

HOW SHOULD I APPLY?

The U.S. Department of State is the primary sponsor of the Hubert H. Humphrey program, awarding fellowships to candidates in 12 subject areas. The U.S. Embassy or Fulbright Commission in each country establishes priorities among those 12 subject areas and conducts preliminary evaluations of applicants. The NIDA Humphrey Drug Abuse Research Fellowship is a component of the larger State Department program, and you must contact the U.S. Embassy or Fulbright Commission in your home country to apply. For more information, contact the Institute of International Education, which administers the Humphrey Program for the State Department.

WHAT DOES NIDA DO?

The National Institute on Drug Abuse is part of the National Institutes of Health (NIH), a component of the U.S. Department of Health and Human Services. NIDA—

- supports research on the biomedical and behavioral causes, consequences, prevention, and treatment of drug abuse and addiction.
- disseminates research findings to significantly improve drug abuse and addiction research, practice, and policy.
- provides international and domestic research training, career development, and public education efforts.

BRING AN INTERNATIONAL PERSPECTIVE TO
YOUR WORK IN DRUG ABUSE AND ADDICTION!

NIDA HUMPHREY DRUG ABUSE RESEARCH FELLOWSHIP

APPLY TODAY!

NATIONAL INSTITUTE ON DRUG ABUSE
INTERNATIONAL PROGRAM

International research and exchange collaborations contribute to advances in scientific understanding about drug abuse and addiction. To foster these exchanges, NIDA partners with the U.S. Department of State to support a unique training program for midcareer drug abuse professionals.

Through the combination of academic courses at a leading U.S. university and a professional affiliation with an Institute grantee, NIDA Humphrey Drug Abuse Research Fellows learn about NIDA-supported drug abuse research and the application of research to

the development of science-based government policy and prevention and treatment programs.

Additionally, NIDA facilitates meetings between Fellows and grantees to discuss research funding opportunities and to help identify potential partners for cooperative research to be conducted in the Fellows' home countries.

If you are a midcareer drug abuse professional and seek to gain international experience at a premier U.S. research institution, the NIDA Humphrey Drug Abuse Research Fellowship is just right for you.

WHAT DOES THE NIDA HUMPHREY FELLOWSHIP INCLUDE?

THE 10-MONTH, MIDCAREER NON-DEGREE FELLOWSHIP PROVIDES—

- mentored academic study at a preeminent U.S. university.
- a minimum 6-week research affiliation and professional experience with a NIDA-supported scientist.
- additional professional development activities that help you establish personal relationships with NIDA grantees and NIDA officials who are interested in collaborating with you after you return home.
- tuition, a stipend for books and living expenses, round-trip travel, health insurance, an allowance to support professional development activities, and participation in the national Hubert H. Humphrey Fellowship Seminar in Washington, DC.

WHO IS ELIGIBLE?

THE REQUIREMENTS FOR NIDA HUMPHREY APPLICANTS ARE—

- a midcareer position in a university, nongovernmental organization, government ministry, health care profession, or other drug abuse-related occupation where science-based evidence contributes to practice, policy or program development.
- an earned doctoral degree in medicine, public health, or biomedical, behavioral, or social science. (Candidates with a master's degree and substantial professional or research experience also will be considered.)
- a demonstrated commitment to leadership and public service.
- proficiency in written and spoken English.
- citizenship in a country eligible for the Hubert H. Humphrey Drug Abuse Research Fellowship, with residency and employment in that country for the past 5 years.
