from such sponsor for such necessary expenses.

(B) The total amount of unreimbursed expenditures made by the Commission for travel for any fiscal year, together with the total amount of reimbursements which the Commission accepts under subparagraph (A) for such fiscal year, shall not exceed the level of travel expenses appropriated to the Commission for such fiscal year.

(C) The Commission shall submit to the appropriate committees of the Congress, and publish in the Federal Register, quarterly reports specifying reimbursements which the Commission has accepted under this paragraph.

(D) The provisions of this paragraph shall cease to have any force or effect at the end of fiscal year 1994.

(E) Funds which are received by the Commission as reimbursements under the provisions of this paragraph after the close of a fiscal year shall remain available for obligation.

(3)(A) Notwithstanding any other provision of law, in furtherance of its functions the Commission is authorized to accept, hold, administer, and use unconditional gifts, donations, and bequests of real, personal, and other property (including voluntary and uncompensated services, as authorized by section 3109 of title 5, United States Code).

(B) The Commission, for purposes of providing radio club and military-recreational call signs, may utilize the voluntary, uncompensated, and unreimbursed services of amateur radio organizations authorized by the Commission that have tax-exempt status under section 501(c)(3) of the Internal Revenue Code of 1986.

(C) For the purpose of Federal law on income taxes, estate taxes, and gift taxes, property or services accepted under the authority of subparagraph (A) shall be deemed to be a gift, bequest, or devise to the United States.

(D) The Commission shall promulgate regulations to carry out the provisions of this paragraph. Such regulations shall include provisions to preclude the acceptance of any gift, bequest, or donation that would create a conflict of interest or the appearance of a conflict of interest.

(h) Three members of the Commission shall constitute a quorum thereof. The Commission shall have an official seal which shall be judicially noticed.

(i) The Commission may perform any and all acts, make such rules and regulations, and issue such orders, not inconsistent with this Act, as may be necessary in the execution of its functions.

(j) The Commission may conduct its proceedings in such manner as will best conduce to the proper dispatch of business and to the ends of justice. No commissioner shall participate in any hearing or proceeding in which he has a pecuniary interest. Any party may appear before the Commission and be heard in person or by attorney. Every vote and official act the Commission shall be entered of record, and its proceedings shall be public upon the request of any party interested. The Commission is authorized to withhold publication of records or proceedings containing secret information affecting the national defense.

(k) The Commission shall make an annual report to Congress, copies of which shall be distributed as are other reports transmitted to Congress. Such reports shall contain—

(1) such information and data collected by the Commission as may be considered of value in the determination of questions connected with the regulation of interstate and foreign wire and radio communication and radio transmission of energy;

(2) such information and data concerning the functioning of the Commission as will be of value to Congress in appraising the amount and character of the work and accomplishments of the Commission and the adequacy of its staff and equipment;

(3) an itemized statement of all funds expended during the preceding year by the Commission, of the sources of such funds, and of the authority in this Act or elsewhere under which such expenditures were made; and

(4) specific recommendations to Congress as to additional legislation which the Commission deems necessary or desirable, including all legislative proposals submitted for approval to the Director of the Office of Management and Budget.

(l) All reports of investigations made by the Commission shall be entered of record, and a copy thereof shall be furnished to the party who may have complained, and to any common carrier or licensee that may have been complained of.

(m) The Commission shall provide for the publication of its reports and decisions in such form and manner as may be best adapted for public information and use, and such authorized publications shall be competent evidence of the reports and decisions of the Commission therein contained in all courts of the United States and of the several States without any further proof or authentication thereof.

(n) Rates of compensation of persons appointed under this section shall be subject to the reduction applicable to officers and employees of the Federal Government generally.

(o) For the purpose of obtaining maximum effectiveness from the use of radio and wire communications in connection with safety of life and property, the Commission shall investigate and study all phases of the problem and the best methods of obtaining the cooperation and coordination of these systems.

**SEC. 5. [47 U.S.C. 155] ORGANIZATION AND FUNCTIONING OF THE COMMISSION.**

(a) The member of the Commission designated by the President as chairman shall be the chief executive officer of the Commission. It shall be his duty to preside at all meetings and sessions of the Commission, to represent the Commission in all matters relating to legislation and legislative reports, except that any commissioner may present his own or minority views or supplemental reports, to represent the Commission in all matters requiring conferences or communications with other governmental officers, departments or agencies, and generally to coordinate and organize the work of the Commission in such manner as to promote prompt and efficient disposition of all matters within the jurisdiction of the Commission. In the case of a vacancy in the office of the chairman of the Commission, or the absence or inability of the chairman to serve, the Commission may temporarily designate one of its members to act as chairman until the cause or circumstance requiring such designation shall have been eliminated or corrected.

(b) From time to time as the Commission may find necessary, the Commission shall organize its staff into (1) integrated bureaus, to function on the basis of the Commission's principal workload operations, and (2) such other divisional organizations as the Commission may deem necessary. Each such integrated bureau shall include such legal, engineering, accounting, administrative, clerical, and other personnel as the Commission may determine to be necessary to perform its functions.

(c)(1) When necessary to the proper functioning of the Commission and the prompt and orderly conduct of its business, the Commission may, by published rule or by order, delegate any of its functions (except functions granted to the Commission by this paragraph and by paragraphs (4), (5), and (6) of this subsection and except any action referred to in sections 204(a)(2), 208(b), and 405(b)) to a panel of commissioners, an individual commissioner, an employee board, or an individual employee, including functions with respect to hearing, determining, ordering, certifying, reporting, or otherwise acting as to any work, business, or matter; except that in delegating review functions to employees in cases of adjudication (as defined in the Administrative Procedure Act), the delegation in any such case may be made only to an employee board consisting of two or more employees referred to in paragraph (8). Any such rule or order may be adopted, amended, or rescinded only by a vote of a majority of the members of the Commission then holding office. Except for cases involving the authorization of service in the instructional television fixed service, or as otherwise provided in this Act, nothing in this paragraph shall authorize the Commission to provide for the conduct, by any person or persons other than persons referred to in paragraph (2) or (3) of section 556(b) of title 5, United States Code, of any hearing to which such section applies.

(2) As used in this subsection (d) the term "order, decision, report, or action" does not include an initial, tentative, or rec-

ommended decision to which exceptions may be filed as provided in section 409(b).

(3) Any order, decision, report, or action made or taken pursuant to any such delegation, unless reviewed as provided in paragraph (4), shall have the same force and effect, and shall be made, evidenced, and enforced in the same manner, as orders, decisions, reports, or other actions of the Commission.

(4) Any person aggrieved by any such order, decision, report or action may file an application for review by the Commission within such time and in such manner as the Commission shall prescribe, and every such application shall be passed upon by the Commission. The Commission, on its own initiative, may review in whole or in part, at such time and in such manner as it shall determine, any order, decision, report, or action made or taken pursuant to any delegation under paragraph (1).

(5) In passing upon applications for review, the Commission may grant, in whole or in part, or deny such applications without specifying any reasons therefore. No such application for review shall rely on questions of fact or law upon which the panel of commissioners, individual commissioner, employee board, or individual employee has been afforded no opportunity to pass.

(6) If the Commission grants the application for review, it may affirm, modify, or set aside the order, decision, report, or action, or it may order a rehearing upon such order, decision, report, or action in accordance with section 405.

(7) The filing of an application for review under this subsection shall be a condition precedent to judicial review of any order, decision, report, or action made or taken pursuant to a delegation under paragraph (1). The time within which a petition for review must be filed in a proceeding to which section 402(a) applies, or within which an appeal must be taken under section 402(b), shall be computed from the date upon which public notice is given of orders disposing of all applications for review filed in any case.

(8) The employees to whom the Commission may delegate review functions in any case of adjudication (as defined in the Administrative Procedure Act) shall be qualified, by reason of their training, experience, and competence, to perform such review functions, and shall perform no duties inconsistent with such review functions. Such employees shall be in a grade classification or salary level commensurate with their important duties, and in no event less than the grade classification or salary level of the employee or employees whose actions are to be reviewed. In the performance of such review functions such employees shall be assigned to cases in rotation so far as practicable and shall not be responsible to or subject to the supervision or direction of any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for any agency.

(9) The secretary and seal of the Commission shall be the secretary and seal of each panel of the Commission, each individual commissioner, and each employee board or individual employee exercising functions delegated pursuant to paragraph (1) of this subsection.

(d) Meetings of the Commission shall be held at regular intervals, not less frequently than once each calendar month, at which times the functioning of the Commission and the handling of its

work load shall be reviewed and such orders shall be entered and other action taken as may be necessary or appropriate to expedite the prompt and orderly conduct of the business of the Commission with the objective of rendering a final decision (1) within three months from the date of filing in all original application, renewal, and transfer cases in which it will not be necessary to hold a hearing, and (2) within six months from the final date of the hearing in all hearing cases.

(e) The Commission shall have a Managing Director who shall be appointed by the Chairman subject to the approval of the Commission. The Managing Director, under the supervision and direction of the Chairman, shall perform such administrative and executive functions as the Chairman shall delegate. The Managing Director shall be paid at a rate equal to the rate then payable for level V of the Executive Schedule.

**SEC. 6. [47 U.S.C. 156] AUTHORIZATION OF APPROPRIATIONS.**

(a) There are authorized to be appropriated for the administration of this Act by the Commission \$109,831,000 for fiscal year 1990 and \$119,831,000 for fiscal year 1991, together with such sums as may be necessary for increases resulting from adjustments in salary, pay, retirement, other employee benefits required by law, and other nondiscretionary costs, for each of the fiscal years 1990 and 1991.<sup>1</sup>

(b) In addition to the amounts authorized to be appropriated under this section, not more than 4 percent of the amount of any fees or other charges payable to the United States which are collected by the Commission during fiscal year 1990 are authorized to be made available to the Commission until expended to defray the fully distributed costs of such fees collection.

(c) Of the amounts appropriated pursuant to subsection (a) for fiscal year 1991, such sums as may be necessary not to exceed \$2,000,000 shall be expended for upgrading and modernizing equipment at the Commission's electronic emissions test laboratory located in Laurel, Maryland.

(d) Of the sum appropriated in any fiscal year under this section, a portion, in an amount determined under section 9(b), shall be derived from fees authorized by section 9.

<sup>1</sup>Public Law 108-7, the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2003 (117 Stat. 95, February 20, 2003) contained the following appropriation provision with respect to fiscal year 2003:

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Federal Communications Commission, as authorized by law, including uniforms and allowances therefor, as authorized by 5 U.S.C. 5901-5902; not to exceed \$600,000 for land and structure; not to exceed \$500,000 for improvement and care of grounds and repair to buildings; not to exceed \$4,000 for official reception and representation expenses; purchase and hire of motor vehicles; special counsel fees; and services as authorized by 5 U.S.C. 3109, \$271,000,000, of which not to exceed \$300,000 shall remain available until September 30, 2004, for research and policy studies: *Provided*, That \$269,000,000 of offsetting collections shall be assessed and collected pursuant to section 9 of title I of the Communications Act of 1934, as amended, and shall be retained and used for necessary expenses in this appropriation, and shall remain available until expended: *Provided further*, That the sum herein appropriated shall be reduced as such offsetting collections are received during fiscal year 2003 so as to result in a final fiscal year 2003 appropriation estimated at \$2,000,000: *Provided further*, That any offsetting collections received in excess of \$269,000,000 in fiscal year 2003 shall remain available until expended, but shall not be available for obligation until October 1, 2003.

**SEC. 7. [47 U.S.C. 157] NEW TECHNOLOGIES AND SERVICES.**

(a) It shall be the policy of the United States to encourage the provision of new technologies and services to the public. Any person or party (other than the Commission) who opposes a new technology or service proposed to be permitted under this Act shall have the burden to demonstrate that such proposal is inconsistent with the public interest.

(b) The Commission shall determine whether any new technology or service proposed in a petition or application is in the public interest within one year after such petition or application is filed. If the Commission initiates its own proceeding for a new technology or service, such proceeding shall be completed within 12 months after it is initiated.

**SEC. 8. [47 U.S.C. 158] APPLICATION FEES.**

(a) The Commission shall assess and collect application fees at such rates as the Commission shall establish or at such modified rates as it shall establish pursuant to the provisions of subsection (b) of this section.

(b)(1) The Schedule of Application Fees established under this section shall be reviewed by the Commission every two years after October 1, 1991, and adjusted by the Commission to reflect changes in the Consumer Price Index. Increases or decreases in application fees shall apply to all categories of application fees, except that individual fees shall not be adjusted until the increase or decrease, as determined by the net change in the Consumer Price Index since the date of enactment of this section, amounts to at least \$5.00 in the case of fees under \$100.00, or 5 percent in the case of fees of \$100.00 or more. All fees which require adjustment will be rounded upward to the next \$5.00 increment. The Commission shall transmit to the Congress notification of any such adjustment not later than 90 days before the effective date of such adjustment.

(2) Increases or decreases in application fees made pursuant to this subsection shall not be subject to judicial review.

(c)(1) The Commission shall prescribe by regulation an additional application fee which shall be assessed as a penalty for late payment of application fees required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the application fee which was not paid in a timely manner.

(2) The Commission may dismiss any application or other filing for failure to pay in a timely manner any application fee or penalty under this section.

(d)(1) The application fees established under this section shall not be applicable (A) to governmental entities and nonprofit entities licensed in the following radio services: Local Government, Police, Fire, Highway Maintenance, Forestry-Conservation, Public Safety, and Special Emergency Radio, or (B) to governmental entities licensed in other services.

(2) The Commission may waive or defer payment of an charge<sup>1</sup> in any specific instance for good cause shown, where such action would promote the public interest.

<sup>1</sup>So in law. Probably should read "payment of an application fee". See the amendments made by section 6003(a)(2) of Pub. L. 103-66 (107 Stat. 401) and section 303(a)(3) of Pub. L. 103-414 (108 Stat. 4294).

(e) Moneys received from application fees established under this section shall be deposited in the general fund of the Treasury to reimburse the United States for amounts appropriated for use by the Commission in carrying out its functions under this Act.

(f) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

(g) Until modified pursuant to subsection (b) of this section, the Schedule of Application Fees which the Federal Communications Commission shall prescribe pursuant to subsection (a) of this section shall be as follows:

SCHEDULE OF APPLICATION FEES

Service	Fee amount
PRIVATE RADIO SERVICES	
1. Marine Coast Stations	
a. New License (per station) .....	\$70.00
b. Modification of License (per station) .....	70.00
c. Renewal of License (per station) .....	70.00
d. Special Temporary Authority (Initial, Modifications, Extensions) ...	100.00
e. Assignments (per station) .....	70.00
f. Transfers of Control (per station) .....	35.00
g. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
2. Ship Stations	
a. New License (per application) .....	35.00
b. Modification of License (per application) .....	35.00
c. Renewal of License (per application) .....	35.00
d. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
3. Operational Fixed Microwave Stations	
a. New License (per station) .....	155.00
b. Modification of License (per station) .....	155.00
c. Renewal of License (per station) .....	155.00
d. Special Temporary Authority (Initial, Modifications, Extensions) ...	35.00
e. Assignments (per station) .....	155.00
f. Transfers of Control (per station) .....	35.00
g. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
4. Aviation (Ground Stations)	
a. New License (per station) .....	70.00
b. Modification of License (per station) .....	70.00
c. Renewal of License (per station) .....	70.00
d. Special Temporary Authority (Initial, Modifications, Extensions) ...	100.00
e. Assignments (per station) .....	70.00
f. Transfers of Control (per station) .....	35.00
g. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
5. Aircraft Stations	
a. New License (per application) .....	35.00
b. Modification of License (per application) .....	35.00
c. Renewal of License (per application) .....	35.00
d. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
6. Land Mobile Radio Stations (including Special Emergency and Public Safety Stations)	
a. New License (per call sign) .....	35.00
b. Modification of License (per call sign) .....	35.00
c. Renewal of License (per call sign) .....	35.00
d. Special Temporary Authority (Initial, Modifications, Extensions) ...	35.00
e. Assignments (per station) .....	35.00

f. Transfers of Control (per call sign) .....	35.00
g. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
h. Reinstatement (per call sign) .....	35.00
i. Specialized Mobile Radio Systems-Base Stations	
(i) New License (per call sign) .....	35.00
(ii) Modification of License (per call sign) .....	35.00
(iii) Renewal of License (per call sign) .....	35.00
(iv) Waiting List (annual application fee per application) .....	35.00
(v) Special Temporary Authority (Initial, Modifications, Extensions) .....	35.00
(vi) Assignments (per call sign) .....	35.00
(vii) Transfers of Control (per call sign) .....	35.00
(viii) Request for Waiver	
(1) Routine (per request) .....	105.00
(2) Non-Routine (per rule section/per station) .....	105.00
(ix) Reinstatements (per call sign) .....	35.00
j. Private Carrier Licenses	
(i) New License (per call sign) .....	35.00
(ii) Modification of License (per call sign) .....	35.00
(iii) Renewal of License (per call sign) .....	35.00
(iv) Special Temporary Authority (Initial, Modifications, Extensions) .....	35.00
(v) Assignments (per call sign) .....	35.00
(vi) Transfers of Control (per call sign) .....	35.00
(vii) Request for Waiver	
(1) Routine (per request) .....	105.00
(2) Non-Routine (per rule section/per station) .....	105.00
(viii) Reinstatements (per call sign) .....	35.00
7. General Mobile Radio Service	
a. New License (per call sign) .....	35.00
b. Modifications of License (per call sign) .....	35.00
c. Renewal of License (per call sign) .....	35.00
d. Request for Waiver	
(i) Routine (per request) .....	105.00
(ii) Non-Routine (per rule section/per station) .....	105.00
e. Special Temporary Authority (Initial, Modifications, Extensions) ...	35.00
f. Transfer of control (per call sign) .....	35.00
8. Restricted Radiotelephone Operator Permit .....	35.00
9. Request for Duplicate Station License (all services) .....	35.00
10. Hearing (Comparative, New, and Modifications) .....	6,760.00

## EQUIPMENT APPROVAL SERVICES/EXPERIMENTAL RADIO

1. Certification	
a. Receivers (except TV and FM receivers) .....	285.00
b. All Other Devices .....	735.00
c. Modifications and Class II Permissive Changes .....	35.00
d. Request for Confidentiality .....	105.00
2. Type Acceptance	
a. All Devices .....	370.00
b. Modifications and Class II Permissive Changes .....	35.00
c. Request for Confidentiality .....	105.00
3. Type Approval (all devices)	
a. With Testing (including Major Modifications) .....	1,465.00
b. Without Testing (including Minor Modifications) .....	170.00
c. Request for Confidentiality .....	105.00
4. Notifications .....	115.00
5. Advance Approval for Subscription TV System .....	2,255.00
a. Request for Confidentiality .....	105.00
6. Assignment of Grantee Code for Equipment Identification .....	35.00
7. Experimental Radio Service	
a. New Construction Permit and Station Authorization (per application) .....	35.00
b. Modification to Existing Construction Permit and Station Authorization (per application) .....	35.00
c. Renewal of Station Authorization (per application) .....	35.00
d. Assignment or Transfer of Control (per application) .....	35.00
e. Special Temporary Authority (per application) .....	35.00

f. Additional Application Fee for Applications Containing Requests to Withhold Information From Public Inspection (per application) .....	35.00
MASS MEDIA SERVICES	
1. Commercial TV Stations	
a. New or Major Change Construction Permits .....	2,535.00
b. Minor Change .....	565.00
c. Hearing (Major/Minor Change, Comparative New, or Comparative Renewal) .....	6,760.00
d. License .....	170.00
e. Assignment or Transfer	
(i) Long Form (Forms 314/315) .....	565.00
(ii) Short Form (Form 316) .....	80.00
f. Renewal .....	100.00
g. Call Sign (New or Modification) .....	55.00
h. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
i. Extension of Time to Construct or Replacement of CP .....	200.00
j. Permit to Deliver Programs to Foreign Broadcast Stations .....	55.00
k. Petition for Rulemaking for New Community of License .....	1,565.00
l. Ownership Report (per report) .....	35.00
2. Commercial Radio Stations	
a. New and Major Change Construction Permit	
(i) AM Station .....	2,255.00
(ii) FM Station .....	2,030.00
b. Minor Change	
(i) AM Station .....	565.00
(ii) FM Station .....	565.00
c. Hearing (Major/Minor Change, Comparative New, or Comparative Renewal) .....	6,760.00
d. License	
(i) AM .....	370.00
(ii) FM .....	115.00
(iii) AM Directional Antenna .....	425.00
(iv) FM Directional Antenna .....	355.00
(v) AM Remote Control .....	35.00
e. Assignment or Transfer	
(i) Long Form (Forms 314/315) .....	565.00
(ii) Short Form (Form 316) .....	80.00
f. Renewal .....	100.00
g. Call Sign (New or Modification) .....	55.00
h. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
i. Extension of Time to Construct or Replacement of CP .....	200.00
j. Permit to Deliver Programs to Foreign Broadcast Stations .....	55.00
k. Petition for Rulemaking for New Community of License or Higher Class Channel .....	1,565.00
l. Ownership Report (per report) .....	35.00
3. FM Translators	
a. New or Major Change Construction Permit .....	425.00
b. License .....	85.00
c. Assignment or Transfer .....	80.00
d. Renewal .....	35.00
e. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
4. TV Translators and LPTV Stations	
a. New or Major Change Construction Permit .....	425.00
b. License .....	85.00
c. Assignment or Transfer .....	80.00
d. Renewal .....	35.00
e. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
5. Auxiliary Services (Includes Remote Pickup stations, TV Auxiliary Broadcast stations, Aural Broadcast STL and Intercity Relay stations, and Low Power Auxiliary stations)	
a. Major Actions .....	85.00
b. Renewals .....	35.00
c. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00

6. FM/TV Boosters	
a. New and Major Change Construction Permits .....	425.00
b. License .....	85.00
c. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
7. International Broadcast Station	
a. New Construction Permit and Facilities Change CP .....	1,705.00
b. License .....	385.00
c. Assignment or Transfer (per station) .....	60.00
d. Renewal .....	95.00
e. Frequency Assignment and Coordination (per frequency hour) .....	35.00
f. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
8. Cable Television Service	
a. Cable Television Relay Service	
(i) Construction Permit .....	155.00
(ii) Assignment or Transfer .....	155.00
(iii) Renewal .....	155.00
(iv) Modification .....	155.00
(v) Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00
b. Cable Special Relief Petition .....	790.00
c. 76.12 Registration Statement (per statement) .....	35.00
d. Aeronautical Frequency Usage Notifications (per notice) .....	35.00
e. Aeronautical Frequency Usage Waivers (per waiver) .....	35.00
9. Direct Broadcast Satellite	
a. New or Major Change Construction Permit	
(i) Application for Authorization to Construct a Direct Broadcast Satellite .....	2,030.00
(ii) Issuance of Construction Permit & Launch Authority .....	19,710.00
(iii) License to Operate Satellite .....	565.00
b. Hearing (Comparative New, Major/Minor Modifications, or Comparative Renewal) .....	6,760.00
c. Special Temporary Authority (other than to remain silent or extend an existing STA to remain silent) .....	100.00

## COMMON CARRIER SERVICES

1. All Common Carrier Services	
a. Hearing (Comparative New or Major/Minor Modifications) .....	6,760.00
b. Development Authority (Same application fee as regular authority in service unless otherwise indicated)	
c. Formal Complaints and Pole Attachment Complaints Filing Fee ...	120.00
d. Proceeding under section 109(b) of the Communications Assistance for Law Enforcement Act .....	5,000
2. Domestic Public Land Mobile Stations (includes Base, Dispatch, Control & Repeater Stations)	
a. New or Additional Facility (per transmitter) .....	230.00
b. Major Modifications (per transmitter) .....	230.00
c. Fill In Transmitters (per transmitter) .....	230.00
d. Major Amendment to a Pending Application (per transmitter) .....	230.00
e. Assignment or Transfer	
(i) First Call Sign on Application .....	230.00
(ii) Each Additional Call Sign .....	35.00
f. Partial Assignment (per call sign) .....	230.00
g. Renewal (per call sign) .....	35.00
h. Minor Modification (per transmitter) .....	35.00
i. Special Temporary Authority (per frequency/per location) .....	200.00
j. Extension of Time to Construct (per application) .....	35.00
k. Notice of Completion of Construction (per application) .....	35.00
l. Auxiliary Test Station (per transmitter) .....	200.00
m. Subsidiary Communications Service (per request) .....	100.00
n. Reinstatement (per application) .....	35.00
o. Combining Call Signs (per call sign) .....	200.00
p. Standby Transmitter (per transmitter/per location) .....	200.00
q. 900 MHz Nationwide Paging	
(i) Renewal	
(1) Network Organizer .....	35.00
(2) Network Operator (per operator/per city) .....	35.00

r. Air-Ground Individual License (per station)	
(i) Initial License .....	35.00
(ii) Renewal of License .....	35.00
(iii) Modification of License .....	35.00
3. Cellular Systems (per system)	
a. New or Additional Facilities .....	230.00
b. Major Modification .....	230.00
c. Minor Modification .....	60.00
d. Assignment or Transfer (including partial) .....	230.00
e. License to Cover Construction	
(i) Initial License for Wireline Carrier .....	595.00
(ii) Subsequent License for Wireline Carrier .....	60.00
(iii) License for Nonwireline Carrier .....	60.00
(iv) Fill In License (all carriers) .....	60.00
f. Renewal .....	35.00
g. Extension of Time to Complete Construction .....	35.00
h. Special Temporary Authority (per system) .....	200.00
i. Combining Cellular Geographic Service Areas (per system) .....	50.00
4. Rural Radio (includes Central Office, Interoffice, or Relay Facilities)	
a. New or Additional Facility (per transmitter) .....	105.00
b. Major Modification (per transmitter) .....	105.00
c. Major Amendment to Pending Application (per transmitter) .....	105.00
d. Minor Modification (per transmitter) .....	35.00
e. Assignments or Transfers	
(i) First Call Sign on Application .....	105.00
(ii) Each Additional Call Sign .....	35.00
(iii) Partial Assignment (per call sign) .....	105.00
f. Renewal (per call sign) .....	35.00
g. Extension of Time to Complete Construction (per application) .....	35.00
h. Notice of Completion of Construction (per application) .....	35.00
i. Special Temporary Authority (per frequency/per location) .....	200.00
j. Reinstatement (per application) .....	35.00
k. Combining Call Signs (per call sign) .....	200.00
l. Auxiliary Test Station (per transmitter) .....	200.00
m. Standby Transmitter (per transmitter/per location) .....	200.00
5. Offshore Radio Service (Mobile, Subscriber, and Central Stations; fees would also apply to any expansion of this service into coastal waters other than the Gulf of Mexico)	
a. New or Additional Facility (per transmitter) .....	105.00
b. Major Modifications (per transmitter) .....	105.00
c. Fill In Transmitters (per transmitter) .....	105.00
d. Major Amendment to Pending Application (per transmitter) .....	105.00
e. Minor Modification (per transmitter) .....	35.00
f. Assignment or Transfer	
(i) Each Additional Call Sign .....	35.00
(ii) Partial Assignment (per call sign) .....	105.00
g. Renewal (per call sign) .....	35.00
h. Extension of Time to Complete Construction (per application) .....	35.00
i. Reinstatement (per application) .....	35.00
j. Notice of Completion of Construction (per application) .....	35.00
k. Special Temporary Authority (per frequency/per location) .....	200.00
l. Combining Call Signs (per call sign) .....	200.00
m. Auxiliary Test Station (per transmitter) .....	200.00
n. Standby Transmitter (per transmitter/ per location) .....	200.00
6. Point-to-Point Microwave and Local Television Radio Service	
a. Conditional License (per station) .....	155.00
b. Major Modification of Conditional License or License Authorization (per station) .....	155.00
c. Certification of Completion of Construction (per station) .....	155.00
d. Renewal (per licensed station) .....	155.00
e. Assignment or Transfer	
(i) First Station on Application .....	55.00
(ii) Each Additional Station .....	35.00
f. Extension of Construction Authorization (per station) .....	55.00
g. Special Temporary Authority or Request for Waiver of Prior Construction Authorization (per request) .....	70.00
7. Multipoint Distribution Service (including multichannel MDS)	
a. Conditional License (per station) .....	155.00

b. Major Modification of Conditional License or License Authorization (per station) .....	155.00
c. Certification of Completion of Construction (per channel) .....	455.00
d. Renewal (per licensed station) .....	155.00
e. Assignment or Transfer	
(i) First Station on Application .....	55.00
(ii) Each Additional Station .....	35.00
f. Extension of Construction Authorization (per station) .....	110.00
g. Special Temporary Authority or Request for Waiver of Prior Construction Authorization (per request) .....	70.00
8. Digital Electronic Message Service	
a. Conditional License (per nodal station) .....	155.00
b. Modification of Conditional License or License Authorization (per nodal station) .....	155.00
c. Certification of Completion of Construction (per nodal station) .....	155.00
d. Renewal (per licensed nodal station) .....	155.00
e. Assignment or Transfer	
(i) First Station on Application .....	55.00
(ii) Each Additional Station .....	35.00
f. Extension of Construction Authorization (per station) .....	55.00
g. Special Temporary Authority or Request for Waiver of Prior Construction Authorization (per request) .....	70.00
9. International Fixed Public Radio (Public and Control Stations)	
a. Initial Construction Permit (per station) .....	510.00
b. Assignment or Transfer (per application) .....	510.00
c. Renewal (per license) .....	370.00
d. Modification (per station) .....	370.00
e. Extension of Construction Authorization (per station) .....	185.00
f. Special Temporary Authority or Request for Waiver (per request) .....	185.00
10. Fixed Satellite Transmit/Receive Earth Stations	
a. Initial Application (per station) .....	1,525.00
b. Modification of License (per station) .....	105.00
c. Assignment or Transfer	
(i) First Station on Application .....	300.00
(ii) Each Additional Station .....	100.00
d. Developmental Station (per station) .....	1,000.00
e. Renewal of License (per station) .....	105.00
f. Special Temporary Authority or Waivers of Prior Construction Authorization (per request) .....	105.00
g. Amendment of Application (per station) .....	105.00
h. Extension of Construction Permit (per station) .....	105.00
11. Small Transmit/Receive Earth Stations (2 meters or less and operating in the 4/6 GHz frequency band)	
a. Lead Application .....	3,380.00
b. Routine Application (per station) .....	35.00
c. Modification of License (per station) .....	105.00
d. Assignment or Transfer	
(i) First Station on Application .....	300.00
(ii) Each Additional Station .....	35.00
e. Developmental Station (per station) .....	1,000.00
f. Renewal of License (per station) .....	105.00
g. Special Temporary Authority or Waivers of Prior Construction Authorization (per request) .....	105.00
h. Amendment of Application (per station) .....	105.00
i. Extension of Construction Permit (per station) .....	105.00
12. Receive Only Earth Stations	
a. Initial Application for Registration .....	230.00
b. Modification of License or Registration (per station) .....	105.00
c. Assignment or Transfer	
(i) First Station on Application .....	300.00
(ii) Each Additional Station .....	100.00
d. Renewal of License (per station) .....	105.00
e. Amendment of Application (per station) .....	105.00
f. Extension of Construction Permit (per station) .....	105.00
g. Waivers (per request) .....	105.00
13. Very Small Aperture Terminal (VSAT) Systems	
a. Initial Application (per system) .....	5,630.00
b. Modification of License (per system) .....	105.00
c. Assignment or Transfer of System .....	1,505.00

d. Developmental Station .....	1,000.00
e. Renewal of License (per system) .....	105.00
f. Special Temporary Authority or Waivers of Prior Construction Au- thorization (per request) .....	105.00
g. Amendment of Application (per system) .....	105.00
h. Extension of Construction Permit (per system) .....	105.00
14. Mobile Satellite Earth Stations	
a. Initial Application of Blanket Authorization .....	5,630.00
b. Initial Application for Individual Earth Station .....	1,350.00
c. Modification of License (per system) .....	105.00
d. Assignment or Transfer (per system) .....	1,505.00
e. Developmental Station .....	1,000.00
f. Renewal of License (per system) .....	105.00
g. Special Temporary Authority or Waivers of Prior Construction Au- thorization (per request) .....	105.00
h. Amendment of Application (per system) .....	105.00
i. Extension of Construction Permit (per system) .....	105.00
15. Radio determination Satellite Earth Stations	
a. Initial Application of Blanket Authorization .....	5,630.00
b. Initial Application for Individual Earth Station .....	1,350.00
c. Modification of License (per system) .....	105.00
d. Assignment or Transfer (per system) .....	1,505.00
e. Developmental Station .....	1,000.00
f. Renewal of License (per system) .....	105.00
g. Special Temporary Authority or Waivers of Prior Construction Au- thorization (per request) .....	105.00
h. Amendment of Application (per system) .....	105.00
i. Extension of Construction Permit (per system) .....	105.00
16. Space Stations	
a. Application for Authority to Construct .....	2,030.00
b. Application for Authority to Launch & Operate	
(i) Initial Application .....	70,000.00
(ii) Replacement Satellite .....	70,000.00
c. Assignment or Transfer (per satellite) .....	5,000.00
d. Modification .....	5,000.00
e. Special Temporary Authority or Waiver of Prior Construction Au- thorization (per request) .....	500.00
f. Amendment of Application .....	1,000.00
g. Extension of Construction Permit/Launch Authorization (per re- quest) .....	500.00
17. Section 214 Applications	
a. Overseas Cable Construction .....	9,125.00
b. Cable Landing License	
(i) Common Carrier .....	1,025.00
(ii) Non-Common Carrier .....	10,150.00
c. Domestic Cable Construction .....	610.00
d. All Other 214 Applications .....	610.00
e. Special Temporary Authority (all services) .....	610.00
f. Assignments or Transfers (all services) .....	610.00
18. Recognized Private Operating Status (per application) .....	610.00
19. Telephone Equipment Registration .....	155.00
20. Tariff Filings	
a. Filing Fee .....	490.00
b. Special Permission Filing (per filing) .....	490.00
21. Accounting and Audits	
a. Field Audit .....	62,290.00
b. Review of Attest Audit .....	34,000.00
c. Review of Depreciation Update Study (Single State) .....	20,685.00
(i) Each Additional State .....	680.00
d. Interpretation of Accounting Rules (per request) .....	2,885.00
e. Petition for Waiver (per petition) .....	4,660.00
22. Low-Earth Orbit Satellite Systems	
a. Application for Authority to Construct (per system of technology identical satellites) .....	6,000.00
b. Application for Authority to Launch and Operate (per system of technologically identical satellites) .....	210,000.00
c. Assignment or Transfer (per request) .....	6,000.00
d. Modification (per request) .....	15,000.00

e. Special Temporary Authority or Waiver of Prior Construction Authorization (per request) .....	1,500.00
f. Amendment of Application (per request) .....	3,000.00
g. Extension of Construction Permit/Launch Authorization (per request) .....	1,500.00

## MISCELLANEOUS APPLICATION FEES

1. International Telecommunications Settlements Administrative Fee for Collections (per line item) .....	2.00
2. Radio Operator Examinations .....	
a. Commercial Radio Operator Examination .....	35.00
b. Renewal of Commercial Radio Operator License, Permit, or Certificate .....	35.00
c. Duplicate or Replacement Commercial Radio Operator License, Permit, or Certificate .....	35.00
3. Ship Inspections .....	
a. Inspection of Oceangoing Vessels Under Title III, Part II of the Communications Act (per inspection) .....	620.00
b. Inspection of Passenger Vessels Under Title III, Part III of the Communications Act (per inspection) .....	320.00
c. Inspection of Vessels Under the Great Lakes Agreement (per inspection) .....	75.00
d. Inspection of Foreign Vessels Under the Safety of Life at Sea (SOLAS) Convention (per inspection) .....	540.00
e. Temporary Waiver for Compulsorily Equipped Vessel .....	60.00

**SEC. 9. [47 U.S.C. 159] REGULATORY FEES.**

## (a) GENERAL AUTHORITY.—

(1) RECOVERY OF COSTS.—The Commission, in accordance with this section, shall assess and collect regulatory fees to recover the costs of the following regulatory activities of the Commission: enforcement activities, policy and rulemaking activities, user information services, and international activities.

(2) FEES CONTINGENT ON APPROPRIATIONS.—The fees described in paragraph (1) of this subsection shall be collected only if, and only in the total amounts, required in Appropriations Acts.

## (b) ESTABLISHMENT AND ADJUSTMENT OF REGULATORY FEES.—

(1) IN GENERAL.—The fees assessed under subsection (a) shall—

(A) be derived by determining the full-time equivalent number of employees performing the activities described in subsection (a) within the Private Radio Bureau, Mass Media Bureau, Common Carrier Bureau, and other offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities, including such factors as service area coverage, shared use versus exclusive use, and other factors that the Commission determines are necessary in the public interest;

(B) be established at amounts that will result in collection, during each fiscal year, of an amount that can reasonably be expected to equal the amount appropriated for such fiscal year for the performance of the activities described in subsection (a); and

(C) until adjusted or amended by the Commission pursuant to paragraph (2) or (3), be the fees established by the Schedule of Regulatory Fees in subsection (g).

(2) MANDATORY ADJUSTMENT OF SCHEDULE.—For any fiscal year after fiscal year 1994, the Commission shall, by rule, re-

vise the Schedule of Regulatory Fees by proportionate increases or decreases to reflect, in accordance with paragraph (1)(B), changes in the amount appropriated for the performance of the activities described in subsection (a) for such fiscal year. Such proportionate increases or decreases shall—

(A) be adjusted to reflect, within the overall amounts described in appropriations Acts under the authority of paragraph (1)(A), unexpected increases or decreases in the number of licensees or units subject to payment of such fees; and

(B) be established at amounts that will result in collection of an aggregate amount of fees pursuant to this section that can reasonably be expected to equal the aggregate amount of fees that are required to be collected by appropriations Acts pursuant to paragraph (1)(B).

Increases or decreases in fees made by adjustments pursuant to this paragraph shall not be subject to judicial review. In making adjustments pursuant to this paragraph the Commission may round such fees to the nearest \$5 in the case of fees under \$1,000, or to the nearest \$25 in the case of fees of \$1,000 or more.

(3) PERMITTED AMENDMENTS.—In addition to the adjustments required by paragraph (2), the Commission shall, by regulation, amend the Schedule of Regulatory Fees if the Commission determines that the Schedule requires amendment to comply with the requirements of paragraph (1)(A). In making such amendments, the Commission shall add, delete, or reclassify services in the Schedule to reflect additions, deletions, or changes in the nature of its services as a consequence of Commission rulemaking proceedings or changes in law. Increases or decreases in fees made by amendments pursuant to this paragraph shall not be subject to judicial review.

(4) NOTICE TO CONGRESS.—The Commission shall—

(A) transmit to the Congress notification of any adjustment made pursuant to paragraph (2) immediately upon the adoption of such adjustment; and

(B) transmit to the Congress notification of any amendment made pursuant to paragraph (3) not later than 90 days before the effective date of such amendment.

(c) ENFORCEMENT.—

(1) PENALTIES FOR LATE PAYMENT.—The Commission shall prescribe by regulation an additional charge which shall be assessed as a penalty for late payment of fees required by subsection (a) of this section. Such penalty shall be 25 percent of the amount of the fee which was not paid in a timely manner.

(2) DISMISSAL OF APPLICATIONS FOR FILINGS.—The Commission may dismiss any application or other filing for failure to pay in a timely manner any fee or penalty under this section.

(3) REVOCATIONS.—In addition to or in lieu of the penalties and dismissals authorized by paragraphs (1) and (2), the Commission may revoke any instrument of authorization held by any entity that has failed to make payment of a regulatory fee assessed pursuant to this section. Such revocation action may be taken by the Commission after notice of the Commission's

intent to take such action is sent to the licensee by registered mail, return receipt requested, at the licensee's last known address. The notice will provide the licensee at least 30 days to either pay the fee or show cause why the fee does not apply to the licensee or should otherwise be waived or payment deferred. A hearing is not required under this subsection unless the licensee's response presents a substantial and material question of fact. In any case where a hearing is conducted pursuant to this section, the hearing shall be based on written evidence only, and the burden of proceeding with the introduction of evidence and the burden of proof shall be on the licensee. Unless the licensee substantially prevails in the hearing, the Commission may assess the licensee for the costs of such hearing. Any Commission order adopted pursuant to this subsection shall determine the amount due, if any, and provide the licensee with at least 30 days to pay that amount or have its authorization revoked. No order of revocation under this subsection shall become final until the licensee has exhausted its right to judicial review of such order under section 402(b)(5) of this title.

(d) **WAIVER, REDUCTION, AND DEFERMENT.**—The Commission may waive, reduce, or defer payment of a fee in any specific instance for good cause shown, where such action would promote the public interest.

(e) **DEPOSIT OF COLLECTIONS.**—Moneys received from fees established under this section shall be deposited as an offsetting collection in, and credited to, the account providing appropriations to carry out the functions of the Commission.

(f) **REGULATIONS.**—

(1) **IN GENERAL.**—The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

(2) **INSTALLMENT PAYMENTS.**—Such rules and regulations shall permit payment by installments in the case of fees in large amounts, and in the case of fees in small amounts, shall require the payment of the fee in advance for a number of years not to exceed the term of the license held by the payor.

(g) **SCHEDULE.**—Until amended by the Commission pursuant to subsection (b), the Schedule of Regulatory Fees which the Federal Communications Commission shall, subject to subsection (a)(2), assess and collect shall be as follows:

*SCHEDULE OF REGULATORY FEES*

Bureau/Category	Annual Regulatory Fee
Private Radio Bureau	
Exclusive use services (per license)	
Land Mobile (above 470 MHz, Base Station and SMRS) (47 C.F.R. Part 90) .....	\$16
Microwave (47 C.F.R. Part 94) .....	16
Interactive Video Data Service (47 C.F.R. Part 95) .....	16
Shared use services (per license unless otherwise noted) .....	7
Amateur vanity call-signs .....	7
Mass Media Bureau (per license)	
AM radio (47 C.F.R. Part 73)	
Class D Daytime .....	250

## SCHEDULE OF REGULATORY FEES—CONTINUED

Bureau/Category	Annual Reg- ulatory Fee
Class A Fulltime .....	900
Class B Fulltime .....	500
Class C Fulltime .....	200
Construction permits .....	100
FM radio (47 C.F.R. Part 73)	
Classes C, C1, C2, B .....	900
Classes A, B1, C3 .....	600
Construction permits .....	500
TV (47 C.F.R. Part 73)	
VHF Commercial	
Markets 1 thru 10 .....	18,000
Markets 11 thru 25 .....	16,000
Markets 26 thru 50 .....	12,000
Markets 51 thru 100 .....	8,000
Remaining Markets .....	5,000
Construction permits .....	4,000
UHF Commercial	
Markets 1 thru 10 .....	14,400
Markets 11 thru 25 .....	12,800
Markets 26 thru 50 .....	9,600
Markets 51 thru 100 .....	6,400
Remaining Markets .....	4,000
Construction permits .....	3,200
Low Power TV, TV Translator, and TV Booster (47 C.F.R. Part 74) .....	135
Broadcast Auxiliary (47 C.F.R. Part 74) .....	25
International (HF) Broadcast (47 C.F.R. Part 73) .....	200
Cable Antenna Relay Service (47 C.F.R. Part 78) .....	220
Cable Television System (per 1,000 subscribers) (47 C.F.R. Part 76) .....	370
Common Carrier Bureau	
Radio Facilities	
Cellular Radio (per 1,000 subscribers) (47 C.F.R. Part 22) ....	60
Personal Communications (per 1,000 subscribers) (47 C.F.R.) .....	60
Space Station (per operational station in geosynchronous orbit) (47 C.F.R. Part 25) .....	65,000
Space Station (per system in low-earth orbit) (47 C.F.R. Part 25) .....	90,000
Public Mobile (per 1,000 subscribers) (47 C.F.R. Part 22) .....	60
Domestic Public Fixed (per call sign) (47 C.F.R. Part 21) .....	55
International Public Fixed (per call sign) (47 C.F.R. Part 23) .....	110
Earth Stations (47 C.F.R. Part 25)	
VSAT and equivalent C-Band antennas (per 100 antennas) .....	6
Mobile satellite earth stations (per 100 antennas) .....	6
Earth station antennas	
Less than 9 meters (per 100 antennas) .....	6
9 Meters or more	
Transmit/Receive and Transmit Only (per meter) ....	85
Receive only (per meter) .....	55
Carriers	
Inter-Exchange Carrier (per 1,000 presubscribed access lines) ....	60
Local Exchange Carrier (per 1,000 access lines) .....	60
Competitive access provider (per 1,000 subscribers) .....	60
International circuits (per 100 active 64KB circuit or equivalent) .....	220

(h) EXCEPTIONS.—The charges established under this section shall not be applicable to (1) governmental entities or nonprofit entities; or (2) to amateur radio operator licenses under part 97 of the Commission's regulations (47 C.F.R. Part 97).

(i) ACCOUNTING SYSTEM.—The Commission shall develop accounting systems necessary to making the adjustments authorized

by subsection (b)(3). In the Commission's annual report, the Commission shall prepare an analysis of its progress in developing such systems and shall afford interested persons the opportunity to submit comments concerning the allocation of the costs of performing the functions described in subsection (a) among the services in the Schedule.

**SEC. 10. [47 U.S.C. 160] COMPETITION IN PROVISION OF TELECOMMUNICATIONS SERVICE.**

(a) **REGULATORY FLEXIBILITY.**—Notwithstanding section 332(c)(1)(A) of this Act, the Commission shall forbear from applying any regulation or any provision of this Act to a telecommunications carrier or telecommunications service, or class of telecommunications carriers or telecommunications services, in any or some of its or their geographic markets, if the Commission determines that—

(1) enforcement of such regulation or provision is not necessary to ensure that the charges, practices, classifications, or regulations by, for, or in connection with that telecommunications carrier or telecommunications service are just and reasonable and are not unjustly or unreasonably discriminatory;

(2) enforcement of such regulation or provision is not necessary for the protection of consumers; and

(3) forbearance from applying such provision or regulation is consistent with the public interest.

(b) **COMPETITIVE EFFECT TO BE WEIGHED.**—In making the determination under subsection (a)(3), the Commission shall consider whether forbearance from enforcing the provision or regulation will promote competitive market conditions, including the extent to which such forbearance will enhance competition among providers of telecommunications services. If the Commission determines that such forbearance will promote competition among providers of telecommunications services, that determination may be the basis for a Commission finding that forbearance is in the public interest.

(c) **PETITION FOR FORBEARANCE.**—Any telecommunications carrier, or class of telecommunications carriers, may submit a petition to the Commission requesting that the Commission exercise the authority granted under this section with respect to that carrier or those carriers, or any service offered by that carrier or carriers. Any such petition shall be deemed granted if the Commission does not deny the petition for failure to meet the requirements for forbearance under subsection (a) within one year after the Commission receives it, unless the one-year period is extended by the Commission. The Commission may extend the initial one-year period by an additional 90 days if the Commission finds that an extension is necessary to meet the requirements of subsection (a). The Commission may grant or deny a petition in whole or in part and shall explain its decision in writing.

(d) **LIMITATION.**—Except as provided in section 251(f), the Commission may not forbear from applying the requirements of section 251(c) or 271 under subsection (a) of this section until it determines that those requirements have been fully implemented.

(e) **STATE ENFORCEMENT AFTER COMMISSION FORBEARANCE.**—A State commission may not continue to apply or enforce any provision of this Act that the Commission has determined to forbear from applying under subsection (a).

**SEC. 11. [47 U.S.C. 161] REGULATORY REFORM.**

(a) BIENNIAL REVIEW OF REGULATIONS.—In every even-numbered year (beginning with 1998), the Commission—

(1) shall review all regulations issued under this Act in effect at the time of the review that apply to the operations or activities of any provider of telecommunications service; and

(2) shall determine whether any such regulation is no longer necessary in the public interest as the result of meaningful economic competition between providers of such service.

(b) EFFECT OF DETERMINATION.—The Commission shall repeal or modify any regulation it determines to be no longer necessary in the public interest.

## TITLE II—COMMON CARRIERS

### PART I—COMMON CARRIER REGULATION

**SEC. 201. [47 U.S.C. 201] SERVICE AND CHARGES.**

(a) It shall be the duty of every common carrier engaged in interstate or foreign communication by wire or radio to furnish such communication service upon reasonable request therefor; and, in accordance with the orders of the Commission, in cases where the Commission, after opportunity for hearing, finds such action necessary or desirable in the public interest, to establish physical connections with other carriers, to establish through routes and charges applicable thereto and the divisions of such charges, and to establish and provide facilities and regulations for operating such through routes.

(b) All charges, practices, classifications, and regulations for and in connection with such communication service, shall be just and reasonable, and any such charge, practice, classification, or regulation that is unjust or unreasonable is hereby declared to be unlawful: *Provided*, That communications by wire or radio subject to this Act may be classified into day, night, repeated, unrepeatd, letter, commercial, press, Government and such other classes as the Commission may decide to be just and reasonable, and different charges may be made for the different classes of communications: *Provided further*, That nothing in this Act or in any other provision of law shall be construed to prevent a common carrier subject to this Act from entering into or operating under any contract with any common carrier not subject to this Act, for the exchange of their services, if the Commission is of the opinion that such contract is not contrary to the public interest: *Provided further*, That nothing in this Act or in any other provision of law shall prevent a common carrier subject to this Act from furnishing reports of positions of ships at sea to newspapers of general circulation, either at a nominal charge or without charge, provided the name of such common carrier is displayed along with such ship position reports. The Commissioner may prescribe such rules and regulations as may be necessary in the public interest to carry out the provisions of this Act.

**SEC. 202. [47 U.S.C. 202] DISCRIMINATION AND PREFERENCES.**

(a) It shall be unlawful for any common carrier to make any unjust or unreasonable discrimination in charges, practices, classi-

fications, regulations, facilities, or services for or in connection with like communication service, directly or indirectly, by any means or device, or to make or give any undue or unreasonable preference or advantage to any particular person, class of persons, or locality, or to subject any particular person, class of persons, or locality to any undue or unreasonable prejudice or disadvantage.

(b) Charges or services, whenever referred to in this Act, include charges for, or services in connection with, the use of common carrier lines of communication, whether derived from wire or radio facilities, in chain broadcasting or incidental to radio communication of any kind.

(c) Any carrier who knowingly violates the provisions of this section shall forfeit to the United States the sum of \$6,000 for each such offense and \$300 for each and every day of the continuance of such offense.

**SEC. 203. [47 U.S.C. 203] SCHEDULES OF CHARGES.**

(a) Every common carrier, except connecting carriers, shall, within such reasonable time as the Commission shall designate, file with the Commission and print and keep open for public inspection schedules showing all charges for itself and its connecting carriers for interstate and foreign wire or radio communication between the different points on its own system, and between points on its own system and points on the system of its connecting carriers or points on the system of any other carrier subject to this Act when a through route has been established, whether such charges are joint or separate, and showing the classifications, practices, and regulations affecting such charges. Such schedules shall contain such other information, and be printed in such form, and be posted and kept open for public inspection in such places, as the Commission may by regulation require, and each such schedule shall give notice of its effective date; and such common carrier shall furnish such schedules to each of its connecting carriers, and such connecting carriers shall keep such schedules open for inspection in such public places as the Commission may require.

(b)(1) No change shall be made in the charges, classifications, regulations, or practices which have been so filed and published except after one hundred and twenty days notice to the Commission and to the public, which shall be published in such form and contain such information as the Commission may by regulations prescribe.

(2) The Commission may, in its discretion and for good cause shown, modify any requirement made by or under the authority of this section either in particular instances or by general order applicable to special circumstances or conditions except that the Commission may not require the notice period specified in paragraph (1) to be more than one hundred and twenty days.

(c) No carrier, unless otherwise provided by or under authority of this Act, shall engage or participate in such communication unless schedules have been filed and published in accordance with the provisions of this Act and with the regulations made thereunder; and no carrier shall (1) charge, demand, collect, or receive a greater or less or different compensation, for such communication, or for any service in connection therewith, between the points named in any such schedule than the charges specified in the schedule then

in effect, or (2) refund or remit by any means or device any portion of the charges so specified, or (3) extend to any person any privileges or facilities, in such communication, or employ or enforce any classifications, regulations, or practices affecting such charges, except as specified in such schedule.

(d) The Commission may reject and refuse to file any schedule entered for filing which does not provide and give lawful notice of its effective date. Any schedule so rejected by the Commission shall be void and its use shall be unlawful.

(e) In case of failure or refusal on the part of any carrier to comply with the provisions of this section or of any regulation or order made by the Commission thereunder, such carrier shall forfeit to the United States the sum of \$6,000 for each such offense, and \$300 for each and every day of the continuance of such offense.

**SEC. 204. [47 U.S.C. 204] HEARING AS TO LAWFULNESS OF NEW CHARGES; SUSPENSION.**

(a)(1) Whenever there is filed with the Commission any new or revised charge, classification, regulation, or practice, the Commission may either upon complaint or upon its own initiative without complaint, upon reasonable notice, enter upon a hearing concerning the lawfulness thereof; and pending such hearing and the decision thereon the Commission, upon delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such charge, classification, regulation, or practice, in whole or in part but not for a longer period than five months beyond the time when it would otherwise go into effect; and after full hearing the Commission may make such order with reference thereto as would be proper in a proceeding initiated after such charge, classification, regulation, or practice had become effective. If the proceeding has not been concluded and an order made within the period of the suspension, the proposed new or revised charge, classification, regulation, or practice shall go into effect at the end of such period; but in case of a proposed charge for a new service or a revised charge, the Commission may by order require the interested carrier or carriers to keep accurate account of all amounts received by reason of such charge for a new service or revised charge, specifying by whom and in whose behalf such amounts are paid, and upon completion of the hearing and decision may by further order require the interested carrier or carriers to refund, with interest, to the persons in whose behalf such amounts were paid, such portion of such charge for a new service or revised charges as by its decision shall be found not justified. At any hearing involving a new or revised charge, or a proposed new or revised charge, the burden of proof to show that the new or revised charge, or proposed charge, is just and reasonable shall be upon the carrier, and the Commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

(2)(A) Except as provided in subparagraph (B), the Commission shall, with respect to any hearing under this section, issue an order concluding such hearing within 5 months after the date that the charge, classification, regulation, or practice subject to the hearing becomes effective.

(B) The Commission shall, with respect to any such hearing initiated prior to the date of enactment of this paragraph, issue an

order concluding the hearing not later than 12 months after such date of enactment.

(C) Any order concluding a hearing under this section shall be a final order and may be appealed under section 402(a).

(3)<sup>1</sup> A local exchange carrier may file with the Commission a new or revised charge, classification, regulation, or practice on a streamlined basis. Any such charge, classification, regulation, or practice shall be deemed lawful and shall be effective 7 days (in the case of a reduction in rates) or 15 days (in the case of an increase in rates) after the date on which it is filed with the Commission unless the Commission takes action under paragraph (1) before the end of that 7-day or 15-day period, as is appropriate.

(b) Notwithstanding the provisions of subsection (a) of this section, the Commission may allow part of a charge, classification, regulation, or practice to go into effect, based upon a written showing by the carrier or carriers affected, and an opportunity for written comment thereon by affected persons, that such partial authorization is just, fair, and reasonable. Additionally, or in combination with a partial authorization, the Commission, upon a similar showing, may allow all or part of a charge, classification, regulation, or practice to go into effect on a temporary basis pending further order of the Commission. Authorizations of temporary new or increased charges may include an accounting order of the type provided for in subsection (a).

**SEC. 205. [47 U.S.C. 205] COMMISSION AUTHORIZED TO PRESCRIBE JUST AND REASONABLE CHARGES.**

(a) Whenever, after full opportunity for hearing, upon a complaint or under an order for investigation and hearing made by the Commission on its own initiative, the Commission shall be of opinion that any charge, classification, regulation, or practice of any carrier or carriers is or will be in violation of any of the provisions of this Act, the Commission is authorized and empowered to determine and prescribe what will be the just and reasonable charge or the maximum or minimum, or maximum and minimum, charge or charges to be thereafter observed, and what classification, regulation, or practice is or will be just, fair, and reasonable, to be thereafter followed, and to make an order that the carrier or carriers shall cease and desist from such violation to the extent that the Commission finds that the same does or will exist, and shall not thereafter publish, demand, or collect any charge other than the charge so prescribed, or in excess of the maximum or less than the minimum so prescribed, as the case may be, and shall adopt the classification and shall conform to and observe the regulation or practice so prescribed.

(b) Any carrier, any officer, representative, or agent of a carrier, or any receiver, trustee, lessee, or agent of either of them, who knowingly fails or neglects to obey any order made under the provisions of this section shall forfeit to the United States the sum of \$12,000 for each offense. Every distinct violation shall be a separate offense, and in case of continuing violation each day shall be deemed a separate offense.

<sup>1</sup> Indentation so in original; should be moved 2-ems to the left.

**SEC. 206. [47 U.S.C. 206] LIABILITY OF CARRIERS FOR DAMAGES.**

In case any common carrier shall do, or cause or permit to be done, any act, matter, or thing in this Act prohibited or declared to be unlawful, or shall omit to do any act, matter, or thing in this Act required to be done, such common carrier shall be liable to the person or persons injured thereby for the full amount of damages sustained in consequence of any such violation of the provisions of this Act, together with a reasonable counsel or attorney's fee, to be fixed by the court in every case of recovery, which attorney's fee shall be taxed and collected as part of the costs in the case.

**SEC. 207. [47 U.S.C. 207] RECOVERY OF DAMAGES.**

Any person claiming to be damaged by any common carrier subject to the provisions of this Act may either make complaint to the Commission as hereinafter provided for, or may bring suit for the recovery of the damages for which such common carrier may be liable under the provisions of this Act, in any district court of the United States of competent jurisdiction; but such person shall not have the right to pursue both such remedies.

**SEC. 208. [47 U.S.C. 208] COMPLAINTS TO THE COMMISSION.**

(a) Any person, any body politic or municipal organization, or State commission, complaining of anything done or omitted to be done by any common carrier subject to this Act, in contravention of the provisions thereof, may apply to said Commission by petition which shall briefly state the facts, whereupon a statement of the complaint thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint or to answer the same in writing within a reasonable time to be specified by the Commission. If such common carrier within the time specified shall make reparation for the injury alleged to have been caused, the common carrier shall be relieved of liability to the complainant only for the particular violation of law thus complained of. If such carrier or carriers shall not satisfy the complaint within the time specified or there shall appear to be any reasonable ground for investigating said complaint, it shall be the duty of the Commission to investigate the matters complained of in such manner and by such means as it shall deem proper. No complaint shall at any time be dismissed because of the absence of direct damage to the complainant.

(b)(1) Except as provided in paragraph (2), the Commission shall, with respect to any investigation under this section of the lawfulness of a charge, classification, regulation, or practice, issue an order concluding such investigation within 5 months after the date on which the complaint was filed.

(2) The Commission shall, with respect to any such investigation initiated prior to the date of enactment of this subsection, issue an order concluding the investigation not later than 12 months after such date of enactment.

(3) Any order concluding an investigation under paragraph (1) or (2) shall be a final order and may be appealed under section 402(a).

**SEC. 209. [47 U.S.C. 209] ORDERS FOR PAYMENT OF MONEY.**

If, after hearing on a complaint, the Commission shall determine that any party complainant is entitled to an award of damages under the provisions of this Act, the Commission shall make

an order directing the carrier to pay to the complainant the sum to which he is entitled on or before a day named.

**SEC. 210. [47 U.S.C. 210] FRANKS AND PASSES.**

(a) Nothing in this Act or in any other provision of law shall be construed to prohibit common carriers from issuing or giving franks to, exchanging franks with each other for the use of, their officers, agents, employees, and their families, or subject to such rules as the Commission may prescribe, from issuing, giving, or exchanging franks and passes to or with other common carriers not subject to the provisions of this Act, for the use of their officers, agents, employees, and their families. The term "employees," as used in this section, shall include furloughed, pensioned, and superannuated employees.

(b) Nothing in this Act or in any other provision of law shall be construed to prohibit common carriers from rendering to any agency of the Government free service in connection with the preparation for the national defense: *Provided*, That such free service may be rendered only in accordance with such rules and regulations as the Commission may prescribe therefor.

**SEC. 211. [47 U.S.C. 211] COPIES OF CONTRACTS TO BE FILED.**

(a) Every carrier subject to this Act shall file with the Commission copies of all contracts, agreements, or arrangements with other carriers, or with common carriers not subject to the provisions of this Act, in relation to any traffic affected by the provisions of this Act to which it may be a party.

(b) The Commission shall have authority to require the filing of any other contracts of any carrier, and shall also have authority to exempt any carrier from submitting copies of such minor contracts as the Commission may determine.

**SEC. 212. [47 U.S.C. 212] INTERLOCKING DIRECTORATES—OFFICIALS DEALING IN SECURITIES.**

It shall be unlawful for any person to hold the position of officer or director of more than one carrier subject to this Act, unless such holding shall have been authorized by order of the Commission, upon due showing in form and manner prescribed by the Commission, that neither public nor private interests will be adversely affected thereby: *Provided*, That the Commission may authorize persons to hold the position of officer or director in more than one such carrier, without regard to the requirements of this section, where it has found that one of the two or more carriers directly or indirectly owns more than 50 per centum of the stock of the other or others, or that 50 per centum or more of the stock of all such carriers is directly or indirectly owned by the same person. After this section takes effect it shall be unlawful for any officer or director of any carrier subject to this Act to receive for his own benefit directly or indirectly, any money or thing of value in respect of negotiation, hypothecation, or sale of any securities issued or to be issued by such carriers, or to share in any of the proceeds thereof, or to participate in the making or paying of any dividends of such carriers from any funds properly included in capital account.

**SEC. 213. [47 U.S.C. 213] VALUATION OF CARRIER PROPERTY.**

(a) The Commission may from time to time, as may be necessary for the proper administration of this Act, and after oppor-

tunity for hearing, make a valuation of all or of any part of the property owned or used by any carrier subject to this Act, as of such date as the Commission may fix.

(b) The Commission may at any time require any such carrier to file with the Commission an inventory of all or of any part of the property owned or used by said carrier, which inventory shall show the units of said property classified in such detail, and in such manner, as the Commission shall direct, and shall show the estimated cost of reproduction new of said units, and their reproduction cost new less depreciation, as of such date as the Commission may direct; and such carrier shall file such inventory within such reasonable time as the Commission by order shall require.

(c) The Commission may at any time require any such carrier to file with the Commission a statement showing the original cost at the time of dedication to the public use of all or of any part of the property owned or used by said carrier. For the showing of such original cost said property shall be classified, and the original cost shall be defined, in such manner as the Commission may prescribe; and if any part of such cost cannot be determined from accounting or other records, the portion of the property for which such cost cannot be determined shall be reported to the Commission; and if the Commission shall so direct, the original cost thereof shall be estimated in such manner as the Commission may prescribe. If the carrier owning the property at the time such original cost is reported shall have paid more or less than the original cost to acquire the same, the amount of such cost of acquisition, and any facts which the Commission may require in connection therewith, shall be reported with such original cost. The report made by a carrier under this paragraph shall show the source or sources from which the original cost reported was obtained, and such other information as to the manner in which the report was prepared, as the Commission shall require.

(d) Nothing shall be included in the original cost reported for the property of any carrier under paragraph (c) of this section on account of any easement, license, or franchise granted by the United States or by any State or political subdivision thereof, beyond the reasonable necessary expense lawfully incurred in obtaining such easement, license, or franchise from the public authority aforesaid, which expense shall be reported separately from all other costs in such detail as the Commission may require; and nothing shall be included in any valuation of the property of any carrier made by the Commission on account of any such easement, license, or franchise, beyond such reasonable necessary expense lawfully incurred as aforesaid.

(e) The Commission shall keep itself informed of all new construction, extensions, improvements, retirements, or other changes in the condition, quantity, use, and classification of the property of common carriers, and of the cost of all additions and betterments thereto and of all changes in the investment therein, and may keep itself informed of current changes in costs and values of carrier properties.

(f) For the purpose of enabling the Commission to make a valuation of any of the property of any such carrier, or to find the original cost of such property, or to find any other facts concerning the same which are required for use by the Commission, it shall be the

duty of each such carrier to furnish to the Commission, within such reasonable time as the Commission may order, any information with respect thereto which the Commission may by order require, including copies of maps, contracts, reports of engineers, and other data, records, and papers, and to grant to all agents of the Commission free access to its property and its accounts, records, and memoranda whenever and wherever requested by any such duly authorized agent, and to cooperate with and aid the Commission in the work of making any such valuation of finding in such manner and to such extent as the Commission may require and direct, and all rules and regulations made by the Commission for the purpose of administering this section shall have the full force and effect of law. Unless otherwise ordered by the Commission, with the reasons therefor, the records and data of the Commission shall be open to the inspection and examination of the public. The Commission, in making any such valuation, shall be free to adopt any method of valuation which shall be lawful.

(g) Nothing in this section shall impair or diminish the powers of any State commission.

**SEC. 214. [47 U.S.C. 214] EXTENSION OF LINES.**

(a) No carrier shall undertake the construction of a new line or of an extension of any line, or shall acquire or operate any line, or extension thereof, or shall engage in transmission over or by means of such additional or extended line, unless and until there shall first have been obtained from the Commission a certificate that the present or future public convenience and necessity require or will require the construction, or operation, or construction and operation, of such additional or extended line: *Provided*, That no such certificate shall be required under this section for the construction, acquisition, or operation of (1) a line within a single State unless such line constitutes part of an interstate line, (2) local, branch, or terminal lines not exceeding ten miles in length, or (3) any line acquired under section 221 of this Act: *Provided further*, That the Commission may, upon appropriate request being made, authorize temporary or emergency service, or the supplementing of existing facilities, without regard to the provisions of this section. No carrier shall discontinue, reduce, or impair service to a community, or part of a community, unless and until there shall first have been obtained from the Commission a certificate that neither the present nor future public convenience and necessity will be adversely affected thereby; except that the Commission may, upon appropriate request being made, authorize temporary or emergency discontinuance, reduction, or impairment of service, or partial discontinuance, reduction, or impairment of service, without regard to the provisions of this section. As used in this section the term "line" means any channel of communication established by the use of appropriate equipment, other than a channel of communication established by the interconnection of two or more existing channels: *Provided, however*, That nothing in this section shall be construed to require a certificate or other authorization from the Commission for any installation, replacement, or other changes in plant, operation, or equipment, other than new construction, which will not impair the adequacy or quality of service provided.

(b) Upon receipt of an application for any such certificate, the Commission shall cause notice thereof to be given to, and shall cause a copy of such application to be filed with, the Secretary of Defense, the Secretary of State (with respect to such applications involving service to foreign points), and the Governor of each State in which such line is proposed to be constructed, extended, acquired, or operated, or in which such discontinuance, reduction, or impairment of service is proposed, with the right to those notified to be heard; and the Commission may require such published notice as it shall determine.

(c) The Commission shall have power to issue such certificate as applied for, to refuse to issue it, or to issue it for a portion or portions of a line, or extension thereof, or discontinuance, reduction, or impairment of service, described in the application, or for the partial exercise only of such right or privilege, and may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require. After issuance of such certificate, and not before, the carrier may, without securing approval other than such certificate, comply with the terms and conditions contained in or attached to the issuance of such certificate and proceed with the construction, extension, acquisition, operation, or discontinuance, reduction, or impairment of service covered thereby. Any construction, extension, acquisition, operation, discontinuance, reduction, or impairment of service contrary to the provisions of this section may be enjoined by any court of competent jurisdiction at the suit of the United States, the Commission, the State commission, any State affected, or any party in interest.

(d) The Commission may, after full opportunity for hearing, in a proceeding upon complaint or upon its own initiative without complaint, authorize or require by order any carrier, party to such proceeding, to provide itself with adequate facilities for the expeditious and efficient performance of its service as a common carrier and to extend its line or to establish a public office; but no such authorization or order shall be made unless the Commission finds, as to such provision of facilities, as to such establishment of public offices, or as to such extension, that it is reasonably required in the interest of public convenience and necessity, or as to such extension or facilities that the expense involved therein will not impair the ability of the carrier to perform its duty to the public. Any carrier which refuses or neglects to comply with any order of the Commission made in pursuance of this paragraph shall forfeit to the United States \$1,200 for each day during which such refusal or neglect continues.

(e) PROVISION OF UNIVERSAL SERVICE.—

(1) ELIGIBLE TELECOMMUNICATIONS CARRIERS.—A common carrier designated as an eligible telecommunications carrier under paragraph (2), (3), or (6) shall be eligible to receive universal service support in accordance with section 254 and shall, throughout the service area for which the designation is received—

(A) offer the services that are supported by Federal universal service support mechanisms under section 254(c), either using its own facilities or a combination of its own facilities and resale of another carrier's services

(including the services offered by another eligible telecommunications carrier); and

(B) advertise the availability of such services and the charges therefor using media of general distribution.

(2) DESIGNATION OF ELIGIBLE TELECOMMUNICATIONS CARRIERS.—A State commission shall upon its own motion or upon request designate a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the State commission. Upon request and consistent with the public interest, convenience, and necessity, the State commission may, in the case of an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated by the State commission, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the State commission shall find that the designation is in the public interest.

(3) DESIGNATION OF ELIGIBLE TELECOMMUNICATIONS CARRIERS FOR UNSERVED AREAS.—If no common carrier will provide the services that are supported by Federal universal service support mechanisms under section 254(c) to an unserved community or any portion thereof that requests such service, the Commission, with respect to interstate services or an area served by a common carrier to which paragraph (6) applies, or a State commission, with respect to intrastate services, shall determine which common carrier or carriers are best able to provide such service to the requesting unserved community or portion thereof and shall order such carrier or carriers to provide such service for that unserved community or portion thereof. Any carrier or carriers ordered to provide such service under this paragraph shall meet the requirements of paragraph (1) and shall be designated as an eligible telecommunications carrier for that community or portion thereof.

(4) RELINQUISHMENT OF UNIVERSAL SERVICE.—A State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall permit an eligible telecommunications carrier to relinquish its designation as such a carrier in any area served by more than one eligible telecommunications carrier. An eligible telecommunications carrier that seeks to relinquish its eligible telecommunications carrier designation for an area served by more than one eligible telecommunications carrier shall give advance notice to the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) of such relinquishment. Prior to permitting a telecommunications carrier designated as an eligible telecommunications carrier to cease providing universal service in an area served by more than one eligible telecommunications carrier, the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall require the remaining eligible telecommunications carrier or carriers to ensure that all customers served by the relinquishing carrier will continue to be served, and

shall require sufficient notice to permit the purchase or construction of adequate facilities by any remaining eligible telecommunications carrier. The State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall establish a time, not to exceed one year after the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) approves such relinquishment under this paragraph, within which such purchase or construction shall be completed.

(5) SERVICE AREA DEFINED.—The term “service area” means a geographic area established by a State commission (or the Commission under paragraph (6)) for the purpose of determining universal service obligations and support mechanisms. In the case of an area served by a rural telephone company, “service area” means such company’s “study area” unless and until the Commission and the States, after taking into account recommendations of a Federal-State Joint Board instituted under section 410(c), establish a different definition of service area for such company.

(6) COMMON CARRIERS NOT SUBJECT TO STATE COMMISSION JURISDICTION.—In the case of a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission, the Commission shall upon request designate such a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the Commission consistent with applicable Federal and State law. Upon request and consistent with the public interest, convenience and necessity, the Commission may, with respect to an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated under this paragraph, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the Commission shall find that the designation is in the public interest.

**SEC. 215. [47 U.S.C. 215] TRANSACTIONS RELATING TO SERVICES, EQUIPMENT, AND SO FORTH.**

(a) The Commission shall examine into transactions entered into by any common carrier which relate to the furnishing of equipment, supplies, research, services, finances, credit, or personnel to such carrier and/or which may affect the changes made or to be made and/or the services rendered or to be rendered by such carrier, in wire or radio communications subject to this Act, and shall report to the Congress whether any such transactions have affected or are likely to affect adversely the ability of the carrier to render adequate service to the public, or may result in any undue or unreasonable increase in charges or in the maintenance of undue or unreasonable charges for such service; and in order to fully examine into such transactions the Commission shall have access to and the right of inspection and examination of all accounts, records, and memoranda including all documents, papers, and correspondence now or hereafter existing, of persons furnishing such equipment, supplies, research, services, finances, credit, or personnel.

The Commission shall include in its report its recommendations for necessary legislation in connection with such transactions, and shall report specifically whether in its opinion legislation should be enacted (1) authorizing the Commission to declare any such transactions void or to permit such transactions to be carried out subject to such modification of their terms and conditions as the Commission shall deem desirable in the public interest; and/or (2) subjecting such transactions to the approval of the Commission where the person furnishing or seeking to furnish the equipment, supplies, research, service, finances, credit or personnel is a person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such carrier; and/or (3) authorizing the Commission to require that all or any transactions of carriers involving the furnishing of equipment, supplies, research, services, finances, credit, or personnel to such carrier be upon competitive bids on such terms and conditions and subject to such regulations as it shall prescribe as necessary in the public interest.

(b) The Commission shall investigate the methods by which and the extent to which wire telephone companies are furnishing wire telegraph service and wire telegraph companies are furnishing wire telephone service, and shall report its findings to Congress together with its recommendations as to whether additional legislation on this subject is desirable.

(c) The Commission shall examine all contracts of common carriers subject to this Act which prevent the other party thereto from dealing with another common carrier subject to this Act, and shall report its findings to Congress, together with its recommendations as to whether additional legislation on this subject is desirable.

**SEC. 216. [47 U.S.C. 216] APPLICATION OF ACT TO RECEIVERS AND TRUSTEES.**

The provisions of this Act shall apply to all receivers and operating trustees of carriers subject to this Act to the same extent that it applies to carriers.

**SEC. 217. [47 U.S.C. 217] LIABILITY OF CARRIER FOR ACTS AND OMISSIONS OF AGENTS.**

In construing and enforcing the provisions of this Act, the act, omission, or failure of any officer, agent, or other person acting for or employed by any common carrier or user, acting within the scope of his employment, shall in every case be also deemed to be the act, omission, or failure of such carrier or user as well as that of the person.

**SEC. 218. [47 U.S.C. 218] INQUIRIES INTO MANAGEMENT.**

The Commission may inquire into the management of the business of all carriers subject to this Act, and shall keep itself informed as to the manner and method in which the same is conducted and as to technical developments and improvements in wire and radio communication and radio transmission of energy to the end that the benefits of new inventions and developments may be made available to the people of the United States. The Commission may obtain from such carriers and from persons directly or indirectly controlling or controlled by, or under direct or indirect common control with, such carriers full and complete information necessary to enable the Commission to perform the duties and carry out the objects for which it was created.

**SEC. 219. [47 U.S.C. 219] ANNUAL AND OTHER REPORTS.**

(a) The Commission is authorized to require annual reports from all carriers subject to this Act, and from persons directly or indirectly controlling or controlled by, or under direct or indirect common control with, any such carrier, to prescribe the manner in which such reports shall be made, and to require from such persons specific answers to all questions upon which the Commission may need information. Except as otherwise required by the Commission, such annual reports shall show in detail the amount of capital stock issued, the amount and privileges of each class of stock, the amounts paid therefor, and the manner of payment for the same; the dividends paid and the surplus fund, if any; the number of stockholders (and the names of the thirty largest holders of each class of stock and the amount held by each); the funded and floating debts and the interest paid thereon; the cost and value of the carrier's property, franchises, and equipment; the number of employees and the salaries paid each class; the names of all officers and directors, and the amount of salary, bonus, and all other compensation paid to each; the amounts expended for improvements each year, how expended, and the character of such improvements; the earnings and receipts from each branch of business and from all sources; the operating and other expenses; the balances of profit and loss; and a complete exhibit of the financial operations of the carrier each year, including an annual balance sheet. Such reports shall also contain such information in relation to charges or regulations concerning charges, or agreements, arrangements, or contracts affecting the same, as the Commission may require.

(b) Such reports shall be for such twelve months' period as the Commission shall designate and shall be filed with the Commission at its office in Washington within three months after the close of the year for which the report is made, unless additional time is granted in any case by the Commission; and if any person subject to the provisions of this section shall fail to make and file said annual reports within the time above specified, or within the time extended by the Commission, for making and filing the same, or shall fail to make specific answer to any question authorized by the provisions of this section within thirty days from the time it is lawfully required so to do, such person shall forfeit to the United States the sum of \$1,200 for each and every day it shall continue to be in default with respect thereto. The Commission may by general or special orders require any such carriers to file monthly reports of earnings and expenses and to file periodical and/or special reports concerning any matters with respect to which the Commission is authorized or required by law to act. If any such carrier shall fail to make and file any such periodical or special report within the time fixed by the Commission, it shall be subject to the forfeitures above provided.

**SEC. 220. [47 U.S.C. 220] ACCOUNTS, RECORDS, AND MEMORANDA; DEPRECIATION CHARGES<sup>1</sup>.**

(a)(1) The Commission may, in its discretion, prescribe the forms of any and all accounts, records, and memoranda to be kept

<sup>1</sup>Public Law 97-35, 95 Stat. 357, 738-39, Aug. 13, 1981, provided as follows:

by carriers subject to this Act, including the accounts, records, and memoranda of the movement of traffic, as well as of the receipts and expenditures of moneys.

(2) The Commission shall, by rule, prescribe a uniform system of accounts for use by telephone companies. Such uniform system shall require that each common carrier shall maintain a system of accounting methods, procedures, and techniques (including accounts and supporting records and memoranda) which shall ensure a proper allocation of all costs to and among telecommunications services, facilities, and products (and to and among classes of such services, facilities, and products) which are developed, manufactured, or offered by such common carrier.

(b) The Commission may prescribe for such carriers as it determines to be appropriate, the classes of property for which depreciation charges may be properly included under operating expenses, and the percentages of depreciation which shall be charged with respect to each of such classes of property, classifying the carriers as it may deem proper for this purpose. The Commission may, when it deems necessary, modify the classes and percentages so prescribed. Such carriers shall not, after the Commission has prescribed the classes of property for which depreciation charges may be included, charge to operating expenses any depreciation charges on classes of property other than those prescribed by the Commission, or, after the Commission has prescribed percentages of depreciation, charge with respect to any class of property a percentage of depreciation other than that prescribed therefor by the Commission. No such carrier shall in any case include in any form under its operating or other expenses any depreciation or other charge or expenditure included elsewhere as a depreciation charge or otherwise under its operating or other expenses.

(c) The Commission shall at all times have access to and the right of inspection and examination of all accounts, records, and memoranda, including all documents, papers, and correspondence now or hereafter existing, and kept or required to be kept by such carriers, and the provisions of this section respecting the preservation and destruction of books, papers, and documents shall apply thereto. The burden of proof to justify every accounting entry questioned by the Commission shall be on the person making, authorizing, or requiring such entry and the Commission may suspend a charge or credit pending submission of proof by such person. Any provision of law prohibiting the disclosure of the contents of messages or communications shall not be deemed to prohibit the disclosure of any matter in accordance with the provisions of this section.

---

UNIFORM SYSTEM OF ACCOUNTS

SEC. 1253. (a)(1) The Federal Communications Commission (hereinafter in this section referred to as the "Commission") shall complete the rulemaking proceeding relating to the revision of the uniform system of accounts used by telephone companies (Common Carrier Docket 78-196; notice of proposed rulemaking adopted June 28, 1978, 43 Federal Register 33560) as soon as practicable after the date of the enactment of this Act.

(2) Such uniform system shall require that each common carrier shall maintain a system of accounting methods, procedures, and techniques (including accounts and supporting records and memoranda) which shall ensure a proper allocation of all costs to and among telecommunications services, facilities, and products (and to and among classes of such services, facilities, and products) which are developed, manufactured, or offered by such common carrier.

(b) The Commission shall submit a report to each House of the Congress not later than one year after the date of the enactment of this Act. Such report shall include a summary of actions taken by the Commission in connection with the rulemaking proceeding specified in subsection (a), together with such other information as the Commission consider appropriate.

The Commission may obtain the services of any person licensed to provide public accounting services under the law of any State to assist with, or conduct, audits under this section. While so employed or engaged in conducting an audit for the Commission under this section, any such person shall have the powers granted the Commission under this subsection and shall be subject to subsection (f) in the same manner as if that person were an employee of the Commission.

(d) In case of failure or refusal on the part of any such carrier to keep such accounts, records, and memoranda on the books and in the manner prescribed by the Commission, or to submit such accounts, records, memoranda, documents, papers, and correspondence as are kept to the inspection of the Commission or any of its authorized agents, such carrier shall forfeit to the United States the sum of \$6,000 for each day of the continuance of each such offense.

(e) Any person who shall willfully make any false entry in the accounts of any book of accounts or in any record or memoranda kept by any such carrier, or who shall willfully destroy, mutilate, alter, or by any other means or device falsify any such account, record, or memoranda, or who shall willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the carrier, shall be deemed guilty of a misdemeanor, and shall be subject, upon conviction, to a fine of not less than \$1,000 nor more than \$5,000 or imprisonment for a term of not less than one year nor more than three years, or both such fine and imprisonment: *Provided*, That the Commission may in its discretion issue orders specifying such operating, accounting, or financial papers, records, books, blanks, or documents which may, after a reasonable time, be destroyed, and prescribing the length of time such books, papers, or documents shall be preserved.

(f) No member, officer, or employee of the Commission shall divulge any fact or information which may come to his knowledge during the course of examination of books or other accounts, as hereinbefore provided, except insofar as he may be directed by the Commission or by a court.

(g) After the Commission has prescribed the forms and manner of keeping of accounts, records, or memoranda to be kept by any person as herein provided, it shall be unlawful for such person to keep any other accounts, records, or memoranda than those so prescribed or such as may be approved by the Commission or to keep the accounts in any other manner than that prescribed or approved by the Commission. Notice of alterations by the Commission in the required manner or form of keeping accounts shall be given to such persons by the Commission at least six months before the same are to take effect.

(h) The Commission may classify carriers subject to this Act and prescribe different requirements under this section for different classes of carriers, and may, if it deems such action consistent with the public interest, except the carriers of any particular class or classes in any State from any of the requirements under this section in cases where such carriers are subject to State commission regulation with respect to matters to which this section relates.

(i) The Commission, before prescribing any requirements as to accounts, records, or memoranda, shall notify each State commission having jurisdiction with respect to any carrier involved, and shall give reasonable opportunity to each such commission to present its views, and shall receive and consider such views and recommendations.

(j) The Commission shall investigate and report to Congress as to the need for legislation to define further or harmonize the powers of the Commission and of State commissions with respect to matters to which this section relates.

**SEC. 221. [47 U.S.C. 221] SPECIAL PROVISIONS RELATING TO TELEPHONE COMPANIES.**

[(a) Repealed by Public Law 104–104; 110 Stat. 143.]

(b) Subject to the provisions of sections 225 and 301, nothing in this Act shall be construed to apply, or to give the Commission jurisdiction, with respect to charges, classifications, practices, services, facilities, or regulations for or in connection with wire, mobile, or point-to-point radio telephone exchange service, or any combination thereof even though a portion of such exchange service constitutes interstate or foreign communication, in any case where such matters are subject to regulation by a State commission or by local governmental authority.

(c) For the purpose of administering this Act as to carriers engaged in wire telephone communication, the Commission may classify the property of any such carrier used for wire telephone communication, and determine what property of said carrier shall be considered as used in interstate or foreign telephone toll service. Such classification shall be made after hearing, upon notice to the carrier, the State commission (or the Governor, if the State has no State commission) of any State in which the property of said carrier is located, and such other persons as the commission may prescribe.

(d) In making a valuation of the property of any wire telephone carrier the Commission, after making the classification authorized in this section, may in its discretion value only that part of the property of such carrier determined to be used in interstate or foreign telephone toll service.

**SEC. 222. [47 U.S.C. 222] PRIVACY OF CUSTOMER INFORMATION.**

(a) **IN GENERAL.**—Every telecommunications carrier has a duty to protect the confidentiality of proprietary information of, and relating to, other telecommunication carriers, equipment manufacturers, and customers, including telecommunication carriers reselling telecommunications services provided by a telecommunications carrier.

(b) **CONFIDENTIALITY OF CARRIER INFORMATION.**—A telecommunications carrier that receives or obtains proprietary information from another carrier for purposes of providing any telecommunications service shall use such information only for such purpose, and shall not use such information for its own marketing efforts.

(c) **CONFIDENTIALITY OF CUSTOMER PROPRIETARY NETWORK INFORMATION.**—

(1) **PRIVACY REQUIREMENTS FOR TELECOMMUNICATIONS CARRIERS.**—Except as required by law or with the approval of

the customer, a telecommunications carrier that receives or obtains customer proprietary network information by virtue of its provision of a telecommunications service shall only use, disclose, or permit access to individually identifiable customer proprietary network information in its provision of (A) the telecommunications service from which such information is derived, or (B) services necessary to, or used in, the provision of such telecommunications service, including the publishing of directories.

(2) DISCLOSURE ON REQUEST BY CUSTOMERS.—A telecommunications carrier shall disclose customer proprietary network information, upon affirmative written request by the customer, to any person designated by the customer.

(3) AGGREGATE CUSTOMER INFORMATION.—A telecommunications carrier that receives or obtains customer proprietary network information by virtue of its provision of a telecommunications service may use, disclose, or permit access to aggregate customer information other than for the purposes described in paragraph (1). A local exchange carrier may use, disclose, or permit access to aggregate customer information other than for purposes described in paragraph (1) only if it provides such aggregate information to other carriers or persons on reasonable and nondiscriminatory terms and conditions upon reasonable request therefor.

(d) EXCEPTIONS.—Nothing in this section prohibits a telecommunications carrier from using, disclosing, or permitting access to customer proprietary network information obtained from its customers, either directly or indirectly through its agents—

(1) to initiate, render, bill, and collect for telecommunications services;

(2) to protect the rights or property of the carrier, or to protect users of those services and other carriers from fraudulent, abusive, or unlawful use of, or subscription to, such services;

(3) to provide any inbound telemarketing, referral, or administrative services to the customer for the duration of the call, if such call was initiated by the customer and the customer approves of the use of such information to provide such service; and

(4) to provide call location information concerning the user of a commercial mobile service (as such term is defined in section 332(d))—

(A) to a public safety answering point, emergency medical service provider or emergency dispatch provider, public safety, fire service, or law enforcement official, or hospital emergency or trauma care facility, in order to respond to the user's call for emergency services;

(B) to inform the user's legal guardian or members of the user's immediate family of the user's location in an emergency situation that involves the risk of death or serious physical harm; or

(C) to providers of information or database management services solely for purposes of assisting in the delivery of emergency services in response to an emergency.

(e) **SUBSCRIBER LIST INFORMATION.**—Notwithstanding subsections (b), (c), and (d), a telecommunications carrier that provides telephone exchange service shall provide subscriber list information gathered in its capacity as a provider of such service on a timely and unbundled basis, under nondiscriminatory and reasonable rates, terms, and conditions, to any person upon request for the purpose of publishing directories in any format.

(f) **AUTHORITY TO USE WIRELESS LOCATION INFORMATION.**—For purposes of subsection (c)(1), without the express prior authorization of the customer, a customer shall not be considered to have approved the use or disclosure of or access to—

(1) call location information concerning the user of a commercial mobile service (as such term is defined in section 332(d)), other than in accordance with subsection (d)(4); or

(2) automatic crash notification information to any person other than for use in the operation of an automatic crash notification system.

(g) **SUBSCRIBER LISTED AND UNLISTED INFORMATION FOR EMERGENCY SERVICES.**—Notwithstanding subsections (b), (c), and (d), a telecommunications carrier that provides telephone exchange service shall provide information described in subsection (i)(3)(A) (including information pertaining to subscribers whose information is unlisted or unpublished) that is in its possession or control (including information pertaining to subscribers of other carriers) on a timely and unbundled basis, under nondiscriminatory and reasonable rates, terms, and conditions to providers of emergency services, and providers of emergency support services, solely for purposes of delivering or assisting in the delivery of emergency services.

(h) **DEFINITIONS.**—As used in this section:

(1) **CUSTOMER PROPRIETARY NETWORK INFORMATION.**—The term “customer proprietary network information” means—

(A) information that relates to the quantity, technical configuration, type, destination, location, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship; and

(B) information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier;

except that such term does not include subscriber list information.

(2) **AGGREGATE INFORMATION.**—The term “aggregate customer information” means collective data that relates to a group or category of services or customers, from which individual customer identities and characteristics have been removed.

(3) **SUBSCRIBER LIST INFORMATION.**—The term “subscriber list information” means any information—

(A) identifying the listed names of subscribers of a carrier and such subscribers’ telephone numbers, addresses, or primary advertising classifications (as such classifications are assigned at the time of the establishment of such

service), or any combination of such listed names, numbers, addresses, or classifications; and

(B) that the carrier or an affiliate has published, caused to be published, or accepted for publication in any directory format.

(4) PUBLIC SAFETY ANSWERING POINT.—The term “public safety answering point” means a facility that has been designated to receive emergency calls and route them to emergency service personnel.

(5) EMERGENCY SERVICES.—The term “emergency services” means 9–1–1 emergency services and emergency notification services.

(6) EMERGENCY NOTIFICATION SERVICES.—The term “emergency notification services” means services that notify the public of an emergency.

(7) EMERGENCY SUPPORT SERVICES.—The term “emergency support services” means information or data base management services used in support of emergency services.

**SEC. 223.<sup>1</sup> [47 U.S.C. 223] OBSCENE OR HARASSING TELEPHONE CALLS IN THE DISTRICT OF COLUMBIA OR IN INTERSTATE OR FOREIGN COMMUNICATIONS.**

(a) Whoever—

(1) in interstate or foreign communications—

(A) by means of a telecommunications device knowingly—

(i) makes, creates, or solicits, and

(ii) initiates the transmission of,

any comment, request, suggestion, proposal, image, or other communication which is obscene, lewd, lascivious, filthy, or indecent, with intent to annoy, abuse, threaten, or harass another person;

(B) by means of a telecommunications device knowingly—

(i) makes, creates, or solicits, and

(ii) initiates the transmission of,

any comment, request, suggestion, proposal, image, or other communication which is obscene or indecent, knowing that the recipient of the communication is under 18 years of age, regardless of whether the maker of such communication placed the call or initiated the communication;

(C) makes a telephone call or utilizes a telecommunications device, whether or not conversation or communication ensues, without disclosing his identity and with intent to annoy, abuse, threaten, or harass any person at the called number or who receives the communications;

(D) makes or causes the telephone of another repeatedly or continuously to ring, with intent to harass any person at the called number; or

(E) makes repeated telephone calls or repeatedly initiates communication with a telecommunications device, during which conversation or communication ensues, solely

<sup>1</sup>Section 223 was added by Public Law 90–299, approved May 3, 1968, 82 Stat. 112; amended by Public Law 98–214, 97 Stat. 1469, Dec. 8, 1983. Section 223 was amended twice in the 100th Congress: Public Law 100–297, 102 Stat. 424, April 28, 1988; Public Law 100–690, 102 Stat. 4181, Nov. 18, 1988. Printed is the section as amended by the latter amendment.

to harass any person at the called number or who receives the communication; or

(2) knowingly permits any telecommunications facility under his control to be used for any activity prohibited by paragraph (1) with the intent that it be used for such activity, shall be fined under title 18, United States Code, or imprisoned not more than two years, or both.

(b)(1) Whoever knowingly—

(A) within the United States, by means of telephone, makes (directly or by recording device) any obscene communication for commercial purposes to any person, regardless of whether the maker of such communication placed the call; or

(B) permits any telephone facility under such person's control to be used for an activity prohibited by subparagraph (A), shall be fined in accordance with title 18, United States Code, or imprisoned not more than two years, or both.

(2) Whoever knowingly—

(A) within the United States, by means of telephone, makes (directly or by recording device) any indecent communication for commercial purposes which is available to any person under 18 years of age or to any other person without that person's consent, regardless of whether the maker of such communication placed the call; or

(B) permits any telephone facility under such person's control to be used for an activity prohibited by subparagraph (A), shall be fined not more than \$50,000 or imprisoned not more than six months, or both.

(3) It is a defense to prosecution under paragraph (2) of this subsection that the defendant restricted access to the prohibited communication to persons 18 years of age or older in accordance with subsection (c) of this section and with such procedures as the Commission may prescribe by regulation.

(4) In addition to the penalties under paragraph (1), whoever, within the United States, intentionally violates paragraph (1) or (2) shall be subject to a fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(5)(A) In addition to the penalties under paragraphs (1), (2), and (5), whoever, within the United States, violates paragraph (1) or (2) shall be subject to a civil fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(B) A fine under this paragraph may be assessed either—

(i) by a court, pursuant to civil action by the Commission or any attorney employed by the Commission who is designated by the Commission for such purposes, or

(ii) by the Commission after appropriate administrative proceedings.

(6) The Attorney General may bring a suit in the appropriate district court of the United States to enjoin any act or practice which violates paragraph (1) or (2). An injunction may be granted in accordance with the Federal Rules of Civil Procedure.

(c)(1) A common carrier within the District of Columbia or within any State, or in interstate or foreign commerce, shall not, to the extent technically feasible, provide access to a communica-

tion specified in subsection (b) from the telephone of any subscriber who has not previously requested in writing the carrier to provide access to such communication if the carrier collects from subscribers an identifiable charge for such communication that the carrier remits, in whole or in part, to the provider of such communication.

(2) Except as provided in paragraph (3), no cause of action may be brought in any court or administrative agency against any common carrier, or any of its affiliates, including their officers, directors, employees, agents, or authorized representatives on account of—

(A) any action which the carrier demonstrates was taken in good faith to restrict access pursuant to paragraph (1) of this subsection; or

(B) any access permitted—

(i) in good faith reliance upon the lack of any representation by a provider of communications that communications provided by that provider are communications specified in subsection (b), or

(ii) because a specific representation by the provider did not allow the carrier, acting in good faith, a sufficient period to restrict access to communications described in subsection (b).

(3) Notwithstanding paragraph (2) of this subsection, a provider of communications services to which subscribers are denied access pursuant to paragraph (1) of this subsection may bring an action for a declaratory judgment or similar action in a court. Any such action shall be limited to the question of whether the communications which the provider seeks to provide fall within the category of communications to which the carrier will provide access only to subscribers who have previously requested such access.

(d) Whoever—

(1) in interstate or foreign communications knowingly—

(A) uses an interactive computer service to send to a specific person or persons under 18 years of age, or

(B) uses any interactive computer service to display in a manner available to a person under 18 years of age, any comment, request, suggestion, proposal, image, or other communication that, in context, depicts or describes, in terms patently offensive as measured by contemporary community standards, sexual or excretory activities or organs, regardless of whether the user of such service placed the call or initiated the communication; or

(2) knowingly permits any telecommunications facility under such person's control to be used for an activity prohibited by paragraph (1) with the intent that it be used for such activity,

shall be fined under title 18, United States Code, or imprisoned not more than two years, or both.

(e) In addition to any other defenses available by law:

(1) No person shall be held to have violated subsection (a) or (d) solely for providing access or connection to or from a facility, system, or network not under that person's control, including transmission, downloading, intermediate storage, access software, or other related capabilities that are incidental

to providing such access or connection that does not include the creation of the content of the communication.

(2) The defenses provided by paragraph (1) of this subsection shall not be applicable to a person who is a conspirator with an entity actively involved in the creation or knowing distribution of communications that violate this section, or who knowingly advertises the availability of such communications.

(3) The defenses provided in paragraph (1) of this subsection shall not be applicable to a person who provides access or connection to a facility, system, or network engaged in the violation of this section that is owned or controlled by such person.

(4) No employer shall be held liable under this section for the actions of an employee or agent unless the employee's or agent's conduct is within the scope of his or her employment or agency and the employer (A) having knowledge of such conduct, authorizes or ratifies such conduct, or (B) recklessly disregards such conduct.

(5) It is a defense to a prosecution under subsection (a)(1)(B) or (d), or under subsection (a)(2) with respect to the use of a facility for an activity under subsection (a)(1)(B) that a person—

(A) has taken, in good faith, reasonable, effective, and appropriate actions under the circumstances to restrict or prevent access by minors to a communication specified in such subsections, which may involve any appropriate measures to restrict minors from such communications, including any method which is feasible under available technology; or

(B) has restricted access to such communication by requiring use of a verified credit card, debit account, adult access code, or adult personal identification number.

(6) The Commission may describe measures which are reasonable, effective, and appropriate to restrict access to prohibited communications under subsection (d). Nothing in this section authorizes the Commission to enforce, or is intended to provide the Commission with the authority to approve, sanction, or permit, the use of such measures. The Commission shall have no enforcement authority over the failure to utilize such measures. The Commission shall not endorse specific products relating to such measures. The use of such measures shall be admitted as evidence of good faith efforts for purposes of paragraph (5) in any action arising under subsection (d). Nothing in this section shall be construed to treat interactive computer services as common carriers or telecommunications carriers.

(f)(1) No cause of action may be brought in any court or administrative agency against any person on account of any activity that is not in violation of any law punishable by criminal or civil penalty, and that the person has taken in good faith to implement a defense authorized under this section or otherwise to restrict or prevent the transmission of, or access to, a communication specified in this section.

(2) No State or local government may impose any liability for commercial activities or actions by commercial entities, nonprofit li-

braries, or institutions of higher education in connection with an activity or action described in subsection (a)(2) or (d) that is inconsistent with the treatment of those activities or actions under this section: *Provided, however*, That nothing herein shall preclude any State or local government from enacting and enforcing complementary oversight, liability, and regulatory systems, procedures, and requirements, so long as such systems, procedures, and requirements govern only intrastate services and do not result in the imposition of inconsistent rights, duties or obligations on the provision of interstate services. Nothing in this subsection shall preclude any State or local government from governing conduct not covered by this section.

(g) Nothing in subsection (a), (d), (e), or (f) or in the defenses to prosecution under subsection (a) or (d) shall be construed to affect or limit the application or enforcement of any other Federal law.

(h) For purposes of this section—

(1) The use of the term “telecommunications device” in this section—

(A) shall not impose new obligations on broadcasting station licensees and cable operators covered by obscenity and indecency provisions elsewhere in this Act; and

(B) does not include an interactive computer service.

(2) The term “interactive computer service” has the meaning provided in section 230(f)(2).

(3) The term “access software” means software (including client or server software) or enabling tools that do not create or provide the content of the communication but that allow a user to do any one or more of the following:

(A) filter, screen, allow, or disallow content;

(B) pick, choose, analyze, or digest content; or

(C) transmit, receive, display, forward, cache, search, subset, organize, reorganize, or translate content.

(4) The term “institution of higher education” has the meaning provided in section 101 of the Higher Education Act of 1965.

(5) The term “library” means a library eligible for participation in State-based plans for funds under title III of the Library Services and Construction Act (20 U.S.C. 355e et seq.)<sup>1</sup>.

**SEC. 224. [47 U.S.C. 224] REGULATION OF POLE ATTACHMENTS.**

(a) As used in this section:

(1) The term “utility” means any person who is a local exchange carrier or an electric, gas, water, steam, or other public utility, and who owns or controls poles, ducts, conduits, or rights-of-way used, in whole or in part, for any wire communications. Such term does not include any railroad, any person who is cooperatively organized, or any person owned by the Federal Government or any State.

(2) The term “Federal Government” means the Government of the United States or any agency or instrumentality thereof.

<sup>1</sup>So in law. The Library Services and Construction Act (20 U.S.C. 355e et seq.) was repealed by section 708(a) of Public Law 104–208 (110 Stat. 3009–312).

(3) The term "State" means any State, territory, or possession of the United States, the District of Columbia, or any political subdivision, agency, or instrumentality thereof.

(4) The term "pole attachment" means any attachment by a cable television system or provider of telecommunications service to a pole, duct, conduit, or right-of-way owned or controlled by a utility.

(5)<sup>1</sup> For purposes of this section, the term "telecommunications carrier" (as defined in section 3 of this Act) does not include any incumbent local exchange carrier as defined in section 251(h).

(b)(1) Subject to the provisions of subsection (c) of this section, the Commission shall regulate the rates, terms, and conditions for pole attachments to provide that such rates, terms, and conditions are just and reasonable, and shall adopt procedures necessary and appropriate to hear and resolve complaints concerning such rates, terms, and conditions. For purposes of enforcing any determinations resulting from complaint procedures established pursuant to this subsection, the Commission shall take such action as it deems appropriate and necessary, including issuing cease and desist orders, as authorized by section 312(b) of title III of the Communications Act of 1934, as amended.

(2) The Commission shall prescribe by rule regulations to carry out the provisions of this section.

(c)(1) Nothing in this section shall be construed to apply to, or to give the Commission jurisdiction with respect to rates, terms, and conditions, or access to poles, ducts, conduits, and rights-of-way as provided in subsection (f), for pole attachments in any case where such matters are regulated by a State.

(2) Each State which regulates the rates, terms, and conditions for pole attachments shall certify to the Commission that—

(A) it regulates such rates, terms, and conditions; and

(B) in so regulating such rates, terms, and conditions, the State has the authority to consider and does consider the interests of the subscribers of the services offered via such attachments, as well as the interests of the consumers of the utility services.

(3) For purposes of this subsection, a State shall not be considered to regulate the rates, terms, and conditions for pole attachments—

(A) unless the State has issued and made effective rules and regulations implementing the State's regulatory authority over pole attachments; and

(B) with respect to any individual matter, unless the State takes final action on a complaint regarding such matter—

(i) within 180 days after the complaint is filed with the State, or

(ii) within the applicable period prescribed for such final action in such rules and regulations of the State, if the prescribed period does not extend beyond 360 days after the filing of such complaint.

(d)(1) For purposes of subsection (b) of this section, a rate is just and reasonable if it assures a utility the recovery of not less

<sup>1</sup> Indentation so in original.

than the additional costs of providing pole attachments, nor more than an amount determined by multiplying the percentage of the total usable space, or the percentage of the total duct or conduit capacity, which is occupied by the pole attachment by the sum of the operating expenses and actual capital costs of the utility attributable to the entire pole, duct, conduit, or right-of-way.

(2) As used in this subsection, the term “usable space” means the space above the minimum grade level which can be used for the attachment of wires, cables, and associated equipment.

(3) This subsection shall apply to the rate for any pole attachment used by a cable television system solely to provide cable service. Until the effective date of the regulations required under subsection (e), this subsection shall also apply to the rate for any pole attachment used by a cable system or any telecommunications carrier (to the extent such carrier is not a party to a pole attachment agreement) to provide any telecommunications service.

(e)(1) The Commission shall, no later than 2 years after the date of enactment of the Telecommunications Act of 1996, prescribe regulations in accordance with this subsection to govern the charges for pole attachments used by telecommunications carriers to provide telecommunications services, when the parties fail to resolve a dispute over such charges. Such regulations shall ensure that a utility charges just, reasonable, and nondiscriminatory rates for pole attachments.

(2) A utility shall apportion the cost of providing space on a pole, duct, conduit, or right-of-way other than the usable space among entities so that such apportionment equals two-thirds of the costs of providing space other than the usable space that would be allocated to such entity under an equal apportionment of such costs among all attaching entities.

(3) A utility shall apportion the cost of providing usable space among all entities according to the percentage of usable space required for each entity.

(4) The regulations required under paragraph (1) shall become effective 5 years after the date of enactment of the Telecommunications Act of 1996. Any increase in the rates for pole attachments that result from the adoption of the regulations required by this subsection shall be phased in equal annual increments over a period of 5 years beginning on the effective date of such regulations.

(f)(1) A utility shall provide a cable television system or any telecommunications carrier with nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by it.

(2) Notwithstanding paragraph (1), a utility providing electric service may deny a cable television system or any telecommunications carrier access to its poles, ducts, conduits, or rights-of-way, on a non-discriminatory<sup>1</sup> basis where there is insufficient capacity and for reasons of safety, reliability and generally applicable engineering purposes.

(g) A utility that engages in the provision of telecommunications services or cable services shall impute to its costs of providing such services (and charge any affiliate, subsidiary, or associate company engaged in the provision of such services) an equal

<sup>1</sup> So in law. Probably should read “nondiscriminatory”.

amount to the pole attachment rate for which such company would be liable under this section.

(h) Whenever the owner of a pole, duct, conduit, or right-of-way intends to modify or alter such pole, duct, conduit, or right-of-way, the owner shall provide written notification of such action to any entity that has obtained an attachment to such conduit or right-of-way so that such entity may have a reasonable opportunity to add to or modify its existing attachment. Any entity that adds to or modifies its existing attachment after receiving such notification shall bear a proportionate share of the costs incurred by the owner in making such pole, duct, conduit, or right-of-way accessible.

(i) An entity that obtains an attachment to a pole, conduit, or right-of-way shall not be required to bear any of the costs of rearranging or replacing its attachment, if such rearrangement or replacement is required as a result of an additional attachment or the modification of an existing attachment sought by any other entity (including the owner of such pole, duct, conduit, or right-of-way).

**SEC. 225. [47 U.S.C. 225] TELECOMMUNICATIONS SERVICES FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED INDIVIDUALS.**

(a) DEFINITIONS.—As used in this section—

(1) COMMON CARRIER OR CARRIER.—The term “common carrier” or “carrier” includes any common carrier engaged in interstate communication by wire or radio as defined in section 3 and any common carrier engaged in intrastate communication by wire or radio, notwithstanding sections 2(b) and 221(b).

(2) TDD.—The term “TDD” means a Telecommunications Device for the Deaf, which is a machine that employs graphic communication in the transmission of coded signals through a wire or radio communication system.

(3) TELECOMMUNICATIONS RELAY SERVICES.—The term “telecommunications relay services” means telephone transmission services that provide the ability for an individual who has a hearing impairment or speech impairment to engage in communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing impairment or speech impairment to communicate using voice communication services by wire or radio. Such term includes services that enable two-way communication between an individual who uses a TDD or other nonvoice terminal device and an individual who does not use such a device.

(b) AVAILABILITY OF TELECOMMUNICATIONS RELAY SERVICES.—

(1) IN GENERAL.—In order to carry out the purposes established under section 1, to make available to all individuals in the United States a rapid, efficient nationwide communication service, and to increase the utility of the telephone system of the Nation, the Commission shall ensure that interstate and intrastate telecommunications relay services are available, to the extent possible and in the most efficient manner, to hearing-impaired and speech-impaired individuals in the United States.

(2) USE OF GENERAL AUTHORITY AND REMEDIES.—For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Com-

mission shall have the same authority, power, and functions with respect to common carriers engaged in intrastate communication as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier engaged in interstate communication. Any violation of this section by any common carrier engaged in intrastate communication shall be subject to the same remedies, penalties, and procedures as are applicable to a violation of this Act by a common carrier engaged in interstate communication.

(c) PROVISION OF SERVICES.—Each common carrier providing telephone voice transmission services shall, not later than 3 years after the date of enactment of this section, provide in compliance with the regulations prescribed under this section, throughout the area in which it offers service, telecommunications relay services, individually, through designees, through a competitively selected vendor, or in concert with other carriers. A common carrier shall be considered to be in compliance with such regulations—

(1) with respect to intrastate telecommunications relay services in any State that does not have a certified program under subsection (f) and with respect to interstate telecommunications relay services, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the Commission's regulations under subsection (d); or

(2) with respect to intrastate telecommunications relay services in any State that has a certified program under subsection (f) for such State, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the program certified under subsection (f) for such State.

(d) REGULATIONS.—

(1) IN GENERAL.—The Commission shall, not later than 1 year after the date of enactment of this section, prescribe regulations to implement this section, including regulations that—

(A) establish functional requirements, guidelines, and operations procedures for telecommunications relay services;

(B) establish minimum standards that shall be met in carrying out subsection (c);

(C) require that telecommunications relay services operate every day for 24 hours per day;

(D) require that users of telecommunications relay services pay rates no greater than the rates paid for functionally equivalent voice communication services with respect to such factors as the duration of the call, the time of day, and the distance from point of origination to point of termination;

(E) prohibit relay operators from failing to fulfill the obligations of common carriers by refusing calls or limiting the length of calls that use telecommunications relay services;

(F) prohibit relay operators from disclosing the content of any relayed conversation and from keeping records of the content of any such conversation beyond the duration of the call; and

- (G) prohibit relay operators from intentionally altering a relayed conversation.
- (2) TECHNOLOGY.—The Commission shall ensure that regulations prescribed to implement this section encourage, consistent with section 7(a) of this Act, the use of existing technology and do not discourage or impair the development of improved technology.
- (3) JURISDICTIONAL SEPARATION OF COSTS.—
- (A) IN GENERAL.—Consistent with the provisions of section 410 of this Act, the Commission shall prescribe regulations governing the jurisdictional separation of costs for the services provided pursuant to this section.
- (B) RECOVERING COSTS.—Such regulations shall generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay services shall be recovered from the intrastate jurisdiction. In a State that has a certified program under subsection (f), a State commission shall permit a common carrier to recover the costs incurred in providing intrastate telecommunications relay services by a method consistent with the requirements of this section.
- (e) ENFORCEMENT.—
- (1) IN GENERAL.—Subject to subsections (f) and (g), the Commission shall enforce this section.
- (2) COMPLAINT.—The Commission shall resolve, by final order, a complaint alleging a violation of this section within 180 days after the date such complaint is filed.
- (f) CERTIFICATION.—
- (1) STATE DOCUMENTATION.—Any State desiring to establish a State program under this section shall submit documentation to the Commission that describes the program of such State for implementing intrastate telecommunications relay services and the procedures and remedies available for enforcing any requirements imposed by the State program.
- (2) REQUIREMENTS FOR CERTIFICATION.—After review of such documentation, the Commission shall certify the State program if the Commission determines that—
- (A) the program makes available to hearing-impaired and speech-impaired individuals, either directly, through designees, through a competitively selected vendor, or through regulation of intrastate common carriers, intrastate telecommunications relay services in such State in a manner that meets or exceeds the requirements of regulations prescribed by the Commission under subsection (d); and
- (B) the program makes available adequate procedures and remedies for enforcing the requirements of the State program.
- (3) METHOD OF FUNDING.—Except as provided in subsection (d), the Commission shall not refuse to certify a State program based solely on the method such State will implement for funding intrastate telecommunication relay services.

(4) **SUSPENSION OR REVOCATION OF CERTIFICATION.**—The Commission may suspend or revoke such certification if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. In a State whose program has been suspended or revoked, the Commission shall take such steps as may be necessary, consistent with this section, to ensure continuity of telecommunications relay services.

(g) **COMPLAINT.**—

(1) **REFERRAL OF COMPLAINT.**—If a complaint to the Commission alleges a violation of this section with respect to intrastate telecommunications relay services within a State and certification of the program of such State under subsection (f) is in effect, the Commission shall refer such complaint to such State.

(2) **JURISDICTION OF COMMISSION.**—After referring a complaint to a State under paragraph (1), the Commission shall exercise jurisdiction over such complaint only if—

(A) final action under such State program has not been taken on such complaint by such State—

(i) within 180 days after the complaint is filed with such State; or

(ii) within a shorter period as prescribed by the regulations of such State; or

(B) the Commission determines that such State program is no longer qualified for certification under subsection (f).

**SEC. 226. [47 U.S.C. 226] TELEPHONE OPERATOR SERVICES.**

(a) **DEFINITIONS.**—As used in this section—

(1) The term “access code” means a sequence of numbers that, when dialed, connect the caller to the provider of operator services associated with that sequence.

(2) The term “aggregator” means any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services.

(3) The term “call splashing” means the transfer of a telephone call from one provider of operator services to another such provider in such a manner that the subsequent provider is unable or unwilling to determine the location of the origination of the call and, because of such inability or unwillingness, is prevented from billing the call on the basis of such location.

(4) The term “consumer” means a person initiating any interstate telephone call using operator services.

(5) The term “equal access” has the meaning given that term in Appendix B of the Modification of Final Judgment entered August 24, 1982, in *United States v. Western Electric*, Civil Action No. 82–0192 (United States District Court, District of Columbia), as amended by the Court in its orders issued prior to the enactment of this section.

(6) The term “equal access code” means an access code that allows the public to obtain an equal access connection to the carrier associated with that code.

(7) The term “operator services” means any interstate telecommunications service initiated from an aggregator location

that includes, as a component, any automatic or live assistance to a consumer to arrange for billing or completion, or both, of an interstate telephone call through a method other than—

(A) automatic completion with billing to the telephone from which the call originated; or

(B) completion through an access code used by the consumer, with billing to an account previously established with the carrier by the consumer.

(8) The term “presubscribed provider of operator services” means the interstate provider of operator services to which the consumer is connected when the consumer places a call using a provider of operator services without dialing an access code.

(9) The term “provider of operator services” means any common carrier that provides operator services or any other person determined by the Commission to be providing operator services.

(b) REQUIREMENTS FOR PROVIDERS OF OPERATOR SERVICES.—

(1) IN GENERAL.—Beginning not later than 90 days after the date of enactment of this section, each provider of operator services shall, at a minimum—

(A) identify itself, audibly and distinctly, to the consumer at the beginning of each telephone call and before the consumer incurs any charge for the call;

(B) permit the consumer to terminate the telephone call at no charge before the call is connected;

(C) disclose immediately to the consumer, upon request and at no charge to the consumer—

(i) a quote of its rates or charges for the call;

(ii) the methods by which such rates or charges will be collected; and

(iii) the methods by which complaints concerning such rates, charges, or collection practices will be resolved;

(D) ensure, by contract or tariff, that each aggregator for which such provider is the presubscribed provider of operator services is in compliance with the requirements of subsection (c) and, if applicable, subsection (e)(1);

(E) withhold payment (on a location-by-location basis) of any compensation, including commissions, to aggregators if such provider reasonably believes that the aggregator (i) is blocking access by means of “950” or “800” numbers to interstate common carriers in violation of subsection (c)(1)(B) or (ii) is blocking access to equal access codes in violation of rules the Commission may prescribe under subsection (e)(1);

(F) not bill for unanswered telephone calls in areas where equal access is available;

(G) not knowingly bill for unanswered telephone calls where equal access is not available;

(H) not engage in call splashing, unless the consumer requests to be transferred to another provider of operator services, the consumer is informed prior to incurring any charges that the rates for the call may not reflect the rates from the actual originating location of the call, and the consumer then consents to be transferred; and

(I) except as provided in subparagraph (H), not bill for a call that does not reflect the location of the origination of the call.

(2) ADDITIONAL REQUIREMENTS FOR FIRST 3 YEARS.—In addition to meeting the requirements of paragraph (1), during the 3-year period beginning on the date that is 90 days after the date of enactment of this section, each presubscribed provider of operator services shall identify itself audibly and distinctly to the consumer, not only as required in paragraph (1)(A), but also for a second time before connecting the call and before the consumer incurs any charge.

(c) REQUIREMENTS FOR AGGREGATORS.—

(1) IN GENERAL.—Each aggregator, beginning not later than 90 days after the date of enactment of this section, shall—

(A) post on or near the telephone instrument, in plain view of consumers—

(i) the name, address, and toll-free telephone number of the provider of operator services;

(ii) a written disclosure that the rates for all operator-assisted calls are available on request, and that consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carriers for information on accessing that carrier's service using that telephone; and

(iii) the name and address of the enforcement division of the Common Carrier Bureau of the Commission, to which the consumer may direct complaints regarding operator services;

(B) ensure that each of its telephones presubscribed to a provider of operator services allows the consumer to use "800" and "950" access code numbers to obtain access to the provider of operator services desired by the consumer; and

(C) ensure that no charge by the aggregator to the consumer for using an "800" or "950" access code number, or any other access code number, is greater than the amount the aggregator charges for calls placed using the presubscribed provider of operator services.

(2) EFFECT OF STATE LAW OR REGULATION.—The requirements of paragraph (1)(A) shall not apply to an aggregator in any case in which State law or State regulation requires the aggregator to take actions that are substantially the same as those required in paragraph (1)(A).

(d) GENERAL RULEMAKING REQUIRED.—

(1) RULEMAKING PROCEEDING.—The Commission shall conduct a rulemaking proceeding pursuant to this title to prescribe regulations to—

(A) protect consumers from unfair and deceptive practices relating to their use of operator services to place interstate telephone calls; and

(B) ensure that consumers have the opportunity to make informed choices in making such calls.

(2) CONTENTS OF REGULATIONS.—The regulations prescribed under this section shall—

(A) contain provisions to implement each of the requirements of this section, other than the requirements established by the rulemaking under subsection (e) on access and compensation; and

(B) contain such other provisions as the Commission determines necessary to carry out this section and the purposes and policies of this section.

(3) ADDITIONAL REQUIREMENTS TO BE IMPLEMENTED BY REGULATIONS.—The regulations prescribed under this section shall, at a minimum—

(A) establish minimum standards for providers of operator services and aggregators to use in the routing and handling of emergency telephone calls; and

(B) establish a policy for requiring providers of operator services to make public information about recent changes in operator services and choices available to consumers in that market.

(e) SEPARATE RULEMAKING ON ACCESS AND COMPENSATION.—

(1) ACCESS.—The Commission, shall require—

(A) that each aggregator ensure within a reasonable time that each of its telephones presubscribed to a provider of operator services allows the consumer to obtain access to the provider of operator services desired by the consumer through the use of an equal access code; or

(B) that all providers of operator services, within a reasonable time, make available to their customers a “950” or “800” access code number for use in making operator services calls from anywhere in the United States; or

(C) that the requirements described under both subparagraphs (A) and (B) apply.

(2) COMPENSATION.—The Commission shall consider the need to prescribe compensation (other than advance payment by consumers) for owners of competitive public pay telephones for calls routed to providers of operator services that are other than the presubscribed provider of operator services for such telephones. Within 9 months after the date of enactment of this section, the Commission shall reach a final decision on whether to prescribe such compensation.

(f) TECHNOLOGICAL CAPABILITY OF EQUIPMENT.—Any equipment and software manufactured or imported more than 18 months after the date of enactment of this section and installed by any aggregator shall be technologically capable of providing consumers with access to interstate providers of operator services through the use of equal access codes.

(g) FRAUD.—In any proceeding to carry out the provisions of this section, the Commission shall require such actions or measures as are necessary to ensure that aggregators are not exposed to undue risk of fraud.

(h) DETERMINATIONS OF RATE COMPLIANCE.—

(1) FILING OF INFORMATIONAL TARIFF.—

(A) IN GENERAL.—Each provider of operator services shall file, within 90 days after the date of enactment of this section, and shall maintain, update regularly, and

keep open for public inspection, an informational tariff specifying rates, terms, and conditions, and including commissions, surcharges, any fees which are collected from consumers, and reasonable estimates of the amount of traffic priced at each rate, with respect to calls for which operator services are provided. Any changes in such rates, terms, or conditions shall be filed no later than the first day on which the changed rates, terms, or conditions are in effect.

(B) **WAIVER AUTHORITY.**—The Commission may, after 4 years following the date of enactment of this section, waive the requirements of this paragraph only if—

(i) the findings and conclusions of the Commission in the final report issued under paragraph (3)(B)(iii) state that the regulatory objectives specified in subsection (d)(1) (A) and (B) have been achieved; and

(ii) the Commission determines that such waiver will not adversely affect the continued achievement of such regulatory objectives.

(2) **REVIEW OF INFORMATIONAL TARIFFS.**—If the rates and charges filed by any provider of operator services under paragraph (1) appear upon review by the Commission to be unjust or unreasonable, the Commission may require such provider of operator services to do either or both of the following:

(A) demonstrate that its rates and charges are just and reasonable, and

(B) announce that its rates are available on request at the beginning of each call.

(3) **PROCEEDING REQUIRED.**—

(A) **IN GENERAL.**—Within 60 days after the date of enactment of this section, the Commission shall initiate a proceeding to determine whether the regulatory objectives specified in subsection (d)(1) (A) and (B) are being achieved. The proceeding shall—

(i) monitor operator service rates;

(ii) determine the extent to which offerings made by providers of operator services are improvements, in terms of service quality, price, innovation, and other factors, over those available before the entry of new providers of operator services into the market;

(iii) report on (in the aggregate and by individual provider) operator service rates, incidence of service complaints, and service offerings;

(iv) consider the effect that commissions and surcharges, billing and validation costs, and other costs of doing business have on the overall rates charged to consumers; and

(v) monitor compliance with the provisions of this section, including the periodic placement of telephone calls from aggregator locations.

(B) **REPORTS.**—(i) The Commission shall, during the pendency of such proceeding and not later than 5 months after its commencement, provide the Congress with an interim report on the Commission's activities and progress to date.

(ii) Not later than 11 months after the commencement of such proceeding, the Commission shall report to the Congress on its interim findings as a result of the proceeding.

(iii) Not later than 23 months after the commencement of such proceeding, the Commission shall submit a final report to the Congress on its findings and conclusions.

(4) IMPLEMENTING REGULATIONS.—

(A) IN GENERAL.—Unless the Commission makes the determination described in subparagraph (B), the Commission shall, within 180 days after submission of the report required under paragraph (3)(B)(iii), complete a rule-making proceeding pursuant to this title to establish regulations for implementing the requirements of this title (and paragraphs (1) and (2) of this subsection) that rates and charges for operator services be just and reasonable. Such regulations shall include limitations on the amount of commissions or any other compensation given to aggregators by providers of operator service.

(B) LIMITATION.—The requirement of subparagraph (A) shall not apply if, on the basis of the proceeding under paragraph (3)(A), the Commission makes (and includes in the report required by paragraph (3)(B)(iii)) a factual determination that market forces are securing rates and charges that are just and reasonable, as evidenced by rate levels, costs, complaints, service quality, and other relevant factors.

(i) STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to alter the obligations, powers, or duties of common carriers or the Commission under the other sections of this Act.

**SEC. 227. [47 U.S.C. 227] RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.**

(a) DEFINITIONS.—As used in this section—

(1) The term “automatic telephone dialing system” means equipment which has the capacity—

(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

(B) to dial such numbers.

(2) The term “telephone facsimile machine” means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

(3) The term “telephone solicitation” means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person’s prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

(4) The term “unsolicited advertisement” means any material advertising the commercial availability or quality of any

property, goods, or services which is transmitted to any person without that person's prior express invitation or permission.

(b) RESTRICTIONS ON THE USE OF AUTOMATED TELEPHONE EQUIPMENT.—

(1) PROHIBITIONS.—It shall be unlawful for any person within the United States—

(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

(i) to any emergency telephone line (including any "911" line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call;

(B) to initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes or is exempted by rule or order by the Commission under paragraph (2)(B);

(C) to use any telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine; or

(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

(2) REGULATIONS; EXEMPTIONS AND OTHER PROVISIONS.—The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent;

(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

(i) calls that are not made for a commercial purpose; and

(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

(I) will not adversely affect the privacy rights that this section is intended to protect; and

(II) do not include the transmission of any unsolicited advertisement; and

(C) may, by rule or order, exempt from the requirements of paragraph (1)(A)(iii) of this subsection calls to a telephone number assigned to a cellular telephone service that are not charged to the called party, subject to such conditions as the Commission may prescribe as necessary in the interest of the privacy rights this section is intended to protect.

(3) PRIVATE RIGHT OF ACTION.—A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(c) PROTECTION OF SUBSCRIBER PRIVACY RIGHTS.—

(1) RULEMAKING PROCEEDING REQUIRED.—Within 120 days after the date of enactment of this section, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific "do not call" systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

(2) REGULATIONS.—Not later than 9 months after the date of enactment of this section, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

(3) USE OF DATABASE PERMITTED.—The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

(A) specify a method by which the Commission will select an entity to administer such database;

(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification, in accordance with regulations established under this paragraph, that such subscriber objects to receiving telephone solicitations;

(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber's right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

(D) specify the methods by which such objections shall be collected and added to the database;

(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

(4) CONSIDERATIONS REQUIRED FOR USE OF DATABASE METHOD.—If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

(i) reflect the relative costs of providing a national, regional, State, or local list of phone numbers of subscribers who object to receiving telephone solicitations;

(ii) reflect the relative costs of providing such lists on paper or electronic media; and

(iii) not place an unreasonable financial burden on small businesses; and

(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.

(5) PRIVATE RIGHT OF ACTION.—A person who has received more than one telephone call within any 12-month period by or on behalf of the same entity in violation of the regulations prescribed under this subsection may, if otherwise permitted by the laws or rules of court of a State bring in an appropriate court of that State—

(A) an action based on a violation of the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive up to \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

It shall be an affirmative defense in any action brought under this paragraph that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the regulations prescribed under this subsection. If the court finds that the defendant willfully or knowingly violated the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(6) RELATION TO SUBSECTION (b).—The provisions of this subsection shall not be construed to permit a communication prohibited by subsection (b).

(d) TECHNICAL AND PROCEDURAL STANDARDS.—

(1) PROHIBITION.—It shall be unlawful for any person within the United States—

(A) to initiate any communication using a telephone facsimile machine, or to make any telephone call using any automatic telephone dialing system, that does not comply with the technical and procedural standards prescribed under this subsection, or to use any telephone facsimile machine or automatic telephone dialing system in a manner that does not comply with such standards; or

(B) to use a computer or other electronic device to send any message via a telephone facsimile machine unless such person clearly marks, in a margin at the top or bottom of each transmitted page of the message or on the first page of the transmission, the date and time it is sent and an identification of the business, other entity, or individual sending the message and the telephone number of the sending machine or of such business, other entity, or individual.

(2) TELEPHONE FACSIMILE MACHINES.—The Commission shall revise the regulations setting technical and procedural standards for telephone facsimile machines to require that any such machine which is manufactured after one year after the date of enactment of this section clearly marks, in a margin at the top or bottom of each transmitted page or on the first page of each transmission, the date and time sent, an identification of the business, other entity, or individual sending the message, and the telephone number of the sending machine or of such business, other entity, or individual.

(3) ARTIFICIAL OR PRERECORDED VOICE SYSTEMS.—The Commission shall prescribe technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone. Such standards shall require that—

(A) all artificial or prerecorded telephone messages (i) shall, at the beginning of the message, state clearly the identity of the business, individual, or other entity initiating the call, and (ii) shall, during or after the message, state clearly the telephone number or address of such business, other entity, or individual; and

(B) any such system will automatically release the called party's line within 5 seconds of the time notification is transmitted to the system that the called party has hung up, to allow the called party's line to be used to make or receive other calls.

(e) EFFECT ON STATE LAW.—

(1) STATE LAW NOT PREEMPTED.—Except for the standards prescribed under subsection (d) and subject to paragraph (2) of this subsection, nothing in this section or in the regulations prescribed under this section shall preempt any State law that imposes more restrictive intrastate requirements or regulations on, or which prohibits—

- (A) the use of telephone facsimile machines or other electronic devices to send unsolicited advertisements;
- (B) the use of automatic telephone dialing systems;
- (C) the use of artificial or prerecorded voice messages;

or

- (D) the making of telephone solicitations.

(2) STATE USE OF DATABASES.—If, pursuant to subsection (c)(3), the Commission requires the establishment of a single national database of telephone numbers of subscribers who object to receiving telephone solicitations, a State or local authority may not, in its regulation of telephone solicitations, require the use of any database, list, or listing system that does not include the part of such single national database that relates to such State.

(f) ACTIONS BY STATES.—

(1) AUTHORITY OF STATES.—Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive \$500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

(2) EXCLUSIVE JURISDICTION OF FEDERAL COURTS.—The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this subsection. Upon proper application, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of this section or regulations prescribed under this section, including the requirement that the defendant take such action as is necessary to remove the danger of such violation. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

(3) RIGHTS OF COMMISSION.—The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(4) VENUE; SERVICE OF PROCESS.—Any civil action brought under this subsection in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be

served in any district in which the defendant is an inhabitant or where the defendant may be found.

(5) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this subsection, nothing in this section shall prevent the attorney general of a State, or an official or agency designated by a State, from exercising the powers conferred on the attorney general or such official by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(6) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this subsection shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(7) LIMITATION.—Whenever the Commission has instituted a civil action for violation of regulations prescribed under this section, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for any violation as alleged in the Commission's complaint.

(8) DEFINITION.—As used in this subsection, the term "attorney general" means the chief legal officer of a State.

**SEC. 228. [47 U.S.C. 228] REGULATION OF CARRIER OFFERING OF PAY-PER-CALL SERVICES.**

(a) PURPOSE.—It is the purpose of this section—

(1) to put into effect a system of national regulation and review that will oversee interstate pay-per-call services; and

(2) to recognize the Commission's authority to prescribe regulations and enforcement procedures and conduct oversight to afford reasonable protection to consumers of pay-per-call services and to assure that violations of Federal law do not occur.

(b) GENERAL AUTHORITY FOR REGULATIONS.—The Commission by regulation shall, within 270 days after the date of enactment of this section, establish a system for oversight and regulation of pay-per-call services in order to provide for the protection of consumers in accordance with this Act and other applicable Federal statutes and regulations. The Commission's final rules shall—

(1) include measures that provide a consumer of pay-per-call services with adequate and clear descriptions of the rights of the caller;

(2) define the obligations of common carriers with respect to the provision of pay-per-call services;

(3) include requirements on such carriers to protect against abusive practices by providers of pay-per-call services;

(4) identify procedures by which common carriers and providers of pay-per-call services may take affirmative steps to protect against nonpayment of legitimate charges; and

(5) require that any service described in subparagraphs (A) and (B) of subsection (i)(1) be offered only through the use of certain telephone number prefixes and area codes.

(c) COMMON CARRIER OBLIGATIONS.—Within 270 days after the date of enactment of this section, the Commission shall, by regulation, establish the following requirements for common carriers:

(1) **CONTRACTUAL OBLIGATIONS TO COMPLY.**—Any common carrier assigning to a provider of pay-per-call services a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) shall require by contract or tariff that such provider comply with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act and the regulations prescribed by the Federal Trade Commission pursuant to those titles.

(2) **INFORMATION AVAILABILITY.**—A common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service shall make readily available on request to Federal and State agencies and other interested persons—

(A) a list of the telephone numbers for each of the pay-per-call services it carries;

(B) a short description of each such service;

(C) a statement of the total cost or the cost per minute and any other fees for each such service;

(D) a statement of the pay-per-call service's name, business address, and business telephone; and

(E) such other information as the Commission considers necessary for the enforcement of this section and other applicable Federal statutes and regulations.

(3) **COMPLIANCE PROCEDURES.**—A common carrier that by contract or tariff assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services shall terminate, in accordance with procedures specified in such regulations, the offering of a pay-per-call service of a provider if the carrier knows or reasonably should know that such service is not provided in compliance with title II or III of the Telephone Disclosure and Dispute Resolution Act or the regulations prescribed by the Federal Trade Commission pursuant to such titles.

(4) **SUBSCRIBER DISCONNECTION PROHIBITED.**—A common carrier shall not disconnect or interrupt a subscriber's local exchange telephone service or long distance telephone service because of nonpayment of charges for any pay-per-call service.

(5) **BLOCKING AND PRESUBSCRIPTION.**—A common carrier that provides local exchange service shall—

(A) offer telephone subscribers (where technically feasible) the option of blocking access from their telephone number to all, or to certain specific, prefixes or area codes used by pay-per-call services, which option—

(i) shall be offered at no charge (I) to all subscribers for a period of 60 days after the issuance of the regulations under subsection (b), and (II) to any subscriber who subscribes to a new telephone number until 60 days after the time the new telephone number is effective; and

(ii) shall otherwise be offered at a reasonable fee; and

(B) offer telephone subscribers (where the Commission determines it is technically and economically feasible), in

combination with the blocking option described under subparagraph (A), the option of presubscribing to or blocking only specific pay-per-call services for a reasonable one-time charge.

The regulations prescribed under subparagraph (A)(i) of this paragraph may permit the costs of such blocking to be recovered by contract or tariff, but such costs may not be recovered from local or long-distance ratepayers. Nothing in this subsection precludes a common carrier from filing its rates and regulations regarding blocking and presubscription in its interstate tariffs.

(6) VERIFICATION OF CHARITABLE STATUS.—A common carrier that assigns by contract or tariff a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services that the carrier knows or reasonably should know is engaged in soliciting charitable contributions shall obtain from such provider proof of the tax exempt status of any person or organization for which contributions are solicited.

(7) BILLING FOR 800 CALLS.—A common carrier shall prohibit by tariff or contract the use of any 800 telephone number, or other telephone number advertised or widely understood to be toll free, in a manner that would result in—

(A) the calling party being assessed, by virtue of completing the call, a charge for the call;

(B) the calling party being connected to a pay-per-call service;

(C) the calling party being charged for information conveyed during the call unless—

(i) the calling party has a written agreement (including an agreement transmitted through electronic medium) that meets the requirements of paragraph (8); or

(ii) the calling party is charged for the information in accordance with paragraph (9);

(D) the calling party being called back collect for the provision of audio information services or simultaneous voice conversation services; or

(E) the calling party being assessed, by virtue of being asked to connect or otherwise transfer to a pay-per-call service, a charge for the call.

(8) SUBSCRIPTION AGREEMENTS FOR BILLING FOR INFORMATION PROVIDED VIA TOLL-FREE CALLS.—

(A) IN GENERAL.—For purposes of paragraph (7)(C)(i), a written subscription does not meet the requirements of this paragraph unless the agreement specifies the material terms and conditions under which the information is offered and includes—

(i) the rate at which charges are assessed for the information;

(ii) the information provider's name;

(iii) the information provider's business address;

(iv) the information provider's regular business telephone number;

(v) the information provider's agreement to notify the subscriber at least one billing cycle in advance of all future changes in the rates charged for the information; and

(vi) the subscriber's choice of payment method, which may be by direct remit, debit, prepaid account, phone bill, or credit or calling card.

(B) BILLING ARRANGEMENTS.—If a subscriber elects, pursuant to subparagraph (A)(vi), to pay by means of a phone bill—

(i) the agreement shall clearly explain that the subscriber will be assessed for calls made to the information service from the subscriber's phone line;

(ii) the phone bill shall include, in prominent type, the following disclaimer:

“Common carriers may not disconnect local or long distance telephone service for failure to pay disputed charges for information services.”; and

(iii) the phone bill shall clearly list the 800 number dialed.

(C) USE OF PINS TO PREVENT UNAUTHORIZED USE.—A written agreement does not meet the requirements of this paragraph unless it—

(i) includes a unique personal identification number or other subscriber-specific identifier and requires a subscriber to use this number or identifier to obtain access to the information provided and includes instructions on its use; and

(ii) assures that any charges for services accessed by use of the subscriber's personal identification number or subscriber-specific identifier be assessed to subscriber's source of payment elected pursuant to subparagraph (A)(vi).

(D) EXCEPTIONS.—Notwithstanding paragraph (7)(C), a written agreement that meets the requirements of this paragraph is not required—

(i) for calls utilizing telecommunications devices for the deaf;

(ii) for directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate; or

(iii) for any purchase of goods or of services that are not information services.

(E) TERMINATION OF SERVICE.—On receipt by a common carrier of a complaint by any person that an information provider is in violation of the provisions of this section, a carrier shall—

(i) promptly investigate the complaint; and

(ii) if the carrier reasonably determines that the complaint is valid, it may terminate the provision of service to an information provider unless the provider supplies evidence of a written agreement that meets the requirements of this section.

(F) TREATMENT OF REMEDIES.—The remedies provided in this paragraph are in addition to any other remedies that are available under title V of this Act.

(9) CHARGES BY CREDIT, PREPAID, DEBIT, CHARGE, OR CALLING CARD IN ABSENCE OF AGREEMENT.—For purposes of paragraph (7)(C)(ii), a calling party is not charged in accordance with this paragraph unless the calling party is charged by means of a credit, prepaid, debit, charge, or calling card and the information service provider includes in response to each call an introductory disclosure message that—

(A) clearly states that there is a charge for the call;

(B) clearly states the service's total cost per minute and any other fees for the service or for any service to which the caller may be transferred;

(C) explains that the charges must be billed on either a credit, prepaid, debit, charge, or calling card;

(D) asks the caller for the card number;

(E) clearly states that charges for the call begin at the end of the introductory message; and

(F) clearly states that the caller can hang up at or before the end of the introductory message without incurring any charge whatsoever.

(10) BYPASS OF INTRODUCTORY DISCLOSURE MESSAGE.—The requirements of paragraph (9) shall not apply to calls from repeat callers using a bypass mechanism to avoid listening to the introductory message: *Provided*, That information providers shall disable such a bypass mechanism after the institution of any price increase and for a period of time determined to be sufficient by the Federal Trade Commission to give callers adequate and sufficient notice of a price increase.

(11) DEFINITION OF CALLING CARD.—As used in this subsection, the term “calling card” means an identifying number or code unique to the individual, that is issued to the individual by a common carrier and enables the individual to be charged by means of a phone bill for charges incurred independent of where the call originates.

(d) BILLING AND COLLECTION PRACTICES.—The regulations required by this section shall require that any common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service and that offers billing and collection services to such provider—

(1) ensure that a subscriber is not billed—

(A) for pay-per-call services that such carrier knows or reasonably should know was provided in violation of the regulations issued pursuant to title II of the Telephone Disclosure and Dispute Resolution Act; or

(B) under such other circumstances as the Commission determines necessary in order to protect subscribers from abusive practices;

(2) establish a local or a toll-free telephone number to answer questions and provide information on subscribers' rights and obligations with regard to their use of pay-per-call services and to provide to callers the name and mailing address of any provider of pay-per-call services offered by the common carrier;

(3) within 60 days after the issuance of final regulations pursuant to subsection (b), provide, either directly or through contract with any local exchange carrier that provides billing or collection services to the common carrier, to all of such common carrier's telephone subscribers, to all new subscribers, and to all subscribers requesting service at a new location, a disclosure statement that sets forth all rights and obligations of the subscriber and the carrier with respect to the use and payment for pay-per-call services, including the right of a subscriber not to be billed and the applicable blocking option; and

(4) in any billing to telephone subscribers that includes charges for any pay-per-call service—

(A) display any charges for pay-per-call services in a part of the subscriber's bill that is identified as not being related to local and long distance telephone charges;

(B) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call; and

(C) identify the toll-free number established pursuant to paragraph (2).

(e) LIABILITY.—

(1) COMMON CARRIERS NOT LIABLE FOR TRANSMISSION OR BILLING.—No common carrier shall be liable for a criminal or civil sanction or penalty solely because the carrier provided transmission or billing and collection for a pay-per-call service unless the carrier knew or reasonably should have known that such service was provided in violation of a provision of, or regulation prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act or any other Federal law. This paragraph shall not prevent the Commission from imposing a sanction or penalty on a common carrier for a violation by that carrier of a regulation prescribed under this section.

(2) CIVIL LIABILITY.—No cause of action may be brought in any court or administrative agency against any common carrier or any of its affiliates on account of any act of the carrier or affiliate to terminate any pay-per-call service in order to comply with the regulations prescribed under this section, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law unless the complainant demonstrates that the carrier or affiliate did not act in good faith.

(f) SPECIAL PROVISIONS.—

(1) CONSUMER REFUND REQUIREMENTS.—The regulations required by subsection (d) shall establish procedures, consistent with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act, to ensure that carriers and other parties providing billing and collection services with respect to pay-per-call services provide appropriate refunds to subscribers who have been billed for pay-per-call services pursuant to programs that have been found to have violated this section or such regulations, any provision of, or regulations prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law.

(2) RECOVERY OF COSTS.—The regulations prescribed by the Commission under this section shall permit a common car-

rier to recover its cost of complying with such regulations from providers of pay-per-call services, but shall not permit such costs to be recovered from local or long distance ratepayers.

(3) RECOMMENDATIONS ON DATA PAY-PER-CALL.—The Commission, within one year after the date of enactment of this section, shall submit to the Congress the Commission's recommendations with respect to the extension of regulations under this section to persons that provide, for a per-call charge, data services that are not pay-per-call services.

(g) EFFECT ON OTHER LAW.—

(1) NO PREEMPTION OF ELECTION LAW.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, and local election statutes and regulations.

(2) CONSUMER PROTECTION LAWS.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with any Federal, State, or local statute or regulation relating to consumer protection or unfair trade.

(3) GAMBLING LAWS.—Nothing in this section shall preclude any State from enforcing its statutes and regulations with regard to lotteries, wagering, betting, and other gambling activities.

(4) STATE AUTHORITY.—Nothing in this section shall preclude any State from enacting and enforcing additional and complementary oversight and regulatory systems or procedures, or both, so long as such systems and procedures govern intrastate services and do not significantly impede the enforcement of this section or other Federal statutes.

(5) ENFORCEMENT OF EXISTING REGULATIONS.—Nothing in this section shall be construed to prohibit the Commission from enforcing regulations prescribed prior to the date of enactment of this section in fulfilling the requirements of this section to the extent that such regulations are consistent with the provisions of this section.

(h) EFFECT ON DIAL-A-PORN PROHIBITIONS.—Nothing in this section shall affect the provisions of section 223 of this Act.

(i) DEFINITION OF PAY-PER-CALL SERVICES.—For purposes of this section—

(1) The term "pay-per-call services" means any service—

(A) in which any person provides or purports to provide—

(i) audio information or audio entertainment produced or packaged by such person;

(ii) access to simultaneous voice conversation services; or

(iii) any service, including the provision of a product, the charges for which are assessed on the basis of the completion of the call;

(B) for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call; and

(C) which is accessed through use of a 900 telephone number or other prefix or area code designated by the Commission in accordance with subsection (b)(5).

(2) Such term does not include directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate, or any service for which users are assessed charges only after entering into a presubscription or comparable arrangement with the provider of such service.

**SEC. 229. [47 U.S.C. 229] COMMUNICATIONS ASSISTANCE FOR LAW ENFORCEMENT ACT COMPLIANCE.**

(a) **IN GENERAL.**—The Commission shall prescribe such rules as are necessary to implement the requirements of the Communications Assistance for Law Enforcement Act.

(b) **SYSTEMS SECURITY AND INTEGRITY.**—The rules prescribed pursuant to subsection (a) shall include rules to implement section 105 of the Communications Assistance for Law Enforcement Act that require common carriers—

(1) to establish appropriate policies and procedures for the supervision and control of its officers and employees—

(A) to require appropriate authorization to activate interception of communications or access to call-identifying information; and

(B) to prevent any such interception or access without such authorization;

(2) to maintain secure and accurate records of any interception or access with or without such authorization; and

(3) to submit to the Commission the policies and procedures adopted to comply with the requirements established under paragraphs (1) and (2).

(c) **COMMISSION REVIEW OF COMPLIANCE.**—The Commission shall review the policies and procedures submitted under subsection (b)(3) and shall order a common carrier to modify any such policy or procedure that the Commission determines does not comply with Commission regulations. The Commission shall conduct such investigations as may be necessary to insure compliance by common carriers with the requirements of the regulations prescribed under this section.

(d) **PENALTIES.**—For purposes of this Act, a violation by an officer or employee of any policy or procedure adopted by a common carrier pursuant to subsection (b), or of a rule prescribed by the Commission pursuant to subsection (a), shall be considered to be a violation by the carrier of a rule prescribed by the Commission pursuant to this Act.

(e) **COST RECOVERY FOR COMMUNICATIONS ASSISTANCE FOR LAW ENFORCEMENT ACT COMPLIANCE.**—

(1) **PETITIONS AUTHORIZED.**—A common carrier may petition the Commission to adjust charges, practices, classifications, and regulations to recover costs expended for making modifications to equipment, facilities, or services pursuant to the requirements of section 103 of the Communications Assistance for Law Enforcement Act.

(2) **COMMISSION AUTHORITY.**—The Commission may grant, with or without modification, a petition under paragraph (1) if the Commission determines that such costs are reasonable and that permitting recovery is consistent with the public interest.

The Commission may, consistent with maintaining just and reasonable charges, practices, classifications, and regulations in connection with the provision of interstate or foreign communication by wire or radio by a common carrier, allow carriers to adjust such charges, practices, classifications, and regulations in order to carry out the purposes of this Act.

(3) **JOINT BOARD.**—The Commission shall convene a Federal-State joint board to recommend appropriate changes to part 36 of the Commission's rules with respect to recovery of costs pursuant to charges, practices, classifications, and regulations under the jurisdiction of the Commission.

**SEC. 230. [47 U.S.C. 230] PROTECTION FOR PRIVATE BLOCKING AND SCREENING OF OFFENSIVE MATERIAL.**

(a) **FINDINGS.**—The Congress finds the following:

(1) The rapidly developing array of Internet and other interactive computer services available to individual Americans represent an extraordinary advance in the availability of educational and informational resources to our citizens.

(2) These services offer users a great degree of control over the information that they receive, as well as the potential for even greater control in the future as technology develops.

(3) The Internet and other interactive computer services offer a forum for a true diversity of political discourse, unique opportunities for cultural development, and myriad avenues for intellectual activity.

(4) The Internet and other interactive computer services have flourished, to the benefit of all Americans, with a minimum of government regulation.

(5) Increasingly Americans are relying on interactive media for a variety of political, educational, cultural, and entertainment services.

(b) **POLICY.**—It is the policy of the United States—

(1) to promote the continued development of the Internet and other interactive computer services and other interactive media;

(2) to preserve the vibrant and competitive free market that presently exists for the Internet and other interactive computer services, unfettered by Federal or State regulation;

(3) to encourage the development of technologies which maximize user control over what information is received by individuals, families, and schools who use the Internet and other interactive computer services;

(4) to remove disincentives for the development and utilization of blocking and filtering technologies that empower parents to restrict their children's access to objectionable or inappropriate online material; and

(5) to ensure vigorous enforcement of Federal criminal laws to deter and punish trafficking in obscenity, stalking, and harassment by means of computer.

**(c) PROTECTION FOR "GOOD SAMARITAN" BLOCKING AND SCREENING OF OFFENSIVE MATERIAL.**—

(1) **TREATMENT OF PUBLISHER OR SPEAKER.**—No provider or user of an interactive computer service shall be treated as the publisher or speaker of any information provided by another information content provider.

(2) CIVIL LIABILITY.—No provider or user of an interactive computer service shall be held liable on account of—

(A) any action voluntarily taken in good faith to restrict access to or availability of material that the provider or user considers to be obscene, lewd, lascivious, filthy, excessively violent, harassing, or otherwise objectionable, whether or not such material is constitutionally protected; or

(B) any action taken to enable or make available to information content providers or others the technical means to restrict access to material described in paragraph (1)<sup>1</sup>.

(d) OBLIGATIONS OF INTERACTIVE COMPUTER SERVICE.—A provider of interactive computer service shall, at the time of entering an agreement with a customer for the provision of interactive computer service and in a manner deemed appropriate by the provider, notify such customer that parental control protections (such as computer hardware, software, or filtering services) are commercially available that may assist the customer in limiting access to material that is harmful to minors. Such notice shall identify, or provide the customer with access to information identifying, current providers of such protections.

(e) EFFECT ON OTHER LAWS.—

(1) NO EFFECT ON CRIMINAL LAW.—Nothing in this section shall be construed to impair the enforcement of section 223 or 231 of this Act, chapter 71 (relating to obscenity) or 110 (relating to sexual exploitation of children) of title 18, United States Code, or any other Federal criminal statute.

(2) NO EFFECT ON INTELLECTUAL PROPERTY LAW.—Nothing in this section shall be construed to limit or expand any law pertaining to intellectual property.

(3) STATE LAW.—Nothing in this section shall be construed to prevent any State from enforcing any State law that is consistent with this section. No cause of action may be brought and no liability may be imposed under any State or local law that is inconsistent with this section.

(4) NO EFFECT ON COMMUNICATIONS PRIVACY LAW.—Nothing in this section shall be construed to limit the application of the Electronic Communications Privacy Act of 1986 or any of the amendments made by such Act, or any similar State law.

(f) DEFINITIONS.—As used in this section:

(1) INTERNET.—The term “Internet” means the international computer network of both Federal and non-Federal interoperable packet switched data networks.

(2) INTERACTIVE COMPUTER SERVICE.—The term “interactive computer service” means any information service, system, or access software provider that provides or enables computer access by multiple users to a computer server, including specifically a service or system that provides access to the Internet and such systems operated or services offered by libraries or educational institutions.

(3) INFORMATION CONTENT PROVIDER.—The term “information content provider” means any person or entity that is re-

<sup>1</sup> So in law. Probably should be subparagraph (A).

sponsible, in whole or in part, for the creation or development of information provided through the Internet or any other interactive computer service.

(4) ACCESS SOFTWARE PROVIDER.—The term “access software provider” means a provider of software (including client or server software), or enabling tools that do any one or more of the following:

- (A) filter, screen, allow, or disallow content;
- (B) pick, choose, analyze, or digest content; or
- (C) transmit, receive, display, forward, cache, search, subset, organize, reorganize, or translate content.

**SEC. 231. [47 U.S.C. 231] RESTRICTION OF ACCESS BY MINORS TO MATERIALS COMMERCIALY DISTRIBUTED BY MEANS OF WORLD WIDE WEB THAT ARE HARMFUL TO MINORS.<sup>1</sup>**

(a) REQUIREMENT TO RESTRICT ACCESS.—

<sup>1</sup>Section 231 of the Communications Act of 1934 was added by section 1403 of the Child Online Protection Act (P.L. 105–277; Oct. 21, 1998; 112 Stat. 2681–736). Sections 1402 and 1405 of that Act contained the following related provisions:

**SEC. 1402. CONGRESSIONAL FINDINGS.**

The Congress finds that—

- (1) while custody, care, and nurture of the child resides first with the parent, the widespread availability of the Internet presents opportunities for minors to access materials through the World Wide Web in a manner that can frustrate parental supervision or control;
- (2) the protection of the physical and psychological well-being of minors by shielding them from materials that are harmful to them is a compelling governmental interest;
- (3) to date, while the industry has developed innovative ways to help parents and educators restrict material that is harmful to minors through parental control protections and self-regulation, such efforts have not provided a national solution to the problem of minors accessing harmful material on the World Wide Web;
- (4) a prohibition on the distribution of material harmful to minors, combined with legitimate defenses, is currently the most effective and least restrictive means by which to satisfy the compelling government interest; and
- (5) notwithstanding the existence of protections that limit the distribution over the World Wide Web of material that is harmful to minors, parents, educators, and industry must continue efforts to find ways to protect children from being exposed to harmful material found on the Internet.

**SEC. 1405. STUDY BY COMMISSION ON ONLINE CHILD PROTECTION.**

(a) ESTABLISHMENT.—There is hereby established a temporary Commission to be known as the Commission on Online Child Protection (in this section referred to as the “Commission”) for the purpose of conducting a study under this section regarding methods to help reduce access by minors to material that is harmful to minors on the Internet.

(b) MEMBERSHIP.—The Commission shall be composed of 19 members, as follows:

(1) INDUSTRY MEMBERS.—The Commission shall include 16 members who shall consist of representatives of—

- (A) providers of Internet filtering or blocking services or software;
- (B) Internet access services;
- (C) labeling or ratings services;
- (D) Internet portal or search services;
- (E) domain name registration services;
- (F) academic experts; and
- (G) providers that make content available over the Internet.

Of the members of the Commission by reason of this paragraph, an equal number shall be appointed by the Speaker of the House of Representatives and by the Majority Leader of the Senate. Members of the Commission appointed on or before October 31, 1999, shall remain members.

(2) EX OFFICIO MEMBERS.—The Commission shall include the following officials:

- (A) The Assistant Secretary (or the Assistant Secretary’s designee).
- (B) The Attorney General (or the Attorney General’s designee).
- (C) The Chairman of the Federal Trade Commission (or the Chairman’s designee).

(3) PROHIBITION OF PAY.—Members of the Commission shall not receive any pay by reason of their membership on the Commission.

(c) FIRST MEETING.—The Commission shall hold its first meeting not later than March 31, 2000.

(d) CHAIRPERSON.—The chairperson of the Commission shall be elected by a vote of a majority of the members, which shall take place not later than 30 days after the first meeting of the Commission.

(e) STUDY.—

(1) PROHIBITED CONDUCT.—Whoever knowingly and with knowledge of the character of the material, in interstate or foreign commerce by means of the World Wide Web, makes any communication for commercial purposes that is available to any minor and that includes any material that is harmful to minors shall be fined not more than \$50,000, imprisoned not more than 6 months, or both.

(2) INTENTIONAL VIOLATIONS.—In addition to the penalties under paragraph (1), whoever intentionally violates such paragraph shall be subject to a fine of not more than \$50,000 for

(1) IN GENERAL.—The Commission shall conduct a study to identify technological or other methods that—

(A) will help reduce access by minors to material that is harmful to minors on the Internet; and

(B) may meet the requirements for use as affirmative defenses for purposes of section 231(c) of the Communications Act of 1934 (as added by this title).

Any methods so identified shall be used as the basis for making legislative recommendations to the Congress under subsection (d)(3).

(2) SPECIFIC METHODS.—In carrying out the study, the Commission shall identify and analyze various technological tools and methods for protecting minors from material that is harmful to minors, which shall include (without limitation)—

(A) a common resource for parents to use to help protect minors (such as a “one-click-away” resource);

(B) filtering or blocking software or services;

(C) labeling or rating systems;

(D) age verification systems;

(E) the establishment of a domain name for posting of any material that is harmful to minors; and

(F) any other existing or proposed technologies or methods for reducing access by minors to such material.

(3) ANALYSIS.—In analyzing technologies and other methods identified pursuant to paragraph (2), the Commission shall examine—

(A) the cost of such technologies and methods;

(B) the effects of such technologies and methods on law enforcement entities;

(C) the effects of such technologies and methods on privacy;

(D) the extent to which material that is harmful to minors is globally distributed and the effect of such technologies and methods on such distribution;

(E) the accessibility of such technologies and methods to parents; and

(F) such other factors and issues as the Commission considers relevant and appropriate.

(f) REPORT.—Not later than 2 years after the enactment of this Act, the Commission shall submit a report to the Congress containing the results of the study under this section, which shall include—

(1) a description of the technologies and methods identified by the study and the results of the analysis of each such technology and method;

(2) the conclusions and recommendations of the Commission regarding each such technology or method;

(3) recommendations for legislative or administrative actions to implement the conclusions of the committee; and

(4) a description of the technologies or methods identified by the study that may meet the requirements for use as affirmative defenses for purposes of section 231(c) of the Communications Act of 1934 (as added by this title).

(g) RULES OF THE COMMISSION.—

(1) QUORUM.—Nine members of the Commission shall constitute a quorum for conducting the business of the Commission.

(2) MEETINGS.—Any meetings held by the Commission shall be duly noticed at least 14 days in advance and shall be open to the public.

(3) OPPORTUNITIES TO TESTIFY.—The Commission shall provide opportunities for representatives of the general public to testify.

(4) ADDITIONAL RULES.—The Commission may adopt other rules as necessary to carry out this section.”

(h) GIFTS, BEQUESTS, AND DEVICES.—The Commission may accept, use, and dispose of gifts, bequests, or devises of services or property, both real (including the use of office space) and personal, for the purpose of aiding or facilitating the work of the Commission. Gifts or grants not used at the termination of the Commission shall be returned to the donor or grantee.

(i)\* TERMINATION.—The Commission shall terminate 30 days after the submission of the report under subsection (d) or November 30, 2000, whichever occurs earlier.

(m)\* INAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Commission.

\*[So in law as amended by section 401 of the Electronic Signatures in Global and National Commerce Act (P.L. 106–229; 114 Stat 476) and section 5001 of the Intellectual Property and Communications Omnibus Reform Act of 1999 (P.L. 106–113, Appendix I; 113 Stat. 1501A–521). Should have been redesignated as subsections (i) and (j).]

each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(3) CIVIL PENALTY.—In addition to the penalties under paragraphs (1) and (2), whoever violates paragraph (1) shall be subject to a civil penalty of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(b) INAPPLICABILITY OF CARRIERS AND OTHER SERVICE PROVIDERS.—For purposes of subsection (a), a person shall not be considered to make any communication for commercial purposes to the extent that such person is—

(1) a telecommunications carrier engaged in the provision of a telecommunications service;

(2) a person engaged in the business of providing an Internet access service;

(3) a person engaged in the business of providing an Internet information location tool; or

(4) similarly engaged in the transmission, storage, retrieval, hosting, formatting, or translation (or any combination thereof) of a communication made by another person, without selection or alteration of the content of the communication, except that such person's deletion of a particular communication or material made by another person in a manner consistent with subsection (c) or section 230 shall not constitute such selection or alteration of the content of the communication.

(c) AFFIRMATIVE DEFENSE.—

(1) DEFENSE.—It is an affirmative defense to prosecution under this section that the defendant, in good faith, has restricted access by minors to material that is harmful to minors—

(A) by requiring use of a credit card, debit account, adult access code, or adult personal identification number;

(B) by accepting a digital certificate that verifies age;

or

(C) by any other reasonable measures that are feasible under available technology.

(2) PROTECTION FOR USE OF DEFENSES.—No cause of action may be brought in any court or administrative agency against any person on account of any activity that is not in violation of any law punishable by criminal or civil penalty, and that the person has taken in good faith to implement a defense authorized under this subsection or otherwise to restrict or prevent the transmission of, or access to, a communication specified in this section.

(d) PRIVACY PROTECTION REQUIREMENTS.—

(1) DISCLOSURE OF INFORMATION LIMITED.—A person making a communication described in subsection (a)—

(A) shall not disclose any information collected for the purposes of restricting access to such communications to individuals 17 years of age or older without the prior written or electronic consent of—

(i) the individual concerned, if the individual is an adult; or

(ii) the individual's parent or guardian, if the individual is under 17 years of age; and

(B) shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the person making such communication and the recipient of such communication.

(2) EXCEPTIONS.—A person making a communication described in subsection (a) may disclose such information if the disclosure is—

(A) necessary to make the communication or conduct a legitimate business activity related to making the communication; or

(B) made pursuant to a court order authorizing such disclosure.

(e) DEFINITIONS.—For purposes of this subsection<sup>1</sup>, the following definitions shall apply:

(1) BY MEANS OF THE WORLD WIDE WEB.—The term “by means of the World Wide Web” means by placement of material in a computer server-based file archive so that it is publicly accessible, over the Internet, using hypertext transfer protocol or any successor protocol.

(2) COMMERCIAL PURPOSES; ENGAGED IN THE BUSINESS.—

(A) COMMERCIAL PURPOSES.—A person shall be considered to make a communication for commercial purposes only if such person is engaged in the business of making such communications.

(B) ENGAGED IN THE BUSINESS.—The term “engaged in the business” means that the person who makes a communication, or offers to make a communication, by means of the World Wide Web, that includes any material that is harmful to minors, devotes time, attention, or labor to such activities, as a regular course of such person’s trade or business, with the objective of earning a profit as a result of such activities (although it is not necessary that the person make a profit or that the making or offering to make such communications be the person’s sole or principal business or source of income). A person may be considered to be engaged in the business of making, by means of the World Wide Web, communications for commercial purposes that include material that is harmful to minors, only if the person knowingly causes the material that is harmful to minors to be posted on the World Wide Web or knowingly solicits such material to be posted on the World Wide Web.

(3) INTERNET.—The term “Internet” means the combination of computer facilities and electromagnetic transmission media, and related equipment and software, comprising the interconnected worldwide network of computer networks that employ the Transmission Control Protocol/Internet Protocol or any successor protocol to transmit information.

(4) INTERNET ACCESS SERVICE.—The term “Internet access service” means a service that enables users to access content, information, electronic mail, or other services offered over the Internet, and may also include access to proprietary content, information, and other services as part of a package of services

<sup>1</sup> So in law. Should probably be “section”.

offered to consumers. Such term does not include telecommunications services.

(5) INTERNET INFORMATION LOCATION TOOL.—The term “Internet information location tool” means a service that refers or links users to an online location on the World Wide Web. Such term includes directories, indices, references, pointers, and hypertext links.

(6) MATERIAL THAT IS HARMFUL TO MINORS.—The term “material that is harmful to minors” means any communication, picture, image, graphic image file, article, recording, writing, or other matter of any kind that is obscene or that—

(A) the average person, applying contemporary community standards, would find, taking the material as a whole and with respect to minors, is designed to appeal to, or is designed to pander to, the prurient interest;

(B) depicts, describes, or represents, in a manner patently offensive with respect to minors, an actual or simulated sexual act or sexual contact, an actual or simulated normal or perverted sexual act, or a lewd exhibition of the genitals or post-pubescent female breast; and

(C) taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

(7) MINOR.—The term “minor” means any person under 17 years of age.

## PART II—DEVELOPMENT OF COMPETITIVE MARKETS

### SEC. 251. [47 U.S.C. 251] INTERCONNECTION.

(a) GENERAL DUTY OF TELECOMMUNICATIONS CARRIERS.—Each telecommunications carrier has the duty—

(1) to interconnect directly or indirectly with the facilities and equipment of other telecommunications carriers; and

(2) not to install network features, functions, or capabilities that do not comply with the guidelines and standards established pursuant to section 255 or 256.

(b) OBLIGATIONS OF ALL LOCAL EXCHANGE CARRIERS.—Each local exchange carrier has the following duties:

(1) RESALE.—The duty not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of its telecommunications services.

(2) NUMBER PORTABILITY.—The duty to provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission.

(3) DIALING PARITY.—The duty to provide dialing parity to competing providers of telephone exchange service and telephone toll service, and the duty to permit all such providers to have nondiscriminatory access to telephone numbers, operator services, directory assistance, and directory listing, with no unreasonable dialing delays.

(4) ACCESS TO RIGHTS-OF-WAY.—The duty to afford access to the poles, ducts, conduits, and rights-of-way of such carrier to competing providers of telecommunications services on rates, terms, and conditions that are consistent with section 224.

(5) RECIPROCAL COMPENSATION.—The duty to establish reciprocal compensation arrangements for the transport and termination of telecommunications.

(c) ADDITIONAL OBLIGATIONS OF INCUMBENT LOCAL EXCHANGE CARRIERS.—In addition to the duties contained in subsection (b), each incumbent local exchange carrier has the following duties:

(1) DUTY TO NEGOTIATE.—The duty to negotiate in good faith in accordance with section 252 the particular terms and conditions of agreements to fulfill the duties described in paragraphs (1) through (5) of subsection (b) and this subsection. The requesting telecommunications carrier also has the duty to negotiate in good faith the terms and conditions of such agreements.

(2) INTERCONNECTION.—The duty to provide, for the facilities and equipment of any requesting telecommunications carrier, interconnection with the local exchange carrier's network—

(A) for the transmission and routing of telephone exchange service and exchange access;

(B) at any technically feasible point within the carrier's network;

(C) that is at least equal in quality to that provided by the local exchange carrier to itself or to any subsidiary, affiliate, or any other party to which the carrier provides interconnection; and

(D) on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, in accordance with the terms and conditions of the agreement and the requirements of this section and section 252.

(3) UNBUNDLED ACCESS.—The duty to provide, to any requesting telecommunications carrier for the provision of a telecommunications service, nondiscriminatory access to network elements on an unbundled basis at any technically feasible point on rates, terms, and conditions that are just, reasonable, and nondiscriminatory in accordance with the terms and conditions of the agreement and the requirements of this section and section 252. An incumbent local exchange carrier shall provide such unbundled network elements in a manner that allows requesting carriers to combine such elements in order to provide such telecommunications service.

(4) RESALE.—The duty—

(A) to offer for resale at wholesale rates any telecommunications service that the carrier provides at retail to subscribers who are not telecommunications carriers; and

(B) not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of such telecommunications service, except that a State commission may, consistent with regulations prescribed by the Commission under this section, prohibit a reseller that obtains at wholesale rates a telecommunications service that is available at retail only to a category of subscribers from offering such service to a different category of subscribers.

(5) NOTICE OF CHANGES.—The duty to provide reasonable public notice of changes in the information necessary for the

transmission and routing of services using that local exchange carrier's facilities or networks, as well as of any other changes that would affect the interoperability of those facilities and networks.

(6) COLLOCATION.—The duty to provide, on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, for physical collocation of equipment necessary for interconnection or access to unbundled network elements at the premises of the local exchange carrier, except that the carrier may provide for virtual collocation if the local exchange carrier demonstrates to the State commission that physical collocation is not practical for technical reasons or because of space limitations.

(d) IMPLEMENTATION.—

(1) IN GENERAL.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete all actions necessary to establish regulations to implement the requirements of this section.

(2) ACCESS STANDARDS.—In determining what network elements should be made available for purposes of subsection (c)(3), the Commission shall consider, at a minimum, whether—

(A) access to such network elements as are proprietary in nature is necessary; and

(B) the failure to provide access to such network elements would impair the ability of the telecommunications carrier seeking access to provide the services that it seeks to offer.

(3) PRESERVATION OF STATE ACCESS REGULATIONS.—In prescribing and enforcing regulations to implement the requirements of this section, the Commission shall not preclude the enforcement of any regulation, order, or policy of a State commission that—

(A) establishes access and interconnection obligations of local exchange carriers;

(B) is consistent with the requirements of this section; and

(C) does not substantially prevent implementation of the requirements of this section and the purposes of this part.

(e) NUMBERING ADMINISTRATION.—

(1) COMMISSION AUTHORITY AND JURISDICTION.—The Commission shall create or designate one or more impartial entities to administer telecommunications numbering and to make such numbers available on an equitable basis. The Commission shall have exclusive jurisdiction over those portions of the North American Numbering Plan that pertain to the United States. Nothing in this paragraph shall preclude the Commission from delegating to State commissions or other entities all or any portion of such jurisdiction.

(2) COSTS.—The cost of establishing telecommunications numbering administration arrangements and number portability shall be borne by all telecommunications carriers on a competitively neutral basis as determined by the Commission.

(3)<sup>1</sup> UNIVERSAL EMERGENCY TELEPHONE NUMBER.—The Commission and any agency or entity to which the Commission has delegated authority under this subsection shall designate 9–1–1 as the universal emergency telephone number within the United States for reporting an emergency to appropriate authorities and requesting assistance. The designation shall apply to both wireline and wireless telephone service. In making the designation, the Commission (and any such agency or entity) shall provide appropriate transition periods for areas in which 9–1–1 is not in use as an emergency telephone number on the date of enactment of the Wireless Communications and Public Safety Act of 1999.

(f) EXEMPTIONS, SUSPENSIONS, AND MODIFICATIONS.—

(1) EXEMPTION FOR CERTAIN RURAL TELEPHONE COMPANIES.—

(A) EXEMPTION.—Subsection (c) of this section shall not apply to a rural telephone company until (i) such company has received a bona fide request for interconnection, services, or network elements, and (ii) the State commission determines (under subparagraph (B)) that such request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 (other than subsections (b)(7) and (c)(1)(D) thereof).

(B) STATE TERMINATION OF EXEMPTION AND IMPLEMENTATION SCHEDULE.—The party making a bona fide request of a rural telephone company for interconnection, services, or network elements shall submit a notice of its request to the State commission. The State commission shall conduct an inquiry for the purpose of determining whether to terminate the exemption under subparagraph (A). Within 120 days after the State commission receives notice of the request, the State commission shall terminate the exemption if the request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 (other than subsections (b)(7) and (c)(1)(D) thereof). Upon termination of the exemption, a State commission shall establish an implementation schedule for compliance with the request that is consistent in time and manner with Commission regulations.

<sup>1</sup>Paragraph (3) of section 251(e) was added by section 3(a) of the Wireless Communications and Public Safety Act of 1999 (P.L. 106–81; 113 Stat. 3). Subsection (b) of such section provides as follows:

(b) [47 U.S.C. 615] SUPPORT.—The Federal Communications Commission shall encourage and support efforts by States to deploy comprehensive end-to-end emergency communications infrastructure and programs, based on coordinated statewide plans, including seamless, ubiquitous, reliable wireless telecommunications networks and enhanced wireless 9–1–1 service. In encouraging and supporting that deployment, the Commission shall consult and cooperate with State and local officials responsible for emergency services and public safety, the telecommunications industry (specifically including the cellular and other wireless telecommunications service providers), the motor vehicle manufacturing industry, emergency medical service providers and emergency dispatch providers, transportation officials, special 9–1–1 districts, public safety, fire service and law enforcement officials, consumer groups, and hospital emergency and trauma care personnel (including emergency physicians, trauma surgeons, and nurses). The Commission shall encourage each State to develop and implement coordinated statewide deployment plans, through an entity designated by the governor, and to include representatives of the foregoing organizations and entities in development and implementation of such plans. Nothing in this subsection shall be construed to authorize or require the Commission to impose obligations or costs on any person.

(C) LIMITATION ON EXEMPTION.—The exemption provided by this paragraph shall not apply with respect to a request under subsection (c) from a cable operator providing video programming, and seeking to provide any telecommunications service, in the area in which the rural telephone company provides video programming. The limitation contained in this subparagraph shall not apply to a rural telephone company that is providing video programming on the date of enactment of the Telecommunications Act of 1996.

(2) SUSPENSIONS AND MODIFICATIONS FOR RURAL CARRIERS.—A local exchange carrier with fewer than 2 percent of the Nation's subscriber lines installed in the aggregate nationwide may petition a State commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) to telephone exchange service facilities specified in such petition. The State commission shall grant such petition to the extent that, and for such duration as, the State commission determines that such suspension or modification—

(A) is necessary—

(i) to avoid a significant adverse economic impact on users of telecommunications services generally;

(ii) to avoid imposing a requirement that is unduly economically burdensome; or

(iii) to avoid imposing a requirement that is technically infeasible; and

(B) is consistent with the public interest, convenience, and necessity.

The State commission shall act upon any petition filed under this paragraph within 180 days after receiving such petition. Pending such action, the State commission may suspend enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers.

(g) CONTINUED ENFORCEMENT OF EXCHANGE ACCESS AND INTERCONNECTION REQUIREMENTS.—On and after the date of enactment of the Telecommunications Act of 1996, each local exchange carrier, to the extent that it provides wireline services, shall provide exchange access, information access, and exchange services for such access to interexchange carriers and information service providers in accordance with the same equal access and non-discriminatory interconnection restrictions and obligations (including receipt of compensation) that apply to such carrier on the date immediately preceding the date of enactment of the Telecommunications Act of 1996 under any court order, consent decree, or regulation, order, or policy of the Commission, until such restrictions and obligations are explicitly superseded by regulations prescribed by the Commission after such date of enactment. During the period beginning on such date of enactment and until such restrictions and obligations are so superseded, such restrictions and obligations shall be enforceable in the same manner as regulations of the Commission.

(h) DEFINITION OF INCUMBENT LOCAL EXCHANGE CARRIER.—

(1) DEFINITION.—For purposes of this section, the term “incumbent local exchange carrier” means, with respect to an area, the local exchange carrier that—

(A) on the date of enactment of the Telecommunications Act of 1996, provided telephone exchange service in such area; and

(B)(i) on such date of enactment, was deemed to be a member of the exchange carrier association pursuant to section 69.601(b) of the Commission’s regulations (47 C.F.R. 69.601(b)); or

(ii) is a person or entity that, on or after such date of enactment, became a successor or assign of a member described in clause (i).

(2) TREATMENT OF COMPARABLE CARRIERS AS INCUMBENTS.—The Commission may, by rule, provide for the treatment of a local exchange carrier (or class or category thereof) as an incumbent local exchange carrier for purposes of this section if—

(A) such carrier occupies a position in the market for telephone exchange service within an area that is comparable to the position occupied by a carrier described in paragraph (1);

(B) such carrier has substantially replaced an incumbent local exchange carrier described in paragraph (1); and

(C) such treatment is consistent with the public interest, convenience, and necessity and the purposes of this section.

(i) SAVINGS PROVISION.—Nothing in this section shall be construed to limit or otherwise affect the Commission’s authority under section 201.

**SEC. 252. [47 U.S.C. 252] PROCEDURES FOR NEGOTIATION, ARBITRATION, AND APPROVAL OF AGREEMENTS.**

(a) AGREEMENTS ARRIVED AT THROUGH NEGOTIATION.—

(1) VOLUNTARY NEGOTIATIONS.—Upon receiving a request for interconnection, services, or network elements pursuant to section 251, an incumbent local exchange carrier may negotiate and enter into a binding agreement with the requesting telecommunications carrier or carriers without regard to the standards set forth in subsections (b) and (c) of section 251. The agreement shall include a detailed schedule of itemized charges for interconnection and each service or network element included in the agreement. The agreement, including any interconnection agreement negotiated before the date of enactment of the Telecommunications Act of 1996, shall be submitted to the State commission under subsection (e) of this section.

(2) MEDIATION.—Any party negotiating an agreement under this section may, at any point in the negotiation, ask a State commission to participate in the negotiation and to mediate any differences arising in the course of the negotiation.

(b) AGREEMENTS ARRIVED AT THROUGH COMPULSORY ARBITRATION.—

(1) ARBITRATION.—During the period from the 135th to the 160th day (inclusive) after the date on which an incumbent local exchange carrier receives a request for negotiation under

this section, the carrier or any other party to the negotiation may petition a State commission to arbitrate any open issues.

(2) DUTY OF PETITIONER.—

(A) A party that petitions a State commission under paragraph (1) shall, at the same time as it submits the petition, provide the State commission all relevant documentation concerning—

- (i) the unresolved issues;
- (ii) the position of each of the parties with respect to those issues; and
- (iii) any other issue discussed and resolved by the parties.

(B) A party petitioning a State commission under paragraph (1) shall provide a copy of the petition and any documentation to the other party or parties not later than the day on which the State commission receives the petition.

(3) OPPORTUNITY TO RESPOND.—A non-petitioning party to a negotiation under this section may respond to the other party's petition and provide such additional information as it wishes within 25 days after the State commission receives the petition.

(4) ACTION BY STATE COMMISSION.—

(A) The State commission shall limit its consideration of any petition under paragraph (1) (and any response thereto) to the issues set forth in the petition and in the response, if any, filed under paragraph (3).

(B) The State commission may require the petitioning party and the responding party to provide such information as may be necessary for the State commission to reach a decision on the unresolved issues. If any party refuses or fails unreasonably to respond on a timely basis to any reasonable request from the State commission, then the State commission may proceed on the basis of the best information available to it from whatever source derived.

(C) The State commission shall resolve each issue set forth in the petition and the response, if any, by imposing appropriate conditions as required to implement subsection (c) upon the parties to the agreement, and shall conclude the resolution of any unresolved issues not later than 9 months after the date on which the local exchange carrier received the request under this section.

(5) REFUSAL TO NEGOTIATE.—The refusal of any other party to the negotiation to participate further in the negotiations, to cooperate with the State commission in carrying out its function as an arbitrator, or to continue to negotiate in good faith in the presence, or with the assistance, of the State commission shall be considered a failure to negotiate in good faith.

(c) STANDARDS FOR ARBITRATION.—In resolving by arbitration under subsection (b) any open issues and imposing conditions upon the parties to the agreement, a State commission shall—

- (1) ensure that such resolution and conditions meet the requirements of section 251, including the regulations prescribed by the Commission pursuant to section 251;

(2) establish any rates for interconnection, services, or network elements according to subsection (d); and

(3) provide a schedule for implementation of the terms and conditions by the parties to the agreement.

(d) PRICING STANDARDS.—

(1) INTERCONNECTION AND NETWORK ELEMENT CHARGES.—Determinations by a State commission of the just and reasonable rate for the interconnection of facilities and equipment for purposes of subsection (c)(2) of section 251, and the just and reasonable rate for network elements for purposes of subsection (c)(3) of such section—

(A) shall be—

(i) based on the cost (determined without reference to a rate-of-return or other rate-based proceeding) of providing the interconnection or network element (whichever is applicable), and

(ii) nondiscriminatory, and

(B) may include a reasonable profit.

(2) CHARGES FOR TRANSPORT AND TERMINATION OF TRAFFIC.—

(A) IN GENERAL.—For the purposes of compliance by an incumbent local exchange carrier with section 251(b)(5), a State commission shall not consider the terms and conditions for reciprocal compensation to be just and reasonable unless—

(i) such terms and conditions provide for the mutual and reciprocal recovery by each carrier of costs associated with the transport and termination on each carrier's network facilities of calls that originate on the network facilities of the other carrier; and

(ii) such terms and conditions determine such costs on the basis of a reasonable approximation of the additional costs of terminating such calls.

(B) RULES OF CONSTRUCTION.—This paragraph shall not be construed—

(i) to preclude arrangements that afford the mutual recovery of costs through the offsetting of reciprocal obligations, including arrangements that waive mutual recovery (such as bill-and-keep arrangements); or

(ii) to authorize the Commission or any State commission to engage in any rate regulation proceeding to establish with particularity the additional costs of transporting or terminating calls, or to require carriers to maintain records with respect to the additional costs of such calls.

(3) WHOLESALE PRICES FOR TELECOMMUNICATIONS SERVICES.—For the purposes of section 251(c)(4), a State commission shall determine wholesale rates on the basis of retail rates charged to subscribers for the telecommunications service requested, excluding the portion thereof attributable to any marketing, billing, collection, and other costs that will be avoided by the local exchange carrier.

(e) APPROVAL BY STATE COMMISSION.—

(1) APPROVAL REQUIRED.—Any interconnection agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission. A State commission to which an agreement is submitted shall approve or reject the agreement, with written findings as to any deficiencies.

(2) GROUNDS FOR REJECTION.—The State commission may only reject—

(A) an agreement (or any portion thereof) adopted by negotiation under subsection (a) if it finds that—

(i) the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or

(ii) the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity; or

(B) an agreement (or any portion thereof) adopted by arbitration under subsection (b) if it finds that the agreement does not meet the requirements of section 251, including the regulations prescribed by the Commission pursuant to section 251, or the standards set forth in subsection (d) of this section.

(3) PRESERVATION OF AUTHORITY.—Notwithstanding paragraph (2), but subject to section 253, nothing in this section shall prohibit a State commission from establishing or enforcing other requirements of State law in its review of an agreement, including requiring compliance with intrastate telecommunications service quality standards or requirements.

(4) SCHEDULE FOR DECISION.—If the State commission does not act to approve or reject the agreement within 90 days after submission by the parties of an agreement adopted by negotiation under subsection (a), or within 30 days after submission by the parties of an agreement adopted by arbitration under subsection (b), the agreement shall be deemed approved. No State court shall have jurisdiction to review the action of a State commission in approving or rejecting an agreement under this section.

(5) COMMISSION TO ACT IF STATE WILL NOT ACT.—If a State commission fails to act to carry out its responsibility under this section in any proceeding or other matter under this section, then the Commission shall issue an order preempting the State commission's jurisdiction of that proceeding or matter within 90 days after being notified (or taking notice) of such failure, and shall assume the responsibility of the State commission under this section with respect to the proceeding or matter and act for the State commission.

(6) REVIEW OF STATE COMMISSION ACTIONS.—In a case in which a State fails to act as described in paragraph (5), the proceeding by the Commission under such paragraph and any judicial review of the Commission's actions shall be the exclusive remedies for a State commission's failure to act. In any case in which a State commission makes a determination under this section, any party aggrieved by such determination may bring an action in an appropriate Federal district court to determine whether the agreement or statement meets the requirements of section 251 and this section.

(f) STATEMENTS OF GENERALLY AVAILABLE TERMS.—

(1) IN GENERAL.—A Bell operating company may prepare and file with a State commission a statement of the terms and conditions that such company generally offers within that State to comply with the requirements of section 251 and the regulations thereunder and the standards applicable under this section.

(2) STATE COMMISSION REVIEW.—A State commission may not approve such statement unless such statement complies with subsection (d) of this section and section 251 and the regulations thereunder. Except as provided in section 253, nothing in this section shall prohibit a State commission from establishing or enforcing other requirements of State law in its review of such statement, including requiring compliance with intrastate telecommunications service quality standards or requirements.

(3) SCHEDULE FOR REVIEW.—The State commission to which a statement is submitted shall, not later than 60 days after the date of such submission—

(A) complete the review of such statement under paragraph (2) (including any reconsideration thereof), unless the submitting carrier agrees to an extension of the period for such review; or

(B) permit such statement to take effect.

(4) AUTHORITY TO CONTINUE REVIEW.—Paragraph (3) shall not preclude the State commission from continuing to review a statement that has been permitted to take effect under subparagraph (B) of such paragraph or from approving or disapproving such statement under paragraph (2).

(5) DUTY TO NEGOTIATE NOT AFFECTED.—The submission or approval of a statement under this subsection shall not relieve a Bell operating company of its duty to negotiate the terms and conditions of an agreement under section 251.

(g) CONSOLIDATION OF STATE PROCEEDINGS.—Where not inconsistent with the requirements of this Act, a State commission may, to the extent practical, consolidate proceedings under sections 214(e), 251(f), 253, and this section in order to reduce administrative burdens on telecommunications carriers, other parties to the proceedings, and the State commission in carrying out its responsibilities under this Act.

(h) FILING REQUIRED.—A State commission shall make a copy of each agreement approved under subsection (e) and each statement approved under subsection (f) available for public inspection and copying within 10 days after the agreement or statement is approved. The State commission may charge a reasonable and non-discriminatory fee to the parties to the agreement or to the party filing the statement to cover the costs of approving and filing such agreement or statement.

(i) AVAILABILITY TO OTHER TELECOMMUNICATIONS CARRIERS.—A local exchange carrier shall make available any interconnection, service, or network element provided under an agreement approved under this section to which it is a party to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement.

(j) DEFINITION OF INCUMBENT LOCAL EXCHANGE CARRIER.—For purposes of this section, the term “incumbent local exchange carrier” has the meaning provided in section 251(h).

**SEC. 253. [47 U.S.C. 253] REMOVAL OF BARRIERS TO ENTRY.**

(a) IN GENERAL.—No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service.

(b) STATE REGULATORY AUTHORITY.—Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers.

(c) STATE AND LOCAL GOVERNMENT AUTHORITY.—Nothing in this section affects the authority of a State or local government to manage the public rights-of-way or to require fair and reasonable compensation from telecommunications providers, on a competitively neutral and nondiscriminatory basis, for use of public rights-of-way on a nondiscriminatory basis, if the compensation required is publicly disclosed by such government.

(d) PREEMPTION.—If, after notice and an opportunity for public comment, the Commission determines that a State or local government has permitted or imposed any statute, regulation, or legal requirement that violates subsection (a) or (b), the Commission shall preempt the enforcement of such statute, regulation, or legal requirement to the extent necessary to correct such violation or inconsistency.

(e) COMMERCIAL MOBILE SERVICE PROVIDERS.—Nothing in this section shall affect the application of section 332(c)(3) to commercial mobile service providers.

(f) RURAL MARKETS.—It shall not be a violation of this section for a State to require a telecommunications carrier that seeks to provide telephone exchange service or exchange access in a service area served by a rural telephone company to meet the requirements in section 214(e)(1) for designation as an eligible telecommunications carrier for that area before being permitted to provide such service. This subsection shall not apply—

(1) to a service area served by a rural telephone company that has obtained an exemption, suspension, or modification of section 251(c)(4) that effectively prevents a competitor from meeting the requirements of section 214(e)(1); and

(2) to a provider of commercial mobile services.

**SEC. 254. [47 U.S.C. 254] UNIVERSAL SERVICE.<sup>1</sup>**

(a) PROCEDURES TO REVIEW UNIVERSAL SERVICE REQUIREMENTS.—

<sup>1</sup> Section 623 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (P.L. 105–119; Nov. 26, 1997; 111 Stat. 2521) contained the following reporting requirements with respect to universal service:

SEC. 623. REPORT ON UNIVERSAL SERVICE UNDER THE TELECOMMUNICATIONS ACT OF 1996.— (a) The Federal Communications Commission shall undertake a review of the implementation by the Commission of the provisions of the Telecommunications Act of 1996 (Public Law 104–104) relating to universal service. Such review shall be completed and submitted to the Congress no later than April 10, 1998.

(b) The report required under subsection (a) shall provide a detailed description of the extent to which the Commission interpretations reviewed under paragraphs (1) through (5) are con-

(1) FEDERAL-STATE JOINT BOARD ON UNIVERSAL SERVICE.—Within one month after the date of enactment of the Telecommunications Act of 1996, the Commission shall institute and refer to a Federal-State Joint Board under section 410(c) a proceeding to recommend changes to any of its regulations in order to implement sections 214(e) and this section, including the definition of the services that are supported by Federal universal service support mechanisms and a specific timetable for completion of such recommendations. In addition to the members of the Joint Board required under section 410(c), one member of such Joint Board shall be a State-appointed utility consumer advocate nominated by a national organization of State utility consumer advocates. The Joint Board shall, after notice and opportunity for public comment, make its recommendations to the Commission 9 months after the date of enactment of the Telecommunications Act of 1996.

(2) COMMISSION ACTION.—The Commission shall initiate a single proceeding to implement the recommendations from the Joint Board required by paragraph (1) and shall complete such proceeding within 15 months after the date of enactment of the Telecommunications Act of 1996. The rules established by such proceeding shall include a definition of the services that are supported by Federal universal service support mechanisms and a specific timetable for implementation. Thereafter, the Commission shall complete any proceeding to implement subsequent recommendations from any Joint Board on universal service within one year after receiving such recommendations.

(b) UNIVERSAL SERVICE PRINCIPLES.—The Joint Board and the Commission shall base policies for the preservation and advancement of universal service on the following principles:

(1) QUALITY AND RATES.—Quality services should be available at just, reasonable, and affordable rates.

(2) ACCESS TO ADVANCED SERVICES.—Access to advanced telecommunications and information services should be provided in all regions of the Nation.

(3) ACCESS IN RURAL AND HIGH COST AREAS.—Consumers in all regions of the Nation, including low-income consumers and those in rural, insular, and high cost areas, should have

sistent with the plain language of the Communications Act of 1934 (47 U.S.C. 151 et seq.), as amended by the Telecommunications Act of 1996, and shall include a review of—

(1) the definitions of “information service”, “local exchange carrier”, “telecommunications”, “telecommunications service”, “telecommunications carrier”, and “telephone exchange service” that were added to section 3 of the Communications Act of 1934 (47 U.S.C. 153) by the Telecommunications Act of 1996 and the impact of the Commission’s interpretation of those definitions on the current and future provision of universal service to consumers in all areas of the Nation, including high cost and rural areas;

(2) the application of those definitions to mixed or hybrid services and the impact of such application on universal service definitions and support, and the consistency of the Commission’s application of those definitions, including with respect to Internet access under section 254(h) of the Communications Act of 1934 (47 U.S.C. 254(h));

(3) who is required to contribute to universal service under section 254(d) of the Communications Act of 1934 (47 U.S.C. 254(d)) and related existing Federal universal service support mechanisms, and of any exemption of providers or exclusion of any service that includes telecommunications from such requirement or support mechanisms;

(4) who is eligible under sections 254(e), 254(h)(1), and 254(h)(2) of the Communications Act of 1934 (47 U.S.C. 254(e), 254(h)(1), and 254(h)(2)) to receive specific Federal universal service support for the provision of universal service, and the consistency with which the Commission has interpreted each of those provisions of section 254; and

(5) the Commission’s decisions regarding the percentage of universal service support provided by Federal mechanisms and the revenue base from which such support is derived.

access to telecommunications and information services, including interexchange services and advanced telecommunications and information services, that are reasonably comparable to those services provided in urban areas and that are available at rates that are reasonably comparable to rates charged for similar services in urban areas.

(4) **EQUITABLE AND NONDISCRIMINATORY CONTRIBUTIONS.**—All providers of telecommunications services should make an equitable and nondiscriminatory contribution to the preservation and advancement of universal service.

(5) **SPECIFIC AND PREDICTABLE SUPPORT MECHANISMS.**—There should be specific, predictable and sufficient Federal and State mechanisms to preserve and advance universal service.

(6) **ACCESS TO ADVANCED TELECOMMUNICATIONS SERVICES FOR SCHOOLS, HEALTH CARE, AND LIBRARIES.**—Elementary and secondary schools and classrooms, health care providers, and libraries should have access to advanced telecommunications services as described in subsection (h).

(7) **ADDITIONAL PRINCIPLES.**—Such other principles as the Joint Board and the Commission determine are necessary and appropriate for the protection of the public interest, convenience, and necessity and are consistent with this Act.

(c) **DEFINITION.**—

(1) **IN GENERAL.**—Universal service is an evolving level of telecommunications services that the Commission shall establish periodically under this section, taking into account advances in telecommunications and information technologies and services. The Joint Board in recommending, and the Commission in establishing, the definition of the services that are supported by Federal universal service support mechanisms shall consider the extent to which such telecommunications services—

(A) are essential to education, public health, or public safety;

(B) have, through the operation of market choices by customers, been subscribed to by a substantial majority of residential customers;

(C) are being deployed in public telecommunications networks by telecommunications carriers; and

(D) are consistent with the public interest, convenience, and necessity.

(2) **ALTERATIONS AND MODIFICATIONS.**—The Joint Board may, from time to time, recommend to the Commission modifications in the definition of the services that are supported by Federal universal service support mechanisms.

(3) **SPECIAL SERVICES.**—In addition to the services included in the definition of universal service under paragraph (1), the Commission may designate additional services for such support mechanisms for schools, libraries, and health care providers for the purposes of subsection (h).

(d) **TELECOMMUNICATIONS CARRIER CONTRIBUTION.**—Every telecommunications carrier that provides interstate telecommunications services shall contribute, on an equitable and nondiscriminatory basis, to the specific, predictable, and sufficient mechanisms established by the Commission to preserve and advance uni-

versal service. The Commission may exempt a carrier or class of carriers from this requirement if the carrier's telecommunications activities are limited to such an extent that the level of such carrier's contribution to the preservation and advancement of universal service would be de minimis. Any other provider of interstate telecommunications may be required to contribute to the preservation and advancement of universal service if the public interest so requires.<sup>1</sup>

(e) UNIVERSAL SERVICE SUPPORT.—After the date on which Commission regulations implementing this section take effect, only an eligible telecommunications carrier designated under section 214(e) shall be eligible to receive specific Federal universal service support. A carrier that receives such support shall use that support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Any such support should be explicit and sufficient to achieve the purposes of this section.

