No Contamination or Exposure

Radiological/Nuclear Event ☢

How do you know a radiation event has occurred?

Initial Onsite Activities
- Ensure safety of responders
- Establish patient handling flow
- **Perform life-saving tasks before managing radiation problems**

Evaluate for Contamination and/or Exposure

No Contamination or Exposure

Contamination Only
(What Is Contamination?)

Exposure + Contamination

Exposure Only
(What Is Exposure?)

Send home with follow-up instructions
- Provide reassurance
- Register patient in long-term follow-up database
- Provide psychological support as needed
