**Opportunity for Computer Scientists and
Computer Engineers
Department of Health and Human Services
National Institutes of Health
Center for Information Technology**

The High Performance Computing and Informatics Office (HPCIO) is located in the Division of Computational Bioscience (DCB) of the Center for Information Technology (CIT), a major component of the National Institutes of Health (NIH) and the Department of Health and Human Services (DHHS). The DCB employs over 75 professionals with an annual budget of more than 9 million dollars. The HPCIO is recruiting for the following position, which offers full civil service benefits.

Entry-level (GS-7/9) Computer Scientist/Computer Engineer: The successful candidate will support growing programs in high performance computing and biomedical informatics. This position requires a bachelor's degree in computer science or computer engineering and U.S. citizenship. The full announcement and application instructions can be found at http://www.usajobs.gov under vacancy announcement **CIT-06-142807**-Computer Engineer/Computer Scientist. Please be sure to submit a complete application package.

The National Institutes of Health inspires public confidence in our science by maintaining high ethical principles. NIH employees are subject to Federal government-wide regulations and statutes as well as agency-specific regulations described at http://ethics.od.nih.gov. We encourage you to review this information.