(f) STATE AUTHORITY.—A State may adopt regulations not inconsistent with the Commission's rules to preserve and advance universal service. Every telecommunications carrier that provides intrastate telecommunications services shall contribute, on an equitable and nondiscriminatory basis, in a manner determined by the State to the preservation and advancement of universal service in that State. A State may adopt regulations to provide for additional definitions and standards to preserve and advance universal service within that State only to the extent that such regulations adopt additional specific, predictable, and sufficient mechanisms to support such definitions or standards that do not rely on or burden Federal universal service support mechanisms.

(g) INTEREXCHANGE AND INTERSTATE SERVICES.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall adopt rules to require that the rates charged by providers of interexchange telecommunications services to subscribers in rural and high cost areas shall be no higher than the rates charged by each such provider to its subscribers in urban

<sup>1</sup>Section 3006 of the Balanced Budget Act of 1997 (P.L. 105-33; 111 Stat. 269), which was repealed by section 622 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act; 1998 (P.L. 105-119; 111 Stat. 2521) contained the following provisions with respect to funds available to carry out section 254 of the Communications Act of 1934:

**SEC. 3006. UNIVERSAL SERVICE FUND PAYMENT SCHEDULE.**

(a) APPROPRIATIONS TO THE UNIVERSAL SERVICE FUND.—

(1) APPROPRIATION.—There is hereby appropriated to the Commission \$3,000,000,000 in fiscal year 2001, which shall be disbursed on October 1, 2000, to the Administrator of the Federal universal service support programs established pursuant to section 254 of the Communications Act of 1934 (47 U.S.C. 254), and which may be expended by the Administrator in support of such programs as provided pursuant to the rules implementing that section.

(2) RETURN TO TREASURY.—The Administrator shall transfer \$3,000,000,000 from the funds collected for such support programs to the General Fund of the Treasury on October 1, 2001.

(b) FEE ADJUSTMENTS.—The Commission shall direct the Administrator to adjust payments by telecommunications carriers and other providers of interstate telecommunications so that the \$3,000,000,000 of the total payments by such carriers or providers to the Administrator for fiscal year 2001 shall be deferred until October 1, 2001.

(c) PRESERVATION OF AUTHORITY.—Nothing in this section shall affect the Administrator's authority to determine the amounts that should be expended for universal service support programs pursuant to section 254 of the Communications Act of 1934 and the rules implementing that section.

(d) DEFINITION.—For purposes of this section, the term "Administrator" means the Administrator designated by the Federal Communications Commission to administer Federal universal service support programs pursuant to section 254 of the Communications Act of 1934.

areas. Such rules shall also require that a provider of interstate interexchange telecommunications services shall provide such services to its subscribers in each State at rates no higher than the rates charged to its subscribers in any other State.

(h) TELECOMMUNICATIONS SERVICES FOR CERTAIN PROVIDERS.—

(1) IN GENERAL.—

(A) HEALTH CARE PROVIDERS FOR RURAL AREAS.—A telecommunications carrier shall, upon receiving a bona fide request, provide telecommunications services which are necessary for the provision of health care services in a State, including instruction relating to such services, to any public or nonprofit health care provider that serves persons who reside in rural areas in that State at rates that are reasonably comparable to rates charged for similar services in urban areas in that State. A telecommunications carrier providing service under this paragraph shall be entitled to have an amount equal to the difference, if any, between the rates for services provided to health care providers for rural areas in a State and the rates for similar services provided to other customers in comparable rural areas in that State treated as a service obligation as a part of its obligation to participate in the mechanisms to preserve and advance universal service.

(B) EDUCATIONAL PROVIDERS AND LIBRARIES.—All telecommunications carriers serving a geographic area shall, upon a bona fide request for any of its services that are within the definition of universal service under subsection (c)(3), provide such services to elementary schools, secondary schools, and libraries for educational purposes at rates less than the amounts charged for similar services to other parties. The discount shall be an amount that the Commission, with respect to interstate services, and the States, with respect to intrastate services, determine is appropriate and necessary to ensure affordable access to and use of such services by such entities. A telecommunications carrier providing service under this paragraph shall—

(i) have an amount equal to the amount of the discount treated as an offset to its obligation to contribute to the mechanisms to preserve and advance universal service, or

(ii) notwithstanding the provisions of subsection (e) of this section, receive reimbursement utilizing the support mechanisms to preserve and advance universal service.

(2) ADVANCED SERVICES.—The Commission shall establish competitively neutral rules—

(A) to enhance, to the extent technically feasible and economically reasonable, access to advanced telecommunications and information services for all public and nonprofit elementary and secondary school classrooms, health care providers, and libraries; and

(B) to define the circumstances under which a telecommunications carrier may be required to connect its network to such public institutional telecommunications users.

(3) TERMS AND CONDITIONS.—Telecommunications services and network capacity provided to a public institutional telecommunications user under this subsection may not be sold, resold, or otherwise transferred by such user in consideration for money or any other thing of value.

(4) ELIGIBILITY OF USERS.—No entity listed in this subsection shall be entitled to preferential rates or treatment as required by this subsection, if such entity operates as a for-profit business, is a school described in paragraph (7)(A) with an endowment of more than \$50,000,000, or is a library or library consortium not eligible for assistance from a State library administrative agency under the Library Services and Technology Act.

(5)<sup>1</sup> REQUIREMENTS FOR CERTAIN SCHOOLS WITH COMPUTERS HAVING INTERNET ACCESS.—

(A) INTERNET SAFETY.—

(i) IN GENERAL.—Except as provided in clause (ii), an elementary or secondary school having computers

<sup>1</sup>Section 1721 of the Children's Internet Protection Act (P.L. 106-554; Appendix D; 114 Stat. 2763A-343) added paragraphs (5) and (6) and amended paragraph (7) of section 254(h) of the Communications Act of 1934. The Children's Internet Protection Act also contained the following related provisions:

#### TITLE XVII—CHILDREN'S INTERNET PROTECTION

##### SEC. 1701. [20 U.S.C. 6301 note] SHORT TITLE.

This title may be cited as the "Children's Internet Protection Act".

##### SEC. 1702. DISCLAIMERS.

(a) DISCLAIMER REGARDING CONTENT.—Nothing in this title or the amendments made by this title shall be construed to prohibit a local educational agency, elementary or secondary school, or library from blocking access on the Internet on computers owned or operated by that agency, school, or library to any content other than content covered by this title or the amendments made by this title.

(b) DISCLAIMER REGARDING PRIVACY.—Nothing in this title or the amendments made by this title shall be construed to require the tracking of Internet use by any identifiable minor or adult user.

##### SEC. 1703. [47 U.S.C. 902 note] STUDY OF TECHNOLOGY PROTECTION MEASURES.

(a) IN GENERAL.—Not later than 18 months after the date of the enactment of this Act, the National Telecommunications and Information Administration shall initiate a notice and comment proceeding for purposes of—

(1) evaluating whether or not currently available technology protection measures, including commercial Internet blocking and filtering software, adequately addresses the needs of educational institutions;

(2) making recommendations on how to foster the development of measures that meet such needs; and

(3) evaluating the development and effectiveness of local Internet safety policies that are currently in operation after community input.

(b) DEFINITIONS.—In this section:

(1) TECHNOLOGY PROTECTION MEASURE.—The term "technology protection measure" means a specific technology that blocks or filters Internet access to visual depictions that are—

(A) obscene, as that term is defined in section 1460 of title 18, United States Code;

(B) child pornography, as that term is defined in section 2256 of title 18, United States Code; or

(C) harmful to minors.

(2) HARMFUL TO MINORS.—The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that—

(A) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;

(B) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and

(C) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

(3) SEXUAL ACT; SEXUAL CONTACT.—The terms "sexual act" and "sexual contact" have the meanings given such terms in section 2246 of title 18, United States Code.

Continued

with Internet access may not receive services at discount rates under paragraph (1)(B) unless the school, school board, local educational agency, or other authority with responsibility for administration of the school—

(I) submits to the Commission the certifications described in subparagraphs (B) and (C);

(II) submits to the Commission a certification that an Internet safety policy has been adopted

\* \* \* \* \*

(e) [47 U.S.C. 254 note] SEPARABILITY.—If any provision of paragraph (5) or (6) of section 254(h) of the Communications Act of 1934, as amended by this section, or the application thereof to any person or circumstance is held invalid, the remainder of such paragraph and the application of such paragraph to other persons or circumstances shall not be affected thereby.

(f) [47 U.S.C. 254 note] REGULATIONS.—

(1) REQUIREMENT.—The Federal Communications Commission shall prescribe regulations for purposes of administering the provisions of paragraphs (5) and (6) of section 254(h) of the Communications Act of 1934, as amended by this section.

(2) DEADLINE.—Notwithstanding any other provision of law, the Commission shall prescribe regulations under paragraph (1) so as to ensure that such regulations take effect 120 days after the date of the enactment of this Act.

(g) AVAILABILITY OF CERTAIN FUNDS FOR ACQUISITION OF TECHNOLOGY PROTECTION MEASURES.—

(1) IN GENERAL.—Notwithstanding any other provision of law, funds available under section 3134 or part A of title VI of the Elementary and Secondary Education Act of 1965, or under section 231 of the Library Services and Technology Act, may be used for the purchase or acquisition of technology protection measures that are necessary to meet the requirements of this title and the amendments made by this title. No other sources of funds for the purchase or acquisition of such measures are authorized by this title, or the amendments made by this title.

(2) TECHNOLOGY PROTECTION MEASURE DEFINED.—In this section, the term “technology protection measure” has the meaning given that term in section 1703.

(h) [47 U.S.C. 254 note] EFFECTIVE DATE.—The amendments made by this section shall take effect 120 days after the date of the enactment of this Act.

**Subtitle C—Neighborhood Children’s Internet Protection**

**SEC. 1733. [47 U.S.C. 254 note] IMPLEMENTING REGULATIONS.**

Not later than 120 days after the date of enactment of this Act, the Federal Communications Commission shall prescribe regulations for purposes of section 254(l) of the Communications Act of 1934, as added by section 1732 of this Act.

**Subtitle D—Expedited Review**

**SEC. 1741. EXPEDITED REVIEW.**

(a) THREE-JUDGE DISTRICT COURT HEARING.—Notwithstanding any other provision of law, any civil action challenging the constitutionality, on its face, of this title or any amendment made by this title, or any provision thereof, shall be heard by a district court of three judges convened pursuant to the provisions of section 2284 of title 28, United States Code.

(b) APPELLATE REVIEW.—Notwithstanding any other provision of law, an interlocutory or final judgment, decree, or order of the court of three judges in an action under subsection (a) holding this title or an amendment made by this title, or any provision thereof, unconstitutional shall be reviewable as a matter of right by direct appeal to the Supreme Court. Any such appeal shall be filed not more than 20 days after entry of such judgment, decree, or order.

and implemented for the school under subsection (l); and

(III) ensures the use of such computers in accordance with the certifications.

(ii) APPLICABILITY.—The prohibition in clause (i) shall not apply with respect to a school that receives services at discount rates under paragraph (1)(B) only for purposes other than the provision of Internet access, Internet service, or internal connections.

(iii) PUBLIC NOTICE; HEARING.—An elementary or secondary school described in clause (i), or the school board, local educational agency, or other authority with responsibility for administration of the school, shall provide reasonable public notice and hold at least one public hearing or meeting to address the proposed Internet safety policy. In the case of an elementary or secondary school other than an elementary or secondary school as defined in section 14101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801), the notice and hearing required by this clause may be limited to those members of the public with a relationship to the school.

(B) CERTIFICATION WITH RESPECT TO MINORS.—A certification under this subparagraph is a certification that the school, school board, local educational agency, or other authority with responsibility for administration of the school—

(i) is enforcing a policy of Internet safety for minors that includes monitoring the online activities of minors and the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

(I) obscene;

(II) child pornography; or

(III) harmful to minors; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers by minors.

(C) CERTIFICATION WITH RESPECT TO ADULTS.—A certification under this paragraph is a certification that the school, school board, local educational agency, or other authority with responsibility for administration of the school—

(i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

(I) obscene; or

(II) child pornography; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers.

(D) DISABLING DURING ADULT USE.—An administrator, supervisor, or other person authorized by the certifying au-

thority under subparagraph (A)(i) may disable the technology protection measure concerned, during use by an adult, to enable access for bona fide research or other lawful purpose.

(E) TIMING OF IMPLEMENTATION.—

(i) IN GENERAL.—Subject to clause (ii) in the case of any school covered by this paragraph as of the effective date of this paragraph under section 1721(h) of the Children’s Internet Protection Act, the certification under subparagraphs (B) and (C) shall be made—

(I) with respect to the first program funding year under this subsection following such effective date, not later than 120 days after the beginning of such program funding year; and

(II) with respect to any subsequent program funding year, as part of the application process for such program funding year.

(ii) PROCESS.—

(I) SCHOOLS WITH INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A school covered by clause (i) that has in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C) shall certify its compliance with subparagraphs (B) and (C) during each annual program application cycle under this subsection, except that with respect to the first program funding year after the effective date of this paragraph under section 1721(h) of the Children’s Internet Protection Act, the certifications shall be made not later than 120 days after the beginning of such first program funding year.

(II) SCHOOLS WITHOUT INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A school covered by clause (i) that does not have in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C)—

(aa) for the first program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is undertaking such actions, including any necessary procurement procedures, to put in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C); and

(bb) for the second program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is in compliance with subparagraphs (B) and (C).

Any school that is unable to certify compliance with such requirements in such second program year shall be ineligible for services at discount rates or funding in lieu of services at such rates under this subsection for such second year and all subsequent program years under this subsection, until such time as such school comes into compliance with this paragraph.

(III) WAIVERS.—Any school subject to subclause (II) that cannot come into compliance with subparagraphs (B) and (C) in such second year program may seek a waiver of subclause (II)(bb) if State or local procurement rules or regulations or competitive bidding requirements prevent the making of the certification otherwise required by such subclause. A school, school board, local educational agency, or other authority with responsibility for administration of the school shall notify the Commission of the applicability of such subclause to the school. Such notice shall certify that the school in question will be brought into compliance before the start of the third program year after the effective date of this subsection in which the school is applying for funds under this subsection.

(F) NONCOMPLIANCE.—

(i) FAILURE TO SUBMIT CERTIFICATION.—Any school that knowingly fails to comply with the application guidelines regarding the annual submission of certification required by this paragraph shall not be eligible for services at discount rates or funding in lieu of services at such rates under this subsection.

(ii) FAILURE TO COMPLY WITH CERTIFICATION.—Any school that knowingly fails to ensure the use of its computers in accordance with a certification under subparagraphs (B) and (C) shall reimburse any funds and discounts received under this subsection for the period covered by such certification.

(iii) REMEDY OF NONCOMPLIANCE.—

(I) FAILURE TO SUBMIT.—A school that has failed to submit a certification under clause (i) may remedy the failure by submitting the certification to which the failure relates. Upon submittal of such certification, the school shall be eligible for services at discount rates under this subsection.

(II) FAILURE TO COMPLY.—A school that has failed to comply with a certification as described in clause (ii) may remedy the failure by ensuring the use of its computers in accordance with such certification. Upon submittal to the Commission of a certification or other appropriate evidence of such remedy, the school shall be eligible for services at discount rates under this subsection.

(6)<sup>1</sup> REQUIREMENTS FOR CERTAIN LIBRARIES WITH COMPUTERS HAVING INTERNET ACCESS.—

(A) INTERNET SAFETY.—

(i) IN GENERAL.—Except as provided in clause (ii), a library having one or more computers with Internet access may not receive services at discount rates under paragraph (1)(B) unless the library—

(I) submits to the Commission the certifications described in subparagraphs (B) and (C); and

(II) submits to the Commission a certification that an Internet safety policy has been adopted and implemented for the library under subsection (1); and

(III) ensures the use of such computers in accordance with the certifications.

(ii) APPLICABILITY.—The prohibition in clause (i) shall not apply with respect to a library that receives services at discount rates under paragraph (1)(B) only for purposes other than the provision of Internet access, Internet service, or internal connections.

(iii) PUBLIC NOTICE; HEARING.—A library described in clause (i) shall provide reasonable public notice and hold at least one public hearing or meeting to address the proposed Internet safety policy.

(B) CERTIFICATION WITH RESPECT TO MINORS.—A certification under this subparagraph is a certification that the library—

(i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

(I) obscene;

(II) child pornography; or

(III) harmful to minors; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers by minors.

(C) CERTIFICATION WITH RESPECT TO ADULTS.—A certification under this paragraph is a certification that the library—

(i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

(I) obscene; or

(II) child pornography; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers.

(D) DISABLING DURING ADULT USE.—An administrator, supervisor, or other person authorized by the certifying au-

<sup>1</sup> See footnote for paragraph (5) above.

thority under subparagraph (A)(i) may disable the technology protection measure concerned, during use by an adult, to enable access for bona fide research or other lawful purpose.

(E) TIMING OF IMPLEMENTATION.—

(i) IN GENERAL.—Subject to clause (ii) in the case of any library covered by this paragraph as of the effective date of this paragraph under section 1721(h) of the Children’s Internet Protection Act, the certification under subparagraphs (B) and (C) shall be made—

(I) with respect to the first program funding year under this subsection following such effective date, not later than 120 days after the beginning of such program funding year; and

(II) with respect to any subsequent program funding year, as part of the application process for such program funding year.

(ii) PROCESS.—

(I) LIBRARIES WITH INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A library covered by clause (i) that has in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C) shall certify its compliance with subparagraphs (B) and (C) during each annual program application cycle under this subsection, except that with respect to the first program funding year after the effective date of this paragraph under section 1721(h) of the Children’s Internet Protection Act, the certifications shall be made not later than 120 days after the beginning of such first program funding year.

(II) LIBRARIES WITHOUT INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A library covered by clause (i) that does not have in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C)—

(aa) for the first program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is undertaking such actions, including any necessary procurement procedures, to put in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C); and

(bb) for the second program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is in compliance with subparagraphs (B) and (C).

Any library that is unable to certify compliance with such requirements in such second program year shall be ineligible for services at discount rates or funding in lieu of services at such rates under this subsection for such second year and all subsequent program years under this subsection, until such time as such library comes into compliance with this paragraph.

(III) WAIVERS.—Any library subject to subclause (II) that cannot come into compliance with subparagraphs (B) and (C) in such second year may seek a waiver of subclause (II)(bb) if State or local procurement rules or regulations or competitive bidding requirements prevent the making of the certification otherwise required by such subclause. A library, library board, or other authority with responsibility for administration of the library shall notify the Commission of the applicability of such subclause to the library. Such notice shall certify that the library in question will be brought into compliance before the start of the third program year after the effective date of this subsection in which the library is applying for funds under this subsection.

(F) NONCOMPLIANCE.—

(i) FAILURE TO SUBMIT CERTIFICATION.—Any library that knowingly fails to comply with the application guidelines regarding the annual submission of certification required by this paragraph shall not be eligible for services at discount rates or funding in lieu of services at such rates under this subsection.

(ii) FAILURE TO COMPLY WITH CERTIFICATION.—Any library that knowingly fails to ensure the use of its computers in accordance with a certification under subparagraphs (B) and (C) shall reimburse all funds and discounts received under this subsection for the period covered by such certification.

(iii) REMEDY OF NONCOMPLIANCE.—

(I) FAILURE TO SUBMIT.—A library that has failed to submit a certification under clause (i) may remedy the failure by submitting the certification to which the failure relates. Upon submittal of such certification, the library shall be eligible for services at discount rates under this subsection.

(II) FAILURE TO COMPLY.—A library that has failed to comply with a certification as described in clause (ii) may remedy the failure by ensuring the use of its computers in accordance with such certification. Upon submittal to the Commission of a certification or other appropriate evidence of such remedy, the library shall be eligible for services at discount rates under this subsection.

(7) DEFINITIONS.—For purposes of this subsection:

- (A) **ELEMENTARY AND SECONDARY SCHOOLS.**—The term “elementary and secondary schools” means elementary schools and secondary schools, as defined in section 9101 of the Elementary and Secondary Education Act of 1965.
- (B) **HEALTH CARE PROVIDER.**—The term “health care provider” means—
- (i) post-secondary educational institutions offering health care instruction, teaching hospitals, and medical schools;
  - (ii) community health centers or health centers providing health care to migrants;
  - (iii) local health departments or agencies;
  - (iv) community mental health centers;
  - (v) not-for-profit hospitals;
  - (vi) rural health clinics; and
  - (vii) consortia of health care providers consisting of one or more entities described in clauses (i) through (vi).
- (C) **PUBLIC INSTITUTIONAL TELECOMMUNICATIONS USER.**—The term “public institutional telecommunications user” means an elementary or secondary school, a library, or a health care provider as those terms are defined in this paragraph.
- (D) **MINOR.**—The term “minor” means any individual who has not attained the age of 17 years.
- (E) **OBSCENE.**—The term “obscene” has the meaning given such term in section 1460 of title 18, United States Code.
- (F) **CHILD PORNOGRAPHY.**—The term “child pornography” has the meaning given such term in section 2256 of title 18, United States Code.
- (G) **HARMFUL TO MINORS.**—The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that—
- (i) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
  - (ii) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
  - (iii) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
- (H) **SEXUAL ACT; SEXUAL CONTACT.**—The terms “sexual act” and “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.
- (I) **TECHNOLOGY PROTECTION MEASURE.**—The term “technology protection measure” means a specific technology that blocks or filters Internet access to the material covered by a certification under paragraph (5) or (6) to which such certification relates.
- (i) **CONSUMER PROTECTION.**—The Commission and the States should ensure that universal service is available at rates that are just, reasonable, and affordable.

(j) **LIFELINE ASSISTANCE.**—Nothing in this section shall affect the collection, distribution, or administration of the Lifeline Assistance Program provided for by the Commission under regulations set forth in section 69.117 of title 47, Code of Federal Regulations, and other related sections of such title.

(k) **SUBSIDY OF COMPETITIVE SERVICES PROHIBITED.**—A telecommunications carrier may not use services that are not competitive to subsidize services that are subject to competition. The Commission, with respect to interstate services, and the States, with respect to intrastate services, shall establish any necessary cost allocation rules, accounting safeguards, and guidelines to ensure that services included in the definition of universal service bear no more than a reasonable share of the joint and common costs of facilities used to provide those services.

(l) **INTERNET SAFETY POLICY REQUIREMENT FOR SCHOOLS AND LIBRARIES.**—

(1) **IN GENERAL.**—In carrying out its responsibilities under subsection (h), each school or library to which subsection (h) applies shall—

(A) adopt and implement an Internet safety policy that addresses—

(i) access by minors to inappropriate matter on the Internet and World Wide Web;

(ii) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;

(iii) unauthorized access, including so-called “hacking”, and other unlawful activities by minors online;

(iv) unauthorized disclosure, use, and dissemination of personal identification information regarding minors; and

(v) measures designed to restrict minors’ access to materials harmful to minors; and

(B) provide reasonable public notice and hold at least one public hearing or meeting to address the proposed Internet safety policy.

(2) **LOCAL DETERMINATION OF CONTENT.**—A determination regarding what matter is inappropriate for minors shall be made by the school board, local educational agency, library, or other authority responsible for making the determination. No agency or instrumentality of the United States Government may—

(A) establish criteria for making such determination;

(B) review the determination made by the certifying school, school board, local educational agency, library, or other authority; or

(C) consider the criteria employed by the certifying school, school board, local educational agency, library, or other authority in the administration of subsection (h)(1)(B).

(3) **AVAILABILITY FOR REVIEW.**—Each Internet safety policy adopted under this subsection shall be made available to the Commission, upon request of the Commission, by the school, school board, local educational agency, library, or other author-

ity responsible for adopting such Internet safety policy for purposes of the review of such Internet safety policy by the Commission.

(4) EFFECTIVE DATE.—This subsection shall apply with respect to schools and libraries on or after the date that is 120 days after the date of the enactment of the Children’s Internet Protection Act.

**SEC. 255. [47 U.S.C. 255] ACCESS BY PERSONS WITH DISABILITIES.**

(a) DEFINITIONS.—As used in this section—

(1) DISABILITY.—The term “disability” has the meaning given to it by section 3(2)(A) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102(2)(A)).

(2) READILY ACHIEVABLE.—The term “readily achievable” has the meaning given to it by section 301(9) of that Act (42 U.S.C. 12181(9)).

(b) MANUFACTURING.—A manufacturer of telecommunications equipment or customer premises equipment shall ensure that the equipment is designed, developed, and fabricated to be accessible to and usable by individuals with disabilities, if readily achievable.

(c) TELECOMMUNICATIONS SERVICES.—A provider of telecommunications service shall ensure that the service is accessible to and usable by individuals with disabilities, if readily achievable.

(d) COMPATIBILITY.—Whenever the requirements of subsections (b) and (c) are not readily achievable, such a manufacturer or provider shall ensure that the equipment or service is compatible with existing peripheral devices or specialized customer premises equipment commonly used by individuals with disabilities to achieve access, if readily achievable.

(e) GUIDELINES.—Within 18 months after the date of enactment of the Telecommunications Act of 1996, the Architectural and Transportation Barriers Compliance Board shall develop guidelines for accessibility of telecommunications equipment and customer premises equipment in conjunction with the Commission. The Board shall review and update the guidelines periodically.

(f) NO ADDITIONAL PRIVATE RIGHTS AUTHORIZED.—Nothing in this section shall be construed to authorize any private right of action to enforce any requirement of this section or any regulation thereunder. The Commission shall have exclusive jurisdiction with respect to any complaint under this section.

**SEC. 256. [47 U.S.C. 256] COORDINATION FOR INTERCONNECTIVITY.**

(a) PURPOSE.—It is the purpose of this section—

(1) to promote nondiscriminatory accessibility by the broadest number of users and vendors of communications products and services to public telecommunications networks used to provide telecommunications service through—

(A) coordinated public telecommunications network planning and design by telecommunications carriers and other providers of telecommunications service; and

(B) public telecommunications network interconnectivity, and interconnectivity of devices with such networks used to provide telecommunications service; and

(2) to ensure the ability of users and information providers to seamlessly and transparently transmit and receive information between and across telecommunications networks.

(b) COMMISSION FUNCTIONS.—In carrying out the purposes of this section, the Commission—

(1) shall establish procedures for Commission oversight of coordinated network planning by telecommunications carriers and other providers of telecommunications service for the effective and efficient interconnection of public telecommunications networks used to provide telecommunications service; and

(2) may participate, in a manner consistent with its authority and practice prior to the date of enactment of this section, in the development by appropriate industry standards-setting organizations of public telecommunications network interconnectivity standards that promote access to—

(A) public telecommunications networks used to provide telecommunications service;

(B) network capabilities and services by individuals with disabilities; and

(C) information services by subscribers of rural telephone companies.

(c) COMMISSION'S AUTHORITY.—Nothing in this section shall be construed as expanding or limiting any authority that the Commission may have under law in effect before the date of enactment of the Telecommunications Act of 1996.

(d) DEFINITION.—As used in this section, the term “public telecommunications network interconnectivity” means the ability of two or more public telecommunications networks used to provide telecommunications service to communicate and exchange information without degeneration, and to interact in concert with one another.

**SEC. 257. [47 U.S.C. 257] MARKET ENTRY BARRIERS PROCEEDING.**

(a) ELIMINATION OF BARRIERS.—Within 15 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete a proceeding for the purpose of identifying and eliminating, by regulations pursuant to its authority under this Act (other than this section), market entry barriers for entrepreneurs and other small businesses in the provision and ownership of telecommunications services and information services, or in the provision of parts or services to providers of telecommunications services and information services.

(b) NATIONAL POLICY.—In carrying out subsection (a), the Commission shall seek to promote the policies and purposes of this Act favoring diversity of media voices, vigorous economic competition, technological advancement, and promotion of the public interest, convenience, and necessity.

(c) PERIODIC REVIEW.—Every 3 years following the completion of the proceeding required by subsection (a), the Commission shall review and report to Congress on—

(1) any regulations prescribed to eliminate barriers within its jurisdiction that are identified under subsection (a) and that can be prescribed consistent with the public interest, convenience, and necessity; and

(2) the statutory barriers identified under subsection (a) that the Commission recommends be eliminated, consistent with the public interest, convenience, and necessity.

**SEC. 258. [47 U.S.C. 258] ILLEGAL CHANGES IN SUBSCRIBER CARRIER SELECTIONS.**

(a) **PROHIBITION.**—No telecommunications carrier shall submit or execute a change in a subscriber's selection of a provider of telephone exchange service or telephone toll service except in accordance with such verification procedures as the Commission shall prescribe. Nothing in this section shall preclude any State commission from enforcing such procedures with respect to intrastate services.

(b) **LIABILITY FOR CHARGES.**—Any telecommunications carrier that violates the verification procedures described in subsection (a) and that collects charges for telephone exchange service or telephone toll service from a subscriber shall be liable to the carrier previously selected by the subscriber in an amount equal to all charges paid by such subscriber after such violation, in accordance with such procedures as the Commission may prescribe. The remedies provided by this subsection are in addition to any other remedies available by law.

**SEC. 259. [47 U.S.C. 259] INFRASTRUCTURE SHARING.**

(a) **REGULATIONS REQUIRED.**—The Commission shall prescribe, within one year after the date of enactment of the Telecommunications Act of 1996, regulations that require incumbent local exchange carriers (as defined in section 251(h)) to make available to any qualifying carrier such public switched network infrastructure, technology, information, and telecommunications facilities and functions as may be requested by such qualifying carrier for the purpose of enabling such qualifying carrier to provide telecommunications services, or to provide access to information services, in the service area in which such qualifying carrier has requested and obtained designation as an eligible telecommunications carrier under section 214(e).

(b) **TERMS AND CONDITIONS OF REGULATIONS.**—The regulations prescribed by the Commission pursuant to this section shall—

(1) not require a local exchange carrier to which this section applies to take any action that is economically unreasonable or that is contrary to the public interest;

(2) permit, but shall not require, the joint ownership or operation of public switched network infrastructure and services by or among such local exchange carrier and a qualifying carrier;

(3) ensure that such local exchange carrier will not be treated by the Commission or any State as a common carrier for hire or as offering common carrier services with respect to any infrastructure, technology, information, facilities, or functions made available to a qualifying carrier in accordance with regulations issued pursuant to this section;

(4) ensure that such local exchange carrier makes such infrastructure, technology, information, facilities, or functions available to a qualifying carrier on just and reasonable terms and conditions that permit such qualifying carrier to fully benefit from the economies of scale and scope of such local ex-

change carrier, as determined in accordance with guidelines prescribed by the Commission in regulations issued pursuant to this section;

(5) establish conditions that promote cooperation between local exchange carriers to which this section applies and qualifying carriers;

(6) not require a local exchange carrier to which this section applies to engage in any infrastructure sharing agreement for any services or access which are to be provided or offered to consumers by the qualifying carrier in such local exchange carrier's telephone exchange area; and

(7) require that such local exchange carrier file with the Commission or State for public inspection, any tariffs, contracts, or other arrangements showing the rates, terms, and conditions under which such carrier is making available public switched network infrastructure and functions under this section.

(c) **INFORMATION CONCERNING DEPLOYMENT OF NEW SERVICES AND EQUIPMENT.**—A local exchange carrier to which this section applies that has entered into an infrastructure sharing agreement under this section shall provide to each party to such agreement timely information on the planned deployment of telecommunications services and equipment, including any software or upgrades of software integral to the use or operation of such telecommunications equipment.

(d) **DEFINITION.**—For purposes of this section, the term “qualifying carrier” means a telecommunications carrier that—

(1) lacks economies of scale or scope, as determined in accordance with regulations prescribed by the Commission pursuant to this section; and

(2) offers telephone exchange service, exchange access, and any other service that is included in universal service, to all consumers without preference throughout the service area for which such carrier has been designated as an eligible telecommunications carrier under section 214(e).

**SEC. 260. [47 U.S.C. 260] PROVISION OF TELEMESSAGING SERVICE.**

(a) **NONDISCRIMINATION SAFEGUARDS.**—Any local exchange carrier subject to the requirements of section 251(c) that provides telemessaging service—

(1) shall not subsidize its telemessaging service directly or indirectly from its telephone exchange service or its exchange access; and

(2) shall not prefer or discriminate in favor of its telemessaging service operations in its provision of telecommunications services.

(b) **EXPEDITED CONSIDERATION OF COMPLAINTS.**—The Commission shall establish procedures for the receipt and review of complaints concerning violations of subsection (a) or the regulations thereunder that result in material financial harm to a provider of telemessaging service. Such procedures shall ensure that the Commission will make a final determination with respect to any such complaint within 120 days after receipt of the complaint. If the complaint contains an appropriate showing that the alleged violation occurred, the Commission shall, within 60 days after receipt

of the complaint, order the local exchange carrier and any affiliates to cease engaging in such violation pending such final determination.

(c) DEFINITION.—As used in this section, the term “telemessaging service” means voice mail and voice storage and retrieval services, any live operator services used to record, transcribe, or relay messages (other than telecommunications relay services), and any ancillary services offered in combination with these services.

**SEC. 261. [47 U.S.C. 261] EFFECT ON OTHER REQUIREMENTS.**

(a) COMMISSION REGULATIONS.—Nothing in this part shall be construed to prohibit the Commission from enforcing regulations prescribed prior to the date of enactment of the Telecommunications Act of 1996 in fulfilling the requirements of this part, to the extent that such regulations are not inconsistent with the provisions of this part.

(b) EXISTING STATE REGULATIONS.—Nothing in this part shall be construed to prohibit any State commission from enforcing regulations prescribed prior to the date of enactment of the Telecommunications Act of 1996, or from prescribing regulations after such date of enactment, in fulfilling the requirements of this part, if such regulations are not inconsistent with the provisions of this part.

(c) ADDITIONAL STATE REQUIREMENTS.—Nothing in this part precludes a State from imposing requirements on a telecommunications carrier for intrastate services that are necessary to further competition in the provision of telephone exchange service or exchange access, as long as the State’s requirements are not inconsistent with this part or the Commission’s regulations to implement this part.

### **PART III—SPECIAL PROVISIONS CONCERNING BELL OPERATING COMPANIES**

**SEC. 271. [47 U.S.C. 271] BELL OPERATING COMPANY ENTRY INTO INTERLATA SERVICES.**

(a) GENERAL LIMITATION.—Neither a Bell operating company, nor any affiliate of a Bell operating company, may provide interLATA services except as provided in this section.

(b) INTERLATA SERVICES TO WHICH THIS SECTION APPLIES.—

(1) IN-REGION SERVICES.—A Bell operating company, or any affiliate of that Bell operating company, may provide interLATA services originating in any of its in-region States (as defined in subsection (i)) if the Commission approves the application of such company for such State under subsection (d)(3).

(2) OUT-OF-REGION SERVICES.—A Bell operating company, or any affiliate of that Bell operating company, may provide interLATA services originating outside its in-region States after the date of enactment of the Telecommunications Act of 1996, subject to subsection (j).

(3) INCIDENTAL INTERLATA SERVICES.—A Bell operating company, or any affiliate of a Bell operating company, may provide incidental interLATA services (as defined in subsection

(g) originating in any State after the date of enactment of the Telecommunications Act of 1996.

(4) TERMINATION.—Nothing in this section prohibits a Bell operating company or any of its affiliates from providing termination for interLATA services, subject to subsection (j).

(c) REQUIREMENTS FOR PROVIDING CERTAIN IN-REGION INTERLATA SERVICES.—

(1) AGREEMENT OR STATEMENT.—A Bell operating company meets the requirements of this paragraph if it meets the requirements of subparagraph (A) or subparagraph (B) of this paragraph for each State for which the authorization is sought.

(A) PRESENCE OF A FACILITIES-BASED COMPETITOR.—A Bell operating company meets the requirements of this subparagraph if it has entered into one or more binding agreements that have been approved under section 252 specifying the terms and conditions under which the Bell operating company is providing access and interconnection to its network facilities for the network facilities of one or more unaffiliated competing providers of telephone exchange service (as defined in section 3(47)(A), but excluding exchange access) to residential and business subscribers. For the purpose of this subparagraph, such telephone exchange service may be offered by such competing providers either exclusively over their own telephone exchange service facilities or predominantly over their own telephone exchange service facilities in combination with the resale of the telecommunications services of another carrier. For the purpose of this subparagraph, services provided pursuant to subpart K of part 22 of the Commission's regulations (47 C.F.R. 22.901 et seq.) shall not be considered to be telephone exchange services.

(B) FAILURE TO REQUEST ACCESS.—A Bell operating company meets the requirements of this subparagraph if, after 10 months after the date of enactment of the Telecommunications Act of 1996, no such provider has requested the access and interconnection described in subparagraph (A) before the date which is 3 months before the date the company makes its application under subsection (d)(1), and a statement of the terms and conditions that the company generally offers to provide such access and interconnection has been approved or permitted to take effect by the State commission under section 252(f). For purposes of this subparagraph, a Bell operating company shall be considered not to have received any request for access and interconnection if the State commission of such State certifies that the only provider or providers making such a request have (i) failed to negotiate in good faith as required by section 252, or (ii) violated the terms of an agreement approved under section 252 by the provider's failure to comply, within a reasonable period of time, with the implementation schedule contained in such agreement.

(2) SPECIFIC INTERCONNECTION REQUIREMENTS.—

(A) AGREEMENT REQUIRED.—A Bell operating company meets the requirements of this paragraph if, within the State for which the authorization is sought—

(i)(I) such company is providing access and interconnection pursuant to one or more agreements described in paragraph (1)(A), or

(II) such company is generally offering access and interconnection pursuant to a statement described in paragraph (1)(B), and

(ii) such access and interconnection meets the requirements of subparagraph (B) of this paragraph.

(B) COMPETITIVE CHECKLIST.—Access or interconnection provided or generally offered by a Bell operating company to other telecommunications carriers meets the requirements of this subparagraph if such access and interconnection includes each of the following:

(i) Interconnection in accordance with the requirements of sections 251(c)(2) and 252(d)(1).

(ii) Nondiscriminatory access to network elements in accordance with the requirements of sections 251(c)(3) and 252(d)(1).

(iii) Nondiscriminatory access to the poles, ducts, conduits, and rights-of-way owned or controlled by the Bell operating company at just and reasonable rates in accordance with the requirements of section 224.

(iv) Local loop transmission from the central office to the customer's premises, unbundled from local switching or other services.

(v) Local transport from the trunk side of a wireline local exchange carrier switch unbundled from switching or other services.

(vi) Local switching unbundled from transport, local loop transmission, or other services.

(vii) Nondiscriminatory access to—

(I) 911 and E911 services;

(II) directory assistance services to allow the other carrier's customers to obtain telephone numbers; and

(III) operator call completion services.

(viii) White pages directory listings for customers of the other carrier's telephone exchange service.

(ix) Until the date by which telecommunications numbering administration guidelines, plan, or rules are established, nondiscriminatory access to telephone numbers for assignment to the other carrier's telephone exchange service customers. After that date, compliance with such guidelines, plan, or rules.

(x) Nondiscriminatory access to databases and associated signaling necessary for call routing and completion.

(xi) Until the date by which the Commission issues regulations pursuant to section 251 to require number portability, interim telecommunications number portability through remote call forwarding, direct inward dialing trunks, or other comparable arrangements, with as little impairment of functioning, quality, reliability, and convenience as possible. After that date, full compliance with such regulations.

(xii) Nondiscriminatory access to such services or information as are necessary to allow the requesting carrier to implement local dialing parity in accordance with the requirements of section 251(b)(3).

(xiii) Reciprocal compensation arrangements in accordance with the requirements of section 252(d)(2).

(xiv) Telecommunications services are available for resale in accordance with the requirements of sections 251(c)(4) and 252(d)(3).

(d) ADMINISTRATIVE PROVISIONS.—

(1) APPLICATION TO COMMISSION.—On and after the date of enactment of the Telecommunications Act of 1996, a Bell operating company or its affiliate may apply to the Commission for authorization to provide interLATA services originating in any in-region State. The application shall identify each State for which the authorization is sought.

(2) CONSULTATION.—

(A) CONSULTATION WITH THE ATTORNEY GENERAL.—

The Commission shall notify the Attorney General promptly of any application under paragraph (1). Before making any determination under this subsection, the Commission shall consult with the Attorney General, and if the Attorney General submits any comments in writing, such comments shall be included in the record of the Commission's decision. In consulting with and submitting comments to the Commission under this paragraph, the Attorney General shall provide to the Commission an evaluation of the application using any standard the Attorney General considers appropriate. The Commission shall give substantial weight to the Attorney General's evaluation, but such evaluation shall not have any preclusive effect on any Commission decision under paragraph (3).

(B) CONSULTATION WITH STATE COMMISSIONS.—Before making any determination under this subsection, the Commission shall consult with the State commission of any State that is the subject of the application in order to verify the compliance of the Bell operating company with the requirements of subsection (c).

(3) DETERMINATION.—Not later than 90 days after receiving an application under paragraph (1), the Commission shall issue a written determination approving or denying the authorization requested in the application for each State. The Commission shall not approve the authorization requested in an application submitted under paragraph (1) unless it finds that—

(A) the petitioning Bell operating company has met the requirements of subsection (c)(1) and—

(i) with respect to access and interconnection provided pursuant to subsection (c)(1)(A), has fully implemented the competitive checklist in subsection (c)(2)(B); or

(ii) with respect to access and interconnection generally offered pursuant to a statement under subsection (c)(1)(B), such statement offers all of the items

included in the competitive checklist in subsection (c)(2)(B);

(B) the requested authorization will be carried out in accordance with the requirements of section 272; and

(C) the requested authorization is consistent with the public interest, convenience, and necessity.

The Commission shall state the basis for its approval or denial of the application.

(4) LIMITATION ON COMMISSION.—The Commission may not, by rule or otherwise, limit or extend the terms used in the competitive checklist set forth in subsection (c)(2)(B).

(5) PUBLICATION.—Not later than 10 days after issuing a determination under paragraph (3), the Commission shall publish in the Federal Register a brief description of the determination.

(6) ENFORCEMENT OF CONDITIONS.—

(A) COMMISSION AUTHORITY.—If at any time after the approval of an application under paragraph (3), the Commission determines that a Bell operating company has ceased to meet any of the conditions required for such approval, the Commission may, after notice and opportunity for a hearing—

(i) issue an order to such company to correct the deficiency;

(ii) impose a penalty on such company pursuant to title V; or

(iii) suspend or revoke such approval.

(B) RECEIPT AND REVIEW OF COMPLAINTS.—The Commission shall establish procedures for the review of complaints concerning failures by Bell operating companies to meet conditions required for approval under paragraph (3). Unless the parties otherwise agree, the Commission shall act on such complaint within 90 days.

(e) LIMITATIONS.—

(1) JOINT MARKETING OF LOCAL AND LONG DISTANCE SERVICES.—Until a Bell operating company is authorized pursuant to subsection (d) to provide interLATA services in an in-region State, or until 36 months have passed since the date of enactment of the Telecommunications Act of 1996, whichever is earlier, a telecommunications carrier that serves greater than 5 percent of the Nation's presubscribed access lines may not jointly market in such State telephone exchange service obtained from such company pursuant to section 251(c)(4) with interLATA services offered by that telecommunications carrier.

(2) INTRALATA TOLL DIALING PARITY.—

(A) PROVISION REQUIRED.—A Bell operating company granted authority to provide interLATA services under subsection (d) shall provide intraLATA toll dialing parity throughout that State coincident with its exercise of that authority.

(B) LIMITATION.—Except for single-LATA States and States that have issued an order by December 19, 1995, requiring a Bell operating company to implement intraLATA toll dialing parity, a State may not require a Bell operating company to implement intraLATA toll dialing parity

in that State before a Bell operating company has been granted authority under this section to provide interLATA services originating in that State or before 3 years after the date of enactment of the Telecommunications Act of 1996, whichever is earlier. Nothing in this subparagraph precludes a State from issuing an order requiring intraLATA toll dialing parity in that State prior to either such date so long as such order does not take effect until after the earlier of either such dates.

(f) EXCEPTION FOR PREVIOUSLY AUTHORIZED ACTIVITIES.—Neither subsection (a) nor section 273 shall prohibit a Bell operating company or affiliate from engaging, at any time after the date of enactment of the Telecommunications Act of 1996, in any activity to the extent authorized by, and subject to the terms and conditions contained in, an order entered by the United States District Court for the District of Columbia pursuant to section VII or VIII(C) of the AT&T Consent Decree if such order was entered on or before such date of enactment, to the extent such order is not reversed or vacated on appeal. Nothing in this subsection shall be construed to limit, or to impose terms or conditions on, an activity in which a Bell operating company is otherwise authorized to engage under any other provision of this section.

(g) DEFINITION OF INCIDENTAL INTERLATA SERVICES.—For purposes of this section, the term “incidental interLATA services” means the interLATA provision by a Bell operating company or its affiliate—

(1)(A) of audio programming, video programming, or other programming services to subscribers to such services of such company or affiliate;

(B) of the capability for interaction by such subscribers to select or respond to such audio programming, video programming, or other programming services;

(C) to distributors of audio programming or video programming that such company or affiliate owns or controls, or is licensed by the copyright owner of such programming (or by an assignee of such owner) to distribute; or

(D) of alarm monitoring services;

(2) of two-way interactive video services or Internet services over dedicated facilities to or for elementary and secondary schools as defined in section 254(h)(5);

(3) of commercial mobile services in accordance with section 332(c) of this Act and with the regulations prescribed by the Commission pursuant to paragraph (8) of such section;

(4) of a service that permits a customer that is located in one LATA to retrieve stored information from, or file information for storage in, information storage facilities of such company that are located in another LATA;

(5) of signaling information used in connection with the provision of telephone exchange services or exchange access by a local exchange carrier; or

(6) of network control signaling information to, and receipt of such signaling information from, common carriers offering interLATA services at any location within the area in which such Bell operating company provides telephone exchange services or exchange access.

(h) LIMITATIONS.—The provisions of subsection (g) are intended to be narrowly construed. The interLATA services provided under subparagraph (A), (B), or (C) of subsection (g)(1) are limited to those interLATA transmissions incidental to the provision by a Bell operating company or its affiliate of video, audio, and other programming services that the company or its affiliate is engaged in providing to the public. The Commission shall ensure that the provision of services authorized under subsection (g) by a Bell operating company or its affiliate will not adversely affect telephone exchange service ratepayers or competition in any telecommunications market.

(i) ADDITIONAL DEFINITIONS.—As used in this section—

(1) IN-REGION STATE.—The term “in-region State” means a State in which a Bell operating company or any of its affiliates was authorized to provide wireline telephone exchange service pursuant to the reorganization plan approved under the AT&T Consent Decree, as in effect on the day before the date of enactment of the Telecommunications Act of 1996.

(2) AUDIO PROGRAMMING SERVICES.—The term “audio programming services” means programming provided by, or generally considered to be comparable to programming provided by, a radio broadcast station.

(3) VIDEO PROGRAMMING SERVICES; OTHER PROGRAMMING SERVICES.—The terms “video programming service” and “other programming services” have the same meanings as such terms have under section 602 of this Act.

(j) CERTAIN SERVICE APPLICATIONS TREATED AS IN-REGION SERVICE APPLICATIONS.—For purposes of this section, a Bell operating company application to provide 800 service, private line service, or their equivalents that—

(1) terminate in an in-region State of that Bell operating company, and

(2) allow the called party to determine the interLATA carrier,

shall be considered an in-region service subject to the requirements of subsection (b)(1).

**SEC. 272. [47 U.S.C. 272] SEPARATE AFFILIATE; SAFEGUARDS.**

(a) SEPARATE AFFILIATE REQUIRED FOR COMPETITIVE ACTIVITIES.—

(1) IN GENERAL.—A Bell operating company (including any affiliate) which is a local exchange carrier that is subject to the requirements of section 251(c) may not provide any service described in paragraph (2) unless it provides that service through one or more affiliates that—

(A) are separate from any operating company entity that is subject to the requirements of section 251(c); and

(B) meet the requirements of subsection (b).

(2) SERVICES FOR WHICH A SEPARATE AFFILIATE IS REQUIRED.—The services for which a separate affiliate is required by paragraph (1) are:

(A) Manufacturing activities (as defined in section 273(h)).

(B) Origination of interLATA telecommunications services, other than—

- (i) incidental interLATA services described in paragraphs (1), (2), (3), (5), and (6) of section 271(g);
- (ii) out-of-region services described in section 271(b)(2); or
- (iii) previously authorized activities described in section 271(f).

(C) InterLATA information services, other than electronic publishing (as defined in section 274(h)) and alarm monitoring services (as defined in section 275(e)).

(b) STRUCTURAL AND TRANSACTIONAL REQUIREMENTS.—The separate affiliate required by this section—

(1) shall operate independently from the Bell operating company;

(2) shall maintain books, records, and accounts in the manner prescribed by the Commission which shall be separate from the books, records, and accounts maintained by the Bell operating company of which it is an affiliate;

(3) shall have separate officers, directors, and employees from the Bell operating company of which it is an affiliate;

(4) may not obtain credit under any arrangement that would permit a creditor, upon default, to have recourse to the assets of the Bell operating company; and

(5) shall conduct all transactions with the Bell operating company of which it is an affiliate on an arm's length basis with any such transactions reduced to writing and available for public inspection.

(c) NONDISCRIMINATION SAFEGUARDS.—In its dealings with its affiliate described in subsection (a), a Bell operating company—

(1) may not discriminate between that company or affiliate and any other entity in the provision or procurement of goods, services, facilities, and information, or in the establishment of standards; and

(2) shall account for all transactions with an affiliate described in subsection (a) in accordance with accounting principles designated or approved by the Commission.

(d) BIENNIAL AUDIT.—

(1) GENERAL REQUIREMENT.—A company required to operate a separate affiliate under this section shall obtain and pay for a joint Federal/State audit every 2 years conducted by an independent auditor to determine whether such company has complied with this section and the regulations promulgated under this section, and particularly whether such company has complied with the separate accounting requirements under subsection (b).

(2) RESULTS SUBMITTED TO COMMISSION; STATE COMMISSIONS.—The auditor described in paragraph (1) shall submit the results of the audit to the Commission and to the State commission of each State in which the company audited provides service, which shall make such results available for public inspection. Any party may submit comments on the final audit report.

(3) ACCESS TO DOCUMENTS.—For purposes of conducting audits and reviews under this subsection—

(A) the independent auditor, the Commission, and the State commission shall have access to the financial ac-

counts and records of each company and of its affiliates necessary to verify transactions conducted with that company that are relevant to the specific activities permitted under this section and that are necessary for the regulation of rates;

(B) the Commission and the State commission shall have access to the working papers and supporting materials of any auditor who performs an audit under this section; and

(C) the State commission shall implement appropriate procedures to ensure the protection of any proprietary information submitted to it under this section.

(e) FULFILLMENT OF CERTAIN REQUESTS.—A Bell operating company and an affiliate that is subject to the requirements of section 251(c)—

(1) shall fulfill any requests from an unaffiliated entity for telephone exchange service and exchange access within a period no longer than the period in which it provides such telephone exchange service and exchange access to itself or to its affiliates;

(2) shall not provide any facilities, services, or information concerning its provision of exchange access to the affiliate described in subsection (a) unless such facilities, services, or information are made available to other providers of interLATA services in that market on the same terms and conditions;

(3) shall charge the affiliate described in subsection (a), or impute to itself (if using the access for its provision of its own services), an amount for access to its telephone exchange service and exchange access that is no less than the amount charged to any unaffiliated interexchange carriers for such service; and

(4) may provide any interLATA or intraLATA facilities or services to its interLATA affiliate if such services or facilities are made available to all carriers at the same rates and on the same terms and conditions, and so long as the costs are appropriately allocated.

(f) SUNSET.—

(1) MANUFACTURING AND LONG DISTANCE.—The provisions of this section (other than subsection (e)) shall cease to apply with respect to the manufacturing activities or the interLATA telecommunications services of a Bell operating company 3 years after the date such Bell operating company or any Bell operating company affiliate is authorized to provide interLATA telecommunications services under section 271(d), unless the Commission extends such 3-year period by rule or order.

(2) INTERLATA INFORMATION SERVICES.—The provisions of this section (other than subsection (e)) shall cease to apply with respect to the interLATA information services of a Bell operating company 4 years after the date of enactment of the Telecommunications Act of 1996, unless the Commission extends such 4-year period by rule or order.

(3) PRESERVATION OF EXISTING AUTHORITY.—Nothing in this subsection shall be construed to limit the authority of the Commission under any other section of this Act to prescribe

safeguards consistent with the public interest, convenience, and necessity.

(g) JOINT MARKETING.—

(1) AFFILIATE SALES OF TELEPHONE EXCHANGE SERVICES.—A Bell operating company affiliate required by this section may not market or sell telephone exchange services provided by the Bell operating company unless that company permits other entities offering the same or similar service to market and sell its telephone exchange services.

(2) BELL OPERATING COMPANY SALES OF AFFILIATE SERVICES.—A Bell operating company may not market or sell interLATA service provided by an affiliate required by this section within any of its in-region States until such company is authorized to provide interLATA services in such State under section 271(d).

(3) RULE OF CONSTRUCTION.—The joint marketing and sale of services permitted under this subsection shall not be considered to violate the nondiscrimination provisions of subsection (c).

(h) TRANSITION.—With respect to any activity in which a Bell operating company is engaged on the date of enactment of the Telecommunications Act of 1996, such company shall have one year from such date of enactment to comply with the requirements of this section.

**SEC. 273. [47 U.S.C. 273] MANUFACTURING BY BELL OPERATING COMPANIES.**

(a) AUTHORIZATION.—A Bell operating company may manufacture and provide telecommunications equipment, and manufacture customer premises equipment, if the Commission authorizes that Bell operating company or any Bell operating company affiliate to provide interLATA services under section 271(d), subject to the requirements of this section and the regulations prescribed thereunder, except that neither a Bell operating company nor any of its affiliates may engage in such manufacturing in conjunction with a Bell operating company not so affiliated or any of its affiliates.

(b) COLLABORATION; RESEARCH AND ROYALTY AGREEMENTS.—

(1) COLLABORATION.—Subsection (a) shall not prohibit a Bell operating company from engaging in close collaboration with any manufacturer of customer premises equipment or telecommunications equipment during the design and development of hardware, software, or combinations thereof related to such equipment.

(2) CERTAIN RESEARCH ARRANGEMENTS; ROYALTY AGREEMENTS.—Subsection (a) shall not prohibit a Bell operating company from—

(A) engaging in research activities related to manufacturing, and

(B) entering into royalty agreements with manufacturers of telecommunications equipment.

(c) INFORMATION REQUIREMENTS.—

(1) INFORMATION ON PROTOCOLS AND TECHNICAL REQUIREMENTS.—Each Bell operating company shall, in accordance with regulations prescribed by the Commission, maintain and file with the Commission full and complete information with respect to the protocols and technical requirements for connec-

tion with and use of its telephone exchange service facilities. Each such company shall report promptly to the Commission any material changes or planned changes to such protocols and requirements, and the schedule for implementation of such changes or planned changes.

(2) DISCLOSURE OF INFORMATION.—A Bell operating company shall not disclose any information required to be filed under paragraph (1) unless that information has been filed promptly, as required by regulation by the Commission.

(3) ACCESS BY COMPETITORS TO INFORMATION.—The Commission may prescribe such additional regulations under this subsection as may be necessary to ensure that manufacturers have access to the information with respect to the protocols and technical requirements for connection with and use of telephone exchange service facilities that a Bell operating company makes available to any manufacturing affiliate or any unaffiliated manufacturer.

(4) PLANNING INFORMATION.—Each Bell operating company shall provide, to interconnecting carriers providing telephone exchange service, timely information on the planned deployment of telecommunications equipment.

(d) MANUFACTURING LIMITATIONS FOR STANDARD-SETTING ORGANIZATIONS.—

(1) APPLICATION TO BELL COMMUNICATIONS RESEARCH OR MANUFACTURERS.—Bell Communications Research, Inc., or any successor entity or affiliate—

(A) shall not be considered a Bell operating company or a successor or assign of a Bell operating company at such time as it is no longer an affiliate of any Bell operating company; and

(B) notwithstanding paragraph (3), shall not engage in manufacturing telecommunications equipment or customer premises equipment as long as it is an affiliate of more than 1 otherwise unaffiliated Bell operating company or successor or assign of any such company.

Nothing in this subsection prohibits Bell Communications Research, Inc., or any successor entity, from engaging in any activity in which it is lawfully engaged on the date of enactment of the Telecommunications Act of 1996. Nothing provided in this subsection shall render Bell Communications Research, Inc., or any successor entity, a common carrier under title II of this Act. Nothing in this subsection restricts any manufacturer from engaging in any activity in which it is lawfully engaged on the date of enactment of the Telecommunications Act of 1996.

(2) PROPRIETARY INFORMATION.—Any entity which establishes standards for telecommunications equipment or customer premises equipment, or generic network requirements for such equipment, or certifies telecommunications equipment or customer premises equipment, shall be prohibited from releasing or otherwise using any proprietary information, designated as such by its owner, in its possession as a result of such activity, for any purpose other than purposes authorized in writing by the owner of such information, even after such entity ceases to be so engaged.

(3) MANUFACTURING SAFEGUARDS.—(A) Except as prohibited in paragraph (1), and subject to paragraph (6), any entity which certifies telecommunications equipment or customer premises equipment manufactured by an unaffiliated entity shall only manufacture a particular class of telecommunications equipment or customer premises equipment for which it is undertaking or has undertaken, during the previous 18 months, certification activity for such class of equipment through a separate affiliate.

(B) Such separate affiliate shall—

(i) maintain books, records, and accounts separate from those of the entity that certifies such equipment, consistent with generally acceptable accounting principles;

(ii) not engage in any joint manufacturing activities with such entity; and

(iii) have segregated facilities and separate employees with such entity.

(C) Such entity that certifies such equipment shall—

(i) not discriminate in favor of its manufacturing affiliate in the establishment of standards, generic requirements, or product certification;

(ii) not disclose to the manufacturing affiliate any proprietary information that has been received at any time from an unaffiliated manufacturer, unless authorized in writing by the owner of the information; and

(iii) not permit any employee engaged in product certification for telecommunications equipment or customer premises equipment to engage jointly in sales or marketing of any such equipment with the affiliated manufacturer.

(4) STANDARD-SETTING ENTITIES.—Any entity that is not an accredited standards development organization and that establishes industry-wide standards for telecommunications equipment or customer premises equipment, or industry-wide generic network requirements for such equipment, or that certifies telecommunications equipment or customer premises equipment manufactured by an unaffiliated entity, shall—

(A) establish and publish any industry-wide standard for, industry-wide generic requirement for, or any substantial modification of an existing industry-wide standard or industry-wide generic requirement for, telecommunications equipment or customer premises equipment only in compliance with the following procedure—

(i) such entity shall issue a public notice of its consideration of a proposed industry-wide standard or industry-wide generic requirement;

(ii) such entity shall issue a public invitation to interested industry parties to fund and participate in such efforts on a reasonable and nondiscriminatory basis, administered in such a manner as not to unreasonably exclude any interested industry party;

(iii) such entity shall publish a text for comment by such parties as have agreed to participate in the process pursuant to clause (ii), provide such parties a

full opportunity to submit comments, and respond to comments from such parties;

(iv) such entity shall publish a final text of the industry-wide standard or industry-wide generic requirement, including the comments in their entirety, of any funding party which requests to have its comments so published; and

(v) such entity shall attempt, prior to publishing a text for comment, to agree with the funding parties as a group on a mutually satisfactory dispute resolution process which such parties shall utilize as their sole recourse in the event of a dispute on technical issues as to which there is disagreement between any funding party and the entity conducting such activities, except that if no dispute resolution process is agreed to by all the parties, a funding party may utilize the dispute resolution procedures established pursuant to paragraph (5) of this subsection;

(B) engage in product certification for telecommunications equipment or customer premises equipment manufactured by unaffiliated entities only if—

(i) such activity is performed pursuant to published criteria;

(ii) such activity is performed pursuant to auditable criteria; and

(iii) such activity is performed pursuant to available industry-accepted testing methods and standards, where applicable, unless otherwise agreed upon by the parties funding and performing such activity;

(C) not undertake any actions to monopolize or attempt to monopolize the market for such services; and

(D) not preferentially treat its own telecommunications equipment or customer premises equipment, or that of its affiliate, over that of any other entity in establishing and publishing industry-wide standards or industry-wide generic requirements for, and in certification of, telecommunications equipment and customer premises equipment.

(5) ALTERNATE DISPUTE RESOLUTION.—Within 90 days after the date of enactment of the Telecommunications Act of 1996, the Commission shall prescribe a dispute resolution process to be utilized in the event that a dispute resolution process is not agreed upon by all the parties when establishing and publishing any industry-wide standard or industry-wide generic requirement for telecommunications equipment or customer premises equipment, pursuant to paragraph (4)(A)(v). The Commission shall not establish itself as a party to the dispute resolution process. Such dispute resolution process shall permit any funding party to resolve a dispute with the entity conducting the activity that significantly affects such funding party's interests, in an open, nondiscriminatory, and unbiased fashion, within 30 days after the filing of such dispute. Such disputes may be filed within 15 days after the date the funding party receives a response to its comments from the entity conducting the activity. The Commission shall establish penalties

to be assessed for delays caused by referral of frivolous disputes to the dispute resolution process.

(6) SUNSET.—The requirements of paragraphs (3) and (4) shall terminate for the particular relevant activity when the Commission determines that there are alternative sources of industry-wide standards, industry-wide generic requirements, or product certification for a particular class of telecommunications equipment or customer premises equipment available in the United States. Alternative sources shall be deemed to exist when such sources provide commercially viable alternatives that are providing such services to customers. The Commission shall act on any application for such a determination within 90 days after receipt of such application, and shall receive public comment on such application.

(7) ADMINISTRATION AND ENFORCEMENT AUTHORITY.—For the purposes of administering this subsection and the regulations prescribed thereunder, the Commission shall have the same remedial authority as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier subject to this Act.

(8) DEFINITIONS.—For purposes of this subsection:

(A) The term “affiliate” shall have the same meaning as in section 3 of this Act, except that, for purposes of paragraph (1)(B)—

(i) an aggregate voting equity interest in Bell Communications Research, Inc., of at least 5 percent of its total voting equity, owned directly or indirectly by more than 1 otherwise unaffiliated Bell operating company, shall constitute an affiliate relationship; and

(ii) a voting equity interest in Bell Communications Research, Inc., by any otherwise unaffiliated Bell operating company of less than 1 percent of Bell Communications Research’s total voting equity shall not be considered to be an equity interest under this paragraph.

(B) The term “generic requirement” means a description of acceptable product attributes for use by local exchange carriers in establishing product specifications for the purchase of telecommunications equipment, customer premises equipment, and software integral thereto.

(C) The term “industry-wide” means activities funded by or performed on behalf of local exchange carriers for use in providing wireline telephone exchange service whose combined total of deployed access lines in the United States constitutes at least 30 percent of all access lines deployed by telecommunications carriers in the United States as of the date of enactment of the Telecommunications Act of 1996.

(D) The term “certification” means any technical process whereby a party determines whether a product, for use by more than one local exchange carrier, conforms with the specified requirements pertaining to such product.

(E) The term “accredited standards development organization” means an entity composed of industry members which has been accredited by an institution vested with

the responsibility for standards accreditation by the industry.

(e) BELL OPERATING COMPANY EQUIPMENT PROCUREMENT AND SALES.—

(1) NONDISCRIMINATION STANDARDS FOR MANUFACTURING.—In the procurement or awarding of supply contracts for telecommunications equipment, a Bell operating company, or any entity acting on its behalf, for the duration of the requirement for a separate subsidiary including manufacturing under this Act—

(A) shall consider such equipment, produced or supplied by unrelated persons; and

(B) may not discriminate in favor of equipment produced or supplied by an affiliate or related person.

(2) PROCUREMENT STANDARDS.—Each Bell operating company or any entity acting on its behalf shall make procurement decisions and award all supply contracts for equipment, services, and software on the basis of an objective assessment of price, quality, delivery, and other commercial factors.

(3) NETWORK PLANNING AND DESIGN.—A Bell operating company shall, to the extent consistent with the antitrust laws, engage in joint network planning and design with local exchange carriers operating in the same area of interest. No participant in such planning shall be allowed to delay the introduction of new technology or the deployment of facilities to provide telecommunications services, and agreement with such other carriers shall not be required as a prerequisite for such introduction or deployment.

(4) SALES RESTRICTIONS.—Neither a Bell operating company engaged in manufacturing nor a manufacturing affiliate of such a company shall restrict sales to any local exchange carrier of telecommunications equipment, including software integral to the operation of such equipment and related upgrades.

(5) PROTECTION OF PROPRIETARY INFORMATION.—A Bell operating company and any entity it owns or otherwise controls shall protect the proprietary information submitted for procurement decisions from release not specifically authorized by the owner of such information.

(f) ADMINISTRATION AND ENFORCEMENT AUTHORITY.—For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Commission shall have the same authority, power, and functions with respect to any Bell operating company or any affiliate thereof as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier subject to this Act.

(g) ADDITIONAL RULES AND REGULATIONS.—The Commission may prescribe such additional rules and regulations as the Commission determines are necessary to carry out the provisions of this section, and otherwise to prevent discrimination and cross-subsidization in a Bell operating company's dealings with its affiliate and with third parties.

(h) DEFINITION.—As used in this section, the term "manufacturing" has the same meaning as such term has under the AT&T Consent Decree.

**SEC. 274. [47 U.S.C. 274] ELECTRONIC PUBLISHING BY BELL OPERATING COMPANIES.**

(a) **LIMITATIONS.**—No Bell operating company or any affiliate may engage in the provision of electronic publishing that is disseminated by means of such Bell operating company's or any of its affiliates' basic telephone service, except that nothing in this section shall prohibit a separated affiliate or electronic publishing joint venture operated in accordance with this section from engaging in the provision of electronic publishing.

(b) **SEPARATED AFFILIATE OR ELECTRONIC PUBLISHING JOINT VENTURE REQUIREMENTS.**—A separated affiliate or electronic publishing joint venture shall be operated independently from the Bell operating company. Such separated affiliate or joint venture and the Bell operating company with which it is affiliated shall—

(1) maintain separate books, records, and accounts and prepare separate financial statements;

(2) not incur debt in a manner that would permit a creditor of the separated affiliate or joint venture upon default to have recourse to the assets of the Bell operating company;

(3) carry out transactions (A) in a manner consistent with such independence, (B) pursuant to written contracts or tariffs that are filed with the Commission and made publicly available, and (C) in a manner that is auditable in accordance with generally accepted auditing standards;

(4) value any assets that are transferred directly or indirectly from the Bell operating company to a separated affiliate or joint venture, and record any transactions by which such assets are transferred, in accordance with such regulations as may be prescribed by the Commission or a State commission to prevent improper cross subsidies;

(5) between a separated affiliate and a Bell operating company—

(A) have no officers, directors, and employees in common after the effective date of this section; and

(B) own no property in common;

(6) not use for the marketing of any product or service of the separated affiliate or joint venture, the name, trademarks, or service marks of an existing Bell operating company except for names, trademarks, or service marks that are owned by the entity that owns or controls the Bell operating company;

(7) not permit the Bell operating company—

(A) to perform hiring or training of personnel on behalf of a separated affiliate;

(B) to perform the purchasing, installation, or maintenance of equipment on behalf of a separated affiliate, except for telephone service that it provides under tariff or contract subject to the provisions of this section; or

(C) to perform research and development on behalf of a separated affiliate;

(8) each have performed annually a compliance review—

(A) that is conducted by an independent entity for the purpose of determining compliance during the preceding calendar year with any provision of this section; and

(B) the results of which are maintained by the separated affiliate or joint venture and the Bell operating com-

pany for a period of 5 years subject to review by any lawful authority; and

(9) within 90 days of receiving a review described in paragraph (8), file a report of any exceptions and corrective action with the Commission and allow any person to inspect and copy such report subject to reasonable safeguards to protect any proprietary information contained in such report from being used for purposes other than to enforce or pursue remedies under this section.

(c) JOINT MARKETING.—

(1) IN GENERAL.—Except as provided in paragraph (2)—

(A) a Bell operating company shall not carry out any promotion, marketing, sales, or advertising for or in conjunction with a separated affiliate; and

(B) a Bell operating company shall not carry out any promotion, marketing, sales, or advertising for or in conjunction with an affiliate that is related to the provision of electronic publishing.

(2) PERMISSIBLE JOINT ACTIVITIES.—

(A) JOINT TELEMARKETING.—A Bell operating company may provide inbound telemarketing or referral services related to the provision of electronic publishing for a separated affiliate, electronic publishing joint venture, affiliate, or unaffiliated electronic publisher: *Provided*, That if such services are provided to a separated affiliate, electronic publishing joint venture, or affiliate, such services shall be made available to all electronic publishers on request, on nondiscriminatory terms.

(B) TEAMING ARRANGEMENTS.—A Bell operating company may engage in nondiscriminatory teaming or business arrangements to engage in electronic publishing with any separated affiliate or with any other electronic publisher if (i) the Bell operating company only provides facilities, services, and basic telephone service information as authorized by this section, and (ii) the Bell operating company does not own such teaming or business arrangement.

(C) ELECTRONIC PUBLISHING JOINT VENTURES.—A Bell operating company or affiliate may participate on a non-exclusive basis in electronic publishing joint ventures with entities that are not a Bell operating company, affiliate, or separated affiliate to provide electronic publishing services, if the Bell operating company or affiliate has not more than a 50 percent direct or indirect equity interest (or the equivalent thereof) or the right to more than 50 percent of the gross revenues under a revenue sharing or royalty agreement in any electronic publishing joint venture. Officers and employees of a Bell operating company or affiliate participating in an electronic publishing joint venture may not have more than 50 percent of the voting control over the electronic publishing joint venture. In the case of joint ventures with small, local electronic publishers, the Commission for good cause shown may authorize the Bell operating company or affiliate to have a larger equity interest, revenue share, or voting control but not to exceed 80 percent. A Bell operating company participating in an elec-

tronic publishing joint venture may provide promotion, marketing, sales, or advertising personnel and services to such joint venture.

(d) BELL OPERATING COMPANY REQUIREMENT.—A Bell operating company under common ownership or control with a separated affiliate or electronic publishing joint venture shall provide network access and interconnections for basic telephone service to electronic publishers at just and reasonable rates that are tariffed (so long as rates for such services are subject to regulation) and that are not higher on a per-unit basis than those charged for such services to any other electronic publisher or any separated affiliate engaged in electronic publishing.

(e) PRIVATE RIGHT OF ACTION.—

(1) DAMAGES.—Any person claiming that any act or practice of any Bell operating company, affiliate, or separated affiliate constitutes a violation of this section may file a complaint with the Commission or bring suit as provided in section 207 of this Act, and such Bell operating company, affiliate, or separated affiliate shall be liable as provided in section 206 of this Act; except that damages may not be awarded for a violation that is discovered by a compliance review as required by subsection (b)(7) of this section and corrected within 90 days.

(2) CEASE AND DESIST ORDERS.—In addition to the provisions of paragraph (1), any person claiming that any act or practice of any Bell operating company, affiliate, or separated affiliate constitutes a violation of this section may make application to the Commission for an order to cease and desist such violation or may make application in any district court of the United States of competent jurisdiction for an order enjoining such acts or practices or for an order compelling compliance with such requirement.

(f) SEPARATED AFFILIATE REPORTING REQUIREMENT.—Any separated affiliate under this section shall file with the Commission annual reports in a form substantially equivalent to the Form 10-K required by regulations of the Securities and Exchange Commission.

(g) EFFECTIVE DATES.—

(1) TRANSITION.—Any electronic publishing service being offered to the public by a Bell operating company or affiliate on the date of enactment of the Telecommunications Act of 1996 shall have one year from such date of enactment to comply with the requirements of this section.

(2) SUNSET.—The provisions of this section shall not apply to conduct occurring after 4 years after the date of enactment of the Telecommunications Act of 1996.

(h) DEFINITION OF ELECTRONIC PUBLISHING.—

(1) IN GENERAL.—The term “electronic publishing” means the dissemination, provision, publication, or sale to an unaffiliated entity or person, of any one or more of the following: news (including sports); entertainment (other than interactive games); business, financial, legal, consumer, or credit materials; editorials, columns, or features; advertising; photos or images; archival or research material; legal notices or public records; scientific, educational, instructional, technical, profes-

sional, trade, or other literary materials; or other like or similar information.

(2) EXCEPTIONS.—The term “electronic publishing” shall not include the following services:

(A) Information access, as that term is defined by the AT&T Consent Decree.

(B) The transmission of information as a common carrier.

(C) The transmission of information as part of a gateway to an information service that does not involve the generation or alteration of the content of information, including data transmission, address translation, protocol conversion, billing management, introductory information content, and navigational systems that enable users to access electronic publishing services, which do not affect the presentation of such electronic publishing services to users.

(D) Voice storage and retrieval services, including voice messaging and electronic mail services.

(E) Data processing or transaction processing services that do not involve the generation or alteration of the content of information.

(F) Electronic billing or advertising of a Bell operating company’s regulated telecommunications services.

(G) Language translation or data format conversion.

(H) The provision of information necessary for the management, control, or operation of a telephone company telecommunications system.

(I) The provision of directory assistance that provides names, addresses, and telephone numbers and does not include advertising.

(J) Caller identification services.

(K) Repair and provisioning databases and credit card and billing validation for telephone company operations.

(L) 911-E and other emergency assistance databases.

(M) Any other network service of a type that is like or similar to these network services and that does not involve the generation or alteration of the content of information.

(N) Any upgrades to these network services that do not involve the generation or alteration of the content of information.

(O) Video programming or full motion video entertainment on demand.

(i) ADDITIONAL DEFINITIONS.—As used in this section—

(1) The term “affiliate” means any entity that, directly or indirectly, owns or controls, is owned or controlled by, or is under common ownership or control with, a Bell operating company. Such term shall not include a separated affiliate.

(2) The term “basic telephone service” means any wireline telephone exchange service, or wireline telephone exchange service facility, provided by a Bell operating company in a telephone exchange area, except that such term does not include—

(A) a competitive wireline telephone exchange service provided in a telephone exchange area where another enti-

ty provides a wireline telephone exchange service that was provided on January 1, 1984, or

(B) a commercial mobile service.

(3) The term “basic telephone service information” means network and customer information of a Bell operating company and other information acquired by a Bell operating company as a result of its engaging in the provision of basic telephone service.

(4) The term “control” has the meaning that it has in 17 C.F.R. 240.12b-2, the regulations promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) or any successor provision to such section.

(5) The term “electronic publishing joint venture” means a joint venture owned by a Bell operating company or affiliate that engages in the provision of electronic publishing which is disseminated by means of such Bell operating company’s or any of its affiliates’ basic telephone service.

(6) The term “entity” means any organization, and includes corporations, partnerships, sole proprietorships, associations, and joint ventures.

(7) The term “inbound telemarketing” means the marketing of property, goods, or services by telephone to a customer or potential customer who initiated the call.

(8) The term “own” with respect to an entity means to have a direct or indirect equity interest (or the equivalent thereof) of more than 10 percent of an entity, or the right to more than 10 percent of the gross revenues of an entity under a revenue sharing or royalty agreement.

(9) The term “separated affiliate” means a corporation under common ownership or control with a Bell operating company that does not own or control a Bell operating company and is not owned or controlled by a Bell operating company and that engages in the provision of electronic publishing which is disseminated by means of such Bell operating company’s or any of its affiliates’ basic telephone service.

(10) The term “Bell operating company” has the meaning provided in section 3, except that such term includes any entity or corporation that is owned or controlled by such a company (as so defined) but does not include an electronic publishing joint venture owned by such an entity or corporation.

**SEC. 275. [47 U.S.C. 275] ALARM MONITORING SERVICES.**

(a) **DELAYED ENTRY INTO ALARM MONITORING.**—

(1) **PROHIBITION.**—No Bell operating company or affiliate thereof shall engage in the provision of alarm monitoring services before the date which is 5 years after the date of enactment of the Telecommunications Act of 1996.

(2) **EXISTING ACTIVITIES.**—Paragraph (1) does not prohibit or limit the provision, directly or through an affiliate, of alarm monitoring services by a Bell operating company that was engaged in providing alarm monitoring services as of November 30, 1995, directly or through an affiliate. Such Bell operating company or affiliate may not acquire any equity interest in, or obtain financial control of, any unaffiliated alarm monitoring

service entity after November 30, 1995, and until 5 years after the date of enactment of the Telecommunications Act of 1996, except that this sentence shall not prohibit an exchange of customers for the customers of an unaffiliated alarm monitoring service entity.

(b) NONDISCRIMINATION.—An incumbent local exchange carrier (as defined in section 251(h)) engaged in the provision of alarm monitoring services shall—

(1) provide nonaffiliated entities, upon reasonable request, with the network services it provides to its own alarm monitoring operations, on nondiscriminatory terms and conditions; and

(2) not subsidize its alarm monitoring services either directly or indirectly from telephone exchange service operations.

(c) EXPEDITED CONSIDERATION OF COMPLAINTS.—The Commission shall establish procedures for the receipt and review of complaints concerning violations of subsection (b) or the regulations thereunder that result in material financial harm to a provider of alarm monitoring service. Such procedures shall ensure that the Commission will make a final determination with respect to any such complaint within 120 days after receipt of the complaint. If the complaint contains an appropriate showing that the alleged violation occurred, as determined by the Commission in accordance with such regulations, the Commission shall, within 60 days after receipt of the complaint, order the incumbent local exchange carrier (as defined in section 251(h)) and its affiliates to cease engaging in such violation pending such final determination.

(d) USE OF DATA.—A local exchange carrier may not record or use in any fashion the occurrence or contents of calls received by providers of alarm monitoring services for the purposes of marketing such services on behalf of such local exchange carrier, or any other entity. Any regulations necessary to enforce this subsection shall be issued initially within 6 months after the date of enactment of the Telecommunications Act of 1996.

(e) DEFINITION OF ALARM MONITORING SERVICE.—The term “alarm monitoring service” means a service that uses a device located at a residence, place of business, or other fixed premises—

(1) to receive signals from other devices located at or about such premises regarding a possible threat at such premises to life, safety, or property, from burglary, fire, vandalism, bodily injury, or other emergency, and

(2) to transmit a signal regarding such threat by means of transmission facilities of a local exchange carrier or one of its affiliates to a remote monitoring center to alert a person at such center of the need to inform the customer or another person or police, fire, rescue, security, or public safety personnel of such threat,

but does not include a service that uses a medical monitoring device attached to an individual for the automatic surveillance of an ongoing medical condition.

**SEC. 276. [47 U.S.C. 276] PROVISION OF PAYPHONE SERVICE.**

(a) NONDISCRIMINATION SAFEGUARDS.—After the effective date of the rules prescribed pursuant to subsection (b), any Bell operating company that provides payphone service—

(1) shall not subsidize its payphone service directly or indirectly from its telephone exchange service operations or its exchange access operations; and

(2) shall not prefer or discriminate in favor of its payphone service.

(b) REGULATIONS.—

(1) CONTENTS OF REGULATIONS.—In order to promote competition among payphone service providers and promote the widespread deployment of payphone services to the benefit of the general public, within 9 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall take all actions necessary (including any reconsideration) to prescribe regulations that—

(A) establish a per call compensation plan to ensure that all payphone service providers are fairly compensated for each and every completed intrastate and interstate call using their payphone, except that emergency calls and telecommunications relay service calls for hearing disabled individuals shall not be subject to such compensation;

(B) discontinue the intrastate and interstate carrier access charge payphone service elements and payments in effect on such date of enactment, and all intrastate and interstate payphone subsidies from basic exchange and exchange access revenues, in favor of a compensation plan as specified in subparagraph (A);

(C) prescribe a set of nonstructural safeguards for Bell operating company payphone service to implement the provisions of paragraphs (1) and (2) of subsection (a), which safeguards shall, at a minimum, include the nonstructural safeguards equal to those adopted in the Computer Inquiry-III (CC Docket No. 90-623) proceeding;

(D) provide for Bell operating company payphone service providers to have the same right that independent payphone providers have to negotiate with the location provider on the location provider's selecting and contracting with, and, subject to the terms of any agreement with the location provider, to select and contract with, the carriers that carry interLATA calls from their payphones, unless the Commission determines in the rulemaking pursuant to this section that it is not in the public interest; and

(E) provide for all payphone service providers to have the right to negotiate with the location provider on the location provider's selecting and contracting with, and, subject to the terms of any agreement with the location provider, to select and contract with, the carriers that carry intraLATA calls from their payphones.

(2) PUBLIC INTEREST TELEPHONES.—In the rulemaking conducted pursuant to paragraph (1), the Commission shall determine whether public interest payphones, which are provided in the interest of public health, safety, and welfare, in locations where there would otherwise not be a payphone, should be maintained, and if so, ensure that such public interest payphones are supported fairly and equitably.

(3) EXISTING CONTRACTS.—Nothing in this section shall affect any existing contracts between location providers and payphone service providers or interLATA or intraLATA carriers that are in force and effect as of the date of enactment of the Telecommunications Act of 1996.

(c) STATE PREEMPTION.—To the extent that any State requirements are inconsistent with the Commission's regulations, the Commission's regulations on such matters shall preempt such State requirements.

(d) DEFINITION.—As used in this section, the term "payphone service" means the provision of public or semi-public pay telephones, the provision of inmate telephone service in correctional institutions, and any ancillary services.

## TITLE III—PROVISIONS RELATING TO RADIO

### PART I—GENERAL PROVISIONS

#### SEC. 301. [47 U.S.C. 301] LICENSE FOR RADIO COMMUNICATION OR TRANSMISSION OF ENERGY

It is the purpose of this Act, among other things, to maintain the control of the United States over all the channels of radio transmission; and to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time, under licenses granted by Federal authority, and no such license shall be construed to create any right, beyond the terms, conditions, and periods of the license. No person shall use or operate any apparatus for the transmission of energy or communications or signals by radio (a) from one place in any State, Territory, or possession of the United States or in the District of Columbia to another place in the same State, Territory, possession, or District; or (b) from any State, Territory, or possession of the United States, or from the District of Columbia to any other State, Territory, or possession of the United States; or (c) from any place in any State, Territory, or possession of the United States, or in the District of Columbia, to any place in any foreign country or to any vessel; or (d) within any State when the effects of such use extend beyond the borders of said State, or when interference is caused by such use or operation with the transmission of such energy, communications, or signals from within said State to any place beyond its borders, or from any place beyond its borders to any place within said State, or with the transmission or reception of such energy, communications, or signals from and/or to places beyond the borders of said State; or (e) upon any vessel or aircraft of the United States (except as provided in section 303(t)); or (f) upon any other mobile stations within the jurisdiction of the United States, except under and in accordance with this Act and with a license in that behalf granted under the provisions of this Act.

#### SEC. 302. [47 U.S.C. 302a] DEVICES WHICH INTERFERE WITH RADIO RECEPTION.

(a) The Commission may, consistent with the public interest, convenience, and necessity, make reasonable regulations (1) governing the interference potential of devices which in their operation

are capable of emitting radio frequency energy by radiation, conduction, or other means in sufficient degree to cause harmful interference to radio communications; and (2) establishing minimum performance standards for home electronic equipment and systems to reduce their susceptibility to interference from radio frequency energy. Such regulations shall be applicable to the manufacture, import, sale, offer for sale, or shipment of such devices and home electronic equipment and systems, and to the use of such devices.<sup>1</sup>

(b) No person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section.

(c) The provisions of this section shall not be applicable to carriers transporting such devices or home electronic equipment and systems without trading in them, to devices or home electronic equipment and systems manufactured solely for export, to the equipment manufacturer, assembly, or installation of devices or home electronic and systems for its own use by a public utility engaged in providing electric service, or to devices or home electronic equipment and systems for use by the Government of the United States or any agency thereof. Devices and home electronic equipment and systems for use by the Government of the United States or any agency thereof shall be developed, procured, or otherwise acquired, including offshore procurement, under United States Government criteria, standards, or specifications designed to achieve the objectives of reducing interference to radio reception and to home electronic equipment and systems, taking into account the unique needs of national defense and security.

(d)(1) Within 180 days after the date of enactment of this subsection, the Commission shall prescribe and make effective regulations denying equipment authorization (under part 15 of title 47, Code of Federal Regulations, or any other part of that title) for any scanning receiver that is capable of—

(A) receiving transmissions in the frequencies allocated to the domestic cellular radio telecommunications service,

(B) readily being altered by the user to receive transmissions in such frequencies, or

(C) being equipped with decoders that convert digital cellular transmissions to analog voice audio.

(2) Beginning 1 year after the effective date of the regulations adopted pursuant to paragraph (1), no receiver having the capabilities described in subparagraph (A), (B), or (C) of paragraph (1), as such capabilities are defined in such regulations, shall be manufactured in the United States or imported for use in the United States.

(e) The Commission may—

(1) authorize the use of private organizations for testing and certifying the compliance of devices or home electronic

<sup>1</sup>Public Law 97-259, 96 Stat. 1087, 1091-92, Sept. 13, 1982, which amended section 302(a), also stated:

Any minimum performance standard established by the Federal Communications Commission under section 302(a)(2) of the Communications Act of 1934, as added by the amendment made in subsection (a)(1) [of Sec. 108 of the statute], shall not apply to any home electronic equipment or systems manufactured before the date of the enactment of this Act.

equipment and systems with regulations promulgated under this section;

(2) accept as prima facie evidence of such compliance the certification by any such organization; and

(3) establish such qualifications and standards as it deems appropriate for such private organizations, testing, and certification.

(f)(1) Except as provided in paragraph (2), a State or local government may enact a statute or ordinance that prohibits a violation of the following regulations of the Commission under this section:

(A) A regulation that prohibits a use of citizens band radio equipment not authorized by the Commission.

(B) A regulation that prohibits the unauthorized operation of citizens band radio equipment on a frequency between 24 MHz and 35 MHz.

(2) A station that is licensed by the Commission pursuant to section 301 in any radio service for the operation at issue shall not be subject to action by a State or local government under this subsection. A State or local government statute or ordinance enacted for purposes of this subsection shall identify the exemption available under this paragraph.

(3) The Commission shall, to the extent practicable, provide technical guidance to State and local governments regarding the detection and determination of violations of the regulations specified in paragraph (1).

(4)(A) In addition to any other remedy authorized by law, a person affected by the decision of a State or local government agency enforcing a statute or ordinance under paragraph (1) may submit to the Commission an appeal of the decision on the grounds that the State or local government, as the case may be, enacted a statute or ordinance outside the authority provided in this subsection.

(B) A person shall submit an appeal on a decision of a State or local government agency to the Commission under this paragraph, if at all, not later than 30 days after the date on which the decision by the State or local government agency becomes final, but prior to seeking judicial review of such decision.

(C) The Commission shall make a determination on an appeal submitted under subparagraph (B) not later than 180 days after its submittal.

(D) If the Commission determines under subparagraph (C) that a State or local government agency has acted outside its authority in enforcing a statute or ordinance, the Commission shall preempt the decision enforcing the statute or ordinance.

(5) The enforcement of statute or ordinance that prohibits a violation of a regulation by a State or local government under paragraph (1) in a particular case shall not preclude the Commission from enforcing the regulation in that case concurrently.

(6) Nothing in this subsection shall be construed to diminish or otherwise affect the jurisdiction of the Commission under this section over devices capable of interfering with radio communications.

(7) The enforcement of a statute or ordinance by a State or local government under paragraph (1) with regard to citizens band radio equipment on board a 'commercial motor vehicle', as defined

in section 31101 of title 49, United States Code, shall require probable cause to find that the commercial motor vehicle or the individual operating the vehicle is in violation of the regulations described in paragraph (1).

**SEC. 303. [47 U.S.C. 303] GENERAL POWERS OF COMMISSION.**

Except as otherwise provided in this Act, the Commission from time to time, as public convenience, interest, or necessity requires shall—

- (a) Classify radio stations;
  - (b) Prescribe the nature of the service to be rendered by each class of licensed stations and each station within any class;
  - (c) Assign bands of frequencies to the various classes of stations, and assign frequencies for each individual station and determine the power which each station shall use and the time during which it may operate;
  - (d) Determine the location of classes of stations or individual stations;
  - (e) Regulate the kind of apparatus to be used with respect to its external effects and the purity and sharpness of the emissions from each station and from the apparatus therein;
  - (f) Make such regulations not inconsistent with law as it may deem necessary to prevent interference between stations and to carry out the provisions of this Act: *Provided, however,* that changes in the frequencies, authorized power, or in the times of operation of any station, shall not be made without the consent of the station licensee unless the Commission shall determine that such changes will promote public convenience or interest or will serve public necessity, or the provisions of this Act will be more fully complied with;
  - (g) Study new uses for radio, provide for experimental uses of frequencies, and generally encourage the larger and more effective use of radio in the public interest;
  - (h) Have authority to establish areas or zones to be served by any station;
  - (i) Have authority to make special regulations applicable to radio stations engaged in chain broadcasting;
  - (j) Have authority to make general rules and regulations requiring stations to keep such records of programs, transmissions of energy, communications or signals as it may deem desirable;
  - (k) Have authority to exclude from the requirements of any regulations in whole or in part any radio station upon railroad rolling stock, or to modify such regulations in its discretion;
- (l)(1) Have the authority to prescribe the qualifications of station operators, to classify them according to the duties to be performed, to fix the forms of such licenses, and to issue them to persons who are found to be qualified by the Commission and who otherwise are legally eligible for employment in the United States, except that such requirement relating to eligibility for employment in the United States shall not apply in the case of licenses issued by the Commission to (A) persons holding United States pilot certificates; or (B) persons holding foreign aircraft pilot certificates which are valid in the United States, if the foreign government involved has entered into a reciprocal agreement under which such foreign

government does not impose any similar requirement relating to eligibility for employment upon citizens of the United States;

(2) Notwithstanding paragraph (1) of this subsection, an individual to whom a radio station is licensed under the provisions of this Act may be issued an operator's license to operate that station.

(3) In addition to amateur operator licenses which the Commission may issue to aliens pursuant to paragraph (2) of this subsection, and notwithstanding section 301 of this Act and paragraph (1) of this subsection, the Commission may issue authorizations, under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien's government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this Act and of the Administrative Procedure Act shall not be applicable to any request or application for or modification, suspension or cancellation of any such authorization.

(m)(1) Have authority to suspend the license of any operator upon proof sufficient to satisfy the Commission that the licensee—

(A) Has violated, or caused, aided, or abetted the violation of, any provision of any Act, treaty, or convention binding on the United States, which the Commission is authorized to administer, or any regulation made by the Commission under any such Act, treaty, or convention; or

(B) Has failed to carry out a lawful order of the master or person lawfully in charge of the ship or aircraft on which he is employed; or

(C) Has willfully damaged or permitted radio apparatus or installations to be damaged; or

(D) Has transmitted superfluous radio communications or signals or communications containing profane or obscene words, language, or meaning, or has knowingly transmitted—

(1) False or deceptive signals or communications; or

(2) A call signal or letter which has not been assigned by proper authority to the station he is operating; or

(E) Has willfully or maliciously interfered with any other radio communications or signals; or

(F) Has obtained or attempted to obtain, or has assisted another to obtain or attempt to obtain, an operator's license by fraudulent means.

(2) No order of suspension of any operator's license shall take effect until fifteen days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee who may make written application to the Commission at any time within said fifteen days for hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have fifteen days in which to mail the said application. In the event that physical conditions prevent mailing of the application at the expiration of the fifteen-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for

hearing, said order of suspension shall be held in abeyance until the conclusion of the hearing which shall be conducted under such rules as the Commission may prescribe. Upon the conclusion of said hearing the Commission may affirm, modify, or revoke said order of suspension.

(n) Have authority to inspect all radio installations associated with stations required to be licensed by any Act, or which the Commission by rule has authorized to operate without a license under section 307(e)(1), or which are subject to the provisions of any Act, treaty, or convention binding on the United States, to ascertain whether in construction, installation, and operation they conform to the requirements of the rules and regulations of the Commission, the provisions of any Act, the terms of any treaty or convention binding on the United States and the conditions of the license or other instrument of authorization under which they are constructed, installed, or operated.

(o) Have authority to designate call letters of all stations;

(p) Have authority to cause to be published such call letters and such other announcements and data as in the judgment of the Commission may be required for the efficient operation of radio stations subject the jurisdiction of the United States and for the proper enforcement of this Act;

(q) Have authority to require the painting and/or illumination of radio towers if and when in its judgment such towers constitute, or there is a reasonable possibility that they may constitute, a menace to air navigation. The permittee or licensee, and the tower owner in any case in which the owner is not the permittee or licensee, shall maintain the painting and/or illumination of the tower as prescribed by the Commission pursuant to this section. In the event that the tower ceases to be licensed by the Commission for the transmission of radio energy, the owner of the tower shall maintain the prescribed painting and/or illumination of such tower until it is dismantled, and the Commission may require the owner to dismantle and remove the tower when the administrator of the Federal Aviation Agency determines that there is a reasonable possibility that it may constitute a menace to air navigation.

(r) Make such rules and regulations and prescribe such restrictions and conditions, not inconsistent with law, as may be necessary to carry out the provisions of this Act, or any international radio or wire communications treaty or convention, or regulations annexed thereto, including any treaty or convention insofar as it relates to the use of radio, to which the United States is or may hereafter become a party.

(s) Have authority to require that apparatus designed to receive television pictures broadcast simultaneously with sound be capable of adequately receiving all frequencies allocated by the Commission to television broadcasting when such apparatus is shipped in interstate commerce, or is imported from any foreign country into the United States, for sale or resale to the public.

(t) Notwithstanding the provisions of section 301(e), have authority, in any case in which an aircraft registered in the United States is operated (pursuant to a lease, charter, or similar arrangement) by an aircraft operator who is subject to regulation by the government of a foreign nation, to enter into an agreement with such government under which the Commission shall recognize and

accept any radio station licenses and radio operator licenses issued by such government with respect to such aircraft.

(u) Require that apparatus designed to receive television pictures broadcast simultaneously with sound be equipped with built-in decoder circuitry designed to display closed-captioned television transmissions when such apparatus is manufactured in the United States or imported for use in the United States, and its television picture screen is 13 inches or greater in size.

(v) Have exclusive jurisdiction to regulate the provision of direct-to-home satellite services. As used in this subsection, the term "direct-to-home satellite services" means the distribution or broadcasting of programming or services by satellite directly to the subscriber's premises without the use of ground receiving or distribution equipment, except at the subscriber's premises or in the uplink process to the satellite.

(w) Prescribe—

(1) on the basis of recommendations from an advisory committee established by the Commission in accordance with section 551(b)(2) of the Telecommunications Act of 1996, guidelines and recommended procedures for the identification and rating of video programming that contains sexual, violent, or other indecent material about which parents should be informed before it is displayed to children: *Provided*, That nothing in this paragraph shall be construed to authorize any rating of video programming on the basis of its political or religious content; and

(2) with respect to any video programming that has been rated, and in consultation with the television industry, rules requiring distributors of such video programming to transmit such rating to permit parents to block the display of video programming that they have determined is inappropriate for their children.

(x) Require, in the case of an apparatus designed to receive television signals that are shipped in interstate commerce or manufactured in the United States and that have a picture screen 13 inches or greater in size (measured diagonally), that such apparatus be equipped with a feature designed to enable viewers to block display of all programs with a common rating, except as otherwise permitted by regulations pursuant to section 330(c)(4).

(y) Have authority to allocate electromagnetic spectrum so as to provide flexibility of use, if—

(1) such use is consistent with international agreements to which the United States is a party; and

(2) the Commission finds, after notice and an opportunity for public comment, that—

(A) such an allocation would be in the public interest;

(B) such use would not deter investment in communications services and systems, or technology development; and

(C) such use would not result in harmful interference among users.

**SEC. 304. [47 U.S.C. 304] WAIVER BY LICENSEE.**

No station license shall be granted by the Commission until the applicant therefore shall have waived any claim to the use of

any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise.

**SEC. 305. [47 U.S.C. 305] GOVERNMENT-OWNED STATIONS.**

(a) Radio stations belonging to and operated by the United States shall not be subject to the provisions of sections 301 and 303 of this Act. All such Government stations shall use such frequencies as shall be assigned to each or to each class by the President. All such stations, except stations on board naval and other Government vessels while at sea or beyond the limits of the continental United States, when transmitting any radio communication or signal other than a communication or signal relating to Government business, shall conform to such rules and regulations designed to prevent interference with other radio stations and the rights of others as the Commission may prescribe.

(b) All stations owned and operated by the United States, except mobile stations of the Army of the United States, and all other stations on land and sea, shall have special call letters designated by the Commission.

(c) The provisions of sections 301 and 303 of this Act notwithstanding, the President may, provided he determines it to be consistent with and in the interest of national security, authorize a foreign government, under such terms and conditions as he may prescribe, to construct and operate at the seat of government of the United States a low-power radio station in the fixed service at or near the site of the embassy or legation of such foreign government for transmission of its messages to points outside the United States, but only (1) where he determines that the authorization would be consistent with the national interest of the United States and (2) where such foreign government has provided reciprocal privileges to the United States to construct and operate radio stations within territories subject to its jurisdiction. Foreign government stations authorized pursuant to the provisions of this subsection shall conform to such rules and regulations as the President may prescribe. The authorization of such stations, and the renewal, modification, suspension, revocation, or other termination of such authority shall be in accordance with such procedures as may be established by the President and shall not be subject to the other provisions of this Act or of the Administrative Procedure Act.

**SEC. 306. [47 U.S.C. 306] FOREIGN SHIPS.**

Section 301 of this Act shall not apply to any person sending radio communications or signals on a foreign ship while the same is within the jurisdiction of the United States, but such communications or signals shall be transmitted only in accordance with such regulations designed to prevent interference as may be promulgated under the authority of this Act.

**SEC. 307. [47 U.S.C. 307] ALLOCATION OF FACILITIES; TERM OF LICENSES.**

(a) The Commission, if public convenience, interest, or necessity will be served thereby, subject to the limitations of this Act, shall grant to any applicant therefor a station license provided for by this Act.

(b) In considering applications for licenses, and modifications and renewals thereof, when and insofar as there is demand for the

same, the Commission shall make such distribution of licenses, frequencies, hours of operation, and of power among the several States and communities as to provide a fair, efficient, and equitable distribution of radio service to each of the same.

(c) TERMS OF LICENSES.—

(1) INITIAL AND RENEWAL LICENSES.—Each license granted for the operation of a broadcasting station shall be for a term of not to exceed 8 years. Upon application therefor, a renewal of such license may be granted from time to time for a term of not to exceed 8 years from the date of expiration of the preceding license, if the Commission finds that public interest, convenience, and necessity would be served thereby. Consistent with the foregoing provisions of this subsection, the Commission may by rule prescribe the period or periods for which licenses shall be granted and renewed for particular classes of stations, but the Commission may not adopt or follow any rule which would preclude it, in any case involving a station of a particular class, from granting or renewing a license for a shorter period than that prescribed for stations of such class if, in its judgment, the public interest, convenience, or necessity would be served by such action.

(2) MATERIALS IN APPLICATION.—In order to expedite action on applications for renewal of broadcasting station licenses and in order to avoid needless expense to applicants for such renewals, the Commission shall not require any such applicant to file any information which previously has been furnished to the Commission or which is not directly material to the considerations that affect the granting or denial of such application, but the Commission may require any new or additional facts it deems necessary to make its findings.

(3) CONTINUATION PENDING DECISION.—Pending any hearing and final decision on such an application and the disposition of any petition for rehearing pursuant to section 405, the Commission shall continue such license in effect.

(d) No renewal of an existing station license in the broadcast or the common carrier services shall be granted more than thirty days prior to the expiration of the original license.

(e)(1) Notwithstanding any license requirement established in this Act, if the Commission determines that such authorization serves the public interest, convenience, and necessity, the Commission may by rule authorize the operation of radio stations without individual licenses in the following radio services: (A) the citizens band radio service; (B) the radio control service; (C) the aviation radio service for aircraft stations operated on domestic flights when such aircraft are not otherwise required to carry a radio station; and (D) the maritime radio service for ship stations navigated on domestic voyages when such ships are not otherwise required to carry a radio station.

(2) Any radio station operator who is authorized by the Commission to operate without an individual license shall comply with all other provisions of this Act and with rules prescribed by the Commission under this Act.

(3) For purposes of this subsection, the terms “citizens band radio service”, “radio control service”, “aircraft station” and “ship

station” shall have the meanings given them by the Commission by rule.

**SEC. 308. [47 U.S.C. 308] APPLICATIONS FOR LICENSES; CONDITIONS IN LICENSE FOR FOREIGN COMMUNICATION.**

(a) The Commission may grant construction permits and station licenses, or modifications or renewals thereof, only upon written application therefor received by it: *Provided*, That (1) in cases of emergency found by the Commission involving danger to life or property or due to damage to equipment, or (2) during a national emergency proclaimed by the President or declared by the Congress and during the continuance of any war in which the United States is engaged and when such action is necessary for the national defense or security or otherwise in furtherance of the war effort, or (3) in cases of emergency where the Commission finds, in the non-broadcast services, that it would not be feasible to secure renewal applications from existing licensees or otherwise to follow normal licensing procedure, the Commission may grant construction permits and station licenses, or modifications or renewals thereof, during an emergency so found by the Commission or during the continuance of any such national emergency or war, in such manner and upon such terms and conditions as the Commission shall by regulation prescribe, and without the filing of a formal application, but no authorization so granted shall continue in effect beyond the period of emergency or war requiring it: *Provided further*, That the Commission may issue by cable, telegraph, or radio a permit for the operation of a station on a vessel of the United States at sea, effective in lieu of a license until said vessel shall return to a port of the continental United States.

(b) All applications for station licenses, or modifications or renewals thereof, shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and financial, technical, and other qualifications of the applicant to operate the station; the ownership and location of the proposed station and of the stations, if any, with which it is proposed to communicate; the frequencies and the power desired to be used; the hours of the day or other periods of time during which it is proposed to operate the station; the purposes for which the station is to be used; and such other information as it may require. The Commission, at any time after the filing of such original application and during the term of any such licenses, may require from an applicant or licensee further written statements of fact to enable it to determine whether such original application should be granted or denied or such license revoked. Such application and/or such statement of fact shall be signed by the applicant and/or licensee in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(c) The Commission in granting any license for a station intended or used for commercial communication between the United States or any Territory or possession, continental or insular, subject to the jurisdiction of the United States, and any foreign country, may impose any terms, conditions, or restrictions authorized to be imposed with respect to submarine-cable licenses by section 2 of an Act entitled “An Act relating to the landing and operation of submarine cables in the United States,” approved May 27, 1921.

(d) SUMMARY OF COMPLAINTS.—Each applicant for the renewal of a commercial or noncommercial television license shall attach as an exhibit to the application a summary of written comments and suggestions received from the public and maintained by the licensee (in accordance with Commission regulations) that comment on the applicant's programming, if any, and that are characterized by the commentor as constituting violent programming.

**SEC. 309. [47 U.S.C. 309] ACTION UPON APPLICATIONS; FORM OF AND CONDITIONS ATTACHED TO LICENSES.**

(a) Subject to the provisions of this section, the Commission shall determine, in the case of each application filed with it to which section 308 applies, whether the public interest, convenience, and necessity will be served by the granting of such application, and, if the Commission, upon examination of such application and upon consideration of such other matters as the Commission may officially notice, shall find that public interest, convenience, and necessity would be served by the granting thereof, it shall grant such application.

(b) Except as provided in subsection (c) of this section, no such application—

(1) for an instrument of authorization in the case of a station in the broadcasting or common carrier services, or

(2) for an instrument of authorization in the case of a station in any of the following categories:

(A) industrial radio positioning stations for which frequencies are assigned on an exclusive basis,

(B) aeronautical en route stations,

(C) aeronautical advisory stations,

(D) airdrome control stations,

(E) aeronautical fixed stations, and

(F) such other stations or classes of stations, not in the

broadcasting or common carrier services, as the Commission shall by rule prescribe,

shall be granted by the Commission earlier than thirty days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof.

(c) Subsection (b) of this section shall not apply—

(1) to any minor amendment of an application to which such subsection is applicable, or

(2) to any application for—

(A) a minor change in the facilities of an authorized station,

(B) consent to an involuntary assignment or transfer under section 310(b) or to an assignment or transfer thereunder which does not involve a substantial change in ownership or control,

(C) a license under section 319(c) or, pending application for or grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such license,

(D) extension of time to complete construction of authorized facilities,

(E) an authorization of facilities for remote pickups, studio links and similar facilities for use in the operation of a broadcast station,

(F) authorizations pursuant to section 325(c) where the programs to be transmitted are special events not of a continuing nature,

(G) a special temporary authorization for nonbroadcast operation not to exceed thirty days where no application for regular operation is contemplated to be filed or not to exceed sixty days pending the filing of an application for such regular operation, or

(H) an authorization under any of the proviso clauses of section 308(a).

(d)(1) Any party in interest may file with the Commission a petition to deny any application (whether as originally filed or as amended) to which subsection (b) of this section applies at any time prior to the day of Commission grant thereof without hearing or the day of formal designation thereof for hearing; except that with respect to any classification of applications, the Commission from time to time by rule may specify a shorter period (no less than thirty days following the issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof), which shorter period shall be reasonably related to the time when the applications would normally be reached for processing. The petitioner shall serve a copy of such petition on the applicant. The petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be prima facie inconsistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license). Such allegations of fact shall, except for those of which official notice may be taken, be supported by affidavit of a person or persons with personal knowledge thereof. The applicant shall be given the opportunity to file a reply in which allegations of fact or denials thereof shall similarly be supported by affidavit.

(2) If the Commission finds on the basis of the application, the pleadings filed, or other matters which it may officially notice that there are no substantial and material questions of fact and that a grant of the application would be consistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license), it shall make the grant, deny the petition, and issue a concise statement of the reasons for denying the petition, which statement shall dispose of all substantial issues raised by the petition. If a substantial and material question of fact is presented or if the Commission for any reason is unable to find that grant of the application would be consistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license), it shall proceed as provided in subsection (e).

(e) If, in the case of any application to which subsection (a) of this section applies, a substantial and material question of fact is presented or the Commission for any reason is unable to make the finding specified in such subsection, it shall formally designate the application for hearing on the ground or reasons then obtaining and shall forthwith notify the applicant and all other known parties in interest of such action and the ground and reasons therefor,

specifying with particularity the matters and things in issue but not including issues or requirements phrased generally. When the Commission has so designated an application for hearing, the parties in interest, if any, who are not notified by the Commission of such action may acquire the status of a party to the proceeding thereon by filing a petition for intervention showing the basis for their interest not more than thirty days after publication of the hearing issues or any substantial amendment thereto in the Federal Register. Any hearing subsequently held upon such application shall be a full hearing in which the applicant and all other parties in interest shall be permitted to participate. The burden of proceeding with the introduction of evidence and the burden of proof shall be upon the applicant, except that with respect to any issue presented by a petition to deny or a petition to enlarge the issues, such burdens shall be as determined by the Commission.

(f) When an application subject to subsection (b) has been filed, the Commission, notwithstanding the requirements of such subsection, may, if the grant of such application is otherwise authorized by law and if it finds that there are extraordinary circumstances requiring temporary operations in the public interest and that delay in the institution of such temporary operations would seriously prejudice the public interest, grant a temporary authorization, accompanied by a statement of its reasons therefor, to permit such temporary operations for a period not exceeding 180 days, and upon making like findings may extend such temporary authorization for additional periods not to exceed 180 days. When any such grant of a temporary authorization is made, the Commission shall give expeditious treatment to any timely filed petition to deny such application and to any petition for rehearing of such grant filed under section 405.

(g) The Commission is authorized to adopt reasonable classifications of applications and amendments in order to effectuate the purposes of this section.

(h) Such station licenses as the Commission may grant shall be in such general form as it may prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject: (1) The station license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized therein; (2) neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this Act; (3) every license issued under this Act shall be subject in terms to the right of use or control conferred by section 706 of this Act.

(i) RANDOM SELECTION.—

(1) GENERAL AUTHORITY.—Except as provided in paragraph (5), if there is more than one application for any initial license or construction permit, then the Commission shall have the authority to grant such license or permit to a qualified applicant through the use of a system of random selection.

(2) No license or construction permit shall be granted to an applicant selected pursuant to paragraph (1) unless the Commission determines the qualifications of such applicant pursuant to subsection (a) and section 308(b). When substantial and material ques-

tions of fact exist concerning such qualifications, the Commission shall conduct a hearing in order to make such determinations. For the purposes of making such determinations, the Commission may, by rule, and notwithstanding any other provision of law—

(A) adopt procedures for the submission of all or part of the evidence in written form;

(B) delegate the function of presiding at the taking of written evidence to Commission employees other than administrative law judges; and

(C) omit the determination required by subsection (a) with respect to any application other than the one selected pursuant to paragraph (1).

(3)(A) The Commission shall establish rules and procedures to ensure that, in the administration of any system of random selection under this subsection used for granting licenses or construction permits for any media of mass communications, significant preferences will be granted to applicants or groups of applicants, the grant to which of the license or permit would increase the diversification of ownership of the media of mass communications. To further diversify the ownership of the media of mass communications, an additional significant preference shall be granted to any applicant controlled by a member or members of minority group.

(B) The Commission shall have authority to require each qualified applicant seeking a significant preference under subparagraph (A) to submit to the Commission such information as may be necessary to enable the Commission to make a determination regarding whether such applicant shall be granted such preference. Such information shall be submitted in such form, at such times, and in accordance with such procedures, as the Commission may require.

(C) For purposes of this paragraph:

(i) The term “media of mass communication” includes television, radio, cable television, multipoint distribution service, direct broadcast satellite service, and other services, the licensed facilities of which may be substantially devoted toward providing programming or other information services within the editorial control of the licensee.

(ii) The term “minority group” includes Blacks, Hispanics, American Indians, Alaska Natives, Asians, and Pacific Islanders.

(4)(A) The Commission shall<sup>1</sup>, after notice and opportunity for hearing, prescribe rules establishing a system of random selection for use by the Commission under this subsection in any instance in which the Commission, in its discretion, determines that such use is appropriate for the granting of any license or permit in accordance with paragraph (1).

(B) The Commission shall have authority to amend such rules from time to time to the extent necessary to carry out the provisions of this subsection. Any such amendment shall be made after notice and opportunity for hearing.

(C) Not later than 180 days after the date of enactment of this subparagraph, the Commission shall prescribe such transfer disclosures and antitrafficking restrictions and payment schedules as are necessary to prevent the unjust enrichment of recipients of licenses

<sup>1</sup> This compilation executes amendments made by section 304(a)(9) but not amendments made by section 303(a)(17) of the Communications Assistance for Law Enforcement Act (P.L. 103-414).

or permits as a result of the methods employed to issue licenses under this subsection.

(5)<sup>1</sup> TERMINATION OF AUTHORITY.—(A) Except as provided in subparagraph (B), the Commission shall not issue any license or permit using a system of random selection under this subsection after July 1, 1997.

(B) Subparagraph (A) of this paragraph shall not apply with respect to licenses or permits for stations described in section 397(6) of this Act.

(j) USE OF COMPETITIVE BIDDING.—<sup>2</sup>

<sup>1</sup>Indentation so in original.

<sup>2</sup>Section 309(j) of the Communications Act of 1934 was extensively amended by section 3002 of the Balanced Budget Act of 1997 (P.L. 105–33; Aug. 5, 1997). Sections 3002(c), 3007, and 3008 contained the following additional provisions related to spectrum to be made available by competitive bidding:

**SEC. 3002. SPECTRUM AUCTIONS.**

(c) [47 U.S.C. 925 note] COMMISSION OBLIGATION TO MAKE ADDITIONAL SPECTRUM AVAILABLE BY AUCTION.—

(1) IN GENERAL.—The Commission shall complete all actions necessary to permit the assignment by September 30, 2002, by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), of licenses for the use of bands of frequencies that—

(A) in the aggregate span not less than 55 megahertz;

(B) are located below 3 gigahertz;

(C) have not, as of the date of enactment of this Act—

(i) been designated by Commission regulation for assignment pursuant to such section;

(ii) been identified by the Secretary of Commerce pursuant to section 113 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923);

(iii) been allocated for Federal Government use pursuant to section 305 of the Communications Act of 1934 (47 U.S.C. 305);

(iv) been designated for reallocation under section 337 of the Communications Act of 1934 (as added by this Act); or

(v) been allocated or authorized for unlicensed use pursuant to part 15 of the Commission's regulations (47 C.F.R. Part 15), if the operation of services licensed pursuant to competitive bidding would interfere with operation of end-user products permitted under such regulations;

(D) include frequencies at 2,110–2,150 megahertz; and

(E) include 15 megahertz from within the bands of frequencies at 1,990–2,110 megahertz.

(2) CRITERIA FOR REASSIGNMENT.—In making available bands of frequencies for competitive bidding pursuant to paragraph (1), the Commission shall—

(A) seek to promote the most efficient use of the electromagnetic spectrum;

(B) consider the cost of relocating existing uses to other bands of frequencies or other means of communication;

(C) consider the needs of existing public safety radio services (as such services are described in section 309(j)(2)(A) of the Communications Act of 1934, as amended by this Act);

(D) comply with the requirements of international agreements concerning spectrum allocations; and

(E) coordinate with the Secretary of Commerce when there is any impact on Federal Government spectrum use.

(3) USE OF BANDS AT 2,110-2,150 MEGAHERTZ.—The Commission shall reallocate spectrum located at 2,110-2,150 megahertz for assignment by competitive bidding unless the Commission determines that auction of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce greater receipts. If the Commission makes such a determination, then the Commission shall, within 2 years after the date of enactment of this Act, identify an alternative 40 megahertz, and report to the Congress an identification of such alternative 40 megahertz for assignment by competitive bidding.

(4) USE OF 15 MEGAHERTZ FROM BANDS AT 1,990-2,110 MEGAHERTZ.—The Commission shall reallocate 15 megahertz from spectrum located at 1,990-2,110 megahertz for assignment by competitive bidding unless the President determines such spectrum cannot be reallocated due to the need to protect incumbent Federal systems from interference, and that allocation of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce comparable receipts. If the President makes such a determination, then the President shall, within 2 years after the date of enactment of this Act, identify alternative bands of frequencies totalling 15 megahertz, and report to the Congress an identification of such alternative bands for assignment by competitive bidding.

Continued

(1) GENERAL AUTHORITY.—If, consistent with the obligations described in paragraph (6)(E), mutually exclusive applications are accepted for any initial license or construction permit, then, except as provided in paragraph (2), the Commission shall grant the license or permit to a qualified applicant through a system of competitive bidding that meets the requirements of this subsection.

(2) EXEMPTIONS.—The competitive bidding authority granted by this subsection shall not apply to licenses or construction permits issued by the Commission—

(A) for public safety radio services, including private internal radio services used by State and local governments and non-government entities and including emergency road services provided by not-for-profit organizations, that—

(i) are used to protect the safety of life, health, or property; and

(ii) are not made commercially available to the public;

(B) for initial licenses or construction permits for digital television service given to existing terrestrial broadcast licensees to replace their analog television service licenses; or

(C) for stations described in section 397(6) of this Act.

(3) DESIGN OF SYSTEMS OF COMPETITIVE BIDDING.—For each class of licenses or permits that the Commission grants through the use of a competitive bidding system, the Commission shall, by regulation, establish a competitive bidding methodology. The Commission shall seek to design and test multiple alternative methodologies under appropriate circumstances. The Commission shall, directly or by contract, provide for the design and conduct (for purposes of testing) of competitive bidding using a contingent combinatorial bidding system that per-

---

(5) NOTIFICATION TO THE SECRETARY OF COMMERCE.—The Commission shall attempt to accommodate incumbent licensees displaced under this section by relocating them to other frequencies available for allocation by the Commission. The Commission shall notify the Secretary of Commerce whenever the Commission is not able to provide for the effective relocation of an incumbent licensee to a band of frequencies available to the Commission for assignment. The notification shall include—

(A) specific information on the incumbent licensee;

(B) the bands the Commission considered for relocation of the licensee;

(C) the reasons the licensee cannot be accommodated in such bands; and

(D) the bands of frequencies identified by the Commission that are—

(i) suitable for the relocation of such licensee; and

(ii) allocated for Federal Government use, but that could be reallocated pursuant to part B of the National Telecommunications and Information Administration Organization Act (as amended by this Act).

**SEC. 3007. [47 U.S.C. 309 note] DEADLINE FOR COLLECTION**

[Repealed by section 3(b)(2) of P.L. 107–195. Required proceeds of bidding to be deposited by September 30, 2002.]

**SEC. 3008. [47 U.S.C. 309 note] ADMINISTRATIVE PROCEDURES FOR SPECTRUM AUCTIONS.**

Notwithstanding section 309(b) of the Communications Act of 1934 (47 U.S.C. 309(b)), no application for an instrument of authorization for frequencies assigned under this title (or amendments made by this title) shall be granted by the Commission earlier than 7 days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereto. Notwithstanding section 309(d)(1) of such Act (47 U.S.C. 309(d)(1)), the Commission may specify a period (no less than 5 days following issuance of such public notice) for the filing of petitions to deny any application for an instrument of authorization for such frequencies.

mits prospective bidders to bid on combinations or groups of licenses in a single bid and to enter multiple alternative bids within a single bidding round. In identifying classes of licenses and permits to be issued by competitive bidding, in specifying eligibility and other characteristics of such licenses and permits, and in designing the methodologies for use under this subsection, the Commission shall include safeguards to protect the public interest in the use of the spectrum and shall seek to promote the purposes specified in section 1 of this Act and the following objectives:

(A) the development and rapid deployment of new technologies, products, and services for the benefit of the public, including those residing in rural areas, without administrative or judicial delays;

(B) promoting economic opportunity and competition and ensuring that new and innovative technologies are readily accessible to the American people by avoiding excessive concentration of licenses and by disseminating licenses among a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women;

(C) recovery for the public of a portion of the value of the public spectrum resource made available for commercial use and avoidance of unjust enrichment through the methods employed to award uses of that resource;

(D) efficient and intensive use of the electromagnetic spectrum; and

(E) ensure that, in the scheduling of any competitive bidding under this subsection, an adequate period is allowed—

(i) before issuance of bidding rules, to permit notice and comment on proposed auction procedures; and

(ii) after issuance of bidding rules, to ensure that interested parties have a sufficient time to develop business plans, assess market conditions, and evaluate the availability of equipment for the relevant services.

(4) CONTENTS OF REGULATIONS.—In prescribing regulations pursuant to paragraph (3), the Commission shall—

(A) consider alternative payment schedules and methods of calculation, including lump sums or guaranteed installment payments, with or without royalty payments, or other schedules or methods that promote the objectives described in paragraph (3)(B), and combinations of such schedules and methods;

(B) include performance requirements, such as appropriate deadlines and penalties for performance failures, to ensure prompt delivery of service to rural areas, to prevent stockpiling or warehousing of spectrum by licensees or permittees, and to promote investment in and rapid deployment of new technologies and services;

(C) consistent with the public interest, convenience, and necessity, the purposes of this Act, and the characteristics of the proposed service, prescribe area designations and bandwidth assignments that promote (i) an equitable distribution of licenses and services among geographic

areas, (ii) economic opportunity for a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women, and (iii) investment in and rapid deployment of new technologies and services;

(D) ensure that small businesses, rural telephone companies, and businesses owned by members of minority groups and women are given the opportunity to participate in the provision of spectrum-based services, and, for such purposes, consider the use of tax certificates, bidding preferences, and other procedures;

(E) require such transfer disclosures and antitrafficking restrictions and payment schedules as may be necessary to prevent unjust enrichment as a result of the methods employed to issue licenses and permits; and

(F) prescribe methods by which a reasonable reserve price will be required, or a minimum bid will be established, to obtain any license or permit being assigned pursuant to the competitive bidding, unless the Commission determines that such a reserve price or minimum bid is not in the public interest.

(5) BIDDER AND LICENSEE QUALIFICATION.—No person shall be permitted to participate in a system of competitive bidding pursuant to this subsection unless such bidder submits such information and assurances as the Commission may require to demonstrate that such bidder's application is acceptable for filing. No license shall be granted to an applicant selected pursuant to this subsection unless the Commission determines that the applicant is qualified pursuant to subsection (a) and sections 308(b) and 310. Consistent with the objectives described in paragraph (3), the Commission shall, by regulation, prescribe expedited procedures consistent with the procedures authorized by subsection (i)(2) for the resolution of any substantial and material issues of fact concerning qualifications.

(6) RULES OF CONSTRUCTION.—Nothing in this subsection, or in the use of competitive bidding, shall—

(A) alter spectrum allocation criteria and procedures established by the other provisions of this Act;

(B) limit or otherwise affect the requirements of subsection (h) of this section, section 301, 304, 307, 310, or 706, or any other provision of this Act (other than subsections (d)(2) and (e) of this section);

(C) diminish the authority of the Commission under the other provisions of this Act to regulate or reclaim spectrum licenses;

(D) be construed to convey any rights, including any expectation of renewal of a license, that differ from the rights that apply to other licenses within the same service that were not issued pursuant to this subsection;

(E) be construed to relieve the Commission of the obligation in the public interest to continue to use engineering solutions, negotiation, threshold qualifications, service regulations, and other means in order to avoid mutual exclusivity in application and licensing proceedings;

(F) be construed to prohibit the Commission from issuing nationwide, regional, or local licenses or permits;

(G) be construed to prevent the Commission from awarding licenses to those persons who make significant contributions to the development of a new telecommunications service or technology; or

(H) be construed to relieve any applicant for a license or permit of the obligation to pay charges imposed pursuant to section 8 of this Act.

(7) CONSIDERATION OF REVENUES IN PUBLIC INTEREST DETERMINATIONS.—

(A) CONSIDERATION PROHIBITED.—In making a decision pursuant to section 303(c) to assign a band of frequencies to a use for which licenses or permits will be issued pursuant to this subsection, and in prescribing regulations pursuant to paragraph (4)(C) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity on the expectation of Federal revenues from the use of a system of competitive bidding under this subsection.

(B) CONSIDERATION LIMITED.—In prescribing regulations pursuant to paragraph (4)(A) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity solely or predominantly on the expectation of Federal revenues from the use of a system of competitive bidding under this subsection.

(C) CONSIDERATION OF DEMAND FOR SPECTRUM NOT AFFECTED.—Nothing in this paragraph shall be construed to prevent the Commission from continuing to consider consumer demand for spectrum-based services.

(8) TREATMENT OF REVENUES.—

(A) GENERAL RULE.—Except as provided in subparagraph (B), all proceeds from the use of a competitive bidding system under this subsection shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(B) RETENTION OF REVENUES.—Notwithstanding subparagraph (A), the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this subsection. Such offsetting collections shall be available for obligation subject to the terms and conditions of the receiving appropriations account, and shall be deposited in such accounts on a quarterly basis. Such offsetting collections are authorized to remain available until expended. No sums may be retained under this subparagraph during any fiscal year beginning after September 30, 1998, if the annual report of the Commission under section 4(k) for the second preceding fiscal year fails to include in the itemized statement required by paragraph (3) of such section a statement of each expenditure made for purposes of conducting competitive bidding under this subsection during such second preceding fiscal year.

(C) DEPOSIT AND USE OF AUCTION ESCROW ACCOUNTS.—Any deposits the Commission may require for the qualification of any person to bid in a system of competitive bidding pursuant to this subsection shall be deposited in an interest bearing account at a financial institution designated for purposes of this subsection by the Commission (after consultation with the Secretary of the Treasury). Within 45 days following the conclusion of the competitive bidding—

(i) the deposits of successful bidders shall be paid to the Treasury;

(ii) the deposits of unsuccessful bidders shall be returned to such bidders; and

(iii) the interest accrued to the account shall be transferred to the Telecommunications Development Fund established pursuant to section 714 of this Act.

(9) USE OF FORMER GOVERNMENT SPECTRUM.—The Commission shall, not later than 5 years after the date of enactment of this subsection, issue licenses and permits pursuant to this subsection for the use of bands of frequencies that—

(A) in the aggregate span not less than 10 megahertz; and

(B) have been reassigned from Government use pursuant to part B of the National Telecommunications and Information Administration Organization Act.

(10) AUTHORITY CONTINGENT ON AVAILABILITY OF ADDITIONAL SPECTRUM.—

(A) INITIAL CONDITIONS.—The Commission's authority to issue licenses or permits under this subsection shall not take effect unless—

(i) the Secretary of Commerce has submitted to the Commission the report required by section 113(d)(1) of the National Telecommunications and Information Administration Organization Act;

(ii) such report recommends for immediate reallocation bands of frequencies that, in the aggregate, span not less than 50 megahertz;

(iii) such bands of frequencies meet the criteria required by section 113(a) of such Act; and

(iv) the Commission has completed the rule-making required by section 332(c)(1)(D) of this Act.

(B) SUBSEQUENT CONDITIONS.—The Commission's authority to issue licenses or permits under this subsection on and after 2 years after the date of the enactment of this subsection shall cease to be effective if—

(i) the Secretary of Commerce has failed to submit the report required by section 113(a) of the National Telecommunications and Information Administration Organization Act;

(ii) the President has failed to withdraw and limit assignments of frequencies as required by paragraphs (1) and (2) of section 114(a) of such Act;

(iii) the Commission has failed to issue the regulations required by section 115(a) of such Act;

(iv) the Commission has failed to complete and submit to Congress, not later than 18 months after the date of enactment of this subsection, a study of current and future spectrum needs of State and local government public safety agencies through the year 2010, and a specific plan to ensure that adequate frequencies are made available to public safety licensees; or

(v) the Commission has failed under section 332(c)(3) to grant or deny within the time required by such section any petition that a State has filed within 90 days after the date of enactment of this subsection;

until such failure has been corrected.

(11) TERMINATION.—The authority of the Commission to grant a license or permit under this subsection shall expire September 30, 2007.

(12) EVALUATION.—Not later than September 30, 1997, the Commission shall conduct a public inquiry and submit to the Congress a report—

(A) containing a statement of the revenues obtained, and a projection of the future revenues, from the use of competitive bidding systems under this subsection;

(B) describing the methodologies established by the Commission pursuant to paragraphs (3) and (4);

(C) comparing the relative advantages and disadvantages of such methodologies in terms of attaining the objectives described in such paragraphs;

(D) evaluating whether and to what extent—

(i) competitive bidding significantly improved the efficiency and effectiveness of the process for granting radio spectrum licenses;

(ii) competitive bidding facilitated the introduction of new spectrum-based technologies and the entry of new companies into the telecommunications market;

(iii) competitive bidding methodologies have secured prompt delivery of service to rural areas and have adequately addressed the needs of rural spectrum users; and

(iv) small businesses, rural telephone companies, and businesses owned by members of minority groups and women were able to participate successfully in the competitive bidding process; and

(E) recommending any statutory changes that are needed to improve the competitive bidding process.

(13) RECOVERY OF VALUE OF PUBLIC SPECTRUM IN CONNECTION WITH PIONEER PREFERENCES.—

(A) IN GENERAL.—Notwithstanding paragraph (6)(G), the Commission shall not award licenses pursuant to a preferential treatment accorded by the Commission to persons who make significant contributions to the development of a new telecommunications service or technology, except in accordance with the requirements of this paragraph.

(B) RECOVERY OF VALUE.—The Commission shall recover for the public a portion of the value of the public

spectrum resource made available to such person by requiring such person, as a condition for receipt of the license, to agree to pay a sum determined by—

(i) identifying the winning bids for the licenses that the Commission determines are most reasonably comparable in terms of bandwidth, scope of service area, usage restrictions, and other technical characteristics to the license awarded to such person, and excluding licenses that the Commission determines are subject to bidding anomalies due to the award of preferential treatment;

(ii) dividing each such winning bid by the population of its service area (hereinafter referred to as the per capita bid amount);

(iii) computing the average of the per capita bid amounts for the licenses identified under clause (i);

(iv) reducing such average amount by 15 percent;

and  
(v) multiplying the amount determined under clause (iv) by the population of the service area of the license obtained by such person.

(C) **INSTALLMENTS PERMITTED.**—The Commission shall require such person to pay the sum required by subparagraph (B) in a lump sum or in guaranteed installment payments, with or without royalty payments, over a period of not more than 5 years.

(D) **RULEMAKING ON PIONEER PREFERENCES.**—Except with respect to pending applications described in clause (iv) of this subparagraph, the Commission shall prescribe regulations specifying the procedures and criteria by which the Commission will evaluate applications for preferential treatment in its licensing processes (by precluding the filing of mutually exclusive applications) for persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service. Such regulations shall—

(i) specify the procedures and criteria by which the significance of such contributions will be determined, after an opportunity for review and verification by experts in the radio sciences drawn from among persons who are not employees of the Commission or by any applicant for such preferential treatment;

(ii) include such other procedures as may be necessary to prevent unjust enrichment by ensuring that the value of any such contribution justifies any reduction in the amounts paid for comparable licenses under this subsection;

(iii) be prescribed not later than 6 months after the date of enactment of this paragraph;

(iv) not apply to applications that have been accepted for filing on or before September 1, 1994; and

(v) cease to be effective on the date of the expiration of the Commission's authority under subparagraph (F).

(E) IMPLEMENTATION WITH RESPECT TO PENDING APPLICATIONS.—In applying this paragraph to any broadband licenses in the personal communications service awarded pursuant to the preferential treatment accorded by the Federal Communications Commission in the Third Report and Order in General Docket 90–314 (FCC 93–550, released February 3, 1994)—

(i) the Commission shall not reconsider the award of preferences in such Third Report and Order, and the Commission shall not delay the grant of licenses based on such awards more than 15 days following the date of enactment of this paragraph, and the award of such preferences and licenses shall not be subject to administrative or judicial review;

(ii) the Commission shall not alter the bandwidth or service areas designated for such licenses in such Third Report and Order;

(iii) except as provided in clause (v), the Commission shall use, as the most reasonably comparable licenses for purposes of subparagraph (B)(i), the broadband licenses in the personal communications service for blocks A and B for the 20 largest markets (ranked by population) in which no applicant has obtained preferential treatment;

(iv) for purposes of subparagraph (C), the Commission shall permit guaranteed installment payments over a period of 5 years, subject to—

(I) the payment only of interest on unpaid balances during the first 2 years, commencing not later than 30 days after the award of the license (including any preferential treatment used in making such award) is final and no longer subject to administrative or judicial review, except that no such payment shall be required prior to the date of completion of the auction of the comparable licenses described in clause (iii); and

(II) payment of the unpaid balance and interest thereon after the end of such 2 years in accordance with the regulations prescribed by the Commission; and

(v) the Commission shall recover with respect to broadband licenses in the personal communications service an amount under this paragraph that is equal to not less than \$400,000,000, and if such amount is less than \$400,000,000, the Commission shall recover an amount equal to \$400,000,000 by allocating such amount among the holders of such licenses based on the population of the license areas held by each licensee.

The Commission shall not include in any amounts required to be collected under clause (v) the interest on unpaid balances required to be collected under clause (iv).

(F) EXPIRATION.—The authority of the Commission to provide preferential treatment in licensing procedures (by precluding the filing of mutually exclusive applications) to

persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service shall expire on the date of enactment of the Balanced Budget Act of 1997.

(G) EFFECTIVE DATE.—This paragraph shall be effective on the date of its enactment and apply to any licenses issued on or after August 1, 1994, by the Federal Communications Commission pursuant to any licensing procedure that provides preferential treatment (by precluding the filing of mutually exclusive applications) to persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service.

(14) AUCTION OF RECAPTURED BROADCAST TELEVISION SPECTRUM.—

(A) LIMITATIONS ON TERMS OF TERRESTRIAL TELEVISION BROADCAST LICENSES.—A television broadcast license that authorizes analog television service may not be renewed to authorize such service for a period that extends beyond December 31, 2006.

(B) EXTENSION.—The Commission shall extend the date described in subparagraph (A) for any station that requests such extension in any television market if the Commission finds that—

(i) one or more of the stations in such market that are licensed to or affiliated with one of the four largest national television networks are not broadcasting a digital television service signal, and the Commission finds that each such station has exercised due diligence and satisfies the conditions for an extension of the Commission's applicable construction deadlines for digital television service in that market;

(ii) digital-to-analog converter technology is not generally available in such market; or

(iii) in any market in which an extension is not available under clause (i) or (ii), 15 percent or more of the television households in such market—

(I) do not subscribe to a multichannel video programming distributor (as defined in section 602) that carries one of the digital television service programming channels of each of the television stations broadcasting such a channel in such market; and

(II) do not have either—

(a) at least one television receiver capable of receiving the digital television service signals of the television stations licensed in such market; or

(b) at least one television receiver of analog television service signals equipped with digital-to-analog converter technology capable of receiving the digital television service signals of the television stations licensed in such market.

(C) SPECTRUM REVERSION AND RESALE.—

(i) The Commission shall—

(I) ensure that, as licenses for analog television service expire pursuant to subparagraph (A) or (B), each licensee shall cease using electromagnetic spectrum assigned to such service according to the Commission's direction; and

(II) reclaim and organize the electromagnetic spectrum in a manner consistent with the objectives described in paragraph (3) of this subsection.

(ii) Licensees for new services occupying spectrum reclaimed pursuant to clause (i) shall be assigned in accordance with this subsection. The Commission shall complete the assignment of such licenses, and report to the Congress the total revenues from such competitive bidding, by September 30, 2002.

(D) CERTAIN LIMITATIONS ON QUALIFIED BIDDERS PROHIBITED.—In prescribing any regulations relating to the qualification of bidders for spectrum reclaimed pursuant to subparagraph (C)(i), the Commission, for any license that may be used for any digital television service where the grade A contour of the station is projected to encompass the entirety of a city with a population in excess of 400,000 (as determined using the 1990 decennial census), shall not—

(i) preclude any party from being a qualified bidder for such spectrum on the basis of—

(I) the Commission's duopoly rule (47 C.F.R. 73.3555(b)); or

(II) the Commission's newspaper cross-ownership rule (47 C.F.R. 73.3555(d)); or

(ii) apply either such rule to preclude such a party that is a winning bidder in a competitive bidding for such spectrum from using such spectrum for digital television service.

(k) BROADCAST STATION RENEWAL PROCEDURES.—

(1) STANDARDS FOR RENEWAL.—If the licensee of a broadcast station submits an application to the Commission for renewal of such license, the Commission shall grant the application if it finds, with respect to that station, during the preceding term of its license—

(A) the station has served the public interest, convenience, and necessity;

(B) there have been no serious violations by the licensee of this Act or the rules and regulations of the Commission; and

(C) there have been no other violations by the licensee of this Act or the rules and regulations of the Commission which, taken together, would constitute a pattern of abuse.

(2) CONSEQUENCE OF FAILURE TO MEET STANDARD.—If any licensee of a broadcast station fails to meet the requirements of this subsection, the Commission may deny the application for renewal in accordance with paragraph (3), or grant such application on terms and conditions as are appropriate, including

renewal for a term less than the maximum otherwise permitted.

(3) **STANDARDS FOR DENIAL.**—If the Commission determines, after notice and opportunity for a hearing as provided in subsection (e), that a licensee has failed to meet the requirements specified in paragraph (1) and that no mitigating factors justify the imposition of lesser sanctions, the Commission shall—

(A) issue an order denying the renewal application filed by such licensee under section 308; and

(B) only thereafter accept and consider such applications for a construction permit as may be filed under section 308 specifying the channel or broadcasting facilities of the former licensee.

(4) **COMPETITOR CONSIDERATION PROHIBITED.**—In making the determinations specified in paragraph (1) or (2), the Commission shall not consider whether the public interest, convenience, and necessity might be served by the grant of a license to a person other than the renewal applicant.

(l) **APPLICABILITY OF COMPETITIVE BIDDING TO PENDING COMPARATIVE LICENSING CASES.**—With respect to competing applications for initial licenses or construction permits for commercial radio or television stations that were filed with the Commission before July 1, 1997, the Commission shall—

(1) have the authority to conduct a competitive bidding proceeding pursuant to subsection (j) to assign such license or permit;

(2) treat the persons filing such applications as the only persons eligible to be qualified bidders for purposes of such proceeding; and

(3) waive any provisions of its regulations necessary to permit such persons to enter an agreement to procure the removal of a conflict between their applications during the 180-day period beginning on the date of enactment of the Balanced Budget Act of 1997.

**SEC. 310. [47 U.S.C. 310] LIMITATION ON HOLDING AND TRANSFER OF LICENSES.**

(a) The station license required under this Act shall not be granted to or held by any foreign government or the representative thereof.

(b) No broadcast or common carrier or aeronautical en route or aeronautical fixed radio station license shall be granted to or held by—

(1) any alien or the representative of any alien;

(2) any corporation organized under the laws of any foreign government;

(3) any corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country;

(4) any corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof, or

by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.

(c) In addition to amateur station licenses which the Commission may issue pursuant to this Act, the Commission may issue authorizations, under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien's government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this Act and of the Administrative Procedure Act shall not be applicable to any request or application for or modification, suspension, or cancellation of any such authorization.

(d) No construction permit or station license, or any rights thereunder, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation holding such permit or license, to any person except upon application to the Commission and upon finding by the Commission that the public interest, convenience, and necessity will be served thereby. Any such application shall be disposed of as if the proposed transferee or assignee were making application under section 308 for the permit or license in question; but in acting thereon the Commission may not consider whether the public interest, convenience, and necessity might be served by the transfer, assignment, or disposal of the permit or license to a person other than the proposed transferee or assignee.

(e)(1) In the case of any broadcast station, and any ownership interest therein, which is excluded from the regional concentration rules by reason of the savings provision for existing facilities provided by the First Report and Order adopted March 9, 1977 (docket No. 20548; 42 Fed. Reg. 16145), the exclusion shall not terminate solely by reason of changes made in the technical facilities of the station to improve its service.

(2) For purposes of this subsection, the term "regional concentration rules" means the provisions of sections 73.35, 73.240, and 73.636 of title 47, Code of Federal Regulations (as in effect June 1, 1983), which prohibit any party from directly or indirectly owning, operating, or controlling three broadcast stations in one or several services where any two of such stations are within 100 miles of the third (measured city-to-city), and where there is a primary service contour overlap of any of the stations.

**SEC. 311. [47 U.S.C. 311] SPECIAL REQUIREMENTS WITH RESPECT TO CERTAIN APPLICATIONS IN THE BROADCASTING SERVICE.**

(a) When there is filed with the Commission any application to which section 309(b)(1) applies, for an instrument of authorization for a station in the broadcasting service, the applicant—

(1) shall give notice of such filing in the principal area which is served or is to be served by the station; and

(2) if the application is formally designated for hearing in accordance with section 309, shall give notice of such hearing

in such area at least ten days before commencement of such hearing.

The Commission shall by rule prescribe the form and content of the notices to be given in compliance with this subsection, and the manner and frequency with which such notices shall be given.

(b) Hearings referred to in subsection (a) may be held at such places as the Commission shall determine to be appropriate, and in making such determination in any case the Commission shall consider whether the public interest, convenience, or necessity will be served by conducting the hearing at a place in, or in the vicinity of, the principal area to be served by the station involved.

(c)(1) If there are pending before the Commission two or more applications for a permit for construction of a broadcasting station, only one of which can be granted, it shall be unlawful, without approval of the Commission, for the applicants or any of them to effectuate an agreement whereby one or more of such applicants withdraws his or their application or applications.

(2) The request for Commission approval in any such case shall be made in writing jointly by all the parties to the agreement. Such request shall contain or be accompanied by full information with respect to the agreement, set forth in such detail, form, and manner as the Commission shall by rule require.

(3) The Commission shall approve the agreement only if it determines that (A) the agreement is consistent with the public interest, convenience, or necessity; and (B) no party to the agreement filed its application for the purpose of reaching or carrying out such agreement.

(4) For the purposes of this subsection an application shall be deemed to be "pending" before the Commission from the time such application is filed with the Commission until an order of the Commission granting or denying it is no longer subject to rehearing by the Commission or to review by any court.

(d)(1) If there are pending before the Commission an application for the renewal of a license granted for the operation of a broadcasting station and one or more applications for a construction permit relating to such station, only one of which can be granted, it shall be unlawful, without approval of the Commission, for the applicants or any of them to effectuate an agreement whereby one or more of such applicants withdraws his or their application or applications in exchange for the payment of money, or the transfer of assets or any other thing of value by the remaining applicant or applicants.

(2) The request for Commission approval in any such case shall be made in writing jointly by all the parties to the agreement. Such request shall contain or be accompanied by full information with respect to the agreement, set forth in such detail, form, and manner as the Commission shall require.

(3) The Commission shall approve the agreement only if it determines that (A) the agreement is consistent with the public interest, convenience, or necessity; and (B) no party to the agreement filed its application for the purpose of reaching or carrying out such agreement.

(4) For purposes of this subsection, an application shall be deemed to be pending before the Commission from the time such application is filed with the Commission until an order of the Com-

mission granting or denying it is no longer subject to rehearing by the Commission or to review by any court.

**SEC. 312. [47 U.S.C. 312] ADMINISTRATIVE SANCTIONS.**

(a) The Commission may revoke any station license or construction permit—

(1) for false statements knowingly made either in the application or in any statement of fact which may be required pursuant to section 308;

(2) because of conditions coming to the attention of the Commission which would warrant it in refusing to grant a license or permit on an original application;

(3) for willful or repeated failure to operate substantially as set forth in the license;

(4) for willful or repeated violation of, or willful or repeated failure to observe any provision of this Act or any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States;

(5) for violation of or failure to observe any final cease and desist order issued by the Commission under this section;

(6) for violation of section 1304, 1343, or 1464 of title 18 of the United States Code; or

(7) for willful or repeated failure to allow reasonable access to or to permit purchase of reasonable amounts of time for the use of a broadcasting station, other than a non-commercial educational broadcast station, by a legally qualified candidate for Federal elective office on behalf of his candidacy.

(b) Where any person (1) has failed to operate substantially as set forth in a license, (2) has violated or failed to observe any of the provisions of this Act, or section 1304, 1343, or 1464 of title 18 of the United States Code, or (3) has violated or failed to observe any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States, the Commission may order such person to cease and desist from such action.

(c) Before revoking a license or permit pursuant to subsection (a), or issuing a cease and desist order pursuant to subsection (b), the Commission shall serve upon the licensee, permittee, or person involved an order to show cause why an order of revocation or a cease and desist order should not be issued. Any such order to show cause shall contain a statement of the matters with respect to which the Commission is inquiring and shall call upon said licensee, permittee, or person to appear before the Commission at a time and place stated in the order, but in no event less than thirty days after the receipt of such order, and give evidence upon the matter specified therein; except that where safety of life or property is involved, the Commission may provide in the order for a shorter period. If after hearing, or a waiver thereof, the Commission determines that an order of revocation or a cease and desist order should issue, it shall issue such order, which shall include a statement of the findings of the Commission and the grounds and reasons therefor and specify the effective date of the order, and shall cause the same to be served on said licensee, permittee, or person.

(d) In any case where a hearing is conducted pursuant to the provisions of this section, both the burden of proceeding with the

introduction of evidence and the burden of proof shall be upon the Commission.

(e) The provisions of section 9(b) [5 U.S.C. 558(c)(1) and (2)] of the Administrative Procedure Act which apply with respect to the institution of any proceeding for the revocation of a license or permit shall apply also with respect to the institution, under this section, of any proceeding for the issuance of a cease and desist order.

(f) For purposes of this section:

(1) The term "willful", when used with reference to the commission or omission of any act, means the conscious and deliberate commission or omission of such act, irrespective of any intent to violate any provision of this Act or any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States.

(2) The term "repeated", when used with reference to the commission or omission of any act, means the commission or omission of such act more than once or, if such commission or omission is continuous, for more than one day.

(g) If a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary.

**SEC. 313. [47 U.S.C. 313] APPLICATION OF ANTITRUST LAWS; REFUSAL OF LICENSES AND PERMITS IN CERTAIN CASES.**

(a) All laws of the United States relating to unlawful restraints and monopolies and to combinations, contracts or agreements in restraint of trade are hereby declared to be applicable to the manufacture and sale of and to trade in radio apparatus and devices entering into or affecting interstate or foreign commerce and to interstate or foreign radio communications. Whenever in any suit, action, or proceeding, civil or criminal, brought under the provisions of any of said laws or in any proceedings brought to enforce or to review findings and orders of the Federal Trade Commission or other governmental agency in respect of any matters as to which said Commission or other governmental agency is by law authorized to act, any licensee shall be found guilty of the violation of the provisions of such laws or any of them, the court, in addition to the penalties imposed by said laws, may adjudge, order, and/or decree that the license of such licensee shall, as of the date the decree or judgment becomes finally effective or as of such date as the said decree shall fix, be revoked and that all rights under such license shall thereupon cease: *Provided, however,* That such licensee shall have the same right of appeal or review, as is provided by law in respect of other decrees and judgments of said court.

(b) The Commission is hereby directed to refuse a station license and/or the permit hereinafter required for the construction of a station to any person (or to any person directly or indirectly controlled by such person) whose license has been revoked by a court under this section.

**SEC. 314. [47 U.S.C. 314] PRESERVATION OF COMPETITION IN COMMERCE.**

After the effective date of this Act no person engaged directly, or indirectly through any person directly or indirectly controlling or

controlled by, or under direct or indirect common control with, such person, or through an agent, or otherwise, in the business of transmitting and/or receiving for hire energy, communications, or signals by radio in accordance with the terms of the license issued under this Act, shall by purchase, lease, construction, or otherwise, directly or indirectly, acquire, own, control, or operate any cable or wire telegraph or telephone line or system between any place in any State, Territory, or possession of the United States or in the District of Columbia, and any place in any foreign country, or shall acquire, own, or control any part of the stock or other capital share or any interest in the physical property and/or other assets of any such cable, wire, telegraph, or telephone line or system, if in either case the purpose is and/or the effect thereof may be to substantially lessen competition or to restrain commerce between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or unlawfully to create monopoly in any line of commerce; nor shall any person engaged directly, or indirectly through any person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such person, or through an agent, or otherwise, in the business of transmitting and/or receiving for hire messages by any cable, wire, telegraph, or telephone line or system (a) between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any other State, Territory, or possession of the United States; or (b) between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, by purchase, lease, construction, or otherwise, directly or indirectly acquire, own, control, or operate any station or the apparatus therein, or any system for transmitting and/or receiving radio communications or signals between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or shall acquire, own, or control any part of the stock or other capital share of any interest in the physical property and/or other assets of any such radio station, apparatus, or system, if in either case, the purpose is and/or the effect thereof may be to substantially lessen competition or to restrain commerce between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or unlawfully to create monopoly in any line of commerce.

**SEC. 315. [47 U.S.C. 315] FACILITIES FOR CANDIDATES FOR PUBLIC OFFICE.**

(a) If any licensee shall permit any person who is a legally qualified candidate for any public office to use a broadcasting station, he shall afford equal opportunities to all other such candidates for that office in the use of such broadcasting station: *Provided*, That such licensee shall have no power of censorship over the material broadcast under the provision of this section. No obligation is hereby imposed under this subsection upon any licensee to allow the use of its station by any such candidate. Appearance by a legally qualified candidate on any—

- (1) bona fide newscast,
- (2) bona fide news interview,

(3) bona fide news documentary (if the appearance of the candidate is incidental to the presentation of the subject or subjects covered by the news documentary), or

(4) on-the-spot coverage of bona fide news events (including but not limited to political conventions and activities incidental thereto),

shall not be deemed to be use of a broadcasting station within the meaning of this subsection. Nothing in the foregoing sentence shall be construed as relieving broadcasters, in connection with the presentation of newscasts, news interviews, news documentaries, and on-the-spot coverage of news events, from the obligation imposed upon them under this Act to operate in the public interest and to afford reasonable opportunity for the discussion of conflicting views on issues of public importance.<sup>1</sup>

(b)<sup>2</sup> CHARGES.—

(1) IN GENERAL.—The charges made for the use of any broadcasting station by any person who is a legally qualified candidate for any public office in connection with his campaign for nomination for election, or election, to such office shall not exceed—

(A) subject to paragraph (2), during the forty-five days preceding the date of a primary or primary runoff election and during the sixty days preceding the date of a general or special election in which such person is a candidate, the lowest unit charge of the station for the same class and amount of time for the same period; and

<sup>1</sup>Public Law 99-500, 100 Stat. 1783-67, Oct. 18, 1986, contained the following proviso: "Provided further, That funds appropriated to the Federal Communications Commission by this Act shall be used to consider alternative means of administration and enforcement of the Fairness Doctrine and to report to the Congress by September 30, 1987."

Public Law 86-677, approved August 24, 1960, 74 Stat. 554, suspended the equal opportunity provision of section 315(a) for the period of the 1960 Presidential and Vice Presidential campaigns with respect to nominees for the offices of President and Vice President of the United States. It provided:

That that part of section 315(a) of the Communications Act of 1934, as amended, which requires any licensee of a broadcast station who permits any person who is a legally qualified candidate for any public office to use a broadcasting station to afford equal opportunities to all other such candidates for that office in the use of such broadcasting station, is suspended for the period of the 1960 Presidential and Vice Presidential campaigns with respect to nominees for the offices of President and Vice President of the United States. Nothing in the foregoing shall be construed as relieving broadcasters from the obligation imposed upon them under this Act to operate in the public interest.

(2) The Federal Communications Commission shall make a report to the Congress, not later than March 1, 1961, with respect to the effect of the provisions of this joint resolution and any recommendations the Commission may have for amendments to the Communications Act of 1934 as a result of experience under the provisions of this joint resolution.

Public Law 86-274, which contained amendments to section 315, also contained the following provision:

SEC. 2. [47 U.S.C. 315 note] (a) The Congress declares its intention to reexamine from time to time the amendment to section 315(d) of the Communications Act of 1934 made by the first section of this Act, to ascertain whether such amendment has proved to be effective and practicable.

(b) To assist the Congress in making its reexaminations of such amendment, the Federal Communications Commission shall include in each annual report it makes to Congress a statement setting forth (1) the information and data used by it in determining questions arising from or connected with such amendment, and (2) such recommendations as it deems necessary in the public interest.

<sup>2</sup>The Bipartisan Campaign Reform Act of 2001 (PL 107-155) amended section 315 of the Communications Act of 1934. Section 201(b) of the Bipartisan Campaign Reform Act of 2001 contained the following provision:

(b) [2 U.S.C. 434 note] RESPONSIBILITIES OF FEDERAL COMMUNICATIONS COMMISSION.—The Federal Communications Commission shall compile and maintain any information the Federal Election Commission may require to carry out section 304(f) of the Federal Election Campaign Act of 1971 (as added by subsection (a)), and shall make such information available to the public on the Federal Communication Commission's website.

(B) at any other time, the charges made for comparable use of such station by other users thereof.

(2) CONTENT OF BROADCASTS.—

(A) IN GENERAL.—In the case of a candidate for Federal office, such candidate shall not be entitled to receive the rate under paragraph (1)(A) for the use of any broadcasting station unless the candidate provides written certification to the broadcast station that the candidate (and any authorized committee of the candidate) shall not make any direct reference to another candidate for the same office, in any broadcast using the rights and conditions of access under this Act, unless such reference meets the requirements of subparagraph (C) or (D).

(B) LIMITATION ON CHARGES.—If a candidate for Federal office (or any authorized committee of such candidate) makes a reference described in subparagraph (A) in any broadcast that does not meet the requirements of subparagraph (C) or (D), such candidate shall not be entitled to receive the rate under paragraph (1)(A) for such broadcast or any other broadcast during any portion of the 45-day and 60-day periods described in paragraph (1)(A), that occur on or after the date of such broadcast, for election to such office.

(C) TELEVISION BROADCASTS.—A candidate meets the requirements of this subparagraph if, in the case of a television broadcast, at the end of such broadcast there appears simultaneously, for a period no less than 4 seconds—

(i) a clearly identifiable photographic or similar image of the candidate; and

(ii) a clearly readable printed statement, identifying the candidate and stating that the candidate has approved the broadcast and that the candidate's authorized committee paid for the broadcast.

(D) RADIO BROADCASTS.—A candidate meets the requirements of this subparagraph if, in the case of a radio broadcast, the broadcast includes a personal audio statement by the candidate that identifies the candidate, the office the candidate is seeking, and indicates that the candidate has approved the broadcast.

(E) CERTIFICATION.—Certifications under this section shall be provided and certified as accurate by the candidate (or any authorized committee of the candidate) at the time of purchase.

(F) DEFINITIONS.—For purposes of this paragraph, the terms "authorized committee" and "Federal office" have the meanings given such terms by section 301 of the Federal Election Campaign Act of 1971 (2 U.S.C. 431).

(c) For purposes of this section—

(1) the term "broadcasting station" includes a community antenna television system; and

(2) the term "licensee" and "station licensee" when used with respect to a community antenna television system mean the operator of such system.

(d) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

(e)<sup>1</sup> POLITICAL RECORD.—

(1) IN GENERAL.—A licensee shall maintain, and make available for public inspection, a complete record of a request to purchase broadcast time that—

(A) is made by or on behalf of a legally qualified candidate for public office; or

(B) communicates a message relating to any political matter of national importance, including—

(i) a legally qualified candidate;

(ii) any election to Federal office; or

(iii) a national legislative issue of public importance.

(2) CONTENTS OF RECORD.—A record maintained under paragraph (1) shall contain information regarding—

(A) whether the request to purchase broadcast time is accepted or rejected by the licensee;

(B) the rate charged for the broadcast time;

(C) the date and time on which the communication is aired;

(D) the class of time that is purchased;

(E) the name of the candidate to which the communication refers and the office to which the candidate is seeking election, the election to which the communication refers, or the issue to which the communication refers (as applicable);

(F) in the case of a request made by, or on behalf of, a candidate, the name of the candidate, the authorized committee of the candidate, and the treasurer of such committee; and

(G) in the case of any other request, the name of the person purchasing the time, the name, address, and phone number of a contact person for such person, and a list of the chief executive officers or members of the executive committee or of the board of directors of such person.

(3) TIME TO MAINTAIN FILE.—The information required under this subsection shall be placed in a political file as soon as possible and shall be retained by the licensee for a period of not less than 2 years.

**SEC. 316. [47 U.S.C. 316] MODIFICATION BY COMMISSION OF CONSTRUCTION PERMITS OR LICENSES.**

(a)(1) Any station license or construction permit may be modified by the Commission either for a limited time or for the duration of the term thereof, if in the judgment of the Commission such action will promote the public interest, convenience, and necessity, or the provisions of this Act or of any treaty ratified by the United States will be more fully complied with. No such order of modification shall become final until the holder of the license or permit shall have been notified in writing of the proposed action and the grounds and reasons therefor, and shall be given reasonable opportunity, of at least thirty days, to protest such proposed order of

<sup>1</sup>Effective November 6, 2002, section 504 of the Bipartisan Campaign Reform Act of 2002 (P.L. 107-155; 116 Stat. 115) amends section 315 by redesignating subsections (e) and (f) as subsections (f) and (g), respectively, and inserting after subsection (d) a new subsection (e), shown above. The amendment probably should have been to insert subsection (e) at the end of section 315, since subsections (e) and (f) do not appear in law.

modification; except that, where safety of life or property is involved, the Commission may by order provide, for a shorter period of notice.

(2) Any other licensee or permittee who believes its license or permit would be modified by the proposed action may also protest the proposed action before its effective date.

(3) A protest filed pursuant to this subsection shall be subject to the requirements of section 309 for petitions to deny.

(b) In any case where a hearing is conducted pursuant to the provisions of this section, both the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission; except that, with respect to any issue that addresses the question of whether the proposed action would modify the license or permit of a person described in subsection (a)(2), such burdens shall be as determined by the Commission.

**SEC. 317. [47 U.S.C. 317] ANNOUNCEMENT WITH RESPECT TO CERTAIN MATTER BROADCAST.**

(a)(1) All matter broadcast by any radio station for which any money, service or other valuable consideration is directly or indirectly paid, or promised to or charged or accepted by, the station so broadcasting, from any person, shall, at the time the same is so broadcast, be announced as paid for or furnished, as the case may be, by such person: *Provided*, That "service or other valuable consideration" shall not include any service or property furnished without charge or at a nominal charge for use on, or in connection with, a broadcast unless it is so furnished in consideration for an identification in a broadcast of any person, product, service, trademark, or brand name beyond an identification which is reasonably related to the use of such service or property on the broadcast.

(2) Nothing in this section shall preclude the Commission from requiring that an appropriate announcement shall be made at the time of the broadcast in the case of any political program or any program involving the discussion of any controversial issue for which any films, records, transcriptions, talent, scripts, or other material or service of any kind have been furnished, without charge or at a nominal charge, directly or indirectly, as an inducement to the broadcast of such program.

(b) In any case where a report has been made to a radio station, as required by section 507 of this Act, of circumstances which would have required an announcement under this section had the consideration been received by such radio station, an appropriate announcement shall be made by such radio station.

(c) The licensee of each radio station shall exercise reasonable diligence to obtain from its employees, and from other persons with whom it deals directly in connection with any program or program matter for broadcast, information to enable such licensee to make the announcement required by this section.

(d) The Commission may waive the requirement of an announcement as provided in this section in any case or class of cases with respect to which it determines that the public interest, convenience, or necessity does not require the broadcasting of such announcement.

(e) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

**SEC. 318. [47 U.S.C. 318] OPERATION OF TRANSMITTING APPARATUS.**

The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission: *Provided, however,* That the Commission if it shall find that the public interest, convenience, or necessity will be served thereby may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, and (3) stations operated as common carriers on frequencies below thirty thousand kilocycles: *Provided further,* That the Commission shall have power to make special regulations governing the granting of licenses for the use of automatic radio devices and for the operation of such devices.

**SEC. 319. [47 U.S.C. 319] CONSTRUCTION PERMITS.**

(a) No license shall be issued under the authority of this Act for the operation of any station unless a permit for its construction has been granted by the Commission. The application for a construction permit shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and the financial, technical, and other ability of the applicant to construct and operate the station, the ownership and location of the proposed station and of the station or stations with which it is proposed to communicate, the frequencies desired to be used, the hours of the day or other periods of time during which it is proposed to operate the station, the purpose for which the station is to be used, the type of transmitting apparatus to be used, the power to be used, the date upon which the station is expected to be completed and in operation, and such other information as the Commission may require. Such application shall be signed by the applicant in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(b) Such permit for construction shall show specifically the earliest and latest dates between which the actual operation of such station is expected to begin, and shall provide that said permit will be automatically forfeited if the station is not ready for operation within the time specified or within such further time as the Commission may allow, unless prevented by causes not under the control of the grantee.

(c) Upon the completion of any station for the construction or continued construction of which a permit has been granted, and upon it being made to appear to the Commission that all the terms, conditions, and obligations set forth in the application and permit have been fully met, and that no cause or circumstance arising or first coming to the knowledge of the Commission since the granting of the permit would, in the judgment of the Commission, make the operation of such station against the public interest, the Commission shall issue a license to the lawful holder of said permit for the operation of said station. Said license shall conform generally to the terms of said permit. The provisions of section 309 (a), (b), (c), (d), (e), (f), and (g) shall not apply with respect any station license

the issuance of which is provided for and governed by the provisions of this subsection.

(d) A permit for construction shall not be required for Government stations, amateur stations, or mobile stations. A permit for construction shall not be required for public coast stations, privately owned fixed microwave stations, or stations licensed to common carriers, unless the Commission determines that the public interest, convenience, and necessity would be served by requiring such permits for any such stations. With respect to any broadcasting station, the Commission shall not have any authority to waive the requirement of a permit for construction, except that the Commission may by regulation determine that a permit shall not be required for minor changes in the facilities of authorized broadcast stations. With respect to any other station or class of stations, the Commission shall not waive the requirement for a construction permit unless the Commission determines that the public interest, convenience, and necessity would be served by such a waiver.

**SEC. 320. [47 U.S.C. 320] DESIGNATION OF STATIONS LIABLE TO INTERFERE WITH DISTRESS SIGNALS.**

The Commission is authorized to designate from time to time radio stations the communications or signals of which, in its opinion, are liable to interfere with the transmission or reception of distress signals of ships. Such stations are required to keep a licensed radio operator listening in on the frequencies designated for signals of distress and radio communications relating thereto during the entire period the transmitter of such station is in operation.

**SEC. 321. [47 U.S.C. 321] DISTRESS SIGNALS AND COMMUNICATIONS.**

(a) The transmitting set in a radio station on shipboard may be adjusted in such a manner as to produce a maximum of radiation, irrespective of the amount of interference which may thus be caused, when such station is sending radio communications or signals of distress and radio communications relating thereto.

(b) All radio stations, including Government stations and stations on board foreign vessels when within the territorial waters of the United States, shall give absolute priority to radio communications or signals relating to ships in distress; shall cease all sending on frequencies which will interfere with hearing a radio communication or signal of distress, and, except when engaged in answering or aiding the ship in distress, shall refrain from sending any radio communications or signals until there is assurance that no interference will be caused with the radio communications or signals relating thereto, and shall assist the vessel in distress, so far as possible, by complying with its instructions.

**SEC. 322. [47 U.S.C. 322] INTERCOMMUNICATION IN MOBILE SERVICE.**

Every land station open to general public service between the coast and vessels or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any ship or aircraft station at sea; and each station on shipboard or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any other station on shipboard or aircraft at sea or with any land station open to general public service between the coast and vessels or aircraft at sea: *Provided*, That such exchange of radio

communication shall be without distinction as to radio systems or instruments adopted by each station.

**SEC. 323. [47 U.S.C. 323] INTERFERENCE BETWEEN GOVERNMENT AND COMMERCIAL STATIONS.**

(a) At all places where Government and private or commercial radio stations on land operate in such close proximity that interference with the work of Government stations cannot be avoided when they are operating simultaneously, such private or commercial stations as do interfere with the transmission or reception of radio communications or signals by the Government stations concerned shall not use their transmitters during the first fifteen minutes of each hour, local standard time.

(b) The Government stations for which the above-mentioned division of time is established shall transmit radio communications or signals only during the first fifteen minutes of each hour, local standard time, except in case of signals or radio communications relating to vessels in distress and vessel requests for information as to course, location, or compass direction.

**SEC. 324. [47 U.S.C. 324] USE OF MINIMUM POWER.**

In all circumstances, except in case of radio communications or signals relating to vessels in distress, all radio stations, including those owned and operated by the United States, shall use the minimum amount of power necessary to carry out the communication desired.

**SEC. 325. [47 U.S.C. 325] FALSE DISTRESS SIGNALS; REBROADCASTING; STUDIOS OF FOREIGN STATIONS.**

(a) No person within the jurisdiction of the United States shall knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent signals of distress, or communication relating thereto, nor shall any broadcasting station rebroadcast the program or any part thereof of another broadcasting station without the express authority of the originating station.

(b)(1) No cable system or other multichannel video programming distributor shall retransmit the signal of a broadcasting station, or any part thereof, except—

(A) with the express authority of the originating station;

(B) under section 614, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section; or

(C) under section 338, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section.

(2) This subsection shall not apply—

(A) to retransmission of the signal of a noncommercial television broadcast station;

(B) to retransmission of the signal of a television broadcast station outside the station's local market by a satellite carrier directly to its subscribers, if—

(i) such station was a superstation on May 1, 1991;

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; and

(iii) the satellite carrier complies with any network nonduplication, syndicated exclusivity, and sports blackout

rules adopted by the Commission under section 339(b) of this Act;

(C) until December 31, 2004, to retransmission of the signals of network stations directly to a home satellite antenna, if the subscriber receiving the signal—

(i) is located in an area outside the local market of such stations; and

(ii) resides in an unserved household;

(D) to retransmission by a cable operator or other multi-channel video provider, other than a satellite carrier, of the signal of a television broadcast station outside the station's local market if such signal was obtained from a satellite carrier and—

(i) the originating station was a superstation on May 1, 1991; and

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; or

(E) during the 6-month period beginning on the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, to the retransmission of the signal of a television broadcast station within the station's local market by a satellite carrier directly to its subscribers under the statutory license of section 122 of title 17, United States Code.

For purposes of this paragraph, the terms "satellite carrier" and "superstation" have the meanings given those terms, respectively, in section 119(d) of title 17, United States Code, as in effect on the date of the enactment of the Cable Television Consumer Protection and Competition Act of 1992, the term "unserved household" has the meaning given that term under section 119(d) of such title, and the term "local market" has the meaning given that term in section 122(j) of such title.

(3)(A) Within 45 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall commence a rulemaking proceeding to establish regulations to govern the exercise by television broadcast stations of the right to grant retransmission consent under this subsection and of the right to signal carriage under section 614, and such other regulations as are necessary to administer the limitations contained in paragraph (2). The Commission shall consider in such proceeding the impact that the grant of retransmission consent by television stations may have on the rates for the basic service tier and shall ensure that the regulations prescribed under this subsection do not conflict with the Commission's obligation under section 623(b)(1) to ensure that the rates for the basic service tier are reasonable. Such rulemaking proceeding shall be completed within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992.

(B) The regulations required by subparagraph (A) shall require that television stations, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992 and every three years thereafter, make an election between the right to grant retransmission consent under this subsection and the right to signal carriage under section 614. If there is more than

one cable system which services the same geographic area, a station's election shall apply to all such cable systems.

(C) Within 45 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall commence a rulemaking proceeding to revise the regulations governing the exercise by television broadcast stations of the right to grant retransmission consent under this subsection, and such other regulations as are necessary to administer the limitations contained in paragraph (2). The Commission shall complete all actions necessary to prescribe such regulations within 1 year after such date of enactment. Such regulations shall—

(i) establish election time periods that correspond with those regulations adopted under subparagraph (B) of this paragraph; and

(ii) until January 1, 2006, prohibit a television broadcast station that provides retransmission consent from engaging in exclusive contracts for carriage or failing to negotiate in good faith, and it shall not be a failure to negotiate in good faith if the television broadcast station enters into retransmission consent agreements containing different terms and conditions, including price terms, with different multichannel video programming distributors if such different terms and conditions are based on competitive marketplace considerations.

(4) If an originating television station elects under paragraph (3)(B) to exercise its right to grant retransmission consent under this subsection with respect to a cable system, the provisions of section 614 shall not apply to the carriage of the signal of such station by such cable system. If an originating television station elects under paragraph (3)(C) to exercise its right to grant retransmission consent under this subsection with respect to a satellite carrier, section 338 shall not apply to the carriage of the signal of such station by such satellite carrier.

(5) The exercise by a television broadcast station of the right to grant retransmission consent under this subsection shall not interfere with or supersede the rights under section 338, 614, or 615 of any station electing to assert the right to signal carriage under that section.

(6) Nothing in this section shall be construed as modifying the compulsory copyright license established in section 111 of title 17, United States Code, or as affecting existing or future video programming licensing agreements between broadcasting stations and video programmers.

(7)<sup>1</sup> For purposes of this subsection, the term—

(A) “network station” has the meaning given such term under section 119(d) of title 17, United States Code; and

(B) “television broadcast station” means an over-the-air commercial or noncommercial television broadcast station licensed by the Commission under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a low-power or translator television station.

<sup>1</sup> Margin so in law.

(c) No person shall be permitted to locate, use, or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy, or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there having a power output of sufficient intensity and/or being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon proper application therefor.

(d) Such application shall contain such information as the Commission may by regulation prescribe, and the granting or refusal thereof shall be subject to the requirements of section 309 hereof with respect to applications for station licenses or renewal or modification thereof, and the license or permission so granted shall be revocable for false statements in the application so required or when the Commission, after hearings, shall find its continuation no longer in the public interest.

(e) ENFORCEMENT PROCEEDINGS AGAINST SATELLITE CARRIERS CONCERNING RETRANSMISSIONS OF TELEVISION BROADCAST STATIONS IN THE RESPECTIVE LOCAL MARKETS OF SUCH CARRIERS.—

(1) COMPLAINTS BY TELEVISION BROADCAST STATIONS.—If after the expiration of the 6-month period described under subsection (b)(2)(E) a television broadcast station believes that a satellite carrier has retransmitted its signal to any person in the local market of such station in violation of subsection (b)(1), the station may file with the Commission a complaint providing—

- (A) the name, address, and call letters of the station;
- (B) the name and address of the satellite carrier;
- (C) the dates on which the alleged retransmission occurred;
- (D) the street address of at least one person in the local market of the station to whom the alleged retransmission was made;
- (E) a statement that the retransmission was not expressly authorized by the television broadcast station; and
- (F) the name and address of counsel for the station.

(2) SERVICE OF COMPLAINTS ON SATELLITE CARRIERS.—For purposes of any proceeding under this subsection, any satellite carrier that retransmits the signal of any broadcast station shall be deemed to designate the Secretary of the Commission as its agent for service of process. A television broadcast station may serve a satellite carrier with a complaint concerning an alleged violation of subsection (b)(1) through retransmission of a station within the local market of such station by filing the original and two copies of the complaint with the Secretary of the Commission and serving a copy of the complaint on the satellite carrier by means of two commonly used overnight delivery services, each addressed to the chief executive officer of the satellite carrier at its principal place of business, and each marked “URGENT LITIGATION MATTER” on the outer packaging. Service shall be deemed complete one business day after a copy of the complaint is provided to the delivery services for overnight delivery. On receipt of a complaint filed by a tele-

vision broadcast station under this subsection, the Secretary of the Commission shall send the original complaint by United States mail, postage prepaid, receipt requested, addressed to the chief executive officer of the satellite carrier at its principal place of business.

(3) ANSWERS BY SATELLITE CARRIERS.—Within five business days after the date of service, the satellite carrier shall file an answer with the Commission and shall serve the answer by a commonly used overnight delivery service and by United States mail, on the counsel designated in the complaint at the address listed for such counsel in the complaint.

(4) DEFENSES.—

(A) EXCLUSIVE DEFENSES.—The defenses under this paragraph are the exclusive defenses available to a satellite carrier against which a complaint under this subsection is filed.

(B) DEFENSES.—The defenses referred to under subparagraph (A) are the defenses that—

(i) the satellite carrier did not retransmit the television broadcast station to any person in the local market of the station during the time period specified in the complaint;

(ii) the television broadcast station had, in a writing signed by an officer of the television broadcast station, expressly authorized the retransmission of the station by the satellite carrier to each person in the local market of the television broadcast station to which the satellite carrier made such retransmissions for the entire time period during which it is alleged that a violation of subsection (b)(1) has occurred;

(iii) the retransmission was made after January 1, 2002, and the television broadcast station had elected to assert the right to carriage under section 338 as against the satellite carrier for the relevant period; or

(iv) the station being retransmitted is a non-commercial television broadcast station.

(5) COUNTING OF VIOLATIONS.—The retransmission without consent of a particular television broadcast station on a particular day to one or more persons in the local market of the station shall be considered a separate violation of subsection (b)(1).

(6) BURDEN OF PROOF.—With respect to each alleged violation, the burden of proof shall be on a television broadcast station to establish that the satellite carrier retransmitted the station to at least one person in the local market of the station on the day in question. The burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under paragraph (4)(B)(i).

(7) PROCEDURES.—

(A) REGULATIONS.—Within 60 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall issue procedural regulations implementing this subsection which shall supersede procedures under section 312.

(B) DETERMINATIONS.—

(i) IN GENERAL.—Within 45 days after the filing of a complaint, the Commission shall issue a final determination in any proceeding brought under this subsection. The Commission's final determination shall specify the number of violations committed by the satellite carrier. The Commission shall hear witnesses only if it clearly appears, based on written filings by the parties, that there is a genuine dispute about material facts. Except as provided in the preceding sentence, the Commission may issue a final ruling based on written filings by the parties.

(ii) DISCOVERY.—The Commission may direct the parties to exchange pertinent documents, and if necessary to take prehearing depositions, on such schedule as the Commission may approve, but only if the Commission first determines that such discovery is necessary to resolve a genuine dispute about material facts, consistent with the obligation to make a final determination within 45 days.

(8) RELIEF.—If the Commission determines that a satellite carrier has retransmitted the television broadcast station to at least one person in the local market of such station and has failed to meet its burden of proving one of the defenses under paragraph (4) with respect to such retransmission, the Commission shall be required to—

(A) make a finding that the satellite carrier violated subsection (b)(1) with respect to that station; and

(B) issue an order, within 45 days after the filing of the complaint, containing—

(i) a cease-and-desist order directing the satellite carrier immediately to stop making any further retransmissions of the television broadcast station to any person within the local market of such station until such time as the Commission determines that the satellite carrier is in compliance with subsection (b)(1) with respect to such station;

(ii) if the satellite carrier is found to have violated subsection (b)(1) with respect to more than two television broadcast stations, a cease-and-desist order directing the satellite carrier to stop making any further retransmission of any television broadcast station to any person within the local market of such station, until such time as the Commission, after giving notice to the station, that the satellite carrier is in compliance with subsection (b)(1) with respect to such stations; and

(iii) an award to the complainant of that complainant's costs and reasonable attorney's fees.

(9) COURT PROCEEDINGS ON ENFORCEMENT OF COMMISSION ORDER.—

(A) IN GENERAL.—On entry by the Commission of a final order granting relief under this subsection—

(i) a television broadcast station may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a final

judgment enforcing all relief granted by the Commission; and

(ii) the satellite carrier may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a judgment reversing the Commission's order.

(B) APPEAL.—The procedure for an appeal under this paragraph by the satellite carrier shall supersede any other appeal rights under Federal or State law. A United States district court shall be deemed to have personal jurisdiction over the satellite carrier if the carrier, or a company under common control with the satellite carrier, has delivered television programming by satellite to more than 30 customers in that district during the preceding 4-year period. If the United States District Court for the Eastern District of Virginia does not have personal jurisdiction over the satellite carrier, an enforcement action or appeal shall be brought in the United States District Court for the District of Columbia, which may find personal jurisdiction based on the satellite carrier's ownership of licenses issued by the Commission. An application by a television broadcast station for an order enforcing any cease-and-desist relief granted by the Commission shall be resolved on a highly expedited schedule. No discovery may be conducted by the parties in any such proceeding. The district court shall enforce the Commission order unless the Commission record reflects manifest error and an abuse of discretion by the Commission.

(10) CIVIL ACTION FOR STATUTORY DAMAGES.—Within 6 months after issuance of an order by the Commission under this subsection, a television broadcast station may file a civil action in any United States district court that has personal jurisdiction over the satellite carrier for an award of statutory damages for any violation that the Commission has determined to have been committed by a satellite carrier under this subsection. Such action shall not be subject to transfer under section 1404(a) of title 28, United States Code. On finding that the satellite carrier has committed one or more violations of subsection (b), the District Court shall be required to award the television broadcast station statutory damages of \$25,000 per violation, in accordance with paragraph (5), and the costs and attorney's fees incurred by the station. Such statutory damages shall be awarded only if the television broadcast station has filed a binding stipulation with the court that such station will donate the full amount in excess of \$1,000 of any statutory damage award to the United States Treasury for public purposes. Notwithstanding any other provision of law, a station shall incur no tax liability of any kind with respect to any amounts so donated. Discovery may be conducted by the parties in any proceeding under this paragraph only if and to the extent necessary to resolve a genuinely disputed issue of fact concerning one of the defenses under paragraph (4). In any such action, the defenses under paragraph (4) shall be exclusive, and the burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under para-

graph (4)(B)(i). A judgment under this paragraph may be enforced in any manner permissible under Federal or State law.

(11) APPEALS.—

(A) IN GENERAL.—The nonprevailing party before a United States district court may appeal a decision under this subsection to the United States Court of Appeals with jurisdiction over that district court. The Court of Appeals shall not issue any stay of the effectiveness of any decision granting relief against a satellite carrier unless the carrier presents clear and convincing evidence that it is highly likely to prevail on appeal and only after posting a bond for the full amount of any monetary award assessed against it and for such further amount as the Court of Appeals may believe appropriate.

(B) APPEAL.—If the Commission denies relief in response to a complaint filed by a television broadcast station under this subsection, the television broadcast station filing the complaint may file an appeal with the United States Court of Appeals for the District of Columbia Circuit.

(12) SUNSET.—No complaint or civil action may be filed under this subsection after December 31, 2001. This subsection shall continue to apply to any complaint or civil action filed on or before such date.

**SEC. 326. [47 U.S.C. 326] CENSORSHIP; INDECENT LANGUAGE.**

Nothing in this Act shall be understood or construed to give the Commission the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the Commission which shall interfere with the right of free speech by means of radio communication.

**SEC. 327. [47 U.S.C. 327] USE OF NAVAL STATIONS FOR COMMERCIAL MESSAGES.**

The Secretary of the Navy is hereby authorized, unless restrained by international agreement, under the terms and conditions and at rates prescribed by him, which rates shall be just and reasonable, and which, upon complaint, shall be subject to review and revision by the Commission, to use all radio stations and apparatus, wherever located, owned by the United States and under the control of the Navy Department, (a) for the reception and transmission of press messages offered by any newspaper published in the United States, its Territories or possessions, or published by citizens of the United States in foreign countries, or by any press association of the United States, and (b) for the reception and transmission of private commercial messages between ships, between ship and shore, between localities in Alaska and between Alaska and the continental United States: *Provided*, That the rates fixed for the reception and transmission of all such messages, other than press messages between the Pacific coast of the United States, Hawaii, Alaska, Guam, American Samoa, and the Orient, and between the United States and the Virgin Islands, shall not be less than the rates charged by privately owned and operated stations for like messages and service: *Provided further*, That the right to use such stations for any of the purposes named in this section

shall terminate and cease as between any countries or localities or between any locality and privately operated ships whenever privately owned and operated stations are capable of meeting the normal communication requirements between such countries or localities or between any locality and privately operated ships, and the Commission shall have notified the Secretary of the Navy thereof.

【Section 328 was repealed by Public Law 103-414, section 304(a)(10), 108 Stat. 4296-7.】

**SEC. 329. [47 U.S.C. 329] ADMINISTRATION OF RADIO LAWS IN TERRITORIES AND POSSESSIONS.**

The Commission is authorized to designate any officer or employee of any other department of the Government on duty in any Territory or possession of the United States to render therein such service in connection with the administration of this Act as the Commission may prescribe and also to designate any officer or employee of any other department of the Government to render such services at any place within the United States in connection with the administration of title III of this Act as may be necessary: *Provided*, That such designation shall be approved by the head of the department in which such person is employed.

**SEC. 330. [47 U.S.C. 330] PROHIBITION AGAINST SHIPMENT OF CERTAIN TELEVISION RECEIVERS.**

(a) No person shall ship in interstate commerce, or import from any foreign country into the United States, for sale or resale to the public, apparatus described in paragraph (s) of section 303 unless it complies with rules prescribed by the Commission pursuant to the authority granted by that paragraph: *Provided*, That this section shall not apply to carriers transporting such apparatus without trading in it.

(b) No person shall ship in interstate commerce, manufacture, assemble, or import from any foreign country into the United States, any apparatus described in section 303(u) of this Act except in accordance with rules prescribed by the Commission pursuant to the authority granted by that section. Such rules shall provide performance and display standards for such built-in decoder circuitry. Such rules shall further require that all such apparatus be able to receive and display closed captioning which have been transmitted by way of line 21 of the vertical blanking interval and which conform to the signal and display specifications set forth in the Public Broadcasting System engineering report numbered E-7709-C dated May 1980, as amended by the Telecaption II Decoder Module Performance Specification published by the National Captioning Institute, November 1985. As new video technology is developed, the Commission shall take such action as the Commission determines appropriate to ensure that closed-captioning service continues to be available to consumers. This subsection shall not apply to carriers transporting such apparatus without trading it.

(c)(1) Except as provided in paragraph (2), no person shall ship in interstate commerce or manufacture in the United States any apparatus described in section 303(x) of this Act except in accordance with rules prescribed by the Commission pursuant to the authority granted by that section.

(2) This subsection shall not apply to carriers transporting apparatus referred to in paragraph (1) without trading in it.

(3) The rules prescribed by the Commission under this subsection shall provide for the oversight by the Commission of the adoption of standards by industry for blocking technology. Such rules shall require that all such apparatus be able to receive the rating signals which have been transmitted by way of line 21 of the vertical blanking interval and which conform to the signal and blocking specifications established by industry under the supervision of the Commission.

(4) As new video technology is developed, the Commission shall take such action as the Commission determines appropriate to ensure that blocking service continues to be available to consumers. If the Commission determines that an alternative blocking technology exists that—

(A) enables parents to block programming based on identifying programs without ratings,

(B) is available to consumers at a cost which is comparable to the cost of technology that allows parents to block programming based on common ratings, and

(C) will allow parents to block a broad range of programs on a multichannel system as effectively and as easily as technology that allows parents to block programming based on common ratings,

the Commission shall amend the rules prescribed pursuant to section 303(x) to require that the apparatus described in such section be equipped with either the blocking technology described in such section or the alternative blocking technology described in this paragraph.

(d) For the purposes of this section, and sections 303(s), 303(u), and 303(x)—

(1) The term “interstate commerce” means (A) commerce between any State, the District of Columbia, the Commonwealth of Puerto Rico, or any possession of the United States and any place outside thereof which is within the United States, (B) commerce between points in the same State, the District of Columbia, the Commonwealth of Puerto Rico, or possession of the United States but through any place outside thereof, or (C) commerce wholly within the District of Columbia or any possession of the United States.

(2) The term “United States” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States, but does not include the Canal Zone.

**SEC. 331.<sup>1</sup> [47 U.S.C. 331] VERY HIGH FREQUENCY STATIONS AND AM RADIO STATIONS.**

(a) **VERY HIGH FREQUENCY STATIONS.**—It shall be the policy of the Federal Communications Commission to allocate channels for

<sup>1</sup> Former section 331 was added by Public Law 93–107, 87 Stat. 350, Sept. 14, 1973. The statute also set a date (Dec. 31, 1975) when the provision was to be repealed. The former section 331 read as follows:

*BROADCAST OF GAMES OF PROFESSIONAL SPORTS CLUBS*

*SEC. 331. (a) If any game of a professional sports club is to be broadcast by means of television pursuant to a league television contract and all tickets of admission for seats of such game which were available for purchase by the general public one hundred and twenty hours or more before the scheduled beginning time of such game have been purchased seventy-two hours or more before*

Continued

very high frequency commercial television broadcasting in a manner which ensures that not less than one such channel shall be allocated to each State, if technically feasible. In any case in which licensee of a very high frequency commercial television broadcast station notifies the Commission to the effect that such licensee will agree to the reallocation of its channel to a community within a State in which there is allocated no very high frequency commercial television broadcast channel at the time such notification, the Commission shall, notwithstanding any other provision of law, order such reallocation and issue a license to such licensee for that purpose pursuant to such notification for a term of not to exceed 5 years as provided in section 307(d) of the Communications Act of 1934.

(b) **AM RADIO STATIONS.**—It shall be the policy of the Commission, in any case in which the licensee of an existing AM daytime-only station located in a community with a population of more than 100,000 persons that lacks a local full-time aural station licensed to that community and that is located within a Class I station primary service area notifies the Commission that such licensee seeks to provide full-time service, to ensure that such a licensee is able to place a principal community contour signal over its entire community of license 24 hours a day, if technically feasible. The Commission shall report to the appropriate committees of Congress within 30 days after the date of enactment of this Act on how it intends to meet this policy goal.

**SEC. 332. [47 U.S.C. 332] MOBILE SERVICES.**

(a) In taking actions to manage the spectrum to be made available for use by the private mobile services, the Commission shall consider, consistent with section 1 of this Act, whether such actions will—

- (1) promote the safety of life and property;

---

*such time, no agreement which would prevent the broadcasting by means of television of such game at the same time and in the area in which such game is being played shall be valid or have any force or effect. The right to broadcast such game by means of television at such time and in such area shall be made available, by the person or persons having such right, to a television broadcast licensee on reasonable terms and conditions unless the broadcasting by means of television of such game at such time and in such area would be a telecasting which section 3 of Public Law 87-331, as amended (15 U.S.C. 1293), is intended to prevent.*

*(b) If any person violates subsection (a) of this section, any interested person may commence a civil action for injunctive relief restraining such violation in any United States district court for a district in which the defendant resides or has an agent. In any such action, the court may award the cost of the suit including reasonable attorneys' fees.*

*(c) For the purpose of this section:*

*(1) The term "professional sports club" includes any professional football, baseball, basketball, or hockey club.*

*(2) The term "league television contract" means any joint agreement by or among professional sports clubs by which any league of such clubs sells or otherwise transfers all or any part of the rights of such league's member clubs in the sponsored telecasting of the games engaged in or conducted by such clubs.*

*(3) The term "agreement" includes any contract, arrangement, or other understanding.*

*(4) The term "available for purchase by the general public", when used with respect to tickets of admission for seats at a game or games to be played by a professional sports club, means only those tickets on sale at the stadium where such game or games are to be played, or, if such tickets are not sold at such stadium, only those tickets on sale at the box office closest to such stadium.*

*(d) The Commission shall conduct a continuing study of the effect of this section and shall, not later than April 15 of each year, submit a report to the Committee on Commerce of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives with respect thereto. Such report shall include pertinent statistics and data and any recommendations for legislation relating to the broadcasting of professional football, baseball, basketball, and hockey games which the Commission determines would serve the public interest.*

(2) improve the efficiency of spectrum use and reduce the regulatory burden upon spectrum users, based upon sound engineering principles, user operational requirements, and marketplace demands;

(3) encourage competition and provide services to the largest feasible number of users; or

(4) increase interservice sharing opportunities between private mobile services and other services.

(b)(1) The Commission, in coordinating the assignment of frequencies to stations in the private mobile services and in the fixed services (as defined by the Commission by rule), shall have authority to utilize assistance furnished by advisory coordinating committees consisting of individuals who are not officers or employees of the Federal Government.

(2) The authority of the Commission established in this subsection shall not be subject to or affected by the provisions of part III of title 5, United States Code, or section 3679(b) of the Revised Statutes (31 U.S.C. 665(b)).

(3) Any person who provides assistance to the Commission under this subsection shall not be considered, by reason of having provided such assistance, a Federal employee.

(4) Any advisory coordinating committee which furnishes assistance to the Commission under this subsection shall not be subject to the provisions of the Federal Advisory Committee Act.

(c)<sup>1</sup> REGULATORY TREATMENT OF MOBILE SERVICES.—

<sup>1</sup> Section 6002 of the Omnibus Budget Reconciliation Act of 1993 (P.L. 103-66; Aug. 10, 1993; 107 Stat. 312), subsection (b)(2) of which extensively revised section 332(c) and (d) of the Communications Act of 1934, contained the following effective date and deadlines provisions:

**SEC. 6002. AUTHORITY TO USE COMPETITIVE BIDDING.**

(a) \* \* \*

\* \* \* \* \*

(c) [47 U.S.C. 332 note] EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section are effective on the date of enactment of this Act.

(2) EFFECTIVE DATES OF MOBILE SERVICE AMENDMENTS.—The amendments made by subsection (b)(2) shall be effective on the date of enactment of this Act, except that—

(A) section 332(c)(3)(A) of the Communications Act of 1934, as amended by such subsection, shall take effect 1 year after such date of enactment; and

(B) any private land mobile service provided by any person before such date of enactment, and any paging service utilizing frequencies allocated as of January 1, 1993, for private land mobile services, shall, except for purposes of section 332(c)(6) of such Act, be treated as a private mobile service until 3 years after such date of enactment.

(d) DEADLINES FOR COMMISSION ACTION.—

(1) [47 U.S.C. 309 note] GENERAL RULEMAKING.—The Federal Communications Commission shall prescribe regulations to implement section 309(j) of the Communications Act of 1934 (as added by this section) within 210 days after the date of enactment of this Act.

(2) [47 U.S.C. 309 note] PCS ORDERS AND LICENSING.—The Commission shall—

(A) within 180 days after such date of enactment, issue a final report and order (i) in the matter entitled “Redevelopment of Spectrum to Encourage Innovation in the Use of New Telecommunications Technologies” (ET Docket No. 92-9); and (ii) in the matter entitled “Amendment of the Commission’s Rules to Establish New Personal Communications Services” (GEN Docket No. 90-314; ET Docket No. 92-100); and

(B) within 270 days after such date of enactment, commence issuing licenses and permits in the personal communications service.

(3) [47 U.S.C. 332 note] TRANSITIONAL RULEMAKING FOR MOBILE SERVICE PROVIDERS.—Within 1 year after the date of enactment of this Act, the Federal Communications Commission—

(A) shall issue such modifications or terminations of the regulations applicable (before the date of enactment of this Act) to private land mobile services as are necessary to implement the amendments made by subsection (b)(2);

(B) in the regulations that will, after such date of enactment, apply to a service that was a private land mobile service and that becomes a commercial mobile service (as a consequence of such amendments), shall make such other modifications or termi-

Continued

(1) COMMON CARRIER TREATMENT OF COMMERCIAL MOBILE SERVICES.—(A) A person engaged in the provision of a service that is a commercial mobile service shall, insofar as such person is so engaged, be treated as a common carrier for purposes of this Act, except for such provisions of title II as the Commission may specify by regulation as inapplicable to that service or person. In prescribing or amending any such regulation, the Commission may not specify any provision of section 201, 202, or 208, and may specify any other provision only if the Commission determines that—

(i) enforcement of such provision is not necessary in order to ensure that the charges, practices, classifications, or regulations for or in connection with that service are just and reasonable and are not unjustly or unreasonably discriminatory;

(ii) enforcement of such provision is not necessary for the protection of consumers; and

(iii) specifying such provision is consistent with the public interest.

