

**STATISTICS OF THE CONGRESSIONAL AND PRESIDENTIAL  
ELECTION OF NOVEMBER 6, 1928**

**Showing the Highest Vote for Presidential Elector of Each Political  
Party, the Vote for Each Nominee for United States Senator,  
and for Each Nominee for Representative to the Seventy-first  
Congress**

**IMPORTANT.**—February 15, 1929.—Prior editions of this pamphlet contained figures received direct from the several State authorities showing the popular vote for presidential electors, which, upon comparison with the figures reported in the certificates of such vote transmitted by the governors of each State to the Secretary of State of the United States, pursuant to act of Congress of May 29, 1928, and by him transmitted to Congress, revealed discrepancies which in this, the final edition, have been reconciled and the grand totals corrected accordingly.

[Compiled from official sources by William Tyler Page, Clerk of the House of Representatives]