(B) Upon reasonable request of any person providing commercial mobile service, the Commission shall order a common carrier to establish physical connections with such service pursuant to the provisions of section 201 of this Act. Except to the extent that the Commission is required to respond to such a request, this subparagraph shall not be construed as a limitation or expansion of the Commission's authority to order interconnection pursuant to this Act.

(C) The Commission shall review competitive market conditions with respect to commercial mobile services and shall include in its annual report an analysis of those conditions. Such analysis shall include an identification of the number of competitors in various commercial mobile services, an analysis of whether or not there is effective competition, an analysis of whether any of such competitors have a dominant share of the market for such services, and a statement of whether additional providers or classes of providers in those services would be likely to enhance competition. As a part of making a determination with respect to the public interest under subparagraph (A)(iii), the Commission shall consider whether the proposed regulation (or amendment thereof) will promote competitive market conditions, including the extent to which such regulation (or amendment) will enhance competition among providers of commercial mobile services. If the Commission determines that such regulation (or amendment) will promote competition among providers of commercial mobile services, such determination may be the basis for a Commission finding that such regulation (or amendment) is in the public interest.

---

nations as may be necessary and practical to assure that licensees in such service are subjected to technical requirements that are comparable to the technical requirements that apply to licensees that are providers of substantially similar common carrier services;

(C) shall issue such other regulations as are necessary to implement the amendments made by subsection (b)(2); and

(D) shall include, in such regulations, modifications, and terminations, such provisions as are necessary to provide for an orderly transition.

(D) The Commission shall, not later than 180 days after the date of enactment of this subparagraph, complete a rule-making required to implement this paragraph with respect to the licensing of personal communications services, including making any determinations required by subparagraph (C).

(2) NON-COMMON CARRIER TREATMENT OF PRIVATE MOBILE SERVICES.—A person engaged in the provision of a service that is a private mobile service shall not, insofar as such person is so engaged, be treated as a common carrier for any purpose under this Act. A common carrier (other than a person that was treated as a provider of a private land mobile service prior to the enactment of the Omnibus Budget Reconciliation Act of 1993) shall not provide any dispatch service on any frequency allocated for common carrier service, except to the extent such dispatch service is provided on stations licensed in the domestic public land mobile radio service before January 1, 1982. The Commission may by regulation terminate, in whole or in part, the prohibition contained in the preceding sentence if the Commission determines that such termination will serve the public interest.

(3) STATE PREEMPTION.—(A) Notwithstanding sections 2(b) and 221(b), no State or local government shall have any authority to regulate the entry of or the rates charged by any commercial mobile service or any private mobile service, except that this paragraph shall not prohibit a State from regulating the other terms and conditions of commercial mobile services. Nothing in this subparagraph shall exempt providers of commercial mobile services (where such services are a substitute for land line telephone exchange service for a substantial portion of the communications within such State) from requirements imposed by a State commission on all providers of telecommunications services necessary to ensure the universal availability of telecommunications service at affordable rates. Notwithstanding the first sentence of this subparagraph, a State may petition the Commission for authority to regulate the rates for any commercial mobile service and the Commission shall grant such petition if such State demonstrates that—

(i) market conditions with respect to such services fail to protect subscribers adequately from unjust and unreasonable rates or rates that are unjustly or unreasonably discriminatory; or

(ii) such market conditions exist and such service is a replacement for land line telephone exchange service for a substantial portion of the telephone land line exchange service within such State.

The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition. If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such periods of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory.

(B) If a State has in effect on June 1, 1993, any regulation concerning the rates for any commercial mobile service offered in such State on such date, such State may, no later than 1 year after the date of enactment of the Omnibus Budget Reconciliation Act of 1993, petition the Commission requesting that the State be authorized to continue exercising authority over such rates. If a State files such a petition, the State's existing regulation shall, notwithstanding subparagraph (A), remain in effect until the Commission completes all action (including any reconsideration) on such petition. The Commission shall review such petition in accordance with the procedures established in such subparagraph, shall complete all action (including any reconsideration) within 12 months after such petition is filed, and shall grant such petition if the State satisfies the showing required under subparagraph (A)(i) or (A)(ii). If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such period of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory. After a reasonable period of time, as determined by the Commission, has elapsed from the issuance of an order under subparagraph (A) or this subparagraph, any interested party may petition the Commission for an order that the exercise of authority by a State pursuant to such subparagraph is no longer necessary to ensure that the rates for commercial mobile services are just and reasonable and not unjustly or unreasonably discriminatory. The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition in whole or in part.

(4) REGULATORY TREATMENT OF COMMUNICATIONS SATELLITE CORPORATION.—Nothing in this subsection shall be construed to alter or affect the regulatory treatment required by title IV of the Communications Satellite Act of 1962 of the corporation authorized by title III of such Act.

(5) SPACE SEGMENT CAPACITY.—Nothing in this section shall prohibit the Commission from continuing to determine whether the provision of space segment capacity by satellite systems to providers of commercial mobile services shall be treated as common carriage.

(6) FOREIGN OWNERSHIP.—The Commission, upon a petition for waiver filed within 6 months after the date of enactment of the Omnibus Budget Reconciliation Act of 1993, may waive the application of section 310(b) to any foreign ownership that lawfully existed before May 24, 1993, of any provider of a private land mobile service that will be treated as a common carrier as a result of the enactment of the Omnibus Budget Reconciliation Act of 1993, but only upon the following conditions:

(A) The extent of foreign ownership interest shall not be increased above the extent which existed on May 24, 1993.

(B) Such waiver shall not permit the subsequent transfer of ownership to any other person in violation of section 310(b).

(7) PRESERVATION OF LOCAL ZONING AUTHORITY.—

(A) GENERAL AUTHORITY.—Except as provided in this paragraph, nothing in this Act shall limit or affect the authority of a State or local government or instrumentality thereof over decisions regarding the placement, construction, and modification of personal wireless service facilities.

(B) LIMITATIONS.—

(i) The regulation of the placement, construction, and modification of personal wireless service facilities by any State or local government or instrumentality thereof—

(I) shall not unreasonably discriminate among providers of functionally equivalent services; and

(II) shall not prohibit or have the effect of prohibiting the provision of personal wireless services.

(ii) A State or local government or instrumentality thereof shall act on any request for authorization to place, construct, or modify personal wireless service facilities within a reasonable period of time after the request is duly filed with such government or instrumentality, taking into account the nature and scope of such request.

(iii) Any decision by a State or local government or instrumentality thereof to deny a request to place, construct, or modify personal wireless service facilities shall be in writing and supported by substantial evidence contained in a written record.

(iv) No State or local government or instrumentality thereof may regulate the placement, construction, and modification of personal wireless service facilities on the basis of the environmental effects of radio frequency emissions to the extent that such facilities comply with the Commission's regulations concerning such emissions.

(v) Any person adversely affected by any final action or failure to act by a State or local government or any instrumentality thereof that is inconsistent with this subparagraph may, within 30 days after such action or failure to act, commence an action in any court of competent jurisdiction. The court shall hear and decide such action on an expedited basis. Any person adversely affected by an act or failure to act by a State or local government or any instrumentality thereof that is inconsistent with clause (iv) may petition the Commission for relief.

(C) DEFINITIONS.—For purposes of this paragraph—

(i) the term "personal wireless services" means commercial mobile services, unlicensed wireless services, and common carrier wireless exchange access services;

(ii) the term “personal wireless service facilities” means facilities for the provision of personal wireless services; and

(iii) the term “unlicensed wireless service” means the offering of telecommunications services using duly authorized devices which do not require individual licenses, but does not mean the provision of direct-to-home satellite services (as defined in section 303(v)).

(8) MOBILE SERVICES ACCESS.—A person engaged in the provision of commercial mobile services, insofar as such person is so engaged, shall not be required to provide equal access to common carriers for the provision of telephone toll services. If the Commission determines that subscribers to such services are denied access to the provider of telephone toll services of the subscribers’ choice, and that such denial is contrary to the public interest, convenience, and necessity, then the Commission shall prescribe regulations to afford subscribers unblocked access to the provider of telephone toll services of the subscribers’ choice through the use of a carrier identification code assigned to such provider or other mechanism. The requirements for unblocking shall not apply to mobile satellite services unless the Commission finds it to be in the public interest to apply such requirements to such services.

(d) DEFINITIONS.—For purposes of this section—

(1) the term “commercial mobile service” means any mobile service (as defined in section 3) that is provided for profit and makes interconnected service available (A) to the public or (B) to such classes of eligible users as to be effectively available to a substantial portion of the public, as specified by regulation by the Commission;

(2) the term “interconnected service” means service that is interconnected with the public switched network (as such terms are defined by regulation by the Commission) or service for which a request for interconnection is pending pursuant to subsection (c)(1)(B); and

(3) the term “private mobile service” means any mobile service (as defined in section 3) that is not a commercial mobile service or the functional equivalent of a commercial mobile service, as specified by regulation by the Commission.

**SEC. 333. [47 U.C.S. 333] WILLFUL OR MALICIOUS INTERFERENCE.**

No person shall willfully or maliciously interfere with or cause interference to any radio communications of any station licensed or authorized by or under this Act or operated by the United States Government.

**SEC. 334. [47 U.C.S. 334] LIMITATION ON REVISION OF EQUAL EMPLOYMENT OPPORTUNITY REGULATIONS.**

(a) LIMITATION.—Except as specifically provided in this section, the Commission shall not revise—

(1) the regulations concerning equal employment opportunity as in effect on September 1, 1992 (47 C.F.R. 73.2080) as such regulations apply to television broadcast station licensees and permittees; or

(2) the forms used by such licensees and permittees to report pertinent employment data to the Commission.

(b) MIDTERM REVIEW.—The Commission shall revise the regulations described in subsection (a) to require a midterm review of television broadcast station licensees' employment practices and to require the Commission to inform such licensees of necessary improvements in recruitment practices identified as a consequence of such review.

(c) AUTHORITY TO MAKE TECHNICAL REVISIONS.—The Commission may revise the regulations described in subsection (a) to make nonsubstantive technical or clerical revisions in such regulations as necessary to reflect changes in technology, terminology, or Commission organization.

**SEC. 335. [47 U.C.S. 335] DIRECT BROADCAST SATELLITE SERVICE OBLIGATIONS.**

(a) PROCEEDING REQUIRED TO REVIEW DBS RESPONSIBILITIES.—The Commission shall, within 180 days after the date of enactment of this section, initiate a rulemaking proceeding to impose, on providers of direct broadcast satellite service, public interest or other requirements for providing video programming. Any regulations prescribed pursuant to such rulemaking shall, at a minimum, apply the access to broadcast time requirement of section 312(a)(7) and the use of facilities requirements of section 315 to providers of direct broadcast satellite service providing video programming. Such proceeding also shall examine the opportunities that the establishment of direct broadcast satellite service provides for the principle of localism under this Act, and the methods by which such principle may be served through technological and other developments in, or regulation of, such service.

(b) CARRIAGE OBLIGATIONS FOR NONCOMMERCIAL, EDUCATIONAL, AND INFORMATIONAL PROGRAMMING.—

(1) CHANNEL CAPACITY REQUIRED.—The Commission shall require, as a condition of any provision, initial authorization, or authorization renewal for a provider of direct broadcast satellite service providing video programming, that the provider of such service reserve a portion of its channel capacity, equal to not less than 4 percent nor more than 7 percent, exclusively for noncommercial programming of an educational or informational nature.

(2) USE OF UNUSED CHANNEL CAPACITY.—A provider of such service may utilize for any purpose any unused channel capacity required to be reserved under this subsection pending the actual use of such channel capacity for noncommercial programming of an educational or informational nature.

(3) PRICES, TERMS, AND CONDITIONS; EDITORIAL CONTROL.—A provider of direct broadcast satellite service shall meet the requirements of this subsection by making channel capacity available to national educational programming suppliers, upon reasonable prices, terms, and conditions, as determined by the Commission under paragraph (4). The provider of direct broadcast satellite service shall not exercise any editorial control over any video programming provided pursuant to this subsection.

(4) LIMITATIONS.—In determining reasonable prices under paragraph (3)—

(A) the Commission shall take into account the non-profit character of the programming provider and any Federal funds used to support such programming;

(B) the Commission shall not permit such prices to exceed, for any channel made available under this subsection, 50 percent of the total direct costs of making such channel available; and

(C) in the calculation of total direct costs, the Commission shall exclude—

(i) marketing costs, general administrative costs, and similar overhead costs of the provider of direct broadcast satellite service; and

(ii) the revenue that such provider might have obtained by making such channel available to a commercial provider of video programming.

(5) DEFINITIONS.—For purposes of this subsection—

(A) The term “provider of direct broadcast satellite service” means—

(i) a licensee for a Ku-band satellite system under part 100 of title 47 of the Code of Federal Regulations; or

(ii) any distributor who controls a minimum number of channels (as specified by Commission regulation) using a Ku-band fixed service satellite system for the provision of video programming directly to the home and licensed under part 25 of title 47 of the Code of Federal Regulations.

(B) The term “national educational programming supplier” includes any qualified noncommercial educational television station, other public telecommunications entities, and public or private educational institutions.

**SEC. 336. [47 U.S.C. 336] BROADCAST SPECTRUM FLEXIBILITY.<sup>1</sup>**

(a) COMMISSION ACTION.—If the Commission determines to issue additional licenses for advanced television services, the Commission—

<sup>1</sup>Section 531 of the Public Health, Security, and Bioterrorism Response Act of 2001 (PL 107-188) provided for additional advanced television channel assignments as follows:

**SEC. 531. [47 U.S.C. 336 note] TRANSITION TO DIGITAL TELEVISION.**

(a) PAIR ASSIGNMENT REQUIRED.—In order to further promote the orderly transition to digital television, and to promote the equitable allocation and use of digital channels by television broadcast permittees and licensees, the Federal Communications Commission, at the request of an eligible licensee or permittee, shall, within 90 days after the date of enactment of this Act, allot, if necessary, and assign a paired digital television channel to that licensee or permittee, provided that—

(1) such channel can be allotted and assigned without further modification of the tables of allotments as set forth in sections 73.606 and 73.622 of the Commission’s regulations (47 CFR 73.606, 73.622); and

(2) such allotment and assignment is otherwise consistent with the Commission’s rules (47 CFR part 73).

(b) ELIGIBLE TRANSITION LICENSEE OR PERMITTEE.—For purposes of subsection (a), the term “eligible licensee or permittee” means only a full power television broadcast licensee or permittee (or its successor in interest) that—

(1) had an application pending for an analog television station construction permit as of October 24, 1991, which application was granted after April 3, 1997; and

(2) as of the date of enactment of this Act, is the permittee or licensee of that station.

(c) REQUIREMENTS ON LICENSEE OR PERMITTEE.—

(1) CONSTRUCTION DEADLINE.—Any licensee or permittee receiving a paired digital channel pursuant to this section—

(1) should limit the initial eligibility for such licenses to persons that, as of the date of such issuance, are licensed to operate a television broadcast station or hold a permit to construct such a station (or both); and

(2) shall adopt regulations that allow the holders of such licenses to offer such ancillary or supplementary services on designated frequencies as may be consistent with the public interest, convenience, and necessity.

(b) CONTENTS OF REGULATIONS.—In prescribing the regulations required by subsection (a), the Commission shall—

(1) only permit such licensee or permittee to offer ancillary or supplementary services if the use of a designated frequency for such services is consistent with the technology or method designated by the Commission for the provision of advanced television services;

(2) limit the broadcasting of ancillary or supplementary services on designated frequencies so as to avoid derogation of any advanced television services, including high definition television broadcasts, that the Commission may require using such frequencies;

(3) apply to any other ancillary or supplementary service such of the Commission's regulations as are applicable to the offering of analogous services by any other person, except that no ancillary or supplementary service shall have any rights to carriage under section 614 or 615 or be deemed a multichannel video programming distributor for purposes of section 628;

(4) adopt such technical and other requirements as may be necessary or appropriate to assure the quality of the signal used to provide advanced television services, and may adopt regulations that stipulate the minimum number of hours per day that such signal must be transmitted; and

(5) prescribe such other regulations as may be necessary for the protection of the public interest, convenience, and necessity.

(c) RECOVERY OF LICENSE.—If the Commission grants a license for advanced television services to a person that, as of the date of such issuance, is licensed to operate a television broadcast station or holds a permit to construct such a station (or both), the Commission shall, as a condition of such license, require that either the additional license or the original license held by the licensee be surrendered to the Commission for reallocation or reassignment (or both) pursuant to Commission regulation.

(d) PUBLIC INTEREST REQUIREMENT.—Nothing in this section shall be construed as relieving a television broadcasting station from its obligation to serve the public interest, convenience, and ne-

(A) shall be required to construct the digital television broadcast facility within 18 months of the date on which the Federal Communications Commission issues a construction permit therefore, and

(B) shall be prohibited from obtaining or receiving an extension of time from the Commission beyond the construction deadline established by paragraph (1).

(2) PROHIBITION OF ANALOG OPERATION USING DIGITAL PAIR.—Any licensee or permittee receiving a paired digital channel pursuant to this section shall be prohibited from giving up its current paired analog assignment and becoming a single-channel broadcaster and operating in analog on such paired digital channel.

(d) RELIEF RESTRICTED.—Any paired digital allotment and assignment made under this section shall not be available to any other applicant unless such applicant is an eligible licensee or permittee within the meaning of subsection (b).

cessity. In the Commission's review of any application for renewal of a broadcast license for a television station that provides ancillary or supplementary services, the television licensee shall establish that all of its program services on the existing or advanced television spectrum are in the public interest. Any violation of the Commission rules applicable to ancillary or supplementary services shall reflect upon the licensee's qualifications for renewal of its license.

(e) FEES.—

(1) SERVICES TO WHICH FEES APPLY.—If the regulations prescribed pursuant to subsection (a) permit a licensee to offer ancillary or supplementary services on a designated frequency—

(A) for which the payment of a subscription fee is required in order to receive such services, or

(B) for which the licensee directly or indirectly receives compensation from a third party in return for transmitting material furnished by such third party (other than commercial advertisements used to support broadcasting for which a subscription fee is not required),

the Commission shall establish a program to assess and collect from the licensee for such designated frequency an annual fee or other schedule or method of payment that promotes the objectives described in subparagraphs (A) and (B) of paragraph (2).

(2) COLLECTION OF FEES.—The program required by paragraph (1) shall—

(A) be designed (i) to recover for the public a portion of the value of the public spectrum resource made available for such commercial use, and (ii) to avoid unjust enrichment through the method employed to permit such uses of that resource;

(B) recover for the public an amount that, to the extent feasible, equals but does not exceed (over the term of the license) the amount that would have been recovered had such services been licensed pursuant to the provisions of section 309(j) of this Act and the Commission's regulations thereunder; and

(C) be adjusted by the Commission from time to time in order to continue to comply with the requirements of this paragraph.

(3) TREATMENT OF REVENUES.—

(A) GENERAL RULE.—Except as provided in subparagraph (B), all proceeds obtained pursuant to the regulations required by this subsection shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(B) RETENTION OF REVENUES.—Notwithstanding subparagraph (A), the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this section and regulating and supervising advanced television services. Such offsetting collections shall be available for obligation subject to the terms and conditions of

the receiving appropriations account, and shall be deposited in such accounts on a quarterly basis.

(4) REPORT.—Within 5 years after the date of enactment of the Telecommunications Act of 1996, the Commission shall report to the Congress on the implementation of the program required by this subsection, and shall annually thereafter advise the Congress on the amounts collected pursuant to such program.

(f) PRESERVATION OF LOW-POWER COMMUNITY TELEVISION BROADCASTING.—

(1) CREATION OF CLASS A LICENSES.—

(A) RULEMAKING REQUIRED.—Within 120 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall prescribe regulations to establish a class A television license to be available to licensees of qualifying low-power television stations. Such regulations shall provide that—

(i) the license shall be subject to the same license terms and renewal standards as the licenses for full-power television stations except as provided in this subsection; and

(ii) each such class A licensee shall be accorded primary status as a television broadcaster as long as the station continues to meet the requirements for a qualifying low-power station in paragraph (2).

(B) NOTICE TO AND CERTIFICATION BY LICENSEES.—Within 30 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall send a notice to the licensees of all low-power televisions licenses that describes the requirements for class A designation. Within 60 days after such date of enactment, licensees intending to seek class A designation shall submit to the Commission a certification of eligibility based on the qualification requirements of this subsection. Absent a material deficiency, the Commission shall grant certification of eligibility to apply for class A status.

(C) APPLICATION FOR AND AWARD OF LICENSES.—Consistent with the requirements set forth in paragraph (2)(A) of this subsection, a licensee may submit an application for class A designation under this paragraph within 30 days after final regulations are adopted under subparagraph (A) of this paragraph. Except as provided in paragraphs (6) and (7), the Commission shall, within 30 days after receipt of an application of a licensee of a qualifying low-power television station that is acceptable for filing, award such a class A television station license to such licensee.

(D) RESOLUTION OF TECHNICAL PROBLEMS.—The Commission shall act to preserve the service areas of low-power television licensees pending the final resolution of a class A application. If, after granting certification of eligibility for a class A license, technical problems arise requiring an engineering solution to a full-power station's allotted parameters or channel assignment in the digital television Table of Allotments, the Commission shall make such modifications as necessary—

(i) to ensure replication of the full-power digital television applicant's service area, as provided for in sections 73.622 and 73.623 of the Commission's regulations (47 CFR 73.622, 73.623); and

(ii) to permit maximization of a full-power digital television applicant's service area consistent with such sections 73.622 and 73.623,

if such applicant has filed an application for maximization or a notice of its intent to seek such maximization by December 31, 1999, and filed a bona fide application for maximization by May 1, 2000. Any such applicant shall comply with all applicable Commission rules regarding the construction of digital television facilities.

(E) CHANGE APPLICATIONS.—If a station that is awarded a construction permit to maximize or significantly enhance its digital television service area, later files a change application to reduce its digital television service area, the protected contour of that station shall be reduced in accordance with such change modification.

(2) QUALIFYING LOW-POWER TELEVISION STATIONS.—For purposes of this subsection, a station is a qualifying low-power television station if—

(A)(i) during the 90 days preceding the date of the enactment of the Community Broadcasters Protection Act of 1999—

(I) such station broadcast a minimum of 18 hours per day;

(II) such station broadcast an average of at least 3 hours per week of programming that was produced within the market area served by such station, or the market area served by a group of commonly controlled low-power stations that carry common local programming produced within the market area served by such group; and

(III) such station was in compliance with the Commission's requirements applicable to low-power television stations; and

(ii) from and after the date of its application for a class A license, the station is in compliance with the Commission's operating rules for full-power television stations; or

(B) the Commission determines that the public interest, convenience, and necessity would be served by treating the station as a qualifying low-power television station for purposes of this section, or for other reasons determined by the Commission.

(3) COMMON OWNERSHIP.—No low-power television station authorized as of the date of the enactment of the Community Broadcasters Protection Act of 1999 shall be disqualified for a class A license based on common ownership with any other medium of mass communication.

(4) ISSUANCE OF LICENSES FOR ADVANCED TELEVISION SERVICES TO TELEVISION TRANSLATOR STATIONS AND QUALIFYING LOW-POWER TELEVISION STATIONS.—The Commission is not required to issue any additional license for advanced television services to the licensee of a class A television station under

this subsection, or to any licensee of any television translator station, but shall accept a license application for such services proposing facilities that will not cause interference to the service area of any other broadcast facility applied for, protected, permitted, or authorized on the date of filing of the advanced television application. Such new license or the original license of the applicant shall be forfeited after the end of the digital television service transition period, as determined by the Commission. A licensee of a low-power television station or television translator station may, at the option of licensee, elect to convert to the provision of advanced television services on its analog channel, but shall not be required to convert to digital operation until the end of such transition period.

(5) NO PREEMPTION OF SECTION 337.—Nothing in this subsection preempts or otherwise affects section 337 of this Act.

(6) INTERIM QUALIFICATION.—

(A) STATIONS OPERATING WITHIN CERTAIN BANDWIDTH.—The Commission may not grant a class A license to a low-power television station for operation between 698 and 806 megahertz, but the Commission shall provide to low-power television stations assigned to and temporarily operating in that bandwidth the opportunity to meet the qualification requirements for a class A license. If such a qualified applicant for a class A license is assigned a channel within the core spectrum (as such term is defined in MM Docket No. 87–286, February 17, 1998), the Commission shall issue a class A license simultaneously with the assignment of such channel.

(B) CERTAIN CHANNELS OFF-LIMITS.—The Commission may not grant under this subsection a class A license to a low-power television station operating on a channel within the core spectrum that includes any of the 175 additional channels referenced in paragraph 45 of its February 23, 1998, Memorandum Opinion and Order on Reconsideration of the Sixth Report and Order (MM Docket No. 87–268). Within 18 months after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall identify by channel, location, and applicable technical parameters those 175 channels.

(7) NO INTERFERENCE REQUIREMENT.—The Commission may not grant a class A license, nor approve a modification of a class A license, unless the applicant or licensee shows that the class A station for which the license or modification is sought will not cause—

(A) interference within—

(i) the predicted Grade B contour (as of the date of the enactment of the Community Broadcasters Protection Act of 1999, or November 1, 1999, whichever is later, or as proposed in a change application filed on or before such date) of any television station transmitting in analog format; or

(ii)(I) the digital television service areas provided in the DTV Table of Allotments; (II) the areas protected in the Commission's digital television regulations (47 CFR 73.622(e) and (f)); (III) the digital tele-

vision service areas of stations subsequently granted by the Commission prior to the filing of a class A application; and (IV) stations seeking to maximize power under the Commission's rules, if such station has complied with the notification requirements in paragraph (1)(D);

(B) interference within the protected contour of any low-power television station or low-power television translator station that—

(i) was licensed prior to the date on which the application for a class A license, or for the modification of such a license, was filed;

(ii) was authorized by construction permit prior to such date; or

(iii) had a pending application that was submitted prior to such date; or

(C) interference within the protected contour of 80 miles from the geographic center of the areas listed in section 22.625(b)(1) or 90.303 of the Commission's regulations (47 CFR 22.625(b)(1) and 90.303) for frequencies in—

(i) the 470–512 megahertz band identified in section 22.621 or 90.303 of such regulations; or

(ii) the 482–488 megahertz band in New York.

(8) PRIORITY FOR DISPLACED LOW-POWER STATIONS.—Low-power stations that are displaced by an application filed under this section shall have priority over other low-power stations in the assignment of available channels.

(g) EVALUATION.—Within 10 years after the date the Commission first issues additional licenses for advanced television services, the Commission shall conduct an evaluation of the advanced television services program. Such evaluation shall include—

(1) an assessment of the willingness of consumers to purchase the television receivers necessary to receive broadcasts of advanced television services;

(2) an assessment of alternative uses, including public safety use, of the frequencies used for such broadcasts; and

(3) the extent to which the Commission has been or will be able to reduce the amount of spectrum assigned to licensees.

(h)<sup>1</sup>(1) Within 60 days after receiving a request (made in such form and manner and containing such information as the Commission may require) under this subsection from a low-power television station to which this subsection applies, the Commission shall authorize the licensee or permittee of that station to provide digital data service subject to the requirements of this subsection as a pilot project to demonstrate the feasibility of using low-power television stations to provide high-speed wireless digital data service, including Internet access to unserved areas.

(2) The low-power television stations to which this subsection applies are as follows:

<sup>1</sup>Section 143 of the Miscellaneous Appropriations Act, 2001 (P.L. 106-554; Appendix D), added subsection (h) to section 336. Section 143(b) of the Miscellaneous Appropriations Act, 2001, provided as follows:

(b) [47 U.S.C. 336 note] The Federal Communications Commission shall submit a report to the Congress on June 30, 2001, and June 30, 2002, evaluating the utility of using low-power television stations to provide high-speed digital data service. The reports shall be based on the pilot projects authorized by section 336(h) of the Communications Act of 1934 (47 U.S.C. 336(h)).

- (A) KHLM-LP, Houston, Texas.
- (B) WTAM-LP, Tampa, Florida.
- (C) WWRJ-LP, Jacksonville, Florida.
- (D) WVBG-LP, Albany, New York.
- (E) KHHI-LP, Honolulu, Hawaii.
- (F) KPHE-LP (K19DD), Phoenix, Arizona.
- (G) K34FI, Bozeman, Montana.
- (H) K65GZ, Bozeman, Montana.
- (I) WXOB-LP, Richmond, Virginia.
- (J) WIIW-LP, Nashville, Tennessee.

(K) A station and repeaters to be determined by the Federal Communications Commission for the sole purpose of providing service to communities in the Kenai Peninsula Borough and Matanuska Susitna Borough.

- (L) WSPY-LP, Plano, Illinois.
- (M) W24AJ, Aurora, Illinois.

(3) Notwithstanding any requirement of section 553 of title 5, United States Code, the Commission shall promulgate regulations establishing the procedures, consistent with the requirements of paragraphs (4) and (5), governing the pilot projects for the provision of digital data services by certain low power television licensees within 120 days after the date of enactment of LPTV Digital Data Services Act. The regulations shall set forth—

(A) requirements as to the form, manner, and information required for submitting requests to the Commission to provide digital data service as a pilot project;

(B) procedures for testing interference to digital television receivers caused by any pilot project station or remote transmitter;

(C) procedures for terminating any pilot project station or remote transmitter or both that causes interference to any analog or digital full-power television stations, class A television station, television translators or any other users of the core television band;

(D) specifications for reports to be filed quarterly by each low power television licensee participating in a pilot project;

(E) procedures by which a low power television licensee participating in a pilot project shall notify television broadcast stations in the same market upon commencement of digital data services and for ongoing coordination with local broadcasters during the test period; and

(F) procedures for the receipt and review of interference complaints on an expedited basis consistent with paragraph (5)(D).

(4) A low-power television station to which this subsection applies may not provide digital data service unless—

(A) the provision of that service, including any remote return-path transmission in the case of 2-way digital data service, does not cause any interference in violation of the Commission's existing rules, regarding interference caused by low power television stations to full-service analog or digital television stations, class A television stations, or television translator stations; and

(B) the station complies with the Commission's regulations governing safety, environmental, and sound engineering practices, and any other Commission regulation under paragraph (3) governing pilot program operations.

(5)(A) The Commission may limit the provision of digital data service by a low-power television station to which this subsection applies if the Commission finds that—

(i) the provision of 2-way digital data service by that station causes any interference that cannot otherwise be remedied; or

(ii) the provision of 1-way digital data service by that station causes any interference.

(B) The Commission shall grant any such station, upon application (made in such form and manner and containing such information as the Commission may require) by the licensee or permittee of that station, authority to move the station to another location, to modify its facilities to operate on a different channel, or to use booster or auxiliary transmitting locations, if the grant of authority will not cause interference to the allowable or protected service areas of full service digital television stations, National Television Standards Committee assignments, or television translator stations, and provided, however, no such authority shall be granted unless it is consistent with existing Commission regulations relating to the movement, modification, and use of non-class A low power television transmission facilities in order—

(i) to operate within television channels 2 through 51, inclusive; or

(ii) to demonstrate the utility of low-power television stations to provide high-speed 2-way wireless digital data service.

(C) The Commission shall require quarterly reports from each station authorized to provide digital data services under this subsection that include—

(i) information on the station's experience with interference complaints and the resolution thereof;

(ii) information on the station's market success in providing digital data service; and

(iii) such other information as the Commission may require in order to administer this subsection.

(D) The Commission shall resolve any complaints of interference with television reception caused by any station providing digital data service authorized under this subsection within 60 days after the complaint is received by the Commission.

(6) The Commission shall assess and collect from any low-power television station authorized to provide digital data service under this subsection an annual fee or other schedule or method of payment comparable to any fee imposed under the authority of this Act on providers of similar services. Amounts received by the Commission under this paragraph may be retained by the Commission as an offsetting collection to the extent necessary to cover the costs of developing and implementing the pilot program authorized by this subsection, and regulating and supervising the provision of digital data service

by low-power television stations under this subsection. Amounts received by the Commission under this paragraph in excess of any amount retained under the preceding sentence shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(7) In this subsection, the term “digital data service” includes—

- (A) digitally-based interactive broadcast service; and
- (B) wireless Internet access, without regard to—
  - (i) whether such access is—
    - (I) provided on a one-way or a two-way basis;
    - (II) portable or fixed; or
    - (III) connected to the Internet via a band allocated to Interactive Video and Data Service; and
  - (ii) the technology employed in delivering such service, including the delivery of such service via multiple transmitters at multiple locations.

(8) Nothing in this subsection limits the authority of the Commission under any other provision of law.

(i) DEFINITIONS.—As used in this section:

(1) ADVANCED TELEVISION SERVICES.—The term “advanced television services” means television services provided using digital or other advanced technology as further defined in the opinion, report, and order of the Commission entitled “Advanced Television Systems and Their Impact Upon the Existing Television Broadcast Service”, MM Docket 87–268, adopted September 17, 1992, and successor proceedings.

(2) DESIGNATED FREQUENCIES.—The term “designated frequency” means each of the frequencies designated by the Commission for licenses for advanced television services.

(3) HIGH DEFINITION TELEVISION.—The term “high definition television” refers to systems that offer approximately twice the vertical and horizontal resolution of receivers generally available on the date of enactment of the Telecommunications Act of 1996, as further defined in the proceedings described in paragraph (1) of this subsection.

**SEC. 337. [47 U.S.C. 337] ALLOCATION AND ASSIGNMENT OF NEW PUBLIC SAFETY SERVICES LICENSES AND COMMERCIAL LICENSES.**

(a) IN GENERAL.—Not later than January 1, 1998, the Commission shall allocate the electromagnetic spectrum between 746 megahertz and 806 megahertz, inclusive, as follows:

(1) 24 megahertz of that spectrum for public safety services according to the terms and conditions established by the Commission, in consultation with the Secretary of Commerce and the Attorney General; and

(2) 36 megahertz of that spectrum for commercial use to be assigned by competitive bidding pursuant to section 309(j).

(b) ASSIGNMENT.—The Commission shall commence assignment of licenses for public safety services created pursuant to subsection (a) no later than September 30, 1998.

(c) LICENSING OF UNUSED FREQUENCIES FOR PUBLIC SAFETY SERVICES.—

(1) USE OF UNUSED CHANNELS FOR PUBLIC SAFETY SERVICES.—Upon application by an entity seeking to provide public

safety services, the Commission shall waive any requirement of this Act or its regulations implementing this Act (other than its regulations regarding harmful interference) to the extent necessary to permit the use of unassigned frequencies for the provision of public safety services by such entity. An application shall be granted under this subsection if the Commission finds that—

(A) no other spectrum allocated to public safety services is immediately available to satisfy the requested public safety service use;

(B) the requested use is technically feasible without causing harmful interference to other spectrum users entitled to protection from such interference under the Commission's regulations;

(C) the use of the unassigned frequency for the provision of public safety services is consistent with other allocations for the provision of such services in the geographic area for which the application is made;

(D) the unassigned frequency was allocated for its present use not less than 2 years prior to the date on which the application is granted; and

(E) granting such application is consistent with the public interest.

(2) APPLICABILITY.—Paragraph (1) shall apply to any application to provide public safety services that is pending or filed on or after the date of enactment of the Balanced Budget Act of 1997.

(d) CONDITIONS ON LICENSES.—In establishing service rules with respect to licenses granted pursuant to this section, the Commission—

(1) shall establish interference limits at the boundaries of the spectrum block and service area;

(2) shall establish any additional technical restrictions necessary to protect full-service analog television service and digital television service during a transition to digital television service;

(3) may permit public safety services licensees and commercial licensees—

(A) to aggregate multiple licenses to create larger spectrum blocks and service areas; and

(B) to disaggregate or partition licenses to create smaller spectrum blocks or service areas; and

(4) shall establish rules insuring that public safety services licensees using spectrum reallocated pursuant to subsection (a)(1) shall not be subject to harmful interference from television broadcast licensees.

(e) REMOVAL AND RELOCATION OF INCUMBENT BROADCAST LICENSEES.—

(1) CHANNELS 60 TO 69.—Any person who holds a television broadcast license to operate between 746 and 806 megahertz may not operate at that frequency after the date on which the digital television service transition period terminates, as determined by the Commission.

(2) INCUMBENT QUALIFYING LOW-POWER STATIONS.—After making any allocation or assignment under this section, the

Commission shall seek to assure, consistent with the Commission's plan for allotments for digital television service, that each qualifying low-power television station is assigned a frequency below 746 megahertz to permit the continued operation of such station.

(f) DEFINITIONS.—For purposes of this section:

(1) PUBLIC SAFETY SERVICES.—The term “public safety services” means services—

(A) the sole or principal purpose of which is to protect the safety of life, health, or property;

(B) that are provided—

(i) by State or local government entities; or

(ii) by nongovernmental organizations that are authorized by a governmental entity whose primary mission is the provision of such services; and

(C) that are not made commercially available to the public by the provider.

(2) QUALIFYING LOW-POWER TELEVISION STATIONS.—A station is a qualifying low-power television station if, during the 90 days preceding the date of enactment of the Balanced Budget Act of 1997—

(A) such station broadcast a minimum of 18 hours per day;

(B) such station broadcast an average of at least 3 hours per week of programming that was produced within the market area served by such station; and

(C) such station was in compliance with the requirements applicable to low-power television stations.

**SEC. 338. [47 U.S.C. 338] CARRIAGE OF LOCAL TELEVISION SIGNALS BY SATELLITE CARRIERS.**

(a) CARRIAGE OBLIGATIONS.—

(1) IN GENERAL.—Subject to the limitations of paragraph (2), each satellite carrier providing, under section 122 of title 17, United States Code, secondary transmissions to subscribers located within the local market of a television broadcast station of a primary transmission made by that station shall carry upon request the signals of all television broadcast stations located within that local market, subject to section 325(b).

(2) REMEDIES FOR FAILURE TO CARRY.—The remedies for any failure to meet the obligations under this subsection shall be available exclusively under section 501(f) of title 17, United States Code.

(3) EFFECTIVE DATE.—No satellite carrier shall be required to carry local television broadcast stations under paragraph (1) until January 1, 2002.

(b) GOOD SIGNAL REQUIRED.—

(1) COSTS.—A television broadcast station asserting its right to carriage under subsection (a) shall be required to bear the costs associated with delivering a good quality signal to the designated local receive facility of the satellite carrier or to another facility that is acceptable to at least one-half the stations asserting the right to carriage in the local market.

(2) REGULATIONS.—The regulations issued under subsection (g) shall set forth the obligations necessary to carry out this subsection.

(c) DUPLICATION NOT REQUIRED.—

(1) COMMERCIAL STATIONS.—Notwithstanding subsection (a), a satellite carrier shall not be required to carry upon request the signal of any local commercial television broadcast station that substantially duplicates the signal of another local commercial television broadcast station which is secondarily transmitted by the satellite carrier within the same local market, or to carry upon request the signals of more than one local commercial television broadcast station in a single local market that is affiliated with a particular television network unless such stations are licensed to communities in different States.

(2) NONCOMMERCIAL STATIONS.—The Commission shall prescribe regulations limiting the carriage requirements under subsection (a) of satellite carriers with respect to the carriage of multiple local noncommercial television broadcast stations. To the extent possible, such regulations shall provide the same degree of carriage by satellite carriers of such multiple stations as is provided by cable systems under section 615.

(d) CHANNEL POSITIONING.—No satellite carrier shall be required to provide the signal of a local television broadcast station to subscribers in that station's local market on any particular channel number or to provide the signals in any particular order, except that the satellite carrier shall retransmit the signal of the local television broadcast stations to subscribers in the stations' local market on contiguous channels and provide access to such station's signals at a nondiscriminatory price and in a nondiscriminatory manner on any navigational device, on-screen program guide, or menu.

(e) COMPENSATION FOR CARRIAGE.—A satellite carrier shall not accept or request monetary payment or other valuable consideration in exchange either for carriage of local television broadcast stations in fulfillment of the requirements of this section or for channel positioning rights provided to such stations under this section, except that any such station may be required to bear the costs associated with delivering a good quality signal to the local receive facility of the satellite carrier.

(f) REMEDIES.—

(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a local television broadcast station believes that a satellite carrier has failed to meet its obligations under subsections (b) through (e) of this section, such station shall notify the carrier, in writing, of the alleged failure and identify its reasons for believing that the satellite carrier failed to comply with such obligations. The satellite carrier shall, within 30 days after such written notification, respond in writing to such notification and comply with such obligations or state its reasons for believing that it is in compliance with such obligations. A local television broadcast station that disputes a response by a satellite carrier that it is in compliance with such obligations may obtain review of such denial or response by filing a complaint with the Commission. Such complaint shall allege the manner in which such satellite carrier has failed to meet its obligations and the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford the satellite carrier against which a complaint is filed

under paragraph (1) an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed under paragraph (1), the Commission shall determine whether the satellite carrier has met its obligations under subsections (b) through (e). If the Commission determines that the satellite carrier has failed to meet such obligations, the Commission shall order the satellite carrier to take appropriate remedial action. If the Commission determines that the satellite carrier has fully met the requirements of such subsections, the Commission shall dismiss the complaint.

(g) REGULATIONS BY COMMISSION.—Within 1 year after the date of the enactment of this section, the Commission shall issue regulations implementing this section following a rulemaking proceeding. The regulations prescribed under this section shall include requirements on satellite carriers that are comparable to the requirements on cable operators under sections 614(b)(3) and (4) and 615(g)(1) and (2).

(h) DEFINITIONS.—As used in this section:

(1) DISTRIBUTOR.—The term “distributor” means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers or indirectly through other program distribution entities.

(2) LOCAL RECEIVE FACILITY.—The term “local receive facility” means the reception point in each local market which a satellite carrier designates for delivery of the signal of the station for purposes of retransmission.

(3) LOCAL MARKET.—The term “local market” has the meaning given that term under section 122(j) of title 17, United States Code.

(4) SATELLITE CARRIER.—The term “satellite carrier” has the meaning given such term under section 119(d) of title 17, United States Code.

(5) SECONDARY TRANSMISSION.—The term “secondary transmission” has the meaning given such term in section 119(d) of title 17, United States Code.

(6) SUBSCRIBER.—The term “subscriber” has the meaning given that term under section 122(j) of title 17, United States Code.

(7) TELEVISION BROADCAST STATION.—The term “television broadcast station” has the meaning given such term in section 325(b)(7).

**SEC. 339. [47 U.S.C. 339] CARRIAGE OF DISTANT TELEVISION STATIONS BY SATELLITE CARRIERS.**

(a) PROVISIONS RELATING TO CARRIAGE OF DISTANT SIGNALS.—

(1) CARRIAGE PERMITTED.—

(A) IN GENERAL.—Subject to section 119 of title 17, United States Code, any satellite carrier shall be permitted to provide the signals of no more than two network stations in a single day for each television network to any

household not located within the local markets of those network stations.

(B) **ADDITIONAL SERVICE.**—In addition to signals provided under subparagraph (A), any satellite carrier may also provide service under the statutory license of section 122 of title 17, United States Code, to the local market within which such household is located. The service provided under section 122 of such title may be in addition to the two signals provided under section 119 of such title.

(2) **PENALTY FOR VIOLATION.**—Any satellite carrier that knowingly and willfully provides the signals of television stations to subscribers in violation of this subsection shall be liable for a forfeiture penalty under section 503 in the amount of \$50,000 for each violation or each day of a continuing violation.

(b) **EXTENSION OF NETWORK NONDUPLICATION, SYNDICATED EXCLUSIVITY, AND SPORTS BLACKOUT TO SATELLITE RETRANSMISSION.**—

(1) **EXTENSION OF PROTECTIONS.**—Within 45 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall commence a single rulemaking proceeding to establish regulations that—

(A) apply network nonduplication protection (47 CFR 76.92) syndicated exclusivity protection (47 CFR 76.151), and sports blackout protection (47 CFR 76.67) to the retransmission of the signals of nationally distributed superstations by satellite carriers to subscribers; and

(B) to the extent technically feasible and not economically prohibitive, apply sports blackout protection (47 CFR 76.67) to the retransmission of the signals of network stations by satellite carriers to subscribers.

(2) **DEADLINE FOR ACTION.**—The Commission shall complete all actions necessary to prescribe regulations required by this section so that the regulations shall become effective within 1 year after such date of enactment.

(c) **ELIGIBILITY FOR RETRANSMISSION.**—

(1) **SIGNAL STANDARD FOR SATELLITE CARRIER PURPOSES.**—For the purposes of identifying an unserved household under section 119(d)(10) of title 17, United States Code, within 1 year after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall conclude an inquiry to evaluate all possible standards and factors for determining eligibility for retransmissions of the signals of network stations, and, if appropriate—

(A) recommend modifications to the Grade B intensity standard for analog signals set forth in section 73.683(a) of its regulations (47 CFR 73.683(a)), or recommend alternative standards or factors for purposes of determining such eligibility; and

(B) make a further recommendation relating to an appropriate standard for digital signals.

(2) **WAIVERS.**—A subscriber who is denied the retransmission of a signal of a network station under section 119 of title 17, United States Code, may request a waiver from such denial by submitting a request, through such subscriber's satellite carrier, to the network station asserting that the retrans-

mission is prohibited. The network station shall accept or reject a subscriber's request for a waiver within 30 days after receipt of the request. The subscriber shall be permitted to receive such retransmission under section 119(d)(10)(B) of title 17, United States Code, if such station agrees to the waiver request and files with the satellite carrier a written waiver with respect to that subscriber allowing the subscriber to receive such retransmission. If a television network station fails to accept or reject a subscriber's request for a waiver within the 30-day period after receipt of the request, that station shall be deemed to agree to the waiver request and have filed such written waiver.

(3) ESTABLISHMENT OF IMPROVED PREDICTIVE MODEL REQUIRED.—Within 180 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall take all actions necessary, including any reconsideration, to develop and prescribe by rule a point-to-point predictive model for reliably and presumptively determining the ability of individual locations to receive signals in accordance with the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code. In prescribing such model, the Commission shall rely on the Individual Location Longley-Rice model set forth by the Federal Communications Commission in Docket No. 98–201 and ensure that such model takes into account terrain, building structures, and other land cover variations. The Commission shall establish procedures for the continued refinement in the application of the model by the use of additional data as it becomes available.

(4) OBJECTIVE VERIFICATION.—

(A) IN GENERAL.—If a subscriber's request for a waiver under paragraph (2) is rejected and the subscriber submits to the subscriber's satellite carrier a request for a test verifying the subscriber's inability to receive a signal that meets the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, the satellite carrier and the network station or stations asserting that the retransmission is prohibited with respect to that subscriber shall select a qualified and independent person to conduct a test in accordance with section 73.686(d) of its regulations (47 CFR 73.686(d)), or any successor regulation. Such test shall be conducted within 30 days after the date the subscriber submits a request for the test. If the written findings and conclusions of a test conducted in accordance with such section (or any successor regulation) demonstrate that the subscriber does not receive a signal that meets or exceeds the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, the subscriber shall not be denied the retransmission of a signal of a network station under section 119 of title 17, United States Code.

(B) DESIGNATION OF TESTER AND ALLOCATION OF COSTS.—If the satellite carrier and the network station or stations asserting that the retransmission is prohibited are unable to agree on such a person to conduct the test, the person shall be designated by an independent and neutral

entity designated by the Commission by rule. Unless the satellite carrier and the network station or stations otherwise agree, the costs of conducting the test under this paragraph shall be borne by the satellite carrier, if the station's signal meets or exceeds the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, or by the network station, if its signal fails to meet or exceed such standard.

(C) AVOIDANCE OF UNDUE BURDEN.— Commission regulations prescribed under this paragraph shall seek to avoid any undue burden on any party.

(5) DEFINITION.—Notwithstanding subsection (d)(4), for purposes of paragraphs (2) and (4) of this subsection, the term “satellite carrier” includes a distributor (as defined in section 119(d)(1) of title 17, United States Code), but only if the satellite distributor's relationship with the subscriber includes billing, collection, service activation, and service deactivation.

(d) DEFINITIONS.—For the purposes of this section:

(1) LOCAL MARKET.—The term “local market” has the meaning given that term under section 122(j) of title 17, United States Code.

(2) NATIONALLY DISTRIBUTED SUPERSTATION.—The term “nationally distributed superstation” means a television broadcast station, licensed by the Commission, that—

(A) is not owned or operated by or affiliated with a television network that, as of January 1, 1995, offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States;

(B) on May 1, 1991, was retransmitted by a satellite carrier and was not a network station at that time; and

(C) was, as of July 1, 1998, retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code.

(3) NETWORK STATION.—The term “network station” has the meaning given such term under section 119(d) of title 17, United States Code.

(4) SATELLITE CARRIER.—The term “satellite carrier” has the meaning given such term under section 119(d) of title 17, United States Code.

(5) TELEVISION NETWORK.—The term “television network” means a television network in the United States which offers an interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated broadcast stations in 10 or more States.

## **PART II—RADIO EQUIPMENT AND RADIO OPERATORS ON BOARD SHIP**

### **SEC. 351. [47 U.S.C. 351] SHIP RADIO STATIONS AND OPERATIONS.**

(a) Except as provided in section 352 hereof it shall be unlawful—

(1) For any ship of the United States, other than a cargo ship of less than three hundred gross tons, to be navigated in the open

sea outside of a harbor or port, or for any ship of the United States or any foreign country, other than a cargo ship of less than three hundred gross tons, to leave or attempt to leave any harbor or port of the United States for a voyage in the open sea, unless such ship is equipped with an efficient radio station in operating condition, as specified by subparagraphs (A) and (B) of this paragraph, in charge of and operated by one or more radio officers or operators, adequately installed and protected so as to insure proper operation, and so as not to endanger the ship and radio station as hereinafter provided, and, in the case of a ship of the United States, unless there is on board a valid station license issued in accordance with this Act.

(A) Passenger ships irrespective of size and cargo ships of one thousand six hundred gross tons and upward shall be equipped with a radiotelegraph station complying with the provisions of this part;

(B) Cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons, unless equipped with a radiotelegraph station complying with the provisions of this part, shall be equipped with a radiotelephone station complying with the provisions of this part.

(2) For any ship of the United States of one thousand six hundred gross tons and upward to be navigated in the open sea outside of a harbor or port, or for any such ship of the United States or any foreign country to leave or attempt to leave any harbor or port of the United States for a voyage in the open sea, unless such ship is equipped with efficient radio direction finding apparatus approved by the Commission, properly adjusted in operating condition as hereinafter provided.

(b) A ship which is not subject to the provisions of this part at the time of its departure on a voyage shall not become subject to such provisions on account of any deviation from its intended voyage due to stress of weather or any other cause over which neither the master, the owner, nor the charterer (if any) has control.

**SEC. 352. [47 U.S.C. 352] EXCEPTIONS.**

(a) The provisions of this part shall not apply to—

(1) A ship of war;

(2) A ship of the United States belonging to and operated by the Government, except a ship of the Maritime Administration of the Department of Transportation, the Inland and Coastwise Waterways Service, or the Panama Canal Company;

(3) A foreign ship belonging to a country which is a party to any Safety Convention in force between the United States and that country which ship carries a valid certificate exempting said ship from the radio provisions of that Convention, or which ship conforms to the radio requirements of such Convention or Regulations and has on board a valid certificate to that effect, or which ship is not subject to the radio provisions of any such Convention;

(4) Yachts of less than six hundred gross tons not subject to the radio provisions of the Safety Convention;

(5) Vessels in tow;

(6) A ship navigating solely on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States, or to a ship leaving or attempting to leave any harbor or port of the

United States for a voyage solely on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States;

(7) A ship navigating solely on the Great Lakes of North America and the River Saint Lawrence as far east as a straight line drawn from Cap des Rosiers to West Point, Anticosti Island, and, on the north side of Anticosti Island, the sixty-third meridian, or to a ship leaving or attempting to leave any harbor or port of the United States for a voyage solely on such waters and within such area;

(8) A ship which is navigated during the course of a voyage both on the Great Lakes of North America and in the open sea, during the period while such ship is being navigated within the Great Lakes of North America and their connecting and tributary waters as far east as the lower exit of the Saint Lambert lock at Montreal in the Province of Quebec, Canada.

(b) Except for nuclear ships, the Commission may, if it considers that the route or the conditions of the voyage or other circumstances are such as to render a radio station unreasonable or unnecessary for the purposes of this part, exempt from the provisions of this part any ship or class of ships which falls within any of the following descriptions:

(1) Passenger ships which in the course of their voyage do not go more than twenty nautical miles from the nearest land or, alternatively, do not go more than two hundred nautical miles between two consecutive ports;

(2) Cargo ships which in the course of their voyage do not go more than one hundred and fifty nautical miles from the nearest land;

(3) Passenger vessels of less than one hundred gross tons not subject to the radio provisions of the Safety Convention;

(4) Sailing ships.

(c) If, because of unforeseeable failure of equipment, a ship is unable to comply with the equipment requirements of this part without undue delay of the ship, the mileage limitations set forth in paragraphs (1) and (2) of subsection (b) shall not apply: *Provided*, That exemption of the ship is found to be reasonable or necessary in accordance with subsection (b) to permit the ship to proceed to a port where the equipment deficiency may be remedied.

(d) Except for nuclear ships, and except for ships of five thousand gross tons and upward which are subject to the Safety Convention, the Commission may exempt from the requirements, for radio direction finding apparatus, of this part and of the Safety Convention, any ship which falls within the descriptions set forth in paragraphs (1), (2), (3), and (4) of subsection (b) of this section, if it considers that the route on conditions of the voyage or other circumstances are such as to render such apparatus unreasonable or unnecessary.

**SEC. 353. [47 U.S.C. 353] RADIO OFFICERS, WATCHES, AUTO ALARM-RADIOTELEGRAPH EQUIPPED SHIPS.**

(a) Each cargo ship which in accordance with this part is equipped with a radiotelegraph station and which is not equipped with a radiotelegraph auto alarm, and each passenger ship required by this part to be equipped with a radiotelegraph station, shall, for safety purposes, carry at least two radio officers.

(b) A cargo ship which in accordance with this part is equipped with a radiotelegraph station, which is equipped with a radiotelegraph auto alarm, shall, for safety purposes, carry at least one radio officer who shall have had at least six months' previous service in the aggregate as a radio officer in a station on board a ship or ships of the United States.

(c) Each ship of the United States which in accordance with this part is equipped with a radiotelegraph station shall, while being navigated in the open sea outside of a harbor or port, keep a continuous watch by means of radio officers whenever the station is not being used for authorized traffic: *Provided*, That, in lieu thereof, on a cargo ship equipped with a radiotelegraph auto alarm in proper operating condition, a watch of at least eight hours per day, in the aggregate, shall be maintained by means of a radio officer.

(d) The Commission shall, when it finds it necessary for safety purposes, have authority to prescribe the particular hours of watch on a ship of the United States which in accordance with this part is equipped with a radiotelegraph station.

(e) On all ships of United States equipped with a radiotelegraph auto alarm, said apparatus shall be in operation at all times while the ship is being navigated in the open sea outside of a harbor or port when the radio officer is not on watch.

**SEC. 354. [47 U.S.C. 353a] OPERATORS, WATCHES—RADIOTELEPHONE EQUIPPED SHIPS.**

(a) Each cargo ship which in accordance with this part is equipped with a radiotelephone station shall, for safety purposes, carry at least one operator who may be the master, an officer, or a member of the crew.

(b) Each cargo ship of the United States which in accordance with this part is equipped with a radiotelephone station shall, while being navigated in the open sea outside of a harbor or port, maintain continuous watch whenever the station is not being used for authorized traffic.

**SEC. 355. [47 U.S.C. 354] TECHNICAL REQUIREMENTS—RADIOTELEGRAPH EQUIPPED SHIPS.**

The radiotelegraph station and the radio direction finding apparatus required by section 351 of this part shall comply with the following requirements:

(a) The radiotelegraph station shall include a main installation and a reserve installation, electrically separate and electrically independent of each other: *Provided*, That, in installations on cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons, and in installations on cargo ships of one thousand six hundred gross tons and upward installed prior to November 19, 1952, if the main transmitter complies with all the requirements for the reserve transmitter, the latter may be omitted.

(b) The radiotelegraph station shall be so located that no harmful interference from extraneous mechanical or other noise will be caused to the proper reception of radio signals, and shall be placed in the upper part of the ship in a position of the greatest possible safety and as high as practicable above the deepest load waterline. The location of the radiotelegraph operating room or rooms shall be

approved by the Commandant of the Coast Guard. The radiotelegraph installation shall be installed in such a position that it will be protected against the harmful effects of water or extremes of temperature, and shall be readily accessible both for immediate use in case of distress and for repair.

(c) The radiotelegraph operating room shall be of sufficient size and of adequate ventilation to enable the main and reserve radiotelegraph installations to be operated efficiently, and shall not be used for any purpose which will interfere with the operation of the radiotelegraph station. The sleeping accommodation of at least one radio officer shall be situated as near as practicable to the radiotelegraph operating room. In ships the keels of which are laid on or after May 26, 1965, this sleeping accommodation shall not be within the radiotelegraph operating room.

(d) The main and reserve installations shall be capable of transmitting and receiving on the frequencies, and using the classes of emission, designated by the Commission pursuant to law for the purposes of distress and safety of navigation.

(e) The main and reserve installations shall, when connected to the main antenna, have a minimum normal range of two hundred nautical miles and one hundred nautical miles, respectively; that is, they must be capable of transmitting and receiving clearly perceptible signals from ship to ship by day and under normal conditions and circumstances over the specified ranges.

(f) Sufficient electrical energy shall be available at all times to operate the main installation over the normal range required by subsection (e) of this section as well as for the purpose of charging any batteries forming part of the radiotelegraph station.

(g) The reserve installation shall include a source of electrical energy independent of the propelling power of the ship and of any other electrical system and shall be capable of being put into operation rapidly and of working for at least six continuous hours. The reserve source of energy and its switchboard shall be as high as practicable in the ship and readily accessible to the radio officer.

(h) There shall be provided between the bridge of the ship and the radiotelegraph operating room, and between the bridge and the location of the radio direction finding apparatus, when such apparatus is not located on the bridge, an efficient two-way system for calling and voice communication which shall be independent of any other communication system in the ship.

(i) The radio direction finding apparatus shall be efficient and capable of receiving signals with the minimum of receiver noise and of taking bearings from which the true bearing and direction may be determined. It shall be capable of receiving signals on the radio-telegraph frequencies assigned by the radio regulations annexed to the International Telecommunication Convention in force for the purpose of distress, direction finding, and maritime radio beacons, and, in installations made after May 26, 1965, such other frequencies as the Commission may for safety purposes designate.

**SEC. 356. [47 U.S.C. 354a] TECHNICAL REQUIREMENTS—RADIO-TELEPHONE EQUIPPED SHIPS.**

Cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons may, in lieu of the radiotelegraph station prescribed by section 355, be equipped with a radiotelegraph station complying with the following requirements:

(a) The radiotelephone station shall be in the upper part of the ship, so located that it is sheltered to the greatest possible extent from noise which might impair the correct reception of messages and signals, and, unless such station is situated on the bridge, there shall be efficient communication with the bridge.

(b) The radiotelephone installation shall be capable of transmitting and receiving on the frequencies, and using the classes of emission, designated by the Commission pursuant to law for purposes of distress and safety of navigation.

(c) The radiotelephone installation shall have a minimum normal range of one hundred and fifty nautical miles; that is, it shall be capable of transmitting and receiving clearly perceptible signals from ship to ship by day and under normal conditions and circumstances over this range.

(d) There shall be available at all times a main source of electrical energy sufficient to operate the installation over the normal range required by subsection (c) of this section. If batteries are provided they shall have sufficient capacity to operate the transmitter and receiver for at least six continuous hours under normal working conditions. In installations made on or after November 19, 1952, a reserve source of electrical energy shall be provided in the upper part of the ship unless the main source of energy is so situated.

**SEC. 357. [47 U.S.C. 355] SURVIVAL CRAFT.**

Every ship required to be provided with survival craft radio by treaty to which the United States is a party, by statute, or by regulation made in conformity with a treaty, convention, or statute, shall be fitted with efficient radio equipment appropriate to such requirement under such rules and regulations as the Commission may find necessary for safety of life. For purposes of this section, "radio equipment" shall include portable as well as nonportable apparatus.

**SEC. 358. [47 U.S.C. 356] APPROVAL OF INSTALLATIONS.**

Insofar as is necessary to carry out the purposes and requirements of this part, the Commission shall have authority, for any ship subject to this part—

(1) To approve the details as to the location and manner of installations of the equipment required by this part of equipment necessitated by reason of the purposes and requirements of this part.

(2) To approve installations, apparatus, and spare parts necessary to comply with the purposes and requirements of this part.

(3) To prescribe such additional equipment as may be determined to be necessary to supplement that specified herein, for the proper functioning of the radio installation installed in accordance with this part or for the proper conduct of radio communication in time of emergency or distress.

**SEC. 359. [47 U.S.C. 357] TRANSMISSION OF INFORMATION.**

(a) The master of every ship of the United States, equipped with radio transmitting apparatus, which meets with dangerous ice, a dangerous derelict, a tropical storm, or any other direct danger to navigation, or encounters subfreezing air temperatures associated with gale force winds causing severe ice accretion on super-

structures, or winds of force 10 or above on the Beaufort scale for which no storm warning has been received, shall cause to be transmitted all pertinent information relating thereto to ships in the vicinity and to the appropriate authorities on land, in accordance with rules and regulations issued by the Commission. When they consider it necessary, such authorities of the United States shall promptly bring the information received by them to the knowledge of those concerned, including interested foreign authorities.

(b) No charge shall be made by any ship or station in the mobile service of the United States for the transmission, receipt, or relay of the information designated in subsection (a) originating on a ship of the United States or of a foreign country.

(c) The transmission by any ship of the United States, made in compliance with subsection (a), to any station which imposes a charge for the reception, relay, or forwarding of the required information, shall be free of cost to the ship concerned and any communication charges incurred by the ship for transmission, relay, or forwarding of the information may be certified to the Commission for reimbursement out of moneys appropriated to the Commission for that purpose.

(d) No charge shall be made by any ship or station in the mobile service of the United States for the transmission of distress messages and replies thereto in connection with situations involving the safety of life and property at sea.

(e) Notwithstanding any other provision of law, any station or carrier may render free service in connection with situations involving the safety of life and property, including hydrographic reports, weather reports, reports regarding aids to navigation and medical assistance to injured or sick persons on ships and aircraft at sea. All free service permitted by this subsection shall be subject to such rules and regulations as the Commission may prescribe, which rules may limit such free service to the extent which the Commission finds desirable in the public interest.

**SEC. 360. [47 U.S.C. 358] AUTHORITY OF MASTER.**

The radio installation, the operators, the regulation of their watches, the transmission and receipt of messages, and the radio service of the ship except as they may be regulated by law or international agreement, or by rules and regulations made in pursuance thereof, shall in the case of a ship of the United States be under the supreme control of the master.

**SEC. 361. [47 U.S.C. 359] CERTIFICATES.**

(a) Each vessel of the United States to which the Safety Convention applies shall comply with the radio and communication provisions of said Convention at all times while the vessel is in use, in addition to all other requirements of law, and shall have on board an appropriate certificate as prescribed by the Safety Convention.

(b) Appropriate certificates concerning the radio particulars provided for in said Convention shall be issued upon proper request to any vessel which is subject to the radio provisions of the Safety Convention and is found by the Commission to comply therewith. Cargo ship safety radio telegraphy certificates, cargo ship safety radiotelephony certificates, and exemption certificates with respect to radio particulars shall be issued by the Commission. Other cer-

tificates concerning the radio particulars provided for in the said Convention shall be issued by the Commandant of the Coast Guard or whatever other agency is authorized by law to do so upon request of the Commission made after proper inspection or determination of the facts. If the holder of a certificate violates the radio provisions of the Safety Convention or the provisions of this Act, or the rules, regulations, or conditions prescribed by the Commission, and if the effective administration of the Safety Convention or of this part so requires, the Commission, after hearing in accordance with law, is authorized to modify or cancel a certificate which it has issued, or to request the modification or cancellation of a certificate which has been issued by another agency upon the Commission's request. Upon receipt of such request for modification or cancellation, the Commandant of the Coast Guard, or whatever agency is authorized by law to do so, shall modify or cancel the certificate in accordance therewith.

**SEC. 362. [47 U.S.C. 360] INSPECTION.**

(a) In addition to any other provisions required to be included in a radio station license, the station license of each ship of the United States subject to this title shall include particulars with reference to the items specifically required by this title.

(b) Every ship of the United States that is subject to this part shall have the equipment and apparatus prescribed therein inspected at least once each year by the Commission or an entity designated by the Commission. If, after such inspection, the Commission is satisfied that all relevant provisions of this Act and the station license have been complied with, the fact shall be so certified on the station license by the Commission. The Commission shall make such additional inspections at frequent intervals as the Commission determines may be necessary to ensure compliance with the requirements of this Act. The Commission may, upon a finding that the public interest could be served thereby—

(1) waive the annual inspection required under this section for a period of up to 90 days for the sole purpose of enabling a vessel to complete its voyage and proceed to a port in the United States where an inspection can be held; or

(2) waive the annual inspection required under this section for a vessel that is in compliance with the radio provisions of the Safety Convention and that is operating solely in waters beyond the jurisdiction of the United States: *Provided*, That such inspection shall be performed within 30 days of such vessel's return to the United States.

**SEC. 363. [47 U.S.C. 361] CONTROL BY COMMISSION.**

Nothing in this title shall be interpreted as lessening in any degree the control of the Commission over all matters connected with the radio equipment and its operation on shipboard and its decision and determination in regard to the radio requirements, installations, or exemptions from prescribed radio requirements shall be final, subject only to review in accordance with law.

**SEC. 364. [47 U.S.C. 362] FORFEITURES.**

The following forfeitures shall apply to this part, in addition to the penalties and forfeitures provided by title V of this Act:

(a) Any ship that leaves or attempts to leave any harbor or port of the United States in violation of the provisions of this part,

or the rules and regulations of the Commission made in pursuance thereof, or any ship of the United States that is navigated outside of any harbor or port in violation of any of the provisions of this part, or the rules and regulations of the Commission made in pursuance thereof, shall forfeit to the United States the sum of \$5,000, recoverable by way of suit or libel. Each such departure or attempted departure, and in the case of a ship of the United States each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a ship of the United States to enforce or to comply with the provisions of this Act or the rules and regulations of the Commission as to equipment, operators, watches, or radio service shall cause him to forfeit to the United States the sum of \$1,000.

**SEC. 365. [47 U.S.C. 363] AUTOMATED SHIP DISTRESS AND SAFETY SYSTEMS.**

Notwithstanding any provision of this Act or any other provision of law or regulation, a ship documented under the laws of the United States operating in accordance with the Global Maritime Distress and Safety System provisions of the Safety of Life at Sea Convention shall not be required to be equipped with a radio telegraphy station operated by one or more radio officers or operators. This section shall take effect for each vessel upon a determination by the United States Coast Guard that such vessel has the equipment required to implement the Global Maritime Distress and Safety System installed and operating in good working condition.

**PART III—RADIO INSTALLATIONS ON VESSELS CARRYING PASSENGERS FOR HIRE**

**SEC. 381. [47 U.S.C. 381] VESSELS TRANSPORTING MORE THAN SIX PASSENGERS FOR HIRE REQUIRED TO BE EQUIPPED WITH RADIO TELEPHONE.**

Except as provided in section 382, it shall be unlawful for any vessel of the United States, transporting more than six passengers for hire, to be navigated in the open sea or any tidewater within the jurisdiction of the United States adjacent or contiguous to the open sea, unless such vessel is equipped with an efficient radio-telephone installation in operating condition.

**SEC. 382. [47 U.S.C. 382] VESSELS EXCEPTED FROM RADIO TELEPHONE REQUIREMENT.**

The provisions of this part shall not apply to—

- (1) vessels which are equipped with a radio installation in accordance with the provisions of part II of title III of this Act, or in accordance with the radio requirements of the Safety Convention; and
- (2) vessels of the United States belonging to and operated by the Government, and
- (3) vessels navigating on the Great Lakes.

**SEC. 383. [47 U.S.C. 383] EXEMPTIONS BY COMMISSION.**

The Commission shall exempt from the provisions of this part any vessel, or class of vessels, in the case of which the route or conditions of the voyage, or other conditions or circumstances, are such

as to render a radio installation unreasonable, unnecessary, or ineffective, for the purposes of this Act.

**SEC. 384. [47 U.S.C. 384] AUTHORITY OF COMMISSION; OPERATIONS, INSTALLATIONS, AND ADDITIONAL EQUIPMENT.**

The Commission shall have authority with respect to any vessel subject to this part—

(1) to specify operating and technical conditions and characteristics including frequencies, emissions, power, communication capability and range, of installations required by reason of this part;

(2) to approve the details as to the location and manner of installation of the equipment required by this part or of equipment necessitated by reason of the purposes and requirements of this part;

(3) to approve installations, apparatus and spare parts necessary to comply with the purposes and requirements of this part;

(4) to prescribe such additional equipment as may be determined to be necessary to supplement that specified herein for the proper functioning of the radio installation installed in accordance with this part or for the proper conduct of radio communication in time of emergency or distress.

**SEC. 385. [47 U.S.C. 385] INSPECTIONS.**

The Commission or an entity designated by the Commission shall make such inspections as may be necessary to insure compliance with the requirements of this part. In accordance with such other provisions of law as apply to Government contracts, the Commission may enter into contracts with any person for the purpose of carrying out such inspections and certifying compliance with those requirements, and may, as part of any such contract, allow any such person to accept reimbursement from the license holder for travel and expense costs of any employee conducting an inspection or certification.

**SEC. 386. [47 U.S.C. 386] FORFEITURES.**

The following forfeitures shall apply to this part in addition to penalties and forfeitures provided by title V of this Act:

(a) Any vessel of the United States that is navigated in violation of the provisions of this part or of the rules and regulations of the Commission made in pursuance thereof shall forfeit to the United States the sum of \$5,000 recoverable by way of suit or libel. Each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a vessel of the United States to enforce or to comply with the provisions of this part or the rules and regulations of the Commission made in pursuance thereof shall cause him to forfeit to the United States the sum of \$1,000.

**PART IV—ASSISTANCE FOR PUBLIC TELECOMMUNICATIONS FACILITIES; TELECOMMUNICATIONS DEMONSTRATIONS; CORPORATION FOR PUBLIC BROADCASTING**

**Subpart A—Assistance for Public Telecommunications Facilities**

**SEC. 390. [47 U.S.C. 390] DECLARATION OF PURPOSE.**

The purpose of this subpart is to assist, through matching grants, in the planning and construction of public telecommunications facilities in order to achieve the following objectives: (1) extend delivery of public telecommunications services to as many citizens of the United States as possible by the most efficient and economical means, including the use of broadcast and nonbroadcast technologies; (2) increase public telecommunications services and facilities available to, operated by, and owned by minorities and women; and (3) strengthen the capability of existing public television and radio stations to provide public telecommunications services to the public.

**SEC. 391. [47 U.S.C. 391] AUTHORIZATION OF APPROPRIATIONS.**

There are authorized to be appropriated \$42,000,000 for each of the fiscal years 1992, 1993, and 1994, to be used by the Secretary of Commerce to assist in the planning and construction of public telecommunications facilities as provided in this subpart. Sums appropriated under this subpart for any fiscal year shall remain available until expended for payment of grants for projects for which applications approved by the Secretary pursuant to this subpart have been submitted within such fiscal year. Sums appropriated under this subpart may be used by the Secretary to cover the cost of administering the provisions of this subpart.

**SEC. 392. [47 U.S.C. 392] GRANTS FOR CONSTRUCTION AND PLANNING.**

(a) For each project for the construction of public telecommunications facilities there shall be submitted to the Secretary an application for a grant containing such information with respect to such project as the Secretary may require, including the total cost of such project, the amount of the grant requested for such project, and a 5-year plan outlining the applicant's projected facilities requirements and the projected costs of such facilities requirements. Each applicant shall also provide assurances satisfactory to the Secretary that—

(1) the applicant is (A) a public broadcast station; (B) a noncommercial telecommunications entity; (C) a system of public telecommunications entities; (D) a nonprofit foundation, corporation, institution, or association organized primarily for educational or cultural purposes; or (E) a State or local government (or any agency thereof), or a political or special purpose subdivision of a State;

(2) the operation of such public telecommunication facilities will be under the control of the applicant;

(3) necessary funds to construct, operate, and maintain such public telecommunications facilities will be available when needed;

(4) such public telecommunications facilities will be used primarily for the provision of public telecommunications services and that the use of such public telecommunications facilities for purposes other than the provision of public telecommunications services will not interfere with the provision of such public telecommunications services as required in this part;

(5) the applicant has participated in comprehensive planning for such public telecommunications facilities in the area which the applicant proposes to serve, and such planning has included an evaluation of alternate technologies and coordination with State educational television and radio agencies, as appropriate; and

(6) the applicant will make the most efficient use of the grant.

(b) Upon approving any application under this section with respect to any project for the construction of public telecommunications facilities, the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amounts shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of such project.

(c) The Secretary may provide such funds as the Secretary deems necessary for the planning of any project for which construction funds may be obtained under this section. An applicant for a planning grant shall provide such information with respect to such project as the Secretary may require and shall provide assurances satisfactory to the Secretary that the applicant meets the eligible requirements of subsection (a) to receive construction assistance.

(d) Any studies conducted by or for any grant recipient under this section shall be provided to the Secretary, if such studies are conducted through the use of funds received under this section.

(e) The Secretary shall establish such rules and regulations as may be necessary to carry out this subpart, including rules and regulations relating to the order of priority in approving applications for construction projects and relating to determining the amount of each grant for such projects.

(f) In establishing criteria for grants pursuant to section 393 and in establishing procedures relating to the order of priority established in subsection (e) in approving applications for grants, the Secretary shall give special consideration to applications which would increase minority and women's ownership of, operation of, and participation in public telecommunications entities. The Secretary shall take affirmative steps to inform minorities and women of the availability of funds under this subpart, and the localities where new public telecommunications facilities are needed, and to provide such other assistance and information as may be appropriate.

(g) If, within 10 years after completion of any project for construction of public telecommunications facilities with respect to which a grant has been made under this section—

(1) the applicant or other owner of such facilities ceases to be an agency, institution, foundation, corporation, association, or other entity described in subsection (a)(1); or

(2) such facilities cease to be used primarily for the provision of public telecommunications services (or the use of such public telecommunications facilities for purposes other than the provision of public telecommunications services interferes with the provision of such public telecommunications services as required in this part);

the United States shall be entitled to recover from the applicant or other owner of such facilities the amount bearing the same ratio to the value of such facilities at the time the applicant ceases to be such an entity or at the time of such determination (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facilities are situated), as the amount of the Federal participation bore to the cost of construction of such facilities.

(h) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the functions of the Secretary under this subpart, including a complete and itemized inventory of all public telecommunications facilities under the control of such recipient, and records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(i) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any recipient of assistance under this subpart that are pertinent to assistance received under this subpart.

**SEC. 393. [47 U.S.C. 393] CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE.**

(a) The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with others, shall establish criteria for making construction and planning grants. Such criteria shall be consistent with the objectives and provisions set forth in this subpart, and shall be made available to interested parties upon request.

(b) The Secretary shall base determinations of whether to approve applications for grants under this subpart, and the amount of such grants, on criteria developed pursuant to subsection (a) and designed to achieve—

(1) the provision of new telecommunications facilities to extend service to areas currently not receiving public telecommunications services;

(2) the expansion of the service areas of existing public telecommunications entities;

(3) the development of public telecommunications facilities owned by, operated by, and available to minorities and women; and

(4) the improvement of the capabilities of existing public broadcast stations to provide public telecommunications services, including services to underserved audiences such as deaf

and hearing impaired individuals and blind and visually impaired individuals.

(c) Of the sums appropriated pursuant to section 391 for any fiscal year, a substantial amount shall be available for the expansion and development of noncommercial radio broadcast station facilities.

**SEC. 393A. [47 U.S.C. 393a] LONG-RANGE PLANNING FOR FACILITIES.**

(a)<sup>1</sup> The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with other parties, shall develop a long-range plan to accomplish the objectives set forth in section 390. Such plan shall include a detailed 5-year projection of the broadcast and nonbroadcast public telecommunications facilities required to meet such objectives, and the expenditures necessary to provide such facilities.

### **Subpart B—National Endowment for Children’s Educational Television**

**SEC. 394. [47 U.S.C. 394] ESTABLISHMENT OF NATIONAL ENDOWMENT.**

(a) It is the purpose of this section to enhance the education of children through the creation and production of television programming specifically directed toward the development of fundamental intellectual skills.

(b)(1) There is established, under the direction of the Secretary, a National Endowment for Children’s Educational Television. In administering the National Endowment, the Secretary is authorized to—

(A) contract with the Corporation for the production of educational television programming for children; and

(B) make grants directly to persons proposing to create and produce educational television programming for children. The Secretary shall consult with the Advisory Council on Children’s Educational Television in the making of the grants or the awarding of contracts for the purpose of making the grants.

(2) Contracts and grants under this section shall be made on the condition that the programming shall—

(A) during the first two years after its production, be made available only to public television licensees and permittees and noncommercial television licensees and permittees; and

(B) thereafter be made available to any commercial television licensee or permittee or cable television system operator, at a charge established by the Secretary that will assure the maximum practicable distribution of such programming, so long as such licensee, permittee, or operator does not interrupt the programming with commercial advertisements.

The Secretary may, consistent with the purpose and provisions of this section, permit the programming to be distributed to persons using other media, establish conditions relating to such distribution, and apply those conditions to any contract or grant made under this section. The Secretary may waive the requirements of subparagraph (A) if the Secretary finds that neither public tele-

<sup>1</sup>Section 1021(a) of Public Law 104–66 (109 Stat. 712) repealed subsection (b), but did not amend subsection (a).

vision licensees and permittees nor noncommercial television licensees and permittees will have an opportunity to air such programming in the first two years after its production.

(c)(1) The Secretary, with the advice of the Advisory Council on Children's Educational Television, shall establish criteria for making contracts and grants under this section. Such criteria shall be consistent with the purpose and provisions of this section and shall be made available to interested parties upon request. Such criteria shall include—

(A) criteria to maximize the amount of programming that is produced with the funds made available by the Endowment;

(B) criteria to minimize the costs of—

(i) selection of grantees,

(ii) administering the contracts and grants, and

(iii) the administrative costs of the programming production; and

(C) criteria to otherwise maximize the proportion of funds made available by the Endowment that are expended for the cost of programming production.

(2) Applications for grants under this section shall be submitted to the Secretary in such form and containing such information as the Secretary shall require by regulation.

(d) Upon approving any application for a grant under subsection (b)(1)(B), the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amounts shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of the project for which the grant is made.

(e)(1) The Secretary shall establish an Advisory Council on Children's Educational Television. The Secretary shall appoint ten individuals as members of the Council and designate one of such members to serve as Chairman.

(2) Members of the Council shall have terms of two years, and no member shall serve for more than three consecutive terms. The members shall have expertise in the fields of education, psychology, child development, or television programming, or related disciplines. Officers and employees of the United States shall not be appointed as members.

(3) While away from their homes or regular places of business in the performance of duties for the Council, the members of the Council shall serve without compensation but shall be allowed travel expenses, including per diem in lieu of subsistence, in accordance with section 5703 of title 5, United States Code.

(4) The Council shall meet at the call of the Chairman and shall advise the Secretary concerning the making of contracts and grants under this section.

(f)(1) Each recipient of a grant under this section shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this section, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such grant, the total cost of the project, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to a grant received under this section.

(g) The Secretary is authorized to make such rules and regulations as may be necessary to carry out this section, including those relating to the order of priority in approving applications for projects under this section or to determining the amounts of contracts and grants for such projects.

(h) There are authorized to be appropriated \$2,000,000 for fiscal year 1991, \$4,000,000 for fiscal year 1992, \$5,000,000 for fiscal year 1993, and \$6,000,000 for fiscal year 1994 to be used by the Secretary to carry out the provisions of this section. Sums appropriated under this subsection for any fiscal year shall remain available for contracts and grants for projects for which applications approved under this section have been submitted within one year after the last day of such fiscal year.

(i) For purposes of this section—

(1) the term “educational television programming for children” means any television program which is directed to an audience of children who are 16 years of age or younger and which is designed for the intellectual development of those children, except that such term does not include any television program which is directed to a general audience but which might also be viewed by a significant number of children; and

(2) the term “person” means an individual, partnership, association, joint stock company, trust, corporation, or State or local governmental entity.

### **Subpart C—Telecommunications Demonstrations**

#### **SEC. 395. [47 U.S.C. 395] ASSISTANCE FOR DEMONSTRATION PROJECTS.**

(a) It is the purpose of this subpart to promote the development of nonbroadcast telecommunications facilities and services for the transmission, distribution, and delivery of health, education, and public or social service information. The Secretary is authorized, upon receipt of an application in such form and containing such information as he may by regulation require, to make grants to, and enter into contracts with, public and private nonprofit agencies, organizations, and institutions for the purpose of carrying out telecommunications demonstrations.

(b) The Secretary may approve an application submitted under subsection (a) if he determines that—

(1) the project for which application is made will demonstrate innovative methods or techniques of utilizing nonbroadcast telecommunications equipment or facilities to satisfy the purpose of this subpart;

(2) demonstrations and related activities assisted under this subpart will remain under the administration and control of the applicant;

(3) the applicant has the managerial and technical capability to carry out the project for which the application is made; and

(4) the facilities and equipment acquired or developed pursuant to the application will be used substantially for the transmission, distribution, and delivery of health, education, or public or social service information.

(c) Upon approving any application under this subpart with respect to any project, the Secretary shall make a grant to or enter into a contract with the applicant in an amount determined by the Secretary not to exceed the reasonable and necessary cost of such project. The Secretary shall pay such amount from the sums available therefor, in advance or by way of reimbursement, and in such installments consistent with established practice, as he may determine.

(d) Funds made available pursuant to this subpart shall not be available for the construction, remodeling, or repair of structures to house the facilities or equipment acquired or developed with such funds, except that such funds may be used for minor remodeling which is necessary for and incidental to the installation of such facilities or equipment.

(e) For purposes of this section, the term "nonbroadcast telecommunications facilities" includes, but is not limited to, cable television systems, communications satellite systems and related terminal equipment, and other modes of transmitting, emitting, or receiving images and sounds or intelligence by means of wire, radio, optical, electromagnetic or other means.

(f) The funding of any demonstration pursuant to this subpart shall continue for not more than 3 years from the date of the original grant or contract.

(g) The Secretary shall require that the recipient of a grant or contract under this subpart submit a summary and evaluation of the results of the demonstration at least annually for each year in which funds are received pursuant to this section.

(h)(1) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this subpart, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this subpart.

(i) The Secretary is authorized to make such rules and regulations as may be necessary to carry out this subpart, including regulations relating to the order of priority in approving applications for projects under this subpart or to determining the amounts of grants for such projects.

(j) The Commission is authorized to provide such assistance in carrying out the provisions of this subpart as may be requested by the Secretary. The Secretary shall provide for close coordination with the Commission in the administration of the Secretary's functions under this subpart which are of interest to or affect the func-

tions of the Commission. The Secretary shall provide for close coordination with the Corporation in the administration of the Secretary's functions under this subpart which are of interest to or affect the functions of the Corporation.

(k) There are authorized to be appropriated \$1,000,000 for each of the fiscal years 1979, 1980, and 1981, to be used by the Secretary to carry out the provisions of this subpart. Sums appropriated under this subsection for any fiscal year shall remain available for payment of grants or contracts for projects for which applications approved under this subpart have been submitted within one year after the last day of such fiscal year.

### **Subpart D—Corporation for Public Broadcasting**

#### **SEC. 396. [47 U.S.C. 396] DECLARATION OF POLICY.**

(a) The Congress hereby finds and declares that—

(1) it is in the public interest to encourage the growth and development of public radio and television broadcasting, including the use of such media for instructional, educational, and cultural purposes;

(2) it is in the public interest to encourage the growth and development of nonbroadcast telecommunications technologies for the delivery of public telecommunications services;

(3) expansion and development of public telecommunications and of diversity of its programming depend on freedom, imagination, and initiative on both local and national levels;

(4) the encouragement and support of public telecommunications, while matters of importance for private and local development, are also of appropriate and important concern to the Federal Government;

(5) it furthers the general welfare to encourage public telecommunications services which will be responsive to the interests of people both in particular localities and throughout the United States, which will constitute an expression of diversity and excellence, and which will constitute a source of alternative telecommunications services for all the citizens of the Nation;

(6) it is in the public interest to encourage the development of programming that involves creative risks and that addresses the needs of unserved and underserved audiences, particularly children and minorities;

(7) it is necessary and appropriate for the Federal Government to complement, assist, and support a national policy that will most effectively make public telecommunications services available to all citizens of the United States;

(8) public television and radio stations and public telecommunications services constitute valuable local community resources for utilizing electronic media to address national concerns and solve local problems through community programs and outreach programs;

(9) it is in the public interest for the Federal Government to ensure that all citizens of the United States have access to public telecommunications services through all appropriate available telecommunications distribution technologies; and

(10) a private corporation should be created to facilitate the development of public telecommunications and to afford maximum protection from extraneous interference and control.

#### Corporation Established

(b) There is authorized to be established a nonprofit corporation, to be known as the "Corporation for Public Broadcasting", which will not be an agency or establishment of the United States Government. The Corporation shall be subject to the provisions of this section, and, to the extent consistent with this section, to the District of Columbia Nonprofit Corporation Act.

#### Board of Directors

(c)(1) The Corporation for Public Broadcasting shall have a Board of Directors (hereinafter in this section referred to as the "Board"), consisting of 9 members appointed by the President, by and with the advice and consent of the Senate. No more than 5 members of the Board appointed by the President may be members of the same political party.

(2) The 9 members of the Board appointed by the President (A) shall be selected from among citizens of the United States (not regular full-time employees of the United States) who are eminent in such fields as education, cultural and civic affairs, or the arts, including radio and television; and (B) shall be selected so as to provide as nearly as practicable a broad representation of various regions of the Nation, various professions and occupations, and various kinds of talent and experience appropriate to the functions and responsibilities of the Corporation.

(3) Of the members of the Board appointed by the President under paragraph (1), one member shall be selected from among individuals who represent the licensees and permittees of public television stations, and one member shall be selected from among individuals who represent the licensees and permittees of public radio stations.

(4) The members of the initial Board of Directors shall serve as incorporators and shall take whatever actions are necessary to establish the Corporation under the District of Columbia Nonprofit Corporation Act.

(5) The term of office of each member of the Board appointed by the President shall be 6 years, except as provided in section 5(c) of the Public Telecommunications Act of 1992. Any member whose term has expired may serve until such member's successor has taken office, or until the end of the calendar year in which such member's term has expired, whichever is earlier. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term. No member of the Board shall be eligible to serve in excess of 2 consecutive full terms.

(6) Any vacancy in the Board shall not affect its power, but shall be filled in the manner consistent with this Act.

(7) Members of the Board shall attend not less than 50 percent of all duly convened meetings of the Board in any calendar year. A member who fails to meet the requirement of the preceding sentence shall forfeit membership and the President shall appoint a

new member to fill such vacancy not later than 30 days after such vacancy is determined by the Chairman of the Board.

#### Election of Chairman and Vice Chairman; Compensation

(d)(1) Members of the Board shall annually elect one of their members to be Chairman and elect one or more of their members as a Vice Chairman or Vice Chairmen.

(2) The members of the Board shall not, by reason of such membership, be deemed to be officers or employees of the United States. They shall, while attending meetings of the Board or while engaged in duties related to such meetings or other activities of the Board pursuant to this subpart, be entitled to receive compensation at the rate of \$150 per day, including traveltime. No Board member shall receive compensation of more than \$10,000 in any fiscal year. While away from their homes or regular places of business, Board members shall be allowed travel and actual, reasonable, and necessary expenses.

#### Officers and Employees

(e)(1) The Corporation shall have a President, and such other officers as may be named and appointed by the Board for terms and at rates of compensation fixed by the Board. No officer or employee of the Corporation may be compensated by the Corporation at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, United States Code. No individual other than a citizen of the United States may be an officer of the Corporation. No officer of the Corporation, other than the Chairman or a Vice Chairman, may receive any salary or other compensation (except for compensation for services on boards of directors of other organizations that do not receive funds from the Corporation, on committees of such boards, and in similar activities for such organizations) from any sources other than the Corporation for services rendered during the period of his or her employment by the Corporation. Service by any officer on boards of directors of other organizations, on committees of such boards, and in similar activities for such organizations shall be subject to annual advance approval by the Board and subject to the provisions of the Corporation's Statement of Ethical Conduct. All officers shall serve at the pleasure of the Board.

(2) Except as provided in the second sentence of subsection (c)(1) of this section, no political test or qualification shall be used in selecting, appointing, promoting, or taking other personnel actions with respect to officers, agents, and employees of the Corporation.

#### Nonprofit and Nonpolitical Nature of the Corporation

(f)(1) The Corporation shall have no power to issue any shares of stock, or to declare or pay any dividends.

(2) No part of the income or assets of the Corporation shall inure to the benefit of any director, officer, employee, or any other individual except as salary or reasonable compensation for services.

(3) The Corporation may not contribute to or otherwise support any political party or candidate for elective public office.

## Purposes and Activities of Corporation

(g)(1) In order to achieve the objectives and to carry out the purposes of this subpart, as set out in subsection (a), the Corporation is authorized to—

(A) facilitate the full development of public telecommunications in which programs of high quality, diversity, creativity, excellence, and innovation, which are obtained from diverse sources, will be made available to public telecommunications entities, with strict adherence to objectivity and balance in all programs or series of programs of a controversial nature;

(B) assist in the establishment and development of one or more interconnection systems to be used for the distribution of public telecommunications services so that all public telecommunications entities may disseminate such services at times chosen by the entities;

(C) assist in the establishment and development of one or more systems of public telecommunications entities throughout the United States; and

(D) carry out its purposes and functions and engage in its activities in ways that will most effectively assure the maximum freedom of the public telecommunications entities and systems from interference with, or control of, program content or other activities.

(2) In order to carry out the purposes set forth in subsection (a), the Corporation is authorized to—

(A) obtain grants from and make contracts with individuals and with private, State, and Federal agencies, organizations, and institutions;

(B) contract with or make grants to public telecommunications entities, national, regional, and other systems of public telecommunications entities, and independent producers and production entities, for the production or acquisition of public telecommunications services to be made available for use by public telecommunications entities, except that—

(i) to the extent practicable, proposals for the provision of assistance by the Corporation in the production or acquisition of programs or series of programs shall be evaluated on the basis of comparative merit by panels of outside experts, representing diverse interests and perspectives, appointed by the Corporation; and

(ii) nothing in this subparagraph shall be construed to prohibit the exercise by the Corporation of its prudent business judgement with respect to any grant to assist in the production or acquisition of any program or series of programs recommended by any such panel;

(C) make payments to existing and new public telecommunications entities to aid in financing the production or acquisition of public telecommunications services by such entities, particularly innovative approaches to such services, and other costs of operation of such entities;

(D) establish and maintain, or contribute to, a library and archives of noncommercial educational and cultural radio and television programs and related materials and develop public awareness of, and disseminate information about, public tele-

communications services by various means, including the publication of a journal;

(E) arrange, by grant to or contract with appropriate public or private agencies, organizations, or institutions, for interconnection facilities suitable for distribution and transmission of public telecommunications services to public telecommunications entities;

(F) hire or accept the voluntary services of consultants, experts, advisory boards, and panels to aid the Corporation in carrying out the purposes of this subpart;

(G) conduct (directly or through grants or contracts) research, demonstrations, or training in matters related to public television or radio broadcasting and the use of nonbroadcast telecommunications technologies for the dissemination of non-commercial educational and cultural television or radio programs;

(H) make grants or contracts for the use of nonbroadcast telecommunications technologies for the dissemination to the public of public telecommunications services; and

(I) take such other actions as may be necessary to accomplish the purposes set forth in subsection (a).

Nothing contained in this paragraph shall be construed to commit the Federal Government to provide any sums for the payment of any obligation of the Corporation which exceeds amounts provided in advance in appropriation Acts.

(3) To carry out the foregoing purposes and engage in the foregoing activities, the Corporation shall have the usual powers conferred upon a nonprofit corporation by the District of Columbia Nonprofit Corporation Act (D.C. Code, sec. 29-1001 et seq.), except that the Corporation is prohibited from—

(A) owning or operating any television or radio broadcast station, system, or network, community antenna television system, interconnection system or facility, program production facility, or any public telecommunications entity, system, or network; and

(B) producing programs, scheduling programs for dissemination, or disseminating programs to the public.

(4) All meetings of the Board of Directors of the Corporation, including any committee of the Board, shall be open to the public under such terms, conditions, and exceptions as are set forth in subsection (k)(4).

(5) The Corporation, in consultation with interested parties, shall create a 5-year plan for the development of public telecommunications services. Such plan shall be updated annually by the Corporation.

#### Interconnection Service

(h)(1) Nothing in this Act, or in any other provision of law, shall be construed to prevent United States communications common carriers from rendering free or reduced rate communications interconnection services for public television or radio services, subject to such rules and regulations as the Commission may prescribe.

(2) Subject to such terms and conditions as may be established by public telecommunications entities receiving space satellite interconnection facilities or services purchased or arranged for, in whole or in part, with funds authorized under this part, other public telecommunications entities shall have reasonable access to such facilities or services for the distribution of educational and cultural programs to public telecommunications entities. Any remaining capacity shall be made available to other persons for the transmission of noncommercial educational and cultural programs and program information relating to such programs, to public telecommunications entities, at a charge or charges comparable to the charge or charges, if any, imposed upon a public telecommunications entity for the distribution of noncommercial educational and cultural programs to public telecommunications entities. No such person shall be denied such access whenever sufficient capacity is available.

#### Report to Congress

(i)(1) The Corporation shall submit an annual report for the preceding fiscal year ending September 30 to the President for transmittal to the Congress on or before the 15th day of May of each year. The report shall include—

(A) a comprehensive and detailed report of the Corporation's operations, activities, financial condition, and accomplishments under this subpart and such recommendations as the Corporation deems appropriate;

(B) a comprehensive and detailed inventory of funds distributed by Federal agencies to public telecommunications entities during the preceding fiscal year;

(C) a listing of each organization that receives a grant from the Corporation to produce programming, the name of the producer of any programming produced under each such grant, the title or description of any program so produced, and the amount of each such grant;

(D) the summary of the annual report provided to the Secretary pursuant to section 398(b)(4).

(2) The officers and directors of the Corporation shall be available to testify before appropriate committees of the Congress with respect to such report, the report of any audit made by the Comptroller General pursuant to subsection (1), or any other matter which such committees may determine.

#### Right to Repeal, Alter, or Amend

(j) The right to repeal, alter, or amend this section at any time is expressly reserved.

#### Financing; Open Meetings and Financial Records

(k)(1)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Fund (hereinafter in this subsection referred to as the "Fund"), to be administered by the Secretary of the Treasury.

(B) There is authorized to be appropriated to the Fund, for each of the fiscal years 1978, 1979 and 1980, an amount equal to 40 percent of the total amount of non-Federal financial support re-

ceived by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed \$121,000,000 for fiscal year 1978, \$140,000,000 for fiscal year 1979, and \$160,000,000 for fiscal year 1980.

(C) There is authorized to be appropriated to the Fund, for each of the fiscal years 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, and 1993, an amount equal to 40 percent of the total amount of non-Federal financial support received by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed \$265,000,000 for fiscal year 1992, \$285,000,000 for fiscal year 1993, \$310,000,000 for fiscal year 1994, \$375,000,000 for fiscal year 1995, and \$425,000,000 for fiscal year 1996.

(D)<sup>1</sup> In addition to any amounts authorized under any other provision of this or any other Act to be appropriated to the Fund, \$20,000,000 are hereby authorized to be appropriated to the Fund (notwithstanding any other provision of this subsection) specifically for transition from the use of analog to digital technology for the provision of public broadcasting services for fiscal year 2001.

(E) Funds appropriated under this subsection shall remain available until expended.

(F) In recognition of the importance of educational programs and services, and the expansion of public radio services, to unserved and underserved audiences, the Corporation, after consultation with the system of public telecommunications entities, shall prepare and submit to the Congress an annual report for each of the fiscal years 1994, 1995, and 1996 on the Corporation's activities and expenditures relating to those programs and services.

(2)(A) The funds authorized to be appropriated by this subsection shall be used by the Corporation, in a prudent and financially responsible manner, solely for its grants, contracts, and administrative costs, except that the Corporation may not use any funds appropriated under this subpart for purposes of conducting any reception, or providing any other entertainment, for any officer or employee of the Federal Government or any State or local government. The Corporation shall determine the amount of non-Federal financial support received by public broadcasting entities during each of the fiscal years referred to in paragraph (1) for the purpose of determining the amount of each authorization, and shall certify such amount to the Secretary of the Treasury, except that the Corporation may include in its certification non-Federal financial support received by a public broadcasting entity during its most recent fiscal year ending before September 30 of the year for which certification is made. Upon receipt of such certification, the Secretary of the Treasury shall make available to the Corporation, from such funds as may be appropriated to the Fund, the amount authorized for each of the fiscal years pursuant to the provisions of this subsection.

<sup>1</sup> Margin so in law.

(B) Funds appropriated and made available under this subsection shall be disbursed by the Secretary of the Treasury on a fiscal year basis.

(3)(A)(i) The Corporation shall establish an annual budget for use in allocating amounts from the Fund. Of the amounts appropriated into the Fund available for allocation for any fiscal year—

(I) \$10,200,000 shall be available for the administrative expenses of the Corporation for fiscal year 1989, and for each succeeding fiscal year the amount which shall be available for such administrative expenses shall be the sum of the amount made available to the Corporation under this subclause for such expenses in the preceding fiscal year plus the greater of 4 percent of such amount or a percentage of such amount equal to the percentage change in the Consumer Price Index, except that none of the amounts allocated under subclauses (II), (III), and (IV) and clause (v) shall be used for any administrative expenses of the Corporation and not more than 5 percent of all the amounts appropriated into the Fund available for allocation for any fiscal year shall be available for such administrative expenses;

(II) 6 percent of such amounts shall be available for expenses incurred by the Corporation for capital costs relating to telecommunications satellites, the payment of programming royalties and other fees, the costs of interconnection facilities and operations (as provided in clause (iv)(I)), and grants which the Corporation may make for assistance to stations that broadcast programs in languages other than English or for assistance in the provision of affordable training programs for employees at public broadcast stations, and if the available funding level permits, for projects and activities that will enhance public broadcasting;

(III) 75 percent of the remainder (after allocations are made under subclause (I) and subclause (II)) shall be allocated in accordance with clause (ii);

(IV) 25 percent of such remainder shall be allocated in accordance with clause (iii).

(ii) Of the amounts allocated under clause (i)(III) for any fiscal year—

(I) 75 percent of such amounts shall be available for distribution among the licensees and permittees of public television stations pursuant to paragraph (6)(B); and

(II) 25 percent of such amounts shall be available for distribution under subparagraph (B)(i), and in accordance with any plan implemented under paragraph (6)(A), for national public television programming.

(iii) Of the amounts allocated under clause (i)(IV) for any fiscal year—

(I) 70 percent of such amounts shall be available for distribution among the licensees and permittees of public radio stations pursuant to paragraph (6)(B);

(II) 7 percent of such amounts shall be available for distribution under subparagraph (B)(i) for public radio programming; and

(III) 23 percent of such amounts shall be available for distribution among the licensees and permittees of public radio

stations pursuant to paragraph (6)(B), solely to be used for acquiring or producing programming that is to be distributed nationally and is designed to serve the needs of a national audience.

(iv)(I) From the amount provided pursuant to clause (i)(II), the Corporation shall defray an amount equal to 50 percent of the total costs of interconnection facilities and operations to facilitate the availability of public television and radio programs among public broadcasts stations.

(II) Of the amounts received as the result of any contract, lease agreement, or any other arrangement under which the Corporation directly or indirectly makes available interconnection facilities, 50 percent of such amounts shall be distributed to the licensees and permittees of public television stations and public radio stations. The Corporation shall not have any authority to establish any requirements, guidelines, or limitations with respect to the use of such amounts by such licensees and permittees.

(v) Of the interest on the amounts appropriated into the Fund which is available for allocation for any fiscal year—

(I) 75 percent shall be available for distribution for the purposes referred to in clause (ii)(II); and

(II) 25 percent shall be available for distribution for the purposes referred to in clause (ii)(II) and (III).

(B)(i) The Corporation shall utilize the funds allocated pursuant to subparagraph (A)(ii)(II) and subparagraph (A)(iii)(II) to make grants for production of public television or radio programs by independent producers and production entities and public telecommunications entities, producers of national children's educational programming, and producers of programs addressing the needs and interest of minorities, and for acquisition of such programs by public telecommunications entities. The Corporation may make grants to public telecommunications entities and producers for the production of programs in languages other than English. Of the funds utilized pursuant to this clause, a substantial amount shall be distributed to independent producers and production entities, producers of national children's educational programming, and producers of programming addressing the needs and interests of minorities for the production of programs.

(ii) All funds available for distribution under clause (i) shall be distributed to entities outside the Corporation and shall not be used for the general administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

(iii)(I) For fiscal year 1990 and succeeding fiscal years, the Corporation shall, in carrying out its obligations under clause (i) with respect to public television programming, provide adequate funds for an independent production service.

(II) Such independent production service shall be separate from the Corporation and shall be incorporated under the laws of the District of Columbia for the purpose of contracting with the Corporation for the expenditure of funds for the production of public television programs by independent producers and independent production entities.

(III) The Corporation shall work with organizations or associations of independent producers or independent production entities to develop a plan and budget for the operation of such service that is acceptable to the Corporation.

(IV) The Corporation shall ensure that the funds provided to such independent production service shall be used exclusively in pursuit of the Corporation's obligation to expand the diversity and innovativeness of programming available to public broadcasting.

(V) The Corporation shall report annually to Congress regarding the activities and expenditures of the independent production service, including carriage and viewing information for programs produced or acquired with funds provided pursuant to subclause (I). At the end of fiscal years 1992, 1993, 1994, and 1995, the Corporation shall submit a report to Congress evaluating the performance of the independent production service in light of its mission to expand the diversity and innovativeness of programming available to public broadcasting.

(VI) The Corporation shall not contract to provide funds to any such independent production service, unless that service agrees to comply with public inspection requirements established by the Corporation within 3 months after the date of enactment of this subclause. Under such requirements the service shall maintain at its offices a public file, updated regularly, containing information relating to the service's award of funds for the production of programming. The information shall be available for public inspection and copying for at least 3 years and shall be of the same kind as the information required to be maintained by the Corporation under subsection (1)(4)(B).

(4) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization), or to the licensee or permittee of any public broadcast station, unless the governing body of any such organization, any committee of such governing body, or any advisory body of any such organization, holds open meetings preceded by reasonable notice to the public. All persons shall be permitted to attend any meeting of the board, or of any such committee or body, and no person shall be required, as a condition to attendance at any such meeting, to register such person's name or to provide any other information. Nothing contained in this paragraph shall be construed to prevent any such board, committee, or body from holding closed sessions to consider matters relating to individual employees, proprietary information, litigation and other matters requiring the confidential advice of counsel, commercial or financial information obtained from a person on a privileged or confidential basis, or the purchase of property or services whenever the premature exposure of such purchase would compromise the business interests of any such organization. If any such meeting is closed pursuant to the provisions of this paragraph, the organization involved shall thereafter (within a reasonable period of time) make available to the public a written statement containing an explanation of the reasons for closing the meeting.

(5) Funds may not be distributed pursuant to this subsection to any public telecommunications entity that does not maintain for public examination copies of the annual financial and audit reports,

or other information regarding finances, submitted to the Corporation pursuant to subsection (1)(3)(B).

(6)(A) The Corporation shall conduct a study and prepare a plan in consultation with public television licensees (or designated representatives of those licensees) and the Public Broadcasting Service, on how funds available to the Corporation under paragraph (3)(A)(ii)(II) can be best allocated to meet the objectives of this Act with regard to national public television programming. The plan, which shall be based on the conclusions resulting from the study, shall be submitted by the Corporation to the Congress not later than January 31, 1990. Unless directed otherwise by an Act of Congress, the Corporation shall implement the plan during the first fiscal year beginning after the fiscal year in which the plan is submitted to Congress.

(B) The Corporation shall make a basic grant from the portion reserved for television stations under paragraph (3)(A)(ii)(I) to each licensee and permittee of a public television station that is on the air. The Corporation shall assist radio stations to maintain and improve their service where public radio is the only broadcast service available. The balance of the portion reserved for television stations and the total portion reserved for radio stations under paragraph (3)(A)(iii)(I) shall be distributed to licensees and permittees of such stations in accordance with eligibility criteria (which the Corporation shall review periodically in consultation with public radio and television licensees or permittees, or their designated representatives) that promote the public interest in public broadcasting, and on the basis of a formula designed to—

(i) provide for the financial needs and requirements of stations in relation to the communities and audiences such stations undertake to serve;

(ii) maintain existing, and stimulate new, sources of non-Federal financial support for stations by providing incentives for increases in such support; and

(iii) assure that each eligible licensee and permittee of a public radio station receives a basic grant.

(7) The funds distributed pursuant to paragraph (3)(A)(ii)(I) and (iii)(I) may be used at the discretion of the recipient for purposes related primarily to the production or acquisition of programming.

(8)(A) Funds may not be distributed pursuant to this subpart to any public broadcast station (other than any station which is owned and operated by a state, a political or special purpose subdivision of a state or a public agency) unless such station establishes a community advisory board. Any such station shall undertake good faith efforts to assure that (i) its advisory board meets at regular intervals; (ii) the members of its advisory board regularly attend the meetings of the advisory board; and (iii) the composition of its advisory board are reasonably representative of the diverse needs and interests of the communities served by such station.

(B) The board shall be permitted to review the programming goals established by the station, the service provided by the station, and the significant policy decisions rendered by the station. The board may also be delegated any other responsibilities, as determined by the governing body of the station. The board shall ad-

wise the governing body of the station with respect to whether the programming and other policies of such station are meeting the specialized educational and cultural needs of the communities served by the station, and may make such recommendations as it considers appropriate to meet such needs.

(C) The role of the board shall be solely advisory in nature, except to the extent other responsibilities are delegated to the board by the governing body of the station. In no case shall the board have any authority to exercise any control over the daily management or operation of the station.

(D) In the case of any public broadcast station (other than any station which is owned and operated by a state, a political or special purpose subdivision of a State, or a public agency) in existence on the effective date of this paragraph, such station shall comply with the requirements of this paragraph with respect to the establishment of a community advisory board not later than 180 days after such effective date.

(E) The provision of subparagraph (A) prohibiting the distribution of funds to any public broadcast station (other than any station which is owned and operated by a State, a political or special purpose subdivision of a State, or a public agency) unless such station establishes a community advisory board shall be the exclusive remedy for the enforcement of the provisions of this paragraph.

(9) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization) unless assurances are provided to the Corporation that no officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization), as the case may be, will be compensated in excess of reasonable compensation as determined pursuant to Section 4958 of the Internal Revenue Code for services that the officer or employee renders to organization,<sup>1</sup> and unless further assurances are provided to the Corporation that no officer or employee of such an entity will be loaned money by that entity on an interest-free basis.

(10)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Satellite Interconnection Fund (hereinafter in this subsection referred to as the "Satellite Interconnection Fund"), to be administered by the Secretary of the Treasury.

(B) There is authorized to be appropriated to the Satellite Interconnection Fund, for fiscal year 1991, the amount of \$200,000,000. If such amount is not appropriated in full for fiscal year 1991, the portion of such amount not yet appropriated is authorized to be appropriated for fiscal years 1992 and 1993. Funds appropriated to the Satellite Interconnection Fund shall remain available until expended.

(C) The Secretary of the Treasury shall make available and disburse to the Corporation, at the beginning of fiscal year 1991 and of each succeeding fiscal year thereafter, such funds as have

<sup>1</sup> Section 701 of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (P.L. 105-277, 112 Stat. 2681-389) amended "section 396(k)(9) of Title 47", which is not a codified title, rather than section 396(k)(9) of the Communications Act of 1934. The amendment refers to the "Internal Revenue Code" rather than the Internal Revenue Code of 1986. The amendment is effected in this compilation, but the reference to the Internal Revenue Code is not corrected.

been appropriated to the Satellite Interconnection Fund for the fiscal year in which such disbursement is to be made.

(D) Notwithstanding any other provision of this subsection except paragraphs (4), (5), (8), and (9), all funds appropriated to the Satellite Interconnection Fund and interest thereon—

(i) shall be distributed by the Corporation to the licensees and permittees of noncommercial educational television broadcast stations providing public telecommunications services or the national entity they designate for satellite interconnection purposes and to those public telecommunications entities participating in the public radio satellite interconnection system or the national entity they designate for satellite interconnection purposes, exclusively for the capital costs of the replacement, refurbishment, or upgrading of their national satellite interconnection systems and associated maintenance of such systems; and

(ii) shall not be used for the administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

(11)(A) Funds may not be distributed pursuant to this subsection for any fiscal year to the licensee or permittee of any public broadcast station if such licensee or permittee—

(i) fails to certify to the Corporation that such licensee or permittee complies with the Commission's regulations concerning equal employment opportunity as published under section 73.2080 of title 47, Code of Federal Regulations, or any successor regulations thereto; or

(ii) fails to submit to the Corporation the report required by subparagraph (B) for the preceding calendar year.

(B) A licensee or permittee of any public broadcast station with more than five full-time employees to file annually with the Corporation a statistical report, consistent with reports required by Commission regulation, identifying by race and sex the number of employees in each of the following full-time and part-time job categories:

- (i) Officials and managers.
- (ii) Professionals.
- (iii) Technicians.
- (iv) Semiskilled operatives.
- (v) Skilled craft persons.
- (vi) Clerical and office personnel.
- (vii) Unskilled operatives.
- (viii) Service workers.

(C) In addition, such report shall state the number of job openings occurring during the course of the year. Where the job openings were filled in accordance with the regulations described in subparagraph (A)(i), the report shall so certify, and where the job openings were not filled in accordance with such regulations, the report shall contain a statement providing reasons therefor. The statistical report shall be available to the public at the central office and at every location where more than five full-time employees are regularly assigned to work.

(12) Funds may not be distributed under this subsection to any public broadcasting entity that directly or indirectly—

(A) rents contributor or donor names (or other personally identifiable information) to or from, or exchanges such names or information with, any Federal, State, or local candidate, political party, or political committee; or

(B) discloses contributor or donor names, or other personally identifiable information, to any nonaffiliated third party unless—

(i) such entity clearly and conspicuously discloses to the contributor or donor that such information may be disclosed to such third party;

(ii) the contributor or donor is given the opportunity, before the time that such information is initially disclosed, to direct that such information not be disclosed to such third party; and

(iii) the contributor or donor is given an explanation of how the contributor or donor may exercise that nondisclosure option.

#### Records and Audit

(1)(A) The accounts of the Corporation shall be audited annually in accordance with generally accepted auditing standards by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State or other political subdivision of the United States, except that such requirements shall not preclude shared auditing arrangements between any public telecommunications entity and its licensee where such licensee is a public or private institution. The audits shall be conducted at the place or places where the accounts of the Corporation are normally kept. All books, accounts, financial records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation and necessary to facilitate the audits shall be made available to the person or persons conducting the audits; and full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents and custodians shall be afforded to such person or persons.

(B) The report of each such independent audit shall be included in the annual report required by subsection (i) of this section. The audit report shall set forth the scope of the audit and include such statements as are necessary to present fairly the Corporation's assets and liabilities, surplus or deficit, with an analysis of the changes therein during the year, supplemented in reasonable detail by a statement of the Corporation's income and expenses during the year, and a statement of the sources and application of funds, together with the independent author's opinion of those statements.

(2)(A) The financial transactions of the Corporation for any fiscal year during which Federal funds are available to finance any portion of its operations may be audited by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions and under such rules and regulations as may be prescribed by the Comptroller General of the United States. Any such audit shall be conducted at the place or places where accounts of the Corporation are normally kept. The representative of the General Accounting Office shall have access

to all books, accounts, records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation pertaining to its financial transactions and necessary to facilitate the audit, and they shall be afforded full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians. All such books, accounts, records, reports, files, papers and property of the Corporation shall remain in possession and custody of the Corporation.

(B) A report of each such audit shall be made by the Comptroller General to the Congress. The report to the Congress shall contain such comments and information as the Comptroller General may deem necessary to inform Congress of the financial operations and condition of the Corporation, together with such recommendations with respect thereto as he may deem advisable. The report shall also show specifically any program, expenditure, or other financial transaction or undertaking observed in the course of the audit, which, in the opinion of the Comptroller General, has been carried on or made without authority of law. A copy of each report shall be furnished to the President, to the Secretary, and to the Corporation at the time submitted to the Congress.

(3)(A) Not later than 1 year after the effective date of this paragraph, the Corporation, in consultation with the Comptroller General, and as appropriate with others, shall develop accounting principles which shall be used uniformly by all public telecommunications entities receiving funds under this subpart, taking into account organizational differences among various categories of such entities. Such principles shall be designed to account fully for all funds received and expended for public telecommunications purposes by such entities.

(B) Each public telecommunications entity receiving funds under this subpart shall be required—

(i) to keep its books, records, and accounts in such form as may be required by the Corporation;

(ii)(I) to undergo a biennial audit by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State, which audit shall be in accordance with auditing standards developed by the Corporation, in consultation with the Comptroller General; or

(II) to submit a financial statement in lieu of the audit required by subclause (I) if the Corporation determines that the cost burden of such audit on such entity is excessive in light of the financial condition of such entity; and

(iii) to furnish biennially to the Corporation a copy of the audit report required pursuant to the clause (ii), as well as such other information regarding finances (including an annual financial report) as the Corporation may require.

(C) Any recipient of assistance by grant or contract under this section, other than a fixed price contract awarded pursuant to competitive bidding procedures, shall keep such records as may be reasonably necessary to disclose fully the amount and the disposition by such recipient of such assistance, that total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of

the projects or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(D) The Corporation or any of its duly authorized representatives shall have access to any books, documents, papers, and records of any recipient of assistance for the purpose of auditing and examining all funds received or expended for public telecommunications purposes by the recipient. The Comptroller General of the United States or any of his duly authorized representatives also shall have access to such books, documents, papers, and records for the purpose of auditing and examining all funds received or expended for public telecommunications purposes during any fiscal year for which Federal funds are available to the Corporation.

(4)(A) The Corporation shall maintain the information described in subparagraphs (B), (C), and (D) at its offices for public inspection and copying for at least 3 years, according to such reasonable guidelines as the Corporation may issue. This public file shall be updated regularly. This paragraph shall be effective upon its enactment and shall apply to all grants awarded after January 1, 1993.

(B) Subsequent to any award of funds by the Corporation for the production or acquisition of national broadcasting programming pursuant to subsection (k)(3)(A) (ii)(II) or (iii)(II), the Corporation shall make available for public inspection the following:

(i) Grant and solicitation guidelines for proposals for such programming.

(ii) The reasons for selecting the proposal for which the award was made.

(iii) Information on each program for which the award was made, including the names of the awardee and producer (and if the awardee or producer is a corporation or partnership, the principals of such corporation or partnership), the monetary amount of the award, and the title and description of the program (and of each program in a series of programs).

(iv) A report based on the final audit findings resulting from any audit of the award by the Corporation or the Comptroller General.

(v) Reports which the Corporation shall require to be provided by the awardee relating to national public broadcasting programming funded, produced, or acquired by the awardee with such funds. Such reports shall include, where applicable, the information described in clauses (i), (ii), and (iii), but shall exclude proprietary, confidential, or privileged information.

(C) The Corporation shall make available for public inspection the final report required by the Corporation on an annual basis from each recipient of funds under subsection (k)(3)(A)(iii)(III), excluding proprietary, confidential, or privileged information.

(D) The Corporation shall make available for public inspection an annual list of national programs distributed by public broadcasting entities that receive funds under subsection (k)(3)(A) (ii)(III) or (iii)(II) and are engaged primarily in the national distribution of public television or radio programs. Such list shall include the names of the programs (or program series), producers, and providers of funding.

(m)(1) Prior to July 1, 1989, and every three years thereafter, the Corporation shall compile an assessment of the needs of minority and diverse audiences, the plans of public broadcasting entities and public telecommunications entities to address such needs, the ways radio and television can be used to help these underrepresented groups, and projections concerning minority employment by public broadcasting entities and public telecommunications entities. Such assessment shall address the needs of racial and ethnic minorities, new immigrant populations, people for whom English is a second language, and adults who lack basic reading skills.

(2) Commencing July 1, 1989, the Corporation shall prepare an annual report on the provision by public broadcasting entities and public telecommunications entities of service to the audiences described in paragraph (1). Such report shall address programming (including that which is produced by minority producers), training, minority employment, and efforts by the Corporation to increase the number of minority public radio and television stations eligible for financial support from the Corporation. Such report shall include a summary of the statistical reports received by the Corporation pursuant to subsection (k)(11), and a comparison of the information contained in those reports with the information submitted by the Corporation in the previous year's annual report.

(3) As soon as they have been prepared, each assessment and annual report required under paragraphs (1) and (2) shall be submitted to Congress.

## Subpart E—General

### SEC. 397. [47 U.S.C. 397] DEFINITIONS.

For the purposes of this part—

(1) The term “construction” (as applied to public telecommunications facilities) means acquisition (including acquisition by lease), installation, and modernization of public telecommunications facilities and planning and preparatory steps incidental to any such acquisition, installation, or modernization.

(2) The term “Corporation” means the Corporation for Public Broadcasting authorized to be established in subpart D.

(3) The term “interconnection” means the use of microwave equipment, boosters, translators, repeaters, communication space satellites, or other apparatus or equipment for the transmission and distribution of television or radio programs to public telecommunications entities.

(4) The term “interconnection system” means any system of interconnection facilities used for the distribution of programs to public telecommunications entities.

(5) The term “meeting” means the deliberations of at least the number of members of a governing or advisory body, or any committee thereof, required to take action on behalf of such body or committee where such deliberations determine or result in the joint conduct or disposition of the governing or advisory body's business, or the committee's business, as the case may be, but only to the extent that such deliberations relate to public broadcasting.

(6) The terms “noncommercial educational broadcast station” and “public broadcast station” mean a television or radio broadcast station which—

(A) under the rules and regulations of the Commission in effect on the effective date of this paragraph, is eligible to be licensed by the Commission as a noncommercial educational radio or television broadcast station and which is owned and operated by a public agency or nonprofit private foundation, corporation, or association; or

(B) is owned and operated by a municipality and which transmits only noncommercial programs for education purposes.

(7) The term "noncommercial telecommunications entity" means any enterprise which—

(A) is owned and operated by a State, a political or special purpose subdivision of a State, a public agency, or a nonprofit private foundation, corporation, or association; and

(B) has been organized primarily for the purpose of disseminating audio or video noncommercial educational and cultural programs to the public by means other than a primary television or radio broadcast station, including, but not limited to, coaxial cable, optical fiber, broadcast translators, cassettes, discs, microwave, or laser transmission through the atmosphere.

(8) The term "nonprofit" (as applied to any foundation, corporation, or association) means a foundation, corporation, or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(9) The term "non-Federal financial support" means the total value of cash and the fair market value of property and services (including, to the extent provided in the second sentence of this paragraph, the personal services of volunteers) received—

(A) as gifts, grants, bequests, donations, or other contributions for the construction or operation of noncommercial educational broadcast stations, or for the production, acquisition, distribution, or dissemination of educational television or radio programs, and related activities, from any source other than (i) the United States or any agency or instrumentality of the United States; or (ii) any public broadcasting entity; or

(B) as gifts, grants, donations, contributions, or payments from any State, or any educational institution, for the construction or operation of noncommercial educational broadcast stations or for the production, acquisition, distribution, or dissemination of educational television or radio programs, or payments in exchange for services or materials with respect to the provision of educational or instructional television or radio programs.

Such term includes the fair market value of personal services of volunteers, as computed using the valuation standards established by the Corporation, but only with respect to such an entity in a fiscal year, to the extent that the value of the services does not exceed 5 percent of the total non-Federal financial support of the entity in such fiscal year.

(10) The term "preoperational expenses" means all non-construction costs incurred by new telecommunications entities before the date on which they begin providing service to the public, and all nonconstruction costs associated with expansion of existing entities before the date on which such expanded capacity is acti-

vated, except that such expenses shall not include any portion of the salaries of any personnel employed by an operating public telecommunications entity.

(11) The term "Public broadcasting entity" means the Corporation, any licensee or permittee of a public broadcast station, or any nonprofit institution engaged primarily in the production, acquisition, distribution, or dissemination of educational and cultural television or radio programs.

(12) The term "public telecommunications entity" means any enterprise which—

(A) is a public broadcast station or a noncommercial telecommunications entity; and

(B) disseminates public telecommunications services to the public.

(13) The term "public telecommunications facilities" means apparatus necessary for production, interconnection, captioning, broadcast, or other distribution of programming, including, but not limited to, studio equipment, cameras, microphones, audio and video storage or reproduction equipment, or both, signal processors and switchers, towers, antennas, transmitters, translators, microwave equipment, mobile equipment, satellite communications equipment, instructional television fixed service equipment, subsidiary communications authorization transmitting and receiving equipment, cable television equipment, video and audio cassettes and discs, optical fiber communications equipment, and other means of transmitting, emitting, storing, and receiving images and sounds, or intelligence, except that such term does not include the buildings to house such apparatus (other than small equipment shelters which are part of satellite earth stations, translators, microwave interconnection facilities, and similar facilities).

(14) The term "public telecommunications services" means noncommercial educational and cultural radio and television programs, and related noncommercial instructional or informational material that may be transmitted by means of electronic communications.

(15) The term "Secretary" means the Secretary of Commerce when such term is used in subpart A and subpart B, and the Secretary of Health and Human Services when such term is used in subpart C, subpart D, and this subpart.

(16) The term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(17) The term "system of public telecommunications entities" means any combination of public telecommunications entities acting cooperatively to produce, acquire, or distribute programs, or to undertake related activities.

**SEC. 398. [47 U.S.C. 398] FEDERAL INTERFERENCE OR CONTROL PROHIBITED; EQUAL EMPLOYMENT OPPORTUNITY.**

(a) Nothing contained in this part shall be deemed (1) to amend any other provision of, or requirement under, this Act; or (2) except to the extent authorized in subsection (b), to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over public telecommunications, or over the Corporation or any of its grantees or contractors, or over the charter or bylaws of the Corporation, or

over the curriculum, program of instruction, or personnel of any educational institution, school system, or public telecommunications entity.

(b)(1) Equal opportunity in employment shall be afforded to all persons by the Public Broadcasting Service and National Public Radio (or any successor organization) and by all public telecommunications entities receiving funds pursuant to subpart C (hereinafter in this subsection referred to as "recipients"), in accordance with the equal employment opportunity regulations of the Commission, and no person shall be subjected to discrimination in employment by any recipient on the grounds of race, color, religion, national origin, or sex.

(2)(A) The Secretary is authorized and directed to enforce this subsection and to prescribe such rules and regulations as may be necessary to carry out the functions of the Secretary under this subsection.

(B) The Secretary shall provide for close coordination with the Commission in the administration of the responsibilities of the Secretary under this subsection which are of interest to or affect the functions of the Commission so that, to the maximum extent possible consistent with the enforcement responsibilities of each, the reporting requirements of public telecommunications entities shall be uniformly based upon consistent definitions and categories of information.

(3)(A) The Corporation shall incorporate into each grant agreement or contract with any recipient entered into on or after the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A), a statement indicating that, as a material part of the terms and conditions of the grant agreement or contract, the recipient will comply with the provisions of paragraph (1) and the rules and regulations prescribed pursuant to paragraph (2)(A). Any person which desires to be a recipient (within the meaning of paragraph (1)) of funds under subpart C shall, before receiving any such funds, provide to the Corporation any information which the Corporation may require to satisfy itself that such person is affording equal opportunity in employment in accordance with the requirements of this subsection. Determinations made by the Corporation in accordance with the preceding sentence shall be based upon guidelines relating to equal opportunity in employment which shall be established by rule by the Secretary.

(B) If the Corporation is not satisfied that any such person is affording equal opportunity in employment in accordance with the requirements of this subsection, the Corporation shall notify the Secretary, and the Secretary shall review the matter and make a final determination regarding whether such person is affording equal opportunity in employment. In any case in which the Secretary conducts a review under the preceding sentence the Corporation shall make funds available to the person involved pursuant to the grant application of such person (if the Corporation would have approved such application but for the finding of the Corporation under this paragraph) pending a final determination of the Secretary upon completion of such review. The Corporation shall monitor the equal employment opportunity practices of each recipient throughout the duration of the grant or contract.

(C) The provisions of subparagraph (A) and subparagraph (B) shall take effect on the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A).

(4) Based upon its responsibilities under paragraph (3), the Corporation shall provide an annual report for the preceding fiscal year ending September 30 to the Secretary on or before the 15th day of February of each year. The report shall contain information in the form required by the Secretary. The Corporation shall submit a summary of such report to the President and the Congress as part of the report required in section 396(i). The Corporation shall provide other information in the form which the Secretary may require in order to carry out the functions of the Secretary under this subsection.

(5) Whenever the Secretary makes a final determination, pursuant to the rules and regulations which the Secretary shall prescribe, that a recipient is not in compliance with paragraph (1), the Secretary shall within 10 days after such determination, notify the recipient in writing of such determination and request the recipient to secure compliance. Unless the recipient within 120 days after receipt of such written notice—

(A) demonstrates to the Secretary that the violation has been corrected; or

(B) enters into a compliance agreement approved by the Secretary;

the Secretary shall direct the Corporation to reduce or suspend any further payments of funds under this part to the recipient and the Corporation shall comply with such directive. Resumption of payments shall take place only when the Secretary certifies to the Corporation that the recipient has entered into a compliance agreement approved by the Secretary. A recipient whose funds have been reduced or suspended under this paragraph may apply at any time to the Secretary for such certification.

(c) Nothing in this section shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the content or distribution of public telecommunications programs and services, or over the curriculum or program of instruction of any educational institution or school system.

**SEC. 399. [47 U.S.C. 399] SUPPORT OF POLITICAL CANDIDATES PROHIBITED.**

No noncommercial educational broadcasting station may support or oppose any candidate for political office.

**SEC. 399A. [47 U.S.C. 399a] USE OF BUSINESS OR INSTITUTIONAL LOGOGRAMS.**

(a) For purposes of this section, the term “business or institutional logogram” means any aural or visual letters or words, or any symbol or sign, which is used for the exclusive purpose of identifying any corporation, company, or other organization, and which is not used for the purpose of promoting the products, services, or facilities of such corporation, company, or other organization.

(b) Each public television station and each public radio station shall be authorized to broadcast announcements which include the use of any business or institutional logogram and which include a reference to the location of the corporation, company, or other orga-

nization involved, except that such announcements may not interrupt regular programming.

(c) The provisions of this section shall not be construed to limit the authority of the Commission to prescribe regulations relating to the manner in which logograms may be used to identify corporations, companies, or other organizations.

**SEC. 399B. [47 U.S.C. 399b] OFFERING OF CERTAIN SERVICES, FACILITIES, OR PRODUCTS BY PUBLIC BROADCAST STATIONS.**

(a) For purposes of this section, the term “advertisement” means any message or other programming material which is broadcast or otherwise transmitted in exchange for any remuneration, and which is intended—

(1) to promote any service, facility, or product offered by any person who is engaged in such offering for profit;

(2) to express the views of any person with respect to any matter of public importance or interest; or

(3) to support or oppose any candidate for political office.

(b)(1) Except as provided in paragraph (2), each public broadcast station shall be authorized to engage in the offering of services, facilities, or products in exchange for remuneration.

(2) No public broadcast station may make its facilities available to any person for the broadcasting of any advertisement.

(c) Any public broadcast station which engages in any offering specified in subsection (b)(1) may not use any funds distributed by the Corporation under section 396(k) to defray any costs associated with such offering. Any such offering by a public broadcast station shall not interfere with the provision of public telecommunications services by such station.

(d) Each public broadcast station which engages in the activity specified in subsection (b)(1) shall, in consultation with the Corporation, develop an accounting system which is designed to identify any amounts received as remuneration for, or costs related to, such activities under this section, and to account for such amounts separately from any other amounts received by such station from any source.

## **TITLE IV—PROCEDURAL AND ADMINISTRATIVE PROVISIONS**

**SEC. 401. [47 U.S.C. 401] JURISDICTION TO ENFORCE ACT AND ORDERS OF COMMISSION.**

(a) The district courts of the United States shall have jurisdiction, upon application of the Attorney General of the United States at the request of the Commission, alleging a failure to comply with or a violation of any of the provisions of this Act by any person, to issue a writ or writs of mandamus commanding such person to comply with the provisions of this Act.

(b) If any person fails or neglects to obey any order of the Commission other than for the payment of money, while the same is in effect, the Commission or any party injured thereby, or the United States, by its Attorney General, may apply to the appropriate district court of the United States for the enforcement of such order. If, after hearing, that court determines that the order was regularly made and duly served, and that the person is in disobedience

of the same, the court shall enforce obedience to such order by a writ of injunction or other proper process, mandatory or otherwise, to restrain such person or the officers, agents, or representatives of such person, from further disobedience of such order, or to enjoin upon it or them obedience to the same.

(c) Upon the request of the Commission it shall be the duty of any district attorney of the United States to whom the Commission may apply to institute in the proper court and to prosecute under the direction of the Attorney General of the United States all necessary proceedings for the enforcement of the provisions of this Act and for the punishment of all violations thereof, and the costs and expenses of such prosecutions shall be paid out of the appropriations for the expenses of the courts of the United States.

**SEC. 402. [47 U.S.C. 402] PROCEEDINGS TO ENJOIN, SET ASIDE, ANNUL, OR SUSPEND ORDERS OF THE COMMISSION.**

(a) Any proceeding to enjoin, set aside, annul, or suspend any order of the Commission under this Act (except those appealable under subsection (b) of this section) shall be brought as provided by and in the manner prescribed in chapter 158 of title 28, United States Code.

(b) Appeals may be taken from decisions and orders of the Commission to the United States Court of Appeals for the District of Columbia in any of the following cases:

(1) By any applicant for a construction permit or station license, whose application is denied by the Commission.

(2) By any applicant for the renewal or modification of any such instrument of authorization whose application is denied by the Commission.

(3) By any party to an application for authority to transfer, assign, or dispose of any such instrument of authorization, or any rights thereunder, whose application is denied by the Commission.

(4) By any applicant for the permit required by section 325 of this act whose application has been denied by the Commission, or by any permittee under said section whose permit has been revoked by the Commission.

(5) By the holder of any construction permit or station license which has been modified or revoked by the Commission.

(6) By any other person who is aggrieved or whose interests are adversely affected by any order of the Commission granting or denying any application described in paragraphs (1), (2), (3), (4), and (9) hereof.

(7) By any person upon whom an order to cease and desist has been served under section 312 of this Act.

(8) By any radio operator whose license has been suspended by the Commission.

(9) By any applicant for authority to provide interLATA services under section 271 of this Act whose application is denied by the Commission.

(c) Such appeal shall be taken by filing a notice of appeal with the court within thirty days from the date upon which public notice is given of the decision or order complained of. Such notice of appeal shall contain a concise statement of the nature of the proceedings as to which the appeal is taken; a concise statement of the reasons on which the appellant intends to rely, separately stated and numbered; and proof of service of a true copy of said no-

tice and statement upon the Commission. Upon filing of such notice, the court shall have jurisdiction of the proceedings and of the questions determined therein and shall have power, by order, directed to the Commission or any other party to the appeal, to grant such temporary relief as it may deem just and proper. Orders granting temporary relief may be either affirmative or negative in their scope and application so as to permit either the maintenance of the status quo in the matter in which the appeal is taken or the restoration of a position or status terminated or adversely affected by the order appealed from and shall, unless otherwise ordered by the court, be effective pending hearing and determination of said appeal and compliance by the Commission with the final judgment of the court rendered in said appeal.

(d) Upon the filing of any such notice of appeal the appellant shall, not later than five days after the filing of such notice, notify each person shown by the records of the Commission to be interested in said appeal of the filing and pendency of the same. The Commission shall file with the court the record upon which the order complained of was entered, as provided in section 2112 of Title 28, United States Code.

(e) Within thirty days after the filing of any such appeal any interested person may intervene and participate in the proceedings had upon said appeal by filing with the court a notice of intention to intervene and a verified statement showing the nature of the interest of such party, together with proof of service of true copies of said notice and statement, both upon appellant and upon the Commission. Any person who would be aggrieved or whose interest would be adversely affected by a reversal or modification of the order of the Commission complained of shall be considered an interested party.

(f) The record and briefs upon which any such appeal shall be heard and determined by the court shall contain such information and material, and shall be prepared within such time and in such manner as the court may by rule prescribe.

(g) The court shall hear and determine the appeal upon the record before it in the manner prescribed by section 706 of title 5.

(h) In the event that the court shall render a decision and enter an order reversing the order of the Commission, it shall remand the case to the Commission to carry out the judgment of the court and it shall be the duty of the Commission, in the absence of the proceedings to review such judgment, to forthwith give effect thereto, and unless otherwise ordered by the court, to do so upon the basis of the proceedings already had and the record upon which said appeal was heard and determined.

(i) The court may, in its discretion, enter judgment for costs in favor of or against an appellant, or other interested parties intervening in said appeal, but not against the Commission, depending upon the nature of the issues involved upon said appeal and the outcome thereof.

(j) The court's judgment shall be final, subject, however, to review by the Supreme Court of the United States upon writ of certiorari on petition therefor under section 1254 of title 28 of the United States Code, by the appellant, by the Commission, or by any interested party intervening in the appeal, or by certification by the court pursuant to the provisions of that section.

**SEC. 403. [47 U.S.C. 403] INQUIRY BY COMMISSION ON ITS OWN MOTION.**

The Commission shall have full authority and power at any time to institute an inquiry, on its own motion, in any case and as to any matter or thing concerning which complaint is authorized to be made, to or before the Commission by any provision of this Act, or concerning which any question may arise under any of the provisions of this Act, or relating to the enforcement of any of the provisions of this Act. The Commission shall have the same powers and authority to proceed with any inquiry instituted on its own motion as though it had been appealed to by complaint or petition under any of the provisions of this Act, including the power to make and enforce any order or orders in the case, or relating to the matter or thing concerning which the inquiry is had, excepting orders for the payment of money.

**SEC. 404. [47 U.S.C. 404] REPORTS OF INVESTIGATIONS.**

Whenever an investigation shall be made by the Commission it shall be its duty to make a report in writing in respect thereto, which shall state the conclusions of the Commission, together with its decision, order, or requirements in the premises; and in case damages are awarded such report shall include the findings of fact on which the award is made.

**SEC. 405. [47 U.S.C. 405] RECONSIDERATIONS.**

(a) After an order, decision, report, or action has been made or taken in any proceeding by the Commission, or by any designated authority within the Commission pursuant to a delegation under section 5(c)(1), any party thereto, or any other person aggrieved or whose interests are adversely affected thereby, may petition for reconsideration only to the authority making or taking the order, decision, report, or action; and it shall be lawful for such authority, whether it be the Commission or other authority designated under section 5(c)(1), in its discretion, to grant such a reconsideration if sufficient reason therefor be made to appear. A petition for reconsideration must be filed within thirty days from the date upon which public notice is given of the order, decision, report, or action complained of. No such application shall excuse any person from complying with or obeying any order, decision, report, or action of the Commission, or operate in any manner to stay or postpone the enforcement thereof, without the special order of the Commission. The filing of a petition for reconsideration shall not be a condition precedent to judicial review of any such order, decision, report, or action, except where the party seeking such review (1) was not a party to the proceedings resulting in such order, decision, report, or action, or (2) relies on questions of fact or law upon which the Commission, or designated authority within the Commission, has been afforded no opportunity to pass. The Commission, or designated authority within the Commission, shall enter an order, with a concise statement of the reasons therefor, denying a petition for reconsideration or granting such petition, in whole or in part, and ordering such further proceedings as may be appropriate: *Provided*, That in any case where such petition relates to an instrument of authorization granted without a hearing, the Commission, or designated authority within the Commission, shall take such action within ninety days of the filing of such petition. Reconsider-

ations shall be governed by such general rules as the Commission may establish, except that no evidence other than newly discovered evidence, evidence which has become available only since the original taking of evidence, or evidence which the Commission or designated authority within the Commission believes should have been taken in the original proceeding shall be taken on any reconsideration. The time within which a petition for review must be filed in a proceeding to which section 402(a) applies, or within which an appeal must be taken under section 402(b) in any case, shall be computed from the date upon which the Commission gives public notice of the order, decision, report, or action complained of.

(b)(1) Within 90 days after receiving a petition for reconsideration of an order concluding a hearing under section 204(a) or concluding an investigation under section 208(b), the Commission shall issue an order granting or denying such petition.

(2) Any order issued under paragraph (1) shall be a final order and may be appealed under section 402(a).

**SEC. 406. [47 U.S.C. 406] MANDAMUS TO COMPEL FURNISHING OF FACILITIES.**

The district courts of the United States shall have jurisdiction upon the relation of any person alleging any violation, by a carrier subject to this Act, of any of the provisions of this Act which prevent the relator from receiving service in interstate or foreign communication by wire or radio, or in interstate or foreign transmission of energy by radio, from said carrier at the same charges, or upon terms or conditions as favorable as those given by said carrier for like communication or transmission under similar conditions to any other person, to issue a writ or writs of mandamus against said carrier commanding such carrier to furnish facilities for such communication or transmission to the party applying for the writ: *Provided*, That if any question of fact as to the proper compensation to the carrier for the service to be enforced by the writ is raised by the pleadings, the writ of peremptory mandamus may issue, notwithstanding such question of fact is undetermined, upon such terms as to security, payment of money into the court, or otherwise, as the court may think proper pending the determination of the question of fact: *Provided further*, That the remedy hereby given by writ of mandamus shall be cumulative and shall not be held to exclude or interfere with other remedies provided by this Act.

**SEC. 407. [47 U.S.C. 407] PETITION FOR ENFORCEMENT OF ORDER FOR PAYMENT OF MONEY.**

If a carrier does not comply with an order for the payment of money within the time limit in such order, the complainant, or any person for whose benefit such order was made, may file in the district court of the United States for the district in which he resides or in which is located the principal operating office of the carrier, or through which the line of the carrier runs, or in any State court of general jurisdiction having jurisdiction of the parties, a petition setting forth briefly the causes for which he claims damages, and the order of the Commission in the premises. Such suit in the district court of the United States shall proceed in all respects like other civil suits for damages, except that on the trial of such suits the findings and order of the Commission shall be prima facie evi-

dence of the facts therein stated, except that the petitioner shall not be liable for costs in the district court nor for costs at any subsequent stage of the proceedings unless they accrue upon his appeal. If the petitioner shall finally prevail, he shall be allowed a reasonable attorney's fee, to be taxed and collected as a part of the costs of the suit.

**SEC. 408. [47 U.S.C. 408] ORDERS NOT FOR PAYMENT OF MONEY—WHEN EFFECTIVE.**

Except as otherwise provided in this Act, all orders of the Commission, other than orders for the payment of money, shall take effect thirty calendar days from the date upon which public notice of the order is given, unless the Commission designates a different effective date. All such orders shall continue in force for the period of time specified in the order or until the Commission or a court of competent jurisdiction issues a superseding order.

**SEC. 409. [47 U.S.C. 409] GENERAL PROVISIONS RELATING TO PROCEEDINGS—WITNESSES AND DEPOSITIONS.**

(a) In every case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for hearing, the person or persons conducting the hearing shall prepare and file an initial, tentative, or recommended decision, except where such person or persons become unavailable to the Commission or where the Commission finds upon the record that due and timely execution of its functions imperatively and unavoidably require that the record be certified to the Commission for initial or final decision.

(b) In every case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for hearing, any party to the proceeding shall be permitted to file exceptions and memoranda in support thereof to the initial, tentative, or recommended decision, which shall be passed upon by the Commission or by the authority within the Commission, if any, to whom the function of passing upon the exceptions is delegated under section 5(d)(1): *Provided, however,* That such authority shall not be the same authority which made the decision to which the exception is taken.

(c)(1) In any case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for a hearing, no person who has participated in the presentation or preparation for presentation of such case at the hearing or upon review shall (except to the extent required for the disposition of *exparte* matters as authorized by law) directly or indirectly make any additional presentation respecting such case to the hearing officer or officers or to the Commission, or to any authority within the Commission to whom, in such case, review functions have been delegated by the Commission under section 5(d)(1), unless upon notice and opportunity for all parties to participate.

(2) The provision in subsection (c) of section 5 of the Administrative Procedure Act which states that such subsection shall not apply in determining applications for initial licenses, shall not be applicable hereafter in the case of applications for initial licenses before the Federal Communications Commission.

(d) To the extent that the foregoing provisions of this section and section 5(d) are in conflict with the provisions of the Adminis-

trative Procedure Act, such provisions of this section and section 5(d) shall be held to supersede and modify the provisions of that Act.

(e) For the purposes of this Act the Commission shall have the power to require by subpoena the attendance and testimony of witnesses and the production of all books, papers, schedules of charges, contracts, agreements, and documents relating to any matter under investigation. Witnesses summoned before the Commission shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

(f) Such attendance of witnesses, and the production of such documentary evidence, may be required from any place in the United States, at any designated place of hearing. And in case of disobedience to a subpoena the Commission, or any party to a proceeding before the Commission, may invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers, and documents under the provisions of this section.

(g) Any of the district courts of the United States within the jurisdiction of which such inquiry is carried on may, in case of contumacy or refusal to obey a subpoena issued to any common carrier or licensee or other person, issue an order requiring such common carrier, licensee, and other person to appear before the Commission (and produce books and papers if so ordered) and give evidence touching the matter in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(h) The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation pending before the Commission, by deposition, at any time after a cause or proceeding is at issue on petition and answer. The Commission may also order testimony to be taken by deposition in any proceeding or investigation pending before it, at any stage of such proceeding or investigation. Such depositions may be taken before any judge of any court of the United States, or any United States Commissioner, or any clerk of a district court, or any chancellor, justice, or judge of a supreme or superior court, mayor, or chief magistrate of a city, judge of a county court, or court of common pleas of any of the United States, or any notary public, not being of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. Reasonable notice must first be given in writing by the party or his attorney proposing to take such deposition to the opposite party or his attorney of record, as either may be nearest, which notice shall state the name of the witness and the time and place of the taking of his deposition. Any person may be compelled to appear and depose, and to produce documentary evidence, in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the Commission, as hereinbefore provided.

(i) Every person deposing as herein provided shall be cautioned and sworn (or affirm, if he so request) to testify the whole truth, and shall be carefully examined. His testimony shall be reduced to writing by the magistrate taking the deposition, or under his direction, and shall, after it has been reduced to writing, be subscribed by the deponent.

(j) If a witness whose testimony may be desired to be taken by deposition be in a foreign country, the deposition may be taken before an officer or person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission. All depositions must be promptly filed with the Commission.

(k) Witnesses whose depositions are taken as authorized in this Act, and the magistrates or other officer taking the same, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

【(l) Repealed.】

(m) Any person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry, or to produce books, papers, schedules of charges, contracts, agreements, and documents, if in his power to do so, in obedience to the subpoena or lawful requirement of the Commission, shall be guilty of a misdemeanor and upon conviction thereof by a court of competent jurisdiction shall be punished by a fine of not less than \$100 nor more than \$5,000, or by imprisonment for not more than one year, or by both such fine and imprisonment.

**SEC. 410. [47 U.S.C. 410] USE OF JOINT BOARDS—COOPERATION WITH STATE COMMISSIONS.**

(a) Except as provided in section 409, the Commission may refer any matter arising in the administration of this Act to a joint board to be composed of a member, or of an equal number of members, as determined by the Commission, from each of the States in which the wire or radio communication affected by or involved in the proceeding takes place or is proposed. For purposes of acting upon such matter any such board shall have all the jurisdiction and powers conferred by law upon an examiner provided for in section 11 of the Administrative Procedure Act, designated by the Commission, and shall be subject to the same duties and obligations. The action of a joint board shall have such force and effect and its proceedings shall be conducted in such manner as the Commission shall by regulations prescribe. The joint board member or members for each State shall be nominated by the State commission of the State or by the Governor if there is no State commission, and appointed by the Federal Communications Commission. The Commission shall have discretion to reject any nominee. Joint Board members shall receive such allowances for expenses as the Commission shall provide.

(b) The Commission may confer with any State commission having regulatory jurisdiction with respect to carriers, regarding the relationship between rate structures, accounts, charges, practices, classifications, and regulations of carriers subject to the jurisdiction of such State commission and of the Commission; and the Commission is authorized under such rules and regulations as it shall prescribe to hold joint hearings with any State commission in connection with any matter with respect to which the Commission is authorized to act. The Commission is authorized in the administration of this Act to avail itself of such cooperation, services, records, and facilities as may be afforded by any State commission.

(c) The Commission shall refer any proceeding regarding the jurisdictional separation of common carrier property and expenses

between interstate and intrastate operations, which it institutes pursuant to a notice of proposed rulemaking and, except as provided in section 409 of this Act, may refer any other matter, relating to common carrier communications of joint Federal-State concern, to a Federal-State Joint Board. The Joint Board shall possess the same jurisdiction, power, duties, and obligations as a joint board established under subsection (a) of this section, and shall prepare a recommended decision for prompt review and action by the Commission. In addition, the State members of the Joint Board shall sit with the Commission en banc at any oral argument that may be scheduled in the proceeding. The Commission shall also afford the State members of the Joint Board an opportunity to participate in its deliberations, but not vote, when it has under consideration the recommended decision of the Joint Board or any further decisional action that may be required in the proceeding. The Joint Board shall be composed of three Commissioners of the Commission and of four State commissioners nominated by the national organization of the State commissions and approved by the Commission. The Chairman of the Commission, or another Commissioner designated by the Commission, shall serve as Chairman of the Joint Board.

**SEC. 411. [47 U.S.C. 411] JOINDER OF PARTIES.**

(a) In any proceeding for the enforcement of the provisions of this Act, whether such proceeding be instituted before the Commission or be begun originally in any district court of the United States, it shall be lawful to include as parties, in addition to the carrier, all persons interested in or affected by the charge, regulation, or practice under consideration, and inquiries, investigations, orders, and decrees may be made with reference to and against such additional parties in the same manner, to the same extent, and subject to the same provisions as are or shall be authorized by law with respect to carriers.

(b) In any suit for the enforcement of an order for the payment of money all parties in whose favor the Commission may have made an award for damages by a single order may be joined as plaintiffs, and all of the carriers parties to such order awarding such damages may be joined as defendants, and such suit may be maintained by such joint plaintiffs and against such joint defendants in any district where any one of such joint plaintiffs could maintain such suit against any one of such joint defendants; and service of process against any one of such defendants as may not be found in the district where the suit is brought may be made in any district where such defendant carrier has its principal operating office. In case of such joint suit, the recovery, if any, may be by judgment in favor of any one of such plaintiffs, against the defendant found to be liable to such plaintiff.

**SEC. 412. [47 U.S.C. 412] DOCUMENTS FILED TO BE PUBLIC RECORDS—  
USE IN PROCEEDINGS.**

The copies of schedules of charges, classifications, and of all contracts, agreements, and arrangements between common carriers filed with the Commission as herein provided, and the statistics, tables, and figures contained in the annual or other reports of carriers and other persons made to the Commission as required under the provisions of this Act shall be preserved as public records in

the custody of the secretary of the Commission, and shall be received as prima facie evidence of what they purport to be for the purpose of investigations by the Commission and in all judicial proceedings; and copies of and extracts from any of said schedules, classifications, contracts, agreements, arrangements, or reports made public records as aforesaid, certified by the secretary, under the Commission's seal, shall be received in evidence with like effect as the originals: *Provided*, That the Commission may, if the public interest will be served thereby, keep confidential any contract, agreement, or arrangement relating to foreign wire or radio communication when the publication of such contract, agreement, or arrangement would place American communication companies at a disadvantage in meeting the competition of foreign communication companies.

**SEC. 413. [47 U.S.C. 413] DESIGNATION OF AGENT FOR SERVICE.**

It shall be the duty of every carrier subject to this Act to designate in writing an agent in the District of Columbia, upon whom service of all notices and process and all orders, decisions, and requirements of the Commission may be made for and on behalf of said carrier in any proceeding or suit pending before the Commission, and to file such designation in the office of the secretary of the Commission, which designation may from time to time be changed by like writing similarly filed; and thereupon service of all notices and process and orders, decisions, and requirements of the Commission may be made upon such carrier by leaving a copy thereof with such designated agent at his office or usual place of residence in the District of Columbia, with like effect as if made personally upon such carrier, and in default of such designation of such agent, service of any notice or other process in any proceeding before said Commission, or of any order, decision, or requirement of the Commission, may be made by posting such notice, process, order, requirement, or decision in the office of the secretary of the Commission.

**SEC. 414. [47 U.S.C. 414] REMEDIES IN THIS ACT NOT EXCLUSIVE.**

Nothing in this Act contained shall in any way abridge or alter the remedies now existing at common law or by statute, but the provisions of this Act are in addition to such remedies.

**SEC. 415. [47 U.S.C. 415] LIMITATIONS AS TO ACTIONS.**

(a) All actions at law by carriers for recovery of their lawful charges, or any part thereof, shall be begun, within two years from the time the cause of action accrues, and not after.

(b) All complaints against carriers for the recovery of damages not based on overcharges shall be filed with the Commission within two years from the time the cause of action accrues, and not after, subject to subsection (d) of this section.

(c) For recovery of overcharges action at law shall be begun or complaint filed with the Commission against carriers within two years from the time the cause of action accrues, and not after, subject to subsection (d) of this section, except that if claim for the overcharge has been presented in writing to the carrier within the two-year period of limitation said period shall be extended to include two years from the time notice in writing is given by the carrier to the claimant of disallowance of the claim, or any part or parts thereof, specified in the notice.

(d) If on or before expiration of the period of limitation in subsection (b) or (c) a carrier begins action under subsection (a) for recovery of lawful charges in respect of the same service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

(e) The cause of action in respect of the transmission of a message shall, for the purposes of this section, be deemed to accrue upon delivery or tender of delivery thereof by the carrier, and not after.

(f) A petition for the enforcement of an order of the Commission for the payment of money shall be filed in the district court or the State court within one year from the date of the order, and not after.

(g) The term "overcharges" as used in this section shall be deemed to mean charges for services in excess of those applicable thereto under the schedules of charges lawfully on file with the Commission.

**SEC. 416. [47 U.S.C. 416] PROVISIONS RELATING TO ORDERS.**

(a) Every order of the Commission shall be forthwith served upon the designated agent of the carrier in the city of Washington or in such other manner as may be provided by law.

(b) Except as otherwise provided in this Act, the Commission is hereby authorized to suspend or modify its orders upon such notice and in such manner as it shall deem proper.

(c) It shall be the duty of every person, its agents and employees, and any receiver or trustee thereof, to observe and comply with such orders so long as the same shall remain in effect.

## **TITLE V—PENAL PROVISIONS— FORFEITURES**

**SEC. 501. [47 U.S.C. 501] GENERAL PENALTY.**

Any person who willfully and knowingly does or causes or suffers to be done any act, matter, or thing, in this Act prohibited or declared to be unlawful, or who willfully and knowingly omits or fails to do any act, matter, or thing in this Act required to be done, or willfully and knowingly causes or suffers such omission or failure, shall upon conviction thereof, be punished for such offense, for which no penalty (other than a forfeiture) is provided in this Act, by a fine of not more than \$10,000 or by imprisonment for a term not exceeding one year, or both; except that any person, having been once convicted of an offense punishable under this section, who is subsequently convicted of violating any provision of this Act punishable under this section, shall be punished by a fine of not more than \$10,000 or by imprisonment for a term not exceeding two years, or both.

**SEC. 502. [47 U.S.C. 502] VIOLATION OF RULES, REGULATIONS, AND SO FORTH.**

Any person who willfully and knowingly violates any rule, regulation, restriction, or condition made or imposed by the Commission under authority of this Act, or any rule, regulation, restriction, or

condition made or imposed by any international radio or wire communications treaty or convention, or regulations annexed thereto, to which the United States is or may hereafter become a party, shall, in addition to any other penalties provided by law, be punished, upon conviction thereof, by a fine of not more than \$500 for each and every day during which such offense occurs.

**SEC. 503. [47 U.S.C. 503] FORFEITURES IN CASES OF REBATES AND OFFSETS.**

(a) Any person who shall deliver messages for interstate or foreign transmission to any carrier, or for whom as sender or receiver, any such carrier shall transmit any interstate or foreign wire or radio communication, who shall knowingly by employee, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transmission of such messages as fixed by the schedules of charges provided for in this Act, shall in addition to any other penalty provided by this Act forfeit to the United States a sum of money three times the amount of money so received or accepted and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action, may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

(b)(1) Any person who is determined by the Commission, in accordance with paragraph (3) or (4) of this subsection, to have—

(A) willfully or repeatedly failed to comply substantially with the terms and conditions of any license, permit, certificate, or other instrument or authorization issued by the Commission;

(B) willfully or repeatedly failed to comply with any of the provisions of this Act or of any rule, regulation, or order issued by the Commission under this Act or under any treaty, convention, or other agreement to which the United States is a party and which is binding upon the United States;

(C) violated any provision of section 317(c) or 508(a) of this Act; or

(D) violated any provision of section 1304, 1343, or 1464 of title 18, United States Code;

shall be liable to the United States for a forfeiture penalty. A forfeiture penalty under this subsection shall be in addition to any other penalty provided for by this Act; except that this subsection shall not apply to any conduct which is subject to forfeiture under title II, part II or III of title III, or section 506 of this Act.

(2)(A) If the violator is (i) a broadcast station licensee or permittee, (ii) a cable television operator, or (iii) an applicant for any broadcast or cable television operator license, permit, certificate, or other instrument or authorization issued by the Commission, the amount of any forfeiture penalty determined under this section shall not exceed \$25,000 for each violation or each day of a continuing violation, except that the amount assessed for any con-

tinuing violation shall not exceed a total of \$250,000 for any single act or failure to act described in paragraph (1) of this subsection.

(B) If the violator is a common carrier subject to the provisions of this Act or an applicant for any common carrier license, permit, certificate, or other instrument of authorization issued by the Commission, the amount of any forfeiture penalty determined under this subsection shall not exceed \$100,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$1,000,000 for any single act or failure to act described in paragraph (1) of this subsection.

(C) In any case not covered in subparagraph (A) or (B), the amount of any forfeiture penalty determined under this subsection shall not exceed \$10,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$75,000 for any single act or failure to act described in paragraph (1) of this subsection.

(D) The amount of such forfeiture penalty shall be assessed by the Commission, or its designee, by written notice. In determining the amount of such a forfeiture penalty, the Commission or its designee shall take into account the nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(3)(A) At the discretion of the Commission, a forfeiture penalty may be determined against a person under this subsection after notice and an opportunity for a hearing before the Commission or an administrative law judge thereof in accordance with section 554 of title 5, United States Code. Any person against whom a forfeiture penalty is determined under this paragraph may obtain review thereof pursuant to section 402(a).

(B) If any person fails to pay an assessment of a forfeiture penalty determined under subparagraph (A) of this paragraph, after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the Commission, the Commission shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the final order imposing the forfeiture penalty shall not be subject to review.

(4) Except as provided in paragraph (3) of this subsection, no forfeiture penalty shall be imposed under this subsection against any person unless and until—

(A) the Commission issues a notice of apparent liability, in writing, with respect to such person;

(B) such notice has been received by such person, or until the Commission has sent such notice to the last known address of such person, by registered or certified mail; and

(C) such person is granted an opportunity to show, in writing, within such reasonable period of time as the Commission prescribes by rule or regulation, why no such forfeiture penalty should be imposed.

Such a notice shall (i) identify each specific provision, term, and condition of any Act, rule, regulation, order, treaty, convention, or other agreement, license, permit, certificate, instrument, or author-

ization which such person apparently violated or with which such person apparently failed to comply; (ii) set forth the nature of the act or omission charged against such person and the facts upon which such charge is based; and (iii) state the date on which such conduct occurred. Any forfeiture penalty determined under this paragraph shall be recoverable pursuant to section 504(a) of this Act.

(5) No forfeiture liability shall be determined under this subsection against any person, if such person does not hold a license, permit, certificate, or other authorization issued by the Commission, and if such person is not an applicant for a license, permit, certificate, or other authorization issued by the Commission, unless, prior to the notice required by paragraph (3) of this subsection or the notice of apparent liability required by paragraph (4) of this subsection, such person (A) is sent a citation of the violation charged; (B) is given a reasonable opportunity for a personal interview with an official of the Commission, at the field office of the Commission which is nearest to such person's place of residence; and (C) subsequently engages in conduct of the type described in such citation. The provisions of this paragraph shall not apply, however, if the person involved is engaging in activities for which a license, permit, certificate, or other authorization is required, or is a cable television system operator, if the person involved is transmitting on frequencies assigned for use in a service in which individual station operation is authorized by rule pursuant to section 307(e), or in the case of violations of section 303(q), if the person involved is a nonlicensee tower owner who has previously received notice of the obligations imposed by section 303(q) from the Commission or the permittee or licensee who uses that tower. Whenever the requirements of this paragraph are satisfied with respect to a particular person, such person shall not be entitled to receive any additional citation of the violation charged, with respect to any conduct of the type described in the citation sent under this paragraph.

(6) No forfeiture penalty shall be determined or imposed against any person under this subsection if—

(A) such person holds a broadcast station license issued under title III of this Act and if the violation charged occurred—

- (i) more than 1 year prior to the date of issuance of the required notice or notice of apparent liability; or
  - (ii) prior to the date of commencement of the current term of such license,
- whichever is earlier; or

(B) such person does not hold a broadcast station license issued under title III of this Act and if the violation charged occurred more than 1 year prior to the date of issuance of the required notice or notice of apparent liability.

For purposes of this paragraph, "date of commencement of the current term of such license" means the date of commencement of the last term of license for which the licensee has been granted a license by the Commission. A separate license term shall not be deemed to have commenced as a result of continuing a license in effect under section 307(c) pending decision on an application for renewal of the license.

**SEC. 504. [47 U.S.C. 504] PROVISIONS RELATING TO FORFEITURES.**

(a) The forfeitures provided for in this Act shall be payable into the Treasury of the United States, and shall be recoverable, except as otherwise provided with respect to a forfeiture penalty determined under section 503(b)(3) of this Act, in a civil suit in the name of the United States brought in the district where the person or carrier has its principal operating office or in any district through which the line or system of the carrier runs: *Provided*, That any suit for the recovery of a forfeiture imposed pursuant to the provisions of this Act shall be a trial de novo: *Provided further*, That in the case of forfeiture by a ship, said forfeiture may also be recoverable by way of libel in any district in which such ship shall arrive or depart. Such forfeitures shall be in addition to any other general or specific penalties herein provided. It shall be the duty of the various district attorneys, under the direction of the Attorney General of the United States, to prosecute for the recovery of forfeitures under this Act. The costs and expenses of such prosecutions shall be paid from the appropriation for the expenses of the courts of the United States.

(b) The forfeitures imposed by title II, parts II and III of title III, and sections 503(b) and 506 of this Act shall be subject to remission or mitigation by the Commission, under such regulations and methods of ascertaining the facts as may seem to it advisable, and, if suit has been instituted, the Attorney General, upon request of the Commission, shall direct the discontinuance of any prosecution to recover such forfeitures: *Provided, however*, That no forfeiture shall be remitted or mitigated after determination by a court of competent jurisdiction.

(c) In any case where the Commission issues a notice of apparent liability looking toward the imposition of a forfeiture under this Act, that fact shall not be used, in any other proceeding before the Commission, to the prejudice of the person to whom such notice was issued, unless (i) the forfeiture has been paid, or (ii) a court of competent jurisdiction has ordered payment of such forfeiture, and such order has become final.

**SEC. 505. [47 U.S.C. 505] VENUE OF OFFENSES.**

The trial of any offense under this Act shall be in the district in which it is committed; or if the offense is committed upon the high seas, or out of the jurisdiction of any particular State or district, the trial shall be in the district where the offender may be found or into which he shall be first brought. Whenever the offense is begun in one jurisdiction and completed in another it may be dealt with, inquired of, tried, determined, and punished in either jurisdiction in the same manner as if the offense had been actually and wholly committed therein.

**SEC. 506. [47 U.S.C. 507] VIOLATION OF GREAT LAKES AGREEMENT.**

(a) Any vessel of the United States that is navigated in violation of the provisions of the Great Lakes Agreement or the rules and regulations of the Commission made in pursuance thereof and any vessel of a foreign country that is so navigated on waters under the jurisdiction of the United States shall forfeit to the United States the sum of \$500 recoverable by way of suit or libel. Each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a vessel of the United States to enforce or to comply with the provisions of the Great Lakes Agreement or the rules and regulations of the Commission made in pursuance thereof shall cause him to forfeit to the United States the sum of \$100.

**SEC. 507. [47 U.S.C. 508] DISCLOSURE OF CERTAIN PAYMENTS.**

(a) Subject to subsection (d), any employee of a radio station who accepts or agrees to accept from any person (other than such station), or any person (other than such station) who pays or agrees to pay such employee, any money, service or other valuable consideration for the broadcast of any matter over such station shall, in advance of such broadcast, disclose the fact of such acceptance or agreement to such station.

(b) Subject to subsection (d), any person who, in connection with the production or preparation of any program or program matter which is intended for broadcasting over any radio station, accepts or agrees to accept, or pays or agrees to pay, any money, service or other valuable consideration for the inclusion of any matter as a part of such program or program matter, shall, in advance of such broadcast, disclose the fact of such acceptance or payment or agreement to the payee's employer, or to the person for which such program or program matter is being produced, or to the licensee of such station over which such program is broadcast.

(c) Subject to subsection (d), any person who supplies to any other person any program or program matter which is intended for broadcasting over any radio station shall, in advance of such broadcast, disclose to such other person any information of which he has knowledge, or which has been disclosed to him, as to any money, service or other valuable consideration which any person has paid or accepted, or has agreed to pay or accept, for the inclusion of any matter as a part of such program or program matter.

(d) The provisions of this section requiring the disclosure of information shall not apply in any case where, because of a waiver made by the Commission under section 317(d), an announcement is not required to be made under section 317.

(e) The inclusion in the program of the announcement required by section 317 shall constitute the disclosure required by this section.

(f) The term "service or other valuable consideration" as used in this section shall not include any service or property furnished without charge or at a nominal charge for use on, or in connection with, a broadcast, or for use on a program which is intended for broadcasting over any radio station, unless it is so furnished in consideration for an identification in such broadcast or in such program of any person, product, service, trademark, or brand name beyond an identification which is reasonably related to the use of such service or property in such broadcast or such program.

(g) Any person who violates any provision of this section shall, for each such violation, be fined not more than \$10,000 or imprisoned not more than one year, or both.

**SEC. 508. [47 U.S.C. 509] PROHIBITED PRACTICES IN CASE OF CONTESTS OF INTELLECTUAL KNOWLEDGE, INTELLECTUAL SKILL, OR CHANCE.**

(a) It shall be unlawful for any person, with intent to deceive the listening or viewing public—

(1) To supply to any contestant in a purportedly bona fide contest of intellectual knowledge or intellectual skill any special and secret assistance whereby the outcome of such contest will be in whole or in part prearranged or predetermined.

(2) By means of persuasion, bribery, intimidation, or otherwise, to induce or cause any contestant in a purportedly bona fide contest of intellectual knowledge or intellectual skill to refrain in any manner from using or displaying his knowledge or skill in such contest, whereby the outcome thereof will be in whole or in part prearranged or predetermined.

(3) To engage in any artifice or scheme for the purpose of prearranging or predetermining in whole or in part the outcome of a purportedly bona fide contest of intellectual knowledge, intellectual skill, or chance.

(4) To produce or participate in the production for broadcasting of, to broadcast or participate in the broadcasting of, to offer to a licensee for broadcasting, or to sponsor, any radio program, knowing or having reasonable ground for believing that, in connection with a purportedly bona fide contest of intellectual knowledge, intellectual skill, or chance constituting any part of such program, any person has done or is going to do any act or thing referred to in paragraph (1), (2), or (3) of this subsection.

(5) To conspire with any other person or persons to do any act or thing prohibited by paragraph (1), (2), (3), or (4) of this subsection, if one or more of such persons do any act to effect the object of such conspiracy.

(b) For the purpose of this section—

(1) The term “contest” means any contest broadcast by a radio station in connection with which any money or any other thing of value is offered as a prize or prizes to be paid or presented by the program sponsor or by any other person or persons, as announced in the course of the broadcast.

(2) The term “the listening or viewing public” means those members of the public who, with the aid of radio receiving sets, listen to or view programs broadcast by radio stations.

(c) Whoever violates subsection (a) shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

**[SEC. 509]<sup>1</sup>****SEC. 510. [47 U.S.C. 510] FORFEITURE OF COMMUNICATIONS DEVICES.**

(a) Any electronic, electromagnetic, radio frequency, or similar device, or component thereof, used, sent, carried, manufactured, assembled, possessed, offered for sale, sold, or advertised with willful and knowing intent to violate section 301 or 302, or rules prescribed by the Commission under such sections, may be seized and forfeited to the United States.

<sup>1</sup>Public Law 96-507, 94 Stat. 2747, Dec. 8, 1980, struck out sec. 506 and redesignated secs. 507-509 as secs. 506-508, respectively.

(b) Any property subject to forfeiture to the United States under this section may be seized by the Attorney General of the United States upon process issued pursuant to the supplemental rules for certain admiralty and maritime claims by any district court of the United States having jurisdiction over the property, except that seizure without such process may be made if the seizure is incident to a lawful arrest or search.

(c) All provisions of law relating to—

(1) the seizure, summary and judicial forfeiture, and condemnation of property for violation of the customs laws;

(2) the disposition of such property or the proceeds from the sale thereof;

(3) the remission or mitigation of such forfeitures; and

(4) the compromise of claims with respect to such forfeitures;

shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this section, insofar as applicable and not inconsistent with the provisions of this section, except that such seizures and forfeitures shall be limited to the communications device, devices, or components thereof.

(d) Whenever property is forfeited under this section, the Attorney General of the United States may forward it to the Commission or sell any forfeited property which is not harmful to the public. The proceeds from any such sale shall be deposited in the general fund of the Treasury of the United States.

## TITLE VI—CABLE COMMUNICATIONS <sup>1</sup>

### PART I—GENERAL PROVISIONS

#### SEC. 601. [47 U.S.C. 521] PURPOSES.

The purposes of this title are to—

(1) establish a national policy concerning cable communications;

(2) establish franchise procedures and standards which encourage the growth and development of cable systems and which assure that cable systems are responsive to the needs and interests of the local community;

<sup>1</sup>Title VI of the Communications Act of 1934 was added by the Cable Communications Policy Act of 1984, Public Law 98-549, 98 Stat. 2780, Oct. 30, 1984. That Act also contained the following provisions:

#### JURISDICTION

SEC. 13. (a) \* \* \*

(b) The provisions of this Act and amendments made by this Act shall not be construed to affect any jurisdiction the Federal Communications Commission may have under the Communications Act of 1934 with respect to any communication by wire or radio (other than cable service, as defined in section 602(5) of such Act) which is provided through a cable system, or persons or facilities engaged in such communications.

\* \* \* \* \*

#### EFFECTIVE DATE

SEC. 19. \* \* \*

(b) Nothing in section 623 or 624 of the Communications Act of 1934, as added by this Act, shall be construed to allow a franchising authority, or a State or any political subdivision of a State, to require a cable operator to restore, retier, or reprice any cable service which was lawfully eliminated, retiered, or repriced as of September 26, 1984.

(3) establish guidelines for the exercise of Federal, State, and local authority with respect to the regulation of cable systems;

(4) assure that cable communications provide and are encouraged to provide the widest possible diversity of information sources and services to the public;

(5) establish an orderly process for franchise renewal which protects cable operators against unfair denials of renewal where the operator's past performance and proposal for future performance meet the standards established by this title; and

(6) promote competition in cable communications and minimize unnecessary regulation that would impose an undue economic burden on cable systems.

**SEC. 602. [47 U.S.C. 522] DEFINITIONS.**

For purposes of this title—

(1) the term “activated channels” means those channels engineered at the headend of a cable system for the provision of services generally available to residential subscribers of the cable system, regardless of whether such services actually are provided, including any channel designated for public, educational, or governmental use;

(2) the term “affiliate”, when used in relation to any person, means another person who owns or controls, is owned or controlled by, or is under common ownership or control with, such person;

(3) the term “basic cable service” means any service tier which includes the retransmission of local television broadcast signals;

(4) the terms “cable channel” or “channel” means a portion of the electromagnetic frequency spectrum which is used in a cable system and which is capable of delivering a television channel (as television channel is defined by the Commission by regulation);

(5) the term “cable operator” means any person or group of persons (A) who provides cable service over a cable system and directly or through one or more affiliates owns a significant interest in such cable system, or (B) who otherwise controls or is responsible for, through any arrangement, the management and operation of such a cable system;

(6) the term “cable service” means—

(A) the one-way transmission to subscribers of (i) video programming, or (ii) other programming service, and

(B) subscriber interaction, if any, which is required for the selection or use of such video programming or other programming service;

(7) the term “cable system” means a facility, consisting of a set of closed transmission paths and associated signal generation, reception, and control equipment that is designed to provide cable service which includes video programming and which is provided to multiple subscribers within a community, but such term does not include (A) a facility that serves only to retransmit the television signals of 1 or more television broadcast stations; (B) a facility that serves subscribers with-

out using any public right-of-way; (C) a facility of a common carrier which is subject, in whole or in part, to the provisions of title II of this Act, except that such facility shall be considered a cable system (other than for purposes of section 621(c)) to the extent such facility is used in the transmission of video programming directly to subscribers, unless the extent of such use is solely to provide interactive on-demand services; (D)<sup>1</sup> an open video system that complies with section 653 of this title; or (E) any facilities of any electric utility used solely for operating its electric utility systems;

(8) the term “Federal agency” means any agency of the United States, including the Commission;

(9) the term “franchise” means an initial authorization, or renewal thereof (including a renewal of an authorization which has been granted subject to section 626), issued by a franchising authority, whether such authorization is designated as a franchise, permit, license, resolution, contract, certificate, agreement, or otherwise, which authorizes the construction or operation of a cable system;

(10) the term “franchising authority” means any governmental entity empowered by Federal, State, or local law to grant a franchise;

(11) the term “grade B contour” means the field strength of a television broadcast station computed in accordance with regulations promulgated by the Commission;

(12) the term “interactive on-demand services” means a service providing video programming to subscribers over switched networks on an on-demand, point-to-point basis, but does not include services providing video programming prescheduled by the programming provider;

(13) the term “multichannel video programming distributor” means a person such as, but not limited to, a cable operator, a multichannel multipoint distribution service, a direct broadcast satellite service, or a television receive-only satellite program distributor, who makes available for purchase, by subscribers or customers, multiple channels of video programming;

(14) the term “other programming service” means information that a cable operator makes available to all subscribers generally;

(15) the term “person” means an individual, partnership, association, joint stock company, trust, corporation, or governmental entity;

(16) the term “public, educational, or governmental access facilities” means—

(A) channel capacity designated for public, educational, or governmental use; and

(B) facilities and equipment for the use of such channel capacity;

(17) the term “service tier” means a category of cable service or other services provided by a cable operator and for which a separate rate is charged by the cable operator;

<sup>1</sup>This compilation reflects the amendment made by section 302(b)(2)(A) of P.L. 104-104 (110 Stat. 124), even though that amendment strikes “, or (D)” rather than the “; or (D)” that appears in the law.

(18) the term “State” means any State, or political subdivision, or agency thereof;

(19) the term “usable activated channels” means activated channels of a cable system, except those channels whose use for the distribution of broadcast signals would conflict with technical and safety regulations as determined by the Commission; and

(20) the term “video programming” means programming provided by, or generally considered comparable to programming provided by, a television broadcast station.

## **PART II—USE OF CABLE CHANNELS AND CABLE OWNERSHIP RESTRICTIONS**

### **SEC. 611. [47 U.S.C. 531] CABLE CHANNELS FOR PUBLIC, EDUCATIONAL, OR GOVERNMENTAL USE.**

(a) A franchising authority may establish requirements in a franchise with respect to the designation or use of channel capacity for public, educational, or governmental use only to the extent provided in this section.

(b) A franchising authority may in its request for proposals require as part of a franchise, and may require as part of a cable operator’s proposal for a franchise renewal, subject to section 626, that channel capacity be designated for public, educational, or governmental use, and channel capacity on institutional networks be designated for educational or governmental use, and may require rules and procedures for the use of the channel capacity designated pursuant to this section.

(c) A franchising authority may enforce any requirement in any franchise regarding the providing or use of such channel capacity. Such enforcement authority includes the authority to enforce any provisions of the franchise for services, facilities, or equipment proposed by the cable operator which relate to public, educational, or governmental use of channel capacity, whether or not required by the franchising authority pursuant to subsection (b).

(d) In the case of any franchise under which channel capacity is designated under subsection (b), the franchising authority shall prescribe—

(1) rules and procedures under which the cable operator is permitted to use such channel capacity for the provision of other services if such channel capacity is not being used for the purposes designated, and

(2) rules and procedures under which such permitted use shall cease.

(e) Subject to section 624(d), a cable operator shall not exercise any editorial control over any public, educational, or governmental use of channel capacity provided pursuant to this section, except a cable operator may refuse to transmit any public access program or portion of a public access program which contains obscenity, indecency, or nudity.

(f) For purposes of this section, the term “institutional network” means a communication network which is constructed or operated by the cable operator and which is generally available only to subscribers who are not residential subscribers.

**SEC. 612. [47 U.S.C. 532] CABLE CHANNELS FOR COMMERCIAL USE.**

(a) The purpose of this section is to promote competition in the delivery of diverse sources of video programming and to assure that the widest possible diversity of information sources are made available to the public from cable systems in a manner consistent with growth and development of cable systems.

(b)(1) A cable operator shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the following requirements:

(A) An operator of any cable system with 36 or more (but not more than 54) activated channels shall designate 10 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(B) An operator of any cable system with 55 or more (but not more than 100) activated channels shall designate 15 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(C) An operator of any cable system with more than 100 activated channels shall designate 15 percent of all such channels.

(D) An operator of any cable system with fewer than 36 activated channels shall not be required to designate channel capacity for commercial use by persons unaffiliated with the operator, unless the cable system is required to provide such channel capacity under the terms of a franchise in effect on the date of the enactment of this title.

(E) An operator of any cable system in operation on the date of the enactment of this title shall not be required to remove any service actually being provided on July 1, 1984, in order to comply with this section, but shall make channel capacity available for commercial use as such capacity becomes available until such time as the cable operator is in full compliance with this section.

(2) Any Federal agency, State, or franchising authority may not require any cable system to designate channel capacity for commercial use by unaffiliated persons in excess of the capacity specified in paragraph (1), except as otherwise provided in this section.

(3) A cable operator may not be required, as part of a request for proposals or as part of a proposal for renewal, subject to section 626, to designate channel capacity for any use (other than commercial use by unaffiliated persons under this section) except as provided in sections 611 and 637, but a cable operator may offer in a franchise, or proposal for renewal thereof, to provide, consistent with applicable law, such capacity for other than commercial use by such persons.

(4) A cable operator may use any unused channel capacity designated pursuant to this section until the use of such channel capacity is obtained, pursuant to a written agreement, by a person unaffiliated with the operator.

(5) For the purposes of this section, the term "commercial use" means the provision of video programming, whether or not for profit.

(6) Any channel capacity which has been designated for public, educational, or governmental use may not be considered as designated under this section for commercial use for purpose of this section.

(c)(1) If a person unaffiliated with the cable operator seeks to use channel capacity designated pursuant to subsection (b) for commercial use, the cable operator shall establish, consistent with the purpose of this section and with rules prescribed by the Commission under paragraph (4), the price, terms, and conditions of such use which are at least sufficient to assure that such use will not adversely affect the operation, financial condition, or market development of the cable system.

(2) A cable operator shall not exercise any editorial control over any video programming provided pursuant to this section, or in any other way consider the content of such programming, except that a cable operator may refuse to transmit any leased access program or portion of a leased access program which contains obscenity, indecency, or nudity and may consider such content to the minimum extent necessary to establish a reasonable price for the commercial use of designated channel capacity by an unaffiliated person.

(3) Any cable system channel designated in accordance with this section shall not be used to provide a cable service that is being provided over such system on the date of the enactment of this title, if the provision of such programming is intended to avoid the purpose of this section.

(4)(A) The Commission shall have the authority to—

(i) determine the maximum reasonable rates that a cable operator may establish pursuant to paragraph (1) for commercial use of designated channel capacity, including the rate charged for the billing of rates to subscribers and for the collection of revenue from subscribers by the cable operator for such use;

(ii) establish reasonable terms and conditions for such use, including those for billing and collection; and

(iii) establish procedures for the expedited resolution of disputes concerning rates or carriage under this section.

(B) Within 180 days after the date of enactment of this paragraph, the Commission shall establish rules for determining maximum reasonable rates under subparagraph (A)(i), for establishing terms and conditions under subparagraph (A)(ii), and for providing procedures under subparagraph (A)(iii).

(d) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available for use pursuant to this section may bring an action in the district court of the United States for the judicial district in which the cable system is located to compel that such capacity be made available. If the court finds that the channel capacity sought by such person has not been made available in accordance with this section, or finds that the price, terms, or conditions established by the cable operator are unreasonable, the court may order such system to make available to such person the channel capacity sought, and further determine the appropriate price, terms, or conditions for such use consistent with subsection (c), and may award actual damages if it deems such relief appropriate. In any such action, the court shall not consider

any price, term, or condition established between an operator and an affiliate for comparable services.

(e)(1) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available pursuant to this section may petition the Commission for relief under this subsection upon a showing of prior adjudicated violations of this section. Records of previous adjudications resulting in a court determination that the operator has violated this section shall be considered as sufficient for the showing necessary under this subsection. If the Commission finds that the channel capacity sought by such person has not been made available in accordance with this section, or that the price, terms, or conditions established by such system are unreasonable under subsection (c), the Commission shall, by rule or order, require such operator to make available such channel capacity under price, terms, and conditions consistent with subsection (c).

(2) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by an operator, the Commission may also establish any further rule or order necessary to assure that the operator provides the diversity of information sources required by this section.

(3) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by any person who is an operator of more than one cable system, the Commission may also establish any further rule or order necessary to assure that such person provides the diversity of information sources required by this section.

(f) In any action brought under this section in any Federal district court or before the Commission, there shall be a presumption that the price, terms, and conditions for use of channel capacity designated pursuant to subsection (b) are reasonable and in good faith unless shown by clear and convincing evidence to the contrary.

(g) Notwithstanding sections 621(c) and 623(a), at such time as cable systems with 36 or more activated channels are available to 70 percent of households within the United States and are subscribed to by 70 percent of the households to which such systems are available, the Commission may promulgate any additional rules necessary to provide diversity of information sources. Any rules promulgated by the Commission pursuant to this subsection shall not preempt authority expressly granted to franchising authorities under this title.

(h) Any cable service offered pursuant to this section shall not be provided, or shall be provided subject to conditions, if such cable service in the judgment of the franchising authority or the cable operator is obscene, or is in conflict with community standards in that it is lewd, lascivious, filthy, or indecent or is otherwise unprotected by the Constitution of the United States. This subsection shall permit a cable operator to enforce prospectively a written and published policy of prohibiting programming that the cable operator reasonably believes describes or depicts sexual or excretory activities or organs in a patently offensive manner as measured by contemporary community standards.

(i)(1) Notwithstanding the provisions of subsections (b) and (c), a cable operator required by this section to designate channel capacity for commercial use may use any such channel capacity for the provision of programming from a qualified minority programming source or from any qualified educational programming source, whether or not such source is affiliated with the cable operator. The channel capacity used to provide programming from a qualified minority programming source or from any qualified educational programming source pursuant to this subsection may not exceed 33 percent of the channel capacity designated pursuant to this section. No programming provided over a cable system on July 1, 1990, may qualify as minority programming or educational programming on that cable system under this subsection.

(2) For purposes of this subsection, the term “qualified minority programming source” means a programming source which devotes substantially all of its programming to coverage of minority viewpoints, or to programming directed at members of minority groups, and which is over 50 percent minority-owned, as the term “minority” is defined in section 309(i)(3)(C)(ii).

(3) For purposes of this subsection, the term “qualified educational programming source” means a programming source which devotes substantially all of its programming to educational or instructional programming that promotes public understanding of mathematics, the sciences, the humanities, and the arts and has a documented annual expenditure on programming exceeding \$15,000,000. The annual expenditure on programming means all annual costs incurred by the programming source to produce or acquire programs which are scheduled to be televised, and specifically excludes marketing, promotion, satellite transmission and operational costs, and general administrative costs.

(4) Nothing in this subsection shall substitute for the requirements to carry qualified noncommercial educational television stations as specified under section 615.

(j)(1) Within 120 days following the date of the enactment of this subsection, the Commission shall promulgate regulations designed to limit the access of children to indecent programming, as defined by Commission regulations, and which cable operators have not voluntarily prohibited under subsection (h) by—

(A) requiring cable operators to place on a single channel all indecent programs, as identified by program providers, intended for carriage on channels designated for commercial use under this section;

(B) requiring cable operators to block such single channel unless the subscriber requests access to such channel in writing; and

(C) requiring programmers to inform cable operators if the program would be indecent as defined by Commission regulations.

(2) Cable operators shall comply with the regulations promulgated pursuant to paragraph (1).

**SEC. 613. [47 U.S.C. 533] OWNERSHIP RESTRICTIONS.**

(a) It shall be unlawful for a cable operator to hold a license for multichannel multipoint distribution service, or to offer satellite master antenna television service separate and apart from any

franchised cable service, in any portion of the franchise area served by that cable operator's cable system. The Commission—

(1) shall waive the requirements of this paragraph for all existing multichannel multipoint distribution services and satellite master antenna television services which are owned by a cable operator on the date of enactment of this paragraph;

(2) may waive the requirements of this paragraph to the extent the Commission determines is necessary to ensure that all significant portions of a franchise area are able to obtain video programming; and

(3) shall not apply the requirements of this subsection to any cable operator in any franchise area in which a cable operator is subject to effective competition as determined under section 623(1).

**【Subsection (b) repealed by section 302(b)(1) of the Telecommunications Act of 1996 (P.L. 104–104), 110 Stat. 124.】**

(c) The Commission may prescribe rules with respect to the ownership or control of cable systems by persons who own or control other media of mass communications which serve the same community served by a cable system.

(d) Any State or franchising authority may not prohibit the ownership or control of a cable system by any person because of such person's ownership or control of any other media of mass communications or other media interests. Nothing in this section shall be construed to prevent any State or franchising authority from prohibiting the ownership or control of a cable system in a jurisdiction by any person (1) because of such person's ownership or control of any other cable system in such jurisdiction; or (2) in circumstances in which the State or franchising authority determines that the acquisition of such a cable system may eliminate or reduce competition in the delivery of cable service in such jurisdiction.

(e)(1) Subject to paragraph (2), a State or franchising authority may hold any ownership interest in any cable system.

(2) Any State or franchising authority shall not exercise any editorial control regarding the content of any cable service on a cable system in which such governmental entity holds ownership interest (other than programming on any channel designated for educational or governmental use), unless such control is exercised through an entity separate from the franchising authority.

(f)(1) In order to enhance effective competition, the Commission shall, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, conduct a proceeding—

(A) to prescribe rules and regulations establishing reasonable limits on the number of cable subscribers a person is authorized to reach through cable systems owned by such person, or in which such person has an attributable interest;

(B) to prescribe rules and regulations establishing reasonable limits on the number of channels on a cable system that can be occupied by a video programmer in which a cable operator has an attributable interest; and

(C) to consider the necessity and appropriateness of imposing limitations on the degree to which multichannel video pro-

gramming distributors may engage in the creation or production of video programming.

(2) In prescribing rules and regulations under paragraph (1), the Commission shall, among other public interest objectives—

(A) ensure that no cable operator or group of cable operators can unfairly impede, either because of the size of any individual operator or because of joint actions by a group of operators of sufficient size, the flow of video programming from the video programmer to the consumer;

(B) ensure that cable operators affiliated with video programmers do not favor such programmers in determining carriage on their cable systems or do not unreasonably restrict the flow of the video programming of such programmers to other video distributors;

(C) take particular account of the market structure, ownership patterns, and other relationships of the cable television industry, including the nature and market power of the local franchise, the joint ownership of cable systems and video programmers, and the various types of non-equity controlling interests;

(D) account for any efficiencies and other benefits that might be gained through increased ownership or control;

(E) make such rules and regulations reflect the dynamic nature of the communications marketplace;

(F) not impose limitations which would bar cable operators from serving previously unserved rural areas; and

(G) not impose limitations which would impair the development of diverse and high quality video programming.

(g) This section shall not apply to prohibit any combination of any interests held by any person on July 1, 1984, to the extent of the interests so held as of such date, if the holding of such interests was not inconsistent with any applicable Federal or State law or regulations in effect on that date.

(h) For purposes of this section, the term “media of mass communications” shall have the meaning given such term under section 309(i)(3)(C)(i) of this Act.

**SEC. 614. [47 U.S.C. 534] CARRIAGE OF LOCAL COMMERCIAL TELEVISION SIGNALS.**

(a) CARRIAGE OBLIGATIONS.—Each cable operator shall carry, on the cable system of that operator, the signals of local commercial television stations and qualified low power stations as provided by this section. Carriage of additional broadcast television signals on such system shall be at the discretion of such operator, subject to section 325(b).

(b) SIGNALS REQUIRED.—

(1) IN GENERAL.—(A) A cable operator of a cable system with 12 or fewer usable activated channels shall carry the signals of at least three local commercial television stations, except that if such a system has 300 or fewer subscribers, it shall not be subject to any requirements under this section so long as such system does not delete from carriage by that system any signal of a broadcast television station.

(B) A cable operator of a cable system with more than 12 usable activated channels shall carry the signals of local com-

mercial television stations, up to one-third of the aggregate number of usable activated channels of such system.

(2) SELECTION OF SIGNALS.—Whenever the number of local commercial television stations exceeds the maximum number of signals a cable system is required to carry under paragraph (1), the cable operator shall have discretion in selecting which such stations shall be carried on its cable system, except that—

(A) under no circumstances shall a cable operator carry a qualified low power station in lieu of a local commercial television station; and

(B) if the cable operator elects to carry an affiliate of a broadcast network (as such term is defined by the Commission by regulation), such cable operator shall carry the affiliate of such broadcast network whose city of license reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (in effect on January 1, 1991), or any successor regulation thereto, is closest to the principal headend of the cable system.

(3) CONTENT TO BE CARRIED.—(A) A cable operator shall carry in its entirety, on the cable system of that operator, the primary video, accompanying audio, and line 21 closed caption transmission of each of the local commercial television stations carried on the cable system and, to the extent technically feasible, program-related material carried in the vertical blanking interval or on subcarriers. Retransmission of other material in the vertical blanking interval or other nonprogram-related material (including teletext and other subscription and advertiser-supported information services) shall be at the discretion of the cable operator. Where appropriate and feasible, operators may delete signal enhancements, such as ghost-canceling, from the broadcast signal and employ such enhancements at the system headend or headends.

(B) The cable operator shall carry the entirety of the program schedule of any television station carried on the cable system unless carriage of specific programming is prohibited, and other programming authorized to be substituted, under section 76.67 or subpart F of part 76 of title 47, Code of Federal Regulations (as in effect on January 1, 1991), or any successor regulations thereto.

(4) SIGNAL QUALITY.—

(A) NONDEGRADATION; TECHNICAL SPECIFICATIONS.—The signals of local commercial television stations that a cable operator carries shall be carried without material degradation. The Commission shall adopt carriage standards to ensure that, to the extent technically feasible, the quality of signal processing and carriage provided by a cable system for the carriage of local commercial television stations will be no less than that provided by the system for carriage of any other type of signal.

(B) ADVANCED TELEVISION.—At such time as the Commission prescribes modifications of the standards for television broadcast signals, the Commission shall initiate a proceeding to establish any changes in the signal carriage requirements of cable television systems necessary to ensure cable carriage of such broadcast signals of local com-

mercial television stations which have been changed to conform with such modified standards.

(5) **DUPLICATION NOT REQUIRED.**—Notwithstanding paragraph (1), a cable operator shall not be required to carry the signal of any local commercial television station that substantially duplicates the signal of another local commercial television station which is carried on its cable system, or to carry the signals of more than one local commercial television station affiliated with a particular broadcast network (as such term is defined by regulation). If a cable operator elects to carry on its cable system a signal which substantially duplicates the signal of another local commercial television station carried on the cable system, or to carry on its system the signals of more than one local commercial television station affiliated with a particular broadcast network, all such signals shall be counted toward the number of signals the operator is required to carry under paragraph (1).

(6) **CHANNEL POSITIONING.**—Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on which the local commercial television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, or on the channel on which it was carried on January 1, 1992, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a local commercial television station shall be resolved by the Commission.

(7) **SIGNAL AVAILABILITY.**—Signals carried in fulfillment of the requirements of this section shall be provided to every subscriber of a cable system. Such signals shall be viewable via cable on all television receivers of a subscriber which are connected to a cable system by a cable operator or for which a cable operator provides a connection. If a cable operator authorizes subscribers to install additional receiver connections, but does not provide the subscriber with such connections, or with the equipment and materials for such connections, the operator shall notify such subscribers of all broadcast stations carried on the cable system which cannot be viewed via cable without a converter box and shall offer to sell or lease such a converter box to such subscribers at rates in accordance with section 623(b)(3).

(8) **IDENTIFICATION OF SIGNALS CARRIED.**—A cable operator shall identify, upon request by any person, the signals carried on its system in fulfillment of the requirements of this section.

(9) **NOTIFICATION.**—A cable operator shall provide written notice to a local commercial television station at least 30 days prior to either deleting from carriage or repositioning that station. No deletion or repositioning of a local commercial television station shall occur during a period in which major television ratings services measure the size of audiences of local television stations. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

(10) COMPENSATION FOR CARRIAGE.—A cable operator shall not accept or request monetary payment or other valuable consideration in exchange either for carriage of local commercial television stations in fulfillment of the requirements of this section or for the channel positioning rights provided to such stations under this section, except that—

(A) any such station may be required to bear the costs associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system;

(B) a cable operator may accept payments from stations which would be considered distant signals under section 111 of title 17, United States Code, as indemnification for any increased copyright liability resulting from carriage of such signal; and

(C) a cable operator may continue to accept monetary payment or other valuable consideration in exchange for carriage or channel positioning of the signal of any local commercial television station carried in fulfillment of the requirements of this section, through, but not beyond, the date of expiration of an agreement thereon between a cable operator and a local commercial television station entered into prior to June 26, 1990.

(c) LOW POWER STATION CARRIAGE OBLIGATION.—

(1) REQUIREMENT.—If there are not sufficient signals of full power local commercial television stations to fill the channels set aside under subsection (b)—

(A) a cable operator of a cable system with a capacity of 35 or fewer usable activated channels shall be required to carry one qualified low power station; and

(B) a cable operator of a cable system with a capacity of more than 35 usable activated channels shall be required to carry two qualified low power stations.

(2) USE OF PUBLIC, EDUCATIONAL, OR GOVERNMENTAL CHANNELS.—A cable operator required to carry more than one signal of a qualified low power station under this subsection may do so, subject to approval by the franchising authority pursuant to section 611, by placing such additional station on public, educational, or governmental channels not in use for their designated purposes.

(d) REMEDIES.—

(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a local commercial television station believes that a cable operator has failed to meet its obligations under this section, such station shall notify the operator, in writing, of the alleged failure and identify its reasons for believing that the cable operator is obligated to carry the signal of such station or has otherwise failed to comply with the channel positioning or repositioning or other requirements of this section. The cable operator shall, within 30 days of such written notification, respond in writing to such notification and either commence to carry the signal of such station in accordance with the terms requested or state its reasons for believing that it is not obligated to carry such signal or is in compliance with the channel positioning and repositioning and other requirements of this sec-

tion. A local commercial television station that is denied carriage or channel positioning or repositioning in accordance with this section by a cable operator may obtain review of such denial by filing a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to meet its obligations and the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed, the Commission shall determine whether the cable operator has met its obligations under this section. If the Commission determines that the cable operator has failed to meet such obligations, the Commission shall order the cable operator to reposition the complaining station or, in the case of an obligation to carry a station, to commence carriage of the station and to continue such carriage for at least 12 months. If the Commission determines that the cable operator has fully met the requirements of this section, it shall dismiss the complaint.

(e) INPUT SELECTOR SWITCH RULES ABOLISHED.—No cable operator shall be required—

(1) to provide or make available any input selector switch as defined in section 76.5(mm) of title 47, Code of Federal Regulations, or any comparable device; or

(2) to provide information to subscribers about input selector switches or comparable devices.

(f) REGULATIONS BY COMMISSION.—Within 180 days after the date of enactment of this section, the Commission shall, following a rulemaking proceeding, issue regulations implementing the requirements imposed by this section. Such implementing regulations shall include necessary revisions to update section 76.51 of title 47 of the Code of Federal Regulations.

(g) SALES PRESENTATIONS AND PROGRAM LENGTH COMMERCIALS.—

(1) CARRIAGE PENDING PROCEEDING.—Pending the outcome of the proceeding under paragraph (2), nothing in this Act shall require a cable operator to carry on any tier, or prohibit a cable operator from carrying on any tier, the signal of any commercial television station or video programming service that is predominantly utilized for the transmission of sales presentations or program length commercials.

(2) PROCEEDING CONCERNING CERTAIN STATIONS.—Within 270 days after the date of enactment of this section, the Commission, notwithstanding prior proceedings to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity, shall complete a proceeding in accordance with this paragraph to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity. In conducting

such proceeding, the Commission shall provide appropriate notice and opportunity for public comment. The Commission shall consider the viewing of such stations, the level of competing demands for the spectrum allocated to such stations, and the role of such stations in providing competition to nonbroadcast services offering similar programming. In the event that the Commission concludes that one or more of such stations are serving the public interest, convenience, and necessity, the Commission shall qualify such stations as local commercial television stations for purposes of subsection (a). In the event that the Commission concludes that one or more of such stations are not serving the public interest, convenience, and necessity, the Commission shall allow the licensees of such stations a reasonable period within which to provide different programming, and shall not deny such stations a renewal expectancy solely because their programming consisted predominantly of sales presentations or program length commercials.

(h) DEFINITIONS.—

(1) LOCAL COMMERCIAL TELEVISION STATION.—

(A) IN GENERAL.—For purposes of this section, the term “local commercial television station” means any full power television broadcast station, other than a qualified noncommercial educational television station within the meaning of section 615(1)(1), licensed and operating on a channel regularly assigned to its community by the Commission that, with respect to a particular cable system, is within the same television market as the cable system.

(B) EXCLUSIONS.—The term “local commercial television station” shall not include—

(i) low power television stations, television translator stations, and passive repeaters which operate pursuant to part 74 of title 47, Code of Federal Regulations, or any successor regulations thereto;

(ii) a television broadcast station that would be considered a distant signal under section 111 of title 17, United States Code, if such station does not agree to indemnify the cable operator for any increased copyright liability resulting from carriage on the cable system; or

(iii) a television broadcast station that does not deliver to the principal headend of a cable system either a signal level of  $-45\text{dBm}$  for UHF signals or  $-49\text{dBm}$  for VHF signals at the input terminals of the signal processing equipment, if such station does not agree to be responsible for the costs of delivering to the cable system a signal of good quality or a baseband video signal.

(C) MARKET DETERMINATIONS.—(i) For purposes of this section, a broadcasting station’s market shall be determined by the Commission by regulation or order using, where available, commercial publications which delineate television markets based on viewing patterns, except that, following a written request, the Commission may, with respect to a particular television broadcast station, include additional communities within its television market or ex-

clude communities from such station's television market to better effectuate the purposes of this section. In considering such requests, the Commission may determine that particular communities are part of more than one television market.

(ii) In considering requests filed pursuant to clause (i), the Commission shall afford particular attention to the value of localism by taking into account such factors as—

(I) whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community;

(II) whether the television station provides coverage or other local service to such community;

(III) whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and

(IV) evidence of viewing patterns in cable and noncable households within the areas served by the cable system or systems in such community.

(iii) A cable operator shall not delete from carriage the signal of a commercial television station during the pendency of any proceeding pursuant to this subparagraph.

(iv)<sup>1</sup> Within 120 days after the date on which a request is filed under this subparagraph (or 120 days after the date of enactment of the Telecommunications Act of 1996, if later), the Commission shall grant or deny the request.

(2) **QUALIFIED LOW POWER STATION.**—The term “qualified low power station” means any television broadcast station conforming to the rules established for Low Power Television Stations contained in part 74 of title 47, Code of Federal Regulations, only if—

(A) such station broadcasts for at least the minimum number of hours of operation required by the Commission for television broadcast stations under part 73 of title 47, Code of Federal Regulations;

(B) such station meets all obligations and requirements applicable to television broadcast stations under part 73 of title 47, Code of Federal Regulations, with respect to the broadcast of nonentertainment programming; programming and rates involving political candidates, election issues, controversial issues of public importance, editorials, and personal attacks; programming for children; and equal employment opportunity; and the Commission determines that the provision of such programming by such station would address local news and informational needs which are not being adequately served by full power television broadcast stations because of the geographic dis-

<sup>1</sup>Margin so in law.

tance of such full power stations from the low power station's community of license;

(C) such station complies with interference regulations consistent with its secondary status pursuant to part 74 of title 47, Code of Federal Regulations;

(D) such station is located no more than 35 miles from the cable system's headend, and delivers to the principal headend of the cable system an over-the-air signal of good quality, as determined by the Commission;

(E) the community of license of such station and the franchise area of the cable system are both located outside of the largest 160 Metropolitan Statistical Areas, ranked by population, as determined by the Office of Management and Budget on June 30, 1990, and the population of such community of license on such date did not exceed 35,000; and

(F) there is no full power television broadcast station licensed to any community within the county or other political subdivision (of a State) served by the cable system. Nothing in this paragraph shall be construed to change the secondary status of any low power station as provided in part 74 of title 47, Code of Federal Regulations, as in effect on the date of enactment of this section.

**SEC. 615. [47 U.S.C. 535] CARRIAGE OF NONCOMMERCIAL EDUCATIONAL TELEVISION.**

(a) CARRIAGE OBLIGATIONS.—In addition to the carriage requirements set forth in section 614, each cable operator of a cable system shall carry the signals of qualified noncommercial educational television stations in accordance with the provisions of this section.

(b) REQUIREMENTS TO CARRY QUALIFIED STATIONS.—

(1) GENERAL REQUIREMENT TO CARRY EACH QUALIFIED STATION.—Subject to paragraphs (2) and (3) and subsection (e), each cable operator shall carry, on the cable system of that cable operator, any qualified local noncommercial educational television station requesting carriage.

(2)(A) SYSTEMS WITH 12 OR FEWER CHANNELS.—Notwithstanding paragraph (1), a cable operator of a cable system with 12 or fewer usable activated channels shall be required to carry the signal of one qualified local noncommercial educational television station; except that a cable operator of such a system shall comply with subsection (c) and may, in its discretion, carry the signals of other qualified noncommercial educational television stations.

(B) In the case of a cable system described in subparagraph (A) which operates beyond the presence of any qualified local noncommercial educational television station—

(i) the cable operator shall import and carry on that system the signal of one qualified noncommercial educational television station;

(ii) the selection for carriage of such a signal shall be at the election of the cable operator; and

(iii) in order to satisfy the requirements for carriage specified in this subsection, the cable operator of the system shall not be required to remove any other program-

ming service actually provided to subscribers on March 29, 1990; except that such cable operator shall use the first channel available to satisfy the requirements of this subparagraph.

(3) SYSTEMS WITH 13 TO 36 CHANNELS.—(A) Subject to subsection (c), a cable operator of a cable system with 13 to 36 usable activated channels—

(i) shall carry the signal of at least one qualified local noncommercial educational television station but shall not be required to carry the signals of more than three such stations, and

(ii) may, in its discretion, carry additional such stations.

(B) In the case of a cable system described in this paragraph which operates beyond the presence of any qualified local noncommercial educational television station, the cable operator shall import and carry on that system the signal of at least one qualified noncommercial educational television station to comply with subparagraph (A)(i).

(C) The cable operator of a cable system described in this paragraph which carries the signal of a qualified local noncommercial educational station affiliated with a State public television network shall not be required to carry the signal of any additional qualified local noncommercial educational television stations affiliated with the same network if the programming of such additional stations is substantially duplicated by the programming of the qualified local noncommercial educational television station receiving carriage.

(D) A cable operator of a system described in this paragraph which increases the usable activated channel capacity of the system to more than 36 channels on or after March 29, 1990, shall, in accordance with the other provisions of this section, carry the signal of each qualified local noncommercial educational television station requesting carriage, subject to subsection (e).

(c) CONTINUED CARRIAGE OF EXISTING STATIONS.—Notwithstanding any other provision of this section, all cable operators shall continue to provide carriage to all qualified local noncommercial educational television stations whose signals were carried on their systems as of March 29, 1990. The requirements of this subsection may be waived with respect to a particular cable operator and a particular such station, upon the written consent of the cable operator and the station.

(d) PLACEMENT OF ADDITIONAL SIGNALS.—A cable operator required to add the signals of qualified local noncommercial educational television stations to a cable system under this section may do so, subject to approval by the franchising authority pursuant to section 611, by placing such additional stations on public, educational, or governmental channels not in use for their designated purposes.

(e) SYSTEMS WITH MORE THAN 36 CHANNELS.—A cable operator of a cable system with a capacity of more than 36 usable activated channels which is required to carry the signals of three qualified local noncommercial educational television stations shall not be required to carry the signals of additional such stations the

programming of which substantially duplicates the programming broadcast by another qualified local noncommercial educational television station requesting carriage. Substantial duplication shall be defined by the Commission in a manner that promotes access to distinctive noncommercial educational television services.

(f) **WAIVER OF NONDUPLICATION RIGHTS.**—A qualified local noncommercial educational television station whose signal is carried by a cable operator shall not assert any network nonduplication rights it may have pursuant to section 76.92 of title 47, Code of Federal Regulations, to require the deletion of programs aired on other qualified local noncommercial educational television stations whose signals are carried by that cable operator.

(g) **CONDITIONS OF CARRIAGE.**—

(1) **CONTENT TO BE CARRIED.**—A cable operator shall retransmit in its entirety the primary video, accompanying audio, and line 21 closed caption transmission of each qualified local noncommercial educational television station whose signal is carried on the cable system, and, to the extent technically feasible, program-related material carried in the vertical blanking interval, or on subcarriers, that may be necessary for receipt of programming by handicapped persons or for educational or language purposes. Retransmission of other material in the vertical blanking interval or on subcarriers shall be within the discretion of the cable operator.

(2) **BANDWIDTH AND TECHNICAL QUALITY.**—A cable operator shall provide each qualified local noncommercial educational television station whose signal is carried in accordance with this section with bandwidth and technical capacity equivalent to that provided to commercial television broadcast stations carried on the cable system and shall carry the signal of each qualified local noncommercial educational television station without material degradation.

(3) **CHANGES IN CARRIAGE.**—The signal of a qualified local noncommercial educational television station shall not be repositioned by a cable operator unless the cable operator, at least 30 days in advance of such repositioning, has provided written notice to the station and all subscribers of the cable system. For purposes of this paragraph, repositioning includes (A) assignment of a qualified local noncommercial educational television station to a cable system channel number different from the cable system channel number to which the station was assigned as of March 29, 1990, and (B) deletion of the station from the cable system. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

(4) **GOOD QUALITY SIGNAL REQUIRED.**—Notwithstanding the other provisions of this section, a cable operator shall not be required to carry the signal of any qualified local noncommercial educational television station which does not deliver to the cable system's principal headend a signal of good quality or a baseband video signal, as may be defined by the Commission.

(5) **CHANNEL POSITIONING.**—Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on

which the qualified local noncommercial educational television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a qualified local noncommercial educational television station shall be resolved by the Commission.

(h) AVAILABILITY OF SIGNALS.—Signals carried in fulfillment of the carriage obligations of a cable operator under this section shall be available to every subscriber as part of the cable system's lowest priced service tier that includes the retransmission of local commercial television broadcast signals.

(i) PAYMENT FOR CARRIAGE PROHIBITED.—

(1) IN GENERAL.—A cable operator shall not accept monetary payment or other valuable consideration in exchange for carriage of the signal of any qualified local noncommercial educational television station carried in fulfillment of the requirements of this section, except that such a station may be required to bear the cost associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system.

(2) DISTANT SIGNAL EXCEPTION.—Notwithstanding the provisions of this section, a cable operator shall not be required to add the signal of a qualified local noncommercial educational television station not already carried under the provision of subsection (c), where such signal would be considered a distant signal for copyright purposes unless such station indemnifies the cable operator for any increased copyright costs resulting from carriage of such signal.

(j) REMEDIES.—

(1) COMPLAINT.—Whenever a qualified local noncommercial educational television station believes that a cable operator of a cable system has failed to comply with the signal carriage requirements of this section, the station may file a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to comply with such requirements and state the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data, views, and arguments to establish that the cable operator has complied with the signal carriage requirements of this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed under this subsection, the Commission shall determine whether the cable operator has complied with the requirements of this section. If the Commission determines that the cable operator has failed to comply with such requirements, the Commission shall state with particularity the basis for such findings and order the cable operator to take such remedial action as is necessary to meet such requirements. If the Commission determines that the cable operator has fully complied with such requirements, the Commission shall dismiss the complaint.

(k) IDENTIFICATION OF SIGNALS.—A cable operator shall identify, upon request by any person, those signals carried in fulfillment of the requirements of this section.

(I) DEFINITIONS.—For purposes of this section—

(1) QUALIFIED NONCOMMERCIAL EDUCATIONAL TELEVISION STATION.—The term “qualified noncommercial educational television station” means any television broadcast station which—

(A)(i) under the rules and regulations of the Commission in effect on March 29, 1990, is licensed by the Commission as a noncommercial educational television broadcast station and which is owned and operated by a public agency, nonprofit foundation, corporation, or association; and

(ii) has as its licensee an entity which is eligible to receive a community service grant, or any successor grant thereto, from the Corporation for Public Broadcasting, or any successor organization thereto, on the basis of the formula set forth in section 396(k)(6)(B); or

(B) is owned and operated by a municipality and transmits predominantly noncommercial programs for educational purposes.

Such term includes (I) the translator of any noncommercial educational television station with five watts or higher power serving the franchise area, (II) a full-service station or translator if such station or translator is licensed to a channel reserved for noncommercial educational use pursuant to section 73.606 of title 47, Code of Federal Regulations, or any successor regulations thereto, and (III) such stations and translators operating on channels not so reserved as the Commission determines are qualified as noncommercial educational stations.

(2) QUALIFIED LOCAL NONCOMMERCIAL EDUCATIONAL TELEVISION STATION.—The term “qualified local noncommercial educational television station” means a qualified noncommercial educational television station—

(A) which is licensed to a principal community whose reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (as in effect on March 29, 1990), or any successor regulations thereto, is within 50 miles of the principal headend of the cable system; or

(B) whose Grade B service contour, as defined in section 73.683(a) of such title (as in effect on March 29, 1990), or any successor regulations thereto, encompasses the principal headend of the cable system.

**SEC. 616. [47 U.S.C. 536] REGULATION OF CARRIAGE AGREEMENTS.**

(a) REGULATIONS.—Within one year after the date of enactment of this section, the Commission shall establish regulations governing program carriage agreements and related practices between cable operators or other multichannel video programming distributors and video programming vendors. Such regulations shall—

(1) include provisions designed to prevent a cable operator or other multichannel video programming distributor from requiring a financial interest in a program service as a condition for carriage on one or more of such operator’s systems;

(2) include provisions designed to prohibit a cable operator or other multichannel video programming distributor from coercing a video programming vendor to provide, and from retali-

ating against such a vendor for failing to provide, exclusive rights against other multichannel video programming distributors as a condition of carriage on a system;

(3) contain provisions designed to prevent a multichannel video programming distributor from engaging in conduct the effect of which is to unreasonably restrain the ability of an unaffiliated video programming vendor to compete fairly by discriminating in video programming distribution on the basis of affiliation or nonaffiliation of vendors in the selection, terms, or conditions for carriage of video programming provided by such vendors;

(4) provide for expedited review of any complaints made by a video programming vendor pursuant to this section;

(5) provide for appropriate penalties and remedies for violations of this subsection, including carriage; and

(6) provide penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(b) DEFINITION.—As used in this section, the term “video programming vendor” means a person engaged in the production, creation, or wholesale distribution of video programming for sale.

**SEC. 617. [47 U.S.C. 537] SALES OF CABLE SYSTEMS.**

A franchising authority shall, if the franchise requires franchising authority approval of a sale or transfer, have 120 days to act upon any request for approval of such sale or transfer that contains or is accompanied by such information as is required in accordance with Commission regulations and by the franchising authority. If the franchising authority fails to render a final decision on the request within 120 days, such request shall be deemed granted unless the requesting party and the franchising authority agree to an extension of time.

### **PART III—FRANCHISING AND REGULATION**

**SEC. 621. [47 U.S.C. 541] GENERAL FRANCHISE REQUIREMENTS.**

(a)(1) A franchising authority may award, in accordance with the provisions of this title, 1 or more franchises within its jurisdiction; except that a franchising authority may not grant an exclusive franchise and may not unreasonably refuse to award an additional competitive franchise. Any applicant whose application for a second franchise has been denied by a final decision of the franchising authority may appeal such final decision pursuant to the provisions of section 635 for failure to comply with this subsection.

(2) Any franchise shall be construed to authorize the construction of a cable system over public rights-of-way, and through easements, which is within the area to be served by the cable system and which have been dedicated for compatible uses, except that in using such easements the cable operator shall ensure—

(A) that the safety, functioning, and appearance of the property and the convenience and the safety of other persons not be adversely affected by the installation or construction of facilities necessary for a cable system;

(B) that the cost of the installation, construction, operation, or removal of such facilities be borne by the cable operator or subscriber, or a combination of both; and

(C) that the owner of the property be justly compensated by the cable operator for any damages caused by the installation, construction, operation, or removal of such facilities by the cable operator.

(3) In awarding a franchise or franchises, a franchising authority shall assure that access to cable service is not denied to any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

(4) In awarding a franchise, the franchising authority—

(A) shall allow the applicant's cable system a reasonable period of time to become capable of providing cable service to all households in the franchise area;

(B) may require adequate assurance that the cable operator will provide adequate public, educational, and governmental access channel capacity, facilities, or financial support; and

(C) may require adequate assurance that the cable operator has the financial, technical, or legal qualifications to provide cable service.

(b)(1) Except to the extent provided in paragraph (2) and subsection (f), a cable operator may not provide cable service without a franchise.

(2) Paragraph (1) shall not require any person lawfully providing cable service without a franchise on July 1, 1984, to obtain a franchise unless the franchising authority so requires.

(3)(A) If a cable operator or affiliate thereof is engaged in the provision of telecommunications services—

(i) such cable operator or affiliate shall not be required to obtain a franchise under this title for the provision of telecommunications services; and

(ii) the provisions of this title shall not apply to such cable operator or affiliate for the provision of telecommunications services.

(B) A franchising authority may not impose any requirement under this title that has the purpose or effect of prohibiting, limiting, restricting, or conditioning the provision of a telecommunications service by a cable operator or an affiliate thereof.

(C) A franchising authority may not order a cable operator or affiliate thereof—

(i) to discontinue the provision of a telecommunications service, or

(ii) to discontinue the operation of a cable system, to the extent such cable system is used for the provision of a telecommunications service, by reason of the failure of such cable operator or affiliate thereof to obtain a franchise or franchise renewal under this title with respect to the provision of such telecommunications service.

(D) Except as otherwise permitted by sections 611 and 612, a franchising authority may not require a cable operator to provide any telecommunications service or facilities, other than institutional networks, as a condition of the initial grant of a franchise, a franchise renewal, or a transfer of a franchise.

(c) Any cable system shall not be subject to regulation as a common carrier or utility by reason of providing any cable service.

(d)(1) A State or the Commission may require the filing of informational tariffs for any intrastate communications service provided by a cable system, other than cable service, that would be subject to regulation by the Commission or any State if offered by a common carrier subject in whole or in part, to title II of this Act. Such informational tariffs shall specify the rates, terms, and conditions for the provision of such service, including whether it is made available to all subscribers generally, and shall take effect on the date specified therein.

(2) Nothing in this title shall be construed to affect the authority of any State to regulate any cable operator to the extent that such operator provides any communication service other than cable service, whether offered on a common carrier or private contract basis.

(3) For purposes of this subsection, the term "State" has the meaning given it in section 3.

(e) Nothing in this title shall be construed to affect the authority of any State to license or otherwise regulate any facility or combination of facilities which serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management and which does not use any public right-of-way.

(f) No provision of this Act shall be construed to—

(1) prohibit a local or municipal authority that is also, or is affiliated with, a franchising authority from operating as a multichannel video programming distributor in the franchise area, notwithstanding the granting of one or more franchises by such franchising authority; or

(2) require such local or municipal authority to secure a franchise to operate as a multichannel video programming distributor.

**SEC. 622. [47 U.S.C. 542] FRANCHISE FEES.**

(a) Subject to the limitation of subsection (b), any cable operator may be required under the terms of any franchise to pay a franchise fee.

(b) For any twelve-month period, the franchise fees paid by a cable operator with respect to any cable system shall not exceed 5 percent of such cable operator's gross revenues derived in such period from the operation of the cable system to provide cable services. For purposes of this section, the 12-month period shall be the 12-month period applicable under the franchise for accounting purposes. Nothing in this subsection shall prohibit a franchising authority and a cable operator from agreeing that franchise fees which lawfully could be collected for any such 12-month period shall be paid on a prepaid or deferred basis; except that the sum of the fees paid during the term of the franchise may not exceed the amount, including the time value of money, which would have lawfully been collected if such fees had been paid per annum.

(c) Each cable operator may identify, consistent with the regulations prescribed by the Commission pursuant to section 623, as a separate line item on each regular bill of each subscriber, each of the following:

(1) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to which the fee is paid.

(2) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.

(3) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber.

(d) In any court action under subsection (c), the franchising authority shall demonstrate that the rate structure reflects all costs of the franchise fees.

(e) Any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee.

(f) A cable operator may designate that portion of a subscriber's bill attributable to the franchise fee as a separate item on the bill.

(g) For the purposes of this section—

(1) the term "franchise fee" includes any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such;

(2) the term "franchise fee" does not include—

(A) any tax, fee, or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers);

(B) in the case of any franchise in effect on the date of the enactment of this title, payments which are required by the franchise to be made by the cable operator during the term of such franchise for, or in support of the use of, public, educational, or governmental access facilities;

(C) in the case of any franchise granted after such date of enactment, capital costs which are required by the franchise to be incurred by the cable operator for public, educational, or governmental access facilities;

(D) requirements or charges incidental to the awarding or enforcing of the franchise, including payments for bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or

(E) any fee imposed under title 17, United States Code.

(h)(1) Nothing in this Act shall be construed to limit any authority of a franchising authority to impose a tax, fee, or other assessment of any kind on any person (other than a cable operator) with respect to cable service or other communications service provided by such person over a cable system for which charges are assessed to subscribers but not received by the cable operator.

(2) For any 12-month period, the fees paid by such person with respect to any such cable service or other communications service shall not exceed 5 percent of such person's gross revenues derived in such period from the provision of such service over the cable system.

(i) Any Federal agency may not regulate the amount of the franchise fees paid by a cable operator, or regulate the use of funds derived from such fees, except as provided in this section.

**SEC. 623. [47 U.S.C. 543] REGULATION OF RATES.**

(a) COMPETITION PREFERENCE; LOCAL AND FEDERAL REGULATION.—

(1) IN GENERAL.—No Federal agency or State may regulate the rates for the provision of cable service except to the extent provided under this section and section 612. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section. No Federal agency, State, or franchising authority may regulate the rates for cable service of a cable system that is owned or operated by a local government or franchising authority within whose jurisdiction that cable system is located and that is the only cable system located within such jurisdiction.

(2) PREFERENCE FOR COMPETITION.—If the Commission finds that a cable system is subject to effective competition, the rates for the provision of cable service by such system shall not be subject to regulation by the Commission or by a State or franchising authority under this section. If the Commission finds that a cable system is not subject to effective competition—

(A) the rates for the provision of basic cable service shall be subject to regulation by a franchising authority, or by the Commission if the Commission exercises jurisdiction pursuant to paragraph (6), in accordance with the regulations prescribed by the Commission under subsection (b); and

(B) the rates for cable programming services shall be subject to regulation by the Commission under subsection (c).

(3) QUALIFICATION OF FRANCHISING AUTHORITY.—A franchising authority that seeks to exercise the regulatory jurisdiction permitted under paragraph (2)(A) shall file with the Commission a written certification that—

(A) the franchising authority will adopt and administer regulations with respect to the rates subject to regulation under this section that are consistent with the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority has the legal authority to adopt, and the personnel to administer, such regulations; and

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority provide a reasonable opportunity for consideration of the views of interested parties.

(4) APPROVAL BY COMMISSION.—A certification filed by a franchising authority under paragraph (3) shall be effective 30 days after the date on which it is filed unless the Commission finds, after notice to the authority and a reasonable opportunity for the authority to comment, that—

(A) the franchising authority has adopted or is administering regulations with respect to the rates subject to regulation under this section that are not consistent with

the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority does not have the legal authority to adopt, or the personnel to administer, such regulations; or

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority do not provide a reasonable opportunity for consideration of the views of interested parties.

If the Commission disapproves a franchising authority's certification, the Commission shall notify the franchising authority of any revisions or modifications necessary to obtain approval.

(5) REVOCATION OF JURISDICTION.—Upon petition by a cable operator or other interested party, the Commission shall review the regulation of cable system rates by a franchising authority under this subsection. A copy of the petition shall be provided to the franchising authority by the person filing the petition. If the Commission finds that the franchising authority has acted inconsistently with the requirements of this subsection, the Commission shall grant appropriate relief. If the Commission, after the franchising authority has had a reasonable opportunity to comment, determines that the State and local laws and regulations are not in conformance with the regulations prescribed by the Commission under subsection (b), the Commission shall revoke the jurisdiction of such authority.

(6) EXERCISE OF JURISDICTION BY COMMISSION.—If the Commission disapproves a franchising authority's certification under paragraph (4), or revokes such authority's jurisdiction under paragraph (5), the Commission shall exercise the franchising authority's regulatory jurisdiction under paragraph (2)(A) until the franchising authority has qualified to exercise that jurisdiction by filing a new certification that meets the requirements of paragraph (3). Such new certification shall be effective upon approval by the Commission. The Commission shall act to approve or disapprove any such new certification within 90 days after the date it is filed.

(7) AGGREGATION OF EQUIPMENT COSTS.—

(A) IN GENERAL.—The Commission shall allow cable operators, pursuant to any rules promulgated under subsection (b)(3), to aggregate, on a franchise, system, regional, or company level, their equipment costs into broad categories, such as converter boxes, regardless of the varying levels of functionality of the equipment within each such broad category. Such aggregation shall not be permitted with respect to equipment used by subscribers who receive only a rate regulated basic service tier.

(B) REVISION TO COMMISSION RULES; FORMS.—Within 120 days of the date of enactment of the Telecommunications Act of 1996, the Commission shall issue revisions to the appropriate rules and forms necessary to implement subparagraph (A).

(b) ESTABLISHMENT OF BASIC SERVICE TIER RATE REGULATIONS.—

(1) COMMISSION OBLIGATION TO SUBSCRIBERS.—The Commission shall, by regulation, ensure that the rates for the basic

service tier are reasonable. Such regulations shall be designed to achieve the goal of protecting subscribers of any cable system that is not subject to effective competition from rates for the basic service tier that exceed the rates that would be charged for the basic service tier if such cable system were subject to effective competition.

(2) COMMISSION REGULATIONS.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe, and periodically thereafter revise, regulations to carry out its obligations under paragraph (1). In prescribing such regulations, the Commission—

(A) shall seek to reduce the administrative burdens on subscribers, cable operators, franchising authorities, and the Commission;

(B) may adopt formulas or other mechanisms and procedures in complying with the requirements of subparagraph (A); and

(C) shall take into account the following factors:

(i) the rates for cable systems, if any, that are subject to effective competition;

(ii) the direct costs (if any) of obtaining, transmitting, and otherwise providing signals carried on the basic service tier, including signals and services carried on the basic service tier pursuant to paragraph (7)(B), and changes in such costs;

(iii) only such portion of the joint and common costs (if any) of obtaining, transmitting, and otherwise providing such signals as is determined, in accordance with regulations prescribed by the Commission, to be reasonably and properly allocable to the basic service tier, and changes in such costs;

(iv) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the basic service tier or from other consideration obtained in connection with the basic service tier;

(v) the reasonably and properly allocable portion of any amount assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers or any other fee, tax, or assessment of general applicability imposed by a governmental entity applied against cable operators or cable subscribers;

(vi) any amount required, in accordance with paragraph (4), to satisfy franchise requirements to support public, educational, or governmental channels or the use of such channels or any other services required under the franchise; and

(vii) a reasonable profit, as defined by the Commission consistent with the Commission's obligations to subscribers under paragraph (1).

(3) EQUIPMENT.—The regulations prescribed by the Commission under this subsection shall include standards to establish, on the basis of actual cost, the price or rate for—

(A) installation and lease of the equipment used by subscribers to receive the basic service tier, including a converter box and a remote control unit and, if requested by the subscriber, such addressable converter box or other equipment as is required to access programming described in paragraph (8); and

(B) installation and monthly use of connections for additional television receivers.

(4) COSTS OF FRANCHISE REQUIREMENTS.—The regulations prescribed by the Commission under this subsection shall include standards to identify costs attributable to satisfying franchise requirements to support public, educational, and governmental channels or the use of such channels or any other services required under the franchise.

(5) IMPLEMENTATION AND ENFORCEMENT.—The regulations prescribed by the Commission under this subsection shall include additional standards, guidelines, and procedures concerning the implementation and enforcement of such regulations, which shall include—

(A) procedures by which cable operators may implement and franchising authorities may enforce the regulations prescribed by the Commission under this subsection;

(B) procedures for the expeditious resolution of disputes between cable operators and franchising authorities concerning the administration of such regulations;

(C) standards and procedures to prevent unreasonable charges for changes in the subscriber's selection of services or equipment subject to regulation under this section, which standards shall require that charges for changing the service tier selected shall be based on the cost of such change and shall not exceed nominal amounts when the system's configuration permits changes in service tier selection to be effected solely by coded entry on a computer terminal or by other similarly simple method; and

(D) standards and procedures to assure that subscribers receive notice of the availability of the basic service tier required under this section.

(6) NOTICE.—The procedures prescribed by the Commission pursuant to paragraph (5)(A) shall require a cable operator to provide 30 days' advance notice to a franchising authority of any increase proposed in the price to be charged for the basic service tier.

(7) COMPONENTS OF BASIC TIER SUBJECT TO RATE REGULATION.—

(A) MINIMUM CONTENTS.—Each cable operator of a cable system shall provide its subscribers a separately available basic service tier to which subscription is required for access to any other tier of service. Such basic service tier shall, at a minimum, consist of the following:

(i) All signals carried in fulfillment of the requirements of sections 614 and 615.

(ii) Any public, educational, and governmental access programming required by the franchise of the cable system to be provided to subscribers.

(iii) Any signal of any television broadcast station that is provided by the cable operator to any subscriber, except a signal which is secondarily transmitted by a satellite carrier beyond the local service area of such station.

(B) PERMITTED ADDITIONS TO BASIC TIER.—A cable operator may add additional video programming signals or services to the basic service tier. Any such additional signals or services provided on the basic service tier shall be provided to subscribers at rates determined under the regulations prescribed by the Commission under this subsection.

(8) BUY-THROUGH OF OTHER TIERS PROHIBITED.—

(A) PROHIBITION.—A cable operator may not require the subscription to any tier other than the basic service tier required by paragraph (7) as a condition of access to video programming offered on a per channel or per program basis. A cable operator may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per channel or per program basis.

(B) EXCEPTION; LIMITATION.—The prohibition in subparagraph (A) shall not apply to a cable system that, by reason of the lack of addressable converter boxes or other technological limitations, does not permit the operator to offer programming on a per channel or per program basis in the same manner required by subparagraph (A). This subparagraph shall not be available to any cable operator after—

(i) the technology utilized by the cable system is modified or improved in a way that eliminates such technological limitation; or

(ii) 10 years after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, subject to subparagraph (C).

(C) WAIVER.—If, in any proceeding initiated at the request of any cable operator, the Commission determines that compliance with the requirements of subparagraph (A) would require the cable operator to increase its rates, the Commission may, to the extent consistent with the public interest, grant such cable operator a waiver from such requirements for such specified period as the Commission determines reasonable and appropriate.

(c) REGULATION OF UNREASONABLE RATES.—

(1) COMMISSION REGULATIONS.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish the following:

(A) criteria prescribed in accordance with paragraph (2) for identifying, in individual cases, rates for cable programming services that are unreasonable;

(B) fair and expeditious procedures for the receipt, consideration, and resolution of complaints from any franchising authority (in accordance with paragraph (3)) alleging that a rate for cable programming services charged by a cable operator violates the criteria prescribed under subparagraph (A), which procedures shall include the minimum showing that shall be required for a complaint to obtain Commission consideration and resolution of whether the rate in question is unreasonable; and

(C) the procedures to be used to reduce rates for cable programming services that are determined by the Commission to be unreasonable and to refund such portion of the rates or charges that were paid by subscribers after the filing of the first complaint filed with the franchising authority under paragraph (3) and that are determined to be unreasonable.

(2) FACTORS TO BE CONSIDERED.—In establishing the criteria for determining in individual cases whether rates for cable programming services are unreasonable under paragraph (1)(A), the Commission shall consider, among other factors—

(A) the rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

(B) the rates for cable systems, if any, that are subject to effective competition;

(C) the history of the rates for cable programming services of the system, including the relationship of such rates to changes in general consumer prices;

(D) the rates, as a whole, for all the cable programming, cable equipment, and cable services provided by the system, other than programming provided on a per channel or per program basis;

(E) capital and operating costs of the cable system, including the quality and costs of the customer service provided by the cable system; and

(F) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the service for which a rate is being established, and changes in such revenues, or from other consideration obtained in connection with the cable programming services concerned.

(3) REVIEW OF RATE CHANGES.—The Commission shall review any complaint submitted by a franchising authority after the date of enactment of the Telecommunications Act of 1996 concerning an increase in rates for cable programming services and issue a final order within 90 days after it receives such a complaint, unless the parties agree to extend the period for such review. A franchising authority may not file a complaint under this paragraph unless, within 90 days after such increase becomes effective it receives subscriber complaints.

(4) SUNSET OF UPPER TIER RATE REGULATION.—This subsection shall not apply to cable programming services provided after March 31, 1999.

(d) **UNIFORM RATE STRUCTURE REQUIRED.**—A cable operator shall have a rate structure, for the provision of cable service, that is uniform throughout the geographic area in which cable service is provided over its cable system. This subsection does not apply to (1) a cable operator with respect to the provision of cable service over its cable system in any geographic area in which the video programming services offered by the operator in that area are subject to effective competition, or (2) any video programming offered on a per channel or per program basis. Bulk discounts to multiple dwelling units shall not be subject to this subsection, except that a cable operator of a cable system that is not subject to effective competition may not charge predatory prices to a multiple dwelling unit. Upon a prima facie showing by a complainant that there are reasonable grounds to believe that the discounted price is predatory, the cable system shall have the burden of showing that its discounted price is not predatory.

(e) **DISCRIMINATION; SERVICES FOR THE HEARING IMPAIRED.**—Nothing in this title shall be construed as prohibiting any Federal agency, State, or a franchising authority from—

(1) prohibiting discrimination among subscribers and potential subscribers to cable service, except that no Federal agency, State, or franchising authority may prohibit a cable operator from offering reasonable discounts to senior citizens or other economically disadvantaged group discounts; or

(2) requiring and regulating the installation or rental of equipment which facilitates the reception of cable service by hearing impaired individuals.

(f) **NEGATIVE OPTION BILLING PROHIBITED.**—A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. For purposes of this subsection, a subscriber's failure to refuse a cable operator's proposal to provide such service or equipment shall not be deemed to be an affirmative request for such service or equipment.

(g) **COLLECTION OF INFORMATION.**—The Commission shall, by regulation, require cable operators to file with the Commission or a franchising authority, as appropriate, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992 and annually thereafter, such financial information as may be needed for purposes of administering and enforcing this section.

(h) **PREVENTION OF EVASIONS.**—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish standards, guidelines, and procedures to prevent evasions, including evasions that result from retiering, of the requirements of this section and shall, thereafter, periodically review and revise such standards, guidelines, and procedures.

(i) **SMALL SYSTEM BURDENS.**—In developing and prescribing regulations pursuant to this section, the Commission shall design such regulations to reduce the administrative burdens and cost of compliance for cable systems that have 1,000 or fewer subscribers.

(j) **RATE REGULATION AGREEMENTS.**—During the term of an agreement made before July 1, 1990, by a franchising authority and a cable operator providing for the regulation of basic cable service rates, where there was not effective competition under

Commission rules in effect on that date, nothing in this section (or the regulations thereunder) shall abridge the ability of such franchising authority to regulate rates in accordance with such an agreement.

(k) **REPORTS ON AVERAGE PRICES.**—The Commission shall annually publish statistical reports on the average rates for basic cable service and other cable programming, and for converter boxes, remote control units, and other equipment, of—

(1) cable systems that the Commission has found are subject to effective competition under subsection (a)(2), compared with

(2) cable systems that the Commission has found are not subject to such effective competition.

(l) **DEFINITIONS.**—As used in this section—

(1) The term “effective competition” means that—

(A) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system;

(B) the franchise area is—

(i) served by at least two unaffiliated multichannel video programming distributors each of which offers comparable video programming to at least 50 percent of the households in the franchise area; and

(ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area;

(C) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area; or

(D) a local exchange carrier or its affiliate (or any multichannel video programming distributor using the facilities of such carrier or its affiliate) offers video programming services directly to subscribers by any means (other than direct-to-home satellite services) in the franchise area of an unaffiliated cable operator which is providing cable service in that franchise area, but only if the video programming services so offered in that area are comparable to the video programming services provided by the unaffiliated cable operator in that area.

(2) The term “cable programming service” means any video programming provided over a cable system, regardless of service tier, including installation or rental of equipment used for the receipt of such video programming, other than (A) video programming carried on the basic service tier, and (B) video programming offered on a per channel or per program basis.

(m) **SPECIAL RULES FOR SMALL COMPANIES.**—

(1) **IN GENERAL.**—Subsections (a), (b), and (c) do not apply to a small cable operator with respect to—

(A) cable programming services, or

(B) a basic service tier that was the only service tier subject to regulation as of December 31, 1994,

in any franchise area in which that operator services 50,000 or fewer subscribers.

(2) DEFINITION OF SMALL CABLE OPERATOR.—For purposes of this subsection, the term “small cable operator” means a cable operator that, directly or through an affiliate, serves in the aggregate fewer than 1 percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed \$250,000,000.

(n) TREATMENT OF PRIOR YEAR LOSSES.—Notwithstanding any other provision of this section or of section 612, losses associated with a cable system (including losses associated with the grant or award of a franchise) that were incurred prior to September 4, 1992, with respect to a cable system that is owned and operated by the original franchisee of such system shall not be disallowed, in whole or in part, in the determination of whether the rates for any tier of service or any type of equipment that is subject to regulation under this section are lawful.

**SEC. 624. [47 U.S.C. 544] REGULATION OF SERVICES, FACILITIES, AND EQUIPMENT.**

(a) Any franchising authority may not regulate the services, facilities, and equipment provided by a cable operator except to the extent consistent with this title.

(b) In the case of any franchise granted after the effective date of this title, the franchising authority, to the extent related to the establishment or operation of a cable system—

(1) in its request for proposals for a franchise (including requests for renewal proposals, subject to section 626), may establish requirements for facilities and equipment, but may not, except as provided in subsection (h), establish requirements for video programming or other information services; and

(2) subject to section 625, may enforce any requirements contained within the franchise—

(A) for facilities and equipment; and

(B) for broad categories of video programming or other services.

(c) In the case of any franchise in effect on the effective date of this title, the franchising authority may, subject to section 625, enforce requirements contained within the franchise for the provision of services, facilities, and equipment, whether or not related to the establishment or operation of a cable system.

(d)(1) Nothing in this title shall be construed as prohibiting a franchising authority and a cable operator from specifying, in a franchise or renewal thereof, that certain cable services shall not be provided or shall be provided subject to conditions, if such cable services are obscene or are otherwise unprotected by the Constitution of the United States.

(2) In order to restrict the viewing of<sup>1</sup> programming which is obscene or indecent, upon the request of a subscriber, a cable operator shall provide (by sale or lease) a device by which the sub-

<sup>1</sup>The amendments made by section 303(a)(23) and section 304(a)(11) of Public Law 103-414 (108 Stat. 4295 and 4297) added the word “of” several times.

scriber can prohibit viewing of<sup>1</sup> a particular cable service during periods selected by that subscriber.<sup>2</sup>

(3)(A) If a cable operator provides a premium channel without charge to cable subscribers who do not subscribe to such premium channel, the cable operator shall, not later than 30 days before such premium channel is provided without charge—

(i) notify all cable subscribers that the cable operator plans to provide a premium channel without charge;

(ii) notify all cable subscribers when the cable operator plans to offer a premium channel without charge;

(iii) notify all cable subscribers that they have a right to request that the channel carrying the premium channel be blocked; and

(iv) block the channel carrying the premium channel upon the request of a subscriber.

(B) For the purpose of this section, the term “premium channel” shall mean any pay service offered on a per channel or per program basis, which offers movies rated by the Motion Picture Association of America as X, NC-17, or R.

(e) Within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe regulations which establish minimum technical standards relating to cable systems’ technical operation and signal quality. The Commission shall update such standards periodically to reflect improvements in technology. No State or franchising authority may prohibit, condition, or restrict a cable system’s use of any type of subscriber equipment or any transmission technology.

(f)(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this title.

(2) Paragraph (1) shall not apply to—

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this title; and

(B) any rule, regulation, or order under title 17, United States Code.

(g) Notwithstanding any such rule, regulation, or order, each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations in subpart G of part 73, title 47, Code of Federal Regulations.

(h) A franchising authority may require a cable operator to do any one or more of the following:

(1) Provide 30 days’ advance written notice of any change in channel assignment or in the video programming service provided over any such channel.

<sup>1</sup> See footnote on previous page.

<sup>2</sup> This compilation executes amendments contained in section 304(a)(12)(A) and (B) of the Communications Assistance for Law Enforcement Act (P.L. 103-414) even though such section referred to section 624(d)(2)(B) of the Communications Act of 1934.

(2) Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

(i) Within 120 days after the date of enactment of this subsection, the Commission shall prescribe rules concerning the disposition, after a subscriber to a cable system terminates service, of any cable installed by the cable operator within the premises of such subscriber.

**SEC. 624A. [47 U.S.C. 544a] CONSUMER ELECTRONICS EQUIPMENT COMPATIBILITY.**

(a) FINDINGS.—The Congress finds that—

(1) new and recent models of television receivers and video cassette recorders often contain premium features and functions that are disabled or inhibited because of cable scrambling, encoding, or encryption technologies and devices, including converter boxes and remote control devices required by cable operators to receive programming;

(2) if these problems are allowed to persist, consumers will be less likely to purchase, and electronics equipment manufacturers will be less likely to develop, manufacture, or offer for sale, television receivers and video cassette recorders with new and innovative features and functions;

(3) cable operators should use technologies that will prevent signal thefts while permitting consumers to benefit from such features and functions in such receivers and recorders; and

(4) compatibility among televisions, video cassette recorders, and cable systems can be assured with narrow technical standards that mandate a minimum degree of common design and operation, leaving all features, functions, protocols, and other product and service options for selection through open competition in the market.

(b) COMPATIBLE INTERFACES.—

(1) REPORT; REGULATIONS.—Within 1 year after the date of enactment of this section, the Commission, in consultation with representatives of the cable industry and the consumer electronics industry, shall report to Congress on means of assuring compatibility between televisions and video cassette recorders and cable systems, consistent with the need to prevent theft of cable service, so that cable subscribers will be able to enjoy the full benefit of both the programming available on cable systems and the functions available on their televisions and video cassette recorders. Within 180 days after the date of submission of the report required by this subsection, the Commission shall issue such regulations as are necessary to assure such compatibility.

(2) SCRAMBLING AND ENCRYPTION.—In issuing the regulations referred to in paragraph (1), the Commission shall determine whether and, if so, under what circumstances to permit cable systems to scramble or encrypt signals or to restrict cable systems in the manner in which they encrypt or scramble signals, except that the Commission shall not limit the use of scrambling or encryption technology where the use of such technology does not interfere with the functions of subscribers' television receivers or video cassette recorders.

(c) RULEMAKING REQUIREMENTS.—

(1) FACTORS TO BE CONSIDERED.—In prescribing the regulations required by this section, the Commission shall consider—

(A) the need to maximize open competition in the market for all features, functions, protocols, and other product and service options of converter boxes and other cable converters unrelated to the descrambling or decryption of cable television signals;

(B) the costs and benefits to consumers of imposing compatibility requirements on cable operators and television manufacturers in a manner that, while providing effective protection against theft or unauthorized reception of cable service, will minimize interference with or nullification of the special functions of subscribers' television receivers or video cassette recorders, including functions that permit the subscriber—

(i) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(ii) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(iii) to use advanced television picture generation and display features; and

(C) the need for cable operators to protect the integrity of the signals transmitted by the cable operator against theft or to protect such signals against unauthorized reception.

(2) REGULATIONS REQUIRED.—The regulations prescribed by the Commission under this section shall include such regulations as are necessary—

(A) to specify the technical requirements with which a television receiver or video cassette recorder must comply in order to be sold as “cable compatible” or “cable ready”;

(B) to require cable operators offering channels whose reception requires a converter box—

(i) to notify subscribers that they may be unable to benefit from the special functions of their television receivers and video cassette recorders, including functions that permit subscribers—

(I) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(II) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(III) to use advanced television picture generation and display features; and

(ii) to the extent technically and economically feasible, to offer subscribers the option of having all other channels delivered directly to the subscribers' television receivers or video cassette recorders without passing through the converter box;

(C) to promote the commercial availability, from cable operators and retail vendors that are not affiliated with cable systems, of converter boxes and of remote control devices compatible with converter boxes;

(D) to ensure that any standards or regulations developed under the authority of this section to ensure compatibility between televisions, video cassette recorders, and cable systems do not affect features, functions, protocols, and other product and service options other than those specified in paragraph (1)(B), including telecommunications interface equipment, home automation communications, and computer network services;

(E) to require a cable operator who offers subscribers the option of renting a remote control unit—

(i) to notify subscribers that they may purchase a commercially available remote control device from any source that sells such devices rather than renting it from the cable operator; and

(ii) to specify the types of remote control units that are compatible with the converter box supplied by the cable operator; and

(F) to prohibit a cable operator from taking any action that prevents or in any way disables the converter box supplied by the cable operator from operating compatibly with commercially available remote control units.

(d) REVIEW OF REGULATIONS.—The Commission shall periodically review and, if necessary, modify the regulations issued pursuant to this section in light of any actions taken in response to such regulations and to reflect improvements and changes in cable systems, television receivers, video cassette recorders, and similar technology.

**SEC. 625. [47 U.S.C. 545] MODIFICATION OF FRANCHISE OBLIGATIONS.**

(a)(1) During the period a franchise is in effect, the cable operator may obtain from the franchising authority modifications of the requirements in such franchise—

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120-day period is extended by mutual agreement of the cable operator and the franchising authority.

(b)(1) Any cable operator whose request for modification under subsection (a) has been denied by a final decision of a franchising

authority may obtain modification of such franchise requirements pursuant to the provisions of section 635.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that—

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Notwithstanding subsections (a) and (b), a cable operator may, upon 30 days' advance notice to the franchising authority, rearrange, replace, or remove a particular cable service required by the franchise if—

(1) such service is no longer available to the operator; or

(2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, United States Code, which the cable operator can document—

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Notwithstanding subsections (a) and (b), a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 623.

(e) A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.

(f) For purposes of this section, the term "commercially impracticable" means, with respect to any requirement applicable to a cable operator, that it is commercially impracticable for the operator to comply with such requirement as a result of a change in conditions which is beyond the control of the operator and the non-occurrence of which was a basic assumption on which the requirement was based.

**SEC. 626. [47 U.S.C. 546] RENEWAL.**

(a)(1) A franchising authority may, on its own initiative during the 6-month period which begins with the 36th month before the franchise expiration, commence a proceeding which affords the public in the franchise area appropriate notice and participation for the purpose of (A) identifying the future cable-related community needs and interests, and (B) reviewing the performance of the cable operator under the franchise during the then current franchise term. If the cable operator submits, during such 6-month period, a written renewal notice requesting the commencement of such a proceeding, the franchising authority shall commence such a pro-

ceeding not later than 6 months after the date such notice is submitted.

(2) The cable operator may not invoke the renewal procedures set forth in subsections (b) through (g) unless—

(A) such a proceeding is requested by the cable operator by timely submission of such notice; or

(B) such a proceeding is commenced by the franchising authority on its own initiative.

(b)(1) Upon completion of a proceeding under subsection (a), a cable operator seeking renewal of a franchise may, on its own initiative or at the request of a franchising authority, submit a proposal for renewal.

(2) Subject to section 624, any such proposal shall contain such material as the franchising authority may require, including proposals for an upgrade of the cable system.

(3) The franchising authority may establish a date by which such proposal shall be submitted.

(c)(1) Upon submittal by a cable operator of a proposal to the franchising authority for the renewal of a franchise pursuant to subsection (b), the franchising authority shall provide prompt public notice of such proposal and, during the 4-month period which begins on the date of the submission of the cable operator's proposal pursuant to subsection (b), renew the franchise or, issue a preliminary assessment that the franchise should not be renewed and, at the request of the operator or on its own initiative, commence an administrative proceeding, after providing prompt public notice of such proceeding, in accordance with paragraph (2) to consider whether—

(A) the cable operator has substantially complied with the material terms of the existing franchise and with applicable law;

(B) the quality of the operator's service, including signal quality, response to consumer complaints, and billing practices, but without regard to the mix or quality of cable services or other services provided over the system, has been reasonable in light of community needs;

(C) the operator has the financial, legal, and technical ability to provide the services, facilities, and equipment as set forth in the operator's proposal; and

(D) the operator's proposal is reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests.

(2) In any proceeding under paragraph (1), the cable operator shall be afforded adequate notice and the cable operator and the franchise authority, or its designee, shall be afforded fair opportunity for full participation, including the right to introduce evidence (including evidence related to issues raised in the proceeding under subsection (a)), to require the production of evidence, and to question witnesses. A transcript shall be made of any such proceeding.

(3) At the completion of a proceeding under this subsection, the franchising authority shall issue a written decision granting or denying the proposal for renewal based upon the record of such proceeding, and transmit a copy of such decision to the cable operator. Such decision shall state the reasons therefor.

(d) Any denial of a proposal for renewal that has been submitted in compliance with subsection (b) shall be based on one or more adverse findings made with respect to the factors described in subparagraphs (A) through (D) of subsection (c)(1), pursuant to the record of the proceeding under subsection (c). A franchising authority may not base a denial of renewal on a failure to substantially comply with the material terms of the franchise under subsection (c)(1)(A) or on events considered under subsection (c)(1)(B) in any case in which a violation of the franchise or the events considered under subsection (c)(1)(B) occur after the effective date of this title unless the franchising authority has provided the operator with notice and the opportunity to cure, or in any case in which it is documented that the franchising authority has waived its right to object, or the cable operator gives written notice of a failure or inability to cure and the franchising authority fails to object within a reasonable time after receipt of such notice.

(e)(1) Any cable operator whose proposal for renewal has been denied by a final decision of a franchising authority made pursuant to this section, or has been adversely affected by a failure of the franchising authority to act in accordance with the procedural requirements of this section, may appeal such final decision or failure pursuant to the provisions of section 635.

(2) The court shall grant appropriate relief if the court finds that—

(A) any action of the franchising authority, other than harmless error, is not in compliance with the procedural requirements of this section; or

(B) in the event of a final decision of the franchising authority denying the renewal proposal, the operator has demonstrated that the adverse finding of the franchising authority with respect to each of the factors described in subparagraphs (A) through (D) of subsection (c)(1) on which the denial is based is not supported by a preponderance of the evidence, based on the record of the proceeding conducted under subsection (c).

(f) Any decision of a franchising authority on a proposal for renewal shall not be considered final unless all administrative review by the State has occurred or the opportunity therefor has lapsed.

(g) For purposes of this section, the term “franchise expiration” means the date of the expiration of the term of the franchise, as provided under the franchise, as it was in effect on the date of the enactment of this title.

(h) Notwithstanding the provisions of subsections (a) through (g) of this section, a cable operator may submit a proposal for the renewal of a franchise pursuant to this subsection at any time, and a franchising authority may, after affording the public adequate notice and opportunity for comment, grant or deny such proposal at any time (including after proceedings pursuant to this section have commenced). The provisions of subsections (a) through (g) of this section shall not apply to a decision to grant or deny a proposal under this subsection. The denial of a renewal pursuant to this subsection shall not affect action on a renewal proposal that is submitted in accordance with subsections (a) through (g).

(i) Notwithstanding the provisions of subsections (a) through (h), any lawful action to revoke a cable operator’s franchise for

cause shall not be negated by the subsequent initiation of renewal proceedings by the cable operator under this section.

**SEC. 627. [47 U.S.C. 547] CONDITIONS OF SALE.**

(a) If a renewal of a franchise held by a cable operator is denied and the franchising authority acquires ownership of the cable system or effects a transfer of ownership of the system to another person, any such acquisition or transfer shall be—

(1) at fair market value, determined on the basis of the cable system valued as a going concern but with no value allocated to the franchise itself, or

(2) in the case of any franchise existing on the effective date of this title, at a price determined in accordance with the franchise if such franchise contains provisions applicable to such an acquisition or transfer.

(b) If a franchise held by a cable operator is revoked for cause and the franchising authority acquires ownership of the cable system or effects a transfer of ownership of the system to another person, any such acquisition or transfer shall be—

(1) at an equitable price, or

(2) in the case of any franchise existing on the effective date of this title, at a price determined in accordance with the franchise if such franchise contains provisions applicable to such an acquisition or transfer.

**SEC. 628. [47 U.S.C. 548] DEVELOPMENT OF COMPETITION AND DIVERSITY IN VIDEO PROGRAMMING DISTRIBUTION.**

(a) **PURPOSE.**—The purpose of this section is to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market, to increase the availability of satellite cable programming and satellite broadcast programming to persons in rural and other areas not currently able to receive such programming, and to spur the development of communications technologies.

(b) **PROHIBITION.**—It shall be unlawful for a cable operator, a satellite cable programming vendor in which a cable operator has an attributable interest, or a satellite broadcast programming vendor to engage in unfair methods of competition or unfair or deceptive acts or practices, the purpose or effect of which is to hinder significantly or to prevent any multichannel video programming distributor from providing satellite cable programming or satellite broadcast programming to subscribers or consumers.

(c) **REGULATIONS REQUIRED.**—

(1) **PROCEEDING REQUIRED.**—Within 180 days after the date of enactment of this section, the Commission shall, in order to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market and the continuing development of communications technologies, prescribe regulations to specify particular conduct that is prohibited by subsection (b).

(2) **MINIMUM CONTENTS OF REGULATIONS.**—The regulations to be promulgated under this section shall—

(A) establish effective safeguards to prevent a cable operator which has an attributable interest in a satellite cable programming vendor or a satellite broadcast programming vendor from unduly or improperly influencing

the decision of such vendor to sell, or the prices, terms, and conditions of sale of, satellite cable programming or satellite broadcast programming to any unaffiliated multichannel video programming distributor;

(B) prohibit discrimination by a satellite cable programming vendor in which a cable operator has an attributable interest or by a satellite broadcast programming vendor in the prices, terms, and conditions of sale or delivery of satellite cable programming or satellite broadcast programming among or between cable systems, cable operators, or other multichannel video programming distributors, or their agents or buying groups; except that such a satellite cable programming vendor in which a cable operator has an attributable interest or such a satellite broadcast programming vendor shall not be prohibited from—

(i) imposing reasonable requirements for creditworthiness, offering of service, and financial stability and standards regarding character and technical quality;

(ii) establishing different prices, terms, and conditions to take into account actual and reasonable differences in the cost of creation, sale, delivery, or transmission of satellite cable programming or satellite broadcast programming;

(iii) establishing different prices, terms, and conditions which take into account economies of scale, cost savings, or other direct and legitimate economic benefits reasonably attributable to the number of subscribers served by the distributor; or

(iv) entering into an exclusive contract that is permitted under subparagraph (D);

(C) prohibit practices, understandings, arrangements, and activities, including exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor or satellite broadcast programming vendor, that prevent a multichannel video programming distributor from obtaining such programming from any satellite cable programming vendor in which a cable operator has an attributable interest or any satellite broadcast programming vendor in which a cable operator has an attributable interest for distribution to persons in areas not served by a cable operator as of the date of enactment of this section; and

(D) with respect to distribution to persons in areas served by a cable operator, prohibit exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor in which a cable operator has an attributable interest or a satellite broadcast programming vendor in which a cable operator has an attributable interest, unless the Commission determines (in accordance with paragraph (4)) that such contract is in the public interest.

(3) LIMITATIONS.—

(A) GEOGRAPHIC LIMITATIONS.—Nothing in this section shall require any person who is engaged in the national or regional distribution of video programming to make such programming available in any geographic area beyond which such programming has been authorized or licensed for distribution.

(B) APPLICABILITY TO SATELLITE RETRANSMISSIONS.—Nothing in this section shall apply (i) to the signal of any broadcast affiliate of a national television network or other television signal that is retransmitted by satellite but that is not satellite broadcast programming, or (ii) to any internal satellite communication of any broadcast network or cable network that is not satellite broadcast programming.

(4) PUBLIC INTEREST DETERMINATIONS ON EXCLUSIVE CONTRACTS.—In determining whether an exclusive contract is in the public interest for purposes of paragraph (2)(D), the Commission shall consider each of the following factors with respect to the effect of such contract on the distribution of video programming in areas that are served by a cable operator:

(A) the effect of such exclusive contract on the development of competition in local and national multichannel video programming distribution markets;

(B) the effect of such exclusive contract on competition from multichannel video programming distribution technologies other than cable;

(C) the effect of such exclusive contract on the attraction of capital investment in the production and distribution of new satellite cable programming;

(D) the effect of such exclusive contract on diversity of programming in the multichannel video programming distribution market; and

(E) the duration of the exclusive contract.

(5) SUNSET PROVISION.—The prohibition required by paragraph (2)(D) shall cease to be effective 10 years after the date of enactment of this section, unless the Commission finds, in a proceeding conducted during the last year of such 10-year period, that such prohibition continues to be necessary to preserve and protect competition and diversity in the distribution of video programming.

(d) ADJUDICATORY PROCEEDING.—Any multichannel video programming distributor aggrieved by conduct that it alleges constitutes a violation of subsection (b), or the regulations of the Commission under subsection (c), may commence an adjudicatory proceeding at the Commission.

(e) REMEDIES FOR VIOLATIONS.—

(1) REMEDIES AUTHORIZED.—Upon completion of such adjudicatory proceeding, the Commission shall have the power to order appropriate remedies, including, if necessary, the power to establish prices, terms, and conditions of sale of programming to the aggrieved multichannel video programming distributor.

(2) ADDITIONAL REMEDIES.—The remedies provided in paragraph (1) are in addition to and not in lieu of the remedies available under title V or any other provision of this Act.

(f) PROCEDURES.—The Commission shall prescribe regulations to implement this section. The Commission's regulations shall—

(1) provide for an expedited review of any complaints made pursuant to this section;

(2) establish procedures for the Commission to collect such data, including the right to obtain copies of all contracts and documents reflecting arrangements and understandings alleged to violate this section, as the Commission requires to carry out this section; and

(3) provide for penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(g) REPORTS.—The Commission shall, beginning not later than 18 months after promulgation of the regulations required by subsection (c), annually report to Congress on the status of competition in the market for the delivery of video programming.

(h) EXEMPTIONS FOR PRIOR CONTRACTS.—

(1) IN GENERAL.—Nothing in this section shall affect any contract that grants exclusive distribution rights to any person with respect to satellite cable programming and that was entered into on or before June 1, 1990, except that the provisions of subsection (c)(2)(C) shall apply for distribution to persons in areas not served by a cable operator.

(2) LIMITATION ON RENEWALS.—A contract that was entered into on or before June 1, 1990, but that is renewed or extended after the date of enactment of this section shall not be exempt under paragraph (1).

(i) DEFINITIONS.—As used in this section:

(1) The term “satellite cable programming” has the meaning provided under section 705 of this Act, except that such term does not include satellite broadcast programming.

(2) The term “satellite cable programming vendor” means a person engaged in the production, creation, or wholesale distribution for sale of satellite cable programming, but does not include a satellite broadcast programming vendor.

(3) The term “satellite broadcast programming” means broadcast video programming when such programming is retransmitted by satellite and the entity retransmitting such programming is not the broadcaster or an entity performing such retransmission on behalf of and with the specific consent of the broadcaster.

(4) The term “satellite broadcast programming vendor” means a fixed service satellite carrier that provides service pursuant to section 119 of title 17, United States Code, with respect to satellite broadcast programming.

(j) COMMON CARRIERS.—Any provision that applies to a cable operator under this section shall apply to a common carrier or its affiliate that provides video programming by any means directly to subscribers. Any such provision that applies to a satellite cable programming vendor in which a cable operator has an attributable interest shall apply to any satellite cable programming vendor in which such common carrier has an attributable interest. For the purposes of this subsection, two or fewer common officers or directors shall not by itself establish an attributable interest by a common carrier in a satellite cable programming vendor (or its parent company).

**SEC. 629. [47 U.S.C. 549] COMPETITIVE AVAILABILITY OF NAVIGATION DEVICES.**

(a) **COMMERCIAL CONSUMER AVAILABILITY OF EQUIPMENT USED TO ACCESS SERVICES PROVIDED BY MULTICHANNEL VIDEO PROGRAMMING DISTRIBUTORS.**—The Commission shall, in consultation with appropriate industry standard-setting organizations, adopt regulations to assure the commercial availability, to consumers of multichannel video programming and other services offered over multichannel video programming systems, of converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, from manufacturers, retailers, and other vendors not affiliated with any multichannel video programming distributor. Such regulations shall not prohibit any multichannel video programming distributor from also offering converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, to consumers, if the system operator's charges to consumers for such devices and equipment are separately stated and not subsidized by charges for any such service.

(b) **PROTECTION OF SYSTEM SECURITY.**—The Commission shall not prescribe regulations under subsection (a) which would jeopardize security of multichannel video programming and other services offered over multichannel video programming systems, or impede the legal rights of a provider of such services to prevent theft of service.

(c) **WAIVER.**—The Commission shall waive a regulation adopted under subsection (a) for a limited time upon an appropriate showing by a provider of multichannel video programming and other services offered over multichannel video programming systems, or an equipment provider, that such waiver is necessary to assist the development or introduction of a new or improved multichannel video programming or other service offered over multichannel video programming systems, technology, or products. Upon an appropriate showing, the Commission shall grant any such waiver request within 90 days of any application filed under this subsection, and such waiver shall be effective for all service providers and products in that category and for all providers of services and products.

(d) **AVOIDANCE OF REDUNDANT REGULATIONS.**—

(1) **COMMERCIAL AVAILABILITY DETERMINATIONS.**—Determinations made or regulations prescribed by the Commission with respect to commercial availability to consumers of converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, before the date of enactment of the Telecommunications Act of 1996 shall fulfill the requirements of this section.

(2) **REGULATIONS.**—Nothing in this section affects section 64.702(e) of the Commission's regulations (47 C.F.R. 64.702(e)) or other Commission regulations governing interconnection and

competitive provision of customer premises equipment used in connection with basic common carrier communications services.

(e) SUNSET.—The regulations adopted under this section shall cease to apply when the Commission determines that—

(1) the market for the multichannel video programming distributors is fully competitive;

(2) the market for converter boxes, and interactive communications equipment, used in conjunction with that service is fully competitive; and

(3) elimination of the regulations would promote competition and the public interest.

(f) COMMISSION'S AUTHORITY.—Nothing in this section shall be construed as expanding or limiting any authority that the Commission may have under law in effect before the date of enactment of the Telecommunications Act of 1996.

## PART IV—MISCELLANEOUS PROVISIONS

### SEC. 631. [47 U.S.C. 551] PROTECTION OF SUBSCRIBER PRIVACY.

(a)(1) At the time of entering into an agreement to provide any cable service or other service to a subscriber and at least once a year thereafter, a cable operator shall provide notice in the form of a separate, written statement to such subscriber which clearly and conspicuously informs the subscriber of—

(A) the nature of personally identifiable information collected or to be collected with respect to the subscriber and the nature of the use of such information;

(B) the nature, frequency, and purpose of any disclosure which may be made of such information, including an identification of the types of persons to whom the disclosure may be made;

(C) the period during which such information will be maintained by the cable operator;

(D) the times and place at which the subscriber may have access to such information in accordance with subsection (d); and

(E) the limitations provided by this section with respect to the collection and disclosure of information by a cable operator and the right of the subscriber under subsections (f) and (h) to enforce such limitations.

In the case of subscribers who have entered into such an agreement before the effective date of this section, such notice shall be provided within 180 days of such date and at least once a year thereafter.

(2) For purposes of this section, other than subsection (h)—

(A) the term “personally identifiable information” does not include any record of aggregate data which does not identify particular persons;

(B) the term “other service” includes any wire or radio communications service provided using any of the facilities of a cable operator that are used in the provision of cable service; and

(C) the term “cable operator” includes, in addition to persons within the definition of cable operator in section 602, any person who (i) is owned or controlled by, or under common

ownership or control with, a cable operator, and (ii) provides any wire or radio communications service.

(b)(1) Except as provided in paragraph (2), a cable operator shall not use the cable system to collect personally identifiable information concerning any subscriber without the prior written or electronic consent of the subscriber concerned.

(2) A cable operator may use the cable system to collect such information in order to—

(A) obtain information necessary to render a cable service or other service provided by the cable operator to the subscriber; or

(B) detect unauthorized reception of cable communications.

(c)(1) Except as provided in paragraph (2), a cable operator shall not disclose personally identifiable information concerning any subscriber without the prior written or electronic consent of the subscriber concerned and shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the subscriber or cable operator.

(2) A cable operator may disclose such information if the disclosure is—

(A) necessary to render, or conduct a legitimate business activity related to, a cable service or other service provided by the cable operator to the subscriber;

(B) subject to subsection (h), made pursuant to a court order authorizing such disclosure, if the subscriber is notified of such order by the person to whom the order is directed;

(C) a disclosure of the names and addresses of subscribers to any cable service or other service, if—

(i) the cable operator has provided the subscriber the opportunity to prohibit or limit such disclosure, and

(ii) the disclosure does not reveal, directly or indirectly, the—

(I) extent of any viewing or other use by the subscriber of a cable service or other service provided by the cable operator, or

(II) the nature of any transaction made by the subscriber over the cable system of the cable operator; or

(D) to a government entity as authorized under chapters 119, 121, or 206 of title 18, United States Code, except that such disclosure shall not include records revealing cable subscriber selection of video programming from a cable operator.

(d) A cable subscriber shall be provided access to all personally identifiable information regarding that subscriber which is collected and maintained by a cable operator. Such information shall be made available to the subscriber at reasonable times and at a convenient place designated by such cable operator. A cable subscriber shall be provided reasonable opportunity to correct any error in such information.

(e) A cable operator shall destroy personally identifiable information if the information is no longer necessary for the purpose for which it was collected and there are no pending requests or orders for access to such information under subsection (d) or pursuant to a court order.

(f)(1) Any person aggrieved by any act of a cable operator in violation of this section may bring a civil action in a United States district court.

(2) The court may award—

(A) actual damages but not less than liquidated damages computed at the rate of \$100 a day for each day of violation or \$1,000, whichever is higher;

(B) punitive damages; and

(C) reasonable attorneys' fees and other litigation costs reasonably incurred.

(3) The remedy provided by this section shall be in addition to any other lawful remedy available to a cable subscriber.

(g) Nothing in this title shall be construed to prohibit any State or any franchising authority from enacting or enforcing laws consistent with this section for the protection of subscriber privacy.

(h) Except as provided in subsection (c)(2)(D), a governmental entity may obtain personally identifiable information concerning a cable subscriber pursuant to a court order only if, in the court proceeding relevant to such court order—

(1) such entity offers clear and convincing evidence that the subject of the information is reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case; and

(2) the subject of the information is afforded the opportunity to appear and contest such entity's claim.

**SEC. 632. [47 U.S.C. 552] CONSUMER PROTECTION AND CUSTOMER SERVICE.**

(a) **FRANCHISING AUTHORITY ENFORCEMENT.**—A franchising authority may establish and enforce—

(1) customer service requirements of the cable operator; and

(2) construction schedules and other construction-related requirements, including construction-related performance requirements, of the cable operator.

(b) **COMMISSION STANDARDS.**—The Commission shall, within 180 days of enactment of the Cable Television Consumer Protection and Competition Act of 1992, establish standards by which cable operators may fulfill their customer service requirements. Such standards shall include, at a minimum, requirements governing—

(1) cable system office hours and telephone availability;

(2) installations, outages, and service calls; and

(3) communications between the cable operator and the subscriber (including standards governing bills and refunds).

(c) **SUBSCRIBER NOTICE.**—A cable operator may provide notice of service and rate changes to subscribers using any reasonable written means at its sole discretion. Notwithstanding section 623(b)(6) or any other provision of this Act, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(d) **CONSUMER PROTECTION LAWS AND CUSTOMER SERVICE AGREEMENTS.**—

(1) CONSUMER PROTECTION LAWS.—Nothing in this title shall be construed to prohibit any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted by this title.

(2) CUSTOMER SERVICE REQUIREMENT AGREEMENTS.—Nothing in this section shall be construed to preclude a franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards established by the Commission under subsection (b). Nothing in this title shall be construed to prevent the establishment or enforcement of any municipal law or regulation, or any State law, concerning customer service that imposes customer service requirements that exceed the standards set by the Commission under this section, or that addresses matters not addressed by the standards set by the Commission under this section.

**SEC. 633. [47 U.S.C. 553] UNAUTHORIZED RECEPTION OF CABLE SERVICE.**

(a)(1) No person shall intercept or receive or assist in intercepting or receiving any communications service offered over a cable system, unless specifically authorized to do so by a cable operator or as may otherwise be specifically authorized by law.

(2) For the purpose of this section, the term “assist in intercepting or receiving” shall include the manufacture or distribution of equipment intended by the manufacturer or distributor (as the case may be) for unauthorized reception of any communications service offered over a cable system in violation of subparagraph (1).

(b)(1) Any person who willfully violates subsection (a)(1) shall be fined not more than \$1,000 or imprisoned for not more than 6 months, or both.

(2) Any person who violates subsection (a)(1) willfully and for purposes of commercial advantage or private financial gain shall be fined not more than \$50,000 or imprisoned for not more than 2 years, or both, for the first such offense and shall be fined not more than \$100,000 or imprisoned for not more than 5 years, or both, for any subsequent offense.

(3) For purposes of all penalties and remedies established for violations of subsection (a)(1), the prohibited activity established herein as it applies to each such device shall be deemed a separate violation.

(c)(1) Any person aggrieved by any violation of subsection (a)(1) may bring a civil action in a United States district court or in any other court of competent jurisdiction.

(2) The court may—

(A) grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain violations of subsection (a)(1);

(B) award damages as described in paragraph (3); and

(C) direct the recovery of full costs, including awarding reasonable attorneys’ fees to an aggrieved party who prevails.

(3)(A) Damages awarded by any court under this section shall be computed in accordance with either of the following clauses:

(i) the party aggrieved may recover the actual damages suffered by him as a result of the violation and any profits of the violator that are attributable to the violation which are not taken into account in computing the actual damages; in deter-

mining the violator's profits, the party aggrieved shall be required to prove only the violator's gross revenue, and the violator shall be required to prove his deductible expenses and the elements of profit attributable to factors other than the violation; or

(ii) the party aggrieved may recover an award of statutory damages for all violations involved in the action, in a sum of not less than \$250 or more than \$10,000 as the court considers just.

(B) In any case in which the court finds that the violation was committed willfully and for purposes of commercial advantage or private financial gain, the court in its discretion may increase the award of damages, whether actual or statutory under subparagraph (A), by an amount of not more than \$50,000.

(C) In any case where the court finds that the violator was not aware and had no reason to believe that his acts constituted a violation of this section, the court in its discretion may reduce the award of damages to a sum of not less than \$100.

(D) Nothing in this title shall prevent any State or franchising authority from enacting or enforcing laws, consistent with this section, regarding the unauthorized interception or reception of any cable service or other communications service.

**SEC. 634. [47 U.S.C. 554] EQUAL EMPLOYMENT OPPORTUNITY.**

(a) This section shall apply to any corporation, partnership, association, joint-stock company, or trust engaged primarily in the management or operation of any cable system.

(b) Equal opportunity in employment shall be afforded by each entity specified in subsection (a), and no person shall be discriminated against in employment by such entity because of race, color, religion, national origin, age, or sex.

(c) Any entity specified in subsection (a) shall establish, maintain, and execute a positive continuing program of specific practices designed to ensure equal opportunity in every aspect of its employment policies and practices. Under the terms of its program, each such entity shall—

(1) define the responsibility of each level of management to ensure a positive application and vigorous enforcement of its policy of equal opportunity, and establish a procedure to review and control managerial and supervisory performance;

(2) inform its employees and recognized employee organizations of the equal employment opportunity policy and program and enlist their cooperation;

(3) communicate its equal employment opportunity policy and program and its employment needs to sources of qualified applicants without regard to race, color, religion, national origin, age, or sex, and solicit their recruitment assistance on a continuing basis;

(4) conduct a continuing program to exclude every form of prejudice or discrimination based on race, color, religion, national origin, age, or sex, from its personnel policies and practices and working conditions; and

(5) conduct a continuing review of job structure and employment practices and adopt positive recruitment, training, job design, and other measures needed to ensure genuine

equality of opportunity to participate fully in all its organizational units, occupations, and levels of responsibility.

(d)(1) Not later than 270 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, and after notice and opportunity for hearing, the Commission shall prescribe revisions in the rules under this section in order to implement the amendments made to this section by such Act. Such revisions shall be designed to promote equality of employment opportunities for females and minorities in each of the job categories itemized in paragraph (3).

(2) Such rules shall specify the terms under which an entity specified in subsection (a) shall, to the extent possible—

(A) disseminate its equal opportunity program to job applicants, employees, and those with whom it regularly does business;

(B) use minority organizations, organizations for women, media, educational institutions, and other potential sources of minority and female applicants, to supply referrals whenever jobs are available in its operation;

(C) evaluate its employment profile and job turnover against the availability of minorities and women in its franchise area;

(D) undertake to offer promotions of minorities and women to positions of greater responsibility;

(E) encourage minority and female entrepreneurs to conduct business with all parts of its operation; and

(F) analyze the results of its efforts to recruit, hire, promote, and use the services of minorities and women and explain any difficulties encountered in implementing its equal employment opportunity program.

(3)(A) Such rules also shall require an entity specified in subsection (a) with more than 5 full-time employees to file with the Commission an annual statistical report identifying by race, sex, and job title the number of employees in each of the following full-time and part-time job categories:

- (i) Corporate officers.
- (ii) General Manager.
- (iii) Chief Technician.
- (iv) Comptroller.
- (v) General Sales Manager.
- (vi) Production Manager.
- (vii) Managers.
- (viii) Professionals.
- (ix) Technicians.
- (x) Sales Personnel.
- (xi) Office and Clerical Personnel.
- (xii) Skilled Craftspersons.
- (xiii) Semiskilled Operatives.
- (xiv) Unskilled Laborers.
- (xv) Service Workers.

(B) The report required by subparagraph (A) shall be made on separate forms, provided by the Commission, for full-time and part-time employees. The Commission's rules shall sufficiently define the job categories listed in clauses (i) through (vi) of such subparagraph so as to ensure that only employees who are principal deci-

sionmakers and who have supervisory authority are reported for such categories. The Commission shall adopt rules that define the job categories listed in clauses (vii) through (xv) in a manner that is consistent with the Commission policies in effect on June 1, 1990. The Commission shall prescribe the method by which entities shall be required to compute and report the number of minorities and women in the job categories listed in clauses (i) through (x) and the number of minorities and women in the job categories listed in clauses (i) through (xv) in proportion to the total number of qualified minorities and women in the relevant labor market. The report shall include information on hiring, promotion, and recruitment practices necessary for the Commission to evaluate the efforts of entities to comply with the provisions of paragraph (2) of this subsection. The report shall be available for public inspection at the entity's central location and at every location where 5 or more full-time employees are regularly assigned to work. Nothing in this subsection shall be construed as prohibiting the Commission from collecting or continuing to collect statistical or other employment information in a manner that it deems appropriate to carry out this section.

(4) The Commission may amend such rules from time to time to the extent necessary to carry out the provisions of this section. Any such amendment shall be made after notice and opportunity for comment.

(e)(1) On an annual basis, the Commission shall certify each entity described in subsection (a) as in compliance with this section if, on the basis of information in the possession of the Commission, including the report filed pursuant to subsection (d)(3), such entity was in compliance, during the annual period involved, with the requirements of subsections (b), (c), and (d).

(2) The Commission shall, periodically but not less frequently than every five years, investigate the employment practices of each entity described in subsection (a), in the aggregate, as well as in individual job categories, and determine whether such entity is in compliance with the requirements of subsections (b), (c), and (d), including whether such entity's employment practices deny or abridge women and minorities equal employment opportunities. As part of such investigation, the Commission shall review whether the entity's reports filed pursuant to subsection (d)(3) accurately reflect employee responsibilities in the reported job classification.

(f)(1) If the Commission finds after notice and hearing that the entity involved has willfully or repeatedly without good cause failed to comply with the requirements of this section, such failure shall constitute a substantial failure to comply with this title. The failure to obtain certification under subsection (e) shall not itself constitute the basis for a determination of substantial failure to comply with this title. For purposes of this paragraph, the term "repeatedly", when used with respect to failures to comply, refers to 3 or more failures during any 7-year period.

(2) Any person who is determined by the Commission, through an investigation pursuant to subsection (e) or otherwise, to have failed to meet or failed to make best efforts to meet the requirements of this section, or rules under this section, shall be liable to the United States for a forfeiture penalty of \$500 for each violation. Each day of a continuing violation shall constitute a separate

offense. Any entity defined in subsection (a) shall not be liable for more than 180 days of forfeitures which accrued prior to notification by the Commission of a potential violation. Nothing in this paragraph shall limit the forfeiture imposed on any person as a result of any violation that continues subsequent to such notification. In addition, any person liable for such penalty may also have any license under this Act for cable auxiliary relay service suspended until the Commission determines that the failure involved has been corrected. Whoever knowingly makes any false statement or submits documentation which he knows to be false, pursuant to an application for certification under this section shall be in violation of this section.

(3) The provisions of paragraphs (3) and (4), and the last 2 sentences of paragraph (2), of section 503(b) shall apply to forfeitures under this subsection.

(4) The Commission shall provide for notice to the public and appropriate franchising authorities of any penalty imposed under this section.

(g) Employees or applicants for employment who believe they have been discriminated against in violation of the requirements of this section, or rules under this section, or any other interested person, may file a complaint with the Commission. A complaint by any such person shall be in writing, and shall be signed and sworn to by that person. The regulations under subsection (d)(1) shall specify a program, under authorities otherwise available to the Commission, for the investigation of complaints and violations, and for the enforcement of this section.

(h)(1) For purposes of this section, the term "cable operator" includes any operator of any satellite master antenna television system, including a system described in section 602(7)(A) and any multichannel video programming distributor.

(2) Such term does not include any operator of a system which, in the aggregate, serves fewer than 50 subscribers.

(3) In any case in which a cable operator is the owner of a multiple unit dwelling, the requirements of this section shall only apply to such cable operator with respect to its employees who are primarily engaged in cable telecommunications.

(i)(1) Nothing in this section shall affect the authority of any State or any franchising authority—

(A) to establish or enforce any requirement which is consistent with the requirements of this section, including any requirement which affords equal employment opportunity protection for employees;

(B) to establish or enforce any provision requiring or encouraging any cable operator to conduct business with enterprises which are owned or controlled by members of minority groups (as defined in section 309(i)(3)(C)(ii) or which have their principal operations located within the community served by the cable operator; or

(C) to enforce any requirement of a franchise in effect on the effective date of this title.

(2) The remedies and enforcement provisions of this section are in addition to, and not in lieu of, those available under this or any other law.

(3) The provisions of this section shall apply to any cable operator, whether operating pursuant to a franchise granted before, on, or after the date of the enactment of this section.

**SEC. 635. [47 U.S.C. 555] JUDICIAL PROCEEDINGS.**

(a) Any cable operator adversely affected by any final determination made by a franchising authority under section 621(a)(1), 625 or 626 may commence an action within 120 days after receiving notice of such determination, which may be brought in—

(1) the district court of the United States for any judicial district in which the cable system is located; or

(2) in any State court of general jurisdiction having jurisdiction over the parties.

(b) The court may award any appropriate relief consistent with the provisions of the relevant section described in subsection (a) and with the provisions of subsection (a).

(c)(1) Notwithstanding any other provision of law, any civil action challenging the constitutionality of section 614 or 615 of this Act or any provision thereof shall be heard by a district court of three judges convened pursuant to the provisions of section 2284 of title 28, United States Code.

(2) Notwithstanding any other provision of law, an interlocutory or final judgment, decree, or order of the court of three judges in an action under paragraph (1) holding section 614 or 615 of this Act or any provision thereof unconstitutional shall be reviewable as a matter of right by direct appeal to the Supreme Court. Any such appeal shall be filed not more than 20 days after entry of such judgment, decree, or order.

**SEC. 635A. [47 U.S.C. 555a] LIMITATION OF FRANCHISING AUTHORITY LIABILITY.**

(a) **SUITS FOR DAMAGES PROHIBITED.**—In any court proceeding pending on or initiated after the date of enactment of this section involving any claim against a franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity, arising from the regulation of cable service or from a decision of approval or disapproval with respect to a grant, renewal, transfer, or amendment of a franchise, any relief, to the extent such relief is required by any other provision of Federal, State, or local law, shall be limited to injunctive relief and declaratory relief.

(b) **EXCEPTION FOR COMPLETED CASES.**—The limitation contained in subsection (a) shall not apply to actions that, prior to such violation, have been determined by a final order of a court of binding jurisdiction, no longer subject to appeal, to be in violation of a cable operator's rights.

(c) **DISCRIMINATION CLAIMS PERMITTED.**—Nothing in this section shall be construed as limiting the relief authorized with respect to any claim against a franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity, to the extent such claim involves discrimination on the basis of race, color, sex, age, religion, national origin, or handicap.

(d) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed as creating or authorizing liability of any kind, under any law, for any action or failure to act relating to cable service or

the granting of a franchise by any franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity.

**SEC. 636. [47 U.S.C. 556] COORDINATION OF FEDERAL, STATE, AND LOCAL AUTHORITY.**

(a) Nothing in this title shall be construed to affect any authority of any State, political subdivision, or agency thereof, or franchising authority, regarding matters of public health, safety, and welfare, to the extent consistent with the express provisions of this title.

(b) Nothing in this title shall be construed to restrict a State from exercising jurisdiction with regard to cable services consistent with this title.

(c) Except as provided in section 637, any provision of law of any State, political subdivision, or agency thereof, or franchising authority, or any provision of any franchise granted by such authority, which is inconsistent with this Act shall be deemed to be preempted and superseded.

(d) For purposes of this section, the term "State" has the meaning given such term in section 3.

**SEC. 637. [47 U.S.C. 557] EXISTING FRANCHISES.**

(a) The provisions of—

(1) any franchise in effect on the effective date of this title, including any such provisions which relate to the designation, use, or support for the use of channel capacity for public, educational, or governmental use, and

(2) any law of any State (as defined in section 3) in effect on the date of the enactment of this section, or any regulation promulgated pursuant to such law, which relates to such designation, use or support of such channel capacity, shall remain in effect, subject to the express provisions of this title, and for not longer than the then current remaining term of the franchise as such franchise existed on such effective date.

(b) For purposes of subsection (a) and other provisions of this title, a franchise shall be considered in effect on the effective date of this title if such franchise was granted on or before such effective date.

**SEC. 638. [47 U.S.C. 558] CRIMINAL AND CIVIL LIABILITY.**

Nothing in this title shall be deemed to affect the criminal or civil liability of cable programmers or cable operators pursuant to the Federal, State, or local law of libel, slander, obscenity, incitement, invasions of privacy, false or misleading advertising, or other similar laws, except that cable operators shall not incur any such liability for any program carried on any channel designated for public, educational, governmental use or on any other channel obtained under section 612 or under similar arrangements unless the program involves obscene material.

**SEC. 639. [47 U.S.C. 559] OBSCENE PROGRAMMING.**

Whoever transmits over any cable system any matter which is obscene or otherwise unprotected by the Constitution of the United States shall be fined under title 18, United States Code, or imprisoned not more than 2 years, or both.

**SEC. 640. [47 U.S.C. 560] SCRAMBLING OF CABLE CHANNELS FOR NON-SUBSCRIBERS.**

(a) **SUBSCRIBER REQUEST.**—Upon request by a cable service subscriber, a cable operator shall, without charge, fully scramble or otherwise fully block the audio and video programming of each channel carrying such programming so that one not a subscriber does not receive it.

(b) **DEFINITION.**—As used in this section, the term “scramble” means to rearrange the content of the signal of the programming so that the programming cannot be viewed or heard in an understandable manner.

**SEC. 641. [47 U.S.C. 561] SCRAMBLING OF SEXUALLY EXPLICIT ADULT VIDEO SERVICE PROGRAMMING.**

(a) **REQUIREMENT.**—In providing sexually explicit adult programming or other programming that is indecent on any channel of its service primarily dedicated to sexually-oriented programming, a multichannel video programming distributor shall fully scramble or otherwise fully block the video and audio portion of such channel so that one not a subscriber to such channel or programming does not receive it.

(b) **IMPLEMENTATION.**—Until a multichannel video programming distributor complies with the requirement set forth in subsection (a), the distributor shall limit the access of children to the programming referred to in that subsection by not providing such programming during the hours of the day (as determined by the Commission) when a significant number of children are likely to view it.

(c) **DEFINITION.**—As used in this section, the term “scramble” means to rearrange the content of the signal of the programming so that the programming cannot be viewed or heard in an understandable manner.

## **PART V—VIDEO PROGRAMMING SERVICES PROVIDED BY TELEPHONE COMPANIES**

**SEC. 651. [47 U.S.C. 571] REGULATORY TREATMENT OF VIDEO PROGRAMMING SERVICES.**

(a) **LIMITATIONS ON CABLE REGULATION.**—

(1) **RADIO-BASED SYSTEMS.**—To the extent that a common carrier (or any other person) is providing video programming to subscribers using radio communication, such carrier (or other person) shall be subject to the requirements of title III and section 652, but shall not otherwise be subject to the requirements of this title.

(2) **COMMON CARRIAGE OF VIDEO TRAFFIC.**—To the extent that a common carrier is providing transmission of video programming on a common carrier basis, such carrier shall be subject to the requirements of title II and section 652, but shall not otherwise be subject to the requirements of this title. This paragraph shall not affect the treatment under section 602(7)(C) of a facility of a common carrier as a cable system.

(3) **CABLE SYSTEMS AND OPEN VIDEO SYSTEMS.**—To the extent that a common carrier is providing video programming to its subscribers in any manner other than that described in paragraphs (1) and (2)—

(A) such carrier shall be subject to the requirements of this title, unless such programming is provided by means of an open video system for which the Commission has approved a certification under section 653; or

(B) if such programming is provided by means of an open video system for which the Commission has approved a certification under section 653, such carrier shall be subject to the requirements of this part, but shall be subject to parts I through IV of this title only as provided in 653(c).

(4) ELECTION TO OPERATE AS OPEN VIDEO SYSTEM.—A common carrier that is providing video programming in a manner described in paragraph (1) or (2), or a combination thereof, may elect to provide such programming by means of an open video system that complies with section 653. If the Commission approves such carrier's certification under section 653, such carrier shall be subject to the requirements of this part, but shall be subject to parts I through IV of this title only as provided in 653(c).

(b) LIMITATIONS ON INTERCONNECTION OBLIGATIONS.—A local exchange carrier that provides cable service through an open video system or a cable system shall not be required, pursuant to title II of this Act, to make capacity available on a nondiscriminatory basis to any other person for the provision of cable service directly to subscribers.

(c) ADDITIONAL REGULATORY RELIEF.—A common carrier shall not be required to obtain a certificate under section 214 with respect to the establishment or operation of a system for the delivery of video programming.

**SEC. 652. [47 U.S.C. 572] PROHIBITION ON BUY OUTS.**

(a) ACQUISITIONS BY CARRIERS.—No local exchange carrier or any affiliate of such carrier owned by, operated by, controlled by, or under common control with such carrier may purchase or otherwise acquire directly or indirectly more than a 10 percent financial interest, or any management interest, in any cable operator providing cable service within the local exchange carrier's telephone service area.

(b) ACQUISITIONS BY CABLE OPERATORS.—No cable operator or affiliate of a cable operator that is owned by, operated by, controlled by, or under common ownership with such cable operator may purchase or otherwise acquire, directly or indirectly, more than a 10 percent financial interest, or any management interest, in any local exchange carrier providing telephone exchange service within such cable operator's franchise area.

(c) JOINT VENTURES.—A local exchange carrier and a cable operator whose telephone service area and cable franchise area, respectively, are in the same market may not enter into any joint venture or partnership to provide video programming directly to subscribers or to provide telecommunications services within such market.

(d) EXCEPTIONS.—

(1) RURAL SYSTEMS.—Notwithstanding subsections (a), (b), and (c) of this section, a local exchange carrier (with respect to a cable system located in its telephone service area) and a

cable operator (with respect to the facilities of a local exchange carrier used to provide telephone exchange service in its cable franchise area) may obtain a controlling interest in, management interest in, or enter into a joint venture or partnership with the operator of such system or facilities for the use of such system or facilities to the extent that—

(A) such system or facilities only serve incorporated or unincorporated—

(i) places or territories that have fewer than 35,000 inhabitants; and

(ii) are outside an urbanized area, as defined by the Bureau of the Census; and

(B) in the case of a local exchange carrier, such system, in the aggregate with any other system in which such carrier has an interest, serves less than 10 percent of the households in the telephone service area of such carrier.

(2) JOINT USE.—Notwithstanding subsection (c), a local exchange carrier may obtain, with the concurrence of the cable operator on the rates, terms, and conditions, the use of that part of the transmission facilities of a cable system extending from the last multi-user terminal to the premises of the end user, if such use is reasonably limited in scope and duration, as determined by the Commission.

(3) ACQUISITIONS IN COMPETITIVE MARKETS.—Notwithstanding subsections (a) and (c), a local exchange carrier may obtain a controlling interest in, or form a joint venture or other partnership with, or provide financing to, a cable system (hereinafter in this paragraph referred to as “the subject cable system”), if—

(A) the subject cable system operates in a television market that is not in the top 25 markets, and such market has more than 1 cable system operator, and the subject cable system is not the cable system with the most subscribers in such television market;

(B) the subject cable system and the cable system with the most subscribers in such television market held on May 1, 1995, cable television franchises from the largest municipality in the television market and the boundaries of such franchises were identical on such date;

(C) the subject cable system is not owned by or under common ownership or control of any one of the 50 cable system operators with the most subscribers as such operators existed on May 1, 1995; and

(D) the system with the most subscribers in the television market is owned by or under common ownership or control of any one of the 10 largest cable system operators as such operators existed on May 1, 1995.

(4) EXEMPT CABLE SYSTEMS.—Subsection (a) does not apply to any cable system if—

(A) the cable system serves no more than 17,000 cable subscribers, of which no less than 8,000 live within an urban area, and no less than 6,000 live within a nonurbanized area as of June 1, 1995;

(B) the cable system is not owned by, or under common ownership or control with, any of the 50 largest cable system operators in existence on June 1, 1995; and

(C) the cable system operates in a television market that was not in the top 100 television markets as of June 1, 1995.

(5) SMALL CABLE SYSTEMS IN NONURBAN AREAS.—Notwithstanding subsections (a) and (c), a local exchange carrier with less than \$100,000,000 in annual operating revenues (or any affiliate of such carrier owned by, operated by, controlled by, or under common control with such carrier) may purchase or otherwise acquire more than a 10 percent financial interest in, or any management interest in, or enter into a joint venture or partnership with, any cable system within the local exchange carrier's telephone service area that serves no more than 20,000 cable subscribers, if no more than 12,000 of those subscribers live within an urbanized area, as defined by the Bureau of the Census.

(6) WAIVERS.—The Commission may waive the restrictions of subsections<sup>1</sup> (a), (b), or (c) only if—

(A) the Commission determines that, because of the nature of the market served by the affected cable system or facilities used to provide telephone exchange service—

(i) the affected cable operator or local exchange carrier would be subjected to undue economic distress by the enforcement of such provisions;

(ii) the system or facilities would not be economically viable if such provisions were enforced; or

(iii) the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served; and

(B) the local franchising authority approves of such waiver.

(e) DEFINITION OF TELEPHONE SERVICE AREA.—For purposes of this section, the term “telephone service area” when used in connection with a common carrier subject in whole or in part to title II of this Act means the area within which such carrier provided telephone exchange service as of January 1, 1993, but if any common carrier after such date transfers its telephone exchange service facilities to another common carrier, the area to which such facilities provide telephone exchange service shall be treated as part of the telephone service area of the acquiring common carrier and not of the selling common carrier.

**SEC. 653. [47 U.S.C. 573] ESTABLISHMENT OF OPEN VIDEO SYSTEMS.**

(a) OPEN VIDEO SYSTEMS.—

(1) CERTIFICATES OF COMPLIANCE.—A local exchange carrier may provide cable service to its cable service subscribers in its telephone service area through an open video system that complies with this section. To the extent permitted by such regulations as the Commission may prescribe consistent with the public interest, convenience, and necessity, an oper-

<sup>1</sup> So in law. Probably should be “subsection”.

ator of a cable system or any other person may provide video programming through an open video system that complies with this section. An operator of an open video system shall qualify for reduced regulatory burdens under subsection (c) of this section if the operator of such system certifies to the Commission that such carrier complies with the Commission's regulations under subsection (b) and the Commission approves such certification. The Commission shall publish notice of the receipt of any such certification and shall act to approve or disapprove any such certification within 10 days after receipt of such certification.

(2) DISPUTE RESOLUTION.—The Commission shall have the authority to resolve disputes under this section and the regulations prescribed thereunder. Any such dispute shall be resolved within 180 days after notice of such dispute is submitted to the Commission. At that time or subsequently in a separate damages proceeding, the Commission may, in the case of any violation of this section, require carriage, award damages to any person denied carriage, or any combination of such sanctions. Any aggrieved party may seek any other remedy available under this Act.

(b) COMMISSION ACTIONS.—

(1) REGULATIONS REQUIRED.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete all actions necessary (including any reconsideration) to prescribe regulations that—

(A) except as required pursuant to section 611, 614, or 615, prohibit an operator of an open video system from discriminating among video programming providers with regard to carriage on its open video system, and ensure that the rates, terms, and conditions for such carriage are just and reasonable, and are not unjustly or unreasonably discriminatory;

(B) if demand exceeds the channel capacity of the open video system, prohibit an operator of an open video system and its affiliates from selecting the video programming services for carriage on more than one-third of the activated channel capacity on such system, but nothing in this subparagraph shall be construed to limit the number of channels that the carrier and its affiliates may offer to provide directly to subscribers;

(C) permit an operator of an open video system to carry on only one channel any video programming service that is offered by more than one video programming provider (including the local exchange carrier's video programming affiliate): *Provided*, That subscribers have ready and immediate access to any such video programming service;

(D) extend to the distribution of video programming over open video systems the Commission's regulations concerning sports exclusivity (47 C.F.R. 76.67), network non-duplication (47 C.F.R. 76.92 et seq.), and syndicated exclusivity (47 C.F.R. 76.151 et seq.); and

(E)(i) prohibit an operator of an open video system from unreasonably discriminating in favor of the operator or its affiliates with regard to material or information (in-

cluding advertising) provided by the operator to subscribers for the purposes of selecting programming on the open video system, or in the way such material or information is presented to subscribers;

(ii) require an operator of an open video system to ensure that video programming providers or copyright holders (or both) are able suitably and uniquely to identify their programming services to subscribers;

(iii) if such identification is transmitted as part of the programming signal, require the carrier to transmit such identification without change or alteration; and

(iv) prohibit an operator of an open video system from omitting television broadcast stations or other unaffiliated video programming services carried on such system from any navigational device, guide, or menu.

(2) CONSUMER ACCESS.—Subject to the requirements of paragraph (1) and the regulations thereunder, nothing in this section prohibits a common carrier or its affiliate from negotiating mutually agreeable terms and conditions with over-the-air broadcast stations and other unaffiliated video programming providers to allow consumer access to their signals on any level or screen of any gateway, menu, or other program guide, whether provided by the carrier or its affiliate.

(c) REDUCED REGULATORY BURDENS FOR OPEN VIDEO SYSTEMS.—

(1) IN GENERAL.—Any provision that applies to a cable operator under—

(A) sections 613 (other than subsection (a) thereof), 616, 623(f), 628, 631, and 634 of this title, shall apply,

(B) sections 611, 614, and 615 of this title, and section 325 of title III, shall apply in accordance with the regulations prescribed under paragraph (2), and

(C) sections 612 and 617, and parts III and IV (other than sections 623(f), 628, 631, and 634), of this title shall not apply,

to any operator of an open video system for which the Commission has approved a certification under this section.

(2) IMPLEMENTATION.—

(A) COMMISSION ACTION.—In the rulemaking proceeding to prescribe the regulations required by subsection (b)(1), the Commission shall, to the extent possible, impose obligations that are no greater or lesser than the obligations contained in the provisions described in paragraph (1)(B) of this subsection. The Commission shall complete all action (including any reconsideration) to prescribe such regulations no later than 6 months after the date of enactment of the Telecommunications Act of 1996.

(B) FEES.—An operator of an open video system under this part may be subject to the payment of fees on the gross revenues of the operator for the provision of cable service imposed by a local franchising authority or other governmental entity, in lieu of the franchise fees permitted under section 622. The rate at which such fees are imposed shall not exceed the rate at which franchise fees are imposed on any cable operator transmitting video pro-

gramming in the franchise area, as determined in accordance with regulations prescribed by the Commission. An operator of an open video system may designate that portion of a subscriber's bill attributable to the fee under this subparagraph as a separate item on the bill.

(3) REGULATORY STREAMLINING.—With respect to the establishment and operation of an open video system, the requirements of this section shall apply in lieu of, and not in addition to, the requirements of title II.

(4) TREATMENT AS CABLE OPERATOR.—Nothing in this Act precludes a video programming provider making use of an open video system from being treated as an operator of a cable system for purposes of section 111 of title 17, United States Code.

(d) DEFINITION OF TELEPHONE SERVICE AREA.—For purposes of this section, the term “telephone service area” when used in connection with a common carrier subject in whole or in part to title II of this Act means the area within which such carrier is offering telephone exchange service.

## TITLE VII—MISCELLANEOUS PROVISIONS

### SEC. 701. [47 U.S.C. 601] TRANSFER TO COMMISSION OF DUTIES, POWERS, AND FUNCTIONS UNDER EXISTING LAW.

(a) All duties, powers, and functions of the Interstate Commerce Commission under the Act of August 7, 1888 (25 Stat. 382), relating to operation of telegraph lines by railroad and telegraph companies granted Government aid in the construction of their lines, are hereby imposed upon and vested in the Commission: *Provided*, That such transfer of duties, powers, and functions shall not be construed to affect the duties, powers, functions, or jurisdiction of the Interstate Commerce Commission under, or to interfere with or prevent the enforcement of, the Interstate Commerce Act and all Acts amendatory thereof or supplemental thereto.

(b) All duties, powers, and functions of the Postmaster General with respect to telegraph companies and telegraph lines under any existing provision of law are hereby imposed upon and vested in the Commission.

【Section 702 was repealed by Public Law 103–414, section 304(a)(13), 108 Stat. 4296–7.】

【Section 703 was repealed by Public Law 103–414, section 304(a)(13), 108 Stat. 4296–7.】

### SEC. 704. [47 U.S.C. 604] EFFECT OF TRANSFERS, REPEALS, AND AMENDMENTS.

(a) All orders, determinations, rules, regulations, permits, contracts, licenses, and privileges which have been issued, made, or granted by the Interstate Commerce Commission, the Federal Radio Commission, or the Postmaster General, under any provision of law repealed or amended by this Act or in the exercise of duties, powers, or functions transferred to the Commission by this Act, and which are in effect at the time this section takes effect, shall

continue in effect until modified, terminated, superseded, or repealed by the Commission or by operation of law.

(b) All records transferred to the Commission under this Act shall be available for use by the Commission to the same extent as if such records were originally records of the Commission. All final valuations and determinations of depreciation charges by the Interstate Commerce Commission with respect to common carriers engaged in radio or wire communication, and all orders of the Interstate Commerce Commission with respect to such valuations and determinations, shall have the same force and effect as though made by the Commission under this Act.

**SEC. 705. [47 U.S.C. 605] UNAUTHORIZED PUBLICATION OF COMMUNICATIONS.**

(a) Except as authorized by chapter 119, title 18, United States Code,<sup>1</sup> no person receiving, assisting in receiving, transmitting, or assisting in transmitting, any interstate or foreign communication by wire or radio shall divulge or publish the existence, contents, substance, purport, effect, or meaning thereof, except through authorized channels of transmission or reception, (1) to any person other than the addressee, his agent, or attorney, (2) to a person employed or authorized to forward such communication to its destination, (3) to proper accounting or distributing officers of the various communicating centers over which the communication may be passed, (4) to the master of a ship under whom he is serving, (5) in response to a subpoena issued by a court of competent jurisdiction, or (6) on demand of other lawful authority. No person not being authorized by the sender shall intercept any radio communication and divulge or publish the existence, contents, substance, purport, effect, or meaning of such intercepted communication to any person. No person not being entitled thereto shall receive or assist in receiving any interstate or foreign communication by radio and use such communication (or any information therein contained) for his own benefit or for the benefit of another not entitled thereto. No person having received any intercepted radio communication or having become acquainted with the contents, substance, purport, effect, or meaning of such communication (or any part thereof) knowing that such communication was intercepted, shall divulge or publish the existence, contents, substance, purport, effect, or meaning of such communication (or any part thereof) or use such communication (or any information therein contained) for his own benefit or for the benefit of another not entitled thereto. This section shall not apply to the receiving, divulging, publishing, or utilizing the contents of any radio communication which is transmitted by any station for the use of the general public, which relates to ships, aircraft, vehicles, or persons in distress, or which is transmitted by an amateur radio station operator or by a citizens band radio operator.

(b) The provisions of subsection (a) shall not apply to the interception or receipt by any individual, or the assisting (including the manufacture or sale) of such interception or receipt, of any satellite cable programming for private viewing if—

<sup>1</sup> 18 U.S.C. § 2511(2) authorizes certain interception of communications by communications common carriers and by the Federal Communications Commission. Also, electronic surveillance for foreign intelligence purposes is addressed in Pub. Law No. 95-511, 92 Stat. 1783 (see §§ 102(a)(4) and 105(f)(2)(C)), Oct. 25, 1978.

(1) the programming involved is not encrypted; and  
(2)(A) a marketing system is not established under which—

(i) an agent or agents have been lawfully designated for the purpose of authorizing private viewing by individuals, and

(ii) such authorization is available to the individual involved from the appropriate agent or agents; or

(B) a marketing system described in subparagraph (A) is established and the individuals receiving such programming has obtained authorization for private viewing under that system.

(c)<sup>1</sup> No person shall encrypt or continue to encrypt satellite delivered programs included in the National Program Service of the Public Broadcasting Service and intended for public viewing by retransmission by television broadcast stations; except that as long as at least one unencrypted satellite transmission of any program subject to this subsection is provided, this subsection shall not prohibit additional encrypted satellite transmissions of the same program.

(d) For purposes of this section—

(1) the term “satellite cable programming” means video programming which is transmitted via satellite and which is primarily intended for the direct receipt by cable operators for their retransmission to cable subscribers;

(2) the term “agent,” with respect to any person, includes an employee of such person;

(3) the term “encrypt,” when used with respect to satellite cable programming, means to transmit such programming in a form whereby the aural and visual characteristics (or both) are modified or altered for the purpose of preventing the unauthorized receipt of such programming by persons without authorized equipment which is designed to eliminate the effects of such modification or alteration;

(4) the term “private viewing” means the viewing for private use in an individual’s dwelling unit by means of equipment, owned or operated by such individual, capable of receiving satellite cable programming directly from a satellite;

(5) the term “private financial gain” shall not include the gain resulting to any individual for the private use of such individual’s dwelling unit of any programming for which the individual has not obtained authorization for that use; and

(6) the term “any person aggrieved” shall include any person with proprietary rights in the intercepted communication by wire or radio, including wholesale or retail distributors of satellite cable programming, and, in the case of a violation of paragraph (4) of subsection (e), shall also include any person engaged in the lawful manufacture, distribution, or sale of

<sup>1</sup> Subsection (c) of section 705 (formerly section 605) was added by section 11 of Public Law 100-626 (the Public Telecommunications Act of 1988). Section 11 of that public law also redesignated the following subsections as subsections (d) through (f). However, this redesignation was not reflected in the amendments to those subsections contained in sections 204 and 205 of Public Law 100-667 (the Satellite Home Viewer Act of 1988). This compilation executes those amendments to the redesignated subsections.

equipment necessary to authorize or receive satellite cable programming.

(e)(1) Any person who willfully violates subsection (a) shall be fined not more than \$2,000 or imprisoned for not more than 6 months, or both.

(2) Any person who violates subsection (a) willfully and for purposes of direct or indirect commercial advantage or private financial gain shall be fined not more than \$50,000 or imprisoned for not more than 2 years, or both, for the first such conviction and shall be fined not more than \$100,000 or imprisoned for not more than 5 years, or both, for any subsequent conviction.

(3)(A) Any person aggrieved by any violation of subsection (a) or paragraph (4) of this subsection may bring a civil action in a United States district court or in any other court of competent jurisdiction.

(B) The court—

(i) may grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain violations of subsection (a);

(ii) may award damages as described in subparagraph (C); and

(iii) shall direct the recovery of full costs, including awarding reasonable attorneys' fees to an aggrieved party who prevails.

(C)(i) Damages awarded by any court under this section shall be computed, at the election of the aggrieved party, in accordance with either of the following subclauses;

(I) the party aggrieved may recover the actual damages suffered by him as a result of the violation and any profits of the violator that are attributable to the violation which are not taken into account in computing the actual damages; in determining the violator's profits, the party aggrieved shall be required to prove only the violator's gross revenue, and the violator shall be required to prove his deductible expenses and the elements of profit attributable to factors other than the violation; or

(II) the party aggrieved may recover an award of statutory damages for each violation of subsection (a) involved in the action in a sum of not less than \$1,000 or more than \$10,000, as the court considers just, and for each violation of paragraph (4) of this subsection involved in the action an aggrieved party may recover statutory damages in a sum not less than \$10,000, or more than \$100,000, as the court considers just.

(ii) In any case in which the court finds that the violation was committed willfully and for purposes of direct or indirect commercial advantage or private financial gain, the court in its discretion may increase the award of damages, whether actual or statutory, by an amount of not more than \$100,000 for each violation of subsection (a).

(iii) In any case where the court finds that the violator was not aware and had no reason to believe that his acts constituted a violation of this section, the court in its discretion may reduce the award of damages to a sum of not less than \$250.

(4) Any person who manufactures, assembles, modifies, imports, exports, sells, or distributes any electronic, mechanical, or

other device or equipment, knowing or having reason to know that the device or equipment is primarily of assistance in the unauthorized decryption of satellite cable programming, or direct-to-home satellite services, or is intended for any other activity prohibited by subsection (a), shall be fined not more than \$500,000 for each violation, or imprisoned for not more than 5 years for each violation, or both. For purposes of all penalties and remedies established for violations of this paragraph, the prohibited activity established herein as it applies to each such device shall be deemed a separate violation.

(5) The penalties under this subsection shall be in addition to those prescribed under any other provision of this title.

(6) Nothing in this subsection shall prevent any State, or political subdivision thereof, from enacting or enforcing any laws with respect to the importation, sale, manufacture, or distribution of equipment by any person with the intent of its use to assist in the interception or receipt of radio communications prohibited by subsection (a).

(f) Nothing in this section shall affect any right, obligation, or liability under title 17, United States Code, any rule, regulation, or order thereunder, or any other applicable Federal, State, or local law.

(g) The Commission<sup>1</sup> shall initiate an inquiry concerning the need for a universal encryption standard that permits decryption of satellite cable programming intended for private viewing. In conducting such inquiry, the Commission shall take into account—

(1) consumer costs and benefits of any such standard, including consumer investment in equipment in operation;

(2) incorporation of technological enhancements, including advanced television formats;

(3) whether any such standard would effectively prevent present and future unauthorized decryption of satellite cable programming;

(4) the costs and benefits of any such standard on other authorized users of encrypted satellite cable programming, including cable systems and satellite master antenna television systems;

(5) the effect of any such standard on competition in the manufacture of decryption equipment; and

(6) the impact of the time delay associated with the Commission procedures necessary for establishment of such standards.

(h) If the Commission finds, based on the information gathered from the inquiry required by subsection (g), that a universal encryption standard is necessary and in the public interest, the Commission shall initiate a rulemaking to establish such a standard.

**SEC. 706. [47 U.S.C. 606] WAR EMERGENCY—POWERS OF PRESIDENT.**

(a) During the continuance of a war in which the United States is engaged, the President is authorized, if he finds it necessary for the national defense and security, to direct that such communications as in his judgment may be essential to the national defense

<sup>1</sup> This compilation reflects amendments contained in section 304(a)(15) of the Communications Assistance for Law Enforcement Act (P.L. 103-414).

and security shall have preference or priority with any carrier subject to this Act. He may give these directions at and for such times as he may determine, and may modify, change, suspend, or annul them and for any such purpose he is hereby authorized to issue orders directly, or through such person or persons as he designates for the purpose, or through the Commission. Any carrier complying with any such order or direction or preference or priority herein authorized shall be exempt from any and all provisions in existing law imposing civil or criminal penalties, obligations, or liabilities upon carriers by reason of giving preference or priority in compliance with such order or direction.

(b) It shall be unlawful for any person during any war in which the United States is engaged to knowingly or willfully, by physical force or intimidation by threats of physical force, obstruct or retard or aid in obstructing or retarding interstate or foreign communication by radio or wire. The President is hereby authorized, whenever in his judgment the public interest requires, to employ the armed forces of the United States to prevent any such obstruction or retardation of communication: *Provided*, That nothing in this section shall be construed to repeal, modify, or affect either section 6 or section 20 of the Act entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914.

(c) Upon proclamation by the President that there exists war or a threat of war, or a state of public peril or disaster or other national emergency, or in order to preserve the neutrality of the United States, the President, if he deems it necessary in the interest of national security or defense, may suspend or amend, for such time as he may see fit, the rules and regulations applicable to any or all stations or devices capable of emitting electromagnetic radiations within the jurisdiction of the United States as prescribed by the Commission, and may cause the closing of any station for radio communication, or any device capable of emitting electromagnetic radiations between 10 kilocycles and 100,000 megacycles, which is suitable for use as a navigational aid beyond five miles, and the removal therefrom of its apparatus and equipment, or he may authorize the use or control of any such station or device and/or its apparatus and equipment, by any department of the Government under such regulations as he may prescribe upon just compensation to the owners. The authority granted to the President, under this subsection, to cause the closing of any station or device and the removal therefrom of its apparatus and equipment, or to authorize the use or control of any station or device and/or its apparatus and equipment, may be exercised in the Canal Zone.

(d) Upon proclamation by the President that there exists a state or threat of war involving the United States, the President, if he deems it necessary in the interest of the national security and defense, may, during a period ending not later than six months after the termination of such state or threat of war and not later than such earlier date as the Congress by concurrent resolution may designate, (1) suspend or amend the rules and regulations applicable to any or all facilities or stations for wire communication within the jurisdiction of the United States as prescribed by the Commission, (2) cause the closing of any facility or station for wire communication and the removal therefrom of its apparatus and

equipment, or (3) authorize the use or control of any such facility or station and its apparatus and equipment by any department of the Government under such regulations as he may prescribe, upon just compensation to the owners.

(e) The President shall ascertain the just compensation for such use or control and certify the amount ascertained to Congress for appropriation and payment to the person entitled thereto. If the amount so certified is unsatisfactory to the person entitled thereto, such person shall be paid only 75 per centum of the amount and shall be entitled to sue the United States to recover such further sums as added to such payment of 75 per centum will make such amount as will be just compensation for the use and control. Such suit shall be brought in the manner provided by paragraph 20 of section 24, or by section 145, of the Judicial Code, as amended.

(f) Nothing in subsection (c) or (d) shall be construed to amend, repeal, impair, or effect existing laws or powers of the States in relation to taxation or the lawful police regulations of the several States, except wherein such laws, powers, or regulations may affect the transmission of Government communications, or the issue of stocks and bonds by any communication system or systems.

(g) Nothing in subsection (c) or (d) shall be construed to authorize the President to make any amendment to the rules and regulations of the Commission which the Commission would not be authorized by law to make; and nothing in subsection (d) shall be construed to authorize the President to take any action the force and effect of which shall continue beyond the date after which taking of such action would not have been authorized.

(h) Any person who willfully does or causes or suffers to be done any act prohibited pursuant to the exercise of the President's authority under this section, or who willfully fails to do any act which he is required to do pursuant to the exercise of the President's authority under this section, or who willfully causes or suffers such failure, shall, upon conviction thereof, be punished for such offense by a fine of not more than \$1,000 or by imprisonment for not more than one year, or both, and, if a firm, partnership, association, or corporation, by fine of not more than \$5,000, except that any person who commits such an offense with intent to injure the United States, or with intent to secure an advantage to any foreign nation, shall, upon conviction thereof, be punished by a fine of not more than \$20,000 or by imprisonment for not more than 20 years, or both.

**SEC. 707. [47 U.S.C. 607] EFFECTIVE DATE OF ACT.**

This Act shall take effect upon the organization of the Commission, except that this section and sections 1 and 4 shall take effect July 1, 1934. The Commission shall be deemed to be organized upon such date as four members of the Commission have taken office.

**SEC. 708. [47 U.S.C. 608] SEPARABILITY CLAUSE.**

If any provision of this Act or the application thereof to any person or circumstance is held invalid, the remainder of the Act and the application of such provision to other persons or circumstances shall not be affected thereby.

**SEC. 709. [47 U.S.C. 609] SHORT TITLE.**

This Act may be cited as the "Communications Act of 1934."

**SEC. 710. [47 U.S.C. 610] TELEPHONE SERVICE FOR THE DISABLED.**

(a) The Commission shall establish such regulations as are necessary to ensure reasonable access to telephone service by persons with impaired hearing.

(b)(1)<sup>1</sup> Except as provided in paragraphs (2) and (3), the Commission shall require that—

(A) all essential telephones, and

(B) all telephones manufactured in the United States (other than for export) more than one year after the date of enactment of the Hearing Aid Compatibility Act of 1988 or imported for use in the United States more than one year after such date,

provide internal means for effective use with hearing aids that are designed to be compatible with telephones which meet established technical standards for hearing aid compatibility.

(2)(A) The initial regulations prescribed by the Commission under paragraph (1) of this subsection after the date of enactment of the Hearing Aid Compatibility Act of 1988 shall exempt from the requirements established pursuant to paragraph (1)(B) of this subsection only—

(i) telephones used with public mobile services;

(ii) telephones used with private radio services;

(iii) cordless telephones; and

(iv) secure telephones.

(B) The exemption provided by such regulations for cordless telephones shall not apply with respect to cordless telephones manufactured or imported more than three years after the date of enactment of the Hearing Aid Compatibility Act of 1988.

(C) The Commission shall periodically assess the appropriateness of continuing in effect the exemptions provided by such regulations for telephones used with public mobile services and telephones used with private radio services. The Commission shall revoke or otherwise limit any such exemption if the Commission determines that—

(i) such revocation or limitation is in the public interest;

(ii) continuation of the exemption without such revocation or limitation would have an adverse effect on hearing-impaired individuals;

(iii) compliance with the requirements of paragraph (1)(B) is technologically feasible for the telephones to which the exemption applies; and

(iv) compliance with the requirements of paragraph (1)(B) would not increase costs to such an extent that the telephones

<sup>1</sup>Subsection 710(b) was revised to read as above by section 3 of Public Law 100-394, the "Hearing Aid Compatibility Act of 1988," 102 Stat. 976, Aug. 16, 1988. Section 2 of Public Law 100-394 contained the following findings with respect to these amendments:

## FINDINGS

SEC. 2. [47 U.S.C. 610 note] The Congress finds that—

(1) to the fullest extent made possible by technology and medical science, hearing-impaired persons should have equal access to the national telecommunications network;

(2) present technology provides effective coupling of telephones to hearing aids used by some severely hearing-impaired persons for communicating by voice telephone;

(3) anticipated improvements in both telephone and hearing aid technologies promise greater access in the future; and

(4) universal telephone service for hearing-impaired persons will lead to greater employment opportunities and increased productivity.

to which the exemption applies could not be successfully marketed.

(3) The Commission may, upon the application of any interested person, initiate a proceeding to waive the requirements of paragraph (1)(B) of this subsection with respect to new telephones, or telephones associated with a new technology or service. The Commission shall not grant such a waiver unless the Commission determines, on the basis of evidence in the record of such proceeding, that such telephones, or such technology or service, are in the public interest, and that (A) compliance with the requirements of paragraph (1)(B) is technologically infeasible, or (B) compliance with such requirements would increase the costs of the telephones, or of the technology or service, to such an extent that such telephones, technology, or service could not be successfully marketed. In any proceeding under this paragraph to grant a waiver from the requirements of paragraph (1)(B), the Commission shall consider the effect on hearing-impaired individuals of granting the waiver. The Commission shall periodically review and determine the continuing need for any waiver granted pursuant to this paragraph.

(4) For purposes of this subsection—

(A) the term “essential telephones” means only coin-operated telephones, telephones provided for emergency use, and other telephones frequently needed for use by persons using such hearing aids;

(B) the term “public mobile services” means air-to-ground radiotelephone services, cellular radio telecommunications services, offshore radio, rural radio service, public land mobile telephone service, and other common carrier radio communication services covered by part 22 of title 47 of the Code of Federal Regulations;

(C) the term “private radio services” means private land mobile radio services and other communications services characterized by the Commission in its rules as private radio services; and

(D) the term “secure telephones” means telephones that are approved by the United States Government for the transmission of classified or sensitive voice communications.

(c) The Commission shall establish or approve such technical standards as are required to enforce this section.

(d) The Commission shall establish such requirements for the labeling of packaging materials for equipment as are needed to provide adequate information to consumers on the compatibility between telephones and hearing aids.

(e) In any rulemaking to implement the provisions of this section, the Commission shall specifically consider the costs and benefits to all telephone users, including persons with and without hearing impairments. The Commission shall ensure that regulations adopted to implement this section encourage the use of currently available technology and do not discourage or impair the development of improved technology.

(f) The Commission shall periodically review the regulations established pursuant to this section. Except for coin-operated telephones and telephones provided for emergency use, the Commission may not require the retrofitting of equipment to achieve the purposes of this section.

(g) Any common carrier or connecting carrier may provide specialized terminal equipment needed by persons whose hearing, speech, vision, or mobility is impaired. The State commission may allow the carrier to recover in its tariffs for regulated service reasonable and prudent costs not charged directly to users of such equipment.

(h) The Commission shall delegate to each State commission the authority to enforce within such State compliance with the specific regulations that the Commission issues under subsections (a) and (b), conditioned upon the adoption and enforcement of such regulations by the State commission.<sup>1</sup>

**SEC. 711. [47 U.S.C. 611] CLOSED-CAPTIONING OF PUBLIC SERVICE ANNOUNCEMENTS.**

Any television public service announcement that is produced or funded in whole or in part by any agency or instrumentality of Federal Government shall include closed captioning of the verbal content of such announcement. A television broadcast station licensee—

(1) shall not be required to supply closed captioning for any such announcement that fails to include it; and

(2) shall not be liable for broadcasting any such announcement without transmitting a closed caption unless the licensee intentionally fails to transmit the closed caption that was included with the announcement.

**SEC. 712. [47 U.S.C. 612] SYNDICATED EXCLUSIVITY.**

(a) The Federal Communications Commission shall initiate a combined inquiry and rulemaking proceeding for the purpose of—

(1) determining the feasibility of imposing syndicated exclusivity rules with respect to the delivery of syndicated programming (as defined by the Commission) for private home viewing of secondary transmissions by satellite of broadcast station signals similar to the rules issued by the Commission with respect to syndicated exclusivity and cable television; and

(2) adopting such rules if the Commission considers the imposition of such rules to be feasible.

(b) In the event that the Commission adopts such rules, any willful and repeated secondary transmission made by a satellite carrier to the public of a primary transmission embodying the performance or display of a work which violates such Commission rules shall be subject to the remedies, sanctions, and penalties provided by title V and section 705 of this Act.<sup>2</sup>

<sup>1</sup>Section 710 (formerly section 610) was added by Public Law 97-410, 96 Stat. 2043, approved Jan. 3, 1983. Section 2 (47 U.S.C. 610 note) of the statute stated:

The Congress finds that—

(1) all persons should have available the best telephone service which is technologically and economically feasible;

(2) currently available technology is capable of providing telephone service to some individuals who, because of hearing impairments, require telephone reception by means of hearing aids with induction coils, or other inductive receptors;

(3) the lack of technical standards ensuring compatibility between hearing aids and telephones has prevented receipt of the best telephone service which is technologically and economically feasible; and

(4) adoption of technical standards is required in order to ensure compatibility between telephones and hearing aids, thereby accommodating the needs of individuals with hearing impairments.

<sup>2</sup>This section was added by Public Law 100-667, 102 Stat. 3949, Nov. 16, 1988, and, pursuant to section 207 of that Act, ceased to be effective on December 31, 1994.

**SEC. 713. [47 U.S.C. 613] VIDEO PROGRAMMING ACCESSIBILITY.**

(a) **COMMISSION INQUIRY.**—Within 180 days after the date of enactment of the Telecommunications Act of 1996, the Federal Communications Commission shall complete an inquiry to ascertain the level at which video programming is closed captioned. Such inquiry shall examine the extent to which existing or previously published programming is closed captioned, the size of the video programming provider or programming owner providing closed captioning, the size of the market served, the relative audience shares achieved, or any other related factors. The Commission shall submit to the Congress a report on the results of such inquiry.

(b) **ACCOUNTABILITY CRITERIA.**—Within 18 months after such date of enactment, the Commission shall prescribe such regulations as are necessary to implement this section. Such regulations shall ensure that—

(1) video programming first published or exhibited after the effective date of such regulations is fully accessible through the provision of closed captions, except as provided in subsection (d); and

(2) video programming providers or owners maximize the accessibility of video programming first published or exhibited prior to the effective date of such regulations through the provision of closed captions, except as provided in subsection (d).

(c) **DEADLINES FOR CAPTIONING.**—Such regulations shall include an appropriate schedule of deadlines for the provision of closed captioning of video programming.

(d) **EXEMPTIONS.**—Notwithstanding subsection (b)—

(1) the Commission may exempt by regulation programs, classes of programs, or services for which the Commission has determined that the provision of closed captioning would be economically burdensome to the provider or owner of such programming;

(2) a provider of video programming or the owner of any program carried by the provider shall not be obligated to supply closed captions if such action would be inconsistent with contracts in effect on the date of enactment of the Telecommunications Act of 1996, except that nothing in this section shall be construed to relieve a video programming provider of its obligations to provide services required by Federal law; and

(3) a provider of video programming or program owner may petition the Commission for an exemption from the requirements of this section, and the Commission may grant such petition upon a showing that the requirements contained in this section would result in an undue burden.

(e) **UNDUE BURDEN.**—The term “undue burden” means significant difficulty or expense. In determining whether the closed captions necessary to comply with the requirements of this paragraph would result in an undue economic burden, the factors to be considered include—

(1) the nature and cost of the closed captions for the programming;

(2) the impact on the operation of the provider or program owner;

(3) the financial resources of the provider or program owner; and

(4) the type of operations of the provider or program owner.

(f) VIDEO DESCRIPTIONS INQUIRY.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall commence an inquiry to examine the use of video descriptions on video programming in order to ensure the accessibility of video programming to persons with visual impairments, and report to Congress on its findings. The Commission's report shall assess appropriate methods and schedules for phasing video descriptions into the marketplace, technical and quality standards for video descriptions, a definition of programming for which video descriptions would apply, and other technical and legal issues that the Commission deems appropriate.

(g) VIDEO DESCRIPTION.—For purposes of this section, "video description" means the insertion of audio narrated descriptions of a television program's key visual elements into natural pauses between the program's dialogue.

(h) PRIVATE RIGHTS OF ACTIONS PROHIBITED.—Nothing in this section shall be construed to authorize any private right of action to enforce any requirement of this section or any regulation thereunder. The Commission shall have exclusive jurisdiction with respect to any complaint under this section.

**SEC. 714. [47 U.S.C. 614] TELECOMMUNICATIONS DEVELOPMENT FUND.**

(a) PURPOSE OF SECTION.—It is the purpose of this section—

(1) to promote access to capital for small businesses in order to enhance competition in the telecommunications industry;

(2) to stimulate new technology development, and promote employment and training; and

(3) to support universal service and promote delivery of telecommunications services to underserved rural and urban areas.

(b) ESTABLISHMENT OF FUND.—There is hereby established a body corporate to be known as the Telecommunications Development Fund, which shall have succession until dissolved. The Fund shall maintain its principal office in the District of Columbia and shall be deemed, for purposes of venue and jurisdiction in civil actions, to be a resident and citizen thereof.

(c) BOARD OF DIRECTORS.—

(1) COMPOSITION OF BOARD; CHAIRMAN.—The Fund shall have a Board of Directors which shall consist of 7 persons appointed by the Chairman of the Commission. Four of such directors shall be representative of the private sector and three of such directors shall be representative of the Commission, the Small Business Administration, and the Department of the Treasury, respectively. The Chairman of the Commission shall appoint one of the representatives of the private sector to serve as chairman of the Fund within 30 days after the date of enactment of this section, in order to facilitate rapid creation and implementation of the Fund. The directors shall include members with experience in a number of the following areas: fi-

nance, investment banking, government banking, communications law and administrative practice, and public policy.

(2) TERMS OF APPOINTED AND ELECTED MEMBERS.—The directors shall be eligible to serve for terms of 5 years, except of the initial members, as designated at the time of their appointment—

- (A) 1 shall be eligible to service for a term of 1 year;
- (B) 1 shall be eligible to service for a term of 2 years;
- (C) 1 shall be eligible to service for a term of 3 years;
- (D) 2 shall be eligible to service for a term of 4 years;

and

- (E) 2 shall be eligible to service for a term of 5 years (1 of whom shall be the Chairman).

Directors may continue to serve until their successors have been appointed and have qualified.

(3) MEETINGS AND FUNCTIONS OF THE BOARD.—The Board of Directors shall meet at the call of its Chairman, but at least quarterly. The Board shall determine the general policies which shall govern the operations of the Fund. The Chairman of the Board shall, with the approval of the Board, select, appoint, and compensate qualified persons to fill the offices as may be provided for in the bylaws, with such functions, powers, and duties as may be prescribed by the bylaws or by the Board of Directors, and such persons shall be the officers of the Fund and shall discharge all such functions, powers, and duties.

(d) ACCOUNTS OF THE FUND.—The Fund shall maintain its accounts at a financial institution designated for purposes of this section by the Chairman of the Board (after consultation with the Commission and the Secretary of the Treasury). The accounts of the Fund shall consist of—

- (1) interest transferred pursuant to section 309(j)(8)(C) of this Act;
- (2) such sums as may be appropriated to the Commission for advances to the Fund;
- (3) any contributions or donations to the Fund that are accepted by the Fund; and
- (4) any repayment of, or other payment made with respect to, loans, equity, or other extensions of credit made from the Fund.

(e) USE OF THE FUND.—All moneys deposited into the accounts of the Fund shall be used solely for—

- (1) the making of loans, investments, or other extensions of credits to eligible small businesses in accordance with subsection (f);
  - (2) the provision of financial advice to eligible small businesses;
  - (3) expenses for the administration and management of the Fund (including salaries, expenses, and the rental or purchase of office space for the fund<sup>1</sup>);
  - (4) preparation of research, studies, or financial analyses;
- and

<sup>1</sup> So in law. Probably should be "Fund".

(5) other services consistent with the purposes of this section.

(f) LENDING AND CREDIT OPERATIONS.—Loans or other extensions of credit from the Fund shall be made available in accordance with the requirements of the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.) and any other applicable law to an eligible small business on the basis of—

(1) the analysis of the business plan of the eligible small business;

(2) the reasonable availability of collateral to secure the loan or credit extension;

(3) the extent to which the loan or credit extension promotes the purposes of this section; and

(4) other lending policies as defined by the Board.

(g) RETURN OF ADVANCES.—Any advances appropriated pursuant to subsection (d)(2) shall be disbursed upon such terms and conditions (including conditions relating to the time or times of repayment) as are specified in any appropriations Act providing such advances.

(h) GENERAL CORPORATE POWERS.—The Fund shall have power—

(1) to sue and be sued, complain and defend, in its corporate name and through its own counsel;

(2) to adopt, alter, and use the corporate seal, which shall be judicially noticed;

(3) to adopt, amend, and repeal by its Board of Directors, bylaws, rules, and regulations as may be necessary for the conduct of its business;

(4) to conduct its business, carry on its operations, and have officers and exercise the power granted by this section in any State without regard to any qualification or similar statute in any State;

(5) to lease, purchase, or otherwise acquire, own, hold, improve, use, or otherwise deal in and with any property, real, personal, or mixed, or any interest therein, wherever situated, for the purposes of the Fund;

(6) to accept gifts or donations of services, or of property, real, personal, or mixed, tangible or intangible, in aid of any of the purposes of the Fund;

(7) to sell, convey, mortgage, pledge, lease, exchange, and otherwise dispose of its property and assets;

(8) to appoint such officers, attorneys, employees, and agents as may be required, to determine their qualifications, to define their duties, to fix their salaries, require bonds for them, and fix the penalty thereof; and

(9) to enter into contracts, to execute instruments, to incur liabilities, to make loans and equity investment, and to do all things as are necessary or incidental to the proper management of its affairs and the proper conduct of its business.

(i) ACCOUNTING, AUDITING, AND REPORTING.—The accounts of the Fund shall be audited annually. Such audits shall be conducted in accordance with generally accepted auditing standards by independent certified public accountants. A report of each such audit shall be furnished to the Secretary of the Treasury and the Commission. The representatives of the Secretary and the Commission

shall have access to all books, accounts, financial records, reports, files, and all other papers, things, or property belonging to or in use by the Fund and necessary to facilitate the audit.

(j) REPORT ON AUDITS BY TREASURY.—A report of each such audit for a fiscal year shall be made by the Secretary of the Treasury to the President and to the Congress not later than 6 months following the close of such fiscal year. The report shall set forth the scope of the audit and shall include a statement of assets and liabilities, capital and surplus or deficit; a statement of surplus or deficit analysis; a statement of income and expense; a statement of sources and application of funds; and such comments and information as may be deemed necessary to keep the President and the Congress informed of the operations and financial condition of the Fund, together with such recommendations with respect thereto as the Secretary may deem advisable.

(k) DEFINITIONS.—As used in this section:

(1) ELIGIBLE SMALL BUSINESS.—The term “eligible small business” means business enterprises engaged in the telecommunications industry that have \$50,000,000 or less in annual revenues, on average over the past 3 years prior to submitting the application under this section.

(2) FUND.—The term “Fund” means the Telecommunications Development Fund established pursuant to this section.

(3) TELECOMMUNICATIONS INDUSTRY.—The term “telecommunications industry” means communications businesses using regulated or unregulated facilities or services and includes broadcasting, telecommunications, cable, computer, data transmission, software, programming, advanced messaging, and electronics businesses.

**ELECTRONIC SIGNATURES IN GLOBAL AND NATIONAL  
COMMERCE ACT (ESIGN COMMERCE ACT)**

---

---

## **ELECTRONIC SIGNATURES IN GLOBAL AND NATIONAL COMMERCE ACT**

AN ACT To facilitate the use of electronic records and signatures in interstate or foreign commerce.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### **SECTION 1. [15 U.S.C. 7001 note] SHORT TITLE.**

This Act may be cited as the “Electronic Signatures in Global and National Commerce Act”.

## **TITLE I—ELECTRONIC RECORDS AND SIGNATURES IN COMMERCE**

### **SEC. 101. [15 U.S.C. 7001] GENERAL RULE OF VALIDITY.**

(a) **IN GENERAL.**—Notwithstanding any statute, regulation, or other rule of law (other than this title and title II), with respect to any transaction in or affecting interstate or foreign commerce—

(1) a signature, contract, or other record relating to such transaction may not be denied legal effect, validity, or enforceability solely because it is in electronic form; and

(2) a contract relating to such transaction may not be denied legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation.

(b) **PRESERVATION OF RIGHTS AND OBLIGATIONS.**—This title does not—

(1) limit, alter, or otherwise affect any requirement imposed by a statute, regulation, or rule of law relating to the rights and obligations of persons under such statute, regulation, or rule of law other than a requirement that contracts or other records be written, signed, or in nonelectronic form; or

(2) require any person to agree to use or accept electronic records or electronic signatures, other than a governmental agency with respect to a record other than a contract to which it is a party.

(c) **CONSUMER DISCLOSURES.**—

(1) **CONSENT TO ELECTRONIC RECORDS.**—Notwithstanding subsection (a), if a statute, regulation, or other rule of law requires that information relating to a transaction or transactions in or affecting interstate or foreign commerce be provided or made available to a consumer in writing, the use of an electronic record to provide or make available (whichever is required) such information satisfies the requirement that such information be in writing if—

(A) the consumer has affirmatively consented to such use and has not withdrawn such consent;

(B) the consumer, prior to consenting, is provided with a clear and conspicuous statement—

(i) informing the consumer of (I) any right or option of the consumer to have the record provided or made available on paper or in nonelectronic form, and (II) the right of the consumer to withdraw the consent to have the record provided or made available in an electronic form and of any conditions, consequences (which may include termination of the parties' relationship), or fees in the event of such withdrawal;

(ii) informing the consumer of whether the consent applies (I) only to the particular transaction which gave rise to the obligation to provide the record, or (II) to identified categories of records that may be provided or made available during the course of the parties' relationship;

(iii) describing the procedures the consumer must use to withdraw consent as provided in clause (i) and to update information needed to contact the consumer electronically; and

(iv) informing the consumer (I) how, after the consent, the consumer may, upon request, obtain a paper copy of an electronic record, and (II) whether any fee will be charged for such copy;

(C) the consumer—

(i) prior to consenting, is provided with a statement of the hardware and software requirements for access to and retention of the electronic records; and

(ii) consents electronically, in a manner that reasonably demonstrates that the consumer can access information in the electronic form that will be used to provide the information that is the subject of the consent; and

(D) after the consent of a consumer in accordance with subparagraph (A), if a change in the hardware or software requirements needed to access or retain electronic records creates a material risk that the consumer will not be able to access or retain a subsequent electronic record that was the subject of the consent, the person providing the electronic record—

(i) provides the consumer with a statement of (I) the revised hardware and software requirements for access to and retention of the electronic records, and (II) the right to withdraw consent without the imposition of any fees for such withdrawal and without the imposition of any condition or consequence that was not disclosed under subparagraph (B)(i); and

(ii) again complies with subparagraph (C).

(2) OTHER RIGHTS.—

(A) PRESERVATION OF CONSUMER PROTECTIONS.—Nothing in this title affects the content or timing of any disclosure or other record required to be provided or made avail-

able to any consumer under any statute, regulation, or other rule of law.

(B) VERIFICATION OR ACKNOWLEDGMENT.—If a law that was enacted prior to this Act expressly requires a record to be provided or made available by a specified method that requires verification or acknowledgment of receipt, the record may be provided or made available electronically only if the method used provides verification or acknowledgment of receipt (whichever is required).

(3) EFFECT OF FAILURE TO OBTAIN ELECTRONIC CONSENT OR CONFIRMATION OF CONSENT.—The legal effectiveness, validity, or enforceability of any contract executed by a consumer shall not be denied solely because of the failure to obtain electronic consent or confirmation of consent by that consumer in accordance with paragraph (1)(C)(ii).

(4) PROSPECTIVE EFFECT.—Withdrawal of consent by a consumer shall not affect the legal effectiveness, validity, or enforceability of electronic records provided or made available to that consumer in accordance with paragraph (1) prior to implementation of the consumer's withdrawal of consent. A consumer's withdrawal of consent shall be effective within a reasonable period of time after receipt of the withdrawal by the provider of the record. Failure to comply with paragraph (1)(D) may, at the election of the consumer, be treated as a withdrawal of consent for purposes of this paragraph.

(5) PRIOR CONSENT.—This subsection does not apply to any records that are provided or made available to a consumer who has consented prior to the effective date of this title to receive such records in electronic form as permitted by any statute, regulation, or other rule of law.

(6) ORAL COMMUNICATIONS.—An oral communication or a recording of an oral communication shall not qualify as an electronic record for purposes of this subsection except as otherwise provided under applicable law.

(d) RETENTION OF CONTRACTS AND RECORDS.—

(1) ACCURACY AND ACCESSIBILITY.—If a statute, regulation, or other rule of law requires that a contract or other record relating to a transaction in or affecting interstate or foreign commerce be retained, that requirement is met by retaining an electronic record of the information in the contract or other record that—

(A) accurately reflects the information set forth in the contract or other record; and

(B) remains accessible to all persons who are entitled to access by statute, regulation, or rule of law, for the period required by such statute, regulation, or rule of law, in a form that is capable of being accurately reproduced for later reference, whether by transmission, printing, or otherwise.

(2) EXCEPTION.—A requirement to retain a contract or other record in accordance with paragraph (1) does not apply to any information whose sole purpose is to enable the contract or other record to be sent, communicated, or received.

(3) ORIGINALS.—If a statute, regulation, or other rule of law requires a contract or other record relating to a transaction

in or affecting interstate or foreign commerce to be provided, available, or retained in its original form, or provides consequences if the contract or other record is not provided, available, or retained in its original form, that statute, regulation, or rule of law is satisfied by an electronic record that complies with paragraph (1).

(4) CHECKS.—If a statute, regulation, or other rule of law requires the retention of a check, that requirement is satisfied by retention of an electronic record of the information on the front and back of the check in accordance with paragraph (1).

(e) ACCURACY AND ABILITY TO RETAIN CONTRACTS AND OTHER RECORDS.—Notwithstanding subsection (a), if a statute, regulation, or other rule of law requires that a contract or other record relating to a transaction in or affecting interstate or foreign commerce be in writing, the legal effect, validity, or enforceability of an electronic record of such contract or other record may be denied if such electronic record is not in a form that is capable of being retained and accurately reproduced for later reference by all parties or persons who are entitled to retain the contract or other record.

(f) PROXIMITY.—Nothing in this title affects the proximity required by any statute, regulation, or other rule of law with respect to any warning, notice, disclosure, or other record required to be posted, displayed, or publicly affixed.

(g) NOTARIZATION AND ACKNOWLEDGMENT.—If a statute, regulation, or other rule of law requires a signature or record relating to a transaction in or affecting interstate or foreign commerce to be notarized, acknowledged, verified, or made under oath, that requirement is satisfied if the electronic signature of the person authorized to perform those acts, together with all other information required to be included by other applicable statute, regulation, or rule of law, is attached to or logically associated with the signature or record.

(h) ELECTRONIC AGENTS.—A contract or other record relating to a transaction in or affecting interstate or foreign commerce may not be denied legal effect, validity, or enforceability solely because its formation, creation, or delivery involved the action of one or more electronic agents so long as the action of any such electronic agent is legally attributable to the person to be bound.

(i) INSURANCE.—It is the specific intent of the Congress that this title and title II apply to the business of insurance.

(j) INSURANCE AGENTS AND BROKERS.—An insurance agent or broker acting under the direction of a party that enters into a contract by means of an electronic record or electronic signature may not be held liable for any deficiency in the electronic procedures agreed to by the parties under that contract if—

(1) the agent or broker has not engaged in negligent, reckless, or intentional tortious conduct;

(2) the agent or broker was not involved in the development or establishment of such electronic procedures; and

(3) the agent or broker did not deviate from such procedures.

**SEC. 102. [15 U.S.C. 7002] EXEMPTION TO PREEMPTION.**

(a) IN GENERAL.—A State statute, regulation, or other rule of law may modify, limit, or supersede the provisions of section 101

with respect to State law only if such statute, regulation, or rule of law—

(1) constitutes an enactment or adoption of the Uniform Electronic Transactions Act as approved and recommended for enactment in all the States by the National Conference of Commissioners on Uniform State Laws in 1999, except that any exception to the scope of such Act enacted by a State under section 3(b)(4) of such Act shall be preempted to the extent such exception is inconsistent with this title or title II, or would not be permitted under paragraph (2)(A)(ii) of this subsection; or

(2)(A) specifies the alternative procedures or requirements for the use or acceptance (or both) of electronic records or electronic signatures to establish the legal effect, validity, or enforceability of contracts or other records, if—

(i) such alternative procedures or requirements are consistent with this title and title II; and

(ii) such alternative procedures or requirements do not require, or accord greater legal status or effect to, the implementation or application of a specific technology or technical specification for performing the functions of creating, storing, generating, receiving, communicating, or authenticating electronic records or electronic signatures; and

(B) if enacted or adopted after the date of the enactment of this Act, makes specific reference to this Act.

(b) EXCEPTIONS FOR ACTIONS BY STATES AS MARKET PARTICIPANTS.—Subsection (a)(2)(A)(ii) shall not apply to the statutes, regulations, or other rules of law governing procurement by any State, or any agency or instrumentality thereof.

(c) PREVENTION OF CIRCUMVENTION.—Subsection (a) does not permit a State to circumvent this title or title II through the imposition of nonelectronic delivery methods under section 8(b)(2) of the Uniform Electronic Transactions Act.

**SEC. 103. [15 U.S.C. 7003] SPECIFIC EXCEPTIONS.**

(a) EXCEPTED REQUIREMENTS.—The provisions of section 101 shall not apply to a contract or other record to the extent it is governed by—

(1) a statute, regulation, or other rule of law governing the creation and execution of wills, codicils, or testamentary trusts;

(2) a State statute, regulation, or other rule of law governing adoption, divorce, or other matters of family law; or

(3) the Uniform Commercial Code, as in effect in any State, other than sections 1–107 and 1–206 and Articles 2 and 2A.

(b) ADDITIONAL EXCEPTIONS.—The provisions of section 101 shall not apply to—

(1) court orders or notices, or official court documents (including briefs, pleadings, and other writings) required to be executed in connection with court proceedings;

(2) any notice of—

(A) the cancellation or termination of utility services (including water, heat, and power);

(B) default, acceleration, repossession, foreclosure, or eviction, or the right to cure, under a credit agreement se-

cured by, or a rental agreement for, a primary residence of an individual;

(C) the cancellation or termination of health insurance or benefits or life insurance benefits (excluding annuities); or

(D) recall of a product, or material failure of a product, that risks endangering health or safety; or

(3) any document required to accompany any transportation or handling of hazardous materials, pesticides, or other toxic or dangerous materials.

(c) REVIEW OF EXCEPTIONS.—

(1) EVALUATION REQUIRED.—The Secretary of Commerce, acting through the Assistant Secretary for Communications and Information, shall review the operation of the exceptions in subsections (a) and (b) to evaluate, over a period of 3 years, whether such exceptions continue to be necessary for the protection of consumers. Within 3 years after the date of enactment of this Act, the Assistant Secretary shall submit a report to the Congress on the results of such evaluation.

(2) DETERMINATIONS.—If a Federal regulatory agency, with respect to matter within its jurisdiction, determines after notice and an opportunity for public comment, and publishes a finding, that one or more such exceptions are no longer necessary for the protection of consumers and eliminating such exceptions will not increase the material risk of harm to consumers, such agency may extend the application of section 101 to the exceptions identified in such finding.

**SEC. 104. [15 U.S.C. 7004] APPLICABILITY TO FEDERAL AND STATE GOVERNMENTS.**

(a) FILING AND ACCESS REQUIREMENTS.—Subject to subsection (c)(2), nothing in this title limits or supersedes any requirement by a Federal regulatory agency, self-regulatory organization, or State regulatory agency that records be filed with such agency or organization in accordance with specified standards or formats.

(b) PRESERVATION OF EXISTING RULEMAKING AUTHORITY.—

(1) USE OF AUTHORITY TO INTERPRET.—Subject to paragraph (2) and subsection (c), a Federal regulatory agency or State regulatory agency that is responsible for rulemaking under any other statute may interpret section 101 with respect to such statute through—

(A) the issuance of regulations pursuant to a statute;

or

(B) to the extent such agency is authorized by statute to issue orders or guidance, the issuance of orders or guidance of general applicability that are publicly available and published (in the Federal Register in the case of an order or guidance issued by a Federal regulatory agency). This paragraph does not grant any Federal regulatory agency or State regulatory agency authority to issue regulations, orders, or guidance pursuant to any statute that does not authorize such issuance.

(2) LIMITATIONS ON INTERPRETATION AUTHORITY.—Notwithstanding paragraph (1), a Federal regulatory agency shall not adopt any regulation, order, or guidance described in paragraph (1), and a State regulatory agency is preempted by sec-

tion 101 from adopting any regulation, order, or guidance described in paragraph (1), unless—

(A) such regulation, order, or guidance is consistent with section 101;

(B) such regulation, order, or guidance does not add to the requirements of such section; and

(C) such agency finds, in connection with the issuance of such regulation, order, or guidance, that—

(i) there is a substantial justification for the regulation, order, or guidance;

(ii) the methods selected to carry out that purpose—

(I) are substantially equivalent to the requirements imposed on records that are not electronic records; and

(II) will not impose unreasonable costs on the acceptance and use of electronic records; and

(iii) the methods selected to carry out that purpose do not require, or accord greater legal status or effect to, the implementation or application of a specific technology or technical specification for performing the functions of creating, storing, generating, receiving, communicating, or authenticating electronic records or electronic signatures.

(3) PERFORMANCE STANDARDS.—

(A) ACCURACY, RECORD INTEGRITY, ACCESSIBILITY.—Notwithstanding paragraph (2)(C)(iii), a Federal regulatory agency or State regulatory agency may interpret section 101(d) to specify performance standards to assure accuracy, record integrity, and accessibility of records that are required to be retained. Such performance standards may be specified in a manner that imposes a requirement in violation of paragraph (2)(C)(iii) if the requirement (i) serves an important governmental objective; and (ii) is substantially related to the achievement of that objective. Nothing in this paragraph shall be construed to grant any Federal regulatory agency or State regulatory agency authority to require use of a particular type of software or hardware in order to comply with section 101(d).

(B) PAPER OR PRINTED FORM.—Notwithstanding subsection (c)(1), a Federal regulatory agency or State regulatory agency may interpret section 101(d) to require retention of a record in a tangible printed or paper form if—

(i) there is a compelling governmental interest relating to law enforcement or national security for imposing such requirement; and

(ii) imposing such requirement is essential to attaining such interest.

(4) EXCEPTIONS FOR ACTIONS BY GOVERNMENT AS MARKET PARTICIPANT.—Paragraph (2)(C)(iii) shall not apply to the statutes, regulations, or other rules of law governing procurement by the Federal or any State government, or any agency or instrumentality thereof.

(c) ADDITIONAL LIMITATIONS.—

(1) REIMPOSING PAPER PROHIBITED.—Nothing in subsection (b) (other than paragraph (3)(B) thereof) shall be construed to grant any Federal regulatory agency or State regulatory agency authority to impose or reimpose any requirement that a record be in a tangible printed or paper form.

(2) CONTINUING OBLIGATION UNDER GOVERNMENT PAPERWORK ELIMINATION ACT.—Nothing in subsection (a) or (b) relieves any Federal regulatory agency of its obligations under the Government Paperwork Elimination Act (title XVII of Public Law 105–277).

(d) AUTHORITY TO EXEMPT FROM CONSENT PROVISION.—

(1) IN GENERAL.—A Federal regulatory agency may, with respect to matter within its jurisdiction, by regulation or order issued after notice and an opportunity for public comment, exempt without condition a specified category or type of record from the requirements relating to consent in section 101(c) if such exemption is necessary to eliminate a substantial burden on electronic commerce and will not increase the material risk of harm to consumers.

(2) PROSPECTUSES.—Within 30 days after the date of enactment of this Act, the Securities and Exchange Commission shall issue a regulation or order pursuant to paragraph (1) exempting from section 101(c) any records that are required to be provided in order to allow advertising, sales literature, or other information concerning a security issued by an investment company that is registered under the Investment Company Act of 1940, or concerning the issuer thereof, to be excluded from the definition of a prospectus under section 2(a)(10)(A) of the Securities Act of 1933.

(e) ELECTRONIC LETTERS OF AGENCY.—The Federal Communications Commission shall not hold any contract for telecommunications service or letter of agency for a preferred carrier change, that otherwise complies with the Commission's rules, to be legally ineffective, invalid, or unenforceable solely because an electronic record or electronic signature was used in its formation or authorization.

**SEC. 105. [15 U.S.C. 7005] STUDIES.**

(a) DELIVERY.—Within 12 months after the date of the enactment of this Act, the Secretary of Commerce shall conduct an inquiry regarding the effectiveness of the delivery of electronic records to consumers using electronic mail as compared with delivery of written records via the United States Postal Service and private express mail services. The Secretary shall submit a report to the Congress regarding the results of such inquiry by the conclusion of such 12-month period.

(b) STUDY OF ELECTRONIC CONSENT.—Within 12 months after the date of the enactment of this Act, the Secretary of Commerce and the Federal Trade Commission shall submit a report to the Congress evaluating any benefits provided to consumers by the procedure required by section 101(c)(1)(C)(ii); any burdens imposed on electronic commerce by that provision; whether the benefits outweigh the burdens; whether the absence of the procedure required by section 101(c)(1)(C)(ii) would increase the incidence of fraud directed against consumers; and suggesting any revisions to the pro-

vision deemed appropriate by the Secretary and the Commission. In conducting this evaluation, the Secretary and the Commission shall solicit comment from the general public, consumer representatives, and electronic commerce businesses.

**SEC. 106. [15 U.S.C. 7006] DEFINITIONS.**

For purposes of this title:

(1) **CONSUMER.**—The term “consumer” means an individual who obtains, through a transaction, products or services which are used primarily for personal, family, or household purposes, and also means the legal representative of such an individual.

(2) **ELECTRONIC.**—The term “electronic” means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.

(3) **ELECTRONIC AGENT.**—The term “electronic agent” means a computer program or an electronic or other automated means used independently to initiate an action or respond to electronic records or performances in whole or in part without review or action by an individual at the time of the action or response.

(4) **ELECTRONIC RECORD.**—The term “electronic record” means a contract or other record created, generated, sent, communicated, received, or stored by electronic means.

(5) **ELECTRONIC SIGNATURE.**—The term “electronic signature” means an electronic sound, symbol, or process, attached to or logically associated with a contract or other record and executed or adopted by a person with the intent to sign the record.

(6) **FEDERAL REGULATORY AGENCY.**—The term “Federal regulatory agency” means an agency, as that term is defined in section 552(f) of title 5, United States Code.

(7) **INFORMATION.**—The term “information” means data, text, images, sounds, codes, computer programs, software, databases, or the like.

(8) **PERSON.**—The term “person” means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, governmental agency, public corporation, or any other legal or commercial entity.

(9) **RECORD.**—The term “record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

(10) **REQUIREMENT.**—The term “requirement” includes a prohibition.

(11) **SELF-REGULATORY ORGANIZATION.**—The term “self-regulatory organization” means an organization or entity that is not a Federal regulatory agency or a State, but that is under the supervision of a Federal regulatory agency and is authorized under Federal law to adopt and administer rules applicable to its members that are enforced by such organization or entity, by a Federal regulatory agency, or by another self-regulatory organization.

(12) **STATE.**—The term “State” includes the District of Columbia and the territories and possessions of the United States.

(13) TRANSACTION.—The term “transaction” means an action or set of actions relating to the conduct of business, consumer, or commercial affairs between two or more persons, including any of the following types of conduct—

(A) the sale, lease, exchange, licensing, or other disposition of (i) personal property, including goods and intangibles, (ii) services, and (iii) any combination thereof; and

(B) the sale, lease, exchange, or other disposition of any interest in real property, or any combination thereof.

**SEC. 107. [15 U.S.C. 7001, note] EFFECTIVE DATE.**

(a) IN GENERAL.—Except as provided in subsection (b), this title shall be effective on October 1, 2000.

(b) EXCEPTIONS.—

(1) RECORD RETENTION.—

(A) IN GENERAL.—Subject to subparagraph (B), this title shall be effective on March 1, 2001, with respect to a requirement that a record be retained imposed by—

(i) a Federal statute, regulation, or other rule of law, or

(ii) a State statute, regulation, or other rule of law administered or promulgated by a State regulatory agency.

(B) DELAYED EFFECT FOR PENDING RULEMAKINGS.—If on March 1, 2001, a Federal regulatory agency or State regulatory agency has announced, proposed, or initiated, but not completed, a rulemaking proceeding to prescribe a regulation under section 104(b)(3) with respect to a requirement described in subparagraph (A), this title shall be effective on June 1, 2001, with respect to such requirement.

(2) CERTAIN GUARANTEED AND INSURED LOANS.—With regard to any transaction involving a loan guarantee or loan guarantee commitment (as those terms are defined in section 502 of the Federal Credit Reform Act of 1990), or involving a program listed in the Federal Credit Supplement, Budget of the United States, FY 2001, this title applies only to such transactions entered into, and to any loan or mortgage made, insured, or guaranteed by the United States Government thereunder, on and after one year after the date of enactment of this Act.

(3) STUDENT LOANS.—With respect to any records that are provided or made available to a consumer pursuant to an application for a loan, or a loan made, pursuant to title IV of the Higher Education Act of 1965, section 101(c) of this Act shall not apply until the earlier of—

(A) such time as the Secretary of Education publishes revised promissory notes under section 432(m) of the Higher Education Act of 1965; or

(B) one year after the date of enactment of this Act.

## TITLE II—TRANSFERABLE RECORDS

**SEC. 201. [15 U.S.C. 7021] TRANSFERABLE RECORDS.**

(a) DEFINITIONS.—For purposes of this section:

(1) TRANSFERABLE RECORD.—The term “transferable record” means an electronic record that—

(A) would be a note under Article 3 of the Uniform Commercial Code if the electronic record were in writing;

(B) the issuer of the electronic record expressly has agreed is a transferable record; and

(C) relates to a loan secured by real property.

A transferable record may be executed using an electronic signature.

(2) OTHER DEFINITIONS.—The terms “electronic record”, “electronic signature”, and “person” have the same meanings provided in section 106 of this Act.

(b) CONTROL.—A person has control of a transferable record if a system employed for evidencing the transfer of interests in the transferable record reliably establishes that person as the person to which the transferable record was issued or transferred.

(c) CONDITIONS.—A system satisfies subsection (b), and a person is deemed to have control of a transferable record, if the transferable record is created, stored, and assigned in such a manner that—

(1) a single authoritative copy of the transferable record exists which is unique, identifiable, and, except as otherwise provided in paragraphs (4), (5), and (6), unalterable;

(2) the authoritative copy identifies the person asserting control as—

(A) the person to which the transferable record was issued; or

(B) if the authoritative copy indicates that the transferable record has been transferred, the person to which the transferable record was most recently transferred;

(3) the authoritative copy is communicated to and maintained by the person asserting control or its designated custodian;

(4) copies or revisions that add or change an identified assignee of the authoritative copy can be made only with the consent of the person asserting control;

(5) each copy of the authoritative copy and any copy of a copy is readily identifiable as a copy that is not the authoritative copy; and

(6) any revision of the authoritative copy is readily identifiable as authorized or unauthorized.

(d) STATUS AS HOLDER.—Except as otherwise agreed, a person having control of a transferable record is the holder, as defined in section 1–201(20) of the Uniform Commercial Code, of the transferable record and has the same rights and defenses as a holder of an equivalent record or writing under the Uniform Commercial Code, including, if the applicable statutory requirements under section 3–302(a), 9–308, or revised section 9–330 of the Uniform Commercial Code are satisfied, the rights and defenses of a holder in due course or a purchaser, respectively. Delivery, possession, and endorsement are not required to obtain or exercise any of the rights under this subsection.

(e) OBLIGOR RIGHTS.—Except as otherwise agreed, an obligor under a transferable record has the same rights and defenses as

an equivalent obligor under equivalent records or writings under the Uniform Commercial Code.

(f) **PROOF OF CONTROL.**—If requested by a person against which enforcement is sought, the person seeking to enforce the transferable record shall provide reasonable proof that the person is in control of the transferable record. Proof may include access to the authoritative copy of the transferable record and related business records sufficient to review the terms of the transferable record and to establish the identity of the person having control of the transferable record.

(g) **UCC REFERENCES.**—For purposes of this subsection, all references to the Uniform Commercial Code are to the Uniform Commercial Code as in effect in the jurisdiction the law of which governs the transferable record.

**SEC. 202. [15 U.S.C. 7021 note] EFFECTIVE DATE.**

This title shall be effective 90 days after the date of enactment of this Act.

### **TITLE III—PROMOTION OF INTERNATIONAL ELECTRONIC COMMERCE**

**SEC. 301. [15 U.S.C. 7031] PRINCIPLES GOVERNING THE USE OF ELECTRONIC SIGNATURES IN INTERNATIONAL TRANSACTIONS.**

(a) **PROMOTION OF ELECTRONIC SIGNATURES.**—

(1) **REQUIRED ACTIONS.**—The Secretary of Commerce shall promote the acceptance and use, on an international basis, of electronic signatures in accordance with the principles specified in paragraph (2) and in a manner consistent with section 101 of this Act. The Secretary of Commerce shall take all actions necessary in a manner consistent with such principles to eliminate or reduce, to the maximum extent possible, the impediments to commerce in electronic signatures, for the purpose of facilitating the development of interstate and foreign commerce.

(2) **PRINCIPLES.**—The principles specified in this paragraph are the following:

(A) Remove paper-based obstacles to electronic transactions by adopting relevant principles from the Model Law on Electronic Commerce adopted in 1996 by the United Nations Commission on International Trade Law.

(B) Permit parties to a transaction to determine the appropriate authentication technologies and implementation models for their transactions, with assurance that those technologies and implementation models will be recognized and enforced.

(C) Permit parties to a transaction to have the opportunity to prove in court or other proceedings that their authentication approaches and their transactions are valid.

(D) Take a nondiscriminatory approach to electronic signatures and authentication methods from other jurisdictions.

(b) **CONSULTATION.**—In conducting the activities required by this section, the Secretary shall consult with users and providers

of electronic signature products and services and other interested persons.

(c) DEFINITIONS.—As used in this section, the terms “electronic record” and “electronic signature” have the same meanings provided in section 106 of this Act.

## **TITLE IV—COMMISSION ON ONLINE CHILD PROTECTION**

### **SEC. 401. AUTHORITY TO ACCEPT GIFTS.**

【Section 401 amended section 1405 of the Child Online Protection Act (47 U.S.C. 231 note). See footnote to section 231 of the Communications Act of 1934.】

**LAUNCHING OUR COMMUNITIES' ACCESS TO LOCAL  
TELEVISION ACT OF 2000**

---

---

## LAUNCHING OUR COMMUNITIES' ACCESS TO LOCAL TELEVISION ACT OF 2000

(Title X of Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2001)

\* \* \* \* \*

### TITLE X—LOCAL TV ACT

#### SECTION 1001. [47 U.S.C. 1101 note] SHORT TITLE.

This title may be cited as the “Launching Our Communities’ Access to Local Television Act of 2000”.

#### SEC. 1002. [47 U.S.C. 1101] PURPOSE.

The purpose of this Act is to facilitate access, on a technologically neutral basis and by December 31, 2006, to signals of local television stations for households located in nonserved areas and underserved areas.

#### SEC. 1003. [47 U.S.C. 1102] LOCAL TELEVISION LOAN GUARANTEE BOARD.

(a) ESTABLISHMENT.—There is established the LOCAL Television Loan Guarantee Board (in this Act referred to as the “Board”).

##### (b) MEMBERS.—

(1) IN GENERAL.—Subject to paragraph (2), the Board shall consist of the following members:

(A) The Secretary of the Treasury, or the designee of the Secretary.

(B) The Chairman of the Board of Governors of the Federal Reserve System, or the designee of the Chairman.

(C) The Secretary of Agriculture, or the designee of the Secretary.

(D) The Secretary of Commerce, or the designee of the Secretary.

(2) REQUIREMENT AS TO DESIGNEES.—An individual may not be designated a member of the Board under paragraph (1) unless the individual is an officer of the United States pursuant to an appointment by the President, by and with the advice and consent of the Senate.

##### (c) FUNCTIONS OF THE BOARD.—

(1) IN GENERAL.—The Board shall determine whether or not to approve loan guarantees under this Act. The Board shall make such determinations consistent with the purpose of this Act and in accordance with this subsection and section 4.

##### (2) CONSULTATION AUTHORIZED.—

(A) IN GENERAL.—In carrying out its functions under this Act, the Board shall consult with such departments

and agencies of the Federal Government as the Board considers appropriate, including the Department of Commerce, the Department of Agriculture, the Department of the Treasury, the Department of Justice, the Department of the Interior, the Board of Governors of the Federal Reserve System, the Federal Communications Commission, the Federal Trade Commission, and the National Aeronautics and Space Administration.

(B) RESPONSE.—A department or agency consulted by the Board under subparagraph (A) shall provide the Board such expertise and assistance as the Board requires to carry out its functions under this Act.

(3) APPROVAL BY MAJORITY VOTE.—The determination of the Board to approve a loan guarantee under this Act shall be by an affirmative vote of not less than three members of the Board.

**SEC. 1004. [47 U.S.C. 1103] APPROVAL OF LOAN GUARANTEES.**

(a) AUTHORITY TO APPROVE LOAN GUARANTEES.—Subject to the provisions of this section and consistent with the purpose of this Act, the Board may approve loan guarantees under this Act.

(b) REGULATIONS.—

(1) REQUIREMENTS.—The Administrator (as defined in section 1005), under the direction of and for approval by the Board, shall prescribe regulations to implement the provisions of this Act and shall do so not later than 120 days after funds authorized to be appropriated under section 1011 have been appropriated in a bill signed into law.

(2) ELEMENTS.—The regulations prescribed under paragraph (1) shall—

(A) set forth the form of any application to be submitted to the Board under this Act;

(B) set forth time periods for the review and consideration by the Board of applications to be submitted to the Board under this Act, and for any other action to be taken by the Board with respect to such applications;

(C) provide appropriate safeguards against the evasion of the provisions of this Act;

(D) set forth the circumstances in which an applicant, together with any affiliate of an applicant, shall be treated as an applicant for a loan guarantee under this Act;

(E) include requirements that appropriate parties submit to the Board any documents and assurances that are required for the administration of the provisions of this Act; and

(F) include such other provisions consistent with the purpose of this Act as the Board considers appropriate.

(3) CONSTRUCTION.—(A) Nothing in this Act shall be construed to prohibit the Board from requiring, to the extent and under circumstances considered appropriate by the Board, that affiliates of an applicant be subject to certain obligations of the applicant as a condition to the approval or maintenance of a loan guarantee under this Act.

(B) If any provision of this Act or the application of such provision to any person or entity or circumstance is held to be

invalid by a court of competent jurisdiction, the remainder of this Act, or the application of such provision to such person or entity or circumstance other than those as to which it is held invalid, shall not be affected thereby.

(c) **AUTHORITY LIMITED BY APPROPRIATIONS ACTS.**—The Board may approve loan guarantees under this Act only to the extent provided for in advance in appropriations Acts.

(d) **REQUIREMENTS AND CRITERIA APPLICABLE TO APPROVAL.**—

(1) **IN GENERAL.**—The Board shall utilize the underwriting criteria developed under subsection (g), and any relevant information provided by the departments and agencies with which the Board consults under section 1003, to determine which loans may be eligible for a loan guarantee under this Act.

(2) **PREREQUISITES.**—In addition to meeting the underwriting criteria under paragraph (1), a loan may not be guaranteed under this Act unless—

(A) the loan is made to finance the acquisition, improvement, enhancement, construction, deployment, launch, or rehabilitation of the means by which local television broadcast signals will be delivered to a nonserved area or underserved area;

(B) the proceeds of the loan will not be used for operating, advertising, or promotion expenses, or for the acquisition of licenses for the use of spectrum in any competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j));

(C) the proposed project, as determined by the Board in consultation with the National Telecommunications and Information Administration, is not likely to have a substantial adverse impact on competition that outweighs the benefits of improving access to the signals of a local television station in a nonserved area or underserved area and is commercially viable;

(D)(i) the loan—

(I) is provided by any entity engaged in the business of commercial lending—

(aa) if the loan is made in accordance with loan-to-one-borrower and affiliate transaction restrictions to which the entity is subject under applicable law; or

(bb) if item (aa) does not apply, the loan is made only to a borrower that is not an affiliate of the entity and only if the amount of the loan and all outstanding loans by that entity to that borrower and any of its affiliates does not exceed 10 percent of the net equity of the entity; or

(II) is provided by a nonprofit corporation, including the National Rural Utilities Cooperative Finance Corporation, engaged primarily in commercial lending, if the Board determines that such nonprofit corporation has one or more issues of outstanding long-term debt that is rated within the highest three rating categories of a nationally recognized statistical rating organization;

(ii) if the loan is provided by a lender described in clause (i)(II) and the Board determines that the making of the loan by such lender will cause a decline in such lender's debt rating as described in that clause, the Board at its discretion may disapprove the loan guarantee on this basis;

(iii) no loan may be made for purposes of this Act by a governmental entity or affiliate thereof, or by the Federal Agricultural Mortgage Corporation, or any institution supervised by the Office of Federal Housing Enterprise Oversight, the Federal Housing Finance Board, or any affiliate of such entities;

(iv) any loan must have terms, in the judgment of the Board, that are consistent in material respects with the terms of similar obligations in the private capital market;

(v) for purposes of clause (i)(I)(bb), the term "net equity" means the value of the total assets of the entity, less the total liabilities of the entity, as recorded under generally accepted accounting principles for the fiscal quarter ended immediately prior to the date on which the subject loan is approved;

(E) repayment of the loan is required to be made within a term of the lesser of—

(i) 25 years from the date of the execution of the loan; or

(ii) the economically useful life, as determined by the Board or in consultation with persons or entities deemed appropriate by the Board, of the primary assets to be used in the delivery of the signals concerned; and

(F) the loan meets any additional criteria developed under subsection (g).

(3) PROTECTION OF UNITED STATES FINANCIAL INTERESTS.—  
The Board may not approve the guarantee of a loan under this Act unless—

(A) the Board has been given documentation, assurances, and access to information, persons, and entities necessary, as determined by the Board, to address issues relevant to the review of the loan by the Board for purposes of this Act; and

(B) the Board makes a determination in writing that—

(i) to the best of its knowledge upon due inquiry, the assets, facilities, or equipment covered by the loan will be utilized economically and efficiently;

(ii) the terms, conditions, security, and schedule and amount of repayments of principal and the payment of interest with respect to the loan protect the financial interests of the United States and are reasonable;

(iii) the value of collateral provided by an applicant is at least equal to the unpaid balance of the loan amount covered by the loan guarantee (the "Amount" for purposes of this clause); and if the value of collateral provided by an applicant is less than the Amount,

the additional required collateral is provided by any affiliate of the applicant;

(iv) all necessary and required regulatory and other approvals, spectrum licenses, and delivery permissions have been received for the loan and the project under the loan;

(v) the loan would not be available on reasonable terms and conditions without a loan guarantee under this Act; and

(vi) repayment of the loan can reasonably be expected.

(e) CONSIDERATIONS.—

(1) TYPE OF MARKET.—

(A) PRIORITY CONSIDERATIONS.—To the maximum extent practicable, the Board shall give priority in the approval of loan guarantees under this Act in the following order:

(i) First, to projects that will serve households in nonserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

(ii) Second, to projects that will serve households in underserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

Within each category, the Board shall consider the project's estimated cost per household and shall give priority to those projects that provide the highest quality service at the lowest cost per household.

(B) ADDITIONAL CONSIDERATION.—The Board should give additional consideration to projects that also provide high-speed Internet service.

(C) PROHIBITIONS.—The Board may not approve a loan guarantee under this Act for a project that—

(i) is designed primarily to serve one or more of the top 40 designated market areas (as that term is defined in section 122(j) of title 17, United States Code); or

(ii) would alter or remove National Weather Service warnings from local broadcast signals.

(2) OTHER CONSIDERATIONS.—The Board shall consider other factors, which shall include projects that would—

(A) offer a separate tier of local broadcast signals, but for applicable Federal, State, or local laws or regulations;

(B) provide lower projected costs to consumers of such separate tier; and

(C) enable the delivery of local broadcast signals consistent with the purpose of this Act by a means reasonably

compatible with existing systems or devices predominantly in use.

(3) FURTHER CONSIDERATION.—In implementing this Act, the Board shall support the use of loan guarantees for projects that would serve households not likely to be served in the absence of loan guarantees under this Act.

(f) GUARANTEE LIMITS.—

(1) LIMITATION ON AGGREGATE VALUE OF LOANS.—The aggregate value of all loans for which loan guarantees are issued under this Act (including the unguaranteed portion of such loans) may not exceed \$1,250,000,000.

(2) GUARANTEE LEVEL.—A loan guarantee issued under this Act may not exceed an amount equal to 80 percent of a loan meeting in its entirety the requirements of subsection (d)(2)(A). If only a portion of a loan meets the requirements of that subsection, the Board shall determine that percentage of the loan meeting such requirements (the “applicable portion”) and may issue a loan guarantee in an amount not exceeding 80 percent of the applicable portion.

(g) UNDERWRITING CRITERIA.—Within the period provided for under subsection (b)(1), the Board shall, in consultation with the Director of the Office of Management and Budget and an independent public accounting firm, develop underwriting criteria relating to the guarantee of loans that are consistent with the purpose of this Act, including appropriate collateral and cash flow levels for loans guaranteed under this Act, and such other matters as the Board considers appropriate.

(h) CREDIT RISK PREMIUMS.—

(1) ESTABLISHMENT AND ACCEPTANCE.—

(A) IN GENERAL.—The Board may establish and approve the acceptance of credit risk premiums with respect to a loan guarantee under this Act in order to cover the cost, as defined in section 502(5) of the Federal Credit Reform Act of 1990, of the loan guarantee.

(B) AUTHORITY LIMITED BY APPROPRIATIONS ACTS.—Credit risk premiums under this subsection shall be imposed only to the extent provided for in advance in appropriations Acts. To the extent that appropriations of budget authority are insufficient to cover the cost, as so defined, of a loan guarantee under this Act, credit risk premiums shall be accepted from a non-Federal source under this subsection on behalf of the applicant for the loan guarantee.

(2) CREDIT RISK PREMIUM AMOUNT.—

(A) IN GENERAL.—The Board shall determine the amount of any credit risk premium to be accepted with respect to a loan guarantee under this Act on the basis of—

(i) the financial and economic circumstances of the applicant for the loan guarantee, including the amount of collateral offered;

(ii) the proposed schedule of loan disbursements;

(iii) the business plans of the applicant for providing service;

(iv) any financial commitment from a broadcast signal provider; and

(v) the concurrence of the Director of the Office of Management and Budget as to the amount of the credit risk premium.

(B) PROPORTIONALITY.—To the extent that appropriations of budget authority are sufficient to cover the cost, as determined under section 502(5) of the Federal Credit Reform Act of 1990, of loan guarantees under this Act, the credit risk premium with respect to each loan guarantee shall be reduced proportionately.

(C) PAYMENT OF PREMIUMS.—Credit risk premiums under this subsection shall be paid to an account (the “Escrow Account”) established in the Treasury which shall accrue interest and such interest shall be retained by the account, subject to subparagraph (D).

(D) DEDUCTIONS FROM ESCROW ACCOUNT.—If a default occurs with respect to any loan guaranteed under this Act and the default is not cured in accordance with the terms of the underlying loan or loan guarantee agreement, the Administrator, in accordance with subsections (i) and (j) of section 1005, shall liquidate, or shall cause to be liquidated, all assets collateralizing such loan as to which it has a lien or security interest. Any shortfall between the proceeds of the liquidation net of costs and expenses relating to the liquidation, and the guarantee amount paid pursuant to this Act shall be deducted from funds in the Escrow Account and credited to the Administrator for payment of such shortfall. At such time as determined under subsection (d)(2)(E) of this section when all loans guaranteed under this Act have been repaid or otherwise satisfied in accordance with this Act and the regulations promulgated hereunder, remaining funds in the Escrow Account, if any, shall be refunded, on a pro rata basis, to applicants whose loans guaranteed under this Act were not in default, or where any default was cured in accordance with the terms of the underlying loan or loan guarantee agreement.

(i) LIMITATIONS ON GUARANTEES FOR CERTAIN CABLE OPERATORS.—Notwithstanding any other provision of this Act, no loan guarantee under this Act may be granted or used to provide funds for a project that upgrades or enhances the services provided over any cable system, nor for a project that extends the services provided by a cable operator, or its successor or assignee, over any cable system to an area that, as of the date of enactment of this Act, is covered by a cable franchise agreement that obligates a cable system operator to serve such area.

(j) JUDICIAL REVIEW.—The decision of the Board to approve or disapprove the making of a loan guarantee under this Act shall not be subject to judicial review.

(k) APPLICABILITY OF APA.—Except as otherwise provided in subsection (j), the provisions of subchapter II of chapter 5 and chapter 7 of title 5, United States Code (commonly referred to as the Administrative Procedure Act), shall apply to actions taken under this Act.

**SEC. 1005. [47 U.S.C. 1104] ADMINISTRATION OF LOAN GUARANTEES.**

(a) **IN GENERAL.**—The Administrator of the Rural Utilities Service (in this Act referred to as the “Administrator”) shall issue and otherwise administer loan guarantees that have been approved by the Board in accordance with sections 1003 and 1004.

(b) **SECURITY FOR PROTECTION OF UNITED STATES FINANCIAL INTERESTS.**—

(1) **TERMS AND CONDITIONS.**—An applicant shall agree to such terms and conditions as are satisfactory, in the judgment of the Board, to ensure that, as long as any principal or interest is due and payable on a loan guaranteed under this Act, the applicant—

(A) shall maintain assets, equipment, facilities, and operations on a continuing basis;

(B) shall not make any discretionary dividend payments that impair its ability to repay obligations guaranteed under this Act;

(C) shall remain sufficiently capitalized; and

(D) shall submit to, and cooperate fully with, any audit of the applicant under section 1006(a)(2).

(2) **COLLATERAL.**—

(A) **EXISTENCE OF ADEQUATE COLLATERAL.**—An applicant shall provide the Board such documentation as is necessary, in the judgment of the Board, to provide satisfactory evidence that appropriate and adequate collateral secures a loan guaranteed under this Act.

(B) **FORM OF COLLATERAL.**—Collateral required by subparagraph (A) shall consist solely of assets of the applicant, any affiliate of the applicant, or both (whichever the Board considers appropriate), including primary assets to be used in the delivery of signals for which the loan is guaranteed.

(C) **REVIEW OF VALUATION.**—The value of collateral securing a loan guaranteed under this Act may be reviewed by the Board, and may be adjusted downward by the Board if the Board reasonably believes such adjustment is appropriate.

(3) **LIEN ON INTERESTS IN ASSETS.**—Upon the Board’s approval of a loan guarantee under this Act, the Administrator shall have liens on assets securing the loan, which shall be superior to all other liens on such assets, and the value of the assets (based on a determination satisfactory to the Board) subject to the liens shall be at least equal to the unpaid balance of the loan amount covered by the loan guarantee, or that value approved by the Board under section 1004(d)(3)(B)(iii).

(4) **PERFECTED SECURITY INTEREST.**—With respect to a loan guaranteed under this Act, the Administrator and the lender shall have a perfected security interest in assets securing the loan that are fully sufficient to protect the financial interests of the United States and the lender.

(5) **INSURANCE.**—In accordance with practices in the private capital market, as determined by the Board, the applicant for a loan guarantee under this Act shall obtain, at its expense, insurance sufficient to protect the financial interests of the United States, as determined by the Board.

(c) ASSIGNMENT OF LOAN GUARANTEES.—The holder of a loan guarantee under this Act may assign the loan guaranteed under this Act in whole or in part, subject to such requirements as the Board may prescribe.

(d) EXPIRATION OF LOAN GUARANTEE UPON STRIPPING.—Notwithstanding subsections (c), (e), and (h), a loan guarantee under this Act shall have no force or effect if any part of the guaranteed portion of the loan is transferred separate and apart from the unguaranteed portion of the loan.

(e) ADJUSTMENT.—The Board may approve the adjustment of any term or condition of a loan guarantee or a loan guaranteed under this Act, including the rate of interest, time of payment of principal or interest, or security requirements only if—

(1) the adjustment is consistent with the financial interests of the United States;

(2) consent has been obtained from the parties to the loan agreement;

(3) the adjustment is consistent with the underwriting criteria developed under section 1004(g);

(4) the adjustment does not adversely affect the interest of the Federal Government in the assets or collateral of the applicant;

(5) the adjustment does not adversely affect the ability of the applicant to repay the loan; and

(6) the National Telecommunications and Information Administration has been consulted by the Board regarding the adjustment.

(f) PERFORMANCE SCHEDULES.—

(1) PERFORMANCE SCHEDULES.—An applicant for a loan guarantee under this Act for a project covered by section 4(e)(1) shall enter into stipulated performance schedules with the Administrator with respect to the signals to be provided through the project.

(2) PENALTY.—The Administrator may assess against and collect from an applicant described in paragraph (1) a penalty not to exceed three times the interest due on the guaranteed loan of the applicant under this Act if the applicant fails to meet its stipulated performance schedule under that paragraph.

(g) COMPLIANCE.—The Administrator, in cooperation with the Board and as the regulations of the Board may provide, shall enforce compliance by an applicant, and any other party to a loan guarantee for whose benefit assistance under this Act is intended, with the provisions of this Act, any regulations under this Act, and the terms and conditions of the loan guarantee, including through the submittal of such reports and documents as the Board may require in regulations prescribed by the Board and through regular periodic inspections and audits.

(h) COMMERCIAL VALIDITY.—A loan guarantee under this Act shall be incontestable—

(1) in the hands of an applicant on whose behalf the loan guarantee is made, unless the applicant engaged in fraud or misrepresentation in securing the loan guarantee; and

(2) as to any person or entity (or their respective successor in interest) who makes or contracts to make a loan to the ap-

plicant for the loan guarantee in reliance thereon, unless such person or entity (or respective successor in interest) engaged in fraud or misrepresentation in making or contracting to make such loan.

(i) DEFAULTS.—The Board shall prescribe regulations governing defaults on loans guaranteed under this Act, including the administration of the payment of guaranteed amounts upon default.

(j) RECOVERY OF PAYMENTS.—

(1) IN GENERAL.—The Administrator shall be entitled to recover from an applicant for a loan guarantee under this Act the amount of any payment made to the holder of the guarantee with respect to the loan.

(2) SUBROGATION.—Upon making a payment described in paragraph (1), the Administrator shall be subrogated to all rights of the party to whom the payment is made with respect to the guarantee which was the basis for the payment.

(3) DISPOSITION OF PROPERTY.—

(A) SALE OR DISPOSAL.—The Administrator shall, in an orderly and efficient manner, sell or otherwise dispose of any property or other interests obtained under this Act in a manner that maximizes taxpayer return and is consistent with the financial interests of the United States.

(B) MAINTENANCE.—The Administrator shall maintain in a cost-effective and reasonable manner any property or other interests pending sale or disposal of such property or other interests under subparagraph (A).

(k) ACTION AGAINST OBLIGOR.—

(1) AUTHORITY TO BRING CIVIL ACTION.—The Administrator may bring a civil action in an appropriate district court of the United States in the name of the United States or of the holder of the obligation in the event of a default on a loan guaranteed under this Act. The holder of a loan guarantee shall make available to the Administrator all records and evidence necessary to prosecute the civil action.

(2) FULLY SATISFYING OBLIGATIONS OWED THE UNITED STATES.—The Administrator may accept property in satisfaction of any sums owed the United States as a result of a default on a loan guaranteed under this Act, but only to the extent that any cash accepted by the Administrator is not sufficient to satisfy fully the sums owed as a result of the default.

(l) BREACH OF CONDITIONS.—The Administrator shall commence a civil action in a court of appropriate jurisdiction to enjoin any activity which the Board finds is in violation of this Act, the regulations under this Act, or any conditions which were duly agreed to, and to secure any other appropriate relief, including relief against any affiliate of the applicant.

(m) ATTACHMENT.—No attachment or execution may be issued against the Administrator or any property in the control of the Administrator pursuant to this Act before the entry of a final judgment (as to which all rights of appeal have expired) by a Federal, State, or other court of competent jurisdiction against the Administrator in a proceeding for such action.

(n) FEES.—

(1) APPLICATION FEE.—The Board shall charge and collect from an applicant for a loan guarantee under this Act a fee to cover the cost of the Board in making necessary determinations and findings with respect to the loan guarantee application under this Act. The amount of the fee shall be reasonable.

(2) LOAN GUARANTEE ORIGINATION FEE.—The Board shall charge, and the Administrator may collect, a loan guarantee origination fee with respect to the issuance of a loan guarantee under this Act.

(3) USE OF FEES COLLECTED.—

(A) IN GENERAL.—Any fee collected under this subsection shall be used, subject to subparagraph (B), to offset administrative costs under this Act, including costs of the Board and of the Administrator.

(B) SUBJECT TO APPROPRIATIONS.—The authority provided by this subsection shall be effective only to such extent or in such amounts as are provided in advance in appropriations Acts.

(C) LIMITATION ON FEES.—The aggregate amount of fees imposed by this subsection shall not exceed the actual amount of administrative costs under this Act.

(o) REQUIREMENTS RELATING TO AFFILIATES.—

(1) INDEMNIFICATION.—The United States shall be indemnified by any affiliate (acceptable to the Board) of an applicant for a loan guarantee under this Act for any losses that the United States incurs as a result of—

(A) a judgment against the applicant or any of its affiliates;

(B) any breach by the applicant or any of its affiliates of their obligations under the loan guarantee agreement;

(C) any violation of the provisions of this Act, and the regulations prescribed under this Act, by the applicant or any of its affiliates;

(D) any penalties incurred by the applicant or any of its affiliates for any reason, including violation of a stipulated performance schedule under subsection (f); and

(E) any other circumstances that the Board considers appropriate.

(2) LIMITATION ON TRANSFER OF LOAN PROCEEDS.—An applicant for a loan guarantee under this Act may not transfer any part of the proceeds of the loan to an affiliate.

(p) EFFECT OF BANKRUPTCY.—

(1) Notwithstanding any other provision of law, whenever any person or entity is indebted to the United States as a result of any loan guarantee issued under this Act and such person or entity is insolvent or is a debtor in a case under title 11, United States Code, the debts due to the United States shall be satisfied first.

(2) A discharge in bankruptcy under title 11, United States Code, shall not release a person or entity from an obligation to the United States in connection with a loan guarantee under this Act.

**SEC. 1006. [47 U.S.C. 1105] ANNUAL AUDIT.**

(a) REQUIREMENT.—The Comptroller General of the United States shall conduct on an annual basis an audit of—

- (1) the administration of the provisions of this Act; and
- (2) the financial position of each applicant who receives a loan guarantee under this Act, including the nature, amount, and purpose of investments made by the applicant.

(b) REPORT.—The Comptroller General shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking and Financial Services of the House of Representatives a report on each audit conducted under subsection (a).

**SEC. 1007. [47 U.S.C. 1106] IMPROVED CELLULAR SERVICE IN RURAL AREAS.**

(a) REINSTATEMENT OF APPLICANTS AS TENTATIVE SELECTEES.—

(1) IN GENERAL.—Notwithstanding the order of the Federal Communications Commission in the proceeding described in paragraph (3), the Commission shall—

(A) reinstate each applicant as a tentative selectee under the covered rural service area licensing proceeding; and

(B) permit each applicant to amend its application, to the extent necessary to update factual information and to comply with the rules of the Commission, at any time before the Commission's final licensing action in the covered rural service area licensing proceeding.

(2) EXEMPTION FROM PETITIONS TO DENY.—For purposes of the amended applications filed pursuant to paragraph (1)(B), the provisions of section 309(d)(1) of the Communications Act of 1934 (47 U.S.C. 309(d)(1)) shall not apply.

(3) PROCEEDING.—The proceeding described in this paragraph is the proceeding of the Commission In re Applications of Cellwave Telephone Services L.P., Futurewave General Partners L.P., and Great Western Cellular Partners, 7 FCC Rcd No. 19 (1992).

(b) CONTINUATION OF LICENSE PROCEEDING; FEE ASSESSMENT.—

(1) AWARD OF LICENSES.—The Commission shall award licenses under the covered rural service area licensing proceeding within 90 days after the date of the enactment of this Act.

(2) SERVICE REQUIREMENTS.—The Commission shall provide that, as a condition of an applicant receiving a license pursuant to the covered rural service area licensing proceeding, the applicant shall provide cellular radiotelephone service to subscribers in accordance with sections 22.946 and 22.947 of the Commission's rules (47 CFR 22.946, 22.947); except that the time period applicable under section 22.947 of the Commission's rules (or any successor rule) to the applicants identified in subparagraphs (A) and (B) of subsection (d)(1) shall be 3 years rather than 5 years and the waiver authority of the Commission shall apply to such 3-year period.

(3) CALCULATION OF LICENSE FEE.—

(A) FEE REQUIRED.—The Commission shall establish a fee for each of the licenses under the covered rural service area licensing proceeding. In determining the amount of the fee, the Commission shall consider—

(i) the average price paid per person served in the Commission's Cellular Unserved Auction (Auction No. 12); and

(ii) the settlement payments required to be paid by the permittees pursuant to the consent decree set forth in the Commission's order, *In re the Telleis Partners* (7 FCC Rcd 3168 (1992)), multiplying such payments by two.

(B) NOTICE OF FEE.—Within 30 days after the date an applicant files the amended application permitted by subsection (a)(1)(B), the Commission shall notify each applicant of the fee established for the license associated with its application.

(4) PAYMENT FOR LICENSES.—No later than 18 months after the date that an applicant is granted a license, each applicant shall pay to the Commission the fee established pursuant to paragraph (3) for the license granted to the applicant under paragraph (1).

(5) AUCTION AUTHORITY.—If, after the amendment of an application pursuant to subsection (a)(1)(B), the Commission finds that the applicant is ineligible for grant of a license to provide cellular radiotelephone services for a rural service area or the applicant does not meet the requirements under paragraph (2) of this subsection, the Commission shall grant the license for which the applicant is the tentative selectee (pursuant to subsection (a)(1)(B) by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)).

(c) PROHIBITION OF TRANSFER.—During the 5-year period that begins on the date that an applicant is granted any license pursuant to subsection (a), the Commission may not authorize the transfer or assignment of that license under section 310 of the Communications Act of 1934 (47 U.S.C. 310). Nothing in this Act may be construed to prohibit any applicant granted a license pursuant to subsection (a) from contracting with other licensees to improve cellular telephone service.

(d) DEFINITIONS.—For the purposes of this section, the following definitions shall apply:

(1) APPLICANT.—The term "applicant" means—

(A) Great Western Cellular Partners, a California general partnership chosen by the Commission as tentative selectee for RSA #492 on May 4, 1989;

(B) Monroe Telephone Services L.P., a Delaware limited partnership chosen by the Commission as tentative selectee for RSA #370 on August 24, 1989 (formerly Cellwave Telephone Services L.P.); and

(C) FutureWave General Partners L.P., a Delaware limited partnership chosen by the Commission as tentative selectee for RSA #615 on May 25, 1990.

(2) COMMISSION.—The term "Commission" means the Federal Communications Commission.

(3) COVERED RURAL SERVICE AREA LICENSING PROCEEDING.—The term “covered rural service area licensing proceeding” means the proceeding of the Commission for the grant of cellular radiotelephone licenses for rural service areas #492 (Minnesota 11), #370 (Florida 11), and #615 (Pennsylvania 4).

(4) TENTATIVE SELECTEE.—The term “tentative selectee” means a party that has been selected by the Commission under a licensing proceeding for grant of a license, but has not yet been granted the license because the Commission has not yet determined whether the party is qualified under the Commission’s rules for grant of the license.

**SEC. 1008. TECHNICAL AMENDMENT.**

Section 339(c) of the Communications Act of 1934 (47 U.S.C. 339(c)) is amended by adding at the end the following new paragraph:

“(5) DEFINITION.—Notwithstanding subsection (d)(4), for purposes of paragraphs (2) and (4) of this subsection, the term ‘satellite carrier’ includes a distributor (as defined in section 119(d)(1) of title 17, United States Code), but only if the satellite distributor’s relationship with the subscriber includes billing, collection, service activation, and service deactivation.”.

**SEC. 1009. [47 U.S.C. 1107] SUNSET.**

No loan guarantee may be approved under this Act after December 31, 2006.

**SEC. 1010. [47 U.S.C. 1108] DEFINITIONS.**

In this Act:

(1) AFFILIATE.—The term “affiliate”—

(A) means any person or entity that controls, or is controlled by, or is under common control with, another person or entity; and

(B) may include any individual who is a director or senior management officer of an affiliate, a shareholder controlling more than 25 percent of the voting securities of an affiliate, or more than 25 percent of the ownership interest in an affiliate not organized in stock form.

(2) NONSERVED AREA.—The term “nonserved area” means any area that—

(A) is outside the grade B contour (as determined using standards employed by the Federal Communications Commission) of the local television broadcast signals serving a particular designated market area; and

(B) does not have access to such signals by any commercial, for-profit, multichannel video provider.

(3) UNDERSERVED AREA.—The term “underserved area” means any area that—

(A) is outside the grade A contour (as determined using standards employed by the Federal Communications Commission) of the local television broadcast signals serving a particular designated market area; and

(B) has access to local television broadcast signals from not more than one commercial, for-profit multichannel video provider.

(4) COMMON TERMS.—Except as provided in paragraphs (1) through (3), any term used in this Act that is defined in the

Communications Act of 1934 (47 U.S.C. 151 et seq.) has the meaning given that term in the Communications Act of 1934.

**SEC. 1011. [47 U.S.C. 1109] AUTHORIZATIONS OF APPROPRIATIONS.**

(a) **COST OF LOAN GUARANTEES.—**

(1) **AUTHORIZATION OF APPROPRIATIONS.—**For the cost of the loans guaranteed under this Act, including the cost of modifying the loans, as defined in section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661(a)), there are authorized to be appropriated for fiscal years 2001 through 2006, such amounts as may be necessary.

(2) **COMMODITY CREDIT CORPORATION FUNDS.—**

(A) **IN GENERAL.—**Notwithstanding any other provision of law, subject to subparagraph (B), in addition to amounts made available under paragraph (1), of the funds of the Commodity Credit Corporation, the Secretary of Agriculture shall make available for loan guarantees to carry out this title \$80,000,000 for the period beginning on the date of enactment of this paragraph and ending on December 31, 2006, to remain available until expended.

(B) **BROADBAND LOANS AND LOAN GUARANTEES.—**

(i) **IN GENERAL.—**Amounts made available under subparagraph (A) that are not obligated as of the release date described in clause (ii) shall be available to the Secretary to make loans and loan guarantees under section 601 of the Rural Electrification Act of 1936.

(ii) **RELEASE DATE.—**For purposes of clause (i), the release date is the date that is the earlier of—

(I) the date the Secretary determines that at least 75 percent of the designated market areas (as defined in section 122(j) of title 17, United States Code) not in the top 40 designated market areas described in section 1004(e)(1)(C)(i) of the Launching Our Communities' Access to Local Television Act of 2000 (47 U.S.C. 1103(e)(1)(C)(i)) have access to local television broadcast signals for virtually all households (as determined by the Secretary); or

(II) December 31, 2006.

(C) **ADVANCED APPROPRIATIONS.—**Subsections (c) and (h)(1)(B) of section 1004 and section 1005(n)(3)(B) shall not apply to amounts made available under this paragraph.

(b) **COST OF ADMINISTRATION.—**There is hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act, other than to cover costs under subsection (a).

(c) **AVAILABILITY.—**Any amounts appropriated pursuant to the authorizations of appropriations in subsections (a) and (b) shall remain available until expended.

**SEC. 1012. [47 U.S.C. 1110] PREVENTION OF INTERFERENCE TO DIRECT BROADCAST SATELLITE SERVICES.**

(a) **TESTING FOR HARMFUL INTERFERENCE.—**The Federal Communications Commission shall provide for an independent technical demonstration of any terrestrial service technology proposed by any

entity that has filed an application to provide terrestrial service in the direct broadcast satellite frequency band to determine whether the terrestrial service technology proposed to be provided by that entity will cause harmful interference to any direct broadcast satellite service.

(b) TECHNICAL DEMONSTRATION.—In order to satisfy the requirement of subsection (a) for any pending application, the Commission shall select an engineering firm or other qualified entity independent of any interested party based on a recommendation made by the Institute of Electrical and Electronics Engineers (IEEE), or a similar independent professional organization, to perform the technical demonstration or analysis. The demonstration shall be concluded within 60 days after the date of enactment of this Act and shall be subject to public notice and comment for not more than 30 days thereafter.

(c) DEFINITIONS.—As used in this section:

(1) DIRECT BROADCAST SATELLITE FREQUENCY BAND.—The term “direct broadcast satellite frequency band” means the band of frequencies at 12.2 to 12.7 gigahertz.

(2) DIRECT BROADCAST SATELLITE SERVICE.—The term “direct broadcast satellite service” means any direct broadcast satellite system operating in the direct broadcast satellite frequency band.

## INTERNET TAX FREEDOM ACT

(Titles XI and XII of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999)

\* \* \* \* \*

### TITLE XI—MORATORIUM ON CERTAIN TAXES

#### SEC. 1100. [47 U.S.C. 151 note] SHORT TITLE.

This title may be cited as the “Internet Tax Freedom Act”.

#### SEC. 1101. [47 U.S.C. 151 note] MORATORIUM.

(a) MORATORIUM.—No State or political subdivision thereof shall impose any of the following taxes during the period beginning on October 1, 1998, and ending on November 1, 2003—

- (1) taxes on Internet access, unless such tax was generally imposed and actually enforced prior to October 1, 1998; and
- (2) multiple or discriminatory taxes on electronic commerce.

(b) PRESERVATION OF STATE AND LOCAL TAXING AUTHORITY.—Except as provided in this section, nothing in this title shall be construed to modify, impair, or supersede, or authorize the modification, impairment, or superseding of, any State or local law pertaining to taxation that is otherwise permissible by or under the Constitution of the United States or other Federal law and in effect on the date of enactment of this Act.

(c) LIABILITIES AND PENDING CASES.—Nothing in this title affects liability for taxes accrued and enforced before the date of enactment of this Act, nor does this title affect ongoing litigation relating to such taxes.

(d) DEFINITION OF GENERALLY IMPOSED AND ACTUALLY ENFORCED.—For purposes of this section, a tax has been generally imposed and actually enforced prior to October 1, 1998, if, before that date, the tax was authorized by statute and either—

- (1) a provider of Internet access services had a reasonable opportunity to know by virtue of a rule or other public proclamation made by the appropriate administrative agency of the State or political subdivision thereof, that such agency has interpreted and applied such tax to Internet access services; or
- (2) a State or political subdivision thereof generally collected such tax on charges for Internet access.

(e) EXCEPTION TO MORATORIUM.—

(1) IN GENERAL.—Subsection (a) shall also not apply in the case of any person or entity who knowingly and with knowledge of the character of the material, in interstate or foreign commerce by means of the World Wide Web, makes any communication for commercial purposes that is available to any minor and that includes any material that is harmful to mi-

nors unless such person or entity has restricted access by minors to material that is harmful to minors—

(A) by requiring use of a credit card, debit account, adult access code, or adult personal identification number;

(B) by accepting a digital certificate that verifies age;

or

(C) by any other reasonable measures that are feasible under available technology.

(2) SCOPE OF EXCEPTION.—For purposes of paragraph (1), a person shall not be considered to making a communication for commercial purposes of material to the extent that the person is—

(A) a telecommunications carrier engaged in the provision of a telecommunications service;

(B) a person engaged in the business of providing an Internet access service;

(C) a person engaged in the business of providing an Internet information location tool; or

(D) similarly engaged in the transmission, storage, retrieval, hosting, formatting, or translation (or any combination thereof) of a communication made by another person, without selection or alteration of the communication.

(3) DEFINITIONS.—In this subsection:

(A) BY MEANS OF THE WORLD WIDE WEB.—The term “by means of the World Wide Web” means by placement of material in a computer server-based file archive so that it is publicly accessible, over the Internet, using hypertext transfer protocol, file transfer protocol, or other similar protocols.

(B) COMMERCIAL PURPOSES; ENGAGED IN THE BUSINESS.—

(i) COMMERCIAL PURPOSES.—A person shall be considered to make a communication for commercial purposes only if such person is engaged in the business of making such communications.

(ii) ENGAGED IN THE BUSINESS.—The term “engaged in the business” means that the person who makes a communication, or offers to make a communication, by means of the World Wide Web, that includes any material that is harmful to minors, devotes time, attention, or labor to such activities, as a regular course of such person’s trade or business, with the objective of earning a profit as a result of such activities (although it is not necessary that the person make a profit or that the making or offering to make such communications be the person’s sole or principal business or source of income). A person may be considered to be engaged in the business of making, by means of the World Wide Web, communications for commercial purposes that include material that is harmful to minors, only if the person knowingly causes the material that is harmful to minors to be posted on the World Wide Web or knowingly solicits such material to be posted on the World Wide Web.

(C) INTERNET.—The term “Internet” means collectively the myriad of computer and telecommunications facilities, including equipment and operating software, which comprise the interconnected world-wide network of networks that employ the Transmission Control Protocol/Internet Protocol, or any predecessor or successor protocols to such protocol, to communicate information of all kinds by wire or radio.

(D) INTERNET ACCESS SERVICE.—The term “Internet access service” means a service that enables users to access content, information, electronic mail, or other services offered over the Internet and may also include access to proprietary content, information, and other services as part of a package of services offered to consumers. Such term does not include telecommunications services.

(E) INTERNET INFORMATION LOCATION TOOL.—The term “Internet information location tool” means a service that refers or links users to an online location on the World Wide Web. Such term includes directories, indices, references, pointers, and hypertext links.

(F) MATERIAL THAT IS HARMFUL TO MINORS.—The term “material that is harmful to minors” means any communication, picture, image, graphic image file, article, recording, writing, or other matter of any kind that is obscene or that—

(i) the average person, applying contemporary community standards, would find, taking the material as a whole and with respect to minors, is designed to appeal to, or is designed to pander to, the prurient interest;

(ii) depicts, describes, or represents, in a manner patently offensive with respect to minors, an actual or simulated sexual act or sexual contact, an actual or simulated normal or perverted sexual act, or a lewd exhibition of the genitals or post-pubescent female breast; and

(iii) taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

(G) MINOR.—The term “minor” means any person under 17 years of age.

(H) TELECOMMUNICATIONS CARRIER; TELECOMMUNICATIONS SERVICE.—The terms “telecommunications carrier” and “telecommunications service” have the meanings given such terms in section 3 of the Communications Act of 1934 (47 U.S.C. 153).

(f) ADDITIONAL EXCEPTION TO MORATORIUM.—

(1) IN GENERAL.—Subsection (a) shall also not apply with respect to an Internet access provider, unless, at the time of entering into an agreement with a customer for the provision of Internet access services, such provider offers such customer (either for a fee or at no charge) screening software that is designed to permit the customer to limit access to material on the Internet that is harmful to minors.

(2) DEFINITIONS.—In this subsection:

(A) INTERNET ACCESS PROVIDER.—The term “Internet access provider” means a person engaged in the business of providing a computer and communications facility through which a customer may obtain access to the Internet, but does not include a common carrier to the extent that it provides only telecommunications services.

(B) INTERNET ACCESS SERVICES.—The term “Internet access services” means the provision of computer and communications services through which a customer using a computer and a modem or other communications device may obtain access to the Internet, but does not include telecommunications services provided by a common carrier.

(C) SCREENING SOFTWARE.—The term “screening software” means software that is designed to permit a person to limit access to material on the Internet that is harmful to minors.

(3) APPLICABILITY.—Paragraph (1) shall apply to agreements for the provision of Internet access services entered into on or after the date that is 6 months after the date of enactment of this Act.

**SEC. 1102. [47 U.S.C. 151 note] ADVISORY COMMISSION ON ELECTRONIC COMMERCE.**

(a) ESTABLISHMENT OF COMMISSION.—There is established a commission to be known as the Advisory Commission on Electronic Commerce (in this title referred to as the “Commission”). The Commission shall—

(1) be composed of 19 members appointed in accordance with subsection (b), including the chairperson who shall be selected by the members of the Commission from among themselves; and

(2) conduct its business in accordance with the provisions of this title.

(b) MEMBERSHIP.—

(1) IN GENERAL.—The Commissioners shall serve for the life of the Commission. The membership of the Commission shall be as follows:

(A) 3 representatives from the Federal Government, comprised of the Secretary of Commerce, the Secretary of the Treasury, and the United States Trade Representative (or their respective delegates).

(B) 8 representatives from State and local governments (one such representative shall be from a State or local government that does not impose a sales tax and one representative shall be from a State that does not impose an income tax).

(C) 8 representatives of the electronic commerce industry (including small business), telecommunications carriers, local retail businesses, and consumer groups, comprised of—

(i) 5 individuals appointed by the Majority Leader of the Senate;

(ii) 3 individuals appointed by the Minority Leader of the Senate;

(iii) 5 individuals appointed by the Speaker of the House of Representatives; and

(iv) 3 individuals appointed by the Minority Leader of the House of Representatives.

(2) APPOINTMENTS.—Appointments to the Commission shall be made not later than 45 days after the date of the enactment of this Act. The chairperson shall be selected not later than 60 days after the date of the enactment of this Act.

(3) VACANCIES.—Any vacancy in the Commission shall not affect its powers, but shall be filled in the same manner as the original appointment.

(c) ACCEPTANCE OF GIFTS AND GRANTS.—The Commission may accept, use, and dispose of gifts or grants of services or property, both real and personal, for purposes of aiding or facilitating the work of the Commission. Gifts or grants not used at the expiration of the Commission shall be returned to the donor or grantor.

(d) OTHER RESOURCES.—The Commission shall have reasonable access to materials, resources, data, and other information from the Department of Justice, the Department of Commerce, the Department of State, the Department of the Treasury, and the Office of the United States Trade Representative. The Commission shall also have reasonable access to use the facilities of any such Department or Office for purposes of conducting meetings.

(e) SUNSET.—The Commission shall terminate 18 months after the date of the enactment of this Act.

(f) RULES OF THE COMMISSION.—

(1) QUORUM.—Nine members of the Commission shall constitute a quorum for conducting the business of the Commission.

(2) MEETINGS.—Any meetings held by the Commission shall be duly noticed at least 14 days in advance and shall be open to the public.

(3) OPPORTUNITIES TO TESTIFY.—The Commission shall provide opportunities for representatives of the general public, taxpayer groups, consumer groups, and State and local government officials to testify.

(4) ADDITIONAL RULES.—The Commission may adopt other rules as needed.

(g) DUTIES OF THE COMMISSION.—

(1) IN GENERAL.—The Commission shall conduct a thorough study of Federal, State and local, and international taxation and tariff treatment of transactions using the Internet and Internet access and other comparable intrastate, interstate or international sales activities.

(2) ISSUES TO BE STUDIED.—The Commission may include in the study under subsection (a)—

(A) an examination of—

(i) barriers imposed in foreign markets on United States providers of property, goods, services, or information engaged in electronic commerce and on United States providers of telecommunications services; and

(ii) how the imposition of such barriers will affect United States consumers, the competitiveness of United States citizens providing property, goods, serv-

ices, or information in foreign markets, and the growth and maturing of the Internet;

(B) an examination of the collection and administration of consumption taxes on electronic commerce in other countries and the United States, and the impact of such collection on the global economy, including an examination of the relationship between the collection and administration of such taxes when the transaction uses the Internet and when it does not;

(C) an examination of the impact of the Internet and Internet access (particularly voice transmission) on the revenue base for taxes imposed under section 4251 of the Internal Revenue Code of 1986;

(D) an examination of model State legislation that—

(i) would provide uniform definitions of categories of property, goods, service, or information subject to or exempt from sales and use taxes; and

(ii) would ensure that Internet access services, online services, and communications and transactions using the Internet, Internet access service, or online services would be treated in a tax and technologically neutral manner relative to other forms of remote sales;

(E) an examination of the effects of taxation, including the absence of taxation, on all interstate sales transactions, including transactions using the Internet, on retail businesses and on State and local governments, which examination may include a review of the efforts of State and local governments to collect sales and use taxes owed on in-State purchases from out-of-State sellers; and

(F) the examination of ways to simplify Federal and State and local taxes imposed on the provision of telecommunications services.

(3) EFFECT ON THE COMMUNICATIONS ACT OF 1934.—Nothing in this section shall include an examination of any fees or charges imposed by the Federal Communications Commission or States related to—

(A) obligations under the Communications Act of 1934 (47 U.S.C. 151 et seq.); or

(B) the implementation of the Telecommunications Act of 1996 (or of amendments made by that Act).

(h) NATIONAL TAX ASSOCIATION COMMUNICATIONS AND ELECTRONIC COMMERCE TAX PROJECT.—The Commission shall, to the extent possible, ensure that its work does not undermine the efforts of the National Tax Association Communications and Electronic Commerce Tax Project.

**SEC. 1103. [47 U.S.C. 151 note] REPORT.**

Not later than 18 months after the date of the enactment of this Act, the Commission shall transmit to Congress for its consideration a report reflecting the results, including such legislative recommendations as required to address the findings of the Commission's study under this title. Any recommendation agreed to by the Commission shall be tax and technologically neutral and apply to all forms of remote commerce. No finding or recommendation

shall be included in the report unless agreed to by at least two-thirds of the members of the Commission serving at the time the finding or recommendation is made.

**SEC. 1104. [47 U.S.C. 151 note] DEFINITIONS.**

For the purposes of this title:

(1) **BIT TAX.**—The term “bit tax” means any tax on electronic commerce expressly imposed on or measured by the volume of digital information transmitted electronically, or the volume of digital information per unit of time transmitted electronically, but does not include taxes imposed on the provision of telecommunications services.

(2) **DISCRIMINATORY TAX.**—The term “discriminatory tax” means—

(A) any tax imposed by a State or political subdivision thereof on electronic commerce that—

(i) is not generally imposed and legally collectible by such State or such political subdivision on transactions involving similar property, goods, services, or information accomplished through other means;

(ii) is not generally imposed and legally collectible at the same rate by such State or such political subdivision on transactions involving similar property, goods, services, or information accomplished through other means, unless the rate is lower as part of a phase-out of the tax over not more than a 5-year period;

(iii) imposes an obligation to collect or pay the tax on a different person or entity than in the case of transactions involving similar property, goods, services, or information accomplished through other means;

(iv) establishes a classification of Internet access service providers or online service providers for purposes of establishing a higher tax rate to be imposed on such providers than the tax rate generally applied to providers of similar information services delivered through other means; or

(B) any tax imposed by a State or political subdivision thereof, if—

(i) except with respect to a tax (on Internet access) that was generally imposed and actually enforced prior to October 1, 1998, the sole ability to access a site on a remote seller’s out-of-State computer server is considered a factor in determining a remote seller’s tax collection obligation; or

(ii) a provider of Internet access service or online services is deemed to be the agent of a remote seller for determining tax collection obligations solely as a result of—

(I) the display of a remote seller’s information or content on the out-of-State computer server of a provider of Internet access service or online services; or

(II) the processing of orders through the out-of-State computer server of a provider of Internet access service or online services.

(3) **ELECTRONIC COMMERCE.**—The term “electronic commerce” means any transaction conducted over the Internet or through Internet access, comprising the sale, lease, license, offer, or delivery of property, goods, services, or information, whether or not for consideration, and includes the provision of Internet access.

(4) **INTERNET.**—The term “Internet” means collectively the myriad of computer and telecommunications facilities, including equipment and operating software, which comprise the interconnected world-wide network of networks that employ the Transmission Control Protocol/Internet Protocol, or any predecessor or successor protocols to such protocol, to communicate information of all kinds by wire or radio.

(5) **INTERNET ACCESS.**—The term “Internet access” means a service that enables users to access content, information, electronic mail, or other services offered over the Internet, and may also include access to proprietary content, information, and other services as part of a package of services offered to users. Such term does not include telecommunications services.

(6) **MULTIPLE TAX.**—

(A) **IN GENERAL.**—The term “multiple tax” means any tax that is imposed by one State or political subdivision thereof on the same or essentially the same electronic commerce that is also subject to another tax imposed by another State or political subdivision thereof (whether or not at the same rate or on the same basis), without a credit (for example, a resale exemption certificate) for taxes paid in other jurisdictions.

(B) **EXCEPTION.**—Such term shall not include a sales or use tax imposed by a State and 1 or more political subdivisions thereof on the same electronic commerce or a tax on persons engaged in electronic commerce which also may have been subject to a sales or use tax thereon.

(C) **SALES OR USE TAX.**—For purposes of subparagraph (B), the term “sales or use tax” means a tax that is imposed on or incident to the sale, purchase, storage, consumption, distribution, or other use of tangible personal property or services as may be defined by laws imposing such tax and which is measured by the amount of the sales price or other charge for such property or service.

(7) **STATE.**—The term “State” means any of the several States, the District of Columbia, or any commonwealth, territory, or possession of the United States.

(8) **TAX.**—

(A) **IN GENERAL.**—The term “tax” means—

(i) any charge imposed by any governmental entity for the purpose of generating revenues for governmental purposes, and is not a fee imposed for a specific privilege, service, or benefit conferred; or

(ii) the imposition on a seller of an obligation to collect and to remit to a governmental entity any sales

or use tax imposed on a buyer by a governmental entity.

(B) EXCEPTION.—Such term does not include any franchise fee or similar fee imposed by a State or local franchising authority, pursuant to section 622 or 653 of the Communications Act of 1934 (47 U.S.C. 542, 573), or any other fee related to obligations or telecommunications carriers under the Communications Act of 1934 (47 U.S.C. 151 et seq.).

(9) TELECOMMUNICATIONS SERVICE.—The term “telecommunications service” has the meaning given such term in section 3(46) of the Communications Act of 1934 (47 U.S.C. 153(46)) and includes communications services (as defined in section 4251 of the Internal Revenue Code of 1986).

(10) TAX ON INTERNET ACCESS.—The term “tax on Internet access” means a tax on Internet access, including the enforcement or application of any new or preexisting tax on the sale or use of Internet services unless such tax was generally imposed and actually enforced prior to October 1, 1998.

## TITLE XII—OTHER PROVISIONS

### SEC. 1201. DECLARATION THAT INTERNET SHOULD BE FREE OF NEW FEDERAL TAXES.

It is the sense of Congress that no new Federal taxes similar to the taxes described in section 1101(a) should be enacted with respect to the Internet and Internet access during the moratorium provided in such section.

### SEC. 1202. NATIONAL TRADE ESTIMATE.

Section 181 of the Trade Act of 1974 (19 U.S.C. 2241) is amended—

(1) in subsection (a)(1)—

(A) in subparagraph (A)—

(i) by striking “and” at the end of clause (i);

(ii) by inserting “and” at the end of clause (ii); and

(iii) by inserting after clause (ii) the following new

clause:

“(iii) United States electronic commerce,”; and

(B) in subparagraph (C)—

(i) by striking “and” at the end of clause (i);

(ii) by inserting “and” at the end of clause (ii);

(iii) by inserting after clause (ii) the following new

clause:

“(iii) the value of additional United States electronic commerce,”; and

(iv) by inserting “or transacted with,” after “or invested in”;

(2) in subsection (a)(2)(E)—

(A) by striking “and” at the end of clause (i);

(B) by inserting “and” at the end of clause (ii); and

(C) by inserting after clause (ii) the following new

clause:

“(iii) the value of electronic commerce transacted with,”; and

(3) by adding at the end the following new subsection:

“(d) ELECTRONIC COMMERCE.—For purposes of this section, the term ‘electronic commerce’ has the meaning given that term in section 1104(3) of the Internet Tax Freedom Act.”.

**SEC. 1203. [19 U.S.C. 2241 note] DECLARATION THAT THE INTERNET SHOULD BE FREE OF FOREIGN TARIFFS, TRADE BARRIERS, AND OTHER RESTRICTIONS.**

(a) IN GENERAL.—It is the sense of Congress that the President should seek bilateral, regional, and multilateral agreements to remove barriers to global electronic commerce through the World Trade Organization, the Organization for Economic Cooperation and Development, the Trans-Atlantic Economic Partnership, the Asia Pacific Economic Cooperation forum, the Free Trade Area of the America, the North American Free Trade Agreement, and other appropriate venues.

(b) NEGOTIATING OBJECTIVES.—The negotiating objectives of the United States shall be—

- (1) to assure that electronic commerce is free from—
  - (A) tariff and nontariff barriers;
  - (B) burdensome and discriminatory regulation and standards; and
  - (C) discriminatory taxation; and
- (2) to accelerate the growth of electronic commerce by expanding market access opportunities for—
  - (A) the development of telecommunications infrastructure;
  - (B) the procurement of telecommunications equipment;
  - (C) the provision of Internet access and telecommunications services; and
  - (D) the exchange of goods, services, and digitalized information.

(c) ELECTRONIC COMMERCE.—For purposes of this section, the term “electronic commerce” has the meaning given that term in section 1104(3).

**SEC. 1204. [19 U.S.C. 2241 note] NO EXPANSION OF TAX AUTHORITY.**

Nothing in this title shall be construed to expand the duty of any person to collect or pay taxes beyond that which existed immediately before the date of the enactment of this Act.

**SEC. 1205. [19 U.S.C. 2241 note] PRESERVATION OF AUTHORITY.**

Nothing in this title shall limit or otherwise affect the implementation of the Telecommunications Act of 1996 (Public Law 104–104) or the amendments made by such Act.

**SEC. 1206. [19 U.S.C. 2241 note] SEVERABILITY.**

If any provision of this title, or any amendment made by this title, or the application of that provision to any person or circumstance, is held by a court of competent jurisdiction to violate any provision of the Constitution of the United States, then the other provisions of that title, and the application of that provision to other persons and circumstances, shall not be affected.

**CHILDREN'S ONLINE PRIVACY PROTECTION ACT OF  
1998**

---

---

## CHILDREN'S ONLINE PRIVACY PROTECTION ACT OF 1998

(Title XIII of the Omnibus Consolidated and Emergency Supplemental  
Appropriations Act, 1999)

\* \* \* \* \*

### TITLE XIII—CHILDREN'S ONLINE PRIVACY PROTECTION

#### SEC. 1301. [15 U.S.C. 6501 note] SHORT TITLE.

This title may be cited as the “Children’s Online Privacy Protection Act of 1998”.

#### SEC. 1302. [15 U.S.C. 6501] DEFINITIONS.

In this title:

(1) CHILD.—The term “child” means an individual under the age of 13.

(2) OPERATOR.—The term “operator”—

(A) means any person who operates a website located on the Internet or an online service and who collects or maintains personal information from or about the users of or visitors to such website or online service, or on whose behalf such information is collected or maintained, where such website or online service is operated for commercial purposes, including any person offering products or services for sale through that website or online service, involving commerce—

(i) among the several States or with 1 or more foreign nations;

(ii) in any territory of the United States or in the District of Columbia, or between any such territory and—

(I) another such territory; or

(II) any State or foreign nation; or

(iii) between the District of Columbia and any State, territory, or foreign nation; but

(B) does not include any nonprofit entity that would otherwise be exempt from coverage under section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

(3) COMMISSION.—The term “Commission” means the Federal Trade Commission.

(4) DISCLOSURE.—The term “disclosure” means, with respect to personal information—

(A) the release of personal information collected from a child in identifiable form by an operator for any purpose, except where such information is provided to a person other than the operator who provides support for the inter-

nal operations of the website and does not disclose or use that information for any other purpose; and

(B) making personal information collected from a child by a website or online service directed to children or with actual knowledge that such information was collected from a child, publicly available in identifiable form, by any means including by a public posting, through the Internet, or through—

- (i) a home page of a website;
- (ii) a pen pal service;
- (iii) an electronic mail service;
- (iv) a message board; or
- (v) a chat room.

(5) FEDERAL AGENCY.—The term “Federal agency” means an agency, as that term is defined in section 551(1) of title 5, United States Code.

(6) INTERNET.—The term “Internet” means collectively the myriad of computer and telecommunications facilities, including equipment and operating software, which comprise the interconnected world-wide network of networks that employ the Transmission Control Protocol/Internet Protocol, or any predecessor or successor protocols to such protocol, to communicate information of all kinds by wire or radio.

(7) PARENT.—The term “parent” includes a legal guardian.

(8) PERSONAL INFORMATION.—The term “personal information” means individually identifiable information about an individual collected online, including—

- (A) a first and last name;
- (B) a home or other physical address including street name and name of a city or town;
- (C) an e-mail address;
- (D) a telephone number;
- (E) a Social Security number;
- (F) any other identifier that the Commission determines permits the physical or online contacting of a specific individual; or

(G) information concerning the child or the parents of that child that the website collects online from the child and combines with an identifier described in this paragraph.

(9) VERIFIABLE PARENTAL CONSENT.—The term “verifiable parental consent” means any reasonable effort (taking into consideration available technology), including a request for authorization for future collection, use, and disclosure described in the notice, to ensure that a parent of a child receives notice of the operator’s personal information collection, use, and disclosure practices, and authorizes the collection, use, and disclosure, as applicable, of personal information and the subsequent use of that information before that information is collected from that child.

(10) WEBSITE OR ONLINE SERVICE DIRECTED TO CHILDREN.—

(A) IN GENERAL.—The term “website or online service directed to children” means—

(i) a commercial website or online service that is targeted to children; or

(ii) that portion of a commercial website or online service that is targeted to children.

(B) LIMITATION.—A commercial website or online service, or a portion of a commercial website or online service, shall not be deemed directed to children solely for referring or linking to a commercial website or online service directed to children by using information location tools, including a directory, index, reference, pointer, or hypertext link.

(11) PERSON.—The term “person” means any individual, partnership, corporation, trust, estate, cooperative, association, or other entity.

(12) ONLINE CONTACT INFORMATION.—The term “online contact information” means an e-mail address or another substantially similar identifier that permits direct contact with a person online.

**SEC. 1303. [15 U.S.C. 6502] REGULATION OF UNFAIR AND DECEPTIVE ACTS AND PRACTICES IN CONNECTION WITH THE COLLECTION AND USE OF PERSONAL INFORMATION FROM AND ABOUT CHILDREN ON THE INTERNET.**

(a) ACTS PROHIBITED.—

(1) IN GENERAL.—It is unlawful for an operator of a website or online service directed to children, or any operator that has actual knowledge that it is collecting personal information from a child, to collect personal information from a child in a manner that violates the regulations prescribed under subsection (b).

(2) DISCLOSURE TO PARENT PROTECTED.—Notwithstanding paragraph (1), neither an operator of such a website or online service nor the operator’s agent shall be held to be liable under any Federal or State law for any disclosure made in good faith and following reasonable procedures in responding to a request for disclosure of personal information under subsection (b)(1)(B)(iii) to the parent of a child.

(b) REGULATIONS.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, the Commission shall promulgate under section 553 of title 5, United States Code, regulations that—

(A) require the operator of any website or online service directed to children that collects personal information from children or the operator of a website or online service that has actual knowledge that it is collecting personal information from a child—

(i) to provide notice on the website of what information is collected from children by the operator, how the operator uses such information, and the operator’s disclosure practices for such information; and

(ii) to obtain verifiable parental consent for the collection, use, or disclosure of personal information from children;

(B) require the operator to provide, upon request of a parent under this subparagraph whose child has provided

personal information to that website or online service, upon proper identification of that parent, to such parent—

(i) a description of the specific types of personal information collected from the child by that operator;

(ii) the opportunity at any time to refuse to permit the operator's further use or maintenance in retrievable form, or future online collection, of personal information from that child; and

(iii) notwithstanding any other provision of law, a means that is reasonable under the circumstances for the parent to obtain any personal information collected from that child;

(C) prohibit conditioning a child's participation in a game, the offering of a prize, or another activity on the child disclosing more personal information than is reasonably necessary to participate in such activity; and

(D) require the operator of such a website or online service to establish and maintain reasonable procedures to protect the confidentiality, security, and integrity of personal information collected from children.

(2) WHEN CONSENT NOT REQUIRED.—The regulations shall provide that verifiable parental consent under paragraph (1)(A)(ii) is not required in the case of—

(A) online contact information collected from a child that is used only to respond directly on a one-time basis to a specific request from the child and is not used to recontact the child and is not maintained in retrievable form by the operator;

(B) a request for the name or online contact information of a parent or child that is used for the sole purpose of obtaining parental consent or providing notice under this section and where such information is not maintained in retrievable form by the operator if parental consent is not obtained after a reasonable time;

(C) online contact information collected from a child that is used only to respond more than once directly to a specific request from the child and is not used to recontact the child beyond the scope of that request—

(i) if, before any additional response after the initial response to the child, the operator uses reasonable efforts to provide a parent notice of the online contact information collected from the child, the purposes for which it is to be used, and an opportunity for the parent to request that the operator make no further use of the information and that it not be maintained in retrievable form; or

(ii) without notice to the parent in such circumstances as the Commission may determine are appropriate, taking into consideration the benefits to the child of access to information and services, and risks to the security and privacy of the child, in regulations promulgated under this subsection;

(D) the name of the child and online contact information (to the extent reasonably necessary to protect the safety of a child participant on the site)—

- (i) used only for the purpose of protecting such safety;
- (ii) not used to recontact the child or for any other purpose; and
- (iii) not disclosed on the site,

if the operator uses reasonable efforts to provide a parent notice of the name and online contact information collected from the child, the purposes for which it is to be used, and an opportunity for the parent to request that the operator make no further use of the information and that it not be maintained in retrievable form; or

(E) the collection, use, or dissemination of such information by the operator of such a website or online service necessary—

- (i) to protect the security or integrity of its website;
- (ii) to take precautions against liability;
- (iii) to respond to judicial process; or
- (iv) to the extent permitted under other provisions of law, to provide information to law enforcement agencies or for an investigation on a matter related to public safety.

(3) **TERMINATION OF SERVICE.**—The regulations shall permit the operator of a website or an online service to terminate service provided to a child whose parent has refused, under the regulations prescribed under paragraph (1)(B)(ii), to permit the operator's further use or maintenance in retrievable form, or future online collection, of personal information from that child.

(c) **ENFORCEMENT.**—Subject to sections 1304 and 1306, a violation of a regulation prescribed under subsection (a) shall be treated as a violation of a rule defining an unfair or deceptive act or practice prescribed under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(d) **INCONSISTENT STATE LAW.**—No State or local government may impose any liability for commercial activities or actions by operators in interstate or foreign commerce in connection with an activity or action described in this title that is inconsistent with the treatment of those activities or actions under this section.

**SEC. 1304. [15 U.S.C. 6503] SAFE HARBORS.**

(a) **GUIDELINES.**—An operator may satisfy the requirements of regulations issued under section 1303(b) by following a set of self-regulatory guidelines, issued by representatives of the marketing or online industries, or by other persons, approved under subsection (b).

(b) **INCENTIVES.**—

(1) **SELF-REGULATORY INCENTIVES.**—In prescribing regulations under section 1303, the Commission shall provide incentives for self-regulation by operators to implement the protections afforded children under the regulatory requirements described in subsection (b) of that section.

(2) **DEEMED COMPLIANCE.**—Such incentives shall include provisions for ensuring that a person will be deemed to be in compliance with the requirements of the regulations under sec-

tion 1303 if that person complies with guidelines that, after notice and comment, are approved by the Commission upon making a determination that the guidelines meet the requirements of the regulations issued under section 1303.

(3) EXPEDITED RESPONSE TO REQUESTS.—The Commission shall act upon requests for safe harbor treatment within 180 days of the filing of the request, and shall set forth in writing its conclusions with regard to such requests.

(c) APPEALS.—Final action by the Commission on a request for approval of guidelines, or the failure to act within 180 days on a request for approval of guidelines, submitted under subsection (b) may be appealed to a district court of the United States of appropriate jurisdiction as provided for in section 706 of title 5, United States Code.

**SEC. 1305. [15 U.S.C. 6504] ACTIONS BY STATES.**

(a) IN GENERAL.—

(1) CIVIL ACTIONS.—In any case in which the attorney general of a State has reason to believe that an interest of the residents of that State has been or is threatened or adversely affected by the engagement of any person in a practice that violates any regulation of the Commission prescribed under section 1303(b), the State, as *parens patriae*, may bring a civil action on behalf of the residents of the State in a district court of the United States of appropriate jurisdiction to—

(A) enjoin that practice;

(B) enforce compliance with the regulation;

(C) obtain damage, restitution, or other compensation on behalf of residents of the State; or

(D) obtain such other relief as the court may consider to be appropriate.

(2) NOTICE.—

(A) IN GENERAL.—Before filing an action under paragraph (1), the attorney general of the State involved shall provide to the Commission—

(i) written notice of that action; and

(ii) a copy of the complaint for that action.

(B) EXEMPTION.—

(i) IN GENERAL.—Subparagraph (A) shall not apply with respect to the filing of an action by an attorney general of a State under this subsection, if the attorney general determines that it is not feasible to provide the notice described in that subparagraph before the filing of the action.

(ii) NOTIFICATION.—In an action described in clause (i), the attorney general of a State shall provide notice and a copy of the complaint to the Commission at the same time as the attorney general files the action.

(b) INTERVENTION.—

(1) IN GENERAL.—On receiving notice under subsection (a)(2), the Commission shall have the right to intervene in the action that is the subject of the notice.

(2) EFFECT OF INTERVENTION.—If the Commission intervenes in an action under subsection (a), it shall have the right—

(A) to be heard with respect to any matter that arises in that action; and

(B) to file a petition for appeal.

(3) AMICUS CURIAE.—Upon application to the court, a person whose self-regulatory guidelines have been approved by the Commission and are relied upon as a defense by any defendant to a proceeding under this section may file amicus curiae in that proceeding.

(c) CONSTRUCTION.—For purposes of bringing any civil action under subsection (a), nothing in this title shall be construed to prevent an attorney general of a State from exercising the powers conferred on the attorney general by the laws of that State to—

(1) conduct investigations;

(2) administer oaths or affirmations; or

(3) compel the attendance of witnesses or the production of documentary and other evidence.

(d) ACTIONS BY THE COMMISSION.—In any case in which an action is instituted by or on behalf of the Commission for violation of any regulation prescribed under section 1303, no State may, during the pendency of that action, institute an action under subsection (a) against any defendant named in the complaint in that action for violation of that regulation.

(e) VENUE; SERVICE OF PROCESS.—

(1) VENUE.—Any action brought under subsection (a) may be brought in the district court of the United States that meets applicable requirements relating to venue under section 1391 of title 28, United States Code.

(2) SERVICE OF PROCESS.—In an action brought under subsection (a), process may be served in any district in which the defendant—

(A) is an inhabitant; or

(B) may be found.

**SEC. 1306. [15 U.S.C. 6505] ADMINISTRATION AND APPLICABILITY OF ACT.**

(a) IN GENERAL.—Except as otherwise provided, this title shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(b) PROVISIONS.—Compliance with the requirements imposed under this title shall be enforced under—

(1) section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818), in the case of—

(A) national banks, and Federal branches and Federal agencies of foreign banks, by the Office of the Comptroller of the Currency;

(B) member banks of the Federal Reserve System (other than national banks), branches and agencies of foreign banks (other than Federal branches, Federal agencies, and insured State branches of foreign banks), commercial lending companies owned or controlled by foreign banks, and organizations operating under section 25 or 25(a) of the Federal Reserve Act (12 U.S.C. 601 et seq. and 611 et seq.), by the Board; and

(C) banks insured by the Federal Deposit Insurance Corporation (other than members of the Federal Reserve System) and insured State branches of foreign banks, by the Board of Directors of the Federal Deposit Insurance Corporation;

(2) section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818), by the Director of the Office of Thrift Supervision, in the case of a savings association the deposits of which are insured by the Federal Deposit Insurance Corporation;

(3) the Federal Credit Union Act (12 U.S.C. 1751 et seq.) by the National Credit Union Administration Board with respect to any Federal credit union;

(4) part A of subtitle VII of title 49, United States Code, by the Secretary of Transportation with respect to any air carrier or foreign air carrier subject to that part;

(5) the Packers and Stockyards Act, 1921 (7 U.S.C. 181 et seq.) (except as provided in section 406 of that Act (7 U.S.C. 226, 227)), by the Secretary of Agriculture with respect to any activities subject to that Act; and

(6) the Farm Credit Act of 1971 (12 U.S.C. 2001 et seq.) by the Farm Credit Administration with respect to any Federal land bank, Federal land bank association, Federal intermediate credit bank, or production credit association.

(c) EXERCISE OF CERTAIN POWERS.—For the purpose of the exercise by any agency referred to in subsection (a) of its powers under any Act referred to in that subsection, a violation of any requirement imposed under this title shall be deemed to be a violation of a requirement imposed under that Act. In addition to its powers under any provision of law specifically referred to in subsection (a), each of the agencies referred to in that subsection may exercise, for the purpose of enforcing compliance with any requirement imposed under this title, any other authority conferred on it by law.

(d) ACTIONS BY THE COMMISSION.—The Commission shall prevent any person from violating a rule of the Commission under section 1303 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this title. Any entity that violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal Trade Commission Act were incorporated into and made a part of this title.

(e) EFFECT ON OTHER LAWS.—Nothing contained in the Act shall be construed to limit the authority of the Commission under any other provisions of law.

**SEC. 1307. [15 U.S.C. 6506] REVIEW.**

Not later than 5 years after the effective date of the regulations initially issued under section 1303, the Commission shall—

(1) review the implementation of this title, including the effect of the implementation of this title on practices relating to the collection and disclosure of information relating to children, children's ability to obtain access to information of their choice online, and on the availability of websites directed to children; and

(2) prepare and submit to Congress a report on the results of the review under paragraph (1).

**SEC. 1308. [15 U.S.C. 6501 note] EFFECTIVE DATE.**

Sections 1303(a), 1305, and 1306 of this title take effect on the later of—

(1) the date that is 18 months after the date of enactment of this Act; or

(2) the date on which the Commission rules on the first application filed for safe harbor treatment under section 1304 if the Commission does not rule on the first such application within one year after the date of enactment of this Act, but in no case later than the date that is 30 months after the date of enactment of this Act.

---

---

**TITLE III OF THE BALANCED BUDGET ACT OF 1997**

---

---

**BALANCED BUDGET ACT OF 1997**

**TITLE III—COMMUNICATIONS AND  
SPECTRUM ALLOCATION PROVISIONS**

**SEC. 3001. [47 U.S.C. 153 nt] DEFINITIONS.**

(a) [47 U.S.C. 153 nt] COMMON TERMINOLOGY.—Except as otherwise provided in this title, the terms used in this title have the meanings provided in section 3 of the Communications Act of 1934 (47 U.S.C. 153), as amended by this section.

\* \* \* \* \*

**SEC. 3002. SPECTRUM AUCTIONS.**

(a) \* \* \*

(b) [47 U.S.C. 925 nt] ACCELERATED AVAILABILITY FOR AUCTION OF 1,710–1,755 MEGAHERTZ FROM INITIAL REALLOCATION REPORT.—The band of frequencies located at 1,710-1,755 megahertz identified in the initial reallocation report under section 113(a) of the National Telecommunications and Information Administration Act (47 U.S.C. 923(a)) shall, notwithstanding the timetable recommended under section 113(e) of such Act and section 115(b)(1) of such Act, be available in accordance with this subsection for assignment for commercial use. The Commission shall assign licenses for such use by competitive bidding commenced after January 1, 2001, pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)).

(c) [47 U.S.C. 925 nt] COMMISSION OBLIGATION TO MAKE ADDITIONAL SPECTRUM AVAILABLE BY AUCTION.—

(1) IN GENERAL.—The Commission shall complete all actions necessary to permit the assignment by September 30, 2002, by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), of licenses for the use of bands of frequencies that—

(A) in the aggregate span not less than 55 megahertz;  
(B) are located below 3 gigahertz;

(C) have not, as of the date of enactment of this Act—  
(i) been designated by Commission regulation for assignment pursuant to such section;

(ii) been identified by the Secretary of Commerce pursuant to section 113 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923);

(iii) been allocated for Federal Government use pursuant to section 305 of the Communications Act of 1934 (47 U.S.C. 305);

(iv) been designated for reallocation under section 337 of the Communications Act of 1934 (as added by this Act); or

(v) been allocated or authorized for unlicensed use pursuant to part 15 of the Commission's regulations (47 C.F.R. Part 15), if the operation of services licensed pursuant to competitive bidding would interfere with operation of end-user products permitted under such regulations;

(D) include frequencies at 2,110–2,150 megahertz; and

(E) include 15 megahertz from within the bands of frequencies at 1,990–2,110 megahertz.

(2) CRITERIA FOR REASSIGNMENT.—In making available bands of frequencies for competitive bidding pursuant to paragraph (1), the Commission shall—

(A) seek to promote the most efficient use of the electromagnetic spectrum;

(B) consider the cost of relocating existing uses to other bands of frequencies or other means of communication;

(C) consider the needs of existing public safety radio services (as such services are described in section 309(j)(2)(A) of the Communications Act of 1934, as amended by this Act);

(D) comply with the requirements of international agreements concerning spectrum allocations; and

(E) coordinate with the Secretary of Commerce when there is any impact on Federal Government spectrum use.

(3) USE OF BANDS AT 2,110-2,150 MEGAHERTZ.—The Commission shall reallocate spectrum located at 2,110-2,150 megahertz for assignment by competitive bidding unless the Commission determines that auction of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce greater receipts. If the Commission makes such a determination, then the Commission shall, within 2 years after the date of enactment of this Act, identify an alternative 40 megahertz, and report to the Congress an identification of such alternative 40 megahertz for assignment by competitive bidding.

(4) USE OF 15 MEGAHERTZ FROM BANDS AT 1,990-2,110 MEGAHERTZ.—The Commission shall reallocate 15 megahertz from spectrum located at 1,990-2,110 megahertz for assignment by competitive bidding unless the President determines such spectrum cannot be reallocated due to the need to protect incumbent Federal systems from interference, and that allocation of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce comparable receipts. If the President makes such a determination, then the President shall, within 2 years after the date of enactment of this Act, identify alternative bands of frequencies totalling 15 megahertz, and report to the Congress an identification of such alternative bands for assignment by competitive bidding.

(5) NOTIFICATION TO THE SECRETARY OF COMMERCE.—The Commission shall attempt to accommodate incumbent licensees

displaced under this section by relocating them to other frequencies available for allocation by the Commission. The Commission shall notify the Secretary of Commerce whenever the Commission is not able to provide for the effective relocation of an incumbent licensee to a band of frequencies available to the Commission for assignment. The notification shall include—

- (A) specific information on the incumbent licensee;
- (B) the bands the Commission considered for relocation of the licensee;
- (C) the reasons the licensee cannot be accommodated in such bands; and
- (D) the bands of frequencies identified by the Commission that are—
  - (i) suitable for the relocation of such licensee; and
  - (ii) allocated for Federal Government use, but that could be reallocated pursuant to part B of the National Telecommunications and Information Administration Organization Act (as amended by this Act).

\* \* \* \* \*

**SEC. 3006. [47 U.S.C. 254 nt] UNIVERSAL SERVICE FUND PAYMENT SCHEDULE.**

(a) APPROPRIATIONS TO THE UNIVERSAL SERVICE FUND.—

(1) APPROPRIATION.—There is hereby appropriated to the Commission \$3,000,000,000 in fiscal year 2001, which shall be disbursed on October 1, 2000, to the Administrator of the Federal universal service support programs established pursuant to section 254 of the Communications Act of 1934 (47 U.S.C. 254), and which may be expended by the Administrator in support of such programs as provided pursuant to the rules implementing that section.

(2) RETURN TO TREASURY.—The Administrator shall transfer \$3,000,000,000 from the funds collected for such support programs to the General Fund of the Treasury on October 1, 2001.

(b) FEE ADJUSTMENTS.—The Commission shall direct the Administrator to adjust payments by telecommunications carriers and other providers of interstate telecommunications so that the \$3,000,000,000 of the total payments by such carriers or providers to the Administrator for fiscal year 2001 shall be deferred until October 1, 2001.

(c) PRESERVATION OF AUTHORITY.—Nothing in this section shall affect the Administrator's authority to determine the amounts that should be expended for universal service support programs pursuant to section 254 of the Communications Act of 1934 and the rules implementing that section.

(d) DEFINITION.—For purposes of this section, the term "Administrator" means the Administrator designated by the Federal Communications Commission to administer Federal universal service support programs pursuant to section 254 of the Communications Act of 1934.

**SEC. 3007. [47 U.S.C. 309 nt] DEADLINE FOR COLLECTION.**

The Commission shall conduct the competitive bidding required under this title or the amendments made by this title in a

manner that ensures that all proceeds of such bidding are deposited in accordance with section 309(j)(8) of the Communications Act of 1934 not later than September 30, 2002.

**SEC. 3008. [47 U.S.C. 309 nt] ADMINISTRATIVE PROCEDURES FOR SPECTRUM AUCTIONS.**

Notwithstanding section 309(b) of the Communications Act of 1934 (47 U.S.C. 309(b)), no application for an instrument of authorization for frequencies assigned under this title (or amendments made by this title) shall be granted by the Commission earlier than 7 days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereto. Notwithstanding section 309(d)(1) of such Act (47 U.S.C. 309(d)(1)), the Commission may specify a period (no less than 5 days following issuance of such public notice) for the filing of petitions to deny any application for an instrument of authorization for such frequencies.

---

**TELECOMMUNICATIONS ACT OF 1996**

---

---

## TELECOMMUNICATIONS ACT OF 1996<sup>1</sup>

AN ACT To promote competition and reduce regulation in order to secure lower prices and higher quality services for American telecommunications consumers and encourage the rapid deployment of new telecommunications technologies.

\* \* \* \* \*

### SEC. 3. DEFINITIONS.

\* \* \* \* \*

(b) [47 U.S.C. 153 nt] COMMON TERMINOLOGY.—Except as otherwise provided in this Act, the terms used in this Act have the meanings provided in section 3 of the Communications Act of 1934 (47 U.S.C. 153), as amended by this section.

\* \* \* \* \*

## TITLE II—BROADCAST SERVICES

\* \* \* \* \*

### SEC. 202. BROADCAST OWNERSHIP.

(a) NATIONAL RADIO STATION OWNERSHIP RULE CHANGES REQUIRED.—The Commission shall modify section 73.3555 of its regulations (47 C.F.R. 73.3555) by eliminating any provisions limiting the number of AM or FM broadcast stations which may be owned or controlled by one entity nationally.

(b) LOCAL RADIO DIVERSITY.—

(1) APPLICABLE CAPS.—The Commission shall revise section 73.3555(a) of its regulations (47 C.F.R. 73.3555) to provide that—

(A) in a radio market with 45 or more commercial radio stations, a party may own, operate, or control up to 8 commercial radio stations, not more than 5 of which are in the same service (AM or FM);

(B) in a radio market with between 30 and 44 (inclusive) commercial radio stations, a party may own, operate, or control up to 7 commercial radio stations, not more than 4 of which are in the same service (AM or FM);

(C) in a radio market with between 15 and 29 (inclusive) commercial radio stations, a party may own, operate, or control up to 6 commercial radio stations, not more than 4 of which are in the same service (AM or FM); and

(D) in a radio market with 14 or fewer commercial radio stations, a party may own, operate, or control up to 5 commercial radio stations, not more than 3 of which are

<sup>1</sup>In general, the Telecommunications Act of 1996 contained amendments to the Communications Act of 1934 that are incorporated elsewhere in this compilation. This portion of this compilation contains the provisions of the Telecommunications Act of 1996 that did not amend other statutes.

in the same service (AM or FM), except that a party may not own, operate, or control more than 50 percent of the stations in such market.

(2) EXCEPTION.—Notwithstanding any limitation authorized by this subsection, the Commission may permit a person or entity to own, operate, or control, or have a cognizable interest in, radio broadcast stations if the Commission determines that such ownership, operation, control, or interest will result in an increase in the number of radio broadcast stations in operation.

(c) TELEVISION OWNERSHIP LIMITATIONS.—

(1) NATIONAL OWNERSHIP LIMITATIONS.—The Commission shall modify its rules for multiple ownership set forth in section 73.3555 of its regulations (47 C.F.R. 73.3555)—

(A) by eliminating the restrictions on the number of television stations that a person or entity may directly or indirectly own, operate, or control, or have a cognizable interest in, nationwide; and

(B) by increasing the national audience reach limitation for television stations to 35 percent.

(2) LOCAL OWNERSHIP LIMITATIONS.—The Commission shall conduct a rulemaking proceeding to determine whether to retain, modify, or eliminate its limitations on the number of television stations that a person or entity may own, operate, or control, or have a cognizable interest in, within the same television market.

(d) RELAXATION OF ONE-TO-A-MARKET.—With respect to its enforcement of its one-to-a-market ownership rules under section 73.3555 of its regulations, the Commission shall extend its waiver policy to any of the top 50 markets, consistent with the public interest, convenience, and necessity.

(e) DUAL NETWORK CHANGES.—The Commission shall revise section 73.658(g) of its regulations (47 C.F.R. 658(g)) to permit a television broadcast station to affiliate with a person or entity that maintains 2 or more networks of television broadcast stations unless such dual or multiple networks are composed of—

(1) two or more persons or entities that, on the date of enactment of the Telecommunications Act of 1996, are “networks” as defined in section 73.3613(a)(1) of the Commission’s regulations (47 C.F.R. 73.3613(a)(1)); or

(2) any network described in paragraph (1) and an English-language program distribution service that, on such date, provides 4 or more hours of programming per week on a national basis pursuant to network affiliation arrangements with local television broadcast stations in markets reaching more than 75 percent of television homes (as measured by a national ratings service).

(f) CABLE CROSS OWNERSHIP.—

(1) ELIMINATION OF RESTRICTIONS.—The Commission shall revise section 76.501 of its regulations (47 C.F.R. 76.501) to permit a person or entity to own or control a network of broadcast stations and a cable system.

(2) SAFEGUARDS AGAINST DISCRIMINATION.—The Commission shall revise such regulations if necessary to ensure carriage, channel positioning, and nondiscriminatory treatment of

nonaffiliated broadcast stations by a cable system described in paragraph (1).

(g) LOCAL MARKETING AGREEMENTS.—Nothing in this section shall be construed to prohibit the origination, continuation, or renewal of any television local marketing agreement that is in compliance with the regulations of the Commission.

(h) FURTHER COMMISSION REVIEW.—The Commission shall review its rules adopted pursuant to this section and all of its ownership rules biennially as part of its regulatory reform review under section 11 of the Communications Act of 1934 and shall determine whether any of such rules are necessary in the public interest as the result of competition. The Commission shall repeal or modify any regulation it determines to be no longer in the public interest.

\* \* \* \* \*

**SEC. 207. [47 U.S.C. 303 nt] RESTRICTIONS ON OVER-THE-AIR RECEPTION DEVICES.**

Within 180 days after the date of enactment of this Act, the Commission shall, pursuant to section 303 of the Communications Act of 1934, promulgate regulations to prohibit restrictions that impair a viewer's ability to receive video programming services through devices designed for over-the-air reception of television broadcast signals, multichannel multipoint distribution service, or direct broadcast satellite services.

\* \* \* \* \*

**TITLE III—CABLE SERVICES**

\* \* \* \* \*

**SEC. 302. CABLE SERVICE PROVIDED BY TELEPHONE COMPANIES.**

\* \* \* \* \*

(b) CONFORMING AND TECHNICAL AMENDMENTS.—

\* \* \* \* \*

(3) TERMINATION OF VIDEO-DIALTONE REGULATIONS.—The Commission's regulations and policies with respect to video dialtone requirements issued in CC Docket No. 87-266 shall cease to be effective on the date of enactment of this Act. This paragraph shall not be construed to require the termination of any video-dialtone system that the Commission has approved before the date of enactment of this Act.

\* \* \* \* \*

**TITLE IV—REGULATORY REFORM**

\* \* \* \* \*

**SEC. 402. BIENNIAL REVIEW OF REGULATIONS; REGULATORY RELIEF.**

\* \* \* \* \*

(b) REGULATORY RELIEF.—

\* \* \* \* \*

(2) **[47 U.S.C. 214 nt]** EXTENSIONS OF LINES UNDER SECTION 214; ARMIS REPORTS.—The Commission shall permit any common carrier—

(A) to be exempt from the requirements of section 214 of the Communications Act of 1934 for the extension of any line; and

(B) to file cost allocation manuals and ARMIS reports annually, to the extent such carrier is required to file such manuals or reports.

(3) **[47 U.S.C. 204 nt]** FORBEARANCE AUTHORITY NOT LIMITED.—Nothing in this subsection shall be construed to limit the authority of the Commission to waive, modify, or forbear from applying any of the requirements to which reference is made in paragraph (1)<sup>1</sup> under any other provision of this Act or other law.

(4) **[47 U.S.C. 204 nt]** EFFECTIVE DATE OF AMENDMENTS.—The amendments made by paragraph (1) of this subsection<sup>1</sup> shall apply with respect to any charge, classification, regulation, or practice filed on or after one year after the date of enactment of this Act.

(c) CLASSIFICATION OF CARRIERS.—In classifying carriers according to section 32.11 of its regulations (47 C.F.R. 32.11) and in establishing reporting requirements pursuant to part 43 of its regulations (47 C.F.R. part 43) and section 64.903 of its regulations (47 C.F.R. 64.903), the Commission shall adjust the revenue requirements to account for inflation as of the release date of the Commission's Report and Order in CC Docket No. 91-141, and annually thereafter. This subsection shall take effect on the date of enactment of this Act.

\* \* \* \* \*

## TITLE V—OBSCENITY AND VIOLENCE

\* \* \* \* \*

### Subtitle B—Violence

#### SEC. 551. PARENTAL CHOICE IN TELEVISION PROGRAMMING.

(a) **[47 U.S.C. 303 nt]** FINDINGS.—The Congress makes the following findings:

(1) Television influences children's perception of the values and behavior that are common and acceptable in society.

(2) Television station operators, cable television system operators, and video programmers should follow practices in connection with video programming that take into consideration that television broadcast and cable programming has established a uniquely pervasive presence in the lives of American children.

<sup>1</sup>Paragraph (1) contained amendments to sections 204(a) and 208(b) of the Communications Act of 1934.

(3) The average American child is exposed to 25 hours of television each week and some children are exposed to as much as 11 hours of television a day.

(4) Studies have shown that children exposed to violent video programming at a young age have a higher tendency for violent and aggressive behavior later in life than children not so exposed, and that children exposed to violent video programming are prone to assume that acts of violence are acceptable behavior.

(5) Children in the United States are, on average, exposed to an estimated 8,000 murders and 100,000 acts of violence on television by the time the child completes elementary school.

(6) Studies indicate that children are affected by the pervasiveness and casual treatment of sexual material on television, eroding the ability of parents to develop responsible attitudes and behavior in their children.

(7) Parents express grave concern over violent and sexual video programming and strongly support technology that would give them greater control to block video programming in the home that they consider harmful to their children.

(8) There is a compelling governmental interest in empowering parents to limit the negative influences of video programming that is harmful to children.

(9) Providing parents with timely information about the nature of upcoming video programming and with the technological tools that allow them easily to block violent, sexual, or other programming that they believe harmful to their children is a nonintrusive and narrowly tailored means of achieving that compelling governmental interest.

(b) ESTABLISHMENT OF TELEVISION RATING CODE.—

\* \* \* \* \*

(2) **[47 U.S.C. 303 nt]** ADVISORY COMMITTEE REQUIREMENTS.—In establishing an advisory committee for purposes of the amendment made by paragraph (1)<sup>1</sup> of this subsection, the Commission shall—

(A) ensure that such committee is composed of parents, television broadcasters, television programming producers, cable operators, appropriate public interest groups, and other interested individuals from the private sector and is fairly balanced in terms of political affiliation, the points of view represented, and the functions to be performed by the committee;

(B) provide to the committee such staff and resources as may be necessary to permit it to perform its functions efficiently and promptly; and

(C) require the committee to submit a final report of its recommendations within one year after the date of the appointment of the initial members.

\* \* \* \* \*

(e) **[47 U.S.C. 303 nt]** APPLICABILITY AND EFFECTIVE DATES.—

<sup>1</sup>Paragraph (1) of subsection (b) added subsection (w) to section 303 of the Communications Act of 1934.

(1) **APPLICABILITY OF RATING PROVISION.**—The amendment made by subsection (b)<sup>1</sup> of this section shall take effect 1 year after the date of enactment of this Act, but only if the Commission determines, in consultation with appropriate public interest groups and interested individuals from the private sector, that distributors of video programming have not, by such date—

(A) established voluntary rules for rating video programming that contains sexual, violent, or other indecent material about which parents should be informed before it is displayed to children, and such rules are acceptable to the Commission; and

(B) agreed voluntarily to broadcast signals that contain ratings of such programming.

(2) **EFFECTIVE DATE OF MANUFACTURING PROVISION.**—In prescribing regulations to implement the amendment made by subsection (c),<sup>2</sup> the Federal Communications Commission shall, after consultation with the television manufacturing industry, specify the effective date for the applicability of the requirement to the apparatus covered by such amendment, which date shall not be less than two years after the date of enactment of this Act.

**SEC. 552. [47 U.S.C. 303 nt] TECHNOLOGY FUND.**

It is the policy of the United States to encourage broadcast television, cable, satellite, syndication, other video programming distributors, and relevant related industries (in consultation with appropriate public interest groups and interested individuals from the private sector) to—

(1) establish a technology fund to encourage television and electronics equipment manufacturers to facilitate the development of technology which would empower parents to block programming they deem inappropriate for their children and to encourage the availability thereof to low income parents;

(2) report to the viewing public on the status of the development of affordable, easy to use blocking technology; and

(3) establish and promote effective procedures, standards, systems, advisories, or other mechanisms for ensuring that users have easy and complete access to the information necessary to effectively utilize blocking technology and to encourage the availability thereof to low income parents.

## Subtitle C—Judicial Review

**SEC. 561. [47 U.S.C. 223 nt] EXPEDITED REVIEW.**

(a) **THREE-JUDGE DISTRICT COURT HEARING.**—Notwithstanding any other provision of law, any civil action challenging the constitutionality, on its face, of this title or any amendment made by this title, or any provision thereof, shall be heard by a district court of 3 judges convened pursuant to the provisions of section 2284 of title 28, United States Code.

<sup>1</sup> Paragraph (1) of subsection (b) added subsection (w) to section 303 of the Communications Act of 1934.

<sup>2</sup> Subsection (c) added subsection (x) to section 303 of the Communications Act of 1934.

(b) APPELLATE REVIEW.—Notwithstanding any other provision of law, an interlocutory or final judgment, decree, or order of the court of 3 judges in an action under subsection (a) holding this title or an amendment made by this title, or any provision thereof, unconstitutional shall be reviewable as a matter of right by direct appeal to the Supreme Court. Any such appeal shall be filed not more than 20 days after entry of such judgment, decree, or order.

## TITLE VI—EFFECT ON OTHER LAWS

### SEC. 601. [47 U.S.C. 152 nt] APPLICABILITY OF CONSENT DECREES AND OTHER LAW.

#### (a) APPLICABILITY OF AMENDMENTS TO FUTURE CONDUCT.—

(1) AT&T CONSENT DECREE.—Any conduct or activity that was, before the date of enactment of this Act, subject to any restriction or obligation imposed by the AT&T Consent Decree shall, on and after such date, be subject to the restrictions and obligations imposed by the Communications Act of 1934 as amended by this Act and shall not be subject to the restrictions and the obligations imposed by such Consent Decree.

(2) GTE CONSENT DECREE.—Any conduct or activity that was, before the date of enactment of this Act, subject to any restriction or obligation imposed by the GTE Consent Decree shall, on and after such date, be subject to the restrictions and obligations imposed by the Communications Act of 1934 as amended by this Act and shall not be subject to the restrictions and the obligations imposed by such Consent Decree.

(3) MCCAW CONSENT DECREE.—Any conduct or activity that was, before the date of enactment of this Act, subject to any restriction or obligation imposed by the McCaw Consent Decree shall, on and after such date, be subject to the restrictions and obligations imposed by the Communications Act of 1934 as amended by this Act and subsection (d) of this section and shall not be subject to the restrictions and the obligations imposed by such Consent Decree.

#### (b) ANTITRUST LAWS.—

(1) SAVINGS CLAUSE.—Except as provided in paragraphs (2) and (3), nothing in this Act or the amendments made by this Act shall be construed to modify, impair, or supersede the applicability of any of the antitrust laws.

(2) REPEAL.—Subsection (a) of section 221 (47 U.S.C. 221(a)) is repealed.

(3) CLAYTON ACT.—Section 7 of the Clayton Act (15 U.S.C. 18) is amended in the last paragraph by striking “Federal Communications Commission.”

#### (c) FEDERAL, STATE, AND LOCAL LAW.—

(1) NO IMPLIED EFFECT.—This Act and the amendments made by this Act shall not be construed to modify, impair, or supersede Federal, State, or local law unless expressly so provided in such Act or amendments.

(2) STATE TAX SAVINGS PROVISION.—Notwithstanding paragraph (1), nothing in this Act or the amendments made by this Act shall be construed to modify, impair, or supersede, or authorize the modification, impairment, or supersession of, any

State or local law pertaining to taxation, except as provided in sections 622 and 653(c) of the Communications Act of 1934 and section 602 of this Act.

(d) **COMMERCIAL MOBILE SERVICE JOINT MARKETING.**—Notwithstanding section 22.903 of the Commission's regulations (47 C.F.R. 22.903) or any other Commission regulation, a Bell operating company or any other company may, except as provided in sections 271(e)(1) and 272 of the Communications Act of 1934 as amended by this Act as they relate to wireline service, jointly market and sell commercial mobile services in conjunction with telephone exchange service, exchange access, intraLATA telecommunications service, interLATA telecommunications service, and information services.

(e) **DEFINITIONS.**—As used in this section:

(1) **AT&T CONSENT DECREE.**—The term "AT&T Consent Decree" means the order entered August 24, 1982, in the antitrust action styled *United States v. Western Electric*, Civil Action No. 82-0192, in the United States District Court for the District of Columbia, and includes any judgment or order with respect to such action entered on or after August 24, 1982.

(2) **GTE CONSENT DECREE.**—The term "GTE Consent Decree" means the order entered December 21, 1984, as restated January 11, 1985, in the action styled *United States v. GTE Corp.*, Civil Action No. 83-1298, in the United States District Court for the District of Columbia, and any judgment or order with respect to such action entered on or after December 21, 1984.

(3) **MCCAW CONSENT DECREE.**—The term "McCaw Consent Decree" means the proposed consent decree filed on July 15, 1994, in the antitrust action styled *United States v. AT&T Corp. and McCaw Cellular Communications, Inc.*, Civil Action No. 94-01555, in the United States District Court for the District of Columbia. Such term includes any stipulation that the parties will abide by the terms of such proposed consent decree until it is entered and any order entering such proposed consent decree.

(4) **ANTITRUST LAWS.**—The term "antitrust laws" has the meaning given it in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12(a)), except that such term includes the Act of June 19, 1936 (49 Stat. 1526; 15 U.S.C. 13 et seq.), commonly known as the Robinson-Patman Act, and section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that such section 5 applies to unfair methods of competition.

**SEC. 602. [47 U.S.C. 152 nt] PREEMPTION OF LOCAL TAXATION WITH RESPECT TO DIRECT-TO-HOME SERVICES.**

(a) **PREEMPTION.**—A provider of direct-to-home satellite service shall be exempt from the collection or remittance, or both, of any tax or fee imposed by any local taxing jurisdiction on direct-to-home satellite service.

(b) **DEFINITIONS.**—For the purposes of this section—

(1) **DIRECT-TO-HOME SATELLITE SERVICE.**—The term "direct-to-home satellite service" means only programming transmitted or broadcast by satellite directly to the subscribers' premises without the use of ground receiving or distribution

equipment, except at the subscribers' premises or in the uplink process to the satellite.

(2) PROVIDER OF DIRECT-TO-HOME SATELLITE SERVICE.—For purposes of this section, a “provider of direct-to-home satellite service” means a person who transmits, broadcasts, sells, or distributes direct-to-home satellite service.

(3) LOCAL TAXING JURISDICTION.—The term “local taxing jurisdiction” means any municipality, city, county, township, parish, transportation district, or assessment jurisdiction, or any other local jurisdiction in the territorial jurisdiction of the United States with the authority to impose a tax or fee, but does not include a State.

(4) STATE.—The term “State” means any of the several States, the District of Columbia, or any territory or possession of the United States.

(5) TAX OR FEE.—The terms “tax” and “fee” mean any local sales tax, local use tax, local intangible tax, local income tax, business license tax, utility tax, privilege tax, gross receipts tax, excise tax, franchise fees, local telecommunications tax, or any other tax, license, or fee that is imposed for the privilege of doing business, regulating, or raising revenue for a local taxing jurisdiction.

(c) PRESERVATION OF STATE AUTHORITY.—This section shall not be construed to prevent taxation of a provider of direct-to-home satellite service by a State or to prevent a local taxing jurisdiction from receiving revenue derived from a tax or fee imposed and collected by a State.

## TITLE VII—MISCELLANEOUS PROVISIONS

\* \* \* \* \*

### SEC. 704. FACILITIES SITING; RADIO FREQUENCY EMISSION STANDARDS.

\* \* \* \* \*

(b) RADIO FREQUENCY EMISSIONS.—Within 180 days after the enactment of this Act, the Commission shall complete action in ET Docket 93–62 to prescribe and make effective rules regarding the environmental effects of radio frequency emissions.

(c) [47 U.S.C. 332 nt] AVAILABILITY OF PROPERTY.—Within 180 days of the enactment of this Act, the President or his designee shall prescribe procedures by which Federal departments and agencies may make available on a fair, reasonable, and nondiscriminatory basis, property, rights-of-way, and easements under their control for the placement of new telecommunications services that are dependent, in whole or in part, upon the utilization of Federal spectrum rights for the transmission or reception of such services. These procedures may establish a presumption that requests for the use of property, rights-of-way, and easements by duly authorized providers should be granted absent unavoidable direct conflict with the department or agency's mission, or the current or planned use of the property, rights-of-way, and easements in question. Reasonable fees may be charged to providers of such telecommuni-

cations services for use of property, rights-of-way, and easements. The Commission shall provide technical support to States to encourage them to make property, rights-of-way, and easements under their jurisdiction available for such purposes.

\* \* \* \* \*

**SEC. 706. [47 U.S.C. 157 nt] ADVANCED TELECOMMUNICATIONS INCENTIVES.**

(a) **IN GENERAL.**—The Commission and each State commission with regulatory jurisdiction over telecommunications services shall encourage the deployment on a reasonable and timely basis of advanced telecommunications capability to all Americans (including, in particular, elementary and secondary schools and classrooms) by utilizing, in a manner consistent with the public interest, convenience, and necessity, price cap regulation, regulatory forbearance, measures that promote competition in the local telecommunications market, or other regulating methods that remove barriers to infrastructure investment.

(b) **INQUIRY.**—The Commission shall, within 30 months after the date of enactment of this Act, and regularly thereafter, initiate a notice of inquiry concerning the availability of advanced telecommunications capability to all Americans (including, in particular, elementary and secondary schools and classrooms) and shall complete the inquiry within 180 days after its initiation. In the inquiry, the Commission shall determine whether advanced telecommunications capability is being deployed to all Americans in a reasonable and timely fashion. If the Commission's determination is negative, it shall take immediate action to accelerate deployment of such capability by removing barriers to infrastructure investment and by promoting competition in the telecommunications market.

(c) **DEFINITIONS.**—For purposes of this subsection:

(1) **ADVANCED TELECOMMUNICATIONS CAPABILITY.**—The term “advanced telecommunications capability” is defined, without regard to any transmission media or technology, as high-speed, switched, broadband telecommunications capability that enables users to originate and receive high-quality voice, data, graphics, and video telecommunications using any technology.

(2) **ELEMENTARY AND SECONDARY SCHOOLS.**—The term “elementary and secondary schools” means elementary and secondary schools, as defined in section 9101 of the Elementary and Secondary Education Act of 1965.

\* \* \* \* \*

**SEC. 708. NATIONAL EDUCATION TECHNOLOGY FUNDING CORPORATION.**

(a) **FINDINGS; PURPOSE.**—

(1) **FINDINGS.**—The Congress finds as follows:

(A) **CORPORATION.**—There has been established in the District of Columbia a private, nonprofit corporation known as the National Education Technology Funding Corporation which is not an agency or independent establishment of the Federal Government.

(B) BOARD OF DIRECTORS.—The Corporation is governed by a Board of Directors, as prescribed in the Corporation's articles of incorporation, consisting of 15 members, of which—

(i) five members are representative of public agencies representative of schools and public libraries;

(ii) five members are representative of State government, including persons knowledgeable about State finance, technology and education; and

(iii) five members are representative of the private sector, with expertise in network technology, finance and management.

(C) CORPORATE PURPOSES.—The purposes of the Corporation, as set forth in its articles of incorporation, are—

(i) to leverage resources and stimulate private investment in education technology infrastructure;

(ii) to designate State education technology agencies to receive loans, grants or other forms of assistance from the Corporation;

(iii) to establish criteria for encouraging States to—

(I) create, maintain, utilize and upgrade interactive high capacity networks capable of providing audio, visual and data communications for elementary schools, secondary schools and public libraries;

(II) distribute resources to assure equitable aid to all elementary schools and secondary schools in the State and achieve universal access to network technology; and

(III) upgrade the delivery and development of learning through innovative technology-based instructional tools and applications;

(iv) to provide loans, grants and other forms of assistance to State education technology agencies, with due regard for providing a fair balance among types of school districts and public libraries assisted and the disparate needs of such districts and libraries;

(v) to leverage resources to provide maximum aid to elementary schools, secondary schools and public libraries; and

(vi) to encourage the development of education telecommunications and information technologies through public-private ventures, by serving as a clearinghouse for information on new education technologies, and by providing technical assistance, including assistance to States, if needed, to establish State education technology agencies.

(2) PURPOSE.—The purpose of this section is to recognize the Corporation as a nonprofit corporation operating under the laws of the District of Columbia, and to provide authority for Federal departments and agencies to provide assistance to the Corporation.

(b) DEFINITIONS.—For the purpose of this section—

(1) the term "Corporation" means the National Education Technology Funding Corporation described in subsection (a)(1)(A);

(2) the terms "elementary school" and "secondary school" have the same meanings given such terms in section 14101 of the Elementary and Secondary Education Act of 1965; and

(3) the term "public library" has the same meaning given such term in section 3 of the Library Services and Construction Act.

(c) ASSISTANCE FOR EDUCATION TECHNOLOGY PURPOSES.—

(1) RECEIPT BY CORPORATION.—Notwithstanding any other provision of law, in order to carry out the corporate purposes described in subsection (a)(1)(C), the Corporation shall be eligible to receive discretionary grants, contracts, gifts, contributions, or technical assistance from any Federal department or agency, to the extent otherwise permitted by law.

(2) AGREEMENT.—In order to receive any assistance described in paragraph (1) the Corporation shall enter into an agreement with the Federal department or agency providing such assistance, under which the Corporation agrees—

(A) to use such assistance to provide funding and technical assistance only for activities which the Board of Directors of the Corporation determines are consistent with the corporate purposes described in subsection (a)(1)(C);

(B) to review the activities of State education technology agencies and other entities receiving assistance from the Corporation to assure that the corporate purposes described in subsection (a)(1)(C) are carried out;

(C) that no part of the assets of the Corporation shall accrue to the benefit of any member of the Board of Directors of the Corporation, any officer or employee of the Corporation, or any other individual, except as salary or reasonable compensation for services;

(D) that the Board of Directors of the Corporation will adopt policies and procedures to prevent conflicts of interest;

(E) to maintain a Board of Directors of the Corporation consistent with subsection (a)(1)(B);

(F) that the Corporation, and any entity receiving the assistance from the Corporation, are subject to the appropriate oversight procedures of the Congress; and

(G) to comply with—

(i) the audit requirements described in subsection (d); and

(ii) the reporting and testimony requirements described in subsection (e).

(3) CONSTRUCTION.—Nothing in this section shall be construed to establish the Corporation as an agency or independent establishment of the Federal Government, or to establish the members of the Board of Directors of the Corporation, or the officers and employees of the Corporation, as officers or employees of the Federal Government.

(d) AUDITS.—

(1) AUDITS BY INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS.—

(A) IN GENERAL.—The Corporation's financial statements shall be audited annually in accordance with generally accepted auditing standards by independent certified public accountants who are certified by a regulatory authority of a State or other political subdivision of the United States. The audits shall be conducted at the place or places where the accounts of the Corporation are normally kept. All books, accounts, financial records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation and necessary to facilitate the audit shall be made available to the person or persons conducting the audits, and full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians shall be afforded to such person or persons.

(B) REPORTING REQUIREMENTS.—The report of each annual audit described in subparagraph (A) shall be included in the annual report required by subsection (e)(1).

(2) RECORDKEEPING REQUIREMENTS; AUDIT AND EXAMINATION OF BOOKS.—

(A) RECORDKEEPING REQUIREMENTS.—The Corporation shall ensure that each recipient of assistance from the Corporation keeps—

(i) separate accounts with respect to such assistance;

(ii) such records as may be reasonably necessary to fully disclose—

(I) the amount and the disposition by such recipient of the proceeds of such assistance;

(II) the total cost of the project or undertaking in connection with which such assistance is given or used; and

(III) the amount and nature of that portion of the cost of the project or undertaking supplied by other sources; and

(iii) such other records as will facilitate an effective audit.

(B) AUDIT AND EXAMINATION OF BOOKS.—The Corporation shall ensure that the Corporation, or any of the Corporation's duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any recipient of assistance from the Corporation that are pertinent to such assistance. Representatives of the Comptroller General shall also have such access for such purpose.

(e) ANNUAL REPORT; TESTIMONY TO THE CONGRESS.—

(1) ANNUAL REPORT.—Not later than April 30 of each year, the Corporation shall publish an annual report for the preceding fiscal year and submit that report to the President and the Congress. The report shall include a comprehensive and detailed evaluation of the Corporation's operations, activities, financial condition, and accomplishments under this section and may include such recommendations as the Corporation deems appropriate.

(2) TESTIMONY BEFORE CONGRESS.—The members of the Board of Directors, and officers, of the Corporation shall be available to testify before appropriate committees of the Congress with respect to the report described in paragraph (1), the report of any audit made by the Comptroller General pursuant to this section, or any other matter which any such committee may determine appropriate.

**SEC. 709. REPORT ON THE USE OF ADVANCED TELECOMMUNICATIONS SERVICES FOR MEDICAL PURPOSES.**

The Secretary of Commerce, in consultation with the Secretary of Health and Human Services and other appropriate departments and agencies, shall submit a report to the Committee on Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate concerning the activities of the Joint Working Group on Telemedicine, together with any findings reached in the studies and demonstrations on telemedicine funded by the Public Health Service or other Federal agencies. The report shall examine questions related to patient safety, the efficacy and quality of the services provided, and other legal, medical, and economic issues related to the utilization of advanced telecommunications services for medical purposes. The report shall be submitted to the respective committees by January 31, 1997.

**SEC. 710. AUTHORIZATION OF APPROPRIATIONS.**

(a) [47 U.S.C. 156 nt] IN GENERAL.—In addition to any other sums authorized by law, there are authorized to be appropriated to the Federal Communications Commission such sums as may be necessary to carry out this Act and the amendments made by this Act.

(b) [47 U.S.C. 156 nt] EFFECT ON FEES.—For the purposes of section 9(b)(2) (47 U.S.C. 159(b)(2)), additional amounts appropriated pursuant to subsection (a) shall be construed to be changes in the amounts appropriated for the performance of activities described in section 9(a) of the Communications Act of 1934.

(c) FUNDING AVAILABILITY.—Section 309(j)(8)(B) (47 U.S.C. 309(j)(8)(B)) is amended by adding at the end the following new sentence: “Such offsetting collections are authorized to remain available until expended.”.

**COMMUNICATIONS ASSISTANCE FOR LAW  
ENFORCEMENT ACT**

---

---

## COMMUNICATIONS ASSISTANCE FOR LAW ENFORCEMENT ACT

AN ACT To amend title 18, United States Code, to make clear a telecommunications carrier's duty to cooperate in the interception of communications for law enforcement purposes, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### TITLE I—INTERCEPTION OF DIGITAL AND OTHER COMMUNICATIONS

#### SEC. 101. [47 U.S.C. 1001 note] SHORT TITLE.

This title may be cited as the “Communications Assistance for Law Enforcement Act”.

#### SEC. 102. [47 U.S.C. 1001] DEFINITIONS.

For purposes of this title—

(1) The terms defined in section 2510 of title 18, United States Code, have, respectively, the meanings stated in that section.

(2) The term “call-identifying information” means dialing or signaling information that identifies the origin, direction, destination, or termination of each communication generated or received by a subscriber by means of any equipment, facility, or service of a telecommunications carrier.

(3) The term “Commission” means the Federal Communications Commission.

(4) The term “electronic messaging services” means software-based services that enable the sharing of data, images, sound, writing, or other information among computing devices controlled by the senders or recipients of the messages.

(5) The term “government” means the government of the United States and any agency or instrumentality thereof, the District of Columbia, any commonwealth, territory, or possession of the United States, and any State or political subdivision thereof authorized by law to conduct electronic surveillance.

(6) The term “information services”—

(A) means the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via telecommunications; and

(B) includes—

(i) a service that permits a customer to retrieve stored information from, or file information for storage in, information storage facilities;

- (ii) electronic publishing; and
- (iii) electronic messaging services; but

(C) does not include any capability for a telecommunications carrier's internal management, control, or operation of its telecommunications network.

(7) The term "telecommunications support services" means a product, software, or service used by a telecommunications carrier for the internal signaling or switching functions of its telecommunications network.

(8) The term "telecommunications carrier"—

(A) means a person or entity engaged in the transmission or switching of wire or electronic communications as a common carrier for hire; and

(B) includes—

(i) a person or entity engaged in providing commercial mobile service (as defined in section 332(d) of the Communications Act of 1934 (47 U.S.C. 332(d))); or

(ii) a person or entity engaged in providing wire or electronic communication switching or transmission service to the extent that the Commission finds that such service is a replacement for a substantial portion of the local telephone exchange service and that it is in the public interest to deem such a person or entity to be a telecommunications carrier for purposes of this title; but

(C) does not include—

(i) persons or entities insofar as they are engaged in providing information services; and

(ii) any class or category of telecommunications carriers that the Commission exempts by rule after consultation with the Attorney General.

**SEC. 103. [47 U.S.C. 1002] ASSISTANCE CAPABILITY REQUIREMENTS.**

(a) CAPABILITY REQUIREMENTS.—Except as provided in subsections (b), (c), and (d) of this section and sections 108(a) and 109(b) and (d), a telecommunications carrier shall ensure that its equipment, facilities, or services that provide a customer or subscriber with the ability to originate, terminate, or direct communications are capable of—

(1) expeditiously isolating and enabling the government, pursuant to a court order or other lawful authorization, to intercept, to the exclusion of any other communications, all wire and electronic communications carried by the carrier within a service area to or from equipment, facilities, or services of a subscriber of such carrier concurrently with their transmission to or from the subscriber's equipment, facility, or service, or at such later time as may be acceptable to the government;

(2) expeditiously isolating and enabling the government, pursuant to a court order or other lawful authorization, to access call-identifying information that is reasonably available to the carrier—

(A) before, during, or immediately after the transmission of a wire or electronic communication (or at such later time as may be acceptable to the government); and

(B) in a manner that allows it to be associated with the communication to which it pertains, except that, with regard to information acquired solely pursuant to the authority for pen registers and trap and trace devices (as defined in section 3127 of title 18, United States Code), such call-identifying information shall not include any information that may disclose the physical location of the subscriber (except to the extent that the location may be determined from the telephone number);

(3) delivering intercepted communications and call-identifying information to the government, pursuant to a court order or other lawful authorization, in a format such that they may be transmitted by means of equipment, facilities, or services procured by the government to a location other than the premises of the carrier; and

(4) facilitating authorized communications interceptions and access to call-identifying information unobtrusively and with a minimum of interference with any subscriber's telecommunications service and in a manner that protects—

(A) the privacy and security of communications and call-identifying information not authorized to be intercepted; and

(B) information regarding the government's interception of communications and access to call-identifying information.

(b) LIMITATIONS.—

(1) DESIGN OF FEATURES AND SYSTEMS CONFIGURATIONS.— This title does not authorize any law enforcement agency or officer—

(A) to require any specific design of equipment, facilities, services, features, or system configurations to be adopted by any provider of a wire or electronic communication service, any manufacturer of telecommunications equipment, or any provider of telecommunications support services; or

(B) to prohibit the adoption of any equipment, facility, service, or feature by any provider of a wire or electronic communication service, any manufacturer of telecommunications equipment, or any provider of telecommunications support services.

(2) INFORMATION SERVICES; PRIVATE NETWORKS AND INTERCONNECTION SERVICES AND FACILITIES.—The requirements of subsection (a) do not apply to—

(A) information services; or

(B) equipment, facilities, or services that support the transport or switching of communications for private networks or for the sole purpose of interconnecting telecommunications carriers.

(3) ENCRYPTION.—A telecommunications carrier shall not be responsible for decrypting, or ensuring the government's ability to decrypt, any communication encrypted by a subscriber or customer, unless the encryption was provided by the

carrier and the carrier possesses the information necessary to decrypt the communication.

(c) EMERGENCY OR EXIGENT CIRCUMSTANCES.—In emergency or exigent circumstances (including those described in sections 2518 (7) or (11)(b) and 3125 of title 18, United States Code, and section 1805(e) of title 50 of such Code), a carrier at its discretion may comply with subsection (a)(3) by allowing monitoring at its premises if that is the only means of accomplishing the interception or access.

(d) MOBILE SERVICE ASSISTANCE REQUIREMENTS.—A telecommunications carrier that is a provider of commercial mobile service (as defined in section 332(d) of the Communications Act of 1934) offering a feature or service that allows subscribers to redirect, hand off, or assign their wire or electronic communications to another service area or another service provider or to utilize facilities in another service area or of another service provider shall ensure that, when the carrier that had been providing assistance for the interception of wire or electronic communications or access to call-identifying information pursuant to a court order or lawful authorization no longer has access to the content of such communications or call-identifying information within the service area in which interception has been occurring as a result of the subscriber's use of such a feature or service, information is made available to the government (before, during, or immediately after the transfer of such communications) identifying the provider of a wire or electronic communication service that has acquired access to the communications.

**SEC. 104. [47 U.S.C. 1003] NOTICES OF CAPACITY REQUIREMENTS.**

(a) NOTICES OF MAXIMUM AND ACTUAL CAPACITY REQUIREMENTS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this title, after consulting with State and local law enforcement agencies, telecommunications carriers, providers of telecommunications support services, and manufacturers of telecommunications equipment, and after notice and comment, the Attorney General shall publish in the Federal Register and provide to appropriate telecommunications industry associations and standard-setting organizations—

(A) notice of the actual number of communication interceptions, pen registers, and trap and trace devices, representing a portion of the maximum capacity set forth under subparagraph (B), that the Attorney General estimates that government agencies authorized to conduct electronic surveillance may conduct and use simultaneously by the date that is 4 years after the date of enactment of this title; and

(B) notice of the maximum capacity required to accommodate all of the communication interceptions, pen registers, and trap and trace devices that the Attorney General estimates that government agencies authorized to conduct electronic surveillance may conduct and use simultaneously after the date that is 4 years after the date of enactment of this title.

(2) BASIS OF NOTICES.—The notices issued under paragraph (1)—

(A) may be based upon the type of equipment, type of service, number of subscribers, type or size or<sup>1</sup> carrier, nature of service area, or any other measure; and

(B) shall identify, to the maximum extent practicable, the capacity required at specific geographic locations.

(b) COMPLIANCE WITH CAPACITY NOTICES.—

(1) INITIAL CAPACITY.—Within 3 years after the publication by the Attorney General of a notice of capacity requirements or within 4 years after the date of enactment of this title, whichever is longer, a telecommunications carrier shall, subject to subsection (e), ensure that its systems are capable of—

(A) accommodating simultaneously the number of interceptions, pen registers, and trap and trace devices set forth in the notice under subsection (a)(1)(A); and

(B) expanding to the maximum capacity set forth in the notice under subsection (a)(1)(B).

(2) EXPANSION TO MAXIMUM CAPACITY.—After the date described in paragraph (1), a telecommunications carrier shall, subject to subsection (e), ensure that it can accommodate expeditiously any increase in the actual number of communication interceptions, pen registers, and trap and trace devices that authorized agencies may seek to conduct and use, up to the maximum capacity requirement set forth in the notice under subsection (a)(1)(B).

(c) NOTICES OF INCREASED MAXIMUM CAPACITY REQUIREMENTS.—

(1) NOTICE.—The Attorney General shall periodically publish in the Federal Register, after notice and comment, notice of any necessary increases in the maximum capacity requirement set forth in the notice under subsection (a)(1)(B).

(2) COMPLIANCE.—Within 3 years after notice of increased maximum capacity requirements is published under paragraph (1), or within such longer time period as the Attorney General may specify, a telecommunications carrier shall, subject to subsection (e), ensure that its systems are capable of expanding to the increased maximum capacity set forth in the notice.

(d) CARRIER STATEMENT.—Within 180 days after the publication by the Attorney General of a notice of capacity requirements pursuant to subsection (a) or (c), a telecommunications carrier shall submit to the Attorney General a statement identifying any of its systems or services that do not have the capacity to accommodate simultaneously the number of interceptions, pen registers, and trap and trace devices set forth in the notice under such subsection.

(e) REIMBURSEMENT REQUIRED FOR COMPLIANCE.—The Attorney General shall review the statements submitted under subsection (d) and may, subject to the availability of appropriations, agree to reimburse a telecommunications carrier for costs directly associated with modifications to attain such capacity requirement that are determined to be reasonable in accordance with section 109(e). Until the Attorney General agrees to reimburse such carrier

<sup>1</sup> So in law. Probably should read “of”.

for such modification, such carrier shall be considered to be in compliance with the capacity notices under subsection (a) or (c).

**SEC. 105. [47 U.S.C. 1004] SYSTEMS SECURITY AND INTEGRITY.**

A telecommunications carrier shall ensure that any interception of communications or access to call-identifying information effected within its switching premises can be activated only in accordance with a court order or other lawful authorization and with the affirmative intervention of an individual officer or employee of the carrier acting in accordance with regulations prescribed by the Commission.

**SEC. 106. [47 U.S.C. 1005] COOPERATION OF EQUIPMENT MANUFACTURERS AND PROVIDERS OF TELECOMMUNICATIONS SUPPORT SERVICES.**

(a) CONSULTATION.—A telecommunications carrier shall consult, as necessary, in a timely fashion with manufacturers of its telecommunications transmission and switching equipment and its providers of telecommunications support services for the purpose of ensuring that current and planned equipment, facilities, and services comply with the capability requirements of section 103 and the capacity requirements identified by the Attorney General under section 104.

(b) COOPERATION.—Subject to sections 104(e), 108(a), and 109 (b) and (d), a manufacturer of telecommunications transmission or switching equipment and a provider of telecommunications support services shall, on a reasonably timely basis and at a reasonable charge, make available to the telecommunications carriers using its equipment, facilities, or services such features or modifications as are necessary to permit such carriers to comply with the capability requirements of section 103 and the capacity requirements identified by the Attorney General under section 104.

**SEC. 107. [47 U.S.C. 1006] TECHNICAL REQUIREMENTS AND STANDARDS; EXTENSION OF COMPLIANCE DATE.**

(a) SAFE HARBOR.—

(1) CONSULTATION.—To ensure the efficient and industry-wide implementation of the assistance capability requirements under section 103, the Attorney General, in coordination with other Federal, State, and local law enforcement agencies, shall consult with appropriate associations and standard-setting organizations of the telecommunications industry, with representatives of users of telecommunications equipment, facilities, and services, and with State utility commissions.

(2) COMPLIANCE UNDER ACCEPTED STANDARDS.—A telecommunications carrier shall be found to be in compliance with the assistance capability requirements under section 103, and a manufacturer of telecommunications transmission or switching equipment or a provider of telecommunications support services shall be found to be in compliance with section 106, if the carrier, manufacturer, or support service provider is in compliance with publicly available technical requirements or standards adopted by an industry association or standard-setting organization, or by the Commission under subsection (b), to meet the requirements of section 103.

(3) **ABSENCE OF STANDARDS.**—The absence of technical requirements or standards for implementing the assistance capability requirements of section 103 shall not—

(A) preclude a telecommunications carrier, manufacturer, or telecommunications support services provider from deploying a technology or service; or

(B) relieve a carrier, manufacturer, or telecommunications support services provider of the obligations imposed by section 103 or 106, as applicable.

(b) **COMMISSION AUTHORITY.**—If industry associations or standard-setting organizations fail to issue technical requirements or standards or if a Government agency or any other person believes that such requirements or standards are deficient, the agency or person may petition the Commission to establish, by rule, technical requirements or standards that—

(1) meet the assistance capability requirements of section 103 by cost-effective methods;

(2) protect the privacy and security of communications not authorized to be intercepted;

(3) minimize the cost of such compliance on residential ratepayers;

(4) serve the policy of the United States to encourage the provision of new technologies and services to the public; and

(5) provide a reasonable time and conditions for compliance with and the transition to any new standard, including defining the obligations of telecommunications carriers under section 103 during any transition period.

(c) **EXTENSION OF COMPLIANCE DATE FOR EQUIPMENT, FACILITIES, AND SERVICES.**—

(1) **PETITION.**—A telecommunications carrier proposing to install or deploy, or having installed or deployed, any equipment, facility, or service prior to the effective date of section 103 may petition the Commission for 1 or more extensions of the deadline for complying with the assistance capability requirements under section 103.

(2) **GROUND FOR EXTENSION.**—The Commission may, after consultation with the Attorney General, grant an extension under this subsection, if the Commission determines that compliance with the assistance capability requirements under section 103 is not reasonably achievable through application of technology available within the compliance period.

(3) **LENGTH OF EXTENSION.**—An extension under this subsection shall extend for no longer than the earlier of—

(A) the date determined by the Commission as necessary for the carrier to comply with the assistance capability requirements under section 103; or

(B) the date that is 2 years after the date on which the extension is granted.

(4) **APPLICABILITY OF EXTENSION.**—An extension under this subsection shall apply to only that part of the carrier's business on which the new equipment, facility, or service is used.

**SEC. 108. [47 U.S.C. 1007] ENFORCEMENT ORDERS.**

(a) **GROUND FOR ISSUANCE.**—A court shall issue an order enforcing this title under section 2522 of title 18, United States Code, only if the court finds that—

(1) alternative technologies or capabilities or the facilities of another carrier are not reasonably available to law enforcement for implementing the interception of communications or access to call-identifying information; and

(2) compliance with the requirements of this title is reasonably achievable through the application of available technology to the equipment, facility, or service at issue or would have been reasonably achievable if timely action had been taken.

(b) **TIME FOR COMPLIANCE.**—Upon issuing an order enforcing this title, the court shall specify a reasonable time and conditions for complying with its order, considering the good faith efforts to comply in a timely manner, any effect on the carrier's, manufacturer's, or service provider's ability to continue to do business, the degree of culpability or delay in undertaking efforts to comply, and such other matters as justice may require.

(c) **LIMITATIONS.**—An order enforcing this title may not—

(1) require a telecommunications carrier to meet the Government's demand for interception of communications and acquisition of call-identifying information to any extent in excess of the capacity for which the Attorney General has agreed to reimburse such carrier;

(2) require any telecommunications carrier to comply with assistance capability requirement<sup>1</sup> of section 103 if the Commission has determined (pursuant to section 109(b)(1)) that compliance is not reasonably achievable, unless the Attorney General has agreed (pursuant to section 109(b)(2)) to pay the costs described in section 109(b)(2)(A); or

(3) require a telecommunications carrier to modify, for the purpose of complying with the assistance capability requirements of section 103, any equipment, facility, or service deployed on or before January 1, 1995, unless—

(A) the Attorney General has agreed to pay the telecommunications carrier for all reasonable costs directly associated with modifications necessary to bring the equipment, facility, or service into compliance with those requirements; or

(B) the equipment, facility, or service has been replaced or significantly upgraded or otherwise undergoes major modification.

**SEC. 109. [47 U.S.C. 1008] PAYMENT OF COSTS OF TELECOMMUNICATIONS CARRIERS TO COMPLY WITH CAPABILITY REQUIREMENTS.**

(a) **EQUIPMENT, FACILITIES, AND SERVICES DEPLOYED ON OR BEFORE JANUARY 1, 1995.**—The Attorney General may, subject to the availability of appropriations, agree to pay telecommunications carriers for all reasonable costs directly associated with the modifications performed by carriers in connection with equipment, facilities, and services installed or deployed on or before January 1,

<sup>1</sup> So in law. Probably should read "requirements".

1995, to establish the capabilities necessary to comply with section 103.

(b) EQUIPMENT, FACILITIES, AND SERVICES DEPLOYED AFTER JANUARY 1, 1995.—

(1) DETERMINATIONS OF REASONABLY ACHIEVABLE.—The Commission, on petition from a telecommunications carrier or any other interested person, and after notice to the Attorney General, shall determine whether compliance with the assistance capability requirements of section 103 is reasonably achievable with respect to any equipment, facility, or service installed or deployed after January 1, 1995. The Commission shall make such determination within 1 year after the date such petition is filed. In making such determination, the Commission shall determine whether compliance would impose significant difficulty or expense on the carrier or on the users of the carrier's systems and shall consider the following factors:

(A) The effect on public safety and national security.

(B) The effect on rates for basic residential telephone service.

(C) The need to protect the privacy and security of communications not authorized to be intercepted.

(D) The need to achieve the capability assistance requirements of section 103 by cost-effective methods.

(E) The effect on the nature and cost of the equipment, facility, or service at issue.

(F) The effect on the operation of the equipment, facility, or service at issue.

(G) The policy of the United States to encourage the provision of new technologies and services to the public.

(H) The financial resources of the telecommunications carrier.

(I) The effect on competition in the provision of telecommunications services.

(J) The extent to which the design and development of the equipment, facility, or service was initiated before January 1, 1995.

(K) Such other factors as the Commission determines are appropriate.

(2) COMPENSATION.—If compliance with the assistance capability requirements of section 103 is not reasonably achievable with respect to equipment, facilities, or services deployed after January 1, 1995—

(A) the Attorney General, on application of a telecommunications carrier, may agree, subject to the availability of appropriations, to pay the telecommunications carrier for the additional reasonable costs of making compliance with such assistance capability requirements reasonably achievable; and

(B) if the Attorney General does not agree to pay such costs, the telecommunications carrier shall be deemed to be in compliance with such capability requirements.

(c) ALLOCATION OF FUNDS FOR PAYMENT.—The Attorney General shall allocate funds appropriated to carry out this title in accordance with law enforcement priorities determined by the Attorney General.

(d) FAILURE TO MAKE PAYMENT WITH RESPECT TO EQUIPMENT, FACILITIES, AND SERVICES DEPLOYED ON OR BEFORE JANUARY 1, 1995.—If a carrier has requested payment in accordance with procedures promulgated pursuant to subsection (e), and the Attorney General has not agreed to pay the telecommunications carrier for all reasonable costs directly associated with modifications necessary to bring any equipment, facility, or service deployed on or before January 1, 1995, into compliance with the assistance capability requirements of section 103, such equipment, facility, or service shall be considered to be in compliance with the assistance capability requirements of section 103 until the equipment, facility, or service is replaced or significantly upgraded or otherwise undergoes major modification.

(e) COST CONTROL REGULATIONS.—

(1) IN GENERAL.—The Attorney General shall, after notice and comment, establish regulations necessary to effectuate timely and cost-efficient payment to telecommunications carriers under this title, under chapters 119 and 121 of title 18, United States Code, and under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.).

(2) CONTENTS OF REGULATIONS.—The Attorney General, after consultation with the Commission, shall prescribe regulations for purposes of determining reasonable costs under this title. Such regulations shall seek to minimize the cost to the Federal Government and shall—

(A) permit recovery from the Federal Government of—

(i) the direct costs of developing the modifications described in subsection (a), of providing the capabilities requested under subsection (b)(2), or of providing the capacities requested under section 104(e), but only to the extent that such costs have not been recovered from any other governmental or nongovernmental entity;

(ii) the costs of training personnel in the use of such capabilities or capacities; and

(iii) the direct costs of deploying or installing such capabilities or capacities;

(B) in the case of any modification that may be used for any purpose other than lawfully authorized electronic surveillance by a law enforcement agency of a government, permit recovery of only the incremental cost of making the modification suitable for such law enforcement purposes; and

(C) maintain the confidentiality of trade secrets.

(3) SUBMISSION OF CLAIMS.—Such regulations shall require any telecommunications carrier that the Attorney General has agreed to pay for modifications pursuant to this section and that has installed or deployed such modification to submit to the Attorney General a claim for payment that contains or is accompanied by such information as the Attorney General may require.

**SEC. 110. [47 U.S.C. 1009] AUTHORIZATION OF APPROPRIATIONS.**

There are authorized to be appropriated to carry out this title a total of \$500,000,000 for fiscal years 1995, 1996, 1997, and 1998. Such sums are authorized to remain available until expended.

**SEC. 111. [47 U.S.C. 1001 note] EFFECTIVE DATE.**

(a) **IN GENERAL.**—Except as provided in subsection (b), this title shall take effect on the date of enactment of this Act.

(b) **ASSISTANCE CAPABILITY AND SYSTEMS SECURITY AND INTEGRITY REQUIREMENTS.**—Sections 103 and 105 of this title shall take effect on the date that is 4 years after the date of enactment of this Act.

**SEC. 112. [47 U.S.C. 1010] REPORTS.****(a) REPORTS BY THE ATTORNEY GENERAL.—**

(1) **IN GENERAL.**—On or before November 30, 1995, and on or before November 30 of each year thereafter, the Attorney General shall submit to Congress and make available to the public a report on the amounts paid during the preceding fiscal year to telecommunications carriers under sections 104(e) and 109.

(2) **CONTENTS.**—A report under paragraph (1) shall include—

(A) a detailed accounting of the amounts paid to each carrier and the equipment, facility, or service for which the amounts were paid; and

(B) projections of the amounts expected to be paid in the current fiscal year, the carriers to which payment is expected to be made, and the equipment, facilities, or services for which payment is expected to be made.

**(b) REPORTS BY THE COMPTROLLER GENERAL.—**

(1) On or before April 1, 1996, the Comptroller General of the United States, and every two years thereafter, the Inspector General of the Department of Justice, shall submit to the Congress a report, after consultation with the Attorney General and the telecommunications industry—

(A) describing the type of equipment, facilities, and services that have been brought into compliance under this title; and

(B) reflecting its analysis of the reasonableness and cost-effectiveness of the payments made by the Attorney General to telecommunications carriers for modifications necessary to ensure compliance with this title.

(2) **COMPLIANCE COST ESTIMATES.**—A report under paragraph (1) shall include findings and conclusions on the costs to be incurred by telecommunications carriers to comply with the assistance capability requirements of section 103 after the effective date of such section 103, including projections of the amounts expected to be incurred and a description of the equipment, facilities, or services for which they are expected to be incurred.

[Title II made amendments to title 18, Unites States Code.]

[Title III made amendments to the Communications Act of 1934.]

TITLE IV—TELECOMMUNICATIONS CARRIER COMPLIANCE PAYMENTS

SEC. 401. [47 U.S.C. 1021] DEPARTMENT OF JUSTICE TELECOMMUNICATIONS CARRIER COMPLIANCE FUND.

(a) ESTABLISHMENT OF FUND.—There is hereby established in the United States Treasury a fund to be known as the Department of Justice Telecommunications Carrier Compliance Fund (hereafter referred to as “the Fund”), which shall be available without fiscal year limitation to the Attorney General for making payments to telecommunications carriers, equipment manufacturers, and providers of telecommunications support services pursuant to section 109 of this Act.

(b) DEPOSITS TO THE FUND.—Notwithstanding any other provision of law, any agency of the United States with law enforcement or intelligence responsibilities may deposit as offsetting collections to the Fund any unobligated balances that are available until expended, upon compliance with any Congressional<sup>1</sup> notification requirements for reprogramming of funds applicable to the appropriation from which the deposit is to be made.

(c) TERMINATION.—

(1) The Attorney General may terminate the Fund at such time as the Attorney General determines that the Fund is no longer necessary.

(2) Any balance in the Fund at the time of its termination shall be deposited in the General Fund of the Treasury.

(3) A decision of the Attorney General to terminate the Fund shall not be subject to judicial review.

(d) AVAILABILITY OF FUNDS FOR EXPENDITURE.—Funds shall not be available for obligation unless an implementation plan as set forth in subsection (e) is submitted to each member of the Committees on the Judiciary and Appropriations of both the House of Representatives and the Senate and the Congress does not by law block or prevent the obligation of such funds. Such funds shall be treated as a reprogramming of funds under section 605 of the Department<sup>2</sup> of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1997, and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section and this section.

(e) IMPLEMENTATION PLAN.—The implementation plan shall include:

(1) the law enforcement assistance capability requirements and an explanation of law enforcement’s recommended interface;

(2) the proposed actual and maximum capacity requirements for the number of simultaneous law enforcement communications intercepts, pen registers, and trap and trace devices that authorized law enforcement agencies may seek to conduct, set forth on a county-by-county basis for wireline services and on a market service area basis for wireless services, and the historical baseline of electronic surveillance activity upon which such capacity requirements are based;

<sup>1</sup>So in law. Probably should be “congressional”.

<sup>2</sup>So in law. Probably should be “Departments”.

(3) a prioritized list of carrier equipment, facilities, and services deployed on or before January 1, 1995, to be modified by carriers at the request of law enforcement based on its investigative needs;

(4) a projected reimbursement plan that estimates the cost for the coming fiscal year and for each fiscal year thereafter, based on the prioritization of law enforcement needs as outlined in <sup>1</sup>(3), of modification by carriers of equipment, facilities and services, installed on or before January 1, 1995.

(f) ANNUAL REPORT TO THE CONGRESS.—The Attorney General shall submit to the Congress each year a report specifically detailing all deposits and expenditures made pursuant to<sup>2</sup> this Act in each fiscal year. This report shall be submitted to each member of the Committees on the Judiciary and Appropriations of both the House of Representatives and the Senate, and to the Speaker and minority leader of the House of Representatives and to the majority and minority leaders of the Senate, no later than 60 days after the end of each fiscal year.

<sup>1</sup>Probably should have the word “paragraph” before “(3)”.

<sup>2</sup>Probably should read “to title I of”.

## NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION ORGANIZATION ACT

AN ACT To authorize appropriations for the National Telecommunications and Information Administration, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE.

This Act may be cited as the “Telecommunications Authorization Act of 1992”.<sup>1</sup>

## TITLE I—NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

### PART A—ORGANIZATION AND FUNCTIONS

#### SEC. 101. [47 U.S.C. 901 note] SHORT TITLE.

This title may be cited as the “National Telecommunications and Information Administration Organization Act”.

#### SEC. 102. [47 U.S.C. 901] DEFINITIONS; FINDINGS; POLICY.

(a) DEFINITIONS.—In this title, the following definitions apply:

(1) The term “NTIA” means the National Telecommunications and Information Administration.

(2) The term “Assistant Secretary” means the Assistant Secretary for Communications and Information.

(3) The term “Secretary” means the Secretary of Commerce.

(4) The term “Commission” means the Federal Communications Commission.

(5) The term “Corporation” means the Communications Satellite Corporation authorized in title III of the Communications Satellite Act of 1962 (47 U.S.C. 731 et seq.).

(b) FINDINGS.—The Congress finds the following:

(1) Telecommunications and information are vital to the public welfare, national security, and competitiveness of the United States.

(2) Rapid technological advances being made in the telecommunications and information fields make it imperative that the United States maintain effective national and international policies and programs capable of taking advantage of continued advancements.

<sup>1</sup>Public Law 102–538, 106 Stat. 3533, approved Oct. 27, 1992.

(3) Telecommunications and information policies and recommendations advancing the strategic interests and the international competitiveness of the United States are essential aspects of the Nation's involvement in international commerce.

(4) There is a critical need for competent and effective telecommunications and information research and analysis and national and international policy development, advice, and advocacy by the executive branch of the Federal Government.

(5) As one of the largest users of the Nation's telecommunications facilities and resources, the Federal Government must manage its radio spectrum use and other internal communications operations in the most efficient and effective manner possible.

(6) It is in the national interest to codify the authority of the National Telecommunications and Information Administration, an agency in the Department of Commerce, as the executive branch agency principally responsible for advising the President on telecommunications and information policies, and for carrying out the related functions it currently performs, as reflected in Executive Order 12046.

(c) POLICY.—The NTIA shall seek to advance the following policies:

(1) Promoting the benefits of technological development in the United States for all users of telecommunications and information facilities.

(2) Fostering national safety and security, economic prosperity, and the delivery of critical social services through telecommunications.

(3) Facilitating and contributing to the full development of competition, efficiency, and the free flow of commerce in domestic and international telecommunications markets.

(4) Fostering full and efficient use of telecommunications resources, including effective use of the radio spectrum by the Federal Government, in a manner which encourages the most beneficial uses thereof in the public interest.

(5) Furthering scientific knowledge about telecommunications and information.

**SEC. 103. [47 U.S.C. 902] ESTABLISHMENT; ASSIGNED FUNCTIONS.**

(a) ESTABLISHMENT.—

(1) ADMINISTRATION.—There shall be within the Department of Commerce an administration to be known as the National Telecommunications and Information Administration.

(2) HEAD OF ADMINISTRATION.—The head of the NTIA shall be an Assistant Secretary of Commerce for Communications and Information, who shall be appointed by the President, by and with the advice and consent of the Senate.

(b) ASSIGNED FUNCTIONS.—

(1) IN GENERAL.—Subject to section 105(d), the Secretary shall assign to the Assistant Secretary and the NTIA responsibility for the performance of the Secretary's communications and information functions.

(2) COMMUNICATIONS AND INFORMATION FUNCTIONS.—Subject to section 105(d), the functions to be assigned by the Secretary under paragraph (1) include (but are not limited to) the

following functions transferred to the Secretary by Reorganization Plan Number 1 of 1977 and Executive Order 12046:

(A) The authority delegated by the President to the Secretary to assign frequencies to radio stations or classes of radio stations belonging to and operated by the United States, including the authority to amend, modify, or revoke such assignments, but not including the authority to make final disposition of appeals from frequency assignments.

(B) The authority to authorize a foreign government to construct and operate a radio station at the seat of Government of the United States, but only upon recommendation of the Secretary of State and after consultation with the Attorney General and the Chairman of the Commission.

(C) Functions relating to the communications satellite system, including authority vested in the President by section 201(a) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)) and delegated to the Secretary under Executive Order 12046, to—

(i) aid in the planning and development of the commercial communications satellite system and the execution of a national program for the operation of such a system;

(ii) conduct a continuous review of all phases of the development and operation of such system, including the activities of the Corporation;

(iii) coordinate, in consultation with the Secretary of State, the activities of governmental agencies with responsibilities in the field of telecommunications, so as to ensure that there is full and effective compliance at all times with the policies set forth in the Communications Satellite Act of 1962;

(iv) make recommendations to the President and others as appropriate, with respect to steps necessary to ensure the availability and appropriate utilization of the communications satellite system for general governmental purposes in consonance with section 201(a)(6) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)(6));

(v) help attain coordinated and efficient use of the electromagnetic spectrum and the technical compatibility of the communications satellite system with existing communications facilities both in the United States and abroad;

(vi) assist in the preparation of Presidential action documents for consideration by the President as may be appropriate under section 201(a) of the Communications Satellite Act of 1962 (47 U.S.C. 721(a)), make necessary recommendations to the President in connection therewith, and keep the President informed with respect to the carrying out of the Communications Satellite Act of 1962; and

(vii) serve as the chief point of liaison between the President and the Corporation.

(D) The authority to serve as the President's principal adviser on telecommunications policies pertaining to the Nation's economic and technological advancement and to the regulation of the telecommunications industry.

(E) The authority to advise the Director of the Office of Management and Budget on the development of policies relating to the procurement and management of Federal telecommunications systems.

(F) The authority to conduct studies and evaluations concerning telecommunications research and development and concerning the initiation, improvement, expansion, testing, operation, and use of Federal telecommunications systems and advising agencies of the results of such studies and evaluations.

(G) Functions which involve—

(i) developing and setting forth, in coordination with the Secretary of State and other interested agencies, plans, policies, and programs which relate to international telecommunications issues, conferences, and negotiations;

(ii) coordinating economic, technical, operational, and related preparations for United States participation in international telecommunications conferences and negotiations; and

(iii) providing advice and assistance to the Secretary of State on international telecommunications policies to strengthen the position and serve the best interests of the United States in support of the Secretary of State's responsibility for the conduct of foreign affairs.

(H) The authority to provide for the coordination of the telecommunications activities of the executive branch and assist in the formulation of policies and standards for those activities, including (but not limited to) considerations of interoperability, privacy, security, spectrum use, and emergency readiness.

(I) The authority to develop and set forth telecommunications policies pertaining to the Nation's economic and technological advancement and to the regulation of the telecommunications industry.

(J) The responsibility to ensure that the views of the executive branch on telecommunications matters are effectively presented to the Commission and, in coordination with the Director of the Office of Management and Budget, to the Congress.

(K) The authority to establish policies concerning spectrum assignments and use by radio stations belonging to and operated by the United States.

(L) Functions which involve—

(i) developing, in cooperation with the Commission, a comprehensive long-range plan for improved management of all electromagnetic spectrum resources;

(ii) performing analysis, engineering, and administrative functions, including the maintenance of nec-

essary files and data bases, as necessary for the performance of assigned functions for the management of electromagnetic spectrum resources;

(iii) conducting research and analysis of electromagnetic propagation, radio systems characteristics, and operating techniques affecting the utilization of the electromagnetic spectrum in coordination with specialized, related research and analysis performed by other Federal agencies in their areas of responsibility; and

(iv) conducting research and analysis in the general field of telecommunications sciences in support of assigned functions and in support of other Government agencies.

(M) The authority to conduct studies and make recommendations concerning the impact of the convergence of computer and communications technology.

(N) The authority to coordinate Federal telecommunications assistance to State and local governments.

(O) The authority to conduct and coordinate economic and technical analyses of telecommunications policies, activities, and opportunities in support of assigned functions.

(P) The authority to contract for studies and reports relating to any aspect of assigned functions.

(Q) The authority to participate, as appropriate, in evaluating the capability of telecommunications resources, in recommending remedial actions, and in developing policy options.

(R) The authority to participate with the National Security Council and the Director of the Office of Science and Technology Policy as they carry out their responsibilities under sections 4-1, 4-2, and 4-3 of Executive Order 12046, with respect to emergency functions, the national communication system, and telecommunications planning functions.

(S) The authority to establish coordinating committees pursuant to section 10 of Executive Order 11556.

(T) The authority to establish, as permitted by law, such interagency committees and working groups composed of representatives of interested agencies and consulting with such departments and agencies as may be necessary for the effective performance of assigned functions.

(3) ADDITIONAL COMMUNICATIONS AND INFORMATION FUNCTIONS.—In addition to the functions described in paragraph (2), the Secretary under paragraph (1)—

(A) may assign to the NTIA the performance of functions under section 504(a) of the Communications Satellite Act of 1962 (47 U.S.C. 753(a));

(B) shall assign to the NTIA the administration of the Public Telecommunications Facilities Program under sections 390 through 393 of the Communications Act of 1934 (47 U.S.C. 390-393), and the National Endowment for Children's Educational Television under section 394 of the Communications Act of 1934 (47 U.S.C. 394); and

(C) shall assign to the NTIA responsibility for providing for the establishment, and overseeing operation, of a second-level Internet domain within the United States country code domain in accordance with section 157.

**SEC. 104. [47 U.S.C. 903] SPECTRUM MANAGEMENT ACTIVITIES.<sup>1</sup>**

(a) REVISION OF REGULATIONS.—Within 180 days after the date of the enactment of this Act, the Secretary of Commerce and the NTIA shall amend the Department of Commerce spectrum management document entitled “Manual of Regulations and Procedures for Federal Radio Frequency Management” to improve Federal spectrum management activities and shall publish in the Federal Register any changes in the regulations in such document.

(b) REQUIREMENTS FOR REVISIONS.—The amendments required by subsection (a) shall—

(1) provide for a period at the beginning of each meeting of the Interdepartmental Radio Advisory Committee to be open to the public to make presentations and receive advice, and provide the public with other meaningful opportunities to make presentations and receive advice;

(2) include provisions that will require (A) publication in the Federal Register of major policy proposals that are not classified and that involve spectrum management, and (B) adequate opportunity for public review and comment on those proposals;

(3) include provisions that will require publication in the Federal Register of major policy decisions that are not classified and that involve spectrum management;

(4) include provisions that will require that nonclassified spectrum management information be made available to the public, including access to electronic databases; and

(5) establish procedures that provide for the prompt and impartial consideration of requests for access to Government spectrum by the public, which procedures shall include provisions that will require the disclosure of the status and ultimate disposition of any such request.

(c) CERTIFICATION TO CONGRESS.—Not later than 180 days after the date of enactment of this Act, the Secretary of Commerce shall certify to Congress that the Secretary has complied with this section.

(d) RADIO SERVICES.—

<sup>1</sup>The fiscal year 1999 appropriation to the NTIA to carry out spectrum management activities contained the following provisions:

For necessary expenses, as provided for by law, of the National Telecommunications and Information Administration (NTIA), \$16,550,000, to remain available until expended: *Provided*, That notwithstanding 31 U.S.C. 1535(d), the Secretary of Commerce shall charge Federal agencies for costs incurred in spectrum management, analysis, and operations, and related services and such fees shall be retained and used as offsetting collections for costs of such spectrum services, to remain available until expended: *Provided further*, That hereafter, notwithstanding any other provision of law, NTIA shall not authorize spectrum use or provide any spectrum functions pursuant to the NTIA Organization Act, 47 U.S.C. 902–903, to any Federal entity without reimbursement as required by NTIA for such spectrum management costs, and Federal entities withholding payment of such cost shall not use spectrum: *Provided further*, That the Secretary of Commerce is authorized to retain and use as offsetting collections all funds transferred, or previously transferred, from other Government agencies for all costs incurred in telecommunications research, engineering, and related activities by the Institute for Telecommunication Sciences of the NTIA, in furtherance of its assigned functions under this paragraph, and such funds received from other Government agencies shall remain available until expended.

(1) ASSIGNMENTS FOR RADIO SERVICES.—In assigning frequencies for mobile radio services and other radio services, the Secretary of Commerce shall promote efficient and cost-effective use of the spectrum to the maximum extent feasible.

(2) AUTHORITY TO WITHHOLD ASSIGNMENTS.—The Secretary of Commerce shall have the authority to withhold or refuse to assign frequencies for mobile radio service or other radio service in order to further the goal of making efficient and cost-effective use of the spectrum.

(3) SPECTRUM PLAN.—By October 1, 1993, the Secretary of Commerce shall adopt and commence implementation of a plan for Federal agencies with existing mobile radio systems to use more spectrum-efficient technologies that are at least as spectrum-efficient and cost-effective as readily available commercial mobile radio systems. The plan shall include a time schedule for implementation.

(4) REPORT TO CONGRESS.—By October 1, 1993, the Secretary of Commerce shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report summarizing the plan adopted under paragraph (3), including the implementation schedule for the plan.

(e) PROOF OF COMPLIANCE WITH FCC LICENSING REQUIREMENTS.—

(1) AMENDMENT TO MANUAL REQUIRED.—Within 90 days after the date of enactment of this subsection, the Secretary and the NTIA shall amend the spectrum management document described in subsection (a) to require that—

(A) no person or entity (other than an agency or instrumentality of the United States) shall be permitted, after 1 year after such date of enactment, to operate a radio station utilizing a frequency that is authorized for the use of government stations pursuant to section 103(b)(2)(A) of this Act for any non-government application unless such person or entity has submitted to the NTIA proof, in a form prescribed by such manual, that such person or entity has obtained a license from the Commission; and

(B) no person or entity (other than an agency or instrumentality of the United States) shall be permitted, after 1 year after such date of enactment, to utilize a radio station belonging to the United States for any non-government application unless such person or entity has submitted to the NTIA proof, in a form prescribed by such manual, that such person or entity has obtained a license from the Commission.

(2) RETENTION OF FORMS.—The NTIA shall maintain on file the proofs submitted under paragraph (1), or facsimiles thereof.

(3) CERTIFICATION.—Within 1 year after the date of enactment of this subsection, the Secretary and the NTIA shall certify to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate that—

(A) the amendments required by paragraph (1) have been accomplished; and

(B) the requirements of subparagraphs (A) and (B) of such paragraph are being enforced.

**SEC. 105. [47 U.S.C. 904] GENERAL ADMINISTRATIVE PROVISIONS.**

(a) INTERAGENCY FUNCTIONS.—

(1) AGENCY CONSULTATION.—Federal agencies shall consult with the Assistant Secretary and the NTIA to ensure that the conduct of telecommunications activities by such agencies is consistent with the policies developed under section 103(b)(2)(K).

(2) REPORT TO PRESIDENT.—The Secretary shall timely submit to the President each year the report (including evaluations and recommendations) provided for in section 404(a)<sup>1</sup> of the Communications Satellite Act of 1962 (47 U.S.C. 744(a)<sup>1</sup>).

(3) COORDINATION WITH SECRETARY OF STATE.—The Secretary shall coordinate with the Secretary of State the performance of the functions described in section 103(b)(2)(C). The Corporation and concerned executive agencies shall provide the Secretary with such assistance, documents, and other cooperation as will enable the Secretary to carry out those functions.

(b) ADVISORY COMMITTEES AND INFORMAL CONSULTATIONS WITH INDUSTRY.—To the extent the Assistant Secretary deems it necessary to continue the Interdepartmental Radio Advisory Committee, such Committee shall serve as an advisory committee to the Assistant Secretary and the NTIA. As permitted by law, the Assistant Secretary may establish one or more telecommunications or information advisory committees (or both) composed of experts in the telecommunications and/or information areas outside the Government. The NTIA may also informally consult with industry as appropriate to carry out the most effective performance of its functions.

(c) GENERAL PROVISIONS.—

(1) REGULATIONS.—The Secretary and NTIA shall issue such regulations as may be necessary to carry out the functions assigned under this title.

(2) SUPPORT AND ASSISTANCE FROM OTHER AGENCIES.—All executive agencies are authorized and directed to cooperate with the NTIA and to furnish it with such information, support, and assistance, not inconsistent with law, as it may require in the performance of its functions.

(3) EFFECT ON VESTED FUNCTIONS.—Nothing in this title reassigns any function that is, on the date of enactment of this Act, vested by law or executive order in the Commission, or the Department of State, or any officer thereof.

(d) REORGANIZATION.—

(1) AUTHORITY TO REORGANIZE.—Subject to paragraph (2), the Secretary may reassign to another unit of the Department of Commerce a function (or portion thereof) required to be assigned to the NTIA by section 103(b).

(2) LIMITATION ON AUTHORITY.—The Secretary may not make any reassignment of a function (or portion thereof) re-

<sup>1</sup>So in law. Section 404 of the Communications Satellite Act of 1962 does not contain subsections.

quired to be assigned to the NTIA by section 103(b) unless the Secretary submits to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a statement describing the proposed reassignment and containing an explanation of the reasons for the reassignment. No reassignment of any such function (or portion thereof) shall be effective until 90 legislative days after the Secretary submits that statement to such Committees. For purposes of this paragraph, the term "legislative days" includes only days on which both Houses of Congress are in session.

(e) **LIMITATION ON SOLICITATIONS.**—Notwithstanding section 1 of the Act of October 2, 1964 (15 U.S.C. 1522), neither the Secretary, the Assistant Secretary, nor any officer or employee of the NTIA shall solicit any gift or bequest of property, both real and personal, from any entity for the purpose of furthering the authorized functions of the NTIA if such solicitation would create a conflict of interest or an appearance of a conflict of interest.

## **PART B—TRANSFER OF AUCTIONABLE FREQUENCIES**

### **SEC. 111. [47 U.S.C. 921] DEFINITIONS.**

As used in this part:

(1) The term "allocation" means an entry in the National Table of Frequency Allocations of a given frequency band for the purpose of its use by one or more radiocommunication services.

(2) The term "assignment" means an authorization given to a station licensee to use specific frequencies or channels.

(3) The term "the 1934 Act" means the Communications Act of 1934 (47 U.S.C. 151 et seq.).

### **SEC. 112. [47 U.S.C. 922] NATIONAL SPECTRUM ALLOCATION PLANNING.**

The Assistant Secretary and the Chairman of the Commission shall meet, at least biannually, to conduct joint spectrum planning with respect to the following issues:

(1) the extent to which licenses for spectrum use can be issued pursuant to section 309(j) of the 1934 Act to increase Federal revenues;

(2) the future spectrum requirements for public and private uses, including State and local government public safety agencies;

(3) the spectrum allocation actions necessary to accommodate those uses; and

(4) actions necessary to promote the efficient use of the spectrum, including spectrum management techniques to promote increased shared use of the spectrum that does not cause harmful interference as a means of increasing commercial access.

### **SEC. 113. [47 U.S.C. 923] IDENTIFICATION OF REALLOCABLE FREQUENCIES.**

(a) **IDENTIFICATION REQUIRED.**—The Secretary shall, within 18 months after the date of the enactment of the Omnibus Budget

Reconciliation Act of 1993 and within 6 months after the date of enactment of the Balanced Budget Act of 1997, prepare and submit to the President and the Congress a report identifying and recommending for reallocation bands of frequencies—

(1) that are allocated on a primary basis for Federal Government use;

(2) that are not required for the present or identifiable future needs of the Federal Government;

(3) that can feasibly be made available, as of the date of submission of the report or at any time during the next 15 years, for use under the 1934 Act (other than for Federal Government stations under section 305 of the 1934 Act);

(4) the transfer of which (from Federal Government use) will not result in costs to the Federal Government, or losses of services or benefits to the public, that are excessive in relation to the benefits to the public that may be provided by non-Federal licensees; and

(5) that are most likely to have the greatest potential for productive uses and public benefits under the 1934 Act if allocated for non-Federal use.

(b) MINIMUM AMOUNT OF SPECTRUM RECOMMENDED.—

(1) INITIAL REALLOCATION REPORT.—In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the initial report required by subsection (a), for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that in the aggregate span not less than 200 megahertz, that are located below 5 gigahertz, and that meet the criteria specified in paragraphs (1) through (5) of subsection (a). Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that span in the aggregate not less than 100 megahertz.

(2) MIXED USES PERMITTED TO BE COUNTED.—Bands of frequencies which a report of the Secretary under subsection (a) or (d)(1) recommends be partially retained for use by Federal Government stations, but which are also recommended to be reallocated to be made available under the 1934 Act for use by non-Federal stations, may be counted toward the minimum spectrum required by paragraph (1) or (3) of this subsection, except that—

(A) the bands of frequencies counted under this paragraph may not count toward more than one-half of the minimums required by paragraph (1) or (3) of this subsection;

(B) a band of frequencies may not be counted under this paragraph unless the assignments of the band to Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305) are limited by geographic area, by time, or by other means so as to guarantee that the potential use to be made by such Federal Government stations is substantially less (as measured by geographic area, time, or otherwise) than the potential use to be made by non-Federal stations; and

(C) the operational sharing permitted under this paragraph shall be subject to the interference regulations pre-

scribed by the Commission pursuant to section 305(a) of the 1934 Act and to coordination procedures that the Commission and the Secretary shall jointly establish and implement to ensure against harmful interference.

(3) SECOND REALLOCATION REPORT.—In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the second report required by subsection (a), for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), a band or bands of frequencies that—

- (A) in the aggregate span not less than 12 megahertz;
- (B) are located below 3 gigahertz; and
- (C) meet the criteria specified in paragraphs (1) through (5) of subsection (a).

(c) CRITERIA FOR IDENTIFICATION.—

(1) NEEDS OF THE FEDERAL GOVERNMENT.—In determining whether a band of frequencies meets the criteria specified in subsection (a)(2), the Secretary shall—

(A) consider whether the band of frequencies is used to provide a communications service that is or could be available from a commercial provider or other vendor;

(B) seek to promote—

- (i) the maximum practicable reliance on commercially available substitutes;
- (ii) the sharing of frequencies (as permitted under subsection (b)(2));
- (iii) the development and use of new communications technologies; and
- (iv) the use of nonradiating communications systems where practicable; and

(C) seek to avoid—

- (i) serious degradation of Federal Government services and operations;
- (ii) excessive costs to the Federal Government and users of Federal Government services; and
- (iii) excessive disruption of existing use of Federal Government frequencies by amateur radio licensees.

(2) FEASIBILITY OF USE.—In determining whether a frequency band meets the criteria specified in subsection (a)(3), the Secretary shall—

(A) assume that the frequency will be assigned by the Commission under section 303 of the 1934 Act (47 U.S.C. 303) within 15 years;

(B) assume reasonable rates of scientific progress and growth of demand for telecommunications services;

(C) seek to include frequencies which can be used to stimulate the development of new technologies; and

(D) consider the immediate and recurring costs to reestablish services displaced by the reallocation of spectrum.

(3) ANALYSIS OF BENEFITS.—In determining whether a band of frequencies meets the criteria specified in subsection (a)(5), the Secretary shall consider—

(A) the extent to which equipment is or will be available that is capable of utilizing the band;

(B) the proximity of frequencies that are already assigned for commercial or other non-Federal use;

(C) the extent to which, in general, commercial users could share the frequency with amateur radio licensees; and

(D) the activities of foreign governments in making frequencies available for experimentation or commercial assignments in order to support their domestic manufacturers of equipment.

(4) POWER AGENCY FREQUENCIES.—

(A) APPLICABILITY OF CRITERIA.—The criteria specified by subsection (a) shall be deemed not to be met for any purpose under this part with regard to any frequency assignment to, or any frequency assignment used by, a Federal power agency for the purpose of withdrawing that assignment.

(B) MIXED USE ELIGIBILITY.—The frequencies assigned to any Federal power agency may only be eligible for mixed use under subsection (b)(2) in geographically separate areas, but in those cases where a frequency is to be shared by an affected Federal power agency and a non-Federal user, such use by the non-Federal user shall not cause harmful interference to the affected Federal power agency or adversely affect the reliability of its power system.

(C) DEFINITION.—As used in this paragraph, the term “Federal power agency” means the Tennessee Valley Authority, the Bonneville Power Administration, the Western Area Power Administration, the Southwestern Power Administration, the Southeastern Power Administration, or the Alaska Power Administration.

(5) LIMITATION ON REALLOCATION.—None of the frequencies recommended for reallocation in the reports required by this subsection shall have been recommended, prior to the date of enactment of the Omnibus Budget Reconciliation Act of 1993, for reallocation to non-Federal use by international agreement.

(d) PROCEDURE FOR IDENTIFICATION OF REALLOCABLE BANDS OF FREQUENCIES.—

(1) SUBMISSION OF PRELIMINARY IDENTIFICATION TO CONGRESS.—Within 6 months after the date of the enactment of the Omnibus Budget Reconciliation Act of 1993, the Secretary shall prepare, make publicly available, and submit to the President, the Congress, and the Commission a report which makes a preliminary identification of reallocable bands of frequencies which meet the criteria established by this section.

(2) PUBLIC COMMENT.—The Secretary shall provide interested persons with the opportunity to submit, within 90 days after the date of its publication, written comment on the preliminary report required by paragraph (1). The Secretary shall immediately transmit a copy of any such comment to the Commission.

(3) COMMENT AND RECOMMENDATIONS FROM COMMISSION.—The Commission shall, within 90 days after the conclusion of the period for comment provided pursuant to paragraph (2),

submit to the Secretary the Commission's analysis of such comments and the Commission's recommendations for responses to such comments, together with such other comments and recommendations as the Commission deems appropriate.

(4) DIRECT DISCUSSIONS.—The Secretary shall encourage and provide opportunity for direct discussions among commercial representatives and Federal Government users of the spectrum to aid the Secretary in determining which frequencies to recommend for reallocation. The Secretary shall provide notice to the public and the Commission of any such discussions, including the name or names of any businesses or other persons represented in such discussions. A representative of the Commission (and of the Secretary at the election of the Secretary) shall be permitted to attend any such discussions. The Secretary shall provide the public and the Commission with an opportunity to comment on the results of any such discussions prior to the submission of the initial report required by subsection (a).

(e) TIMETABLE FOR REALLOCATION AND LIMITATION.—<sup>1</sup>

(1) TIMETABLE REQUIRED.—The Secretary shall, as part of the reports required by subsections (a) and (d)(1), include a timetable that recommends effective dates by which the President shall withdraw or limit assignments of the frequencies specified in such reports.

(2) EXPEDITED REALLOCATION.—

(A) REQUIRED REALLOCATION.—The Secretary shall, as part of the report required by subsection (d)(1), specifically identify and recommend for immediate reallocation bands of frequencies that in the aggregate span not less than 50 megahertz, that meet the criteria described in subsection (a), and that can be made available for reallocation immediately upon issuance of the report required by subsection (d)(1). Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that in the aggregate span not less than 25 megahertz .

(B) PERMITTED REALLOCATION.—The Secretary may, as part of such report, identify and recommend bands of frequencies for immediate reallocation for a mixed use pursuant to subsection (b)(2), but such bands of frequencies may not count toward the minimums required by subparagraph (A).

(3) DELAYED EFFECTIVE DATES.—In setting the recommended delayed effective dates, the Secretary shall—

(A) consider the need to reallocate bands of frequencies as early as possible, taking into account the requirements of paragraphs (1) and (2) of section 115(b);

<sup>1</sup> Section 3002(b) of the Balanced Budget Act of 1997 (P.L. 105–33; 111 Stat. 260) contained the following provision with respect to the accelerated availability of certain spectrum:

(b) ACCELERATED AVAILABILITY FOR AUCTION OF 1,710–1,755 MEGAHERTZ FROM INITIAL REALLOCATION REPORT.—The band of frequencies located at 1,710–1,755 megahertz identified in the initial reallocation report under section 113(a) of the National Telecommunications and Information Administration Act (47 U.S.C. 923(a)) shall, notwithstanding the timetable recommended under section 113(e) of such Act and section 115(b)(1) of such Act, be available in accordance with this subsection for assignment for commercial use. The Commission shall assign licenses for such use by competitive bidding commenced after January 1, 2001, pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)).

(B) be based on the useful remaining life of equipment that has been purchased or contracted for to operate on identified frequencies;

(C) consider the need to coordinate frequency use with other nations; and

(D) take into account the relationship between the costs to the Federal Government of changing to different frequencies and the benefits that may be obtained from commercial and other non-Federal uses of the reassigned frequencies.

(f) **ADDITIONAL REALLOCATION REPORT.**—If the Secretary receives a notice from the Commission pursuant to section 3002(c)(5) of the Balanced Budget Act of 1997, the Secretary shall prepare and submit to the President, the Commission, and the Congress a report recommending for reallocation for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that are suitable for the licensees identified in the Commission's notice. The Commission shall, not later than one year after receipt of such report, prepare, submit to the President and the Congress, and implement, a plan for the immediate allocation and assignment of such frequencies under the 1934 Act to incumbent licensees described in the Commission's notice.

(g) **RELOCATION OF FEDERAL GOVERNMENT STATIONS.**—<sup>1</sup>

(1) **IN GENERAL.**—

(A) **AUTHORITY OF FEDERAL ENTITIES TO ACCEPT COMPENSATION.**—In order to expedite the commercial use of the electromagnetic spectrum and notwithstanding section 3302(b) of title 31, United States Code, any Federal entity which operates a Federal Government station may accept from any person payment of the expenses of relocating the Federal entity's operations from one or more frequencies to another frequency or frequencies, including the costs of any modification, replacement, or reissuance of equipment, facilities, operating manuals, or regulations incurred by that entity. Any such Federal entity which proposes to so relocate shall notify the NTIA, which in turn shall notify the Commission, before the auction concerned of the mar-

<sup>1</sup> Section 113(g) of the National Telecommunications and Information Administration Organization Act was amended by subsection (c) of section 1064 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999. The other provisions of that section are as follows:

**SEC. 1064. DEPARTMENT OF DEFENSE USE OF FREQUENCY SPECTRUM.**

(a) **FINDING.**—Congress finds that the report submitted to Congress by the Secretary of Defense on April 2, 1998, regarding the reallocation of the frequency spectrum used or dedicated to the Department of Defense and the intelligence community does not include a discussion of the costs to the Department of Defense that are associated with past and potential future reallocations of the frequency spectrum, although such a discussion was to be included in the report as directed in connection with the enactment of the National Defense Authorization Act for Fiscal Year 1998.

(b) **ADDITIONAL REPORT.**—The Secretary of Defense shall, not later than October 31, 1998, submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report that discusses the costs referred to in subsection (a).

\* \* \* \* \*

(d) **REPORTS ON COSTS OF RELOCATIONS.**—The head of each department or agency of the Federal Government shall include in the annual budget submission of such department or agency to the Director of the Office of Management and Budget a report assessing the costs to be incurred by such department or agency as a result of any frequency relocations of such department or agency that are anticipated under section 113 of the National Telecommunications Information Administration Organization Act (47 U.S.C. 923) as of the date of such report.

ginal costs anticipated to be associated with such relocation or with modifications necessary to accommodate prospective licensees. The Commission in turn shall notify potential bidders of the estimated relocation or modification costs based on the geographic area covered by the proposed licenses before the auction.

(B) REQUIREMENT TO COMPENSATE FEDERAL ENTITIES.—Any person on whose behalf a Federal entity incurs costs under subparagraph (A) shall compensate the Federal entity in advance for such costs. Such compensation may take the form of a cash payment or in-kind compensation.

(C) DISPOSITION OF PAYMENTS.—

(i) PAYMENT BY ELECTRONIC FUNDS TRANSFER.—A person making a cash payment under this paragraph shall make the cash payment by depositing the amount of the payment by electronic funds transfer in the account of the Federal entity concerned in the Treasury of the United States or in another account as authorized by law.

(ii) AVAILABILITY.—Subject to the provisions of authorization Acts and appropriations Acts, amounts deposited under this subparagraph shall be available to the Federal entity concerned to pay directly the costs of relocation under this paragraph, to repay or make advances to appropriations or funds which do or will initially bear all or part of such costs, or to refund excess sums when necessary.

(D) APPLICATION TO CERTAIN OTHER RELOCATIONS.—

The provisions of this paragraph also apply to any Federal entity that operates a Federal Government station assigned to used<sup>1</sup> electromagnetic spectrum identified for reallocation under subsection (a) if before August 5, 1997, the Commission has not identified that spectrum for service or assigned licenses or otherwise authorized service for that spectrum.

(E) IMPLEMENTATION PROCEDURES.—The NTIA and the Commission shall develop procedures for the implementation of this paragraph, which procedures shall include a process for resolving any differences that arise between the Federal Government and commercial licensees regarding estimates of relocation or modification costs under this paragraph.

(F) INAPPLICABILITY TO CERTAIN RELOCATIONS.—With the exception of the band of frequencies located at 1710–1755 megahertz, the provisions of this paragraph shall not apply to Federal spectrum identified for reallocation in the first reallocation report submitted to the President and Congress under subsection (a).

(2) PROCESS FOR RELOCATION.—Any person seeking to relocate a Federal Government station that has been assigned a frequency within a band that has been allocated for mixed Federal and non-Federal use, or that has been scheduled for re-

<sup>1</sup> So in original. Probably should be “use the”.

allocation to non-Federal use, may submit a petition for such relocation to NTIA. The NTIA shall limit or terminate the Federal Government station's operating license within 6 months after receiving the petition if the following requirements are met:

(A) the person seeking relocation of the Federal Government station has guaranteed to pay all relocation costs incurred by the Federal entity, including all engineering, equipment, site acquisition and construction, and regulatory fee costs;

(B) all activities necessary for implementing the relocation have been completed, including construction of replacement facilities (if necessary and appropriate) and identifying and obtaining new frequencies for use by the relocated Federal Government station (where such station is not relocating to spectrum reserved exclusively for Federal use);

(C) any necessary replacement facilities, equipment modifications, or other changes have been implemented and tested to ensure that the Federal Government station is able to successfully accomplish its purposes; and

(D) NTIA has determined that the proposed use of the spectrum frequency band to which the Federal entity will relocate its operations is—

(i) consistent with obligations undertaken by the United States in international agreements and with United States national security and public safety interests; and

(ii) suitable for the technical characteristics of the band and consistent with other uses of the band.

In exercising its authority under clause (i) of this subparagraph, NTIA shall consult with the Secretary of Defense, the Secretary of State, or other appropriate officers of the Federal Government.

(3) RIGHT TO RECLAIM.—If within one year after the relocation the Federal entity demonstrates to the Commission that the new facilities or spectrum are not comparable to the facilities or spectrum from which the Federal Government station was relocated, the person who filed the petition under paragraph (2) for such relocation shall take reasonable steps to remedy any defects or pay the Federal entity for the expenses incurred in returning the Federal Government station to the spectrum from which such station was relocated.

(h) FEDERAL ACTION TO EXPEDITE SPECTRUM TRANSFER.—Any Federal Government station which operates on electromagnetic spectrum that has been identified in any reallocation report under this section shall, to the maximum extent practicable through the use of the authority granted under subsection (g) and any other applicable provision of law, take action to relocate its spectrum use to other frequencies that are reserved for Federal use or to consolidate its spectrum use with other Federal Government stations in a manner that maximizes the spectrum available for non-Federal use.

(i) DEFINITION.—For purposes of this section, the term “Federal entity” means any department, agency, or other instrumentality of

the Federal Government that utilizes a Government station license obtained under section 305 of the 1934 Act (47 U.S.C. 305).

**SEC. 114. [47 U.S.C. 924] WITHDRAWAL OR LIMITATION OF ASSIGNMENT TO FEDERAL GOVERNMENT STATIONS.**

(a) **IN GENERAL.**—The President shall—

(1) within 6 months after receipt of a report by the Secretary under subsection (a), (d)(1), or (f) of section 113, withdraw the assignment to a Federal Government station of any frequency which the report recommends for immediate reallocation;

(2) within any such 6-month period, limit the assignment to a Federal Government station of any frequency which the report recommends be made immediately available for mixed use under section 113(b)(2);

(3) by the delayed effective date recommended by the Secretary under section 113(e) (except as provided in subsection (b)(4) of this section), withdraw or limit the assignment to a Federal Government station of any frequency which the report recommends be reallocated or made available for mixed use on such delayed effective date;

(4) assign or reassign other frequencies to Federal Government stations as necessary to adjust to such withdrawal or limitation of assignments; and

(5) transmit a notice and description to the Commission and each House of Congress of the actions taken under this subsection.

(b) **EXCEPTIONS.**—

(1) **AUTHORITY TO SUBSTITUTE.**—If the President determines that a circumstance described in paragraph (2) exists, the President—

(A) may substitute an alternative frequency or frequencies for the frequency that is subject to such determination and withdraw (or limit) the assignment of that alternative frequency in the manner required by subsection (a); and

(B) shall submit a statement of the reasons for taking the action described in subparagraph (A) to the Commission, Committee on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

(2) **GROUNDS FOR SUBSTITUTION.**—For purposes of paragraph (1), the following circumstances are described in this paragraph:

(A) the reassignment would seriously jeopardize the national defense interests of the United States;

(B) the frequency proposed for reassignment is uniquely suited to meeting important governmental needs;

(C) the reassignment would seriously jeopardize public health or safety;

(D) the reassignment will result in costs to the Federal Government that are excessive in relation to the benefits that may be obtained from commercial or other non-Federal uses of the reassigned frequency; or

(E) the reassignment will disrupt the existing use of a Federal Government band of frequencies by amateur radio licensees.

(3) CRITERIA FOR SUBSTITUTED FREQUENCIES.—For purposes of paragraph (1), a frequency may not be substituted for a frequency identified and recommended by the report of the Secretary under section 113(a) unless the substituted frequency also meets each of the criteria specified by section 113(a).

(4) DELAYS IN IMPLEMENTATION.—If the President determines that any action cannot be completed by the delayed effective date recommended by the Secretary pursuant to section 113(e), or that such an action by such date would result in a frequency being unused as a consequence of the Commission's plan under section 115, the President may—

(A) withdraw or limit the assignment to Federal Government stations on a later date that is consistent with such plan, except that the President shall notify each committee specified in paragraph (1)(B) and the Commission of the reason that withdrawal or limitation at a later date is required; or

(B) substitute alternative frequencies pursuant to the provisions of this subsection.

**SEC. 115. [47 U.S.C. 925] DISTRIBUTION OF FREQUENCIES BY THE COMMISSION.**

(a) ALLOCATION AND ASSIGNMENT OF IMMEDIATELY AVAILABLE FREQUENCIES.—With respect to the frequencies made available for immediate reallocation pursuant to section 113(e)(2), the Commission, not later than 18 months after the date of enactment of the Omnibus Budget Reconciliation Act of 1993, shall issue regulations to allocate such frequencies and shall propose regulations to assign such frequencies.

(b) ALLOCATION AND ASSIGNMENT OF REMAINING AVAILABLE FREQUENCIES.—With respect to the frequencies made available for reallocation pursuant to section 113(e)(3), the Commission shall, not later than 1 year after receipt of the initial reallocation report required by section 113(a), prepare, submit to the President and the Congress, and implement, a plan for the allocation and assignment under the 1934 Act of such frequencies. Such plan shall—

(1) not propose the immediate allocation and assignment of all such frequencies but, taking into account the timetable recommended by the Secretary pursuant to section 113(e), shall propose—

(A) gradually to allocate and assign the frequencies remaining, after making the reservation required by subparagraph (B), over the course of 10 years beginning on the date of submission of such plan; and

(B) to reserve a significant portion of such frequencies for allocation and assignment beginning after the end of such 10-year period;

(2) contain appropriate provisions to ensure—

(A) the availability of frequencies for new technologies and services in accordance with the policies of section 7 of the 1934 Act (47 U.S.C. 157);

(B) the availability of frequencies to stimulate the development of such technologies; and

(C) the safety of life and property in accordance with the policies of section 1 of the 1934 Act (47 U.S.C. 151);

(3) address (A) the feasibility of reallocating portions of the spectrum from current commercial and other non-Federal uses to provide for more efficient use of the spectrum, and (B) innovation and marketplace developments that may affect the relative efficiencies of different spectrum allocations;

(4) not prevent the Commission from allocating frequencies, and assigning licenses to use frequencies, not included in the plan; and

(5) not preclude the Commission from making changes to the plan in future proceedings.

(c) ALLOCATION AND ASSIGNMENT OF FREQUENCIES IDENTIFIED IN THE SECOND REALLOCATION REPORT.—

(1) PLAN AND IMPLEMENTATION.—With respect to the frequencies made available for reallocation pursuant to section 113(b)(3), the Commission shall, not later than one year after receipt of the second reallocation report required by section 113(a), prepare, submit to the President and the Congress, and implement, a plan for the immediate allocation and assignment under the 1934 Act of all such frequencies in accordance with section 309(j) of such Act.

(2) CONTENTS.—The plan prepared by the Commission under paragraph (1) shall consist of a schedule of allocation and assignment of those frequencies in accordance with section 309(j) of the 1934 Act in time for the assignment of those licenses or permits by September 30, 2002.

**SEC. 116. [47 U.S.C. 926] AUTHORITY TO RECOVER REASSIGNED FREQUENCIES.**

(a) AUTHORITY OF PRESIDENT.—Subsequent to the withdrawal of assignment to Federal Government stations pursuant to section 114, the President may reclaim reassigned frequencies for reassignment to Federal Government stations in accordance with this section.

(b) PROCEDURE FOR RECLAIMING FREQUENCIES.—

(1) UNALLOCATED FREQUENCIES.—If the frequencies to be reclaimed have not been allocated or assigned by the Commission pursuant to the 1934 Act, the President shall follow the procedures for substitution of frequencies established by section 114(b) of this part.

(2) ALLOCATED FREQUENCIES.—If the frequencies to be reclaimed have been allocated or assigned by the Commission, the President shall follow the procedures for substitution of frequencies established by section 114(b) of this part, except that the statement required by section 114(b)(1)(B) shall include—

(A) a timetable to accommodate an orderly transition for licensees to obtain new frequencies and equipment necessary for its utilization; and

(B) an estimate of the cost of displacing spectrum users licensed by the Commission.

(c) COSTS OF RECLAIMING FREQUENCIES.—The Federal Government shall bear all costs of reclaiming frequencies pursuant to this

section, including the cost of equipment which is rendered unusable, the cost of relocating operations to a different frequency, and any other costs that are directly attributable to the reclaiming of the frequency pursuant to this section, and there are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(d) EFFECTIVE DATE OF RECLAIMED FREQUENCIES.—The Commission shall not withdraw licenses for any reclaimed frequencies until the end of the fiscal year following the fiscal year in which a statement under section 114(b)(1)(B) pertaining to such frequencies is received by the Commission.

(e) EFFECT ON OTHER LAW.—Nothing in this section shall be construed to limit or otherwise affect the authority of the President under section 706 of the 1934 Act (47 U.S.C. 606).

**SEC. 117. [47 U.S.C. 927] EXISTING ALLOCATION AND TRANSFER AUTHORITY RETAINED.**

(a) ADDITIONAL REALLOCATION.—Nothing in this part prevents or limits additional reallocation of spectrum from the Federal Government to other users.

(b) IMPLEMENTATION OF NEW TECHNOLOGIES AND SERVICES.—Notwithstanding any other provision of this part—

(1) the Secretary may, consistent with section 104(e) of this Act, at any time allow frequencies allocated on a primary basis for Federal Government use to be used by non-Federal licensees on a mixed-use basis for the purpose of facilitating the prompt implementation of new technologies or services and for other purposes; and

(2) the Commission shall make any allocation and licensing decisions with respect to such frequencies in a timely manner and in no event later than the date required by section 7 of the 1934 Act.

**PART C—SPECIAL AND TEMPORARY PROVISIONS**

**SEC. 151. AUTHORIZATION OF APPROPRIATIONS FOR ADMINISTRATION.**

There are authorized to be appropriated for the administration of the NTIA \$17,600,000 for fiscal year 1992 and \$17,900,000 for fiscal year 1993, and such sums as may be necessary for increases resulting from adjustments in salary, pay, retirement, other employee benefits required by law, and other nondiscretionary costs.

**SEC. 152. NATIONAL ENDOWMENT FOR CHILDREN'S EDUCATIONAL TELEVISION.**

\* \* \* \* \*

[Section 152 contained amendments to section 394(h) of the Communications Act of 1934.]

**SEC. 153. PEACESAT PROGRAM.**

\* \* \* \* \*

[Section 153 contained amendments to section 2(a) of Public Law 101-555 (NTIA Authorization for FY 1990-91) printed elsewhere in this compilation.]

**SEC. 154. COMMUNICATIONS FOR RURAL HEALTH PROVIDERS.**

(a) **PURPOSE.**—It is the purpose of this section to improve the ability of rural health providers to use communications to obtain health information and to consult with others concerning the delivery of patient care. Such enhanced communications ability may assist in—

(1) improving and extending the training of rural health professionals; and

(2) improving the continuity of patient care in rural areas.

(b) **ADVISORY PANEL.**—The Secretary of Commerce, in conjunction with the Secretary of Health and Human Services, shall establish an advisory panel (hereafter in this section referred to as the “Panel”) to develop recommendations for the improvement of rural health care through the collection of information needed by providers and the improvement in the use of communications to disseminate such information.

(c) **COMPOSITION OF PANEL.**—The Panel shall be composed of individuals from organizations with rural constituencies and practitioners from health care disciplines, representatives of the National Library of Medicine, and representatives of different health professions schools, including nurse practitioners.

(d) **SELECTION OF CONSULTANTS.**—The Panel may select consultants to provide advice to the Panel regarding the types of information that rural health care practitioners need, the procedures to gather and disseminate such information, and the types of communications equipment and training needed by rural health care practitioners to obtain access to such information.

(e) **REPORT TO CONGRESS.**—Not later than 1 year after the Panel is established under subsection (b), the Secretary of Commerce shall prepare and submit, to the Committee on Commerce, Science, and Transportation and the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report summarizing the recommendations made by the Panel under subsection (b).

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary of Commerce to carry out this section \$1,000,000 to remain available until expended.

**SEC. 155. REPORT ON THE ROLE OF TELECOMMUNICATIONS IN HATE CRIMES.**

(a) **REQUIREMENT OF REPORT.**—Within 240 days after the date of enactment of this Act, the NTIA, with the assistance of the Commission, the Department of Justice, and the United States Commission on Civil Rights, shall prepare a report on the role of telecommunications in crimes of hate and violent acts against ethnic, religious, and racial minorities and shall submit such report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(b) **SCOPE OF REPORT.**—The report required by subsection (a) shall—

(1) analyze information on the use of telecommunications, including broadcast television and radio, cable television, public access television, computer bulletin boards, and other electronic media, to advocate and encourage violent acts and the commission of crimes of hate, as described in the Hate Crimes

Statistics Act (28 U.S.C. 534), against ethnic, religious, and racial minorities.

(2) include any recommendations deemed appropriate and necessary by the NTIA.

**SEC. 156. ASSESSMENT OF ELECTROMAGNETIC SPECTRUM REALLOCATION.<sup>1</sup>**

(a) REVIEW AND ASSESSMENT OF ELECTROMAGNETIC SPECTRUM REALLOCATION.—

(1) REVIEW AND ASSESSMENT REQUIRED.—The Secretary of Commerce, acting through the Assistant Secretary and in coordination with the Chairman of the Federal Communications Commission, shall convene an interagency review and assessment of—

<sup>1</sup>Section 156 was added by section 1062(a) of the National Defense Authorization Act for Fiscal Year 2000 (P.L. 106-65). Subsections (b) and (c) of section 1062 of that Act provided as follows:

(b) SURRENDER OF DEPARTMENT OF DEFENSE SPECTRUM.—

(1) IN GENERAL.—If, in order to make available for other use a band of frequencies of which it is a primary user, the Department of Defense is required to surrender use of such band of frequencies, the Department shall not surrender use of such band of frequencies until—

(A) the National Telecommunications and Information Administration, in consultation with the Federal Communications Commission, identifies and makes available to the Department for its primary use, if necessary, an alternative band or bands of frequencies as a replacement for the band to be so surrendered; and

(B) the Secretary of Commerce, the Secretary of Defense, and the Chairman of the Joint Chiefs of Staff jointly certify to the Committee on Armed Services and the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Armed Services and the Committee on Commerce of the House of Representatives, that such alternative band or bands provides comparable technical characteristics to restore essential military capability that will be lost as a result of the band of frequencies to be so surrendered.

(2) EXCEPTION.—Paragraph (1) shall not apply to a band of frequencies that has been identified for reallocation in accordance with title VI of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103-66; 107 Stat. 379) and title III of the Balanced Budget Act of 1997 (Public Law 105-33, 111 Stat. 258), other than a band of frequencies that is reclaimed pursuant to subsection (c).

(c) REASSIGNMENT TO FEDERAL GOVERNMENT FOR USE BY DEPARTMENT OF DEFENSE OF CERTAIN FREQUENCY SPECTRUM RECOMMENDED FOR REALLOCATION.—(1) Notwithstanding any provision of the National Telecommunications and Information Administration Organization Act or the Balanced Budget Act of 1997, the President shall reclaim for exclusive Federal Government use on a primary basis by the Department of Defense—

(A) the bands of frequencies aggregating 3 megahertz located between 138 and 144 megahertz that were recommended for reallocation in the second reallocation report under section 113(a) of that Act; and

(B) the band of frequency aggregating 5 megahertz located between 1385 megahertz and 1390 megahertz, inclusive, that was so recommended for reallocation.

\* \* \* \* \*

Section 1705 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (P.L. 106-398) also contained the following provision related to the spectrum use by the Department of Defense.

**SEC. 1705. REPORT ON PROGRESS ON SPECTRUM SHARING.**

(a) STUDY REQUIRED.—The Secretary of Defense, in consultation with the Attorney General and the Secretary of Commerce, shall provide for the conduct of an engineering study to identify—

(1) any portion of the 138-144 megahertz band that the Department of Defense can share in various geographic regions with public safety radio services;

(2) any measures required to prevent harmful interference between Department of Defense systems and the public safety systems proposed for operation on those frequencies; and

(3) a reasonable schedule for implementation of such sharing of frequencies.

(b) SUBMISSION OF INTERIM REPORT.—Within one year after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives an interim report on the progress of the study conducted pursuant to subsection (a).

(c) REPORT.—Not later than January 1, 2002, the Secretary of Commerce and the Chairman of the Federal Communications Commission shall jointly submit a report to Congress on alternative frequencies available for use by public safety systems.

(A) the progress made in implementation of national spectrum planning;

(B) the reallocation of Federal Government spectrum to non-Federal use, in accordance with the amendments made by title VI of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103-66; 107 Stat. 379) and title III of the Balanced Budget Act of 1997 (Public Law 105-33; 111 Stat. 258); and

(C) the implications for such reallocations to the affected Federal executive agencies.

(2) COORDINATION.—The assessment shall be conducted in coordination with affected Federal executive agencies through the Interdepartmental Radio Advisory Committee.

(3) COOPERATION AND ASSISTANCE.—Affected Federal executive agencies shall cooperate with the Assistant Secretary in the conduct of the review and assessment and furnish the Assistant Secretary with such information, support, and assistance, not inconsistent with law, as the Assistant Secretary may consider necessary in the performance of the review and assessment.

(4) ATTENTION TO PARTICULAR SUBJECTS REQUIRED.—In the conduct of the review and assessment, particular attention shall be given to—

(A) the effect on critical military and intelligence capabilities, civil space programs, and other Federal Government systems used to protect public safety of the reallocated spectrum described in paragraph (1)(B) of this subsection;

(B) the anticipated impact on critical military and intelligence capabilities, future military and intelligence operational requirements, national defense modernization programs, and civil space programs, and other Federal Government systems used to protect public safety, of future potential reallocations to non-Federal use of bands of the electromagnetic spectrum that are currently allocated for use by the Federal Government; and

(C) future spectrum requirements of agencies in the Federal Government.

(b) SUBMISSION OF REPORT.—The Secretary of Commerce, in coordination with the heads of the affected Federal executive agencies, and the Chairman of the Federal Communications Commission shall submit to the President, the Committee on Armed Services and the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Armed Services, the Committee on Commerce, and the Committee on Science of the House of Representatives, not later than October 1, 2000, a report providing the results of the assessment required by subsection (a).

**SEC. 157. CHILD-FRIENDLY SECOND-LEVEL INTERNET DOMAIN.**

(a) RESPONSIBILITIES.—The NTIA shall require the registry selected to operate and maintain the United States country code Internet domain to establish, operate, and maintain a second-level domain within the United States country code domain that provides access only to material that is suitable for minors and not harmful to minors (in this section referred to as the “new domain”).

(b) CONDITIONS OF CONTRACTS.—

(1) INITIAL REGISTRY.—The NTIA shall not exercise any option periods under any contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain unless the initial registry agrees, during the 90-day period beginning upon the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002, to carry out, and to operate the new domain in accordance with, the requirements under subsection (c). Nothing in this subsection shall be construed to prevent the initial registry of the United States country code Internet domain from participating in the NTIA's process for selecting a successor registry or to prevent the NTIA from awarding, to the initial registry, the contract to be successor registry subject to the requirements of paragraph (2).

(2) SUCCESSOR REGISTRIES.—The NTIA shall not enter into any contract for operating and maintaining the United States country code Internet domain with any successor registry unless such registry enters into an agreement with the NTIA, during the 90-day period after selection of such registry, that provides for the registry to carry out, and the new domain to operate in accordance with, the requirements under subsection (c).

(c) REQUIREMENTS OF NEW DOMAIN.—The registry and new domain shall be subject to the following requirements:

(1) Written content standards for the new domain, except that the NTIA shall not have any authority to establish such standards.

(2) Written agreements with each registrar for the new domain that require that use of the new domain is in accordance with the standards and requirements of the registry.

(3) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to use the new domain in accordance with the standards and requirements of the registry.

(4) Rules and procedures for enforcement and oversight that minimize the possibility that the new domain provides access to content that is not in accordance with the standards and requirements of the registry.

(5) A process for removing from the new domain any content that is not in accordance with the standards and requirements of the registry.

(6) A process to provide registrants to the new domain with an opportunity for a prompt, expeditious, and impartial dispute resolution process regarding any material of the registrant excluded from the new domain.

(7) Continuous and uninterrupted service for the new domain during any transition to a new registry selected to operate and maintain new domain or the United States country code domain.

(8) Procedures and mechanisms to promote the accuracy of contact information submitted by registrants and retained by registrars in the new domain.

(9) Operationality of the new domain not later than one year after the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002.

(10) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit two-way and multiuser interactive services in the new domain, unless the registrant certifies to the registrar that such service will be offered in compliance with the content standards established pursuant to paragraph (1) and is designed to reduce the risk of exploitation of minors using such two-way and multiuser interactive services.

(11) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit hyperlinks in the new domain that take new domain users outside of the new domain.

(12) Any other action that the NTIA considers necessary to establish, operate, or maintain the new domain in accordance with the purposes of this section.

(d) **OPTION PERIODS FOR INITIAL REGISTRY.**—The NTIA shall grant the initial registry the option periods available under the contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain if, and may not grant such option periods unless, the NTIA finds that the initial registry has satisfactorily performed its obligations under this Act and under the contract. Nothing in this section shall preempt or alter the NTIA's authority to terminate such contract for the operation of the United States country code Internet domain for cause or for convenience.

(e) **TREATMENT OF REGISTRY AND OTHER ENTITIES.**—

(1) **IN GENERAL.**—Only to the extent that such entities carry out functions under this section, the following entities are deemed to be interactive computer services for purposes of section 230(c) of the Communications Act of 1934 (47 U.S.C. 230(c)):

(A) The registry that operates and maintains the new domain.

(B) Any entity that contracts with such registry to carry out functions to ensure that content accessed through the new domain complies with the limitations applicable to the new domain.

(C) Any registrar for the registry of the new domain that is operating in compliance with its agreement with the registry.

(2) **SAVINGS PROVISION.**—Nothing in paragraph (1) shall be construed to affect the applicability of any other provision of title II of the Communications Act of 1934 to the entities covered by subparagraph (A), (B), or (C) of paragraph (1).

(f) **EDUCATION.**—The NTIA shall carry out a program to publicize the availability of the new domain and to educate the parents of minors regarding the process for utilizing the new domain in combination and coordination with hardware and software technologies that provide for filtering or blocking. The program under this subsection shall be commenced not later than 30 days after the date that the new domain first becomes operational and accessible by the public.

(g) COORDINATION WITH FEDERAL GOVERNMENT.—The registry selected to operate and maintain the new domain shall—

(1) consult with appropriate agencies of the Federal Government regarding procedures and actions to prevent minors and families who use the new domain from being targeted by adults and other children for predatory behavior, exploitation, or illegal actions; and

(2) based upon the consultations conducted pursuant to paragraph (1), establish such procedures and take such actions as the registry may deem necessary to prevent such targeting. The consultations, procedures, and actions required under this subsection shall be commenced not later than 30 days after the date that the new domain first becomes operational and accessible by the public.

(h) COMPLIANCE REPORT.—The registry shall prepare, on an annual basis, a report on the registry's monitoring and enforcement procedures for the new domain. The registry shall submit each such report, setting forth the results of the review of its monitoring and enforcement procedures for the new domain, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

(i) SUSPENSION OF NEW DOMAIN.—If the NTIA finds, pursuant to its own review or upon a good faith petition by the registry, that the new domain is not serving its intended purpose, the NTIA shall instruct the registry to suspend operation of the new domain until such time as the NTIA determines that the new domain can be operated as intended.

(j) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

(1) HARMFUL TO MINORS.—The term “harmful to minors” means, with respect to material, that—

(A) the average person, applying contemporary community standards, would find, taking the material as a whole and with respect to minors, that it is designed to appeal to, or is designed to pander to, the prurient interest;

(B) the material depicts, describes, or represents, in a manner patently offensive with respect to minors, an actual or simulated sexual act or sexual contact, an actual or simulated normal or perverted sexual act, or a lewd exhibition of the genitals or post-pubescent female breast; and

(C) taken as a whole, the material lacks serious, literary, artistic, political, or scientific value for minors.

(2) MINOR.—The term “minor” means any person under 13 years of age.

(3) REGISTRY.—The term “registry” means the registry selected to operate and maintain the United States country code Internet domain.

(4) SUCCESSOR REGISTRY.—The term “successor registry” means any entity that enters into a contract with the NTIA to operate and maintain the United States country code Internet domain that covers any period after the termination or expiration of the contract to operate and maintain the United States

country code Internet domain, and any option periods under such contract, that was signed on October 26, 2001.

(5) SUITABLE FOR MINORS.—The term “suitable for minors” means, with respect to material, that it—

(A) is not psychologically or intellectually inappropriate for minors; and

(B) serves—

(i) the educational, informational, intellectual, or cognitive needs of minors; or

(ii) the social, emotional, or entertainment needs of minors.

## TELEPHONE DISCLOSURE AND DISPUTE RESOLUTION ACT

AN ACT To protect the public interest and the future development of pay-per-call technology by providing for the regulation and oversight of the applications and growth of the pay-per-call industry, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### **SECTION 1. [15 U.S.C. 5701] SHORT TITLE, FINDINGS.**

(a) **SHORT TITLE.**—This Act may be cited as the “Telephone Disclosure and Dispute Resolution Act”.<sup>1</sup>

(b) **FINDINGS.**—The Congress finds the following:

(1) The use of pay-per-call services, most commonly through the use of 900 telephone numbers, has grown exponentially in the past few years into a national, billion-dollar industry as a result of recent technological innovations. Such services are convenient to consumers, cost-effective to vendors, and profitable to communications common carriers.

(2) Many pay-per-call businesses provide valuable information, increase consumer choices, and stimulate innovative and responsive services that benefit the public.

(3) The interstate nature of the pay-per-call industry means that its activities are beyond the reach of individual States and therefore requires Federal regulatory treatment to protect the public interest.

(4) The lack of nationally uniform regulatory guidelines has led to confusion for callers, subscribers, industry participants, and regulatory agencies as to the rights of callers and the oversight responsibilities of regulatory authorities, and has allowed some pay-per-call businesses to engage in practices that abuse the rights of consumers.

(5) Some interstate pay-per-call businesses have engaged in practices which are misleading to the consumer, harmful to the public interest, or contrary to accepted standards of business practices and thus cause harm to the many reputable businesses that are serving the public.

(6) Because the consumer most often incurs a financial obligation as soon as a pay-per-call transaction is completed, the accuracy and descriptiveness of vendor advertisements become crucial in avoiding consumer abuse. The obligation for accuracy should include price-per-call and duration-of-call information, odds disclosure for lotteries, games, and sweepstakes, and obligations for obtaining parental consent from callers under 18.

(7) The continued growth of the legitimate pay-per-call industry is dependent upon consumer confidence that unfair and

<sup>1</sup>Public Law 102–556, 106 Stat. 4181, approved Oct. 28, 1992.

deceptive behavior will be effectively curtailed and that consumers will have adequate rights of redress.

(8) Vendors of telephone-billed goods and services must also feel confident in their rights and obligations for resolving billing disputes if they are to use this new marketplace for the sale of products of more than nominal value.

**TITLE I—CARRIER OBLIGATIONS AND CONSUMER RIGHTS CONCERNING PAY-PER-CALL TRANSACTIONS**

**SEC. 101. [47 U.S.C. 228] AMENDMENT TO COMMUNICATIONS ACT OF 1934.**

\* \* \* \* \*

[Section 101 added a new section 228 to the Communications Act of 1934.]

**SEC. 102. [47 U.S.C. 227 nt] TECHNICAL AMENDMENT.**

\* \* \* \* \*

[Section 102 contained a technical amendment to the effective date provisions of the Telephone Consumer Protection Act of 1991 (which was an amendment to section 227 of the Communications Act of 1934).]

**TITLE II—REGULATION OF UNFAIR AND DECEPTIVE ACTS AND PRACTICES IN CONNECTION WITH PAY-PER-CALL SERVICES**

**SEC. 201. [15 U.S.C. 5711] FEDERAL TRADE COMMISSION REGULATIONS.**

(a) IN GENERAL.—

(1) ADVERTISING REGULATIONS.—The Commission shall prescribe rules in accordance with this subsection to prohibit unfair and deceptive acts and practices in any advertisement for pay-per-call services. Such rules shall require that the person offering such pay-per-call services—

(A) clearly and conspicuously disclose in any advertising the cost of the use of such telephone number, including the total cost or the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred;

(B) in the case of an advertisement which offers a prize or award or a service or product at no cost or for a reduced cost, clearly and conspicuously disclose the odds of being able to receive such prize, award, service, or product at no cost or reduced cost, or, if such odds are not calculable in advance, disclose the factors determining such odds;

(C) in the case of an advertisement that promotes a service that is not operated or expressly authorized by a Federal agency but that provides information on a Federal

program, include at the beginning of such advertisement a clear disclosure that the service is not authorized, endorsed, or approved by any Federal agency;

(D) shall not direct such advertisement at children under the age of 12, unless such service is a bona fide educational service;

(E) in the case of advertising directed primarily to individuals under the age of 18, clearly and conspicuously state in such advertising that such individual must have the consent of such individual's parent or legal guardian for the use of such services;

(F) be prohibited from using advertisements that emit electronic tones which can automatically dial a pay-per-call telephone number;

(G) ensure that, whenever the number to be called is shown in television and print media advertisements, the charges for the call are clear and conspicuous and (when shown in television advertisements) displayed for the same duration as that number is displayed;

(H) in delivering any telephone message soliciting calls to a pay-per-call service, specify clearly, and at no less than the audible volume of the solicitation, the total cost and the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred; and

(I) not advertise an 800 telephone number, or any other telephone number advertised or widely understood to be toll free, from which callers are connected to an access number for a pay-per-call service.

(2) PAY-PER-CALL SERVICE STANDARDS.—The Commission shall prescribe rules to require that each provider of pay-per-call services—

(A) include in each pay-per-call message an introductory disclosure message that—

(i) describes the service being provided;

(ii) specifies clearly and at a reasonably understandable volume the total cost or the cost per minute and any other fees for that service and for any other pay-per-call service to which the caller may be transferred;

(iii) informs the caller that charges for the call begin at the end of the introductory message;

(iv) informs the caller that parental consent is required for calls made by children; and

(v) in the case of a pay-per-call service that is not operated or expressly authorized by a Federal agency but that provides information on any Federal program, a statement that clearly states that the service is not authorized, endorsed, or approved by any Federal agency;

(B) enable the caller to hang up at or before the end of the introductory message without incurring any charge whatsoever;

(C) not direct such services at children under the age of 12, unless such service is a bona fide educational service;

(D) stop the assessment of time-based charges immediately upon disconnection by the caller;

(E) disable any bypass mechanism which allows frequent callers to avoid listening to the disclosure message described in subparagraph (A) after the institution of any price increase and for a period of time sufficient to give such frequent callers adequate and sufficient notice of the price change;

(F) be prohibited from providing pay-per-call services through an 800 number or other telephone number advertised or widely understood to be toll free;

(G) be prohibited from billing consumers in excess of the amounts described in the introductory message and from billing for services provided in violation of the rules prescribed by the Commission pursuant to this section;

(H) ensure that any billing statement for such provider's charges shall—

(i) display any charges for pay-per-call services in a part of the consumer's bill that is identified as not being related to local and long distance telephone charges; and

(ii) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call;

(I) be liable for refunds to consumers who have been billed for pay-per-call services pursuant to programs that have been found to have violated the regulations prescribed pursuant to this section or title III of this Act or any other Federal law; and

(J) comply with such additional standards as the Commission may prescribe to prevent abusive practices.

(3) ACCESS TO INFORMATION.—The Commission shall by rule require a common carrier that provides telephone services to a provider of pay-per-call services to make available to the Commission any records and financial information maintained by such carrier relating to the arrangements (other than for the provision of local exchange service) between such carrier and any provider of pay-per-call services.

(4) EVASIONS.—The rules issued by the Commission under this section shall include provisions to prohibit unfair or deceptive acts or practices that evade such rules or undermine the rights provided to customers under this title, including through the use of alternative billing or other procedures.

(5) EXEMPTIONS.—The regulations prescribed by the Commission pursuant to paragraph (2)(A) may exempt from the requirements of such paragraph—

(A) calls from frequent callers or regular subscribers using a bypass mechanism to avoid listening to the disclosure message required by such regulations, subject to the requirements of paragraph (2)(E); or

(B) pay-per-call services provided at nominal charges, as defined by the Commission in such regulations.

(6) CONSIDERATION OF OTHER RULES REQUIRED.—In conducting a proceeding under this section, the Commission shall consider requiring, by rule or regulation, that providers of pay-per-call services—

(A) automatically disconnect a call after one full cycle of the program; and

(B) include a beep tone or other appropriate and clear signal during a live interactive group program so that callers will be alerted to the passage of time.

(7) SPECIAL RULE FOR INFREQUENT PUBLICATIONS.—The rules prescribed by the Commission under subparagraphs (A) and (G) of paragraph (1) may permit, in the case of publications that are widely distributed, that are printed annually or less frequently, and that have an established policy of not publishing specific prices, advertising that in lieu of the cost disclosures required by such subparagraphs, clearly and conspicuously disclose that use of the telephone number may result in a substantial charge.

(8) TREATMENT OF RULES.—A rule issued under this subsection shall be treated as a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

(b) RULEMAKING.—The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(c) ENFORCEMENT.—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule respecting unfair or deceptive acts or practices under section 5 of the Federal Trade Commission Act (15 U.S.C. 45). Notwithstanding section 5(a)(2) of such Act (15 U.S.C. 45(a)(2)), communications common carriers shall be subject to the jurisdiction of the Commission for purposes of this title.

**SEC. 202. [15 U.S.C. 5712] ACTIONS BY STATES.**

(a) IN GENERAL.—Whenever an attorney general of any State has reason to believe that the interests of the residents of that State have been or are being threatened or adversely affected because any person has engaged or is engaging in a pattern or practice which violates any rule of the Commission under section 201(a), the State may bring a civil action on behalf of its residents in an appropriate district court of the United States to enjoin such pattern or practice, to enforce compliance with such rule of the Commission, to obtain damages on behalf of their residents, or to obtain such further and other relief as the court may deem appropriate.

(b) NOTICE.—The State shall serve prior written notice of any civil action under subsection (a) upon the Commission and provide the Commission with a copy of its complaint, except that if it is not feasible for the State to provide such prior notice, the State shall serve such notice immediately upon instituting such action. Upon receiving a notice respecting a civil action, the Commission shall have the right (1) to intervene in such action, (2) upon so intervening, to be heard on all matters arising therein, and (3) to file petitions for appeal.

(c) VENUE.—Any civil action brought under this section in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or wherever the defendant may be found.

(d) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this section, nothing in this Act shall prevent the attorney general from exercising the powers conferred on the attorney general by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(e) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal antifraud statute of such State.

(f) LIMITATION.—Whenever the Commission has instituted a civil action for violation of any rule or regulation under this Act, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for violation of any rule as alleged in the Commission's complaint.

(g) ACTIONS BY OTHER STATE OFFICIALS.—

(1) Nothing contained in this section shall prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(2) In addition to actions brought by an attorney general of a State under subsection (a), such an action may be brought by officers of such State who are authorized by the State to bring actions in such State for protection of consumers and who are designated by the Commission to bring an action under subsection (a) against persons that the Commission has determined have or are engaged in a pattern or practice which violates a rule of the Commission under section 201(a).

**SEC. 203. [15 U.S.C. 5713] ADMINISTRATION AND APPLICABILITY OF TITLE.**

(a) IN GENERAL.—Except as otherwise provided in section 202, this title shall be enforced by the Commission under the Federal Trade Commission Act (15 U.S.C. 41 et seq.). Consequently, no activity which is outside the jurisdiction of that Act shall be affected by this Act, except for purposes of this title.

(b) ACTIONS BY THE COMMISSION.—The Commission shall prevent any person from violating a rule of the Commission under section 201 in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this title. Any person who violates such rule shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and provisions of the Federal Trade

Commission Act were incorporated into and made a part of this title.

**SEC. 204. [15 U.S.C. 5714] DEFINITIONS.**

For purposes of this title:

(1) The term “pay-per-call services” has the meaning provided in section 228(i) of the Communications Act of 1934, except that the Commission by rule may, notwithstanding subparagraphs (B) and (C) of section 228(i)(1) of such Act, extend such definition to other similar services providing audio information or audio entertainment if the Commission determines that such services are susceptible to the unfair and deceptive practices that are prohibited by the rules prescribed pursuant to section 201(a).

(2) The term “attorney general” means the chief legal officer of a State.

(3) The term “State” means any State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, and any territory or possession of the United States.

(4) The term “Commission” means the Federal Trade Commission.

## **TITLE III—BILLING AND COLLECTION**

**SEC. 301. [15 U.S.C. 5721] REGULATIONS.**

(a) **IN GENERAL.**—

(1) **RULES REQUIRED.**—The Commission shall, in accordance with the requirements of this section, prescribe rules establishing procedures for the correction of billing errors with respect to telephone-billed purchases. The rules prescribed by the Commission shall also include provisions to prohibit unfair or deceptive acts or practices that evade such rules or undermine the rights provided to customers under this title.

(2) **SUBSTANTIAL SIMILARITY TO CREDIT BILLING.**—The Commission shall promulgate rules under this section that impose requirements that are substantially similar to the requirements imposed, with respect to the resolution of credit disputes, under the Truth in Lending and Fair Credit Billing Acts (15 U.S.C. 1601 et seq.).

(3) **TREATMENT OF RULE.**—A rule issued under paragraph (1) shall be treated as a rule issued under section 18(a)(1)(B) of the Federal Trade Commission Act (15 U.S.C. 57(a)(1)(B)).

(b) **RULEMAKING SCHEDULE AND PROCEDURE.**—The Commission shall prescribe the rules under subsection (a) within 270 days after the date of enactment of this Act. Such rules shall be prescribed in accordance with section 553 of title 5, United States Code.

(c) **ENFORCEMENT.**—Any violation of any rule prescribed under subsection (a) shall be treated as a violation of a rule under section 5 of the Federal Trade Commission Act (15 U.S.C. 45) regarding unfair or deceptive acts or practices. Notwithstanding section 5(a)(2) of such Act (15 U.S.C. 45(a)(2)), communications common carriers shall be subject to the jurisdiction of the Commission for purposes of this title.

(d) **CORRECTION OF BILLING ERRORS AND CORRECTION OF CREDIT REPORTS.**—In prescribing rules under this section, the Commis-

sion shall consider, with respect to telephone-billed purchases, the following:

- (1) The initiation of a billing review by a customer.
- (2) Responses by billing entities and providing carriers to the initiation of a billing review.
- (3) Investigations concerning delivery of telephone-billed purchases.
- (4) Limitations upon providing carrier responsibilities, including limitations on a carrier's responsibility to verify delivery of audio information or entertainment.
- (5) Requirements on actions by billing entities to set aside charges from a customer's billing statement.
- (6) Limitations on collection actions by billing entities and vendors.
- (7) The regulation of credit reports on billing disputes.
- (8) The prompt notification of credit to an account.
- (9) Rights of customers and telephone common carriers regarding claims and defenses.
- (10) The extent to which the regulations should diverge from requirements under the Truth in Lending and Fair Credit Billing Acts in order to protect customers, and in order to be cost effective to billing entities.

**SEC. 302. [15 U.S.C. 5722] RELATION TO STATE LAWS.**

(a) **STATE LAW APPLICABLE UNLESS INCONSISTENT.**—This title does not annul, alter, or affect, or exempt any person subject to the provisions of this title from complying with, the laws of any State with respect to telephone billing practices, except to the extent that those laws are inconsistent with any provision of this title, and then only to the extent of the inconsistency. The Commission is authorized to determine whether such inconsistencies exist. The Commission may not determine that any State law is inconsistent with any provision of this chapter if the Commission determines that such law gives greater protection to the consumer.

(b) **REGULATORY EXEMPTIONS.**—The Commission shall by regulation exempt from the requirements of this title any class of telephone-billed purchase transactions within any State if it determines that under the law of that State that class of transactions is subject to requirements substantially similar to those imposed under this chapter or that such law gives greater protection to the consumer, and that there is adequate provision for enforcement.

**SEC. 303. [15 U.S.C. 5723] ENFORCEMENT.**

The Commission shall enforce the requirements of this title. For the purpose of the exercise by the Commission of its functions and powers under the Federal Trade Commission Act, a violation of any requirement imposed under this title shall be deemed a violation of a requirement imposed under that Act. All the functions and powers of the Commission under that Act are available to the Commission to enforce compliance by any person with the requirements imposed under this title, irrespective of whether that person is engaged in commerce or meets any other jurisdictional tests in that Act. The Commission may prescribe such regulations as are necessary or appropriate to implement the provisions of this title.

**SEC. 304. [15 U.S.C. 5724] DEFINITIONS.**

As used in this title—

(1) The term “telephone-billed purchase” means any purchase that is completed solely as a consequence of the completion of the call or a subsequent dialing, touch tone entry, or comparable action of the caller. Such term does not include—

(A) a purchase by a caller pursuant to a preexisting agreement with the vendor;

(B) local exchange telephone services or interexchange telephone services or any service that the Federal Communications Commission determines, by rule—

(i) is closely related to the provision of local exchange telephone services or interexchange telephone services; and

(ii) is subject to billing dispute resolution procedures required by Federal or State statute or regulation; or

(C) the purchase of goods or services which is otherwise subject to billing dispute resolution procedures required by Federal statute or regulation.

(2) A “billing error” consists of any of the following:

(A) A reflection on a billing statement for a telephone-billed purchase which was not made by the customer or, if made, was not in the amount reflected on such statement.

(B) A reflection on a billing statement of a telephone-billed purchase for which the customer requests additional clarification, including documentary evidence thereof.

(C) A reflection on a billing statement of a telephone-billed purchase that was not accepted by the customer or not provided to the customer in accordance with the stated terms of the transaction.

(D) A reflection on a billing statement of a telephone-billed purchase for a call made to an 800 or other toll free telephone number.

(E) The failure to reflect properly on a billing statement a payment made by the customer or a credit issued to the customer with respect to a telephone-billed purchase.

(F) A computation error or similar error of an accounting nature on a statement.

(G) Failure to transmit the billing statement to the last known address of the customer, unless that address was furnished less than twenty days before the end of the billing cycle for which the statement is required.

(H) Any other error described in regulations prescribed by the Commission pursuant to section 553 of title 5, United States Code.

(3) The term “Commission” means the Federal Trade Commission.

(4) The term “providing carrier” means a local exchange or interexchange common carrier providing telephone services (other than local exchange services) to a vendor for a telephone-billed purchase that is the subject of a billing error complaint.

(5) The term “vendor” means any person who, through the use of the telephone, offers goods or services for a telephone-billed purchase.

(6) The term “customer” means any person who acquires or attempts to acquire goods or services in a telephone-billed purchase.

## TITLE IV—MISCELLANEOUS PROVISIONS

### SEC. 401. PROPOSAL FOR DEMONSTRATING THE POTENTIAL OF INNOVATIVE COMMUNICATIONS EQUIPMENT AND SERVICES.

(a) DEMONSTRATION PROPOSAL.—Within 180 days after the date of enactment of this Act, the Assistant Secretary of Energy for Conservation and Renewable Energy, in consultation with the Assistant Secretary of Commerce for Communications and Information, shall submit to Congress a proposal for demonstrating the ability of new and innovative communications equipment and services to further the national goals of conserving energy and protecting public health and safety.

(b) FACTORS TO BE ADDRESSED.—The demonstration proposal required by subsection (a) shall address—

(1) the feasibility of using communications technologies to read meters from remote locations;

(2) the feasibility of managing the consumption of electrical power and natural gas by residences and businesses, thereby reducing the demand for new and additional sources of energy, and controlling the cost of providing improved utility services; and

(3) the public safety implications of monitoring utility services outages during earthquakes, hurricanes, typhoons, tornadoes, volcanoes, and other natural disasters.

(c) PROJECT TO DEMONSTRATE ENERGY CONSERVATION POTENTIAL.—Upon submission of the demonstration proposal to the Congress, the Secretary of Energy shall consider requesting from the Assistant Secretary of Commerce for Communications and Information the authority to use radio frequencies, pursuant to section 305 of the Communications Act of 1934 (47 U.S.C. 305), to carry out demonstration projects consistent with the proposal that are designed to demonstrate the energy conservation potential of communications technologies and which are administered by the Secretary of Energy.

### SEC. 402. [47 U.S.C. 227] TECHNICAL AMENDMENTS.

\* \* \* \* \*

[Section 402 contained amendments to section 227(b)(2) of the Communications Act of 1934.]

### SEC. 403. INTERCEPTION OF CELLULAR TELECOMMUNICATIONS.

\* \* \* \* \*

[Section 403(a) contained amendments to section 302 of the Communications Act of 1934.]

(b) REPORT TO CONGRESS.—The Commission shall report to Congress no later than June 1, 1993, on available security features for both analog and digital radio signals. This report shall include a study of security technologies currently available as well as those in development. The study shall assess the capabilities of such technologies, level of security afforded, and cost, with wide-spread deployment of such technologies.

(c) [47 U.S.C. 302a note] EFFECT ON OTHER LAWS.—This section shall not affect section 2512(2) of title 18, United States Code.

---

**CHILDREN'S TELEVISION ACT OF 1990**

---

---

## CHILDREN'S TELEVISION ACT OF 1990

AN ACT To require the Federal Communications Commission to reinstate restrictions on advertising during children's television, to enforce the obligation of broadcasters to meet the educational and informational needs of the child audience, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SHORT TITLE

SECTION 1. This Act may be cited as the "Children's Television Act of 1990".<sup>1</sup>

### TITLE I—REGULATION OF CHILDREN'S TELEVISION FINDINGS

SEC. 101. [47 U.S.C. 303a note] The Congress finds that—

(1) it has been clearly demonstrated that television can assist children to learn important information, skills, values, and behavior, while entertaining them and exciting their curiosity to learn about the world around them;

(2) as part of their obligation to serve the public interest, television station operators and licensees should provide programming that serves the special needs of children;

(3) the financial support of advertisers assists in the provision of programming to children;

(4) special safeguards are appropriate to protect children from overcommercialization on television;

(5) television station operators and licensees should follow practices in connection with children's television programming and advertising that take into consideration the characteristics of this child audience; and

(6) it is therefore necessary that the Federal Communications Commission (hereinafter referred to as the "Commission") take the actions required by this title.

### STANDARDS FOR CHILDREN'S TELEVISION PROGRAMMING

SEC. 102. [47 U.S.C. 303a] (a) The Commission shall, within 30 days after the date of enactment of this Act, initiate a rulemaking proceeding to prescribe standards applicable to commercial television broadcast licensees with respect to the time devoted to commercial matter in conjunction with children's television programming. The Commission shall, within 180 days after the date of enactment of this Act, complete the rulemaking proceeding and prescribe final standards that meet the requirements of subsection (b).

<sup>1</sup>Public Law 101-437, 104 Stat. 996, approved Oct. 18, 1990.

(b) Except as provided in subsection (c), the standards prescribed under subsection (a) shall include the requirement that each commercial television broadcast licensee shall limit the duration of advertising in children's television programming to not more than 10.5 minutes per hour on weekends and not more than 12 minutes per hour on weekdays.

(c) After January 1, 1993, the Commission—

(1) may review and evaluate the advertising duration limitations required by subsection (b); and

(2) may, after notice and public comment and a demonstration of the need for modification of such limitations, modify such limitations in accordance with the public interest.

(d) As used in this section, the term "commercial television broadcast licensee" includes a cable operator, as defined in section 602 of the Communications Act of 1934 (47 U.S.C. 522).

#### CONSIDERATION OF CHILDREN'S TELEVISION SERVICE IN BROADCAST LICENSE RENEWAL

SEC. 103. [47 U.S.C. 303b] (a) After the standards required by section 102 are in effect, the Commission shall, in its review of any application for renewal of a commercial or noncommercial television broadcast license, consider the extent to which the licensee—

(1) has complied with such standards; and

(2) has served the educational and informational needs of children through the licensee's overall programming, including programming specifically designed to serve such needs.

(b) In addition to consideration of the licensee's programming as required under subsection (a), the Commission may consider—

(1) any special nonbroadcast efforts by the licensee which enhance the educational and informational value of such programming to children; and

(2) any special efforts by the licensee to produce or support programming broadcast by another station in the licensee's marketplace which is specifically designed to serve the educational and informational needs of children.

#### PROGRAM LENGTH COMMERCIAL MATTER

SEC. 104. Within 180 days after the date of enactment of this Act, the Commission shall complete the proceeding known as "Revision of Programming and Commercialization Policies, Ascertainment Requirements and Program Log Requirements for Commercial Television Stations", MM Docket No. 83-670.

### TITLE II—ENDOWMENT FOR CHILDREN'S EDUCATIONAL TELEVISION

#### SHORT TITLE

SEC. 201. [47 U.S.C. 609 note] This title may be cited as the "National Endowment for Children's Educational Television Act of 1990".

#### FINDINGS

SEC. 202. [47 U.S.C. 394 note] The Congress finds that—

(1) children in the United States are lagging behind those in other countries in fundamental intellectual skills, including reading, writing, mathematics, science, and geography;

(2) these fundamental skills are essential for the future governmental and industrial leadership of the United States;

(3) the United States must act now to greatly improve the education of its children;

(4) television is watched by children about three hours each day on average and can be effective in teaching children;

(5) educational television programming for children is aired too infrequently either because public broadcast licensees and permittees lack funds or because commercial broadcast licensees and permittees or cable television system operators do not have the economic incentive; and

(6) the Federal Government can assist in the creation of children's educational television by establishing a National Endowment for Children's Educational Television to supplement the children's educational programming funded by other governmental entities.

NATIONAL ENDOWMENT FOR CHILDREN'S EDUCATIONAL TELEVISION

## COMMUNICATIONS SATELLITE ACT OF 1962

AN ACT To provide for the establishment, ownership, operation, and regulation of a commercial communications satellite system, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### TITLE I—SHORT TITLE, DECLARATION OF POLICY AND DEFINITIONS

#### SEC. 101. SHORT TITLE.

This Act may be cited as the “Communications Satellite Act of 1962”.<sup>1</sup>

#### SEC. 102. [47 U.S.C. 701] DECLARATION OF POLICY AND PURPOSE.

(a) The Congress hereby declares that it is the policy of the United States to establish, in conjunction and in cooperation with other countries, as expeditiously as practicable a commercial communications satellite system, as part of an improved global communications network, which will be responsive to public needs and national objectives, which will serve the communication needs of the United States and other countries, and which will contribute to world peace and understanding.

(b) The new and expanded telecommunication services are to be made available as promptly as possible and are to be extended to provide global coverage at the earliest practicable date. In effectuating this program, care and attention will be directed toward providing such services to economically less developed countries and areas as well as those more highly developed, toward efficient and economical use of the electromagnetic frequency spectrum, and toward the reflection of the benefits of this new technology in both quality of services and charges for such services.

(c) In order to facilitate this development and to provide for the widest possible participation by private enterprise, United States participation in the global system shall be in the form of a private corporation, subject to appropriate governmental regulation. It is the intent of Congress that all authorized users have nondiscriminatory access to the system; that maximum competition be maintained in the provision of equipment and services utilized by the system; that the corporation created under this Act be so organized and operated as to maintain and strengthen competition in the provision of communications services to the public; and that the activities of the corporation created under this Act and of the persons or companies participating in the ownership of the corporation shall be consistent with the Federal antitrust laws.

(d) It is not the intent of Congress by this Act to preclude the use of the communications satellite system for domestic commu-

<sup>1</sup>Public Law No. 624, 87th Cong., 2d Sess., 76 Stat. 419, approved Aug. 31, 1962.

nication services where consistent with the provision of this Act nor to preclude the creation of additional communications satellite systems, if required to meet unique governmental needs or if otherwise required in the national interest.

**SEC. 103. [47 U.S.C. 702] DEFINITIONS.**

As used in this Act, and unless the context otherwise requires—

(1) the term “communications satellite system” refers to a system of communications satellites in space whose purpose is to relay telecommunication information between satellite terminal stations, together with such associated equipment and facilities for tracking, guidance, control, and command functions as are not part of the generalized launching, tracking, control, and command facilities for all space purposes;

(2) the term “satellite terminal station” refers to a complex of communication equipment located on the earth’s surface, operationally connected with one or more terrestrial communication systems, and capable of transmitting telecommunications to or receiving telecommunications from a communications satellite system;

(3) the term “communications satellite” means an earth satellite which is intentionally used to relay telecommunications information;

(4) the term “associated equipment and facilities” refers to facilities other than satellite terminal stations and communications satellites, to be constructed and operated for the primary purpose of a communications satellite system, whether for administration and management, for research and development, or for direct support of space operations;

(5) the term “research and development” refers to the conception, design, and first creation of experimental or prototype operational devices for the operation of a communications satellite system, including the assembly of separate components into a working whole, as distinguished from the term “production,” which relates to the construction of such devices to fixed specifications compatible with repetitive duplication for operational applications;

(6) the term “telecommunication” means any transmission, emission or reception of signs, signals, writings, images, and sounds or intelligence of any nature by wire, radio, optical, or other electromagnetic systems;

(7) the term “communications common carrier” has the same meaning as the term “common carrier” has when used in the Communications Act of 1934, as amended, and in addition includes, but only for purposes of sections 303 and 304, any individual, partnership, association, joint-stock company, trust, corporation, or other entity which owns or controls, directly or indirectly, or is under direct or indirect common control with, any such carrier; and the term “authorized carrier”, except as otherwise provided for purposes of section 304 by section 304(b)(1), means a communications common carrier which has been authorized by the Federal Communications Commission under the Communications Act of 1934, as amended, to provide services by means of communications satellites;

(8) the term "corporation" means the corporation authorized by title III of this Act;

(9) the term "Administration" means the National Aeronautics and Space Administration; and

(10) the term "Commission" means the Federal Communications Commission.

## TITLE II—FEDERAL COORDINATION, PLANNING, AND REGULATION

### SEC. 201. [47 U.S.C. 721] IMPLEMENTATION OF POLICY.

In order to achieve the objectives and to carry out the purposes of this Act—

(a) the President shall—

(1) aid in the planning and development and foster the execution of a national program for the establishment and operation, of a commercial communications satellite system;

(2) provide for continuous review of all phases of the development and operation of such a system, including the activities of a communications satellite corporation authorized under title III of this Act;

(3) coordinate the activities of governmental agencies with responsibilities in the field of telecommunication, so as to insure that there is full and effective compliance at all times with the policies set forth in this Act;

(4) exercise such supervision over relationships of the corporation with foreign governments or entities or with international bodies as may be appropriate to assure that such relationships shall be consistent with the national interest and foreign policy of the United States;

(5) insure that timely arrangements are made under which there can be foreign participation in the establishment and use of a communications satellite system;

(6) take all necessary steps to insure the availability and appropriate utilization of the communications satellite system for general governmental purposes except where a separate communications satellite system is required to meet unique governmental needs, or is otherwise required in the national interest; and

(7) to exercise his authority as to help attain coordinated and efficient use of the electromagnetic spectrum and the technical compatibility of the system with existing communications facilities both in the United States and abroad.

(b) the National Aeronautics and Space Administration shall—  
(1) advise the Commission on technical characteristics of the communications satellite system;

(2) cooperate with the corporation in research and development to the extent deemed appropriate by the Administration in the public interest;

(3) assist the corporation in the conduct of its research and development program by furnishing to the corporation, when requested, on a reimbursable basis, such satellite launching and associated services as the Administration deems necessary for the most expeditious and economical development of the communications satellite system;

(4) consult with the corporation with respect to the technical characteristics of the communications satellite system;

(5) furnish to the corporation, on request and on a reimbursable basis, satellite launching and associated services required for the establishment, operation, and maintenance of the communications satellite system approved by the Commission; and

(6) to the extent feasible, furnish other services, on a reimbursable basis, to the corporation in connection with the establishment and operation of the system.

(c) the Federal Communications Commission, in its administration of the provisions of the Communications Act of 1934, as amended, and as supplemented by this Act, shall—

(1) insure effective competition, including the use of competitive bidding where appropriate, in the procurement by the corporation and communications common carriers of apparatus, equipment, and services required for the establishment and operation of the communications satellite system and satellite terminal stations; and the Commission shall consult with the Small Business Administration and solicit its recommendations on measures and procedures which will insure that small business concerns are given an equitable opportunity to share in the procurement program of the corporation for property and services, including but not limited to research, development, construction, maintenance, and repair.

(2) insure that all present and future authorized carriers shall have nondiscriminatory use of, and equitable access to, the communications satellite system and satellite terminal stations under just and reasonable charges, classifications, practices, regulations, and other terms and conditions and regulate the manner in which available facilities of the system and stations are allocated among such users thereof;

(3) in any case where the Secretary of State, after obtaining the advice of the Administration as to technical feasibility, has advised that commercial communication to a particular foreign point by means of the communications satellite system and satellite terminal stations should be established in the national interest, institute forthwith appropriate proceedings under section 214(d) of the Communications Act of 1934, as amended, to require the establishment of such communication by the corporation and the appropriate common carrier or carriers;

(4) insure that facilities of the communications satellite system and satellite terminal stations are technically compatible and interconnected operationally with each other and with existing communications facilities;

(5) prescribe such accounting regulations and systems and engage in such ratemaking procedures as will insure that any economies made possible by a communications satellite system are appropriately reflected in rates for public communication services;

(6) approve technical characteristics of the operational communications satellite system to be employed by the corporation and of the satellite terminal stations; and

(7) grant appropriate authorization for the construction and operation of each satellite terminal station, either to the corporation or to one or more authorized carriers or to the corporation and one or more such carriers jointly, as will best serve the public interest, convenience, and necessity. In determining the public interest, convenience, and necessity the Commission shall authorize the construction and operation of such stations by communications common carriers or the corporation, without preference to either;

(8) authorize the corporation to issue any shares of capital stock, except the initial issue of capital stock referred to in section 304(a), or to borrow any moneys, or to assume any obligation in respect of the securities of any other person, upon finding that such issuance, borrowing, or assumption is compatible with the public interest, convenience, and necessity and is necessary or appropriate for or consistent with carrying out the purposes and objectives of this Act by the corporation;

(9) insure that no substantial additions are made by the corporation or carriers with respect to facilities of the system or satellite terminal stations unless such additions are required by the public interest, convenience, and necessity;

(10) require, in accordance with the procedural requirements of section 214 of the Communications Act of 1934, as amended, that additions be made by the corporation or carriers with respect to facilities of the system or satellite terminal stations where such additions would serve the public interest, convenience, and necessity; and

(11) make rules and regulations to carry out the provisions of this Act.

### TITLE III—CREATION OF A COMMUNICATIONS SATELLITE CORPORATION

#### SEC. 301. [47 U.S.C. 731] CREATION OF CORPORATION.

There is authorized to be created a communications satellite corporation for profit which will not be an agency or establishment of the United States Government.

#### SEC. 302. [47 U.S.C. 732] APPLICABLE LAWS.

The corporation shall be subject to the provisions of this Act and, to the extent consistent with this Act, to the District of Columbia Business Corporation Act. The right to repeal, alter, or amend this Act at any time is expressly reserved.

#### SEC. 303. [47 U.S.C. 733] DIRECTORS AND OFFICERS.

(a) The corporation shall have a board of directors consisting of fifteen individuals who are citizens of the United States, of whom one shall be elected annually by the board to serve as chairman. Three members of the board shall be appointed by the President of the United States, by and with the advice and consent of the Senate, effective the date on which the other members are elected, and for terms of three years or until their successors have been appointed and qualified, and any member so appointed to fill a vacancy shall be appointed only for the unexpired term of the director whom he succeeds. The remaining twelve members of the board shall be elected annually by the stockholders. Six of such members shall be elected by those stockholders who are not com-

munications common carriers, and the remaining six such members shall be elected by the stockholders who are communications common carriers, except that if the number of shares of the voting capital stock of the corporation issued and outstanding and owned either directly or indirectly by communications common carriers as of the record date for the annual meeting of stockholders is less than 45 per centum of the total number of shares of the voting capital stock of the corporation issued and outstanding, the numbers of members to be elected at such meeting by each group of stockholders shall be determined in accordance with the following table:

When the number of shares of the voting capital stock of the corporation issued and outstanding and owned either directly or indirectly by communications common carriers is less than—	But not less than—	The number of members which stockholders who are communications common carriers are entitled to elect shall be—	And the number of members which other stockholders are entitled to elect shall be—
45 per centum .....	40 per centum .....	5	7
40 per centum .....	35 per centum .....	4	8
35 per centum .....	25 per centum .....	3	9
25 per centum .....	15 per centum .....	2	10
15 per centum .....	8 per centum .....	1	11
8 per centum .....	.....	0	12

No stockholder who is a communications common carrier and no trustee for such a stockholder shall vote, either directly or indirectly, through the votes of subsidiaries or affiliated companies, nominees, or any persons subject to his direction or control, for more than three candidates for membership on the board, except that in the event the number of shares of the voting capital stock of the corporation issued and outstanding and owned either directly or indirectly by communications common carriers as of the record date for the annual meeting is less than 8 per centum of the total number of shares of the voting capital stock of the corporation issued and outstanding, any stockholder who is a communications common carrier shall be entitled to vote at such meeting for candidates for membership on the board in the same manner as all other stockholders. Subject to the foregoing limitations, the articles of incorporation of the corporation shall provide for cumulative voting under section 327(d) of the District of Columbia Business Corporation Act (D.C. Code, sec. 29-327(d)). The articles of incorporation of the corporation may be amended, altered, changed, or repealed by a vote of not less than 66<sup>2</sup>/<sub>3</sub> per centum of the outstanding shares of the voting capital stock of the corporation owned by stockholders who are communications common carriers and by stockholders who are not communications common carriers, voting together if such vote complies with all other requirements of this Act and of the articles of incorporation of the corporation with respect to the amendment, alteration, change, or repeal of such articles. The corporation may adopt such bylaws as shall, notwithstanding the provisions of section 336 of the District of Columbia Business Corporation Act (D.C. Code, sec. 29-336(d)), provide for the continued ability of the board to transact business under such circumstances of national emergency as the President of the United States, or the officer designated by him, may determine, after February 18, 1969, would not permit a prompt meeting of a majority of the board to transact business.

(b) The corporation shall have a president, and such other officers as may be named and appointed by the board, at rates of compensation fixed by the board, and serving at the pleasure of the board. No individual other than a citizen of the United States may be an officer of the corporation. No officer of the corporation shall receive any salary from any source other than the corporation during the period of his employment by the corporation.

**SEC. 304. [47 U.S.C. 734] FINANCING OF THE CORPORATION.**

(a) The corporation is authorized to issue and have outstanding, in such amounts as it shall determine, shares of capital stock, without par value, which shall carry voting rights and be eligible for dividends. The shares of such stock initially offered shall be sold in a manner to encourage the widest distribution to the American public. Subject to the provisions of subsections (b) and (d) of this section, shares of stock offered under this subsection may be issued to and held by any person.

(b)(1) For the purposes of this section the term "authorized carrier" shall mean a communications common carrier which is specifically authorized or which is a member of a class of carriers authorized by the Commission to own shares of stock in the corporation upon a finding that such ownership will be consistent with the public interest, convenience, and necessity.

(2) Only those communications common carriers which are authorized carriers shall own shares of stock in the corporation at any time, and no other communications common carrier shall own shares either directly or indirectly through subsidiaries or affiliated companies, nominees, or any persons subject to its direction or control. At no time after the initial issue is completed shall the aggregate of the shares of voting stock of the corporation owned by authorized carriers directly or indirectly through subsidiaries or affiliated companies, nominees, or any persons subject to their direction or control exceed 50 per centum of such shares issued and outstanding.

(3) At no time shall any stockholder who is not an authorized carrier, or any syndicate or affiliated group of such stockholders, own more than 10 per centum of the shares of voting stock of the corporation issued and outstanding.

(c) The corporation is authorized to issue, in addition to the stock authorized by subsection (a) of this section, nonvoting securities, bonds, debentures, and other certificates of indebtedness as it may determine. Such nonvoting securities, bonds, debentures, or other certificates of indebtedness of the corporation as a communications common carrier may own shall be eligible for inclusion in the rate base of the carrier to the extent allowed by the Commission. The voting stock of the corporation shall not be eligible for inclusion in the rate base of the carrier.

(d) Not more than an aggregate of 20 per centum of the shares of stock of the corporation authorized by subsection (a) of this section which are held by holders other than authorized carriers may be held by persons of the classes described in subsection (a) and paragraphs (1) through (4) of subsection (b) of section 310 of the Communications Act of 1934, as amended (47 U.S.C. 310).

(e) The requirement of section 345(b) of the District of Columbia Business Corporation Act (D.C. Code, sec. 29-345(b)) as to the

percentage of stock which a stockholder must hold in order to have the rights of inspection and copying set forth in that subsection shall not be applicable in the case of holders of the stock of the corporation, and they may exercise such rights without regard to the percentage of stock they hold.

(f) Upon application to the Commission by any authorized carrier and after notice and hearing, the Commission may compel any other authorized carrier which owns shares of stock in the corporation to transfer to the applicant, for a fair and reasonable consideration, a number of such shares as the Commission determines will advance the public interest and the purposes of this Act. In its determination with respect to ownership of shares of stock in the corporation, the Commission, whenever consistent with the public interest, shall promote the widest possible distribution of stock among the authorized carriers.

**SEC. 305. [47 U.S. 735] PURPOSES AND POWERS OF THE CORPORATION.**

(a) In order to achieve the objectives and to carry out the purposes of this Act, the corporation is authorized to—

(1) plan, initiate, construct, own, manage, and operate itself or in conjunction with foreign governments or business entities a commercial communications satellite system;

(2) furnish, for hire, channels of communication to United States communications common carriers and to other authorized entities, foreign and domestic; and

(3) own and operate satellite terminal stations when licensed by the Commission under section 201(c)(7).

(b) Included in the activities authorized to the corporation for accomplishment of the purposes indicated in subsection (a) of this section, are, among others not specifically named—

(1) to conduct or contract for research and development related to its mission;

(2) to acquire the physical facilities, equipment and devices necessary to its operations, including communications satellites and associated equipment and facilities, whether by construction, purchase, or gift;

(3) to purchase satellite launching and related services from the United States Government;

(4) to contract with authorized users, including the United States Government, for the services of the communications satellite system; and

(5) to develop plans for the technical specifications of all elements of the communications satellite system.

(c) To carry out the foregoing purposes, the corporation shall have the usual powers conferred upon a stock corporation by the District of Columbia Business Corporation Act.

**TITLE IV—MISCELLANEOUS**

**SEC. 401. [47 U.S.C. 741] APPLICABILITY OF COMMUNICATIONS ACT OF 1934.**

The corporation shall be deemed to be a common carrier within the meaning of section 3(h) of the Communications Act of 1934, as amended, and as such shall be fully subject to the provisions of title II and title III of that Act. The provision of satellite terminal station facilities by one communication common carrier to one or

more other communications common carriers shall be deemed to be a common carrier activity fully subject to the Communications Act. Whenever the application of the provisions of this Act shall be inconsistent with the application of the provisions of the Communications Act, the provisions of this Act shall govern.

**SEC. 402. [47 U.S.C. 742] NOTICE OF FOREIGN BUSINESS NEGOTIATIONS.**

Whenever the corporation shall enter into business negotiations with respect to facilities, operations, or services authorized by this Act with any international or foreign entity, it shall notify the Department of State of the negotiations, and the Department of State shall advise the corporation of relevant foreign policy considerations. Throughout such negotiations the corporation shall keep the Department of State informed with respect to such considerations. The corporation may request the Department of State to assist in the negotiations, and that Department shall render such assistance as may be appropriate.

**SEC. 403. [47 U.S.C. 743] SANCTIONS.**

(a) If the corporation created pursuant to this Act shall engage in or adhere to any action, practices, or policies inconsistent with the policy and purposes declared in section 102 of this Act, or if the corporation or any other person shall violate any provision of this Act, or shall obstruct or interfere with any activities authorized by this Act, or shall refuse, fail, or neglect to discharge his duties and responsibilities under this Act, or shall threaten any such violation, obstruction, interference, refusal, failure, or neglect, the district court of the United States for any district in which such corporation or other person resides or may be found shall have jurisdiction, except as otherwise prohibited by law, upon petition of the Attorney General of the United States, to grant such equitable relief as may be necessary or appropriate to prevent or terminate such conduct or threat.

(b) Nothing contained in this section shall be construed as relieving any person of any punishment, liability, or sanction which may be imposed otherwise than under this Act.

(c) It shall be the duty of the corporation and all communications common carriers to comply, insofar as applicable, with all provisions of this Act and all rules and regulations promulgated thereunder.

**SEC. 404. [47 U.S.C. 744] REPORTS TO THE CONGRESS.**

The corporation shall transmit to the President and the Congress, annually and at such other times as it deems desirable, a comprehensive and detailed report of its operations, activities, and accomplishments under this Act.

**TITLE V—INTERNATIONAL MARITIME SATELLITE  
TELECOMMUNICATIONS**

**SEC. 501. SHORT TITLE.**

This title may be cited as the “International Maritime Satellite Telecommunications Act”.

**SEC. 502. [47 U.S.C. 751] DECLARATION OF POLICY AND PURPOSE.**

(a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States

in the International Maritime Satellite Organization (hereinafter in this title referred to as "INMARSAT") in order to develop and operate a global maritime satellite telecommunications system. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

(b) It is the purpose of this title to provide that the participation of the United States in INMARSAT shall be through the communications satellite corporation established pursuant to title III of this Act, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

**SEC. 503. [47 U.S.C. 752] DESIGNATED OPERATING ENTITY.**

(a)(1) The the communications satellite corporation established pursuant to title III of this Act is hereby designated as the sole operating entity of the United States for participation in INMARSAT, for the purpose of providing international maritime satellite telecommunications services.

(2) The corporation may participate in and is hereby authorized to sign the operating agreement or other pertinent instruments of INMARSAT as the sole designated operating entity of the United States.

(b) The corporation—

(1) may own and operate satellite earth terminal stations in the United States;

(2) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier or other entity in which the corporation has any ownership interest, as authorized by the Commission;

(3) shall interconnect such stations and the maritime satellite telecommunications provided by such stations, with the facilities and services of private communications systems, unless the Commission finds that such interconnection will not serve the public interest; and

(4) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

(c) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing INMARSAT. The corporation shall be the sole United States representative in the managing body of INMARSAT.

(d)(1) Any person, including the Federal Government or any agency thereof, may be authorized, in accordance with paragraph (2) or paragraph (3), to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services.

(2) If the person referred to in paragraph (1) is the Federal Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility.

(3) In any other case, such satellite earth terminal station shall have been authorized by the Commission.

(e) The Commission may authorize ownership of satellite earth terminal stations by persons other than the corporation at any time the Commission determines that such additional ownership will enhance the provision of maritime satellite services in the public interest.

(f) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, and private communications systems when authorized pursuant to subsection (b)(3) for the purpose of extending maritime satellite telecommunications services within the United States and in other areas.

(g) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

**SEC. 504. [47 U.S.C. 753] IMPLEMENTATION OF POLICY.**

(a) The Secretary of Commerce shall—

(1) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

(2) take all necessary steps to ensure the availability and appropriate utilization of the maritime satellite telecommunications services provided by INMARSAT for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise required in the national interest;

(3) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries; and

(4) take all necessary steps to determine the interests and needs of the ultimate users of the maritime satellite telecommunications system and to communicate the views of the Federal Government on utilization and user needs to INMARSAT.

(b) The President shall exercise such supervision over, and issue such instructions to, the corporation in connection with its relationships and activities with foreign governments, international entities, and INMARSAT as may be necessary to ensure that such

relationships and activities are consistent with the national interest and foreign policy of the United States.

(c) The Commission shall—

(1) institute such proceedings as may be necessary to carry out the provisions of section 503 of this title;

(2) make recommendations to the President for the purpose of assisting him in his issuance of instructions to the corporation;

(3) grant such authorizations as may be necessary under title II and title III of the Communications Act of 1934 to enable the corporation—

(A) to provide to the public, in accordance with section 503(c)(2) of this title, space segment channels of communication obtained from INMARSAT; and

(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

(4) grant such other authorizations as may be necessary under title II and title III of this Communications Act of 1934 to carry out the provisions of this title;

(5) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement or other pertinent instruments; and

(6) prescribe such rules as may be necessary to carry out the provisions of this title.

(d) The Commission is authorized to issue instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission. In the event an instruction of the Commission conflicts with an instruction of the President pursuant to subsection (b), the instructions issued by the President shall prevail.

**SEC. 505. [47 U.S.C. 757] DEFINITIONS.**

For purposes of this title—

(1) the term “person” includes an individual, partnership, association, joint stock company, trust, or corporation;

(2) the term “satellite earth terminal station” means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

(3) the term “space segment” means any satellite (or capacity on a satellite) maintained under the authority of INMARSAT, for the purpose of providing international maritime telecommunications services, and the tracking, telemetry, command, control, monitoring, and related facilities and equipment required to support the operations of such satellite; and

(4) the term “State” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

#### SEC. 601. [47 U.S.C. 761] FEDERAL COMMUNICATIONS COMMISSION LI- CENSING.

##### (a) LICENSING FOR SEPARATED ENTITIES.—

(1) COMPETITION TEST.—The Commission may not issue a license or construction permit to any separated entity, or renew or permit the assignment or use of any such license or permit, or authorize the use by any entity subject to United States jurisdiction of any space segment owned, leased, or operated by any separated entity, unless the Commission determines that such issuance, renewal, assignment, or use will not harm competition in the telecommunications market of the United States. If the Commission does not make such a determination, it shall deny or revoke authority to use space segment owned, leased, or operated by the separated entity to provide services to, from, or within the United States.

(2) CRITERIA FOR COMPETITION TEST.—In making the determination required by paragraph (1), the Commission shall use the licensing criteria in sections 621 and 623, and shall not make such a determination unless the Commission determines that the privatization of any separated entity is consistent with such criteria.

##### (b) LICENSING FOR INTELSAT, INMARSAT, AND SUCCESSOR EN- TITIES.—

##### (1) COMPETITION TEST.—

(A) IN GENERAL.—In considering the application of INTELSAT, Inmarsat, or their successor entities for a license or construction permit, or for the renewal or assignment or use of any such license or permit, or in considering the request of any entity subject to United States jurisdiction for authorization to use any space segment owned, leased, or operated by INTELSAT, Inmarsat, or their successor entities, to provide non-core services to, from, or within the United States, the Commission shall determine whether—

(i) after April 1, 2001, in the case of INTELSAT and its successor entities, INTELSAT and any successor entities have been privatized in a manner that will harm competition in the telecommunications markets of the United States; or

(ii) after April 1, 2000, in the case of Inmarsat and its successor entities, Inmarsat and any successor entities have been privatized in a manner that will harm

<sup>1</sup>Title VI of the Communications Satellite Act of 1962 was added by the ORBIT Act (Public Law 106–180). Section 2 of the Orbit Act contained the following statement of purpose: “It is the purpose of this Act to promote a fully competitive global market for satellite communication services for the benefit of consumers and providers of satellite services and equipment by fully privatizing the intergovernmental satellite organizations, INTELSAT and Inmarsat.”

competition in the telecommunications markets of the United States.

(B) CONSEQUENCES OF DETERMINATION.—If the Commission determines that such competition will be harmed or that grant of such application or request for authority is not otherwise in the public interest, the Commission shall limit through conditions or deny such application or request, and limit or revoke previous authorizations to provide non-core services to, from, or within the United States. After due notice and opportunity for comment, the Commission shall apply the same limitations, restrictions, and conditions to all entities subject to United States jurisdiction using space segment owned, leased, or operated by INTELSAT, Inmarsat, or their successor entities.

(C) NATIONAL SECURITY, LAW ENFORCEMENT, AND PUBLIC SAFETY.—The Commission shall not impose any limitation, condition, or restriction under subparagraph (B) in a manner that will, or is reasonably likely to, result in limitation, denial, or revocation of authority for non-core services that are used by and required for a national security agency or law enforcement department or agency of the United States, or used by and required for, and otherwise in the public interest, any other Department or Agency of the United States to protect the health and safety of the public. Such services may be obtained by the United States directly from INTELSAT, Inmarsat, or a successor entity, or indirectly through COMSAT, or authorized carriers or distributors of the successor entity.

(D) RULE OF CONSTRUCTION.—Nothing in this subsection is intended to preclude the Commission from acting upon applications of INTELSAT, Inmarsat, or their successor entities prior to the latest date set out in section 621(5)(A), including such actions as may be necessary for the United States to become the licensing jurisdiction for INTELSAT, but the Commission shall condition a grant of authority pursuant to this subsection upon compliance with sections 621 and 622.

(2) CRITERIA FOR COMPETITION TEST.—In making the determination required by paragraph (1), the Commission shall use the licensing criteria in sections 621, 622, and 624, and shall determine that competition in the telecommunications markets of the United States will be harmed unless the Commission finds that the privatization referred to in paragraph (1) is consistent with such criteria.

(3) CLARIFICATION: COMPETITIVE SAFEGUARDS.—In making its licensing decisions under this subsection, the Commission shall consider whether users of non-core services provided by INTELSAT or Inmarsat or successor or separated entities are able to obtain non-core services from providers offering services other than through INTELSAT or Inmarsat or successor or separated entities, at competitive rates, terms, or conditions. Such consideration shall also include whether such licensing decisions would require users to replace equipment at substantial costs prior to the termination of its design life. In making its licensing decisions, the Commission shall also consider

whether competitive alternatives in individual markets do not exist because they have been foreclosed due to anticompetitive actions undertaken by or resulting from the INTELSAT or Inmarsat systems. Such licensing decisions shall be made in a manner which facilitates achieving the purposes and goals in this title and shall be subject to notice and comment.

(c) **ADDITIONAL CONSIDERATIONS IN DETERMINATIONS.**—In making its determinations and licensing decisions under subsections (a) and (b), the Commission shall construe such subsections in a manner consistent with the United States obligations and commitments for satellite services under the Fourth Protocol to the General Agreement on Trade in Services.

(d) **INDEPENDENT FACILITIES COMPETITION.**—Nothing in this section shall be construed as precluding COMSAT from investing in or owning satellites or other facilities independent from INTELSAT and Inmarsat, and successor or separated entities, or from providing services through reselling capacity over the facilities of satellite systems independent from INTELSAT and Inmarsat, and successor or separated entities. This subsection shall not be construed as restricting the types of contracts which can be executed or services which may be provided by COMSAT over the independent satellites or facilities described in this subsection.

**SEC. 602. [47 U.S.C. 761a] INCENTIVES; LIMITATION ON EXPANSION PENDING PRIVATIZATION.**

(a) **LIMITATION.**—Until INTELSAT, Inmarsat, and their successor or separate entities are privatized in accordance with the requirements of this title, INTELSAT, Inmarsat, and their successor or separate entities, respectively, shall not be permitted to provide additional services. The Commission shall take all necessary measures to implement this requirement, including denial by the Commission of licensing for such services.

(b) **ORBITAL LOCATION INCENTIVES.**—Until such privatization is achieved, the United States shall oppose and decline to facilitate applications by such entities for new orbital locations to provide such services.

## **Subtitle B—Federal Communications Commission Licensing Criteria: Privatization Criteria**

**SEC. 621. [47 U.S.C. 763] GENERAL CRITERIA TO ENSURE A PRO-COMPETITIVE PRIVATIZATION OF INTELSAT AND INMARSAT.**

The President and the Commission shall secure a pro-competitive privatization of INTELSAT and Inmarsat that meets the criteria set forth in this section and sections 622 through 624. In securing such privatizations, the following criteria shall be applied as licensing criteria for purposes of subtitle A:

(1) **DATES FOR PRIVATIZATION.**—Privatization shall be obtained in accordance with the criteria of this title of—

(A) INTELSAT as soon as practicable, but no later than April 1, 2001; and

(B) Inmarsat as soon as practicable, but no later than July 1, 2000.

(2) INDEPENDENCE.—The privatized successor entities and separated entities of INTELSAT and Inmarsat shall operate as independent commercial entities, and have a pro-competitive ownership structure. The successor entities and separated entities of INTELSAT and Inmarsat shall conduct an initial public offering in accordance with paragraph (5) to achieve such independence. Such offering shall substantially dilute the aggregate ownership of such entities by such signatories or former signatories. In determining whether a public offering attains such substantial dilution, the Commission shall take into account the purposes and intent, privatization criteria, and other provisions of this title, as well as market conditions. No inter-governmental organization, including INTELSAT or Inmarsat, shall have—

(A) an ownership interest in INTELSAT or the successor or separated entities of INTELSAT; or

(B) more than minimal ownership interest in Inmarsat or the successor or separated entities of Inmarsat.

(3) TERMINATION OF PRIVILEGES AND IMMUNITIES.—The preferential treatment of INTELSAT and Inmarsat shall not be extended to any successor entity or separated entity of INTELSAT or Inmarsat. Such preferential treatment includes—

(A) privileged or immune treatment by national governments;

(B) privileges or immunities or other competitive advantages of the type accorded INTELSAT and Inmarsat and their signatories through the terms and operation of the INTELSAT Agreement and the associated Headquarters Agreement and the Inmarsat Convention; and

(C) preferential access to orbital locations.

Access to new, or renewal of access to, orbital locations shall be subject to the legal or regulatory processes of a national government that applies due diligence requirements intended to prevent the warehousing of orbital locations.

(4) PREVENTION OF EXPANSION DURING TRANSITION.—During the transition period prior to privatization under this title, INTELSAT and Inmarsat shall be precluded from expanding into additional services.

(5) CONVERSION TO STOCK CORPORATIONS.—Any successor entity or separated entity created out of INTELSAT or Inmarsat shall be a national corporation or similar accepted commercial structure, subject to the laws of the nation in which incorporated, as follows:

(A) An initial public offering of securities of any successor entity or separated entity—

(i) shall be conducted, for the successor entities of INTELSAT, on or about December 31, 2003, except that the Commission may extend this deadline in consideration of market conditions and relevant business factors relating to the timing of an initial public offering, but such extensions shall not permit such offering to be conducted later than June 30, 2004; and

(ii) shall be conducted, for the successor entities of Inmarsat, not later than December 31, 2002, except

that the Commission may extend this deadline to not later than June 30, 2003.

(B) The shares of any successor entities and separated entities shall be listed for trading on one or more major stock exchanges with transparent and effective securities regulation.

(C) A majority of the members of the board of directors of any successor entity or separated entity shall not be directors, employees, officers, or managers or otherwise serve as representatives of any signatory or former signatory. No member of the board of directors of any successor or separated entity shall be a director, employee, officer or manager of any intergovernmental organization remaining after the privatization.

(D) Any successor entity or separated entity shall—

(i) have a board of directors with a fiduciary obligation;

(ii) have no officers or managers who (I) are officers or managers of any signatories or former signatories, or (II) have any direct financial interest in or financial relationship to any signatories or former signatories, except that such interest may be managed through a blind trust or similar mechanism;

(iii) have no directors, officers, or managers who hold such positions in any intergovernmental organization; and

(iv) in the case of a separated entity, have no officers or directors, who (I) are officers or managers of any intergovernmental organization, or (II) have any direct financial interest in or financial relationship to any international organization, except that such interest may be managed through a blind trust or similar mechanism.

(E) Any transactions or other relationships between or among any successor entity, separated entity, INTELSAT, or Inmarsat shall be conducted on an arm's length basis.

(6) REGULATORY TREATMENT.—Any successor entity or separated entity created after the date of enactment of this title shall apply through the appropriate national licensing authorities for international frequency assignments and associated orbital registrations for all satellites.

(7) COMPETITION POLICIES IN DOMICILIARY COUNTRY.—Any successor entity or separated entity shall be subject to the jurisdiction of a nation or nations that—

(A) have effective laws and regulations that secure competition in telecommunications services;

(B) are signatories of the World Trade Organization Basic Telecommunications Services Agreement; and

(C) have a schedule of commitments in such Agreement that includes non-discriminatory market access to their satellite markets.

**SEC. 622. [47 U.S.C. 763a] SPECIFIC CRITERIA FOR INTELSAT.**

In securing the privatizations required by section 621, the following additional criteria with respect to INTELSAT privatization shall be applied as licensing criteria for purposes of subtitle A:

(1)<sup>1</sup> **TECHNICAL COORDINATION UNDER INTELSAT AGREEMENTS.**—Technical coordination shall not be used to impair competition or competitors, and shall be conducted under International Telecommunication Union procedures and not under Article XIV(d) of the INTELSAT Agreement.

**SEC. 623. [47 U.S.C. 763b] SPECIFIC CRITERIA FOR INTELSAT SEPARATED ENTITIES.**

In securing the privatizations required by section 621, the following additional criteria with respect to any INTELSAT separated entity shall be applied as licensing criteria for purposes of subtitle A:

(1) **DATE FOR PUBLIC OFFERING.**—Within one year after any decision to create any separated entity, a public offering of the securities of such entity shall be conducted. In the case of a separated entity created before January 1, 1999, such public offering shall be conducted no later than July 1, 2000, except that the Commission may extend this deadline in consideration of market conditions and relevant business factors relating to the timing of an initial public offering, but such extensions shall not permit such offering to be conducted later than July 31, 2001.

(2) **INTERLOCKING DIRECTORATES OR EMPLOYEES.**—None of the officers, directors, or employees of any separated entity shall be individuals who are officers, directors, or employees of INTELSAT.

(3) **SPECTRUM ASSIGNMENTS.**—After the initial transfer which may accompany the creation of a separated entity, the portions of the electromagnetic spectrum assigned as of the date of enactment of this title to INTELSAT shall not be transferred between INTELSAT and any separated entity.

(4) **REAFFILIATION PROHIBITED.**—Any merger or ownership or management ties or exclusive arrangements between a privatized INTELSAT or any successor entity and any separated entity shall be prohibited until 11 years after the completion of INTELSAT privatization under this title.

**SEC. 624. [47 U.S.C. 763c] SPECIFIC CRITERIA FOR INMARSAT.**

In securing the privatizations required by section 621, the following additional criteria with respect to Inmarsat privatization shall be applied as licensing criteria for purposes of subtitle A:

(1) **REAFFILIATION PROHIBITED.**—Any merger, ownership of more than one percent of the voting securities, or management ties or exclusive arrangements between Inmarsat or any successor entity or separated entity and ICO shall be prohibited until 15 years after the completion of Inmarsat privatization under this title.

(2) **INTERLOCKING DIRECTORATES OR EMPLOYEES.**—None of the officers, directors, or employees of Inmarsat or any suc-

<sup>1</sup> So in law. There is no paragraph (2).

cessor entity or separated entity shall be individuals who are officers, directors, or employees of ICO.

(3) PRESERVATION OF THE GMDSS.—The United States shall seek to preserve space segment capacity of the G.

**SEC. 625. [47 U.S.C. 763d] ENCOURAGING MARKET ACCESS AND PRIVATIZATION.**

(a) NTIA DETERMINATION.—

(1) DETERMINATION REQUIRED.—Within 180 days after the date of enactment of this section, the Secretary of Commerce shall, through the Assistant Secretary for Communications and Information, transmit to the Commission—

(A) a list of Member countries of INTELSAT and Inmarsat that are not Members of the World Trade Organization and that impose barriers to market access for private satellite systems; and

(B) a list of Member countries of INTELSAT and Inmarsat that are not Members of the World Trade Organization and that are not supporting pro-competitive privatization of INTELSAT and Inmarsat.

(2) CONSULTATION.—The Secretary's determinations under paragraph (1) shall be made in consultation with the Federal Communications Commission, the Secretary of State, and the United States Trade Representative, and shall take into account the totality of a country's actions in all relevant fora, including the Assemblies of Parties of INTELSAT and Inmarsat.

(b) IMPOSITION OF COST-BASED SETTLEMENT RATE.—Notwithstanding—

(1) any higher settlement rate that an overseas carrier charges any United States carrier to originate or terminate international message telephone services; and

(2) any transition period that would otherwise apply, the Commission may by rule prohibit United States carriers from paying an amount in excess of a cost-based settlement rate to overseas carriers in countries listed by the Commission pursuant to subsection (a).

(c) SETTLEMENTS POLICY.—The Commission shall, in exercising its authority to establish settlements rates for United States international common carriers, seek to advance United States policy in favor of cost-based settlements in all relevant fora on international telecommunications policy, including in meetings with parties and signatories of INTELSAT and Inmarsat.

## **Subtitle C—Deregulation and Other Statutory Changes**

**SEC. 641. [47 U.S.C. 765] ACCESS TO INTELSAT.**

(a) ACCESS PERMITTED.—Beginning on the date of enactment of this title, users or providers of telecommunications services shall be permitted to obtain direct access to INTELSAT telecommunications services and space segment capacity through purchases of such capacity or services from INTELSAT. Such direct access shall be at the level commonly referred to by INTELSAT, on the date of enactment of this title, as "Level III".

(b) RULEMAKING.—Within 180 days after the date of enactment of this title, the Commission shall complete a rulemaking, with notice and opportunity for submission of comment by interested persons, to determine if users or providers of telecommunications services have sufficient opportunity to access INTELSAT space segment capacity directly from INTELSAT to meet their service or capacity requirements. If the Commission determines that such opportunity to access does not exist, the Commission shall take appropriate action to facilitate such direct access pursuant to its authority under this Act and the Communications Act of 1934. The Commission shall take such steps as may be necessary to prevent the circumvention of the intent of this section.

(c) CONTRACT PRESERVATION.—Nothing in this section shall be construed to permit the abrogation or modification of any contract.

**SEC. 642. [47 U.S.C. 765a] SIGNATORY ROLE.**

(a) LIMITATIONS ON SIGNATORIES.—

(1) NATIONAL SECURITY LIMITATIONS.—The Federal Communications Commission, after a public interest determination, in consultation with the executive branch, may restrict foreign ownership of a United States signatory if the Commission determines that not to do so would constitute a threat to national security.

(2) NO SIGNATORIES REQUIRED.—The United States Government shall not require signatories to represent the United States in INTELSAT or Inmarsat or in any successor entities after a pro-competitive privatization is achieved consistent with sections 621, 622, and 624.

(b) CLARIFICATION OF PRIVILEGES AND IMMUNITIES OF COMSAT.—

(1) GENERALLY NOT IMMUNIZED.—Notwithstanding any other law or executive agreement, COMSAT shall not be entitled to any privileges or immunities under the laws of the United States or any State on the basis of its status as a signatory of INTELSAT or Inmarsat.

(2) LIMITED IMMUNITY.—COMSAT or any successor in interest shall not be liable for action taken by it in carrying out the specific, written instruction of the United States issued in connection with its relationships and activities with foreign governments, international entities, and the intergovernmental satellite organizations.

(3) NO JOINT OR SEVERAL LIABILITY.—If COMSAT is found liable for any action taken in its status as a signatory or a representative of the party to INTELSAT, any such liability shall be limited to the portion of the judgment that corresponds to COMSAT's percentage of the ownership of INTELSAT at the time the activity began which lead to the liability.

(4) PROVISIONS PROSPECTIVE.—Paragraph (1) shall not apply with respect to liability for any action taken by COMSAT before the date of enactment of this title.

(c) PARITY OF TREATMENT.—Notwithstanding any other law or executive agreement, the Commission shall have the authority to impose similar regulatory fees on the United States signatory which it imposes on other entities providing similar services.

**SEC. 643. [47 U.S.C. 765b] ELIMINATION OF PROCUREMENT PREFERENCES.**

Nothing in this title or the Communications Act of 1934 shall be construed to authorize or require any preference, in Federal Government procurement of telecommunications services, for the satellite space segment provided by INTELSAT, Inmarsat, or any successor entity or separated entity.

**SEC. 644. [47 U.S.C. 765c] ITU FUNCTIONS.**

(a) **TECHNICAL COORDINATION.**—The Commission and United States satellite companies shall utilize the International Telecommunication Union procedures for technical coordination with INTELSAT and its successor entities and separated entities, rather than INTELSAT procedures.

(b) **ITU NOTIFYING ADMINISTRATION.**—The President and the Commission shall take the action necessary to ensure that the United States remains the ITU notifying administration for the privatized INTELSAT's existing and future orbital slot registrations.

**SEC. 645. [47 U.S.C. 765d] TERMINATION OF COMMUNICATIONS SATELLITE ACT OF 1962 PROVISIONS.**

Effective on the dates specified, the following provisions of this Act shall cease to be effective:

(1) Date of enactment of this title: Paragraphs (1), (5) and (6) of section 201(a); section 201(b); paragraphs (1), (3) through (5), and (8) through (10) of section 201(c); section 303; section 304; section 502; section 503; paragraphs (2) and (4) of section 504(a); and section 504(c).

(2) Upon the transfer of assets to a successor entity and receipt by signatories or former signatories (including COMSAT) of ownership shares in the successor entity of INTELSAT in accordance with appropriate arrangements determined by INTELSAT to implement privatization: Section 305.

(3) On the effective date of a Commission order determining under section 601(b)(2) that Inmarsat privatization is consistent with criteria in sections 621 and 624: Sections 504(b) and 504(d).

(4) On the effective date of a Commission order determining under section 601(b)(2) that INTELSAT privatization is consistent with criteria in sections 621 and 622: Section 102; section 103(7); paragraphs (2) through (4) and (7) of section 201(a); paragraphs (2), (6), and (7) of section 201(c); section 301; section 302; section 401; section 402; section 403; and section 404.

**SEC. 646. [47 U.S.C. 765e] REPORTS TO CONGRESS.**

(a) **ANNUAL REPORTS.**—The President and the Commission shall report to the Committees on Commerce and International Relations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Foreign Relations of the Senate within 90 calendar days of the enactment of this title, and not less than annually thereafter, on the progress made to achieve the objectives and carry out the purposes and provisions of this title. Such reports shall be made available immediately to the public.

(b) CONTENTS OF REPORTS.—The reports submitted pursuant to subsection (a) shall include the following:

- (1) Progress with respect to each objective since the most recent preceding report.
- (2) Views of the Parties with respect to privatization.
- (3) Views of industry and consumers on privatization.
- (4) Impact privatization has had on United States industry, United States jobs, and United States industry's access to the global marketplace.

**SEC. 647. [47 U.S.C. 765f] SATELLITE AUCTIONS.**

Notwithstanding any other provision of law, the Commission shall not have the authority to assign by competitive bidding orbital locations or spectrum used for the provision of international or global satellite communications services. The President shall oppose in the International Telecommunication Union and in other bilateral and multilateral fora any assignment by competitive bidding of orbital locations or spectrum used for the provision of such services.

**SEC. 648. [47 U.S.C. 765g] EXCLUSIVITY ARRANGEMENTS.**

(a) IN GENERAL.—No satellite operator shall acquire or enjoy the exclusive right of handling telecommunications to or from the United States, its territories or possessions, and any other country or territory by reason of any concession, contract, understanding, or working arrangement to which the satellite operator or any persons or companies controlling or controlled by the operator are parties.

(b) EXCEPTION.—In enforcing the provisions of this section, the Commission—

- (1) shall not require the termination of existing satellite telecommunications services under contract with, or tariff commitment to, such satellite operator; but
- (2) may require the termination of new services only to the country that has provided the exclusive right to handle telecommunications, if the Commission determines the public interest, convenience, and necessity so requires.

## **Subtitle D—Negotiations To Pursue Privatization**

**SEC. 661. [47 U.S.C. 767] METHODS TO PURSUE PRIVATIZATION.**

The President shall secure the pro-competitive privatizations required by this title in a manner that meets the criteria in subtitle B.

## **Subtitle E—Definitions**

**SEC. 681. [47 U.S.C. 769] DEFINITIONS.**

(a) IN GENERAL.—As used in this title:

- (1) INTELSAT.—The term “INTELSAT” means the International Telecommunications Satellite Organization established pursuant to the Agreement Relating to the International Telecommunications Satellite Organization (INTELSAT).

(2) INMARSAT.—The term “Inmarsat” means the International Mobile Satellite Organization established pursuant to the Convention on the International Maritime Organization.

(3) SIGNATORIES.—The term “signatories”—

(A) in the case of INTELSAT, or INTELSAT successors or separated entities, means a Party, or the telecommunications entity designated by a Party, that has signed the Operating Agreement and for which such Agreement has entered into force; and

(B) in the case of Inmarsat, or Inmarsat successors or separated entities, means either a Party to, or an entity that has been designated by a Party to sign, the Operating Agreement.

(4) PARTY.—The term “Party”—

(A) in the case of INTELSAT, means a nation for which the INTELSAT agreement has entered into force; and

(B) in the case of Inmarsat, means a nation for which the Inmarsat convention has entered into force.

(5) COMMISSION.—The term “Commission” means the Federal Communications Commission.

(6) INTERNATIONAL TELECOMMUNICATION UNION.—The term “International Telecommunication Union” means the intergovernmental organization that is a specialized agency of the United Nations in which member countries cooperate for the development of telecommunications, including adoption of international regulations governing terrestrial and space uses of the frequency spectrum as well as use of the geostationary satellite orbit.

(7) SUCCESSOR ENTITY.—The term “successor entity”—

(A) means any privatized entity created from the privatization of INTELSAT or Inmarsat or from the assets of INTELSAT or Inmarsat; but

(B) does not include any entity that is a separated entity.

(8) SEPARATED ENTITY.—The term “separated entity” means a privatized entity to whom a portion of the assets owned by INTELSAT or Inmarsat are transferred prior to full privatization of INTELSAT or Inmarsat, including in particular the entity whose structure was under discussion by INTELSAT as of March 25, 1998, but excluding ICO.

(9) ORBITAL LOCATION.—The term “orbital location” means the location for placement of a satellite on the geostationary orbital arc as defined in the International Telecommunication Union Radio Regulations.

(10) SPACE SEGMENT.—The term “space segment” means the satellites, and the tracking, telemetry, command, control, monitoring and related facilities and equipment used to support the operation of satellites owned or leased by INTELSAT, Inmarsat, or a separated entity or successor entity.

(11) NON-CORE SERVICES.—The term “non-core services” means, with respect to INTELSAT provision, services other than public-switched network voice telephony and occasional-use television, and with respect to Inmarsat provision, services other than global maritime distress and safety services or

other existing maritime or aeronautical services for which there are not alternative providers.

(12) **ADDITIONAL SERVICES.**—The term “additional services” means—

(A) for Inmarsat, those non-maritime or non-aeronautical mobile services in the 1.5 and 1.6 Ghz band on planned satellites or the 2 Ghz band; and

(B) for INTELSAT, direct-to-home (DTH) or direct broadcast satellite (DBS) video services, or services in the Ka or V bands.

(13) **INTELSAT AGREEMENT.**—The term “INTELSAT Agreement” means the Agreement Relating to the International Telecommunications Satellite Organization (“INTELSAT”), including all its annexes (TIAS 7532, 23 UST 3813).

(14) **HEADQUARTERS AGREEMENT.**—The term “Headquarters Agreement” means the International Telecommunication Satellite Organization Headquarters Agreement (November 24, 1976) (TIAS 8542, 28 UST 2248).

(15) **OPERATING AGREEMENT.**—The term “Operating Agreement” means—

(A) in the case of INTELSAT, the agreement, including its annex but excluding all titles of articles, opened for signature at Washington on August 20, 1971, by Governments or telecommunications entities designated by Governments in accordance with the provisions of the Agreement; and

(B) in the case of Inmarsat, the Operating Agreement on the International Maritime Satellite Organization, including its annexes.

(16) **INMARSAT CONVENTION.**—The term “Inmarsat Convention” means the Convention on the International Maritime Satellite Organization (Inmarsat) (TIAS 9605, 31 UST 1).

(17) **NATIONAL CORPORATION.**—The term “national corporation” means a corporation the ownership of which is held through publicly traded securities, and that is incorporated under, and subject to, the laws of a national, state, or territorial government.

(18) **COMSAT.**—The term “COMSAT” means the corporation established pursuant to title III of the Communications Satellite Act of 1962 (47 U.S.C. 731 et seq.), or the successor in interest to such corporation.

(19) **ICO.**—The term “ICO” means the company known, as of the date of enactment of this title, as ICO Global Communications, Inc.

(20) **GLOBAL MARITIME DISTRESS AND SAFETY SERVICES OR GMDSS.**—The term “global maritime distress and safety services” or “G” means the automated ship-to-shore distress alerting system which uses satellite and advanced terrestrial systems for international distress communications and promoting maritime safety in general. The G permits the worldwide alerting of vessels, coordinated search and rescue operations, and dissemination of maritime safety information.

(21) **NATIONAL SECURITY AGENCY.**—The term “national security agency” means the National Security Agency, the Direc-

tor of Central Intelligence and the Central Intelligence Agency, the Department of Defense, and the Coast Guard.

(b) COMMON TERMINOLOGY.—Except as otherwise provided in subsection (a), terms used in this title that are defined in section 3 of the Communications Act of 1934 have the meanings provided in such section.

**SUBMARINE CABLE STATUTE**

---

---

## ACT OF MAY 27, 1921<sup>1</sup>

### (Submarine Cables)

AN ACT Relating to the landing and operation of submarine cables in the United States.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, [47 U.S.C. 34]* That no person shall land or operate in the United States any submarine cable directly or indirectly connecting the United States with any foreign country, or connecting one portion of the United States with any other portion thereof, unless a written license to land or operate such cable has been issued by the President of the United States: *Provided*, That any such cable now laid within the United States without a license granted by the President may continue to operate without such license for a period of ninety days from the date this Act takes effect: *And provided further*, That the conditions of this Act shall not apply to cables, all of which, including both terminals, lie wholly within the continental United States.

SEC. 2. [47 U.S.C. 35] That the President may withhold or revoke such license when he shall be satisfied after due notice and hearing that such action will assist in securing rights for the landing or operation of cables in foreign countries, or in maintaining the rights or interests of the United States or of its citizens in foreign countries, or will promote the security of the United States, or may grant such license upon such terms as shall be necessary to assure just and reasonable rates and service in the operation and use of cables so licensed: *Provided*, That the license shall not contain terms or conditions granting to the licensee exclusive rights of landing or of operation in the United States: *And provided further*, That nothing herein contained shall be construed to limit the power and jurisdiction heretofore granted the Interstate Commerce Commission with respect to the transmission of messages.

SEC. 3. [47 U.S.C. 36] That the President is empowered to prevent the landing of any cable about to be landed in violation of this Act. When any such cable is about to be or is landed or is being operated, without a license, any district court of the United States exercising jurisdiction in the district in which such cable is about to be or is landed, or any district court of the United States having jurisdiction of the parties, shall have jurisdiction, at the suit of the United States, to enjoin the landing or operation of such cable or to compel, by injunction, the removal thereof.

SEC. 4. [47 U.S.C. 37] That whoever knowingly commits, instigates, or assists in any act forbidden by section 1 of this Act shall be guilty of a misdemeanor and shall be fined not more than \$5,000, or imprisoned for not more than one year, or both.

<sup>1</sup>Public Law 8, 67th Congress, 42 Stat. 8, May 27, 1921.

SEC. 5. [47 U.S.C. 38] That the term "United States" as used in this Act includes the Canal Zone, the Philippine Islands, and all territory, continental or insular, subject to the jurisdiction of the United States of America.

SEC. 6. [47 U.S.C. 39] That no right shall accrue to any Government, person, or corporation under the terms of this Act that may not be rescinded, changed, modified, or amended by the Congress.

\* \* \* \* \*

SEC. 632. (a)(1) The Federal Communications Commission shall modify the rules authorizing the operation of low-power FM radio stations, as proposed in MM Docket No. 99–25, to—

(A) prescribe minimum distance separations for third-adjacent channels (as well as for co-channels and first- and second-adjacent channels); and

(B) prohibit any applicant from obtaining a low-power FM license if the applicant has engaged in any manner in the unlicensed operation of any station in violation of section 301 of the Communications Act of 1934 (47 U.S.C. 301).

(2) The Federal Communications Commission may not—

(A) eliminate or reduce the minimum distance separations for third-adjacent channels required by paragraph (1)(A); or

(B) extend the eligibility for application for low-power FM stations beyond the organizations and entities as proposed in MM Docket No. 99–25 (47 CFR 73.853),

except as expressly authorized by an Act of Congress enacted after the date of the enactment of this Act.

(3) Any license that was issued by the Commission to a low-power FM station prior to the date on which the Commission modifies its rules as required by paragraph (1) and that does not comply with such modifications shall be invalid.

(b)(1) The Federal Communications Commission shall conduct an experimental program to test whether low-power FM radio stations will result in harmful interference to existing FM radio stations if such stations are not subject to the minimum distance separations for third-adjacent channels required by subsection (a). The Commission shall conduct such test in no more than nine FM radio markets, including urban, suburban, and rural markets, by waiving the minimum distance separations for third-adjacent channels for the stations that are the subject of the experimental program. At least one of the stations shall be selected for the purpose of evaluating whether minimum distance separations for third-adjacent channels are needed for FM translator stations. The Commission may, consistent with the public interest, continue after the conclusion of the experimental program to waive the minimum distance separations for third-adjacent channels for the stations that are the subject of the experimental program.

(2) The Commission shall select an independent testing entity to conduct field tests in the markets of the stations in the experi-

<sup>1</sup>This Act is H.R. 5548 as introduced on October 25, 2000 and enacted into law by section 1(a)(2) of Public Law 106–553 (114 Stat. 2762, 2762A–111).

mental program under paragraph (1). Such field tests shall include—

(A) an opportunity for the public to comment on interference; and

(B) independent audience listening tests to determine what is objectionable and harmful interference to the average radio listener.

(3) The Commission shall publish the results of the experimental program and field tests and afford an opportunity for the public to comment on such results. The Federal Communications Commission shall submit a report on the experimental program and field tests to the Committee on Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate not later than February 1, 2001. Such report shall include—

(A) an analysis of the experimental program and field tests and of the public comment received by the Commission;

(B) an evaluation of the impact of the modification or elimination of minimum distance separations for third-adjacent channels on—

(i) listening audiences;

(ii) incumbent FM radio broadcasters in general, and on minority and small market broadcasters in particular, including an analysis of the economic impact on such broadcasters;

(iii) the transition to digital radio for terrestrial radio broadcasters;

(iv) stations that provide a reading service for the blind to the public; and

(v) FM radio translator stations;

(C) the Commission's recommendations to the Congress to reduce or eliminate the minimum distance separations for third-adjacent channels required by subsection (a); and

(D) such other information and recommendations as the Commission considers appropriate.

**SECTIONS 2, 4, AND 6 OF THE WIRELESS  
COMMUNICATIONS AND PUBLIC SAFETY ACT OF 1999**

---

---

**SECTIONS 2, 4, AND 6 OF THE WIRELESS  
COMMUNICATIONS AND PUBLIC SAFETY ACT OF 1999**

**SECTION 1. [47 U.S.C. 609 note] SHORT TITLE.**

This Act may be cited as the “Wireless Communications and Public Safety Act of 1999”.

**SEC. 2. [47 U.S.C. 615 note] FINDINGS AND PURPOSE.**

(a) **FINDINGS.**—The Congress finds that—

(1) the establishment and maintenance of an end-to-end communications infrastructure among members of the public, emergency safety, fire service and law enforcement officials, emergency dispatch providers, transportation officials, and hospital emergency and trauma care facilities will reduce response times for the delivery of emergency care, assist in delivering appropriate care, and thereby prevent fatalities, substantially reduce the severity and extent of injuries, reduce time lost from work, and save thousands of lives and billions of dollars in health care costs;

(2) the rapid, efficient deployment of emergency telecommunications service requires statewide coordination of the efforts of local public safety, fire service and law enforcement officials, emergency dispatch providers, and transportation officials; the establishment of sources of adequate funding for carrier and public safety, fire service and law enforcement agency technology development and deployment; the coordination and integration of emergency communications with traffic control and management systems and the designation of 9–1–1 as the number to call in emergencies throughout the Nation;

(3) emerging technologies can be a critical component of the end-to-end communications infrastructure connecting the public with emergency medical service providers and emergency dispatch providers, public safety, fire service and law enforcement officials, and hospital emergency and trauma care facilities, to reduce emergency response times and provide appropriate care;

(4) improved public safety remains an important public health objective of Federal, State, and local governments and substantially facilitates interstate and foreign commerce;

(5) emergency care systems, particularly in rural areas of the Nation, will improve with the enabling of prompt notification of emergency services when motor vehicle crashes occur; and

(6) the construction and operation of seamless, ubiquitous, and reliable wireless telecommunications systems promote public safety and provide immediate and critical communications links among members of the public; emergency medical service providers and emergency dispatch providers; public

safety, fire service and law enforcement officials; transportation officials, and hospital emergency and trauma care facilities.

(b) PURPOSE.—The purpose of this Act is to encourage and facilitate the prompt deployment throughout the United States of a seamless, ubiquitous, and reliable end-to-end infrastructure for communications, including wireless communications, to meet the Nation’s public safety and other communications needs.

\* \* \* \* \*

**SEC. 4. [47 U.S.C. 615a] PARITY OF PROTECTION FOR PROVISION OR USE OF WIRELESS SERVICE.**

(a) PROVIDER PARITY.—A wireless carrier, and its officers, directors, employees, vendors, and agents, shall have immunity or other protection from liability in a State of a scope and extent that is not less than the scope and extent of immunity or other protection from liability that any local exchange company, and its officers, directors, employees, vendors, or agents, have under Federal and State law (whether through statute, judicial decision, tariffs filed by such local exchange company, or otherwise) applicable in such State, including in connection with an act or omission involving the release to a PSAP, emergency medical service provider or emergency dispatch provider, public safety, fire service or law enforcement official, or hospital emergency or trauma care facility of subscriber information related to emergency calls or emergency services.

(b) USER PARITY.—A person using wireless 9–1–1 service shall have immunity or other protection from liability of a scope and extent that is not less than the scope and extent of immunity or other protection from liability under applicable law in similar circumstances of a person using 9–1–1 service that is not wireless.

(c) PSAP PARITY.—In matters related to wireless 9–1–1 communications, a PSAP, and its employees, vendors, agents, and authorizing government entity (if any) shall have immunity or other protection from liability of a scope and extent that is not less than the scope and extent of immunity or other protection from liability under applicable law accorded to such PSAP, employees, vendors, agents, and authorizing government entity, respectively, in matters related to 9–1–1 communications that are not wireless.

(d) BASIS FOR ENACTMENT.—This section is enacted as an exercise of the enforcement power of the Congress under section 5 of the Fourteenth Amendment to the Constitution and the power of the Congress to regulate commerce with foreign nations, among the several States, and with Indian tribes.

\* \* \* \* \*

**SEC. 6. [47 U.S.C. 615b] DEFINITIONS.**

As used in this Act:

(1) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

(2) STATE.—The term “State” means any of the several States, the District of Columbia, or any territory or possession of the United States.

(3) PUBLIC SAFETY ANSWERING POINT; PSAP.—The term “public safety answering point” or “PSAP” means a facility that

has been designated to receive 9-1-1 calls and route them to emergency service personnel.

(4) WIRELESS CARRIER.—The term “wireless carrier” means a provider of commercial mobile services or any other radio communications service that the Federal Communications Commission requires to provide wireless 9-1-1 service.

(5) ENHANCED WIRELESS 9-1-1 SERVICE.—The term “enhanced wireless 9-1-1 service” means any enhanced 9-1-1 service so designated by the Federal Communications Commission in the proceeding entitled “Revision of the Commission’s Rules to Ensure Compatibility with Enhanced 9-1-1 Emergency Calling Systems” (CC Docket No. 94-102; RM-8143), or any successor proceeding.

(6) WIRELESS 9-1-1 SERVICE.—The term “wireless 9-1-1 service” means any 9-1-1 service provided by a wireless carrier, including enhanced wireless 9-1-1 service.

(7) EMERGENCY DISPATCH PROVIDERS.—The term “emergency dispatch providers” shall include governmental and non-governmental providers of emergency dispatch services.

## INTERNATIONAL TELECOMMUNICATIONS POLICY

(Section 2218 of Division C of the Omnibus Consolidated and Emergency  
Supplemental Appropriations Act, 1999)

\* \* \* \* \*

### SEC. 2218. [22 U.S.C. 2669b] REAFFIRMING UNITED STATES INTERNATIONAL TELECOMMUNICATIONS POLICY.

(a) **PROCUREMENT POLICY.**—It is the policy of the United States to foster and support procurement of goods and services from private, commercial companies.

(b) **IMPLEMENTATION.**—In order to achieve the policy set forth in subsection (a), the Diplomatic Telecommunications Service Program Office (DTS-PO) shall—

(1) utilize full and open competition, to the maximum extent practicable, in the procurement of telecommunications services, including satellite space segment, for the Department of State and each other Federal entity represented at United States diplomatic missions and consular posts overseas;

(2) make every effort to ensure and promote the participation in the competition for such procurement of commercial private sector providers of satellite space segment who have no ownership or other connection with an intergovernmental satellite organization; and

(3) implement the competitive procedures required by paragraphs (1) and (2) at the prime contracting level and, to the maximum extent practicable, the subcontracting level.

**INTERNATIONAL ANTI-BRIBERY AND FAIR  
COMPETITION ACT**

---

---

## **INTERNATIONAL ANTI-BRIBERY AND FAIR COMPETITION ACT**

AN ACT To amend the Securities Exchange Act of 1934 and the Foreign Corrupt Practices Act of 1977 to improve the competitiveness of American business and promote foreign commerce, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the  
United States of America in Congress assembled,*

### **SECTION 1. [15 U.S.C. 78a note] SHORT TITLE.**

This Act may be cited as the “International Anti-Bribery and Fair Competition Act of 1998”.

\* \* \* \* \*

### **SEC. 5. [15 U.S.C. 78dd-1 note] TREATMENT OF INTERNATIONAL ORGANIZATIONS PROVIDING COMMERCIAL COMMUNICATIONS SERVICES.**

(a) DEFINITION.—For purposes of this section:

(1) INTERNATIONAL ORGANIZATION PROVIDING COMMERCIAL COMMUNICATIONS SERVICES.—The term “international organization providing commercial communications services” means—

(A) the International Telecommunications Satellite Organization established pursuant to the Agreement Relating to the International Telecommunications Satellite Organization; and

(B) the International Mobile Satellite Organization established pursuant to the Convention on the International Maritime Satellite Organization.

(2) PRO-COMPETITIVE PRIVATIZATION.—The term “pro-competitive privatization” means a privatization that the President determines to be consistent with the United States policy of obtaining full and open competition to such organizations (or their successors), and nondiscriminatory market access, in the provision of satellite services.

(b) TREATMENT AS PUBLIC INTERNATIONAL ORGANIZATIONS.—

(1) TREATMENT.—An international organization providing commercial communications services shall be treated as a public international organization for purposes of section 30A of the Securities Exchange Act of 1934 (15 U.S.C. 78dd-1) and sections 104 and 104A of the Foreign Corrupt Practices Act of 1977 (15 U.S.C. 78dd-2) until such time as the President certifies to the Committee on Commerce of the House of Representatives and the Committees on Banking, Housing and Urban Affairs and Commerce, Science, and Transportation that such international organization providing commercial communications services has achieved a pro-competitive privatization.

(2) LIMITATION ON EFFECT OF TREATMENT.—The requirement for a certification under paragraph (1), and any certification made under such paragraph, shall not be construed to affect the administration by the Federal Communications Commission of the Communications Act of 1934 in authorizing the provision of services to, from, or within the United States over space segment of the international satellite organizations, or the privatized affiliates or successors thereof.

(c) EXTENSION OF LEGAL PROCESS.—

(1) IN GENERAL.—Except as required by international agreements to which the United States is a party, an international organization providing commercial communications services, its officials and employees, and its records shall not be accorded immunity from suit or legal process for any act or omission taken in connection with such organization's capacity as a provider, directly or indirectly, of commercial telecommunications services to, from, or within the United States.

(2) NO EFFECT ON PERSONAL LIABILITY.—Paragraph (1) shall not affect any immunity from personal liability of any individual who is an official or employee of an international organization providing commercial communications services.

(3) EFFECTIVE DATE.—This subsection shall take effect on May 1, 1999.

(d) ELIMINATION OR LIMITATION OF EXCEPTIONS.—

(1) ACTION REQUIRED.—The President shall, in a manner that is consistent with requirements in international agreements to which the United States is a party, expeditiously take all appropriate actions necessary to eliminate or to reduce substantially all privileges and immunities that are accorded to an international organization described in subparagraph (A) or (B) of subsection (a)(1), its officials, its employees, or its records, and that are not eliminated pursuant to subsection (c).

(2) DESIGNATION OF AGREEMENTS.—The President shall designate which agreements constitute international agreements to which the United States is a party for purposes of this section.

(e) PRESERVATION OF LAW ENFORCEMENT AND INTELLIGENCE FUNCTIONS.—Nothing in subsection (c) or (d) of this section shall affect any immunity from suit or legal process of an international organization providing commercial communications services, or the privatized affiliates or successors thereof, for acts or omissions—

(1) under chapter 119, 121, 206, or 601 of title 18, United States Code, the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.), section 514 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 884), or Rule 104, 501, or 608 of the Federal Rules of Evidence;

(2) under similar State laws providing protection to service providers cooperating with law enforcement agencies pursuant to State electronic surveillance or evidence laws, rules, regulations, or procedures; or

(3) pursuant to a court order.

(f) RULES OF CONSTRUCTION.—

(1) NEGOTIATIONS.—Nothing in this section shall affect the President's existing constitutional authority regarding the time, scope, and objectives of international negotiations.

(2) PRIVATIZATION.—Nothing in this section shall be construed as legislative authorization for the privatization of INTELSAT or Inmarsat, nor to increase the President's authority with respect to negotiations concerning such privatization.

**SEC. 6. [15 U.S.C. 78dd-1 note] ENFORCEMENT AND MONITORING.**

(a) REPORTS REQUIRED.—Not later than July 1 of 1999 and each of the 5 succeeding years, the Secretary of Commerce shall submit to the House of Representatives and the Senate a report that contains the following information with respect to implementation of the Convention:

(1) RATIFICATION.—A list of the countries that have ratified the Convention, the dates of ratification by such countries, and the entry into force for each such country.

(2) DOMESTIC LEGISLATION.—A description of domestic laws enacted by each party to the Convention that implement commitments under the Convention, and assessment of the compatibility of such laws with the Convention.

(3) ENFORCEMENT.—As assessment of the measures taken by each party to the Convention during the previous year to fulfill its obligations under the Convention and achieve its object and purpose including—

(A) an assessment of the enforcement of the domestic laws described in paragraph (2);

(B) an assessment of the efforts by each such party to promote public awareness of such domestic laws and the achievement of such object and purpose; and

(C) an assessment of the effectiveness, transparency, and viability of the monitoring process for the Convention, including its inclusion of input from the private sector and nongovernmental organizations.

(4) LAWS PROHIBITING TAX DEDUCTION OF BRIBES.—An explanation of the domestic laws enacted by each party to the Convention that would prohibit the deduction of bribes in the computation of domestic taxes.

(5) NEW SIGNATORIES.—A description of efforts to expand international participation in the Convention by adding new signatories to the Convention and by assuring that all countries which are or become members of the Organization for Economic Cooperation and Development are also parties to the Convention.

(6) SUBSEQUENT EFFORTS.—An assessment of the status of efforts to strengthen the Convention by extending the prohibitions contained in the Convention to cover bribes to political parties, party officials, and candidates for political office.

(7) ADVANTAGES.—Advantages, in terms of immunities, market access, or otherwise, in the countries or regions served by the organizations described in section 5(a), the reason for such advantages, and an assessment of progress toward fulfilling the policy described in that section.

(8) BRIBERY AND TRANSPARENCY.—An assessment of anti-bribery programs and transparency with respect to each of the international organizations covered by this Act.

(9) PRIVATE SECTOR REVIEW.—A description of the steps taken to ensure full involvement of United States private sector participants and representatives of nongovernmental organizations in the monitoring and implementation of the Convention.

(10) ADDITIONAL INFORMATION.—In consultation with the private sector participants and representatives of nongovernmental organizations described in paragraph (9), a list of additional means for enlarging the scope of the Convention and otherwise increasing its effectiveness. Such additional means shall include, but not be limited to, improved recordkeeping provisions and the desirability of expanding the applicability of the Convention to additional individuals and organizations and the impact on United States business of section 30A of the Securities Exchange Act of 1934 and sections 104 and 104A of the Foreign Corrupt Practices Act of 1977.

(b) DEFINITION.—For purposes of this section, the term “Convention” means the Convention on Combating Bribery of Foreign Public Officials in International Business Transactions adopted on November 21, 1997, and signed on December 17, 1997, by the United States and 32 other nations.

---

**SECTION 3001 OF THE OMNIBUS CONSOLIDATED  
APPROPRIATIONS FOR FISCAL YEAR 1997**

---

---

**OMNIBUS CONSOLIDATED APPROPRIATIONS FOR  
FISCAL YEAR 1997<sup>1</sup>**

\* \* \* \* \*

**TITLE III—SPECTRUM ALLOCATION  
PROVISIONS**

**SEC. 3001. COMPETITIVE BIDDING FOR SPECTRUM.**

(a) **COMMISSION OBLIGATION TO MAKE ADDITIONAL SPECTRUM AVAILABLE.**—The Federal Communications Commission shall—

(1) reallocate the use of frequencies at 2305–2320 megahertz and 2345–2360 megahertz to wireless services that are consistent with international agreements concerning spectrum allocations; and

(2) assign the use of such frequencies by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)).

(b) **ADDITIONAL REQUIREMENTS.**—In making the bands of frequencies described in subsection (a) available for competitive bidding, the Commission shall—

(1) seek to promote the most efficient use of the spectrum; and

(2) take into account the needs of public safety radio services.

(c) **EXPEDITED PROCEDURES.**—The Commission shall commence the competitive bidding for the assignment of the frequencies described in subsection (a)(1) no later than April 15, 1997. The rules governing such frequencies shall be effective immediately upon publication in the Federal Register notwithstanding section 553(d), 801(a)(3), and 806(a) of title 5, United States Code. Chapter 6 of such title, and sections 3507 and 3512 of title 44, United States Code, shall not apply to the rules and competitive bidding procedures governing such frequencies. Notwithstanding section 309(b) of the Communications Act of 1934 (47 U.S.C. 309(b)), no application for an instrument of authorization for such frequencies shall be granted by the Commission earlier than 7 days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereto. Notwithstanding section 309(d)(1) of such Act (47 U.S.C. 309(d)(1)), the Commission may specify a period (no less than 5 days following issuance of such public notice) for the filing of petitions to deny any application for an instrument of authorization for such frequencies.

<sup>1</sup>This Act is Public Law 104–208, enacted Sept. 30, 1996 (110 Stat. 3009–499).

(d) DEADLINE FOR COLLECTION.—The Commission shall conduct the competitive bidding under subsection (a)(2) in a manner that ensures that all proceeds of the bidding are deposited in accordance with section 309(j)(8) of the Communications Act of 1934 not later September 30, 1997.

---

---

**PUBLIC TELECOMMUNICATIONS ACT OF 1992**

---

---

**PUBLIC TELECOMMUNICATIONS ACT OF 1992**

AN ACT To authorize appropriations for public broadcasting, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SHORT TITLE

SECTION 1. [47 U.S.C. 609 nt] This Act may be cited as the "Public Telecommunications Act of 1992".<sup>1</sup>

\* \* \* \* \*

[Sections 2 through 4 contained amendments to sections 391, 393, and 396 of the Communications Act of 1934.]

BOARD OF DIRECTORS

SEC. 5. \* \* \*

\* \* \* \* \*

[Section 5(a) and (b) contained amendments to section 396(c) of the Communications Act of 1934 relating to number of members and terms of office of the board of directors of the Corporation for Public Broadcasting.]

(c) [47 U.S.C. 396 nt] TRANSITION RULES.—(1) With respect to the three offices whose terms are prescribed by law to expire on March 26, 1992, the term for each such office immediately after that date shall expire on January 31, 1998.

(2) With respect to the two offices whose terms are prescribed by law to expire on March 1, 1994, the term for each of such offices immediately after that date shall expire on January 31, 2000.

(3) With respect to the five offices whose terms are prescribed by law to expire on March 26, 1996—

(A) one such office, as selected by the President, shall be abolished on January 31, 1996;

(B) the term immediately after March 26, 1996, for another such office, as designated by the President, shall expire on January 31, 2000; and

(C) the term for each of the remaining three such offices immediately after March 26, 1996, shall expire on January 31, 2002.

(4) As used in this subsection, the term "office" means an office as a member of the Board of Directors of the Corporation for Public Broadcasting.

\* \* \* \* \*

<sup>1</sup>Public Law 102-356, 106 Stat. 949, approved Aug. 26, 1992.

[Sections 6 through 14 contained amendments to section 396 of the Communications Act of 1934.]

CLARIFICATION OF CONGRESSIONAL INTENT

\* \* \* \* \*

[Section 15 contained an amendment to section 103(a) of the Children's Television Act of 1990, which is printed elsewhere in this compilation.]

BROADCASTING OF INDECENT PROGRAMMING

SEC. 16. [47 U.S.C. 303 nt] (a) FCC REGULATIONS.—The Federal Communications Commission shall promulgate regulations to prohibit the broadcasting of indecent programming—

(1) between 6 a.m. and 10 p.m. on any day by any public radio station or public television station that goes off the air at or before 12 midnight; and

(2) between 6 a.m. and 12 midnight on any day for any radio or television broadcasting station not described in paragraph (1).

The regulations required under this subsection shall be promulgated in accordance with section 553 of title 5, United States Code, and shall become final not later than 180 days after the date of enactment of this Act.

(b) REPEAL.—Section 608 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1989 (Public Law 100-459; 102 Stat. 2228), is repealed.

READY-TO-LEARN TELEVISION CHANNEL

SEC. 17. (a) The Congress finds that—

(1) many of the Nation's children are not entering school "ready to learn";

(2) next to parents and early childhood teachers, television is probably the young child's most influential teacher;

(3) a vital component in meeting the Nation's first education goal is the development of interactive programming aimed exclusively at the developmental and educational needs and interests of preschool children;

(4) television can assist parents and preschool and child care teachers in gaining information on how young children grow and learn; and

(5) there is a need for quality interactive instructional programming based on worthwhile information on child development designed for children, parents, and preschool and child care providers and teachers.

(b) Within 90 days following the date of the enactment of this Act, the Corporation for Public Broadcasting shall report to the Congress as to the most effective way to establish and implement a ready-to-learn public television channel. Such report shall include, among other things—

(1) the costs of establishing and implementing a ready-to-learn channel;

(2) the special considerations of using television as a learning tool for very young children;

- (3) the technology, and availability thereof, needed to establish and implement such a channel; and
- (4) the best means of providing financing for the establishment and implementation of a ready-to-learn channel.

CORPORATION FOR PUBLIC BROADCASTING REPORT ON DISTANCE  
LEARNING

SEC. 18. (a) The Congress finds that—

- (1) distance learning would provide schools in rural areas with advanced or specialized instruction not readily available;
- (2) utilization of distance learning can end some school closings or consolidations;
- (3) distance learning will play a vital role in accomplishing the goals of “America 2000” as established by the President;
- (4) the Corporation for Public Broadcasting should promote distance learning projects where it is cost effective; and
- (5) the Corporation for Public Broadcasting can promote distance learning by helping reduce the costs associated with telecommunications services.

(b) Within 180 days following the date of the enactment of this Act, the Corporation for Public Broadcasting, in consultation with other education program providers and users, shall report to the Congress as to the most effective use of their existing telecommunications facilities to establish and implement distance learning projects in rural areas. Such report should include, among other things, the costs and benefits of establishing national demonstration sites to study new distance learning tools and to evaluate the most effective use of current distance learning applications; any incentives necessary to provide access to Corporation for Public Broadcasting facilities for distance learning applications.

OBJECTIVITY AND BALANCE POLICY, PROCEDURES, AND REPORT

SEC. 19. [47 U.S.C. 396 nt] Pursuant to the existing responsibility of the Corporation for Public Broadcasting under section 396(g)(1)(A) of the Communications Act of 1934 (47 U.S.C. 396(g)(1)(A)) to facilitate the full development of public telecommunications in which programs of high quality, diversity, creativity, excellence, and innovation, which are obtained from diverse sources, will be made available to public telecommunications entities, with strict adherence to objectivity and balance in all programs or series of programs of a controversial nature, the Board of Directors of the Corporation shall—

- (1) review the Corporation’s existing efforts to meet its responsibility under section 396(g)(1)(A);
- (2) after soliciting the views of the public, establish a comprehensive policy and set of procedures to—
  - (A) provide reasonable opportunity for members of the public to present comments to the Board regarding the quality, diversity, creativity, excellence, innovation, objectivity, and balance of public broadcasting services, including all public broadcasting programming of a controversial nature, as well as any needs not met by those services;
  - (B) review, on a regular basis, national public broadcasting programming for quality, diversity, creativity, ex-

cellence, innovation, objectivity, and balance, as well as for any needs not met by such programming;

(C) on the basis of information received through such comment and review, take such steps in awarding programming grants pursuant to clauses (ii)(II), (iii)(II), and (iii)(III) of section 396(k)(3)(A) of the Communications Act of 1934 (47 U.S.C. 396(k)(3)(A)) that it finds necessary to meet the Corporation's responsibility under section 396(g)(1)(A), including facilitating objectivity and balance in programming of a controversial nature; and

(D) disseminate among public broadcasting entities information about its efforts to address concerns about objectivity and balance relating to programming of a controversial nature so that such entities can utilize the Corporation's experience in addressing such concerns within their own operations; and

(3) starting in 1993, by January 31 of each year, prepare and submit to the President for transmittal to the Congress a report summarizing its efforts pursuant to paragraphs (1) and (2).

#### CONSUMER INFORMATION

SEC. 20. [47 U.S.C. 396 nt] Prior to the expiration of the 90-day period following the date of the enactment of this Act, the Corporation for Public Broadcasting, in consultation with representatives of public broadcasting entities, shall develop guidelines to assure that program credits for public television programs that receive production funding directly from the Corporation for Public Broadcasting adequately disclose that all or a portion of the cost of producing such program was paid for by funding from the Corporation for Public Broadcasting, and that indicates in some manner that the Corporation for Public Broadcasting is partially funded from Federal tax revenues.

#### INDEPENDENT PRODUCTION SERVICE FUNDING

SEC. 21. [47 U.S.C. 396 nt] In making available funding pursuant to authorizations under this Act, any independent production service established under section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)) shall, to the maximum extent practicable and consistent with the provisions of the Communications Act of 1934, provide such funding to eligible recipients and projects representing the widest possible geographic distribution, with the objective of providing funding to eligible recipients and projects in each State from which qualified proposals are received over the course of such authorizations.

#### EFFECTIVE DATE

SEC. 22. [47 U.S.C. 396 nt] Section 5(a) shall take effect on January 31, 1996. All other provisions of this Act are effective on its date of enactment.

**CABLE TELEVISION CONSUMER PROTECTION AND  
COMPETITION ACT OF 1992**

---

---

## **CABLE TELEVISION CONSUMER PROTECTION AND COMPETITION ACT OF 1992**

To amend the Communications Act of 1934 to provide increased consumer protection and to promote increased competition in the cable television and related markets, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the  
United States of America in Congress assembled,*

### **SECTION 1. [47 U.S.C. 609 nt] SHORT TITLE.**

This Act may be cited as the “Cable Television Consumer Protection and Competition Act of 1992”.<sup>1</sup>

### **SEC. 2. [47 U.S.C. 521 nt] FINDINGS; POLICY; DEFINITIONS.**

(a) FINDINGS.—The Congress finds and declares the following:

(1) Pursuant to the Cable Communications Policy Act of 1984, rates for cable television services have been deregulated in approximately 97 percent of all franchises since December 29, 1986. Since rate deregulation, monthly rates for the lowest priced basic cable service have increased by 40 percent or more for 28 percent of cable television subscribers. Although the average number of basic channels has increased from about 24 to 30, average monthly rates have increased by 29 percent during the same period. The average monthly cable rate has increased almost 3 times as much as the Consumer Price Index since rate deregulation.

(2) For a variety of reasons, including local franchising requirements and the extraordinary expense of constructing more than one cable television system to serve a particular geographic area, most cable television subscribers have no opportunity to select between competing cable systems. Without the presence of another multichannel video programming distributor, a cable system faces no local competition. The result is undue market power for the cable operator as compared to that of consumers and video programmers.

(3) There has been a substantial increase in the penetration of cable television systems over the past decade. Nearly 56,000,000 households, over 60 percent of the households with televisions, subscribe to cable television, and this percentage is almost certain to increase. As a result of this growth, the cable television industry has become a dominant nationwide video medium.

(4) The cable industry has become highly concentrated. The potential effects of such concentration are barriers to entry for new programmers and a reduction in the number of media voices available to consumers.

---

<sup>1</sup>Public Law 102–385, 106 Stat. 1460, approved Oct. 5, 1992.

(5) The cable industry has become vertically integrated; cable operators and cable programmers often have common ownership. As a result, cable operators have the incentive and ability to favor their affiliated programmers. This could make it more difficult for noncable-affiliated programmers to secure carriage on cable systems. Vertically integrated program suppliers also have the incentive and ability to favor their affiliated cable operators over nonaffiliated cable operators and programming distributors using other technologies.

(6) There is a substantial governmental and First Amendment interest in promoting a diversity of views provided through multiple technology media.

(7) There is a substantial governmental and First Amendment interest in ensuring that cable subscribers have access to local noncommercial educational stations which Congress has authorized, as expressed in section 396(a)(5) of the Communications Act of 1934. The distribution of unique noncommercial, educational programming services advances that interest.

(8) The Federal Government has a substantial interest in making all nonduplicative local public television services available on cable systems because—

(A) public television provides educational and informational programming to the Nation's citizens, thereby advancing the Government's compelling interest in educating its citizens;

(B) public television is a local community institution, supported through local tax dollars and voluntary citizen contributions in excess of \$10,800,000,000 since 1972, that provides public service programming that is responsive to the needs and interests of the local community;

(C) the Federal Government, in recognition of public television's integral role in serving the educational and informational needs of local communities, has invested more than \$3,000,000,000 in public broadcasting since 1969; and

(D) absent carriage requirements there is a substantial likelihood that citizens, who have supported local public television services, will be deprived of those services.

(9) The Federal Government has a substantial interest in having cable systems carry the signals of local commercial television stations because the carriage of such signals is necessary to serve the goals contained in section 307(b) of the Communications Act of 1934 of providing a fair, efficient, and equitable distribution of broadcast services.

(10) A primary objective and benefit of our Nation's system of regulation of television broadcasting is the local origination of programming. There is a substantial governmental interest in ensuring its continuation.

(11) Broadcast television stations continue to be an important source of local news and public affairs programming and other local broadcast services critical to an informed electorate.

(12) Broadcast television programming is supported by revenues generated from advertising broadcast over stations. Such programming is otherwise free to those who own television sets and do not require cable transmission to receive broadcast signals. There is a substantial governmental interest in pro-

moting the continued availability of such free television programming, especially for viewers who are unable to afford other means of receiving programming.

(13) As a result of the growth of cable television, there has been a marked shift in market share from broadcast television to cable television services.

(14) Cable television systems and broadcast television stations increasingly compete for television advertising revenues. As the proportion of households subscribing to cable television increases, proportionately more advertising revenues will be reallocated from broadcast to cable television systems.

(15) A cable television system which carries the signal of a local television broadcaster is assisting the broadcaster to increase its viewership, and thereby attract additional advertising revenues that otherwise might be earned by the cable system operator. As a result, there is an economic incentive for cable systems to terminate the retransmission of the broadcast signal, refuse to carry new signals, or reposition a broadcast signal to a disadvantageous channel position. There is a substantial likelihood that absent the reimposition of such a requirement, additional local broadcast signals will be deleted, repositioned, or not carried.

(16) As a result of the economic incentive that cable systems have to delete, reposition, or not carry local broadcast signals, coupled with the absence of a requirement that such systems carry local broadcast signals, the economic viability of free local broadcast television and its ability to originate quality local programming will be seriously jeopardized.

(17) Consumers who subscribe to cable television often do so to obtain local broadcast signals which they otherwise would not be able to receive, or to obtain improved signals. Most subscribers to cable television systems do not or cannot maintain antennas to receive broadcast television services, do not have input selector switches to convert from a cable to antenna reception system, or cannot otherwise receive broadcast television services. The regulatory system created by the Cable Communications Policy Act of 1984 was premised upon the continued existence of mandatory carriage obligations for cable systems, ensuring that local stations would be protected from anticompetitive conduct by cable systems.

(18) Cable television systems often are the single most efficient distribution system for television programming. A Government mandate for a substantial societal investment in alternative distribution systems for cable subscribers, such as the "A/B" input selector antenna system, is not an enduring or feasible method of distribution and is not in the public interest.

(19) At the same time, broadcast programming that is carried remains the most popular programming on cable systems, and a substantial portion of the benefits for which consumers pay cable systems is derived from carriage of the signals of network affiliates, independent television stations, and public television stations. Also cable programming placed on channels adjacent to popular off-the-air signals obtains a larger audience than on other channel positions. Cable systems, therefore, obtain great benefits from local broadcast signals which, until

now, they have been able to obtain without the consent of the broadcaster or any copyright liability. This has resulted in an effective subsidy of the development of cable systems by local broadcasters. While at one time, when cable systems did not attempt to compete with local broadcasters for programming, audience, and advertising, this subsidy may have been appropriate, it is so no longer and results in a competitive imbalance between the 2 industries.

(20) The Cable Communications Policy Act of 1984, in its amendments to the Communications Act of 1934, limited the regulatory authority of franchising authorities over cable operators. Franchising authorities are finding it difficult under the current regulatory scheme to deny renewals to cable systems that are not adequately serving cable subscribers.

(21) Cable systems should be encouraged to carry low-power television stations licensed to the communities served by those systems where the low-power station creates and broadcasts, as a substantial part of its programming day, local programming.

(b) STATEMENT OF POLICY.—It is the policy of the Congress in this Act to—

(1) promote the availability to the public of a diversity of views and information through cable television and other video distribution media;

(2) rely on the marketplace, to the maximum extent feasible, to achieve that availability;

(3) ensure that cable operators continue to expand, where economically justified, their capacity and the programs offered over their cable systems;

(4) where cable television systems are not subject to effective competition, ensure that consumer interests are protected in receipt of cable service; and

(5) ensure that cable television operators do not have undue market power vis-a-vis video programmers and consumers.

\* \* \* \* \*

[Sections 2(c) and 3 through 25 contained amendments to the Communications Act of 1934]

\* \* \* \* \*

**SEC. 10. CHILDREN'S PROTECTION FROM INDECENT PROGRAMMING ON LEASED ACCESS CHANNELS.**

(a) \* \* \*

\* \* \* \* \*

(c) [47 U.S.C. 531 nt] PROHIBITS SYSTEM USE.—Within 180 days following the date of the enactment of this Act, the Federal Communications Commission shall promulgate such regulations as may be necessary to enable a cable operator of a cable system to prohibit the use, on such system, of any channel capacity of any public, educational, or governmental access facility for any programming which contains obscene material, sexually explicit conduct, or material soliciting or promoting unlawful conduct.

\* \* \* \* \*

**SEC. 26. [47 U.S.C. 521 nt] SPORTS PROGRAMMING MIGRATION STUDY AND REPORT.**

(a) **STUDY REQUIRED.**—The Federal Communications Commission shall conduct an ongoing study on the carriage of local, regional, and national sports programming by broadcast stations, cable programming networks, and pay-per-view services. The study shall investigate and analyze, on a sport-by-sport basis, trends in the migration of such programming from carriage by broadcast stations to carriage over cable programming networks and pay-per-view systems, including the economic causes and the economic and social consequences of such trends.

(b) **REPORT ON STUDY.**—The Federal Communications Commission shall, on or before July 1, 1993, and July 1, 1994, submit an interim and a final report, respectively, on the results of the study required by subsection (a) to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate. Such reports shall include a statement of the results, on a sport-by-sport basis, of the analysis of the trends required by subsection (a) and such legislative or regulatory recommendations as the Commission considers appropriate.

(c) **ANALYSIS OF PRECLUSIVE CONTRACTS REQUIRED.**—

(1) **ANALYSIS REQUIRED.**—In conducting the study required by subsection (a), the Commission shall analyze the extent to which preclusive contracts between college athletic conferences and video programming vendors have artificially and unfairly restricted the supply of the sporting events of local colleges for broadcast on local television stations. In conducting such analysis, the Commission shall consult with the Attorney General to determine whether and to what extent such preclusive contracts are prohibited by existing statutes. The reports required by subsection (b) shall include separate statements of the results of the analysis required by this subsection, together with such recommendations for legislation as the Commission considers necessary and appropriate.

(2) **DEFINITION.**—For purposes of the subsection, the term “preclusive contract” includes any contract that prohibits—

(A) the live broadcast by a local television station of a sporting event of a local college team that is not carried, on a live basis, by any cable system within the local community served by such local television station; or

(B) the delayed broadcast by a local television station of a sporting event of a local college team that is not carried, on a live or delayed basis, by any cable system within the local community served by such local television station.

**SEC. 27. [47 U.S.C. 521 nt] APPLICABILITY OF ANTITRUST LAWS.**

Nothing in this Act or the amendments made by this Act shall be construed to alter or restrict in any manner the applicability of any Federal or State antitrust law.

**SEC. 28. [47 U.S.C. 325 nt] EFFECTIVE DATE.**

Except where otherwise expressly provided, the provisions of this Act and the amendments made thereby shall take effect 60 days after the date of enactment of this Act.

**TELECOMMUNICATIONS AUTHORIZATION ACT OF 1992**

---

---

## TELECOMMUNICATIONS AUTHORIZATION ACT OF 1992

AN ACT To authorize appropriations for the National Telecommunications and Information Administration, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE.

This Act may be cited as the “Telecommunications Authorization Act of 1992”.<sup>1</sup>

\* \* \* \* \*

## TITLE II—FEDERAL COMMUNICATIONS COMMISSION

\* \* \* \* \*

[Sections 201 to 209 contained amendments to the Communications Act of 1934.]

### SEC. 211. REVIEW OF LICENSE TRANSFER.

(a) REQUIREMENT FOR HEARING.—The Federal Communications Commission shall not approve any assignment or transfer of control of a license held by any corporation identified in subsection (b) without first holding a full hearing on the record, with notice and opportunity for comment.

(b) APPLICABILITY.—Subsection (a) applies to any corporation holding a television broadcast license, the transfer of which was approved by the Federal Communications Commission on November 14, 1985, and which is a corporation owned or controlled directly or indirectly by a corporation organized pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

(c) REPORT TO CONGRESS.—The Federal Communications Commission shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate concerning the proposed transfer 30 days prior to authorizing any such transfer. The report required by this subsection shall include a review of the consistency of such transfer with the Commission’s minority ownership policies.

(d) WAIVER.—The requirements of subsections (a) and (c) shall not apply in any case in which the Native Regional corporation identified in subsection (b) requests in writing that this section be waived by the Federal Communications Commission.

\* \* \* \* \*

<sup>1</sup>Public Law 102–538, 106 Stat. 3533, approved Oct. 27, 1992.

[Section 212 contained amendments to section 6 of the Federal Communications Commission Authorization Act of 1988 which is printed elsewhere in this compilation.]

**SEC. 213. [47 U.S.C. 201 note] TELEPHONE RATES FOR MEMBERS OF ARMED FORCES DEPLOYED ABROAD.**

(a) **IN GENERAL.**—The Federal Communications Commission shall make efforts to reduce telephone rates for Armed Forces personnel in the following countries: Germany, Japan, Korea, Saudi Arabia, Great Britain, Italy, Philippines, Panama, Spain, Turkey, Iceland, the Netherlands, Greece, Cuba, Belgium, Portugal, Bermuda, Diego Garcia, Egypt, and Honduras.

(b) **FACTORS TO CONSIDER.**—In making the efforts described in subsection (a), the Federal Communications Commission, in coordination with the Department of Defense, Department of State, and the National Telecommunications and Information Administration shall consider the cost to military personnel and their families of placing telephone calls by—

(1) evaluating and analyzing the costs to Armed Forces personnel of such telephone calls to and from American military bases abroad;

(2) evaluate methods of reducing the rates imposed on such calls;

(3) determine the extent to which it is feasible for the Federal Communications Commission to encourage the carriers to adopt flexible billing procedures and policies for members of the Armed Forces and their families for telephone calls to and from the countries listed in subsection (a); and

(4) advise executive branch agencies of methods for the United States to persuade foreign governments to reduce the surcharges that are often placed on such telephone calls.

**SEC. 214. [47 U.S.C. 303 note] AM RADIO IMPROVEMENT STANDARD.**

The Federal Communications Commission shall—

(1) within 60 days after the date of enactment of this Act, initiate a rulemaking to adopt a single AM radio stereophonic transmitting equipment standard that specifies the composition of the transmitted stereophonic signal; and

(2) within one year after such date of enactment, adopt such standard.

---

**NATIONAL TELECOMMUNICATIONS AND INFORMATION  
ADMINISTRATION AUTHORIZATION, FISCAL YEARS  
1990 AND 1991**

---

---

**NATIONAL TELECOMMUNICATIONS AND INFORMATION  
ADMINISTRATION AUTHORIZATION, FISCAL YEARS  
1990 AND 1991<sup>1</sup>**

AN ACT To authorize appropriations for activities of the National Telecommunications and Information Administration for Fiscal Years 1990 and 1991

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That there is authorized to be appropriated for activities of the National Telecommunications and Information Administration \$14,554,000 for fiscal year 1990 and \$18,000,000 for fiscal year 1991, together with such sums as may be necessary for increases resulting from adjustments in salary, pay, retirement, other employee benefits required by law, and other nondiscretionary costs, for fiscal year 1991.

SEC. 2. (a) The Congress finds that—

(1) the Pacific Ocean region is of strategic and economic importance to the United States;

(2) other nations, especially Japan, are seeking to increase their influence in this region;

(3) because the Pacific Basin communities are geographically isolated and because many are relatively poor, they are in great need of quality, low-cost communications services to maintain contact among themselves and with other countries;

(4) from 1971 until 1985, such communications needs were satisfied by the Pan-Pacific Educational and Cultural Experiments by Satellite Program (hereinafter referred to as the "PEACESAT Program") operating over the ATS-1 satellite of the National Aeronautics and Space Administration;

(5) the ATS-1 satellite ran out of station-keeping fuel in 1985 and has provided only intermittent service since then;

(6) the Act entitled "An Act to provide authorization of appropriations for activities of the National Telecommunications and Information Administration", approved November 3, 1988 (Public Law 100-584; 102 Stat. 2970), authorized \$3,400,000 in funding during fiscal years 1988 and 1989 for re-establishing the communications network of the PEACESAT Program;

(7) Congress appropriated \$1,700,000 for fiscal year 1988 and \$200,000 for fiscal year 1989 for the purposes of re-establishing the communications network of the PEACESAT Program;

(8) in fiscal years 1988 and 1989, significant progress was made to ensure resumption of this vital communications service by repairing earth terminals in the Pacific communities, by identifying the short-term and long-term needs of the residents of these communities, and by acquiring the use of the GOES-3 satellite owned by the National Oceanic and Atmospheric Ad-

<sup>1</sup>This Act is Public Law 101-555, Nov. 15, 1990 (104 Stat. 2758).

ministration, which is expected to provide service from 1990 to 1994;

(9) because these activities exhausted the funds previously appropriated for the PEACESAT program, Congress authorized to be appropriated \$1,000,000 for fiscal year 1990 and such sums as necessary for fiscal year 1991 for use by the Secretary of Commerce in the negotiation for and acquisition of satellite capacity and equipment under subsection (c)(1) of this section and the management and operation of satellite communications services under subsection (c)(2) of this section;

(10) while no funds were appropriated for fiscal year 1990 because of the availability of carry-over funds, Congress appropriated \$1,000,000 for fiscal year 1991 for the ongoing maintenance and operation of the GOES-3 satellite, for the administration of the PEACESAT program, for the acquisition and installation of earth stations and the training of engineers to operate the Earth stations, and for the study of a long-term solution to the satellite needs of the PEACESAT program;

(11) with these funds, the PEACESAT program has been reestablished, over 20 new Earth terminals have been installed (some at the expense of the individual user groups), and the use of the PEACESAT network is expanding;

(12) while the PEACESAT program has now been reestablished, additional funding continues to be necessary for the ongoing administrative and operational expenses of the PEACESAT program and especially for the acquisition of satellite capacity after 1994;

(13) the importance of the PEACESAT program to the educational and cultural communications in the Pacific Ocean region makes it imperative that the Secretary of Commerce and the PEACESAT users explore every available option for long-term satellite capacity, including the possibility of using foreign-owned satellites or engaging in joint ventures with foreign entities to satisfy these long-term needs for transmission capacity; and

(14) whether or not a domestic or foreign-owned satellite is used for transmission, it is essential to the achievement of United States policy goals that the headquarters, management, and operation of the PEACESAT program be located and conducted in the United States.

(b) It is the purpose of this section to assist in the acquisition of satellite communications services until viable alternatives are available and to provide interim funding in order that the PEACESAT Program may again serve the educational, medical, and cultural needs of the Pacific Basin communities.

(c)(1) The Secretary of Commerce shall expeditiously negotiate for and acquire satellite space segment capacity and related ground segment equipment to provide communications services for former users of the ATS-1 satellite of the National Aeronautics and Space Administration.

(2)(A) The Secretary of Commerce shall provide to the manager of the PEACESAT Program such funds, from appropriations authorized under subsection (d) of this section, as the Secretary considers necessary to manage the operation of the satellite commu-

nications services provided with the capacity and equipment acquired under this subsection.

(B) The recipient of funds under subparagraph (A) of this paragraph shall keep such records as may reasonably be necessary to enable the Secretary of Commerce to conduct an effective audit of such funds.

(C) The Secretary of Commerce and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of such recipient that are pertinent to the funds received under subparagraph (A) of this paragraph.

(d) There are authorized to be appropriated \$400,000 for fiscal year 1992 and \$1,500,000 for fiscal year 1993 for use by the Secretary of Commerce in the negotiation for and acquisition of capacity and equipment under subsection (c)(1) of this section and the management of the operation of satellite communications services under subsection (c)(2) of this section. Sums appropriated pursuant to this subsection may be used by the Secretary of Commerce to cover administrative costs associated with the provisions of this section.

(e) The Secretary of Commerce shall consult with appropriate departments and agencies of the Federal Government, representatives of the PEACESAT Program, and other affected parties regarding the development of a long-term solution to the communications needs of the Pacific Ocean region. Within one year after the date of enactment of this Act, the Secretary of Commerce shall report to the Congress regarding such consultation.

SEC. 3. (a) It is the purpose of this section to improve the ability of rural health providers to use communications to obtain health information and to consult with others concerning the delivery of patient care. Such enhanced communications ability may assist in—

(1) improving and extending the training of rural health professionals; and

(2) improving the continuity of patient care in rural areas.

(b) The Secretary of Commerce, in conjunction with the Secretary of Health and Human Services, shall establish an advisory panel (hereafter in this section referred to as the "Panel") to develop recommendations for the improvement of rural health care through the collection of information needed by providers and the improvement in the use of communications to disseminate such information.

(c) The Panel shall be composed of individuals from organizations with rural constituencies and practitioners from health care disciplines, representatives of the National Library of Medicine, and representatives of different health professions schools, including nurse practitioners.

(d) The Panel may select consultants to provide advice to the Panel regarding the types of information that rural health care practitioners need, the procedures to gather and disseminate such information, and the types of communications equipment and training needed by rural health care practitioners to obtain access to such information.

(e) Not later than 1 year after the Panel is established under subsection (b), the Secretary of Commerce shall prepare and submit, to the Committee on Commerce, Science, and Transportation and the Committee on Labor and Human Resources of the Senate and to the Committee on Energy and Commerce of the House of Representatives, a report summarizing the recommendations made by the Panel under subsection (b).

(f) There is authorized to be appropriated to the Secretary of Commerce to carry out this section \$1,000,000 to remain available until expended.

【Sec. 4 contained amendments to section 226 of the Communication Act of 1934.】

**TELEVISION PROGRAM IMPROVEMENT ACT OF 1990**

---

---

**TELEVISION PROGRAM IMPROVEMENT ACT OF 1990<sup>1</sup>**

**TITLE V—TELEVISION PROGRAM  
IMPROVEMENT**

**SEC. 501. [47 U.S.C. 303c] TELEVISION PROGRAM IMPROVEMENT.**

(a) **SHORT TITLE.**—This section may be cited as the “Television Program Improvement Act of 1990”.

(b) **DEFINITIONS.**—For purposes of this section—

(1) the term “antitrust laws” has the meaning given it in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12(a)), except that such term includes section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that such section 5 applies to unfair methods of competition;

(2) the term “person in the television industry” means a television network, any entity which produces programming (including theatrical motion pictures) for telecasting or telecasts programming, the National Cable Television Association, the Association of Independent Television Stations, Incorporated, the National Association of Broadcasters, the Motion Picture Association of America, the Community Antenna Television Association, and each of the networks’ affiliate organizations, and shall include any individual acting on behalf of such person; and

(3) the term “telecast” means—

(A) to broadcast by a television broadcast station; or

(B) to transmit by a cable television system or a satellite television distribution service.

(c) **EXEMPTION.**—The antitrust laws shall not apply to any joint discussion, consideration, review, action, or agreement by or among persons in the television industry for the purpose of, and limited to, developing and disseminating voluntary guidelines designed to alleviate the negative impact of violence in telecast material.

(d) **LIMITATIONS.**—(1) The exemption provided in subsection (c) shall not apply to any joint discussion, consideration, review, action, or agreement which results in a boycott of any person.

(2) The exemption provided in subsection (c) shall apply only to any joint discussion, consideration, review, action, or agreement engaged in only during the 3-year period beginning on the date of the enactment of this section.

OLDER AMERICANS PROGRAM

SEC. 6. [47 U.S.C. 154 note] (a) During fiscal years 1992 and 1993, the Federal Communications Commission is authorized to make grants to, or enter into cooperative agreements with, private nonprofit organizations designated by the Secretary of Labor under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq) to utilize the talents of older Americans in programs authorized by other provisions of law administered by the Commission (and consistent with such provisions of law) in providing technical and administrative assistance for projects related to the implementation, promotion, or enforcement of the regulations of the Commission.

(b) Prior to awarding any grant or entering into any agreement under subsection (a), the Office of the Managing Director of the Commission shall certify to the Commission that such grant or agreement will not—

(1) result in the displacement of individuals currently employed by the Commission;

(2) result in the employment of any individual when any other individual is on layoff status from the same or a substantially equivalent job within the jurisdiction of the Commission; or

(3) affect existing contracts for services.

(c) Participants in any program under a grant or cooperative agreement pursuant to this section shall—

(1) execute a signed statement with the Commission in which such participants certify that they will adhere to the standards of conduct prescribed for regular employees of the Commission, as set forth in part 19 of title 47, Code of Federal Regulations; and

(2) execute a confidential statement of employment and financial interest (Federal Communications Commission Form A-54) prior to commencement of work under the program.

Failure to comply with the terms of the signed statement described in paragraph (1) shall result in termination of the individual under the grant or agreement.

(d) Nothing in this section shall be construed to permit employment of any such participant in any decisionmaking or policymaking position.

(e) Grants or agreements under this section shall be subject to prior appropriation Acts.

<sup>1</sup>Public Law 100-594, 102 Stat. 3021, approved Nov. 3, 1988.

## CONGRESSIONAL COMMUNICATIONS

SEC. 7. (a) The prohibition in section 1.1203(a) of title 47, Code of Federal Regulations, shall not apply to any of the types of presentations listed in section 1.1204(b) of such title nor to any presentation made by a member or officer of Congress, or a staff person of any such member or officer, acting in his or her official capacity, in—

- (1) any non-restricted proceeding under section 1.1206(b) of such title;
- (2) any exempt proceeding under section 1.1204(a)(2) of such title not involving the allotment of a channel in the radio broadcast or television broadcast services; or
- (3) any exempt proceeding under section 1.1204 (a)(4) through (a)(6) of such title.

(b) Each reference in subsection (a) of this section to a provision of title 47, Code of Federal Regulations, applies to such provision as in effect on the date of enactment of this Act. No subsequent amendment of the rules or regulations in such title shall have the effect of prohibiting any presentation of the kind that would be permitted under subsection (a) of this section on the date of enactment of this Act.

\* \* \* \* \*

## HAWAII MONITORING STATION

SEC. 9. [47 U.S.C. 154 note] (a) The Federal Communications Commission is authorized to expend such funds as may be required in fiscal years 1991, 1992, 1993, and 1994, out of its appropriations for such fiscal years, to relocate within the State of Hawaii the Hawaii Monitoring Station presently located in Honolulu (Waipahu), including all necessary expenses for—

- (1) acquisition of real property;
- (2) options to purchase real property;
- (3) architectural and engineering services;
- (4) construction of a facility at the new location;
- (5) transportation of equipment and personnel;
- (6) lease-back or real property and related personal property at the present location of the Monitoring Station pending acquisition of real property and construction of a facility at a new location; and
- (7) the re-establishment, if warranted by the circumstances, of a downtown office to serve the residents of Honolulu.

(b) The Federal Communications Commission shall declare as surplus property, for disposition by the General Services Administration, the real property (including the structures and fixtures) and related personal property which are at the present location of the Hawaii Monitoring Station and which will not be relocated. Notwithstanding sections 203 and 204 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484 and 485), the General Services Administration shall sell such real and related personal property on an expedited basis, including provisions for leaseback as required, and shall reimburse the Commission from the net proceeds of the sale for all of the expenditures of the Com-

mission associated with such relocation of the Monitoring Station. Any such reimbursed funds received by the Commission shall remain available until expended.

(c) The net proceeds of the sale of such real and related property, less any funds reimbursed to the Federal Communications Commission pursuant to subsection (b), and less normal and reasonable charges by the General Services Administration for costs associated with such sale, shall be deposited in the general funds of the Treasury.

(d) The Hawaii Monitoring Station shall continue its full operations at its present location until a new facility has been built and is fully operational at a new location.

(e) The Federal Communications Commission and the General Services Administration shall not take any action under this section committing any funds disposing of any property in connection with the relocation of the Hawaii Monitoring Station until—

(1) The Chairman of the Commission and the Administrator of General Services have jointly prepared and submitted, to the Committee on Appropriations, the Committee on Commerce, Science, and Transportation, and the Committee on Governmental Affairs of the Senate, and the Committee on Appropriations, the Committee on Energy and Commerce and the Committee on Government Operations of the House of Representatives, a letter or other document setting forth in detail the plan and procedures for such relocation which will reasonably carry out, in an expeditious manner, the provisions of this section but will not disrupt or defer any programs or regulatory activities of the Commission or adversely affect any employee of the Commission (other than those at the Monitoring Station who may be required to transfer to another location) through the use of appropriations for the Commission, in fiscal years 1989 and 1990; and

(2) at least 30 calendar days have passed since the receipt of such document by such committees.

#### SENSE OF CONGRESS

SEC. 10. (a) The Congress finds that—

(1) more than four hundred and thirty-five thousand four hundred radio amateurs in the United States are licensed by the Federal Communications Commission upon examination in radio regulations, technical principles, and the international Morse code;

(2) by international treaty and the Federal Communications Commission regulation, the amateur is authorized to operate his or her station in a radio service of intercommunications and technical investigations solely with a personal aim and without pecuniary interest;

(3) among the basic purposes for the Amateur Radio Service is the provision of voluntary, noncommercial radio service, particularly emergency communications; and

(4) volunteer amateur radio emergency communications services have consistently and reliably been provided before, during, and after floods, tornadoes, forest fires, earthquakes, blizzards, train wrecks, chemical spills, and other disasters.

(b) It is the sense of the Congress that—

(1) it strongly encourages and supports the Amateur Radio Service and its emergency communications efforts; and

(2) Government agencies shall take into account the valuable contributions made by amateur radio operators when considering actions affecting the Amateur Radio Service.

**SELECTED PROVISIONS FROM THE UNITED STATES CODE**

---

**TITLE 5—GOVERNMENT ORGANIZATION AND EMPLOYEES**

**PART I—THE AGENCIES GENERALLY**

\* \* \* \* \*

**CHAPTER 5—ADMINISTRATIVE PROCEDURE**

(§§ 500–576)

SUBCHAPTER II—ADMINISTRATIVE PROCEDURE

- 551. Definitions.
- 552. Public information; agency rules, opinions, orders, records, and proceedings.
- 552a. Records maintained on individuals.
- 552b. Open meetings.
- 553. Rule making.
- 554. Adjudications.
- 555. Ancillary matters.
- 556. Hearings; presiding employees; powers and duties; burden of proof; evidence; record as basis of decision.
- 557. Initial decisions; conclusiveness; review by agency; submissions by parties; contents of decisions; record.
- 558. Imposition of sanctions; determination of applications for licenses; suspension, revocation, and expiration of licenses.
- 559. Effect on other laws; effect of subsequent statute.

SUBCHAPTER II—ADMINISTRATIVE PROCEDURE

**§ 551. Definitions**

For the purpose of this subchapter—

(1) “agency” means each authority of the Government of the United States, whether or not it is within or subject to review by another agency, but does not include—

(A) the Congress;

(B) the courts of the United States;

(C) the governments of the territories or possessions of the United States;

(D) the government of the District of Columbia;

or except as to the requirements of section 552 of this title—

(E) agencies composed of representatives of the parties or of representatives of organizations of the parties to the disputes determined by them;

(F) courts martial and military commissions;

(G) military authority exercised in the field in time of war or in occupied territory; or

(H) functions conferred by sections 1738, 1739, 1743, and 1744 of title 12; chapter 2 of title 41; subchapter II of chapter 471 of title 49; or sections 1884, 1891–1902, and former section 1641(b)(2), of title 50, appendix;

(2) “person” includes an individual, partnership, corporation, association, or public or private organization other than an agency;

(3) “party” includes a person or agency named or admitted as a party, or properly seeking and entitled as of right to be admitted as a party, in an agency proceeding, and a person or agency admitted by an agency as a party for limited purposes;

(4) “rule” means the whole or a part of an agency statement of general or particular applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the organization, procedure, or practice requirements of an agency and includes the approval or prescription for the future of rates, wages, corporate or financial structures or reorganizations thereof, prices, facilities, appliances, services or allowances therefor or of valuations, costs, or accounting, or practices bearing on any of the foregoing;

(5) “rule making” means agency process for formulating, amending, or repealing a rule;

(6) “order” means the whole or a part of a final disposition, whether affirmative, negative, injunctive, or declaratory in form, of an agency in a matter other than rule making but including licensing;

(7) “adjudication” means agency process for the formulation of an order;

(8) “license” includes the whole or a part of an agency permit, certificate, approval, registration, charter, membership, statutory exemption or other form of permission;

(9) “licensing” includes agency process respecting the grant, renewal, denial, revocation, suspension, annulment, withdrawal, limitation, amendment, modification, or conditioning of a license;

(10) “sanction” includes the whole or a part of an agency—

(A) prohibition, requirement, limitation, or other condition affecting the freedom of a person;

(B) withholding of relief;

(C) imposition of penalty or fine;

(D) destruction, taking, seizure, or withholding of property;

(E) assessment of damages, reimbursement, restitution, compensation, costs, charges, or fees;

(F) requirement, revocation, or suspension of a license;

or

(G) taking other compulsory or restrictive action;

(11) “relief” includes the whole or a part of an agency—

(A) grant of money, assistance, license, authority, exemption, exception, privilege, or remedy;

(B) recognition of a claim, right, immunity, privilege, exemption, or exception; or

- (C) taking of other action on the application or petition of, and beneficial to, a person;
- (12) “agency proceeding” means an agency process as defined by paragraphs (5), (7), and (9) of this section;
- (13) “agency action” includes the whole or a part of an agency rule, order, license, sanction, relief, or the equivalent or denial thereof, or failure to act; and
- (14) “ex parte communication” means an oral or written communication not on the public record with respect to which reasonable prior notice to all parties is not given, but it shall not include requests for status reports on any matter or proceeding covered by this subchapter.

**§ 552. Public information; agency rules, opinions, orders, records, and proceedings**

(a) Each agency shall make available to the public information as follows:

(1) Each agency shall separately state and currently publish in the Federal Register for the guidance of the public—

(A) descriptions of its central and field organization and the established places at which, the employees (and in the case of a uniformed service, the members) from whom, and the methods whereby, the public may obtain information, make submittals or requests, or obtain decisions;

(B) statements of the general course and method by which its functions are channeled and determined, including the nature and requirements of all formal and informal procedures available;

(C) rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations;

(D) substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by the agency; and

(E) each amendment, revision, or repeal of the foregoing. Except to the extent that a person has actual and timely notice of the terms thereof, a person may not in any manner be required to resort to, or be adversely affected by, a matter required to be published in the Federal Register and not so published. For the purpose of this paragraph, matter reasonably available to the class of persons affected thereby is deemed published in the Federal Register when incorporated by reference therein with the approval of the Director of the Federal Register.

(2) Each agency, in accordance with published rules, shall make available for public inspection and copying—

(A) final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases;

(B) those statements of policy and interpretations which have been adopted by the agency and are not published in the Federal Register;

(C) administrative staff manuals and instructions to staff that affect a member of the public;

(D) copies of all records, regardless of form or format, which have been released to any person under paragraph (3) and which, because of the nature of their subject matter, the agency determines have become or are likely to become the subject of subsequent requests for substantially the same records; and

(E) a general index of the records referred to under subparagraph (D);

unless the materials are promptly published and copies offered for sale. For records created on or after November 1, 1996, within one year after such date, each agency shall make such records available, including by computer telecommunications or, if computer telecommunications means have not been established by the agency, by other electronic means. To the extent required to prevent a clearly unwarranted invasion of personal privacy, an agency may delete identifying details when it makes available or publishes an opinion, statement of policy, interpretation, staff manual, instruction, or copies of records referred to in subparagraph (D). However, in each case the justification for the deletion shall be explained fully in writing, and the extent of such deletion shall be indicated on the portion of the record which is made available or published, unless including that indication would harm an interest protected by the exemption in subsection (b) under which the deletion is made. If technically feasible, the extent of the deletion shall be indicated at the place in the record where the deletion was made. Each agency shall also maintain and make available for public inspection and copying current indexes providing identifying information for the public as to any matter issued, adopted, or promulgated after July 4, 1967, and required by this paragraph to be made available or published. Each agency shall promptly publish, quarterly or more frequently, and distribute (by sale or otherwise) copies of each index or supplements thereto unless it determines by order published in the Federal Register that the publication would be unnecessary and impracticable, in which case the agency shall nonetheless provide copies of such index on request at a cost not to exceed the direct cost of duplication. Each agency shall make the index referred to in subparagraph (E) available by computer telecommunications by December 31, 1999. A final order, opinion, statement of policy, interpretation, or staff manual or instruction that affects a member of the public may be relied on, used, or cited as precedent by an agency against a party other than an agency only if—

(i) it has been indexed and either made available or published as provided by this paragraph; or

(ii) the party has actual and timely notice of the terms thereof.

(3)(A) Except with respect to the records made available under paragraphs (1) and (2) of this subsection, and except as provided in subparagraph (E), each agency, upon any request for records which (i) reasonably describes such records and (ii) is made in accordance with published rules stating the time, place, fees (if any), and procedures to be followed, shall make the records promptly available to any person.

(B) In making any record available to a person under this paragraph, an agency shall provide the record in any form or for-

mat requested by the person if the record is readily reproducible by the agency in that form or format. Each agency shall make reasonable efforts to maintain its records in forms or formats that are reproducible for purposes of this section.

(C) In responding under this paragraph to a request for records, an agency shall make reasonable efforts to search for the records in electronic form or format, except when such efforts would significantly interfere with the operation of the agency's automated information system.

(D) For purposes of this paragraph, the term "search" means to review, manually or by automated means, agency records for the purpose of locating those records which are responsive to a request.

(E) An agency, or part of an agency, that is an element of the intelligence community (as that term is defined in section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4))) shall not make any record available under this paragraph to—

(i) any government entity, other than a State, territory, commonwealth, or district of the United States, or any subdivision thereof; or

(ii) a representative of a government entity described in clause (i).

(4)(A)(i) In order to carry out the provisions of this section, each agency shall promulgate regulations, pursuant to notice and receipt of public comment, specifying the schedule of fees applicable to the processing of requests under this section and establishing procedures and guidelines for determining when such fees should be waived or reduced. Such schedule shall conform to the guidelines which shall be promulgated, pursuant to notice and receipt of public comment, by the Director of the Office of Management and Budget and which shall provide for a uniform schedule of fees for all agencies.

(ii) Such agency regulations shall provide that—

(I) fees shall be limited to reasonable standard charges for document search, duplication, and review, when records are requested for commercial use;

(II) fees shall be limited to reasonable standard charges for document duplication when records are not sought for commercial use and the request is made by an educational or non-commercial scientific institution, whose purpose is scholarly or scientific research; or a representative of the news media; and

(III) for any request not described in (I) or (II), fees shall be limited to reasonable standard charges for document search and duplication.

(iii) Documents shall be furnished without any charge or at a charge reduced below the fees established under clause (ii) if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester.

(iv) Fee schedules shall provide for the recovery of only the direct costs of search, duplication, or review. Review costs shall include only the direct costs incurred during the initial examination of a document for the purposes of determining whether the documents must be disclosed under this section and for the purposes of withholding any portions exempt from disclosure under this sec-

tion. Review costs may not include any costs incurred in resolving issues of law or policy that may be raised in the course of processing a request under this section. No fee may be charged by any agency under this section—

(I) if the costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee; or

(II) for any request described in clause (ii) (II) or (III) of this subparagraph for the first two hours of search time or for the first one hundred pages of duplication.

(v) No agency may require advance payment of any fee unless the requester has previously failed to pay fees in a timely fashion, or the agency has determined that the fee will exceed \$250.

(vi) Nothing in this subparagraph shall supersede fees chargeable under a statute specifically providing for setting the level of fees for particular types of records.

(vii) In any action by a requester regarding the waiver of fees under this section, the court shall determine the matter de novo: *Provided*, That the court's review of the matter shall be limited to the record before the agency.

(B) On complaint, the district court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the agency records are situated, or in the District of Columbia, has jurisdiction to enjoin the agency from withholding agency records and to order the production of any agency records improperly withheld from the complainant. In such a case the court shall determine the matter de novo, and may examine the contents of such agency records in camera to determine whether such records or any part thereof shall be withheld under any of the exemptions set forth in subsection (b) of this section, and the burden is on the agency to sustain its action. In addition to any other matters to which a court accords substantial weight, a court shall accord substantial weight to an affidavit of an agency concerning the agency's determination as to technical feasibility under paragraph (2)(C) and subsection (b) and reproducibility under paragraph (3)(B).

(C) Notwithstanding any other provision of law, the defendant shall serve an answer or otherwise plead to any complaint made under this subsection within thirty days after service upon the defendant of the pleading in which such complaint is made, unless the court otherwise directs for good cause shown.

(D) [Repealed.]

(E) The court may assess against the United States reasonable attorney fees and other litigation costs reasonably incurred in any case under this section in which the complainant has substantially prevailed.

(F) Whenever the court orders the production of any agency records improperly withheld from the complainant and assesses against the United States reasonable attorney fees and other litigation costs, and the court additionally issues a written finding that the circumstances surrounding the withholding raise questions whether agency personnel acted arbitrarily or capriciously with respect to the withholding, the Special Counsel shall promptly initiate a proceeding to determine whether disciplinary action is warranted against the officer or employee who was primarily responsible for the withholding. The Special Counsel, after investigation

and consideration of the evidence submitted, shall submit his findings and recommendations to the administrative authority of the agency concerned and shall send copies of the findings and recommendations to the officer or employee or his representative. The administrative authority shall take the corrective action that the Special Counsel recommends.

(G) In the event of noncompliance with the order of the court, the district court may punish for contempt the responsible employee, and in the case of a uniformed service, the responsible member.

(5) Each agency having more than one member shall maintain and make available for public inspection a record of the final votes of each member in every agency proceeding.

(6)(A) Each agency, upon any request for records made under paragraph (1), (2), or (3) of this subsection, shall—

(i) determine within 20 days (excepting Saturdays, Sundays, and legal public holidays) after the receipt of any such request whether to comply with such request and shall immediately notify the person making such request of such determination and the reasons therefor, and of the right of such person to appeal to the head of the agency any adverse determination; and

(ii) make a determination with respect to any appeal within twenty days (excepting Saturdays, Sundays, and legal public holidays) after the receipt of such appeal. If on appeal the denial of the request for records is in whole or in part upheld, the agency shall notify the person making such request of the provisions for judicial review of that determination under paragraph (4) of this subsection.

(B)(i) In unusual circumstances as specified in this subparagraph, the time limits prescribed in either clause (i) or clause (ii) of subparagraph (A) may be extended by written notice to the person making such request setting forth the unusual circumstances for such extension and the date on which a determination is expected to be dispatched. No such notice shall specify a date that would result in an extension for more than ten working days, except as provided in clause (ii) of this subparagraph.

(ii) With respect to a request for which a written notice under clause (i) extends the time limits prescribed under clause (i) of subparagraph (A), the agency shall notify the person making the request if the request cannot be processed within the time limit specified in that clause and shall provide the person an opportunity to limit the scope of the request so that it may be processed within that time limit or an opportunity to arrange with the agency an alternative time frame for processing the request or a modified request. Refusal by the person to reasonably modify the request or arrange such an alternative time frame shall be considered as a factor in determining whether exceptional circumstances exist for purposes of subparagraph (C).

(iii) As used in this subparagraph, “unusual circumstances” means, but only to the extent reasonably necessary to the proper processing of the particular requests—

(I) the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(II) the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(III) the need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(iv) Each agency may promulgate regulations, pursuant to notice and receipt of public comment, providing for the aggregation of certain requests by the same requestor, or by a group of requestors acting in concert, if the agency reasonably believes that such requests actually constitute a single request, which would otherwise satisfy the unusual circumstances specified in this subparagraph, and the requests involve clearly related matters. Multiple requests involving unrelated matters shall not be aggregated.

(C)(i) Any person making a request to any agency for records under paragraph (1), (2), or (3) of this subsection shall be deemed to have exhausted his administrative remedies with respect to such request if the agency fails to comply with the applicable time limit provisions of this paragraph. If the Government can show exceptional circumstances exist and that the agency is exercising due diligence in responding to the request, the court may retain jurisdiction and allow the agency additional time to complete its review of the records. Upon any determination by an agency to comply with a request for records, the records shall be made promptly available to such person making such request. Any notification of denial of any request for records under this subsection shall set forth the names and titles or positions of each person responsible for the denial of such request.

(ii) For purposes of this subparagraph, the term “exceptional circumstances” does not include a delay that results from a predictable agency workload of requests under this section, unless the agency demonstrates reasonable progress in reducing its backlog of pending requests.

(iii) Refusal by a person to reasonably modify the scope of a request or arrange an alternative time frame for processing a request (or a modified request) under clause (ii) after being given an opportunity to do so by the agency to whom the person made the request shall be considered as a factor in determining whether exceptional circumstances exist for purposes of this subparagraph.

(D)(i) Each agency may promulgate regulations, pursuant to notice and receipt of public comment, providing for multitrack processing of requests for records based on the amount of work or time (or both) involved in processing requests.

(ii) Regulations under this subparagraph may provide a person making a request that does not qualify for the fastest multitrack processing an opportunity to limit the scope of the request in order to qualify for faster processing.

(iii) This subparagraph shall not be considered to affect the requirement under subparagraph (C) to exercise due diligence.

(E)(i) Each agency shall promulgate regulations, pursuant to notice and receipt of public comment, providing for expedited processing of requests for records—

- (I) in cases in which the person requesting the records demonstrates a compelling need; and
- (II) in other cases determined by the agency.
- (ii) Notwithstanding clause (i), regulations under this subparagraph must ensure—
- (I) that a determination of whether to provide expedited processing shall be made, and notice of the determination shall be provided to the person making the request, within 10 days after the date of the request; and
- (II) expeditious consideration of administrative appeals of such determinations of whether to provide expedited processing.
- (iii) An agency shall process as soon as practicable any request for records to which the agency has granted expedited processing under this subparagraph. Agency action to deny or affirm denial of a request for expedited processing pursuant to this subparagraph, and failure by an agency to respond in a timely manner to such a request shall be subject to judicial review under paragraph (4), except that the judicial review shall be based on the record before the agency at the time of the determination.
- (iv) A district court of the United States shall not have jurisdiction to review an agency denial of expedited processing of a request for records after the agency has provided a complete response to the request.
- (v) For purposes of this subparagraph, the term “compelling need” means—
- (I) that a failure to obtain requested records on an expedited basis under this paragraph could reasonably be expected to pose an imminent threat to the life or physical safety of an individual; or
- (II) with respect to a request made by a person primarily engaged in disseminating information, urgency to inform the public concerning actual or alleged Federal Government activity.
- (vi) A demonstration of a compelling need by a person making a request for expedited processing shall be made by a statement certified by such person to be true and correct to the best of such person’s knowledge and belief.
- (F) In denying a request for records, in whole or in part, an agency shall make a reasonable effort to estimate the volume of any requested matter the provision of which is denied, and shall provide any such estimate to the person making the request, unless providing such estimate would harm an interest protected by the exemption in subsection (b) pursuant to which the denial is made.
- (b) This section does not apply to matters that are—
- (1)(A) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified pursuant to such Executive order;
- (2) related solely to the internal personnel rules and practices of an agency;
- (3) specifically exempted from disclosure by statute (other than section 552b of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (B) estab-

lishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information (A) could reasonably be expected to interfere with enforcement proceedings, (B) would deprive a person of a right to a fair trial or an impartial adjudication, (C) could reasonably be expected to constitute an unwarranted invasion of personal privacy, (D) could reasonably be expected to disclose the identity of a confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source, (E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law, or (F) could reasonably be expected to endanger the life or physical safety of any individual;

(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) geological and geophysical information and data, including maps, concerning wells.

Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt under this subsection. The amount of information deleted shall be indicated on the released portion of the record, unless including that indication would harm an interest protected by the exemption in this subsection under which the deletion is made. If technically feasible, the amount of the information deleted shall be indicated at the place in the record where such deletion is made.

(c)(1) Whenever a request is made which involves access to records described in subsection (b)(7)(A) and—

(A) the investigation or proceeding involves a possible violation of criminal law; and

(B) there is reason to believe that (i) the subject of the investigation or proceeding is not aware of its pendency, and (ii) disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings,

the agency may, during only such time as that circumstance continues, treat the records as not subject to the requirements of this section.

(2) Whenever informant records maintained by a criminal law enforcement agency under an informant's name or personal identifier are requested by a third party according to the informant's name or personal identifier, the agency may treat the records as not subject to the requirements of this section unless the informant's status as an informant has been officially confirmed.

(3) Whenever a request is made which involves access to records maintained by the Federal Bureau of Investigation pertaining to foreign intelligence or counterintelligence, or international terrorism, and the existence of the records is classified information as provided in subsection (b)(1), the Bureau may, as long as the existence of the records remains classified information, treat the records as not subject to the requirements of this section.

(d) This section does not authorize withholding of information or limit the availability of records to the public, except as specifically stated in this section. This section is not authority to withhold information from Congress.

(e)(1) On or before February 1 of each year, each agency shall submit to the Attorney General of the United States a report which shall cover the preceding fiscal year and which shall include—

(A) the number of determinations made by the agency not to comply with requests for records made to such agency under subsection (a) and the reasons for each such determination;

(B)(i) the number of appeals made by persons under subsection (a)(6), the result of such appeals, and the reason for the action upon each appeal that results in a denial of information; and

(ii) a complete list of all statutes that the agency relies upon to authorize the agency to withhold information under subsection (b)(3), a description of whether a court has upheld the decision of the agency to withhold information under each such statute, and a concise description of the scope of any information withheld;

(C) the number of requests for records pending before the agency as of September 30 of the preceding year, and the median number of days that such requests had been pending before the agency as of that date;

(D) the number of requests for records received by the agency and the number of requests which the agency processed;

(E) the median number of days taken by the agency to process different types of requests;

(F) the total amount of fees collected by the agency for processing requests; and

(G) the number of full-time staff of the agency devoted to processing requests for records under this section, and the total amount expended by the agency for processing such requests.

(2) Each agency shall make each such report available to the public including by computer telecommunications, or if computer telecommunications means have not been established by the agency, by other electronic means.

(3) The Attorney General of the United States shall make each report which has been made available by electronic means available at a single electronic access point. The Attorney General of the United States shall notify the Chairman and ranking minority member of the Committee on Government Reform and Oversight of the House of Representatives and the Chairman and ranking minority member of the Committees on Governmental Affairs and the Judiciary of the Senate, no later than April 1 of the year in which each such report is issued, that such reports are available by electronic means.

(4) The Attorney General of the United States, in consultation with the Director of the Office of Management and Budget, shall develop reporting and performance guidelines in connection with reports required by this subsection by October 1, 1997, and may establish additional requirements for such reports as the Attorney General determines may be useful.

(5) The Attorney General of the United States shall submit an annual report on or before April 1 of each calendar year which shall include for the prior calendar year a listing of the number of cases arising under this section, the exemption involved in each case, the disposition of such case, and the cost, fees, and penalties assessed under subparagraphs (E), (F), and (G) of subsection (a)(4). Such report shall also include a description of the efforts undertaken by the Department of Justice to encourage agency compliance with this section.

(f) For purposes of this section, the term—

(1) “agency” as defined in section 551(1) of this title includes any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency; and

(2) “record” and any other term used in this section in reference to information includes any information that would be an agency record subject to the requirements of this section when maintained by an agency in any format, including an electronic format.

(g) The head of each agency shall prepare and make publicly available upon request, reference material or a guide for requesting records or information from the agency, subject to the exemptions in subsection (b), including—

(1) an index of all major information systems of the agency;

(2) a description of major information and record locator systems maintained by the agency; and

(3) a handbook for obtaining various types and categories of public information from the agency pursuant to chapter 35 of title 44, and under this section.

#### § 552a. Records maintained on individuals

(a) DEFINITIONS.—For purposes of this section—

(1) the term “agency” means agency as defined in section 552(e)<sup>1</sup> of this title;

(2) the term “individual” means a citizen of the United States or an alien lawfully admitted for permanent residence;

(3) the term “maintain” includes maintain, collect, use, or disseminate;

(4) the term “record” means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;

(5) the term “system of records” means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual;

(6) the term “statistical record” means a record in a system of records maintained for statistical research or reporting purposes only and not used in whole or in part in making any determination about an identifiable individual, except as provided by section 8 of title 13;

(7) the term “routine use” means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected;

(8) the term “matching program”—

(A) means any computerized comparison of—

(i) two or more automated systems of records or a system of records with non-Federal records for the purpose of—

(I) establishing or verifying the eligibility of, or continuing compliance with statutory and regulatory requirements by, applicants for, recipients or beneficiaries of, participants in, or providers of services with respect to, cash or in-kind assistance or payments under Federal benefit programs, or

(II) recouping payments or delinquent debts under such Federal benefit programs, or

(ii) two or more automated Federal personnel or payroll systems of records or a system of Federal personnel or payroll records with non-Federal records,

(B) but does not include—

(i) matches performed to produce aggregate statistical data without any personal identifiers;

(ii) matches performed to support any research or statistical project, the specific data of which may not be used to make decisions concerning the rights, benefits, or privileges of specific individuals;

(iii) matches performed, by an agency (or component thereof) which performs as its principal function any activity pertaining to the enforcement of criminal

<sup>1</sup>Reference probably should be to “552(f)”. Section 1802(b) of P.L. 99-570 redesignated subsection (e) as (f) of section 552.

laws, subsequent to the initiation of a specific criminal or civil law enforcement investigation of a named person or persons for the purpose of gathering evidence against such person or persons;

(iv) matches of tax information (I) pursuant to section 6103(d) of the Internal Revenue Code of 1986, (II) for purposes of tax administration as defined in section 6103(b)(4) of such Code, (III) for the purpose of intercepting a tax refund due an individual under authority granted by section 404(e), 464, or 1137 of the Social Security Act; or (IV) for the purpose of intercepting a tax refund due an individual under any other tax refund intercept program authorized by statute which has been determined by the Director of the Office of Management and Budget to contain verification, notice, and hearing requirements that are substantially similar to the procedures in section 1137 of the Social Security Act;

(v) matches—

(I) using records predominantly relating to Federal personnel, that are performed for routine administrative purposes (subject to guidance provided by the Director of the Office of Management and Budget pursuant to subsection (v)); or

(II) conducted by an agency using only records from systems of records maintained by that agency;

if the purpose of the match is not to take any adverse financial, personnel, disciplinary, or other adverse action against Federal personnel;

(vi) matches performed for foreign counterintelligence purposes or to produce background checks for security clearances of Federal personnel or Federal contractor personnel;

(vii) matches performed incident to a levy described in section 6103(k)(8) of the Internal Revenue Code of 1986; or

(viii) matches performed pursuant to section 202(x)(3) or 1611(e)(1) of the Social Security Act (42 U.S.C. 402(x)(3), 1382(e)(1));

(9) the term “recipient agency” means any agency, or contractor thereof, receiving records contained in a system of records from a source agency for use in a matching program;

(10) the term “non-Federal agency” means any State or local government, or agency thereof, which receives records contained in a system of records from a source agency for use in a matching program;

(11) the term “source agency” means any agency which discloses records contained in a system of records to be used in a matching program, or any State or local government, or agency thereof, which discloses records to be used in a matching program;

(12) the term “Federal benefit program” means any program administered or funded by the Federal Government, or by any agent or State on behalf of the Federal Government,

providing cash or in-kind assistance in the form of payments, grants, loans, or loan guarantees to individuals; and

(13) the term "Federal personnel" means officers and employees of the Government of the United States, members of the uniformed services (including members of the Reserve Components), individuals entitled to receive immediate or deferred retirement benefits under any retirement program of the Government of the United States (including survivor benefits).

(b) CONDITIONS OF DISCLOSURE.—No agency shall disclose any record which is contained in a system of records by any means of communication to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains, unless disclosure of the record would be—

(1) to those officers and employees of the agency which maintains the record who have a need for the record in the performance of their duties;

(2) required under section 552 of this title;

(3) for a routine use as defined in subsection (a)(7) of this section and described under subsection (e)(4)(D) of this section;

(4) to the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13;

(5) to a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(6) to the National Archives and Records Administration as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Archivist of the United States or the designee of the Archivist to determine whether the record has such value;

(7) to another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) to a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) to either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(10) to the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office;

(11) pursuant to the order of a court of competent jurisdiction; and

(12) to a consumer reporting agency in accordance with section 3711(e) of title 31.

(c) ACCOUNTING OF CERTAIN DISCLOSURES.—Each agency, with respect to each system of records under its control shall—

(1) except for disclosures made under subsections (b)(1) or (b)(2) of this section, keep an accurate accounting of—

(A) the date, nature, and purpose of each disclosure of a record to any person or to another agency made under subsection (b) of this section; and

(B) the name and address of the person or agency to whom the disclosure is made;

(2) retain the accounting made under paragraph (1) of this subsection for at least five years or the life of the record, whichever is longer, after the disclosure for which the accounting is made;

(3) except for disclosures made under subsection (b)(7) of this section, make the accounting made under paragraph (1) of this subsection available to the individual named in the record at his request; and

(4) inform any person or other agency about any correction or notation of dispute made by the agency in accordance with subsection (d) of this section of any record that has been disclosed to the person or agency if an accounting of the disclosure was made.

(d) ACCESS TO RECORDS.—Each agency that maintains a system of records shall—

(1) upon request by any individual to gain access to his record or to any information pertaining to him which is contained in the system, permit him and upon his request, a person of his own choosing to accompany him, to review the record and have a copy made of all or any portion thereof in a form comprehensible to him, except that the agency may require the individual to furnish a written statement authorizing discussion of that individual's record in the accompanying person's presence;

(2) permit the individual to request amendment of a record pertaining to him and—

(A) not later than 10 days (excluding Saturdays, Sundays, and legal public holidays) after the date of receipt of such request, acknowledge in writing such receipt; and

(B) promptly, either—

(i) make any correction of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(ii) inform the individual of its refusal to amend the record in accordance with his request, the reason for the refusal, the procedures established by the agency for the individual to request a review of that refusal by the head of the agency or an officer designated by the head of the agency, and the name and business address of that official;

(3) permit the individual who disagrees with the refusal of the agency to amend his record to request a review of such refusal, and not later than 30 days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the in-

dividual requests such review, complete such review and make a final determination unless, for good cause shown, the head of the agency extends such 30-day period; and if, after his review, the reviewing official also refuses to amend the record in accordance with the request, permit the individual to file with the agency a concise statement setting forth the reasons for his disagreement with the refusal of the agency, and notify the individual of the provisions for judicial review of the reviewing official's determination under subsection (g)(1)(A) of this section;

(4) in any disclosure, containing information about which the individual has filed a statement of disagreement, occurring after the filing of the statement under paragraph (3) of this subsection, clearly note any portion of the record which is disputed and provide copies of the statement and, if the agency deems it appropriate, copies of a concise statement of the reasons of the agency for not making the amendments requested, to persons or other agencies to whom the disputed record has been disclosed; and

(5) nothing in this section shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

(e) AGENCY REQUIREMENTS.—Each agency that maintains a system of records shall—

(1) maintain in its records only such information about an individual as is relevant and necessary to accomplish a purpose of the agency required to be accomplished by statute or by executive order of the President;

(2) collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual's rights, benefits, and privileges under Federal programs;

(3) inform each individual whom it asks to supply information, on the form which it uses to collect the information or on a separate form that can be retained by the individual—

(A) the authority (whether granted by statute, or by executive order of the President) which authorizes the solicitation of the information and whether disclosure of such information is mandatory or voluntary;

(B) the principal purpose or purposes for which the information is intended to be used;

(C) the routine uses which may be made of the information, as published pursuant to paragraph (4)(D) of this subsection; and

(D) the effects on him, if any, of not providing all or any part of the requested information;

(4) subject to the provisions of paragraph (11) of this subsection, publish in the Federal Register upon establishment or revision a notice of the existence and character of the system of records, which notice shall include—

(A) the name and location of the system;

(B) the categories of individuals on whom records are maintained in the system;

(C) the categories of records maintained in the system;

- (D) each routine use of the records contained in the system, including the categories of users and the purpose of such use;
- (E) the policies and practices of the agency regarding storage, retrievability, access controls, retention, and disposal of the records;
- (F) the title and business address of the agency official who is responsible for the system of records;
- (G) the agency procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him;
- (H) the agency procedures whereby an individual can be notified at his request how he can gain access to any record pertaining to him contained in the system of records, and how he can contest its content; and
- (I) the categories of sources of records in the system;
- (5) maintain all records which are used by the agency in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination;
- (6) prior to disseminating any record about an individual to any person other than an agency, unless the dissemination is made pursuant to subsection (b)(2) of this section, make reasonable efforts to assure that such records are accurate, complete, timely, and relevant for agency purposes;
- (7) maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity;
- (8) make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record;
- (9) establish rules of conduct for persons involved in the design, development, operation, or maintenance of any system of records, or in maintaining any record, and instruct each such person with respect to such rules and the requirements of this section, including any other rules and procedures adopted pursuant to this section and the penalties for noncompliance;
- (10) establish appropriate administrative, technical, and physical safeguards to insure the security and confidentiality of records and to protect against any anticipated threats or hazards to their security or integrity which could result in substantial harm, embarrassment, inconvenience, or unfairness to any individual on whom information is maintained;
- (11) at least 30 days prior to publication of information under paragraph (4)(D) of this subsection, publish in the Federal Register notice of any new use or intended use of the information in the system, and provide an opportunity for interested persons to submit written data, views, or arguments to the agency; and

(12) if such agency is a recipient agency or a source agency in a matching program with a non-Federal agency, with respect to any establishment or revision of a matching program, at least 30 days prior to conducting such program, publish in the Federal Register notice of such establishment or revision.

(f) AGENCY RULES.—In order to carry out the provisions of this section, each agency that maintains a system of records shall promulgate rules, in accordance with the requirements (including general notice) of section 553 of this title, which shall—

(1) establish procedures whereby an individual can be notified in response to his request if any system of records named by the individual contains a record pertaining to him;

(2) define reasonable times, places, and requirements for identifying an individual who requests his record or information pertaining to him before the agency shall make the record or information available to the individual;

(3) establish procedures for the disclosure to an individual upon his request of his record or information pertaining to him, including special procedure, if deemed necessary, for the disclosure to an individual of medical records, including psychological records pertaining to him;

(4) establish procedures for reviewing a request from an individual concerning the amendment of any record or information pertaining to the individual, for making a determination on the request, for an appeal within the agency of an initial adverse agency determination, and for whatever additional means may be necessary for each individual to be able to exercise fully his rights under this section; and

(5) establish fees to be charged, if any, to any individual for making copies of his record, excluding the cost of any search for and review of the record.

The Office of the Federal Register shall biennially compile and publish the rules promulgated under this subsection and agency notices published under subsection (e)(4) of this section in a form available to the public at low cost.

(g)(1) CIVIL REMEDIES.—Whenever any agency—

(A) makes a determination under subsection (d)(3) of this section not to amend an individual's record in accordance with his request, or fails to make such review in conformity with that subsection;

(B) refuses to comply with an individual request under subsection (d)(1) of this section;

(C) fails to maintain any record concerning any individual with such accuracy, relevance, timeliness, and completeness as is necessary to assure fairness in any determination relating to the qualifications, character, rights, or opportunities of, or benefits to the individual that may be made on the basis of such record, and consequently a determination is made which is adverse to the individual; or

(D) fails to comply with any other provision of this section, or any rule promulgated thereunder, in such a way as to have an adverse effect on an individual,

the individual may bring a civil action against the agency, and the district courts of the United States shall have jurisdiction in the matters under the provisions of this subsection.

(2)(A) In any suit brought under the provisions of subsection (g)(1)(A) of this section, the court may order the agency to amend the individual's record in accordance with his request or in such other way as the court may direct. In such a case the court shall determine the matter de novo.

(B) The court may assess against the United States reasonable attorney fees and other litigation costs reasonably incurred in any case under this paragraph in which the complainant has substantially prevailed.

(3)(A) In any suit brought under the provisions of subsection (g)(1)(B) of this section, the court may enjoin the agency from withholding the records and order the production to the complainant of any agency records improperly withheld from him. In such a case the court shall determine the matter de novo, and may examine the contents of any agency records in camera to determine whether the records or any portion thereof may be withheld under any of the exemptions set forth in subsection (k) of this section, and the burden is on the agency to sustain its action.

(B) The court may assess against the United States reasonable attorney fees and other litigation costs reasonably incurred in any case under this paragraph in which the complainant has substantially prevailed.

(4) In any suit brought under the provisions of subsection (g)(1)(C) or (D) of this section in which the court determines that the agency acted in a manner which was intentional or willful, the United States shall be liable to the individual in an amount equal to the sum of—

(A) actual damages sustained by the individual as a result of the refusal or failure, but in no case shall a person entitled to recovery receive less than the sum of \$1,000; and

(B) the costs of the action together with reasonable attorney fees as determined by the court.

(5) An action to enforce any liability created under this section may be brought in the district court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the agency records are situated, or in the District of Columbia, without regard to the amount in controversy, within two years from the date on which the cause of action arises, except that where an agency has materially and willfully misrepresented any information required under this section to be disclosed to an individual and the information so misrepresented is material to establishment of the liability of the agency to the individual under this section, the action may be brought at any time within two years after discovery by the individual of the misrepresentation. Nothing in this section shall be construed to authorize any civil action by reason of any injury sustained as the result of a disclosure of a record prior to September 27, 1975.

(h) RIGHTS OF LEGAL GUARDIANS.—For the purposes of this section, the parent of any minor, or the legal guardian of any individual who has been declared to be incompetent due to physical or mental incapacity or age by a court of competent jurisdiction, may act on behalf of the individual.

(i)(1) CRIMINAL PENALTIES.—Any officer or employee of an agency, who by virtue of his employment or official position, has possession of, or access to, agency records which contain individ-

ually identifiable information the disclosure of which is prohibited by this section or by rules or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

(2) Any officer or employee of any agency who willfully maintains a system of records without meeting the notice requirements of subsection (e)(4) of this section shall be guilty of a misdemeanor and fined not more than \$5,000.

(3) Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses shall be guilty of a misdemeanor and fined not more than \$5,000.

(j) GENERAL EXEMPTIONS.—The head of any agency may promulgate rules, in accordance with the requirements (including general notice) of sections 553(b)(1), (2), and (3), (c), and (e) of this title, to exempt any system of records within the agency from any part of this section except subsections (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i) if the system of records is—

(1) maintained by the Central Intelligence Agency; or

(2) maintained by an agency or component thereof which performs as its principal function any activity pertaining to the enforcement of criminal laws, including police efforts to prevent, control, or reduce crime or to apprehend criminals, and the activities of prosecutors, courts, correctional, probation, pardon, or parole authorities, and which consists of (A) information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (B) information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; or (C) reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision.

At the time rules are adopted under this subsection, the agency shall include in the statement required under section 553(c) of this title, the reasons why the system of records is to be exempted from a provision of this section.

(k) SPECIFIC EXEMPTIONS.—The head of any agency may promulgate rules, in accordance with the requirements (including general notice) of sections 553(b)(1), (2), and (3), (c), and (e) of this title, to exempt any system of records within the agency from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f) of this section if the system of records is—

(1) subject to the provisions of section 552(b)(1) of this title;

(2) investigatory material compiled for law enforcement purposes, other than material within the scope of subsection (j)(2) of this section: *Provided, however,* That if any individual is denied any right, privilege, or benefit that he would otherwise be entitled by Federal law, or for which he would other-

wise be eligible, as a result of the maintenance of such material, such material shall be provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence;

(3) maintained in connection with providing protective services to the President of the United States or other individuals pursuant to section 3056 of title 18;

(4) required by statute to be maintained and used solely as statistical records;

(5) investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence;

(6) testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service the disclosure of which would compromise the objectivity or fairness of the testing or examination process; or

(7) evaluation material used to determine potential for promotion in the armed services, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence.

At the time rules are adopted under this subsection, the agency shall include in the statement required under section 553(c) of this title, the reasons why the system of records is to be exempted from a provision of this section.

(1)(1) ARCHIVAL RECORDS.—Each agency record which is accepted by the Archivist of the United States for storage, processing, and servicing in accordance with section 3103 of title 44 shall, for the purposes of this section, be considered to be maintained by the agency which deposited the record and shall be subject to the provisions of this section. The Archivist of the United States shall not disclose the record except to the agency which maintains the record, or under rules established by that agency which are not inconsistent with the provisions of this section.

(2) Each agency record pertaining to an identifiable individual which was transferred to the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, prior to the effective date of this section, shall, for the purposes of this section, be considered to be maintained by the Na-

tional Archives and shall not be subject to the provisions of this section, except that a statement generally describing such records (modeled after the requirements relating to records subject to subsections (e)(4)(A) through (G) of this section) shall be published in the Federal Register.

(3) Each agency record pertaining to an identifiable individual which is transferred to the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, on or after the effective date of this section, shall, for the purposes of this section, be considered to be maintained by the National Archives and shall be exempt from the requirements of this section except subsections (e)(4)(A) through (G) and (e)(9) of this section.

(m) GOVERNMENT CONTRACTORS.—(1) When an agency provides by a contract for the operation by or on behalf of the agency of a system of records to accomplish an agency function, the agency shall, consistent with its authority, cause the requirements of this section to be applied to such system. For purposes of subsection (i) of this section any such contractor and any employee of such contractor, if such contract is agreed to on or after the effective date of this section, shall be considered to be an employee of an agency.

(2) A consumer reporting agency to which a record is disclosed under section 3711(e) of title 31 shall not be considered a contractor for the purposes of this section.

(n) MAILING LISTS.—An individual's name and address may not be sold or rented by an agency unless such action is specifically authorized by law. This provision shall not be construed to require the withholding of names and addresses otherwise permitted to be made public.

(o) MATCHING AGREEMENTS.—(1) No record which is contained in a system of records may be disclosed to a recipient agency or non-Federal agency for use in a computer matching program except pursuant to a written agreement between the source agency and the recipient agency or non-Federal agency specifying—

(A) the purpose and legal authority for conducting the program;

(B) the justification for the program and the anticipated results, including a specific estimate of any savings;

(C) a description of the records that will be matched, including each data element that will be used, the approximate number of records that will be matched, and the projected starting and completion dates of the matching program;

(D) procedures for providing individualized notice at the time of application, and notice periodically thereafter as directed by the Data Integrity Board of such agency (subject to guidance provided by the Director of the Office of Management and Budget pursuant to subsection (v)), to—

(i) applicants for and recipients of financed assistance or payments under Federal benefit programs, and

(ii) applicants for and holders of positions as Federal personnel,

that any information provided by such applicants, recipients, holders, and individuals may be subject to verification through matching programs;

(E) procedures for verifying information produced in such matching program as required by subsection (p);

(F) procedures for the retention and timely destruction of identifiable records created by a recipient agency or non-Federal agency in such matching program;

(G) procedures for ensuring the administrative, technical, and physical security of the records matched and the results of such programs;

(H) prohibitions on duplication and redisclosure of records provided by the source agency within or outside the recipient agency or the non-Federal agency, except where required by law or essential to the conduct of the matching program;

(I) procedures governing the use by a recipient agency or non-Federal agency of records provided in a matching program by a source agency, including procedures governing return of the records to the source agency or destruction of records used in such program;

(J) information on assessments that have been made on the accuracy of the records that will be used in such matching program; and

(K) that the Comptroller General may have access to all records of a recipient agency or a non-Federal agency that the Comptroller General deems necessary in order to monitor or verify compliance with the agreement.

(2)(A) A copy of each agreement entered into pursuant to paragraph (1) shall—

(i) be transmitted to the Committee on Governmental Affairs of the Senate and the Committee on Government Operations of the House of Representatives; and

(ii) be available upon request to the public.

(B) No such agreement shall be effective until 30 days after the date on which such a copy is transmitted pursuant to subparagraph (A)(i).

(C) Such an agreement shall remain in effect only for such period, not to exceed 18 months, as the Data Integrity Board of the agency determines is appropriate in light of the purposes, and length of time necessary for the conduct, of the matching program.

(D) Within 3 months prior to the expiration of such an agreement pursuant to subparagraph (C), the Data Integrity Board of the agency may, without additional review, renew the matching agreement for a current, ongoing matching program for not more than one additional year if—

(i) such program will be conducted without any change; and

(ii) each party to the agreement certifies to the Board in writing that the program has been conducted in compliance with the agreement.

(p) VERIFICATION AND OPPORTUNITY TO CONTEST FINDINGS.—

(1) In order to protect any individual whose records are used in a matching program, no recipient agency, non-Federal agency, or source agency may suspend, terminate, reduce, or make a final denial of any financial assistance or payment under a Federal benefit program to such individual, or take other adverse action against such individual, as a result of information produced by such matching program, until—

(A)(i) the agency has independently verified the information; or

(ii) the Data Integrity Board of the agency, or in the case of a non-Federal agency the Data Integrity Board of the source agency, determines in accordance with guidance issued by the Director of the Office of Management and Budget that—

(I) the information is limited to identification and amount of benefits paid by the source agency under a Federal benefit program; and

(II) there is a high degree of confidence that the information provided to the recipient agency is accurate;

(B) the individual receives a notice from the agency containing a statement of its findings and informing the individual of the opportunity to contest such findings; and

(C)(i) the expiration of any time period established for the program by statute or regulation for the individual to respond to that notice; or

(ii) in the case of a program for which no such period is established, the end of the 30-day period beginning on the date on which notice under subparagraph (B) is mailed or otherwise provided to the individual.

(2) Independent verification referred to in paragraph (1) requires investigation and confirmation of specific information relating to an individual that is used as a basis for an adverse action against the individual, including where applicable investigation and confirmation of—

(A) the amount of any asset or income involved;

(B) whether such individual actually has or had access to such asset or income for such individual's own use; and

(C) the period or periods when the individual actually had such asset or income.

(3) Notwithstanding paragraph (1), an agency may take any appropriate action otherwise prohibited by such paragraph if the agency determines that the public health or public safety may be adversely affected or significantly threatened during any notice period required by such paragraph.

(q) SANCTIONS.—(1) Notwithstanding any other provision of law, no source agency may disclose any record with is contained in a system of records to a recipient agency or non-Federal agency for a matching program if such source agency has reason to believe that the requirements of subsection (p), or any matching agreement entered into pursuant to subsection (o), or both, are not being met by such recipient agency.

(2) No source agency may renew a matching agreement unless—

(A) the recipient agency or non-Federal agency has certified that it has complied with the provisions of that agreement; and

(B) the source agency has no reason to believe that the certification is inaccurate.

(r) REPORT ON NEW SYSTEMS AND MATCHING PROGRAMS.—Each agency that proposes to establish or make a significant change in a system of records or a matching program shall provide adequate advance notice of any such proposal (in duplicate) to the Committee on Government Operations of the House of Representa-

tives, the Committee on Governmental Affairs of the Senate, and the Office of Management and Budget in order to permit an evaluation of the probable or potential effect of such proposal on the privacy or other rights of individuals.

(s) BIENNIAL REPORT.—The President shall biennially submit to the Speaker of the House of Representatives and the President pro tempore of the Senate a report—

(1) describing the actions of the Director of the Office of Management and Budget pursuant to section 6 of the Privacy Act of 1974 during the preceding 2 years;

(2) describing the exercise of individual rights of access and amendment under this section during such years;

(3) identifying changes in or additions to systems of records;

(4) containing such other information concerning administration of this section as may be necessary or useful to the Congress in reviewing the effectiveness of this section in carrying out the purposes of the Privacy Act of 1974.

(t)(1) EFFECT OF OTHER LAWS.—No agency shall rely on any exemption contained in section 552 of this title to withhold from an individual any record which is otherwise accessible to such individual under the provisions of this section.

(2) No agency shall rely on any exemption in this section to withhold from an individual any record which is otherwise accessible to such individual under the provisions of section 552 of this title.

(u) DATA INTEGRITY BOARDS.—(1) Every agency conducting or participating in a matching program shall establish a Data Integrity Board to oversee and coordinate among the various components of such agency the agency's implementation of this section.

(2) Each Data Integrity Board shall consist of senior officials designated by the head of the agency, and shall include any senior official designated by the head of the agency as responsible for implementation of this section, and the inspector general of the agency, if any. The inspector general shall not serve as chairman of the Data Integrity Board.

(3) Each Data Integrity Board—

(A) shall review, approve, and maintain all written agreements for receipt or disclosure of agency records for matching programs to ensure compliance with subsection (o), and all relevant statutes, regulations, and guidelines;

(B) shall review all matching programs in which the agency has participated during the year, either as a source agency or recipient agency, determine compliance with applicable laws, regulations, guidelines, and agency agreements, and assess the costs and benefits of such programs;

(C) shall review all recurring matching programs in which the agency has participated during the year, either as a source agency or recipient agency, for continued justification for such disclosures;

(D) shall compile an annual report, which shall be submitted to the head of the agency and the Office of Management and Budget and made available to the public on request, describing the matching activities of the agency, including—

- (i) matching programs in which the agency has participated as a source agency or recipient agency;
  - (ii) matching agreements proposed under subsection (o) that were disapproved by the Board;
  - (iii) any changes in membership to structure of the Board in the preceding year;
  - (iv) the reasons for any waiver of the requirement in paragraph (4) of this section for completion and submission of a cost-benefit analysis prior to the approval of a matching program;
  - (v) any violations of matching agreements that have been alleged or identified and any corrective action taken; and
  - (vi) any other information required by the Director of the Office of Management and Budget to be included in such report;
- (E) shall serve as a clearinghouse for receiving and providing information on the accuracy, completeness, and reliability of records used in matching programs;
- (F) shall provide interpretation and guidance to agency components and personnel on the requirements of this section for matching programs;
- (G) shall review agency recordkeeping and disposal policies and practices for matching programs to assure compliance with this section; and
- (H) may review and report on any agency matching activities that are not matching programs.
- (4)(A) Except as provided in subparagraphs (B) and (C), a Data Integrity Board shall not approve any written agreement for a matching program unless the agency has completed and submitted to such Board a cost-benefit analysis of the proposed program and such analysis demonstrates that the program is likely to be cost effective.
- (B) The Board may waive the requirements of subparagraph (A) of this paragraph if it determines in writing, in accordance with guidelines prescribed by the Director of the Office of Management and Budget, that a cost-benefit analysis is not required.
- (C) A cost-benefit analysis shall not be required under subparagraph (A) prior to the initial approval of a written agreement for a matching program that is specifically required by statute. Any subsequent written agreement for such a program shall not be approved by the Data Integrity Board unless the agency has submitted a cost-benefit analysis of the program as conducted under the preceding approval of such agreement.
- (5)(A) If a matching agreement is disapproved by a Data Integrity Board, any party to such agreement may appeal the disapproval to the Director of the Office of Management and Budget. Timely notice of the filing of such an appeal shall be provided by the Director of the Office of Management and Budget to the Committee on Governmental Affairs of the Senate and the Committee on Government Operations of the House of Representatives.
- (B) The Director of the Office of Management and Budget may approve a matching agreement notwithstanding the disapproval of a Data Integrity Board if the Director determines that—

(i) the matching program will be consistent with all applicable legal, regulatory, and policy requirements;

(ii) there is adequate evidence that the matching agreement will be cost-effective; and

(iii) the matching program is in the public interest.

(C) The decision of the Director to approve a matching agreement shall not take effect until 30 days after it is reported to committees described in subparagraph (A).

(D) If the Data Integrity Board and the Director of the Office of Management and Budget disapprove a matching program proposed by the inspector general of an agency, the inspector general may report the disapproval to the head of the agency and to the Congress.

(6) In the reports required by paragraph (3)(D), agency matching activities that are not matching programs may be reported on an aggregate basis, if and to the extent necessary to protect ongoing law enforcement or counterintelligence investigations.

(v) OFFICE OF MANAGEMENT AND BUDGET RESPONSIBILITIES.—The Director of the Office of Management and Budget shall—

(1) develop and, after notice and opportunity for public comment, prescribe guidelines and regulations for the use of agencies in implementing the provisions of this section; and

(2) provide continuing assistance to an oversight of the implementation of this section by agencies.

#### § 552b. Open meetings

(a) For purposes of this section—

(1) the term “agency” means any agency, as defined in section 552(e) of this title, headed by a collegial body composed of two or more individual members, a majority of whom are appointed to such position by the President with the advice and consent of the Senate, and any subdivision thereof authorized to act on behalf of the agency;

(2) the term “meeting” means the deliberations of at least the number of individual agency members required to take action on behalf of the agency where such deliberations determine or result in the joint conduct or disposition of official agency business, but does not include deliberations required or permitted by subsection (d) or (e); and

(3) the term “member” means an individual who belongs to a collegial body heading an agency.

(b) Members shall not jointly conduct or dispose of agency business other than in accordance with this section. Except as provided in subsection (c), every portion of every meeting of an agency shall be open to public observation.

(c) Except in a case where the agency finds that the public interest requires otherwise, the second sentence of subsection (b) shall not apply to any portion of an agency meeting, and the requirements of subsections (d) and (e) shall not apply to any information pertaining to such meeting otherwise required by this section to be disclosed to the public, where the agency properly determines that such portion or portions of its meeting or the disclosure of such information is likely to—

(1) disclose matters that are (A) specifically authorized under criteria established by an Executive order to be kept se-

cret in the interests of national defense or foreign policy and (B) in fact properly classified pursuant to such Executive order;

(2) relate solely to the internal personnel rules and practices of an agency;

(3) disclose matters specifically exempted from disclosure by statute (other than section 552 of this title), provided that such statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (B) establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) involve accusing any person of a crime, or formally censuring any person;

(6) disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would (A) interfere with enforcement proceedings, (B) deprive a person of a right to a fair trial or an impartial adjudication, (C) constitute an unwarranted invasion of personal privacy, (D) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (E) disclose investigative techniques and procedures, or (F) endanger the life or physical safety of law enforcement personnel;

(8) disclose information contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions;

(9) disclose information the premature disclosure of which would—

(A) in the case of an agency which regulates currencies, securities, commodities, or financial institutions, be likely to (i) lead to significant financial speculation in currencies, securities, or commodities, or (ii) significantly endanger the stability of any financial institution; or

(B) in the case of any agency, be likely to significantly frustrate implementation of a proposed agency action, except that subparagraph (B) shall not apply in any instance where the agency has already disclosed to the public the content or nature of its proposed action, or where the agency is required by law to make such disclosure on its own initiative prior to taking final agency action on such proposal; or

(10) specifically concern the agency's issuance of a subpoena, or the agency's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the agency of a particular case of formal agency adjudication pursuant to the procedures in section 554 of this title or other-

wise involving a determination on the record after opportunity for a hearing.

(d)(1) Action under subsection (c) shall be taken only when a majority of the entire membership of the agency (as defined in subsection (a)(1)) votes to take such action. A separate vote of the agency members shall be taken with respect to each agency meeting a portion or portions of which are proposed to be closed to the public pursuant to subsection (c), or with respect to any information which is proposed to be withheld under subsection (c). A single vote may be taken with respect to a series of meetings, a portion or portions of which are proposed to be closed to the public, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular matters and is scheduled to be held no more than thirty days after the initial meeting in such series. The vote of each agency member participating in such vote shall be recorded and no proxies shall be allowed.

(2) Whenever any person whose interests may be directly affected by a portion of a meeting requests that the agency close such portion to the public for any of the reasons referred to in paragraph (5), (6), or (7) of subsection (c), the agency, upon request of any one of its members, shall vote by recorded vote whether to close such meeting.

(3) Within one day of any vote taken pursuant to paragraph (1) or (2), the agency shall make publicly available a written copy of such vote reflecting the vote of each member on the question. If a portion of a meeting is to be closed to the public, the agency shall, within one day of the vote taken pursuant to paragraph (1) or (2) of this subsection, make publicly available a full written explanation of its action closing the portion together with a list of all persons expected to attend the meeting and their affiliation.

(4) Any agency, a majority of whose meetings may properly be closed to the public pursuant to paragraph (4), (8), (9)(A), or (10) of subsection (c), or any combination thereof, may provide by regulation for the closing of such meetings or portions thereof in the event that a majority of the members of the agency votes by recorded vote at the beginning of such meeting, or portion thereof, to close the exempt portion or portions of the meeting, and a copy of such vote, reflecting the vote of each member on the question, is made available to the public. The provisions of paragraphs (1), (2), and (3) of this subsection and subsection (e) shall not apply to any portion of a meeting to which such regulations apply: *Provided*, That the agency shall, except to the extent that such information is exempt from disclosure under the provisions of subsection (c), provide the public with public announcement of the time, place, and subject matter of the meeting and of each portion thereof at the earliest practicable time.

(e)(1) In the case of each meeting, the agency shall make public announcement, at least one week before the meeting, of the time, place, and subject matter of the meeting, whether it is to be open or closed to the public, and the name and phone number of the official designated by the agency to respond to requests for information about the meeting. Such announcement shall be made unless a majority of the members of the agency determines by a recorded vote that agency business requires that such meeting be called at

an earlier date, in which case the agency shall make public announcement of the time, place, and subject matter of such meeting, and whether open or closed to the public, at the earliest practicable time.

(2) The time or place of a meeting may be changed following the public announcement required by paragraph (1) only if the agency publicly announces such change at the earliest practicable time. The subject matter of a meeting, or the determination of the agency to open or close a meeting, or portion of a meeting, to the public, may be changed following the public announcement required by this subsection only if (A) a majority of the entire membership of the agency determines by a recorded vote that agency business so requires and that no earlier announcement of the change was possible, and (B) the agency publicly announces such change and the vote of each member upon such change at the earliest practicable time.

(3) Immediately following each public announcement required by this subsection, notice of the time, place, and subject matter of a meeting, whether the meeting is open or closed, any change in one of the preceding, and the name and phone number of the official designated by the agency to respond to requests for information about the meeting, shall also be submitted for publication in the Federal Register.

(f)(1) For every meeting closed pursuant to paragraphs (1) through (10) of subsection (c), the General Counsel or chief legal officer of the agency shall publicly certify that, in his or her opinion, the meeting may be closed to the public and shall state each relevant exemptive provision. A copy of such certification, together with a statement from the presiding officer of the meeting setting forth the time and place of the meeting, and the persons present, shall be retained by the agency. The agency shall maintain a complete transcript or electronic recording adequate to record fully the proceedings of each meeting, or portion of a meeting, closed to the public, except that in the case of a meeting, or portion of a meeting, closed to the public pursuant to paragraph (8), (9)(A), or (10) of subsection (c), the agency shall maintain either such a transcript or recording, or a set of minutes. Such minutes shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of any actions taken, and the reasons therefor, including a description of each of the views expressed on any item and the record of any rollcall vote (reflecting the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

(2) The agency shall make promptly available to the public, in a place easily accessible to the public, the transcript, electronic recording, or minutes (as required by paragraph (1)) of the discussion of any item on the agenda, or of any item of the testimony of any witness received at the meeting, except for such item or items of such discussion or testimony as the agency determines to contain information which may be withheld under subsection (c). Copies of such transcript, or minutes, or a transcription of such recording disclosing the identity of each speaker, shall be furnished to any person at the actual cost of duplication or transcription. The agency shall maintain a complete verbatim copy of the transcript, a complete copy of the minutes, or a complete electronic recording of each

meeting, or portion of a meeting, closed to the public, for a period of at least two years after such meeting, or until one year after the conclusion of any agency proceeding with respect to which the meeting or portion was held, whichever occurs later.

(g) Each agency subject to the requirements of this section shall, within 180 days after the date of enactment of this section, following consultation with the Office of the Chairman of the Administrative Conference of the United States and published notice in the Federal Register of at least thirty days and opportunity for written comment by any person, promulgate regulations to implement the requirements of subsections (b) through (f) of this section. Any person may bring a proceeding in the United States District Court for the District of Columbia to require an agency to promulgate such regulations if such agency has not promulgated such regulations within the time period specified herein. Subject to any limitations of time provided by law, any person may bring a proceeding in the United States Court of Appeals for the District of Columbia to set aside agency regulations issued pursuant to this subsection that are not in accord with the requirements of subsections (b) through (f) of this section and to require the promulgation of regulations that are in accord with such subsections.

(h)(1) The district courts of the United States shall have jurisdiction to enforce the requirements of subsections (b) through (f) of this section by declaratory judgment, injunctive relief, or other relief as may be appropriate. Such actions may be brought by any person against an agency prior to, or within sixty days after, the meeting out of which the violation of this section arises, except that if public announcement of such meeting is not initially provided by the agency in accordance with the requirements of this section, such action may be instituted pursuant to this section at any time prior to sixty days after any public announcement of such meeting. Such actions may be brought in the district court of the United States for the district in which the agency meeting is held or in which the agency in question has its headquarters, or in the District Court for the District of Columbia. In such actions a defendant shall serve his answer within thirty days after the service of the complaint. The burden is on the defendant to sustain his action. In deciding such cases the court may examine in camera any portion of the transcript, electronic recording, or minutes of a meeting closed to the public, and may take such additional evidence as it deems necessary. The court, having due regard for orderly administration and the public interest, as well as the interests of the parties, may grant such equitable relief as it deems appropriate, including granting an injunction against future violations of this section or ordering the agency to make available to the public such portion of the transcript, recording, or minutes of a meeting as is not authorized to be withheld under subsection (c) of this section.

(2) Any Federal court otherwise authorized by law to review agency action may, at the application of any person properly participating in the proceeding pursuant to other applicable law, inquire into violations by the agency of the requirements of this section and afford such relief as it deems appropriate. Nothing in this section authorizes any Federal court having jurisdiction solely on the basis of paragraph (1) to set aside, enjoin, or invalidate any agency action (other than an action to close a meeting or to with-

hold information under this section) taken or discussed at any agency meeting out of which the violation of this section arose.

(i) The court may assess against any party reasonable attorney fees and other litigation costs reasonably incurred by any other party who substantially prevails in any action brought in accordance with the provisions of subsection (g) or (h) of this section, except that costs may be assessed against the plaintiff only where the court finds that the suit was initiated by the plaintiff primarily for frivolous or dilatory purposes. In the case of assessment of costs against an agency, the costs may be assessed by the court against the United States.

(j) Each agency subject to the requirements of this section shall annually report to the Congress regarding the following:

(1) The changes in the policies and procedures of the agency under this section that have occurred during the preceding 1-year period.

(2) A tabulation of the number of meetings held, the exemptions applied to close meetings, and the days of public notice provided to close meetings.

(3) A brief description of litigation or formal complaints concerning the implementation of this section by the agency.

(4) A brief explanation of any changes in law that have affected the responsibilities of the agency under this section.

(k) Nothing herein expands or limits the present rights of any person under section 552 of this title, except that the exemptions set forth in subsection (c) of this section shall govern in the case of any request made pursuant to section 552 to copy or inspect the transcripts, recordings, or minutes described in subsection (f) of this section. The requirements of chapter 33 of title 44, United States Code, shall not apply to the transcripts, recordings, and minutes described in subsection (f) of this section.

(l) This section does not constitute authority to withhold any information from Congress, and does not authorize the closing of any agency meeting or portion thereof required by any other provision of law to be open.

(m) Nothing in this section authorizes any agency to withhold from any individual any record, including transcripts, recordings, or minutes required by this section, which is otherwise accessible to such individual under section 552a of this title.

### § 553. Rule making

(a) This section applies, according to the provisions thereof, except to the extent that there is involved—

(1) a military or foreign affairs function of the United States; or

(2) a matter relating to agency management or personnel or to public property, loans, grants, benefits, or contracts.

(b) General notice of proposed rule making shall be published in the Federal Register, unless persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law. The notice shall include—

(1) a statement of the time, place, and nature of public rule making proceedings;

(2) reference to the legal authority under which the rule is proposed; and

(3) either the terms or substance of the proposed rule or a description of the subjects and issues involved. Except when notice or hearing is required by statute, this subsection does not apply—

(A) to interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice; or

(B) when the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.

(c) After notice required by this section, the agency shall give interested persons an opportunity to participate in the rule making through submission of written data, views, or arguments with or without opportunity for oral presentation. After consideration of the relevant matter presented, the agency shall incorporate in the rules adopted a concise general statement of their basis and purpose. When rules are required by statute to be made on the record after opportunity for an agency hearing, sections 556 and 557 of this title apply instead of this subsection.

(d) The required publication or service of a substantive rule shall be made not less than 30 days before its effective date, except—

(1) a substantive rule which grants or recognizes an exemption or relieves a restriction;

(2) interpretative rules and statements of policy; or

(3) as otherwise provided by the agency for good cause found and published with the rule.

(e) Each agency shall give an interested person the right to petition for the issuance, amendment, or repeal of a rule.

#### § 554. Adjudications

(a) This section applies, according to the provisions thereof, in every case of adjudication required by statute to be determined on the record after opportunity for an agency hearing, except to the extent that there is involved—

(1) a matter subject to a subsequent trial of the law and the facts de novo in a court;

(2) the selection or tenure of an employee, except a<sup>1</sup> administrative law judge appointed under section 3105 of this title;

(3) proceedings in which decisions rest solely on inspections, tests, or elections;

(4) the conduct of military or foreign affairs functions;

(5) cases in which an agency is acting as an agent for a court; or

(6) the certification of worker representatives.

(b) Persons entitled to notice of an agency hearing shall be timely informed of—

(1) the time, place, and nature of the hearings;

(2) the legal authority and jurisdiction under which the hearing is to be held; and

(3) the matters of fact and law asserted.

<sup>1</sup> So in original. Probably should be “an”.

When private persons are the moving parties, other parties to the proceeding shall give prompt notice of issues controverted in fact or law; and in other instances agencies may by rule require responsive pleading. In fixing the time and place for hearings, due regard shall be had for the convenience and necessity of the parties or their representatives.

(c) The agency shall give all interested parties opportunity for—

(1) the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment when time, the nature of the proceeding, and the public interest permit; and

(2) to the extent that the parties are unable so to determine a controversy by consent, hearing and decision on notice and in accordance with sections 556 and 557 of this title.

(d) The employee who presides at the reception of evidence pursuant to section 556 of this title shall make the recommended decision or initial decision required by section 557 of this title, unless he becomes unavailable to the agency. Except to the extent required for the disposition of ex parte matters as authorized by law, such an employee may not—

(1) consult a person or party on a fact in issue, unless on notice and opportunity for all parties to participate; or

(2) be responsible to or subject to the supervision or direction of an employee or agent engaged in the performance of investigative or prosecuting functions for an agency.

An employee or agent engaged in the performance of investigative or prosecuting functions for an agency in a case may not, in that or a factually related case, participate or advise in the decision, recommended decision, or agency review pursuant to section 557 of this title, except as witness or counsel in public proceedings. This subsection does not apply—

(A) in determining applications for initial licenses;

(B) to proceedings involving the validity or application of rates, facilities, or practices of public utilities or carriers; or

(C) to the agency or a member or members of the body comprising the agency.

(e) The agency, with like effect as in the case of other orders, and in its sound discretion, may issue a declaratory order to terminate a controversy or remove uncertainty.

#### **§ 555. Ancillary matters**

(a) This section applies, according to the provisions thereof, except as otherwise provided by this subchapter.

(b) A person compelled to appear in person before an agency or representative thereof is entitled to be accompanied, represented, and advised by counsel or, if permitted by the agency, by other qualified representative. A party is entitled to appear in person or by or with counsel or other duly qualified representative in an agency proceeding. So far as the orderly conduct of public business permits, an interested person may appear before an agency or its responsible employees for the presentation, adjustment, or determination of an issue, request, or controversy in a proceeding, whether interlocutory, summary, or otherwise, or in connection with an agency function. With due regard for the convenience and necessity of the parties or their representatives and within a rea-

sonable time, each agency shall proceed to conclude a matter presented to it. This subsection does not grant or deny a person who is not a lawyer the right to appear for or represent others before an agency or in an agency proceeding.

(c) Process, requirement of a report, inspection, or other investigative act or demand may not be issued, made, or enforced except as authorized by law. A person compelled to submit data or evidence is entitled to retain or, on payment of lawfully prescribed costs, procure a copy or transcript thereof, except that in a non-public investigatory proceeding the witness may for good cause be limited to inspection of the official transcript of his testimony.

(d) Agency subpoenas authorized by law shall be issued to a party on request and, when required by rules of procedure, on a statement or showing of general relevance and reasonable scope of the evidence sought. On contest, the court shall sustain the subpoena or similar process or demand to the extent that it is found to be in accordance with law. In a proceeding for enforcement, the court shall issue an order requiring the appearance of the witness or the production of the evidence or data within a reasonable time under penalty of punishment for contempt in case of contumacious failure to comply.

(e) Prompt notice shall be given of the denial in whole or in part of a written application, petition, or other request of an interested person made in connection with any agency proceedings. Except in affirming a prior denial or when the denial is self-explanatory, the notice shall be accompanied by a brief statement of the grounds for denial.

**§ 556. Hearings; presiding employees; powers and duties; burden of proof; evidence; record as basis of decision**

(a) This section applies, according to the provisions thereof, to hearings required by section 553 or 554 of this title to be conducted in accordance with this section.

(b) There shall preside at the taking of evidence—

- (1) the agency;
- (2) one or more members of the body which comprises the agency; or
- (3) one or more administrative law judges appointed under section 3105 of this title.

This subchapter does not supersede the conduct of specified classes of proceedings, in whole or in part, by or before boards or other employees specially provided for by or designated under statute. The functions of presiding employees and of employees participating in decisions in accordance with section 557 of this title shall be conducted in an impartial manner. A presiding or participating employee may at any time disqualify himself. On the filing in good faith of a timely and sufficient affidavit of personal bias or other disqualification of a presiding or participating employee, the agency shall determine the matter as a part of the record and decision in the case.

(c) Subject to published rules of the agency and within its powers, employees presiding at hearings may—

- (1) administer oaths and affirmations;
- (2) issue subpoenas authorized by law;

- (3) rule on offers of proof and receive relevant evidence;
- (4) take depositions or have depositions taken when the ends of justice would be served;
- (5) regulate the course of the hearing;
- (6) hold conferences for the settlement or simplification of the issues by consent of the parties or by the use of alternative means of dispute resolution as provided in subchapter IV of this chapter;
- (7) inform the parties as to the availability of one or more alternative means of dispute resolution, and encourage use of such methods;
- (8) require the attendance at any conference held pursuant to paragraph (6) of at least one representative of each party who has authority to negotiate concerning resolution of issues in controversy;
- (9) dispose of procedural requests or similar matters;
- (10) make or recommend decisions in accordance with section 557 of this title; and
- (11) take other action authorized by agency rule consistent with this subchapter.

(d) Except as otherwise provided by statute, the proponent of a rule or order has the burden of proof. Any oral or documentary evidence may be received, but the agency as a matter of policy shall provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence. A sanction may not be imposed or rule or order issued except on consideration of the whole record or those parts thereof cited by a party and supported by and in accordance with the reliable, probative, and substantial evidence. The agency may, to the extent consistent with the interests of justice and the policy of the underlying statutes administered by the agency, consider a violation of section 557(d) of this title sufficient grounds for a decision adverse to a party who has knowingly committed such violation or knowingly caused such violation to occur. A party is entitled to present his case or defense by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. In rule making or determining claims for money or benefits or applications for initial licenses an agency may, when a party will not be prejudiced thereby, adopt procedures for the submission of all or part of the evidence in written form.

(e) The transcript of testimony and exhibits, together with all papers and requests filed in the proceeding, constitutes the exclusive record for decision in accordance with section 557 of this title and, on payment of lawfully prescribed costs, shall be made available to the parties. When an agency decision rests on official notice of a material fact not appearing in the evidence in the record, a party is entitled, on timely request, to an opportunity to show the contrary.

**§ 557. Initial decisions; conclusiveness; review by agency; submissions by parties; contents of decisions; record**

(a) This section applies, according to the provisions thereof, when a hearing is required to be conducted in accordance with section 556 of this title.

(b) When the agency did not preside at the reception of the evidence, the presiding employee or, in cases not subject to section 554(d) of this title, an employee qualified to preside at hearings pursuant to section 556 of this title, shall initially decide the case unless the agency requires, either in specific cases or by general rule, the entire record to be certified to it for decision. When the presiding employee makes an initial decision, that decision then becomes the decision of the agency without further proceedings unless there is an appeal to, or review on motion of, the agency within time provided by rule. On appeal from or review of the initial decision, the agency has all the powers which it would have in making the initial decision except as it may limit the issues on notice or by rule. When the agency makes the decision without having presided at the reception of the evidence, the presiding employee or an employee qualified to preside at hearings pursuant to section 556 of this title shall first recommend a decision, except that in rule making or determining applications for initial licenses—

(1) instead thereof the agency may issue a tentative decision or one of its responsible employees may recommend a decision; or

(2) this procedure may be omitted in a case in which the agency finds on the record that due and timely execution of its functions imperatively and unavoidably so requires.

(c) Before a recommended, initial, or tentative decision, or a decision on agency review of the decision of subordinate employees, the parties are entitled to a reasonable opportunity to submit for the consideration of the employees participating in the decisions—

(1) proposed findings and conclusions; or

(2) exceptions to the decisions or recommended decisions of subordinate employees or to tentative agency decisions; and

(3) supporting reasons for the exceptions or proposed findings or conclusions.

The record shall show the ruling on each finding, conclusion, or exception presented. All decisions, including initial, recommended, and tentative decisions, are a part of the record and shall include a statement of—

(A) findings and conclusions, and the reasons or basis therefor, on all the material issues of fact, law, or discretion presented on the record; and

(B) the appropriate rule, order, sanction, relief, or denial thereof.

(d)(1) In any agency proceeding which is subject to subsection (a) of this section, except to the extent required for the disposition of ex parte matters as authorized by law—

(A) no interested person outside the agency shall make or knowingly cause to be made to any member of the body comprising the agency, administrative law judge, or other employee who is or may reasonably be expected to be involved in the decisional process of the proceeding, an ex parte communication relevant to the merits of the proceeding;

(B) no member of the body comprising the agency, administrative law judge, or other employee who is or may reasonably be expected to be involved in the decisional process of the proceeding, shall make or knowingly cause to be made to any

interested person outside the agency an ex parte communication relevant to the merits of the proceeding;

(C) a member of the body comprising the agency, administrative law judge, or other employee who is or may reasonably be expected to be involved in the decisional process of such proceeding who receives, or who makes or knowingly causes to be made, a communication prohibited by this subsection shall place on the public record of the proceeding:

(i) all such written communications;

(ii) memoranda stating the substance of all such oral communications; and

(iii) all written responses, and memoranda stating the substance of all oral responses, to the materials described in clauses (i) and (ii) of this subparagraph;

(D) upon receipt of a communication knowingly made or knowingly caused to be made by a party in violation of this subsection, the agency, administrative law judge, or other employee presiding at the hearing may, to the extent consistent with the interests of justice and the policy of the underlying statutes, require the party to show cause why his claim or interest in the proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected on account of such violation; and

(E) the prohibitions of this subsection shall apply beginning at such time as the agency may designate, but in no case shall they begin to apply later than the time at which a proceeding is noticed for hearing unless the person responsible for the communication has knowledge that it will be noticed, in which case the prohibitions shall apply beginning at the time of his acquisition of such knowledge.

(2) This subsection does not constitute authority to withhold information from Congress.

**§ 558. Imposition of sanctions; determination of applications for licenses; suspension, revocation, and expiration of licenses**

(a) This section applies, according to the provisions thereof, to the exercise of a power or authority.

(b) A sanction may not be imposed or a substantive rule or order issued except within jurisdiction delegated to the agency and as authorized by law.

(c) When application is made for a license required by law, the agency, with due regard for the rights and privileges of all the interested parties or adversely affected persons and within a reasonable time, shall set and complete proceedings required to be conducted in accordance with sections 556 and 557 of this title or other proceedings required by law and shall make its decision. Except in cases of willfulness or those in which public health, interest, or safety requires otherwise, the withdrawal, suspension, revocation, or annulment of a license is lawful only if, before the institution of agency proceedings therefor, the licensee has been given—

(1) notice by the agency in writing of the facts or conduct which may warrant the action; and

(2) opportunity to demonstrate or achieve compliance with all lawful requirements.

When the licensee has made timely and sufficient application for a renewal or a new license in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency.

**§ 559. Effect on other laws; effect of subsequent statute**

This subchapter, chapter 7, and sections 1305, 3105, 3344, 4301(2)(E), 5372, and 7521 of this title, and the provisions of section 5335(a)(B) of this title that relate to administrative law judges, do not limit or repeal additional requirements imposed by statute or otherwise recognized by law. Except as otherwise required by law, requirements or privileges relating to evidence or procedure apply equally to agencies and persons. Each agency is granted the authority necessary to comply with the requirements of this subchapter through the issuance of rules or otherwise. Subsequent statute may not be held to supersede or modify this subchapter, chapter 7, sections 1305, 3105, 3344, 4301(2)(E), 5372, or 7521 of this title, or the provisions of section 5335(a)(B) of this title that relate to administrative law judges, except to the extent that it does so expressly.

**CHAPTER 6—THE ANALYSIS OF REGULATORY  
FUNCTIONS**

( §§ 601–612 )

Sec.	
601.	Definitions.
602.	Regulatory agenda.
603.	Initial regulatory flexibility analysis.
604.	Final regulatory flexibility analysis.
605.	Avoidance of duplicative or unnecessary analyses.
606.	Effect on other law.
607.	Preparation of analyses.
608.	Procedure for waiver or delay of completion.
609.	Procedures for gathering comments.
610.	Periodic review of rules.
611.	Judicial review.
612.	Reports and intervention rights.

**§ 601. Definitions**

For purposes of this chapter—

(1) the term “agency” means an agency as defined in section 551(1) of this title;

(2) the term “rule” means any rule for which the agency publishes a general notice of proposed rulemaking pursuant to section 553(b) of this title, or any other law, including any rule of general applicability governing Federal grants to State and local governments for which the agency provides an opportunity for notice and public comment, except that the term “rule” does not include a rule of particular applicability relating to rates, wages, corporate or financial structures or reorganizations thereof, prices, facilities, appliances, services, or allowances therefor or to valuations, costs or accounting, or practices relating to such rates, wages, structures, prices, appliances, services, or allowances;

(3) the term “small business” has the same meaning as the term “small business concern” under section 3 of the Small Business Act, unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register;

(4) the term “small organization” means any not-for-profit enterprise which is independently owned and operated and is not dominant in its field, unless an agency establishes, after opportunity for public comment, one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register;

(5) the term “small governmental jurisdiction” means governments of cities, counties, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand, unless an agency establishes, after opportunity for public comment, one or more definitions of such term which are appropriate to the activities of the agency and which are based on such factors as location in rural or sparsely populated areas or limited revenues due to the population of such jurisdiction, and publishes such definition(s) in the Federal Register;

(6) the term “small entity” shall have the same meaning as the terms “small business”, “small organization” and “small governmental jurisdiction” defined in paragraphs (3), (4) and (5) of this section; and <sup>1</sup>

(7) the term “collection of information”—

(A) means the obtaining, causing to be obtained, soliciting, or requiring the disclosure to third parties or the public, of facts or opinions by or for an agency, regardless of form or format, calling for either—

(i) answers to identical questions posed to, or identical reporting or recordkeeping requirements imposed on, 10 or more persons, other than agencies, instrumentalities, or employees of the United States; or

(ii) answers to questions posed to agencies, instrumentalities, or employees of the United States which are to be used for general statistical purposes; and

(B) shall not include a collection of information described under section 3518(c)(1) of title 44, United States Code.<sup>1</sup>

(8)<sup>1</sup> RECORDKEEPING REQUIREMENT.—The term “record-keeping requirement” means a requirement imposed by an agency on persons to maintain specified records.

### § 602. Regulatory agenda

(a) During the months of October and April of each year, each agency shall publish in the Federal Register a regulatory flexibility agenda which shall contain—

<sup>1</sup>So in law. Section 241(a)(2) of P.L. 104–121 (110 Stat. 864) amended paragraph (6) by striking the period and inserting “; and”, and added new paragraphs (7) and (8).

(1) a brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) a summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking,<sup>1</sup> and

(3) the name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

(b) Each regulatory flexibility agenda shall be transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any.

(c) Each agency shall endeavor to provide notice of each regulatory flexibility agenda to small entities or their representatives through direct notification or publication of the agenda in publications likely to be obtained by such small entities and shall invite comments upon each subject area on the agenda.

(d) Nothing in this section precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda, or requires an agency to consider or act on any matter listed in such agenda.

### **§ 603. Initial regulatory flexibility analysis**

(a) Whenever an agency is required by section 553 of this title, or any other law, to publish general notice of proposed rulemaking for any proposed rule, or publishes a notice of proposed rulemaking for an interpretative rule involving the internal revenue laws of the United States, the agency shall prepare and make available for public comment an initial regulatory flexibility analysis. Such analysis shall describe the impact of the proposed rule on small entities. The initial regulatory flexibility analysis or a summary shall be published in the Federal Register at the time of the publication of general notice of proposed rulemaking for the rule. The agency shall transmit a copy of the initial regulatory flexibility analysis to the Chief Counsel for Advocacy of the Small Business Administration. In the case of an interpretative rule involving the internal revenue laws of the United States, this chapter applies to interpretative rules published in the Federal Register for codification in the Code of Federal Regulations, but only to the extent that such interpretative rules impose on small entities a collection of information requirement.

(b) Each initial regulatory flexibility analysis required under this section shall contain—

(1) a description of the reasons why action by the agency is being considered;

(2) a succinct statement of the objectives of, and legal basis for, the proposed rule;

(3) a description of and, where feasible, an estimate of the number of small entities to which the proposed rule will apply;

<sup>1</sup> So in original. The comma probably should be a semicolon.

(4) a description of the projected reporting, recordkeeping and other compliance requirements of the proposed rule, including an estimate of the classes of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record;<sup>1</sup>

(5) an identification, to the extent practicable, of all relevant Federal rules which may duplicate, overlap or conflict with the proposed rule.

(c) Each initial regulatory flexibility analysis shall also contain a description of any significant alternatives to the proposed rule which accomplish the stated objectives of applicable statutes and which minimize any significant economic impact of the proposed rule on small entities. Consistent with the stated objectives of applicable statutes, the analysis shall discuss significant alternatives such as—

(1) the establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities;

(2) the clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities;

(3) the use of performance rather than design standards; and

(4) an exemption from coverage of the rule, or any part thereof, for such small entities.

#### § 604. Final regulatory flexibility analysis

(a) When an agency promulgates a final rule under section 553 of this title, after being required by that section or any other law to publish a general notice of proposed rulemaking, or promulgates a final interpretative rule involving the internal revenue laws of the United States as described in section 603(a), the agency shall prepare a final regulatory flexibility analysis. Each final regulatory flexibility analysis shall contain—

(1) a succinct statement of the need for, and objectives of, the rule;

(2) a summary of the significant issues raised by the public comments in response to the initial regulatory flexibility analysis, a summary of the assessment of the agency of such issues, and a statement of any changes made in the proposed rule as a result of such comments;

(3) a description of and an estimate of the number of small entities to which the rule will apply or an explanation of why no such estimate is available;

(4) a description of the projected reporting, recordkeeping and other compliance requirements of the rule, including an estimate of the classes of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record; and

(5) a description of the steps the agency has taken to minimize the significant economic impact on small entities consistent with the stated objectives of applicable statutes, including a statement of the factual, policy, and legal reasons for se-

<sup>1</sup> So in law. Probably should be “; and”.

lecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected.

(b) The agency shall make copies of the final regulatory flexibility analysis available to members of the public and shall publish in the Federal Register such analysis or a summary thereof.

#### **§ 605. Avoidance of duplicative or unnecessary analyses**

(a) Any Federal agency may perform the analyses required by sections 602, 603, and 604 of this title in conjunction with or as a part of any other agenda or analysis required by any other law if such other analysis satisfies the provisions of such sections.

(b) Sections 603 and 604 of this title shall not apply to any proposed or final rule if the head of the agency certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. If the head of the agency makes a certification under the preceding sentence, the agency shall publish such certification in the Federal Register at the time of publication of general notice of proposed rulemaking for the rule or at the time of publication of the final rule, along with a statement providing the factual basis for such certification. The agency shall provide such certification and statement to the Chief Counsel for Advocacy of the Small Business Administration.

(c) In order to avoid duplicative action, an agency may consider a series of closely related rules as one rule for the purposes of sections 602, 603, 604 and 610 of this title.

#### **§ 606. Effect on other law**

The requirements of sections 603 and 604 of this title do not alter in any manner standards otherwise applicable by law to agency action.

#### **§ 607. Preparation of analyses**

In complying with the provisions of sections 603 and 604 of this title, an agency may provide either a quantifiable or numerical description of the effects of a proposed rule or alternatives to the proposed rule, or more general descriptive statements if quantification is not practicable or reliable.

#### **§ 608. Procedure for waiver or delay of completion**

(a) An agency head may waive or delay the completion of some or all of the requirements of section 603 of this title by publishing in the Federal Register, not later than the date of publication of the final rule, a written finding, with reasons therefor, that the final rule is being promulgated in response to an emergency that makes compliance or timely compliance with the provisions of section 603 of this title impracticable.

(b) Except as provided in section 605(b), an agency head may not waive the requirements of section 604 of this title. An agency head may delay the completion of the requirements of section 604 of this title for a period of not more than one hundred and eighty days after the date of publication in the Federal Register of a final rule by publishing in the Federal Register, not later than such date of publication, a written finding, with reasons therefor, that the

final rule is being promulgated in response to an emergency that makes timely compliance with the provisions of section 604 of this title impracticable. If the agency has not prepared a final regulatory analysis pursuant to section 604 of this title within one hundred and eighty days from the date of publication of the final rule, such rule shall lapse and have no effect. Such rule shall not be repromulgated until a final regulatory flexibility analysis has been completed by the agency.

**§ 609. Procedures for gathering comments**

(a) When any rule is promulgated which will have a significant economic impact on a substantial number of small entities, the head of the agency promulgating the rule or the official of the agency with statutory responsibility for the promulgation of the rule shall assure that small entities have been given an opportunity to participate in the rulemaking for the rule through techniques<sup>1</sup> such as—

(1) the inclusion in an advanced notice of proposed rulemaking, if issued, of a statement that the proposed rule may have a significant economic effect on a substantial number of small entities;

(2) the publication of general notice of proposed rulemaking in publications likely to be obtained by small entities;

(3) the direct notification of interested small entities;

(4) the conduct of open conferences or public hearings concerning the rule for small entities including soliciting and receiving comments over computer networks; and

(5) the adoption or modification of agency procedural rules to reduce the cost or complexity of participation in the rulemaking by small entities.

(b) Prior to publication of an initial regulatory flexibility analysis which a covered agency is required to conduct by this chapter—

(1) a covered agency shall notify the Chief Counsel for Advocacy of the Small Business Administration and provide the Chief Counsel with information on the potential impacts of the proposed rule on small entities and the type of small entities that might be affected;

(2) not later than 15 days after the date of receipt of the materials described in paragraph (1), the Chief Counsel shall identify individuals representative of affected small entities for the purpose of obtaining advice and recommendations from those individuals about the potential impacts of the proposed rule;

(3) the agency shall convene a review panel for such rule consisting wholly of full time Federal employees of the office within the agency responsible for carrying out the proposed rule, the Office of Information and Regulatory Affairs within the Office of Management and Budget, and the Chief Counsel;

(4) the panel shall review any material the agency has prepared in connection with this chapter, including any draft proposed rule, collect advice and recommendations of each indi-

<sup>1</sup>Section 244(a)(1) of P.L. 104-121 attempted to amend section 609 by inserting "the reasonable use of" before "techniques.". The comma probably should not appear after "techniques".

vidual small entity representative identified by the agency after consultation with the Chief Counsel, on issues related to subsections 603(b), paragraphs (3), (4) and (5) and 603(c)<sup>1</sup>;

(5) not later than 60 days after the date a covered agency convenes a review panel pursuant to paragraph (3), the review panel shall report on the comments of the small entity representatives and its findings as to issues related to subsections 603(b), paragraphs (3), (4) and (5) and 603(c)<sup>1</sup>, provided that such report shall be made public as part of the rulemaking record; and

(6) where appropriate, the agency shall modify the proposed rule, the initial regulatory flexibility analysis or the decision on whether an initial regulatory flexibility analysis is required.

(c) An agency may in its discretion apply subsection (b) to rules that the agency intends to certify under subsection 605(b), but the agency believes may have a greater than de minimis impact on a substantial number of small entities.

(d) For purposes of this section, the term “covered agency” means the Environmental Protection Agency and the Occupational Safety and Health Administration of the Department of Labor.

(e) The Chief Counsel for Advocacy, in consultation with the individuals identified in subsection (b)(2), and with the Administrator of the Office of Information and Regulatory Affairs within the Office of Management and Budget, may waive the requirements of subsections (b)(3), (b)(4), and (b)(5) by including in the rulemaking record a written finding, with reasons therefor, that those requirements would not advance the effective participation of small entities in the rulemaking process. For purposes of this subsection, the factors to be considered in making such a finding are as follows:

(1) In developing a proposed rule, the extent to which the covered agency consulted with individuals representative of affected small entities with respect to the potential impacts of the rule and took such concerns into consideration.

(2) Special circumstances requiring prompt issuance of the rule.

(3) Whether the requirements of subsection (b) would provide the individuals identified in subsection (b)(2) with a competitive advantage relative to other small entities.

### § 610. Periodic review of rules

(a) Within one hundred and eighty days after the effective date of this chapter, each agency shall publish in the Federal Register a plan for the periodic review of the rules issued by the agency which have or will have a significant economic impact upon a substantial number of small entities. Such plan may be amended by the agency at any time by publishing the revision in the Federal Register. The purpose of the review shall be to determine whether such rules should be continued without change, or should be amended or rescinded, consistent with the stated objectives of applicable statutes, to minimize any significant economic impact of the rules upon a substantial number of such small entities. The plan shall provide for the review of all such agency rules existing

<sup>1</sup> So in law. See section 244(a)(4) of P.L. 104–121 (110 Stat. 867).

on the effective date of this chapter within ten years of that date and for the review of such rules adopted after the effective date of this chapter within ten years of the publication of such rules as the final rule. If the head of the agency determines that completion of the review of existing rules is not feasible by the established date, he shall so certify in a statement published in the Federal Register and may extend the completion date by one year at a time for a total of not more than five years.

(b) In reviewing rules to minimize any significant economic impact of the rule on a substantial number of small entities in a manner consistent with the stated objectives of applicable statutes, the agency shall consider the following factors—

- (1) the continued need for the rule;
- (2) the nature of complaints or comments received concerning the rule from the public;
- (3) the complexity of the rule;
- (4) the extent to which the rule overlaps, duplicates or conflicts with other Federal rules, and, to the extent feasible, with State and local governmental rules; and
- (5) the length of time since the rule has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the rule.

(c) Each year, each agency shall publish in the Federal Register a list of the rules which have a significant economic impact on a substantial number of small entities, which are to be reviewed pursuant to this section during the succeeding twelve months. The list shall include a brief description of each rule and the need for and legal basis of such rule and shall invite public comment upon the rule.

#### § 611. Judicial review

(a)(1) For any rule subject to this chapter, a small entity that is adversely affected or aggrieved by final agency action is entitled to judicial review of agency compliance with the requirements of sections 601, 604, 605(b), 608(b), and 610 in accordance with chapter 7. Agency compliance with sections 607 and 609(a) shall be judicially reviewable in connection with judicial review of section 604.

(2) Each court having jurisdiction to review such rule for compliance with section 553, or under any other provision of law, shall have jurisdiction to review any claims of noncompliance with sections 601, 604, 605(b), 608(b), and 610 in accordance with chapter 7. Agency compliance with sections 607 and 609(a) shall be judicially reviewable in connection with judicial review of section 604.

(3)(A) A small entity may seek such review during the period beginning on the date of final agency action and ending one year later, except that where a provision of law requires that an action challenging a final agency action be commenced before the expiration of one year, such lesser period shall apply to an action for judicial review under this section.

(B) In the case where an agency delays the issuance of a final regulatory flexibility analysis pursuant to section 608(b) of this chapter, an action for judicial review under this section shall be filed not later than—

- (i) one year after the date the analysis is made available to the public, or

(ii) where a provision of law requires that an action challenging a final agency regulation be commenced before the expiration of the 1-year period, the number of days specified in such provision of law that is after the date the analysis is made available to the public.

(4) In granting any relief in an action under this section, the court shall order the agency to take corrective action consistent with this chapter and chapter 7, including, but not limited to—

(A) remanding the rule to the agency, and

(B) deferring the enforcement of the rule against small entities unless the court finds that continued enforcement of the rule is in the public interest.

(5) Nothing in this subsection shall be construed to limit the authority of any court to stay the effective date of any rule or provision thereof under any other provision of law or to grant any other relief in addition to the requirements of this section.

(b) In an action for the judicial review of a rule, the regulatory flexibility analysis for such rule, including an analysis prepared or corrected pursuant to paragraph (a)(4), shall constitute part of the entire record of agency action in connection with such review.

(c) Compliance or noncompliance by an agency with the provisions of this chapter shall be subject to judicial review only in accordance with this section.

(d) Nothing in this section bars judicial review of any other impact statement or similar analysis required by any other law if judicial review of such statement or analysis is otherwise permitted by law.

### § 612. Reports and intervention rights

(a) The Chief Counsel for Advocacy of the Small Business Administration shall monitor agency compliance with this chapter and shall report at least annually thereon to the President and to the Committees on the Judiciary of the Senate and House of Representatives, the Select Committee on Small Business of the Senate, and the Committee on Small Business of the House of Representatives.<sup>1</sup>

(b) The Chief Counsel for Advocacy of the Small Business Administration is authorized to appear as *amicus curiae* in any action brought in a court of the United States to review a rule. In any such action, the Chief Counsel is authorized to present his or her views with respect to compliance with this chapter, the adequacy of the rulemaking record with respect to small entities and the effect of the rule on small entities.

(c) A court of the United States shall grant the application of the Chief Counsel for Advocacy of the Small Business Administration to appear in any such action for the purposes described in subsection (b).

<sup>1</sup>Section 243(b)(1) of P.L.104–121 attempted to amend section 612(a) by striking “the committees on the Judiciary of the Senate and the House of Representatives, the Select Committee on Small Business of the Senate, and the Committee on Small Business of the House of Representatives” and inserting “the Committees on the Judiciary and Small Business of the Senate and House of Representatives”. The amendment was not executed because the matter proposed to be stricken is not an exact statement of the law.

**CHAPTER 7—JUDICIAL REVIEW**

( §§ 701–706 )

Sec.	
701.	Application; definitions.
702.	Right of review.
703.	Form and venue of proceeding.
704.	Actions reviewable.
705.	Relief pending review.
706.	Scope of review.

**§ 701. Application; definitions**

(a) This chapter applies, according to the provisions thereof, except to the extent that—

- (1) statutes preclude judicial review; or
- (2) agency action is committed to agency discretion by law.

(b) For the purpose of this chapter—

(1) “agency” means each authority of the Government of the United States, whether or not it is within or subject to review by another agency, but does not include—

- (A) the Congress;
- (B) the courts of the United States;
- (C) the governments of the territories or possessions of the United States;
- (D) the government of the District of Columbia;
- (E) agencies composed of representatives of the parties or of representatives of organizations of the parties to the disputes determined by them;
- (F) courts martial and military commissions;
- (G) military authority exercised in the field in time of war or in occupied territory; or

(H) functions conferred by sections 1738, 1739, 1743, and 1744 of title 12; chapter 2 of title 41; subchapter II of chapter 471 of title 49; or sections 1884, 1891–1902, and former section 1641(b)(2), of title 50, appendix; and

(2) “person”, “rule”, “order”, “license”, “sanction”, “relief”, and “agency action” have the meanings given them by section 551 of this title.

**§ 702. Right of review**

A person suffering legal wrong because of agency action, or adversely affected or aggrieved by agency action within the meaning of a relevant statute, is entitled to judicial review thereof. An action in a court of the United States seeking relief other than money damages and stating a claim that an agency or an officer or employee thereof acted or failed to act in an official capacity or under color of legal authority shall not be dismissed nor relief therein be denied on the ground that it is against the United States or that the United States is an indispensable party. The United States may be named as a defendant in any such action, and a judgment or decree may be entered against the United States: *Provided*, That any mandatory or injunctive decree shall specify the Federal officer or officers (by name or by title), and their successors in office, personally responsible for compliance. Nothing herein (1) affects other limitations on judicial review or the power or duty of the court to dismiss any action or deny relief on any other appropriate legal or

equitable ground; or (2) confers authority to grant relief if any other statute that grants consent to suit expressly or impliedly forbids the relief which is sought.

### § 703. Form and venue of proceeding

The form of proceeding for judicial review is the special statutory review proceeding relevant to the subject matter in a court specified by statute or, in the absence or inadequacy thereof, any applicable form of legal action, including actions for declaratory judgments or writs of prohibitory or mandatory injunction or habeas corpus, in a court of competent jurisdiction. If no special statutory review proceeding is applicable, the action for judicial review may be brought against the United States, the agency by its official title, or the appropriate officer. Except to the extent that prior, adequate, and exclusive opportunity for judicial review is provided by law, agency action is subject to judicial review in civil or criminal proceedings for judicial enforcement.

### § 704. Actions reviewable

Agency action made reviewable by statute and final agency action for which there is no other adequate remedy in a court are subject to judicial review. A preliminary, procedural, or intermediate agency action or ruling not directly reviewable is subject to review on the review of the final agency action. Except as otherwise expressly required by statute, agency action otherwise final is final for the purposes of this section whether or not there has been presented or determined an application for a declaratory order, for any form of reconsideration, or, unless the agency otherwise requires by rule and provides that the action meanwhile is inoperative, for an appeal to superior agency authority.

### § 705. Relief pending review

When an agency finds that justice so requires, it may postpone the effective date of action taken by it, pending judicial review. On such conditions as may be required and to the extent necessary to prevent irreparable injury, the reviewing court, including the court to which a case may be taken on appeal from or on application for certiorari or other writ to a reviewing court, may issue all necessary and appropriate process to postpone the effective date of an agency action or to preserve status or rights pending conclusion of the review proceedings.

### § 706. Scope of review

To the extent necessary to decision and when presented, the reviewing court shall decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of an agency action. The reviewing court shall—

- (1) compel agency action unlawfully withheld or unreasonably delayed; and
- (2) hold unlawful and set aside agency action, findings, and conclusions found to be—
  - (A) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;

(B) contrary to constitutional right, power, privilege, or immunity;

(C) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right;

(D) without observance of procedure required by law;

(E) unsupported by substantial evidence in a case subject to sections 556 and 557 of this title or otherwise reviewed on the record of an agency hearing provided by statute; or

(F) unwarranted by the facts to the extent that the facts are subject to trial de novo by the reviewing court.

In making the foregoing determinations, the court shall review the whole record or those parts of it cited by a party, and due account shall be taken of the rule of prejudicial error.

### APPENDIX TO TITLE 5, U.S.C.

#### (INSPECTOR GENERAL ACT OF 1978)

##### REQUIREMENTS FOR FEDERAL ENTITIES AND DESIGNATED FEDERAL ENTITIES

SEC. 8G. (a) Notwithstanding section 11 of this Act, as used in this section—

(1) the term “Federal entity” means any Government corporation (within the meaning of section 103(1) of title 5, United States Code), any Government controlled corporation (within the meaning of section 103(2) of such title), or any other entity in the Executive branch of the Government, or any independent regulatory agency, but does not include—

(A) an establishment (as defined under section 11(2) of this Act) or part of an establishment;

(B) a designated Federal entity (as defined under paragraph (2) of this subsection) or part of a designated Federal entity;

(C) the Executive Office of the President;

(D) the Central Intelligence Agency;

(E) the General Accounting Office; or

(F) any entity in the judicial or legislative branches of the Government, including the Administrative Office of the United States Courts and the Architect of the Capitol and any activities under the direction of the Architect of the Capitol;

(2) the term “designated Federal entity” means Amtrak,<sup>1</sup> the Appalachian Regional Commission, the Board of Governors of the Federal Reserve System, the Board for International Broadcasting, the Commodity Futures Trading Commission, the Consumer Product Safety Commission, the Corporation for Public Broadcasting, the Equal Employment Opportunity Com-

<sup>1</sup> Section 409(a)(1) of the Amtrak Reform and Accountability Act of 1997 (P.L. 105-134; 111 Stat. 2586) amends section 8G(a)(2) by striking “Amtrak.”. Section 409(a)(2) of P.L. 105-134 provides as follows:

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect at the beginning of the first fiscal year after a fiscal year for which Amtrak receives no Federal subsidy.

mission, the Farm Credit Administration, the Federal Communications Commission, the Federal Deposit Insurance Corporation<sup>1</sup>, the Federal Election Commission, the Election Assistance Commission, the Federal Housing Finance Board, the Federal Labor Relations Authority, the Federal Maritime Commission, the Federal Trade Commission, the Legal Services Corporation, the National Archives and Records Administration, the National Credit Union Administration, the National Endowment for the Arts, the National Endowment for the Humanities, the National Labor Relations Board, the National Science Foundation, the Panama Canal Commission, the Peace Corps, the Pension Benefit Guaranty Corporation, the Securities and Exchange Commission, the Smithsonian Institution, the United States International Trade Commission, and the United States Postal Service;

(3) the term “head of the Federal entity” means any person or persons designated by statute as the head of a Federal entity, and if no such designation exists, the chief policymaking officer or board of a Federal entity as identified in the list published pursuant to subsection (h)(1) of this section;

(4) the term “head of the designated Federal entity” means any person or persons designated by statute as the head of a designated Federal entity and if no such designation exists, the chief policymaking officer or board of a designated Federal entity as identified in the list published pursuant to subsection (h)(1) of this section, except that—

(A) with respect to the National Science Foundation, such term means the National Science Board; and

(B) with respect to the United States Postal Service, such term means the Governors (within the meaning of section 102(3) of title 39, United States Code);

(5) the term “Office of Inspector General” means an Office of Inspector General of a designated Federal entity; and

(6) the term “Inspector General” means an Inspector General of a designated Federal entity.

(b) No later than 180 days after the date of the enactment of this section, there shall be established and maintained in each designated Federal entity an Office of Inspector General. The head of the designated Federal entity shall transfer to such office the offices, units, or other components, and the functions, powers, or duties thereof, that such head determines are properly related to the functions of the Office of Inspector General and would, if so transferred, further the purposes of this section. There shall not be transferred to such office any program operating responsibilities.

(c) Except as provided under subsection (f) of this section, the Inspector General shall be appointed by the head of the designated Federal entity in accordance with the applicable laws and regulations governing appointments within the designated Federal entity.

(d) Each Inspector General shall report to and be under the general supervision of the head of the designated Federal entity, but shall not report to, or be subject to supervision by, any other

<sup>1</sup>The words “the Federal Deposit Insurance Corporation” probably should be omitted in section 8G(2) to reflect the probable intent of the amendment made by section 23(a)(4) of the Resolution Trust Corporation Completion Act (P.L. 103-204; 107 Stat. 2408), which amended section 8F, rather than 8G, by striking out those words.

officer or employee of such designated Federal entity. The head of the designated Federal entity shall not prevent or prohibit the Inspector General from initiating, carrying out, or completing any audit or investigation, or from issuing any subpoena during the course of any audit or investigation.

(e) If an Inspector General is removed from office or is transferred to another position or location within a designated Federal entity, the head of the designated Federal entity shall promptly communicate in writing the reasons for any such removal or transfer to both Houses of the Congress.

(f)(1) For purposes of carrying out subsection (c) with respect to the United States Postal Service, the appointment provisions of section 202(e) of title 39, United States Code, shall be applied.

(2) In carrying out the duties and responsibilities specified in this Act, the Inspector General of the United States Postal Service (hereinafter in this subsection referred to as the "Inspector General") shall have oversight responsibility for all activities of the Postal Inspection Service, including any internal investigation performed by the Postal Inspection Service. The Chief Postal Inspector shall promptly report the significant activities being carried out by the Postal Inspection Service to such Inspector General.

(3)(A)(i) Notwithstanding subsection (d), the Inspector General shall be under the authority, direction, and control of the Governors with respect to audits or investigations, or the issuance of subpoenas, which require access to sensitive information concerning—

- (I) ongoing civil or criminal investigations or proceedings;
- (II) undercover operations;
- (III) the identity of confidential sources, including protected witnesses;
- (IV) intelligence or counterintelligence matters; or
- (V) other matters the disclosure of which would constitute a serious threat to national security.

(ii) With respect to the information described under clause (i), the Governors may prohibit the Inspector General from carrying out or completing any audit or investigation, or from issuing any subpoena, after such Inspector General has decided to initiate, carry out, or complete such audit or investigation or to issue such subpoena, if the Governors determine that such prohibition is necessary to prevent the disclosure of any information described under clause (i) or to prevent the significant impairment to the national interests of the United States.

(iii) If the Governors exercise any power under clause (i) or (ii), the Governors shall notify the Inspector General in writing stating the reasons for such exercise. Within 30 days after receipt of any such notice, the Inspector General shall transmit a copy of such notice to the Committee on Governmental Affairs of the Senate and the Committee on Government Reform and Oversight of the House of Representatives, and to other appropriate committees or subcommittees of the Congress.

(B) In carrying out the duties and responsibilities specified in this Act, the Inspector General—

- (i) may initiate, conduct and supervise such audits and investigations in the United States Postal Service as the Inspector General considers appropriate; and

(ii) shall give particular regard to the activities of the Postal Inspection Service with a view toward avoiding duplication and insuring effective coordination and cooperation.

(C) Any report required to be transmitted by the Governors to the appropriate committees or subcommittees of the Congress under section 5(d) shall also be transmitted, within the seven-day period specified under such section, to the Committee on Governmental Affairs of the Senate and the Committee on Government Reform and Oversight of the House of Representatives.

(3) Nothing in this Act shall restrict, eliminate, or otherwise adversely affect any of the rights, privileges, or benefits of either employees of the United States Postal Service, or labor organizations representing employees of the United States Postal Service, under chapter 12 of title 39, United States Code, the National Labor Relations Act, any handbook or manual affecting employee labor relations with the United States Postal Service, or any collective bargaining agreement.

(4) As used in this subsection, the term "Governors" has the meaning given such term by section 102(3) of title 39, United States Code.

(g)(1) Sections 4, 5, 6 (other than subsections (a)(7) and (a)(8) thereof), and 7 of this Act shall apply to each Inspector General and Office of Inspector General of a designated Federal entity and such sections shall be applied to each designated Federal entity and head of the designated Federal entity (as defined under subsection (a)) by substituting—

(A) "designated Federal entity" for "establishment"; and

(B) "head of the designated Federal entity" for "head of the establishment".

(2) In addition to the other authorities specified in this Act, an Inspector General is authorized to select, appoint, and employ such officers and employees as may be necessary for carrying out the functions, powers, and duties of the Office of Inspector General and to obtain the temporary or intermittent services of experts or consultants or an organization thereof, subject to the applicable laws and regulations that govern such selections, appointments, and employment, and the obtaining of such services, within the designated Federal entity.

(3) Notwithstanding the last sentence of subsection (d) of this section, the provisions of subsection (a) of section 8C (other than the provisions of subparagraphs (A), (B), (C), and (E) of subsection (a)(1)) shall apply to the Inspector General of the Board of Governors of the Federal Reserve System and the Chairman of the Board of Governors of the Federal Reserve System in the same manner as such provisions apply to the Inspector General of the Department of the Treasury and the Secretary of the Treasury, respectively.

(h)(1) No later than April 30, 1989, and annually thereafter, the Director of the Office of Management and Budget, after consultation with the Comptroller General of the United States, shall publish in the Federal Register a list of the Federal entities and designated Federal entities and the head of each such entity (as defined under subsection (a) of this section).

(2) Beginning on October 31, 1989, and on October 31 of each succeeding calendar year, the head of each Federal entity (as de-

fined under subsection (a) of this section) shall prepare and transmit to the Director of the Office of Management and Budget and to each House of the Congress a report which—

(A) states whether there has been established in the Federal entity an office that meets the requirements of this section;

(B) specifies the actions taken by the Federal entity otherwise to ensure that audits are conducted of its programs and operations in accordance with the standards for audit of governmental organizations, programs, activities, and functions issued by the Comptroller General of the United States, and includes a list of each audit report completed by a Federal or non-Federal auditor during the reporting period and a summary of any particularly significant findings; and

(C) summarizes any matters relating to the personnel, programs, and operations of the Federal entity referred to prosecutive authorities, including a summary description of any preliminary investigation conducted by or at the request of the Federal entity concerning these matters, and the prosecutions and convictions which have resulted.

**TITLE VI OF THE RURAL ELECTRIFICATION ACT OF 1936**

**TITLE VI—RURAL BROADBAND ACCESS**

**SEC. 601. [7 U.S.C. 950bb] ACCESS TO BROADBAND TELECOMMUNICATIONS SERVICES IN RURAL AREAS.**

(a) **PURPOSE.**—The purpose of this section is to provide loans and loan guarantees to provide funds for the costs of the construction, improvement, and acquisition of facilities and equipment for broadband service in eligible rural communities.

(b) **DEFINITIONS.**—In this section:

(1) **BROADBAND SERVICE.**—The term “broadband service” means any technology identified by the Secretary as having the capacity to transmit data to enable a subscriber to the service to originate and receive high-quality voice, data, graphics, and video.

(2) **ELIGIBLE RURAL COMMUNITY.**—The term “eligible rural community” means any incorporated or unincorporated place that—

(A) has not more than 20,000 inhabitants, based on the most recent available population statistics of the Bureau of the Census; and

(B) is not located in an area designated as a standard metropolitan statistical area.

(c) **LOANS AND LOAN GUARANTEES.**—

(1) **IN GENERAL.**—The Secretary shall make or guarantee loans to eligible entities described in subsection (d) to provide funds for the construction, improvement, or acquisition of facilities and equipment for the provision of broadband service in eligible rural communities.

(2) **PRIORITY.**—In making or guaranteeing loans under paragraph (1), the Secretary shall give priority to eligible rural communities in which broadband service is not available to residential customers.

(d) **ELIGIBLE ENTITIES.**—

(1) **IN GENERAL.**—To be eligible to obtain a loan or loan guarantee under this section, an entity shall—

(A) have the ability to furnish, improve, or extend a broadband service to an eligible rural community; and

(B) submit to the Secretary a proposal for a project that meets the requirements of this section.

(2) **STATE AND LOCAL GOVERNMENTS.**—A State or local government (including any agency, subdivision, or instrumentality thereof (including consortia thereof)) shall be eligible for a loan or loan guarantee under this section to provide broadband services to an eligible rural community only if, not later than 90 days after the Administrator has promulgated regulations

to carry out this section, no other eligible entity is already offering, or has committed to offer, broadband services to the eligible rural community.

(3) SUBSCRIBER LINES.—An entity shall not be eligible to obtain a loan or loan guarantee under this section if the entity serves more than 2 percent of the telephone subscriber lines installed in the aggregate in the United States.

(e) BROADBAND SERVICE.—The Secretary shall, from time to time as advances in technology warrant, review and recommend modifications of rate-of-data transmission criteria for purposes of the identification of broadband service technologies under subsection (b)(1).

(f) TECHNOLOGICAL NEUTRALITY.—For purposes of determining whether or not to make a loan or loan guarantee for a project under this section, the Secretary shall use criteria that are technologically neutral.

(g) TERMS AND CONDITIONS FOR LOANS AND LOAN GUARANTEES.—Notwithstanding any other provision of law, a loan or loan guarantee under subsection (c) shall—

(1) bear interest at an annual rate of, as determined by the Secretary—

(A) in the case of a direct loan—

(i) the cost of borrowing to the Department of the Treasury for obligations of comparable maturity; or

(ii) 4 percent; and

(B) in the case of a guaranteed loan, the current applicable market rate for a loan of comparable maturity; and

(2) have a term not to exceed the useful life of the assets constructed, improved, or acquired with the proceeds of the loan or extension of credit.

(h) USE OF LOAN PROCEEDS TO REFINANCE LOANS FOR DEPLOYMENT OF BROADBAND SERVICE.—Notwithstanding any other provision of this Act, the proceeds of any loan made or guaranteed by the Secretary under this Act may be used by the recipient of the loan for the purpose of refinancing an outstanding obligation of the recipient on another telecommunications loan made under this Act if the use of the proceeds for that purpose will further the construction, improvement, or acquisition of facilities and equipment for the provision of broadband service in eligible rural communities.

(i) REPORTS.—Not later than 1 year after the date of enactment of this section, and biennially thereafter, the Administrator shall submit to Congress a report that—

(1) describes how the Administrator determines under subsection (a)(1) that a service enables a subscriber to originate and receive high-quality voice, data, graphics, and video; and

(2) provides a detailed list of services that have been granted assistance under this section.

(j) FUNDING.—

(1) IN GENERAL.—Notwithstanding any other provision of law, of the funds of the Commodity Credit Corporation, the Secretary shall make available to carry out this section—

(A) \$20,000,000 for each of fiscal years 2002 through 2005, to remain available until expended; and

(B) \$10,000,000 for each of fiscal years 2006 and 2007, to remain available until expended.

(2) TELEVISION FUNDS.—

(A) IN GENERAL.—The Secretary shall be entitled to receive, shall accept, and shall use to carry out this section, without further appropriation any funds made available under section 1011(a)(2)(B) of the Launching Our Communities' Access to Local Television Act of 2000 (47 U.S.C. 1109(a)(2)(B)).

(B) USE OF TELEVISION FUNDS.—The Secretary shall use any funds received under subparagraph (A) in equal amounts for each remaining fiscal year on receipt of the funds (including the fiscal year of receipt) through fiscal year 2007.

(3) AUTHORIZATION OF APPROPRIATIONS.—In addition to funds otherwise made available under this subsection, there are authorized to be appropriated such sums as necessary to carry out this section for each of fiscal years 2003 through 2007.

(4) ALLOCATION OF FUNDS.—

(A) IN GENERAL.—From amounts made available for each fiscal year under this subsection, the Secretary shall—

(i) establish a national reserve for loans and loan guarantees to eligible entities in States under this section; and

(ii) allocate amounts in the reserve to each State for each fiscal year for loans and loan guarantees to eligible entities in the State.

(B) AMOUNT.—The amount of an allocation made to a State for a fiscal year under subparagraph (A) shall bear the same ratio to the amount of allocations made for all States for the fiscal year as the number of communities with a population of 2,500 inhabitants or less in the State bears to the number of communities with a population of 2,500 inhabitants or less in all States, as determined on the basis of the latest available census.

(C) UNOBLIGATED AMOUNTS.—Any amounts in the reserve established for a State for a fiscal year under subparagraph (B) that are not obligated by April 1 of the fiscal year shall be available to the Secretary to make loans and loan guarantees under this section to eligible entities in any State, as determined by the Secretary.

(k) TERMINATION OF AUTHORITY.—No loan or loan guarantee may be made under this section after September 30, 2007.

Sec.  
2281. Global Positioning System.

**§ 2281. Global Positioning System**<sup>1</sup>

(a) SUSTAINMENT AND OPERATION FOR MILITARY PURPOSES.—  
The Secretary of Defense shall provide for the sustainment of the

<sup>1</sup>Section 1074 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105–85; 111 Stat. 1907) provides:

**SEC. 1074. SUSTAINMENT AND OPERATION OF THE GLOBAL POSITIONING SYSTEM.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Global Positioning System (consisting of a constellation of satellites and associated facilities capable of providing users on earth with a highly precise statement of their location on earth) makes significant contributions to the attainment of the national security and foreign policy goals of the United States, the safety and efficiency of international transportation, and the economic growth, trade, and productivity of the United States.

(2) The infrastructure for the Global Positioning System (including both space and ground segments of the infrastructure) is vital to the effectiveness of United States and allied military forces and to the protection of the national security interests of the United States.

(3) In addition to having military uses, the Global Positioning System has essential civil, commercial, and scientific uses.

(4) As a result of the increasing demand of civil, commercial, and scientific users of the Global Positioning System—

(A) there has emerged in the United States a new commercial industry to provide Global Positioning System equipment and related services to the many and varied users of the system; and

(B) there have been rapid technical advancements in Global Positioning System equipment and services that have contributed significantly to reductions in the cost of the Global Positioning System and increases in the technical capabilities and availability of the system for military uses.

(5) It is in the national interest of the United States for the United States—

(A) to support continuation of the multiple-use character of the Global Positioning System;

(B) to promote broader acceptance and use of the Global Positioning System and the technological standards that facilitate expanded use of the system for civil purposes;

(C) to coordinate with other countries to ensure (i) efficient management of the electromagnetic spectrum used by the Global Positioning System, and (ii) protection of that spectrum in order to prevent disruption of signals from the system and interference with that portion of the electromagnetic spectrum used by the system; and

Continued

capabilities of the Global Positioning System (hereinafter in this section referred to as the “GPS”), and the operation of basic GPS services, that are beneficial for the national security interests of the United States. In doing so, the Secretary shall—

(1) develop appropriate measures for preventing hostile use of the GPS so as to make it unnecessary for the Secretary to use the selective availability feature of the system continuously while not hindering the use of the GPS by the United States and its allies for military purposes; and

(2) ensure that United States armed forces have the capability to use the GPS effectively despite hostile attempts to prevent the use of the system by such forces.

(b) SUSTAINMENT AND OPERATION FOR CIVILIAN PURPOSES.—The Secretary of Defense shall provide for the sustainment and operation of the GPS Standard Positioning Service for peaceful civil, commercial, and scientific uses on a continuous worldwide basis free of direct user fees. In doing so, the Secretary—

(1) shall provide for the sustainment and operation of the GPS Standard Positioning Service in order to meet the performance requirements of the Federal Radionavigation Plan prepared jointly by the Secretary of Defense and the Secretary of Transportation pursuant to subsection (c);

(2) shall coordinate with the Secretary of Transportation regarding the development and implementation by the Government of augmentations to the basic GPS that achieve or enhance uses of the system in support of transportation;

(3) shall coordinate with the Secretary of Commerce, the United States Trade Representative, and other appropriate officials to facilitate the development of new and expanded civil and commercial uses for the GPS;

(4) shall develop measures for preventing hostile use of the GPS in a particular area without hindering peaceful civil use of the system elsewhere; and

(5) may not agree to any restriction on the Global Positioning System proposed by the head of a department or agency of the United States outside the Department of Defense in the exercise of that official’s regulatory authority that would adversely affect the military potential of the Global Positioning System.

---

(D) to encourage open access in all international markets to the Global Positioning System and supporting equipment, services, and techniques.

(b) INTERNATIONAL COOPERATION.—Congress urges the President to promote the security of the United States and its allies, the public safety, and commercial interests by taking the following steps:

(1) Undertaking a coordinated effort within the executive branch to seek to establish the Global Positioning System, and augmentations to the system, as a worldwide resource.

(2) Seeking to enter into international agreements to establish signal and service standards that protect the Global Positioning System from disruption and interference.

(3) Undertaking efforts to eliminate any barriers to, and other restrictions of foreign governments on, peaceful uses of the Global Positioning System.

(4) Requiring that any proposed international agreement involving nonmilitary use of the Global Positioning System or any augmentation to the system not be agreed to by the United States unless the proposed agreement has been reviewed by the Secretary of State, the Secretary of Defense, the Secretary of Transportation, and the Secretary of Commerce (acting as the Interagency Global Positioning System Executive Board established by Presidential Decision Directive NSTC–6, dated March 28, 1996).

(c) FISCAL YEAR 1998 PROHIBITION OF SUPPORT OF FOREIGN SYSTEM.—None of the funds authorized to be appropriated under this Act may be used to support the operation and maintenance or enhancement of a satellite navigation system operated by a foreign country.

(c) FEDERAL RADIONAVIGATION PLAN.—The Secretary of Defense and the Secretary of Transportation shall jointly prepare the Federal Radionavigation Plan. The plan shall be revised and updated not less often than every two years. The plan shall be prepared in accordance with the requirements applicable to such plan as first prepared pursuant to section 507 of the International Maritime Satellite Telecommunications Act (47 U.S.C. 756). The plan, and any amendment to the plan, shall be published in the Federal Register.

(d) BIENNIAL REPORT.—(1) Not later than 30 days after the end of each even-numbered fiscal year, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the Global Positioning System. The report shall include a discussion of the following matters:

(A) The operational status of the system.

(B) The capability of the system to satisfy effectively (i) the military requirements for the system that are current as of the date of the report, and (ii) the performance requirements of the Federal Radionavigation Plan.

(C) The most recent determination by the President regarding continued use of the selective availability feature of the system and the expected date of any change or elimination of the use of that feature.

(D) The status of cooperative activities undertaken by the United States with the governments of other countries concerning the capability of the system or any augmentation of the system to satisfy civil, commercial, scientific, and military requirements, including a discussion of the status and results of activities undertaken under any regional international agreement.

(E) Any progress made toward establishing GPS as an international standard for consistency of navigational service.

(F) Any progress made toward protecting GPS from disruption and interference.

(G) The effects of use of the system on national security, regional security, and the economic competitiveness of United States industry, including the Global Positioning System equipment and service industry and user industries.

(2) In preparing the parts of each such report required under subparagraphs (D), (E), (F), and (G) of paragraph (1), the Secretary of Defense shall consult with the Secretary of State, the Secretary of Commerce, and the Secretary of Transportation.

(e) DEFINITIONS.—In this section:

(1) The term “basic GPS services” means the following components of the Global Positioning System that are operated and maintained by the Department of Defense:

(A) The constellation of satellites.

(B) The navigation payloads that produce the Global Positioning System signals.

(C) The ground stations, data links, and associated command and control facilities.

(2) The term “GPS Standard Positioning Service” means the civil and commercial service provided by the basic Global

---

Positioning System as defined in the 1996 Federal Radionavigation Plan (published jointly by the Secretary of Defense and the Secretary of Transportation in July 1997).

## THE UNIFORM TIME ACT OF 1966

SEC. 3. [15 U.S.C. 260a] (a) During the period commencing at 2 o'clock antemeridian on the first Sunday of April of each year and ending at 2 o'clock antemeridian on the last Sunday of October of each year, the standard time of each zone established by the Act of March 19, 1918 (15 U.S.C. 261-264), as modified by the Act of March 4, 1921 (15 U.S.C. 265), shall be advanced one hour and such time as so advanced shall for the purposes of such Act of March 19, 1918, as so modified, be the standard time of such zone during such period; except that any State may by law exempt itself from the provisions of this subsection providing for the advancement of time, but only if such law provides that the entire State (including all political subdivisions thereof) shall observe the standard time otherwise applicable under such Act of March 19, 1918, as so modified, during such period.

(b) It is hereby declared that it is the express intent of Congress by this section to supersede any and all laws of the States or political subdivisions thereof insofar as they may now or hereafter provide for advances in time or changeover dates different from those specified in this section.

(c) For any violation of the provisions of this section the Secretary of Transportation or its duly authorized agent may apply to the district court of the United States for the district in which such violation occurs for the enforcement of this section; and such court shall have jurisdiction to enforce obedience thereto by writ of injunction or by other process, mandatory or otherwise, restraining against further violations of this section and enjoining obedience thereto.

## FEDERAL CIGARETTE LABELING AND ADVERTISING ACT

[Public Law 89–92, Approved July 27, 1965]

AN ACT To regulate the labeling of cigarettes, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the “Federal Cigarette Labeling and Advertising Act”.

### DECLARATION OF POLICY

SEC. 2. [15 U.S.C. 1331] It is the policy of the Congress, and the purpose of this chapter, to establish a comprehensive Federal Program to deal with cigarette labeling and advertising with respect to any relationship between smoking and health, whereby—

(1) the public may be adequately informed about any adverse health effects of cigarette smoking by inclusion of warning notices on each package of cigarettes and in each advertisement of cigarettes; and

(2) commerce and the national economy may be (A) protected to the maximum extent consistent with this declared policy and (B) not impeded by diverse, nonuniform, and confusing cigarette labeling and advertising regulations with respect to any relationship between smoking and health.

### DEFINITIONS

SEC. 3. [15 U.S.C. 1332] As used in this chapter—

(1) the term “cigarette” means—

(A) any roll of tobacco wrapped in paper or in any substance not containing tobacco, and

(B) any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in subparagraph (A).

(2) The term “commerce” means (A) commerce between any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, or Johnston Island and any place outside thereof; (B) commerce between points in any state, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, or Johnston Island, but through any place outside thereof; or (C) commerce wholly within the District of Columbia, Guam, the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, or Johnston Island.

(3) The term "United States", when used in a geographical sense, includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, or Johnston Island. The term "State" includes any political division of any State.

(4) The term "package" means a pack, box, carton, or container of any kind in which cigarettes are offered for sale, sold, or otherwise distributed to consumers.

(5) The term "person" means an individual, partnership, corporation, or any other business or legal entity.

(6) The term "sale or distribution" includes sampling or any other distribution not for sale.

(7) The term "little cigar" means any roll of tobacco wrapped in leaf tobacco or any substance containing tobacco (other than any roll of tobacco which is a cigarette within the meaning of subsection (1)) and as to which one thousand units weigh not more than three pounds.

(8) The term "brand style" means a variety of cigarettes distinguished by the tobacco used, tar and nicotine content, flavoring used, size of the cigarette, filtration on the cigarette, or packaging.

(9) The term "Secretary" means the Secretary of Health and Human Services.

#### LABELING

SEC. 4. [15 U.S.C. 1333] (a)(1) It shall be unlawful for any person to manufacture, package, or import for sale or distribution within the United States any cigarettes the package of which fails to bear, in accordance with the requirements of this section, one of the following labels:

SURGEON GENERAL'S WARNING: Smoking Causes Lung Cancer, Heart Disease, Emphysema, And May Complicate Pregnancy.

SURGEON GENERAL'S WARNING: Quitting Smoking Now Greatly Reduces Serious Risks to Your Health.

SURGEON GENERAL'S WARNING: Smoking By Pregnant Women May Result in Fetal Injury, Premature Birth, And Low Birth Weight.

SURGEON GENERAL'S WARNING: Cigarette Smoke Contains Carbon Monoxide.

(2) It shall be unlawful for any manufacturer or importer of cigarettes to advertise or cause to be advertised (other than through the use of outdoor billboards) within the United States any cigarette unless the advertising bears, in accordance with the requirements of this section, one of the following labels:

SURGEON GENERAL'S WARNING: Smoking Causes Lung Cancer, Heart Disease, Emphysema, And May Complicate Pregnancy.

SURGEON GENERAL'S WARNING: Quitting Smoking Now Greatly Reduces Serious Risks to Your Health.

SURGEON GENERAL'S WARNING: Smoking By Pregnant Women May Result in Fetal Injury, Premature Birth, And Low Birth Weight.

SURGEON GENERAL'S WARNING: Cigarette Smoke Contains Carbon Monoxide.

(3) It shall be unlawful for any manufacturer or importer of cigarettes to advertise or cause to be advertised within the United States through the use of outdoor billboards any cigarette unless the advertising bears, in accordance with the requirements of this section, one of the following labels:

SURGEON GENERAL'S WARNING: Smoking Causes Lung Cancer, Heart Disease, and Emphysema.

SURGEON GENERAL'S WARNING: Quitting Smoking Now Greatly Reduces Serious Health Risks.

SURGEON GENERAL'S WARNING: Pregnant Women Who Smoke Risk Fetal Injury And Premature Birth.

SURGEON GENERAL'S WARNING: Cigarette Smoke Contains Carbon Monoxide.

(b)(1) Each label statement required by paragraph (1) of subsection (a) shall be located in the place label statements were placed on cigarette packages as of the date of the enactment of this subsection. The phrase "Surgeon General's Warning" shall appear in capital letters and the size of all other letters in the label shall be the same as the size of such letters as of such date of enactment. All the letters in the label shall appear in conspicuous and legible type in contrast by typography, layout, or color with all other printed material on the package.

(2) The format of each label statement required by paragraph (2) of subsection (a) shall be the format required for label statements in cigarette advertising as of the date of the enactment of this subsection, except that the phrase "Surgeon General's Warning" shall appear in capital letters, the area of the rectangle enclosing the label shall be 50 per centum larger in size with a corresponding increase in the size of the type in the label, the width of the rule forming the border around the label shall be twice that in effect on such date, and the label may be placed at a distance from the outer edge of the advertisement which is one-half the distance permitted on such date. Each label statement shall appear in conspicuous and legible type in contrast by typography, layout, or color with all other printed material in the advertisement.

(3) The format and type style of each label statement required by paragraph (3) of subsection (a) shall be the format and type style required in outdoor billboard advertising as of the date of the enactment of this subsection. Each such label statement shall be printed in capital letters of the height of the tallest letter in a label statement on outdoor advertising of the same dimension on such date of enactment. Each such label statement shall be enclosed by a black border which is located within the perimeter of the format required in outdoor billboard advertising of the same dimension on such date of enactment and the width of which is twice the width of the vertical element of any letter in the label statement within the border.

(c)(1) Except as provided in paragraph (2), the label statements specified in paragraphs (1), (2), and (3) of subsection (a) shall be rotated by each manufacturer or importer of cigarettes quarterly in alternating sequence on packages of each brand of cigarettes manufactured by the manufacturer or importer and in the advertise-

ments for each such brand of cigarettes in accordance with a plan submitted by the manufacturer or importer and approved by the Federal Trade Commission. The Federal Trade Commission shall approve a plan submitted by a manufacturer or importer of cigarettes which will provide the rotation required by this subsection and which assures that all of the labels required by paragraphs (1), (2), and (3) will be displayed by the manufacturer or importer at the same time.

(2)(A) A manufacturer or importer of cigarettes may apply to the Federal Trade Commission to have the label rotation described in subparagraph (C) apply with respect to a brand style of cigarettes manufactured or imported by such manufacturer or importer if—

(i) the number of cigarettes of such brand style sold in the fiscal year of the manufacturer or importer preceding the submission of the application is less than one-fourth of 1 percent of all the cigarettes sold in the United States in such year, and

(ii) more than one-half of the cigarettes manufactured or imported by such manufacturer or importer for sale in the United States are packaged into brand styles which meet the requirements of clause (i).

If an application is approved by the Commission, the label rotation described in subparagraph (C) shall apply with respect to the applicant during the one-year period beginning on the date of the application approval.

(B) An applicant under subparagraph (A) shall include in its application a plan under which the label statements specified in paragraph (1) of subsection (a) will be rotated by the applicant manufacturer or importer in accordance with the label rotation described in subparagraph (C).

(C) Under the label rotation which a manufacturer or importer with an approved application may put into effect each of the labels specified in paragraph (1) of subsection (a) shall appear on the packages of each brand style of cigarettes with respect to which the application was approved an equal number of times within the twelve-month period beginning on the date of the approval by the Commission of the application.

(d) Subsection (a) does not apply to a distributor or a retailer of cigarettes who does not manufacture, package, or import cigarettes for sale or distribution within the United States.

#### PREEMPTION

SEC. 5. [15 U.S.C. 1334] (a) No statement relating to smoking and health, other than the statement required by section 1333 of this title, shall be required on any cigarette package.

(b) No requirement or prohibition based on smoking and health shall be imposed under State law with respect to the advertising or promotion of any cigarettes the packages of which are labeled in conformity with the provisions of this chapter.

#### UNLAWFUL ADVERTISEMENTS

SEC. 6. [15 U.S.C. 1335] After January 1, 1971, it shall be unlawful to advertise cigarettes and little cigars on any medium of

electronic communication subject to the jurisdiction of the Federal Communications Commission.

CIGARETTE INGREDIENTS

SEC. 7. [15 U.S.C. 1335a] (a) Each person who manufactures, packages, or imports cigarettes shall annually provide the Secretary with a list of the ingredients added to tobacco in the manufacture of cigarettes which does not identify the company which uses the ingredients or the brand of cigarettes which contain the ingredients. A person or group of persons required to provide a list by this subsection may designate an individual or entity to provide the list required by this subsection.

(b)(1) At such times as the Secretary considers appropriate, the Secretary shall transmit to the Congress a report, based on the information provided under subsection (a), respecting—

(A) a summary of research activities and proposed research activities on the health effects of ingredients added to tobacco in the manufacture of cigarettes and the findings of such research;

(B) information pertaining to any such ingredient which in the judgement of the Secretary poses a health risk to cigarette smokers; and

(C) any other information which the Secretary determines to be in the public interest.

(2)(A) Any information provided to the Secretary under subsection (a) shall be treated as trade secret or confidential information subject to section 552(b)(4) of title 5, United States Code and section 1905 of title 18, United States Code and shall not be revealed, except as provided in paragraph (1), to any person other than those authorized by the Secretary in carrying out their official duties under this section.

(B) Subparagraph (A) does not authorize the withholding of a list provided under subsection (a) from any duly authorized subcommittee or committee of the Congress. If a subcommittee or committee of the Congress requests the Secretary to provide it such a list, the Secretary shall make the list available to the subcommittee or committee and shall, at the same time, notify in writing the person who provided the list of such request.

(C) The Secretary shall establish written procedures to assure the confidentiality of information provided under subsection (a). Such procedures shall include the designation of a duly authorized agent to serve as custodian of such information. The agent—

(i) shall take physical possession of the information and, when not in use by a person authorized to have access to such information, shall store it in a locked cabinet or file, and

(ii) shall maintain a complete record of any person who inspects or uses the information.

Such procedures shall require that any person permitted access to the information shall be instructed in writing not to disclose the information to anyone who is not entitled to have access to the information.

## FEDERAL TRADE COMMISSION

SEC. 8. [15 U.S.C. 1336] Nothing in this Act (other than the requirements of section 4) shall be construed to limit, restrict, expand, or otherwise affect the authority of the Federal Trade Commission with respect to unfair or deceptive acts or practices in the advertising of cigarettes.

## REPORTS

SEC. 9. [15 U.S.C. 1337] (a) The Secretary shall transmit a report to the Congress not later than January 1, 1971, and annually thereafter, concerning (1) current information in the health consequences of smoking, and (2) such recommendations for legislation as he may deem appropriate.

(b) The Federal Trade Commission shall transmit a report to the Congress not later than January 1, 1971, and annually thereafter, concerning (1) current practices and methods of cigarette advertising and promotion, and (2) such recommendations for legislation as it may deem appropriate.

## CRIMINAL PENALTY

SEC. 10. [15 U.S.C. 1338] Any person who violates the provisions of this chapter shall be guilty of a misdemeanor and shall on conviction thereof be subject to a fine of not more than \$10,000.

## INJUNCTION PROCEEDINGS

SEC. 11. [15 U.S.C. 1339] The several district courts of the United States are invested with jurisdiction, for cause shown, to prevent and restrain violations of this chapter upon the application of the Attorney General of the United States acting through the several United States attorneys in their several districts.

## CIGARETTES FOR EXPORT

SEC. 12. [15 U.S.C. 1340] Packages of cigarettes manufactured, imported, or packaged (1) for export from the United States or (2) for delivery to a vessel or aircraft, as supplies, for consumption beyond the jurisdiction of the internal revenue laws of the United States shall be exempt from the requirements of this chapter, but such exemptions shall not apply to cigarettes manufactured, imported, or packaged for sale or distribution to members or units of the Armed Forces of the United States located outside of the United States.

## SEPARABILITY

SEC. 13. [15 U.S.C. 1331n] If any provision of this Act or the application thereof to any person or circumstances is held invalid, the other provisions of this Act and the application of such provision to other persons or circumstances shall not be affected thereby.

**COMPREHENSIVE SMOKELESS TOBACCO HEALTH  
EDUCATION ACT OF 1986<sup>1</sup>**

**SEC. 3. [15 U.S.C. 4402] SMOKELESS TOBACCO WARNING.**

(a) GENERAL RULE.—\* \* \*

\* \* \* \* \*

(f) TELEVISION AND RADIO ADVERTISING.—Effective 6 months after the date of the enactment of this Act, it shall be unlawful to advertise smokeless tobacco on any medium of electronic communications subject to the jurisdiction of the Federal Communications Commission.

**§ 101. Definitions**

Except as otherwise provided in this title, as used in this title, the following terms and their variant forms mean the following:

An “anonymous work” is a work on the copies or phonorecords of which no natural person is identified as author.

An “architectural work” is the design of a building as embodied in any tangible medium of expression, including a building, architectural plans, or drawings. The work includes the overall form as well as the arrangement and composition of spaces and elements in the design, but does not include individual standard features.

“Audiovisual works” are works that consist of a series of related images which are intrinsically intended to be shown by the use of machines, or devices such as projectors, viewers, or electronic equipment, together with accompanying sounds, if any, regardless of the nature of the material objects, such as films or tapes, in which the works are embodied.

The “best edition” of a work is the edition, published in the United States at any time before the date of deposit, that the Library of Congress determines to be most suitable for its purposes.

A person’s “children” are that person’s immediate offspring, whether legitimate or not, and any children legally adopted by that person.

A “collective work” is a work, such as a periodical issue, anthology, or encyclopedia, in which a number of contributions, constituting separate and independent works in themselves, are assembled into a collective whole.

A “compilation” is a work formed by the collection and assembling of preexisting materials or of data that are selected, coordinated, or arranged in such a way that the resulting work as a whole constitutes an original work of authorship. The term “compilation” includes collective works.

A “computer program” is a set of statements or instructions to be used directly or indirectly in a computer in order to bring about a certain result.

“Copies” are material objects, other than phonorecords, in which a work is fixed by any method now known or later developed, and from which the work can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term “copies” includes the material object, other than a phonorecord, in which the work is first fixed.

“Copyright owner”, with respect to any one of the exclusive rights comprised in a copyright, refers to the owner of that particular right.

A “derivative work” is a work based upon one or more preexisting works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which a work may be recast, transformed, or adapted. A work consisting of editorial revisions, annotations, elaborations, or other modifications which, as a whole, represent an original work of authorship, is a “derivative work”.

A “device”, “machine”, or “process” is one now known or later developed.

A “digital transmission” is a transmission in whole or in part in a digital or other non-analog format.

To “display” a work means to show a copy of it, either directly or by means of a film, slide, television image, or any other device or process or, in the case of a motion picture or other audiovisual work, to show individual images nonsequentially.

An “establishment” is a store, shop, or any similar place of business open to the general public for the primary purpose of selling goods or services in which the majority of the gross square feet of space that is nonresidential is used for that purpose, and in which nondramatic musical works are performed publicly.

A “food service or drinking establishment” is a restaurant, inn, bar, tavern, or any other similar place of business in which the public or patrons assemble for the primary purpose of being served food or drink, in which the majority of the gross square feet of space that is nonresidential is used for that purpose, and in which nondramatic musical works are performed publicly.

The term “financial gain” includes receipt, or expectation of receipt, of anything of value, including the receipt of other copyrighted works.

A work is “fixed” in a tangible medium of expression when its embodiment in a copy or phonorecord, by or under the authority of the author, is sufficiently permanent or stable to permit it to be perceived, reproduced, or otherwise communicated for a period of more than transitory duration. A work consisting of sounds, images, or both, that are being transmitted, is “fixed” for purposes of this title if a fixation of the work is being made simultaneously with its transmission.

The “Geneva Phonograms Convention” is the Convention for the Protection of Producers of Phonograms Against Unauthorized Duplication of Their Phonograms, concluded at Geneva, Switzerland, on October 29, 1971.

The “gross square feet of space” of an establishment means the entire interior space of that establishment, and any adjoining outdoor space used to serve patrons, whether on a seasonal basis or otherwise.

The terms “including” and “such as” are illustrative and not limitative.

An “international agreement” is—

- (1) the Universal Copyright Convention;
- (2) the Geneva Phonograms Convention;
- (3) the Berne Convention;
- (4) the WTO Agreement;
- (5)<sup>1</sup> the WIPO Copyright Treaty;
- (6)<sup>2</sup> the WIPO Performances and Phonograms Treaty;

and

- (7) any other copyright treaty to which the United States is a party.

A “joint work” is a work prepared by two or more authors with the intention that their contributions be merged into inseparable or interdependent parts of a unitary whole.

“Literary works” are works, other than audiovisual works, expressed in words, numbers, or other verbal or numerical symbols or indicia, regardless of the nature of the material objects, such as books, periodicals, manuscripts, phonorecords, film, tapes, disks, or cards, in which they are embodied.

“Motion pictures” are audiovisual works consisting of a series of related images which, when shown in succession, impart an impression of motion, together with accompanying sounds, if any.

To “perform” a work means to recite, render, play, dance, or act it, either directly or by means of any device or process or, in the case of a motion picture or other audiovisual work,

<sup>1</sup>This paragraph was added by section 102(a)(4) of the Digital Millennium Copyright Act (P.L. 105-304). Section 105(b)(1)(A) of such Act provides “paragraph (5) of the definition of ‘international agreement’ shall take effect upon the entry into force of the WIPO Copyright Treaty with respect to the United States.

<sup>2</sup>This paragraph was added by section 102(a)(4) of the Digital Millennium Copyright Act (P.L. 105-304). Section 105(b)(2)(A) of such Act provides “paragraph (6) of the definition of ‘international agreement’ shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

to show its images in any sequence or to make the sounds accompanying it audible.

A “performing rights society” is an association, corporation, or other entity that licenses the public performance of nondramatic musical works on behalf of copyright owners of such works, such as the American Society of Composers, Authors and Publishers (ASCAP), Broadcast Music, Inc. (BMI), and SESAC, Inc.

“Phonorecords” are material objects in which sounds, other than those accompanying a motion picture or other audiovisual work, are fixed by any method now known or later developed, and from which the sounds can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. The term “phonorecords” includes the material object in which the sounds are first fixed.

“Pictorial, graphic, and sculptural works” include two-dimensional and three-dimensional works of fine, graphic, and applied art, photographs, prints and art reproductions, maps, globes, charts, diagrams, models, and technical drawings, including architectural plans. Such works shall include works of artistic craftsmanship insofar as their form but not their mechanical or utilitarian aspects are concerned; the design of a useful article, as defined in this section, shall be considered a pictorial, graphic, or sculptural work only if, and only to the extent that, such design incorporates pictorial, graphic, or sculptural features that can be identified separately from, and are capable of existing independently of, the utilitarian aspects of the article.

For purposes of section 513, a “proprietor” is an individual, corporation, partnership, or other entity, as the case may be, that owns an establishment or a food service or drinking establishment, except that no owner or operator of a radio or television station licensed by the Federal Communications Commission, cable system or satellite carrier, cable or satellite carrier service or programmer, provider of online services or network access or the operator of facilities therefor, telecommunications company, or any other such audio or audiovisual service or programmer now known or as may be developed in the future, commercial subscription music service, or owner or operator of any other transmission service, shall under any circumstances be deemed to be a proprietor.

A “pseudonymous work” is a work on the copies or phonorecords of which the author is identified under a fictitious name.

“Publication” is the distribution of copies or phonorecords of a work to the public by sale or other transfer of ownership, or by rental, lease, or lending. The offering to distribute copies or phonorecords to a group of persons for purposes of further distribution, public performance, or public display, constitutes publication. A public performance or display of a work does not of itself constitute publication.

To perform or display a work “publicly” means—

(1) to perform or display it at a place open to the public or at any place where a substantial number of persons

outside of a normal circle of a family and its social acquaintances is gathered; or

(2) to transmit or otherwise communicate a performance or display of the work to a place specified by clause (1) or to the public, by means of any device or process, whether the members of the public capable of receiving the performance or display receive it in the same place or in separate places and at the same time or at different times.

“Registration”, for purposes of sections 205(c)(2), 405, 406, 410(d), 411, 412, and 506(e), means a registration of a claim in the original or the renewed and extended term of copyright.

“Sound recordings” are works that result from the fixation of a series of musical, spoken, or other sounds, but not including the sounds accompanying a motion picture or other audiovisual work, regardless of the nature of the material objects, such as disks, tapes, or other phonorecords, in which they are embodied.

“State” includes the District of Columbia and the Commonwealth of Puerto Rico, and any territories to which this title is made applicable by an Act of Congress.

A “transfer of copyright ownership” is an assignment, mortgage, exclusive license, or any other conveyance, alienation, or hypothecation of a copyright or of any of the exclusive rights comprised in a copyright, whether or not it is limited in time or place of effect, but not including a nonexclusive license.

A “transmission program” is a body of material that, as an aggregate, has been produced for the sole purpose of transmission to the public in sequence and as a unit.

To “transmit” a performance or display is to communicate it by any device or process whereby images or sounds are received beyond the place from which they are sent.

A “treaty party” is a country or intergovernmental organization other than the United States that is a party to an international agreement.

The “United States”, when used in a geographical sense, comprises the several States, the District of Columbia and the Commonwealth of Puerto Rico, and the organized territories under the jurisdiction of the United States Government.

For purposes of section 411, a work is a “United States work” only if—

(1) in the case of a published work, the work is first published—

(A) in the United States;

(B) simultaneously in the United States and another treaty party or parties, whose law grants a term of copyright protection that is the same as or longer than the term provided in the United States;

(C) simultaneously in the United States and a foreign nation that is not a treaty party; or

(D) in a foreign nation that is not a treaty party, and all of the authors of the work are nationals, domiciliaries, or habitual residents of, or in the case of an audiovisual work legal entities with headquarters in, the United States;

(2) in the case of an unpublished work, all the authors of the work are nationals, domiciliaries, or habitual residents of the United States, or, in the case of an unpublished audiovisual work, all the authors are legal entities with headquarters in the United States; or

(3) in the case of a pictorial, graphic, or sculptural work incorporated in a building or structure, the building or structure is located in the United States.

A work is “created” when it is fixed in a copy or phonorecord for the first time; where a work is prepared over a period of time, the portion of it that has been fixed at any particular time constitutes the work as of that time, and where the work has been prepared in different versions, each version constitutes a separate work.

A “useful article” is an article having an intrinsic utilitarian function that is not merely to portray the appearance of the article or to convey information. An article that is normally a part of a useful article is considered a “useful article”.

The author’s “widow” or “widower” is the author’s surviving spouse under the law of the author’s domicile at the time of his or her death, whether or not the spouse has later remarried.

The “WIPO Copyright Treaty” is the WIPO Copyright Treaty concluded at Geneva, Switzerland, on December 20, 1996.<sup>1</sup>

The “WIPO Performances and Phonograms Treaty” is the WIPO Performances and Phonograms Treaty concluded at Geneva, Switzerland, on December 20, 1996.<sup>2</sup>

A “work of visual art” is—

(1) a painting, drawing, print, or sculpture, existing in a single copy, in a limited edition of 200 copies or fewer that are signed and consecutively numbered by the author, or, in the case of a sculpture, in multiple cast, carved, or fabricated sculptures of 200 or fewer that are consecutively numbered by the author and bear the signature or other identifying mark of the author; or

(2) a still photographic image produced for exhibition purposes only, existing in a single copy that is signed by the author, or in a limited edition of 200 copies or fewer that are signed and consecutively numbered by the author.

A work of visual art does not include—

(A)(i) any poster, map, globe, chart, technical drawing, diagram, model, applied art, motion picture or other audiovisual work, book, magazine, newspaper, periodical, data base, electronic information service, electronic publication, or similar publication;

<sup>1</sup>This definition was added by section 102(a)(6) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(1)(B) of such Act provides this definition shall take effect upon the entry into force of the WIPO Copyright Treaty with respect to the United States.

<sup>2</sup>This definition was added by section 102(a)(7) of the Digital Millennium Copyright Act (P.L. 105–304). Section 105(b)(2)(B) of such Act provides this definition shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

(ii) any merchandising item or advertising, promotional, descriptive, covering, or packaging material or container;

(iii) any portion or part of any item described in clause (i) or (ii);

(B) any work made for hire; or

(C) any work not subject to copyright protection under this title.

A “work of the United States Government” is a work prepared by an officer or employee of the United States Government as part of that person’s official duties.

A “work made for hire” is—

(1) a work prepared by an employee within the scope of his or her employment; or

(2) a work specially ordered or commissioned for use as a contribution to a collective work, as a part of a motion picture or other audiovisual work as a sound recording,<sup>1</sup> as a translation, as a supplementary work, as a compilation, as an instructional text, as a test, as answer material for a test, or as an atlas, if the parties expressly agree in a written instrument signed by them that the work shall be considered a work made for hire. For the purpose of the foregoing sentence, a “supplementary work” is a work prepared for publication as a secondary adjunct to a work by another author for the purpose of introducing, concluding, illustrating, explaining, revising, commenting upon, or assisting in the use of the other work, such as forewords, afterwords, pictorial illustrations, maps, charts, tables, editorial notes, musical arrangements, answer material for tests, bibliographies, appendixes, and indexes, and an “instructional text” is a literary, pictorial, or graphic work prepared for publication and with the purpose of use in systematic instructional activities.

The terms “WTO Agreement” and “WTO member country” have the meanings given those terms in paragraphs (9) and (10), respectively, of section 2 of the Uruguay Round Agreements Act.

\* \* \* \* \*

#### § 104. Subject matter of copyright: National origin

(a) UNPUBLISHED WORKS.—The works specified by sections 102 and 103, while unpublished, are subject to protection under this title without regard to the nationality or domicile of the author.

(b) PUBLISHED WORKS.—The works specified by sections 102 and 103, when published, are subject to protection under this title if—

(1) on the date of first publication, one or more of the authors is a national or domiciliary of the United States, or is a national, domiciliary, or sovereign authority of a treaty party,

<sup>1</sup>So in law. Section 1011(d) of the Intellectual Property and Communications Omnibus Reform Act of 1999 (113 Stat. 1501A–544), as enacted by section 1000(a)(9) of Public Law 106–113 (113 Stat. 1536), amended paragraph (2) “by inserting ‘as a sound recording,’ after ‘audiovisual work’”.

or is a stateless person, wherever that person may be domiciled; or

(2) the work is first published in the United States or in a foreign nation that, on the date of first publication, is a treaty party; or

(3) the work is a sound recording that was first fixed in a treaty party; or

(4) the work is a pictorial, graphic, or sculptural work that is incorporated in a building or other structure, or an architectural work that is embodied in a building and the building or structure is located in the United States or a treaty party; or

(5) the work is first published by the United Nations or any of its specialized agencies, or by the Organization of American States; or

(6) the work comes within the scope of a Presidential proclamation. Whenever the President finds that a particular foreign nation extends, to works by authors who are nationals or domiciliaries of the United States or to works that are first published in the United States, copyright protection on substantially the same basis as that on which the foreign nation extends protection to works of its own nationals and domiciliaries and works first published in that nation, the President may by proclamation extend protection under this title to works of which one or more of the authors is, on the date of first publication, a national, domiciliary, or sovereign authority of that nation, or which was first published in that nation. The President may revise, suspend, or revoke any such proclamation or impose any conditions or limitations on protection under a proclamation.

For purposes of paragraph (2), a work that is published in the United States or a treaty party within 30 days after publication in a foreign nation that is not a treaty party shall be considered to be first published in the United States or such treaty party, as the case may be.

(c) EFFECT OF BERNE CONVENTION.—No right or interest in a work eligible for protection under this title may be claimed by virtue of, or in reliance upon, the provisions of the Berne Convention, or the adherence of the United States thereto. Any rights in a work eligible for protection under this title that derive from this title, other Federal or State statutes, or the common law, shall not be expanded or reduced by virtue of, or in reliance upon, the provisions of the Berne Convention, or the adherence of the United States thereto.

(d)<sup>1</sup> EFFECT OF PHONOGRAMS TREATIES.—Notwithstanding the provisions of subsection (b), no works other than sound recordings shall be eligible for protection under this title solely by virtue of the adherence of the United States to the Geneva Phonograms Convention or the WIPO Performances and Phonograms Treaty.

\* \* \* \* \*

<sup>1</sup>This subsection was added by section 102(b)(2) of the Digital Millennium Copyright Act (P.L. 105-304). Section 105(b)(2)(C) of such Act provides this subsection shall take effect upon the entry into force of the WIPO Performances and Phonograms Treaty with respect to the United States.

**§ 108. Limitations on exclusive rights: Reproduction by libraries and archives<sup>1</sup>**

(a) Except as otherwise provided in this title and notwithstanding the provisions of section 106, it is not an infringement of copyright for a library or archives, or any of its employees acting within the scope of their employment, to reproduce no more than one copy or phonorecord of a work, except as provided in subsections (b) and (c), or to distribute such copy or phonorecord, under the conditions specified by this section, if—

(1) the reproduction or distribution is made without any purpose of direct or indirect commercial advantage;

(2) the collections of the library or archives are (i) open to the public, or (ii) available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field; and

(3) the reproduction or distribution of the work includes a notice of copyright that appears on the copy or phonorecord that is reproduced under the provisions of this section, or includes a legend stating that the work may be protected by copyright if no such notice can be found on the copy or phonorecord that is reproduced under the provisions of this section.

(b) The rights of reproduction and distribution under this section apply to three copies or phonorecords of an unpublished work duplicated solely for purposes of preservation and security or for deposit for research use in another library or archives of the type described by clause (2) of subsection (a), if—

(1) the copy or phonorecord reproduced is currently in the collections of the library or archives; and

<sup>1</sup>Section 403 of the Digital Millennium Copyright Act (Public Law 105–304) provides as follows:

**SEC. 403. LIMITATIONS ON EXCLUSIVE RIGHTS; DISTANCE EDUCATION.**

(a) **RECOMMENDATIONS BY REGISTER OF COPYRIGHTS.**—Not later than 6 months after the date of the enactment of this Act, the Register of Copyrights, after consultation with representatives of copyright owners, nonprofit educational institutions, and nonprofit libraries and archives, shall submit to the Congress recommendations on how to promote distance education through digital technologies, including interactive digital networks, while maintaining an appropriate balance between the rights of copyright owners and the needs of users of copyrighted works. Such recommendations shall include any legislation the Register of Copyrights considers appropriate to achieve the objective described in the preceding sentence.

(b) **FACTORS.**—In formulating recommendations under subsection (a), the Register of Copyrights shall consider—

(1) the need for an exemption from exclusive rights of copyright owners for distance education through digital networks;

(2) the categories of works to be included under any distance education exemption;

(3) the extent of appropriate quantitative limitations on the portions of works that may be used under any distance education exemption;

(4) the parties who should be entitled to the benefits of any distance education exemption;

(5) the parties who should be designated as eligible recipients of distance education materials under any distance education exemption;

(6) whether and what types of technological measures can or should be employed to safeguard against unauthorized access to, and use or retention of, copyrighted materials as a condition of eligibility for any distance education exemption, including, in light of developing technological capabilities, the exemption set out in section 110(2) of title 17, United States Code;

(7) the extent to which the availability of licenses for the use of copyrighted works in distance education through interactive digital networks should be considered in assessing eligibility for any distance education exemption; and

(8) such other issues relating to distance education through interactive digital networks that the Register considers appropriate.

(2) any such copy or phonorecord that is reproduced in digital format is not otherwise distributed in that format and is not made available to the public in that format outside the premises of the library or archives.

(c) The right of reproduction under this section applies to three copies or phonorecords of a published work duplicated solely for the purpose of replacement of a copy or phonorecord that is damaged, deteriorating, lost, or stolen, or if the existing format in which the work is stored has become obsolete, if—

(1) the library or archives has, after a reasonable effort, determined that an unused replacement cannot be obtained at a fair price; and

(2) any such copy or phonorecord that is reproduced in digital format is not made available to the public in that format outside the premises of the library or archives in lawful possession of such copy.

For purposes of this subsection, a format shall be considered obsolete if the machine or device necessary to render perceptible a work stored in that format is no longer manufactured or is no longer reasonably available in the commercial marketplace.

(d) The rights of reproduction and distribution under this section apply to a copy, made from the collection of a library or archives where the user makes his or her request or from that of another library or archives, of no more than one article or other contribution to a copyrighted collection or periodical issue, or to a copy or phonorecord of a small part of any other copyrighted work, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(e) The rights of reproduction and distribution under this section apply to the entire work, or to a substantial part of it, made from the collection of a library or archives where the user makes his or her request or from that of another library or archives, if the library or archives has first determined, on the basis of a reasonable investigation, that a copy or phonorecord of the copyrighted work cannot be obtained at a fair price, if—

(1) the copy or phonorecord becomes the property of the user, and the library or archives has had no notice that the copy or phonorecord would be used for any purpose other than private study, scholarship, or research; and

(2) the library or archives displays prominently, at the place where orders are accepted, and includes on its order form, a warning of copyright in accordance with requirements that the Register of Copyrights shall prescribe by regulation.

(f) Nothing in this section—

(1) shall be construed to impose liability for copyright infringement upon a library or archives or its employees for the unsupervised use of reproducing equipment located on its

premises: *Provided*, That such equipment displays a notice that the making of a copy may be subject to the copyright law;

(2) excuses a person who uses such reproducing equipment or who requests a copy or phonorecord under subsection (d) from liability for copyright infringement for any such act, or for any later use of such copy or phonorecord, if it exceeds fair use as provided by section 107;

(3) shall be construed to limit the reproduction and distribution by lending of a limited number of copies and excerpts by a library or archives of an audiovisual news program, subject to clauses (1), (2), and (3) of subsection (a); or

(4) in any way affects the right of fair use as provided by section 107, or any contractual obligations assumed at any time by the library or archives when it obtained a copy or phonorecord of a work in its collections.

(g) The rights of reproduction and distribution under this section extend to the isolated and unrelated reproduction or distribution of a single copy or phonorecord of the same material on separate occasions, but do not extend to cases where the library or archives, or its employee—

(1) is aware or has substantial reason to believe that it is engaging in the related or concerted reproduction or distribution of multiple copies or phonorecords of the same material, whether made on one occasion or over a period of time, and whether intended for aggregate use by one or more individuals or for separate use by the individual members of a group; or

(2) engages in the systematic reproduction or distribution of single or multiple copies or phonorecords of material described in subsection (d): *Provided*, That nothing in this clause prevents a library or archives from participating in interlibrary arrangements that do not have, as their purpose or effect, that the library or archives receiving such copies or phonorecords for distribution does so in such aggregate quantities as to substitute for a subscription to or purchase of such work.

(h)(1) For purposes of this section, during the last 20 years of any term of copyright of a published work, a library or archives, including a nonprofit educational institution that functions as such, may reproduce, distribute, display, or perform in facsimile or digital form a copy or phonorecord of such work, or portions thereof, for purposes of preservation, scholarship, or research, if such library or archives has first determined, on the basis of a reasonable investigation, that none of the conditions set forth in subparagraphs (A), (B), and (C) of paragraph (2) apply.

(2) No reproduction, distribution, display, or performance is authorized under this subsection if—

(A) the work is subject to normal commercial exploitation;

(B) a copy or phonorecord of the work can be obtained at a reasonable price; or

(C) the copyright owner or its agent provides notice pursuant to regulations promulgated by the Register of Copyrights that either of the conditions set forth in subparagraphs (A) and (B) applies.

(3) The exemption provided in this subsection does not apply to any subsequent uses by users other than such library or archives.

(i) The rights of reproduction and distribution under this section do not apply to a musical work, a pictorial, graphic or sculptural work, or a motion picture or other audiovisual work other than an audiovisual work dealing with news, except that no such limitation shall apply with respect to rights granted by subsections (b) and (c), or with respect to pictorial or graphic works published as illustrations, diagrams, or similar adjuncts to works of which copies are reproduced or distributed in accordance with subsections (d) and (e).

\* \* \* \* \*

**§ 111. Limitations on exclusive rights: Secondary transmissions**

(a) CERTAIN SECONDARY TRANSMISSIONS EXEMPTED.—The secondary transmission of a performance or display of a work embodied in a primary transmission is not an infringement of copyright if—

(1) the secondary transmission is not made by a cable system, and consists entirely of the relaying, by the management of a hotel, apartment house, or similar establishment, of signals transmitted by a broadcast station licensed by the Federal Communications Commission, within the local service area of such station, to the private lodgings of guests or residents of such establishment, and no direct charge is made to see or hear the secondary transmission; or

(2) the secondary transmission is made solely for the purpose and under the conditions specified by clause (2) of section 110; or

(3) the secondary transmission is made by any carrier who has no direct or indirect control over the content or selection of the primary transmission or over the particular recipients of the secondary transmission, and whose activities with respect to the secondary transmission consist solely of providing wires, cables, or other communications channels for the use of others: *Provided*, That the provisions of this clause extend only to the activities of said carrier with respect to secondary transmissions and do not exempt from liability the activities of others with respect to their own primary or secondary transmissions;

(4) the secondary transmission is made by a satellite carrier for private home viewing pursuant to a statutory license under section 119; or

(5) the secondary transmission is not made by a cable system but is made by a governmental body, or other nonprofit organization, without any purpose of direct or indirect commercial advantage, and without charge to the recipients of the secondary transmission other than assessments necessary to defray the actual and reasonable costs of maintaining and operating the secondary transmission service.

(b) SECONDARY TRANSMISSION OF PRIMARY TRANSMISSION TO CONTROLLED GROUP.—Notwithstanding the provisions of subsections (a) and (c), the secondary transmission to the public of a performance or display of a work embodied in a primary transmission is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if the primary transmission is not made for reception by the public at large but is controlled and limited to reception by particular members of the public: *Provided, however,* That such secondary transmission is not actionable as an act of infringement if—

(1) the primary transmission is made by a broadcast station licensed by the Federal Communications Commission; and

(2) the carriage of the signals comprising the secondary transmission is required under the rules, regulations, or authorizations of the Federal Communications Commission; and

(3) the signal of the primary transmitter is not altered or changed in any way by the secondary transmitter.

(c) SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) Subject to the provisions of clauses (2), (3), and (4) of this subsection and section 114(d), secondary transmissions to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico shall be subject to statutory licensing upon compliance with the requirements of subsection (d) where the carriage of the signals comprising the secondary transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

(2) Notwithstanding the provisions of clause (1) of this subsection, the willful or repeated secondary transmission to the public by a cable system of a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, in the following cases:

(A) where the carriage of the signals comprising the secondary transmission is not permissible under the rules, regulations, or authorizations of the Federal Communications Commission; or

(B) where the cable system has not deposited the statement of account and royalty fee required by subsection (d).

(3) Notwithstanding the provisions of clause (1) of this subsection and subject to the provisions of subsection (e) of this section, the secondary transmission to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by the Federal Communications Commission or by an appropriate governmental authority of Canada or Mexico is actionable as an act of infringement under section 501, and is fully subject

to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcements transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the cable system through changes, deletions, or additions, except for the alteration, deletion, or substitution of commercial advertisements performed by those engaged in television commercial advertising market research: *Provided*, That the research company has obtained the prior consent of the advertiser who has purchased the original commercial advertisement, the television station broadcasting that commercial advertisement, and the cable system performing the secondary transmission: *And provided further*, That such commercial alteration, deletion, or substitution is not performed for the purpose of deriving income from the sale of that commercial time.

(4) Notwithstanding the provisions of clause (1) of this subsection, the secondary transmission to the public by a cable system of a performance or display of a work embodied in a primary transmission made by a broadcast station licensed by an appropriate governmental authority of Canada or Mexico is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and section 509, if (A) with respect to Canadian signals, the community of the cable system is located more than 150 miles from the United States-Canadian border and is also located south of the forty-second parallel of latitude, or (B) with respect to Mexican signals, the secondary transmission is made by a cable system which received the primary transmission by means other than direct interception of a free space radio wave emitted by such broadcast television station, unless prior to April 15, 1976, such cable system was actually carrying, or was specifically authorized to carry, the signal of such foreign station on the system pursuant to the rules, regulations, or authorizations of the Federal Communications Commission.

(d) COMPULSORY LICENSE FOR SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) A cable system whose secondary transmissions have been subject to statutory licensing under subsection (c) shall, on a semiannual basis, deposit with the Register of Copyrights, in accordance with requirements that the Register shall prescribe by regulation—

(A) a statement of account, covering the six months next preceding, specifying the number of channels on which the cable system made secondary transmissions to its subscribers, the names and locations of all primary transmitters whose transmissions were further transmitted by the cable system, the total number of subscribers, the gross amounts paid to the cable system for the basic service of providing secondary transmissions of primary broadcast transmitters, and such other data as the Register of Copyrights may from time to time prescribe by regulation. In determining the total number of sub-

scribers and the gross amounts paid to the cable system for the basic service of providing secondary transmissions of primary broadcast transmitters, the system shall not include subscribers and amounts collected from subscribers receiving secondary transmissions for private home viewing pursuant to section 119. Such statement shall also include a special statement of account covering any nonnetwork television programming that was carried by the cable system in whole or in part beyond the local service area of the primary transmitter, under rules, regulations, or authorizations of the Federal Communications Commission permitting the substitution or addition of signals under certain circumstances, together with logs showing the times, dates, stations, and programs involved in such substituted or added carriage; and

(B) except in the case of a cable system whose royalty is specified in subclause (C) or (D), a total royalty fee for the period covered by the statement, computed on the basis of specified percentages of the gross receipts from subscribers to the cable service during said period for the basic service of providing secondary transmissions of primary broadcast transmitters, as follows:

(i) 0.675 of 1 per centum of such gross receipts for the privilege of further transmitting any nonnetwork programming of a primary transmitter in whole or in part beyond the local service area of such primary transmitter, such amount to be applied against the fee, if any, payable pursuant to paragraphs (ii) through (iv);

(ii) 0.675 of 1 per centum of such gross receipts for the first distant signal equivalent;

(iii) 0.425 of 1 per centum of such gross receipts for each of the second, third, and fourth distant signal equivalents;

(iv) 0.2 of 1 per centum of such gross receipts for the fifth distant signal equivalent and each additional distant signal equivalent thereafter; and

in computing the amounts payable under paragraphs (ii) through (iv), above, any fraction of a distant signal equivalent shall be computed at its fractional value and, in the case of any cable system located partly within and partly without the local service area of a primary transmitter, gross receipts shall be limited to those gross receipts derived from subscribers located without the local service area of such primary transmitter; and

(C) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement for the basic service of providing secondary transmissions of primary broadcast transmitters total \$80,000 or less, gross receipts of the cable system for the purpose of this subclause shall be computed by subtracting from such actual gross receipts the amount by which \$80,000 exceeds such actual gross receipts, except that in no case shall a cable system's gross receipts be reduced to less than \$3,000. The

royalty fee payable under this subclause shall be 0.5 of 1 per centum, regardless of the number of distant signal equivalents, if any; and

(D) if the actual gross receipts paid by subscribers to a cable system for the period covered by the statement, for the basic service of providing secondary transmissions of primary broadcast transmitters, are more than \$80,000 but less than \$160,000, the royalty fee payable under this subclause shall be (i) 0.5 of 1 per centum of any gross receipts up to \$80,000; and (ii) 1 per centum of any gross receipts in excess of \$80,000 but less than \$160,000, regardless of the number of distant signal equivalents, if any.

(2) The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section, shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing United States securities for later distribution with interest by the Librarian of Congress in the event no controversy over distribution exists, or by a copyright arbitration royalty panel in the event a controversy over such distribution exists.

(3) The royalty fees thus deposited shall, in accordance with the procedures provided by clause (4), be distributed to those among the following copyright owners who claim that their works were the subject of secondary transmissions by cable systems during the relevant semiannual period:

(A) any such owner whose work was included in a secondary transmission made by a cable system of a nonnetwork television program in whole or in part beyond the local service area of the primary transmitter; and

(B) any such owner whose work was included in a secondary transmission identified in a special statement of account deposited under clause (1)(A);

(C) any such owner whose work was included in non-network programming consisting exclusively of aural signals carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programs.

(4) The royalty fees thus deposited shall be distributed in accordance with the following procedures:

(A) During the month of July in each year, every person claiming to be entitled to statutory license fees for secondary transmissions shall file a claim with the Librarian of Congress, in accordance with requirements that the Librarian of Congress shall prescribe by regulation. Notwithstanding any provisions of the antitrust laws, for purposes of this clause any claimants may agree among themselves as to the proportionate division of statutory licensing fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(B) After the first day of August of each year, the Librarian of Congress shall, upon the recommendation of the Register of Copyrights, determine whether there exists a controversy concerning the distribution of royalty fees. If the Librarian determines that no such controversy exists, the Librarian shall, after deducting reasonable administrative costs under this section, distribute such fees to the copyright owners entitled to such fees, or to their designated agents. If the Librarian finds the existence of a controversy, the Librarian shall, pursuant to chapter 8 of this title, convene a copyright arbitration royalty panel to determine the distribution of royalty fees.

(C) During the pendency of any proceeding under this subsection, the Librarian of Congress shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have discretion to proceed to distribute any amounts that are not in controversy.

(e) NONSIMULTANEOUS SECONDARY TRANSMISSIONS BY CABLE SYSTEMS.—

(1) Notwithstanding those provisions of the second paragraph of subsection (f) relating to nonsimultaneous secondary transmissions by a cable system, any such transmissions are actionable as an act of infringement under section 501, and are fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, unless—

(A) the program on the videotape is transmitted no more than one time to the cable system's subscribers; and

(B) the copyrighted program, episode, or motion picture videotape, including the commercials contained within such program, episode, or picture, is transmitted without deletion or editing; and

(C) an owner or officer of the cable system (i) prevents the duplication of the videotape while in the possession of the system, (ii) prevents unauthorized duplication while in the possession of the facility making the videotape for the system if the system owns or controls the facility, or takes reasonable precautions to prevent such duplication if it does not own or control the facility, (iii) takes adequate precautions to prevent duplication while the tape is being transported, and (iv) subject to clause (2), erases or destroys, or causes the erasure or destruction of, the videotape; and

(D) within forty-five days after the end of each calendar quarter, an owner or officer of the cable system executes an affidavit attesting (i) to the steps and precautions taken to prevent duplication of the videotape, and (ii) subject to clause (2), to the erasure or destruction of all videotapes made or used during such quarter; and

(E) such owner or officer places or causes each such affidavit, and affidavits received pursuant to clause (2)(C), to be placed in a file, open to public inspection, at such system's main office in the community where the trans-

mission is made or in the nearest community where such system maintains an office; and

(F) the nonsimultaneous transmission is one that the cable system would be authorized to transmit under the rules, regulations, and authorizations of the Federal Communications Commission in effect at the time of the nonsimultaneous transmission if the transmission had been made simultaneously, except that this subclause shall not apply to inadvertent or accidental transmissions.

(2) If a cable system transfers to any person a videotape of a program nonsimultaneously transmitted by it, such transfer is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, except that, pursuant to a written, non-profit contract providing for the equitable sharing of the costs of such videotape and its transfer, a videotape nonsimultaneously transmitted by it, in accordance with clause (1), may be transferred by one cable system in Alaska to another system in Alaska, by one cable system in Hawaii permitted to make such nonsimultaneous transmissions to another such cable system in Hawaii, or by one cable system in Guam, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands, to another cable system in any of those three territories, if—

(A) each such contract is available for public inspection in the offices of the cable systems involved, and a copy of such contract is filed, within thirty days after such contract is entered into, with the Copyright Office (which Office shall make each such contract available for public inspection); and

(B) the cable system to which the videotape is transferred complies with clause (1)(A), (B), (C)(i), (iii), and (iv), and (D) through (F); and

(C) such system provides a copy of the affidavit required to be made in accordance with clause (1)(D) to each cable system making a previous nonsimultaneous transmission of the same videotape.

(3) This subsection shall not be construed to supersede the exclusivity protection provisions of any existing agreement, or any such agreement hereafter entered into, between a cable system and a television broadcast station in the area in which the cable system is located, or a network with which such station is affiliated.

(4) As used in this subsection, the term “videotape”, and each of its variant forms, means the reproduction of the images and sounds of a program or programs broadcast by a television broadcast station licensed by the Federal Communications Commission, regardless of the nature of the material objects, such as tapes or films, in which the reproduction is embodied.

(f) DEFINITIONS.—As used in this section, the following terms and their variant forms mean the following:

A “primary transmission” is a transmission made to the public by the transmitting facility whose signals are being received and further transmitted by the secondary transmission

service, regardless of where or when the performance or display was first transmitted.

A “secondary transmission” is the further transmitting of a primary transmission simultaneously with the primary transmission, or nonsimultaneously with the primary transmission if by a “cable system” not located in whole or in part within the boundary of the forty-eight contiguous States, Hawaii, or Puerto Rico: *Provided, however,* That a nonsimultaneous further transmission by a cable system located in Hawaii of a primary transmission shall be deemed to be a secondary transmission if the carriage of the television broadcast signal comprising such further transmission is permissible under the rules, regulations, or authorizations of the Federal Communications Commission.

A “cable system” is a facility, located in any State, Territory, Trust Territory, or Possession, that in whole or in part receives signals transmitted or programs broadcast by one or more television broadcast stations licensed by the Federal Communications Commission, and makes secondary transmissions of such signals or programs by wires, cables, microwave, or other communications channels to subscribing members of the public who pay for such service. For purposes of determining the royalty fee under subsection (d)(1), two or more cable systems in contiguous communities under common ownership or control or operating from one headend shall be considered as one system.

The “local service area of a primary transmitter”, in the case of a television broadcast station, comprises the area in which such station is entitled to insist upon its signal being retransmitted by a cable system pursuant to the rules, regulations, and authorizations of the Federal Communications Commission in effect on April 15, 1976, or such station’s television market as defined in section 76.55(e) of title 47, Code of Federal Regulations (as in effect on September 18, 1993), or any modifications to such television market made, on or after September 18, 1993, pursuant to section 76.55(e) or 76.59 of title 47 of the Code of Federal Regulations, or in the case of a television broadcast station licensed by an appropriate governmental authority of Canada or Mexico, the area in which it would be entitled to insist upon its signal being retransmitted if it were a television broadcast station subject to such rules, regulations, and authorizations. In the case of a low power television station, as defined by the rules and regulations of the Federal Communications Commission, the “local service area of a primary transmitter” comprises the area within 35 miles of the transmitter site, except that in the case of such a station located in a standard metropolitan statistical area which has one of the 50 largest populations of all standard metropolitan statistical areas (based on the 1980 decennial census of population taken by the Secretary of Commerce), the number of miles shall be 20 miles. The “local service area of a primary transmitter”, in the case of a radio broadcast station, comprises the primary service area of such station, pursuant to the rules and regulations of the Federal Communications Commission.

A “distant signal equivalent” is the value assigned to the secondary transmission of any nonnetwork television programming carried by a cable system in whole or in part beyond the local service area of the primary transmitter of such programming. It is computed by assigning a value of one to each independent station and a value of one-quarter to each network station and noncommercial educational station for the nonnetwork programming so carried pursuant to the rules, regulations, and authorizations of the Federal Communications Commission. The foregoing values for independent, network, and noncommercial educational stations are subject, however, to the following exceptions and limitations. Where the rules and regulations of the Federal Communications Commission require a cable system to omit the further transmission of a particular program and such rules and regulations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, or where such rules and regulations in effect on the date of enactment of this Act permit a cable system, at its election, to effect such deletion and substitution of a nonlive program or to carry additional programs not transmitted by primary transmitters within whose local service area the cable system is located, no value shall be assigned for the substituted or additional program; where the rules, regulations, or authorizations of the Federal Communications Commission in effect on the date of enactment of this Act permit a cable system, at its election, to omit the further transmission of a particular program and such rules, regulations, or authorizations also permit the substitution of another program embodying a performance or display of a work in place of the omitted transmission, the value assigned for the substituted or additional program shall be, in the case of a live program, the value of one full distant signal equivalent multiplied by a fraction that has as its numerator the number of days in the year in which such substitution occurs and as its denominator the number of days in the year. In the case of a station carried pursuant to the late-night or specialty programming rules of the Federal Communications Commission, or a station carried on a part-time basis where full-time carriage is not possible because the cable system lacks the activated channel capacity to retransmit on a full-time basis all signals which it is authorized to carry, the values for independent, network, and noncommercial educational stations set forth above, as the case may be, shall be multiplied by a fraction which is equal to the ratio of the broadcast hours of such station carried by the cable system to the total broadcast hours of the station.

A “network station” is a television broadcast station that is owned or operated by, or affiliated with, one or more of the television networks in the United States providing nationwide transmissions, and that transmits a substantial part of the programming supplied by such networks for a substantial part of that station’s typical broadcast day.

An “independent station” is a commercial television broadcast station other than a network station.

A “noncommercial educational station” is a television station that is a noncommercial educational broadcast station as defined in section 397 of title 47.

**§ 112. Limitations on exclusive rights: Ephemeral recordings**

(a)(1) Notwithstanding the provisions of section 106, and except in the case of a motion picture or other audiovisual work, it is not an infringement of copyright for a transmitting organization entitled to transmit to the public a performance or display of a work, under a license, including a statutory license under section 114(f), or transfer of the copyright or under the limitations on exclusive rights in sound recordings specified by section 114(a), or for a transmitting organization that is a broadcast radio or television station licensed as such by the Federal Communications Commission and that makes a broadcast transmission of a performance of a sound recording in a digital format on a nonsubscription basis, to make no more than one copy or phonorecord of a particular transmission program embodying the performance or display, if—

(A) the copy or phonorecord is retained and used solely by the transmitting organization that made it, and no further copies or phonorecords are reproduced from it; and

(B) the copy or phonorecord is used solely for the transmitting organization’s own transmissions within its local service area, or for purposes of archival preservation or security; and

(C) unless preserved exclusively for archival purposes, the copy or phonorecord is destroyed within six months from the date the transmission program was first transmitted to the public.

(2) In a case in which a transmitting organization entitled to make a copy or phonorecord under paragraph (1) in connection with the transmission to the public of a performance or display of a work is prevented from making such copy or phonorecord by reason of the application by the copyright owner of technical measures that prevent the reproduction of the work, the copyright owner shall make available to the transmitting organization the necessary means for permitting the making of such copy or phonorecord as permitted under that paragraph, if it is technologically feasible and economically reasonable for the copyright owner to do so. If the copyright owner fails to do so in a timely manner in light of the transmitting organization’s reasonable business requirements, the transmitting organization shall not be liable for a violation of section 1201(a)(1) of this title for engaging in such activities as are necessary to make such copies or phonorecords as permitted under paragraph (1) of this subsection.

(b) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other non-profit organization entitled to transmit a performance or display of a work, under section 110(2) or under the limitations on exclusive rights in sound recordings specified by section 114(a), to make no more than thirty copies or phonorecords of a particular transmission program embodying the performance or display, if—

(1) no further copies or phonorecords are reproduced from the copies or phonorecords made under this clause; and

(2) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are destroyed within seven years from the date the transmission program was first transmitted to the public.

(c) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other non-profit organization to make for distribution no more than one copy or phonorecord, for each transmitting organization specified in clause (2) of this subsection, of a particular transmission program embodying a performance of a nondramatic musical work of a religious nature, or of a sound recording of such a musical work, if—

(1) there is no direct or indirect charge for making or distributing any such copies or phonorecords; and

(2) none of such copies or phonorecords is used for any performance other than a single transmission to the public by a transmitting organization entitled to transmit to the public a performance of the work under a license or transfer of the copyright; and

(3) except for one copy or phonorecord that may be preserved exclusively for archival purposes, the copies or phonorecords are all destroyed within one year from the date the transmission program was first transmitted to the public.

(d) Notwithstanding the provisions of section 106, it is not an infringement of copyright for a governmental body or other non-profit organization entitled to transmit a performance of a work under section 110(8) to make no more than ten copies or phonorecords embodying the performance, or to permit the use of any such copy or phonorecord by any governmental body or non-profit organization entitled to transmit a performance of a work under section 110(8), if—

(1) any such copy or phonorecord is retained and used solely by the organization that made it, or by a governmental body or nonprofit organization entitled to transmit a performance of a work under section 110(8), and no further copies or phonorecords are reproduced from it; and

(2) any such copy or phonorecord is used solely for transmissions authorized under section 110(8), or for purposes of archival preservation or security; and

(3) the governmental body or nonprofit organization permitting any use of any such copy or phonorecord by any governmental body or nonprofit organization under this subsection does not make any charge for such use.

(e) STATUTORY LICENSE.—(1) A transmitting organization entitled to transmit to the public a performance of a sound recording under the limitation on exclusive rights specified by section 114(d)(1)(C)(iv) or under a statutory license in accordance with section 114(f) is entitled to a statutory license, under the conditions specified by this subsection, to make no more than 1 phonorecord of the sound recording (unless the terms and conditions of the statutory license allow for more), if the following conditions are satisfied:

(A) The phonorecord is retained and used solely by the transmitting organization that made it, and no further phonorecords are reproduced from it.

(B) The phonorecord is used solely for the transmitting organization's own transmissions originating in the United States under a statutory license in accordance with section 114(f) or the limitation on exclusive rights specified by section 114(d)(1)(C)(iv).

(C) Unless preserved exclusively for purposes of archival preservation, the phonorecord is destroyed within 6 months from the date the sound recording was first transmitted to the public using the phonorecord.

(D) Phonorecords of the sound recording have been distributed to the public under the authority of the copyright owner or the copyright owner authorizes the transmitting entity to transmit the sound recording, and the transmitting entity makes the phonorecord under this subsection from a phonorecord lawfully made and acquired under the authority of the copyright owner.

(2) Notwithstanding any provision of the antitrust laws, any copyright owners of sound recordings and any transmitting organizations entitled to a statutory license under this subsection may negotiate and agree upon royalty rates and license terms and conditions for making phonorecords of such sound recordings under this section and the proportionate division of fees paid among copyright owners, and may designate common agents to negotiate, agree to, pay, or receive such royalty payments.

(3) No later than 30 days after the date of the enactment of the Digital Millennium Copyright Act, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of voluntary negotiation proceedings for the purpose of determining reasonable terms and rates of royalty payments for the activities specified by paragraph (1) of this subsection during the period beginning on the date of the enactment of such Act and ending on December 31, 2000, or such other date as the parties may agree. Such rates shall include a minimum fee for each type of service offered by transmitting organizations. Any copyright owners of sound recordings or any transmitting organizations entitled to a statutory license under this subsection may submit to the Librarian of Congress licenses covering such activities with respect to such sound recordings. The parties to each negotiation proceeding shall bear their own costs.

(4) In the absence of license agreements negotiated under paragraph (2), during the 60-day period commencing 6 months after publication of the notice specified in paragraph (3), and upon the filing of a petition in accordance with section 803(a)(1), the Librarian of Congress shall, pursuant to chapter 8, convene a copyright arbitration royalty panel to determine and publish in the Federal Register a schedule of reasonable rates and terms which, subject to paragraph (5), shall be binding on all copyright owners of sound recordings and transmitting organizations entitled to a statutory license under this subsection during the period beginning on the date of the enactment of the Digital Millennium Copyright Act and ending on December 31, 2000, or such other date as the parties may agree. Such rates shall include a minimum fee for each type of service offered by transmitting organizations. The copyright arbitration royalty panel shall establish rates that most clearly rep-

resent the fees that would have been negotiated in the marketplace between a willing buyer and a willing seller. In determining such rates and terms, the copyright arbitration royalty panel shall base its decision on economic, competitive, and programming information presented by the parties, including—

(A) whether use of the service may substitute for or may promote the sales of phonorecords or otherwise interferes with or enhances the copyright owner's traditional streams of revenue; and

(B) the relative roles of the copyright owner and the transmitting organization in the copyrighted work and the service made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, and risk.

In establishing such rates and terms, the copyright arbitration royalty panel may consider the rates and terms under voluntary license agreements negotiated as provided in paragraphs (2) and (3). The Librarian of Congress shall also establish requirements by which copyright owners may receive reasonable notice of the use of their sound recordings under this section, and under which records of such use shall be kept and made available by transmitting organizations entitled to obtain a statutory license under this subsection.

(5) License agreements voluntarily negotiated at any time between 1 or more copyright owners of sound recordings and 1 or more transmitting organizations entitled to obtain a statutory license under this subsection shall be given effect in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress.

(6) Publication of a notice of the initiation of voluntary negotiation proceedings as specified in paragraph (3) shall be repeated, in accordance with regulations that the Librarian of Congress shall prescribe, in the first week of January 2000, and at 2-year intervals thereafter, except to the extent that different years for the repeating of such proceedings may be determined in accordance with paragraph (3). The procedures specified in paragraph (4) shall be repeated, in accordance with regulations that the Librarian of Congress shall prescribe, upon filing of a petition in accordance with section 803(a)(1), during a 60-day period commencing on July 1, 2000, and at 2-year intervals thereafter, except to the extent that different years for the repeating of such proceedings may be determined in accordance with paragraph (3). The procedures specified in paragraph (4) shall be concluded in accordance with section 802.

(7)(A) Any person who wishes to make a phonorecord of a sound recording under a statutory license in accordance with this subsection may do so without infringing the exclusive right of the copyright owner of the sound recording under section 106(1)—

(i) by complying with such notice requirements as the Librarian of Congress shall prescribe by regulation and by paying royalty fees in accordance with this subsection; or

(ii) if such royalty fees have not been set, by agreeing to pay such royalty fees as shall be determined in accordance with this subsection.

(B) Any royalty payments in arrears shall be made on or before the 20th day of the month next succeeding the month in which the royalty fees are set.

(8) If a transmitting organization entitled to make a phonorecord under this subsection is prevented from making such phonorecord by reason of the application by the copyright owner of technical measures that prevent the reproduction of the sound recording, the copyright owner shall make available to the transmitting organization the necessary means for permitting the making of such phonorecord as permitted under this subsection, if it is technologically feasible and economically reasonable for the copyright owner to do so. If the copyright owner fails to do so in a timely manner in light of the transmitting organization's reasonable business requirements, the transmitting organization shall not be liable for a violation of section 1201(a)(1) of this title for engaging in such activities as are necessary to make such phonorecords as permitted under this subsection.

(9) Nothing in this subsection annuls, limits, impairs, or otherwise affects in any way the existence or value of any of the exclusive rights of the copyright owners in a sound recording, except as otherwise provided in this subsection, or in a musical work, including the exclusive rights to reproduce and distribute a sound recording or musical work, including by means of a digital phonorecord delivery, under sections 106(1), 106(3), and 115, and the right to perform publicly a sound recording or musical work, including by means of a digital audio transmission, under sections 106(4) and 106(6).

(f)(1) Notwithstanding the provisions of section 106, and without limiting the application of subsection (b), it is not an infringement of copyright for a governmental body or other nonprofit educational institution entitled under section 110(2) to transmit a performance or display to make copies or phonorecords of a work that is in digital form and, solely to the extent permitted in paragraph (2), of a work that is in analog form, embodying the performance or display to be used for making transmissions authorized under section 110(2), if—

(A) such copies or phonorecords are retained and used solely by the body or institution that made them, and no further copies or phonorecords are reproduced from them, except as authorized under section 110(2); and

(B) such copies or phonorecords are used solely for transmissions authorized under section 110(2).

(2) This subsection does not authorize the conversion of print or other analog versions of works into digital formats, except that such conversion is permitted hereunder, only with respect to the amount of such works authorized to be performed or displayed under section 110(2), if—

(A) no digital version of the work is available to the institution; or

(B) the digital version of the work that is available to the institution is subject to technological protection measures that prevent its use for section 110(2).

(g) The transmission program embodied in a copy or phonorecord made under this section is not subject to protection as a de-

rivative work under this title except with the express consent of the owners of copyright in the preexisting works employed in the program.

\* \* \* \* \*

#### § 114. Scope of exclusive rights in sound recordings

(a) The exclusive rights of the owner of copyright in a sound recording are limited to the rights specified by clauses (1), (2), (3) and (6) of section 106, and do not include any right of performance under section 106(4).

(b) The exclusive right of the owner of copyright in a sound recording under clause (1) of section 106 is limited to the right to duplicate the sound recording in the form of phonorecords or copies that directly or indirectly recapture the actual sounds fixed in the recording. The exclusive right of the owner of copyright in a sound recording under clause (2) of section 106 is limited to the right to prepare a derivative work in which the actual sounds fixed in the sound recording are rearranged, remixed, or otherwise altered in sequence or quality. The exclusive rights of the owner of copyright in a sound recording under clauses (1) and (2) of section 106 do not extend to the making or duplication of another sound recording that consists entirely of an independent fixation of other sounds, even though such sounds imitate or simulate those in the copyrighted sound recording. The exclusive rights of the owner of copyright in a sound recording under clauses (1), (2), and (3) of section 106 do not apply to sound recordings included in educational television and radio programs (as defined in section 397 of title 47) distributed or transmitted by or through public broadcasting entities (as defined by section 118(g)): *Provided*, That copies or phonorecords of said programs are not commercially distributed by or through public broadcasting entities to the general public.

(c) This section does not limit or impair the exclusive right to perform publicly, by means of a phonorecord, any of the works specified by section 106(4).

(d) LIMITATIONS ON EXCLUSIVE RIGHT.—Notwithstanding the provisions of section 106(6)—

(1) EXEMPT TRANSMISSIONS AND RETRANSMISSIONS.—The performance of a sound recording publicly by means of a digital audio transmission, other than as a part of an interactive service, is not an infringement of section 106(6) if the performance is part of—

(A) a nonsubscription broadcast transmission;

(B) a retransmission of a nonsubscription broadcast transmission: *Provided*, That, in the case of a retransmission of a radio station's broadcast transmission—

(i) the radio station's broadcast transmission is not willfully or repeatedly retransmitted more than a radius of 150 miles from the site of the radio broadcast transmitter, however—

(I) the 150 mile limitation under this clause shall not apply when a nonsubscription broadcast transmission by a radio station licensed by the Federal Communications Commission is retrans-

mitted on a nonsubscription basis by a terrestrial broadcast station, terrestrial translator, or terrestrial repeater licensed by the Federal Communications Commission; and

(II) in the case of a subscription retransmission of a nonsubscription broadcast retransmission covered by subclause (I), the 150 mile radius shall be measured from the transmitter site of such broadcast retransmitter;

(ii) the retransmission is of radio station broadcast transmissions that are—

(I) obtained by the retransmitter over the air;

(II) not electronically processed by the retransmitter to deliver separate and discrete signals; and

(III) retransmitted only within the local communities served by the retransmitter;

(iii) the radio station's broadcast transmission was being retransmitted to cable systems (as defined in section 111(f)) by a satellite carrier on January 1, 1995, and that retransmission was being retransmitted by cable systems as a separate and discrete signal, and the satellite carrier obtains the radio station's broadcast transmission in an analog format: *Provided*, That the broadcast transmission being retransmitted may embody the programming of no more than one radio station; or

(iv) the radio station's broadcast transmission is made by a noncommercial educational broadcast station funded on or after January 1, 1995, under section 396(k) of the Communications Act of 1934 (47 U.S.C. 396(k)), consists solely of noncommercial educational and cultural radio programs, and the retransmission, whether or not simultaneous, is a nonsubscription terrestrial broadcast retransmission; or

(C) a transmission that comes within any of the following categories—

(i) a prior or simultaneous transmission incidental to an exempt transmission, such as a feed received by and then retransmitted by an exempt transmitter: *Provided*, That such incidental transmissions do not include any subscription transmission directly for reception by members of the public;

(ii) a transmission within a business establishment, confined to its premises or the immediately surrounding vicinity;

(iii) a retransmission by any retransmitter, including a multichannel video programming distributor as defined in section 602(12) of the Communications Act of 1934 (47 U.S.C. 522(12)), of a transmission by a transmitter licensed to publicly perform the sound recording as a part of that transmission, if the retransmission is simultaneous with the licensed transmission and authorized by the transmitter; or

(iv) a transmission to a business establishment for use in the ordinary course of its business: *Provided*, That the business recipient does not retransmit the transmission outside of its premises or the immediately surrounding vicinity, and that the transmission does not exceed the sound recording performance complement. Nothing in this clause shall limit the scope of the exemption in clause (ii).

(2) STATUTORY LICENSING OF CERTAIN TRANSMISSIONS.— The performance of a sound recording publicly by means of a subscription digital audio transmission not exempt under paragraph (1), an eligible nonsubscription transmission, or a transmission not exempt under paragraph (1) that is made by a preexisting satellite digital audio radio service shall be subject to statutory licensing, in accordance with subsection (f) if—

(A)(i) the transmission is not part of an interactive service;

(ii) except in the case of a transmission to a business establishment, the transmitting entity does not automatically and intentionally cause any device receiving the transmission to switch from one program channel to another; and

(iii) except as provided in section 1002(e), the transmission of the sound recording is accompanied, if technically feasible, by the information encoded in that sound recording, if any, by or under the authority of the copyright owner of that sound recording, that identifies the title of the sound recording, the featured recording artist who performs on the sound recording, and related information, including information concerning the underlying musical work and its writer;

(B) in the case of a subscription transmission not exempt under paragraph (1) that is made by a preexisting subscription service in the same transmission medium used by such service on July 31, 1998, or in the case of a transmission not exempt under paragraph (1) that is made by a preexisting satellite digital audio radio service—

(i) the transmission does not exceed the sound recording performance complement; and

(ii) the transmitting entity does not cause to be published by means of an advance program schedule or prior announcement the titles of the specific sound recordings or phonorecords embodying such sound recordings to be transmitted; and

(C) in the case of an eligible nonsubscription transmission or a subscription transmission not exempt under paragraph (1) that is made by a new subscription service or by a preexisting subscription service other than in the same transmission medium used by such service on July 31, 1998—

(i) the transmission does not exceed the sound recording performance complement, except that this requirement shall not apply in the case of a retransmission of a broadcast transmission if the retrans-

mission is made by a transmitting entity that does not have the right or ability to control the programming of the broadcast station making the broadcast transmission, unless—

(I) the broadcast station makes broadcast transmissions—

(aa) in digital format that regularly exceed the sound recording performance complement; or

(bb) in analog format, a substantial portion of which, on a weekly basis, exceed the sound recording performance complement; and

(II) the sound recording copyright owner or its representative has notified the transmitting entity in writing that broadcast transmissions of the copyright owner's sound recordings exceed the sound recording performance complement as provided in this clause;

(ii) the transmitting entity does not cause to be published, or induce or facilitate the publication, by means of an advance program schedule or prior announcement, the titles of the specific sound recordings to be transmitted, the phonorecords embodying such sound recordings, or, other than for illustrative purposes, the names of the featured recording artists, except that this clause does not disqualify a transmitting entity that makes a prior announcement that a particular artist will be featured within an unspecified future time period, and in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, the requirement of this clause shall not apply to a prior oral announcement by the broadcast station, or to an advance program schedule published, induced, or facilitated by the broadcast station, if the transmitting entity does not have actual knowledge and has not received written notice from the copyright owner or its representative that the broadcast station publishes or induces or facilitates the publication of such advance program schedule, or if such advance program schedule is a schedule of classical music programming published by the broadcast station in the same manner as published by that broadcast station on or before September 30, 1998;

(iii) the transmission—

(I) is not part of an archived program of less than 5 hours duration;

(II) is not part of an archived program of 5 hours or greater in duration that is made available for a period exceeding 2 weeks;

(III) is not part of a continuous program which is of less than 3 hours duration; or

(IV) is not part of an identifiable program in which performances of sound recordings are rendered in a predetermined order, other than an archived or continuous program, that is transmitted at—

(aa) more than 3 times in any 2-week period that have been publicly announced in advance, in the case of a program of less than 1 hour in duration, or

(bb) more than 4 times in any 2-week period that have been publicly announced in advance, in the case of a program of 1 hour or more in duration,

except that the requirement of this subclause shall not apply in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, unless the transmitting entity is given notice in writing by the copyright owner of the sound recording that the broadcast station makes broadcast transmissions that regularly violate such requirement;

(iv) the transmitting entity does not knowingly perform the sound recording, as part of a service that offers transmissions of visual images contemporaneously with transmissions of sound recordings, in a manner that is likely to cause confusion, to cause mistake, or to deceive, as to the affiliation, connection, or association of the copyright owner or featured recording artist with the transmitting entity or a particular product or service advertised by the transmitting entity, or as to the origin, sponsorship, or approval by the copyright owner or featured recording artist of the activities of the transmitting entity other than the performance of the sound recording itself;

(v) the transmitting entity cooperates to prevent, to the extent feasible without imposing substantial costs or burdens, a transmission recipient or any other person or entity from automatically scanning the transmitting entity's transmissions alone or together with transmissions by other transmitting entities in order to select a particular sound recording to be transmitted to the transmission recipient, except that the requirement of this clause shall not apply to a satellite digital audio service that is in operation, or that is licensed by the Federal Communications Commission, on or before July 31, 1998;

(vi) the transmitting entity takes no affirmative steps to cause or induce the making of a phonorecord by the transmission recipient, and if the technology used by the transmitting entity enables the transmitting entity to limit the making by the transmission recipient of phonorecords of the transmission directly in

a digital format, the transmitting entity sets such technology to limit such making of phonorecords to the extent permitted by such technology;

(vii) phonorecords of the sound recording have been distributed to the public under the authority of the copyright owner or the copyright owner authorizes the transmitting entity to transmit the sound recording, and the transmitting entity makes the transmission from a phonorecord lawfully made under the authority of the copyright owner, except that the requirement of this clause shall not apply to a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, unless the transmitting entity is given notice in writing by the copyright owner of the sound recording that the broadcast station makes broadcast transmissions that regularly violate such requirement;

(viii) the transmitting entity accommodates and does not interfere with the transmission of technical measures that are widely used by sound recording copyright owners to identify or protect copyrighted works, and that are technically feasible of being transmitted by the transmitting entity without imposing substantial costs on the transmitting entity or resulting in perceptible aural or visual degradation of the digital signal, except that the requirement of this clause shall not apply to a satellite digital audio service that is in operation, or that is licensed under the authority of the Federal Communications Commission, on or before July 31, 1998, to the extent that such service has designed, developed, or made commitments to procure equipment or technology that is not compatible with such technical measures before such technical measures are widely adopted by sound recording copyright owners; and

(ix) the transmitting entity identifies in textual data the sound recording during, but not before, the time it is performed, including the title of the sound recording, the title of the phonorecord embodying such sound recording, if any, and the featured recording artist, in a manner to permit it to be displayed to the transmission recipient by the device or technology intended for receiving the service provided by the transmitting entity, except that the obligation in this clause shall not take effect until 1 year after the date of the enactment of the Digital Millennium Copyright Act and shall not apply in the case of a retransmission of a broadcast transmission by a transmitting entity that does not have the right or ability to control the programming of the broadcast transmission, or in the case in which devices or technology intended for receiving the service provided by the transmitting entity

that have the capability to display such textual data are not common in the marketplace.

(3) LICENSES FOR TRANSMISSIONS BY INTERACTIVE SERVICES.—

(A) No interactive service shall be granted an exclusive license under section 106(6) for the performance of a sound recording publicly by means of digital audio transmission for a period in excess of 12 months, except that with respect to an exclusive license granted to an interactive service by a licensor that holds the copyright to 1,000 or fewer sound recordings, the period of such license shall not exceed 24 months: *Provided, however,* That the grantee of such exclusive license shall be ineligible to receive another exclusive license for the performance of that sound recording for a period of 13 months from the expiration of the prior exclusive license.

(B) The limitation set forth in subparagraph (A) of this paragraph shall not apply if—

(i) the licensor has granted and there remain in effect licenses under section 106(6) for the public performance of sound recordings by means of digital audio transmission by at least 5 different interactive services: *Provided, however,* That each such license must be for a minimum of 10 percent of the copyrighted sound recordings owned by the licensor that have been licensed to interactive services, but in no event less than 50 sound recordings; or

(ii) the exclusive license is granted to perform publicly up to 45 seconds of a sound recording and the sole purpose of the performance is to promote the distribution or performance of that sound recording.

(C) Notwithstanding the grant of an exclusive or non-exclusive license of the right of public performance under section 106(6), an interactive service may not publicly perform a sound recording unless a license has been granted for the public performance of any copyrighted musical work contained in the sound recording: *Provided,* That such license to publicly perform the copyrighted musical work may be granted either by a performing rights society representing the copyright owner or by the copyright owner.

(D) The performance of a sound recording by means of a retransmission of a digital audio transmission is not an infringement of section 106(6) if—

(i) the retransmission is of a transmission by an interactive service licensed to publicly perform the sound recording to a particular member of the public as part of that transmission; and

(ii) the retransmission is simultaneous with the licensed transmission, authorized by the transmitter, and limited to that particular member of the public intended by the interactive service to be the recipient of the transmission.

(E) For the purposes of this paragraph—

(i) a “licensor” shall include the licensing entity and any other entity under any material degree of common ownership, management, or control that owns copyrights in sound recordings; and

(ii) a “performing rights society” is an association or corporation that licenses the public performance of nondramatic musical works on behalf of the copyright owner, such as the American Society of Composers, Authors and Publishers, Broadcast Music, Inc., and SESAC, Inc.

(4) RIGHTS NOT OTHERWISE LIMITED.—

(A) Except as expressly provided in this section, this section does not limit or impair the exclusive right to perform a sound recording publicly by means of a digital audio transmission under section 106(6).

(B) Nothing in this section annuls or limits in any way—

(i) the exclusive right to publicly perform a musical work, including by means of a digital audio transmission, under section 106(4);

(ii) the exclusive rights in a sound recording or the musical work embodied therein under sections 106(1), 106(2) and 106(3); or

(iii) any other rights under any other clause of section 106, or remedies available under this title, as such rights or remedies exist either before or after the date of enactment of the Digital Performance Right in Sound Recordings Act of 1995.

(C) Any limitations in this section on the exclusive right under section 106(6) apply only to the exclusive right under section 106(6) and not to any other exclusive rights under section 106. Nothing in this section shall be construed to annul, limit, impair or otherwise affect in any way the ability of the owner of a copyright in a sound recording to exercise the rights under sections 106(1), 106(2) and 106(3), or to obtain the remedies available under this title pursuant to such rights, as such rights and remedies exist either before or after the date of enactment of the Digital Performance Right in Sound Recordings Act of 1995.

(e) AUTHORITY FOR NEGOTIATIONS.—

(1) Notwithstanding any provision of the antitrust laws, in negotiating statutory licenses in accordance with subsection (f), any copyright owners of sound recordings and any entities performing sound recordings affected by this section may negotiate and agree upon the royalty rates and license terms and conditions for the performance of such sound recordings and the proportionate division of fees paid among copyright owners, and may designate common agents on a nonexclusive basis to negotiate, agree to, pay, or receive payments.

(2) For licenses granted under section 106(6), other than statutory licenses, such as for performances by interactive services or performances that exceed the sound recording performance complement—

(A) copyright owners of sound recordings affected by this section may designate common agents to act on their behalf to grant licenses and receive and remit royalty payments: *Provided*, That each copyright owner shall establish the royalty rates and material license terms and conditions unilaterally, that is, not in agreement, combination, or concert with other copyright owners of sound recordings; and

(B) entities performing sound recordings affected by this section may designate common agents to act on their behalf to obtain licenses and collect and pay royalty fees: *Provided*, That each entity performing sound recordings shall determine the royalty rates and material license terms and conditions unilaterally, that is, not in agreement, combination, or concert with other entities performing sound recordings.

(f) LICENSES FOR CERTAIN NONEXEMPT TRANSMISSIONS.—

(1)(A) No later than 30 days after the enactment of the Digital Performance Right in Sound Recordings Act of 1995, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of voluntary negotiation proceedings for the purpose of determining reasonable terms and rates of royalty payments for subscription transmissions by preexisting subscription services and transmissions by preexisting satellite digital audio radio services specified by subsection (d)(2) of this section during the period beginning on the effective date of such Act and ending on December 31, 2001, or, if a copyright arbitration royalty panel is convened, ending 30 days after the Librarian issues and publishes in the Federal Register an order adopting the determination of the copyright arbitration royalty panel or an order setting the terms and rates (if the Librarian rejects the panel's determination). Such terms and rates shall distinguish among the different types of digital audio transmission services then in operation. Any copyright owners of sound recordings, preexisting subscription services, or preexisting satellite digital audio radio services may submit to the Librarian of Congress licenses covering such subscription transmissions with respect to such sound recordings. The parties to each negotiation proceeding shall bear their own costs.

(B) In the absence of license agreements negotiated under subparagraph (A), during the 60-day period commencing 6 months after publication of the notice specified in subparagraph (A), and upon the filing of a petition in accordance with section 803(a)(1), the Librarian of Congress shall, pursuant to chapter 8, convene a copyright arbitration royalty panel to determine and publish in the Federal Register a schedule of rates and terms which, subject to paragraph (3), shall be binding on all copyright owners of sound recordings and entities performing sound recordings affected by this paragraph. In establishing rates and terms for preexisting subscription services and preexisting satellite digital audio radio services, in addition to the objectives set forth in section 801(b)(1), the copyright arbitration royalty panel may consider the rates and

terms for comparable types of subscription digital audio transmission services and comparable circumstances under voluntary license agreements negotiated as provided in subparagraph (A).

(C)(i) Publication of a notice of the initiation of voluntary negotiation proceedings as specified in subparagraph (A) shall be repeated, in accordance with regulations that the Librarian of Congress shall prescribe—

(I) no later than 30 days after a petition is filed by any copyright owners of sound recordings, any preexisting subscription services, or any preexisting satellite digital audio radio services indicating that a new type of subscription digital audio transmission service on which sound recordings are performed is or is about to become operational; and

(II) in the first week of January 2001, and at 5-year intervals thereafter.

(ii) The procedures specified in subparagraph (B) shall be repeated, in accordance with regulations that the Librarian of Congress shall prescribe, upon filing of a petition in accordance with section 803(a)(1) during a 60-day period commencing—

(I) 6 months after publication of a notice of the initiation of voluntary negotiation proceedings under subparagraph (A) pursuant to a petition under clause (i)(I) of this subparagraph; or

(II) on July 1, 2001, and at 5-year intervals thereafter.

(iii) The procedures specified in subparagraph (B) shall be concluded in accordance with section 802.

(2)(A) No later than 30 days after the date of the enactment of the Digital Millennium Copyright Act, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of voluntary negotiation proceedings for the purpose of determining reasonable terms and rates of royalty payments for public performances of sound recordings by means of eligible nonsubscription transmissions and transmissions by new subscription services specified by subsection (d)(2) during the period beginning on the date of the enactment of such Act and ending on December 31, 2000, or such other date as the parties may agree. Such rates and terms shall distinguish among the different types of eligible nonsubscription transmission services and new subscription services then in operation and shall include a minimum fee for each such type of service. Any copyright owners of sound recordings or any entities performing sound recordings affected by this paragraph may submit to the Librarian of Congress licenses covering such eligible nonsubscription transmissions and new subscription services with respect to such sound recordings. The parties to each negotiation proceeding shall bear their own costs.

(B) In the absence of license agreements negotiated under subparagraph (A), during the 60-day period commencing 6 months after publication of the notice specified in subparagraph (A), and upon the filing of a petition in accordance with section 803(a)(1), the Librarian of Congress shall, pursuant to chapter 8, convene a copyright arbitration royalty panel to de-

termine and publish in the Federal Register a schedule of rates and terms which, subject to paragraph (3), shall be binding on all copyright owners of sound recordings and entities performing sound recordings affected by this paragraph during the period beginning on the date of the enactment of the Digital Millennium Copyright Act and ending on December 31, 2000, or such other date as the parties may agree. Such rates and terms shall distinguish among the different types of eligible nonsubscription transmission services then in operation and shall include a minimum fee for each such type of service, such differences to be based on criteria including, but not limited to, the quantity and nature of the use of sound recordings and the degree to which use of the service may substitute for or may promote the purchase of phonorecords by consumers. In establishing rates and terms for transmissions by eligible nonsubscription services and new subscription services, the copyright arbitration royalty panel shall establish rates and terms that most clearly represent the rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller. In determining such rates and terms, the copyright arbitration royalty panel shall base its decision on economic, competitive and programming information presented by the parties, including—

(i) whether use of the service may substitute for or may promote the sales of phonorecords or otherwise may interfere with or may enhance the sound recording copyright owner's other streams of revenue from its sound recordings; and

(ii) the relative roles of the copyright owner and the transmitting entity in the copyrighted work and the service made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, and risk.

In establishing such rates and terms, the copyright arbitration royalty panel may consider the rates and terms for comparable types of digital audio transmission services and comparable circumstances under voluntary license agreements negotiated under subparagraph (A).

(C)(i) Publication of a notice of the initiation of voluntary negotiation proceedings as specified in subparagraph (A) shall be repeated in accordance with regulations that the Librarian of Congress shall prescribe—

(I) no later than 30 days after a petition is filed by any copyright owners of sound recordings or any eligible nonsubscription service or new subscription service indicating that a new type of eligible nonsubscription service or new subscription service on which sound recordings are performed is or is about to become operational; and

(II) in the first week of January 2000, and at 2-year intervals thereafter, except to the extent that different years for the repeating of such proceedings may be determined in accordance with subparagraph (A).

(ii) The procedures specified in subparagraph (B) shall be repeated, in accordance with regulations that the Librarian of

Congress shall prescribe, upon filing of a petition in accordance with section 803(a)(1) during a 60-day period commencing—

(I) 6 months after publication of a notice of the initiation of voluntary negotiation proceedings under subparagraph (A) pursuant to a petition under clause (i)(I); or

(II) on July 1, 2000, and at 2-year intervals thereafter, except to the extent that different years for the repeating of such proceedings may be determined in accordance with subparagraph (A).

(iii) The procedures specified in subparagraph (B) shall be concluded in accordance with section 802.

(3) License agreements voluntarily negotiated at any time between 1 or more copyright owners of sound recordings and 1 or more entities performing sound recordings shall be given effect in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress.

(4)(A) The Librarian of Congress shall also establish requirements by which copyright owners may receive reasonable notice of the use of their sound recordings under this section, and under which records of such use shall be kept and made available by entities performing sound recordings.

(B) Any person who wishes to perform a sound recording publicly by means of a transmission eligible for statutory licensing under this subsection may do so without infringing the exclusive right of the copyright owner of the sound recording—

(i) by complying with such notice requirements as the Librarian of Congress shall prescribe by regulation and by paying royalty fees in accordance with this subsection; or

(ii) if such royalty fees have not been set, by agreeing to pay such royalty fees as shall be determined in accordance with this subsection.

(C) Any royalty payments in arrears shall be made on or before the twentieth day of the month next succeeding the month in which the royalty fees are set.

(5)(A) Notwithstanding section 112(e) and the other provisions of this subsection, the receiving agent may enter into agreements for the reproduction and performance of sound recordings under section 112(e) and this section by any 1 or more small commercial webcasters or noncommercial webcasters during the period beginning on October 28, 1998, and ending on December 31, 2004, that, once published in the Federal Register pursuant to subparagraph (B), shall be binding on all copyright owners of sound recordings and other persons entitled to payment under this section, in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress. Any such agreement for small commercial webcasters shall include provisions for payment of royalties on the basis of a percentage of revenue or expenses, or both, and include a minimum fee. Any such agreement may include other terms and conditions, including requirements by which copyright owners may receive notice of the use of their sound recordings and under which records of such use shall be kept and made available by small commercial webcasters or

noncommercial webcasters. The receiving agent shall be under no obligation to negotiate any such agreement. The receiving agent shall have no obligation to any copyright owner of sound recordings or any other person entitled to payment under this section in negotiating any such agreement, and no liability to any copyright owner of sound recordings or any other person entitled to payment under this section for having entered into such agreement.

(B) The Copyright Office shall cause to be published in the Federal Register any agreement entered into pursuant to subparagraph (A). Such publication shall include a statement containing the substance of subparagraph (C). Such agreements shall not be included in the Code of Federal Regulations. Thereafter, the terms of such agreement shall be available, as an option, to any small commercial webcaster or noncommercial webcaster meeting the eligibility conditions of such agreement.

(C) Neither subparagraph (A) nor any provisions of any agreement entered into pursuant to subparagraph (A), including any rate structure, fees, terms, conditions, or notice and recordkeeping requirements set forth therein, shall be admissible as evidence or otherwise taken into account in any administrative, judicial, or other government proceeding involving the setting or adjustment of the royalties payable for the public performance or reproduction in ephemeral phonorecords or copies of sound recordings, the determination of terms or conditions related thereto, or the establishment of notice or recordkeeping requirements by the Librarian of Congress under paragraph (4) or section 112(e)(4). It is the intent of Congress that any royalty rates, rate structure, definitions, terms, conditions, or notice and recordkeeping requirements, included in such agreements shall be considered as a compromise motivated by the unique business, economic and political circumstances of small webcasters, copyright owners, and performers rather than as matters that would have been negotiated in the marketplace between a willing buyer and a willing seller, or otherwise meet the objectives set forth in section 801(b).

(D) Nothing in the Small Webcaster Settlement Act of 2002 or any agreement entered into pursuant to subparagraph (A) shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of the determination by the Librarian of Congress of July 8, 2002, of rates and terms for the digital performance of sound recordings and ephemeral recordings, pursuant to sections 112 and 114.

(E) As used in this paragraph—

(i) the term “noncommercial webcaster” means a webcaster that—

(I) is exempt from taxation under section 501 of the Internal Revenue Code of 1986 (26 U.S.C. 501);

(II) has applied in good faith to the Internal Revenue Service for exemption from taxation under section 501 of the Internal Revenue Code and has a com-

mercially reasonable expectation that such exemption shall be granted; or

(III) is operated by a State or possession or any governmental entity or subordinate thereof, or by the United States or District of Columbia, for exclusively public purposes;

(ii) the term “receiving agent” shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002; and

(iii) the term “webcaster” means a person or entity that has obtained a compulsory license under section 112 or 114 and the implementing regulations therefor to make eligible nonsubscription transmissions and ephemeral recordings.

(F) The authority to make settlements pursuant to subparagraph (A) shall expire December 15, 2002, except with respect to noncommercial webcasters for whom the authority shall expire May 31, 2003.

(g) PROCEEDS FROM LICENSING OF TRANSMISSIONS.—

(1) Except in the case of a transmission licensed under a statutory license in accordance with subsection (f) of this section—

(A) a featured recording artist who performs on a sound recording that has been licensed for a transmission shall be entitled to receive payments from the copyright owner of the sound recording in accordance with the terms of the artist’s contract; and

(B) a nonfeatured recording artist who performs on a sound recording that has been licensed for a transmission shall be entitled to receive payments from the copyright owner of the sound recording in accordance with the terms of the nonfeatured recording artist’s applicable contract or other applicable agreement.

(2) An agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) shall distribute such receipts as follows:

(A) 50 percent of the receipts shall be paid to the copyright owner of the exclusive right under section 106(6) of this title to publicly perform a sound recording by means of a digital audio transmission.

(B) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Musicians (or any successor entity) to be distributed to nonfeatured musicians (whether or not members of the American Federation of Musicians) who have performed on sound recordings.

(C) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Television and Radio Artists (or any successor entity) to be distributed to nonfeatured vocalists (whether or not members of the American

Federation of Television and Radio Artists) who have performed on sound recordings.

(D) 45 percent of the receipts shall be paid, on a per sound recording basis, to the recording artist or artists featured on such sound recording (or the persons conveying rights in the artists' performance in the sound recordings).

(3) A nonprofit agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts to any person or entity entitled thereto other than copyright owners and performers who have elected to receive royalties from another designated agent and have notified such nonprofit agent in writing of such election, the reasonable costs of such agent incurred after November 1, 1995, in—

(A) the administration of the collection, distribution, and calculation of the royalties;

(B) the settlement of disputes relating to the collection and calculation of the royalties; and

(C) the licensing and enforcement of rights with respect to the making of ephemeral recordings and performances subject to licensing under section 112 and this section, including those incurred in participating in negotiations or arbitration proceedings under section 112 and this section, except that all costs incurred relating to the section 112 ephemeral recordings right may only be deducted from the royalties received pursuant to section 112.

(4) Notwithstanding paragraph (3), any designated agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts, the reasonable costs identified in paragraph (3) of such agent incurred after November 1, 1995, with respect to such copyright owners and performers who have entered with such agent a contractual relationship that specifies that such costs may be deducted from such royalty receipts.

(h) LICENSING TO AFFILIATES.—

(1) If the copyright owner of a sound recording licenses an affiliated entity the right to publicly perform a sound recording by means of a digital audio transmission under section 106(6), the copyright owner shall make the licensed sound recording available under section 106(6) on no less favorable terms and conditions to all bona fide entities that offer similar services, except that, if there are material differences in the scope of the requested license with respect to the type of service, the particular sound recordings licensed, the frequency of use, the number of subscribers served, or the duration, then the copyright owner may establish different terms and conditions for such other services.

(2) The limitation set forth in paragraph (1) of this subsection shall not apply in the case where the copyright owner of a sound recording licenses—

(A) an interactive service; or

(B) an entity to perform publicly up to 45 seconds of the sound recording and the sole purpose of the performance is to promote the distribution or performance of that sound recording.

(i) **NO EFFECT ON ROYALTIES FOR UNDERLYING WORKS.**—License fees payable for the public performance of sound recordings under section 106(6) shall not be taken into account in any administrative, judicial, or other governmental proceeding to set or adjust the royalties payable to copyright owners of musical works for the public performance of their works. It is the intent of Congress that royalties payable to copyright owners of musical works for the public performance of their works shall not be diminished in any respect as a result of the rights granted by section 106(6).

(j) **DEFINITIONS.**—As used in this section, the following terms have the following meanings:

(1) An “affiliated entity” is an entity engaging in digital audio transmissions covered by section 106(6), other than an interactive service, in which the licensor has any direct or indirect partnership or any ownership interest amounting to 5 percent or more of the outstanding voting or non-voting stock.

(2) An “archived program” is a predetermined program that is available repeatedly on the demand of the transmission recipient and that is performed in the same order from the beginning, except that an archived program shall not include a recorded event or broadcast transmission that makes no more than an incidental use of sound recordings, as long as such recorded event or broadcast transmission does not contain an entire sound recording or feature a particular sound recording.

(3) A “broadcast” transmission is a transmission made by a terrestrial broadcast station licensed as such by the Federal Communications Commission.

(4) A “continuous program” is a predetermined program that is continuously performed in the same order and that is accessed at a point in the program that is beyond the control of the transmission recipient.

(5) A “digital audio transmission” is a digital transmission as defined in section 101, that embodies the transmission of a sound recording. This term does not include the transmission of any audiovisual work.

(6) An “eligible nonsubscription transmission” is a non-interactive nonsubscription digital audio transmission not exempt under subsection (d)(1) that is made as part of a service that provides audio programming consisting, in whole or in part, of performances of sound recordings, including retransmissions of broadcast transmissions, if the primary purpose of the service is to provide to the public such audio or other entertainment programming, and the primary purpose of the service is not to sell, advertise, or promote particular products or services other than sound recordings, live concerts, or other music-related events.

(7) An “interactive service” is one that enables a member of the public to receive a transmission of a program specially created for the recipient, or on request, a transmission of a particular sound recording, whether or not as part of a pro-

gram, which is selected by or on behalf of the recipient. The ability of individuals to request that particular sound recordings be performed for reception by the public at large, or in the case of a subscription service, by all subscribers of the service, does not make a service interactive, if the programming on each channel of the service does not substantially consist of sound recordings that are performed within 1 hour of the request or at a time designated by either the transmitting entity or the individual making such request. If an entity offers both interactive and noninteractive services (either concurrently or at different times), the noninteractive component shall not be treated as part of an interactive service.

(8) A “new subscription service” is a service that performs sound recordings by means of noninteractive subscription digital audio transmissions and that is not a preexisting subscription service or a preexisting satellite digital audio radio service.

(9) A “nonsubscription” transmission is any transmission that is not a subscription transmission.

(10) A “preexisting satellite digital audio radio service” is a subscription satellite digital audio radio service provided pursuant to a satellite digital audio radio service license issued by the Federal Communications Commission on or before July 31, 1998, and any renewal of such license to the extent of the scope of the original license, and may include a limited number of sample channels representative of the subscription service that are made available on a nonsubscription basis in order to promote the subscription service.

(11) A “preexisting subscription service” is a service that performs sound recordings by means of noninteractive audio-only subscription digital audio transmissions, which was in existence and was making such transmissions to the public for a fee on or before July 31, 1998, and may include a limited number of sample channels representative of the subscription service that are made available on a nonsubscription basis in order to promote the subscription service.

(12) A “retransmission” is a further transmission of an initial transmission, and includes any further retransmission of the same transmission. Except as provided in this section, a transmission qualifies as a “retransmission” only if it is simultaneous with the initial transmission. Nothing in this definition shall be construed to exempt a transmission that fails to satisfy a separate element required to qualify for an exemption under section 114(d)(1).

(13) The “sound recording performance complement” is the transmission during any 3-hour period, on a particular channel used by a transmitting entity, of no more than—

(A) 3 different selections of sound recordings from any one phonorecord lawfully distributed for public performance or sale in the United States, if no more than 2 such selections are transmitted consecutively; or

(B) 4 different selections of sound recordings—

(i) by the same featured recording artist; or

(ii) from any set or compilation of phonorecords lawfully distributed together as a unit for public performance or sale in the United States,

if no more than three such selections are transmitted consecutively:

*Provided*, That the transmission of selections in excess of the numerical limits provided for in clauses (A) and (B) from multiple phonorecords shall nonetheless qualify as a sound recording performance complement if the programming of the multiple phonorecords was not willfully intended to avoid the numerical limitations prescribed in such clauses.

(14) A “subscription” transmission is a transmission that is controlled and limited to particular recipients, and for which consideration is required to be paid or otherwise given by or on behalf of the recipient to receive the transmission or a package of transmissions including the transmission.

(15) A “transmission” is either an initial transmission or a retransmission.

### § 117. Limitations on exclusive rights: Computer programs<sup>1</sup>

(a) MAKING OF ADDITIONAL COPY OR ADAPTATION BY OWNER OF COPY.—Notwithstanding the provisions of section 106, it is not an infringement for the owner of a copy of a computer program to make or authorize the making of another copy or adaptation of that computer program provided:

(1) that such a new copy or adaptation is created as an essential step in the utilization of the computer program in conjunction with a machine and that it is used in no other manner, or

(2) that such new copy or adaptation is for archival purposes only and that all archival copies are destroyed in the event that continued possession of the computer program should cease to be rightful.

(b) LEASE, SALE, OR OTHER TRANSFER OF ADDITIONAL COPY OR ADAPTATION.—Any exact copies prepared in accordance with the provisions of this section may be leased, sold, or otherwise transferred, along with the copy from which such copies were prepared, only as part of the lease, sale, or other transfer of all rights in the

<sup>1</sup> Section 104 of the Digital Millennium Copyright Act (Public Law 105–304) provides as follows:

#### SEC. 104. [17 U.S.C. 109 note] EVALUATION OF IMPACT OF COPYRIGHT LAW AND AMENDMENTS ON ELECTRONIC COMMERCE AND TECHNOLOGICAL DEVELOPMENT.

(a) EVALUATION BY THE REGISTER OF COPYRIGHTS AND THE ASSISTANT SECRETARY FOR COMMUNICATIONS AND INFORMATION.—The Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall jointly evaluate—

(1) the effects of the amendments made by this title and the development of electronic commerce and associated technology on the operation of sections 109 and 117 of title 17, United States Code; and

(2) the relationship between existing and emergent technology and the operation of sections 109 and 117 of title 17, United States Code.

(b) REPORT TO CONGRESS.—The Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall, not later than 24 months after the date of the enactment of this Act, submit to the Congress a joint report on the evaluation conducted under subsection (a), including any legislative recommendations the Register and the Assistant Secretary may have.

program. Adaptations so prepared may be transferred only with the authorization of the copyright owner.

(c) MACHINE MAINTENANCE OR REPAIR.—Notwithstanding the provisions of section 106, it is not an infringement for the owner or lessee of a machine to make or authorize the making of a copy of a computer program if such copy is made solely by virtue of the activation of a machine that lawfully contains an authorized copy of the computer program, for purposes only of maintenance or repair of that machine, if—

(1) such new copy is used in no other manner and is destroyed immediately after the maintenance or repair is completed; and

(2) with respect to any computer program or part thereof that is not necessary for that machine to be activated, such program or part thereof is not accessed or used other than to make such new copy by virtue of the activation of the machine.

(d) DEFINITIONS.—For purposes of this section—

(1) the “maintenance” of a machine is the servicing of the machine in order to make it work in accordance with its original specifications and any changes to those specifications authorized for that machine; and

(2) the “repair” of a machine is the restoring of the machine to the state of working in accordance with its original specifications and any changes to those specifications authorized for that machine.

**§ 119. Limitations on exclusive rights: Secondary transmissions of superstations and network stations for private home viewing<sup>1</sup>**

(a) SECONDARY TRANSMISSIONS BY SATELLITE CARRIERS.—

(1) SUPERSTATIONS AND PBS SATELLITE FEED.—Subject to the provisions of paragraphs (3), (4), and (6) of this subsection and section 114(d), secondary transmissions of a performance or display of a work embodied in a primary transmission made by a superstation or by the Public Broadcasting Service satellite feed shall be subject to statutory licensing under this section if the secondary transmission is made by a satellite carrier to the public for private home viewing, with regard to secondary transmissions the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals, and the carrier makes a direct or indirect charge for each retransmission service to each household receiving the secondary transmission or to a distributor that has contracted with the carrier for direct or indirect delivery

<sup>1</sup> Section 4(a) of the Satellite Home Viewer Act of 1994 (P.L. 103-369), as amended by section 1003 of the Intellectual Property and Communications Omnibus Reform Act of 1999 (S. 1948 as introduced by the Senate during the 106th Congress, 1st Session and enacted by section 1000(a)(9) of Public Law 106-113), provides as follows:

**SEC. 4. [17 U.S.C. 119 note] TERMINATION.**

(a) EXPIRATION OF AMENDMENTS.—Section 119 of title 17, United States Code, as amended by section 2 of this Act, ceases to be effective on December 31, 2004.

of the secondary transmission to the public for private home viewing. In the case of the Public Broadcasting Service satellite feed, the statutory license shall be effective until January 1, 2002.

(2) NETWORK STATIONS.—

(A) IN GENERAL.—Subject to the provisions of subparagraphs (B) and (C) of this paragraph and paragraphs (3), (4), (5), and (6) of this subsection and section 114(d), secondary transmissions of a performance or display of a work embodied in a primary transmission made by a network station shall be subject to statutory licensing under this section if the secondary transmission is made by a satellite carrier to the public for private home viewing, with regard to secondary transmissions the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals, and the carrier makes a direct or indirect charge for such retransmission service to each subscriber receiving the secondary transmission.

(B) SECONDARY TRANSMISSIONS TO UNSERVED HOUSEHOLDS.—

(i) IN GENERAL.—The statutory license provided for in subparagraph (A) shall be limited to secondary transmissions of the signals of no more than two network stations in a single day for each television network to persons who reside in unserved households.

(ii) ACCURATE DETERMINATIONS OF ELIGIBILITY.—

(I) ACCURATE PREDICTIVE MODEL.—In determining presumptively whether a person resides in an unserved household under subsection (d)(10)(A), a court shall rely on the Individual Location Longley-Rice model set forth by the Federal Communications Commission in Docket No. 98–201, as that model may be amended by the Commission over time under section 339(c)(3) of the Communications Act of 1934 to increase the accuracy of that model.

(II) ACCURATE MEASUREMENTS.—For purposes of site measurements to determine whether a person resides in an unserved household under subsection (d)(10)(A), a court shall rely on section 339(c)(4) of the Communications Act of 1934.

(iii) C-BAND EXEMPTION TO UNSERVED HOUSEHOLDS.—

(I) IN GENERAL.—The limitations of clause (i) shall not apply to any secondary transmissions by C-band services of network stations that a subscriber to C-band service received before any termination of such secondary transmissions before October 31, 1999.

(II) DEFINITION.—In this clause the term “C-band service” means a service that is licensed by the Federal Communications Commission and op-

erates in the Fixed Satellite Service under part 25 of title 47 of the Code of Federal Regulations.

(C) SUBMISSION OF SUBSCRIBER LISTS TO NETWORKS.—

A satellite carrier that makes secondary transmissions of a primary transmission made by a network station pursuant to subparagraph (A) shall, 90 days after commencing such secondary transmissions, submit to the network that owns or is affiliated with the network station a list identifying (by name and street address, including county and zip code) all subscribers to which the satellite carrier makes secondary transmissions of that primary transmission. Thereafter, on the 15th of each month, the satellite carrier shall submit to the network a list identifying (by name and street address, including county and zip code) any persons who have been added or dropped as such subscribers since the last submission under this subparagraph. Such subscriber information submitted by a satellite carrier may be used only for purposes of monitoring compliance by the satellite carrier with this subsection. The submission requirements of this subparagraph shall apply to a satellite carrier only if the network to whom the submissions are to be made places on file with the Register of Copyrights a document identifying the name and address of the person to whom such submissions are to be made. The Register shall maintain for public inspection a file of all such documents.

(3) NONCOMPLIANCE WITH REPORTING AND PAYMENT REQUIREMENTS.—Notwithstanding the provisions of paragraphs (1) and (2), the willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission made by a superstation or a network station and embodying a performance or display of a work is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, where the satellite carrier has not deposited the statement of account and royalty fee required by subsection (b), or has failed to make the submissions to networks required by paragraph (2)(C).

(4) WILLFUL ALTERATIONS.—Notwithstanding the provisions of paragraphs (1) and (2), the secondary transmission to the public by a satellite carrier of a performance or display of a work embodied in a primary transmission made by a superstation or a network station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcement transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the satellite carrier through changes, deletions, or additions, or is combined with programming from any other broadcast signal.

(5) VIOLATION OF TERRITORIAL RESTRICTIONS ON STATUTORY LICENSE FOR NETWORK STATIONS.—

(A) INDIVIDUAL VIOLATIONS.—The willful or repeated secondary transmission by a satellite carrier of a primary transmission made by a network station and embodying a performance or display of a work to a subscriber who does not reside in an unserved household is actionable as an act of infringement under section 501 and is fully subject to the remedies provided by sections 502 through 506 and 509, except that—

(i) no damages shall be awarded for such act of infringement if the satellite carrier took corrective action by promptly withdrawing service from the ineligible subscriber, and

(ii) any statutory damages shall not exceed \$5 for such subscriber for each month during which the violation occurred.

(B) PATTERN OF VIOLATIONS.—If a satellite carrier engages in a willful or repeated pattern or practice of delivering a primary transmission made by a network station and embodying a performance or display of a work to subscribers who do not reside in unserved households, then in addition to the remedies set forth in subparagraph (A)—

(i) if the pattern or practice has been carried out on a substantially nationwide basis, the court shall order a permanent injunction barring the secondary transmission by the satellite carrier, for private home viewing, of the primary transmissions of any primary network station affiliated with the same network, and the court may order statutory damages of not to exceed \$250,000 for each 6-month period during which the pattern or practice was carried out; and

(ii) if the pattern or practice has been carried out on a local or regional basis, the court shall order a permanent injunction barring the secondary transmission, for private home viewing in that locality or region, by the satellite carrier of the primary transmissions of any primary network station affiliated with the same network, and the court may order statutory damages of not to exceed \$250,000 for each 6-month period during which the pattern or practice was carried out.

(C) PREVIOUS SUBSCRIBERS EXCLUDED.—Subparagraphs (A) and (B) do not apply to secondary transmissions by a satellite carrier to persons who subscribed to receive such secondary transmissions from the satellite carrier or a distributor before November 16, 1988.

(D) BURDEN OF PROOF.—In any action brought under this paragraph, the satellite carrier shall have the burden of proving that its secondary transmission of a primary transmission by a network station is for private home viewing to an unserved household.

(E) EXCEPTION.—The secondary transmission by a satellite carrier of a performance or display of a work embodied in a primary transmission made by a network station to subscribers who do not reside in unserved households shall not be an act of infringement if—

(i) the station on May 1, 1991, was retransmitted by a satellite carrier and was not on that date owned or operated by or affiliated with a television network that offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States;

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of this section; and

(iii) the station is not owned or operated by or affiliated with a television network that, as of January 1, 1995, offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States.

(6) DISCRIMINATION BY A SATELLITE CARRIER.—Notwithstanding the provisions of paragraph (1), the willful or repeated secondary transmission to the public by a satellite carrier of a performance or display of a work embodied in a primary transmission made by a superstation or a network station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if the satellite carrier unlawfully discriminates against a distributor.

(7) GEOGRAPHIC LIMITATION ON SECONDARY TRANSMISSIONS.—The statutory license created by this section shall apply only to secondary transmissions to households located in the United States.

(8) TRANSITIONAL SIGNAL INTENSITY MEASUREMENT PROCEDURES.—

(A) IN GENERAL.—Subject to subparagraph (C), upon a challenge by a network station regarding whether a subscriber is an unserved household within the predicted Grade B Contour of the station, the satellite carrier shall, within 60 days after the receipt of the challenge—

(i) terminate service to that household of the signal that is the subject of the challenge, and within 30 days thereafter notify the network station that made the challenge that service to that household has been terminated; or

(ii) conduct a measurement of the signal intensity of the subscriber's household to determine whether the household is an unserved household after giving reasonable notice to the network station of the satellite carrier's intent to conduct the measurement.

(B) EFFECT OF MEASUREMENT.—If the satellite carrier conducts a signal intensity measurement under subparagraph (A) and the measurement indicates that—

(i) the household is not an unserved household, the satellite carrier shall, within 60 days after the measurement is conducted, terminate the service to that household of the signal that is the subject of the challenge, and within 30 days thereafter notify the network station that made the challenge that service to that household has been terminated; or

(ii) the household is an unserved household, the station challenging the service shall reimburse the satellite carrier for the costs of the signal measurement within 60 days after receipt of the measurement results and a statement of the costs of the measurement.

(C) LIMITATION ON MEASUREMENTS.—(i) Notwithstanding subparagraph (A), a satellite carrier may not be required to conduct signal intensity measurements during any calendar year in excess of 5 percent of the number of subscribers within the network station's local market that have subscribed to the service as of the effective date of the Satellite Home Viewer Act of 1994.

(ii) If a network station challenges whether a subscriber is an unserved household in excess of 5 percent of the subscribers within the network station's local market within a calendar year, subparagraph (A) shall not apply to challenges in excess of such 5 percent, but the station may conduct its own signal intensity measurement of the subscriber's household after giving reasonable notice to the satellite carrier of the network station's intent to conduct the measurement. If such measurement indicates that the household is not an unserved household, the carrier shall, within 60 days after receipt of the measurement, terminate service to the household of the signal that is the subject of the challenge and within 30 days thereafter notify the network station that made the challenge that service has been terminated. The carrier shall also, within 60 days after receipt of the measurement and a statement of the costs of the measurement, reimburse the network station for the cost it incurred in conducting the measurement.

(D) OUTSIDE THE PREDICTED GRADE B CONTOUR.—(i) If a network station challenges whether a subscriber is an unserved household outside the predicted Grade B Contour of the station, the station may conduct a measurement of the signal intensity of the subscriber's household to determine whether the household is an unserved household after giving reasonable notice to the satellite carrier of the network station's intent to conduct the measurement.

(ii) If the network station conducts a signal intensity measurement under clause (i) and the measurement indicates that—

(I) the household is not an unserved household, the station shall forward the results to the satellite carrier who shall, within 60 days after receipt of the measurement, terminate the service to the household of the signal that is the subject of the challenge, and shall reimburse the station for the costs of the measurement within 60 days after receipt of the measurement results and a statement of such costs; or

(II) the household is an unserved household, the station shall pay the costs of the measurement.

(9) LOSER PAYS FOR SIGNAL INTENSITY MEASUREMENT; RECOVERY OF MEASUREMENT COSTS IN A CIVIL ACTION.—In any

civil action filed relating to the eligibility of subscribing households as unserved households—

(A) a network station challenging such eligibility shall, within 60 days after receipt of the measurement results and a statement of such costs, reimburse the satellite carrier for any signal intensity measurement that is conducted by that carrier in response to a challenge by the network station and that establishes the household is an unserved household; and

(B) a satellite carrier shall, within 60 days after receipt of the measurement results and a statement of such costs, reimburse the network station challenging such eligibility for any signal intensity measurement that is conducted by that station and that establishes the household is not an unserved household.

(10) INABILITY TO CONDUCT MEASUREMENT.—If a network station makes a reasonable attempt to conduct a site measurement of its signal at a subscriber's household and is denied access for the purpose of conducting the measurement, and is otherwise unable to conduct a measurement, the satellite carrier shall within 60 days notice thereof, terminate service of the station's network to that household.

(11) SERVICE TO RECREATIONAL VEHICLES AND COMMERCIAL TRUCKS.—

(A) EXEMPTION.—

(i) IN GENERAL.—For purposes of this subsection, and subject to clauses (ii) and (iii), the term “unserved household” shall include—

(I) recreational vehicles as defined in regulations of the Secretary of Housing and Urban Development under section 3282.8 of title 24 of the Code of Federal Regulations; and

(II) commercial trucks that qualify as commercial motor vehicles under regulations of the Secretary of Transportation under section 383.5 of title 49 of the Code of Federal Regulations.

(ii) LIMITATION.—Clause (i) shall apply only to a recreational vehicle or commercial truck if any satellite carrier that proposes to make a secondary transmission of a network station to the operator of such a recreational vehicle or commercial truck complies with the documentation requirements under subparagraphs (B) and (C).

(iii) EXCLUSION.—For purposes of this subparagraph, the terms “recreational vehicle” and “commercial truck” shall not include any fixed dwelling, whether a mobile home or otherwise.

(B) DOCUMENTATION REQUIREMENTS.—A recreational vehicle or commercial truck shall be deemed to be an unserved household beginning 10 days after the relevant satellite carrier provides to the network that owns or is affiliated with the network station that will be secondarily transmitted to the recreational vehicle or commercial truck the following documents:

(i) DECLARATION.—A signed declaration by the operator of the recreational vehicle or commercial truck that the satellite dish is permanently attached to the recreational vehicle or commercial truck, and will not be used to receive satellite programming at any fixed dwelling.

(ii) REGISTRATION.—In the case of a recreational vehicle, a copy of the current State vehicle registration for the recreational vehicle.

(iii) REGISTRATION AND LICENSE.—In the case of a commercial truck, a copy of—

(I) the current State vehicle registration for the truck; and

(II) a copy of a valid, current commercial driver's license, as defined in regulations of the Secretary of Transportation under section 383 of title 49 of the Code of Federal Regulations, issued to the operator.

(C) UPDATED DOCUMENTATION REQUIREMENTS.—If a satellite carrier wishes to continue to make secondary transmissions to a recreational vehicle or commercial truck for more than a 2-year period, that carrier shall provide each network, upon request, with updated documentation in the form described under subparagraph (B) during the 90 days before expiration of that 2-year period.

(12) STATUTORY LICENSE CONTINGENT ON COMPLIANCE WITH FCC RULES AND REMEDIAL STEPS.—Notwithstanding any other provision of this section, the willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission embodying a performance or display of a work made by a broadcast station licensed by the Federal Communications Commission is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and 509, if, at the time of such transmission, the satellite carrier is not in compliance with the rules, regulations, and authorizations of the Federal Communications Commission concerning the carriage of television broadcast station signals.

(b) STATUTORY LICENSE FOR SECONDARY TRANSMISSIONS FOR PRIVATE HOME VIEWING.—

(1) DEPOSITS WITH THE REGISTER OF COPYRIGHTS.—A satellite carrier whose secondary transmissions are subject to statutory licensing under subsection (a) shall, on a semiannual basis, deposit with the Register of Copyrights, in accordance with requirements that the Register shall prescribe by regulation—

(A) a statement of account, covering the preceding 6-month period, specifying the names and locations of all superstations and network stations whose signals were retransmitted, at any time during that period, to subscribers for private home viewing as described in subsections (a)(1) and (a)(2), the total number of subscribers that received such retransmissions, and such other data as the Register

of Copyrights may from time to time prescribe by regulation; and

(B) a royalty fee for that 6-month period, computed by—

(i) multiplying the total number of subscribers receiving each secondary transmission of a superstation during each calendar month by 17.5 cents per subscriber in the case of superstations that as retransmitted by the satellite carrier include any program which, if delivered by any cable system in the United States, would be subject to the syndicated exclusivity rules of the Federal Communications Commission, and 14 cents per subscriber in the case of superstations that are syndex-proof as defined in section 258.2 of title 37, Code of Federal Regulations;

(ii) multiplying the number of subscribers receiving each secondary transmission of a network station or the Public Broadcasting Service satellite feed during each calendar month by 6 cents; and

(iii) adding together the totals computed under clauses (i) and (ii).

(2) INVESTMENT OF FEES.—The Register of Copyrights shall receive all fees deposited under this section and, after deducting the reasonable costs incurred by the Copyright Office under this section (other than the costs deducted under paragraph (4)), shall deposit the balance in the Treasury of the United States, in such manner as the Secretary of the Treasury directs. All funds held by the Secretary of the Treasury shall be invested in interest-bearing securities of the United States for later distribution with interest by the Librarian of Congress as provided by this title.

(3) PERSONS TO WHOM FEES ARE DISTRIBUTED.—The royalty fees deposited under paragraph (2) shall, in accordance with the procedures provided by paragraph (4), be distributed to those copyright owners whose works were included in a secondary transmission for private home viewing made by a satellite carrier during the applicable 6-month accounting period and who file a claim with the Librarian of Congress under paragraph (4).

(4) PROCEDURES FOR DISTRIBUTION.—The royalty fees deposited under paragraph (2) shall be distributed in accordance with the following procedures:

(A) FILING OF CLAIMS FOR FEES.—During the month of July in each year, each person claiming to be entitled to statutory license fees for secondary transmissions for private home viewing shall file a claim with the Librarian of Congress, in accordance with requirements that the Librarian of Congress shall prescribe by regulation. For purposes of this paragraph, any claimants may agree among themselves as to the proportionate division of statutory license fees among them, may lump their claims together and file them jointly or as a single claim, or may designate a common agent to receive payment on their behalf.

(B) DETERMINATION OF CONTROVERSY; DISTRIBUTIONS.—After the first day of August of each year, the Librarian of Congress shall determine whether there exists a controversy concerning the distribution of royalty fees. If the Librarian of Congress determines that no such controversy exists, the Librarian of Congress shall, after deducting reasonable administrative costs under this paragraph, distribute such fees to the copyright owners entitled to receive them, or to their designated agents. If the Librarian of Congress finds the existence of a controversy, the Librarian of Congress shall, pursuant to chapter 8 of this title, convene a copyright arbitration royalty panel to determine the distribution of royalty fees.

(C) WITHHOLDING OF FEES DURING CONTROVERSY.—During the pendency of any proceeding under this subsection, the Librarian of Congress shall withhold from distribution an amount sufficient to satisfy all claims with respect to which a controversy exists, but shall have discretion to proceed to distribute any amounts that are not in controversy.

(c) ADJUSTMENT OF ROYALTY FEES.—

(1) APPLICABILITY AND DETERMINATION OF ROYALTY FEES.—The rate of the royalty fee payable under subsection (b)(1)(B) shall be effective unless a royalty fee is established under paragraph (2) or (3) of this subsection.

(2) FEE SET BY VOLUNTARY NEGOTIATION.—

(A) NOTICE OF INITIATION OF PROCEEDINGS.—On or before July 1, 1996, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of voluntary negotiation proceedings for the purpose of determining the royalty fee to be paid by satellite carriers under subsection (b)(1)(B).

(B) NEGOTIATIONS.—Satellite carriers, distributors, and copyright owners entitled to royalty fees under this section shall negotiate in good faith in an effort to reach a voluntary agreement or voluntary agreements for the payment of royalty fees. Any such satellite carriers, distributors, and copyright owners may at any time negotiate and agree to the royalty fee, and may designate common agents to negotiate, agree to, or pay such fees. If the parties fail to identify common agents, the Librarian of Congress shall do so, after requesting recommendations from the parties to the negotiation proceeding. The parties to each negotiation proceeding shall bear the entire cost thereof.

(C) AGREEMENTS BINDING ON PARTIES; FILING OF AGREEMENTS.—Voluntary agreements negotiated at any time in accordance with this paragraph shall be binding upon all satellite carriers, distributors, and copyright owners that are parties thereto. Copies of such agreements shall be filed with the Copyright Office within 30 days after execution in accordance with regulations that the Register of Copyrights shall prescribe.

(D) PERIOD AGREEMENT IS IN EFFECT.—The obligation to pay the royalty fees established under a voluntary agreement which has been filed with the Copyright Office in accordance with this paragraph shall become effective on the date specified in the agreement, and shall remain in effect until December 31, 1999, or in accordance with the terms of the agreement, whichever is later.

(3) FEE SET BY COMPULSORY ARBITRATION.—

(A) NOTICE OF INITIATION OF PROCEEDINGS.—On or before January 1, 1997, the Librarian of Congress shall cause notice to be published in the Federal Register of the initiation of arbitration proceedings for the purpose of determining a reasonable royalty fee to be paid under subsection (b)(1)(B) by satellite carriers who are not parties to a voluntary agreement filed with the Copyright Office in accordance with paragraph (2). Such arbitration proceeding shall be conducted under chapter 8.

(B) ESTABLISHMENT OF ROYALTY FEES.—In determining royalty fees under this paragraph, the copyright arbitration royalty panel appointed under chapter 8 shall establish fees for the retransmission of network stations and superstations that most clearly represent the fair market value of secondary transmissions. In determining the fair market value, the panel shall base its decision on economic, competitive, and programming information presented by the parties, including—

(i) the competitive environment in which such programming is distributed, the cost of similar signals in similar private and compulsory license marketplaces, and any special features and conditions of the retransmission marketplace;

(ii) the economic impact of such fees on copyright owners and satellite carriers; and

(iii) the impact on the continued availability of secondary transmissions to the public.

(C) PERIOD DURING WHICH DECISION OF ARBITRATION PANEL OR ORDER OF LIBRARIAN EFFECTIVE.—The obligation to pay the royalty fee established under a determination which—

(i) is made by a copyright arbitration royalty panel in an arbitration proceeding under this paragraph and is adopted by the Librarian of Congress under section 802(f), or

(ii) is established by the Librarian of Congress under section 802(f),

shall become effective as provided in section 802(g) or July 1, 1997, whichever is later.

(D) PERSONS SUBJECT TO ROYALTY FEE.—The royalty fee referred to in subparagraph (C) shall be binding on all satellite carriers, distributors, and copyright owners, who are not party to a voluntary agreement filed with the Copyright Office under paragraph (2).

(4) REDUCTION.—

(A) SUPERSTATION.—The rate of the royalty fee in effect on January 1, 1998, payable in each case under subsection (b)(1)(B)(i) shall be reduced by 30 percent.

(B) NETWORK AND PUBLIC BROADCASTING SATELLITE FEED.—The rate of the royalty fee in effect on January 1, 1998, payable under subsection (b)(1)(B)(ii) shall be reduced by 45 percent.

(5) PUBLIC BROADCASTING SERVICE AS AGENT.—For purposes of section 802, with respect to royalty fees paid by satellite carriers for retransmitting the Public Broadcasting Service satellite feed, the Public Broadcasting Service shall be the agent for all public television copyright claimants and all Public Broadcasting Service member stations.

(d) DEFINITIONS.—As used in this section—

(1) DISTRIBUTOR.—The term “distributor” means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers for private home viewing or indirectly through other program distribution entities.

(2) NETWORK STATION.—The term “network station” means—

(A) a television broadcast station, including any translator station or terrestrial satellite station that rebroadcasts all or substantially all of the programming broadcast by a network station, that is owned or operated by, or affiliated with, one or more of the television networks in the United States which offer an interconnected program service on a regular basis for 15 or more hours per week to at least 25 of its affiliated television licensees in 10 or more States; or

(B) a noncommercial educational broadcast station (as defined in section 397 of the Communications Act of 1934); except<sup>1</sup> that the term does not include the signal of the Alaska Rural Communications Service, or any successor entity to that service.

(3) PRIMARY NETWORK STATION.—The term “primary network station” means a network station that broadcasts or rebroadcasts the basic programming service of a particular national network.

(4) PRIMARY TRANSMISSION.—The term “primary transmission” has the meaning given that term in section 111(f) of this title.

(5) PRIVATE HOME VIEWING.—The term “private home viewing” means the viewing, for private use in a household by means of satellite reception equipment which is operated by an individual in that household and which serves only such household, of a secondary transmission delivered by a satellite carrier of a primary transmission of a television station licensed by the Federal Communications Commission.

(6) SATELLITE CARRIER.—The term “satellite carrier” means an entity that uses the facilities of a satellite or satellite

<sup>1</sup>Margin so in law.

service licensed by the Federal Communications Commission and operates in the Fixed-Satellite Service under part 25 of title 47 of the Code of Federal Regulations or the Direct Broadcast Satellite Service under part 100 of title 47 of the Code of Federal Regulations, to establish and operate a channel of communications for point-to-multipoint distribution of television station signals, and that owns or leases a capacity or service on a satellite in order to provide such point-to-multipoint distribution, except to the extent that such entity provides such distribution pursuant to tariff under the Communications Act of 1934, other than for private home viewing.

(7) **SECONDARY TRANSMISSION.**—The term “secondary transmission” has the meaning given that term in section 111(f) of this title.

(8) **SUBSCRIBER.**—The term “subscriber” means an individual who receives a secondary transmission service for private home viewing by means of a secondary transmission from a satellite carrier and pays a fee for the service, directly or indirectly, to the satellite carrier or to a distributor.

(9) **SUPERSTATION.**—The term “superstation”—

(A) means a television broadcast station, other than a network station, licensed by the Federal Communications Commission that is secondarily transmitted by a satellite carrier; and

(B) except for purposes of computing the royalty fee, includes the Public Broadcasting Service satellite feed.

(10) **UNSERVED HOUSEHOLD.**—The term “unserved household”, with respect to a particular television network, means a household that—

(A) cannot receive, through the use of a conventional, stationary, outdoor rooftop receiving antenna, an over-the-air signal of a primary network station affiliated with that network of Grade B intensity as defined by the Federal Communications Commission under section 73.683(a) of title 47 of the Code of Federal Regulations, as in effect on January 1, 1999;

(B) is subject to a waiver granted under regulations established under section 339(c)(2) of the Communications Act of 1934;

(C) is a subscriber to whom subsection (e) applies;

(D) is a subscriber to whom subsection (a)(11) applies;

or

(E) is a subscriber to whom the exemption under subsection (a)(2)(B)(iii) applies.

(11) **LOCAL MARKET.**—The term “local market” has the meaning given such term under section 122(j).

(12) **PUBLIC BROADCASTING SERVICE SATELLITE FEED.**—The term “Public Broadcasting Service satellite feed” means the national satellite feed distributed and designated for purposes of this section by the Public Broadcasting Service consisting of educational and informational programming intended for private home viewing, to which the Public Broadcasting Service holds national terrestrial broadcast rights.

(e) MORATORIUM ON COPYRIGHT LIABILITY.—Until December 31, 2004, a subscriber who does not receive a signal of Grade A intensity (as defined in the regulations of the Federal Communications Commission under section 73.683(a) of title 47 of the Code of Federal Regulations, as in effect on January 1, 1999, or predicted by the Federal Communications Commission using the Individual Location Longley-Rice methodology described by the Federal Communications Commission in Docket No. 98–201) of a local network television broadcast station shall remain eligible to receive signals of network stations affiliated with the same network, if that subscriber had satellite service of such network signal terminated after July 11, 1998, and before October 31, 1999, as required by this section, or received such service on October 31, 1999.

## CHAPTER 5—COPYRIGHT INFRINGEMENT AND REMEDIES

Sec.	
501.	Infringement of copyright.
	* * * * *
512.	Limitations on liability relating to material online.
	* * * * *

### § 501. Infringement of copyright

(a) Anyone who violates any of the exclusive rights of the copyright owner as provided by sections 106 through 122 or of the author as provided in section 106A(a), or who imports copies or phonorecords into the United States in violation of section 602, is an infringer of the copyright or right of the author, as the case may be. For purposes of this chapter (other than section 506), any reference to copyright shall be deemed to include the rights conferred by section 106A(a). As used in this subsection, the term “anyone” includes any State, any instrumentality of a State, and any officer or employee of a State or instrumentality of a State acting in his or her official capacity. Any State, and any such instrumentality, officer, or employee, shall be subject to the provisions of this title in the same manner and to the same extent as any nongovernmental entity.

(b) The legal or beneficial owner of an exclusive right under a copyright is entitled, subject to the requirements of section 411, to institute an action for any infringement of that particular right committed while he or she is the owner of it. The court may require such owner to serve written notice of the action with a copy of the complaint upon any person shown, by the records of the Copyright Office or otherwise, to have or claim an interest in the copyright, and shall require that such notice be served upon any person whose interest is likely to be affected by a decision in the case. The court may require the joinder, and shall permit the intervention, of any person having or claiming an interest in the copyright.

(c) For any secondary transmission by a cable system that embodies a performance or a display of a work which is actionable as an act of infringement under subsection (c) of section 111, a television broadcast station holding a copyright or other license to

transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local service area of that television station.

(d) For any secondary transmission by a cable system that is actionable as an act of infringement pursuant to section 111(c)(3), the following shall also have standing to sue: (i) the primary transmitter whose transmission has been altered by the cable system; and (ii) any broadcast station within whose local service area the secondary transmission occurs.

(e) With respect to any secondary transmission that is made by a satellite carrier of a performance or display of a work embodied in a primary transmission and is actionable as an act of infringement under section 119(a)(5), a network station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local service area of that station.

(f)(1) With respect to any secondary transmission that is made by a satellite carrier of a performance or display of a work embodied in a primary transmission and is actionable as an act of infringement under section 122, a television broadcast station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local market of that station.

(2) A television broadcast station may file a civil action against any satellite carrier that has refused to carry television broadcast signals, as required under section 122(a)(2), to enforce that television broadcast station's rights under section 338(a) of the Communications Act of 1934.

\* \* \* \* \*

**§ 512. Limitations on liability relating to material online**

(a) TRANSITORY DIGITAL NETWORK COMMUNICATIONS.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the provider's transmitting, routing, or providing connections for, material through a system or network controlled or operated by or for the service provider, or by reason of the intermediate and transient storage of that material in the course of such transmitting, routing, or providing connections, if—

- (1) the transmission of the material was initiated by or at the direction of a person other than the service provider;
- (2) the transmission, routing, provision of connections, or storage is carried out through an automatic technical process without selection of the material by the service provider;
- (3) the service provider does not select the recipients of the material except as an automatic response to the request of another person;
- (4) no copy of the material made by the service provider in the course of such intermediate or transient storage is main-

tained on the system or network in a manner ordinarily accessible to anyone other than anticipated recipients, and no such copy is maintained on the system or network in a manner ordinarily accessible to such anticipated recipients for a longer period than is reasonably necessary for the transmission, routing, or provision of connections; and

(5) the material is transmitted through the system or network without modification of its content.

(b) SYSTEM CACHING.—

(1) LIMITATION ON LIABILITY.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the intermediate and temporary storage of material on a system or network controlled or operated by or for the service provider in a case in which—

(A) the material is made available online by a person other than the service provider;

(B) the material is transmitted from the person described in subparagraph (A) through the system or network to a person other than the person described in subparagraph (A) at the direction of that other person; and

(C) the storage is carried out through an automatic technical process for the purpose of making the material available to users of the system or network who, after the material is transmitted as described in subparagraph (B), request access to the material from the person described in subparagraph (A),

if the conditions set forth in paragraph (2) are met.

(2) CONDITIONS.—The conditions referred to in paragraph (1) are that—

(A) the material described in paragraph (1) is transmitted to the subsequent users described in paragraph (1)(C) without modification to its content from the manner in which the material was transmitted from the person described in paragraph (1)(A);

(B) the service provider described in paragraph (1) complies with rules concerning the refreshing, reloading, or other updating of the material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available, except that this subparagraph applies only if those rules are not used by the person described in paragraph (1)(A) to prevent or unreasonably impair the intermediate storage to which this subsection applies;

(C) the service provider does not interfere with the ability of technology associated with the material to return to the person described in paragraph (1)(A) the information that would have been available to that person if the material had been obtained by the subsequent users described in paragraph (1)(C) directly from that person, except that this subparagraph applies only if that technology—

(i) does not significantly interfere with the performance of the provider's system or network or with the intermediate storage of the material;

(ii) is consistent with generally accepted industry standard communications protocols; and

(iii) does not extract information from the provider's system or network other than the information that would have been available to the person described in paragraph (1)(A) if the subsequent users had gained access to the material directly from that person;

(D) if the person described in paragraph (1)(A) has in effect a condition that a person must meet prior to having access to the material, such as a condition based on payment of a fee or provision of a password or other information, the service provider permits access to the stored material in significant part only to users of its system or network that have met those conditions and only in accordance with those conditions; and

(E) if the person described in paragraph (1)(A) makes that material available online without the authorization of the copyright owner of the material, the service provider responds expeditiously to remove, or disable access to, the material that is claimed to be infringing upon notification of claimed infringement as described in subsection (c)(3), except that this subparagraph applies only if—

(i) the material has previously been removed from the originating site or access to it has been disabled, or a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled; and

(ii) the party giving the notification includes in the notification a statement confirming that the material has been removed from the originating site or access to it has been disabled or that a court has ordered that the material be removed from the originating site or that access to the material on the originating site be disabled.

(c) INFORMATION RESIDING ON SYSTEMS OR NETWORKS AT DIRECTION OF USERS.—

(1) IN GENERAL.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the storage at the direction of a user of material that resides on a system or network controlled or operated by or for the service provider, if the service provider—

(A)(i) does not have actual knowledge that the material or an activity using the material on the system or network is infringing;

(ii) in the absence of such actual knowledge, is not aware of facts or circumstances from which infringing activity is apparent; or

(iii) upon obtaining such knowledge or awareness, acts expeditiously to remove, or disable access to, the material;

(B) does not receive a financial benefit directly attributable to the infringing activity, in a case in which the service provider has the right and ability to control such activity; and

(C) upon notification of claimed infringement as described in paragraph (3), responds expeditiously to remove, or disable access to, the material that is claimed to be infringing or to be the subject of infringing activity.

(2) DESIGNATED AGENT.—The limitations on liability established in this subsection apply to a service provider only if the service provider has designated an agent to receive notifications of claimed infringement described in paragraph (3), by making available through its service, including on its website in a location accessible to the public, and by providing to the Copyright Office, substantially the following information:

(A) the name, address, phone number, and electronic mail address of the agent.

(B) other contact information which the Register of Copyrights may deem appropriate.

The Register of Copyrights shall maintain a current directory of agents available to the public for inspection, including through the Internet, in both electronic and hard copy formats, and may require payment of a fee by service providers to cover the costs of maintaining the directory.

(3) ELEMENTS OF NOTIFICATION.—

(A) To be effective under this subsection, a notification of claimed infringement must be a written communication provided to the designated agent of a service provider that includes substantially the following:

(i) A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

(ii) Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site.

(iii) Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate the material.

(iv) Information reasonably sufficient to permit the service provider to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted.

(v) A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.

(vi) A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of

the owner of an exclusive right that is allegedly infringed.

(B)(i) Subject to clause (ii), a notification from a copyright owner or from a person authorized to act on behalf of the copyright owner that fails to comply substantially with the provisions of subparagraph (A) shall not be considered under paragraph (1)(A) in determining whether a service provider has actual knowledge or is aware of facts or circumstances from which infringing activity is apparent.

(ii) In a case in which the notification that is provided to the service provider's designated agent fails to comply substantially with all the provisions of subparagraph (A) but substantially complies with clauses (ii), (iii), and (iv) of subparagraph (A), clause (i) of this subparagraph applies only if the service provider promptly attempts to contact the person making the notification or takes other reasonable steps to assist in the receipt of notification that substantially complies with all the provisions of subparagraph (A).

(d) INFORMATION LOCATION TOOLS.—A service provider shall not be liable for monetary relief, or, except as provided in subsection (j), for injunctive or other equitable relief, for infringement of copyright by reason of the provider referring or linking users to an online location containing infringing material or infringing activity, by using information location tools, including a directory, index, reference, pointer, or hypertext link, if the service provider—

(1)(A) does not have actual knowledge that the material or activity is infringing;

(B) in the absence of such actual knowledge, is not aware of facts or circumstances from which infringing activity is apparent; or

(C) upon obtaining such knowledge or awareness, acts expeditiously to remove, or disable access to, the material;

(2) does not receive a financial benefit directly attributable to the infringing activity, in a case in which the service provider has the right and ability to control such activity; and

(3) upon notification of claimed infringement as described in subsection (c)(3), responds expeditiously to remove, or disable access to, the material that is claimed to be infringing or to be the subject of infringing activity, except that, for purposes of this paragraph, the information described in subsection (c)(3)(A)(iii) shall be identification of the reference or link, to material or activity claimed to be infringing, that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate that reference or link.

(e) LIMITATION ON LIABILITY OF NONPROFIT EDUCATIONAL INSTITUTIONS.—(1) When a public or other nonprofit institution of higher education is a service provider, and when a faculty member or graduate student who is an employee of such institution is performing a teaching or research function, for the purposes of subsections (a) and (b) such faculty member or graduate student shall be considered to be a person other than the institution, and for the

purposes of subsections (c) and (d) such faculty member's or graduate student's knowledge or awareness of his or her infringing activities shall not be attributed to the institution, if—

(A) such faculty member's or graduate student's infringing activities do not involve the provision of online access to instructional materials that are or were required or recommended, within the preceding 3-year period, for a course taught at the institution by such faculty member or graduate student;

(B) the institution has not, within the preceding 3-year period, received more than two notifications described in subsection (c)(3) of claimed infringement by such faculty member or graduate student, and such notifications of claimed infringement were not actionable under subsection (f); and

(C) the institution provides to all users of its system or network informational materials that accurately describe, and promote compliance with, the laws of the United States relating to copyright.

(2) For the purposes of this subsection, the limitations on injunctive relief contained in subsections (j)(2) and (j)(3), but not those in (j)(1), shall apply.

(f) MISREPRESENTATIONS.—Any person who knowingly materially misrepresents under this section—

(1) that material or activity is infringing, or

(2) that material or activity was removed or disabled by mistake or misidentification,

shall be liable for any damages, including costs and attorneys' fees, incurred by the alleged infringer, by any copyright owner or copyright owner's authorized licensee, or by a service provider, who is injured by such misrepresentation, as the result of the service provider relying upon such misrepresentation in removing or disabling access to the material or activity claimed to be infringing, or in replacing the removed material or ceasing to disable access to it.

(g) REPLACEMENT OF REMOVED OR DISABLED MATERIAL AND LIMITATION ON OTHER LIABILITY.—

(1) NO LIABILITY FOR TAKING DOWN GENERALLY.—Subject to paragraph (2), a service provider shall not be liable to any person for any claim based on the service provider's good faith disabling of access to, or removal of, material or activity claimed to be infringing or based on facts or circumstances from which infringing activity is apparent, regardless of whether the material or activity is ultimately determined to be infringing.

(2) EXCEPTION.—Paragraph (1) shall not apply with respect to material residing at the direction of a subscriber of the service provider on a system or network controlled or operated by or for the service provider that is removed, or to which access is disabled by the service provider, pursuant to a notice provided under subsection (c)(1)(C), unless the service provider—

(A) takes reasonable steps promptly to notify the subscriber that it has removed or disabled access to the material;

(B) upon receipt of a counter notification described in paragraph (3), promptly provides the person who provided the notification under subsection (c)(1)(C) with a copy of the counter notification, and informs that person that it will replace the removed material or cease disabling access to it in 10 business days; and

(C) replaces the removed material and ceases disabling access to it not less than 10, nor more than 14, business days following receipt of the counter notice, unless its designated agent first receives notice from the person who submitted the notification under subsection (c)(1)(C) that such person has filed an action seeking a court order to restrain the subscriber from engaging in infringing activity relating to the material on the service provider's system or network.

(3) CONTENTS OF COUNTER NOTIFICATION.—To be effective under this subsection, a counter notification must be a written communication provided to the service provider's designated agent that includes substantially the following:

(A) A physical or electronic signature of the subscriber.

(B) Identification of the material that has been removed or to which access has been disabled and the location at which the material appeared before it was removed or access to it was disabled.

(C) A statement under penalty of perjury that the subscriber has a good faith belief that the material was removed or disabled as a result of mistake or misidentification of the material to be removed or disabled.

(D) The subscriber's name, address, and telephone number, and a statement that the subscriber consents to the jurisdiction of Federal District Court for the judicial district in which the address is located, or if the subscriber's address is outside of the United States, for any judicial district in which the service provider may be found, and that the subscriber will accept service of process from the person who provided notification under subsection (c)(1)(C) or an agent of such person.

(4) LIMITATION ON OTHER LIABILITY.—A service provider's compliance with paragraph (2) shall not subject the service provider to liability for copyright infringement with respect to the material identified in the notice provided under subsection (c)(1)(C).

(h) SUBPOENA TO IDENTIFY INFRINGER.—

(1) REQUEST.—A copyright owner or a person authorized to act on the owner's behalf may request the clerk of any United States district court to issue a subpoena to a service provider for identification of an alleged infringer in accordance with this subsection.

(2) CONTENTS OF REQUEST.—The request may be made by filing with the clerk—

(A) a copy of a notification described in subsection (c)(3)(A);

(B) a proposed subpoena; and

(C) a sworn declaration to the effect that the purpose for which the subpoena is sought is to obtain the identity of an alleged infringer and that such information will only be used for the purpose of protecting rights under this title.

(3) CONTENTS OF SUBPOENA.—The subpoena shall authorize and order the service provider receiving the notification and the subpoena to expeditiously disclose to the copyright owner or person authorized by the copyright owner information sufficient to identify the alleged infringer of the material described in the notification to the extent such information is available to the service provider.

(4) BASIS FOR GRANTING SUBPOENA.—If the notification filed satisfies the provisions of subsection (c)(3)(A), the proposed subpoena is in proper form, and the accompanying declaration is properly executed, the clerk shall expeditiously issue and sign the proposed subpoena and return it to the requester for delivery to the service provider.

(5) ACTIONS OF SERVICE PROVIDER RECEIVING SUBPOENA.—Upon receipt of the issued subpoena, either accompanying or subsequent to the receipt of a notification described in subsection (c)(3)(A), the service provider shall expeditiously disclose to the copyright owner or person authorized by the copyright owner the information required by the subpoena, notwithstanding any other provision of law and regardless of whether the service provider responds to the notification.

(6) RULES APPLICABLE TO SUBPOENA.—Unless otherwise provided by this section or by applicable rules of the court, the procedure for issuance and delivery of the subpoena, and the remedies for noncompliance with the subpoena, shall be governed to the greatest extent practicable by those provisions of the Federal Rules of Civil Procedure governing the issuance, service, and enforcement of a subpoena duces tecum.

(i) CONDITIONS FOR ELIGIBILITY.—

(1) ACCOMMODATION OF TECHNOLOGY.—The limitations on liability established by this section shall apply to a service provider only if the service provider—

(A) has adopted and reasonably implemented, and informs subscribers and account holders of the service provider's system or network of, a policy that provides for the termination in appropriate circumstances of subscribers and account holders of the service provider's system or network who are repeat infringers; and

(B) accommodates and does not interfere with standard technical measures.

(2) DEFINITION.—As used in this subsection, the term “standard technical measures” means technical measures that are used by copyright owners to identify or protect copyrighted works and—

(A) have been developed pursuant to a broad consensus of copyright owners and service providers in an open, fair, voluntary, multi-industry standards process;

(B) are available to any person on reasonable and non-discriminatory terms; and

(C) do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(j) INJUNCTIONS.—The following rules shall apply in the case of any application for an injunction under section 502 against a service provider that is not subject to monetary remedies under this section:

(1) SCOPE OF RELIEF.—(A) With respect to conduct other than that which qualifies for the limitation on remedies set forth in subsection (a), the court may grant injunctive relief with respect to a service provider only in one or more of the following forms:

(i) An order restraining the service provider from providing access to infringing material or activity residing at a particular online site on the provider's system or network.

(ii) An order restraining the service provider from providing access to a subscriber or account holder of the service provider's system or network who is engaging in infringing activity and is identified in the order, by terminating the accounts of the subscriber or account holder that are specified in the order.

(iii) Such other injunctive relief as the court may consider necessary to prevent or restrain infringement of copyrighted material specified in the order of the court at a particular online location, if such relief is the least burdensome to the service provider among the forms of relief comparably effective for that purpose.

(B) If the service provider qualifies for the limitation on remedies described in subsection (a), the court may only grant injunctive relief in one or both of the following forms:

(i) An order restraining the service provider from providing access to a subscriber or account holder of the service provider's system or network who is using the provider's service to engage in infringing activity and is identified in the order, by terminating the accounts of the subscriber or account holder that are specified in the order.

(ii) An order restraining the service provider from providing access, by taking reasonable steps specified in the order to block access, to a specific, identified, online location outside the United States.

(2) CONSIDERATIONS.—The court, in considering the relevant criteria for injunctive relief under applicable law, shall consider—

(A) whether such an injunction, either alone or in combination with other such injunctions issued against the same service provider under this subsection, would significantly burden either the provider or the operation of the provider's system or network;

(B) the magnitude of the harm likely to be suffered by the copyright owner in the digital network environment if steps are not taken to prevent or restrain the infringement;

(C) whether implementation of such an injunction would be technically feasible and effective, and would not interfere with access to noninfringing material at other online locations; and

(D) whether other less burdensome and comparably effective means of preventing or restraining access to the infringing material are available.

(3) NOTICE AND EX PARTE ORDERS.—Injunctive relief under this subsection shall be available only after notice to the service provider and an opportunity for the service provider to appear are provided, except for orders ensuring the preservation of evidence or other orders having no material adverse effect on the operation of the service provider's communications network.

(k) DEFINITIONS.—

(1) SERVICE PROVIDER.—(A) As used in subsection (a), the term “service provider” means an entity offering the transmission, routing, or providing of connections for digital online communications, between or among points specified by a user, of material of the user's choosing, without modification to the content of the material as sent or received.

(B) As used in this section, other than subsection (a), the term “service provider” means a provider of online services or network access, or the operator of facilities therefor, and includes an entity described in subparagraph (A).

(2) MONETARY RELIEF.—As used in this section, the term “monetary relief” means damages, costs, attorneys' fees, and any other form of monetary payment.

(l) OTHER DEFENSES NOT AFFECTED.—The failure of a service provider's conduct to qualify for limitation of liability under this section shall not bear adversely upon the consideration of a defense by the service provider that the service provider's conduct is not infringing under this title or any other defense.

(m) PROTECTION OF PRIVACY.—Nothing in this section shall be construed to condition the applicability of subsections (a) through (d) on—

(1) a service provider monitoring its service or affirmatively seeking facts indicating infringing activity, except to the extent consistent with a standard technical measure complying with the provisions of subsection (i); or

(2) a service provider gaining access to, removing, or disabling access to material in cases in which such conduct is prohibited by law.

(n) CONSTRUCTION.—Subsections (a), (b), (c), and (d) describe separate and distinct functions for purposes of applying this section. Whether a service provider qualifies for the limitation on liability in any one of those subsections shall be based solely on the criteria in that subsection, and shall not affect a determination of whether that service provider qualifies for the limitations on liability under any other such subsection.

**CHAPTER 8—COPYRIGHT ARBITRATION ROYALTY  
PANELS**

Sec.

801. Copyright arbitration royalty panels: establishment and purpose.

\* \* \* \* \*

**§ 801. Copyright arbitration royalty panels: Establishment and purpose**

(a) **ESTABLISHMENT.**—The Librarian of Congress, upon the recommendation of the Register of Copyrights, is authorized to appoint and convene copyright arbitration royalty panels.

(b) **PURPOSES.**—Subject to the provisions of this chapter, the purposes of the copyright arbitration royalty panels shall be as follows:

(1) To make determinations concerning the adjustment of reasonable copyright royalty rates as provided in sections 114, 115, 116, and 119, and to make determinations as to reasonable terms and rates of royalty payments as provided in section 118. The rates applicable under sections 114(f)(1)(B), 115, and 116 shall be calculated to achieve the following objectives:

(A) To maximize the availability of creative works to the public;

(B) To afford the copyright owner a fair return for his creative work and the copyright user a fair income under existing economic conditions;

(C) To reflect the relative roles of the copyright owner and the copyright user in the product made available to the public with respect to relative creative contribution, technological contribution, capital investment, cost, risk, and contribution to the opening of new markets for creative expression and media for their communication;

(D) To minimize any disruptive impact on the structure of the industries involved and on generally prevailing industry practices.

(2) To make determinations concerning the adjustment of the copyright royalty rates in section 111 solely in accordance with the following provisions:

(A) The rates established by section 111(d)(1)(B) may be adjusted to reflect (i) national monetary inflation or deflation or (ii) changes in the average rates charged cable subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar level of the royalty fee per subscriber which existed as of the date of enactment of this Act: *Provided*, That if the average rates charged cable system subscribers for the basic service of providing secondary transmissions are changed so that the average rates exceed national monetary inflation, no change in the rates established by section 111(d)(1)(B) shall be permitted: *And provided further*, That no increase in the royalty fee shall be permitted based on any reduction in the average number of distant signal equivalents per subscriber. The copyright arbitration royalty panels may consider all factors relating to the maintenance of

such level of payments including, as an extenuating factor, whether the cable industry has been restrained by subscriber rate regulating authorities from increasing the rates for the basic service of providing secondary transmissions.

(B) In the event that the rules and regulations of the Federal Communications Commission are amended at any time after April 15, 1976, to permit the carriage by cable systems of additional television broadcast signals beyond the local service area of the primary transmitters of such signals, the royalty rates established by section 111(d)(1)(B) may be adjusted to insure that the rates for the additional distant signal equivalents resulting from such carriage are reasonable in the light of the changes effected by the amendment to such rules and regulations. In determining the reasonableness of rates proposed following an amendment of Federal Communications Commission rules and regulations, the copyright arbitration royalty panels shall consider, among other factors, the economic impact on copyright owners and users: *Provided*, That no adjustment in royalty rates shall be made under this subclause with respect to any distant signal equivalent or fraction thereof represented by (i) carriage of any signal permitted under the rules and regulations of the Federal Communications Commission in effect on April 15, 1976, or the carriage of a signal of the same type (that is, independent, network, or noncommercial educational) substituted for such permitted signal, or (ii) a television broadcast signal first carried after April 15, 1976, pursuant to an individual waiver of the rules and regulations of the Federal Communications Commission, as such rules and regulations were in effect on April 15, 1976.

(C) In the event of any change in the rules and regulations of the Federal Communications Commission with respect to syndicated and sports program exclusivity after April 15, 1976, the rates established by section 111(d)(1)(B) may be adjusted to assure that such rates are reasonable in light of the changes to such rules and regulations, but any such adjustment shall apply only to the affected television broadcast signals carried on those systems affected by the change.

(D) The gross receipts limitations established by section 111(d)(1)(C) and (D) shall be adjusted to reflect national monetary inflation or deflation or changes in the average rates charged cable system subscribers for the basic service of providing secondary transmissions to maintain the real constant dollar value of the exemption provided by such section; and the royalty rate specified therein shall not be subject to adjustment.

(3) To distribute royalty fees deposited with the Register of Copyrights under sections 111, 116, 119(b), and 1003, and to determine, in cases where controversy exists, the distribution of such fees.

(c) **RULINGS.**—The Librarian of Congress, upon the recommendation of the Register of Copyrights, may, before a copyright arbitration royalty panel is convened, make any necessary procedural or evidentiary rulings that would apply to the proceedings conducted by such panel, including—

(1) authorizing the distribution of those royalty fees collected under sections 111, 119, and 1005 that the Librarian has found are not subject to controversy; and

(2) accepting or rejecting royalty claims filed under sections 111, 119, and 1007 on the basis of timeliness or the failure to establish the basis for a claim.

(d) **SUPPORT AND REIMBURSEMENT OF ARBITRATION PANELS.**—The Librarian of Congress, upon the recommendation of the Register of Copyrights, shall provide the copyright arbitration royalty panels with the necessary administrative services related to proceedings under this chapter, and shall reimburse the arbitrators presiding in distribution proceedings at such intervals and in such manner as the Librarian shall provide by regulation. Each such arbitrator is an independent contractor acting on behalf of the United States, and shall be hired pursuant to a signed agreement between the Library of Congress and the arbitrator. Payments to the arbitrators shall be considered reasonable costs incurred by the Library of Congress and the Copyright Office for purposes of section 802(h)(1).

\* \* \* \* \*

**CHAPTER 11—SOUND RECORDINGS AND MUSIC VIDEOS**

Sec.  
1101. Unauthorized fixation and trafficking in sound recordings and music videos.

**§ 1101. Unauthorized fixation and trafficking in sound recordings**

(a) **UNAUTHORIZED ACTS.**—Anyone who, without the consent of the performer or performers involved—

(1) fixes the sounds or sounds and images of a live musical performance in a copy or phonorecord, or reproduces copies or phonorecords of such a performance from an unauthorized fixation,

(2) transmits or otherwise communicates to the public the sounds or sounds and images of a live musical performance, or

(3) distributes or offers to distribute, sells or offers to sell, rents or offers to rent, or traffics in any copy or phonorecord fixed as described in paragraph (1), regardless of whether the fixations occurred in the United States,

shall be subject to the remedies provided in sections 502 through 505, to the same extent as an infringer of copyright.

(b) **DEFINITION.**—As used in this section, the term “traffic in” means transport, transfer, or otherwise dispose of, to another, as consideration for anything of value, or make or obtain control of with intent to transport, transfer, or dispose of.

(c) **APPLICABILITY.**—This section shall apply to any act or acts that occur on or after the date of the enactment of the Uruguay Round Agreements Act.

(d) **STATE LAW NOT PREEMPTED.**—Nothing in this section may be construed to annul or limit any rights or remedies under the common law or statutes of any State.

## CHAPTER 12—COPYRIGHT PROTECTION AND MANAGEMENT SYSTEMS

Sec.	
1201.	Circumvention of copyright protection systems.
1202.	Integrity of copyright management information.
1203.	Civil remedies.
1204.	Criminal offenses and penalties.
1205.	Savings clause.

### § 1201. Circumvention of copyright protection systems

(a) VIOLATIONS REGARDING CIRCUMVENTION OF TECHNOLOGICAL MEASURES.—(1)(A) No person shall circumvent a technological measure that effectively controls access to a work protected under this title. The prohibition contained in the preceding sentence shall take effect at the end of the 2-year period beginning on the date of the enactment of this chapter.

(B) The prohibition contained in subparagraph (A) shall not apply to persons who are users of a copyrighted work which is in a particular class of works, if such persons are, or are likely to be in the succeeding 3-year period, adversely affected by virtue of such prohibition in their ability to make noninfringing uses of that particular class of works under this title, as determined under subparagraph (C).

(C) During the 2-year period described in subparagraph (A), and during each succeeding 3-year period, the Librarian of Congress, upon the recommendation of the Register of Copyrights, who shall consult with the Assistant Secretary for Communications and Information of the Department of Commerce and report and comment on his or her views in making such recommendation, shall make the determination in a rulemaking proceeding for purposes of subparagraph (B) of whether persons who are users of a copyrighted work are, or are likely to be in the succeeding 3-year period, adversely affected by the prohibition under subparagraph (A) in their ability to make noninfringing uses under this title of a particular class of copyrighted works. In conducting such rulemaking, the Librarian shall examine—

- (i) the availability for use of copyrighted works;
- (ii) the availability for use of works for nonprofit archival, preservation, and educational purposes;
- (iii) the impact that the prohibition on the circumvention of technological measures applied to copyrighted works has on criticism, comment, news reporting, teaching, scholarship, or research;
- (iv) the effect of circumvention of technological measures on the market for or value of copyrighted works; and
- (v) such other factors as the Librarian considers appropriate.

(D) The Librarian shall publish any class of copyrighted works for which the Librarian has determined, pursuant to the rulemaking conducted under subparagraph (C), that noninfringing uses by persons who are users of a copyrighted work are, or are likely to be, adversely affected, and the prohibition contained in subparagraph (A) shall not apply to such users with respect to such class of works for the ensuing 3-year period.

(E) Neither the exception under subparagraph (B) from the applicability of the prohibition contained in subparagraph (A), nor any determination made in a rulemaking conducted under subparagraph (C), may be used as a defense in any action to enforce any provision of this title other than this paragraph.

(2) No person shall manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, device, component, or part thereof, that—

(A) is primarily designed or produced for the purpose of circumventing a technological measure that effectively controls access to a work protected under this title;

(B) has only limited commercially significant purpose or use other than to circumvent a technological measure that effectively controls access to a work protected under this title; or

(C) is marketed by that person or another acting in concert with that person with that person's knowledge for use in circumventing a technological measure that effectively controls access to a work protected under this title.

(3) As used in this subsection—

(A) to “circumvent a technological measure” means to descramble a scrambled work, to decrypt an encrypted work, or otherwise to avoid, bypass, remove, deactivate, or impair a technological measure, without the authority of the copyright owner; and

(B) a technological measure “effectively controls access to a work” if the measure, in the ordinary course of its operation, requires the application of information, or a process or a treatment, with the authority of the copyright owner, to gain access to the work.

(b) ADDITIONAL VIOLATIONS.—(1) No person shall manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, device, component, or part thereof, that—

(A) is primarily designed or produced for the purpose of circumventing protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof;

(B) has only limited commercially significant purpose or use other than to circumvent protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof; or

(C) is marketed by that person or another acting in concert with that person with that person's knowledge for use in circumventing protection afforded by a technological measure that effectively protects a right of a copyright owner under this title in a work or a portion thereof.

(2) As used in this subsection—

(A) to “circumvent protection afforded by a technological measure” means avoiding, bypassing, removing, deactivating, or otherwise impairing a technological measure; and

(B) a technological measure “effectively protects a right of a copyright owner under this title” if the measure, in the ordinary course of its operation, prevents, restricts, or otherwise limits the exercise of a right of a copyright owner under this title.

(c) OTHER RIGHTS, ETC., NOT AFFECTED.—(1) Nothing in this section shall affect rights, remedies, limitations, or defenses to copyright infringement, including fair use, under this title.

(2) Nothing in this section shall enlarge or diminish vicarious or contributory liability for copyright infringement in connection with any technology, product, service, device, component, or part thereof.

(3) Nothing in this section shall require that the design of, or design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as such part or component, or the product in which such part or component is integrated, does not otherwise fall within the prohibitions of subsection (a)(2) or (b)(1).

(4) Nothing in this section shall enlarge or diminish any rights of free speech or the press for activities using consumer electronics, telecommunications, or computing products.

(d) EXEMPTION FOR NONPROFIT LIBRARIES, ARCHIVES, AND EDUCATIONAL INSTITUTIONS.—(1) A nonprofit library, archives, or educational institution which gains access to a commercially exploited copyrighted work solely in order to make a good faith determination of whether to acquire a copy of that work for the sole purpose of engaging in conduct permitted under this title shall not be in violation of subsection (a)(1)(A). A copy of a work to which access has been gained under this paragraph—

(A) may not be retained longer than necessary to make such good faith determination; and

(B) may not be used for any other purpose.

(2) The exemption made available under paragraph (1) shall only apply with respect to a work when an identical copy of that work is not reasonably available in another form.

(3) A nonprofit library, archives, or educational institution that willfully for the purpose of commercial advantage or financial gain violates paragraph (1)—

(A) shall, for the first offense, be subject to the civil remedies under section 1203; and

(B) shall, for repeated or subsequent offenses, in addition to the civil remedies under section 1203, forfeit the exemption provided under paragraph (1).

(4) This subsection may not be used as a defense to a claim under subsection (a)(2) or (b), nor may this subsection permit a nonprofit library, archives, or educational institution to manufacture, import, offer to the public, provide, or otherwise traffic in any technology, product, service, component, or part thereof, which circumvents a technological measure.

(5) In order for a library or archives to qualify for the exemption under this subsection, the collections of that library or archives shall be—

(A) open to the public; or

(B) available not only to researchers affiliated with the library or archives or with the institution of which it is a part, but also to other persons doing research in a specialized field.

(e) LAW ENFORCEMENT, INTELLIGENCE, AND OTHER GOVERNMENT ACTIVITIES.—This section does not prohibit any lawfully authorized investigative, protective, information security, or intelligence activity of an officer, agent, or employee of the United States, a State, or a political subdivision of a State, or a person acting pursuant to a contract with the United States, a State, or a political subdivision of a State. For purposes of this subsection, the term “information security” means activities carried out in order to identify and address the vulnerabilities of a government computer, computer system, or computer network.

(f) REVERSE ENGINEERING.—(1) Notwithstanding the provisions of subsection (a)(1)(A), a person who has lawfully obtained the right to use a copy of a computer program may circumvent a technological measure that effectively controls access to a particular portion of that program for the sole purpose of identifying and analyzing those elements of the program that are necessary to achieve interoperability of an independently created computer program with other programs, and that have not previously been readily available to the person engaging in the circumvention, to the extent any such acts of identification and analysis do not constitute infringement under this title.

(2) Notwithstanding the provisions of subsections (a)(2) and (b), a person may develop and employ technological means to circumvent a technological measure, or to circumvent protection afforded by a technological measure, in order to enable the identification and analysis under paragraph (1), or for the purpose of enabling interoperability of an independently created computer program with other programs, if such means are necessary to achieve such interoperability, to the extent that doing so does not constitute infringement under this title.

(3) The information acquired through the acts permitted under paragraph (1), and the means permitted under paragraph (2), may be made available to others if the person referred to in paragraph (1) or (2), as the case may be, provides such information or means solely for the purpose of enabling interoperability of an independently created computer program with other programs, and to the extent that doing so does not constitute infringement under this title or violate applicable law other than this section.

(4) For purposes of this subsection, the term “interoperability” means the ability of computer programs to exchange information, and of such programs mutually to use the information which has been exchanged.

(g) ENCRYPTION RESEARCH.—

(1) DEFINITIONS.—For purposes of this subsection—

(A) the term “encryption research” means activities necessary to identify and analyze flaws and vulnerabilities of encryption technologies applied to copyrighted works, if

these activities are conducted to advance the state of knowledge in the field of encryption technology or to assist in the development of encryption products; and

(B) the term “encryption technology” means the scrambling and descrambling of information using mathematical formulas or algorithms.

(2) PERMISSIBLE ACTS OF ENCRYPTION RESEARCH.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to circumvent a technological measure as applied to a copy, phonorecord, performance, or display of a published work in the course of an act of good faith encryption research if—

(A) the person lawfully obtained the encrypted copy, phonorecord, performance, or display of the published work;

(B) such act is necessary to conduct such encryption research;

(C) the person made a good faith effort to obtain authorization before the circumvention; and

(D) such act does not constitute infringement under this title or a violation of applicable law other than this section, including section 1030 of title 18 and those provisions of title 18 amended by the Computer Fraud and Abuse Act of 1986.

(3) FACTORS IN DETERMINING EXEMPTION.—In determining whether a person qualifies for the exemption under paragraph (2), the factors to be considered shall include—

(A) whether the information derived from the encryption research was disseminated, and if so, whether it was disseminated in a manner reasonably calculated to advance the state of knowledge or development of encryption technology, versus whether it was disseminated in a manner that facilitates infringement under this title or a violation of applicable law other than this section, including a violation of privacy or breach of security;

(B) whether the person is engaged in a legitimate course of study, is employed, or is appropriately trained or experienced, in the field of encryption technology; and

(C) whether the person provides the copyright owner of the work to which the technological measure is applied with notice of the findings and documentation of the research, and the time when such notice is provided.

(4) USE OF TECHNOLOGICAL MEANS FOR RESEARCH ACTIVITIES.—Notwithstanding the provisions of subsection (a)(2), it is not a violation of that subsection for a person to—

(A) develop and employ technological means to circumvent a technological measure for the sole purpose of that person performing the acts of good faith encryption research described in paragraph (2); and

(B) provide the technological means to another person with whom he or she is working collaboratively for the purpose of conducting the acts of good faith encryption research described in paragraph (2) or for the purpose of

having that other person verify his or her acts of good faith encryption research described in paragraph (2).

(5) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this chapter, the Register of Copyrights and the Assistant Secretary for Communications and Information of the Department of Commerce shall jointly report to the Congress on the effect this subsection has had on—

(A) encryption research and the development of encryption technology;

(B) the adequacy and effectiveness of technological measures designed to protect copyrighted works; and

(C) protection of copyright owners against the unauthorized access to their encrypted copyrighted works.

The report shall include legislative recommendations, if any.

(h) EXCEPTIONS REGARDING MINORS.—In applying subsection (a) to a component or part, the court may consider the necessity for its intended and actual incorporation in a technology, product, service, or device, which—

(1) does not itself violate the provisions of this title; and

(2) has the sole purpose to prevent the access of minors to material on the Internet.

(i) PROTECTION OF PERSONALLY IDENTIFYING INFORMATION.—

(1) CIRCUMVENTION PERMITTED.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to circumvent a technological measure that effectively controls access to a work protected under this title, if—

(A) the technological measure, or the work it protects, contains the capability of collecting or disseminating personally identifying information reflecting the online activities of a natural person who seeks to gain access to the work protected;

(B) in the normal course of its operation, the technological measure, or the work it protects, collects or disseminates personally identifying information about the person who seeks to gain access to the work protected, without providing conspicuous notice of such collection or dissemination to such person, and without providing such person with the capability to prevent or restrict such collection or dissemination;

(C) the act of circumvention has the sole effect of identifying and disabling the capability described in subparagraph (A), and has no other effect on the ability of any person to gain access to any work; and

(D) the act of circumvention is carried out solely for the purpose of preventing the collection or dissemination of personally identifying information about a natural person who seeks to gain access to the work protected, and is not in violation of any other law.

(2) INAPPLICABILITY TO CERTAIN TECHNOLOGICAL MEASURES.—This subsection does not apply to a technological measure, or a work it protects, that does not collect or disseminate personally identifying information and that is disclosed to a user as not having or using such capability.

## (j) SECURITY TESTING.—

(1) DEFINITION.—For purposes of this subsection, the term “security testing” means accessing a computer, computer system, or computer network, solely for the purpose of good faith testing, investigating, or correcting, a security flaw or vulnerability, with the authorization of the owner or operator of such computer, computer system, or computer network.

(2) PERMISSIBLE ACTS OF SECURITY TESTING.—Notwithstanding the provisions of subsection (a)(1)(A), it is not a violation of that subsection for a person to engage in an act of security testing, if such act does not constitute infringement under this title or a violation of applicable law other than this section, including section 1030 of title 18 and those provisions of title 18 amended by the Computer Fraud and Abuse Act of 1986.

(3) FACTORS IN DETERMINING EXEMPTION.—In determining whether a person qualifies for the exemption under paragraph (2), the factors to be considered shall include—

(A) whether the information derived from the security testing was used solely to promote the security of the owner or operator of such computer, computer system or computer network, or shared directly with the developer of such computer, computer system, or computer network; and

(B) whether the information derived from the security testing was used or maintained in a manner that does not facilitate infringement under this title or a violation of applicable law other than this section, including a violation of privacy or breach of security.

(4) USE OF TECHNOLOGICAL MEANS FOR SECURITY TESTING.—Notwithstanding the provisions of subsection (a)(2), it is not a violation of that subsection for a person to develop, produce, distribute or employ technological means for the sole purpose of performing the acts of security testing described in subsection (2)<sup>1</sup>, provided such technological means does not otherwise violate section<sup>2</sup> (a)(2).

## (k) CERTAIN ANALOG DEVICES AND CERTAIN TECHNOLOGICAL MEASURES.—

## (1) CERTAIN ANALOG DEVICES.—

(A) Effective 18 months after the date of the enactment of this chapter, no person shall manufacture, import, offer to the public, provide or otherwise traffic in any—

(i) VHS format analog video cassette recorder unless such recorder conforms to the automatic gain control copy control technology;

(ii) 8mm format analog video cassette camcorder unless such camcorder conforms to the automatic gain control technology;

(iii) Beta format analog video cassette recorder, unless such recorder conforms to the automatic gain control copy control technology, except that this re-

<sup>1</sup> So in law. Should probably insert “(a)” before “(2)”.

<sup>2</sup> So in law. Should probably be “subsection”.

quirement shall not apply until there are 1,000 Beta format analog video cassette recorders sold in the United States in any one calendar year after the date of the enactment of this chapter;

(iv) 8mm format analog video cassette recorder that is not an analog video cassette camcorder, unless such recorder conforms to the automatic gain control copy control technology, except that this requirement shall not apply until there are 20,000 such recorders sold in the United States in any one calendar year after the date of the enactment of this chapter; or

(v) analog video cassette recorder that records using an NTSC format video input and that is not otherwise covered under clauses (i) through (iv), unless such device conforms to the automatic gain control copy control technology.

(B) Effective on the date of the enactment of this chapter, no person shall manufacture, import, offer to the public, provide or otherwise traffic in—

(i) any VHS format analog video cassette recorder or any 8mm format analog video cassette recorder if the design of the model of such recorder has been modified after such date of enactment so that a model of recorder that previously conformed to the automatic gain control copy control technology no longer conforms to such technology; or

(ii) any VHS format analog video cassette recorder, or any 8mm format analog video cassette recorder that is not an 8mm analog video cassette camcorder, if the design of the model of such recorder has been modified after such date of enactment so that a model of recorder that previously conformed to the four-line colorstripe copy control technology no longer conforms to such technology.

Manufacturers that have not previously manufactured or sold a VHS format analog video cassette recorder, or an 8mm format analog cassette recorder, shall be required to conform to the four-line colorstripe copy control technology in the initial model of any such recorder manufactured after the date of the enactment of this chapter, and thereafter to continue conforming to the four-line colorstripe copy control technology. For purposes of this subparagraph, an analog video cassette recorder “conforms to” the four-line colorstripe copy control technology if it records a signal that, when played back by the playback function of that recorder in the normal viewing mode, exhibits, on a reference display device, a display containing distracting visible lines through portions of the viewable picture.

(2) CERTAIN ENCODING RESTRICTIONS.—No person shall apply the automatic gain control copy control technology or colorstripe copy control technology to prevent or limit consumer copying except such copying—

(A) of a single transmission, or specified group of transmissions, of live events or of audiovisual works for

which a member of the public has exercised choice in selecting the transmissions, including the content of the transmissions or the time of receipt of such transmissions, or both, and as to which such member is charged a separate fee for each such transmission or specified group of transmissions;

(B) from a copy of a transmission of a live event or an audiovisual work if such transmission is provided by a channel or service where payment is made by a member of the public for such channel or service in the form of a subscription fee that entitles the member of the public to receive all of the programming contained in such channel or service;

(C) from a physical medium containing one or more prerecorded audiovisual works; or

(D) from a copy of a transmission described in subparagraph (A) or from a copy made from a physical medium described in subparagraph (C).

In the event that a transmission meets both the conditions set forth in subparagraph (A) and those set forth in subparagraph (B), the transmission shall be treated as a transmission described in subparagraph (A).

(3) INAPPLICABILITY.—This subsection shall not—

(A) require any analog video cassette camcorder to conform to the automatic gain control copy control technology with respect to any video signal received through a camera lens;

(B) apply to the manufacture, importation, offer for sale, provision of, or other trafficking in, any professional analog video cassette recorder; or

(C) apply to the offer for sale or provision of, or other trafficking in, any previously owned analog video cassette recorder, if such recorder was legally manufactured and sold when new and not subsequently modified in violation of paragraph (1)(B).

(4) DEFINITIONS.—For purposes of this subsection:

(A) An “analog video cassette recorder” means a device that records, or a device that includes a function that records, on electromagnetic tape in an analog format the electronic impulses produced by the video and audio portions of a television program, motion picture, or other form of audiovisual work.

(B) An “analog video cassette camcorder” means an analog video cassette recorder that contains a recording function that operates through a camera lens and through a video input that may be connected with a television or other video playback device.

(C) An analog video cassette recorder “conforms” to the automatic gain control copy control technology if it—

(i) detects one or more of the elements of such technology and does not record the motion picture or transmission protected by such technology; or

(ii) records a signal that, when played back, exhibits a meaningfully distorted or degraded display.

(D) The term “professional analog video cassette recorder” means an analog video cassette recorder that is designed, manufactured, marketed, and intended for use by a person who regularly employs such a device for a lawful business or industrial use, including making, performing, displaying, distributing, or transmitting copies of motion pictures on a commercial scale.

(E) The terms “VHS format”, “8mm format”, “Beta format”, “automatic gain control copy control technology”, “colorstripe copy control technology”, “four-line version of the colorstripe copy control technology”, and “NTSC” have the meanings that are commonly understood in the consumer electronics and motion picture industries as of the date of the enactment of this chapter.

(5) VIOLATIONS.—Any violation of paragraph (1) of this subsection shall be treated as a violation of subsection (b)(1) of this section. Any violation of paragraph (2) of this subsection shall be deemed an “act of circumvention” for the purposes of section 1203(c)(3)(A) of this chapter.

#### § 1202. Integrity of copyright management information

(a) FALSE COPYRIGHT MANAGEMENT INFORMATION.—No person shall knowingly and with the intent to induce, enable, facilitate, or conceal infringement—

(1) provide copyright management information that is false, or

(2) distribute or import for distribution copyright management information that is false.

(b) REMOVAL OR ALTERATION OF COPYRIGHT MANAGEMENT INFORMATION.—No person shall, without the authority of the copyright owner or the law—

(1) intentionally remove or alter any copyright management information,

(2) distribute or import for distribution copyright management information knowing that the copyright management information has been removed or altered without authority of the copyright owner or the law, or

(3) distribute, import for distribution, or publicly perform works, copies of works, or phonorecords, knowing that copyright management information has been removed or altered without authority of the copyright owner or the law, knowing, or, with respect to civil remedies under section 1203, having reasonable grounds to know, that it will induce, enable, facilitate, or conceal an infringement of any right under this title.

(c) DEFINITION.—As used in this section, the term “copyright management information” means any of the following information conveyed in connection with copies or phonorecords of a work or performances or displays of a work, including in digital form, except that such term does not include any personally identifying information about a user of a work or of a copy, phonorecord, performance, or display of a work:

(1) The title and other information identifying the work, including the information set forth on a notice of copyright.

(2) The name of, and other identifying information about, the author of a work.

(3) The name of, and other identifying information about, the copyright owner of the work, including the information set forth in a notice of copyright.

(4) With the exception of public performances of works by radio and television broadcast stations, the name of, and other identifying information about, a performer whose performance is fixed in a work other than an audiovisual work.

(5) With the exception of public performances of works by radio and television broadcast stations, in the case of an audiovisual work, the name of, and other identifying information about, a writer, performer, or director who is credited in the audiovisual work.

(6) Terms and conditions for use of the work.

(7) Identifying numbers or symbols referring to such information or links to such information.

(8) Such other information as the Register of Copyrights may prescribe by regulation, except that the Register of Copyrights may not require the provision of any information concerning the user of a copyrighted work.

(d) LAW ENFORCEMENT, INTELLIGENCE, AND OTHER GOVERNMENT ACTIVITIES.—This section does not prohibit any lawfully authorized investigative, protective, information security, or intelligence activity of an officer, agent, or employee of the United States, a State, or a political subdivision of a State, or a person acting pursuant to a contract with the United States, a State, or a political subdivision of a State. For purposes of this subsection, the term “information security” means activities carried out in order to identify and address the vulnerabilities of a government computer, computer system, or computer network.

(e) LIMITATIONS ON LIABILITY.—

(1) ANALOG TRANSMISSIONS.—In the case of an analog transmission, a person who is making transmissions in its capacity as a broadcast station, or as a cable system, or someone who provides programming to such station or system, shall not be liable for a violation of subsection (b) if—

(A) avoiding the activity that constitutes such violation is not technically feasible or would create an undue financial hardship on such person; and

(B) such person did not intend, by engaging in such activity, to induce, enable, facilitate, or conceal infringement of a right under this title.

(2) DIGITAL TRANSMISSIONS.—

(A) If a digital transmission standard for the placement of copyright management information for a category of works is set in a voluntary, consensus standard-setting process involving a representative cross-section of broadcast stations or cable systems and copyright owners of a category of works that are intended for public performance by such stations or systems, a person identified in paragraph (1) shall not be liable for a violation of subsection (b) with respect to the particular copyright management information addressed by such standard if—

(i) the placement of such information by someone other than such person is not in accordance with such standard; and

(ii) the activity that constitutes such violation is not intended to induce, enable, facilitate, or conceal infringement of a right under this title.

(B) Until a digital transmission standard has been set pursuant to subparagraph (A) with respect to the placement of copyright management information for a category of works, a person identified in paragraph (1) shall not be liable for a violation of subsection (b) with respect to such copyright management information, if the activity that constitutes such violation is not intended to induce, enable, facilitate, or conceal infringement of a right under this title, and if—

(i) the transmission of such information by such person would result in a perceptible visual or aural degradation of the digital signal; or

(ii) the transmission of such information by such person would conflict with—

(I) an applicable government regulation relating to transmission of information in a digital signal;

(II) an applicable industry-wide standard relating to the transmission of information in a digital signal that was adopted by a voluntary consensus standards body prior to the effective date of this chapter; or

(III) an applicable industry-wide standard relating to the transmission of information in a digital signal that was adopted in a voluntary, consensus standards-setting process open to participation by a representative cross-section of broadcast stations or cable systems and copyright owners of a category of works that are intended for public performance by such stations or systems.

(3) DEFINITIONS.—As used in this subsection—

(A) the term “broadcast station” has the meaning given that term in section 3 of the Communications Act of 1934 (47 U.S.C. 153); and

(B) the term “cable system” has the meaning given that term in section 602 of the Communications Act of 1934 (47 U.S.C. 522).

### § 1203. Civil remedies

(a) CIVIL ACTIONS.—Any person injured by a violation of section 1201 or 1202 may bring a civil action in an appropriate United States district court for such violation.

(b) POWERS OF THE COURT.—In an action brought under subsection (a), the court—

(1) may grant temporary and permanent injunctions on such terms as it deems reasonable to prevent or restrain a violation, but in no event shall impose a prior restraint on free

speech or the press protected under the 1st amendment to the Constitution;

(2) at any time while an action is pending, may order the impounding, on such terms as it deems reasonable, of any device or product that is in the custody or control of the alleged violator and that the court has reasonable cause to believe was involved in a violation;

(3) may award damages under subsection (c);

(4) in its discretion may allow the recovery of costs by or against any party other than the United States or an officer thereof;

(5) in its discretion may award reasonable attorney's fees to the prevailing party; and

(6) may, as part of a final judgment or decree finding a violation, order the remedial modification or the destruction of any device or product involved in the violation that is in the custody or control of the violator or has been impounded under paragraph (2).

(c) AWARD OF DAMAGES.—

(1) IN GENERAL.—Except as otherwise provided in this title, a person committing a violation of section 1201 or 1202 is liable for either—

(A) the actual damages and any additional profits of the violator, as provided in paragraph (2), or

(B) statutory damages, as provided in paragraph (3).

(2) ACTUAL DAMAGES.—The court shall award to the complaining party the actual damages suffered by the party as a result of the violation, and any profits of the violator that are attributable to the violation and are not taken into account in computing the actual damages, if the complaining party elects such damages at any time before final judgment is entered.

(3) STATUTORY DAMAGES.—(A) At any time before final judgment is entered, a complaining party may elect to recover an award of statutory damages for each violation of section 1201 in the sum of not less than \$200 or more than \$2,500 per act of circumvention, device, product, component, offer, or performance of service, as the court considers just.

(B) At any time before final judgment is entered, a complaining party may elect to recover an award of statutory damages for each violation of section 1202 in the sum of not less than \$2,500 or more than \$25,000.

(4) REPEATED VIOLATIONS.—In any case in which the injured party sustains the burden of proving, and the court finds, that a person has violated section 1201 or 1202 within 3 years after a final judgment was entered against the person for another such violation, the court may increase the award of damages up to triple the amount that would otherwise be awarded, as the court considers just.

(5) INNOCENT VIOLATIONS.—

(A) IN GENERAL.—The court in its discretion may reduce or remit the total award of damages in any case in which the violator sustains the burden of proving, and the court finds, that the violator was not aware and had no reason to believe that its acts constituted a violation.

(B) NONPROFIT LIBRARY, ARCHIVES, EDUCATIONAL INSTITUTIONS, OR PUBLIC BROADCASTING ENTITIES.—

(i) DEFINITION.—In this subparagraph, the term “public broadcasting entity” has the meaning given such term under section 118(g).

(ii) IN GENERAL.—In the case of a nonprofit library, archives, educational institution, or public broadcasting entity, the court shall remit damages in any case in which the library, archives, educational institution, or public broadcasting entity sustains the burden of proving, and the court finds, that the library, archives, educational institution, or public broadcasting entity was not aware and had no reason to believe that its acts constituted a violation.

**§ 1204. Criminal offenses and penalties**

(a) IN GENERAL.—Any person who violates section 1201 or 1202 willfully and for purposes of commercial advantage or private financial gain—

(1) shall be fined not more than \$500,000 or imprisoned for not more than 5 years, or both, for the first offense; and

(2) shall be fined not more than \$1,000,000 or imprisoned for not more than 10 years, or both, for any subsequent offense.

(b) LIMITATION FOR NONPROFIT LIBRARY, ARCHIVES, EDUCATIONAL INSTITUTION, OR PUBLIC BROADCASTING ENTITY.—Subsection (a) shall not apply to a nonprofit library, archives, educational institution, or public broadcasting entity (as defined under section 118(g)).

(c) STATUTE OF LIMITATIONS.—No criminal proceeding shall be brought under this section unless such proceeding is commenced within 5 years after the cause of action arose.

**§ 1205. Savings clause**

Nothing in this chapter abrogates, diminishes, or weakens the provisions of, nor provides any defense or element of mitigation in a criminal prosecution or civil action under, any Federal or State law that prevents the violation of the privacy of an individual in connection with the individual’s use of the Internet.

\* \* \* \* \*

**TITLE 18—CRIMES AND CRIMINAL PROCEDURE**

**PART I—CRIMES**

\* \* \* \* \*

**CHAPTER 61—LOTTERIES**

(§§ 1301–1307)

\* \* \* \* \*

Sec.

1304. Broadcasting lottery information.

\* \* \* \* \*

1307. Exceptions relating to certain advertisements and other information and to State-conducted lotteries.

**§ 1304. Broadcasting lottery information**

Whoever broadcasts by means of any radio or television station for which a license is required by any law of the United States, or whoever, operating any such station, knowingly permits the broadcasting of, any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes, shall be fined under this title or imprisoned not more than one year, or both.

Each day's broadcasting shall constitute a separate offense.

\* \* \* \* \*

**§ 1307. Exceptions relating to certain advertisements and other information and to State-conducted lotteries**

(a) The provisions of sections 1301, 1302, 1303, and 1304 shall not apply to—

(1) an advertisement, list of prizes, or other information concerning a lottery conducted by a State acting under the authority of State law which is—

(A) contained in a publication published in that State or in a State which conducts such a lottery; or

(B) broadcast by a radio or television station licensed to a location in that State or a State which conducts such a lottery; or

(2) an advertisement, list of prizes, or other information concerning a lottery, gift enterprise, or similar scheme, other than one described in paragraph (1), that is authorized or not otherwise prohibited by the State in which it is conducted and which is—

- (A) conducted by a not-for-profit organization or a governmental organization; or
- (B) conducted as a promotional activity by a commercial organization and is clearly occasional and ancillary to the primary business of that organization.
- (b) The provisions of section 1301, 1302, and 1303 shall not apply to the transportation or mailing—
- (1) to addresses within a State of equipment, tickets, or material concerning a lottery which is conducted by that State acting under the authority of State law; or
- (2) to an addressee within a foreign country of equipment, tickets, or material designed to be used within that foreign country in a lottery which is authorized by the law of that foreign country.
- (c) For the purposes of this section (1) “State” means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States; and (2) “foreign country” means any empire, country, dominion, colony, or protectorate, or any subdivision thereof (other than the United States, its territories or possession).
- (d) For the purposes of subsection (b) of this section “lottery” means the pooling of proceeds derived from the sale of tickets or chances and allotting those proceeds or parts thereof by chance to one or more chance takers or tickets purchasers. “Lottery” does not include the placing or accepting of bets or wagers on sporting events or contests. For purposes of this section, the term a “not-for-profit organization” means any organization that would qualify as tax exempt under section 501(c)(3) of the Internal Revenue Code of 1986.

## CHAPTER 63—MAIL FRAUD

(§§ 1341–1343)

Sec.  
1343. Fraud by wire, radio, or television.

### § 1343. Fraud by wire, radio, or television

Whoever, having devised or intending to devise any scheme or artifice to defraud, or for obtaining money or property by means of false or fraudulent pretenses, representations, or promises, transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce, any writings, signs, signals, pictures, or sounds for the purpose of executing such scheme or artifice, shall be fined under this title or imprisoned not more than 20 years, or both. If the violation affects a financial institution, such person shall be fined not more than \$1,000,000 or imprisoned not more than 30 years, or both.

\* \* \* \* \*

### § 1367. Interference with the operation of a satellite

(a) Whoever, without the authority of the satellite operator, intentionally or maliciously interferes with the authorized operation of a communications or weather satellite or obstructs or hinders

any satellite transmission shall be fined in accordance with this title or imprisoned not more than ten years or both.

(b) This section does not prohibit any lawfully authorized investigative, protective, or intelligence activity of a law enforcement agency or of an intelligence agency of the United States.

**CHAPTER 71—OBSCENITY**

(§§ 1461–1468)

Sec.

1464. Broadcast obscene language.

\* \* \* \* \*

1468. Distributing obscene material by cable or subscription television

**§ 1464. Broadcasting obscene language**

Whoever utters any obscene, indecent, or profane language by means of radio communication shall be fined under this title or imprisoned not more than two years, or both.

\* \* \* \* \*

**§ 1468. Distributing obscene material by cable or subscription television**

(a) Whoever knowingly utters any obscene language or distributes any obscene matter by means of cable television or subscription services on television, shall be punished by imprisonment for not more than 2 years or by a fine in accordance with this title, or both.

(b) As used in this section, the term “distribute” means to send, transmit, retransmit, telecast, broadcast, or cablecast, including by wire, microwave, or satellite, or to produce or provide material for such distribution.

(c) Nothing in this chapter, or the Cable Communications Policy Act of 1984, or any other provision of Federal law, is intended to interfere with or preempt the power of the States, including political subdivisions thereof, to regulate the uttering of language that is obscene or otherwise unprotected by the Constitution or the distribution of matter that is obscene or otherwise unprotected by the Constitution, of any sort, by means of cable television or subscription services on television.

\* \* \* \* \*

§§ 2151 through 2157 are concerned, in part, with sabotage to certain communications facilities. (These sections are not reproduced here.)

\* \* \* \* \*

**CHAPTER 119—WIRE AND ELECTRONIC COMMUNICATIONS INTERCEPTION AND INTERCEPTION OF ORAL COMMUNICATION**

(§§ 2510–2522)

Sec.

2510. Definitions.

2511. Interception and disclosure of wire, oral, or electronic communications prohibited.
2512. Manufacture, distribution, possession, and advertising of wire, oral, or electronic communication intercepting devices prohibited.
2513. Confiscation of wire, oral, or electronic communication intercepting devices.
- [2514. REPEALED.]
2515. Prohibition of use as evidence of intercepted wire or oral communications.
2516. Authorization for interception of wire, oral, or electronic communications.
2517. Authorization for disclosure and use of intercepted wire, oral, or electronic communications.
2518. Procedure for interception of wire, oral, or electronic communications.
2519. Reports concerning intercepted wire, oral, or electronic communications.
2520. Recovery of civil damages authorized.
2521. Injunction against illegal interception.
2522. Enforcement of the Communications Assistance for Law Enforcement Act.

### § 2510. Definitions

As used in this chapter—

(1) “wire communication” means any aural transfer made in whole or in part through the use of facilities for the transmission of communications by the aid of wire, cable, or other like connection between the point of origin and the point of reception (including the use of such connection in a switching station) furnished or operated by any person engaged in providing or operating such facilities for the transmission of interstate or foreign communications or communications affecting interstate or foreign commerce<sup>1</sup>;

(2) “oral communication” means any oral communication uttered by a person exhibiting an expectation that such communication is not subject to interception under circumstances justifying such expectation, but such term does not include any electronic communication;

(3) “State” means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States;

(4) “intercept” means the aural or other acquisition of the contents of any wire, electronic, or oral communication through the use of any electronic, mechanical, or other device.

(5) “electronic, mechanical, or other device” means any device or apparatus which can be used to intercept a wire, oral, or electronic communication other than—

(a) any telephone or telegraph instrument, equipment or facility, or any component thereof, (i) furnished to the subscriber or user by a provider of wire or electronic communication service in the ordinary course of its business and being used by the subscriber or user in the ordinary course of its business or furnished by such subscriber or

<sup>1</sup> Section 209(1)(A) of Public Law 107–56 amended this paragraph by striking “and such term includes any electronic storage of such communication”. Section 224 of such public law provides as follows:

#### SEC. 224. SUNSET.

(a) IN GENERAL.—Except as provided in subsection (b), this title and the amendments made by this title (other than sections 203(a), 203(c), 205, 208, 210, 211, 213, 216, 219, 221, and 222, and the amendments made by those sections) shall cease to have effect on December 31, 2005.

(b) EXCEPTION.—With respect to any particular foreign intelligence investigation that began before the date on which the provisions referred to in subsection (a) cease to have effect, or with respect to any particular offense or potential offense that began or occurred before the date on which such provisions cease to have effect, such provisions shall continue in effect.

- user for connection to the facilities of such service and used in the ordinary course of its business; or (ii) being used by a provider of wire or electronic communication service in the ordinary course of its business, or by an investigative or law enforcement officer in the ordinary course of his duties;
- (b) a hearing aid or similar device being used to correct subnormal hearing to not better than normal;
- (6) “person” means any employee, or agent of the United States or any State or political subdivision thereof, and any individual, partnership, association, joint stock company, trust, or corporation;
- (7) “Investigative or law enforcement officer” means any officer of the United States or of a State or political subdivision thereof, who is empowered by law to conduct investigations of or to make arrests for offenses enumerated in this chapter, and any attorney authorized by law to prosecute or participate in the prosecution of such offenses;
- (8) “contents”, when used with respect to any wire, oral, or electronic communication, includes any information concerning the substance, purport, or meaning of that communication;
- (9) “Judge of competent jurisdiction” means—
- (a) a judge of a United States district court or a United States court of appeals; and
- (b) a judge of any court of general criminal jurisdiction of a State who is authorized by a statute of that State to enter orders authorizing interceptions of wire, oral, or electronic communications;
- (10) “communication common carrier” has the meaning given that term in section 3 of the Communications Act of 1934;
- (11) “aggrieved person” means a person who was a party to any intercepted wire, oral, or electronic communication or a person against whom the interception was directed;
- (12) “electronic communication” means any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photoelectronic or photooptical system that affects interstate or foreign commerce, but does not include—
- (A) any wire or oral communication;
- (B) any communication made through a tone-only paging device;
- (C) any communication from a tracking device (as defined in section 3117 of this title); or
- (D) electronic funds transfer information stored by a financial institution in a communications system used for the electronic storage and transfer of funds;
- (13) “user” means any person or entity who—
- (A) uses an electronic communication service; and
- (B) is duly authorized by the provider of such service to engage in such use;
- (14) “electronic communications system” means any wire, radio, electromagnetic, photooptical or photoelectronic facilities

for the transmission of wire or<sup>1</sup> electronic communications, and any computer facilities or related electronic equipment for the electronic storage of such communications;

(15) “electronic communication service” means any service which provides to users thereof the ability to send or receive wire or electronic communications;

(16) “readily accessible to the general public” means, with respect to a radio communication, that such communication is not—

(A) scrambled or encrypted;

(B) transmitted using modulation techniques whose essential parameters have been withheld from the public with the intention of preserving the privacy of such communication;

(C) carried on a subcarrier or other signal subsidiary to a radio transmission;

(D) transmitted over a communication system provided by a common carrier, unless the communication is a tone only paging system communication; or

(E) transmitted on frequencies allocated under part 25, subpart D, E, or F of part 74, or part 94 of the Rules of the Federal Communications Commission, unless, in the case of a communication transmitted on a frequency allocated under part 74 that is not exclusively allocated to broadcast auxiliary services, the communication is a two-way voice communication by radio;

(17) “electronic storage” means—

(A) any temporary, intermediate storage of a wire or electronic communication incidental to the electronic transmission thereof;

(B) any storage of such communication by an electronic communication service for purposes of backup protection of such communication;<sup>2</sup>

(18) “aural transfer” means a transfer containing the human voice at any point between and including the point of origin and the point of reception;<sup>2</sup>

(19)<sup>2</sup> “foreign intelligence information”, for purposes of section 2517(6) of this title,<sup>2</sup> means—

(A) information, whether or not concerning a United States person, that relates to the ability of the United States to protect against—

(i) actual or potential attack or other grave hostile acts of a foreign power or an agent of a foreign power;

<sup>1</sup>Section 209(1)(B) of Public Law 107–56 amended this paragraph by inserting “wire or” after “transmission of”. For the repeal of this amendment, see sunset provision in a footnote to paragraph (1) of this section.

<sup>2</sup>Section 203(b)(2) of Public Law 107–56 amended this section by striking “and” at the end of paragraph (17), by striking the period at the end of paragraph (18) and inserting “; and”, and added a new paragraph (19). Section 217(1) of such public law also amends this section (without mentioning the previous amendments), by striking “and” at the end of paragraph (18), striking the period in paragraph (19), and inserting new paragraphs (20) and (21). Paragraph (19), as added by section 203(b)(2)(C) of Public Law 107–56, was amended by section 314(b) of Public Law 107–108 (115 Stat. 1402) by inserting “, for purposes of section 2517(6) of this title,” before “means”. For the repeal of the amendments made by P.L. 107–56, see sunset provision in a footnote to paragraph (1) of this section.

- (ii) sabotage or international terrorism by a foreign power or an agent of a foreign power; or
- (iii) clandestine intelligence activities by an intelligence service or network of a foreign power or by an agent of a foreign power; or
- (B) information, whether or not concerning a United States person, with respect to a foreign power or foreign territory that relates to—
  - (i) the national defense or the security of the United States; or
  - (ii) the conduct of the foreign affairs of the United States;
- (20)<sup>1</sup> “protected computer” has the meaning set forth in section 1030; and
- (21)<sup>1</sup> “computer trespasser”—
  - (A) means a person who accesses a protected computer without authorization and thus has no reasonable expectation of privacy in any communication transmitted to, through, or from the protected computer; and
  - (B) does not include a person known by the owner or operator of the protected computer to have an existing contractual relationship with the owner or operator of the protected computer for access to all or part of the protected computer.

**§ 2511. Interception and disclosure of wire, oral, or electronic communications prohibited**

- (1) Except as otherwise specifically provided in this chapter any person who—
- (a) intentionally intercepts, endeavors to intercept, or procures any other person to intercept or endeavor to intercept, any wire, oral, or electronic communication;
  - (b) intentionally uses, endeavors to use, or procures any other person to use or endeavor to use any electronic, mechanical, or other device to intercept any oral communication when—
    - (i) such device is affixed to, or otherwise transmits a signal through, a wire, cable, or other like connection used in wire communication; or
    - (ii) such device transmits communications by radio, or interferes with the transmission of such communication; or
    - (iii) such person knows, or has reason to know, that such device or any component thereof has been sent through the mail or transported in interstate or foreign commerce; or
    - (iv) such use or endeavor to use (A) takes place on the premises of any business or other commercial establishment the operations of which affect interstate or foreign commerce; or (B) obtains or is for the purpose of obtaining information relating to the operations of any business or other commercial establishment the operations of which affect interstate or foreign commerce; or

<sup>1</sup> See footnote 2 on previous page.

(v) such person acts in the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States;

(c) intentionally discloses, or endeavors to disclose, to any other person the contents of any wire, oral, or electronic communication, knowing or having reason to know that the information was obtained through the interception of a wire, oral, or electronic communication in violation of this subsection;

(d) intentionally uses, or endeavors to use, the contents of any wire, oral, or electronic communication, knowing or having reason to know that the information was obtained through the interception of a wire, oral, or electronic communication in violation of this subsection; or

(e)(i) intentionally discloses, or endeavors to disclose, to any other person the contents of any wire, oral, or electronic communication, intercepted by means authorized by sections 2511(2)(a)(ii), 2511(2)(b)–(c), 2511(2)(e), 2516, and 2518 of this chapter, (ii) knowing or having reason to know that the information was obtained through the interception of such a communication in connection with a criminal investigation, (iii) having obtained or received the information in connection with a criminal investigation, and (iv) with intent to improperly obstruct, impede, or interfere with a duly authorized criminal investigation,

shall be punished as provided in subsection (4) or shall be subject to suit as provided in subsection (5).

(2)(a)(i) It shall not be unlawful under this chapter for an operator of a switchboard, or an officer, employee, or agent of a provider of wire or electronic communication service, whose facilities are used in the transmission of a wire or electronic communication, to intercept, disclose, or use that communication in the normal course of his employment while engaged in any activity which is a necessary incident to the rendition of his service or to the protection of the rights or property of the provider of that service, except that a provider of wire communication service to the public shall not utilize service observing or random monitoring except for mechanical or service quality control checks.

(ii) Notwithstanding any other law, providers of wire or electronic communication service, their officers, employees, and agents, landlords, custodians, or other persons, are authorized to provide information, facilities, or technical assistance to persons authorized by law to intercept wire, oral, or electronic communications or to conduct electronic surveillance, as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978, if such provider, its officers, employees, or agents, landlord, custodian, or other specified person, has been provided with—

(A) a court order directing such assistance signed by the authorizing judge, or

(B) a certification in writing by a person specified in section 2518(7) of this title or the Attorney General of the United States that no warrant or court order is required by law, that all statutory requirements have been met, and that the specified assistance is required,

setting forth the period of time during which the provision of the information, facilities, or technical assistance is authorized and specifying the information, facilities, or technical assistance required. No provider of wire or electronic communication service, officer, employee, or agent thereof, or landlord, custodian, or other specified person shall disclose the existence of any interception or surveillance or the device used to accomplish the interception or surveillance with respect to which the person has been furnished a court order or certification under this chapter, except as may otherwise be required by legal process and then only after prior notification to the Attorney General or to the principal prosecuting attorney of a State or any political subdivision of a State, as may be appropriate. Any such disclosure, shall render such person liable for the civil damages provided for in section 2520. No cause of action shall lie in any court against any provider of wire or electronic communication service, its officers, employees, or agents, landlord, custodian, or other specified person for providing information, facilities, or assistance in accordance with the terms of a court order, statutory authorization, or certification under this chapter.

(b) It shall not be unlawful under this chapter for an officer, employee, or agent of the Federal Communications Commission, in the normal course of his employment and in discharge of the monitoring responsibilities exercised by the Commission in the enforcement of chapter 5 of title 47 of the United States Code, to intercept a wire or electronic communication, or oral communication transmitted by radio, or to disclose or use the information thereby obtained.

(c) It shall not be unlawful under this chapter for a person acting under color of law to intercept a wire, oral, or electronic communication, where such person is a party to the communication or one of the parties to the communication has given prior consent to such interception.

(d) It shall not be unlawful under this chapter for a person not acting under color of law to intercept a wire, oral, or electronic communication where such person is a party to the communication or where one of the parties to the communication has given prior consent to such interception unless such communication is intercepted for the purpose of committing any criminal or tortious act in violation of the Constitution or laws of the United States or of any State.

(e) Notwithstanding any other provision of this title or section 705 or 706 of the Communications Act of 1934, it shall not be unlawful for an officer, employee, or agent of the United States in the normal course of his official duty to conduct electronic surveillance, as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978, as authorized by that Act.

(f) Nothing contained in this chapter or chapter 121 or 206 of this title<sup>1</sup>, or section 705 of the Communications Act of 1934, shall be deemed to affect the acquisition by the United States Government of foreign intelligence information from international or for-

<sup>1</sup>Section 204 of Public Law 107-56 amended this paragraph by striking "this chapter or chapter 121" and inserting "this chapter or chapter 121 or 206 of this title" and by striking "wire and oral" and inserting "wire, oral, and electronic". For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

eign communications, or foreign intelligence activities conducted in accordance with otherwise applicable Federal law involving a foreign electronic communications system, utilizing a means other than electronic surveillance as defined in section 101 of the Foreign Intelligence Surveillance Act of 1978, and procedures in this chapter or chapter 121 and the Foreign Intelligence Surveillance Act of 1978 shall be the exclusive means by which electronic surveillance, as defined in section 101 of such Act, and the interception of domestic wire, oral, and electronic<sup>1</sup> communications may be conducted.

(g) It shall not be unlawful under this chapter or chapter 121 of this title for any person—

(i) to intercept or access an electronic communication made through an electronic communication system that is configured so that such electronic communication is readily accessible to the general public;

(ii) to intercept any radio communication which is transmitted—

(I) by any station for the use of the general public, or that relates to ships, aircraft, vehicles, or persons in distress;

(II) by any governmental, law enforcement, civil defense, private land mobile, or public safety communications system, including police and fire, readily accessible to the general public;

(III) by a station operating on an authorized frequency within the bands allocated to the amateur, citizens band, or general mobile radio services; or

(IV) by any marine or aeronautical communications system;

(iii) to engage in any conduct which—

(I) is prohibited by section 633 of the Communications Act of 1934; or

(II) is excepted from the application of section 705(a) of the Communications Act of 1934 by section 705(b) of that Act;

(iv) to intercept any wire or electronic communication the transmission of which is causing harmful interference to any lawfully operating station or consumer electronic equipment, to the extent necessary to identify the source of such interference; or

(v) for other users of the same frequency to intercept any radio communication made through a system that utilizes frequencies monitored by individuals engaged in the provision or the use of such system, if such communication is not scrambled or encrypted.

(h) It shall not be unlawful under this chapter—

(i) to use a pen register or a trap and trace device (as those terms are defined for the purposes of chapter 206 (relating to pen registers and trap and trace devices) of this title); or

(ii) for a provider of electronic communication service to record the fact that a wire or electronic communication was initiated or completed in order to protect such provider, another provider furnishing service toward the completion of the

wire or electronic communication, or a user of that service, from fraudulent, unlawful or abusive use of such service.

(i)<sup>1</sup> It shall not be unlawful under this chapter for a person acting under color of law to intercept the wire or electronic communications of a computer trespasser transmitted to, through, or from the protected computer, if—

(I) the owner or operator of the protected computer authorizes the interception of the computer trespasser's communications on the protected computer;

(II) the person acting under color of law is lawfully engaged in an investigation;

(III) the person acting under color of law has reasonable grounds to believe that the contents of the computer trespasser's communications will be relevant to the investigation; and

(IV) such interception does not acquire communications other than those transmitted to or from the computer trespasser.

(3)(a) Except as provided in paragraph (b) of this subsection, a person or entity providing an electronic communication service to the public shall not intentionally divulge the contents of any communication (other than one to such person or entity, or an agent thereof) while in transmission on that service to any person or entity other than an addressee or intended recipient of such communication or an agent of such addressee or intended recipient.

(b) A person or entity providing electronic communication service to the public may divulge the contents of any such communication—

(i) as otherwise authorized in section 2511(2)(a) or 2517 of this title;

(ii) with the lawful consent of the originator or any addressee or intended recipient of such communication;

(iii) to a person employed or authorized, or whose facilities are used, to forward such communication to its destination; or

(iv) which were inadvertently obtained by the service provider and which appear to pertain to the commission of a crime, if such divulgence is made to a law enforcement agency.

(4)(a) Except as provided in paragraph (b) of this subsection or in subsection (5), whoever violates subsection (1) of this section shall be fined under this title or imprisoned not more than five years, or both.

(b) Conduct otherwise an offense under this subsection that consists of or relates to the interception of a satellite transmission that is not encrypted or scrambled and that is transmitted—

(i) to a broadcasting station for purposes of retransmission to the general public; or

(ii) as an audio subcarrier intended for redistribution to facilities open to the public, but not including data transmissions or telephone calls,

<sup>1</sup>Section 217(2) of Public Law 107-56 inserted this paragraph at the end of subsection (2). For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

is not an offense under this subsection unless the conduct is for the purposes of direct or indirect commercial advantage or private financial gain.

(5)(a)(i) If the communication is—

(A) a private satellite video communication that is not scrambled or encrypted and the conduct in violation of this chapter is the private viewing of that communication and is not for a tortious or illegal purpose or for purposes of direct or indirect commercial advantage or private commercial gain; or

(B) a radio communication that is transmitted on frequencies allocated under subpart D of part 74 of the rules of the Federal Communications Commission that is not scrambled or encrypted and the conduct in violation of this chapter is not for a tortious or illegal purpose or for purposes of direct or indirect commercial advantage or private commercial gain, then the person who engages in such conduct shall be subject to suit by the Federal Government in a court of competent jurisdiction.

(ii) In an action under this subsection—

(A) if the violation of this chapter is a first offense for the person under paragraph (a) of subsection (4) and such person has not been found liable in a civil action under section 2520 of this title, the Federal Government shall be entitled to appropriate injunctive relief; and

(B) if the violation of this chapter is a second or subsequent offense under paragraph (a) of subsection (4) or such person has been found liable in any prior civil action under section 2520, the person shall be subject to a mandatory \$500 civil fine.

(b) The court may use any means within its authority to enforce an injunction issued under paragraph (ii)(A), and shall impose a civil fine of not less than \$500 for each violation of such an injunction.

**§ 2512. Manufacture, distribution, possession, and advertising of wire, oral, or electronic communication intercepting devices prohibited**

(1) Except as otherwise specifically provided in this chapter, any person who intentionally—

(a) sends through the mail, or sends or carries in interstate or foreign commerce, any electronic, mechanical, or other device, knowing or having reason to know that the design of such device renders it primarily useful for the purpose of the surreptitious interception of wire, oral, or electronic communications;

(b) manufactures, assembles, possesses, or sells any electronic, mechanical, or other device, knowing or having reason to know that the design of such device renders it primarily useful for the purpose of the surreptitious interception of wire, oral, or electronic communications, and that such device or any component thereof has been or will be sent through the mail or transported in interstate or foreign commerce; or

(c) places in any newspaper, magazine, handbill, or other publication or disseminates by electronic means any advertisement of—

(i) any electronic, mechanical, or other device knowing the content of the advertisement and knowing or having reason to know that the design of such device renders it primarily useful for the purpose of the surreptitious interception of wire, oral, or electronic communications; or

(ii) any other electronic, mechanical, or other device, where such advertisement promotes the use of such device for the purpose of the surreptitious interception of wire, oral, or electronic communications,

knowing or having reason to know that such advertisement will be sent through the mail or transported in interstate or foreign commerce,

shall be fined under this title or imprisoned not more than five years, or both.

(2) It shall not be unlawful under this section for—

(a) a provider of wire or electronic communication service or an officer, agent, or employee of, or a person under contract with, such a provider, in the normal course of the business of providing that wire or electronic communication service, or

(b) an officer, agent, or employee of, or a person under contract with, the United States, a State, or a political subdivision thereof, in the normal course of the activities of the United States, a State, or a political subdivision thereof,

to send through the mail, send or carry in interstate or foreign commerce, or manufacture, assemble, possess, or sell any electronic, mechanical, or other device knowing or having reason to know that the design of such device renders it primarily useful for the purpose of the surreptitious interception of wire, oral, or electronic communications.

(3) It shall not be unlawful under this section to advertise for sale a device described in subsection (1) of this section if the advertisement is mailed, sent, or carried in interstate or foreign commerce solely to a domestic provider of wire or electronic communication service or to an agency of the United States, a State, or a political subdivision thereof which is duly authorized to use such device.

### **§ 2513. Confiscation of wire, oral, or electronic communication intercepting devices**

Any electronic, mechanical, or other device used, sent, carried, manufactured, assembled, possessed, sold, or advertised in violation of section 2511 or section 2512 of this chapter may be seized and forfeited to the United States. All provisions of law relating to (1) the seizure, summary and judicial forfeiture, and condemnation of vessels, vehicles, merchandise, and baggage for violations of the customs laws contained in title 19 of the United States Code, (2) the disposition of such vessels, vehicles, merchandise, and baggage or the proceeds from the sale thereof, (3) the remission or mitigation of such forfeiture, (4) the compromise of claims, and (5) the award of compensation to informers in respect of such forfeitures, shall apply to seizures and forfeitures incurred, or alleged to have

been incurred, under the provisions of this section, insofar as applicable and not inconsistent with the provisions of this section; except that such duties as are imposed upon the collector of customs or any other person with respect to the seizure and forfeiture of vessels, vehicles, merchandise, and baggage under the provisions of the customs laws contained in title 19 of the United States Code shall be performed with respect to seizure and forfeiture of electronic, mechanical, or other intercepting devices under this section by such officers, agents, or other persons as may be authorized or designated for that purpose by the Attorney General.

[§ 2514. Immunity of witnesses—**Repealed**]

**§ 2515. Prohibition of use as evidence of intercepted wire or oral communications**

Whenever any wire or oral communication has been intercepted, no part of the contents of such communication and no evidence derived therefrom may be received in evidence in any trial, hearing, or other proceeding in or before any court, grand jury, department, officer, agency, regulatory body, legislative committee, or other authority of the United States, a State, or a political subdivision thereof if the disclosure of that information would be in violation of this chapter.

**§ 2516. Authorization for interception of wire, oral, or electronic communications**

(1) The Attorney General, Deputy Attorney General, Associate Attorney General, or any Assistant Attorney General, any acting Assistant Attorney General, or any Deputy Assistant Attorney General or acting Deputy Assistant Attorney General in the Criminal Division specially designated by the Attorney General, may authorize an application to a Federal judge of competent jurisdiction for, and such judge may grant in conformity with section 2518 of this chapter an order authorizing or approving the interception of wire or oral communications by the Federal Bureau of Investigation, or a Federal agency having responsibility for the investigation of the offense as to which the application is made, when such interception may provide or has provided evidence of—

(a) any offense punishable by death or by imprisonment for more than one year under sections 2274 through 2277 of title 42 of the United States Code (relating to the enforcement of the Atomic Energy Act of 1954), section 2284 of title 42 of the United States Code (relating to sabotage of nuclear facilities or fuel), or under the following chapters of this title: chapter 37 (relating to espionage), chapter 90 (relating to protection of trade secrets), chapter 105 (relating to sabotage), chapter 115 (relating to treason), chapter 102 (relating to riots), chapter 65 (relating to malicious mischief), chapter 111 (relating to destruction of vessels), or chapter 81 (relating to piracy);

(b) a violation of section 186 or section 501(c) of title 29, United States Code (dealing with restrictions on payments and loans to labor organizations), or any offense which involves murder, kidnapping, robbery, or extortion, and which is punishable under this title;

(c) any offense which is punishable under the following sections of this title: section 201 (bribery of public officials and witnesses), section 215 (relating to bribery of bank officials), section 224 (bribery in sporting contests), subsection (d), (e), (f), (g), (h), or (i) of section 844 (unlawful use of explosives), section 1032 (relating to concealment of assets), section 1084 (transmission of wagering information), section 751 (relating to escape), section 1014 (relating to loans and credit applications generally; renewals and discounts), sections 1503, 1512, and 1513 (influencing or injuring an officer, juror, or witness generally), section 1510 (obstruction of criminal investigations), section 1511 (obstruction of State or local law enforcement), section 1751 (Presidential and Presidential staff assassination, kidnapping, and assault), section 1951 (interference with commerce by threats or violence), section 1952 (interstate and foreign travel or transportation in aid of racketeering enterprises), section 1958 (relating to use of interstate commerce facilities in the commission of murder for hire), section 1959 (relating to violent crimes in aid of racketeering activity), section 1954 (offer, acceptance, or solicitation to influence operations of employee benefit plan), section 1955 (prohibition of business enterprises of gambling), section 1956 (laundering of monetary instruments), section 1957 (relating to engaging in monetary transactions in property derived from specified unlawful activity), section 659 (theft from interstate shipment), section 664 (embezzlement from pension and welfare funds), section 1343 (fraud by wire, radio, or television), section 1344 (relating to bank fraud), sections 2251 and 2252 (sexual exploitation of children), sections 2312, 2313, 2314, and 2315 (interstate transportation of stolen property), section 2321 (relating to trafficking in certain motor vehicles or motor vehicle parts), section 1203 (relating to hostage taking), section 1029 (relating to fraud and related activity in connection with access devices), section 3146 (relating to penalty for failure to appear), section 3521(b)(3) (relating to witness relocation and assistance), section 32 (relating to destruction of aircraft or aircraft facilities), section 38 (relating to aircraft parts fraud), section 1963 (violations with respect to racketeer influenced and corrupt organizations), section 115 (relating to threatening or retaliating against a Federal official), section 1341 (relating to mail fraud), a felony violation of section 1030 (relating to computer fraud and abuse),<sup>1</sup> section 351 (violations with respect to congressional, Cabinet, or Supreme Court assassinations, kidnapping, and assault), section 831 (relating to prohibited transactions involving nuclear materials), section 33 (relating to destruction of motor vehicles or motor vehicle facilities), section 175 (relating to biological weapons), section 1992 (relating to wrecking trains), a felony violation of section 1028 (relating to production of false identification documentation), section 1425 (relating to the procurement of citizenship or nationalization unlaw-

<sup>1</sup>Section 202 of Public Law 107-56 amended section 2516(1)(C) by striking “and section 1341 (relating to mail fraud),” and inserting “section 1341 (relating to mail fraud), a felony violation of section 1030 (relating to computer fraud and abuse).” For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

fully), section 1426 (relating to the reproduction of naturalization or citizenship papers), section 1427 (relating to the sale of naturalization or citizenship papers), section 1541 (relating to passport issuance without authority), section 1542 (relating to false statements in passport applications), section 1543 (relating to forgery or false use of passports), section 1544 (relating to misuse of passports), or section 1546 (relating to fraud and misuse of visas, permits, and other documents);

(d) any offense involving counterfeiting punishable under section 471, 472, or 473 of this title;

(e) any offense involving fraud connected with a case under title 11 or the manufacture, importation, receiving, concealment, buying, selling, or otherwise dealing in narcotic drugs, marihuana, or other dangerous drugs, punishable under any law of the United States;

(f) any offense including extortionate credit transactions under sections 892, 893, or 894 of this title;

(g) a violation of section 5322 of title 31, United States Code (dealing with the reporting of currency transactions);

(h) any felony violation of sections 2511 and 2512 (relating to interception and disclosure of certain communications and to certain intercepting devices) of this title;

(i) any felony violation of chapter 71 (relating to obscenity) of this title;

(j) any violation of section 60123(b) (relating to destruction of a natural gas pipeline) or section 46502 (relating to aircraft piracy) of title 49;

(k) any criminal violation of section 2778 of title 22 (relating to the Arms Export Control Act);

(l) the location of any fugitive from justice from an offense described in this section;

(m) a violation of section 274, 277, or 278 of the Immigration and Nationality Act (8 U.S.C. 1324, 1327, or 1328) (relating to the smuggling of aliens);

(n) any felony violation of sections 922 and 924 of title 18, United States Code (relating to firearms);

(o) any violation of section 5861 of the Internal Revenue Code of 1986 (relating to firearms);

(p) a felony violation of section 1028 (relating to production of false identification documents), section 1542 (relating to false statements in passport applications), section 1546 (relating to fraud and misuse of visas, permits, and other documents) of this title or a violation of section 274, 277, or 278 of the Immigration and Nationality Act (relating to the smuggling of aliens); or

(q)<sup>1</sup> any criminal violation of section 229 (relating to chemical weapons); or sections 2332, 2332a, 2332b, 2332d, 2332f, 2339A, 2339B, or 2339C of this title (relating to terrorism); or

<sup>1</sup>Section 201 of Public Law 107-56 amended section 2516(1) by redesignating paragraph (p) as paragraph (r) and by inserting after paragraph (p), as so redesignated by section 201(3) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (division C of Public Law 104-208; 110 Stat. 3009-565), a new paragraph (q). For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

(r)<sup>1</sup> any conspiracy to commit any offense described in any subparagraph of this paragraph.

(2) The principal prosecuting attorney of any State, or the principal prosecuting attorney of any political subdivision thereof, if such attorney is authorized by a statute of that State to make application to a State court judge of competent jurisdiction for an order authorizing or approving the interception of wire, oral, or electronic communications, may apply to such judge for, and such judge may grant in conformity with section 2518 of this chapter and with the applicable State statute an order authorizing, or approving the interception of wire, oral, or electronic communications by investigative or law enforcement officers having responsibility for the investigation of the offense as to which the application is made, when such interception may provide or has provided evidence of the commission of the offense of murder, kidnapping, gambling, robbery, bribery, extortion, or dealing in narcotic drugs, marihuana or other dangerous drugs, or other crime dangerous to life, limb, or property, and punishable by imprisonment for more than one year, designated in any applicable State statute authorizing such interception, or any conspiracy to commit any of the foregoing offenses.

(3) Any attorney for the Government (as such term is defined for the purposes of the Federal Rules of Criminal Procedure) may authorize an application to a Federal judge of competent jurisdiction for, and such judge may grant, in conformity with section 2518 of this title, an order authorizing or approving the interception of electronic communications by an investigative or law enforcement officer having responsibility for the investigation of the offense as to which the application is made, when such interception may provide or has provided evidence of any Federal felony.

**§ 2517. Authorization for disclosure and use of intercepted wire, oral, or electronic communications**

(1) Any investigative or law enforcement officer who, by any means authorized by this chapter, has obtained knowledge of the contents of any wire, oral, or electronic communication, or evidence derived therefrom, may disclose such contents to another investigative or law enforcement officer to the extent that such disclosure is appropriate to the proper performance of the official duties of the officer making or receiving the disclosure.

(2) Any investigative or law enforcement officer who, by any means authorized by this chapter, has obtained knowledge of the contents of any wire, oral, or electronic communication or evidence derived therefrom may use such contents to the extent such use is appropriate to the proper performance of his official duties.

(3) Any person who has received, by any means authorized by this chapter, any information concerning a wire, oral, or electronic communication, or evidence derived therefrom intercepted in accordance with the provisions of this chapter may disclose the contents of that communication or such derivative evidence while giving testimony under oath or affirmation in any proceeding held under the authority of the United States or of any State or political subdivision thereof.

(4) No otherwise privileged wire, oral, or electronic communication intercepted in accordance with, or in violation of, the provisions of this chapter shall lose its privileged character.

(5) When an investigative or law enforcement officer, while engaged in intercepting wire, oral, or electronic communications in the manner authorized herein, intercepts wire, oral, or electronic communications relating to offenses other than those specified in the order of authorization or approval, the contents thereof, and evidence derived therefrom, may be disclosed or used as provided in subsections (1) and (2) of this section. Such contents and any evidence derived therefrom may be used under subsection (3) of this section when authorized or approved by a judge of competent jurisdiction where such judge finds on subsequent application that the contents were otherwise intercepted in accordance with the provisions of this chapter. Such application shall be made as soon as practicable.

(6)<sup>1</sup> Any investigative or law enforcement officer, or attorney for the Government, who by any means authorized by this chapter, has obtained knowledge of the contents of any wire, oral, or electronic communication, or evidence derived therefrom, may disclose such contents to any other Federal law enforcement, intelligence, protective, immigration, national defense, or national security official to the extent that such contents include foreign intelligence or counterintelligence (as defined in section 3 of the National Security Act of 1947 (50 U.S.C. 401a)), or foreign intelligence information (as defined in subsection (19) of section 2510 of this title), to assist the official who is to receive that information in the performance of his official duties. Any Federal official who receives information pursuant to this provision may use that information only as necessary in the conduct of that person's official duties subject to any limitations on the unauthorized disclosure of such information.

(7) Any investigative or law enforcement officer, or other Federal official in carrying out official duties as such Federal official, who by any means authorized by this chapter, has obtained knowledge of the contents of any wire, oral, or electronic communication, or evidence derived therefrom, may disclose such contents or derivative evidence to a foreign investigative or law enforcement officer to the extent that such disclosure is appropriate to the proper performance of the official duties of the officer making or receiving the disclosure, and foreign investigative or law enforcement officers may use or disclose such contents or derivative evidence to the extent such use or disclosure is appropriate to the proper performance of their official duties.

(8) Any investigative or law enforcement officer, or other Federal official in carrying out official duties as such Federal official, who by any means authorized by this chapter, has obtained knowledge of the contents of any wire, oral, or electronic communication, or evidence derived therefrom, may disclose such contents or derivative evidence to any appropriate Federal, State, local, or foreign government official to the extent that such contents or derivative evidence reveals a threat of actual or potential attack or other

<sup>1</sup> Section 203(b)(1) of Public Law 107-56 added this paragraph. For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

grave hostile acts of a foreign power or an agent of a foreign power, domestic or international sabotage, domestic or international terrorism, or clandestine intelligence gathering activities by an intelligence service or network of a foreign power or by an agent of a foreign power, within the United States or elsewhere, for the purpose of preventing or responding to such a threat. Any official who receives information pursuant to this provision may use that information only as necessary in the conduct of that person's official duties subject to any limitations on the unauthorized disclosure of such information, and any State, local, or foreign official who receives information pursuant to this provision may use that information only consistent with such guidelines as the Attorney General and Director of Central Intelligence shall jointly issue.

**§ 2518. Procedure for interception of wire, oral, or electronic communications**

(1) Each application for an order authorizing or approving the interception of a wire, oral, or electronic communication under this chapter shall be made in writing upon oath or affirmation to a judge of competent jurisdiction and shall state the applicant's authority to make such application. Each application shall include the following information:

(a) the identity of the investigative or law enforcement officer making the application, and the officer authorizing the application;

(b) a full and complete statement of the facts and circumstances relied upon by the applicant, to justify his belief that an order should be issued, including (i) details as to the particular offense that has been, is being, or is about to be committed, (ii) except as provided in subsection (11), a particular description of the nature and location of the facilities from which or the place where the communication is to be intercepted, (iii) a particular description of the type of communications sought to be intercepted, (iv) the identity of the person, if known, committing the offense and whose communications are to be intercepted;

(c) a full and complete statement as to whether or not other investigative procedures have been tried and failed or why they reasonably appear to be unlikely to succeed if tried or to be too dangerous;

(d) a statement of the period of time for which the interception is required to be maintained. If the nature of the investigation is such that the authorization for interception should not automatically terminate when the described type of communication has been first obtained, a particular description of facts establishing probable cause to believe that additional communications of the same type will occur thereafter;

(e) a full and complete statement of the facts concerning all previous applications known to the individual authorizing and making the application, made to any judge for authorization to intercept, or for approval of interceptions of, wire, oral, or electronic communications involving any of the same persons, facilities or places specified in the application, and the action taken by the judge on each such application; and

(f) where the application is for the extension of an order, a statement setting forth the results thus far obtained from the interception, or a reasonable explanation of the failure to obtain such results.

(2) The judge may require the applicant to furnish additional testimony or documentary evidence in support of the application.

(3) Upon such application the judge may enter an ex parte order, as requested or as modified, authorizing or approving interception of wire, oral, or electronic communications within the territorial jurisdiction of the court in which the judge is sitting (and outside that jurisdiction but within the United States in the case of a mobile interception device authorized by a Federal court within such jurisdiction), if the judge determines on the basis of the facts submitted by the applicant that—

(a) there is probable cause for belief that an individual is committing, has committed, or is about to commit a particular offense enumerated in section 2516 of this chapter;

(b) there is probable cause for belief that particular communications concerning that offense will be obtained through such interception;

(c) normal investigative procedures have been tried and have failed or reasonably appear to be unlikely to succeed if tried or to be too dangerous;

(d) except as provided in subsection (11), there is probable cause for belief that the facilities from which, or the place where, the wire, oral, or electronic communications are to be intercepted are being used, or are about to be used, in connection with the commission of such offense, or are leased to, listed in the name of, or commonly used by such person.

(4) Each order authorizing or approving the interception of any wire, oral, or electronic communication under this chapter shall specify—

(a) the identity of the person, if known, whose communications are to be intercepted;

(b) the nature and location of the communications facilities as to which, or the place where, authority to intercept is granted;

(c) a particular description of the type of communication sought to be intercepted, and a statement of the particular offense to which it relates;

(d) the identity of the agency authorized to intercept the communications, and of the person authorizing the application; and

(e) the period of time during which such interception is authorized, including a statement as to whether or not the interception shall automatically terminate when the described communication has been first obtained.

An order authorizing the interception of a wire, oral, or electronic communication under this chapter shall, upon request of the applicant, direct that a provider of wire or electronic communication service, landlord, custodian or other person shall furnish the applicant forthwith all information, facilities, and technical assistance necessary to accomplish the interception unobtrusively and with a minimum of interference with the services that such service pro-

vider, landlord, custodian, or person is according the person whose communications are to be intercepted. Any provider of wire or electronic communication service, landlord, custodian or other person furnishing such facilities or technical assistance shall be compensated therefor by the applicant for reasonable expenses incurred in providing such facilities or assistance. Pursuant to section 2522 of this chapter, an order may also be issued to enforce the assistance capability and capacity requirements under the Communications Assistance for Law Enforcement Act.

(5) No order entered under this section may authorize or approve the interception of any wire, oral, or electronic communication for any period longer than is necessary to achieve the objective of the authorization, nor in any event longer than thirty days. Such thirty-day period begins on the earlier of the day on which the investigative or law enforcement officer first begins to conduct an interception under the order or ten days after the order is entered. Extensions of an order may be granted, but only upon application for an extension made in accordance with subsection (1) of this section and the court making the findings required by subsection (3) of this section. The period of extension shall be no longer than the authorizing judge deems necessary to achieve the purposes for which it was granted and in no event for longer than thirty days. Every order and extension thereof shall contain a provision that the authorization to intercept shall be executed as soon as practicable, shall be conducted in such a way as to minimize the interception of communications not otherwise subject to interception under this chapter, and must terminate upon attainment of the authorized objective, or in any event in thirty days. In the event the intercepted communication is in a code or foreign language, and an expert in that foreign language or code is not reasonably available during the interception period, minimization may be accomplished as soon as practicable after such interception. An interception under this chapter may be conducted in whole or in part by Government personnel, or by an individual operating under a contract with the Government, acting under the supervision of an investigative or law enforcement officer authorized to conduct the interception.

(6) Whenever an order authorizing interception is entered pursuant to this chapter, the order may require reports to be made to the judge who issued the order showing what progress has been made toward achievement of the authorized objective and the need for continued interception. Such reports shall be made at such intervals as the judge may require.

(7) Notwithstanding any other provision of this chapter, any investigative or law enforcement officer, specially designated by the Attorney General, the Deputy Attorney General, the Associate Attorney General, or by the principal prosecuting attorney of any State or subdivision thereof acting pursuant to a statute of that State, who reasonably determines that—

- (a) an emergency situation exists that involves—
  - (i) immediate danger of death or serious physical injury to any person,
  - (ii) conspiratorial activities threatening the national security interest, or

(iii) conspiratorial activities characteristic of organized crime,  
that requires a wire, oral, or electronic communication to be intercepted before an order authorizing such interception can, with due diligence, be obtained, and

(b) there are grounds upon which an order could be entered under this chapter to authorize such interception, may intercept such wire, oral, or electronic communication if an application for an order approving the interception is made in accordance with this section within forty-eight hours after the interception has occurred, or begins to occur. In the absence of an order, such interception shall immediately terminate when the communication sought is obtained or when the application for the order is denied, whichever is earlier. In the event such application for approval is denied, or in any other case where the interception is terminated without an order having been issued, the contents of any wire, oral, or electronic communication intercepted shall be treated as having been obtained in violation of this chapter, and an inventory shall be served as provided for in subsection (d) of this section on the person named in the application.

(8)(a) The contents of any wire, oral, or electronic communication intercepted by any means authorized by this chapter shall, if possible, be recorded on tape or wire or other comparable device. The recording of the contents of any wire, oral, or electronic communication under this subsection shall be done in such a way as will protect the recording from editing or other alterations. Immediately upon the expiration of the period of the order, or extensions thereof, such recordings shall be made available to the judge issuing such order and sealed under his directions. Custody of the recordings shall be wherever the judge orders. They shall not be destroyed except upon an order of the issuing or denying judge and in any event shall be kept for ten years. Duplicate recordings may be made for use or disclosure pursuant to the provisions of subsections (1) and (2) of section 2517 of this chapter for investigations. The presence of the seal provided for by this subsection, or a satisfactory explanation for the absence thereof, shall be a prerequisite for the use or disclosure of the contents of any wire, oral, or electronic communication or evidence derived therefrom under subsection (3) of section 2517.

(b) Applications made and orders granted under this chapter shall be sealed by the judge. Custody of the applications and orders shall be wherever the judge directs. Such applications and orders shall be disclosed only upon a showing of good cause before a judge of competent jurisdiction and shall not be destroyed except on order of the issuing or denying judge, and in any event shall be kept for ten years.

(c) Any violation of the provisions of this subsection may be punished as contempt of the issuing or denying judge.

(d) Within a reasonable time but not later than ninety days after the filing of an application for an order of approval under section 2518(7)(b) which is denied or the termination of the period of an order or extensions thereof, the issuing or denying judge shall cause to be served, on the persons named in the order or the application, and such other parties to intercepted communications as the

judge may determine in his discretion that is in the interest of justice, an inventory which shall include notice of—

- (1) the fact of the entry of the order or the application;
- (2) the date of the entry and the period of authorized, approved or disapproved interception, or the denial of the application; and
- (3) the fact that during the period wire, oral, or electronic communications were or were not intercepted.

The judge, upon the filing of a motion, may in his discretion make available to such person or his counsel for inspection such portions of the intercepted communications, applications and orders as the judge determines to be in the interest of justice. On an ex parte showing of good cause to a judge of competent jurisdiction the serving of the inventory required by this subsection may be postponed.

(9) The contents of any wire, oral, or electronic communication intercepted pursuant to this chapter or evidence derived therefrom shall not be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding in a Federal or State court unless each party, not less than ten days before the trial, hearing, or proceeding, has been furnished with a copy of the court order, and accompanying application, under which the interception was authorized or approved. This ten-day period may be waived by the judge if he finds that it was not possible to furnish the party with the above information ten days before the trial, hearing, or proceeding and that the party will not be prejudiced by the delay in receiving such information.

(10)(a) Any aggrieved person in any trial, hearing, or proceeding in or before any court, department, officer, agency, regulatory body, or other authority of the United States, a State, or a political subdivision thereof, may move to suppress the contents of any wire or oral communication intercepted pursuant to this chapter, or evidence derived therefrom, on the grounds that—

- (i) the communication was unlawfully intercepted;
- (ii) the order of authorization or approval under which it was intercepted is insufficient on its face; or
- (iii) the interception was not made in conformity with the order of authorization or approval.

Such motion shall be made before the trial, hearing, or proceeding unless there was no opportunity to make such motion or the person was not aware of the grounds of the motion. If the motion is granted, the contents of the intercepted wire or oral communication, or evidence derived therefrom, shall be treated as having been obtained in violation of this chapter. The judge, upon the filing of such motion by the aggrieved person, may in his discretion make available to the aggrieved person or his counsel for inspection such portions of the intercepted communication or evidence derived therefrom as the judge determines to be in the interests of justice.

(b) In addition to any other right to appeal, the United States shall have the right to appeal from an order granting a motion to suppress made under paragraph (a) of this subsection, or the denial of an application for an order of approval, if the United States attorney shall certify to the judge or other official granting such motion or denying such application that the appeal is not taken for purposes of delay. Such appeal shall be taken within thirty days

after the date the order was entered and shall be diligently prosecuted.

(c) The remedies and sanctions described in this chapter with respect to the interception of electronic communications are the only judicial remedies and sanctions for nonconstitutional violations of this chapter involving such communications.

(11) The requirements of subsections (1)(b)(ii) and (3)(d) of this section relating to the specification of the facilities from which, or the place where, the communication is to be intercepted do not apply if—

(a) in the case of an application with respect to the interception of an oral communication—

(i) the application is by a Federal investigative or law enforcement officer and is approved by the Attorney General, the Deputy Attorney General, the Associate Attorney General, an Assistant Attorney General, or an acting Assistant Attorney General;

(ii) the application contains a full and complete statement as to why such specification is not practical and identifies the person committing the offense and whose communications are to be intercepted; and

(iii) the judge finds that such specification is not practical; and

(b) in the case of an application with respect to a wire or electronic communication—

(i) the application is by a Federal investigative or law enforcement officer and is approved by the Attorney General, the Deputy Attorney General, the Associate Attorney General, an Assistant Attorney General, or an acting Assistant Attorney General;

(ii) the application identifies the person believed to be committing the offense and whose communications are to be intercepted and the applicant makes a showing that there is probable cause to believe that the person's actions could have the effect of thwarting interception from a specified facility;

(iii) the judge finds that such showing has been adequately made; and

(iv) the order authorizing or approving the interception is limited to interception only for such time as it is reasonable to presume that the person identified in the application is or was reasonably proximate to the instrument through which such communication will be or was transmitted.

(12) An interception of a communication under an order with respect to which the requirements of subsections (1)(b)(ii) and (3)(d) of this section do not apply by reason of subsection (11)(a) shall not begin until the place where the communication is to be intercepted is ascertained by the person implementing the interception order. A provider of wire or electronic communications service that has received an order as provided for in subsection (11)(b) may move the court to modify or quash the order on the ground that its assistance with respect to the interception cannot be performed

in a timely or reasonable fashion. The court, upon notice to the government, shall decide such a motion expeditiously.

**§ 2519. Reports concerning intercepted wire, oral, or electronic communications**

(1) Within thirty days after the expiration of an order (or each extension thereof) entered under section 2518, or the denial of an order approving an interception, the issuing or denying judge shall report to the Administrative Office of the United States Courts—

- (a) the fact that an order or extension was applied for;
- (b) the kind of order or extension applied for (including whether or not the order was an order with respect to which the requirements of sections 2518(1)(b)(ii) and 2518(c)(d) of this title did not apply by reason of section 2518(11) of this title);
- (c) the fact that the order or extension was granted as applied for, was modified, or was denied;
- (d) the period of interceptions authorized by the order, and the number and duration of any extensions of the order;
- (e) the offense specified in the order or application, or extension of an order;
- (f) the identity of the applying investigative or law enforcement officer and agency making the application and the person authorizing the application; and
- (g) the nature of the facilities from which or the place where communications were to be intercepted.

(2) In January of each year the Attorney General, an Assistant Attorney General specially designated by the Attorney General, or the principal prosecuting attorney of a State, or the principal prosecuting attorney for any political subdivision of a State, shall report to the Administrative Office of the United States Courts—

- (a) the information required by paragraphs (a) through (g) of subsection (1) of this section with respect to each application for an order or extension made during the preceding calendar year;
- (b) a general description of the interceptions made under such order or extension, including (i) the approximate nature and frequency of incriminating communications intercepted, (ii) the approximate nature and frequency of other communications intercepted, (iii) the approximate number of persons whose communications were intercepted, (iv) the number of orders in which encryption was encountered and whether such encryption prevented law enforcement from obtaining the plain text of communications intercepted pursuant to such order, and (v) the approximate nature, amount, and cost of the manpower and other resources used in the interceptions;
- (c) the number of arrests resulting from interceptions made under such order or extension, and the offenses for which arrests were made;
- (d) the number of trials resulting from such interceptions;
- (e) the number of motions to suppress made with respect to such interceptions, and the number granted or denied;
- (f) the number of convictions resulting from such interceptions and the offenses for which the convictions were obtained

and a general assessment of the importance of the interceptions; and

(g) the information required by paragraphs (b) through (f) of this subsection with respect to orders or extensions obtained in a preceding calendar year.

(3) In April of each year the Director of the Administrative Office of the United States Courts shall transmit to the Congress a full and complete report concerning the number of applications for orders authorizing or approving the interception of wire, oral, or electronic communications pursuant to this chapter and the number of orders and extensions granted or denied pursuant to this chapter during the preceding calendar year. Such report shall include a summary and analysis of the data required to be filed with the Administrative Office by subsections (1) and (2) of this section. The Director of the Administrative Office of the United States Courts is authorized to issue binding regulations dealing with the content and form of the reports required to be filed by subsections (1) and (2) of this section.

#### § 2520. Recovery of civil damages authorized

(a) IN GENERAL.—Except as provided in section 2511(2)(a)(ii), any person whose wire, oral, or electronic communication is intercepted, disclosed, or intentionally used in violation of this chapter may in a civil action recover from the person or entity, other than the United States,<sup>1</sup> which engaged in that violation such relief as may be appropriate.

(b) RELIEF.—In an action under this section, appropriate relief includes—

(1) such preliminary and other equitable or declaratory relief as may be appropriate;

(2) damages under subsection (c) and punitive damages in appropriate cases; and

(3) a reasonable attorney's fee and other litigation costs reasonably incurred.

(c) COMPUTATION OF DAMAGES.—(1) In an action under this section, if the conduct in violation of this chapter is the private viewing of a private satellite video communication that is not scrambled or encrypted or if the communication is a radio communication that is transmitted on frequencies allocated under subpart D of part 74 of the rules of the Federal Communications Commission that is not scrambled or encrypted and the conduct is not for a tortious or illegal purpose or for purposes of direct or indirect commercial advantage or private commercial gain, then the court shall assess damages as follows:

(A) If the person who engaged in that conduct has not previously been enjoined under section 2511(5) and has not been found liable in a prior civil action under this section, the court shall assess the greater of the sum of actual damages suffered by the plaintiff, or statutory damages of not less than \$50 and not more than \$500.

<sup>1</sup>Section 223(a) of Public Law 107-56 amended subsection (a) by inserting “, other than the United States,” after “entity” and inserts new subsections (f) and (g). For the repeal of this amendment, see sunset provision in a footnote to section 2510(1).

(B) If, on one prior occasion, the person who engaged in that conduct has been enjoined under section 2511(5) or has been found liable in a civil action under this section, the court shall assess the greater of the sum of actual damages suffered by the plaintiff, or statutory damages of not less than \$100 and not more than \$1000.

(2) In any other action under this section, the court may assess as damages whichever is the greater of—

(A) the sum of the actual damages suffered by the plaintiff and any profits made by the violator as a result of the violation; or

(B) statutory damages of whichever is the greater of \$100 a day for each day of violation or \$10,000.

(d) DEFENSE.—A good faith reliance on—

(1) a court warrant or order, a grand jury subpoena, a legislative authorization, or a statutory authorization;

(2) a request of an investigative or law enforcement officer under section 2518(7) of this title; or

(3) a good faith determination that section 2511(3) or 2511(2)(i) of this title permitted the conduct complained of; is a complete defense against any civil or criminal action brought under this chapter or any other law.

(e) LIMITATION.—A civil action under this section may not be commenced later than two years after the date upon which the claimant first has a reasonable opportunity to discover the violation.

(f)<sup>1</sup> ADMINISTRATIVE DISCIPLINE.—If a court or appropriate department or agency determines that the United States or any of its departments or agencies has violated any provision of this chapter, and the court or appropriate department or agency finds that the circumstances surrounding the violation raise serious questions about whether or not an officer or employee of the United States acted willfully or intentionally with respect to the violation, the department or agency shall, upon receipt of a true and correct copy of the decision and findings of the court or appropriate department or agency promptly initiate a proceeding to determine whether disciplinary action against the officer or employee is warranted. If the head of the department or agency involved determines that disciplinary action is not warranted, he or she shall notify the Inspector General with jurisdiction over the department or agency concerned and shall provide the Inspector General with the reasons for such determination.

(g)<sup>1</sup> IMPROPER DISCLOSURE IS VIOLATION.—Any willful disclosure or use by an investigative or law enforcement officer or governmental entity of information beyond the extent permitted by section 2517 is a violation of this chapter for purposes of section 2520(a).

### § 2521. Injunction against illegal interception

Whenever it shall appear that any person is engaged or is about to engage in any act which constitutes or will constitute a felony violation of this chapter, the Attorney General may initiate a civil action in a district court of the United States to enjoin such violation. The court shall proceed as soon as practicable to the

hearing and determination of such an action, and may, at any time before final determination, enter such a restraining order or prohibition, or take such other action, as is warranted to prevent a continuing and substantial injury to the United States or to any person or class of persons for whose protection the action is brought. A proceeding under this section is governed by the Federal Rules of Civil Procedure, except that, if an indictment has been returned against the respondent, discovery is governed by the Federal Rules of Criminal Procedure.

**§ 2522. Enforcement of the Communications Assistance for Law Enforcement Act**

(a) ENFORCEMENT BY COURT ISSUING SURVEILLANCE ORDER.—If a court authorizing an interception under this chapter, a State statute, or the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) or authorizing use of a pen register or a trap and trace device under chapter 206 or a State statute finds that a telecommunications carrier has failed to comply with the requirements of the Communications Assistance for Law Enforcement Act, the court may, in accordance with section 108 of such Act, direct that the carrier comply forthwith and may direct that a provider of support services to the carrier or the manufacturer of the carrier's transmission or switching equipment furnish forthwith modifications necessary for the carrier to comply.

(b) ENFORCEMENT UPON APPLICATION BY ATTORNEY GENERAL.—The Attorney General may, in a civil action in the appropriate United States district court, obtain an order, in accordance with section 108 of the Communications Assistance for Law Enforcement Act, directing that a telecommunications carrier, a manufacturer of telecommunications transmission or switching equipment, or a provider of telecommunications support services comply with such Act.

(c) CIVIL PENALTY.—

(1) IN GENERAL.—A court issuing an order under this section against a telecommunications carrier, a manufacturer of telecommunications transmission or switching equipment, or a provider of telecommunications support services may impose a civil penalty of up to \$10,000 per day for each day in violation after the issuance of the order or after such future date as the court may specify.

(2) CONSIDERATIONS.—In determining whether to impose a civil penalty and in determining its amount, the court shall take into account—

(A) the nature, circumstances, and extent of the violation;

(B) the violator's ability to pay, the violator's good faith efforts to comply in a timely manner, any effect on the violator's ability to continue to do business, the degree of culpability, and the length of any delay in undertaking efforts to comply; and

(C) such other matters as justice may require.

(d) DEFINITIONS.—As used in this section, the terms defined in section 102 of the Communications Assistance for Law Enforcement Act have the meanings provided, respectively, in such section.

**TITLE 22—FOREIGN RELATIONS AND INTERCOURSE**

**Television Broadcasting to Cuba Act**

(Public Law 101–246, 104 Stat. 58, February 16, 1990, Part D of Title II of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991)

\* \* \* \* \*

**PART D—TELEVISION BROADCASTING TO CUBA<sup>1</sup>**

**SEC. 241. [22 U.S.C. 1465aa nt] SHORT TITLE.**

This part may be cited as the “Television Broadcasting to Cuba Act”.

**SEC. 242. [22 U.S.C. 1465aa] FINDINGS AND PURPOSES.**

The Congress finds and declares that—

(1) it is the policy of the United States to support the right of the people of Cuba to seek, receive, and impart information and ideas through any media and regardless of frontiers, in accordance with article 19 of the Universal Declaration of Human Rights;

(2) consonant with this policy, television broadcasting to Cuba may be effective in furthering the open communication of accurate information and ideas to the people of Cuba and, in particular, information about Cuba;

(3) television broadcasting to Cuba, operated in a manner not inconsistent with the broad foreign policy of the United States and in accordance with high professional standards, would be in the national interest;

(4) facilities broadcasting television programming to Cuba must be operated in a manner consistent with applicable regulations of the Federal Communications Commission, and must

<sup>1</sup> Section 107(c) of the Cuban Liberty and Democratic Solidarity (LIBERTAD) Act of 1996 (P.L. 104–114; 110 Stat. 798) provides for the repeal of this Act “upon transmittal of a determination under section 203(c)(3)” of P.L. 104–114.

Section 203(c)(3) of P.L. 104–114 (110 Stat. 809) provides as follows:

**SEC. 203. COORDINATION OF ASSISTANCE PROGRAM; IMPLEMENTATION AND REPORTS TO CONGRESS; REPROGRAMMING.**

(c) IMPLEMENTATION OF PLAN; REPORTS TO CONGRESS.—

(3) IMPLEMENTATION WITH RESPECT TO DEMOCRATICALLY ELECTED GOVERNMENT.—The President shall, upon determining that a democratically elected government in Cuba is in power, submit that determination to the appropriate congressional committees and shall, subject to an authorization of appropriations and subject to the availability of appropriations, commence the delivery and distribution of assistance to such democratically elected government under the plan developed under section 202(b).

not affect the quality of domestic broadcast transmission or reception; and

(5) that<sup>1</sup> the Voice of America already broadcasts to Cuba information that represents America, not any single segment of American society, and includes a balanced and comprehensive projection of significant American thought and institutions, but that there is a need for television broadcasts to Cuba which provide news, commentary, and other information about events in Cuba and elsewhere to promote the cause of freedom in Cuba.

**SEC. 243. [22 U.S.C. 1465bb] TELEVISION BROADCASTING TO CUBA.**

(a) TELEVISION BROADCASTING TO CUBA.—In order to carry out the purposes set forth in section 242 and notwithstanding the limitation of section 501 of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1461) with respect to the dissemination in the United States of information prepared for dissemination abroad to the extent such dissemination is inadvertent, the Broadcasting Board of Governors (hereafter in this part referred to as the “Agency”<sup>2</sup>) shall provide for the open communication of information and ideas through the use of television broadcasting to Cuba. Television broadcasting to Cuba shall serve as a consistently reliable and authoritative source of accurate, objective, and comprehensive news.

(b) VOICE OF AMERICA STANDARDS.—Television broadcasting to Cuba under this part shall be in accordance with all Voice of America standards to ensure the broadcast of programs which are objective, accurate, balanced, and which present a variety of views.

(c) TELEVISION MARTI.—Any program of United States Government television broadcasts to Cuba authorized by this section shall be designated “Television Marti Program”.

(d) FREQUENCY ASSIGNMENT.—

(1) Subject to the Communications Act of 1934, the Federal Communications Commission shall assign by order a suitable frequency to further the national interests expressed in this part, except that no such assignment shall result in objectionable interference with the broadcasts of any domestic licensee.

(2) No Federal branch or agency shall compel an incumbent domestic licensee to change its frequency in order to eliminate objectionable interference caused by broadcasting of the Service.

(3) For purposes of section 305 of the Communications Act of 1934, a television broadcast station established for purposes of this part shall be treated as a government station, but the Federal Communications Commission shall exercise the authority of the President under such section to assign a frequency to such station.

(e) INTERFERENCE WITH DOMESTIC BROADCASTING.—

(1) Broadcasting by the Television Marti Service shall be conducted in accordance with such parameters as shall be prescribed by the Federal Communications Commission to preclude objectionable interference with the broadcasts of any do-

<sup>1</sup> So in original. The word “that” probably should not appear.

<sup>2</sup> So in original. Probably should be “Board”.

mestic licensee. The Television Marti Service shall be governed by the same standards regarding objectionable interference as any domestic licensee. The Federal Communications Commission shall monitor the operations of television broadcasting to Cuba pursuant to subsection (f). If, on the basis of such monitoring or a complaint from any person, the Federal Communications Commission determines, in its discretion, that broadcasting by the Television Marti Service is causing objectionable interference with the transmission or reception of the broadcasts of a domestic licensee, the Federal Communications Commission shall direct the Television Marti Service to cease broadcasting and to eliminate the objectionable interference. Broadcasts by the Service shall not be resumed until the Federal Communications Commission finds that the objectionable interference has been eliminated and should not recur.

(2) The Federal Communications Commission shall take such actions as are necessary and appropriate to assist domestic licensees in overcoming the adverse effects of objectionable interference caused by broadcasting by the Television Marti Service. Such assistance may include the authorization of non-directional increases in the effective radiated power of a domestic television station so that its coverage is equivalent to the maximum allowable for such facilities, to avoid any adverse effect on such stations of the broadcasts of the Television Marti Service.

(3) If the Federal Communications Commission directs the Television Marti Service to cease broadcasting pursuant to paragraph (1), the Commission shall, as soon as practicable, notify the appropriate committees of Congress of such action and the reasons therefor. The Federal Communications Commission shall continue to notify the appropriate committees of Congress of progress in eliminating the objectionable interference and shall assure that Congress is fully informed about the operation of the Television Marti Service.

(f) MONITORING OF INTERFERENCE.—The Federal Communications Commission shall continually monitor and periodically report to the appropriate committees of the Congress interference to domestic broadcast licensees—

(1) from the operation of Cuban television and radio stations; and

(2) from the operations of the television broadcasting to Cuba.

(g) TASK FORCE.—It is the sense of the Congress that the President should establish a task force to analyze the level of interference from the operation of Cuban television and radio stations experienced by broadcasters in the United States and to seek a practical political and technical solution to this problem.

**SEC. 244. [22 U.S.C. 1465cc] TELEVISION MARTI SERVICE.**

(a) TELEVISION MARTI SERVICE.—There is within the Voice of America a Television Marti Service. The Service shall be responsible for all television broadcasts to Cuba authorized by this part.

The Broadcasting Board of Governors<sup>1</sup> shall appoint a head of the Service who shall report directly to the International Broadcasting Bureau.<sup>1</sup> The head of the Service shall employ such staff as the head of the Service may need to carry out the duties of the Service.

(b) **USE OF EXISTING FACILITIES OF THE USIA.**—To assure consistency of presentation and efficiency of operations in conducting the activities authorized under this part, the Television Marti Service shall make maximum feasible utilization of Board facilities and management support, including Voice of America: Cuba Service, Voice of America, and the United States International Television Service.

(c) **AUTHORITY.**—The Board may carry out the purposes of this part by means of grants, leases, or contracts (subject to the availability of appropriations), or such other means as the Board determines will be most effective.

**SEC. 245. AMENDMENTS TO THE RADIO BROADCASTING TO CUBA ACT.**

(a) \* \* \*

(b) **[22 U.S.C. 1465c note] REFERENCES.**—A reference in any provision of law to the “Advisory Board for Radio Broadcasting to Cuba” shall be considered to be a reference to the “Advisory Board for Cuba Broadcasting”.

(c) **[22 U.S.C. 1465c note] CONTINUED SERVICE OF MEMBERS OF BOARD.**—Each member of the Advisory Board for Radio Broadcasting to Cuba as in existence on the day before the effective date of the amendment made by subsection (a) shall continue to serve for the remainder of the term to which such member was appointed as a member of the Advisory Board for Cuba Broadcasting.

(d) **[22 U.S.C. 1465c note] STAFF DIRECTOR.**—The Board shall have a staff director who shall be appointed by the Chairperson of the Advisory Board for Cuba Broadcasting.

**SEC. 246. [22 U.S.C. 1465dd] ASSISTANCE FROM OTHER GOVERNMENT AGENCIES.**

In order to assist the United States Information Agency in carrying out the provisions of this part, any agency or instrumentality of the United States may sell, loan, lease, or grant property (including interests therein) and may perform administrative and technical support and services at the request of the Board.

**SEC. 247. [22 U.S.C. 1465ee] AUTHORIZATION OF APPROPRIATIONS.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—In addition to amounts otherwise made available under section 201 for such purposes, there are authorized to be appropriated to the United States Information Agency, \$16,000,000 for the fiscal year 1990 and \$16,000,000 for the fiscal year 1991 for television broadcasting to Cuba in accordance with the provisions of this part.

(b) **LIMITATION.**—

(1) Subject to paragraph (2), no funds authorized to be appropriated under subsection (a) may be obligated or expended unless the President determines and notifies the appropriate committees of Congress that the test of television broadcasting

<sup>1</sup>The amendments made by section 1325(4)(B)(ii)(I) and (II) of Public Law 105-277 (112 Stat. 2681-781) were carried out to the third sentence instead of the second sentence to reflect the probable intent of the Congress.

to Cuba (as authorized by title V of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1989 (Public Law 100-459)) has demonstrated television broadcasting to Cuba is feasible and will not cause objectionable interference with the broadcasts of incumbent domestic licensees. The Federal Communications Commission shall furnish to the appropriate committees of Congress all interim and final reports and other appropriate documentation concerning objectionable interference from television broadcasting to Cuba to incumbent domestic licensees.

(2) Not less than 30 days before the President makes the determination under paragraph (1), the President shall submit a report to the appropriate committees of the Congress which includes the findings of the test of television broadcasting to Cuba. The period for the test of television broadcasting may be extended until—

(A) the date of the determination and notification by the President under paragraph (1), or

(B) 30 days,

whichever comes first.

(c) AVAILABILITY OF FUNDS.—Amounts appropriated to carry out the purposes of this part are authorized to be available until expended.

**SEC. 248. [22 U.S.C. 1465ff] DEFINITIONS.**

As used in this part—

(1) the term “licensee” has the meaning provided in section 3(c) of the Communications Act of 1934;

(2) the term “incumbent domestic licensee” means a licensee as provided in section 3(c) of the Communications Act of 1934 that was broadcasting a television signal as of January 1, 1989;

(3) the term “objectionable interference” shall be applied in the same manner as such term is applied under regulations of the Federal Communications Commission to other domestic broadcasters; and

(4) the term “appropriate committees of Congress” includes the Committee on Foreign Affairs and the Committee on Energy and Commerce of the House of Representatives and the Committee on Foreign Relations of the Senate.

**TITLE 28—JUDICIARY AND JUDICIAL PROCEDURE**  
**PART VI—PARTICULAR PROCEEDINGS**  
**CHAPTER 158—ORDERS OF FEDERAL AGENCIES;**  
**REVIEW**

(§§ 2341–2353)

- Sec.  
2341. Definitions.  
2342. Jurisdiction of court of appeals.  
2343. Venue  
2344. Review of orders; time; notice; contents of petitions; service.  
2345. Prehearing conference.  
2346. Certification of record on review.  
2347. Petitions to review; proceedings.  
2348. Representation in proceeding; intervention.  
2349. Jurisdiction of the proceeding.  
2350. Review in Supreme Court on certiorari or certification.  
2351. Enforcement of orders by district courts.

**§ 2341. Definitions**

As used in this chapter—

(1) “clerk” means the clerk of the court in which the petition for the review of an order, reviewable under this chapter, is filed;

(2) “petitioner” means the party or parties by whom a petition to review an order, reviewable under this chapter, is filed; and

(3) “agency” means—

(A) the Commission, when the order sought to be reviewed was entered by the Federal Communications Commission, the Federal Maritime Commission, or the Atomic Energy Commission, as the case may be;

(B) the Secretary, when the order was entered by the Secretary of Agriculture or the Secretary of Transportation;

(C) the Administration, when the order was entered by the Maritime Administration;

(D) the Secretary, when the order is under section 812 of the Fair Housing Act; and

(E) the Board, when the order was entered by the Surface Transportation Board.

**§ 2342. Jurisdiction of court of appeals**

The court of appeals (other than the United States Court of Appeals for the Federal Circuit) has exclusive jurisdiction to enjoin, set aside, suspend (in whole or in part), or to determine the validity of—

(1) all final orders of the Federal Communications Commission made reviewable by section 402(a) of title 47;

(2) all final orders of the Secretary of Agriculture made under chapters 9 and 20A of title 7, except orders issued under sections 210(e), 217a, and 499g(a) of title 7;

(3) all rules, regulations, or final orders of—

(A) the Secretary of Transportation issued pursuant to section 2, 9, 37, or 41 of the Shipping Act, 1916 (46 U.S.C. App. 802, 803, 808, 835, 839, and 841a) or pursuant to part B or C of subtitle IV of title 49; and

(B) the Federal Maritime Commission issued pursuant to—

(i) section 19 of the Merchant Marine Act, 1920 (46 U.S.C. App. 876);

(ii) section 14 or 17 of the Shipping Act of 1984 (46 U.S.C. App. 1713 or 1716); or

(iii) section 2(d) or 3(d) of the Act of November 6, 1966 (46 U.S.C. App. 817d(d) or 817e(d));

(4) all final orders of the Atomic Energy Commission made reviewable by section 2239 of title 42;

(5) all rules, regulations, or final orders of the Surface Transportation Board made reviewable by section 2321 of this title;

(6) all final orders under section 812 of the Fair Housing Act; and

(7) all final agency actions described in section 20114(c) of title 49.

Jurisdiction is invoked by filing a petition as provided by section 2344 of this title.

### § 2343. Venue

The venue of a proceeding under this chapter is in the judicial circuit in which the petitioner resides or has its principal office, or in the United States Court of Appeals for the District of Columbia Circuit.

### § 2344. Review of orders; time; notice; contents of petition; service

On the entry of a final order reviewable under this chapter, the agency shall promptly give notice thereof by service or publication in accordance with its rules. Any party aggrieved by the final order may, within 60 days after its entry, file a petition to review the order in the court of appeals wherein venue lies. The action shall be against the United States. The petition shall contain a concise statement of—

(1) the nature of the proceedings as to which review is sought;

(2) the facts on which venue is based;

(3) the grounds on which relief is sought; and

(4) the relief prayed.

The petitioner shall attach to the petition, as exhibits, copies of the order, report, or decision of the agency. The clerk shall serve a true copy of the petition on the agency and on the Attorney General by registered mail, with request for a return receipt.

**§ 2345. Prehearing conference**

The court of appeals may hold a prehearing conference or direct a judge of the court to hold a prehearing conference.

**§ 2346. Certification of record on review**

Unless the proceeding has been terminated on a motion to dismiss the petition, the agency shall file in the office of the clerk the record on review as provided by section 2112 of this title.

**§ 2347. Petitions to review; proceedings**

(a) Unless determined on a motion to dismiss, petitions to review orders reviewable under this chapter are heard in the court of appeals on the record of the pleadings, evidence adduced, and proceedings before the agency, when the agency has held a hearing whether or not required to do so by law.

(b) When the agency has not held a hearing before taking the action of which review is sought by the petition, the court of appeals shall determine whether a hearing is required by law. After that determination, the court shall—

(1) remand the proceedings to the agency to hold a hearing, when a hearing is required by law;

(2) pass on the issues presented, when a hearing is not required by law and it appears from the pleadings and affidavits filed by the parties that no genuine issue of material fact is presented; or

(3) transfer the proceedings to a district court for the district in which the petitioner resides or has its principal office for a hearing and determination as if the proceedings were originally initiated in the district court, when a hearing is not required by law and a genuine issue of material fact is presented. The procedure in these cases in the district court is governed by the Federal Rules of Civil Procedure.

(c) If a party to a proceeding to review applies to the court of appeals in which the proceeding is pending for leave to adduce additional evidence and shows to the satisfaction of the court that—

(1) the additional evidence is material; and

(2) there were reasonable grounds for failure to adduce the evidence before the agency;

the court may order the additional evidence and any counter-evidence the opposite party desires to offer to be taken by the agency. The agency may modify its findings of fact, or make new findings, by reason of the additional evidence so taken, and may modify or set aside its order, and shall file in the court the additional evidence, the modified findings or new findings, and the modified order or the order setting aside the original order.

**§ 2348. Representation in proceeding; intervention**

The Attorney General is responsible for and has control of the interests of the Government in all court proceedings under this chapter. The agency, and any party in interest in the proceeding before the agency whose interests will be affected if an order of the agency is or is not enjoined, set aside, or suspended, may appear as parties thereto of their own motion and as of right, and be rep-

resented by counsel in any proceeding to review the order. Communities, associations, corporations, firms, and individuals, whose interests are affected by the order of the agency, may intervene in any proceeding to review the order. The Attorney General may not dispose of or discontinue the proceeding to review over the objection of any party or intervenor, but any intervenor may prosecute, defend, or continue the proceeding unaffected by the action or inaction of the Attorney General.

#### **§ 2349. Jurisdiction of the proceeding**

(a) The court of appeals has jurisdiction of the proceeding on the filing and service of a petition to review. The court of appeals in which the record on review is filed, on the filing, has jurisdiction to vacate stay orders or interlocutory injunctions previously granted by any court, and has exclusive jurisdiction to make and enter, on the petition, evidence, and proceedings set forth in the record on review, a judgment determining the validity of, and enjoining, setting aside, or suspending, in whole or in part, the order of the agency.

(b) The filing of the petition to review does not of itself stay or suspend the operation of the order of the agency, but the court of appeals in its discretion may restrain or suspend, in whole or in part, the operation of the order pending the final hearing and determination of the petition. When the petitioner makes application for an interlocutory injunction restraining or suspending the enforcement, operation, or execution of, or setting aside, in whole or in part, any order reviewable under this chapter, at least 5 days' notice of the hearing thereon shall be given to the agency and to the Attorney General. In a case in which irreparable damage would otherwise result to the petitioner, the court of appeals may, on hearing, after reasonable notice to the agency and to the Attorney General, order a temporary stay or suspension, in whole or in part, of the operation of the order of the agency for not more than 60 days from the date of the order pending the hearing on the application for the interlocutory injunction, in which case the order of the court of appeals shall contain a specific finding, based on evidence submitted to the court of appeals, and identified by reference thereto, that irreparable damage would result to the petitioner and specifying the nature of the damage. The court of appeals, at the time of hearing the application for an interlocutory injunction, on a like finding, may continue the temporary stay or suspension, in whole or in part, until decision on the application.

#### **§ 2350. Review in Supreme Court on certiorari or certification**

(a) An order granting or denying an interlocutory injunction under section 2349(b) of this title and final judgment of the court of appeals in a proceeding to review under this chapter are subject to review by the Supreme Court on a writ of certiorari as provided by section 1254(1) of this title. Application for the writ shall be made within 45 days after entry of the order and within 90 days after entry of the judgment, as the case may be. The United States, the agency, or an aggrieved party may file a petition for a writ of certiorari.

(b) The provisions of section 1254(2) of this title, regarding certification, and of section 2101(f) of this title, regarding stays, also apply to proceedings under this chapter.

**§ 2351. Enforcement of orders by district courts**

The several district courts have jurisdiction specifically to enforce, and to enjoin and restrain any person from violating any order issued under section 193 of title 7.

\* \* \* \* \*

**CHAPTER 180—ASSUMPTION OF CERTAIN  
CONTRACTUAL OBLIGATIONS**

(§ 4001)

Sec. 4001. Assumption of contractual obligations related to transfers of rights in motion pictures.

**§ 4001. Assumption of contractual obligations related to transfers of rights in motion pictures**

(a) ASSUMPTION OF OBLIGATIONS.—(1) In the case of a transfer of copyright ownership under United States law in a motion picture (as the terms “transfer of copyright ownership” and “motion picture” are defined in section 101 of title 17) that is produced subject to 1 or more collective bargaining agreements negotiated under the laws of the United States, if the transfer is executed on or after the effective date of this chapter and is not limited to public performance rights, the transfer instrument shall be deemed to incorporate the assumption agreements applicable to the copyright ownership being transferred that are required by the applicable collective bargaining agreement, and the transferee shall be subject to the obligations under each such assumption agreement to make residual payments and provide related notices, accruing after the effective date of the transfer and applicable to the exploitation of the rights transferred, and any remedies under each such assumption agreement for breach of those obligations, as those obligations and remedies are set forth in the applicable collective bargaining agreement, if—

(A) the transferee knows or has reason to know at the time of the transfer that such collective bargaining agreement was or will be applicable to the motion picture; or

(B) in the event of a court order confirming an arbitration award against the transferor under the collective bargaining agreement, the transferor does not have the financial ability to satisfy the award within 90 days after the order is issued.

(2) For purposes of paragraph (1)(A), “knows or has reason to know” means any of the following:

(A) Actual knowledge that the collective bargaining agreement was or will be applicable to the motion picture.

(B)(i) Constructive knowledge that the collective bargaining agreement was or will be applicable to the motion picture, arising from recordation of a document pertaining to copyright in the motion picture under section 205 of title 17 or from publication, at a site available to the public on-line that is operated by the relevant union, of information that identifies

the motion picture as subject to a collective bargaining agreement with that union, if the site permits commercially reasonable verification of the date on which the information was available for access.

(ii) Clause (i) applies only if the transfer referred to in subsection (a)(1) occurs—

(I) after the motion picture is completed, or

(II) before the motion picture is completed and—

(aa) within 18 months before the filing of an application for copyright registration for the motion picture under section 408 of title 17, or

(bb) if no such application is filed, within 18 months before the first publication of the motion picture in the United States.

(C) Awareness of other facts and circumstances pertaining to a particular transfer from which it is apparent that the collective bargaining agreement was or will be applicable to the motion picture.

(b) SCOPE OF EXCLUSION OF TRANSFERS OF PUBLIC PERFORMANCE RIGHTS.—For purposes of this section, the exclusion under subsection (a) of transfers of copyright ownership in a motion picture that are limited to public performance rights includes transfers to a terrestrial broadcast station, cable system, or programmer to the extent that the station, system, or programmer is functioning as an exhibitor of the motion picture, either by exhibiting the motion picture on its own network, system, service, or station, or by initiating the transmission of an exhibition that is carried on another network, system, service, or station. When a terrestrial broadcast station, cable system, or programmer, or other transferee, is also functioning otherwise as a distributor or as a producer of the motion picture, the public performance exclusion does not affect any obligations imposed on the transferee to the extent that it is engaging in such functions.

(c) EXCLUSION FOR GRANTS OF SECURITY INTERESTS.—Subsection (a) shall not apply to—

(1) a transfer of copyright ownership consisting solely of a mortgage, hypothecation, or other security interest; or

(2) a subsequent transfer of the copyright ownership secured by the security interest described in paragraph (1) by or under the authority of the secured party, including a transfer through the exercise of the secured party's rights or remedies as a secured party, or by a subsequent transferee.

The exclusion under this subsection shall not affect any rights or remedies under law or contract.

(d) DEFERRAL PENDING RESOLUTION OF BONA FIDE DISPUTE.—A transferee on which obligations are imposed under subsection (a) by virtue of paragraph (1) of that subsection may elect to defer performance of such obligations that are subject to a bona fide dispute between a union and a prior transferor until that dispute is resolved, except that such deferral shall not stay accrual of any union claims due under an applicable collective bargaining agreement.

(e) SCOPE OF OBLIGATIONS DETERMINED BY PRIVATE AGREEMENT.—Nothing in this section shall expand or diminish the rights, obligations, or remedies of any person under the collective bar-

gaining agreements or assumption agreements referred to in this section.

(f) FAILURE TO NOTIFY.—If the transferor under subsection (a) fails to notify the transferee under subsection (a) of applicable collective bargaining obligations before the execution of the transfer instrument, and subsection (a) is made applicable to the transferee solely by virtue of subsection (a)(1)(B), the transferor shall be liable to the transferee for any damages suffered by the transferee as a result of the failure to notify.

(g) DETERMINATION OF DISPUTES AND CLAIMS.—Any dispute concerning the application of subsections (a) through (f) shall be determined by an action in United States district court, and the court in its discretion may allow the recovery of full costs by or against any party and may also award a reasonable attorney's fee to the prevailing party as part of the costs.

(h) STUDY.—The Comptroller General, in consultation with the Register of Copyrights, shall conduct a study of the conditions in the motion picture industry that gave rise to this section, and the impact of this section on the motion picture industry. The Comptroller General shall report the findings of the study to the Congress within 2 years after the effective date of this chapter.

**CHAPTER 181 OF TITLE 40 UNITED STATES CODE**

\* \* \* \* \*

**SUBTITLE V—MISCELLANEOUS**

\* \* \* \* \*

**CHAPTER 181—TELECOMMUNICATIONS ACCESSIBILITY  
FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED IN-  
DIVIDUALS<sup>1</sup>**

Sec.

- 18101. Definitions.
- 18102. Federal telecommunications system.
- 18103. Research and development.
- 18104. TTY installation by Congress.

**§ 18101. Definitions**

In this chapter—

- (1) **FEDERAL AGENCY.**—The term “federal agency” has the same meaning given that term in section 102 of this title.
- (2) **TTY.**—The term “TTY” means a text-telephone used in the transmission of coded signals through the nationwide telecommunications system.

**§ 18102. Federal telecommunications system**

(a) **REGULATIONS TO ENSURE ACCESSIBILITY.**—The Administrator of General Services, after consultation with the Architectural and Transportation Barriers Compliance Board, the Interagency Committee on Computer Support of Handicapped Employees, the Federal Communications Commission, and affected federal agencies, shall prescribe regulations to ensure that the federal telecommunications system is fully accessible to hearing-impaired and speech-impaired individuals, including federal employees, for communications with and within federal agencies.

(b) **FEDERAL RELAY SYSTEM.**—The Administrator shall provide for the continuation of the existing federal relay system for users of TTY's.

(c) **DIRECTORY.**—The Administrator shall assemble, publish, and maintain a directory of TTY's and other devices used by federal agencies to comply with regulations prescribed under subsection (a).

---

<sup>1</sup>This chapter replaces the Telecommunications Accessibility Enhancement Act of 1988 (P.L. 100-542; October 28, 1988), which was repealed by section 6(b) of Public Law 107-217, codifying title 40, United States Code.

(d) PUBLICATION OF ACCESS NUMBERS.—The Administrator shall publish access numbers of TTY's and such other devices in federal agency directories.

(e) LOGO.—After consultation with the Board, the Administrator shall adopt the design of a standard logo to signify the presence of a TTY or other device used by a federal agency to comply with regulations prescribed under subsection (a).

### **§ 18103. Research and development**

(a) SUPPORT FOR RESEARCH.—The Administrator of General Services, in consultation with the Federal Communications Commission, shall seek to promote research by federal agencies, state agencies, and private entities to reduce the cost and improve the capabilities of telecommunications devices and systems that provide accessibility to hearing-impaired and speech-impaired individuals.

(b) PLANNING TO ASSIMILATE TECHNOLOGICAL DEVELOPMENTS.—In planning future alterations to and modifications of the federal telecommunications system, the Administrator shall take into account—

(1) modifications that the Administrator determines are necessary to achieve the objectives of section 18102(a) of this title; and

(2) technological improvements in telecommunications devices and systems that provide accessibility to hearing-impaired and speech-impaired individuals.

### **§ 18104. TTY installation by Congress**

Each House of Congress shall establish a policy under which Members of the House of Representatives and the Senate may obtain TTY's for use in communicating with hearing-impaired and speech-impaired individuals, and for the use of hearing-impaired and speech-impaired employees.

## TITLE 42—THE PUBLIC HEALTH AND WELFARE

### National Environmental Policy Act of 1969

(Public Law 91–190, 83 Stat. 852, January 1, 1970, Title I)

AN ACT To establish a national policy for the environment, to provide for the establishment of a Council on Environmental Quality, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the “National Environmental Policy Act of 1969”.

#### PURPOSE

SEC. 2. [42 U.S.C. 4321] The purposes of this chapter are: To declare a national policy which will encourage productive and enjoyable harmony between man and his environment; to promote efforts which will prevent or eliminate damage to the environment and biosphere and stimulate the health and welfare of man; to enrich the understanding of the ecological systems and natural resources important to the Nation; and to establish a Council on Environmental Quality.

#### TITLE I

##### DECLARATION OF NATIONAL ENVIRONMENTAL POLICY

SEC. 101 [42 U.S.C. 4331] (a) The Congress, recognizing the profound impact of man’s activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource exploitation, and new and expanding technological advances and recognizing further the critical importance of restoring and maintaining environmental quality to the overall welfare and development of man, declares that it is the continuing policy of the Federal Government, in cooperation with State and local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to foster and promote the general welfare, to create and maintain conditions under which man and nature can exist in productive harmony, and fulfill the social, economic, and other requirements of present and future generations of Americans.

(b) In order to carry out the policy set forth in this chapter, it is the continuing responsibility of the Federal Government to use all practicable means, consistent with other essential considerations of national policy, to improve and coordinate Federal plans, functions, programs, and resources to the end that the Nation may—

(1) fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

(2) assure for all Americans safe, healthful, productive, and esthetically and culturally pleasing surroundings;

(3) attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;

(4) preserve important historic, cultural, and natural aspects of our national heritage, and maintain, wherever possible, an environment which supports diversity and variety of individual choice;

(5) achieve a balance between population and resource use which will permit high standards of living and a wide sharing of life's amenities; and

(6) enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(c) The Congress recognizes that each person should enjoy a healthful environment and that each person has a responsibility to contribute to the preservation and enhancement of the environment.

SEC. 102. [42 U.S.C. 4332] The Congress authorizes and directs that, to the fullest extent possible: (1) the policies, regulations, and public laws of the United States shall be interpreted and administered in accordance with the policies set forth in this chapter, and (2) all agencies of the Federal Government shall—

(A) utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in decision-making which may have an impact on man's environment;

(B) identify and develop methods and procedures, in consultation with the Council on Environmental Quality established by subchapter II of this chapter, which will insure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking along with economic and technical considerations;

(C) include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official on—

(i) the environmental impact of the proposed action,

(ii) any adverse environmental effects which cannot be avoided should the proposal be implemented,

(iii) alternatives to the proposed action,

(iv) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and

(v) any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

Prior to making any detailed statement, the responsible Federal official shall consult with and obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies

of such statement and the comments and views of the appropriate Federal, State, and local agencies, which are authorized to develop and enforce environmental standards, shall be made available to the President, the Council on Environmental Quality and to the public as provided by section 552 of title 5, and shall accompany the proposal through the existing agency review processes;

(D) any detailed statement required under subparagraph (C) after January 1, 1970, for any major Federal action funded under a program of grants to States shall not be deemed to be legally insufficient solely by reason of having been prepared by a State agency or official, if:

(i) the State agency or official has statewide jurisdiction and has the responsibility for such action,

(ii) the responsible Federal official furnishes guidance and participates in such preparation,

(iii) the responsible Federal official independently evaluates such statement prior to its approval and adoption, and

(iv) after January 1, 1976, the responsible Federal official provides early notification to, and solicits the views of, any other State or any Federal land management entity of any action or any alternative thereto which may have significant impacts upon such State or affected Federal land management entity and, if there is any disagreement on such impacts, prepares a written assessment of such impacts, and views for incorporation into such detailed statement.

The procedures in this subparagraph shall not relieve the Federal official of his responsibilities for the scope, objectivity, and content of the entire statement or of any other responsibility under this chapter; and further, this subparagraph does not affect the legal sufficiency of statements prepared by State agencies with less than statewide jurisdiction.

(E) study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources;

(F) recognize the worldwide and long-range character of environmental problems and, where consistent with the foreign policy of the United States, lend appropriate support to initiatives, resolutions and programs designed to maximize international cooperation in anticipating and preventing a decline in the quality of mankind's world environment;

(G) make available to States, counties, municipalities, institutions, and individuals, advice and information useful in restoring, maintaining, and enhancing the quality of the environment;

(H) initiate and utilize ecological information in the planning and development of resource-oriented projects; and

(I) assist the Council on Environmental Quality established by subchapter II of this chapter.

SEC. 103. [42 U.S.C. 4333] All agencies of the Federal Government shall review their present statutory authority, administrative

regulations, and current policies and procedures for the purpose of determining whether there are any deficiencies or inconsistencies therein which prohibit full compliance with the purposes and provisions of this chapter and shall propose to the President not later than July 1, 1971, such measures as may be necessary to bring their authority and policies into conformity with the intent, purposes, and procedures set forth in this chapter.

SEC. 104. [42 U.S.C. 4334] Nothing in section 4332 or 4333 of this title shall in any way affect the specific statutory obligations of any Federal agency (1) to comply with criteria or standards of environmental quality, (2) to coordinate or consult with any other Federal or State agency, or (3) to act, or refrain from acting contingent upon the recommendations or certification of any other Federal or State agency.

SEC. 105. [42 U.S.C. 4335] The policies and goals set forth in this chapter are supplementary to those set forth in existing authorizations of Federal agencies.

**SUBCHAPTER I—FEDERAL INFORMATION POLICY**

**§ 3501. Purposes**

The purposes of this subchapter are to—

(1) minimize the paperwork burden for individuals, small businesses, educational and nonprofit institutions, Federal contractors, State, local and tribal governments, and other persons resulting from the collection of information by or for the Federal Government;

(2) ensure the greatest possible public benefit from and maximize the utility of information created, collected, maintained, used, shared and disseminated by or for the Federal Government;

(3) coordinate, integrate, and to the extent practicable and appropriate, make uniform Federal information resources management policies and practices as a means to improve the productivity, efficiency, and effectiveness of Government programs, including the reduction of information collection bur-

<sup>1</sup> Paperwork Reduction Act of 1980, Public Law 96–511, 94 Stat. 2812, Dec. 11, 1980, effective on April 1, 1981.

dens on the public and the improvement of service delivery to the public;

(4) improve the quality and use of Federal information to strengthen decisionmaking, accountability, and openness in Government and society;

(5) minimize the cost to the Federal Government of the creation, collection, maintenance, use, dissemination, and disposition of information;

(6) strengthen the partnership between the Federal Government and State, local, and tribal governments by minimizing the burden and maximizing the utility of information created, collected, maintained, used, disseminated, and retained by or for the Federal Government;

(7) provide for the dissemination of public information on a timely basis, on equitable terms, and in a manner that promotes the utility of the information to the public and makes effective use of information technology;

(8) ensure that the creation, collection, maintenance, use, dissemination, and disposition of information by or for the Federal Government is consistent with applicable laws, including laws relating to—

(A) privacy and confidentiality, including section 552a of title 5;

(B) security of information, including section 11332 of title 40; and

(C) access to information, including section 552 of title 5;

(9) ensure the integrity, quality, and utility of the Federal statistical system;

(10) ensure that information technology is acquired, used, and managed to improve performance of agency missions, including the reduction of information collection burdens on the public; and

(11) improve the responsibility and accountability of the Office of Management and Budget and all other Federal agencies to Congress and to the public for implementing the information collection review process, information resources management, and related policies and guidelines established under this subchapter.

### § 3502. Definitions

As used in this subchapter—

(1) the term “agency” means any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency, but does not include—

(A) the General Accounting Office;

(B) Federal Election Commission;

(C) the governments of the District of Columbia and of the territories and possessions of the United States, and their various subdivisions; or

- (D) Government-owned contractor-operated facilities, including laboratories engaged in national defense research and production activities;
- (2) the term “burden” means time, effort, or financial resources expended by persons to generate, maintain, or provide information to or for a Federal agency, including the resources expended for—
- (A) reviewing instructions;
  - (B) acquiring, installing, and utilizing technology and systems;
  - (C) adjusting the existing ways to comply with any previously applicable instructions and requirements;
  - (D) searching data sources;
  - (E) completing and reviewing the collection of information; and
  - (F) transmitting, or otherwise disclosing the information;
- (3) the term “collection of information”—
- (A) means the obtaining, causing to be obtained, soliciting, or requiring the disclosure to third parties or the public, of facts or opinions by or for an agency, regardless of form or format, calling for either—
    - (i) answers to identical questions posed to, or identical reporting or recordkeeping requirements imposed on, ten or more persons, other than agencies, instrumentalities, or employees of the United States; or
    - (ii) answers to questions posed to agencies, instrumentalities, or employees of the United States which are to be used for general statistical purposes; and
  - (B) shall not include a collection of information described under section 3518(c)(1);
- (4) the term “Director” means the Director of the Office of Management and Budget;
- (5) the term “independent regulatory agency” means the Board of Governors of the Federal Reserve System, the Commodity Futures Trading Commission, the Consumer Product Safety Commission, the Federal Communications Commission, the Federal Deposit Insurance Corporation, the Federal Energy Regulatory Commission, the Federal Housing Finance Board, the Federal Maritime Commission, the Federal Trade Commission, the Interstate Commerce Commission, the Mine Enforcement Safety and Health Review Commission, the National Labor Relations Board, the Nuclear Regulatory Commission, the Occupational Safety and Health Review Commission, the Postal Rate Commission, the Securities and Exchange Commission, and any other similar agency designated by statute as a Federal independent regulatory agency or commission;
- (6) the term “information resources” means information and related resources, such as personnel, equipment, funds, and information technology;
- (7) the term “information resources management” means the process of managing information resources to accomplish agency missions and to improve agency performance, including

through the reduction of information collection burdens on the public;

(8) the term “information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information;

(9) the term “information technology” has the meaning given that term in section 11101 of title 40 but does not include national security systems as defined in section 11103 of title 40;

(10) the term “person” means an individual, partnership, association, corporation, business trust, or legal representative, an organized group of individuals, a State, territorial, tribal, or local government or branch thereof, or a political subdivision of a State, territory, tribal, or local government or a branch of a political subdivision;

(11) the term “practical utility” means the ability of an agency to use information, particularly the capability to process such information in a timely and useful fashion;

(12) the term “public information” means any information, regardless of form or format, that an agency discloses, disseminates, or makes available to the public;

(13) the term “recordkeeping requirement” means a requirement imposed by or for an agency on persons to maintain specified records, including a requirement to—

(A) retain such records;

(B) notify third parties, the Federal Government, or the public of the existence of such records;

(C) disclose such records to third parties, the Federal Government, or the public; or

(D) report to third parties, the Federal Government, or the public regarding such records; and

(14) the term “penalty” includes the imposition by an agency or court of a fine or other punishment; a judgment for monetary damages or equitable relief; or the revocation, suspension, reduction, or denial of a license, privilege, right, grant, or benefit.

### § 3503. Office of Information and Regulatory Affairs

(a) There is established in the Office of Management and Budget an office to be known as the Office of Information and Regulatory Affairs.

(b) There shall be at the head of the Office an Administrator who shall be appointed by the President, by and with the advice and consent of the Senate. The Director shall delegate to the Administrator the authority to administer all functions under this subchapter, except that any such delegation shall not relieve the Director of responsibility for the administration of such functions. The Administrator shall serve as principal adviser to the Director on Federal information resources management policy.

### § 3504. Authority and functions of Director

(a)(1) The Director shall oversee the use of information resources to improve the efficiency and effectiveness of governmental

operations to serve agency missions, including burden reduction and service delivery to the public. In performing such oversight, the Director shall—

(A) develop, coordinate and oversee the implementation of Federal information resources management policies, principles, standards, and guidelines; and

(B) provide direction and oversee—

(i) the review and approval of the collection of information and the reduction of the information collection burden;

(ii) agency dissemination of and public access to information;

(iii) statistical activities;

(iv) records management activities;

(v) privacy, confidentiality, security, disclosure, and sharing of information; and

(vi) the acquisition and use of information technology, including alternative information technologies that provide for electronic submission, maintenance, or disclosure of information as a substitute for paper and for the use and acceptance of electronic signatures.

(2) The authority of the Director under this subchapter shall be exercised consistent with applicable law.

(b) With respect to general information resources management policy, the Director shall—

(1) develop and oversee the implementation of uniform information resources management policies, principles, standards, and guidelines;

(2) foster greater sharing, dissemination, and access to public information, including through—

(A) the use of the Government Information Locator Service; and

(B) the development and utilization of common standards for information collection, storage, processing and communication, including standards for security, interconnectivity and interoperability;

(3) initiate and review proposals for changes in legislation, regulations, and agency procedures to improve information resources management practices;

(4) oversee the development and implementation of best practices in information resources management, including training; and

(5) oversee agency integration of program and management functions with information resources management functions.

(c) With respect to the collection of information and the control of paperwork, the Director shall—

(1) review and approve proposed agency collections of information;

(2) coordinate the review of the collection of information associated with Federal procurement and acquisition by the Office of Information and Regulatory Affairs with the Office of Federal Procurement Policy, with particular emphasis on applying information technology to improve the efficiency and ef-

fectiveness of Federal procurement, acquisition and payment, and to reduce information collection burdens on the public;

(3) minimize the Federal information collection burden, with particular emphasis on those individuals and entities most adversely affected;

(4) maximize the practical utility of and public benefit from information collected by or for the Federal Government;

(5) establish and oversee standards and guidelines by which agencies are to estimate the burden to comply with a proposed collection of information;

(6) publish in the Federal Register and make available on the Internet (in consultation with the Small Business Administration) on an annual basis a list of the compliance assistance resources available to small businesses, with the first such publication occurring not later than 1 year after the date of enactment of the Small Business Paperwork Relief Act of 2002.

(d) With respect to information dissemination, the Director shall develop and oversee the implementation of policies, principles, standards, and guidelines to—

(1) apply to Federal agency dissemination of public information, regardless of the form or format in which such information is disseminated; and

(2) promote public access to public information and fulfill the purposes of this subchapter, including through the effective use of information technology.

(e) With respect to statistical policy and coordination, the Director shall—

(1) coordinate the activities of the Federal statistical system to ensure—

(A) the efficiency and effectiveness of the system; and

(B) the integrity, objectivity, impartiality, utility, and confidentiality of information collected for statistical purposes;

(2) ensure that budget proposals of agencies are consistent with system-wide priorities for maintaining and improving the quality of Federal statistics and prepare an annual report on statistical program funding;

(3) develop and oversee the implementation of Governmentwide policies, principles, standards, and guidelines concerning—

(A) statistical collection procedures and methods;

(B) statistical data classification;

(C) statistical information presentation and dissemination;

(D) timely release of statistical data; and

(E) such statistical data sources as may be required for the administration of Federal programs;

(4) evaluate statistical program performance and agency compliance with Governmentwide policies, principles, standards and guidelines;

(5) promote the sharing of information collected for statistical purposes consistent with privacy rights and confidentiality pledges;

(6) coordinate the participation of the United States in international statistical activities, including the development of comparable statistics;

(7) appoint a chief statistician who is a trained and experienced professional statistician to carry out the functions described under this subsection;

(8) establish an Interagency Council on Statistical Policy to advise and assist the Director in carrying out the functions under this subsection that shall—

(A) be headed by the chief statistician; and

(B) consist of—

(i) the heads of the major statistical programs; and

(ii) representatives of other statistical agencies under rotating membership; and

(9) provide opportunities for training in statistical policy functions to employees of the Federal Government under which—

(A) each trainee shall be selected at the discretion of the Director based on agency requests and shall serve under the chief statistician for at least 6 months and not more than 1 year; and

(B) all costs of the training shall be paid by the agency requesting training.

(f) With respect to records management, the Director shall—

(1) provide advice and assistance to the Archivist of the United States and the Administrator of General Services to promote coordination in the administration of chapters 29, 31, and 33 of this title with the information resources management policies, principles, standards, and guidelines established under this subchapter;

(2) review compliance by agencies with—

(A) the requirements of chapters 29, 31, and 33 of this title; and

(B) regulations promulgated by the Archivist of the United States and the Administrator of General Services; and

(3) oversee the application of records management policies, principles, standards, and guidelines, including requirements for archiving information maintained in electronic format, in the planning and design of information systems.

(g) With respect to privacy and security, the Director shall—

(1) develop and oversee the implementation of policies, principles, standards, and guidelines on privacy, confidentiality, security, disclosure and sharing of information collected or maintained by or for agencies; and<sup>1</sup>

(2) oversee and coordinate compliance with sections 552 and 552a of title 5, sections 20 and 21 of the National Institute of Standards and Technology Act (15 U.S.C. 278g-3 and 278g-

<sup>1</sup>A second “and” at the end of subsection (g)(1) was added by section 1005(c)(1)(A) of Public Law 107-296 (116 Stat. 2272) and was omitted to reflect the probable intent of Congress.

4), section 11331 of title 40 and subchapter II of this title, and related information management laws. and <sup>1</sup>

(h) With respect to Federal information technology, the Director shall—

(1) in consultation with the Director of the National Institute of Standards and Technology and the Administrator of General Services—

(A) develop and oversee the implementation of policies, principles, standards, and guidelines for information technology functions and activities of the Federal Government, including periodic evaluations of major information systems; and

(B) oversee the development and implementation of standards under section 11331 of title 40;

(2) monitor the effectiveness of, and compliance with, directives issued under subtitle III of title 40 and directives issued under section 322 of title 40;

(3) coordinate the development and review by the Office of Information and Regulatory Affairs of policy associated with Federal procurement and acquisition of information technology with the Office of Federal Procurement Policy;

(4) ensure, through the review of agency budget proposals, information resources management plans and other means—

(A) agency integration of information resources management plans, program plans and budgets for acquisition and use of information technology; and

(B) the efficiency and effectiveness of inter-agency information technology initiatives to improve agency performance and the accomplishment of agency missions; and

(5) promote the use of information technology by the Federal Government to improve the productivity, efficiency, and effectiveness of Federal programs, including through dissemination of public information and the reduction of information collection burdens on the public.

### § 3505. Assignment of tasks and deadlines

(a) In carrying out the functions under this subchapter, the Director shall—

(1) in consultation with agency heads, set an annual Governmentwide goal for the reduction of information collection burdens by at least 10 percent during each of fiscal years 1996 and 1997 and 5 percent during each of fiscal years 1998, 1999, 2000, and 2001, and set annual agency goals to—

(A) reduce information collection burdens imposed on the public that—

(i) represent the maximum practicable opportunity in each agency; and

(ii) are consistent with improving agency management of the process for the review of collections of information established under section 3506(c); and

<sup>1</sup>So in law. Section 1005(c)(1)(B)(ii) of the Homeland Security Act of 2002 (P.L. 107-296; 116 Stat. 2272) amended this paragraph by “striking the semicolon and inserting a period”. Should probably have stricken “; and”.

- (B) improve information resources management in ways that increase the productivity, efficiency and effectiveness of Federal programs, including service delivery to the public;
- (2) with selected agencies and non-Federal entities on a voluntary basis, conduct pilot projects to test alternative policies, practices, regulations, and procedures to fulfill the purposes of this subchapter, particularly with regard to minimizing the Federal information collection burden; and
- (3) in consultation with the Administrator of General Services, the Director of the National Institute of Standards and Technology, the Archivist of the United States, and the Director of the Office of Personnel Management, develop and maintain a Governmentwide strategic plan for information resources management, that shall include—
- (A) a description of the objectives and the means by which the Federal Government shall apply information resources to improve agency and program performance;
- (B) plans for—
- (i) reducing information burdens on the public, including reducing such burdens through the elimination of duplication and meeting shared data needs with shared resources;
- (ii) enhancing public access to and dissemination of, information, using electronic and other formats; and
- (iii) meeting the information technology needs of the Federal Government in accordance with the purposes of this subchapter; and
- (C) a description of progress in applying information resources management to improve agency performance and the accomplishment of missions.
- (b) For purposes of any pilot project conducted under subsection (a)(2), the Director may, after consultation with the agency head, waive the application of any administrative directive issued by an agency with which the project is conducted, including any directive requiring a collection of information, after giving timely notice to the public and the Congress regarding the need for such waiver.
- (c) INVENTORY OF INFORMATION SYSTEMS.—(1) The head of each agency shall develop and maintain an inventory of the information systems (including national security systems) operated by or under the control of such agency;
- (2) The identification of information systems in an inventory under this subsection shall include an identification of the interfaces between each such system and all other systems or networks, including those not operated by or under the control of the agency;
- (3) Such inventory shall be—
- (A) updated at least annually;
- (B) made available to the Comptroller General; and
- (C) used to support information resources management, including—
- (i) preparation and maintenance of the inventory of information resources under section 3506(b)(4);

(ii) information technology planning, budgeting, acquisition, and management under section 3506(h), subtitle III of title 40, and related laws and guidance;

(iii) monitoring, testing, and evaluation of information security controls under subchapter II;

(iv) preparation of the index of major information systems required under section 552(g) of title 5, United States Code; and

(v) preparation of information system inventories required for records management under chapters 21, 29, 31, and 33.

(4) The Director shall issue guidance for and oversee the implementation of the requirements of this subsection.

#### § 3506. Federal agency responsibilities

(a)(1) The head of each agency shall be responsible for—

(A) carrying out the agency's information resources management activities to improve agency productivity, efficiency, and effectiveness; and

(B) complying with the requirements of this subchapter and related policies established by the Director.

(2)(A) Except as provided under subparagraph (B), the head of each agency shall designate a Chief Information Officer who shall report directly to such agency head to carry out the responsibilities of the agency under this subchapter.

(B) The Secretary of the Department of Defense and the Secretary of each military department may each designate Chief Information Officers who shall report directly to such Secretary to carry out the responsibilities of the department under this subchapter. If more than one Chief Information Officer is designated, the respective duties of the Chief Information Officers shall be clearly delineated.

(3) The Chief Information Officer designated under paragraph (2) shall head an office responsible for ensuring agency compliance with and prompt, efficient, and effective implementation of the information policies and information resources management responsibilities established under this subchapter, including the reduction of information collection burdens on the public. The Chief Information Officer and employees of such office shall be selected with special attention to the professional qualifications required to administer the functions described under this subchapter.

(4) Each agency program official shall be responsible and accountable for information resources assigned to and supporting the programs under such official. In consultation with the Chief Information Officer designated under paragraph (2) and the agency Chief Financial Officer (or comparable official), each agency program official shall define program information needs and develop strategies, systems, and capabilities to meet those needs.

(b) With respect to general information resources management, each agency shall—

(1) manage information resources to—

(A) reduce information collection burdens on the public;

(B) increase program efficiency and effectiveness; and

- (C) improve the integrity, quality, and utility of information to all users within and outside the agency, including capabilities for ensuring dissemination of public information, public access to government information, and protections for privacy and security;
- (2) in accordance with guidance by the Director, develop and maintain a strategic information resources management plan that shall describe how information resources management activities help accomplish agency missions;
- (3) develop and maintain an ongoing process to—
- (A) ensure that information resources management operations and decisions are integrated with organizational planning, budget, financial management, human resources management, and program decisions;
- (B) in cooperation with the agency Chief Financial Officer (or comparable official), develop a full and accurate accounting of information technology expenditures, related expenses, and results; and
- (C) establish goals for improving information resources management's contribution to program productivity, efficiency, and effectiveness, methods for measuring progress towards those goals, and clear roles and responsibilities for achieving those goals;
- (4) in consultation with the Director, the Administrator of General Services, and the Archivist of the United States, maintain a current and complete inventory of the agency's information resources, including directories necessary to fulfill the requirements of section 3511 of this subchapter; and
- (5) in consultation with the Director and the Director of the Office of Personnel Management, conduct formal training programs to educate agency program and management officials about information resources management.
- (c) With respect to the collection of information and the control of paperwork, each agency shall—
- (1) establish a process within the office headed by the Chief Information Officer designated under subsection (a), that is sufficiently independent of program responsibility to evaluate fairly whether proposed collections of information should be approved under this subchapter, to—
- (A) review each collection of information before submission to the Director for review under this subchapter, including—
- (i) an evaluation of the need for the collection of information;
- (ii) a functional description of the information to be collected;
- (iii) a plan for the collection of the information;
- (iv) a specific, objectively supported estimate of burden;
- (v) a test of the collection of information through a pilot program, if appropriate; and
- (vi) a plan for the efficient and effective management and use of the information to be collected, including necessary resources;

- (B) ensure that each information collection—
- (i) is inventoried, displays a control number and, if appropriate, an expiration date;
  - (ii) indicates the collection is in accordance with the clearance requirements of section 3507; and
  - (iii) informs the person receiving the collection of information of—
    - (I) the reasons the information is being collected;
    - (II) the way such information is to be used;
    - (III) an estimate, to the extent practicable, of the burden of the collection;
    - (IV) whether responses to the collection of information are voluntary, required to obtain a benefit, or mandatory; and
    - (V) the fact that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid control number; and

- (C) assess the information collection burden of proposed legislation affecting the agency;
- (2)(A) except as provided under subparagraph (B) or section 3507(j), provide 60-day notice in the Federal Register, and otherwise consult with members of the public and affected agencies concerning each proposed collection of information, to solicit comment to—

- (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;
- (ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology; and

(B) for any proposed collection of information contained in a proposed rule (to be reviewed by the Director under section 3507(d)), provide notice and comment through the notice of proposed rulemaking for the proposed rule and such notice shall have the same purposes specified under subparagraph (A) (i) through (iv);

(3) certify (and provide a record supporting such certification, including public comments received by the agency) that each collection of information submitted to the Director for review under section 3507—

(A) is necessary for the proper performance of the functions of the agency, including that the information has practical utility;

(B) is not unnecessarily duplicative of information otherwise reasonably accessible to the agency;

(C) reduces to the extent practicable and appropriate the burden on persons who shall provide information to or for the agency, including with respect to small entities, as defined under section 601(6) of title 5, the use of such techniques as—

(i) establishing differing compliance or reporting requirements or timetables that take into account the resources available to those who are to respond;

(ii) the clarification, consolidation, or simplification of compliance and reporting requirements; or

(iii) an exemption from coverage of the collection of information, or any part thereof;

(D) is written using plain, coherent, and unambiguous terminology and is understandable to those who are to respond;

(E) is to be implemented in ways consistent and compatible, to the maximum extent practicable, with the existing reporting and recordkeeping practices of those who are to respond;

(F) indicates for each recordkeeping requirement the length of time persons are required to maintain the records specified;

(G) contains the statement required under paragraph (1)(B)(iii);

(H) has been developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected, including the processing of the information in a manner which shall enhance, where appropriate, the utility of the information to agencies and the public;

(I) uses effective and efficient statistical survey methodology appropriate to the purpose for which the information is to be collected; and

(J) to the maximum extent practicable, uses information technology to reduce burden and improve data quality, agency efficiency and responsiveness to the public; and

(4) in addition to the requirements of this chapter regarding the reduction of information collection burdens for small business concerns (as defined in section 3 of the Small Business Act (15 U.S.C. 632)), make efforts to further reduce the information collection burden for small business concerns with fewer than 25 employees.

(d) With respect to information dissemination, each agency shall—

(1) ensure that the public has timely and equitable access to the agency's public information, including ensuring such access through—

(A) encouraging a diversity of public and private sources for information based on government public information;

(B) in cases in which the agency provides public information maintained in electronic format, providing timely and equitable access to the underlying data (in whole or in part); and

- (C) agency dissemination of public information in an efficient, effective, and economical manner;
- (2) regularly solicit and consider public input on the agency's information dissemination activities;
- (3) provide adequate notice when initiating, substantially modifying, or terminating significant information dissemination products; and
- (4) not, except where specifically authorized by statute—
  - (A) establish an exclusive, restricted, or other distribution arrangement that interferes with timely and equitable availability of public information to the public;
  - (B) restrict or regulate the use, resale, or redisseminations of public information by the public;
  - (C) charge fees or royalties for resale or redisseminations of public information; or
  - (D) establish user fees for public information that exceed the cost of dissemination.
- (e) With respect to statistical policy and coordination, each agency shall—
  - (1) ensure the relevance, accuracy, timeliness, integrity, and objectivity of information collected or created for statistical purposes;
  - (2) inform respondents fully and accurately about the sponsors, purposes, and uses of statistical surveys and studies;
  - (3) protect respondents' privacy and ensure that disclosure policies fully honor pledges of confidentiality;
  - (4) observe Federal standards and practices for data collection, analysis, documentation, sharing, and dissemination of information;
  - (5) ensure the timely publication of the results of statistical surveys and studies, including information about the quality and limitations of the surveys and studies; and
  - (6) make data available to statistical agencies and readily accessible to the public.
- (f) With respect to records management, each agency shall implement and enforce applicable policies and procedures, including requirements for archiving information maintained in electronic format, particularly in the planning, design and operation of information systems.
- (g) With respect to privacy and security, each agency shall—
  - (1) implement and enforce applicable policies, procedures, standards, and guidelines on privacy, confidentiality, security, disclosure and sharing of information collected or maintained by or for the agency; and<sup>1</sup>
  - (2) assume responsibility and accountability for compliance with and coordinated management of sections 552 and 552a of title 5, subchapter II of this chapter, and related information management laws.
- (h) With respect to Federal information technology, each agency shall—

<sup>1</sup>A second "and" at the end of subsection (g)(1) was added by section 1005(c)(3)(A) of Public Law 107-296 (116 Stat. 2273) and was omitted to reflect the probable intent of Congress.

(1) implement and enforce applicable Governmentwide and agency information technology management policies, principles, standards, and guidelines;

(2) assume responsibility and accountability for information technology investments;

(3) promote the use of information technology by the agency to improve the productivity, efficiency, and effectiveness of agency programs, including the reduction of information collection burdens on the public and improved dissemination of public information;

(4) propose changes in legislation, regulations, and agency procedures to improve information technology practices, including changes that improve the ability of the agency to use technology to reduce burden; and

(5) assume responsibility for maximizing the value and assessing and managing the risks of major information systems initiatives through a process that is—

(A) integrated with budget, financial, and program management decisions; and

(B) used to select, control, and evaluate the results of major information systems initiatives.

(i)(1) In addition to the requirements described in subsection (c), each agency shall, with respect to the collection of information and the control of paperwork, establish 1 point of contact in the agency to act as a liaison between the agency and small business concerns (as defined in section 3 of the Small Business Act (15 U.S.C. 632)).

(2) Each point of contact described under paragraph (1) shall be established not later than 1 year after the date of enactment of the Small Business Paperwork Relief Act of 2002.

**§ 3507. Public information collection activities; submission to Director; approval and delegation**

(a) An agency shall not conduct or sponsor the collection of information unless in advance of the adoption or revision of the collection of information—

(1) the agency has—

(A) conducted the review established under section 3506(c)(1);

(B) evaluated the public comments received under section 3506(c)(2);

(C) submitted to the Director the certification required under section 3506(c)(3), the proposed collection of information, copies of pertinent statutory authority, regulations, and other related materials as the Director may specify; and

(D) published a notice in the Federal Register—

(i) stating that the agency has made such submission; and

(ii) setting forth—

(I) a title for the collection of information;

(II) a summary of the collection of information;

- (III) a brief description of the need for the information and the proposed use of the information;
  - (IV) a description of the likely respondents and proposed frequency of response to the collection of information;
  - (V) an estimate of the burden that shall result from the collection of information; and
  - (VI) notice that comments may be submitted to the agency and Director;
- (2) the Director has approved the proposed collection of information or approval has been inferred, under the provisions of this section; and
- (3) the agency has obtained from the Director a control number to be displayed upon the collection of information.
- (b) The Director shall provide at least 30 days for public comment prior to making a decision under subsection (c), (d), or (h), except as provided under subsection (j).
- (c)(1) For any proposed collection of information not contained in a proposed rule, the Director shall notify the agency involved of the decision to approve or disapprove the proposed collection of information.
- (2) The Director shall provide the notification under paragraph (1), within 60 days after receipt or publication of the notice under subsection (a)(1)(D), whichever is later.
- (3) If the Director does not notify the agency of a denial or approval within the 60-day period described under paragraph (2)—
- (A) the approval may be inferred;
  - (B) a control number shall be assigned without further delay; and
  - (C) the agency may collect the information for not more than 1 year.
- (d)(1) For any proposed collection of information contained in a proposed rule—
- (A) as soon as practicable, but no later than the date of publication of a notice of proposed rulemaking in the Federal Register, each agency shall forward to the Director a copy of any proposed rule which contains a collection of information and any information requested by the Director necessary to make the determination required under this subsection; and
  - (B) within 60 days after the notice of proposed rulemaking is published in the Federal Register, the Director may file public comments pursuant to the standards set forth in section 3508 on the collection of information contained in the proposed rule;
- (2) When a final rule is published in the Federal Register, the agency shall explain—
- (A) how any collection of information contained in the final rule responds to the comments, if any, filed by the Director or the public; or
  - (B) the reasons such comments were rejected.
- (3) If the Director has received notice and failed to comment on an agency rule within 60 days after the notice of proposed rule-

making, the Director may not disapprove any collection of information specifically contained in an agency rule.

(4) No provision in this section shall be construed to prevent the Director, in the Director's discretion—

(A) from disapproving any collection of information which was not specifically required by an agency rule;

(B) from disapproving any collection of information contained in an agency rule, if the agency failed to comply with the requirements of paragraph (1) of this subsection;

(C) from disapproving any collection of information contained in a final agency rule, if the Director finds within 60 days after the publication of the final rule that the agency's response to the Director's comments filed under paragraph (2) of this subsection was unreasonable; or

(D) from disapproving any collection of information contained in a final rule, if—

(i) the Director determines that the agency has substantially modified in the final rule the collection of information contained in the proposed rule; and

(ii) the agency has not given the Director the information required under paragraph (1) with respect to the modified collection of information, at least 60 days before the issuance of the final rule.

(5) This subsection shall apply only when an agency publishes a notice of proposed rulemaking and requests public comments.

(6) The decision by the Director to approve or not act upon a collection of information contained in an agency rule shall not be subject to judicial review.

(e)(1) Any decision by the Director under subsection (c), (d), (h), or (j) to disapprove a collection of information, or to instruct the agency to make substantive or material change to a collection of information, shall be publicly available and include an explanation of the reasons for such decision.

(2) Any written communication between the Administrator of the Office of Information and Regulatory Affairs, or any employee of the Office of Information and Regulatory Affairs, and an agency or person not employed by the Federal Government concerning a proposed collection of information shall be made available to the public.

(3) This subsection shall not require the disclosure of—

(A) any information which is protected at all times by procedures established for information which has been specifically authorized under criteria established by an Executive order or an Act of Congress to be kept secret in the interest of national defense or foreign policy; or

(B) any communication relating to a collection of information which is not approved under this subchapter, the disclosure of which could lead to retaliation or discrimination against the communicator.

(f)(1) An independent regulatory agency which is administered by 2 or more members of a commission, board, or similar body, may by majority vote void—

(A) any disapproval by the Director, in whole or in part, of a proposed collection of information of that agency; or

(B) an exercise of authority under subsection (d) of section 3507 concerning that agency.

(2) The agency shall certify each vote to void such disapproval or exercise to the Director, and explain the reasons for such vote. The Director shall without further delay assign a control number to such collection of information, and such vote to void the disapproval or exercise shall be valid for a period of 3 years.

(g) The Director may not approve a collection of information for a period in excess of 3 years.

(h)(1) If an agency decides to seek extension of the Director's approval granted for a currently approved collection of information, the agency shall—

(A) conduct the review established under section 3506(c), including the seeking of comment from the public on the continued need for, and burden imposed by the collection of information; and

(B) after having made a reasonable effort to seek public comment, but no later than 60 days before the expiration date of the control number assigned by the Director for the currently approved collection of information, submit the collection of information for review and approval under this section, which shall include an explanation of how the agency has used the information that it has collected.

(2) If under the provisions of this section, the Director disapproves a collection of information contained in an existing rule, or recommends or instructs the agency to make a substantive or material change to a collection of information contained in an existing rule, the Director shall—

(A) publish an explanation thereof in the Federal Register; and

(B) instruct the agency to undertake a rulemaking within a reasonable time limited to consideration of changes to the collection of information contained in the rule and thereafter to submit the collection of information for approval or disapproval under this subchapter.

(3) An agency may not make a substantive or material modification to a collection of information after such collection has been approved by the Director, unless the modification has been submitted to the Director for review and approval under this subchapter.

(i)(1) If the Director finds that a senior official of an agency designated under section 3506(a) is sufficiently independent of program responsibility to evaluate fairly whether proposed collections of information should be approved and has sufficient resources to carry out this responsibility effectively, the Director may, by rule in accordance with the notice and comment provisions of chapter 5 of title 5, United States Code, delegate to such official the authority to approve proposed collections of information in specific program areas, for specific purposes, or for all agency purposes.

(2) A delegation by the Director under this section shall not preclude the Director from reviewing individual collections of information if the Director determines that circumstances warrant such a review. The Director shall retain authority to revoke such delegations, both in general and with regard to any specific matter. In

acting for the Director, any official to whom approval authority has been delegated under this section shall comply fully with the rules and regulations promulgated by the Director.

(j)(1) The agency head may request the Director to authorize a collection of information, if an agency head determines that—

(A) a collection of information—

(i) is needed prior to the expiration of time periods established under this subchapter; and

(ii) is essential to the mission of the agency; and

(B) the agency cannot reasonably comply with the provisions of this subchapter because—

(i) public harm is reasonably likely to result if normal clearance procedures are followed;

(ii) an unanticipated event has occurred; or

(iii) the use of normal clearance procedures is reasonably likely to prevent or disrupt the collection of information or is reasonably likely to cause a statutory or court ordered deadline to be missed.

(2) The Director shall approve or disapprove any such authorization request within the time requested by the agency head and, if approved, shall assign the collection of information a control number. Any collection of information conducted under this subsection may be conducted without compliance with the provisions of this subchapter for a maximum of 180 days after the date on which the Director received the request to authorize such collection.

#### **§ 3508. Determination of necessity for information; hearing**

Before approving a proposed collection of information, the Director shall determine whether the collection of information by the agency is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility. Before making a determination the Director may give the agency and other interested persons an opportunity to be heard or to submit statements in writing. To the extent, if any, that the Director determines that the collection of information by an agency is unnecessary for any reason, the agency may not engage in the collection of information.

#### **§ 3509. Designation of central collection agency**

The Director may designate a central collection agency to obtain information for two or more agencies if the Director determines that the needs of such agencies for information will be adequately served by a single collection agency, and such sharing of data is not inconsistent with applicable law. In such cases the Director shall prescribe (with reference to the collection of information) the duties and functions of the collection agency so designated and of the agencies for which it is to act as agent (including reimbursement for costs). While the designation is in effect, an agency covered by the designation may not obtain for itself information for the agency which is the duty of the collection agency to obtain. The Director may modify the designation from time to time as circumstances require. The authority to designate under this section is subject to the provisions of section 3507(f) of this subchapter.

**§ 3510. Cooperation of agencies in making information available**

(a) The Director may direct an agency to make available to another agency, or an agency may make available to another agency, information obtained by a collection of information if the disclosure is not inconsistent with applicable law.

(b)(1) If information obtained by an agency is released by that agency to another agency, all the provisions of law (including penalties) that relate to the unlawful disclosure of information apply to the officers and employees of the agency to which information is released to the same extent and in the same manner as the provisions apply to the officers and employees of the agency which originally obtained the information.

(2) The officers and employees of the agency to which the information is released, in addition, shall be subject to the same provisions of law, including penalties, relating to the unlawful disclosure of information as if the information had been collected directly by that agency.

**§ 3511. Establishment and operation of Government Information Locator Service**

(a) In order to assist agencies and the public in locating information and to promote information sharing and equitable access by the public, the Director shall—

(1) cause to be established and maintained a distributed agency-based electronic Government Information Locator Service (hereafter in this section referred to as the “Service”), which shall identify the major information systems, holdings, and dissemination products of each agency;

(2) require each agency to establish and maintain an agency information locator service as a component of, and to support the establishment and operation of the Service;

(3) in cooperation with the Archivist of the United States, the Administrator of General Services, the Public Printer, and the Librarian of Congress, establish an interagency committee to advise the Secretary of Commerce on the development of technical standards for the Service to ensure compatibility, promote information sharing, and uniform access by the public;

(4) consider public access and other user needs in the establishment and operation of the Service;

(5) ensure the security and integrity of the Service, including measures to ensure that only information which is intended to be disclosed to the public is disclosed through the Service; and

(6) periodically review the development and effectiveness of the Service and make recommendations for improvement, including other mechanisms for improving public access to Federal agency public information.

(b) This section shall not apply to operational files as defined by the Central Intelligence Agency Information Act (50 U.S.C. 431 et seq.).

**§ 3512. Public protection**

(a) Notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information that is subject to this subchapter if—

(1) the collection of information does not display a valid control number assigned by the Director in accordance with this subchapter; or

(2) the agency fails to inform the person who is to respond to the collection of information that such person is not required to respond to the collection of information unless it displays a valid control number.

(b) The protection provided by this section may be raised in the form of a complete defense, bar, or otherwise at any time during the agency administrative process or judicial action applicable thereto.

**§ 3513. Director review of agency activities; reporting; agency response**

(a) In consultation with the Administrator of General Services, the Archivist of the United States, the Director of the National Institute of Standards and Technology, and the Director of the Office of Personnel Management, the Director shall periodically review selected agency information resources management activities to ascertain the efficiency and effectiveness of such activities to improve agency performance and the accomplishment of agency missions.

(b) Each agency having an activity reviewed under subsection (a) shall, within 60 days after receipt of a report on the review, provide a written plan to the Director describing steps (including milestones) to—

(1) be taken to address information resources management problems identified in the report; and

(2) improve agency performance and the accomplishment of agency missions.

**§ 3514. Responsiveness to Congress**

(a)(1) The Director shall—

(A) keep the Congress and congressional committees fully and currently informed of the major activities under this subchapter; and

(B) submit a report on such activities to the President of the Senate and the Speaker of the House of Representatives annually and at such other times as the Director determines necessary.

(2) The Director shall include in any such report a description of the extent to which agencies have—

(A) reduced information collection burdens on the public, including—

(i) a summary of accomplishments and planned initiatives to reduce collection of information burdens;

(ii) a list of all violations of this subchapter and of any rules, guidelines, policies, and procedures issued pursuant to this subchapter;

(iii) a list of any increase in the collection of information burden, including the authority for each such collection; and

(iv) a list of agencies that in the preceding year did not reduce information collection burdens in accordance with section 3505(a)(1), a list of the programs and statutory responsibilities of those agencies that precluded that reduction, and recommendations to assist those agencies to reduce information collection burdens in accordance with that section;

(B) improved the quality and utility of statistical information;

(C) improved public access to Government information; and

(D) improved program performance and the accomplishment of agency missions through information resources management.

(b) The preparation of any report required by this section shall be based on performance results reported by the agencies and shall not increase the collection of information burden on persons outside the Federal Government.

#### **§ 3515. Administrative powers**

Upon the request of the Director, each agency (other than an independent regulatory agency) shall, to the extent practicable, make its services, personnel, and facilities available to the Director for the performance of functions under this subchapter.

#### **§ 3516. Rules and regulations**

The Director shall promulgate rules, regulations, or procedures necessary to exercise the authority provided by this subchapter.

#### **§ 3517. Consultation with other agencies and the public**

(a) In developing information resources management policies, plans, rules, regulations, procedures, and guidelines and in reviewing collections of information, the Director shall provide interested agencies and persons early and meaningful opportunity to comment.

(b) Any person may request the Director to review any collection of information conducted by or for an agency to determine, if, under this subchapter, a person shall maintain, provide, or disclose the information to or for the agency. Unless the request is frivolous, the Director shall, in coordination with the agency responsible for the collection of information—

(1) respond to the request within 60 days after receiving the request, unless such period is extended by the Director to a specified date and the person making the request is given notice of such extension; and

(2) take appropriate remedial action, if necessary.

#### **§ 3518. Effect on existing laws and regulations**

(a) Except as otherwise provided in this subchapter, the authority of an agency under any other law to prescribe policies, rules, regulations, and procedures for Federal information re-

sources management activities is subject to the authority of the Director under this subchapter.

(b) Nothing in this subchapter shall be deemed to affect or reduce the authority of the Secretary of Commerce or the Director of the Office of Management and Budget pursuant to Reorganization Plan No. 1 of 1977 (as amended) and Executive order, relating to telecommunications and information policy, procurement and management of telecommunications and information systems, spectrum use, and related matters.

(c)(1) Except as provided in paragraph (2), this subchapter shall not apply to the collection of information—

(A) during the conduct of a Federal criminal investigation or prosecution, or during the disposition of a particular criminal matter;

(B) during the conduct of—

(i) a civil action to which the United States or any official or agency thereof is a party; or

(ii) an administrative action or investigation involving an agency against specific individuals or entities;

(C) by compulsory process pursuant to the Antitrust Civil Process Act and section 13 of the Federal Trade Commission Improvements Act of 1980; or

(D) during the conduct of intelligence activities as defined in section 3.4(e) of Executive Order No. 12333, issued December 4, 1981, or successor orders, or during the conduct of cryptologic activities that are communications security activities.

(2) This subchapter applies to the collection of information during the conduct of general investigations (other than information collected in an antitrust investigation to the extent provided in subparagraph (C) of paragraph (1)) undertaken with reference to a category of individuals or entities such as a class of licensees or an entire industry.

(d) Nothing in this subchapter shall be interpreted as increasing or decreasing the authority conferred by sections 11331 and 11332 of title 40 on the Secretary of Commerce or the Director of the Office of Management and Budget.

(e) Nothing in this subchapter shall be interpreted as increasing or decreasing the authority of the President, the Office of Management and Budget or the Director thereof, under the laws of the United States, with respect to the substantive policies and programs of departments, agencies and offices, including the substantive authority of any Federal agency to enforce the civil rights laws.

### **§ 3519. Access to information**

Under the conditions and procedures prescribed in section 716 of title 31, the Director and personnel in the Office of Information and Regulatory Affairs shall furnish such information as the Comptroller General may require for the discharge of the responsibilities of the Comptroller General. For the purpose of obtaining such information, the Comptroller General or representatives thereof shall have access to all books, documents, papers and records, regardless of form or format, of the Office.

**§ 3520. Establishment of task force on information collection and dissemination**

(a) There is established a task force to study the feasibility of streamlining requirements with respect to small business concerns regarding collection of information and strengthening dissemination of information (in this section referred to as the “task force”).

(b)(1) The Director shall determine—

(A) subject to the minimum requirements under paragraph (2), the number of representatives to be designated under each subparagraph of that paragraph; and

(B) the agencies to be represented under paragraph (2)(K).

(2) After all determinations are made under paragraph (1), the members of the task force shall be designated by the head of each applicable department or agency, and include—

(A) 1 representative of the Director, who shall convene and chair the task force;

(B) not less than 2 representatives of the Department of Labor, including 1 representative of the Bureau of Labor Statistics and 1 representative of the Occupational Safety and Health Administration;

(C) not less than 1 representative of the Environmental Protection Agency;

(D) not less than 1 representative of the Department of Transportation;

(E) not less than 1 representative of the Office of Advocacy of the Small Business Administration;

(F) not less than 1 representative of the Internal Revenue Service;

(G) not less than 2 representatives of the Department of Health and Human Services, including 1 representative of the Centers for Medicare and Medicaid Services;

(H) not less than 1 representative of the Department of Agriculture;

(I) not less than 1 representative of the Department of the Interior;

(J) not less than 1 representative of the General Services Administration; and

(K) not less than 1 representative of each of 2 agencies not represented by representatives described under subparagraphs (A) through (J).

(c) The task force shall—

(1) identify ways to integrate the collection of information across Federal agencies and programs and examine the feasibility and desirability of requiring each agency to consolidate requirements regarding collections of information with respect to small business concerns within and across agencies, without negatively impacting the effectiveness of underlying laws and regulations regarding such collections of information, in order that each small business concern may submit all information required by the agency—

(A) to 1 point of contact in the agency;

(B) in a single format, such as a single electronic reporting system, with respect to the agency; and

- (C) with synchronized reporting for information submissions having the same frequency, such as synchronized quarterly, semiannual, and annual reporting dates;
- (2) examine the feasibility and benefits to small businesses of publishing a list by the Director of the collections of information applicable to small business concerns (as defined in section 3 of the Small Business Act (15 U.S.C. 632)), organized—
- (A) by North American Industry Classification System code;
- (B) by industrial sector description; or
- (C) in another manner by which small business concerns can more easily identify requirements with which those small business concerns are expected to comply;
- (3) examine the savings, including cost savings, and develop recommendations for implementing—
- (A) systems for electronic submissions of information to the Federal Government; and
- (B) interactive reporting systems, including components that provide immediate feedback to assure that data being submitted—
- (i) meet requirements of format; and
- (ii) are within the range of acceptable options for each data field;
- (4) make recommendations to improve the electronic dissemination of information collected under Federal requirements;
- (5) recommend a plan for the development of an interactive Governmentwide system, available through the Internet, to allow each small business to—
- (A) better understand which Federal requirements regarding collection of information (and, when possible, which other Federal regulatory requirements) apply to that particular business; and
- (B) more easily comply with those Federal requirements; and
- (6) in carrying out this section, consider opportunities for the coordination—
- (A) of Federal and State reporting requirements; and
- (B) among the points of contact described under section 3506(i), such as to enable agencies to provide small business concerns with contacts for information collection requirements for other agencies.
- (d) The task force shall—
- (1) by publication in the Federal Register, provide notice and an opportunity for public comment on each report in draft form; and
- (2) make provision in each report for the inclusion of—
- (A) any additional or dissenting views of task force members; and
- (B) a summary of significant public comments.
- (e) Not later than 1 year after the date of enactment of the Small Business Paperwork Relief Act of 2002, the task force shall submit a report of its findings under subsection (c) (1), (2), and (3) to—

- (1) the Director;
  - (2) the chairpersons and ranking minority members of—
    - (A) the Committee on Governmental Affairs and the Committee on Small Business and Entrepreneurship of the Senate; and
    - (B) the Committee on Government Reform and the Committee on Small Business of the House of Representatives; and
  - (3) the Small Business and Agriculture Regulatory Enforcement Ombudsman designated under section 30(b) of the Small Business Act (15 U.S.C. 657(b)).
- (f) Not later than 2 years after the date of enactment of the Small Business Paperwork Relief Act of 2002, the task force shall submit a report of its findings under subsection (c) (4) and (5) to—
- (1) the Director;
  - (2) the chairpersons and ranking minority members of—
    - (A) the Committee on Governmental Affairs and the Committee on Small Business and Entrepreneurship of the Senate; and
    - (B) the Committee on Government Reform and the Committee on Small Business of the House of Representatives; and
  - (3) the Small Business and Agriculture Regulatory Enforcement Ombudsman designated under section 30(b) of the Small Business Act (15 U.S.C. 657(b)).
- (g) The task force shall terminate after completion of its work.
- (h) In this section, the term “small business concern” has the meaning given under section 3 of the Small Business Act (15 U.S.C. 632).

**§ 3521. Authorization of appropriations**

There are authorized to be appropriated to the Office of Information and Regulatory Affairs to carry out the provisions of this subchapter, and for no other purpose, \$8,000,000 for each of the fiscal years 1996, 1997, 1998, 1999, 2000, and 2001.

## GOVERNMENT PAPERWORK ELIMINATION ACT<sup>1</sup>

\* \* \* \* \*

### TITLE XVII—GOVERNMENT PAPERWORK ELIMINATION ACT

#### SEC. 1701. SHORT TITLE.

This title may be cited as the “Government Paperwork Elimination Act”.

#### SEC. 1702. AUTHORITY OF OMB TO PROVIDE FOR ACQUISITION AND USE OF ALTERNATIVE INFORMATION TECHNOLOGIES BY EXECUTIVE AGENCIES.

Section 3504(a)(1)(B)(vi) of title 44, United States Code, is amended to read as follows:

【Executed in preceding materials】

#### SEC. 1703. PROCEDURES FOR USE AND ACCEPTANCE OF ELECTRONIC SIGNATURES BY EXECUTIVE AGENCIES.

(a) IN GENERAL.—In order to fulfill the responsibility to administer the functions assigned under chapter 35 of title 44, United States Code, the provisions of the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106) and the amendments made by that Act, and the provisions of this title, the Director of the Office of Management and Budget shall, in consultation with the National Telecommunications and Information Administration and not later than 18 months after the date of enactment of this Act, develop procedures for the use and acceptance of electronic signatures by Executive agencies.

(b) REQUIREMENTS FOR PROCEDURES.—(1) The procedures developed under subsection (a)—

(A) shall be compatible with standards and technology for electronic signatures that are generally used in commerce and industry and by State governments;

(B) may not inappropriately favor one industry or technology;

(C) shall ensure that electronic signatures are as reliable as is appropriate for the purpose in question and keep intact the information submitted;

(D) shall provide for the electronic acknowledgment of electronic forms that are successfully submitted; and

(E) shall, to the extent feasible and appropriate, require an Executive agency that anticipates receipt by electronic means of 50,000 or more submittals of a particular form to take all steps necessary to ensure that multiple methods of electronic signatures are available for the submittal of such form.

(2) The Director shall ensure the compatibility of the procedures under paragraph (1)(A) in consultation with appropriate pri-

<sup>1</sup>Title XVII of the Omnibus Consolidated and Emergency Supplemental Appropriation Act, 1999 (Public Law 105–277, 112 Stat. 2681–749, 44 U.S.C. 3504 note).

vate bodies and State government entities that set standards for the use and acceptance of electronic signatures.

**SEC. 1704. DEADLINE FOR IMPLEMENTATION BY EXECUTIVE AGENCIES OF PROCEDURES FOR USE AND ACCEPTANCE OF ELECTRONIC SIGNATURES.**

In order to fulfill the responsibility to administer the functions assigned under chapter 35 of title 44, United States Code, the provisions of the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106) and the amendments made by that Act, and the provisions of this title, the Director of the Office of Management and Budget shall ensure that, commencing not later than five years after the date of enactment of this Act, Executive agencies provide—

- (1) for the option of the electronic maintenance, submission, or disclosure of information, when practicable as a substitute for paper; and
- (2) for the use and acceptance of electronic signatures, when practicable.

**SEC. 1705. ELECTRONIC STORAGE AND FILING OF EMPLOYMENT FORMS.**

In order to fulfill the responsibility to administer the functions assigned under chapter 35 of title 44, United States Code, the provisions of the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106) and the amendments made by that Act, and the provisions of this title, the Director of the Office of Management and Budget shall, not later than 18 months after the date of enactment of this Act, develop procedures to permit private employers to store and file electronically with Executive agencies forms containing information pertaining to the employees of such employers.

**SEC. 1706. STUDY ON USE OF ELECTRONIC SIGNATURES.**

(a) **ONGOING STUDY REQUIRED.**—In order to fulfill the responsibility to administer the functions assigned under chapter 35 of title 44, United States Code, the provisions of the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106) and the amendments made by that Act, and the provisions of this title, the Director of the Office of Management and Budget shall, in cooperation with the National Telecommunications and Information Administration, conduct an ongoing study of the use of electronic signatures under this title on—

- (1) paperwork reduction and electronic commerce;
- (2) individual privacy; and
- (3) the security and authenticity of transactions.

(b) **REPORTS.**—The Director shall submit to Congress on a periodic basis a report describing the results of the study carried out under subsection (a).

**SEC. 1707. ENFORCEABILITY AND LEGAL EFFECT OF ELECTRONIC RECORDS.**

Electronic records submitted or maintained in accordance with procedures developed under this title, or electronic signatures or other forms of electronic authentication used in accordance with such procedures, shall not be denied legal effect, validity, or enforceability because such records are in electronic form.

**SEC. 1708. DISCLOSURE OF INFORMATION.**

Except as provided by law, information collected in the provision of electronic signature services for communications with an executive agency, as provided by this title, shall only be used or disclosed by persons who obtain, collect, or maintain such information as a business or government practice, for the purpose of facilitating such communications, or with the prior affirmative consent of the person about whom the information pertains.

**SEC. 1709. APPLICATION WITH INTERNAL REVENUE LAWS.**

No provision of this title shall apply to the Department of the Treasury or the Internal Revenue Service to the extent that such provision—

- (1) involves the administration of the internal revenue laws; or
- (2) conflicts with any provision of the Internal Revenue Service Restructuring and Reform Act of 1998 or the Internal Revenue Code of 1986.

**SEC. 1710. DEFINITIONS.**

For purposes of this title:

- (1) **ELECTRONIC SIGNATURE.**—The term “electronic signature” means a method of signing an electronic message that—
  - (A) identifies and authenticates a particular person as the source of the electronic message; and
  - (B) indicates such person’s approval of the information contained in the electronic message.
- (2) **EXECUTIVE AGENCY.**—The term “Executive agency” has the meaning given that term in section 105 of title 5, United States Code.

**FOREIGN RELATIONS AUTHORIZATION ACT, FISCAL  
YEARS 1986 AND 1987<sup>1</sup>**

**SEC. 146. [47 U.S.C. 701 note] INTELSAT.**

(a) **POLICY.**—The Congress declares that it is the policy of the United States—

(1) as a party to the International Telecommunications Satellite Organization (hereafter in this section referred to as “Intelsat”), to foster and support the global commercial communications satellite system owned and operated by Intelsat;

(2) to make available to consumers a variety of communications satellite services utilizing the space segment facilities of Intelsat and any additional such facilities which are found to be in the national interest and which—

(A) are technically compatible with the use of the radio frequency spectrum and orbital space by the existing or planned Intelsat space segment, and

(B) avoid significant economic harm to the global system of Intelsat; and

(3) to authorize use and operation of any additional space segment facilities only if the obligations of the United States under article XIV(d) of the Intelsat Agreement have been met.

(b) **PRECONDITIONS FOR INTELSAT CONSULTATION.**—Before consulting with Intelsat for purposes of coordination of any separate international telecommunications satellite system under article XIV(d) of the Intelsat Agreement, the Secretary of State shall—

(1) in coordination with the Secretary of Commerce, ensure that any proposed separate international satellite telecommunications system comply with the executive branch conditions established pursuant to the Presidential Determination No. 85-2; and

(2) ensure that one or more foreign authorities have authorized the use of such system consistent with such conditions.

(c) **AMENDMENT OF INTELSAT AGREEMENT.**—(1) The Secretary of State shall consult with the United States signatory to Intelsat and the Secretary of Commerce regarding the appropriate scope and character of a modification to article V(d) of the Intelsat Agreement which would permit Intelsat to establish cost-based rates for individual traffic routes, as exceptional circumstances warrant, paying particular attention to the need for avoiding significant economic harm to the global system of Intelsat as well as United States national and foreign policy interests.

(2)(A) To ensure that rates established by Intelsat for such routes are cost-based, the Secretary of State, in consultation with the Secretary of Commerce and the Chairman of the Federal Com-

<sup>1</sup> Public Law 99-93, 99 Stat. 405, 425, sec. 146, Aug. 16, 1985.

munications Commission, shall instruct the United States signatory to Intelsat to ensure that sufficient documentation, including documentation regarding revenues and costs, is provided by Intelsat so as to verify that such rates are in fact cost-based.

(B) To the maximum extent possible, such documentation will be made available to interested parties on a timely basis.

(3) Pursuant to the consultation under paragraph (1) and taking the steps prescribed in paragraph (2) to provide documentation, the United States shall support an appropriate modification to article V(d) of the Intelsat Agreement to accomplish the purpose described in paragraph (1).

(d) CONGRESSIONAL CONSULTATION.—In the event that, after United States consultation with Intelsat for the purposes of coordination under article XIV(d) of the Intelsat Agreement for the establishment of a separate international telecommunications satellite system, the Assembly of Parties of Intelsat fails to recommend such a separate system, and the President determines to pursue the establishment of a separate system notwithstanding the Assembly's failure to approve such system, the Secretary of State, after consultation with the Secretary of Commerce, shall submit to the Congress a detailed report which shall set forth—

(1) the foreign policy reasons for the President's determination, and

(2) a plan for minimizing any negative effects of the President's action on Intelsat and on United States foreign policy interests.

(e) NOTIFICATION TO FEDERAL COMMUNICATIONS COMMISSION.—In the event the Secretary of State submits a report under subsection (d), the Secretary, 60 calendar days after the receipt by the Congress of such report, shall notify the Federal Communications Commission as to whether the United States obligations under article XIV(d) of the Intelsat Agreement have been met.

(f) IMPLEMENTATION.—In implementing the provisions of this section, the Secretary of State shall act in accordance with Executive order 12046.

(g) DEFINITION.—For the purposes of this section, the term "separate international telecommunications satellite system" or "separate system" means a system of one or more telecommunications satellites separate from the Intelsat space segment which is established to provide international telecommunications services between points within the United States and points outside the United States, except that such term shall not include any satellite or system of satellites established—

(1) primarily for domestic telecommunications purposes and which incidentally provides services on an ancillary basis to points outside the jurisdiction of the United States but within the western hemisphere, or

(2) solely for unique governmental purposes.

## **ANTI-DRUG ABUSE ACT OF 1986<sup>1</sup>**

### **SEC. 3451. [47 U.S.C. 312a] COMMUNICATIONS.**

The Federal Communications Commission may revoke any private operator's license issued to any person under the Communications Act of 1934 (47 U.S.C. 151 et seq.) who is found to have willfully used said license for the purpose of distributing, or assisting in the distribution of, any controlled substance in violation of any provision of Federal law. In addition, the Federal Communications Commission may, upon the request of an appropriate Federal law enforcement agency, assist in the enforcement of Federal law prohibiting the use or distribution of any controlled substance where communications equipment within the jurisdiction of the Federal Communications Commission under the Communications Act of 1934 is willfully being used for purposes of distributing, or assisting in the distribution of, any such substance.
